- (1) The Board of Directors approved certain equity award grants on December 22, 2006 contingent upon approval by the shareholders of the Company of an amendment to the 2003 Equity Incentive Plan to increase the number of shares available for issuance under that plan. The amendment was approved by the shareholders at the Company's Annual Meeting of the Shareholders on September 25, 2007. Therefore those grants approved on December 22, 2006 were not granted until September 25, 2007.

- (2) Shares will vest upon the Company's achievement of the following three key corporate goals: (a) approval from the FDA or EMEA for the sale of either paclitaxel poliglumex or pixantrone or any other drug owned or exclusively licensed by the Company on the date the grant was approved, (b) approval from the FDA or EMEA of a second such drug and (c) the closing share price for the Company's common stock exceeding \$35.00 (as equitably adjusted for any stock split, stock dividend or similar adjustment in the Company's capitalization). In the event that one of the above-mentioned corporate goals is achieved prior to December 31, 2009, the following additional shares of restricted stock would vest as of the date of the achievement of such corporate goal:

Name	Number of shares of Restricted Stock
Dr. James Bianco	80,645
Mr. Louis Bianco	24,193
Dr. Jack Singer	24,193
Mr. Dan Eramian	20,161
Dr. Scott Stromatt*	20,161

\* Due to Dr. Stromatt's resignation from CTI on April 4, 2008, these shares have been forfeited.

In the event that two of the above-mentioned corporate goals are achieved prior to December 31, 2009, the following additional shares of restricted stock granted would vest as of the date of the second to occur of the two corporate goals:

Name	Number of shares of Restricted Stock
Dr. James Bianco	40,322
Mr. Louis Bianco	12,096
Dr. Jack Singer	12,096
Mr. Dan Eramian	10,080
Dr. Scott Stromatt*	10,080

\* Due to Dr. Stromatt's resignation from CTI on April 4, 2008, these shares have been forfeited.

In the event that all three of the above-mentioned corporate goals are achieved prior to December 31, 2009, the following additional shares of restricted stock granted would vest as of the date of the last to occur of the three corporate goals:

Name	Number of shares of Restricted Stock
Dr. James Bianco	80,645
Mr. Louis Bianco	24,193
Dr. Jack Singer	24,193
Mr. Dan Eramian	20,161
Dr. Scott Stromatt*	20,161

\* Due to Dr. Stromatt's resignation from CTI on April 4, 2008, these shares have been forfeited.

- (3) As discussed in footnote (2) above, the vesting terms of this award contain two performance-based conditions and one market condition. The grant date fair value of the restricted shares that vest upon the two performance-based conditions is determined by multiplying the number of restricted shares granted by the closing price of one share of our common stock on the grant date. The grant date fair value of the restricted shares that vest upon the market condition was determined by utilizing a Monte Carlo simulation model to estimate the implications of potential stock price movements of our common stock and taking the average of the results.

**Director Compensation**

Directors who are also our employees are not paid an annual retainer, nor are they compensated for serving on the board. Information regarding compensation otherwise received by our directors who are also executive officers is provided under the heading Compensation of Executive Officers.

In 2006, our Board of Directors amended the 2003 Equity Incentive Plan to provide grants of restricted stock awards and options to non-employee directors on their initial appointment to the Board of Directors and on the anniversary of the date such director joined the Board of Directors. Under that compensation arrangement, as adjusted to reflect our one-for-four reverse stock split in April 2007, each initial non-employee director was granted an option to purchase 6,000 shares of our common stock and a restricted stock grant of 625 shares, each of which vest on the one-year anniversary of the date of grant, continuing non-employee directors other than the chairman of the board received a grant of an option to purchase 3,000 shares of our common stock which was fully vested on the date of grant and a restricted stock grant of 625 shares which vests on the one-year anniversary of the date of grant and the chairman of the board was granted an option to purchase 3,750 shares of our common stock, which was fully vested on the date of grant and a restricted stock grant of 625 shares which vests on the one-year anniversary of the date of grant. This compensation policy was replaced in April 2007, however, certain of our non-employee directors received grants under this compensation program prior to the adoption of the new director compensation policy.

In April 2007, the Compensation Committee of the Board of Directors approved a new director compensation policy, certain portions of which were retroactively effective as of January 1, 2007 or April 1, 2007. Under that policy, in 2007 our non-employee directors received compensation as follows: (i) each new non-employee director is granted 3,000 shares of restricted stock and options to purchase 9,000 shares of the Company's common stock upon joining the Company's Board of Directors, each such grant to vest over three years in equal annual installments, subject to the non-employee director's continued service to the Company through each vesting date; (ii) annually, each non-employee director is granted 3,000 shares of restricted stock and options to purchase 9,000 shares of the Company's common stock, each such grant to vest in full upon the earlier of (x) the one year anniversary of the date of grant and (y) the date immediately preceding the date of the Annual Meeting of the Company's shareholders for the year following the year of grant for the award, subject to the non-employee director's continued service to the Company through the vesting date; (iii) the annual retainer for all non-employee directors is \$25,000 (\$52,500 for the then current chairperson of the Board of Directors), (iv) the annual retainer for the chairperson of each of the Audit Committee, the Compensation Committee, and the Nominating and Corporate Governance Committee is \$10,000; and (v) non-employee directors receive fees of \$2,000 for each Board meeting attended in person or via telephone and \$1,000 for each Board committee meeting attended in person or via telephone. The following table sets forth the compensation to be paid to our non-employee directors under the director compensation policy:

