ITEM 1. REPORTS TO STOCKHOLDERS.

Letter from the MFS CEO

Dear Shareholders:

Welcome to MFS®. The shareholders of your fund approved MFS Investment Management® as the fund's new investment advisor, effective at the close of business on June 29, 2007. In connection with the appointment of MFS, the name of your fund changed to MFS® Intermediate High Income Fund. The enclosed semiannual report contains information for the period ended May 31, 2007. Because this is prior to the name change, the fund is referred to in the report by its old name. Also, unless otherwise noted, the report refers to the fund's management, investments, policies and procedures, and other characteristics as they existed prior to June 29, 2007, when MFS assumed administrative, financial reporting, compliance, and other responsibilities for the fund. Your fund's investment objectives and principal investment strategies will remain the same; however, the fund will be managed by a new portfolio management team. The fund's new portfolio managers are John Addeo, who has been employed in the investment management area of MFS since 1998, and David Cole, who has been employed in the investment management area of MFS since 2004. Prior to 2004, Mr. Cole was employed as a High Yield Analyst at Franklin Templeton Investments.

I want to thank you for trusting us to manage your money and would like to take this opportunity to introduce you to our management approach.

At MFS we have a long tradition of investment management. For more than 80 years we have applied a consistent, bottom-up, research-driven method to security selection with a top-down approach to risk management.

In 1932 MFS became one of the first investment management firms in the United States to establish its own in-house research department. Today, this department has evolved into a global research team providing on-the-ground coverage in the more than 60 countries where our portfolios invest. Our team approach extends across asset classes and contributes to our culture of collaboration, which has been crucial in supporting the free and open exchange of ideas while ensuring the highest standards of accountability.

When working with MFS, you can count on us to continue to provide securities analysis that is research driven, globally integrated, and disciplined.

We look forward to helping you reach your investing goals.

Respectfully,

Robert J. Manning

Chief Executive Officer, President, and Chief Investment Officer

MFS Investment Management

Notes to Financial Statements Colonial Intermediate High Income Fund

May 31, 2007 (Unaudited)

Note 1. Organization

Colonial Intermediate High Income Fund (the Fund) is a Massachusetts business trust registered under the Investment Company Act of 1940, as amended, as a diversified, closed-end management investment company. Effective June 29, 2007, the Fund's name has been changed to MFS Intermediate High Income Fund.

Investment Goal

The Fund seeks high current income and total return by investing primarily in high yield fixed income securities in lower-rated categories.

Fund Shares

The Fund may issue an unlimited number of shares.

Note 2. Significant Accounting Policies

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP) requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements for the six months ended May 31, 2007.

Security Valuation

Debt securities generally are valued by pricing services approved by the Fund's Board of Trustees, based upon market transactions for normal, institutional-size trading units of similar securities. The services may use various pricing techniques which take into account appropriate factors such as yield, quality, coupon rate, maturity, type of issue, trading characteristics and other data, as well as broker quotes. Debt securities for which quotations are readily available are valued at an over-the-counter or exchange bid quotation. Certain debt securities, which tend to be more thinly traded and of lesser quality, are priced based on fundamental analysis of the financial condition of the issuer and the estimated value of any collateral. Valuations developed through pricing techniques may vary from the actual amounts realized upon sale of the securities, and the potential variation may be greater for those securities valued using fundamental analysis.

Short-term debt obligations maturing within 60 days are valued at amortized cost, which approximates market value.

Equity securities are valued at the last sale price on the principal exchange on which they trade, except for securities traded on the NASDAQ, which are valued at the NASDAQ official close price. Unlisted securities or listed securities for which there were no sales during the day are valued at the closing bid price on such exchanges or over-the-counter markets.

Forward currency exchange contracts are valued at the prevailing forward exchange rate of the underlying currencies.

Foreign securities are generally valued at the last sale price on the foreign exchange or market on which they trade. If any foreign share prices are not readily available as a result of limited share activity, the securities are valued at the last sale price of the local shares in the principal market in which such securities are normally traded.

Generally, trading in foreign securities is substantially completed each day at various times prior to the close of the New York Stock Exchange (NYSE). The values of such securities used in computing the net asset value of the Fund's shares are determined as of such times. Foreign

Edgar Filing: MFS INTERMEDIATE HIGH INCOME FUND - Form N-CSRS

currency exchange rates are generally determined at 4:00 p.m. Eastern (U.S.) time. Events affecting the values of such foreign securities and such exchange rates may occur between the times at which they are determined and the close of the customary trading session of the NYSE, which would not be reflected in the computation of the Fund's net asset value. If events materially affecting the values of such foreign securities occur and it is determined that market quotations are not reliable, then these foreign securities will be valued at their fair value using procedures approved by the Board of Trustees. The Fund may use a systematic fair valuation model provided by an independent third party to value securities principally traded in foreign markets in order to adjust for possible stale pricing that may occur between the close of the foreign exchanges and the time for valuation. If a security is valued at fair value, such value is likely to be different from the last quoted market price for the security.

Colonial Intermediate High Income Fund

May 31, 2007 (Unaudited)

Investments for which market quotations are not readily available, or quotations which management believes are not reliable, are valued at fair value as determined in good faith under consistently applied procedures established by and under the general supervision of the Board of Trustees.

In September 2006, Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* (SFAS 157), was issued. SFAS 157 is effective for fiscal years beginning after November 15, 2007. SFAS 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. Management is evaluating the impact the application of SFAS 157 will have on the Fund's financial statement disclosures.

Security Transactions

Security transactions are accounted for on the trade date. Cost is determined and gains (losses) are based upon the specific identification method for both financial statement and federal income tax purposes.

