PROXY STATEMENT

March 31, 2005

for

Annual Meeting of Stockholders

To Be Held On May 3, 2005

This proxy statement (the **Proxy Statement**) is being furnished to the holders of common stock, par value \$0.01 per share (the **Common Stock**), of Octel Corp., a Delaware corporation (the **Corporation**) in connection with the solicitation of proxies by and on behalf of the Board of Directors of the Corporation (the **Board of Directors** or the **Board**) for use at the annual meeting of stockholders to be held on May 3, 2005 at 10:00 a.m. local time, and at any adjournments or postponements thereof (the **Annual Meeting**). The purpose of the Annual Meeting is:

- to re-elect two directors to the Board,
- to elect one new director to the Board, and
- to ratify the appointment of PricewaterhouseCoopers LLP as the Corporation's independent registered public accounting firm for the 2005 fiscal year.

Record Date and Quorum

This Proxy Statement, the Proxy Form and the Corporation's Annual Report to Stockholders are being mailed on or about March 31, 2005 to holders of record of the Common Stock at the close of business on March 4, 2005 (the **Record Date**). Each outstanding share of Common Stock entitles the holder thereof as of the record date to one vote (or where a part share shall be owned a proportionate part of the vote of one share) on each matter to come before the Annual Meeting. As of the Record Date, excluding treasury stock, there were 14,777,250 shares of Common Stock outstanding. There are no other outstanding voting securities of the Corporation other than the Common Stock.

Edgar Filing: OCTEL CORP - Form DEF 14A

The presence at the Annual Meeting in person or by proxy of the holders of a majority of the shares of Common Stock outstanding and entitled to vote will constitute a quorum for the transaction of business. Abstentions and broker non-votes are treated as present and entitled to vote, and therefore are counted in determining the existence of a quorum. At the Annual Meeting, election inspectors will determine whether or not a quorum is present.

A broker non-vote occurs when a nominee holding shares for a beneficial owner does not vote on a particular proposal because the nominee does not have discretionary voting power with respect to that item and has not received voting instructions from the beneficial owner with respect to such item.

Proxies

If the enclosed proxy form (the Proxy Form) is properly signed, dated and returned to the Corporation, the individuals identified as proxies thereon will vote the shares represented by the Proxy Form in accordance with the directions noted thereon. If you do not indicate how your shares should be voted on a matter, the shares

Table of Contents

represented by your properly completed Proxy Form will be voted as the Board of Directors recommends. The Corporation's management does not know of any matters other than those discussed in this Proxy Statement that will be presented at the Annual Meeting. If other matters are presented, all proxies will be voted in accordance with the recommendations of the Corporation's Board of Directors unless the stockholder otherwise specifies in the Proxy Form.

Returning your completed Proxy Form will not prevent you from voting in person at the Annual Meeting if you are present and wish to vote. In addition, you may revoke your proxy at any time before it is voted by sending written notice of revocation or by submission of a properly executed proxy bearing a later date to the Secretary of the Corporation prior to the Annual Meeting at the Corporation's principal executive offices at the address above.

Required Votes

Proposal One (Re-Election of Directors): The election of directors is decided by the affirmative vote of a plurality of the votes duly cast by holders of all shares entitled to vote in the election. Abstentions and broker non-votes are not counted as votes cast for the purpose of electing directors. Accordingly, abstentions and broker non-votes will not be taken into account and, therefore, will not affect the outcome of the election of directors.

Proposal Two (Election of New Director): The election of directors is decided by the affirmative vote of a plurality of the votes duly cast by holders of all shares entitled to vote in the election. Abstentions and broker non-votes are not counted as votes cast for the purpose of electing directors. Accordingly, abstentions and broker non-votes will not be taken into account and, therefore, will not affect the outcome of the election of directors.

Proposal Three (Ratification of Appointment of Independent Registered Public Accounting Firm): The affirmative vote of the majority of the shares present in person or represented by proxy at the Annual Meeting and entitled to vote on this proposal is required to ratify the appointment of PricewaterhouseCoopers LLP as the Corporation's independent registered public accounting firm for the fiscal year ending December 31, 2005. A broker or nominee has discretion to vote on this matter. Accordingly, both abstentions and broker non-votes will be treated as present and entitled to vote and, therefore, will have the effect of votes against this proposal.

PROPOSAL ONE

(Item 1 on the Proxy Form)

Re-election of Current Class I Directors

The Bylaws of the Corporation provide that the number of directors shall be not less than three nor more than 12, the exact number of which shall be determined from time to time by resolution adopted by the Board of Directors, and that the Board shall be divided into three classes, designated Class I, Class II and Class III. Each class shall consist, as nearly as may be possible, of one-third of the total number of directors constituting the entire Board of Directors. Currently, the Board has 8 members, three in Class I, two in Class II and three in Class III and the appointments of the directors in such Classes expire at the Annual Meetings of the Corporation in 2005, 2006 and 2007, respectively.

