## MEDIA GENERAL, INC.

## NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(Unaudited)

1. The accompanying unaudited consolidated condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial reporting, and with applicable quarterly reporting regulations of the Securities and Exchange Commission. They do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements and, accordingly, should be read in conjunction with the consolidated financial statements and related footnotes included in the Company's Annual Report on Form 10-K for the year ended December 28, 2003.

In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation of interim financial information, have been included. The results of operations for interim periods are not necessarily indicative of the results that may be expected for the full fiscal year. Certain prior-year financial information has been reclassified to conform with the current year's presentation.

2. Inventories are principally raw materials (primarily newsprint).

3. In March 2003, the Company sold its shares of Hoover's (a provider of business information) for \$16.8 million and reported a gain of \$5.7 million (\$3.7 million net of income taxes) which is included in the line item Other, net. Proceeds from the sale were used to repay debt.

4. The following table provides the components of net periodic benefit cost for the Company's benefit plans for the third quarter and nine months ended 2004 and 2003:

| <i>(In thousands)</i>              | <b>Third Quarter Ended</b> |                 |                       |               |

**Table of Contents**

In December of 2003 Congress passed the Medicare Prescription Drug, Improvement and Modernization Act of 2003 (the Act). The Act reformed Medicare in such a way that the Company expects to receive subsidy payments beginning in 2006 for continuing retiree prescription drug benefits and expects a reduction in the rate of participation by current employees in the plan. In the second quarter, based on currently available guidance, the Company adopted (retroactive to the beginning of 2004) FASB Staff Position 106-2, *Accounting and Disclosure Requirements Related to the Medicare Prescription Drug, Improvement and Modernization Act of 2003*. Upon retroactive adoption of the Act, the accumulated postretirement benefit obligation (APBO) was reduced by \$5.6 million, which resulted in a decrease in the Company's net periodic postretirement benefit cost of approximately \$195,000 for each of the first two quarters of 2004. A comparable decrease was recognized in the third quarter and a similar decrease is anticipated in the final quarter of the year. Certain definitions and interpretations, yet to be issued by the federal government, could require the Company to adjust future estimates.

5. The following table sets forth the Company's current and prior-year financial performance by segment for 2004:

8. The Company accounts for its stock-based compensation utilizing the intrinsic value method in accordance with APB Opinion No. 25, *Accounting for Stock Issued to Employees*. The following table illustrates the effect on net income and earnings per share if the Company had applied the fair value recognition provisions of SFAS No. 123, *Accounting for Stock-Based Compensation*, to stock-based employee compensation. The fair value for these options was estimated at the date of grant using the Black-Scholes option-pricing model with the following weighted-average assumptions for 2004 and 2003, respectively: risk-free interest rates of 3.8% and 3.7%; dividend yields of 1.4% and 1.4%; volatility factors of .48 and .40; and an expected life of 8 years.

| Diluted pro forma   | \$ 0.61           | \$ 0.11           | \$ 1.66           | \$ 1.07           |

In March 2004, the FASB issued a proposed statement, *Share-Based Payment*, that would require that such transactions be accounted for using a fair-value-based method to recognize compensation expense. The FASB has indicated that this statement would be effective for public companies for interim or annual periods beginning after June 15, 2005 (earlier adoption is permitted). The FASB plans to issue the final statement near the end of this year's fourth quarter although a good deal of debate over this topic continues to occur, including some bills introduced in Congress. The Company will continue to monitor the status of this proposed standard.

9. As part of the September 2000 sale of Garden State Paper Company, the Company entered into a financial newsprint swap agreement with Enron North America Corporation (Enron). In late November 2001, the Company terminated the newsprint swap agreement for reasons including misrepresentations made by Enron at the time the contract was signed. Enron filed for bankruptcy shortly thereafter. The Company believes that no further payments are due by either party under the agreement. Enron disputes the Company's position and, in late 2003, filed a claim for \$26.7 million plus interest and certain declaratory relief. The Company believes that its position is correct and has filed various motions to dismiss the claim or to remove it from the bankruptcy court. A mediation session was held late in the second quarter and an additional session was held early in the fourth quarter. The Company does not believe that any resolution of this matter will be material to its results of operations, financial position or cash flow.

