SUNSTONE HOTEL INVESTORS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Organization and Description of Business

Sunstone Hotel Investors, Inc. (the "Company") was incorporated in Maryland on June 28, 2004 in anticipation of an initial public offering of common stock, which was consummated on October 26, 2004. The Company, through its 100.0% controlling interest in Sunstone Hotel Partnership, LLC (the "Operating Partnership"), of which the Company is the sole managing member and the subsidiaries of the Operating Partnership, including Sunstone Hotel TRS Lessee, Inc. (the "TRS Lessee") and its subsidiaries, is currently engaged in owning, acquiring, asset managing, renovating and selling hotel properties. The Company operates as a real estate investment trust ("REIT") for federal income tax purposes.

As a REIT, certain tax laws limit the amount of "non-qualifying" income the Company can earn, including income derived directly from the operation of hotels. As a result, the Company leases all of its hotel properties to its TRS Lessee, which in turn enters into long-term management agreements with third parties to manage the operations of the Company's hotels. As of March 31, 2007, the Company's third-party managers include Sunstone Hotel Properties, Inc., a division of Interstate Hotels & Resorts, Inc. ("SHIP"), the manager of 33 of the Company's hotels; Marriott International, Inc. ("Marriott"), manager of 12 of the Company's hotels; and Hyatt Corporation ("Hyatt"), Fairmont Hotels & Resorts ("Fairmont"), Hilton Hotels Corporation ("Hilton") and Starwood Hotels & Resorts Worldwide, Inc. ("Starwood"), collectively manager of six of the Company's properties. In addition to its leased hotels, the Company has a 38% equity interest in a joint venture that owns the Doubletree Times Square, located in New York City, New York.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying consolidated financial statements as of March 31, 2007 and December 31, 2006, and for the three months ended March 31, 2007 and March 31, 2006, include the accounts of the Company, the Operating Partnership and the TRS Lessee and their subsidiaries. All significant intercompany balances and transactions have been eliminated.

The accompanying interim financial statements have been prepared in accordance with accounting principles generally accepted in the United States ("GAAP") and in conformity with the rules and regulations of the Securities and Exchange Commission. In the Company's opinion, the interim financial statements presented herein reflect all adjustments, consisting solely of normal and recurring adjustments, which are necessary to fairly present the interim financial statements. These financial statements should be read in conjunction with the financial statements included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2006, filed with the Securities and Exchange Commission on February 7, 2007.

The Company has adopted the provisions of Financial Accounting Standards Board ("FASB") Interpretation No. 48, "Accounting for Uncertainty in Income Taxes—an interpretation of FASB Statement No. 109" ("FIN 48"), as of January 1, 2007. FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with FASB Statement 109, "Accounting for Income Taxes", and prescribes a recognition threshold and measurement process for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. Based on its evaluation, the Company has concluded that there are no significant uncertain tax positions requiring recognition in our financial statements. The Company's evaluation was performed for the tax years ended December 31, 2004, 2005 and 2006. These are the tax years which remain subject to examination by major tax jurisdictions as of March 31, 2007. The Company may from time to time be assessed interest or penalties by major tax jurisdictions, although any such assessments historically have been minimal and immaterial to our financial results. In the event the Company has received an assessment for interest and/or penalties, it has been classified in the financial statements as tax expense.

Use of Estimates

The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could materially differ from those estimates.

Reporting Periods

Edgar Filing: Sunstone Hotel Investors, Inc. - Form 10-Q

The results the Company reports in its consolidated statements of operations are based on results reported to the Company by its hotel managers. These hotel managers use different reporting periods. Marriott uses a fiscal year ending on the Friday closest to December 31 and reports twelve weeks of operations for each of the first three quarters of the year and sixteen or seventeen weeks of operations for the fourth quarter of the year. Our other hotel managers report operations on a standard monthly calendar. The Company has elected to adopt quarterly close periods of March 31, June 30 and September 30, and an annual year end of December 31. As a result, the Company's 2007 results of operations for the Marriott managed hotels include results from December 30 through March 23 for the first quarter, March 24 through June 15 for the second quarter, June 16 through September 7 for the third quarter, and September 8 through December 28 for the fourth quarter. The Company's 2006 results of operations for the Marriott managed hotels include results from December 31 through March 24 for the first quarter, March 25 through June 16 for the second quarter, June 17 through September 8 for the third quarter, and September 9 through December 29 for the fourth quarter.

Table of Contents**Accounts Receivable**

Accounts receivable primarily represents receivables from hotel guests who occupy hotel rooms and utilize hotel services. Accounts receivable also includes receivables from customers who utilize the Company's laundry facilities in Salt Lake City, Utah, and Rochester, Minnesota. The Company maintains an allowance for doubtful accounts sufficient to cover potential credit losses. The Company's accounts receivable at March 31, 2007 and December 31, 2006 include an allowance for doubtful accounts of \$0.4 million and \$0.6 million, respectively.

Deferred Financing Costs

Interest expense related to the amortization of deferred financing costs was \$0.3 million and \$0.9 million for the three months ended March 31, 2007 and 2006, respectively.

Earnings Per Share

The following table sets forth the computation of basic and diluted earnings (loss) per common share (in thousands, except per share data):

	Three Months Ended March 31, 2007 (Unaudited)	Three Months Ended March 31, 2006 (Unaudited)
Numerator:		
Net income	\$ 4,828	\$ 17,825
Less preferred dividends and accretion	(5,187)	(4,087)
Numerator for basic and diluted earnings (loss) available to common stockholders	\$ (359)	\$ 13,738
Denominator:		
Weighted average basic and diluted common shares outstanding	57,799	55,797
Basic and diluted earnings (loss) available to common stockholders per common share	\$ (0.01)	\$ 0.25

Shares of the Company's Series C preferred stock have not been included in the above calculation of earnings per share for the three months ended March 31, 2007 and 2006 as their effect would have been anti-dilutive. Unvested restricted stock units and shares associated with our long-term incentive plan and the accounting effects of the Forward Sale Agreement (as discussed in Note 10) have not been included in the above calculation for either the three months ended March 31, 2007 or 2006 as their effect would have been anti-dilutive to net loss from continuing operations available to common stockholders.

Reclassifications

Certain amounts included in the financial statements for prior periods have been reclassified to conform to the most recent financial statement presentation.

Table of Contents

In January 2007, the Company purchased the 499-room LAX Renaissance located in Los Angeles, California for \$65.2 million and retained Marriott as manager. This hotel's results of operations from the acquisition date of January 4, 2007 through Marriott's first quarter ended March 23, 2007, have been included in the Company's statement of operations.

In March 2007, the Company purchased the 402-room Marriott Long Wharf located in Boston, Massachusetts for \$228.5 million and retained Marriott as manager. Because this hotel was purchased on the last day of Marriott's first quarter, March 23, 2007, only the results of operations for the date of acquisition have been included in the Company's statement of operations. The allocation of the purchase price is preliminary because the Company is in the process of obtaining a purchase price allocation from an independent third party. The Company has included depreciation expense based on this preliminary purchase price allocation.