Forward Foreign Currency Exchange Contracts

Forward foreign currency exchange contracts are agreements to exchange one currency for another at a future date at a specified price. These contracts are used to minimize the exposure to foreign exchange rate fluctuations during the period between trade and settlement date of the contract. The Fund may utilize forward foreign currency exchange contracts in connection with the settlement of purchases and sales of securities. The Fund may also enter into these contracts to hedge certain other foreign currency denominated assets. Contracts to buy generally are used to acquire exposure to foreign currencies, while contracts to sell are used to hedge the Fund's investments against currency fluctuations. Forward currency contracts are valued daily at the current exchange rate of the underlying currency, resulting in unrealized gains (losses) which become realized at the time the foreign currency contracts are closed or mature. Realized and unrealized gains (losses) arising from such transactions are included in net realized and unrealized gains (losses) on foreign currency transactions. The use of forward currency contracts does not eliminate fluctuations in the prices of the Fund's portfolio securities. While the maximum potential loss from such contracts is the aggregate face value in U.S. dollars at the time the contract was opened, exposure is typically limited to the change in value of the contract (in U.S. dollars) over the period it remains open. The Fund could also be exposed to risk if the counterparties of the contracts are unable to fulfill the terms of the contracts.

Repurchase Agreements

The Fund may engage in repurchase agreement transactions with institutions that its investment advisor has determined are creditworthy. The Fund, through its custodian, receives delivery of underlying securities collateralizing a repurchase agreement. The Fund's investment advisor is responsible for determining that collateral is at least equal, at all times, to the value of the repurchase obligation including interest. A repurchase agreement transaction involves certain risks in the event of default or insolvency of the counterparty. These risks include possible delays or restrictions upon the Fund's ability to dispose of the underlying securities and a possible decline in the value of the underlying securities during the period while the Fund seeks to assert its rights.

Delayed Delivery Securities

The Fund may trade securities on other than normal settlement terms, including securities purchased or sold on a "when-issued" basis. This may increase the risk if the other party to the transaction fails to deliver and causes the Fund to subsequently invest at less advantageous prices. The Fund holds until settlement date, in a segregated account, cash or liquid securities in an amount equal to the delayed delivery commitment.

Income Recognition

Interest income is recorded on the accrual basis and includes accretion of discounts, amortization of premiums and paydown gains and losses. Premium and discount are amortized and accreted, respectively, on debt securities. Corporate actions and dividend income are recorded on the ex-date, except for certain foreign securities which are recorded as soon after ex-date as the Fund becomes aware of such, net of any non-reclaimable tax withholdings. The value of additional securities received as an income payment is recorded as income and as the cost basis

of such securities.

Foreign Currency Transactions

The values of all assets and liabilities quoted in foreign currencies are translated into U.S. dollars at that day's

Colonial Intermediate High Income Fund

May 31, 2007 (Unaudited)

exchange rates. Net realized and unrealized gains (losses) on foreign currency transactions include gains (losses) arising from the fluctuation in exchange rates between trade and settlement dates on securities transactions, gains (losses) arising from the disposition of foreign currency and currency gains (losses) between the accrual and payment dates on dividends, interest income and foreign withholding taxes.

For financial statement purposes, the Fund does not distinguish that portion of gains (losses) on investments which is due to changes in foreign exchange rates from that which is due to changes in market prices of the investments. Such fluctuations are included with the net realized and unrealized gains (losses) on investments in the Statement of Operations.

Federal Income Tax Status

The Fund intends to qualify each year as a regulated investment company under Subchapter M of the Internal Revenue Code, as amended, and will distribute substantially all of its taxable income, if any, for its tax year, and as such will not be subject to federal income taxes. In addition, the Fund intends to distribute in each calendar year substantially all of its net investment income, capital gains and certain other amounts, if any, such that the Fund should not be subject to federal excise tax. Therefore, no federal income or excise tax provision is recorded.

Distributions to Shareholders

Distributions to shareholders are recorded on the ex-date and are generally declared and paid monthly. Net realized capital gains, if any, are distributed at least annually.

Statement of Cash Flows

Information on financial transactions which have been settled through the receipt or disbursement of cash is presented in the Statement of Cash Flows. The cash amount shown in the Statement of Cash Flows is the amount included within the Fund's Statement of Assets and Liabilities and includes cash on hand at its custodian bank and does not include any short-term investments.

Indemnification

In the normal course of business, the Fund enters into contracts that contain a variety of representations and warranties and which provide general indemnities. The Fund's maximum exposure under these arrangements is unknown because this would involve future claims against the Fund. Also, under the Fund's organizational documents and by contract, the trustees and officers of the Fund are indemnified against certain liabilities that may arise out of actions relating to their duties to the Fund. However, based on experience, the Fund expects the risk of loss due to these representations, warranties and indemnities to be minimal.

Note 3. Federal Tax Information

For the year ended November 30, 2006, permanent book and tax basis differences resulted primarily from differing treatments for expired capital loss carryforwards, discount accretion/premium amortization on debt securities, foreign currency transactions and market discount reclassification adjustments.

The tax character of distributions paid during the year ended November 30, 2006 was as follows:

	November 30, 2006
Distributions paid from:	
Ordinary Income*	\$7,141,189

Edgar Filing: MFS INTERMEDIATE HIGH INCOME FUND - Form N-CSRS

* For tax purposes short-term capital gains distributions, if any, are considered ordinary income distributions.

As of November 30, 2006, the components of distributable earnings on a tax basis were as follows:

Undistributed	Undistributed	Net
	Long-term	Unrealized
Ordinary Income	Capital Gains	Appreciation*
\$420,732	\$	\$1,278,237

* For differences between book-basis and tax-basis net unrealized appreciation/depreciation are primarily due to deferred of losses from wash sales.

