**Table of Contents**

**GULF ISLAND FABRICATION, INC.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

**FOR THE THREE MONTH**

**PERIODS ENDED MARCH 31, 2008 AND 2007**

**NOTE 1 ORGANIZATION AND SIGNIFICANT ACCOUNTING PRINCIPLES**

Gulf Island Fabrication, Inc., together with its subsidiaries (the Company), is a leading fabricator of offshore drilling and production platforms and other specialized structures used in the development and production of offshore oil and gas reserves. The Company's corporate offices and two major subsidiaries are located in Houma, Louisiana, and another major subsidiary is located in San Patricio County, Texas. The Company's principal markets are concentrated in the offshore regions and along the coast of the Gulf of Mexico. The consolidated financial statements include the accounts of Gulf Island Fabrication, Inc. and its majority owned subsidiaries. All significant intercompany balances and transactions have been eliminated in consolidation.

Structures and equipment fabricated by the Company include jackets and deck sections of fixed production platforms; hull, tendon, and/or deck sections of floating production platforms (such as TLPs, SPARs, FPSOs and MinDOCs); piles; wellhead protectors; subsea templates; various production, processing, compressor and utility modules; offshore living quarters; brown water towboats; tanks and barges. The Company also provides services such as offshore interconnect pipe hook-up; inshore marine construction; manufacture and repair of pressure vessels; heavy lifts such as ship integration and TLP module integration, loading and offloading jack-up drilling rigs, semi-submersible drilling rigs, TLPs, SPARs or other similar cargo; steel warehousing and sales; onshore and offshore scaffolding and piping insulation services.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three-month period ended March 31, 2008 are not necessarily indicative of the results that may be expected for the year ended December 31, 2008.

The balance sheet at December 31, 2007 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. Certain items in 2007 have been reclassified to conform to the 2008 financial statement presentation.

For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2007.

**NOTE 2 CONTINGENCIES**

In December 2004, we received notice from Louisiana Department of Environmental Quality (LDEQ) that the Corrective Action Plan submitted in October 2004 was not acceptable. The

**Table of Contents**

Corrective Action Plan was developed to provide remediation to several isolated areas located on property we sold in 2001. In mid 2005, the LDEQ approved a sampling plan with the proposed sampling to begin in September of 2005. Due to the hurricanes that struck the Louisiana coast in 2005, the scheduled sampling was cancelled. In mid October 2006, the sampling was completed. We are scheduled to meet with LDEQ in late April 2008, to discuss the testing results and determine a plan of action. The latest estimated cost of remediation based on revising the Corrective Action Plan according to LDEQ's recommendations has increased from the 2005 estimate of \$230,000 to \$400,000. We have included in Accrued Expenses \$400,000 which is the current estimated cost to remediate the site and includes professional fees such as engineering and consulting costs.

**NOTE 3 LINE OF CREDIT AND NOTES PAYABLE**

Effective February 19, 2007, we entered into the Sixth Amendment to the Ninth Amended and Restated Credit Agreement (the Revolver) to extend the term of the \$50 million Revolver from December 31, 2008 to December 31, 2009. The Revolver is secured by our real estate, machinery and equipment, and fixtures, and amounts borrowed under the Revolver bear interest, at our option, at the prime lending rate established by JPMorgan Chase Bank, N.A. or LIBOR plus 1.5%. We pay a fee on a quarterly basis of three-sixteenths of one percent per annum on the weighted-average unused portion of the Revolver. At March 31, 2008, no amounts were borrowed under the Revolver, but we had letters of credit outstanding totaling \$39.7 million, which reduced the unused portion of the Revolver. More of our customers, especially in larger fabrication projects, are requiring us to issue letters of credit in lieu of retainage. Thus, the Company is issuing letters of credit for larger amounts and for longer periods of time than it did in past years. We are required to maintain certain covenants, including balance sheet and cash flow ratios. As of March 31, 2008, we were in compliance with these covenants. We are currently evaluating a potential increase to our revolving line of credit which would increase our borrowing capacity and increase our ability to issue letters of credit on future job awards, if necessary. As of April 20, 2008, letters of credit outstanding had been reduced to \$35.6 million.

**NOTE 4 RELATED PARTY TRANSACTIONS**

On January 31, 2006, we, through an indirect subsidiary, purchased the facilities, machinery and equipment of Gulf Marine Fabricators, an indirect subsidiary of Technip-Colfexip USA Holdings, Inc. (Technip). Technip currently owns 789,067 shares or approximately 5.6% of our outstanding common stock.