	Annual Cash Retainer (\$)	Meeting Fees (\$) Board	Meeting Fees (\$) Committee	Telephone Meeting Fees (\$) Board	Telephone Meeting Fees (\$) Committee
Board Member, other than the Chairman of the Board	25,000	2,000		2,000	
Chairman of the Board	52,500	2,000		2,000	
Audit Committee Member			1,000		1,000
Audit Committee Chair	10,000		1,000		1,000
Compensation Committee Member			1,000		1,000
Compensation Committee Chair	10,000		1,000		1,000
Nominating and Governance Committee Member			1,000		1,000
Nominating and Governance Committee Chair	10,000		1,000		1,000

In addition, all non-employee directors are reimbursed for their expenses incurred in attending board meetings and committee meetings as well as other board-related travel and expenses.

In December 2007, in recognition of the significant dilution that had occurred due to share issuances necessary to raise additional capital, the Compensation Committee increased the annual equity grants to be made to non-employee directors under the director compensation policy to increase such directors' ownership stake in the Company and more closely align their interests with the interests of the Company's shareholders. Therefore, beginning with our 2008 Annual Meeting of the Shareholders, each

non-employee director will receive 9,000 shares of restricted stock and an option to purchase 36,000 shares of common stock at an exercise price equal to the closing price of our common stock on the date of such meeting. Each such grant will vest in full on the earlier of (a) the one year anniversary of the date of grant and (b) the date immediately preceding the date of the Annual Meeting of the Company's shareholders for the year following the year of grant for the award, subject to the non-employee director's continued service to the Company through the vesting date. All compensation to non-employee directors under the director compensation policy other than the annual equity grants will remain the same.

In addition, in December 2007, in recognition of the dilution such directors had experienced during the preceding year, the Compensation Committee approved a one-time grant of 50,000 shares of restricted stock to each non-employee director, with such grant to vest on the one-year anniversary of the date of grant, or December 27, 2008.

During 2007, pursuant to our 2003 Equity Incentive Plan, which was amended and restated as our 2007 Equity Incentive Plan in September 2007, our non-employee directors received the following option grants:

Non-Employee Director	Date of Grant	Grant Type	Number of Options

	9/25/2007	Annual Grant Continuing Directors (1)	9,000

Frederick W. Telling	6/8/2007	Additional Grant Related to Initial Appointment as Director (5)	2,250
	9/25/2007	Annual Grant Continuing Directors (1)	9,000

- (1) Option grant vests on the earlier of (a) the one year anniversary of the date of grant and (b) the date immediately preceding the date of the Annual Meeting of the Company's shareholders for the year following the year of grant for the award, subject to the non-employee director's continued service to the Company through the vesting date.
- (2) Option grant vests over three years in equal annual installments, subject to the non-employee director's continued service to the Company through each vesting date.
- (3) Represents an anniversary grant made to the director pursuant to the prior director compensation policy still in place at the time of grant, as adjusted to reflect the one-for-four reverse stock split of our common stock on April 15, 2007. The option grant was fully vested on date of grant.
- (4) Due to a clerical error, the option grant made to Dr. Nudelman on April 18, 2007 was only for 3,000 shares. The Company intends to issue Dr. Nudelman an additional 750 shares in 2008 to correct the deficiency in the earlier grant.
- (5) Under the director compensation policy in place on the date of Dr. Telling's appointment to the Board of Directors, Dr. Telling was entitled to a grant of an option to purchase 6,000 shares of common stock (as adjusted for the one-for-four reverse split of our common stock in April 2007). Dr. Telling's initial grant was for an option to purchase 3,750 shares (as adjusted for the one-for-four reverse split of our common stock in April 2007). The Board of Directors approved a subsequent grant to Dr. Telling in June 2007 to correct the deficiency in his earlier grant. The option grant was fully vested on December 1, 2007, which was the first anniversary of Dr. Telling's appointment to the Board of Directors.

Each of these options granted during 2007 had an exercise price that ranged from \$3.56 to \$6.80, as adjusted to reflect the one-for-four reverse split of our common stock on April 15, 2007, and was equal to 100% of the fair market value on the date of grant. These options have a term of ten years measured from the grant date, subject to early termination if the optionee ceases serving as a director.

The stock and option awards included in this expense were granted from 2006 through 2007. There can be no assurance that the SFAS 123R amounts will ever be realized. For more information, see Note 13 in the Notes to Financial Statements contained in our Annual Report on Form 10-K filed with the SEC on March 26, 2008.

- (2) Certain directors and executive officers were accompanied by spouses or other family members on trips using chartered aircraft where the use of the chartered aircraft was primarily for business purposes. In those cases, the Compensation Committee has determined that the aggregate incremental cost to the Company is a de minimis amount, and as a result, no amount is reflected in the table.

#### **Compensation Discussion and Analysis**

Our Compensation Committee is comprised of independent members of the Board of Directors. The Compensation Committee's basic responsibility is to review the performance of our management in achieving corporate goals and objectives and to assure that our management is compensated effectively in a manner consistent with our compensation philosophy, competitive practice and the requirements of the appropriate regulatory bodies. Toward that end, the Compensation Committee oversees, reviews and administers all of our compensation, equity and employee benefit plans and programs.

