Nomura Holdings Announces Issuance of Stock Acquisition Rights for Stock Option Plan

Nomura Holdings, Inc. (the Company) announced today that its Executive Management Board* has approved the issuance of stock acquisition rights in conjunction with the Company stock option plan. The issuance is in accordance with both Articles 280-20 and 280-21 of the Commercial Code of Japan as well as a resolution passed at the 100th Annual General Meeting of Shareholders held on June 25, 2004. The stock acquisition rights will be used as a means of both enhancing performance-based incentives for directors, executive officers and employees of Company and its subsidiaries, as well as in order to acquire talented personnel. Complete details of the issuance are found on the following pages.

The number of stock acquisition rights to be granted to individual directors and executive officers of the Company shall be in accordance with the applicable Compensation Committee resolution.

*The Executive Management Board consists of a number of executive officers and, via Board of Directors resolution, decides important business matters including the issuance of stock acquisition rights.

Table of Contents

Details of Stock Acquisition Rights

1. Issue Date of Stock Acquisition Rights

June 3, 2005

2. Total Number of Stock Acquisition Rights to be Issued

806 stock acquisition rights

(The number of shares per stock acquisition right shall be 1,000 shares)

3. Issue Price of Stock Acquisition Rights

0 yen

4. Type / Number of Shares Under Stock Acquisition Rights

806,000 shares of the Company's common stock

In the event that the shares are split or consolidated after the issuance of the stock acquisition rights, the number of shares for the unexercised stock acquisition rights at the time of the stock-split or stock-consolidation shall be adjusted in accordance with the following formula. Any fraction less than one (1) share resulting from the adjustment shall be disregarded.

$$\text{Adjusted Number of Shares} = \frac{\text{Number of Shares Before Adjustment}}{\text{Ratio of Split or Consolidation}} \times$$

In the event that new shares are issued or the treasury shares are disposed of at a price below the market price (excluding any case of the exercise of stock acquisition rights), the number of shares for the unexercised stock acquisition rights at the time of the issuance of new shares or disposition of shares shall be adjusted in accordance with the following formula. Any fractions less than one (1) share resulting from the adjustment shall be disregarded.

$$\text{Adjusted Number of Shares} = \text{Number of Shares} \times \text{Exercise Price}$$

Edgar Filing: NOMURA HOLDINGS INC - Form 6-K

Before Adjustment

Before Adjustment

Adjusted Exercise Price

Please refer to 5. for the adjusted exercise price.

Table of Contents

In addition to the above, after the issuance of the stock acquisition rights, in the event of a merger of the Company with another company, a company split or capital reduction of the Company or in any other similar event where an adjustment of the number of shares shall be required, the Company may appropriately adjust the number of shares to a reasonable extent.

5. Amount to be Paid upon Exercise of Stock Acquisition Rights

The amount to be paid upon exercise of the stock acquisition rights (the Exercise Price) shall be one (1) yen per share.

In the event that the shares are split or consolidated after the issuance of the stock acquisition rights, the Exercise Price shall be adjusted in accordance with the following formula, and any fraction less than one (1) yen resulting from the adjustment shall be rounded up to the nearest yen.

$$\text{Adjusted Exercise Price} = \frac{\text{Exercise Price Before Adjustment}}{\frac{1}{\text{Ratio of Split or Consolidation}}} \times$$

In the event that new shares are issued or shares are disposed of at a price below the market price (excluding any case of the exercise of stock acquisition rights), the Exercise Price shall be adjusted in accordance with the following formula, and any fraction less than one (1) yen resulting from the adjustment shall be rounded up to the nearest yen.

$$\text{Adjusted Exercise Price} = \frac{\text{Exercise Price Before Adjustment} \times \left(\frac{\text{Number of Outstanding Shares} + \frac{\text{Number of Newly Issued Shares} \times \text{Paid-in Amount per Share}}{\text{Market Price per Share}}}{\text{Number of (Outstanding + Newly Issued) Shares}} \right)}{1}$$

Regarding the above formula, in the event that the Company sells its treasury shares, the Number of Newly Issued Shares shall be replaced by the Number of Treasury Shares Sold .

In addition to the above, after the issuance of the stock acquisition rights, in the event of a merger of the Company with another company, a company split or capital reduction of the Company or in any other similar case where an adjustment of the Exercise Price shall be required, the Company may appropriately adjust the Exercise Price to a reasonable extent.

Table of Contents

6. Total Issue Price of Shares Issuable upon Full Exercise of Stock Acquisition Rights

806,000 yen

7. Amount Credited in Stated Capital of Issue Price

The amount credited in stated capital of issue price per share is one (1) yen.

8. Exercise Period of Stock Acquisition Rights

From June 4, 2007 to June 3, 2012

9. Conditions for the Exercise of Stock Acquisition Rights

(1) Stock acquisition rights may not be exercised partly.

(2) The holder of stock acquisition rights (the Optionee) must satisfy all of the following conditions:

i) The Optionee maintains the position of a director, executive officer or employee of the Company or a company (hereinafter collectively referred to as the Company's Subsidiary), a majority of whose outstanding shares or interests (only limited to those with voting rights) are held directly or indirectly by the Company, during the time between the grant of the stock acquisition rights and the commencement of the exercise period. The Optionee is deemed to maintain the position of a director, executive officer or employee of the Company or the Company's Subsidiary in cases where the Optionee loses such position on account of either of the following situations:

a) When the Optionee is a director or executive officer of the Company or the Company's Subsidiary: retirement from office on account of the expiration of the Optionee's term of office or other similar reasons; or

b) When the Optionee is an employee of the Company or the Company's Subsidiary: retirement due to the attainment of retirement age, transfer by order of the Company or the Company's Subsidiary, retirement mainly due to sickness or injuries arising out of duty, discharge for a compelling business reason, or other similar reasons.

ii) The Optionee, at the time of exercising the stock acquisition rights, does not fall within either of the following categories:

a) The Company or the Company's Subsidiary determines in accordance with their Employment Regulations to dismiss the Optionee by suggestion or disciplinary procedures; or

b) There is any other reason similar to a).

Edgar Filing: NOMURA HOLDINGS INC - Form 6-K

- (3) Regarding successors of the Optionee, the Optionee must have satisfied both conditions in 2. i) and ii) above immediately prior to the occurrence of succession.

Table of Contents

10. Events and Conditions for Cancellation of Stock Acquisition Rights

The Company may, at any time, cancel the stock acquisition rights without any compensation when the Company has acquired the unexercised stock acquisition rights.

11. Restriction on Transfer of Stock Acquisition Rights

Approval of the Board of Directors shall be required for transfer of the stock acquisition rights.

12. Certificates of Stock Acquisition Rights

Certificates of stock acquisition rights shall be issued only upon the request of Optionees.

13. Number of Stock Acquisition Rights Holders

A total of 138 directors, executive officers and employees of the Company and its subsidiaries.

Business Report for the Year Ended March 31, 2005

(April 1, 2004 – March 31, 2005)

I. Overview of Business Activities

1. Our Management Policy and Structure of Business Operations

Our vision is to firmly establish our status as a globally competitive Japanese financial institution. Amid the liberalization and internationalization of Japan's financial market advanced by the market reform, we will seek to realize our vision by capturing the securities business from a broader perspective, strengthening and expanding our base in the domestic businesses and consolidating our comprehensive capabilities domestically and overseas.

We intend to maintain an average consolidated ROE of 10 to 15% over the medium- to long-term as a management target to increase shareholders' value.

In executing our business strategy, we focus on business lines, which are linked globally, rather than individual legal entities. In order to accelerate our business on a global scale, from 1st April 2005, we have undertaken certain reorganizations in our business lines. Under the reorganizations, our Global Wholesale has been segmented to Global Markets, Global Investment Banking, Global Merchant Banking, which combined with Domestic Retail and Asset Management will consist of five business lines. In addition, within Global Markets, together with Global Fixed Income and Global Equity, we have established Asset Finance as a new business line.

We have established these business lines to meet client requirements, with the objective to expand and strengthen our business both at home and abroad. In order to achieve this, we have delegated appropriate executive authority to each of the respective business lines, with the aim to increase our competitive position through the continuation of establishing a solid platform via linkages between the business lines and enhancement of professional skills within each business line.

Table of Contents

Business Line:

2. Progress and Achievement of Our Business Activities

(1) Summary

The Japanese economy has been at a standstill since summer 2004 due mainly to inventory adjustments in the information technology and digital sectors. At the same time, the basic materials industry remained robust due to tight supply and demand globally. The stock market reached a high in April, quickly factoring in the peak in the economy, before hitting a downturn and trading within a narrow range. The TOPIX index rebounded from December on the back of expectations of an economic recovery in the fiscal year ended March 31, 2006 and was back near the April 2004 high in March 2005. In the market, interest rose in regards to offering returns to stockholders through such moves as paying out dividends and enacting share buybacks, while mergers and acquisitions came under the spotlight. From a supply and demand standpoint, foreign investors continued to be a major driver in the period as net buyers to the tune of more than 6 trillion yen. The debt market, meanwhile, saw the yield on the newly issued 10-year Japanese Government bonds rise to around 1.8% in June and July 2004 in step with improved business confidence. The yield then moved between about 1.3-1.6%.

Amid this environment, we reported net revenue of 799.2 billion yen for the year ended March 31, 2005, a decrease of 0.5% from the prior year. Non-interest expenses were 594.4 billion yen, an increase of 14% from the prior year.

Income before income taxes was 204.8 billion yen for the year ended March 31, 2005, down 28% from the prior year. Net income was 94.7 billion yen, 45% below the prior year.

Table of Contents

Total assets were 34.5 trillion yen at March 31, 2005, an increase of 4.7 trillion yen from March 31, 2004, and total shareholders' equity increased by 82.7 billion yen from March 31, 2004, to 1,868.4 billion yen at March 31, 2005. Our return on equity was 5.2% for the year ended March 31, 2005.

(2) Business Segments

a. Operating Results of Domestic Retail

	Millions of yen	
	Year ended March 31,	
	2004	2005
Non-interest revenue	¥ 304,035	¥ 301,464
Net interest revenue	1,722	2,903
Net revenue	305,757	304,367
Non-interest expenses	226,213	223,200
Income before income taxes	¥ 79,544	¥ 81,167

Domestic Retail has further strengthened its capabilities to provide investment consultation services in order to respond to customers' investment needs by offering stocks, investment trusts, domestic bonds, foreign currency bonds and a variety of other financial products. Net revenue decreased by 0.5% from 305,757 million yen for the year ended March 31, 2004 to 304,367 million yen for the year ended March 31, 2005. Non-interest expenses decreased by 1% from 226,213 million yen for the year ended March 31, 2004 to 223,200 million yen for the year ended March 31, 2005. As a result, income before income taxes increased by 2% from 79,544 million yen for the year ended March 31, 2004 to 81,167 million yen for the year ended March 31, 2005.

b. Operating Results of Global Wholesale

	Millions of yen	
	Year ended March 31,	
	2004	2005
Non-interest revenue	¥ 290,845	¥ 264,848
Net interest revenue	74,891	61,022
Net revenue	365,736	325,870
Non-interest expenses	227,227	239,502

Edgar Filing: NOMURA HOLDINGS INC - Form 6-K

Income before income taxes	<u>¥ 138,509</u>	<u>¥ 86,368</u>
----------------------------	------------------	-----------------

Table of Contents

Global Wholesale has made an effort to manage its business portfolio based on global customers' order-flow. Net revenue decreased by 11% from 365,736 million yen for the year ended March 31, 2004 to 325,870 million yen for the year ended March 31, 2005, due primarily to a decrease in net gain on trading relating to bonds. Non-interest expenses increased by 5% from 227,227 million yen for the year ended March 31, 2004 to 239,502 million yen for the year ended March 31, 2005. As a result, income before income taxes decreased by 38% from 138,509 million yen for the year ended March 31, 2004 to 86,368 million yen for the year ended March 31, 2005. In April 2004, the Global Wholesale segment was reorganized in order to enhance specialty services and strengthen our global structure. During the year ended March 31, 2005, the Global Wholesale consisted of three business lines: Global Markets, which was composed of Fixed Income and Equity, Investment Banking, and Merchant Banking.