Directors in Class I, Mr. Charles M. Hale and Mr. Samuel A. Haubold, whose terms expire at the upcoming Annual Meeting, have been nominated for re-election. See Management Nominees for Director for information with respect to Messrs. C. Hale and Haubold. The Corporation believes that the nominees are willing to be elected and to serve. In the event that the nominees are unable to serve or are otherwise unavailable for election, which is not now contemplated, the incumbent Board may or may not select a substitute nominee. If a substituted nominee is selected, all proxies will be voted for the person selected.

The election of directors at the Annual Meeting requires a plurality of the votes actually cast by the stockholders present (in person or by proxy) at the meeting and entitled to vote. There is no cumulative voting as to any matter, including the election of directors.

The Board of Directors recommends a vote FOR the re-election of the nominee current directors.

PROPOSAL TWO

(Item 2 on the Proxy Form)

Election of a New Director

The Bylaws of the Corporation provide that the number of directors shall be not less than three nor more than 12, the exact number of which shall be determined from time to time by resolution adopted by the Board of Directors, and that the Board shall be divided into three classes, designated Class I, Class II and Class III. Each class shall consist, as nearly as may be possible, of one-third of the total number of directors constituting the entire Board of Directors. By resolution of the Board of Directors dated December 15, 2004, the Board of Directors increased the number of members on the Board of Directors from seven to eight; three directors in Class I, two directors in Class II and three directors in Class III and the appointments of the directors in such Classes expire at the Annual Meetings of the Corporation in 2005, 2006 and 2007, respectively.

Edgar Filing: OCTEL CORP - Form DEF 14A

Mr. Hugh Aldous was elected to the Board in accordance with Article III of the Bylaws to fill the vacancy on the Board created as a result of the increase in the number of members by resolution of the Board passed on December 15, 2004. Mr. Aldous will serve until the date of the 2005 Annual Meeting. Mr. Aldous has also been nominated for election as a Class I Director to the Board of Directors to serve until the Corporation's 2008 Annual Meeting. See Management Nominees for Director for information with respect to Mr. Aldous. The Board of Directors appointed Mr. Aldous to serve on the Audit Committee after the Corporation's February 15, 2005 Board Meeting. The Corporation believes that Mr. Aldous is willing to be elected and to serve. In the event that Mr. Aldous is unable to serve or is otherwise unavailable for election, which is not now contemplated, the incumbent Board may or may not select a substitute nominee. If a substituted nominee is selected, all proxies will be voted for the person selected.

The election of directors at the Annual Meeting requires a plurality of the votes actually cast by the stockholders present (in person or by proxy) at the meeting and entitled to vote. There is no cumulative voting as to any matter, including the election of directors.

The Board of Directors recommends a vote FOR the election of the nominee director.

PROPOSAL THREE

(Item 3 on the Proxy Form)

Ratification of Appointment of Independent Registered Public Accounting Firm

The Audit Committee has appointed the accounting firm of PricewaterhouseCoopers LLP to serve as independent registered public accounting firm of the Corporation with respect to the 2005 fiscal year to examine the financial statements of the Corporation for the fiscal year ending December 31, 2005 and to perform other appropriate accounting services. PricewaterhouseCoopers LLP served as the Corporation's independent registered public accounting firm for fiscal year 2004.

A representative of PricewaterhouseCoopers LLP is expected to be present at the Annual Meeting to respond to questions and to make a statement if such representative desires to do so. If the stockholders do not ratify this appointment by the affirmative vote of a majority of the shares represented in person or by proxy at the Annual Meeting, the Audit Committee will consider other independent registered public accounting firms.

The Board of Directors recommends a vote FOR ratification of the appointment of PricewaterhouseCoopers LLP as the Corporation's independent registered public accounting firm for the fiscal year ending December 31, 2005.

Family Relationships

Charles Hale, who is a director of the Corporation, is the brother of Martin Hale, who is also a director of the Corporation. There are no other family relationships between any of the persons referred to in the sections Nominees for Director , Continuing Directors or Officers above.

LEGAL PROCEEDINGS

In April 2002, the Corporation commenced proceedings in the Patents Court in the U.K. against Infineum USA L.P. (Infineum) for the revocation of the U.K. equivalent of European Patent No. 0807155 (155), European Patent No. 0743972 (972) and European Patent No. 0743974 (974).