Acquired properties are included in the Company's results of operations from the date of acquisition. The following unaudited pro forma results of operations reflect the Company's results as if the acquisitions had occurred on the first day of the fiscal year presented. In the Company's opinion, all significant adjustments necessary to reflect the effects of the acquisitions have been made; however, depreciation expense was based on a preliminary purchase price allocation (in thousands, except per share data):

	Three Months Ended March 31, 2007 (Unaudited)	Three Months Ended March 31, 2006 (Unaudited)

4. Discontinued Operations

As part of a strategic plan to dispose of non-core hotel assets, the Company sold 15 hotel properties in 2006 for net proceeds of \$163.3 million, including the receipt of a \$5.6 million note receivable. During 2006, the Company recognized a net gain on sale of assets of \$9.0 million, and also recognized a \$4.9 million goodwill impairment loss. These 15 hotel properties met the held for sale and discontinued operations criteria in accordance with Statement of Financial Accounting Standards (SFAS) No. 144, *Accounting for the Impairment and Disposal of Long-Lived Assets*.

The following sets forth the discontinued operations for the three months ended March 31, 2007 and 2006, related to hotel properties that have been sold (in thousands):

6. Investment in Unconsolidated Joint Venture

In December 2006, the Company entered into a joint venture agreement with Whitehall Street Global Real Estate Limited Partnership 2005 and Highgate Holdings to acquire the 460-room Doubletree Guest Suites Hotel in New York City, New York. The \$68.5 million investment was funded entirely from cash on hand and is comprised of two parts: (i) a \$28.5 million mezzanine loan, which bears an interest rate of 8.5% on a face value of \$30.0 million and (ii) a \$40.0 million equity investment representing a 38% ownership interest in the joint venture. Annual dividends on the equity investment are senior

to the returns on equity to both Whitehall and Highgate and begin at 8.0% and grow to 9.25% over a nine-year period. In addition, the equity is entitled to receive a pro-rata share of any excess equity distributions of the joint venture. At March 31, 2007 and December 31, 2006, the Company's investment amounted to \$66.7 million and \$68.7 million, respectively. The Company's equity in the unconsolidated joint venture amounted to losses of \$1.4 million for the first quarter ended March 31, 2007, and earnings of \$0.1 million for the year ended December 31, 2006.

7. Other Assets

The Company was not in default on any of its loan covenants at either March 31, 2007 or December 31, 2006.

During the first quarter of 2007, the Company drew down \$138.0 million of its \$200.0 million credit facility (the "credit facility") in connection with the acquisitions of the LAX Renaissance, Los Angeles, California and the Marriott Long Wharf, Boston, Massachusetts, as well as other working capital requirements. As of March 31, 2007, the Company had \$138.0 million of outstanding indebtedness under its credit facility, and had \$12.4 million outstanding irrevocable letters of credit backed by the credit facility, leaving, as of that date, \$49.6 million available.

In March 2007, the Company obtained a \$176.0 million mortgage loan with a maturity date of March 2017 and a fixed interest rate of 5.58% in connection with the acquisition of the Marriott Long Wharf, Boston, Massachusetts.

Table of Contents**9. Series C Cumulative Convertible Redeemable Preferred Stock**

In July 2005, the Company sold 4,102,564 shares of Series C Cumulative Convertible Redeemable Preferred Stock (Series C preferred stock) with a liquidation preference of \$24.375 per share to Security Capital Preferred Growth, Incorporated, an investment vehicle advised by Security Capital Research & Management Incorporated, for gross proceeds of \$99.0 million, or \$24.13 per share, which included a 1% discount to the conversion price/liquidation preference. Other costs of the offering totaled \$130,000. Net proceeds of \$99.0 million were contributed to the Operating Partnership in exchange for preferred membership units with economic terms substantially identical to the Series C preferred stock. The net proceeds were used to partially finance the Company's acquisition of six Renaissance hotels. The Series C preferred stock is convertible into shares of the Company's common stock on a one-for-one basis, subject to customary antidilution provisions, including stock splits, stock dividends, non-cash distributions and above-market issuer self-tender or exchange offers. On or after July 8, 2010, the Series C preferred stock will be redeemable at the Company's option, in whole or in part, at any time or from time to time, for cash at a redemption price of \$24.375 per share, plus accrued and unpaid dividends up to and including the redemption date. The holders of the Series C preferred stock have the right to require the Company to redeem the Series C preferred stock in the event of any of the following: (1) a change in control of the Company, if certain conditions are not met; (2) a REIT termination event; or (3) a termination of the Company's listing on either the New York Stock Exchange or NASDAQ. In general, holders of Series C preferred stock vote on an as-converted basis as a single class with holders of the Company's common stock. If the Company is in violation of certain financial ratios for four consecutive quarters, the holders have the right to elect one director to serve on the Company's board of directors. In addition, if the Company is in arrears on dividends on the Series C preferred stock for four or more quarters, the holders have the right to elect additional directors to serve on the Company's board of directors. Subject to a limited exception, holders of Series C preferred stock cannot elect more than an aggregate of two directors. The holders are eligible to receive a participating dividend should the Company's dividend on its common stock increase beyond \$1.34 per share per annum. The Series C preferred stock has no maturity date and, except as set forth above, the Company is not required to redeem the Series C preferred stock at any time.

The initial carrying value of the Series C preferred stock was recorded at its sales price less costs to issue on the date of issuance. This carrying value is periodically adjusted so that the carrying value will equal the redemption value on the redemption date, which is the earliest date available for the Company to redeem the Series C preferred stock. The carrying value will also be periodically adjusted for any accrued and unpaid dividends, if any. At March 31, 2007 and December 31, 2006, the Series C preferred stock carrying value consisted of the following (in thousands):

	March 31, 2007 (Unaudited)	December 31, 2006
Initial fair value, sales price of \$99.0 million	\$ 99,000	\$ 99,000
Redemption value accretion	346	296

10. Stockholders' Equity**Series A Cumulative Redeemable Preferred Stock**

In March 2005, the Company sold an aggregate of 4,850,000 shares of 8.0% Series A and B Cumulative Redeemable Preferred Stock (Series A preferred stock and Series B preferred stock , respectively) with a liquidation preference of \$25.00 per share for gross proceeds of \$121.3 million. Underwriting and other costs of the offering totaled \$3.8 million. Net proceeds of \$117.5 million were contributed to the Operating Partnership in exchange for preferred membership units with economic terms substantially identical to the Series A and B preferred stock. Subsequent to this offering, the shares of Series B preferred stock were exchanged for an equivalent number of shares of Series A preferred stock. The net proceeds were used to reduce borrowings under the Company's credit facility and for acquisitions. On or after March 17, 2010, the Series A preferred stock will be redeemable at the Company's option, in whole or in part, at any time or from time to time, for cash at a redemption price of \$25.00 per share, plus accrued and unpaid dividends up to and including the redemption date. Holders

Table of Contents

of Series A preferred stock generally have no voting rights. However, if the Company is in arrears on dividends on the Series A preferred stock for six or more quarterly periods, whether or not consecutive, holders of the Series A preferred stock will be entitled to vote at its next annual meeting and each subsequent annual meeting of stockholders for the election of two additional directors to serve on the Company's board of directors until all unpaid dividends and the dividend for the then-current period with respect to the Series A preferred stock have been paid or declared and a sum sufficient for the payment thereof set aside for payment. The Series A preferred stock has no maturity date and the Company is not required to redeem the Series A preferred stock at any time.

