Bertil Raihle
Vice President Corporate Control

Interim Report

January March 2005

- prepared in accordance with IFRS

Sales were 2,967 MSEK (3,002)

In local currencies, sales were up 1%

Operating income amounted to 528 MSEK (1,924; 507 excluding settlement income from UST of 1,417 MSEK)

Net profit for the period amounted to 340 MSEK (1,140; 319 excluding settlement income from UST of 821 MSEK)

EPS amounted to 1.04 SEK (3.44; 0.94 excluding settlement income)

Sales for the first quarter decreased by 1 percent and amounted to 2,967 MSEK (3,002). In local currency terms, sales were up by 1 percent.

For snuff, sales declined by 6 percent to 703 MSEK (751) and operating income by 8 percent to 324 MSEK (354). The decrease in sales and operating income is primarily due to lower average prices in the US following the repositioning of the Timberwolf snuff brand, as well as a larger share of US volumes for the value priced brand Longhorn. In total, US snuff volumes were in line with last year. Together, Sweden and Norway experienced lower volumes by 1 percent, but the product mix improved as a result of volume growth for pouched snuff. Operating margin was 46.0 percent (47.1).

Sales of cigars increased by 7 percent, to 734 MSEK (687) and operating income grew by 6 percent, to 136 MSEK (129). Operating margin amounted to 18.6 percent (18.8).

Group operating income for the first quarter reached 528 MSEK (1,924). The closure of the match factory in Valencia, Spain was completed during March and has impacted operating income by 31 MSEK. Negative currency translation effects, after translating subsidiaries' results into Swedish Crowns, amounted to 9 MSEK. Last year's first quarter Group operating income included a gain of 1,417 MSEK regarding the settlement with UST.

Group operating margin during the first quarter was 17.8 percent. Excluding settlement income from UST the operating margin during last year's first quarter was 16.9 percent.

Edgar Filing: SWEDISH MATCH CORP - Form 6-K

EPS for the first quarter was 1.04 SEK (3.44). Excluding the UST settlement income, earnings per share during last years first quarter amounted to 0.94 SEK.

Smokeless Tobacco

Swedish Match has an international presence in smokeless tobacco, and sells products on most major smokeless markets. Swedish Match is a market leader in snuff in Sweden and Norway. On the largest snuff market in the world, the US, as well as in South Africa, Swedish Match has a significant position. In the US, Swedish Match is the largest manufacturer on the market for chewing tobacco. Smokeless tobacco products are increasingly recognized as having significantly lower health consequences than cigarettes. This knowledge, together with increased restrictions for cigarette smoking creates good conditions for organic growth, especially for snuff.

Snuff

Sweden is the world's largest snuff market when it comes to consumption per capita. In Sweden, a substantially larger proportion of the male population uses snuff compared to cigarettes. The number of women using snuff is steadily increasing. The Norwegian market, which is substantially smaller than the Swedish, is at present showing strong growth. The US is the world's largest snuff market measured in number of cans and is approximately five times larger than the Swedish market. In Sweden and Norway Swedish Match has the leading position. In the US, the Company is well positioned in the faster growing value price segments. Some of the best known brands include General, Ettan, and Grov in Sweden, Timberwolf in the US and Taxi in South Africa.

Sales for the first three months amounted to 703 MSEK (751), a decrease of 6 percent. In Sweden and Norway combined, sales volumes decreased by nearly 1 percent. In Sweden the decrease was nearly 2 percent, while sales in Norway increased. In Sweden, there were two fewer shipping days during the first quarter of 2005 than in 2004. Loose snuff declined on the Swedish market, while sales of pouched snuff increased. The proportion of pouched snuff shipped during the period on the Swedish market amounted to 57 percent (54). Competition on the Swedish market has increased. Swedish Match's market share amounted to 96 percent according to the latest Nielsen estimates.

