Conclusion

The core strategy remains unchanged

Focused on producing volumes from low cost assets

BHP Billiton on a standalone basis has a bright future

Combining with Rio Tinto can generate substantial additional value for shareholders
we are a natural fit

In addition to the synergies, combining the two would create a company that is:

Unique in character

Capable of delivering superior returns for its shareholders

An Australian champion on the global stage

BHP Billiton believes the terms of the Rio Tinto offer reflect a good deal for both companies
shareholders

The support of retail shareholders will be critical for the offer to succeed