Since 2006, Technip has awarded us contracts to fabricate various oil and gas industry items totaling \$39.7 million, and through December 31, 2007 we have recognized revenue of \$33.0 million on these contracts. During the three-month periods ended March 31, 2008 and 2007, we recognized revenue of \$3.9 million and \$10.1 million, respectively, on these contracts. We expect the remaining \$2.8 million of revenue on these contracts to be recognized during 2008. As of March 31, 2008, Technip owed us a total of \$3.7 million of contracts receivable or 3.5% of the total contracts receivable outstanding. As of December 31, 2007, Technip owed us a total of \$7.5 million of contracts receivable or 9.5% of the total contracts receivable outstanding.

**NOTE 5 INCOME TAXES**

Our effective income tax rate was 34.5% for the three-month period ended March 31, 2008 compared to 30.0% for the period ended March 31, 2007. The increase relates primarily to the employment hiring credits available to us for both state and federal taxes that began to phase-out in the third and fourth quarters of 2007.

**Table of Contents**

Report of Independent Registered

Public Accounting Firm

The Board of Directors and Shareholders

Gulf Island Fabrication, Inc.

We have reviewed the condensed consolidated balance sheet of Gulf Island Fabrication, Inc. as of March 31, 2008, and the related condensed consolidated statements of income and cash flows for the three-month periods ended March 31, 2008 and 2007, and the condensed consolidated statement of changes in shareholders' equity for the three-month period ended March 31, 2008. These financial statements are the responsibility of the Company's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the condensed consolidated interim financial statements referred to above for them to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of Gulf Island Fabrication, Inc. as of December 31, 2007, and the related consolidated statements of income, changes in shareholders' equity and cash flows for the year then ended (not presented herein) and in our report dated February 28, 2008, we expressed an unqualified opinion on those consolidated financial statements. In our opinion the information set forth in the accompanying condensed consolidated balance sheet as of December 31, 2007, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

/s/ Ernst & Young LLP

New Orleans, Louisiana

April 23, 2008

## **Table of Contents**

### **Item 2. Management's Discussion and Analysis of Financial Condition And Results of Operations. Forward-Looking Statements**

Statements under Backlog, Results of Operations and Liquidity and Capital Resources and other statements in this report and the exhibits hereto that are not statements of historical fact are forward-looking statements. These statements are subject to certain risks and uncertainties that could cause actual results and outcomes to differ materially from the results and outcomes predicted in the statement and investors are cautioned not to place undue reliance upon them. Important factors that may cause our actual results to differ materially from expectations or projections include those described under the heading Cautionary Statements in Item 1A. Risk Factors included in our Annual Report on Form 10-K for the year ended December 31, 2007. Such factors include, among others, the timing and extent of changes in the prices of crude oil and natural gas; the timing of new projects and our ability to obtain them; competitive factors in the heavy marine fabrication industry; and our ability to attract and retain qualified production employees at acceptable compensation rates.

### **Critical Accounting Policies and Estimates**

The consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States, which require us to make estimates and assumptions (see Note 1 to the consolidated financial statements included in the annual report on Form 10-K for the year ended December 31, 2007). We believe that of our significant accounting policies, revenue recognition involves a higher degree of judgement and complexity. Critical accounting policies are discussed more fully in our Annual Report on Form 10-K for the year ended December 31, 2007. There have been no changes in our evaluation of our critical accounting policies since that date.

### **Backlog**

As of March 31, 2008 we had a revenue backlog of \$440.1 million and a labor backlog of approximately 4.5 million man-hours remaining to work, which consists of work remaining at March 31, 2008 and commitments received through the first quarter earnings release issued April 23, 2008, compared to the revenue backlog of \$330.4 million and a man-hour backlog of 3.7 million hours reported in our Form 10-K at December 31, 2007.

Of the backlog at March 31, 2008, \$292.5 million, or 66.5%, represented projects destined for deepwater locations compared to \$185.4 million, or 56.1%, of projects destined for deepwater locations in the December 31, 2007 backlog. Included in the backlog are \$34.5 million or 7.8% and \$62.6 million or 18.9% at March 31, 2008 and December 31, 2007, respectively, related to projects destined for foreign locations.