10. In October 2003, the Company sold Media General Financial Services, Inc. (MGFS), a component of its Interactive Media Division. The Company recorded an after-tax gain of \$6.8 million (net of income taxes of \$3.9 million). The results of MGFS, which have been presented as income from discontinued operations in the accompanying consolidated statements of operations, were as follows for the third quarter and first nine months of 2003: revenues of \$1.2 million and \$3.7 million, costs and expenses of \$.7 million and \$2.2 million, and income from discontinued operations of \$.3 million and \$1 million (net of \$.2 million and \$.5 million in income taxes).

11. The Company has a one-third partnership interest in SP Newsprint Company (SPNC) which it accounts for under the equity method. The Company has agreed to contribute additional equity (up to \$4.7 million) if SPNC's liquidity, as defined, were to fall below a specified threshold. This agreement terminates on December 31, 2005.

**Table of Contents**

12. The Company adopted FASB Interpretation 46, *Consolidation of Variable Interest Entities*, as of the beginning of the third quarter in 2003 and began consolidating certain Variable Interest Entities which own real property leased to the Company. Upon adoption, the Company added \$86 million of assets (primarily buildings), \$94 million of liabilities (primarily debt) and recognized a cumulative effect of change in accounting principle of \$8.1 million (net of \$3.4 million in taxes).

13. In September 2004, the Securities and Exchange Commission announced that the residual method (until now, a method in common use) will no longer be accepted as an appropriate method to value acquired assets other than goodwill. Effective no later than the beginning of the first fiscal year beginning after December 15, 2004, registrants will be required to use a direct method for impairment testing on all identifiable intangible assets, including those previously valued using the residual method; any loss as a result of this test would be reported as a change in accounting principle. The Company's FCC licenses were originally valued using a residual method. The Company is evaluating the impact, if any, that this changed method may have on its financial position or results of operations.

14. In August 2001, the Company filed a universal shelf registration for combined public debt or equity securities totaling up to \$1.2 billion. The Company's subsidiaries are 100% owned except for certain VIEs; all subsidiaries except those in the non-guarantor columns that follow (which include the VIEs and the Company's discontinued operations) currently guarantee the debt securities issued from the shelf. These guarantees are full and unconditional and on a joint and several basis. The following financial information presents condensed consolidating balance sheets, statements of operations, and statements of cash flows for the parent company, the Guarantor Subsidiaries, and the Non-Guarantor Subsidiaries, together with certain eliminations.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

**OVERVIEW**

Media General is an independent, publicly owned communications company situated primarily in the Southeast with interests in newspapers, television stations and interactive media.

The Company's fiscal year ends on the last Sunday in December.

**RESULTS OF OPERATIONS**

Third quarter and year-to-date comparative results were impacted by several prior-year items including the July 2003 adoption of FIN 46, *Consolidation of Variable Interest Entities*, and the Company's 2003 fourth quarter sale of Media General Financial Services, Inc. (MGFS) which led to that unit's results being shown as income from discontinued operations. Year-to-date results in 2003 were also influenced by a first quarter after-tax gain of \$3.7 million (\$0.16 per diluted share) attributable to the Company's sale of its Hoover's stock to Dun & Bradstreet.

Income from continuing operations in 2004 before cumulative effect of change in accounting principle increased \$4.3 million (37%) over last year's equivalent quarter. The Company's improved performance was primarily attributable to a 32% increase in Broadcast segment operating profit, as Political revenues flourished in this election year and advertising revenues were bolstered by the Summer Olympics. The Publishing Division also contributed nicely to the improved results as operating profits rose 5.2%, led by growth in Classified advertising. The Company's share of SP Newsprint's (SPNC) results in the quarter was income of \$.3 million (a \$1.5 million improvement from the prior year) and represented SPNC's first profitable quarter since late 2001. This milestone at SPNC was achieved as the result of a rise in newsprint selling price over the prior-year's equivalent quarter, partially offset by lower sales volume. Lower interest expense also contributed to the quarter's favorable results due to a decreased average debt level.

An \$11.7 million (37%) increase in income from continuing operations before cumulative effect of change in accounting principle adjusted for the Hoover's gain in the first nine months of this year was the result of a combination of the same factors which positively impacted the third quarter. The improvement was largely spurred by a 10.5% increase in segment operating profits, a significantly reduced year-over-year loss at SPNC, and an 11.8% decrease in interest expense. Broadcast Division segment profits represented a 33% improvement over the prior year as revenues continued to prosper on particularly robust Political advertising. In the Publishing Division, segment profits were up 5% as Classified advertising revenues remained strong. SPNC's significantly improved performance (from a loss of \$4.9 million in the prior year to just shy of break-even in the current year) was principally attributable to higher newsprint prices. Taken as a whole, the Company's improved year-to-date performance was dampened by several factors, including: increased amortization due to the re-institution of amortization of network affiliation intangibles and the inclusion of expenses associated with the Company's Variable Interest Entities (VIE) in 2004 (which only began in the third quarter of 2003 when FASB Interpretation 46 was adopted by the Company).