In April 2006, the Company sold an additional 2,200,000 shares of Series A preferred stock with a liquidation preference of \$25.00 per share for gross proceeds of \$55.0 million. The proceeds to the Company, net of offering costs, were \$54.2 million, and were used together with proceeds of certain debt refinancings to repay the Company's term loan facility.

Common Stock

In February 2006, the Company completed a follow-on offering of 5,500,000 shares of common stock at a price per share of \$28.80 (before underwriting discounts and offering costs), generating gross proceeds of \$158.4 million. The proceeds to the Company, net of offering costs, were \$158.1 million and were used to fund a portion of the acquisition price of the Hilton Times Square and for general corporate purposes.

In July 2006, the Company entered into a forward sale agreement (the "Forward Sale Agreement") with an affiliate of Citigroup Global Markets Inc. as the forward counterparty, relating to 4,000,000 shares of the Company's common stock. In connection with the execution of the Forward Sale Agreement and at the Company's request, Citigroup Global Markets Inc., as agent for the forward counterparty, borrowed and sold in a public offering (the "Offering") 4,000,000 shares of common stock. If the Company elects to physically settle the Forward Sale Agreement in shares of common stock, the Company will receive an amount equal to approximately \$111.0 million in net proceeds, subject to certain provisions of the Forward Sale Agreement, from the forward counterparty. If the Company elects to settle the Forward Sale Agreement in cash, the Company may not receive any proceeds and may owe cash to the forward counterparty. As of March 31, 2007, the Company has incurred \$0.4 million in offering costs. The Forward Sale Agreement provides for settlement on one or more settlement dates within one year from the date of the closing of the Offering, subject to specified rights of the forward counterparty to accelerate settlement of the contract in its entirety. If the Company decides to physically settle the Forward Sale Agreement in its entirety, the Company will issue 4,000,000 shares of its common stock to the forward counterparty under the Forward Sale Agreement. The forward sale price is initially equal to \$27.75 per share. The Forward Sale Agreement provides that the initial forward sale price will be subject to increase based on a floating interest factor equal to the federal funds rate, less a spread component, and will be subject to decrease by specified amounts on a quarterly basis during the term of the Forward Sale Agreement. The forward sale price may also be subject to decrease if the cost to the forward counterparty of borrowing Common Stock exceeds a specified amount. If the federal funds rate is less than the spread component on any day, the interest factor will result in a daily reduction of the forward sale price. If the quarterly adjustments are larger than the cumulative effect of the interest factor, the cumulative net effect of these adjustments will result in a decrease in the forward sale price over time. The forward sale agreement is accounted for as an equity instrument and does not qualify as a derivative liability.

11. Long-Term Incentive Plan

Restricted shares and restricted share units granted pursuant to the Company's Long-Term Incentive Plan generally vest over periods from three to five years from the date of grant. The value of shares granted has been calculated based on the share price on the date of grant and is being amortized as compensation expense in accordance with the Company's policy on a straight-line basis over the vesting periods for the entire award. For the three months ended March 31, 2007 and 2006, the Company's expense related to these restricted shares and restricted share units was \$1.8 million and \$1.1 million, respectively.

12. Commitments and Contingencies

Management Agreements

Management agreements with the Company's third-party hotel managers require the Company to pay between 1% and 3.5% of total revenue of the managed hotels to the third party managers each month as a basic management fee. Total basic management fees incurred by the Company during the three months ended March 31, 2007 and 2006 were \$6.1 million and \$5.5 million, respectively. Total basic management fees included in property general and administrative expense were \$6.1 million and \$5.2 million, respectively, for the three months ended March 31, 2007 and 2006. Discontinued operations included \$0.3 million of basic management fees for the three months ended March 31, 2006.

Provided certain operating thresholds are met, the Company may also be required to pay certain of its third party managers an additional incentive management fee. Total incentive management fees incurred by the Company during the three months ended March 31, 2007 and 2006 were \$0.9 million and \$1.2 million, respectively, all of which were included in property general and administrative expense.

Franchise Agreements

Total franchise costs incurred by the Company during the three months ended March 31, 2007 and 2006 totaled \$8.4 million and \$7.4 million, respectively. Of the total franchise costs, franchise royalties totaled \$3.7 million and \$3.8 million, for the three months ended March 31, 2007 and 2006, respectively. The remaining franchise costs included advertising, reservation and priority club assessments. Franchise costs included in discontinued operations totaled zero and \$1.1 million for the three months ended March 31, 2007 and 2006, respectively.

Renovation and Construction Commitments

At March 31, 2007 and December 31, 2006, the Company had various contracts outstanding with third parties in connection with the renovation of certain of its hotel properties. The remaining commitments under these contracts at March 31, 2007 and December 31, 2006 totaled \$35.9 million and \$26.2 million, respectively.

Operating Leases

Total rent expense incurred pursuant to ground lease agreements for the three months ended March 31, 2007 and 2006 totaled \$1.8 million and \$1.9 million, respectively. Rent expense included in property tax, ground lease and insurance totaled \$1.8 million and \$1.6 million for the three months ended March 31, 2007 and 2006, respectively. Rent expense included in discontinued operations was zero for the three months ended March 31, 2007, and totaled \$0.3 million for the same time period in 2006.

Rent expense incurred pursuant to the lease on the corporate facility for both the three months ended March 31, 2007 and 2006 totaled \$116,000, and was included in corporate overhead in the accompanying statements of operations.

Other

The Company has provided unsecured environmental indemnities to certain lenders. The Company has performed due diligence on the potential environmental risks, including obtaining an independent environmental review from outside environmental consultants. These indemnities obligate the Company to reimburse the indemnified parties for damages related to certain environmental matters. There is no term or damage limitation on these indemnities; however, if an environmental matter arises, the Company could have recourse against other previous owners.

At March 31, 2007 and December 31, 2006, the Company had \$12.4 million and \$11.6 million, respectively, of outstanding irrevocable letters of credit to guaranty the Company's financial obligations related to workers' compensation insurance programs and certain notes payable. The beneficiary may draw upon these letters of credit in the event of a contractual default by the Company relating to each respective obligation. No draws have been made through March 31, 2007.

13. Transactions With Affiliates

Other Reimbursements

From time to time, the Company pays for certain expenses such as payroll, insurance and other costs on behalf of certain affiliates. The affiliates generally reimburse such amounts on a monthly basis. At March 31, 2007 and December 31, 2006, amounts owed to the Company by its

affiliates amounted to \$1.3 million and \$1.4 million, respectively, and are included in due from affiliates.