In the US, sales volumes were in line with previous year measured in number of cans. Sales of Longhorn were considerably higher than the year before, while sales for Timberwolf were lower. After the repositioning of Timberwolf in the US in the end

of 2004, the average daily shipments of Timberwolf have increased in each of the past three months through March 2005. Swedish Match's total market share in the growing US market amounted to 9.1 percent (9.0) for the period according to Nielsen estimates.

Operating income amounted to 324 MSEK (354), down 8 percent. The decrease is mainly due to the US market where lower prices for Timberwolf and lower volumes, especially in the beginning of the year, have resulted in lower sales and operating income. The effect of the volume decrease in Sweden was almost compensated by an improved product mix and lower costs. Operating margin was 46.0 percent (47.1).

Chewing Tobacco

Chewing tobacco is sold primarily in the North American market, with concentration in the southern US. Well known brands include Red Man and Southern Pride. Swedish Match is the leading producer of chewing tobacco in the US and the market share is above 43 percent according to Nielsen estimates. The chewing tobacco segment declines each year due to relatively few new consumers. Some consumers choose to use snuff instead.

Sales for the first three months declined by 5 percent to 242 MSEK (254) and operating income declined by 5 percent to 69 MSEK (73). The sales decrease is attributable to a weaker US dollar. Higher average prices compensated for volume loss and sales and operating income increased somewhat in local currency terms. Operating margin amounted to 28.6 percent (28.7).

Cigars and Pipe Tobacco

Swedish Match is one of the world's largest operators within cigars and pipe tobacco. Organic growth opportunities are mainly within cigars, while the consumption of pipe tobacco decreases.

Cigars

Swedish Match is the second largest producer of cigars and cigarillos in sales value. The US is the largest cigar market in the world and Swedish Match has a leading position in the premium segment, and is well established in the segment for machine made cigars. After the US, the most important cigar markets are in Europe, where Swedish Match is well represented in most countries, with an especially good market position in The Netherlands and Scandinavia. In Europe, machine made cigars dominate. Swedish Match offers a full range of different cigars and brands. Well known brands include Macanudo, La Gloria Cubana, White Owl, Garcia y Vega, La Paz, Justus van Maurik, and Wings.

Sales for the first three months amounted to 734 MSEK (687), an increase of 7 percent. In local currency terms, sales increased by 12 percent. Volumes grew for premium cigars in the US and for machine made cigars in Europe. Volumes continued to be strong for machine made cigars in the US, but were slightly lower than the first three months last year as a volume increase for flavored cigars did not fully compensate for a volume decrease for other products.

Edgar Filing: SWEDISH MATCH CORP - Form 6-K

Operating income for the first three months increased to 136 MSEK (129), an increase of 6 percent. In local currency, operating income increased by 10 percent. Operating margin amounted to 18.6 percent (18.8).

Pipe Tobacco and Accessories

Swedish Match is one of the largest pipe tobacco companies in the world and its products are marketed worldwide. The brand Borkum Riff is exported to over 60 countries. The Company has its most significant presence in South Africa, where local production takes place. Best Blend and Boxer are major brands in South Africa. Pipe tobacco consumption declines on most established markets, as the segment attracts relatively few new consumers. However, the demand is increasing in certain smaller export markets.

Sales for the first three months amounted to 216 MSEK (211). Improved price levels and a stronger South African Rand compensated for lower volumes. Operating income was 60 MSEK (60). Operating margin amounted to 27.6 percent (28.4)

Lights

Swedish Match produces and markets matches and lighters globally.

Matches

Swedish Match is a market leader in many markets for matches. The brands are mostly local, and have leading positions in their home countries. Major brands include Swan, Solstickan, Three Stars, and Redheads.

Sales for the first three months amounted to 294 MSEK (324), a decline of 9 percent. Sales volumes declined on most markets, partly due to relatively high wholesale inventories at the beginning of the year.

