NORTH AMERICAN ENERGY PARTNERS ANNOUNCES

RECORD THIRD QUARTER REVENUE

ACHESON, AB, Canada (February 14, 2007) North American Energy Partners Inc. (NAEPI) (TSX: NOA) (NYSE: NOA) today announced results for the three and nine months ended December 31, 2006. Record revenue of \$155.9 million propelled earnings to \$6.6 million or \$0.27 per share (basic) for the quarter, up from \$2.1 million or \$0.11 per share for the same period in fiscal 2006. The Company has earned \$19.8 million (\$0.96 basic earnings per share) for the first nine months of fiscal 2007, an increase of \$55.4 million (\$2.87 basic earnings per share) over the prior year loss of \$35.6 million.

The Company also completed an initial public offering (IPO) for its common shares in the quarter. Including the subsequent over allotment, net proceeds received by the Company were \$153 million on the issue of 9,437,500 voting common shares. Proceeds were used to retire debt, redeem preferred shares and to purchase certain leased equipment. At the same time as the closing of the IPO, NACG Holding Inc. amalgamated with its two subsidiaries, NACG Preferred Corp. and NAEPI, with the amalgamated company continuing as NAEPI.

The quarter had many highlights said Rod Ruston, President and CEO. Taking the Company public was certainly an historic milestone which has positioned us to take advantage of what we see as a strong and growing business environment. Another highlight was achieving record revenue for the quarter. Ruston added, The operations in most of the Company continued to perform very well, despite challenges with the weather and rising equipment and tire costs. Our only area of shortfall came in the Pipeline division, which experienced some operational difficulties, primarily due to an unseasonably large amount of rain and changed conditions experienced on two projects.

Summary

All comparisons are to the three month period ending December 31, 2005.

Revenue was \$155.9 million, a \$34.4 million increase from \$121.5 million in the prior corresponding period, as a result of an increased volume of work in all segments. Segment operating profit also increased by \$3.3 million to \$17.5 million from \$14.2 million, with operating margins improving in Mining and Site Preparation as well as Piling.

Mining and Site Preparation revenue increased by \$21.6 million or 24% to \$111.4 million. Segment profit increased by \$4.2 million to \$9.0 million due to higher revenues, increased profit margins and positive one-time impacts of the IPO.

The Piling division recorded quarterly revenue of \$29.2 million, an \$8.3 million improvement. Segment profit also increased significantly, rising from \$6.3 million to \$10.3 million. Higher revenues and job profit margins accounted for this increase.

Pipeline revenue was \$15.3 million, a \$4.5 million increase. The division experienced an operating loss of \$1.8 million resulting from weather and other operational challenges on two projects. In the same period last year, this division earned \$3.1 million. Gross profit of \$26.0 million was a \$12.2 million improvement over last year's \$13.8 million. Higher revenue and lower operating lease expense were offset partially by higher project and equipment costs.

Equipment costs were \$29.2 million, an increase of \$12.4 million due to higher equipment hours, increased repair costs and significantly higher costs for tires.

General and administrative expense was \$3.4 million higher due primarily to \$2.0 million in one-time fees to terminate an Advisory Services Agreement. Increased staffing and salary levels also contributed to the increase.

Net income for the period was \$6.6 million compared to \$2.1 million in the previous corresponding period. Based on a weighted average of 24.7 million and 18.6 million shares outstanding respectively, basic EPS for this quarter was \$0.27 as compared to \$0.11 last year.

Capital expenditures totaled \$78.4 million in the quarter, of which \$44.6 million related to the purchase of leased equipment using the net proceeds from the IPO. Most of the remaining expenditure was for growth capital and included growth in the fleet with the addition of 10 new mining trucks.

The IPO and amalgamation impacted pre-tax income and EBITDA as summarized in the following table:

Common Share Offering and Amalgamation Pre-Tax Income and EBITDA Impacts

(in millions of Canadian dollars)	Pre-Tax Income	EBITDA
Accretion of NAEPI Series A preferred shares	(0.6)	(0.6)
Termination of Advisory Services Agreement	(2.0)	(2.0)
Loss on Retirement of 9% senior secured notes	(10.8)	(6.3)
Gain on NACG Preferred Corp. Series A preferred shares	9.4	9.4
Equipment operating lease buy-out adjustments	6.5	6.5
Total Impacts	2.5	7.0