Unrealized appreciation and depreciation at May 31, 2007, based on cost of investments for federal income tax purposes were:

Unrealized appreciation	\$ 3,938,995
Unrealized depreciation	(997,212)
Net unrealized appreciation	\$ 2,941,783

Colonial Intermediate High Income Fund

May 31, 2007 (Unaudited)

The following capital loss carryforwards, determined as of November 30, 2006, may be available to reduce taxable income arising from future net realized gains on investments, if any, to the extent permitted by the Internal Revenue Code:

Year of Expiration	Capital Loss Carryforward	
2007	\$	10,437,671
2008		22,694,029
2009		23,203,433
2010		6,431,055
2013		796,437
2014		2,075,017
Total	\$	65,637,642

In June 2006, FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (the Interpretation) was issued, and is effective for fiscal years beginning after December 15, 2006 and is to be applied to all open tax years as of the effective date. On December 22, 2006, the SEC delayed the implementation of the Interpretation for regulated investment companies for an additional six months. This Interpretation prescribes a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken in a tax return, and requires certain expanded disclosures. Management is evaluating the application of the Interpretation to the Fund, and has not at this time determined the impact, if any, resulting from the adoption of this Interpretation on the Fund's financial statements.

Note 4. Fees and Compensation Paid to Affiliates

Investment Advisory Fee

Columbia Management Advisors, LLC (Columbia), an indirect, wholly-owned subsidiary of Bank of America Corporation ("BOA"), was the investment advisor to the Fund and provided administrative and other services for the six months ended May 31, 2007. Columbia receives a monthly investment advisory fee at the annual rate of 0.65% of the Fund's average weekly net assets.

In addition, the Fund paid Columbia a monthly fee of 20% of the Fund's monthly leverage income (as that term is defined in the management contract). Columbia voluntarily agreed to waive this fee. In the event that the Fund's monthly net leverage income is less than zero, then Columbia agreed to pay the Fund 20% of the Fund's deficit.

Pricing and Bookkeeping Fees

Effective December 15, 2006, the Fund entered into a Financial Reporting Services Agreement with State Street Bank & Trust Company (State Street) and Columbia (the Financial Reporting Services Agreement) pursuant to which State Street provides financial reporting services to the Fund. Also, effective December 15, 2006, the Fund entered into an Accounting Services Agreement with State Street and Columbia (collectively with the Financial Reporting Services Agreement, the State Street Agreements) pursuant to which State Street provides accounting services to the Fund. Under the State Street Agreements, the Fund pays State Street an annual fee of \$38,000 paid monthly. In addition, the Fund pays State Street a monthly fee based on an annualized percentage rate of average daily net assets of the Fund for the month. The aggregate fee may not exceed \$140,000 per year (exclusive of out-of-pocket expenses and charges). The Fund also reimburses State Street for certain out-of-pocket expenses and charges.

Effective December 15, 2006, the Fund entered into a Pricing and Bookkeeping Oversight and Services Agreement (the Services Agreement) with Columbia. Under the Services Agreement Columbia provides services related to Fund expenses and the requirements of the Sarbanes-Oxley Act of 2002, and provides oversight of the accounting and financial reporting services provided by State Street. Under the Services Agreement, the Fund reimburses Columbia for out-of-pocket expenses and direct internal costs relating to accounting oversight and for services relating to Fund expenses and the requirements of the Sarbanes-Oxley Act of 2002.

Edgar Filing: MFS INTERMEDIATE HIGH INCOME FUND - Form N-CSRS

Prior to December 15, 2006, Columbia was responsible for providing pricing and bookkeeping services to the Fund under a pricing and bookkeeping agreement and was entitled to receive an annual fee at the same fee structure described above under the State Street Agreements. Under separate agreements between Columbia and State Street, Columbia delegated certain functions to State Street. As a result of the delegation, the total fees payable under the pricing and bookkeeping agreement (other than certain reimbursements

Colonial Intermediate High Income Fund

May 31, 2007 (Unaudited)

paid to Columbia and discussed below) were paid to State Street. The Fund also reimbursed Columbia and State Street for out-of-pocket expenses and charges, including fees payable to third parties for pricing the Fund's portfolio securities and direct internal costs incurred by Columbia in connection with providing fund accounting oversight and monitoring and certain other services.

For the six months ended May 31, 2007, the total amounts paid and payable to affiliates by the Fund under these arrangements were \$11,884 and \$1,518 respectively.

For the six months ended May 31, 2007, the annualized effective pricing and bookkeeping fee rate for the Fund, inclusive of out-of-pocket expenses, was 0.133% of the Fund's average daily net assets.

Custody Credits

During the period covered by this report, the Fund had an agreement with its custodian bank under which custody fees may be reduced by balance credits. These credits were recorded as a reduction of total expenses on the Statement of Operations. The Fund could have invested a portion of the assets utilized in connection with the expense offset arrangement in an income-producing asset if it had not entered into such an agreement.

Fees Paid to Officers and Trustees

All officers of the Fund during the period covered by this report were employees of Columbia or its affiliates and, with the exception of the Fund's Chief Compliance Officer, received no compensation from the Fund. The Board of Trustees has appointed a Chief Compliance Officer to the Fund in accordance with federal securities regulations. The Fund, along with other funds managed by Columbia, pays a pro-rata share of the expenses associated with the Chief Compliance Officer. The Fund's expenses for the Chief Compliance Officer may not exceed \$15,000 per year.

The Fund's former Trustees participated in a deferred compensation plan. Obligations of the plan will be paid solely out of the Fund's assets.