Operating income was a negative 17 MSEK (negative 19). These figures include costs of 31 MSEK the closure of the Valencia, Spain factory during the first quarter 2005 and charges of 46 MSEK relating to the restructuring of match operations in Europe during the first quarter 2004. Excluding these restructuring costs operating margin amounted to 4.9 percent (8.5).

Lighters

Swedish Match produces and distributes disposable lighters and the main brand is Cricket. Swedish Match's largest market is Russia. Several markets are faced with an intensely competitive situation from, among others, Chinese producers.

Sales for the first three months were 143 MSEK (146), a decrease of 2 percent. Volumes increased marginally and operating income increased to 12 MSEK (8). Operating margin improved to 8.6 percent (5.7).

Other Operations

Other operations include the distribution of tobacco products on the Swedish market, an Irish distribution business, sales of advertising products, as well as corporate overheads. For the first three months, net expenses for other operations were 56 MSEK (expense: 98). Last year's expense included charges of 29 MSEK related to severance pay etc. to the former CEO.

Financing and net financial expense

At the close of the period the Group's net debt amounted to 332 MSEK, as compared to 527 MSEK on December 31, 2004, a decrease of 195 MSEK. Cash flow from operations was 417 MSEK compared with 1,905 MSEK a year ago, which included the settlement with UST. During the period no shares were repurchased, and sales of treasury shares related to options programs amounted to 21 MSEK.

Liquid funds, including short term investments, amounted to 3,243 MSEK at the end of the period, compared with 3,002 MSEK at the beginning of the year.

Net interest expense for the first quarter amounted to a negative 20 MSEK (expense: 42). Other financial items, net, amounted to an expense of 2 MSEK (expense: 4).

Taxes

Total tax for the first quarter amounted to 167 MSEK (738), corresponding to an average tax rate of 33 percent.

Earnings per share

Earnings per share for the first three months amounted to 1.04 SEK (3.44). Last year's earnings per share included a gain of 2.50 SEK as a result of the UST settlement.

Capital expenditure, depreciation and amortization

The Group's direct investments in tangible fixed assets amounted to 103 MSEK (93). The investments include increased capacity for pouched snuff and rationalizations in the cigar operations. Total depreciation and amortization amounted to 113 MSEK (114), of which depreciation on tangible assets amounted to 84 MSEK (85) and amortization of intangible assets amounted to 29 MSEK (29).

Tobacco tax

During the past 12 months, total tobacco tax and value-added tax on tobacco tax paid by Swedish Match in Sweden amounted to 9,768 MSEK (10,105).

Average number of Group employees

The average number of employees in the Group during the first quarter was 15,453 compared with 15,039 for the full year 2004. The number of employees increased primarily as a result of the transfer of the cigar business for UST which includes manufacturing operation in Honduras.

Share structure

No shares have been repurchased during the first quarter. As at March 31, 2005 Swedish Match holds 14,508,557 shares in its treasury, corresponding to 4.3 percent of the total amount of shares. Total shares bought back by Swedish Match since the buyback program started have been repurchased at an average price of 49.30 SEK. The number of shares outstanding, net after repurchase, and after the sale of treasury shares, as per March 31, 2005 amounts to 322,087,624. In addition, the Company has call options issued and outstanding on its treasury shares corresponding to 4,277,814 shares exercisable in gradual stages from 2004-2008.

The Board will propose to the Annual General Meeting on April 27, 2005 a renewed mandate to repurchase shares up to 10 percent of the shares of the Company. In

in addition a proposal will be made to cancel 12,000,000 shares held in treasury. Furthermore, the Board will propose to the Annual General Meeting a reduction in share capital by reducing the shares' nominal value from 2.40 SEK to 1.20 SEK and will propose that statutory reserve of the parent company be reduced by 114 MSEK. Along with this reduction, 532 MSEK will be transferred from restricted equity to unrestricted equity. The released funds are proposed to be used for share repurchases.