Global Markets

Net revenue decreased by 14% from 284,147 million yen for the year ended March 31, 2004 to 243,087 million yen for the year ended March 31, 2005, due primarily to a decrease in net gain on trading relating to bonds. Non-interest expenses increased by 12% from 163,304 million yen for the year ended March 31, 2004 to 182,901 million yen for the year ended March 31, 2005. As a result, income before income taxes decreased by 50% from 120,843 million yen for the year ended March 31, 2004 to 60,186 million yen for the year ended March 31, 2005.

Investment Banking

Net revenue increased by 6% from 70,869 million yen for the year ended March 31, 2004 to 75,445 million yen for the year ended March 31, 2005, partly due to a revitalization in equity capital markets. Non-interest expenses decreased by 14% from 53,703 million yen for the year ended March 31, 2004 to 46,231 million yen for the year ended March 31, 2005, due primarily to restructuring of business operations. As a result, income before income taxes increased by 70% from 17,166 million yen for the year ended March 31, 2004 to 29,214 million yen for the year ended March 31, 2005.

Merchant Banking

Net revenue decreased by 32% from 10,720 million yen for the year ended March 31, 2004 to 7,338 million yen for the year ended March 31, 2005, primarily due to funding costs for its assets in Europe, although there were exit transactions and a rise in the fair value of investments for this period. Non-interest expenses increased by 1% from 10,220 million yen for the year ended March 31, 2004 to 10,370 million yen for the year ended March 31, 2005. As a result, income before income taxes was 500 million yen for the year ended March 31, 2004 and loss before income taxes was 3,032 million yen for the year ended March 31, 2005.

Table of Contents

c. Operating Results of Asset Management

	Millions of yen	
	Year ended March 31,	
	2004	2005
Non-interest revenue	¥ 34,300	¥ 42,239
Net interest revenue	1,657	1,283
Net revenue	35,957	43,522
Non-interest expenses	37,004	36,086
Income (loss) before income taxes	¥ (1,047)	¥ 7,436

Net revenue increased by 21% from 35,957 million yen for the year ended March 31, 2004 to 43,522 million yen for the year ended March 31, 2005, due primarily to an increase in asset management and portfolio service fees reflecting the rise in the net assets of stock investment trusts. Non-interest expenses decreased by 2% from 37,004 million yen for the year ended March 31, 2004 to 36,086 million yen for the year ended March 31, 2005. As a result, loss before income taxes was 1,047 million yen for the year ended March 31, 2004 and income before income taxes was 7,436 million yen for the year ended March 31, 2005.

d. Other Operating Results

Other operating results include gain (loss) on investment securities, equity in earnings (losses) of affiliates and other financial adjustments. Income before income taxes was 8,499 million yen for the year ended March 31, 2004 and 12,611 million yen for the year ended March 31, 2005.

(3) Financial Position

Total assets at March 31, 2005 were 34.5 trillion yen, up 4.7 trillion yen, compared with March 31, 2004, reflecting an increase in trading-related assets. Total liabilities at March 31, 2005 were 32.6 trillion yen, up 4.7 trillion yen, compared with March 31, 2004, reflecting an increase in trading-related liabilities. Trading-related balances (assets/liabilities) include trading assets and private equity investments, collateralized agreements, trading liabilities, collateralized financing and receivables/payables arising from unsettled trades (included in receivables or payables).

Table of Contents

3. Our Current Challenges

The business environment which we are facing, continues to change at a rapid pace on the back of further structural adjustments in the domestic money flows as well as deregulation taking place within the economy. In this environment, we will continue to analyze markets, viewing the securities business from a wider perspective, accelerate our global operations to meet the diverse requirements of our customers on a prompt and flexible basis, with the ultimate objective in providing the best service for various types of investments.

In Domestic Retail, we will aim to expand and strengthen our customer base and assets under management, through a more extensive approach in ensuring that we are able to meet our customers' diversifying requirements. In addition, we will continue our efforts in areas such as investor education programs, in order to expand the investor universe, leading to further activity in the financial markets.

In Global Markets, through the advancement of professional skills in Global Fixed Income, Global Equity and Asset Finance, as well as close coordination with Domestic Retail and Global Investment Banking, we will aim to solidify a strong platform in providing solutions to meet the diversifying requirements of our customers.

In Global Investment Banking, we aim to promptly provide high value added solutions, such as Balance Sheet Operations enhancing shareholder value, M&A ideas on a global scale to Japanese corporations who are now in a position of excess cash, having experienced a recovery in earnings, after intensive restructurings.

In Global Merchant Banking, we will commit our own capital towards investment projects (invest towards companies) expanding our business. Through cross coordination between business lines, we will undertake to increase the value of our investments with the aim to maximize our return through exiting such investments.

In Asset Management, we continue to enhance performance by continuing to offer a variety of investment opportunities, and increasing assets under management, through maintaining a strong sales support system and delivering products which are best suited to our customers. On defined contribution pension plan business, in the anticipation that more companies will adopt defined contribution pension plans, through enhancing the offering of integrated services ranging from consulting for plan implementation and investment education to supply products, we aim to further broaden our customer base.

Table of Contents

We will aim to fully utilize our combined strengths on an expedient basis, continuing our efforts in the development of the Japanese economy and expansion of its financial market, whilst expanding our client horizon and strengthen our earnings base, to enhance shareholder value.

4. Our Financing

With respect to financing, the Company has continued to improve the efficiency of the group's cash management structure by achieving operational efficiencies in cash management activities through utilizing residual cash amongst the Nomura Group companies and by centralizing its external funding activities at the Company and the core funding entity, namely Nomura Europe Finance N.V.

At the same time, the Company has strived to construct an optimal corporate finance structure by accommodating the firm's liability structure with the liquidity requirements of its assets in order to safeguard the liquidity of the firm.

5. Our Capital Expenditures

Capital expenditures were mainly made with a focus on investing in systems related to the securities businesses aiming to support business promotion of the domestic and global business lines. Specifically, investments were made on: the development of next generation system infrastructure designed to meet a diversity and expansion of business in the future, the start of new domestic retail business in which Nomura Securities Co., Ltd., ties up with several banks and they intermediate securities investment orders from their customers to Nomura Securities Co., Ltd., the improvement of certain functions and services of Nomura Home Trade, the on-line trading service, and system enhancements for the trading system in the wholesale business area.

Capital expenditures were also made on opening new domestic branches by Nomura Securities Co., Ltd., in order for further enhancement of a service network of domestic retail business. In this fiscal year, Hachinohe, Ohta, Sasebo and Kumagaya branches were newly opened.

Note 1: Capital is stated in the functional currency of each subsidiary. Percentages with * in the Company's Percentage of Voting Right column include voting rights from indirect holding shares.

Note 2: The total number of subsidiaries as of March 31, 2005 was 516, mainly as a result of an increase of private equity investments of Nomura Principal Finance Co., Ltd., a wholly-owned subsidiary of the Company. Of these subsidiaries, 356 subsidiaries principally from Nomura Babcock & Brown Co., Ltd. (NBB) which operate in the leasing business primarily as anonymous associations were precluded from the scope of consolidation, because NBB did not primarily benefit from or was not primarily liable for the assets owned and profits and losses generated by these associations. The total number of consolidated subsidiaries was 160 as of March 31, 2005. The total number of affiliates being applied the equity method of accounting such as Nomura Research Institute, Ltd. was 17 as of March 31, 2005.

Table of Contents

(2) Progress and Achievement of Business Combinations

- a. Nomura Realty Capital Management Co., Ltd., a wholly-owned subsidiary of the Company, succeeded facility management business for the Company by way of corporate separation of Nomura Land and Building Co., Ltd., the Company's affiliate, in August 2004.

In addition to the above, it changed its company name to Nomura Facilities, Inc.

- b. The current achievement of business combinations is disclosed in I. Overview of Business Activities .

Table of Contents

(6) Conditions to exercise stock acquisition rights

1. Not to be partial exercise of one stock acquisition right
2. For a person to whom stock acquisition rights have been given (the Optionee), to satisfy all of the following conditions
 - i) The Optionee maintains position as a director, executive officer or employee of the Company or a company, a majority of whose outstanding shares or interests (only limited to those with voting rights) are held directly or indirectly by the Company (hereinafter collectively referred to as the Company's Subsidiary), during the time between the grant of the stock acquisition rights and the commencement of the exercise period. The Optionee is deemed to maintain such position as a director, executive officer or employee of the Company or the Company's Subsidiary in cases the Optionee loses such position by either of the following situations:
 - a) Regarding the Optionee as a director or executive officer of the Company or the Company's Subsidiary: retirement from office on account of the expiration of the Optionee's term of office or other similar reasons; or
 - b) Regarding the Optionee as an employee of the Company or the Company's Subsidiary: retirement due to the attainment of the retirement age, transfer by order of the Company or the Company's Subsidiary, retirement mainly due to sickness or injuries, discharge for a compelling business reason, or other similar reasons.
 - ii) The Optionee, at the time of exercising the stock acquisition rights, does not fall within either of the following:
 - a) The Company or the Company's Subsidiary determines in accordance with their Employment Regulations to dismiss the Optionee by suggestion or disciplinary procedures; or
 - b) Any other reason similar to a).
3. Regarding the successors of the Optionee, the Optionee must have satisfied both the conditions of 2. i) and ii) above immediately prior to the occurrence of succession.

(7) Cancellation events and conditions of stock acquisition rights

In the event that the Company has acquired stock acquisition rights, the Company may, at any time, cancel the stock acquisition rights without any compensation.

(8) Details of favorable terms

Stock acquisition rights have been allotted in gratis to the directors, executive officers, and employees of the Company and its subsidiaries. The fair value of the stock acquisition right is 1.62 million yen per right as of the date of allotment.

10. Matters to be Necessary for the Performance of Functions of the Audit Committee

The resolution of the Board of Directors regarding the performance of functions of the Audit Committee is as follows:

A. Matters regarding the Business Execution Structure

- (1) Executive officers shall execute their business in accordance with the management organization and allocation of business duties determined by the Board of Directors.
- (2) Decision-making for matters that are delegated to executive officers by the Board of Directors shall be determined by the following organizations or procedures:

Edgar Filing: NOMURA HOLDINGS INC - Form 6-K

- (a) The Board of the Executive Officers: Allocation of capital resources in the Nomura Group;
 - (b) The Executive Management Board: Material matters regarding the Nomura Group;
 - (c) The Internal Controls Committee: Matters regarding internal control and procedures and promotion of proper corporate behavior within the Nomura Group;
 - (d) The Commitment Committee: Material matters regarding less liquid positions of the Nomura Group and matters regarding important positions from a risk management perspective of the Nomura Group; or
 - (e) Collective decision-making system: Matters other than (a), (b), (c) and (d)
- (3) Executive officers shall focus on Business Lines, Business Support Lines and other divisions to establish the appropriate organizations of the Nomura Group and effectively manage such organizations.