Transactions With Others

The Company purchases telecommunications equipment from Gemini Telemanagement Systems, or GTS, a telecommunications equipment provider based in Redwood City, California. The Company's Executive Chairman of the Board of Directors, Robert A. Alter, is a 5.2% stockholder in GTS, and his brother, Richard Alter, is the majority stockholder in GTS. The Company paid GTS \$114,000 and \$42,000, respectively, for the three months ended March 31, 2007 and 2006.

14. Subsequent Events

In April 2007, the Company amended one of its mortgage loans to require interest only payments, provided the Company continues to meet certain loan covenants, from May 2007 until the maturity date of May 2011, at which time the outstanding loan balance of \$248.2 million will be due and payable.

In April 2007, the Company sold its \$28.5 million Doubletree Times Square mezzanine loan for gross proceeds of \$29.5 million. The net proceeds were used to repay amounts outstanding on the Company's credit facility.

In April 2007, the Company settled its Forward Sale Agreement for gross proceeds of \$111.0 million. The net proceeds will be used for general corporate purposes.

In May 2007, the Company completed the acquisition of the 464-room Marriott Boston Quincy Hotel located in Quincy, Massachusetts for a purchase price of \$116.6 million.

Cautionary Statement

This report contains forward-looking statements that have been made pursuant to the provisions of the Private Securities Litigation Reform Act of 1995. These statements relate to future events or our future financial performance. In some cases, you can identify forward-looking statements by terminology such as *may*, *will*, *should*, *forecasts*, *expects*, *plans*, *anticipates*, *believes*, *estimates*, *potential*, or *continue* or the negative of such terms and other comparable terminology. These statements are only predictions. Actual events or results may differ materially from those expressed or implied by these forward-looking statements. In evaluating these statements, you should specifically consider the risks outlined in detail in our Annual Report on Form 10-K, filed with the Securities and Exchange Commission on February 7, 2007, under the caption *Risk Factors* and elsewhere in this Quarterly Report on Form 10-Q, including but not limited to the following factors:

our level of outstanding debt, including secured and variable rate debt;

financial and other covenants in our debt;

competition for the acquisition of hotels and in the operation of our hotels;

rising operating expenses;

relationships with and requirements of franchisors;

the need for renovations and other capital expenditures for our hotels;

the performance of the managers of our hotels;

the ground or air leases for ten of our hotels;

our need to operate as a REIT and comply with other applicable laws and regulations;

changes in business strategy or acquisition or disposition plans;

general economic and business conditions affecting the hotel and travel industry, both nationally and locally;

our ability to complete acquisitions;

the performance of acquired properties after they are acquired;

necessary capital expenditures and the impact of renovations on hotel operations and delays in renovation or other developments; and

other events beyond our control.

These factors may cause our actual events to differ materially from the expectations expressed or implied by any forward-looking statement. We do not undertake to update any forward-looking statement.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations
Overview

We own primarily luxury, upper upscale and upscale hotels in the United States operated under leading brand names franchised or licensed from others, such as Marriott, Hilton, Hyatt, Fairmont, Starwood, and Wyndham.

Operations

REIT structure. For us to qualify as a REIT, our income cannot be derived from our operation of hotels. Therefore, consistent with the provisions of the Internal Revenue Code of 1986, as amended, and the rules and regulations thereunder (the "Code"), our Operating Partnership and its subsidiaries lease our hotel properties to our TRS Lessee, which has in turn contracted with third-party operators to manage our hotels. All of our third-party managers qualify as "eligible independent contractors", which under the Code means they are actively engaged in the trade or business of operating "qualified lodging facilities" for any person unrelated to us and the TRS Lessee. The Operating Partnership and the TRS Lessee are consolidated into our financial statements for accounting purposes. Since we control both the Operating Partnership and our TRS Lessee, our underlying portfolio of hotels remains our principal source of operating income on a consolidated basis. The earnings of the TRS Lessee are subject to taxation like other C corporations, which may reduce our operating results, funds from operations and the cash otherwise available for distribution to our stockholders.

Factors Affecting Our Results of Operations

Acquisitions. In January 2007, we acquired the 499-room LAX Renaissance hotel located in Los Angeles, California for approximately \$65.2 million and retained Marriott as manager. The acquisition was initially funded through a draw on our credit facility, which we intend to repay through a settlement of our Forward Sale Agreement.

In March 2007, we acquired the 402-room Marriott Long Wharf hotel located in Boston, Massachusetts for approximately \$228.5 million and retained Marriott as manager. In connection with this acquisition we obtained a \$176.0 million mortgage loan with a maturity date of March 2017 and a fixed interest rate of 5.58%. The balance of the purchase price was funded with a draw on our credit facility, which we intend to repay through a settlement of our Forward Sale Agreement.

The following table sets forth the hotels that we have acquired or developed since January 1, 2006:

Hotels	Rooms	Acquisition Date
Marriott Long Wharf, Boston, Massachusetts	402	March 23, 2007
LAX Renaissance, Los Angeles, California	499	January 4, 2007

Hilton Times Square, New York City, New York	444	March 17, 2006
Del Mar Marriott, San Diego, California	284	January 10, 2006
Subsequent to March 2007, we completed the acquisition of the 464-room Marriott Boston Quincy Hotel located in Quincy, Massachusetts in May 2007, for a purchase price of \$116.6 million.		

Investment in unconsolidated joint venture. In December 2006, we entered into a joint venture agreement with Whitehall Street Global Real Estate Limited Partnership 2005 and Highgate Holdings to acquire the 460-room Doubletree Guest Suites Hotel located in New York City, New York. Our total initial investment in the joint venture was approximately \$68.5 million. Our total initial investment was funded entirely from cash on hand and is comprised of two parts: (i) a \$28.5 million mezzanine loan, which bears an interest rate of 8.5% on a face value of \$30.0 million and (ii) a \$40.0 million equity investment representing a 38% ownership interest in the joint venture. The total senior debt of the joint venture is \$230.0 million.

Table of Contents

In the first quarter of 2007, we invested \$37.0 million in capital expenditures across our portfolio, of which \$18.3 million was spent on the Renaissance Orlando, Renaissance Baltimore, Renaissance Long Beach, Hyatt Regency Century Plaza, Hilton Times Square and Embassy Suites La Jolla.