Note 5. Portfolio Information

For the six months ended May 31, 2007, the cost of purchases and proceeds from sales of securities, excluding short-term obligations, were \$41,774,020 and \$42,692,981, respectively.

Note 6. Loan Agreement

At May 31, 2007, the Fund had term loans and a revolving loan outstanding with State Street, totaling \$28,500,000. The term loans are comprised of an \$8,000,000 loan which bears interest at 6.14% per annum, due August 24, 2007, a \$7,000,000 loan which bears interest at 5.20% per annum, due August 24, 2007 and a \$7,000,000 loan which bears interest at 5.98% per annum, due August 22, 2008. The revolving loan is a \$6,500,000 floating rate loan, maturing on June 22, 2007. Interest is charged at a rate per annum equal to the London Interbank Offered Rate plus 0.65%. The interest rate at May 31, 2007 was 5.97%. For the six months ended May 31, 2007, the average daily loan balance was \$28,500,000 at a weighted average interest rate of 5.92%. The Fund is subject to certain covenants including, but not limited to, requirements with respect to asset coverage, portfolio diversification and liquidity.

Note 7. Disclosure of Significant Risks and Contingencies

Foreign Securities

Edgar Filing: MFS INTERMEDIATE HIGH INCOME FUND - Form N-CSRS

There are certain additional risks involved when investing in foreign securities that are not inherent with investments in domestic securities. These risks may involve foreign currency exchange rate fluctuations, adverse political and economic developments and the possible prevention of currency exchange or other foreign governmental laws or restrictions. In addition, the liquidity of foreign securities may be more limited than that of domestic securities.

High-Yield Securities

Investing in high-yield securities may involve greater credit risk and considerations not typically associated with investing in U.S. Government bonds and other higher quality fixed income securities. These securities are non-investment grade securities, often referred to as junk bonds. Economic downturns may disrupt the high yield market and impair the ability of issuers to repay principal and interest. Also, an increase in interest rates would likely have an adverse impact on the value of such obligations. Moreover, high-yield securities may be less liquid to the extent that there is no established secondary market.

Colonial Intermediate High Income Fund

May 31, 2007 (Unaudited)

Sector Focus

The Fund may focus its investments in certain industries, subjecting it to greater risk than a fund that is less concentrated.

Legal Proceedings

On February 9, 2005, Columbia Management Advisors, Inc. (which has since merged into Banc of America Capital Management, LLC (now named Columbia Management Advisors, LLC)) (Columbia) and Columbia Funds Distributor, Inc. (which has been renamed Columbia Management Distributors, Inc.) (the Distributor) (collectively, the Columbia Group) entered into an Assurance of Discontinuance with the New York Attorney General (NYAG) (the NYAG Settlement) and consented to the entry of a cease-and-desist order by the Securities and Exchange Commission (SEC) (the SEC Order) on matters relating to mutual fund trading. The SEC Order and the NYAG Settlement are referred to collectively as the Settlements .

Under the terms of the SEC Order, the Columbia Group agreed, among other things, to pay \$70 million in disgorgement and \$70 million in civil money penalties; cease and desist from violations of the antifraud provisions and certain other provisions of the federal securities laws; maintain certain compliance and ethics oversight structures; retain an independent consultant to review the Columbia Group s applicable supervisory, compliance, control and other policies and procedures; and retain an independent distribution consultant (see below). The Columbia Funds have also voluntarily undertaken to implement certain governance measures designed to maintain the independence of their boards of trustees. The NYAG Settlement also, among other things, requires Columbia and its affiliates to reduce management fees for certain Columbia Funds (including the former Nations Funds) and other mutual funds collectively by \$32 million per year for five years, for a projected total of \$160 million in management fee reductions.

Pursuant to the procedures set forth in the SEC Order, the \$140 million in settlement amounts described above will be distributed in accordance with a distribution plan that was developed by an independent distribution consultant and approved by the SEC on April 6, 2007.

A copy of the SEC Order is available on the SEC website at <http://www.sec.gov>. A copy of the NYAG Settlement is available as part of the Bank of America Corporation Form 8-K filing on February 10, 2005.

In connection with the events described above, various parties have filed suit against certain funds, the Trustees of the Columbia Funds, FleetBoston Financial Corporation and its affiliated entities and/or Bank of America and its affiliated entities.

On February 20, 2004, the Judicial Panel on Multidistrict Litigation transferred these cases and cases against other mutual fund companies based on similar allegations to the United States District Court in Maryland for consolidated or coordinated pretrial proceedings (the MDL). Subsequently, additional related cases were transferred to the MDL. On September 29, 2004, the plaintiffs in the MDL filed amended and consolidated complaints. One of these amended complaints is a putative class action that includes claims under the federal securities laws and state common law, and that names Columbia, the Distributor, the Trustees of the Columbia Funds, Bank of America Corporation and others as defendants. Another of the amended complaints is a derivative action purportedly on behalf of the Columbia Funds that asserts claims under federal securities laws and a state common law.

On February 25, 2005, Columbia and other defendants filed motions to dismiss the claims in the pending cases. On March 1, 2006, for reasons stated in the court s memoranda dated November 3, 2005, the U.S. District Court for the District of Maryland granted in part and denied in part the defendants motions to dismiss. The court dismissed all of the class action claims pending against the Columbia Funds Trusts. As to Columbia and the Distributor, the claims under the Securities Act of 1933, the claims under Sections 34(b) and 36(a) of the Investment Company Act of 1940 (ICA) and the state law claims were dismissed. The claims under Sections 10(b) and 20(a) of the Securities Exchange Act of 1934 and claims under Section 38(b) of the ICA were not dismissed.