Table of Contents

B. Matters regarding the Audit System

- (1) The Audit Committee shall enforce its powers prescribed by laws and regulations to audit the legality, adequacy and efficiency of the business execution by executive officers by use of the independent auditor, other accounting firms and internal staff.
- (2) In order to support audit by the Audit Committee and supervise effectively the business execution by the Board of Directors, directors appointed by the Board of Directors (hereinafter referred to as Audit Mission Directors) shall perform the following duties in accordance with the instructions by the Audit Committee or a member of the Audit Committee designated by the Audit Committee:
 - (a) attendance at meetings of the Board of Executive Officers, the Executive Management Board, the Internal Controls Committee, the Commitment Committee and any other important committees;
 - (b) hearing of report on the business execution from executive officers and employees;
 - (c) inspection and investigation of minutes of the meetings prescribed in item (a) above, documents circulated for obtaining approval and other documents relating to the business execution;
 - (d) inspection of the Company or its subsidiaries (including its consolidated subsidiaries); and
 - (e) report to the Audit Committee on matters prescribed in items from (a) to (d) above; provided, however, that the Audit Mission Directors shall not be precluded from reporting to the Board of Directors.
- (3) The Company shall staff five or more employees, including a Managing Director at the Office of Audit Committee who will be dedicated to supporting the audit.
- (4) The Audit Committee or a member of the Audit Committee designated by the Audit Committee shall evaluate employees of the Office of the Audit Committee. The Company shall obtain consent regarding the recruit, transfer or punishment of the employees of the Office of Audit Committee from the Audit Committee or a member of the Audit Committee designated by the Audit Committee.
- (5) The Audit Committee may engage attorneys, certified public accountants, consultants or other outside advisers as deemed to be necessary.

C. Reporting System on the Business Execution

- (1) Executive officers shall report on the status of the business execution in accordance with the following items; provided, however, that they shall immediately report material matters to the Board of Directors or any other appropriate committees.
 - (a) Executive officers shall report, not less frequently than quarterly, the following items to the Board of Directors. In this case, the executive officers may delegate such reports to other executive officers:
 - i) the status of discussion at meetings of the Board of Executive Officers, the Executive Management Board, the Internal Controls Committee and the Commitment Committee;

- ii) the financial condition of the Nomura Group;
 - iii) the status of the business execution at Business Lines; and
 - iv) any other important matters regarding the business execution.
- (b) In the event that directors and executive officers find any fact in the following items, they shall report immediately to any member of the Audit Committee or any Audit Mission Director. The Audit Mission Director shall report to any member of the Audit Committee immediately upon receiving such reports:
- i) any legal or financial problems that may have a material impact on the business or financial conditions of the Nomura Group; and
 - ii) any order from any regulatory authority or other facts that may cause the Nomura Group to incur a great loss.
- (2) In the event that executive officers or employees are requested to report on the business execution by a member of the Audit Committee designated by the Audit Committee or any Audit Mission Director, they shall immediately report on such matters.

Table of Contents

D. Retention and Maintenance of Information regarding the Business Execution

Executive officers shall retain the following documents (including their electronic records. The same applies hereinafter.) and the relevant materials for not shorter than ten years and maintain the access to such documents if necessary:

- (1) minutes of the General Shareholders Meetings;
- (2) minutes of the Board of Directors meetings;
- (3) minutes of the Nomination, Audit and Compensation Committees meetings;
- (4) minutes of the Board of Executive Officers meetings;
- (5) minutes of the Executive Management Board meetings;
- (6) minutes of the Internal Controls Committees meetings;
- (7) minutes of the Commitment Committee meetings;
- (8) minutes of meetings of any other committees established under a special mission directed by the President & CEO;
- (9) documents regarding requests for managerial decisions;
- (10) contracts;
- (11) accounting records, balance sheets, income statements, business reports and their supplementary schedules; and
- (12) copies of the documents submitted to the tax office and other regulatory authorities and stock exchanges.

E. Risk Management Policy

- (1) Executive officers shall acknowledge the importance of classification, evaluation, monitoring and management of the following risks relating to the execution of the Nomura Group's business and establish the structure for control and management of such risks at each company of the Nomura Group.
 - (a) Market Risk

Edgar Filing: NOMURA HOLDINGS INC - Form 6-K

Market risk refers to the potential loss of the Company's assets resulting from changes in market prices, interest rates, currency exchange rates or other market factors.

(b) Credit Risk

Credit risk refers to the potential loss in the value of a transaction because of a counterparty or issuer failing to perform its contractual commitment when the Company has a claim to the counterparty or holds the securities issued by the issuer.

(c) Event Risk

Event risk refers to the potential loss in value that the Company may suffer through unpredictable events that cause unexpected market price moves. Event risks can be caused by changes in political or economic factors.

(d) Liquidity Risk

Liquidity risk refers to the following:

- i) the potential loss that the Company may suffer through reduced access to funding resources or circumstances that would oblige the Company to finance at unusually high interest rates upon decreases of the performance of the Company and others; and
- ii) the potential loss that the Company may suffer through failure to trade in a market or circumstances that would oblige the Company to trade at unusually disadvantageous prices upon market disruption and others.

(e) Operational Risk

Operational risk refers to the potential costs associated with failure to process the business properly or other errors or improper actions by officers and employees or malfunction of the system management.

(f) Legal Risk

Legal risk refers to the risk of non-compliance with applicable legal and regulatory requirements, and potential loss from the inability to recover payments due from a counterparty owing to the non-enforceability of a contract.

- (2) Executive officers shall report to the Executive Management Board the status of risk management systems at each company within the Nomura Group. The Executive Management Board shall analyze the risk management status of the entire Nomura Group based on the report and take appropriate measures to establish the most suitable risk management system for the business.

Table of Contents

F. Compliance System

- (1) Executive officers shall strive to maintain compliance systems at each company within the Nomura Group. Executive officers shall report to any member of the Audit Committee or any Audit Mission Director, and to the Executive Management Board in the event that the executive officers find any material illegal activities or other important matters regarding compliance at a company within the Nomura Group. The Executive Management Board shall discuss such matters and, if necessary, based on the results of the discussion, recommend the company take appropriate measures.
- (2) Executive officers shall establish a Compliance Hotline as a tool that employees can use to report questionable conduct from the view point of compliance directly to the personnel appointed by the Board of Directors (the Information Recipients).
- (3) The Board of Directors shall appoint (i) at least one non-executive director of the Company or outside lawyer; and (ii) one executive officer of the Company as Information Recipients.
- (4) The executive officer, as an Information Recipient, shall designate personnel in each of America, Europe and Asia & Oceania Region who will receive internal reporting from the relevant employees (the Regional Information Recipients). The executive officer as an Information Recipient shall receive reports from the Regional Information Recipients on material internal reporting and the responses.
- (5) The Company shall permit anonymous submission from employees regarding accounting or auditing matters of questionable conduct from the viewpoint of compliance.
- (6) The Information Recipients shall report to the Internal Controls Committee, not less frequently than quarterly, the status of operations of the Compliance Hotline; provided, however, that the Information Recipients or Regional Information Recipients shall immediately report to the Audit Committee on material matters that may violate laws and regulations.
- (7) The Company shall have its consolidated private investees in the Merchant Banking business (the Private Investees) establish whistle-blowing procedures. The Company shall establish an appropriate structure under which information recipients in each of the Private Investees will immediately report to the Audit Committee, through the executive officer as an Information Recipient, on material matters that may violate laws and regulations; provided, however, that the foregoing may not be applied to a Private Investee that deems to have minor effect on the Nomura Group in terms of its financial conditions, reputation and corporate social responsibilities.
- (8) In the event that the Audit Committee recognizes problems in the operation of the Compliance Hotline, the Audit Committee may express its opinion and request the executive officers to take steps to improve the Compliance Hotline.

Table of Contents

G. Internal Audit System

- (1) Executive officers shall establish an internal audit division and implement an internal audit program that will help ensure effective and adequate internal control and procedures regarding the entire business of the Nomura Group.
- (2) The Internal Controls Committee shall discuss or determine basic matters concerning internal control and procedures at each company within the Nomura Group, the annual internal audit plan and the status of internal audit and its results.
- (3) Executive officers shall report the following items to the Internal Controls Committee:
 - (a) executive officers shall report on the annual internal audit plan of the Nomura Group not less frequently than annually; and
 - (b) executive officers shall report on the status of internal audit in the Nomura Group and its results not less frequently than quarterly.
- (4) Any member of the Audit Committee may recommend that executive officers (i) change the internal audit plan, (ii) implement additional audit procedures; (iii) establish an improvement plan regarding the annual internal audit plan, the status of internal audit and its results.

H. Audit of Financial Reports and Statements

- (1) The Audit Committee has the following powers regarding the appointment of an independent auditor and other accounting firms that audit financial statements (including financial statements in Form 20-F submitted to the U.S. Securities and Exchange Commission):
 - (a) determining particulars of proposals concerning the election and dismissal of the independent auditor and the non-retention of the independent auditor to be submitted to a General Meeting of Shareholders; and
 - (b) determining particulars of proposals concerning the election and dismissal of other accounting firms to be submitted to the Board of Directors or the Executive Management Board.
- (2) The Audit Committee shall approve the annual audit plan of the independent auditor and other accounting firms (including key audit items and staffing).
- (3) The Audit Committee shall audit other matters than those relating to accounting in financial reports (including consolidated financial statements) and their supplementary schedules (hereinafter collectively referred to as financial reports) and financial statements in accordance with laws and regulations and procedures established by the Audit Committee.
- (4) The Audit Committee shall hear the report from the independent auditor and other accounting firms on the audit reports on matters relating to accounting in financial reports and financial statements through financial reports and statements (including disagreements between executive officers and such auditor or accounting firms regarding financial reporting) and determine whether the method and result of the audit are appropriate.
- (5) The Audit Committee may request executive officers, the independent auditor or other accounting firms that audit financial statements to explain about important financial problems regarding preparing financial reports and financial statements (including matters concerning election or application of critical accounting policies and internal control over financial reporting).

Table of Contents

11. Compensation Committee's Policies about Directors and Executive Officers' Compensation

The Nomura Group's vision is to establish its status firmly as a globally competitive Japanese financial institution. As a management target to indicate an increase of shareholders' value, the Company intends to maintain an average consolidated ROE of 10 to 15% over the medium- to long-term.

Our fundamental policies in the Nomura Group's directors and executive officers' compensations (Executive Compensation) are,

i) to link Executive Compensation with the achievement of strategic business objectives above and award them in a manner that further motivates them toward achievement of their respective goals and thereby maximize their performance, and

ii) to introduce equity based compensation and enhance their long term incentives.

Executive Compensation is composed of base salary, cash bonus and stock bonus.

(1) Base Salary

Base salary for each of directors and executive officers is calculated by aggregating the following amounts.

i) Amount reflecting his/her career

ii) Amount reflecting his/her post and responsibilities

iii) Amount reflecting previous year's consolidated ROE (Note)

(2) Cash Bonus

In determining cash bonus payable to each of directors or executive officers, we consider both quantitative and qualitative factors. Quantitative factors include consolidated net income, consolidated return on equity (ROE) and segment / business-line results. Qualitative factors include achievement of strategic business objectives, achievement of pre-established goals of individuals and subjective assessments of individual contribution. Aggregated cash bonus amount of directors and executive officers of Nomura Group does not exceed 3% of the consolidated net income of Nomura.

(3) Stock Bonus

In determining the stock bonus payable to each of directors or executive officers, we consider factors not only such factors as consolidated net income or consolidated ROE but also such as proportion of cash bonus, stock bonus and base salary and costs and effects in awarding such bonus.

Note: In calculating the amount of the base salary based on previous years ROE, we refer to the table below.