Octel Corp. (Octel) and Infineum have agreed that the issues between them concerning the validity of certain patents should be determined at the European Patent Office (EPO), and not in the U.K. courts.

Table of Contents

Accordingly, Octel and Infineum have agreed that the U.K. proceedings for revocation of the patents and Infineum's counterclaim for infringement should be stayed while this determination at the European Patent Office took place.

The EPO revoked Infineum's patent 974 completely. Infineum has appealed to the EPO's Board of Appeal. Octel, along with three other respondents, BASF, Clariant and Ethyl, will make representations to the Board of Appeal. It is unlikely that the appeal will be heard in 2005.

With regard to Infineum's patents 155 and 972, all composition claims were revoked. Certain use claims were permitted. All five parties (Infineum and the respondents, Octel, BASF, Clariant and Ethyl) have appealed. The 972 appeal is scheduled to be heard in August 2005. All four parties (Infineum, Octel, Clariant and Ethyl) have appealed the 155 patent decision. The appeal is unlikely to be heard in 2005.

In addition, Octel has opposed the following Infineum patents in the EPO:

- i. EP No: 0890631, a patent for an acid based lubricity enhancer containing a detergent. Opposition filed September 2004.
- ii. EP No: 0743973, a patent for a lubricity enhancer and polyoxylalkylene compound. Opposition filed on January 21, 2005.

Octel commenced opposition proceedings in the EPO on January 7, 2005 against Rhodia's patent no: EP1090211. Infineum has opposed Octel's diesel particulate fuel patent, EP no: EP1047755.

On April 20, 2004, United Color Manufacturing filed a claim for damages and injunctive relief under the federal Lanham Act and Pennsylvania's common law alleging false advertising by Octel Starreon concerning Octel Starreon's Oil Red B Dyes. Octel Starreon's management is defending this litigation vigorously, working closely with its outside legal counsel to contest and defend the allegations of the Complaint. Though Octel Starreon views these claims as legally and factually unfounded, the Corporation has taken affirmative action to limit the prospective impact on the Corporation's exposure. The litigation is in the discovery phase, and there have been no rulings from the Court at this time as to the merits of the claims or defenses.

Given the international scope of its operations, the Corporation is subject to laws of many different jurisdictions, including laws relating to the imposition of restrictions on trade and investment with various entities, persons and countries, some of which laws are conflicting. In 2004 the Corporation reviewed, as it does periodically, aspects of its operations in respect of such restrictions, and determined to dispose of certain non-core, non-US subsidiaries of Bycosin AB which had been engaged, since prior to the acquisition in 2001 of Bycosin AB by the Corporation, in transactions and activities, including the sale of certain fuel additives, with entities and persons that are in or associated with Cuba. Consequently, on November 15, 2004, Bycosin AB, a wholly-owned subsidiary of the Corporation organized under the laws of Sweden (now known as Octel Sweden AB, the Seller), entered into a Business and Asset Purchase Agreement (the Agreement) with Pesdo Swedcap Holdings AB (the Purchaser), Håkan Byström and others as the Purchaser's guarantors, and Octel Petroleum Specialties Limited as the Seller's guarantor, and completed the all-cash transaction contemplated thereby (together with related transactions, the Transaction). The Agreement provided for, among other things: (i) the disposal of certain non-core Petroleum Specialties business and related manufacturing and other assets of the Seller; and (ii) the supply and distribution of certain power products to certain geographic regions. The net consideration paid by the Purchaser was approximately US\$2.9 million.

Information about the Board of Directors

Attendance

The Board of Directors met five times and the Committees of the Board met a total of twenty seven times during fiscal year ended December 31, 2004. Directors are expected to attend all Board Meetings and meetings of committees on which they serve. All of the directors attended the 2004 Annual Meeting. Attendance at the meetings, during fiscal 2004, by nominees and incumbents serving as directors was 100%. All directors attended in person, except for Mr. Charles Hale who attended one meeting by teleconference. Each director attended 90% or more of the

meetings of the Board and meetings of committees of the Board on which he or she served.

Independent Board of Directors

The Board of Directors, after considering broadly all relevant facts and circumstances of which it is aware, including those matters set forth under *Certain Other Transactions and Relationships* and under *Management - Family Relationships*, has determined that a majority of its members are independent within the meaning of The New York Stock Exchange listing rules applicable on the date hereof.

Table of Contents

The Corporation adopted the following standards for director independence in compliance with the NYSE corporate governance listing standards.

1. No director qualifies as independent unless the Board affirmatively determines that the director has no material relationship with the Corporation or its wholly-owned subsidiaries (either directly or as a partner, stockholder or officer of an organization that has a relationship with the Corporation). These determinations must be disclosed.