#### ***Compensation Objectives***

We believe that compensation of our executive officers should encourage creation of shareholder value and achievement of strategic corporate objectives. We attempt to align the interests of the Company's shareholders and management by integrating compensation with the Company's short-term and long-term corporate strategic and financial objectives. In order to attract and retain the most qualified personnel, the Company intends to offer a total compensation package competitive with companies in the pharmaceutical industries, taking into account relative company size, performance and geographic location as well as individual responsibilities and performance. However, we believe that, given the challenges the Company has faced in the recent past and continues to face, a standard compensation methodology is not appropriate for the Company. For example, the Compensation Committee has utilized, and will continue to utilize, performance-based incentives which are tied to key corporate goals critical to the Company's long-term success and viability.

The elements of compensation for executive officers includes base salaries, annual cash incentives, long-term equity incentives, and perquisites as well as additional features which are available to most other employees, including a 401(k) plan, employee stock purchase plan, health and welfare insurance, and life insurance, some of which allocate payments generally based on an individual's level of annual cash compensation. Executives have substantial portions of their compensation at risk for annual and long-term performance, with the largest portion at risk for the most senior executives.

As described in Item 1a of our Annual Report on Form 10-K filed with the SEC on March 26, 2008, we have experienced and continue to experience certain financial difficulties. For example, we expect that our existing cash and cash equivalents will not be sufficient to fund our operations at current levels for the next 12 months and we have a substantial amount of debt. In light of our business situation, our compensation philosophy and objectives for fiscal 2008 continue to reflect the current environment in which we are operating and will be focused more heavily on retention of our senior management team through this challenging time while creating the foundation for value creation in the future. Our fiscal year 2008 philosophy and objectives will continue our trend of generally providing reduced or flat levels of cash compensation while increasing the equity compensation component of the compensation packages for our named executive officers.

#### ***Compensation Consultant***

The Compensation Committee has the authority under its charter to hire experts in the field of executive compensation to assist it with its evaluation of CEO or executive officer compensation and other advisors to assist with other matters related to executive officer and director compensation. In late 2006, the Board of Directors engaged Milliman, Inc., an independent executive compensation consultant, to review the Company's executive and director compensation policies and plans.

Milliman recommended a group of comparable companies based on line of business, company size measured by market value and number of employees, among other criteria, that the Compensation Committee used as a reference when evaluating the Company's executive and director compensation policies and programs and for making specific recommendations regarding the Company's executive and director compensation policies, including, in the case of the Company's executive officers, salaries, equity ownership levels and requirements and other compensation issues and, in the case of the Company's directors, annual retainers, equity awards and other compensation issues. This peer group is comprised of the following companies: Allos Therapeutics, Inc., Cell Gensys, Inc., Coley Pharmaceutical Group, Dendreon Corp., Exelixis, Inc. Favril, Inc., Genitope Corporation, InterMune, Inc., Isis Pharmaceuticals, Kosan Biosciences Incorporated, Neurocrine Biosciences, Inc., Pharmacyclics, Inc., Rigel Pharmaceutical, Inc., Seattle Genetics, Inc., Sunesis Pharmaceuticals, Inc. and Telik Inc. In April 2007 and again in December 2007, Milliman prepared an executive compensation report for the Compensation Committee using an evaluation of compensation practices of this peer group, along with published executive compensation studies for the industry, which the Compensation Committee used to evaluate the compensation targets for the Company's executive officers. While the same peer group was used for both reports prepared in 2007, the list of peer companies will be revised in 2008 to add companies with a marketed product due to the acquisition by the Company of Zevalin in December 2007.

The Compensation Committee also relied in part on the review and the advice provided to the Board of Directors by Milliman, Inc. in revising the non-employee director compensation in April 2007 to adjust the cash and equity components of non-employee director compensation as discussed above.

#### ***Principal Elements of Compensation***

**Base Salaries.** Base salary, including merit-based salary increases, for the CEO and the other executive officers, is established based on the underlying scope of their respective responsibilities, taking into account available compensation information for comparable companies in similar positions. Salary adjustments are based on competitive market salaries and general levels of market increases in salaries, individual performance, achievement of the Company's corporate and strategic goals and changes in job duties and responsibilities.

Based on a review of the executive compensation report prepared by Milliman, base salaries for our executive officers are generally competitive with the market when compared to our peer group despite the fact that we have not raised the base salaries of most of executive officers in recent years. Pursuant to his employment agreement, dated as of January 1, 2005, which is filed as an exhibit to our Annual Report on Form 10-K, Dr. James Bianco's base salary was initially set at \$650,000 per year and has remained unchanged for 2006 and 2007. In addition, the base salary for Mr. Louis Bianco and Dr. Jack Singer have remained unchanged since 2005. While Dr. Stromatt's base salary increased roughly 1% from 2005 to 2006 and 20% for fiscal year 2007, those increases were made to bring his base salary up to the 50<sup>th</sup> percentile for companies in our peer group. Base salaries of the remainder of our executives are above the median for base salaries provided to like executives amongst companies in our peer group.

Given continued competitiveness of base salaries combined with the Company's current business situation, and consistent with our philosophy of providing reduced or flat levels of cash compensation while increasing equity awards during this challenging time, the Compensation Committee again determined that base salaries should not be raised in 2008. Therefore base salaries for our executive officers will remain the same for 2008.