We expect to complete six major hotel renovation and repositioning projects in 2007. These projects represent approximately half of our expected 2007 renovation expenditures of \$120 million to \$130 million. While these projects are likely to cause meaningful displacement to hotel operations during the renovation period, they are expected to significantly enhance the quality and operating performance of the hotels after completion. Updated summaries of these six major projects are as follows:

1. *Renaissance Orlando* Total project expenditures are estimated to be \$27 million with aggregate 2007 expenditures of approximately \$13 million. The project includes the final phase of a full-hotel renovation, including an atrium, restaurants, a sports bar, a new media bar, food outlets, a Starbucks store, a fitness center and a spa. Completion is scheduled for the second quarter of 2007 with the exception of the spa which is scheduled to be completed in the fourth quarter of 2007.
2. *Renaissance Baltimore* Total project expenditures are estimated to be \$12 million with aggregate 2007 expenditures of approximately \$9 million. The project includes a renovation of the lobby, 5th floor restaurant / lounge, meeting rooms and prefunction areas, and the creation of a new junior ballroom. Completion is scheduled for the second quarter of 2007.
3. *Renaissance Long Beach* Total project expenditures are estimated to be \$11 million with aggregate 2007 expenditures of approximately \$9 million. The project includes renovation of the lobby, restaurant, lounge, and meeting space, and the addition of a new Starbucks store and a junior ballroom. Completion is scheduled for the second quarter of 2007 with the exception of the junior ballroom which is scheduled to be completed in the third quarter of 2007.
4. *Hyatt Regency Century Plaza* Total project expenditures are estimated to be \$32 million with aggregate 2007 expenditures of approximately \$10.5 million. The project includes the final phase of the hotel renovation, including the new X Bar, Equinox health club and Starbucks. All major areas of work were substantially completed during the first quarter of 2007.
5. *Hilton Times Square* Total project expenditures are estimated to be \$8 million with aggregate 2007 expenditures of approximately \$7 million. The project includes the upgrades to guestroom baths, corridors and meeting space; lobby and street level enhancements; the net addition of 16 guestrooms through the conversion of suites and the fitness center; and installation of 32 LCD TVs in all guestrooms. The project is scheduled for completion as follows: guestroom baths completed in the first quarter of 2007, guestroom conversions scheduled for completion in the second quarter of 2007, meeting space and guestroom LCD TV installation scheduled in the third quarter of 2007, and street level improvements scheduled in the fourth quarter of 2007.
6. *Embassy Suites La Jolla* Total project expenditures are estimated to be \$11 million with aggregate 2007 expenditures of approximately \$5 million. The project includes the full renovation of all guest rooms as well as selected enhancement to public areas. Guestrooms were completed during the first quarter of 2007 and the public space work is scheduled for completion in the fourth quarter of 2007.

Indebtedness. During the first quarter of 2007, we drew down \$138.0 million on our \$200.0 million credit facility in order to fund our purchases of the LAX Renaissance and the Marriott Long Wharf, as well as other working capital requirements. As of March 31, 2007, we had \$138.0 million of outstanding indebtedness under our credit facility, and had \$12.4 million of outstanding irrevocable letters of credit backed by our credit facility, leaving, as of that date, \$49.6 million available under the credit facility. In addition, in connection with our purchase of the Marriott Long Wharf, we obtained a \$176.0 million mortgage loan with a maturity date of March 2017 and a fixed interest rate of 5.58%.

Operating Performance Indicators. The following performance indicators are commonly used in the hotel industry:

occupancy;

Table of Contents

average daily rate, or ADR;

revenue per available room, or RevPAR, which is the product of occupancy and ADR, but does not include food and beverage revenue, or other operating revenue;

comparable RevPAR growth, which we define as the change in RevPAR generated by hotels we owned as of the end of the reporting period, but excluding those hotels that were undergoing significant renovations during the most recent reporting period and whose RevPAR growth was significantly affected by such renovation. Comparable RevPAR growth includes prior ownership activity for those periods in which we did not own the hotels. We refer to this subset of our hotels used to calculate comparable RevPAR growth as our Comparable Portfolio ;

operating margin, which is the product of total operating income divided by total revenues; and

operating leverage, which is the product of incremental operating income divided by incremental revenues.

Revenues. Substantially all of our revenues are derived from the operation of our hotels. Specifically, our revenues consist of the following:

Room revenue, which is the result of the number of rooms sold and the average daily rate;

Food and beverage revenue, which is the result of revenues realized in the hotel food and beverage outlets as well as banquet and catering events; and

Other operating revenue, which includes ancillary hotel revenue such as performance guaranties and other items primarily driven by occupancy such as telephone, transportation, parking, spa, entertainment and other guest services. Additionally, this category includes operating revenue from our two commercial laundry facilities located in Rochester, Minnesota and Salt Lake City, Utah and our electronic purchasing platform, Buy Efficient, L.L.C.

Expenses. Our expenses consist of the following:

Room expense, which is primarily driven by occupancy and, therefore, has a significant correlation with room revenue;

Food and beverage expense, which is primarily driven by food and beverage sales and banquet and catering bookings and, therefore, has a significant correlation with food and beverage revenue;

Other operating expense, which includes the corresponding expense of other operating revenue, advertising and promotion, repairs and maintenance, utilities, and franchise fees;

Property general and administrative expense, which includes our property-level general and administrative expenses, such as payroll and related costs, professional fees, travel expenses and management fees;

Edgar Filing: Sunstone Hotel Investors, Inc. - Form 10-Q

Property tax, ground lease and insurance expense, which includes the expenses associated with property tax, ground lease and insurance payments, each of which are primarily fixed expenses;

Corporate overhead expense, which includes our corporate-level expenses such as payroll and related costs, amortization of deferred stock compensation, professional fees, travel expenses and office rent; and

Depreciation and amortization expense, which includes depreciation on our hotel buildings, improvements, furniture, fixtures and equipment.

Other Revenue and Expense. Other revenue and expense consists of the following:

Equity in earnings (losses) of joint venture, which includes our portion of earnings or losses from our joint venture;

Interest and other income, which includes interest we have earned on our restricted and unrestricted cash accounts; and

Interest expense, which includes interest expense incurred on our outstanding debt.

Most categories of variable operating expenses such as utilities and certain labor costs such as housekeeping, fluctuate with changes in occupancy. Increases in RevPAR attributable to improvements in occupancy are accompanied by increases in most categories of variable operating costs and expenses. Increases in RevPAR attributable to improvements in ADR typically result in more limited increases in operating costs and expenses, primarily credit card commissions, management

Table of Contents

fees and franchise fees. Thus, changes in ADR generally have a more significant effect on our operating margins than changes in occupancy.

We continually work with our operators to improve our operating leverage, which generally refers to our ability to retain incremental revenue as profit by minimizing variable operating expenses. There are, however, limits to how much our operators can accomplish in this regard without affecting the competitiveness of our hotels and our guests' experiences at our hotels. Furthermore, our hotels operate with significant fixed costs, such as general and administrative expense, insurance, property taxes, and other expenses associated with owning hotels that our operators cannot necessarily control. For example, we have experienced increases in hourly wages, employee benefits (especially health insurance), and utility costs, which negatively affected our operating margin. Our historical performance may not be indicative of future results, and our future results may be worse than our historical performance.

Operating Results

The following table presents our unaudited operating results for our total portfolio for the three months ended March 31, 2007 and 2006, including the amount and percentage change in the results between the two periods. Our total portfolio represents the results of operations included in the consolidated statements of operations, and includes 51 hotels (16,659 rooms) as of March 31, 2007 and 46 hotels (15,004 rooms) as of March 31, 2006. The results of operations for fifteen hotels that were sold in 2006 are included in Discontinued Operations for the three months ended March 31, 2006.