Of the backlog at March 31, 2008, we expect to recognize revenues of approximately \$224.3 million in the remainder of 2008, and approximately \$215.8 million in 2009 and thereafter.

## **Table of Contents**

### **Workforce**

As of March 31, 2008, we had approximately 1,950 employees and approximately 490 contract employees, compared to approximately 1,820 employees and approximately 550 contract employees as of December 31, 2007.

### **Results of Operations**

Our revenue for the three-month period ended March 31, 2008 was \$123.7 million, an increase of 13.1%, compared to \$109.4 million in revenue for the three-month period ended March 31, 2007. The increase in revenue for the three-month period ended March 31, 2008 is primarily related to the increase in man-hours worked. For the period ended March 31, 2008, we worked 967,000 man-hours compared to 878,000 man-hours worked for the period ended March 31, 2007. As of March 31, 2008, we had approximately \$1.1 million of unapproved change orders which have been approved to scope but not price. We are in the process of negotiating resolution of these change orders with our customers. If we collect amounts different than the \$1.1 million, that difference will be recognized as either income or loss.

For the three-month period ended March 31, 2008, gross profit was \$23.2 million (18.8% of revenue), compared to gross profit of \$8.5 million (7.8% of revenue) for the three-month period ended March 31, 2007. The increase in the gross margin is directly related to the amount of pass-through costs such as material and sub-contract costs when comparing the three-month period ended March 31, 2008 to the three-month period ended March 31, 2007. For the three-month period ended March 31, 2008, pass-through costs represented 39.9% of revenue compared to 56.4% of revenue for the three-month period ended March 31, 2007. The pass-through costs generally have little or no profit associated with them, thus the decrease in pass-through costs as a percentage of revenue caused an increase in gross margin. When revenues are generated by a larger amount of labor sales than pass-through costs, the result is a positive impact on gross margins. The increase in the gross margin is also related to the partial reimbursement to us of costs associated with specific capital projects required by the fabrication process included in some contracts. Since these capital projects provide future benefits to us, the cost to build these projects is capitalized, thus the revenue associated with the capital project directly increases the estimated profit on the contract. For the three month period ended March 31, 2008, amounts included in revenue from these projects was \$3.3 million compared to \$553,000 for the three-month period ended March 31, 2007.

Our general and administrative expenses were \$2.7 million for the three-month period ended March 31, 2008, compared to \$2.3 million for the three-period ended March 31, 2007. As a percentage of revenue, general and administrative expenses were 2.2% compared to 2.1% of revenue for the three-month period ended March 31, 2007. The absolute dollar increase in general and administrative expenses represents increases in salary and wage related costs associated with increased production activities. Although we substantially increased our revenue, we continuously evaluate general and administrative expenses to effectively manage the oversight of operations while keeping general and administrative expenses relatively stable.

We had net interest income of \$103,000 and \$108,000 for the three-month periods ended March 31, 2008 and 2007, respectively, which is the result of us maintaining a net positive cash balance without having any long-term debt during the comparative periods.

## **Table of Contents**

Other Income (Expense) net for the three-month periods ended March 31, 2008 and 2007 was a loss of \$60,000 and \$4,000, respectively. The losses for the periods were related to the sale of miscellaneous equipment.

Our effective income tax rate was 34.5% for the three-month period ended March 31, 2008 compared to 30.0% for the period ended March 31, 2007. The increase relates primarily to the employment hiring credits available to us for both state and federal taxes that began to phase-out in the third and fourth quarters of 2007.

## **Liquidity and Capital Resources**

Historically we have funded our business activities primarily through cash generated from operations. We also maintain a revolving line of credit with our commercial banks.

Effective February 19, 2007, we entered into the Sixth Amendment to the Ninth Amended and Restated Credit Agreement (the "Revolver") to extend the term of the \$50 million Revolver from December 31, 2008 to December 31, 2009. The Revolver is secured by our real estate, machinery and equipment, and fixtures, and amounts borrowed under the Revolver bear interest, at our option, at the prime lending rate established by JPMorgan Chase Bank, N.A. or LIBOR plus 1.5%. We pay a fee on a quarterly basis of three-sixteenths of one percent per annum on the weighted-average unused portion of the Revolver. At March 31, 2008, no amounts were borrowed under the Revolver, but we had letters of credit outstanding totaling \$39.7 million, which reduced the unused portion of the Revolver. More of the Company's customers, especially in larger fabrication projects, are requiring the Company to issue letters of credit in lieu of retainage. Thus, the Company is issuing letters of credit for larger amounts and for longer periods of time than it did in past years. We are required to maintain certain covenants, including balance sheet and cash flow ratios. As of March 31, 2008, we were in compliance with these covenants. We are currently evaluating a potential increase to our revolving line of credit which would increase our borrowing capacity and increase our ability to issue letters of credit on future job awards, if necessary. As of April 20, 2008, letters of credit outstanding had been reduced to \$35.6 million.