Other events

Swedish Match has agreed in principle to acquire all outstanding shares of General Cigar currently owned by the Cullman family. Under this transaction, Swedish Match will own 100 percent of General Cigar. The transaction is expected to be consummated during the month of April. The business will be administratively integrated with the North America Division. The second quarter will be impacted by integration costs estimated to be in the range of 50-75 MSEK. Cost saving effects due to the integration is expected to impact results from the beginning of 2006.

In February 2005, The Second Circuit Court of Appeals in New York ruled in favour of General Cigar in a lawsuit filed by Cubatabaco in 1997 over trademark ownership of the Cohiba brand in the US.

Accounting principles

This interim report is prepared in accordance with the recommendation IAS 34 Interim Financial Reporting from the International Accounting Standards Board.

New accounting principles 2005

As of January 1, 2005 Swedish Match changed its accounting principles for the preparation of financial statements to comply with International Financial Reporting Standards (IFRS). Previously the financial statements were prepared in accordance with Swedish Generally Accepted Accounting Principles (Swedish GAAP).

The financial statements for periods beginning on or after January 1, 2005 are therefore prepared in accordance with IFRS. IFRS has also been retrospectively applied to year 2004 comparable data but with the exception of the reporting of financial instruments (IAS 32 and IAS 39) and share-based payments (IFRS 2). The financial instruments and share-based payments have not been restated as retrospective reporting is not required for these standards.

The financial statements are from January 1, 2005, set up as specified in IAS 1. The main implication of applying IAS 1, is that net income, on the face of the income statement, and equity, on the face of balance sheet, are presented including the minority's interest.

For Swedish Match, the transition to IFRS has changed the reporting of biological assets (IAS 41), goodwill (IFRS 3 and IAS 38), financial instruments (IAS 32 and IAS 39) and share-based payments (IFRS 2). The accounting principles for employee benefits (IAS 19) were already adopted on January 1, 2004 under Swedish GAAP whereas Swedish Match's financial statements already complied with IAS 19 in 2004.

Goodwill and biological assets

Information on changes in accounting principles for biological assets (IAS 41) and goodwill (IFRS 3 and IAS 38), due to the transition to IFRS, is included in the report of operations for 2004 and the annual report for 2004.

Financial instruments

The rules for reporting of financial instruments, IAS 39, imply that financial assets and liabilities, including all derivatives, shall be measured at fair value or amortized cost depending on classification of the asset and liability. The gain or loss from a change in the value of a financial asset or liability shall be recognized, depending on classification, in profit or loss or directly in equity until realized.

According to IAS 39, companies can apply hedge accounting. Under hedge accounting, a company shall link a balance sheet item to a designated hedging instrument. To qualify for hedge accounting under IAS 39, the hedging relationship has to satisfy strict requirements.

The major portion of the Group's borrowing was originally assumed at a fixed interest rate but subsequently converted to a floating rate by means of interest rate swaps. Swedish Match has decided to apply hedge accounting on interest rate swaps that can be linked to the original borrowing.

All other financial instruments within Swedish Match will be subject to fair value accounting and the gain or loss from change in value will be recognized in the profit and loss.

At transition to IFRS, the difference between the fair values or amortized costs of the financial assets and liabilities and the values reported according to Swedish GAAP was recognized directly in equity. Any initial recognition of derivatives not previously recognized was also reported directly in equity. At January 1, 2005, an increase in equity of 31 MSEK was thereby reported. The reporting in accordance with IAS 39 has resulted in a positive effect in net income by 0.5 MSEK during the first quarter 2005.

Share-based payments

The rules for reporting of share-based payments (such as Swedish Match's option program), IFRS2, imply that an assessed fair value of the options shall be expensed during a vesting period or at a vesting date. During the first quarter, net income has been negatively affected by 1 MSEK due to reporting in accordance with IFRS 2.

Additional information

This report has not been reviewed by the Company's auditors. The interim report for the first six months 2005 report will be released July 21.