2007 Compared to 2006

Revenues. Total revenue for the three months ended March 31, 2007 was \$239.8 million as compared to \$197.6 million for the same time period in 2006. Total revenue for the three months ended March 31, 2007 included room revenue of \$156.8 million, food and beverage revenue of \$65.6 million, and other revenue of \$17.4 million. Total revenue for the three months ended March 31, 2006 included room revenue of \$124.9 million, food and beverage revenue of \$55.8 million, and other revenue of \$16.9 million.

Included in the following table are comparisons of the key operating metrics for our hotel portfolio for the three months ended March 31, 2007 and 2006. The comparisons do not include the results of operations for the fifteen hotels sold during 2006. Since six of our hotels owned as of March 31, 2007 were acquired during 2006 and 2007, the key operating metrics for the total hotel portfolio and the comparable hotel portfolio reflect the results of operations of those six hotels under previous ownership for either a portion of, or the entire three months ended March 31, 2007 and 2006.

	2007 (Pro Forma)			Three Months Ended March 31, 2006 (Pro Forma)			Change

Table of Contents

For the three months ended March 31, 2007, RevPAR for our pro forma total portfolio increased 8.5% to \$110.62 from the same time period in 2006. Occupancy increased 2.5 percentage points to 74.1%, while ADR increased 4.9% to \$149.28. For our pro forma comparable hotel portfolio, RevPAR increased 11.9% to \$110.23 from the same time period in 2006. Occupancy increased 4.0 percentage points to 75.2%, while ADR increased 5.9% to \$146.58. The increase in our RevPAR in 2007 compared to 2006 was significantly affected by increases in RevPAR at several of our recently renovated hotels, Hyatt Regency Century Plaza, Fairmont Newport Beach, and Renaissance Washington D.C.

Room revenue. Room revenue increased \$31.9 million, or 25.6%, for the three months ended March 31, 2007 as compared to the three months ended March 31, 2006. The increase was primarily due to room revenue generated from newly acquired hotels. We acquired six hotels either during or subsequent to our first quarter 2006: Del Mar Marriott, Hilton Times Square, Embassy Suites La Jolla, W Hotel San Diego, LAX Renaissance, and Marriott Long Wharf (which we refer to as the six hotels). The six hotels contributed \$19.6 million to room revenue during our first quarter 2007. In addition, growth in the hotels we acquired prior to December 31, 2005 (which we refer to as our existing portfolio) contributed \$12.3 million to room revenue during our first quarter due to increases in both occupancy (\$4.7 million) and ADR (\$7.6 million).

Food and beverage revenue. Food and beverage revenue increased \$9.8 million, or 17.6%, for the three months ended March 31, 2007 as compared to the three months ended March 31, 2006. The six hotels contributed \$5.0 million of food and beverage revenue during our first quarter 2007. Food and beverage revenue generated from our existing portfolio increased \$4.8 million during our first quarter 2007 as compared to the same time period in 2006 due to higher occupancy levels at the hotels, as well as to the fact that several restaurants were under renovation in 2006 and were either closed or operating at a limited capacity.

Other operating revenue. Other operating revenue increased \$0.5 million, or 3.1%, for the three months ended March 31, 2007 as compared to the three months ended March 31, 2006. The six hotels contributed \$1.3 million to other operating revenue during our first quarter 2007. Other operating revenue generated from our existing portfolio decreased \$0.8 million during our first quarter 2007 as compared to the same time period in 2006. A substantial portion of our other operating revenue in both the three months ended March 31, 2007 and 2006 resulted from a performance guaranty provided by the manager of the Hyatt Regency Century Plaza. We used a total of \$1.0 million of the \$27.0 million performance guaranty during the three months ended March 31, 2007 and \$2.0 million during the three months ended March 31, 2006. We have used a total of \$25.2 million cumulatively. We expect to fully utilize the remaining amount of this guaranty in the second quarter 2007.

Hotel operating expenses. Hotel operating expenses, which are comprised of room, food and beverage, advertising and promotion, repairs and maintenance, utilities, and other hotel operating expenses, increased \$27.2 million, or 22.5%, during the three months ended March 31, 2007 as compared to the three months ended March 31, 2006. The six hotels contributed \$16.3 million to hotel operating expense during our first quarter 2007. In addition, hotel operating expenses in our existing portfolio increased \$10.9 million during our first quarter 2007 as compared to the same time period in 2006. These higher costs in our existing portfolio for the three months ended March 31, 2007 were primarily a result of increases in room expense and food and beverage expenses due to increases in occupancy and related revenue, combined with an increase in property taxes due to higher tax rates.

Property general and administrative expense. Property general and administrative expense increased \$4.1 million, or 17.3%, during the three months ended March 31, 2007 as compared to the three months ended March 31, 2006. The six hotels contributed \$3.0 million in property general and administrative expense during our first quarter 2007. Property general and administrative expenses in our existing portfolio increased \$1.1 million during our first quarter 2007 as compared to the same time period in 2006 primarily due to wage increases and to concessions given to guests who experienced disruptions during our renovations, as well as to other hotel specific expenses, such as increased credit card commissions, associated with the overall increase in revenue.

Corporate overhead expense. Corporate overhead expense increased \$1.5 million, or 24.8%, during the three months ended March 31, 2007 as compared to the three months ended March 31, 2006, primarily due to increases in payroll and related expenses, including deferred stock compensation expense.

Table of Contents

Depreciation and amortization expense. Depreciation and amortization expense increased \$6.5 million, or 30.9%, during the three months ended March 31, 2007 as compared to the three months ended March 31, 2006. The six hotels contributed \$4.2 million in depreciation and amortization expense during our first quarter 2007. Our existing portfolio contributed an additional \$2.3 million in depreciation and amortization expense during our first quarter 2007.

Interest expense. Interest expense decreased \$3.0 million, or 11.3%, during the three months ended March 31, 2007 as compared to the same time period during 2006. As a result of new loans obtained to finance our acquisitions, interest expense includes an additional \$4.8 million in interest incurred during the three months ended March 31, 2007 as compared to the same time period in 2006. Offsetting this increase, interest expense decreased in the first quarter of 2007 as compared to the first quarter of 2006 due to a \$7.4 million loss on early extinguishment of debt incurred in 2006 related to the cost associated with the defeasance of debt. In addition, amortization of deferred financing fees decreased \$0.4 million during the three months ended March 31, 2007 as compared to the same time period in 2006.

Our total notes payable, including the current portion, was \$1,811.9 million at March 31, 2007 and \$1,356.1 million at March 31, 2006, with a weighted average interest rate per annum of approximately 5.8% at March 31, 2007 and 5.9% at March 31, 2006. At March 31, 2007, the interest rates for all of our outstanding notes payable were fixed, however, the interest rate on our credit facility, representing 7.6% of our total outstanding debt as of March 31, 2007, was variable.

Income from discontinued operations. Income from discontinued operations was zero during the three months ended March 31, 2007 as compared to \$17.3 million for the three months ended March 31, 2006. As described under Factors Affecting Our Results of Operations Dispositions, fifteen hotels were sold during 2006. Consistent with Statement of Financial Accounting Standards No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*, we have classified the gains on sale as discontinued operations and reclassified the results of operations for these fifteen hotels as discontinued operations.