*Annual Cash Incentive Compensation.* Annual cash incentives for the executive officers and other key employees are designed to reward performance for achieving key corporate goals, which we believe in turn should increase shareholder value. The performance metrics against which the executives are measured are corporate goals which are clearly communicated, measurable and consistently applied. Pursuant to his employment agreement, Dr. James Bianco's target bonus opportunity under the Company's annual incentive compensation program was fixed at an amount no less than 50% of his base salary. In general, the annual incentive awards for executive officers are determined on the basis of management's achievement of specific performance goals established at the beginning of the fiscal year and an evaluation by the Compensation Committee of the contributions made by individual executives to the Company during the course of the year for which the cash incentive compensation is being awarded. In connection with determining cash bonus payments to executives in 2007, the Compensation Committee also elected to take into consideration additional achievements of the Company and the executives, including the acquisitions of Systems Medicine, Inc. in July 2007 and the acquisition of the U.S. rights to Zevalin in December 2007, which had not been contemplated at the time the original performance goals were established. For a discussion of annual cash incentive compensation paid to our named executive officers in fiscal year 2007 see "2007 Cash Incentive Bonuses" below.

*Long-Term Equity Incentive Compensation.* Generally, a significant equity award in the form of a stock option grant, a restricted stock grant, or a combination thereof, is made in the year that an executive officer commences employment. Thereafter, option grants may be made at varying times and in varying amounts at the discretion of the Compensation Committee or the Board of Directors. Upon hiring an executive officer, an option grant generally will be made at the first regularly scheduled meeting of the Compensation Committee or the Board of Directors after the officer commences employment. The size of each new hire or promotion stock option grant made to officers is generally set at a level that the Compensation Committee or the Board of Directors deems appropriate to create a meaningful opportunity for stock ownership based upon the grant guidelines and the individual's potential for future responsibility and promotion. The relative weight given to each of these factors will vary from individual to individual at the Compensation Committee's discretion and adjustments may be made as the Compensation Committee deems reasonable to attract candidates in the competitive environment for highly qualified employees in which the Company operates.

The exercise price of stock options is always equal to the fair market value (the closing price on the Nasdaq Global Market) of the Company's common stock on the date of grant. Options granted pursuant to our equity incentive plans will provide a return to the employee only if he or she remains in the Company's service, and then only if the market price of the Company's common stock appreciates over the option term. Generally, stock options granted pursuant to our equity incentive plans vest over a two or three-year period. Annual equity awards are generally granted and dated as of the date of the Compensation Committee or Board of Directors meeting at which the awards were made with the exception of equity awards approved in December 2006 and granted in September 2007 as discussed below.

The Compensation Committee grants restricted stock, in addition to stock options, to our executives as long-term incentive compensation. Restricted stock grants are included as part of the annual compensation package and are generally either service-based or performance-based awards. Service-based awards generally vest over a one or two-year period, subject to the executives continued employment with the Company. Performance-based awards are designed to provide benefits to our executive officers only upon the successful accomplishment of critical corporate goals and vest on the achievement of these goals if they are obtained within a set period of time, usually three years from the date of grant. In addition, these awards are also subject to the executive's continued employment with the Company. For a discussion of equity awards granted to our named executive officers in fiscal year 2007 see [Equity Awards Approved in 2006](#) and [December 2007 Equity Awards](#) below.

*2007 Cash Incentive Bonuses.* The Company established corporate performance targets for its named executive officers in fiscal year 2007. In July 2007, the Compensation Committee determined that the mid-year payouts of bonus amounts would be made to the executive officers based on the Compensation Committee's evaluation of the performance goals, an evaluation of each executive's individual contributions to the Company during the first half of 2007 and additional significant developments in the Company's overall business that had not been contemplated at the time the performance goals were set, namely the proposed acquisition of Systems Medicine and the U.S. rights to Zevalin, which were both in process at that time. The Compensation Committee determined that if any executive was paid more than he was eligible to receive based on an evaluation of the performance goals, an evaluation of individual contributions to the Company and other developments at the end of the year, such amounts would be deducted from bonuses to be earned in 2008. In December 2007, the Compensation Committee again discussed the payment of bonuses and determined that, while not all of the performance goals established at the beginning of the fiscal year had been met, based on their consideration of significant additional achievements of the Company and the executives, including the completion of the acquisition of Systems Medicine, Inc. in July 2007 and the completion of the acquisition of the U.S. rights to Zevalin in December 2007, and the evaluation of individual contributions of the executive officers to the Company throughout 2007, each of the named executive officers had achieved between 80% and 100% of the performance targets and would be entitled to 80% to 100% of the target level of annual cash incentive compensation based on such achievements. Based on the combined bonus payments from July 2007 and December 2007, Dr. James Bianco was awarded 100% of his annual bonus of \$487,500 based on corporate and individual achievements in fiscal year 2007, Mr. Louis Bianco, Mr. Dan Eramian and Dr. Jack Singer were awarded 100% of their target bonuses of \$148,500, \$141,750, and \$153,000 and Dr. Scott Stromatt was awarded 80% of his target cash bonus, or \$84,000 based on corporate and individual achievements in fiscal year 2007. The table below sets forth annual bonuses paid to our named executive officers for each of the past three years.