	X<0%	0%≤ X< 5%	5%≤ X≤10%	10%<X≤ 15%	15%<X
Consolidated ROE (x) Amount	0	Y*1/3	Y*2/3	Standard Amount (Y)	Y*4/3

Table of Contents**12. Compensation paid to Directors and Executive Officers**

(Amount in Millions of yen)

	Directors		Executive Officers		Total	
	Number	Amount	Number	Amount	Number	Amount
Fixed amount based on resolution of Compensation Committee	8	240	33	2,564	41	2,805
Non-cash compensation based on resolution of Compensation Committee	2	0	3	1	5	1
Total		240		2,565		2,806

(Note) There were 11 Directors and 31 Executive Officers as of March 31, 2005. Four Directors were serving concurrently as Executive Officers, whose compensation are included in those of Executive Officers. The number above in the table includes one director who retired on June 25, 2004 and two executive officers who retired on March 31, 2004.

13. Fees to Independent Accountants

(Amount in Millions of yen)

Item	Amount
(1) Aggregate Fees to be paid by the Company and its subsidiaries to the independent accountants	740
(2) Out of the aggregate fees (1) above, aggregate fees for audit services prescribed in Article 2, Paragraph 1 of the Certified Public Accountant Law to be paid by the Company and its subsidiaries to the independent accountants	574
(3) Out of the aggregate fees (2) above, fees to be paid by the Company to the independent accountants	129

(Note) The audit agreement between the Company and the independent accountants does not separate or is not able to separate effectively audit fees for audit under the Special Commercial Law and the Securities and Exchange Law. Therefore, the fees (3) above include audit fees for audit under the Securities and Exchange Law.

IV. Subsequent Events

There are no material subsequent events.

Note: Amounts and numbers of shares presented in this Business Report have been truncated from the year ended March 31, 2005, except for amounts and numbers described in Our Results of Operations and Assets regarding the year ended March 31, 2004 or before.

Table of Contents

Notes:

[Basis of Presentation of Consolidated Financial Statements]

1. Basis of presentation

The consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) pursuant to the provision of paragraph 1 of Article 179 of the Enforcement Regulations for the Japanese Commercial Code. However, certain disclosures required under U.S. GAAP are omitted pursuant to the same provision.

2. Scope of consolidation and entity method application

The consolidated financial statements include the accounts of the Company and other entities in which it has a controlling financial interest (collecting referred to as Nomura). Because the usual condition for a controlling financial interest in an entity is ownership of a majority of the voting interest, the Company consolidates its wholly-owned and majority-owned subsidiaries. In accordance with Financial Accounting Standards Board Interpretation (FIN) No. 46, Consolidation of Variable Interest Entities and the revised Interpretation, the Company also consolidates any variable interest entities for which Nomura is the primary beneficiary. Investments in entities in which Nomura has significant influence over operating and financial decisions (generally defined as 20 to 50 percent of voting interest) are accounted for using the equity method of accounting and are reported in Investments in and advances to affiliated companies.

[Significant Accounting Policies]

3. Basis and methods of valuation for securities, derivatives and the others

(1) Trading assets and trading liabilities

Trading assets and trading liabilities, including contractual commitments arising pursuant to derivative transactions, are recorded on the consolidated balance sheet on a trade date basis at fair value. The related gains and losses are recognized currently in income.

(2) Private equity investments

Private equity investments are primarily carried at fair value. Corresponding changes in the fair value of these investments are recognized currently in income.

(3) Investments in equity securities and non-trading debt securities

Investments in equity securities consist of marketable and non-marketable equity securities that have been acquired for operating purposes and other than operating purposes. In accordance with U.S.GAAP for broker-dealers, investments in equity securities for operating purposes and other than operating purposes are recorded at fair value and unrealized gains and losses are recognized currently in income.

Investments in equity securities for operating purposes are recorded as Investments in equity securities in the consolidated balance sheet. Investments in equity securities for other than operating purposes are included in the consolidated balance sheet in Other assets-Other.

Non-trading debt securities are recorded at market or fair value together with the related hedges and the related gains and losses are recognized currently in income.

Table of Contents

4. Depreciation and amortization

Depreciation for tangible assets is generally computed by the straight-line method over the estimated useful lives of each asset according to general class, type of construction and use. Software is generally amortized by the straight-line method over the estimated useful lives. Intangible assets that have determinable lives will continue to be amortized by the straight-line method over the estimated useful lives.

5. Basis of allowances

(1) Allowance for loan losses

Allowances for loan losses on margin transaction loans related to broker dealers and loans receivable from financial institutions in the inter-bank money market used for short-term financing are provided for based primarily on historical loss experience.

Allowances for loan losses on loans receivable in connection with banking/financing activities reflect management's best estimate of probable losses. The evaluation includes an assessment of the ability of borrowers to pay by considering various factors such as changes in the nature of the loan, volume of the loan, deterioration of pledged collateral, delinquencies and the current financial situation of the borrower.

(2) Accrued pension and severance costs

In accordance with Statement of Financial Accounting Standards Board No.87, Employers' Accounting for Pensions, accrued pension and severance costs are recorded based on the fair value of the projected benefit obligation and the plan assets at the end of year to prepare for the employee's retirement and severance benefits. The minimum pension liability adjustment are additionally provided when the accumulated benefit obligation, excluding the assumption about future compensation levels from the projected benefit obligation, exceeds the fair value of plan assets and accrued pension liabilities.

The unrecognized prior service cost is amortized on a straight-line basis over the average remaining service period of active participants.

Actuarial gains and losses in excess of 10% of the greater of the projected benefit obligation or the fair value of plan assets are amortized on a straight-line basis over the average remaining service period of active participants.

Table of Contents

6. Hedging activities

In addition to its trading activities, Nomura, as an end user, uses derivative financial instruments to manage its interest rate and currency exposures or to modify the interest rate characteristics of certain non-trading assets and liabilities.

These derivative financial instruments are linked to specific assets or specific liabilities and are designated as hedges as they are effective in reducing the risk associated with the exposure being hedged, and they are highly correlated with changes in the market or fair value of the underlying hedged items, both at inception and throughout the life of the hedge contracts. Nomura applies fair value hedge accounting to these hedging transactions, and the relating unrealized profit and losses are recognized together with those of the hedged assets and liabilities as interest revenue or expenses.

7. Foreign currency translation

For the consolidated financial statements, all assets and liabilities of foreign subsidiaries are translated into Japanese yen at exchange rates in effect at the balance sheet date; all revenue and expenses are translated at the average exchange rates for the respective years and the resulting translation adjustments are accumulated and reported as Cumulative translation adjustments in shareholder's equity. Foreign currency assets and liabilities are translated at exchange rates in effect at the balance sheet date and the resulting translation gains or losses are currently credited or charged to income.

8. The Company's wholly-owned domestic subsidiaries adopt the consolidated tax return system.

[Notes to the Consolidated Balance Sheet]

9. Assets pledged

Pledged securities that can be sold or re-pledged by the secured party, including Gensaki Repo transactions, included in trading assets, private equity investments and non-trading debt securities.	7,753,632 million yen
Securities and loans receivables, which have been pledged as collateral, primarily to stock exchanges and clearing organizations, without allowing the secured party the right to sell or re-pledge them.	1,741,910 million yen
The asset balances, which have been pledged as collateral for secured loans from special purpose entities.	449,587 million yen
Securities and loans receivables, which have been pledged to collateralize borrowing transactions, and pledged for other purposes. *	3,707,186 million yen

* In addition, Nomura repledged ¥179,368 million of securities borrowed as collateral for bank loans and other loans.

Table of Contents

10. Contingencies

(1) Claims by UK Tax Authority

At the balance sheet date, one of the Company's European subsidiaries, Nomura International plc (NIP), is subject to a claim by the UK Tax Authorities. This relates to employers national insurance. Reserves have been established against this claim, which Nomura believes to be adequate. However there is a reasonable possibility that additional amounts may be incurred. The management of Nomura believes that the estimated range of the additional possible amount is between £0 and £54 million. This range and the level of reserves are adjusted when there is more information available, or when an event occurs requiring a change to the reserves.

(2) Legal and Arbitration Proceedings

In the normal course of business, Nomura is involved in lawsuits and other legal proceedings and, as a result of such activities, is subject to ongoing legal risk. The management of Nomura believes that the ultimate resolution of such litigation will not be material to the consolidated financial statements.

The legal disputes include the actions described below.

In 1998, one of the Company's European subsidiaries, Nomura Principal Investment plc (NPI), acquired approximately 46% of the issued share capital of Investicni a postovni banka, a.s. (IPB), a Czech bank. On June 16, 2000, the Czech National Bank (CNB) placed IPB into forced administration. On June 19, 2000, the administrator appointed by the CNB transferred IPB's entire business to Ceskoslovenska obchodni banka (CSOB), another Czech bank.

NPI and NIP are involved in both bringing and defending a number of legal claims arising out of the circumstances surrounding NPI's acquisition of its interest in IPB, the imposition of forced administration, and the immediate sale by the administrator of IPB's entire business to CSOB.

The legal disputes include international arbitration proceedings in which the Czech Republic is seeking damages against NPI. CSOB is also pursuing a legal action before the Czech courts seeking damages against NPI, NIP and others arising out of IPB's sale of a Czech brewery. Nomura believes that all such claims brought against it are without merit and Nomura is vigorously defending them.

Table of Contents

11. Guarantees

In accordance with FIN No. 45, Guarantors Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others, Nomura recognizes obligations under certain issued guarantees and records the fair value of these guarantee obligations on the consolidated balance sheet.

The following table sets for the information about maximum potential payout or notional total of derivative contracts, standby letters of credit and other guarantees that could meet the definition of a guarantee.

For information about the maximum potential amount of future payments that Nomura could be required to make under certain derivatives, the notional amount of contracts has been disclosed. However, the maximum potential payout for certain derivative contracts, such as written interest rate caps and written currency options, cannot be estimated, as increases in interest or foreign exchange rates in the future could be theoretically unlimited. Nomura records all derivative contracts at fair value on the consolidated balance sheet. Nomura believes the notional amounts generally overstate its risk exposure.

Derivative contracts *1	13,013,712 million yen
Standby letters of credit and other guarantees *2	7,919 million yen

*1 The carrying value of derivative contracts is 325,711 million yen.

*2 The carrying value of standby letters of credit and other guarantees is 77 million yen.

12. Accumulated depreciation and amortization of office buildings, land, equipment and facilities.

199,863 million yen

[Notes to the Consolidated Income Statement]

13. Basic net income per share 48.80 yen

In accordance with Article 21-32, paragraph 2 of Law for Special Exceptions to the Commercial Code concerning Audit, etc. of *Kabushiki-Kaisha*, we have audited the consolidated balance sheet of Nomura Holdings, Inc. as of March 31, 2005, and the related consolidated income statement applicable to the 101st fiscal year from April 1, 2004 to March 31, 2005. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to independently express an opinion on these consolidated financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in Japan. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that our audit provides a reasonable basis for our opinion. Our audit includes procedures applied to the accounts of the subsidiaries or other consolidated subsidiaries as considered necessary.

As a result of our audit, it is our opinion that the consolidated balance sheet and the related consolidated income statement referred to above present properly the financial position and the results of operations of Nomura Holdings, Inc. and its consolidated subsidiaries in accordance with the related regulations and the Articles of Incorporation.

We have no interest in the Company which is required to be disclosed in compliance with the Certified Public Accountants Law.

Report of the Audit Committee on the Consolidated Financial Statements

REPORT ON THE CONSOLIDATED FINANCIAL STATEMENTS

The Audit Committee of Nomura Holdings, Inc. (the Company) audited the Company's consolidated balance sheet and income statement (the consolidated financial statements) applicable to the 101st fiscal year (from April 1, 2004 to March 31, 2005) and, based on the result of the audit, hereby report as follows:

1. OUTLINE OF THE AUDITING METHOD USED

In accordance with the auditing principles and assignment of responsibilities decided by the Audit Committee, each member of the Audit Committee, by himself or through each of the Audit Mission Directors, heard the report and explanation from the Company's independent accountants and examined the Company's consolidated financial statements. In addition, we requested reports on accounting from the Company's subsidiaries and consolidated subsidiaries as necessary and investigated the conditions of the business and the assets of such subsidiaries.