Liquidity and Capital Resources

Historical. During the periods presented, our sources of cash included our operating activities, working capital, proceeds from notes payable, our credit facility, sales of hotel properties, and proceeds from our public offerings of common stock. Our primary uses for cash were for acquisitions of hotels, capital expenditures for hotels, operating expenses, repayment of notes payable and dividends on our common and preferred stock.

Operating activities. Net cash provided by operating activities was \$22.3 million for the three months ended March 31, 2007 compared to \$30.4 million for the three months ended March 31, 2006. This decrease was primarily due to increases in our restricted cash accounts during the three months ended March 31, 2007.

Investing activities. Our cash used in investment activities fluctuates primarily based on acquisitions, sales and renovation of hotels. Net cash used in investing activities was \$324.4 million for the three months ended March 31, 2007 compared to \$251.8 million for the three months ended March 31, 2006. During the three months ended March 31, 2007, we acquired two hotels for \$293.7 million, including an \$8.4 million deposit paid at the end of 2006, and paid a \$2.0 million deposit on the Marriott Boston Quincy, for a total cash outlay of \$287.3 million. In addition, we paid cash of \$37.0 million for renovations to our hotels, increased the balance in our restricted cash replacement reserve accounts by \$0.5 million, and received \$0.4 million from our unconsolidated joint venture. During the same time period in 2006, we acquired two hotels for \$325.4 million, which included the assumption of \$81.0 million in debt and a \$6.5 million deposit paid at the end of 2005, and acquired an office building and land adjacent to one of our hotels for \$4.4 million, for a total cash outlay of \$242.3 million. In addition, in the first quarter of 2006, we paid cash of \$33.6 million for renovations to our hotels, increased the balance in our restricted cash replacement reserve accounts by \$1.7 million, and received net proceeds of \$25.8 million from the sale of one hotel combined with the collection of additional proceeds from a hotel we sold in 2004.

Financing activities. Net cash provided by financing activities was \$288.1 million for the three months ended March 31, 2007 compared to \$223.8 million for the three months ended March 31, 2006. Net cash provided by financing activities for the three months ended March 31, 2007 consisted primarily of proceeds from notes payable of \$314.0 million, partially offset by \$2.0 million of principal payments on notes payable, \$23.8 million of dividends paid to our shareholders, and \$0.1 million in deferred financing costs. Net cash provided by financing activities for the three months ended March 31, 2006 consisted primarily of proceeds from notes payable of \$167.5 million and net proceeds from our common stock offering of \$158.1 million, partially offset by \$73.7 million of principal payments on notes payable and \$7.4 million related to the cost associated with the defeasance of debt we refinanced, \$19.8 million of dividends paid to our shareholders, and \$0.9 million in deferred financing costs.

Future. We expect our primary uses of cash to be for acquisitions of hotels, capital expenditures for hotels, operating expenses, repayment of principal on our notes payable, interest expense and dividends. We expect our primary sources of cash will continue to be our operating activities, working capital, notes payable, our credit facility, sales of hotel properties, and proceeds from public and private offerings of common and preferred stock, as well as our Forward Sale Agreement which we settled in full in April 2007 for gross proceeds of \$111.0 million. Our ability to incur additional debt depends on a number of financial factors, including our leverage, the value of our unencumbered assets and borrowing restrictions imposed by lenders under our existing notes payable, and our credit facility. Our ability to raise funds through the issuance of equity securities depends on, among other things, general market conditions for hotel companies and REITs and market perceptions about us. We will continue to analyze which source of capital is most advantageous to us at any particular point in time. However, the capital markets may not be available to us when needed on favorable terms or at all.

We believe that our capital structure, including the available balance of our \$200.0 million credit facility, proceeds received under our Forward Sale Agreement which we settled in full in April 2007, and cash flow from operations, will provide us with sufficient liquidity to meet our current operating expenses and other expenses directly associated with our business for the foreseeable future, and in any event for at least the next twelve months. As of March 31, 2007, our credit facility had \$138.0 million outstanding, and had \$12.4 million backing outstanding irrevocable letters of credit, leaving \$49.6 million available. We are subject to compliance with applicable credit ratios under the credit facility. In March 2007, we obtained a \$176.0 million mortgage loan with a maturity date of March 2017 and a fixed interest rate of 5.58% in connection with the acquisition of the Marriott Long Wharf, Boston, Massachusetts. In April 2007, we amended one of our mortgage loans to require interest only payments from May 2007 until the maturity date of May 2011, at which time the outstanding loan balance of \$248.2 million will be due and payable.

Table of Contents

As of March 31, 2007, all of our outstanding mortgage debt has fixed interest rates. Our credit facility has a variable interest rate that is tied to LIBOR. The majority of our mortgage debt is in the form of single asset loans rather than cross-collateralized multi-property pools. We believe this structure is appropriate for the operating characteristics of our business and provides flexibility for assets to be sold subject to the existing debt.

Contractual Obligations

The following table summarizes our payment obligations and commitments as of March 31, 2007 (in thousands):

Contractual obligations	Total	Payment due by period			
		Less than 1 year	1 to 3 years (in thousands)	3 to 5 years	More than 5 years

Capital Expenditures and Reserve Funds

We believe we maintain each of our hotels in good repair and condition and in conformity with applicable franchise agreements, ground leases, laws and regulations. Our capital expenditures primarily relate to the ongoing maintenance of our hotels and are budgeted in the reserve accounts described in the following paragraph. We also incur capital expenditures following the acquisition of hotels for renovation and development. We spent \$37.0 million during the first three months of 2007 for renovations to our hotels. For 2007, our renovation budget includes \$35.9 million of contractual construction commitments. Our capital expenditures for 2007 are expected to be approximately \$120.0 million to \$130.0 million. All of these amounts are expected to be funded out of our operating cash flow and our cash and reserve accounts. If we acquire, renovate or develop additional hotels in the future, our capital expenditures will increase. Our capital expenditures also fluctuate from year to year, since we are not required to spend the entire amount in the reserve accounts each year.

With respect to our hotels that are operated under franchise agreements with major national hotel brands and for all of our hotels subject to a first mortgage lien, we are obligated to maintain a furniture, fixture and equipment, or FF&E, reserve account for future planned and emergency-related capital expenditures at these hotels. The amount funded into each of these reserve accounts is determined pursuant to the management, franchise and/or loan agreements for each of the respective hotels, ranging between 4.0% and 5.0% of the respective hotel's total annual revenue.

As of March 31, 2007, \$37.1 million was available in restricted cash reserves for future capital expenditures at our hotels. According to the respective loan agreements, the reserve funds are to be held by the respective lenders in a restricted cash account.

Off-Balance Sheet Arrangements

Our off-balance sheet arrangements consist of our ownership interest in a joint venture. For further discussion of this joint venture and its effect on our financial condition, results of operations and cash flows, see Note 6 to the consolidated financial statements.

