Table of Contents

The above selected financial data as of January 31, 2001, 2002 and 2003 and for the years then ended reflect a reclassification giving effect to the sale of McLane Company, Inc. (McLane) on May 23, 2003. This reclassification makes the financial presentation for those periods and as of those dates consistent with the presentation of the selected financial data as of January 31, 2004 and 2005 and shows the income, net of tax, current assets, total assets, current liabilities and total long-term liabilities of McLane and the effect of the sale of McLane on our results of operations and financial condition for the periods and as of the dates for which the selected financial data is provided.

On February 1, 2003, we adopted the expense recognition provisions of the Financial Accounting Standards Board Statement No. 123, *Accounting and Disclosure of Stock-Based Compensation* (FAS 123), under which we recognize non-cash compensation expense based on the fair value of the stock options granted by us. We have chosen to restate retroactively our results of operations for that accounting charge. The above income statement data for the three years ended January 31, 2003 has been restated from prior presentations to reflect that expense recognition. Following the provisions of FAS 123, we have reflected in the above table the recognition of pre-tax stock option expense of \$94 million for fiscal year 2001, \$124 million for fiscal year 2002 and \$130 million for fiscal year 2003. This expense is included in the amounts under Non-interest expense in the above income statement data. We adopted the revision to FAS 123 issued by the Financial Accounting Standards Board in December 2004 (FAS 123R) upon its release. Our adoption of FAS 123R did not have a material impact on our results of operations, financial position or cash flows.

In October 2002, we commenced reporting interest expense net of all interest income, and have reported interest expense in this manner for the year ended January 31, 2003 and for each fiscal period thereafter. Previously, our interest income had generally been reported as a part of other income. The interest expense for the two years ended January 31, 2002 has been reclassified to report interest expense net of all interest income and to make the presentation of that item for those years in the above selected financial data consistent with the presentation of interest expense for the years ended January 31, 2003, 2004 and 2005. The reclassification of interest expense for that two-year period did not affect our net income for any of those years.

See Ratio of Earnings to Fixed Charges in the accompanying prospectus for information relating to the ratios of our earnings to fixed charges for the five years ended January 31, 2005 and the three months ended April 30, 2004 and 2005.

DESCRIPTION OF THE NOTES

The following description of the terms and conditions of the notes supplements the description of the more general terms and conditions of Wal-Mart s debt securities contained in the accompanying prospectus.

The notes will be issued under the indenture dated as of July 19, 2005 and will be issued in registered book-entry form without interest coupons in denominations of \$2,000 and integral multiples of \$1,000 in excess thereof. The notes will constitute our senior, unsecured and unsubordinated debt obligations and will rank equally among themselves and with all of our existing and future senior, unsecured and unsubordinated debt.

The notes will mature on September 1, 2035. Unless previously redeemed or purchased and cancelled, we will repay the notes at 100% of their principal amount together with accrued and unpaid interest thereon at maturity. We will pay principal of and interest on the notes in U.S. dollars.

The notes will be initially issued in a total principal amount of \$2,500,000,000. We may, without the consent of the holders of the notes, create and issue additional notes ranking equally with and otherwise similar in all respects to the notes (except for the public offering price and the issue date) so that those additional notes will be consolidated and form a single series with the notes that we are offering hereby. No additional notes may be issued if an event of default under the indenture has occurred.

The notes will not be subject to a sinking fund. The notes will be subject to defeasance as described in the accompanying prospectus. The notes will not be convertible or exchangeable. Except as described below under Redemption upon Tax Event, we will not have the right to redeem the notes.

The notes will bear interest from August 31, 2005 at the annual interest rate specified on the cover page of this prospectus supplement. Interest on each note will be payable semi-annually in arrears on March 1 and September 1 of each year, beginning on March 1, 2006, to the person in whose name the note is registered at the close of business on the immediately preceding February 15 or August 15, as the case may be. Interest on the notes will be computed on the basis of a 360-day year of twelve 30-day months.