On March 21, 2005, a purported class action was filed in Massachusetts state court alleging that certain conduct, including market timing, entitled Class B shareholders in certain Columbia Funds to an exemption from contingent deferred sales charges upon early redemption (the CDSC Lawsuit). The CDSC Lawsuit was removed to federal court in

Colonial Intermediate High Income Fund

May 31, 2007 (Unaudited)

Massachusetts and the federal Judicial Panel transferred the CDSC Lawsuit to the MDL.

On April 4, 2006, the plaintiffs and the Columbia defendants named in the MDL, including the Columbia Funds, entered into a term sheet containing the principal terms of a stipulation of settlement that would settle all Columbia-related claims in the MDL described above, including the CDSC Lawsuit. On April 6, 2006, the U.S. District Court for the District of Maryland stayed all actions with respect to these Columbia-related claims. The settlement is subject to court approval.

In 2004, the Columbia Funds' adviser and distributor and certain affiliated entities and individuals were named as defendants in certain purported shareholder class and derivative actions making claims, including claims under the Investment Company and the Investment Advisers Acts of 1940 and state law. Certain Columbia Funds were named as nominal defendants. The suits allege, *inter alia*, that the fees and expenses paid by the funds are excessive and that the advisers and their affiliates inappropriately used fund assets to distribute the funds and for other improper purposes. On March 2, 2005, the actions were consolidated in the Massachusetts federal court as *In re Columbia Entities Litigation*. The plaintiffs filed a consolidated amended complaint on June 9, 2005. On November 30, 2005, the judge dismissed all claims by plaintiffs and entered final judgment in favor of the defendants. The plaintiffs appealed to the United States Court of Appeals for the First Circuit on December 30, 2005. A stipulation and settlement agreement dated January 19, 2007 was filed in the First Circuit on February 14, 2007, with a joint stipulation of dismissal and motion for remand to obtain district court approval of the settlement. That joint motion was granted and the appeal was dismissed. On March 6, 2007, the case was remanded to the District Court. On May 11, 2007, the District Court entered a preliminary approval order which granted preliminary approval of the settlement. A final settlement hearing, at which the District Court will determine whether the proposed settlement should be finally approved and the action dismissed on the merits with prejudice, is scheduled for September 18, 2007. The terms of the settlement, if finally approved, will require payments by the funds' adviser and/or its affiliates, including payment of plaintiffs' attorneys' fees and notice to class members. In the event that the settlement is not finally approved, the plaintiffs may elect to go forward with their appeal and no opinion is expressed regarding the likely outcome or financial impact of such an appeal on any fund.

Note 8. Subsequent Event

On April 10, 2007, Columbia entered into an asset purchase agreement with Massachusetts Financial Services Company, Inc. (MFS) to sell certain assets used in Columbia's business of managing the Fund to MFS (such transaction, the Sale). At the annual meeting of the shareholders of the Fund held in June 2007, the shareholders, among other things, approved a new advisory agreement between MFS and the Fund and elected twelve new Trustees. Upon the closing of the Sale on June 29, 2007 (the Closing), the existing advisory agreement between Columbia and the Fund was terminated, the Fund was removed from the existing service agreements among the Fund, Columbia and certain affiliated funds, and new agreements between: (a) MFS and the Fund (for investment advisory and administrative services); (b) State Street Bank and the Fund (for custody, fund accounting and securities lending services); and (c) Computershare Trust Company, N.A. and the Fund (for transfer agency services) became effective. Also upon the Closing: (i) the Fund; changed its name to MFS Intermediate High Income Fund and (ii) the then-serving Trustees and officers of the Fund resigned and the newly elected Trustees and newly appointed officers took office. On June 29, 2007, PricewaterhouseCoopers LLP (PwC) resigned as the independent registered public accounting firm for the Fund. During the two most recent fiscal years, PwC's audit reports contained no adverse opinion or disclaimer of opinion; nor were its reports qualified or modified as to uncertainty, audit scope, or accounting principles. Further, in connection with its audits for the two most recent fiscal years and through June 29, 2007, there were no disagreements between the Fund and PwC on any matter of accounting principles or practices, financial statement disclosure or auditing scope or procedure, which, if not resolved to the satisfaction of PwC, would have caused it to make reference to the subject matter of the disagreement in its report on the financial statements for such years. Effective June 29, 2007, Ernst & Young LLP was appointed by the audit committee of the Board of Trustees as the independent registered public accounting firm of the Fund for the fiscal year ended November 30, 2007.

Dividend Reinvestment Plan

Colonial Intermediate High Income Fund

The Fund generally distributes net investment income monthly and capital gains annually. Under the Fund's Dividend Reinvestment Plan (the Plan) all distributions will be reinvested automatically in additional shares of the Fund, unless the shareholder elects to receive cash or the shares are held in broker or nominee name and a reinvestment service is not provided by the broker or nominee. All cash distributions will be mailed by check directly to the record holder by the dividend paying agent.

If the market price of the shares on the distribution payment date is equal to or greater than the net asset value, Plan participants will be issued shares at the higher of net asset value or 95% of the market price. The aggregate market value of the shares may constitute income to shareholders for federal income tax purposes. However, if the market price of the shares is less than the net asset value, shares will be bought as soon as practicable (but no more than 30 days after the distribution, except as may be required to comply with federal securities laws) in the open market for the accounts of Plan participants. If, during this purchase period, the market price surpasses the net asset value, the average per share price paid may exceed the asset value of the shares, resulting in the acquisition of fewer shares than if the distribution had been in newly-issued shares.