2. The Board has established the following criteria for determining director independence:
 - a. A director who is an employee, or whose immediate family member is an executive officer of the Corporation is not independent until three years after the end of such employment relationship;

 - b. A director who receives, or whose immediate family member receives, more than \$100,000 per year in direct compensation from the Corporation, other than director and committee fees and pension or other forms of deferred compensation for prior service (provided such compensation is not contingent in any way on continued service), is not independent until three years after he or she ceases to receive more than \$100,000 per year in such compensation;

 - c. A director who is affiliated with or employed by, or whose immediate family member is affiliated with or employed in a professional capacity by, a present or former internal or external registered public accounting firm of the Corporation is not independent until three years after the end of the affiliation or the employment or auditing relationship;

 - d. A director who is employed, or whose immediate family member is employed, as an executive officer of another company where any of the Corporation's present executives serve on that company's compensation committee is not independent until three years after the end of such service or the employment relationship; and

 - e. A director who is an executive officer or an employee, or whose immediate family member is an executive officer, of a company that makes payments to, or receives payments from, the Corporation for property or services in an amount which, in any single fiscal year, exceeds the greater of \$1 million, or 2% of such other company's consolidated gross revenues, is not independent until three years after falling below such threshold.

The Board determined that each member of the Board, except for Mr. Kerrison, meets the aforementioned independence standards. Mr. Kerrison does not meet the aforementioned independence standards, because as the current President and Chief Executive Officer of the Corporation, he is an employee of the Corporation.

Executive Sessions of Non-Employee Directors

Edgar Filing: OCTEL CORP - Form DEF 14A

Non-employee directors are all those who are not Corporation officers, and includes such directors who are not independent by virtue of a material relationship, former status or family membership, or for any other reason. Executive Sessions are led by the Chairman. An executive session is held in conjunction with each regularly scheduled Board meeting and other sessions may be called by the Chairman in his or her own discretion or at the request of the Board. Dr. Robert E. Bew has been designated as the Chairman. There were five executive sessions during fiscal 2004.

Stock Option Plans

The Corporation has seven stock option plans, the first five of which provide for grants of options to key employees and non-employee directors. Two other plans provide stock options on an equal basis to all U.K. employees.

The five Plans which grant options to key employees or non-employee directors are:

- i) *The Octel Corp. Company Share Option Plan, as amended (the Company Plan)*

Under the Company Plan, the Directors of the Corporation are permitted to grant options, at their discretion, to both directors required to work more than 20 hours a week for the Corporation and other employees who are required to work more than 25 hours for the Corporation and, in each case, where the grantee does not possess more than ten per cent of the shares of the Corporation. Options under the Company Plan are granted at fair market value at the time of grant.

- ii) *The Octel Corp. Performance Related Stock Option Plan, as amended (the Performance Plan)*

Under the Performance Plan, the Octel Compensation Committee may, at its discretion, grant options to employees who work for a group company and who do not own more than ten per cent of the total combined voting power of all classes of shares of the Corporation. Under the Performance Plan, the Compensation Committee may grant stock options at such exercise price as it determines. Options granted under this plan are exercisable subject to the Corporation meeting certain performance targets as set by the Compensation Committee. The targets that are set are designed to be stretch targets which focus on delivery of high performance and enhancing shareholder value.

- iii) *The Octel Corp. Non-Employee Directors Stock Option Plan, as amended (the NED Plan)*

The NED Plan was adopted on February 24, 2004 by which non-employee directors are granted one quarter of their annual fee in the form of shares for work performed in their capacity as directors. The plan is intended to align the interests of the directors with the Corporation.

iv) *The Octel Corp 2004 Executive Co-Investment Plan*

The Executive Co-Investment Plan was adopted on February 24, 2004 by which certain senior executives are allowed to elect to utilize part of their annual bonus earned to acquire shares in the Corporation and provisionally receive matching shares from the Corporation. For every two shares the employee elects to acquire out of their bonus up to target, the Corporation will provisionally allocate one additional share. In the case of shares the employee elects to acquire out of bonus above target, shares are matched on a one for one basis. Executives must elect to use a minimum of one third of their bonus above-target to acquire shares. The matching shares become vested and transfer to the employee if they continue to hold the acquired shares and be employed by the Corporation on the third anniversary of making the election.

v) *The Octel Corp. Time Restricted Stock Option Plan (TRSOP)*

The TRSOP provided a limited number of senior managers and executives with stock bonuses in lieu of cash. The bonuses were designed to reward the management of the Corporation for managing the spin-off from Great Lakes Chemical Corporation (Great Lakes) and continuing to remain in employment through December 31, 1999. These awards were delivered in the form of options vesting on December 31, 1999 and exercisable by December 31, 2007. As of the date hereof, all the options issued pursuant to this plan have been exercised and no further grants will be made.