Notices to holders of the notes will be mailed to such holders. Any notice shall be deemed to have been given on the date of mailing and publication or, if published more than once, on the date of first publication.

The notes will not be listed for trading on any exchange. Currently, no public market exists for the notes, and no assurance can be given that one will develop.

The notes will be issued pursuant to the indenture described above. The terms and conditions of the notes, including, among other provisions, the covenants and events of default, differ from the terms and conditions of some other debt securities that we previously have offered and sold and that remain outstanding. For example, the notes do not have the covenant restricting the grant of liens and cross-default event of default provisions that are contained in some of our outstanding debt securities.

J.P. Morgan Trust Company, National Association is the trustee under the indenture and will also be the registrar and paying agent.

The notes will be, and the indenture is, governed by the laws of the State of New York.

Same-Day Settlement and Payment

We will make all payments of principal and interest on the notes to The Depository Trust Company (DTC) in immediately available funds.

The notes will trade in the same-day funds settlement system in the United States until maturity. Purchases of notes in secondary market trading must be in immediately available funds. Secondary market trading in the

notes between participants in Clearstream Banking, societé anonyme (Clearstream) and Euroclear Bank S.A./N.V. (Euroclear) will occur in accordance with the applicable rules and operating procedures of Clearstream and Euroclear and will be settled using the procedures applicable to eurobonds in immediately available funds. See Book-Entry Issuance below and Book Entry Procedures in the accompanying prospectus.

Payment of Additional Amounts

We will pay to the beneficial owner of any note who is a Non-U.S. Person (as defined below) additional amounts as may be necessary so that every net payment of principal and interest on that note, after deduction or withholding for or on account of any present or future tax, assessment or other governmental charge imposed upon that beneficial owner by the United States or any taxing authority thereof or therein, will not be less than the amount provided in that note to be then due and payable. We will not be required, however, to make any payment of additional amounts for or on account of:

- (a) any tax, assessment or other governmental charge that would not have been imposed but for (1) the existence of any present or former connection between that beneficial owner, or between a fiduciary, settlor, beneficiary of, member or shareholder of, or possessor of a power over, that beneficial owner, if that beneficial owner is an estate, trust, partnership or corporation, and the United States including, without limitation, that beneficial owner, or that fiduciary, settlor, beneficiary, member, shareholder or possessor, being or having been a citizen or resident or treated as a resident of the United States or being or having been engaged in trade or business or present in the United States or (2) the presentation of a note for payment on a date more than 30 days after the later of the date on which that payment becomes due and payable and the date on which payment is duly provided for;
- (b) any estate, inheritance, gift, sales, transfer, excise, personal property or similar tax, assessment or other governmental charge;
- (c) any tax, assessment or other governmental charge imposed by reason of that beneficial owner s past or present status as a passive foreign investment company, a controlled foreign corporation, a personal holding company or foreign personal holding company with respect to the United States, or as a corporation which accumulates earnings to avoid United States federal income tax;
- (d) any tax, assessment or other governmental charge which is payable otherwise than by withholding from payment of principal or interest on that note;
- (e) any tax, assessment or other governmental charge required to be withheld by any paying agent from any payment of principal or interest on any note if that payment can be made without withholding by any other paying agent;
- (f) any tax, assessment or other governmental charge which would not have been imposed but for the failure to comply with certification, information, documentation or other reporting requirements concerning the nationality, residence, identity or connections with the United States of the beneficial owner or any holder of that note, if such compliance is required by statute or by regulation of the U.S. Treasury Department as a precondition to relief or exemption from such tax, assessment or other governmental charge;
- (g) any tax, assessment or other governmental charge imposed on interest received by (1) a 10% shareholder (as defined in Section 871(h)(3)(B) of the U.S. Internal Revenue Code of 1986, as amended (the Code), and the regulations that may be promulgated thereunder) of our company or (2) a controlled foreign corporation with respect to our company within the meaning of the Code;