2. RESULT OF THE AUDIT

- (1) We acknowledge that both the method and result of the audit by Ernst & Young ShinNihon, the Company's independent accountants, are appropriate.
- (2) We have nothing to point out with respect to the Company's consolidated financial statements as a result of our investigations into the Company's subsidiaries and consolidated subsidiaries.

Table of Contents

Notes to Non-Consolidated Financial Statements:

The amounts shown therein are rounded to the nearest million.

[Significant Accounting Policies]

1. Basis and methods of valuation for financial instruments

(1) Other securities

a. Securities with market value

Recorded at market value

The difference between the cost using the moving average method or amortized cost and market value less deferred taxes is recorded as Net unrealized gain on investments in Shareholders equity on the balance sheet.

b. Securities without market value

Recorded at cost using the moving average method or amortized cost

(2) Stocks of subsidiaries and affiliates

Recorded at cost using the moving average method

2. Depreciation and amortization

(1) Depreciation of tangible fixed assets

Edgar Filing: NOMURA HOLDINGS INC - Form 6-K

Tangible fixed assets are depreciated primarily on the declining balance method, except for buildings acquired after March 31, 1998 which are depreciated on the straight-line method.

(2) Amortization of intangible assets, investments and others

Intangible assets, investments and others are amortized over their estimated useful lives primarily on the straight-line method.

3. Translation of assets and liabilities denominated in foreign currencies

Financial assets and liabilities denominated in foreign currencies are translated into Japanese yen using exchange rates as of the balance sheet date. Gains and losses resulting from translation are reflected in the income statement.

4. Provisions

(1) Allowance for doubtful accounts

To provide for bad loans, the Company recorded an allowance for doubtful accounts based on an estimate of the uncollectible amounts calculated using historical loss ratios or a reasonable estimate based on the financial condition of individual borrowers.

(2) Accrued bonuses

To prepare for bonus payments to employees, the estimated amount was recorded in accordance with the prescribed calculation method.

5. Finance leases other than those for which the ownership of the leased property are deemed as transfers to the lessee are accounted for primarily as ordinary rental transactions.

Table of Contents

6. Hedging activities

Mark-to-market profits and losses on hedging instruments are deferred as assets or liabilities to reduce the risks such as interest rate fluctuation until the profits or losses on the underlying hedged items are included in the income statement. Certain eligible foreign currencies denominated monetary items are translated at forward exchange rates and the differences are amortized over the remaining period.

7. Consumption taxes and local consumption taxes are accounted for based on the tax exclusion method.

8. The Company applies the consolidated tax return system.

[Notes to Non-Consolidated Balance Sheet]

9. Short-term receivables from subsidiaries:	1,179,076 million yen
Short-term payables to subsidiaries:	820,127 million yen
Long-term receivables from subsidiaries:	280,950 million yen
10. Accumulated depreciation on tangible fixed assets:	66,582 million yen

11. In addition to the fixed assets on the balance sheet, the Company uses computers and personal computers under finance lease contracts.

12. Securities deposited

The Company loaned investment securities with a market value of 79,137 million yen based on securities loan contracts which provide borrowers with the rights to resell or repledge the securities.

13. Guarantee obligations	1,761,453 million yen
---------------------------	-----------------------

Set forth below is a summary of the Company's guarantee obligations:

Bonds/medium-term notes, Commercial paper	1,706,564 million yen
Swap transactions, etc.	54,889 million yen

14. Amounts to be excluded from profits available for dividends

Edgar Filing: NOMURA HOLDINGS INC - Form 6-K

The amount to be excluded from the calculation of profits available for dividends as of March 31, 2005 as determined by Item 3 of Article 124 of the Enforcement Regulations of the Commercial Code was 50,603 million yen.

[Notes to Non-Consolidated Income Statement]

15.	Operating revenue from subsidiaries	268,896 million yen
	Operating expenses to subsidiaries	20,564 million yen
	Non-operating transactions with subsidiaries	240 million yen

Table of Contents

16. Property and equipment fee revenue consists of revenue mainly from Nomura Securities Co., Ltd. (NSC), a subsidiary of the Company, from leasing furniture, fixtures and software.

17. Rent revenue consists of revenue mainly from NSC from renting office accommodations.

18. Royalty on trademark consists of revenue from NSC from the use of the Company's trademark.

19. Others includes fees from securities lending and interest received on loans mainly from NSC.

20. Net income per share 76.26 yen

Table of Contents**The Appropriation of Non-Consolidated Retained Earnings and its reason for the Fiscal Year Ended March 31, 2005**

1. The Appropriation of Non-Consolidated Retained Earnings

	(Yen)
Unappropriated retained earnings	137,538,446,630
Reversal of voluntary reserve:	3,956,322
Reversal of reserve for specified fixed assets	3,956,322
	<hr/>
Total	137,542,402,952
	<hr/>

The amount above is appropriated as below.

Appropriation:	
Cash dividends (10.00 yen per share)	19,421,888,660
General reserve	70,000,000,000
	<hr/>
Total	89,421,888,660
	<hr/>
Unappropriated retained earnings to be carried forward	48,120,514,292
	<hr/>

2. Reason

(1) Policy on Appropriation of Retained Earnings

The Company and its subsidiaries worldwide, including Nomura Securities, integrate business operation under the uniform Nomura Group strategy. When determining the amount of any cash dividend, the Company will first consider the maintenance of capital sufficient to capture business opportunities as they may develop. The Company will then determine the target dividend amounts, taking into account the firm's dividend-on-equity ratio (DOE). Lastly, when the Company achieves a sufficient level of profit, it will decide the amount of cash dividend taking into consideration the pay-out ratio.

(2) Reason for Appropriation of Retained Earnings

The Company proposes a cash dividend of 10.00 yen per share upon the dividend policy described above. As the Company paid out an interim dividend of 10.00 yen per share in December 2004, the annual dividend per share is 20 yen per share.

In accordance with Article 21-26, paragraph 4 of Law for Special Exceptions to the Commercial Code concerning Audit, etc. of *Kabushiki-Kaisha*, we have audited the non-consolidated balance sheet, the non-consolidated income statement, the accounting matters stated in the business report, the proposal for appropriation of non-consolidated retained earnings, and the accounting matters stated in the supplementary schedules of Nomura Holdings, Inc. (the Company) applicable to the fiscal year from April 1, 2004 to March 31, 2005. These financial reports and the supplementary schedules are the responsibility of the Company's management. Our responsibility is to independently express an opinion on these financial reports and the supplementary schedules based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in Japan. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial reports and the supplementary schedules are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial reports and the supplementary schedules. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial reports and supplementary schedules. We believe that our audit provides a reasonable basis for our opinion. Our audit included procedures applied to the accounts of the Company's subsidiaries as considered necessary.

As a result of our audit, it is our opinion that:

- a) the non-consolidated balance sheet and the non-consolidated income statement present properly the Company's financial position and the results of its operations in accordance with the related regulations and the Articles of Incorporation,

Edgar Filing: NOMURA HOLDINGS INC - Form 6-K

- b) the accounting matters stated in the business report present properly the Company's affairs in accordance with the related regulations and the Articles of Incorporation,
- c) the proposal for appropriation of non-consolidated retained earnings is presented in accordance with the related regulations and the Articles of Incorporation, and
- d) there is nothing to point out as to the accounting matters stated in the supplementary schedules in accordance with the provisions of the Commercial Code.

We have no interest in the Company which is required to be disclosed in compliance with the Certified Public Accountants Law.

Report of the Audit Committee

REPORT OF THE AUDIT COMMITTEE

The Audit Committee of Nomura Holdings, Inc. (the Company) audited the execution by the Directors and Executive Officers of the Company of their duties during the 101st fiscal year (from April 1, 2004 to March 31, 2005) and, based on the result of the audit, hereby reports as follows:

1. OUTLINE OF THE AUDITING METHOD USED

We audited resolutions of the Board of Directors including appointment of Audit Mission Directors (non-executive but full-time directors appointed for the purpose of supplementing audits conducted by the Audit Committee) concerning matters prescribed in Article 21-7, paragraph 1, item 2 of Law for Special Exceptions to the Commercial Code concerning Audit, etc. of *Kabushiki-Kaisha* (Special Law) and Article 193 of Ministry of Justice Ordinance concerning the Commercial Code, and internal control and procedures in accordance with such resolutions. In addition, in accordance with the auditing principles and assignment of responsibilities decided by the Audit Committee and in cooperation with the Company's departments in charge of internal control and procedures, each member of the Audit Committee, by himself or through each of the Audit Mission Directors, attended important meetings of the Company; heard reports from the Directors, Executive Officers and others on the Company's business; reviewed documents authorizing corporate actions and other important documents; investigated the conditions of the business and the assets of the Company; and with respect to the Company's subsidiaries requested reports on their businesses as necessary and investigated their conditions of their business and the assets. In addition, we heard the report and explanation from the Company's independent accountants and examined the Company's financial reports and supplementary schedules.

With respect to certain other matters, including: (i) any transactions by Directors or Executive Officers on their own behalf or on behalf of a third party that comes within the types of business carried on by the Company; (ii) transactions in which the interests of any Director or Executive Officer are contrary to or conflict with those of the Company; (iii) the gratuitous grant of benefits to others by the Company; (iv) unusual transactions between the Company and its subsidiaries or shareholders; and (v) acquisitions by the Company of its own shares and dispositions thereof, we, in addition to the above mentioned auditing method, requested reports on such transactions from the Directors, Executive Officers and others as necessary, and investigated any such transactions in detail.

2. RESULT OF THE AUDIT

(1) We acknowledge that resolutions of the Board of Directors concerning matters prescribed in Article 21-7, paragraph 1, item 2 of the Special Law and Article 193 of Ministry of Justice Ordinance concerning the Commercial Code are appropriate and internal control and procedures are operated in accordance with such resolutions.

(2) We acknowledge that both the method and result of the audit by Shin Nihon & Co., the Company's independent accountants, are appropriate.

(3) We acknowledge that the business report presents fairly the Company's conditions in conformity with applicable laws and regulations of Japan and the Articles of Incorporation of the Company (the Articles of Incorporation).

Edgar Filing: NOMURA HOLDINGS INC - Form 6-K

(4) We have nothing to point out, in light of the conditions of the business and the assets of the Company and other circumstances, with respect to the proposal concerning the appropriations of retained earnings.

(5) We acknowledge that the supplementary schedules present fairly the matters that are required to be included therein and we have nothing to point out with respect thereto.

(6) We acknowledge that there are no material facts in the execution of the duties of any Director or Executive Officer concerning his unjust action or his violation of the laws and regulations of Japan or the Articles of Incorporation.

In addition, we acknowledge that there is no failure by the Directors or Executive Officers in the execution of their duties in connection with: (i) any transactions by Directors or Executive Officers on their own behalf or on behalf of a third party that comes within the types of business carried on by the Company; (ii) transactions in which the interests of any Director or Executive Officer are contrary to or conflict with those of the Company; (iii) the gratuitous grant of benefits to others by the Company; (iv) unusual transactions between the Company and its subsidiaries or shareholders; and (v) acquisitions by the Company of its own shares and dispositions thereof.

(7) We have nothing to point out with respect to the execution by the Directors or Executive Officers of their duties in connection with the subsidiaries of the Company.

