Item 8.01 Other Items.

Under our senior secured term credit agreement, we are required to satisfy and maintain specified financial ratios and other financial condition tests, including a minimum interest coverage ratio and a maximum total leverage ratio. In addition, under our asset-based revolving credit agreement, we are required to satisfy and maintain, in certain circumstances, a minimum fixed charge coverage ratio. These ratios are calculated using Covenant EBITDA (as referred to below).

Earnings before interest, taxes, depreciation and amortization, or EBITDA, is a non-GAAP financial measure used to determine our compliance with certain covenants contained in our senior secured credit agreements. Covenant EBITDA represents EBITDA further adjusted to exclude unusual items and other adjustments permitted in calculating covenant compliance under our senior secured credit agreements. We believe that the presentation of Covenant EBITDA is appropriate to provide additional information to investors regarding our compliance with the financial covenants under such agreements.

Covenant EBITDA does not represent net income or cash flow from operations as those terms are defined by GAAP and does not necessarily indicate whether cash flows will be sufficient to fund cash needs. While Covenant EBITDA and similar measures are frequently used as measures of operations and the ability to meet debt service requirements, these terms are not necessarily comparable to other similarly titled captions of other companies due to the potential inconsistencies in the method of calculation. Covenant EBITDA does not reflect the impact of earnings or charges resulting from matters that we may consider not to be indicative of our ongoing operations. In particular, the definition of Covenant EBITDA in our senior secured credit agreements allows us to add back certain non-cash, extraordinary, unusual or non-recurring charges that are deducted in calculating GAAP net income. Our senior secured credit agreements require that Covenant EBITDA be calculated for the most recent four fiscal quarters. As a result, Covenant EBITDA can be disproportionately affected by a particularly strong or weak quarter and may not be comparable to Covenant EBITDA for any subsequent four-quarter period or any complete fiscal year.

Edgar Filing: Goodman Global Inc - Form 8-K

The following is a reconciliation of net income, which is a GAAP measure of our operating results, to Covenant EBITDA (as defined in our senior secured credit agreements) for the year ended December 31, 2008.

	Year Ended December 31, 2008 (in millions)
Net income	\$ (39.7)
Add:	
Provision for income taxes	(12.2)
Interest expense, net	191.8
Depreciation and amortization expense	48.7
EBITDA	188.6
Add:	
Inventory valuation step-up	48.0
Transaction-related charges and expenses	42.9
Canadian foreign exchange translation	1.6
Non-cash stock option expense	5.0
Other non-cash expenses	4.0
Covenant EBITDA	\$ 290.1