Name	Year	Annual Cash Bonus (\$)
James Bianco, M.D.	2007	487,500(1)
	2006	260,000(2)
	2005	240,000
Louis Bianco	2007	148,500(1)
	2006	79,200
	2005	99,000
Dan Eramian	2007	141,750(1)
	2006	62,176
	2005	N/A
Jack Singer, M.D.	2007	153,000(1)
	2006	81,600
	2005	102,000
Scott Stromatt, M.D.	2007	84,000(1)
	2006	69,960
	2005	87,450

(1) Includes cash bonuses paid in both July 2007 and January 2008.

(2) Does not include the special cash bonus paid in July 2006, which such bonus was based on the achievement of a significant corporate goal. *Equity Awards and Equity Ownership Goals*. As discussed above, in light of the business environment and existing challenges facing it, the Company has generally been reducing or keeping unchanged annual cash compensation while increasing equity compensation. In implementing this part of the compensation policy, the Compensation Committee was cognizant of the key compensation goals for the Company, including (i) recognizing that the next one to three years will be extremely critical to the Company's future and shareholder value, (ii) taking into consideration present and projected trials, (iii) considering pipeline products and their status, (iv) the need for a retention plan for critical executives and for the CEO, (v) staying as close to the 75th percentile in total compensation as possible while still meeting the other compensation goals, and (vi) supplying a mechanism for motivating the CEO and the executive team during the upcoming critical time period.

In December 2006 and again in December 2007, the Compensation Committee discussed appropriate ownership goals for each of the executive officers. Based on consultations with Milliman, the Compensation Committee set ownership goals for each executive officer which are intended to be a guideline for the percentage ownership the Committee believes would be appropriate to align the interests of management with the interests of shareholders. However, the Compensation Committee has not made it a policy to require the executive officers to reach such ownership goals and, moreover, has recognized that in light of the substantial dilution to the Company's stock in 2007 due to necessary share issuances used to fund the Company and pursue desirable acquisition opportunities, the ownership percentages of management was significantly lower at the end of the year.

*Equity Awards Approved in 2006*. In December 2006, after consulting with Milliman, the Compensation Committee approved the following restricted stock grants to the named executive officers; these grants were not made until September 2007 because they were approved contingent upon receiving shareholder approval of an amendment to the Company's 2003 Equity Incentive Plan authorizing an increase in shares available for issuance under that plan, which approval was obtained at the Company's Annual Meeting of the Shareholders on September 25, 2007. Each of these grants will vest in full on December 22, 2008 subject to the relevant named executive officer remaining employed with the Company through December 22, 2008:

Name	Number of shares of Restricted Stock
Dr. James Bianco	80,645
Mr. Louis Bianco	24,193
Dr. Jack Singer	24,193
Mr. Dan Eramian	20,161
Dr. Scott Stromatt*	20,161

\* Pursuant to the Severance and Release Agreement entered into by the Company and Dr. Stromatt, these shares were not forfeited upon his termination on April 4, 2008 and will vest upon Dr. Stromatt's assistance to the Company with its response letter to the EMEA for paclitaxel

poliglumex pursuant to the terms of the Severance and Release Agreement.

In addition, in December 2006, the Compensation Committee approved additional grants of restricted stock to the named executive officers tied to the Company's achievement of significant corporate goals, which were also contingent upon receiving shareholder approval of an increase in shares available for issuance under the 2003 Equity Incentive Plan and therefore were not granted until September 2007. In particular, the Company identified the following three key corporate goals over the next three years: (a) approval from the FDA or EMEA for the sale of either paclitaxel poliglumex or pixantrone or any other drug owned or exclusively licensed by the Company on the date the grant was approved, (b) approval from the FDA or EMEA of a second such drug and (c) the closing share price for the Company's common stock exceeding \$35.00 (as equitably adjusted for any stock split, stock dividend or similar adjustment in the Company's capitalization). In the event that one of the above-mentioned corporate goals is achieved prior to December 31, 2009, the following additional shares of restricted stock approved for grant to the named executive officers in December 2006 would vest as of the date of the achievement of such corporate goal:

<b>Name</b>	<b>Number of shares of Restricted Stock</b>
Dr. James Bianco	80,645
Mr. Louis Bianco	24,193
Dr. Jack Singer	24,193
Mr. Dan Eramian	20,161
Dr. Scott Stromatt*	20,161

\* Due to Dr. Stromatt's resignation from CTI on April 4, 2008, these shares have been forfeited.

In the event that two of the above-mentioned corporate goals are achieved prior to December 31, 2009, the following additional shares of restricted stock approved for grant to the named executive officers in December 2006 would vest as of the date of the second to occur of the two corporate goals:

<b>Name</b>	<b>Number of shares of Restricted Stock</b>
Dr. James Bianco	40,322
Mr. Louis Bianco	12,096
Dr. Jack Singer	12,096
Mr. Dan Eramian	10,080
Dr. Scott Stromatt*	10,080

\* Due to Dr. Stromatt's resignation from CTI on April 4, 2008, these shares have been forfeited.

In the event that all three of the above-mentioned corporate goals are achieved prior to December 31, 2009, the following additional shares of restricted stock granted to the named executive officers in December 2006 would vest as of the date of the last to occur of the three corporate goals:

<b>Name</b>	<b>Number of shares of Restricted Stock</b>
Dr. James Bianco	80,645
Mr. Louis Bianco	24,193
Dr. Jack Singer	24,193
Mr. Dan Eramian	20,161
Dr. Scott Stromatt*	20,161

\* Due to Dr. Stromatt's resignation from CTI on April 4, 2008, these shares have been forfeited.