19,364,589

2. Agenda and the Referenced Matters:

Proposal No.1: Amendment to the Articles of Incorporation

1) Reasons for the Amendment to the Articles of Incorporation

In accordance with the enforcement on February 1, 2005 of the Law regarding Amendments to the Commercial Code, etc. for Introduction of Electronic Public Notice (Law No. 87, 2004) , the Company proposes to change the method of public notice from publication in the Nihon Keizai Shimbun to electronic public notice and also determine an alternative method in cases the method of electronic public notice is not available due to unforeseeable circumstances.

2) Amendment

(amendment underlined)

Current

As Amended

Article 4. (Method of Giving Public Notices)

Article 4. (Method of Giving Public Notices)

Public notices of the Company shall be given by publication in Nihon Keizai Shimbun.

Public notices of the Company shall be made by electronic public notice; provided, however, that such notices shall be given by publication in Nihon Keizai Shimbun in cases the method of electronic public notice is not available due to any troubles or unavoidable circumstances.

Proposal No.2: Issuance of Stock Acquisition Rights as Stock Options

1) Reason for Issuing Stock Acquisition Rights on Terms Especially Favorable to Persons Other than Shareholders

Edgar Filing: NOMURA HOLDINGS INC - Form 6-K

The Company is planning to issue without consideration the following two types of stock acquisition rights as stock options for the purpose of enhancing the incentives of the directors, executive officers and employees of the Company and its subsidiaries to improve their performances and of acquiring talented human resources.

The first is a plan of stock acquisition rights with the condition that the amount to be paid upon exercise of stock acquisition rights at the time of issuance shall be determined based on the market price (Stock Option A Plan).

The second is a plan of stock acquisition rights with the condition that the amount to be paid upon exercise of stock acquisition rights at the time of issuance shall be below the market price (one (1) yen per share) (Stock Option B Plan). The Stock Option B Plan will enable the Company to control cash payment for compensation through granting stock acquisition rights as a partial substitute for cash compensation. Furthermore, the Stock Option B Plan will enable the Company to make quasi-deferred payments of compensation by setting a period during which the stock acquisition rights cannot be exercised after they are granted (non-exercise period). Accordingly, the Stock Option B Plan will have the same economic effect as the Company grants restricted stocks. In principle, the non-exercise period will be not shorter than two (2) years.

Table of Contents

2) Summary of the Issuance of Stock Acquisition Rights under Stock Option A Plan

(1) Type / Number of Shares Under Stock Acquisition Rights

Up to 2,500,000 shares of common stock of the Company.

In the event that the shares are split or consolidated after the issuance of the stock acquisition rights, the number of shares related to the unexercised stock acquisition rights at the time of the stock-split or stock-consolidation shall be adjusted in accordance with the following formula. Any fractions less than one (1) share resulting from the adjustment shall be disregarded.

$$\text{Adjusted Number of Shares} = \frac{\text{Number of Shares Before Adjustment}}{\text{Ratio of Split or Consolidation}} \times$$

In the event that new shares of common stock are issued or the shares held by the Company are disposed of at a price below the market price of the shares of common stock of the Company (the Shares) (excluding any event of the exercise of stock acquisition rights and any request for purchasing additional less-than-a-full-unit shares) or the Company issues any securities or stock acquisition rights to be converted or convertible to the Shares (including those attached to bonds with stock acquisition rights) which enable the holders thereof to request the delivery of the Shares, the number of shares for the unexercised stock acquisition rights shall be adjusted in accordance with the following formula. Any fractions less than one (1) share shall be disregarded.

$$\text{Adjusted Number of Shares} = \frac{\text{Number of Shares Before Adjustment}}{\frac{\text{Exercise Price Before Adjustment}}{\text{Adjusted Exercise Price}}} \times$$

Please refer to (4) for the adjusted exercise price.

In addition to the above, after the issuance of the stock acquisition rights, in the event of a merger of the Company with another company, a company split or capital reduction of the Company or in any other similar event where an adjustment of the number of shares shall be required, the Company may appropriately adjust the number of shares to a reasonable extent.

Table of Contents

(2) Total Number of Stock Acquisition Rights to be Issued:

Up to 25,000 stock acquisition rights (the number of shares per stock acquisition right shall be 100 shares; provided, however, that the number of shares per stock acquisition right shall be adjusted accordingly in the events stated in item (1) above).

(3) Issue Price of Stock Acquisition Rights:

To be issued without receipt of consideration.

(4) Amount to be Paid upon Exercise of Stock Acquisition Rights

The amount to be paid per share upon exercise of the stock acquisition rights (the Exercise Price) shall be the amount which is equal to the product of (i) the higher price of either the average of the daily closing prices of the Share in regular transactions at the Tokyo Stock Exchange, Inc. during the calendar month immediately prior to the month including the issue date of the stock acquisition rights (excluding dates on which no trade is made) or the closing price of the Shares in regular transactions at the Tokyo Stock Exchange, Inc. on the issue date (if there is no closing price on the issue date, the most recent closing price prior to the issue date shall apply), (ii) multiplied by 1.05. Any fraction less than one (1) yen resulting from the adjustment shall be rounded up to the nearest yen.

In the event that the shares are split or consolidated after the issuance of the stock acquisition rights, the Exercise Price shall be adjusted in accordance with the following formula, and any fraction less than one (1) yen shall be rounded up to the nearest yen.

$$\text{Adjusted Exercise Price} = \frac{\text{Exercise Price Before Adjustment}}{\frac{1}{\text{Ratio of Split or Consolidation}}} \times$$

In the event that new shares of common stock are issued or the Shares held by the Company are disposed of at a price below the market price of the Shares (excluding any case of the exercise of stock acquisition rights and any request for purchasing additional less-than-a-full-unit shares), the Exercise Price shall be adjusted in accordance with the following formula, and any fraction less than one (1) yen shall be rounded up to the nearest yen.

$$\frac{\text{Number of Outstanding Shares}}{\text{Number of Shares} + \frac{\text{Number of Newly Issued Shares} \times \text{Paid-in Amount per Share}}{\text{Market Price per Share}}}$$

Edgar Filing: NOMURA HOLDINGS INC - Form 6-K

$$\begin{array}{rcl} \text{Adjusted} & \text{Exercise Price} & \text{X} \\ \text{=} & \text{Before Adjustment} & \text{-----} \\ \text{Exercise Price} & & \text{Number of (Outstanding + Newly Issued) Shares} \end{array}$$

In addition to the above, after the issuance of the stock acquisition rights, in the event of a merger of the Company with another company, a company split or capital reduction of the Company or in any other similar case where an adjustment of the Exercise Price shall be required, the Company may appropriately adjust the Exercise Price to a reasonable extent.

Table of Contents

(5) Exercise Period of Stock Acquisition Rights:

The Board of Directors of the Company or an executive officer designated by a resolution of the Board of Directors shall determine the exercise period of stock acquisition rights within the period from the issue date of stock acquisition rights to the seventh anniversary of such issue date.

(6) Conditions for Exercise of Stock Acquisition Rights:

- (i) Stock acquisition rights may not be exercised partly.
- (ii) Other conditions for the exercise of the rights shall be determined by the Board of Directors or an executive officer designated by a resolution of the Board of Directors.

(7) Events and Conditions for Cancellation of Stock Acquisition Rights:

The Company may, at any time, cancel the stock acquisition rights without any compensation when the Company has acquired the unexercised stock acquisition rights.

(8) Restriction of Transfer of Stock Acquisition Rights:

Approval of the Board of Directors shall be required for transfer of the stock acquisition rights.

Table of Contents

3) Summary of the Issuance of Stock Acquisition Rights under Stock Option B Plan

(1) Type / Number of Shares Under Stock Acquisition Rights

Up to 5,000,000 shares of common stock of the Company.

In the event that the shares are split or consolidated after the issuance of the stock acquisition rights, the number of shares related to the unexercised stock acquisition rights at the time of the stock-split or stock-consolidation shall be adjusted in accordance with the following formula. Any fractions less than one (1) share resulting from the adjustment shall be disregarded.

$$\text{Adjusted Number of Shares} = \frac{\text{Number of Shares Before Adjustment}}{\text{Ratio of Split or Consolidation}} \times \text{Ratio of Split or Consolidation}$$

In addition to the above, in the event of a merger after the issuance of the stock acquisition rights, a company split or capital reduction of the Company or in any other similar event where an adjustment of the number of shares shall be required, the Company may appropriately adjust the number of shares to a reasonable extent.

(2) Total Number of Stock Acquisition Rights to be Issued:

Up to 50,000 stock acquisition rights (the number of shares per stock acquisition right shall be 100 shares; provided, however, that the number of shares per stock acquisition right shall be adjusted accordingly in the events stated in item (1) above).

(3) Issue Price of Stock Acquisition Rights:

To be issued without receipt of consideration.

(4) The Amount to Be Paid Upon Exercise of Stock Acquisition Rights

The amount to be paid upon exercise of the stock acquisition rights shall be one (1) yen per share.

(5) (8) Same as Stock Option A Plan

Proposal No.3: Election of Eleven Directors

As all of the eleven Directors will have finished their term of office at the conclusion of this Ordinary General Meeting of Shareholders, the Company proposes the election of eleven Directors in accordance with a resolution of the Nomination Committee.

The nominees are as follows. Out of the nominees, ten persons to be reappointed, Junichi Ujiie, Nobuyuki Koga, Hiroshi Toda, Kazutoshi Inano, Nobuyuki Shigemune, Masaharu Shibata, Hideaki Kubori, Haruo Tsuji, Fumihide Nomura and Koji Tajika, will continuously assume full responsibilities as Directors to determine material management matters and supervise business execution for the Nomura Group. Yukio Suzuki, a nominee for a new Director, is familiar with the business of the Nomura Group, and it is planned that he will be, at the meeting of the Board of Directors to be held after the Ordinary General Meeting, appointed a full-time but non-executive Director (Audit Mission Director) to supplement the audit conducted by the Audit Committee.

English Translation of Nomura Group Report for the Fiscal Year Ended March 31, 2005

To Our Shareholders

I am pleased to present you with a summary of business results for the fiscal year ended March 31, 2005.

During the fiscal year under review, the Japanese economy saw a steady recovery in corporate performance, but faced an unpredictable external environment. As a result, the Japanese economy leveled off throughout the year. Against this backdrop, our net revenue (total revenue excluding interest expenses) for the fiscal year ended March 31, 2005, was ¥799.2 billion, income before income taxes was ¥204.8 billion, and net income was ¥94.7 billion under accounting principles generally accepted in the United States (U.S. GAAP). Return on equity (ROE) was 5.2%. We will pay a year-end cash dividend of ¥10 per share (combined with the interim dividend, the total dividend for the fiscal year ended March 31, 2005, is ¥20 per share).

We expect our business environment to remain challenging, but we see some movement in the area of government policy toward encouraging a shift from savings to investments as a result of the announcement of the Program for Further Financial Reform at the end of last year.

The corporate sector is in a position of excess cash as restructuring has begun to bear fruit and corporate performance has recovered. As a result, an increasing number of companies are contemplating aggressive capital policies to improve shareholder value. We feel that such changes in financial systems as the lifting of the government's blanket guarantee on bank deposits and the resumption of accepting stock certificates into specially designated brokerage accounts will motivate investors to take a broader view of the relationship between risk and return.

Under these circumstances, we intend to approach the securities business from a broader perspective, respond quicker to changes, and aim to become a company that provides the finest service for every type of investment.

This year marks our 80th anniversary. By taking advantage of Nomura Group's synergy backed by the trust that our customers have placed in us over the decades, we are driven to become a globally competitive Japanese financial institution while contributing to the sustainable growth of the Japanese economy and its financial markets.

Thank you for your continued support.

May 2005

Nobuyuki Koga

President and Chief Executive Officer

Nomura Holdings, Inc.

Table of Contents

Nomura Group aims to provide the finest services for every type of investment.