**PUBLISHING**

## Edgar Filing: MEDIA GENERAL INC - Form 10-Q

Operating income for the Publishing Division increased \$1.5 million and \$4.2 million in the third quarter and first nine months of the year over the comparable 2003 periods. Third quarter results reflected solid advertising revenue growth in all categories with the exception of National; this marked the Division's eighth consecutive quarter of revenue improvement over the prior year in period-over-

**Table of Contents**

period comparisons. This improvement was achieved despite this year's onslaught of hurricanes which relentlessly struck Florida and Alabama, resulting in both reduced revenues and increased news coverage expenses. The solid year-to-date results were realized on the strength of Classified ad revenues which contributed nearly two-thirds of the Division's overall revenue growth. As illustrated by the following chart, Classified revenues remained the Division's stellar performer in both the quarter and year to date and continued to fuel the Division's sustained success on the strength of robust employment advertising. Preprints were up slightly, while National revenues experienced softness (primarily in the travel and electronics categories). Preprints continued to benefit from volume gains as certain advertisers migrated from Retail. Consequently, Retail advertising fell approximately 1% in the first nine months of the year; however, the third quarter showed signs of stabilization as retail ad revenues rose modestly over the equivalent prior-year quarter.

Publishing Segment operating expenses increased \$3.9 million and \$12.1 million in the third quarter and first nine months of this year over the equivalent 2003 periods due to a combination of factors. Newsprint expense was up \$1.3 million in the quarter and \$4.1 million in the year to date as prices continued the ascent which began in August of 2002. In the quarter, a \$37 per ton rise in average price led to a \$1.2 million cost increase; the balance was attributable to additional consumption (due to higher advertising linage and circulation). In the year to date, a \$40 per ton rise in average price accounted for the majority of the higher newsprint expense. Employee compensation and benefit costs were up \$.5 million (1%) in the quarter and \$3.6 million (2.4%) in the year to date due to annual salary increases and higher retirement plan expenses, partially offset by lower group health care costs. Additionally, certain departmental operating costs at the Florida properties rose approximately 10% in the quarter and nine months, the result of higher circulation expenses (due primarily to increased sales expense and subscriber discounts), increased facility costs (attributable predominantly to repair and maintenance costs), and additional expenses incurred as a result of the hurricanes.

**Table of Contents**

**BROADCAST**

Compared to the same prior-year periods, Broadcast operating income jumped \$4.8 million (32%) and \$14.5 million (33%) in the third quarter and first nine months of 2004, due to a nearly 10% rise in revenues in those same periods. This improved performance was achieved despite a series of hurricanes, some of which threatened to hit and some of which actually made landfall, in Florida and Alabama throughout August and September. The following chart illustrates gains posted in all advertising categories over the prior-year equivalent periods, and includes the benefit of the Summer Olympics advertising. Political advertising was three and one-half times the level of last year's third quarter and more than four and one-half times the level of last year's first nine months due to intense congressional and presidential campaign spending. Local advertising was up approximately 3.3% in the quarter (on the strength of the services and furniture categories) and 6.5% in the year-to-date period (driven by the automotive and services categories), reflecting the results of continued aggressive sales initiatives and new selling tools employed to boost advertising by local customers. National advertising rose by approximately 3% in both the quarter and the year-to-date period (led by the automotive and service categories).

The Broadcast Division's revenue growth rate continued to exceed that of the industry for the first eight months of the year. According to the Television Bureau of Advertising (a not-for-profit trade association of America's broadcast television industry), time sales across the broadcast industry increased 9.6% through August 2004 compared to the Division's 12% improvement. Assigning actual Political revenues to either the Local or National categories, as does the industry survey, National and Local advertising growth for the Company was 16.3% and 9.4%, respectively, well above the industry's growth of 11.1% and 8.6%.