The restricted shares referred to in the three immediately preceding paragraphs are also subject to a vesting ceiling and shall cease vesting, notwithstanding the achievement of any of the three corporate goals, if such additional vesting would cause the relevant named executive officer's aggregate ownership percentage of the Company's outstanding stock to exceed the ownership goals established by the Compensation Committee in December 2006 for each such named executive officer as discussed above. Therefore, the restricted shares will cease to vest as to that particular named executive officer if the following ownership levels are reached (reflected as a percentage of the Company's outstanding stock): Dr. James Bianco 2.5%, Mr. Louis Bianco 1.5%, Dr. Jack Singer 1.5% and Mr. Dan Eramian 1.0%.

*December 2007 Equity Awards.* In December 2007, after consulting with Milliman, the Compensation Committee determined that, due to the significant decline in share price and significant dilution that had occurred because of the issuance of additional shares necessary to fund the Company and make desired acquisitions, there had been a significant decrease in the value of the equity compensation then held by such executives and therefore existing equity awards were not providing the retention benefit intended by such grants. Therefore, the Compensation Committee determined that it would be appropriate to make additional stock award and option award grants that would create a meaningful opportunity for stock ownership among the executive officers of the Company.

The following restricted stock awards were granted to the named executive officers in December 2007 are subject to vesting as follows: (a) one-third of the shares granted will vest on the one-year anniversary of the date of grant, or December 27, 2008, (b) one-third of the shares granted will vest on the Company obtaining approval FDA approval of paclitaxel poliglumex prior to December 31, 2010, and (c) one-third of the shares granted will vest on the Company reaching a specified net sales threshold for Zevalin prior to December 31, 2010; in all cases, such vesting is also subject to the relevant named executive officer remaining employed with the Company.

Name	Number of shares of Restricted Stock Granted
Dr. James Bianco	360,000
Mr. Louis Bianco	120,000
Dr. Jack Singer	120,000
Mr. Dan Eramian	120,000
Dr. Scott Stromatt*	120,000

\* Due to Dr. Stromatt's resignation from CTI on April 4, 2008, 80,000 of these shares have been forfeited, however, the remaining 40,000 shares will vest upon Dr. Stromatt's assistance to the Company with its response letter to the EMEA for paclitaxel poliglumex pursuant to the terms of the Severance and Release Agreement.

The following incentive stock options were granted to the named executive officers in December 2007 vest over two years, with 25% vesting on the date that is six months from the date of grant, 25% vesting on the one-year anniversary of the date of grant, 25% vesting on the date that is 18 months from the date of grant, and the entire award vesting in full on the second anniversary of the date of grant, subject to the relevant named executive officer remaining employed with the Company. Each option has an exercise price of \$1.89 per share, which was the closing price of the Company's common stock as traded on the Nasdaq Global Market on the date of grant.

Name	Number of shares of Stock Options Granted
Dr. James Bianco	100,000
Mr. Louis Bianco	36,000
Dr. Jack Singer	36,000
Mr. Dan Eramian	36,000
Dr. Scott Stromatt*	36,000

\* Due to Dr. Stromatt's resignation from CTI on April 4, 2008, this option has terminated.

*Perquisites and Other Benefits.* The named executive officers received certain perquisites and other benefits provided by or paid for by the Company. For example, in fiscal year 2007, the Company provided tax gross-up payments to Dr. James A. Bianco for reimbursement of taxes arising from family member's use of chartered aircraft when accompanying Dr. Bianco on business trips, as calculated based on the standard industry fare level (SIFL) valuation method for income tax purposes, tax preparation fees, health club dues and insurance premiums. The Company also provided tax gross-up payments to other executive officers for tax preparation fees and insurance premiums. In addition, the Company paid for tax preparation assistance as well as health and life insurance premiums for all of its executive officers. The named executive officers are also entitled to participate in the Company's benefit programs which are available to all Company employees, including company-sponsored health, welfare, 401(k), and employee stock purchase plans.

*Corporate Travel Policy.* To best utilize the time of executive officers and members of management as well as due to potential security concerns, the Compensation Committee has approved the occasional use of chartered aircraft by our executives, members of management and, when space is available, their family members in connection with business travel. In addition, to comply with applicable laws and prevent any abuse of travel expenditures related to business travel, we have instituted a Corporate Travel Policy. The policy sets forth the detailed procedures related to business travel by Company employees. The Compensation Committee has approved the use of chartered aircraft by employees at the sole discretion of the Company's Chief Executive Officer in consultation with the Chairman of the Board of Directors, so long as a bona fide business justification for the use of chartered aircraft is provided. In 2007, certain of our named executive officers and employees, in compliance with the policy set forth by the Compensation Committee, occasionally used a chartered aircraft for business related activities. When space is available on a chartered aircraft being used for business purposes, directors and executive officers are occasionally accompanied by spouses or other family members on such trips. In those cases, the Board of Directors and the Compensation Committee have determined that the aggregate incremental cost to the Company of including such family members is a de minimis amount.