This year we celebrate our 80th anniversary amidst significant and rapid changes in the business environment. President and Chief Executive Officer Nobuyuki Koga describes our company's operations with a focus on the strategy for achieving our business targets.

Q. Describe the current business environment.

A. As structural changes of money flow and deregulation in Japan move forward, our business environment is seeing a significant and rapid transformation.

In terms of macroeconomics, while the international political climate and rising oil prices make the external environment unpredictable, the Japanese economy is unlikely to hit a downturn, mainly because capital investment in the private sector has increased. In other words, I see the economy regaining momentum.

The lifting of the government's blanket guarantee on bank deposits and the resumption of accepting stock certificates into specially designated brokerage accounts have set the tone for the shift from savings to investments in Japan. We are also seeing changes in money flow.

The corporate sector is no longer strapped for cash as the many years of restructuring and the subsequent recovery in corporate performance have taken effect. At the same time, individual investors who had shied away from financial markets are starting to return their assets to the markets.

In such an environment, we expect competition to become increasingly severe. On the other hand, the environment is right for us to grow our business by entering new fields. In this respect, we feel that there has never been a better opportunity for us.

Q: What does Nomura Group plan to do in such an environment?

A: Our vision is to firmly establish our status as a globally competitive Japanese financial institution. We intend to maintain an average consolidated ROE of 10 to 15% over the mid- to long-term as a management target.

Last year, our ROE was only 5.2%. It is an urgent management issue to quickly build an earnings foundation that can sustain an ROE of 10 to 15%. It is important for us to earn your trust, as well as the trust of the market, that we are a group that can sustain profitability.

Edgar Filing: NOMURA HOLDINGS INC - Form 6-K

To achieve this goal, I feel that we should create our own growth model. As structural changes take root and deregulation continues at a fast pace, financial institutions are presented with a growing range of opportunities. If we were to hold on to the conventional business model, it would be impossible for us to take advantage of these opportunities and put our company on track for further growth. Unfortunately, no one has the correct answer to how a company should prepare itself for such changes. European and American financial institutions that had relentlessly pursued size are now rethinking their policy. Therefore, nowhere in the world is there an example or textbook-like success model for our situation.

Consequently, for us to achieve our mid- to long-term management targets and continually improve shareholder value, we have no choice but to discard preconceived notions, consider a wider range of business opportunities, and build a new growth model on our own.

Table of Contents

Q: How do you intend to build your own growth model?

A: We will take full advantage of the reduced regulatory barriers to broaden our securities businesses, cultivate and expand businesses in new domains, and transform our operations.

Deregulation has opened doors to many fields that were once off-limits to securities companies. As a result, we have a greater menu of solutions that we can propose to our customers. In real estate, for example, real estate funds have demonstrated rapid growth. Listed J-REITs have gained a foothold and are becoming increasingly popular. Loans, which were once the exclusive domain of banks, are more accessible as a result of increased liquidity and securitization. As these examples illustrate, the seeds of change are in place for us to branch out into new businesses.

In order for us to become a company that provides the finest service for every type of investment and continue to grow, we would like to tap the synergies within the Group to promptly expand into new business domains.

Q: How do you intend to expand into new businesses?

A: I feel that it is necessary to enlarge the cross section of customers to create new businesses. By this I mean that in the course of servicing customers in person we need to pinpoint latent needs without confining ourselves to the conventional framework of the securities business. We then need to develop those needs into new businesses.

The ability to work face-to-face with customers, or in essence to sincerely explain the situation to customers under any circumstance, is the strength of Nomura. I believe this strength has fostered trust and built our customer base over the 80 years that we have been in business.

Latent needs will be found by maximizing the cross section of customers, and these needs will be developed into new businesses. By persistently repeating this effort, we can increase our areas of expertise and develop a new growth model.

To address such issues, we refocused our organization on April 1 2005 from one emphasizing business administration centered on the securities business, to one that allows a clear focus on management as Nomura Holdings. We will now expand and improve the banking facility and trust functions of the company, and boost our online operations to move into new areas of business.

In addition, we have reshuffled our business lines into five units from the previous three: Domestic Retail, Global Wholesale, and Asset Management. Of these, Global Wholesale has been split into Global Markets, Global Investment Banking, and Global Merchant Banking in anticipation of future business growth and to ensure mobility in entering new businesses.

To reinforce our efforts in the new fields, we have also appointed an executive officer in charge of Asset Finance in Global Markets and an executive officer in charge of public corporations in Global Investment Banking (Nomura Securities Co., Ltd.). Further, an executive officer has

been put in charge of our Chinese operations, underscoring our commitment to China as a strategic area.

Table of Contents**Business Lines****Summary of Consolidated Financial Information for the Year Ended March 31, 2005****Summary of Consolidated Financial Information**

Net revenue (total revenue excluding interest expenses) for the fiscal year ended March 31, 2005, was ¥799.2 billion, down 0.5% from the previous year.

Income before income taxes was ¥204.8 billion, down 27.5% from the previous year, and net income was ¥94.7 billion, down 45.0% from the previous year.

Segment Net Revenue (total revenue excluding interest expenses)

In Domestic Retail, net revenue (total revenue excluding interest expenses) in the fiscal year ended March 31, 2005, was ¥304.4 billion, approximately the same as in the previous year, as we responded to customers' investment needs by offering stocks, investment trusts, domestic bonds, foreign currency bonds, and a variety of other financial products.

(Billions of yen)

	<u>04/3</u>	<u>05/3</u>	<u>Rate of change</u>
Net revenue (total revenue excluding interest expense)	803.1	799.2	0.5%
Income before income taxes	282.7	204.8	27.5%
Net income	172.3	94.7	45.0%
Return on equity	10.1%	5.2%	

In Global Wholesale, net revenue in the fiscal year ended March 31, 2005, was ¥325.9 billion, down 10.9% from the previous year, primarily because the bond-related order flow decreased.

Edgar Filing: NOMURA HOLDINGS INC - Form 6-K

In Asset Management, net revenue in the fiscal year ended March 31, 2005, was ¥43.5 billion, up 21.0% from the previous year, as proceeds from asset management service fees increased with the rise in assets under management.

Table of Contents

Consolidated Business Results for the Fiscal Year Ended March 31, 2005

n Domestic Retail

Operating Results

In Domestic Retail, net revenue (total revenue excluding interest expenses) in the fiscal year ended March 31, 2005, was ¥304.4 billion, approximately the same as in the previous year, and income before income taxes was ¥81.2 billion, up 2% from the previous year, as we responded to customers' investment needs in a timely fashion by offering stocks, investment trusts, JGBs for individuals, foreign currency bonds, and a variety of other financial products.

A breakdown of net revenue shows a sound growth in commissions, which can be attributed to the higher stock trading volume, continuing growth of stock client assets, and strong sales of investment trusts offering frequent distributions and overseas investment trusts. Clients assets (including those of financial institutions) in Domestic Retail has continued to grow after reaching ¥45.6 trillion, the highest figure ever, as of March 31, 2005.

Goals and Strategy

We are working to further broaden our customer base while improving the quality of financial services that cater to the diverse needs of customers.

The goal of Domestic Retail is to provide high-quality financial services and our broaden customer base. Domestic Retail responds to each customer's individual needs with the right advice on domestic and foreign stocks, Japanese Government bonds (JGBs) for individuals, domestic bonds, foreign currency bonds, investment trusts, and pension and insurance products. We also provide extensive advice issues related to the lifting of the government's blank guarantee on bank deposits transferring personally-held stock certificates to specially designated brokerage accounts. Through these efforts, we continue to steadily increase assets in custody.

Domestic Retail has set a goal of increasing client assets to ¥50 trillion by March 31, 2007. To this end, we will strive to improve financial services to constantly satisfy customers by improving the product line to cater to the diverse and advanced needs of customers and by building a structure for providing services that are truly useful for customers.

Table of Contents

Achievement 1: Increase in assets

Client assets exceed ¥45 trillion as stock certificates pour into specially designated brokerage accounts

We made thorough preparations to accept personally-held stock certificates in specially designated brokerage accounts. By December 31, 2004, the first cut-off date, we received a huge number of stock certificates into these accounts. As a result, the net increase in assets for the fiscal year ended March 31, 2005, reached ¥4.75 trillion. As of March 31, 2005, client assets in Domestic Retail totaled ¥45.6 trillion.

Achievement 2: Met Customers' Investment Needs

Nomura still leads the way in JGBs for individuals

We strive to provide a wide range of products that meet the investment needs of individual customers. During the fiscal year ended March 31, 2005, as we approached the lifting of guarantees on bank deposits, we achieved solid sales by offering various products that met the market needs such as JGBs for individuals, which have taken root as an important asset investment product for individual customers, investment trusts offering frequent distributions, funds of funds, and foreign bonds denominated in various currencies. So far our sales of JGBs for individuals, from the first issue in March 2003 to the tenth issue in April 2005, have totaled ¥2.7 trillion. Our sales amount exceeds that of any other financial institution, including the postal savings system.

Table of Contents

Achievement 3: New Efforts to Increase Customer Contact

Making Nomura more accessible to customers

In December 2004, city banks and regional banks were allowed to enter the securities intermediary businesses. This move enlarges the window to securities trading, and is anticipated to attract to new investors to the securities markets who may have been unfamiliar with investing in securities due to the lack of contact. In this respect, we feel that it is extremely important to collaborate with other financial institutions in this area. By providing products that meet customers' needs, we will nurture the opportunity into a major business together with our partners.

The Women's Financial Planning Section, formed in Domestic Retail last November, proactively holds seminars for women. The seminars cover various topics to help women take charge of their finances. These seminars have proven to be extremely popular. As of the end of March, a total of 3,600 women had participated in 73 seminars held at branches throughout Japan. We will continue to provide services that truly satisfy customers to make ourselves more accessible.

n Global Wholesale

Operating Results

In Global Wholesale, which is composed of Global Markets, Investment Banking, and Merchant Banking, net revenue (total revenue excluding interest expenses) for the fiscal year ended March 31, 2005, was ¥325.9 billion, down 11% from the previous year, and income before income taxes was ¥86.4 billion, down 38% from the previous year.

Global Markets experienced a 14% decline in net revenue from the previous year primarily due to a decrease in customer order flow related to bonds.

On the other hand, Investment Banking saw net revenue increase 6% from the previous year. The positive result is attributable to the strength of underwriting of initial, primary, and secondary equity offerings, and also to growth in M&A advisory services.

In Merchant Banking, net revenue fell 32% from the previous year primarily due to the funding costs for its assets in Europe.

Goals and Strategy

Table of Contents

Our goal in Global Wholesale is to respond to changes in the markets and customers' needs, and accelerate business expansion on a global scale.

Global Wholesale aims to play the leading role in establishing the company's position as a globally competitive Japanese financial institution. To this end, Global Wholesale is establishing businesses that provide new sources of revenue for driving profit growth of the Group as a whole and to accelerate the globalization of the Group's operations.

To accommodate for the expansion of our businesses and to improve mobility in new businesses, Global Wholesale was reorganized in April 2005 into three business lines: Global Markets, Global Investment Banking, and Global Merchant Banking. Global Markets is composed of Global Fixed Income and Global Equity, as well as a new business line, Asset Finance, to accelerate the rate of our global business expansion.

Achievement 1: Global and Cross-border Deals

Largest offering of stock-related products in Japanese market by a foreign company

In January 2005, we served as the lead manager for an exchangeable bond (1.1 billion euro, exchangeable with Deutsche Post stock) offering by KfW (KfW Bankengruppe). Besides the sheer size of the bond issue, it was a new idea to issue such kind of exchangeable bonds to individual investors in Japan. These points attracted much attention, and brought recognition for Japanese individual investors as well as for the Nomura Group.