Broadcast operating expenses rose \$1.6 million and \$5.9 million in the third quarter and the first nine months of this year as compared to the equivalent 2003 periods. The primary factor driving

## **Table of Contents**

these increases was higher employee compensation and benefit costs which rose 6.1% in the quarter and 6.4% in the year to date due to merit pay raises, increased sales commissions as a result of revenue growth, and higher retirement plan expenses, partially offset by lower group health care costs in the quarter. Increased programming expenses, including higher Nielsen rating fees, as well as costs associated with the hurricanes also impacted Broadcast operating expenses in the quarter and year to date.

## **INTERACTIVE MEDIA**

In the first quarter of 2003, the Company sold its share of Hoover's, Inc., for \$16.8 million to Dun & Bradstreet, producing a pre-tax gain of \$5.7 million. Excluding this gain, Interactive Media results improved \$.2 million and \$.5 million in the third quarter and first nine months of 2004, the result of reduced operating losses from the prior-year's equivalent periods. Revenues increased 35% and 43% in the third quarter and year-to-date period, while expenses rose \$.7 million and \$2.5 million, resulting primarily from higher compensation and employee benefits expense as positions were filled to sustain the Division's continued growth. The significant increases in the Division's revenues were driven by vigorous Classified advertising (up 44% in the quarter and 50% in the year to date) as up-sell arrangements continued to thrive across the Division. Under these up-sell arrangements, customers pay an additional fee to have their classified advertisement placed online coincident with its publication in the newspaper. At the Company's three metropolitan newspapers, approximately 80% to 90% of advertisers who placed classified ads in print during the quarter also chose to display their ads online. The strong sell-through rate is a key indicator of the value that consumers ascribe to online advertising.

The Interactive Media Division has continued to grow and expand its operations since the Division's inception in January of 2001. This Division remains focused on developing new products, securing and retaining high-quality personnel, invigorating revenues through sales initiatives and enhancing content and design across all the Company's online enterprises.

## **INTEREST EXPENSE**

Interest expense decreased \$.8 million and \$3.1 million in the quarter and year to date from the equivalent year-ago periods. In the quarter, lower interest expense was achieved as the result of a \$103 million decrease in average debt outstanding, partially offset by a 34 basis point rise in the Company's effective interest rate due to an increase in LIBOR (upon which interest on borrowings under the Company's revolving credit facility is based). Interest expense in the first nine months of this year was \$3.1 million lower due to a 45 basis point decrease (primarily due to a change in the mix of the Company's borrowings) as well as to a \$25 million decline in average debt outstanding this year.

The Company uses interest rate swaps (where it pays a fixed rate and receives a floating rate) as part of an overall strategy to manage the interest cost and risk associated with variable interest rates, primarily short-term changes in LIBOR. It does not initiate such instruments for trading purposes. Toward the end of the first quarter of 2003, four of the Company's swaps with notional amounts totaling \$275 million matured; concurrently, four swaps with notional amounts totaling \$200 million became effective. Toward the end of the first quarter of 2004, two of these swaps with notional amounts totaling \$100 million matured, leaving two remaining swaps with notional amounts of \$50 million each which mature in the first quarter of 2005. These interest rate swaps are cash flow hedges that effectively convert the covered portion of the Company's variable rate debt to fixed rate debt with a weighted average interest rate approximating 4.6%.

## **Table of Contents**

### **INCOME TAXES**

The Company's effective tax rate on income from continuing operations was 37% in the current quarterly and year-to-date periods as compared to 36.5% in the equivalent prior-year periods. The Company has begun a preliminary analysis of the *American Jobs Creation Act* that was recently passed by both the House and Senate and signed by the President in October of this year. The Act provides a deduction that has the effect of reducing the Company's tax rate and will be phased in over the next five years. The Company currently estimates the 2005 impact of the Act to be a reduction in its effective tax rate of one-half to one percentage point.

### **LIQUIDITY**

Before recognizing the current-year \$35 million contribution to the Company's retirement plan (\$21 million contributed in 2003), net cash provided by operating activities in the first nine months of 2004 was \$114.7 million, 14% above the prior-year's equivalent amount. Cash generated by operating activities enabled the Company to fund capital expenditures of \$29.5 million, to pay dividends to stockholders of \$14.2 million, to contribute \$35 million to its retirement plan, and to reduce debt by \$47 million.

Over the past four years, the Company's retirement plan, like many corporate pension plans, has moved from an overfunded position to an underfunded position. Despite the solid investment performance of the trust's assets during 2003, declines from 2000 to 2002 in the trust's assets and continuing reductions in the discount rates used to value the plan's liabilities have created an underfunded trust. Although not required to do so, the Company elected to make contributions in 2003 and early 2004 with the immediate expectation of restoring the funding position and the longer-term intention of reducing the ultimate amount that it would need to contribute. The Company does not foresee making further elective contributions in the near term but continues to monitor changes in market values, rates of return, and discount rates, as well as to evaluate plan benefits and design.