The two other plans which provide stock options to UK employees are:

vi) *The Octel Corp. Savings Related Share Option Scheme, as amended (the Savings Plan)*

The Board of Directors may determine, in their absolute discretion, those employees that may participate in the Savings Plan. Permitted participants will be able to make a fixed contribution from their income to the Savings Plan up to a pre-determined maximum limit.

vii) *The Octel Profit Sharing Share Scheme (Profit Sharing Plan)*

In order to encourage motivation and commitment to the new Corporation at the time of the spin-off from Great Lakes, the Compensation Committee granted every U.K. based employee an award of fifteen shares of Common Stock of the Corporation under this plan. On September 7, 2000 the Trustees made a market purchase of 7,620 shares which were held in trust for 508 employees for three years before being assigned to the individuals. The trust, approved by the U.K. Inland Revenue, allowed the stock to be assigned free of any income tax liability. No further awards will be made pursuant to this plan.

All Plans except the TRSOP and the Profit Sharing Plan, were approved or were amended, restated and re-approved by stockholders at the 2004 Annual Meeting.

Options, and the conditions relating thereto, granted under the above plans are determined by the Compensation Committee. The current limit for the number of shares of Common Stock which can be issued or awarded under the plans listed above is 3,043,000.

Notes:

- (1) In the event of a change of control of the Corporation, all options become fully vested and exercisable. In order to prevent dilution or enlargement of rights under the options, in the event of a reorganization, recapitalization, stock split, stock dividend, combination of shares, merger, consolidation, distribution of assets or other change in the corporate structure of shares of the Corporation, the type and number of shares available upon exercise and the exercise price will be adjusted accordingly. The Compensation Committee may, subject to specified limitations, advance the date on which an option shall become exercisable.
- (2) Amounts reflect assumed rates of appreciation compounded annually from the fair market value on the date of grant in accordance with the Securities and Exchange Commission's executive compensation disclosure rules. Actual gains, if any, on stock option exercises depend on future performance of the Common Stock and overall stock market conditions. No assurance can be made that the amounts reflected in these columns will be achieved.
- (3) The exercise of these options is dependent on the Corporation and the individual achieving specific performance related targets over a three year period.
- (4) Dr. Dobbie resigned the Corporation effective August 31, 2004. Dr. Dobbie was granted options under various stock option plans during his period of employment with the Corporation. The options were relinquished by Dr. Dobbie as part of his settlement agreement when he left the Corporation.

Pension Plans

The Corporation operates four separate pension plans for executives. One of these is a defined benefit plan which, together with two top up defined contribution plans for the eligible executives, are designed to provide

Table of Contents

in total the equivalent of 1/40 of final salary (or the average of the last three years of service if higher) for each year of service (1/30 for the CEO) with the Corporation. The fourth plan is a stand alone defined contribution plan and the Corporation makes contributions, calculated as a percentage of base salary, to the plans for the eligible executives. The four plans are:

- i) The Octel Pension Plan;
- ii) The Octel Senior Management Plan;
- iii) The Octel Funded Unapproved Pension Plan; and
- iv) The Group Personal Pension.

The reason for having the top up defined contribution plans together with the defined benefit plan is to make maximum use of U.K. Inland Revenue approved pension arrangements to optimize both the Executive's and the Corporation's tax position.

Normal retirement age is the end of the month following the Executive's 65th birthday.

As of December 31, 2004, the final base pensionable salary of the Named Executives and eligible credited years under the pension plans were as follows:

Change in Control and Severance Agreements

The Corporation recognizes that establishing and maintaining a strong management team is essential in protecting and enhancing the interests of the Corporation and its stockholders. In order to ensure management stability and the continuity of key management personnel, the Corporation entered into a Change-in-Control agreement with the President and Chief Executive Officer, Mr. Kerrison at the time of the spin-off from Great Lakes. The agreement provides that in the event of a take-over or fundamental restructuring of the business,

Table of Contents

which results in the loss of Mr. Kerrison's position, he is entitled to compensation of three years' pay plus benefits and further that all stock options and grants to Mr. Kerrison shall vest immediately.

Employment Agreements

Each Executive also has an employment agreement which complies with U.K. employment law and which provides for, among other things, up to 30 days of annual vacation, the provision of a car or car allowance, private health insurance, pension provision, life insurance, permanent health insurance and a rolling one year term of employment (two years for the CEO) which can be terminated by the Corporation upon twelve months notice (24 months for the CEO) and six months (12 months for the CEO) from the Executive.