#### *Post-Termination Protection and Payments*

In April 2005, the Compensation Committee approved a form of strategic management team severance agreement ( *Severance Agreement* ) which our executive officers other than Dr. James Bianco have entered into. The Severance Agreements replaced existing severance agreements certain of the Company's executive officers had previously entered into with the Company. The Severance Agreements provide that in the event an executive officer is discharged from employment by the Company without cause or resigns for good reason (including upon a change of control) (each as defined in the Severance Agreements), he will be entitled to receive (i) acceleration of all then-existing unvested stock-based compensation (options shall remain exercisable for a period of twenty-one months following the severance date), (ii) severance pay based on the executive officer's base salary in effect immediately prior to the severance date for a period of eighteen months, (iii) bonus pay equal to the greater of the average of the three prior years' bonuses or 30% of base salary, (iv) continuation of or reimbursement for certain health benefits for a period of up to eighteen months, and (v) all accrued but unused vacation and certain other benefits for a severance period of eighteen months. The Severance Agreements further provide that if the executive officer is discharged from employment by the Company for cause, as a result of death or disability, or resigns without good reason, the executive officer is entitled only to (i) his base salary through and including the severance date and (ii) pay for all accrued but unused vacation as of the

severance date. Under the Severance Agreements, if any severance payments are subject to the excise tax on parachute payments, the Company will make a gross up payment in an amount that covers the excise tax due plus the excise and income taxes payable on the gross up payment. The severance payments are conditioned upon the executive not breaching his or her inventions and proprietary information agreement with the Company.

Dr. James Bianco entered into an employment agreement with us effective January 1, 2005, superseding the agreement he had with us effective December 31, 2002. Pursuant to the employment agreement, if Dr. Bianco is terminated without cause or if he resigns for good reason (each, as defined in his employment agreement), he will receive (i) at his choice either (x) a lump sum payment representing two years of his salary based on a 6% discount factor, or (y) continuing payments of severance pay at a rate equal to his monthly base salary rate, as then in effect, plus his most recent annual cash bonus continuation, for a period of eighteen (18) months from the date of such termination, (ii) full vesting of outstanding unvested stock options which shall become exercisable for a period of two (2) years following the date on which they vest, subject to the terms of the applicable award agreements, and full vesting of outstanding unvested or restricted stock, (iii) continuation of health benefits for the severance period not to exceed two (2) years following termination, and (iv) all accrued but unused vacation. In the event a change of control occurs and Dr. Bianco is terminated without cause or resigns for good reason, Dr. Bianco will receive the following severance benefits: (i) a lump sum payment equal to two years of his base salary plus his most recent annual cash bonus, (ii) full vesting of outstanding unvested stock options which shall become exercisable for a period of two (2) years following the date on which they vest, and full vesting of outstanding unvested or restricted stock (iii) continuation of health benefits for two (2) years, and (iv) all accrued but unused vacation. The employment agreement restricts Dr. Bianco from competing with us for the term of the severance payment period following the termination of his employment with us. In addition, the severance payments are conditioned upon Dr. Bianco not competing with us and not soliciting our employees. The agreement further provides that, if any payments are subject to the excise tax on parachute payments, we will make a gross up payment in an amount that covers the excise tax due plus the excise and income taxes payable on the gross up payment.

The Compensation Committee believes the Severance Agreements and Dr. James Bianco's employment agreement are important to protect the Company's officers from any involuntary termination associated with a change of control and that the acceleration of vesting provided in such agreements is reasonable when compared with similar arrangements adopted by other companies in the pharmaceutical industry. With these agreements, the Compensation Committee sought uniformity of results among the executive officers based on their positions at the Company.

Under the Company's 2007 Equity Incentive Plan, in the event of a change in control all awards granted pursuant to this plan generally become fully exercisable. Further, all restrictions and conditions on any award then outstanding shall lapse as of the date of the change in control. Under the Company's 2007 Employee Stock Purchase Plan in the event of a change in control, the Board or a committee created by the Board, in its sole discretion, shall either (a) provide that options granted under such plan shall be fully exercisable to the extent of each optionee's accumulated withholdings for the respective offering period (as defined in the relevant Employee Stock Purchase Plan) as of a date prior to the change in control or (b) arrange with the surviving, continuing, successor or purchasing corporation, as the case may be, that such corporation assume the Company's rights and obligations under such plan. Under the Company's 1994 Equity Incentive Plan, in the event of a change in control (a) all options granted (including options granted to officers or directors less than six months prior to any such change in control) generally become fully exercisable; and (b) all restrictions and conditions of all bonus shares then outstanding shall lapse as of the date of the change in control. The Company's directors and executive officers participate in the Company's 2007 Equity Incentive Plan and have outstanding awards which have been issued pursuant to the 2007 Equity Incentive Plan and 1994 Equity Incentive Plan. The Company's executive officers have participated in the Company's 1996 Employee Stock Purchase Plan.

***Tax Deductibility of Pay***

Section 162(m) of the Internal Revenue Code of 1986, as amended (the Tax Code ), places a limit of \$1,000,000 on the amount of compensation that the Company may deduct in any one year with respect to each of its five most highly paid executive officers. There is an exception to the \$1,000,000 limitation for performance-based compensation meeting certain requirements. To qualify for an exemption from the \$1,000,000 limitation, the shareholders were asked to approve a limit under stock incentive plans on the maximum number of shares for which a participant may be granted stock options in any calendar year. Because our stock incentive plans and option grants under our stock incentive plans comply with the applicable requirements for this exemption, any compensation deemed paid to a named executive officer when he or she exercises an option with an exercise price that is at least equal to the fair market value of the option shares on the grant date should qualify as performance-based compensation and should not be subject to the \$1,000,000 deduction limitation. The Compensation Committee may approve compensation or changes to plans, programs or awards that may cause the compensation or awards not to comply with Section 162(m) if it determines that such action is appropriate and in the Company's best interests.