The Company has in place a \$1 billion revolving credit facility and a \$1.2 billion universal shelf registration which allows for combined public debt or equity issuances (together the Facilities). At the end of the third quarter, there were borrowings of \$275 million outstanding under the revolving credit facility and \$199.9 million in senior notes outstanding under the universal shelf. The Facilities carry cross-default provisions between the revolving credit and the senior notes. The revolving credit agreement contains both interest coverage and leverage ratio covenants. These covenants, which involve debt levels, interest expense, and EBITDA (a measure of cash earnings as defined in the revolving credit agreement), can affect the Company's maximum borrowing capacity under the Facilities. A significant drop in the Company's EBITDA or a large increase in the Company's debt level could make it challenging to meet the leverage ratio. The Company was in compliance with all covenants at quarter-end and expects to remain in compliance with them going forward. The Company believes that internally generated funds provided by operations, together with the unused portion of the Facilities, provide it with significant flexibility to manage working capital needs, pay dividends, finance capital expenditures, make pension contributions, and take advantage of new strategic opportunities.

### **OUTLOOK**

Despite lost revenues and higher expenses as a result of an overactive hurricane season, the Company continues to capitalize on a strengthening economic recovery which began in late 2003. The Broadcast Division flourished in the first nine months of the year as advertising revenues, buoyed by

---

**Table of Contents**

Political spending and Summer Olympics advertising, rebounded strongly from their depressed prior-year levels. The Broadcast Division expects sustained success in the last quarter of 2004 as intense presidential, U.S. senate and state congressional races reach a heightened pitch prior to their conclusion. The Publishing Division anticipates that advertising revenues will continue to gain momentum throughout the remainder of the year, but expects operating results to be adversely impacted by the steady ascent of newsprint prices, which began in late 2002, and is projected to continue throughout 2004 and into 2005. However, by virtue of its investment in SP Newsprint, the Company is a net beneficiary of newsprint price increases because they should translate, as they did in the third quarter, into operating performance improvement for SPNC.

The Company continues to monitor developments surrounding the Federal Communications Commission's (FCC) new rules which would allow cross-ownership of broadcast television stations and newspapers in all but the smallest markets. As a result of a court decision this summer, the new rules continue to be stayed, and the matter was remanded to the FCC. The Company intends to file a petition prior to the end of the year to bring these issues before the Supreme Court. In the meantime, the Company is proceeding with the regular renewal of its television licenses and is requesting waivers of the FCC's 1975 rule for several of its stations in cross-owned markets. The Company is optimistic that waivers will be granted in these markets. The Company remains open to future investments that would complement its strategic vision and foster its convergence efforts.

*Certain statements in this quarterly report that are not historical facts are forward-looking statements, as that term is defined by the federal securities laws. Forward-looking statements include statements related to the impact of new accounting standards, new tax laws, and political campaign advertising, as well as expectations regarding newsprint prices, pension contributions, litigation claims, general advertising levels, and the effects of changes to FCC regulations. Forward-looking statements, including those which use words such as the Company believes, anticipates, expects, estimates, intends, projects, plans, and similar words, are made as of the date of this filing and are subject to risks and uncertainties that could cause actual results to differ materially from those expressed in or implied by such statements.*

*Some significant factors that could affect actual results include: changes in advertising demand, the availability and pricing of newsprint, changes in interest rates, the outcome of litigation, the performance of pension plan assets, health care cost trends, and regulatory rulings and laws.*

Item 4. Controls and Procedures

The Company's management, including the chief executive officer and chief financial officer, performed an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based on that evaluation, the Company's management, including the chief executive officer and chief financial officer, concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by this report. There have been no significant changes in the Company's internal controls or in other factors that are reasonably likely to adversely affect internal control subsequent to the date of this evaluation.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

For a complete discussion of the Company's dispute with Enron North America Corporation, see Note 9 of this Form 10-Q and Item 3 of Form 10-K for the fiscal year ended December 28, 2003.

Item 6. Exhibits

- 31.1 Section 302 Chief Executive Officer Certification
- 31.2 Section 302 Chief Financial Officer Certification
- 32 Section 906 Chief Executive Officer and Chief Financial Officer Certification