Life Insurance Cover

Named Executives are covered by two basic plans. The Corporation's accidental death plan provides up to six times annual salary in the event of accidental death for whatever reason. Also, as a component of the pension plans, up to four times annual salary is payable for death while in service with the Corporation.

Non-employee directors have accidental cover while on Corporation business up to a maximum of \$500,000 in the case of death or injury. Cover ceases upon termination of employment with the Corporation and there are no cash surrender values.

**REPORT OF THE COMPENSATION COMMITTEE
OF THE BOARD OF DIRECTORS ON EXECUTIVE COMPENSATION**

Compensation Committee Report on Executive Compensation

The Compensation Committee reviews and makes recommendations to the Board regarding salaries, compensation and benefits of executive officers and key employees of the Corporation with the assistance of external advisors and develops and administers programs providing stock-based incentives. After consideration of the Compensation Committee's recommendations, the full Board approves the salaries and bonuses and the stock and benefit programs for the Corporation's executive officers.

Compensation Philosophy

The compensation philosophy of the Corporation is to link executive compensation to continuous improvements in corporate performance and increases in stockholder value. The goals of the Corporation's executive compensation programs are to:

- Establish pay levels that are necessary to attract and retain highly qualified executives in light of the overall competitiveness of the market for high quality executive talent and the Corporation's unique business profile.
- Recognize superior individual performance, new responsibilities and new positions within the Corporation.
- Balance short-term and long-term compensation to complement the Corporation's annual and long-term business objectives and strategy and to encourage executive performance in the fulfillment of those objectives.
- Provide variable compensation opportunities based on the Corporation's performance.
- Encourage stock ownership by executives.
- Align executive remuneration with the interests of stockholders.
- Focus on and reward achievement of exceptional performance.

Stock Ownership

Edgar Filing: OCTEL CORP - Form DEF 14A

The Compensation Committee believes that it can align the interests of stockholders and executives by providing those persons who have substantial responsibility over the management and growth of the Corporation with an opportunity to establish a meaningful ownership position in the Corporation. As part of this, effective January 1, 2004 the Board has established minimum share ownership guidelines for the members of the senior executive team, to encourage key employees to align their interest closely with those of other stockholders through their participation in The Octel Corp. 2004 Co-Investment Plan participants in the plan will be required to build their shareholdings in the Corporation to the level required by the Compensation Committee (which is currently to reach a share ownership level equivalent in value to 100% of their base annual salary within a four-year period). Currently, only Mr. Kerrison, President and Chief Executive Officer, holds sufficient shares to satisfy this guideline.

Compensation Components

Corporate and individual performances are recognized through both short- and long-term incentive compensation plans designed to align the interests of executives and stockholders. The total compensation program consists of several components: base salary, which reflects the executive's level of responsibility and individual performance; annual incentive compensation awards in the form of cash bonuses, which reflect both corporate and individual performance; and long-term incentive compensation in the form of stock options. The

Table of Contents

latter two components provide at risk compensation which is linked directly to financial results. In addition, the 2004 Co-Investment Plan is linked to the annual cash bonus and hence overall corporate and personal performance, and encourages the senior team to hold shares in the Corporation. The Committee considers all elements of compensation when determining an individual's total compensation. All compensation is paid in pounds sterling and has been translated into U.S. dollar amounts based on an exchange rate of \$1.8246 (the average exchange rate for 2004).

Short-Term Incentive Compensation

Each year the Committee reviews and determines, along with the other independent directors, the base salary of the President and Chief Executive Officer. In conjunction with this review, the Committee also reviews the base salaries of other corporate officers and makes the final compensation recommendations to the Board for Board approval concerning such officers. The median level of the executive market as assessed by external surveys is used as the main criterion in determining base salary. The levels and scope of responsibility, experience, and corporate and business unit performances, as well as individual performance, are also key criteria in base salary determination.

A Management Incentive Compensation Plan provides incentive compensation in the form of cash bonuses to executive officers, managers and other selected key employees who have a broad impact on the Corporation's performance. The philosophy for incentive compensation is to provide awards when financial objectives are achieved or exceeded and provide no or reduced awards when the objectives are not achieved. The awards granted in 2004 were based on pre-established targets for corporate income, cash generation and business unit performance in addition to individual achievement against personal targets.