Seasonality

As is typical of the lodging industry, we experience some seasonality in our business as indicated in the table below. Revenue for certain of our hotels is generally affected by seasonal business patterns (e.g. the first quarter is strong in Orlando, the second quarter is strong for the Mid-Atlantic business hotels, and the fourth quarter is strong for New York City). Quarterly revenue also may be adversely affected by renovations and our managers' ability to generate business and by events beyond our control, such as extreme weather conditions, terrorist attacks or alerts, public health concerns, airline strikes, economic factors and other considerations affecting travel. Revenues for our Comparable Portfolio by quarter during 2006 and 2007 were as follows (dollars in thousands):

	First Quarter	Second Quarter	Third Quarter	Fourth Quarter
Revenues				
2006	\$ 191,441	\$ 214,648	\$ 208,565	\$ 230,440
2007	\$ 213,011

Inflation

Inflation may affect our expenses by increasing costs including but not limited to, payroll, taxes, property and casualty insurance and utilities.

Critical Accounting Policies

Our discussion and analysis of our financial condition and results of operations is based upon our consolidated financial statements, which have been prepared in accordance with GAAP. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenue and expenses and related disclosure of contingent assets and liabilities.

We evaluate our estimates on an ongoing basis. We base our estimates on historical experience, information that is currently available to us and on various other assumptions that we believe are reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions. We believe the following critical accounting policies affect the most significant judgments and estimates used in the preparation of our consolidated financial statements.

Impairment of long-lived assets. We periodically review each property for possible impairment. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future undiscounted net cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment recognized is measured by the amount by which the carrying amount of the assets exceeds the estimated fair value of the assets. In this analysis of fair value, we use discounted cash flow analysis to estimate the fair value of our properties taking into account each property's expected cash flow from operations, holding period and proceeds from the disposition of the property. The factors addressed in determining estimated proceeds from disposition include anticipated operating cash flow in the year of disposition, terminal capitalization rate and selling price per room. Our judgment is required in determining the discount rate applied to estimated cash flows, growth rate of the properties, the need for capital expenditures, as well as specific market and economic conditions. Additionally, the classification of these assets as held-for-sale (if applicable) requires the recording of these assets at their estimated fair value less estimated selling costs which can affect the amount of impairment recorded.

Depreciation and amortization expense. Depreciation expense is based on the estimated useful life of our assets. The life of the assets is based on a number of assumptions, including the cost and timing of capital expenditures to maintain and refurbish our hotels, as well as specific market and economic conditions. Hotel properties and other completed real estate investments are depreciated using the straight-line method over estimated useful lives ranging from five to 35 years for buildings and improvements and three to 12 years for furniture, fixtures and equipment. While management believes its estimates are reasonable, a change in the estimated lives could affect depreciation expense and net income or the gain or loss on the sale of any of our hotels. We have not changed the estimated useful lives of any of our assets during the periods discussed.

Accrual of self-insured obligations. We are self-insured up to certain amounts with respect to employee medical, employee dental, general liability insurance, personal injury claims, automobile liability and other coverages. We establish reserves for our estimates of the loss that we will ultimately incur on reported claims as well as estimates for claims that have been incurred but not yet reported. Our reserves, which are reflected in Due to SHP and other liabilities in our consolidated balance sheets, are based on actuarial valuations and our history of claims. Our actuaries incorporate historical loss experience and judgments about the present and expected levels of costs per claim. Trends in actual experience are an important factor in the determination of these estimates. We believe that our estimated reserves for such claims are adequate, however, actual experience in claim frequency and amount could materially differ from our estimates and adversely affect our results of operations, cash flow, liquidity and financial condition.

New Accounting Standards and Accounting Changes

We have adopted the provisions of Financial Accounting Standards Board (FASB) Interpretation No. 48, Accounting for Uncertainty in Income Taxes-an interpretation of FASB Statement No. 109 (FIN 48), as of January 1, 2007. FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with FASB Statement 109, Accounting for Income Taxes, and prescribes a recognition threshold and measurement process for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. Based on our evaluation, we have concluded that there are no significant uncertain tax positions requiring recognition in our financial statements. Our evaluation was performed for the tax years ended December 31, 2004, 2005 and 2006. These are the tax years

Edgar Filing: Sunstone Hotel Investors, Inc. - Form 10-Q

which remain subject to examination by major tax jurisdictions as of March 31, 2007. We may from time to time be assessed interest or penalties by major tax jurisdictions, although any such assessments historically have been minimal and immaterial to our financial results. In the event we have received an assessment for interest and/or penalties, it has been classified in the financial statements as tax expense.

In September 2006, the FASB issued Statement No. 157 (FAS 157), *Fair Value Measurements*. FAS 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. FAS 157 is effective for the first fiscal period beginning after November 15, 2007. We are currently evaluating the effect, if any, the adoption of FAS 157 will have on our financial condition, results of operations and cash flow.

In February 2007, the FASB issued Statement No. 159 (FAS 159), *The Fair Value Option for Financial Assets and Financial Liabilities* . FAS 159 permits entities to choose to measure many financial instruments and certain other items at

Table of Contents

fair value. The objective is to improve financial reporting by providing entities with the opportunities to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. FAS 159 is effective as of the beginning of an entity's first fiscal year that begins after November, 15, 2007. We are currently evaluating the effect, if any, the adoption of FAS 159 will have on our financial condition, results of operations and cash flow.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

To the extent that we incur debt with variable interest rates, our future income, cash flows and fair values relevant to financial instruments are dependent upon prevailing market interest rates. Only our credit facility, representing 7.6% of our outstanding debt as of March 31, 2007, is subject to variable interest rates. Due to the types of debt instruments we hold, a 10% change in period-end interest rates or a hypothetical 100 basis point adverse move in interest rates would not have a significant negative effect on our results of operations.

Interest risk amounts were determined by considering the impact of hypothetical interest rates on our financial instruments. These analyses do not consider the effect of a reduced level of overall economic activity. If overall economic activity is significantly reduced, we may take actions to further mitigate our exposure. However, because we cannot determine the specific actions that would be taken and their possible effects, these analyses assume no changes in our financial structure.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures. Based upon an evaluation of the effectiveness of disclosure controls and procedures, Sunstone Hotels Investors, Inc.'s Chief Executive Officer (CEO) and Chief Financial Officer (CFO) have concluded that as of the end of the period covered by this Quarterly Report on Form 10-Q our disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) were effective to provide reasonable assurance that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified by the rules and forms of the Securities and Exchange Commission and is accumulated and communicated to management, including the CEO and CFO, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting. During our fiscal quarter to which this Quarterly Report on Form 10-Q relates, there has not occurred any change in our internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

Item 1. Legal Proceedings

During 2003, a suit against our predecessor companies was filed by a hotel guest who became ill and alleged the illness resulted from exposure to Legionella bacteria during a stay at one of our formerly owned hotels. This suit was settled during our first quarter of 2007. We did not admit any wrongdoing in connection with the settlement, and our liability insurance covered the settlement amount above our \$100,000 deductible.

Item 1A. Risk Factors

There have been no material changes from risk factors as previously disclosed in the Risk Factors section of our Annual Report on Form 10-K for the period ended December 31, 2006, filed with the Securities and Exchange Commission on February 7, 2007.