All Plan accounts receive written confirmations of all transactions. Shares purchased under the Plan are held in uncertificated form. Each shareholder's proxy includes shares purchased pursuant to the Plan. The automatic reinvestment of distributions does not relieve participants of any income tax payable on the distributions.

Fees and expenses of the Plan other than brokerage charges will be paid by the Fund. No brokerage charges are incurred on shares issued directly by the Fund. Participants will bear a pro-rata share of brokerage charges incurred on open market purchases.

A Plan participant may terminate his or her participation by written notice to the Plan agent. The Plan may be amended or terminated on 90 days written notice to the Plan participants. Contact the Plan Agent for additional information regarding the Plan. All correspondence concerning the Plan should be directed to Computershare Trust Company, N.A. by mail at P.O. Box 43010, Providence, RI 02940-3010 or by phone at 1-800-637-2304.

Board Consideration and Approval of Investment

Advisory Agreement

On April 10, 2007, Columbia Management Advisors, LLC (Columbia) entered into an asset purchase agreement with Massachusetts Financial Services Company, Inc. (MFS) to sell certain assets used in Columbia's business of managing the Trust and the other closed-end funds managed by Columbia (the Colonial Closed-End Funds) to MFS (such transaction, the Sale). Upon the closing of the transaction (the Closing) on June 29, 2007, MFS became the investment adviser to the Trust. Because the then-existing investment advisory agreements (the Previous Advisory Agreements) were to terminate upon the Closing, shareholder approval of new investment advisory agreements with MFS (New Advisory Agreements) was required. Shareholders of each Colonial Closed-End Fund approved the New Advisory Agreements at the annual meeting of shareholders.

The Advisory Fees and Expenses Committee of the Board reviewed each of the New Advisory Agreements and determined to recommend that the full Board approve those agreements.

The Board received and reviewed, in advance of their meeting on April 10, 2007, all materials that they, their legal counsel or MFS, the Colonial Closed-End Funds' proposed investment adviser, believed to be reasonably necessary for the Board to evaluate and to determine whether to approve the New Advisory Agreements. Those materials included, among other items, (i) information on the investment performance of funds advised by MFS relative to the performance of peer groups and performance benchmarks, (ii) information on each Colonial Closed-End Fund's anticipated investment advisory fees and other expenses, including, for certain of the Colonial Closed-End Funds, information about anticipated expense caps and fee waivers, (iii) information about the anticipated profitability of the New Advisory Agreements to MFS, and potential fall-out or ancillary benefits that MFS and its affiliates may receive as a result of their relationships with the Colonial Closed-End Funds and (iv) additional information provided by MFS in response to a request of independent legal counsel to the Independent Trustees. The Board also met with representatives of MFS and considered other information such as (v) MFS' financial condition, (vi) each Colonial Closed-End Fund's investment objective and strategies and the size, education and experience of the portfolio management staff MFS proposes to manage the Colonial Closed-End Funds, (vii) the anticipated use by MFS of soft commission dollars to pay for research products and services, and (viii) MFS' resources to be devoted to the Colonial Closed-End Funds' investment policies and restrictions, and MFS' policies on personal securities transactions and other compliance policies.

The Board had the opportunity to ask questions of, and to request additional materials from, MFS and to consult in executive session with independent legal counsel to the Independent Trustees.

In considering whether to approve the New Advisory Agreements, the Board, including the Independent Trustees, did not identify any single factor as determinative, and each trustee weighed various factors as he or she deemed appropriate. The Board considered the following matters in connection with their approval of the New Advisory Agreements:

The nature, extent and quality of the services to be provided to the Colonial Closed-End Funds under the New Advisory Agreements.

The Board considered the nature, extent and quality of the services to be provided by MFS and its affiliates to the Colonial Closed-End Funds and the resources to be dedicated to the Colonial Closed-End Funds by MFS and its affiliates. Among other things, the Board considered (i) MFS's ability, including its resources, reputation and other attributes, to attract and retain highly qualified research, investment advisory and supervisory investment professionals; (ii) the portfolio management services to be provided by those investment professionals; and (iii) that the services to be provided under the New Advisory Agreements and a new administrative services agreement with MFS (the Administrative Services Agreement) were comparable to the services provided under the Current Advisory Agreements and other administrative agreements. After reviewing the above and related factors, the Board concluded, within the context of its overall conclusions regarding the New Advisory Agreements, that the nature, extent and quality of services provided supported the approval of each of the New Advisory Agreements.

Investment performance of funds advised by MFS. The Board reviewed information about the performance of various funds advised by MFS over various time periods, including information prepared by MFS showing that the performance of such funds generally compared favorably to the performance of peer groups and performance benchmarks. The Board also considered MFS' reputation generally and MFS' commitment to the business of managing closed-end funds, including its experience managing the six closed-end

funds currently managed by MFS. After reviewing the above and related factors, the Board concluded, within the context of its overall conclusions regarding each New Advisory Agreement, that the performance of MFS was sufficient, in light of other considerations, to warrant the approval of each of the New Advisory Agreements.

The costs of the services to be provided and the profits to be realized by MFS and its affiliates from their relationships with the Colonial Closed-End Funds. The Board considered the fees to be charged to the Colonial Closed-End Funds for investment advisory services as well as the anticipated total expense levels of the Colonial Closed-End Funds. The Board considered information about the investment advisory fees charged by MFS to a closed-end fund, which were comparable to, and to institutional clients, which were generally lower than, the investment advisory fees under the New Advisory Agreements, and the scope of services provided to such clients relative to the scope of services to be provided under the New Advisory Agreements. In evaluating each Colonial Closed-End Fund's anticipated investment advisory fees, the Board took into account the fact that the investment advisory fee rates included in the New Advisory Agreements were the same as those included in the Current Advisory Agreements. The Board also took into account the demands and complexity of the investment management of the Fund. The Board considered the expense reductions that MFS anticipated would result from the shift to the group of service providers currently employed for transfer agency, fund accounting and custody services by funds advised by MFS.