Long-Term Incentive Compensation

Long-term incentive compensation is comprised of annual grants of stock options which are designed to encourage key employees to remain with the Corporation and deliver by providing them with a long-term interest in the Corporation's overall performance and, by focusing on the achievement of exceptional business results, to motivate them to maximize long-term stockholder value. The Corporation's stock option grant guidelines were designed with the assistance of external compensation consultants. The Committee administers the stock compensation plans. A combination of options at market value at the date of grant and performance related zero cost stock options, which cannot be exercised for at least three years from the date of grant and with a maximum of 10 year exercise from date of grant, will generally be granted annually.

Chief Executive's Compensation

Mr. Kerrison's compensation includes base salary, incentive compensation and stock options. In 2004, consistent with all other executive officers, the President and Chief Executive Officer's compensation was determined by the Board, based on the Compensation Committee recommendations in accordance with the salary policy, bonus programs and stock option guidelines, namely the Corporation and the President and Chief Executive's overall performance and motivation to maximize long-term stockholder value. Stock options, which cannot be exercised for at least three years from the date of grant, with a maximum of 10 year exercise from plan inception, will generally be granted annually. The Committee has available information as to the level of past awards and individual stock ownership of the President and Chief Executive Officer, as well as historical information on bonus payments and base salary.

Edgar Filing: OCTEL CORP - Form DEF 14A

The Committee determined that in order to better align Mr. Kerrison's compensation with stockholder interests, a greater portion of his compensation would be at-risk and directly linked to financial results.

Mr. Kerrison's base salary effective as of January 2004 was approximately \$739,569. This salary has been verified by a global external compensation consultancy as in line with market rates for chief executive officers of

Table of Contents

similar sized businesses in the U.K. A bonus of approximately \$534,383 was granted to Mr. Kerrison in consideration of the Corporation's cash generation and overall financial performance and Mr. Kerrison's leadership of the Corporation and achievement of specific business objectives during the fiscal year. Consistent with all other executive officers, the President and Chief Executive Officer's bonus was determined by the Board, based on the recommendation of the Compensation Committee, taking into account three primary factors: achievement of an overall Corporation cash flow target, achievement of an overall Corporation income flow target and achievement of agreed personal objectives.

Pursuant to the Corporation Share Option Plan (CSOP), Mr. Kerrison was granted options in respect of 5,500 shares at an exercise price of \$23 which will vest on May 12, 2007 and must be exercised by May 12, 2014. On the same date, Mr. Kerrison was also granted 20,000 zero cost options pursuant to the Performance Related Stock Option Plan (PRSOP) which will vest on May 12, 2007, subject to the satisfaction of certain performance criteria specified by the Compensation Committee.

In line with normal U.K. practice, Mr. Kerrison also received pension benefits, life assurance and certain tax payments paid by the Corporation on his behalf valued at \$924,228.

Summary

With a significant portion of the Corporation's executive compensation linked directly to individual and corporate performance and paid in stock, the Committee believes that these compensation practices, together with the share ownership requirement for the senior team, will help ensure alignment with the interests of the Corporation's stockholders. While recognizing that fluctuations of business cycles may negatively impact financial performance from time to time, the Committee believes that the focus on stretching performance measures through the stock plans, the strong leadership provided by the Corporation's senior executives and the infrastructure that they have put in place have positioned the Corporation to capitalize on the opportunities that lie ahead.

OCTEL CORP.

**PRE-APPROVAL POLICIES AND PROCEDURE
FOR AUDIT AND NON-AUDIT SERVICES**

Adopted March 4, 2004, Updated February 15, 2005

Purpose of Policy

Under the Sarbanes-Oxley Act of 2002 (the Act), and the rules of the Securities and Exchange Commission (the SEC), the Audit Committee of the Company's Board of Directors (the Audit Committee), is required to pre-approve the audit and non-audit services performed by the independent auditor in order to assure that the provision of such services does not impair the auditor's independence. Accordingly, the Audit Committee is adopting this Audit and Non-Audit Services Pre-Approval Policy, which sets forth the procedures and the conditions pursuant to which services to be performed by the independent auditor are to be pre-approved.

To implement the provisions of the Act, the SEC has issued rules specifying the types of services that an independent auditor may not provide to its audit client and governing the Audit Committee's administration of the engagement of the independent auditor. Unless a type of service to be provided by the independent auditor has received general pre-approval at the quarterly meeting of the Audit Committee, it will require specific pre-approval by the Audit Committee. Any proposed services exceeding pre-approved cost levels, as such levels are determined by the Audit Committee at the time such services are pre-approved, will require specific pre-approval by the Audit Committee. The term of any pre-approval is 12 months from the date of pre-approval, unless the Audit Committee specifically provides for a different period. The Audit Committee will periodically revise the list of pre-approved services, based on subsequent determinations.