At March 31, 2008, our cash balance was \$5.8 million and working capital was \$66.0 million, resulting in a current ratio of 1.83 to 1. Net cash used in operating activities was \$8.2 million for the three-months ended March 31, 2008. The primary reason for net cash used instead of net cash provided by operating activities for the quarter was the \$29.8 million increase in contracts receivable from December 31, 2007 to March 31, 2008. As of April 18, 2008, we had collected \$47.5 million of contracts receivable that was outstanding at March 31, 2008. Net cash used in investing activities for the three-months ended March 31, 2008, was \$9.5 million, which related to capital expenditures for equipment and improvements to our production facilities. Net cash used in financing activities for the three-month period ended March 31, 2008, was \$1.2 million, consisting of \$206,000 provided by the exercise of stock options, \$67,000 provided by the tax benefit of stock options exercised and \$1.4 million used to pay dividends on common stock.

Capital expenditures for the remaining nine months of 2008 are estimated to be approximately \$37.7 million, which includes approximately \$3.0 million to complete phase II of the graving dock, \$15.0 million for the construction of a dry dock, \$5.0 million for the purchase and installation of a panel line with the remainder for the purchase of machinery and equipment and additional yard and facility expansion improvements. The expenditures for the dry dock and the panel line are to facilitate our expansion into additional marine construction areas such as towboats, barges and offshore supply vessels. Management believes that our available funds, cash generated by operating activities and funds available under the Revolver will be sufficient

## **Table of Contents**

to fund our capital expenditures and working capital needs through the end of 2008. However, the Company may expand its operations through acquisitions in the future, which may require additional equity or debt financing. Also additional job awards may require us to issue additional letters of credit, further reducing the unused portion of the Revolver. We are currently evaluating a potential increase to our revolving line of credit which would increase our borrowing capacity and increase our ability to issue letters of credit on future job awards, if necessary.

On February 28, 2008, our Board of Directors declared a dividend of \$0.10 per share on the shares of our common stock outstanding, payable March 25, 2008 to shareholders of record on March 13, 2008. The future declaration and payment of dividends, if any, is at the discretion of the Board of Directors and will depend on our retained earnings, working capital requirements and the future operation and growth of our business and other factors deemed relevant by the Board of Directors.

### **Contractual Obligations**

There have been no material changes from the information included in our Annual Report on Form 10-K for the year ended December 31, 2007.

### **Off-Balance Sheet Arrangements**

There have been no material changes from the information included in our Annual Report on Form 10-K for the year ended December 31, 2007

### **Item 3. Quantitative and Qualitative Disclosures About Market Risk.**

There have been no material changes from the information included in our Annual Report on Form 10-K for the year ended December 31, 2007.

### **Item 4. Controls and Procedures.**

The Company's management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934) as of the end of the period covered by this report. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that the design and operation of our disclosure controls and procedures were effective as of such date to provide assurance that information required to be disclosed by the Company in the reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission, and that such information is accumulated and communicated to management as appropriate to allow timely decisions regarding disclosure.

There have been no changes during the first quarter ended March 31, 2008 in the Company's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

**PART II. OTHER INFORMATION**

**Item 1. Legal Proceedings.**

The Company is subject to various routine legal proceedings in the normal conduct of its business primarily involving commercial claims, workers' compensation claims, and claims for personal injury under general maritime laws of the United States and the Jones Act. While the outcome of these lawsuits, legal proceedings and claims cannot be predicted with certainty, management believes that the outcome of any such proceedings, even if determined adversely, would not have a material adverse effect on the financial position, results of operations or cash flows of the Company.

**Item 1A. Risk Factors**

There have been no material changes from the information included in the Company's Annual Report on Form 10-K for the year ended December 31, 2007.

**Item 6. Exhibits**