The Board also considered the compensation to be received directly or indirectly by MFS and its affiliates from their relationships with the Colonial Closed-End Funds. The Board reviewed information provided by MFS regarding the estimated profitability to MFS and its affiliates of their relationships with the Colonial Closed-End Funds, and information about the allocation of expenses used to calculate profitability. When reviewing profitability, the Board also considered court cases in which investment adviser profitability was an issue in whole or in part, the performance of funds advised by MFS, the anticipated expense levels of the Colonial Closed-End Funds and the extent to which MFS would implement expense caps for the Colonial Closed-End Funds. After reviewing the foregoing and related factors, the Board concluded, within the context of its overall conclusions regarding each of the New Advisory Agreements, that the investment advisory fees to be charged to each Colonial Closed-End Fund were fair and reasonable, and that the anticipated costs of the investment advisory services generally, and the related anticipated profitability to MFS and its affiliates of their relationships with the Colonial Closed-End Funds, supported the approval of the New Advisory Agreements.

Economies of Scale. The Board considered the potential existence of economies of scale in the provision of services by MFS to each Colonial Closed-End Fund and whether those economies would be shared with the Colonial Closed-End Fund through breakpoints in the investment advisory fees or other means, such as expense caps. The Board noted that several of the Colonial Closed-End Funds benefited from fee waivers, expense caps or both prior to the Sale, and that those Colonial Closed-End Funds were expected to continue to so benefit. In considering the issues above, the Board also took note of the expected profitability to MFS and its affiliates of their proposed relationships with the Colonial Closed-End Funds, as discussed above. After reviewing the above and related factors, the Board concluded, within the context of its overall conclusions regarding each of the New Advisory Agreements, that the extent to which economies of scale were expected to be shared with the Colonial Closed-End Funds supported the approval of each of the New Advisory Agreements.

Other Factors. The Board also considered other factors, which included but were not limited to the following:

- n the compliance programs of MFS and the compliance-related resources that MFS and its affiliates would provide to the Colonial Closed-End Funds.
- n the nature, quality, estimated cost and extent of administrative and shareholder services to be performed by MFS and its affiliates, both under the New Advisory Agreements and under separate agreements for the provision of administrative services.
- n so-called fall-out benefits to MFS, such as the engagement of its affiliates to provide services to the Colonial Closed-End Funds, as well as possible conflicts of interest associated with those fall-out and other benefits.

Based on its evaluation of all factors that it deemed to be material, including those factors described above, and assisted by the advice of independent counsel, the Board, including all of the Independent Trustees, approved each of the New Advisory Agreements.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

Not applicable for semi-annual reports.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

General. Information regarding the portfolio manager(s) of the MFS Intermediate High Income Fund (the Fund) is set forth below.

Portfolio Manager	Primary Role	Since	Title and Five Year History
David P. Cole	Portfolio Manager	June 29, 2007	Investment Officer of MFS; employed in the investment management area of MFS since 2004. High Yield Analyst at Franklin Templeton Investments from 1999 to 2004.
John Addeo	Portfolio Manager	June 29, 2007	Investment Officer of MFS; employed in the investment management area of MFS since 1998.

Compensation. Portfolio manager total cash compensation is a combination of base salary and performance bonus:

Base Salary Base salary represents a smaller percentage of portfolio manager total cash compensation (generally below 33%) than incentive compensation.

Performance Bonus Generally, incentive compensation represents a majority of portfolio manager total cash compensation. The performance bonus is based on a combination of quantitative and qualitative factors, with more weight given to the former (generally over 60%) and less weight given to the latter.

The quantitative portion is based on pre-tax performance of all of the accounts managed by the portfolio manager (which includes the Fund and any other accounts managed by the portfolio manager) over a one-, three- and five-year period relative to the appropriate Lipper peer group universe and/or one or more benchmark indices with respect to each account. Primary weight is given to portfolio performance over a three-year time period with lesser consideration given to portfolio performance over one- and five-year periods (adjusted as appropriate if the portfolio manager has served for shorter periods).

The qualitative portion is based on the results of an annual internal peer review process (conducted by other portfolio managers, analysts and traders) and management's assessment of overall portfolio manager contributions to investor relations and the investment process (distinct from fund and other account performance).

Portfolio managers also typically benefit from the opportunity to participate in the MFS Equity Plan. Equity interests and/or options to acquire equity interests in MFS or its parent company are awarded by management, on a discretionary basis, taking into account tenure at MFS, contribution to the investment process, and other factors.

Edgar Filing: MFS INTERMEDIATE HIGH INCOME FUND - Form N-CSRS

Finally, portfolio managers are provided with a benefits package including a defined contribution plan, health coverage and other insurance, which are available to other employees of MFS on substantially similar terms. The percentage such benefits represent of any portfolio manager's compensation depends upon the length of the individual's tenure at MFS and salary level, as well as other factors.