Delegation

The Audit Committee may delegate pre-approval authority to the Audit Committee Chairman. The Chairman to whom such authority is delegated shall report any pre-approval decisions to the Audit Committee at its next scheduled meeting. The Audit Committee does not delegate its responsibilities to pre-approve services performed by the independent auditor to management.

Prohibited Services

The Audit Committee will not approve, nor will the Company's independent auditor perform for the Company any services that constitute Prohibited Activities as defined by the Act or by regulations promulgated by the SEC. These prohibited activities include:

- a. bookkeeping or other services related to the accounting records or financial statements of the audit client;
- b. financial information systems design and implementation;
- c. appraisal or valuation services, fairness opinions, or contribution-in-kind reports;

B-1

Table of Contents

- d. actuarial services;
- e. internal audit outsourcing services;
- f. management functions or human resources;
- g. broker or dealer, investment adviser, or investment banking services;
- h. legal services and expert services unrelated to the audit; and
- i. any other service that the Public Company Accounting Oversight Board determines, by regulation, is impermissible.

Non-Prohibited Services

Audit Services

The annual Audit services engagement terms and fees will be subject to the specific pre-approval of the Audit Committee. The Audit Committee will monitor the audit services engagement throughout the year and will also approve, if necessary, any changes in terms, conditions and fees resulting from changes in audit scope, Company structure or other matters. The Audit Committee will request that the audit engagement letter with the independent auditor be addressed to the Chairman of the Audit Committee and that the Chairman of the Audit Committee execute the engagement letter on behalf of the Company. The Audit services include the following:

- the annual financial statement audit (including required quarterly reviews) and other procedures required to be performed by the independent auditor to be able to form an opinion on the Company's consolidated financial statements;
- services associated with SEC registration statements, periodic reports and other documents filed with the SEC or other documents issued in connection with securities offerings (e.g., comfort letters, consents), and assistance in responding to SEC comment letters; and
- consultations by the Company's management as to the accounting or disclosure treatment of transactions or events and/or the actual or potential impact of final or proposed rules, standards or interpretations by the SEC, FASB, or other regulatory or standard setting bodies.

Other Audit and Non-Audit Services

In addition to the annual Audit services engagement approved by the Audit Committee, the Audit Committee may grant pre-approval for other audit and non-audit services, which are those services that the Audit Committee believes that the independent auditor reasonably can provide without impairing the independence of the auditor. The other audit and non-audit services set forth below shall be subject to the general pre-approval of the Audit Committee at the cost level determined by the Audit Committee at the time of such approval. All other audit and

non-audit services shall be specifically pre-approved by the Audit Committee.

Audit-Related Services

Audit-related services are assurance and related services that are reasonably related to the performance of the audit or review of the Company's financial statements and that are traditionally performed by the independent auditor. The Audit Committee believes that the provision of Audit-related services does not impair the independence of the auditor, and shall pre-approve the Audit-related services on a quarterly basis. All other Audit-related services not approved at the quarterly meeting of the Audit Committee must be separately pre-approved by the Audit Committee. Audit-related services include the following:

- due diligence services pertaining to potential business acquisitions/dispositions;

- attest services not required by statute or regulation.

Tax Services

The Audit Committee believes that the independent auditor can provide Tax services to the Company such as tax compliance, tax planning and tax advice without impairing the auditor's independence. However, the Audit Committee will not permit the retention of the independent auditor in connection with a transaction initially recommended by the independent auditor, the purpose of which may be tax avoidance and the tax treatment of which may not be supported in the Internal Revenue Code and related regulations. The Audit Committee shall pre-approve any Tax services on a quarterly basis. Tax services include the following:

- U.S. federal, state and local tax compliance, planning and advice international tax compliance, planning and advice; and
- review of federal, state, local and international income, franchise, and other tax returns.

Other Non-audit Services

The Audit Committee may grant pre-approval to those permissible non-audit services classified as Other Non-audit services that it believes are routine and recurring services, and would not impair the independence of the auditor. The Audit Committee shall pre-approve the Other Non-audit services on a quarterly basis. Other Non-audit services which are not approved at the quarterly meeting of the Audit Committee must be separately pre-approved by the Audit Committee.

Supporting Documentation

With respect to each proposed pre-approved service, the independent auditor will provide detailed back-up documentation, at the request of the Audit Committee, regarding the specific services to be provided.

Procedures

Requests or applications to provide services that require separate approval by the Audit Committee will be submitted to the Audit Committee by both the independent auditor and the Company's Chief Financial Officer or other designated officer, and must include a joint statement as to whether, in their view, the request or application is consistent with the SEC's rules on auditor independence.