***Summary***

The Compensation Committee believes that the Company's compensation philosophy and programs are designed to foster a performance-oriented culture that aligns employees' interests with those of the Company's shareholders. The Compensation Committee believes that the compensation of the Company's executives is both appropriate and responsive to the goal of improving shareholder value.

**Item 13. Certain Relationships and Related Transactions, and Director Independence**  
**Related Party Transactions**

Pursuant to our Code of Business Conduct and Ethics and our Amended and Restated Charter for the Audit Committee of the Board of Directors of Cell Therapeutics, Inc., any potential related party transaction must be fully disclosed to our Chief Financial Officer. Upon review, if our Chief Financial Officer determines that the transaction is material to the Company, then the Company's Audit Committee must review and approve in writing in advance such related party transaction. Item 404(a) of Regulation S-K requires the company to disclose in its proxy statement any transaction involving more than \$120,000 in which the Company is a participant and in which any related person has or will have a direct or indirect material interest. A related person is any executive officer, director, nominee for director, or holder of 5% or more of the Company's common stock, or an immediate family member of any of those persons.

Since January 1, 2007, the Company has not been a participant in any transaction with a related person other than those described below.

In May 2007, we formed Aequus Biopharma, Inc., or Aequus, a majority owned subsidiary of which our ownership was approximately 69% as of December 31, 2007. We entered into a license agreement with Aequus whereby Aequus gained rights to our Genetic Polymer technology which Aequus will continue to develop. The Genetic Polymer technology may speed the manufacture, development, and commercialization of follow-on and novel protein-based therapeutics.

In May 2007, we also entered into an agreement to fund Aequus up to \$2.0 million in cash in exchange for a convertible promissory note that becomes due and payable in five years and earns interest at a rate of 6% per annum. The note can be converted into equity at any time prior to its maturity upon CTI's demand, or upon other triggering events. The number of shares of Aequus equity securities to be issued upon conversion of this note is equal to the quotient obtained by dividing (i) the outstanding balance of the note by (ii) 100% of the price per share of the equity securities. As of December 31, 2007, we have funded Aequus with an initial payment of \$0.5 million. Additional payments of up to \$1.5 million will be made upon the achievement of certain milestones. In addition, we have entered into a services agreement to provide certain administrative and research and development services to Aequus. The amounts charged for these services, if unpaid by Aequus within 30 days, will be considered additional principal advanced under the promissory note.

Our President and Chief Executive Officer, James A. Bianco, M.D. and our Executive Vice President, Chief Medical Officer, Jack W. Singer, M.D. are both minority shareholders of Aequus, each owning approximately 4.9% of the equity in the company as of December 31, 2007. Additionally, both Dr. Bianco and Dr. Singer are members of Aequus' board of directors and each have entered into a consulting agreement with Aequus. Additionally, Frederick W. Telling, Ph.D., one of our board of directors, owns approximately 1% of Aequus and is also a member of Aequus' board of directors.

### **Director Independence**

The Board of Directors has adopted standards concerning director independence which meet the independence standards of the Nasdaq Stock Market and, with respect to the Audit Committee, the rules of the Securities and Exchange Commission.

The Company, the Nominating and Governance Committee and the Board of Directors are involved in the process for determining the independence of acting directors and director nominees. The Company solicits relevant information from directors and director nominees via a questionnaire, which covers material relationships, compensatory arrangements, employment and any affiliation with the Company. In addition to reviewing information provided in the questionnaire, the Company asks the Company's executive officers on an annual basis regarding their awareness of any existing or currently proposed transactions, arrangements or understandings involving the Company in which any director or director nominee has or will have a direct or indirect material interest, including charitable contributions made by the Company to nonprofit organizations with which any director is affiliated. The Company shares its findings with the Nominating and Governance Committee and the Board of Directors regarding the Nasdaq Stock Market and SEC independence requirements and any information regarding the director or director nominee that suggest that such individual is not independent. The Board of Directors discusses all relevant issues, including consideration of any transactions, relationships or arrangements which are not required to be disclosed under Item 404(a) of Regulation S-K, prior to making a determination with respect to the independence of each director.

Based on the review described above, the Board of Directors affirmatively determined that:

A majority of the directors are independent, and all members of the Audit, Compensation and Nominating and Governance Committees are independent, under the Nasdaq standard and, in the case of the Audit Committee, the SEC standard.

All of the non-management directors of the Company are independent under the Nasdaq standard. The independent directors are: John H. Bauer, Vartan Gregorian, Ph.D, Richard L. Love, Mary O. Mundinger, Dr. PH, Phillip M. Nudelman, Ph.D., and Frederick W. Telling, Ph.D.

James A. Bianco and Jack W. Singer, M.D are not independent by virtue of their positions as President and Chief Executive Officer of the Company and Executive Vice President, Chief Medical Officer, respectively.

Other than as described above, in 2007, there were no transactions, relationships or arrangements not disclosed as related person transactions that were considered by the Board of Directors in determining that the applicable independence standards were met by each of the directors other than contributions made by the Company to The Hope Heart Institute, of which Dr. Nudelman was an affiliate during part of 2007; the Board of Directors determined that the contribution made was not material in amount and did not impact director independence.