Ownership of Fund Shares. The following table shows the dollar range of equity securities of the Fund beneficially owned by each of the Fund's portfolio managers as of June 29, 2007. The following dollar ranges apply:

- N. None
- A. \$1 - \$10,000
- B. \$10,001 - \$50,000
- C. \$50,001 - \$100,000
- D. \$100,001 - \$500,000
- E. \$500,001 - \$1,000,000
- F. Over \$1,000,000

Name of Portfolio Manager	Dollar Range of Equity Securities in Fund
David P. Cole	N
John Addeo	N

Other Accounts. In addition to the Fund, the Fund's portfolio managers are each responsible (either individually or jointly) for the day-to-day management of certain other accounts, the number and total assets of which as of June 29, 2007 were as follows:

Name	Registered Investment		Other Pooled Investment		Other Accounts	
	Companies		Vehicles		Other Accounts	
	Number of Accounts*	Total Assets*	Number of Accounts	Total Assets	Number of Accounts	Total Assets
David P. Cole	11	\$ 4.6 billion	2	\$ 310.7 million	0	N/A
John Addeo	14	\$ 5.0 billion	3	\$ 613.5 million	2	\$ 550.4 million

* Includes the Fund.

Advisory fees are not based upon performance of any of the accounts identified in the table above.

Potential Conflicts of Interest. MFS seeks to identify potential conflicts of interest resulting from a portfolio manager's management of both the Fund and other accounts, and has adopted policies and procedures designed to address such potential conflicts.

The management of multiple funds and accounts (including proprietary accounts) may give rise to potential conflicts of interest if the funds and accounts have different objectives and strategies, benchmarks, time horizons and fees as a portfolio manager must allocate his

or her time and investment ideas across multiple funds and accounts. In certain instances there may be securities which are suitable for the Fund's portfolio as well as for accounts of MFS or its subsidiaries with similar investment objectives. The Fund's trade allocation policies may give rise to conflicts of interest if the Fund's orders do not get fully executed or are delayed in getting executed due to being aggregated with those of other funds or accounts of MFS or its subsidiaries. A portfolio manager may execute transactions for another fund or account that may adversely impact the value of the Fund's investments. Investments selected for funds or accounts other than the Fund may outperform investments selected for the Fund.

When two or more clients are simultaneously engaged in the purchase or sale of the same security, the securities are allocated among clients in a manner believed by MFS to be fair and equitable to each. It is recognized that in some cases this system could have a detrimental effect on the price or volume of the security as far as the Fund is concerned. In most cases, however, MFS believes that the Fund's ability to participate in volume transactions will produce better executions for the Fund.

MFS does not receive a performance fee for its management of the Fund. As a result, MFS and/or a portfolio manager may have a financial incentive to allocate favorable or limited opportunity investments or structure the timing of investments to favor accounts other than the Fund - for instance, those that pay a higher advisory fee and/or have a performance fee.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

The Board of Trustees of the Registrant has adopted procedures by which shareholders may send recommendations to the Board for nominees to the Registrant's Board. Effective June 29, 2007, shareholders may mail written recommendations to MFS Intermediate High Income Fund, Massachusetts Financial Services Company, 500 Boylston Street, Boston, MA 02116, Attention: Mark Polebaum, Secretary of the Trust. Shareholder communications must be in writing and be signed by the shareholder and identify the Registrant to which they relate. Such recommendations must be accompanied by the candidate's biographical and occupational data (including whether the candidate would be an interested person of the Registrant), a written consent of the candidate to be named as a nominee and to serve as Trustee if elected, record and ownership information for the recommending shareholder with respect to the Registrant and a description of any arrangements or understandings regarding recommendation of the candidate for consideration.

ITEM 11. CONTROLS AND PROCEDURES.

(a) Based upon their evaluation of the effectiveness of the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940 (the Act)) as conducted within 90 days of the filing date of this Form N-CSR, the registrant's principal financial officer and principal executive officer have concluded that those disclosure controls and procedures provide reasonable assurance that the material information required to be disclosed by the registrant on this report is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

(b) There were no changes in the Registrant's internal controls over financial reporting (as defined in Rule 30a-3(d) under the Act) that occurred during the Registrant's last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Registrant's internal control over financial reporting. Subsequent to the period covered by this report, on June 29, 2007, Massachusetts Financial Services Company (MFS) became the investment adviser and fund administrator to the Registrant. As a result of MFS' appointment as investment adviser and fund administrator to the Registrant, the Registrant amended its internal controls over financial reporting to utilize the internal controls over financial reporting utilized by other investment management companies for which MFS provides investment advisory and fund administration services. Therefore, the internal controls over financial reporting of the Registrant prior to June 29, 2007 may materially differ from those currently utilized for the Registrant.

ITEM 12. EXHIBITS.

(a) File the exhibits listed below as part of this Form. Letter or number the exhibits in the sequence indicated.

- (1) Any code of ethics, or amendment thereto, that is the subject of the disclosure required by Item 2, to the extent that the registrant intends to satisfy the Item 2 requirements through filing of an exhibit: Attached hereto.

 - (2) A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2 under the Act (17 CFR 270.30a-2): Attached hereto.

 - (3) Not applicable.

 - (4) Letter to the Securities and Exchange Commission from PricewaterhouseCoopers LLP (PWC) stating whether PWC agrees with the statements made by the Registrant in the Registrant s Form N-SAR for the period ended May 31, 2007. Attached hereto.
- (b) If the report is filed under Section 13(a) or 15(d) of the Exchange Act, provide the certifications required by Rule 30a-2(b) under the Act (17 CFR 270.30a-2(b)), Rule 13a-14(b) or Rule 15d-14(b) under the Exchange Act (17 CFR 240.13a-14(b) or 240.15d-14(b)) and Section 1350 of Chapter 63 of Title 18 of the United States Code (18 U.S.C. 1350) as an exhibit. A certification furnished pursuant to this paragraph will not be deemed filed for the purposes of Section 18 of the Exchange Act (15 U.S.C. 78r), or otherwise subject to the liability of that section. Such certification will not be deemed to be incorporated by reference into any filing under the Securities Act of 1933 or the Exchange Act, except to the extent that the registrant specifically incorporates it by reference: Attached hereto.