This major deal was the fruit of Group-wide synergies, made possible by the close relations developed over the decades between Global Wholesale and KfW as well as other top-tier overseas bond issuers and the utmost trust that overseas businesses place in the solid sales network of Domestic Retail.

Table of Contents**Achievement 2: Competitiveness in Underwriting****Leader in the league tables in all three equity areas for two consecutive years**

As with last year, we took the top position in the fiscal year ended March 31, 2005, league tables for investment banking/underwriting results in all three equity areas (IPOs, primary and secondary offerings, and convertible bonds).

During the fiscal year ended March 31, 2005, we acted as the lead manager for numerous symbolic and major deals catering to investors in Japan and abroad. We acted as the lead manager for IPOs for such major deals as Electric Power Development, INPEX, and NTT Urban Development. Among secondary offerings, we served as the lead manager for AEON, T&D Holdings, and Shinsei Bank.

Achievement 2**Japanese Stock and Stock-related Underwriting Lead Manager Ranking in 2004**

Rank	Lead manager	Amount of transaction (Millions of US dollars)	Number of deals
1	Nomura Group	16,026	161
2	Daiwa Securities SMBC	11,642	119
3	Nikko Citigroup	8,996	73
4	UBS	4,849	10
5	Mizuho Financial Group	3,275	47
	Total market	60,502	586

Source: Thomson Financial (based on actual figures in calendar year 2004)

Table of Contents**Achievement 3: Competitiveness in M&A****Top advisor in M&A deals of Japanese companies**

We were named the top advisor in the advisory ranking for announced deals involving Japanese companies in 2004, which compares the accomplishments of M&A advisors. In the merger between Mitsubishi Tokyo Financial Group and UFJ Holdings, we acted as an advisor to Mitsubishi Tokyo Financial Group, contributing to the creation of Mitsubishi UFJ Financial Group.

As industrial realignment gains full steam, we have achieved an impressive track record. Besides serving as a financial advisor for numerous transactions concerning the Industrial Revitalization Corporation of Japan, we have acted as a financial advisor in a major merger deal in the pharmaceutical industry between Sankyo and Daiichi Pharmaceutical.

In February 2005, we announced a business alliance on cross-border M&A with Rothschild, a highly competitive company in Europe, to further reinforce our M&A business.

Achievement 3**2004 M&A Advisory Ranking (Disclosure Projects)**

Achievement 4: Major investment deals of Nomura Principal Finance**Acquired majority stock in Millennium Retailing**

Edgar Filing: NOMURA HOLDINGS INC - Form 6-K

Nomura Principal Finance (NPF), using Nomura Group's own capital, invests in companies with potential for growth and earnings improvement in the future and seeks to increase the value of the investments in the medium- to long-term and exit through public offerings and other methods.

During the fiscal year ended March 31, 2005, the acceleration of corporate group reorganizations in Japan presented a lucrative timing for investment. We took advantage of the opportunity by investing aggressively, substantially increasing both the number of transactions and investment balance. Among the transactions, the largest was the investment in Millennium Retailing.

Millennium Retailing is the holding company of Sogo and Seibu Department Stores. Sogo is a chain of eleven stores in such cities as Yokohama and Chiba. This fall, Sogo plans to open a store in Shinsaibashi, Osaka. Seibu Department Stores maintains a chain of eighteen stores, including those in Ikebukuro and Shibuya. Under the leadership of management, the department store chains are making steady progress in operations. On the other hand, the department store chains urgently needed additional capital for investments to expand operations and enhance group synergies.

In response to the need for additional capital, NPF invested a total of ¥50 billion for the capital increase, first in July 2004 and then in January 2005. We will speed up restructuring such as remodeling the stores to improve profitability further, and will seek to offer shares of Millennium Retailing to the public in the near future.

Table of Contents

n Asset Management

Operating Results

In Asset Management, net revenue (total revenue excluding interest expenses) in the fiscal year ended March 31, 2005, was ¥43.5 billion, up 21% from the previous year, primarily due to an increase in asset management and portfolio service fees reflecting the rise in the net assets of stock investment trusts. Income before income taxes increased to ¥7.4 billion versus a deficit of ¥1 billion during the previous period.

Due to an increase in customer demand for investment trusts that offer frequent distributions, we increased the number of products in our line-up that provide for more frequent payouts to customers. The resulting increase in outstanding assets invested in such funds has contributed to overall improvement in revenue.

The assets under management of Nomura Asset Management reached ¥16 trillion and the total assets under management in Asset Management amounted to ¥19 trillion as of March 31, 2005.

Table of Contents

Goals and Strategy

We are working to increase assets under management by providing the best products that cater to customers' diverse needs.

Our goals in Asset Management are to increase assets under management in the asset management business and serve as a plan administrator and custodian to more companies in the defined contribution pension plan business.

In the asset management business, we have continued to improve our asset management capabilities to provide superior benefits over the medium- to long-term. At the same time, we have expanded our sales channels to grasp the various asset management needs of customers and increase assets under management.

In the defined contribution pension plan business, we are working to serve as a plan administrator and custodian to more companies by providing consistent and diverse services and broadening our product offering.

Achievement 1: Investment trust business in Domestic Retail

Asset balance increases funds offering frequent distributions

As investment environments featured by low interest rates are prevailing, investors have shown an increasing interest in investment trusts with more frequent payouts, such as the monthly distribution fund. In order to meet such investor needs, we have created new funds to enhance our product line.

In addition to Nomura US High-Yield Bond Income, which we introduced last year, we introduced Nomura Fund Masters World Bond (A/B), World Attractive Dividend Stock Fund, and Nomura US Loan Income during the fiscal year ended March 31, 2005, to offer funds that invest in a wide range of areas. The product line allows each investor to choose a fund that best suits his or her portfolio. Consequently, the asset balance in these funds has increased.

Table of Contents

Achievement 2: Investment trust business through banks

Asset balance in funds offered solely through banks increases

Banks continue to handle an increasing share of investment trusts, and this is an important sales channel that we need to build up. Besides offering a product line for each financial institution and creating special funds catering to customers' needs, we are stepping up marketing and sales support for financial institutions to increase the asset balance.

During the fiscal year ended March 31, 2005, we introduced five funds, including the Hybrid Income Open, which is sold through Chiba Bank, US Real Estate Investment Trust High Income Open, through Resona Group, and Global REIT Open, through Sumitomo Mitsui Bank. As a result, we now handle seven funds designed especially for bank customers. Asset balance reached approximately ¥ 90 billion as of March 31, 2005.

Achievement 3: Defined contribution pension plan business

Offering an increasing number of products and serving as plan administrator and custodian to more companies

As a greater number of companies implement the defined contribution pension plan, we have striven to provide plan administrator and custodian services to more customers and increase the product line by offering a wide range of consistent services including plan implementation support and plan designing consultation, investment education services for implementing companies, and the sale of investment trust products.

As of March 31, 2005, we have been appointed as plan administrator and custodian for 112 plans. Plan participants are up approximately 60,000 from the previous year, to 240,000 participants, indicating a steady increase in the number of participants. We have also made an effort to provide investment trust products to plans for which we do not serve as plan custodian. As a result, the balance of investment trust assets has reached approximately ¥ 77 billion.

- (1) With the Company's listing on the New York Stock Exchange in December 2001, our consolidated financial information has been prepared according to the accounting principles, procedures, and expressions that are required of American Depository Receipts or, in essence, in accordance with accounting principles generally accepted in the United States (U.S. GAAP).
- (2) Some previously reported figures have been reclassified in order to conform to the current year presentation.
- (3) Changes in the fair value of a derivative transaction that does not conform to the standards of hedge transactions although it is intended as an economical hedge activity against assets or liabilities for a purpose other than trading is posted as net gain on trading, interest and dividends, or interest expense depending on the nature of the transaction. Effective with the fiscal year ended March 31, 2005, changes in the fair value of both the embedded derivative and related economic hedges are netted. Such amounts previously reported have been reclassified to conform to the current year presentation.

Table of Contents

Net revenue for the fiscal year ended March 31, 2005, was ¥799.2 billion, down 0.5% from the previous year, and expenses other than interest expenses were ¥594.4 billion, up 14% from the previous year.

Income before income taxes for the fiscal year ended March 31, 2005, was ¥204.8 billion, down 28% from the previous year, and net income was ¥94.7 billion, down 45% from the previous year.

Commissions amounted to ¥222 billion, up 5.6% from the previous year, as a result of increase in stock commissions.

Fees from investment banking reached ¥92.3 billion, up 6.1% from the previous year, as the stock issuance market has begun to recover.

Asset management and portfolio service fees rose 18.5% from the previous year to ¥78.5 billion, primarily due to the increase in the net asset balance in stock investment trusts.

Trading related revenue (sum of net gain on trading and net interest revenue) was ¥276 billion, down 16.2% from the previous year, primarily due to the decline in the bonds related order flow.

From the fiscal year ended March 31, 2005, items which are applicable to consolidated companies in which we have private equity investments are presented in either a new classification or as part of another item.

Table of Contents

Corporate Citizenship

Helping to realize a sustainable social system

Starting with our founder, Tokushichi Nomura., the spirit of working for the people and for society has been passed down through the generations at Nomura. A sustainable social system requires a financial system as its foundation. We are committed to fulfilling our responsibility here as both a corporate citizen and leading financial institution.

Donation to 2005 Special Olympics World Winter Games

Special Olympics is an international organization dedicated to supporting children and adults with intellectual disabilities by providing them with year-round sports training and athletic competition in a variety of Olympic-type sports, giving them continuing opportunities to showcase their courage and effort and raise their level of independence and participation in society.

Nomura viewed the Special Olympics as an event with high societal meaning, and was pleased to provide a donation to support the event as part of Nomura's overall Corporate Social Responsibility program.

(2005 Special Olympics World Winter Games were held in Nagano Prefecture for eight days from February 26 to March 5, 2005)

Donation of *Yasashii Kinyu-gaku* (Finance for Beginners) to junior high schools

By learning how money works, students will gain a deeper understanding of how society and the economy function.

In February 2005, we published a finance textbook entitled, *Yasashii Kinyu-gaku* (Finance for Beginners), and donated the book to some 11,000 junior high schools and 2,400 public libraries nationwide. Written as a story, the book features Tomoko, a financial planner, who explains to junior high school students in her neighborhood how finance and economy work. Each chapter begins with comic pages and uses numerous illustrations to make the book easy reading for junior high school students. Schoolteachers have praised the book as an innovative introductory textbook on finance.

Special Sponsorship of Nikkei Stock League

Nikkei Stock League, organized by Nihon Keizai Shimbun, Inc, is a contest for junior high school, high school, and college students to learn about portfolios and write reports on themes of their choice. Students seriously contemplate which stocks to include in their portfolios. They

Edgar Filing: NOMURA HOLDINGS INC - Form 6-K

carefully investigate newspaper articles, access Web sites of corporations, and some even visit companies to collect information. Based on the information that they have personally collected, students select and invest in stocks, and then write a report.

The investment performance and content of reports are evaluated, and the winning team is invited to take a training trip to the United States. The winning team of the fifth competition was a group of first-year high school students from Doshisha High School. The purpose of Nikkei Stock League, to come in direct contact with the real economy, learn, and think, has won praise from many schools. Since the first competition in 2000, more than 17,000 entrants have participated.

Sponsorship of Global House at Expo 2005 Aichi

We wish to help this generation and the next generation take a step in the right direction. We decided to sponsor Global House due to its purpose of investigating the relationship between nature and humankind in the 21st century on the theme of Wisdom of Nature. This pavilion features a cinema theater with the latest digital technology and the most talked-about exhibit: the head of a frozen mammoth excavated from permanently-frozen ground.

We consider it a privilege to help visitors to Global House understand the wisdom of nature, and recognize the preciousness of the global environment.
