Table of Contents**FTI Consulting, Inc. and Subsidiaries****Notes to Condensed Consolidated Financial Statements**

(amounts in tables expressed in thousands, except per share data)

Unaudited

1. Basis of Presentation and Significant Accounting Policies

Our unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (GAAP) and under the rules and regulations of the Securities and Exchange Commission (SEC) for interim financial information. Some of the information and footnote disclosures normally included in annual financial statements have been condensed or omitted pursuant to those rules or regulations. In management's opinion, the interim financial statements reflect all adjustments that are necessary for a fair presentation of the results for the interim periods presented. All adjustments made were normal recurring accruals. Results of operations for the interim periods presented herein are not necessarily indicative of results of operations for a full year. These financial statements should be read in conjunction with the consolidated financial statements and the notes contained in our Annual Report on Form 10-K for the year ended December 31, 2008. Subsequent events have been evaluated through August 9, 2009, the date the financial statements were issued.

2. Change in Accounting Principle

On January 1, 2009 we adopted the Financial Accounting Standards Board (FASB) Staff Position No. APB 14-1, Accounting for Convertible Debt Instruments that May be Settled in Cash Upon Conversion (Including Partial Cash Settlement) (FSP APB 14-1) which requires issuers of convertible debt securities within its scope to separate those securities into a debt component and an equity component, resulting in the debt component being recorded at fair value without consideration given to the conversion feature. Issuance costs are also allocated between the debt and equity components. FSP APB 14-1 requires that convertible debt within its scope reflect a company's nonconvertible debt borrowing rate when interest expense is recognized. The provisions of FSP APB 14-1 are retrospective upon adoption, and prior period amounts have been adjusted to apply the new method of accounting. This new pronouncement applies to our 3³/₄% Convertible Senior Subordinated Notes due 2012 (Convertible Notes) issued in August 2005. The cumulative effect of the accounting change for years prior to 2009 was to decrease net income and thus retained earnings by \$7.6 million. Additional information on the impact of this change in accounting principle is presented in Note 11 to the condensed consolidated financial statements.

The following table presents the effect of the adoption of FSP APB 14-1 on the financial statement line items of the Condensed Consolidated Income Statement for the three months and six months ended June 30, 2008:

| | Three Months Ended June 30, 2008 | | | Six Months Ended June 30, 2008 | | |

| Total liabilities and stockholders equity | 2,088,169 | (599) | 2,087,570 |

3. Recent Accounting Pronouncements

In May 2009, the FASB issued Statement of Financial Accounting Standards No. 165, *Subsequent Events* (Statement No. 165). Statement No. 165 provides general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. The statement sets forth the period after the balance sheet date during which management of a reporting entity should evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements. The statement also sets forth the circumstances under which an entity should recognize events or transactions occurring after the balance sheet date in its financial statements. Furthermore, this statement identifies the disclosures that an entity should make about events or transactions that occurred after the balance sheet date. It is effective for interim or annual financial periods ending after June 15, 2009.

In April 2009, the FASB issued FSP FAS 141(R)-1, *Accounting for Assets Acquired and Liabilities Assumed in a Business Combination That Arise from Contingencies*, (FSP FAS 141(R)-1), which amends and clarifies Statement of Financial Accounting Standards No. 141(R), *Business Combinations* (Statement 141(R)). FSP FAS 141(R)-1 requires that assets acquired and liabilities assumed in a business combination that arise from contingencies be recognized at fair value if fair value can be reasonably estimated. If fair value cannot be reasonably estimated, the asset or liability would generally be recognized in accordance with FASB Statement No. 5, *Accounting for Contingencies*, and FASB Interpretation No. 14, *Reasonable Estimation of the Amount of a Loss*. Further, the FASB decided to remove the subsequent accounting guidance for assets and liabilities arising from contingencies from Statement 141(R), and carry forward without significant revision the guidance in FASB Statement No. 141, *Business Combinations*. FSP FAS 141(R)-1 is effective for assets or liabilities arising from contingencies in business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008.

4. Earnings Per Common Share

Basic earnings per common share are calculated by dividing net income by the weighted average number of common shares outstanding during the period. Diluted earnings per common share adjust basic earnings per share for the effects of potentially dilutive common shares. Potentially dilutive common shares primarily include the dilutive effects of shares issuable under our equity compensation plans, including restricted shares using the

Table of Contents**FTI Consulting, Inc. and Subsidiaries****Notes to Condensed Consolidated Financial Statements (Continued)**

(amounts in tables expressed in thousands, except per share data)

Unaudited

treasury stock method, and shares issuable upon conversion of our Convertible Notes assuming the conversion premium was converted into common stock based on the average closing price per share of our stock during the period. The conversion feature of our Convertible Notes had a dilutive effect on our earnings per share in 2009 and 2008 because the average closing price per share of our common stock was above the conversion price of the Convertible Notes of \$31.25 per share.

| | Three Months Ended June 30, | | Six Months Ended June 30, | |
|--|--------------------------------|-----------|------------------------------|-----------|

(a) Net income and earnings per common share (basic and diluted) are as adjusted. See note 2 to the condensed consolidated financial statements.

5. Comprehensive Income

The following table sets forth the components of comprehensive income.

| | Three Months Ended June 30, | | Six Months Ended June 30, | |
|---|--------------------------------|-----------|------------------------------|-----------|
| | 2009 | 2008 | 2009 | 2008 |
| Net income | \$ 37,225 | \$ 34,808 | \$ 68,897 | \$ 65,508 |
| Other comprehensive income, net of tax: | | | | |
| Cumulative translation adjustment | 47,748 | 276 | 41,683 | 710 |
| Unrealized gain on cash equivalents | | | | 55 |

| | | | | |
|----------------------|-----------|-----------|------------|-----------|
| Comprehensive income | \$ 84,973 | \$ 35,084 | \$ 110,580 | \$ 66,273 |
|----------------------|-----------|-----------|------------|-----------|

6. Provision for Doubtful Accounts

The provision for doubtful accounts relates to a client's inability or unwillingness to make required payments, and is classified in selling, general and administrative expense. The provision for doubtful accounts totaled \$5.4 million and \$12.2 million for the three and six months ended June 30, 2009, respectively and \$4.0 million and \$8.6 million for the three and six months ended June 30, 2008, respectively.

7. Research and Development Costs

Research and development costs related to software development charged to expense totaled \$5.3 million and \$10.7 million for the three and six months ended June 30, 2009, respectively, and \$3.1 million and \$6.1 million for

Table of Contents**FTI Consulting, Inc. and Subsidiaries****Notes to Condensed Consolidated Financial Statements (Continued)**

(amounts in tables expressed in thousands, except per share data)

Unaudited

the three and six months ended June 30, 2008, respectively. Research and development costs are included in selling, general and administrative expense on the Condensed Consolidated Statements of Income in 2009. For the three and six months ended June 30, 2008, \$2.4 million and \$4.9 million, respectively, of research and development expenses were classified as direct cost of revenues, and \$0.7 million and \$1.2 million, respectively, of research and development costs were classified as selling, general and administrative expense.

8. Financial Instruments*Derivative financial instruments*

We enter into derivative contracts to manage our exposure to interest rate changes by achieving a desired proportion of fixed rate versus variable rate debt. In June 2009, the counterparties to our two interest rate swaps, with an aggregate \$60.0 million notional amount, exercised their right to terminate these agreements. Prior to their termination, these interest rate swaps effectively converted \$60.0 million of our 7⁵/₈% senior notes due 2013 (7⁵/₈% Notes) from a fixed rate to a variable rate. (See Note 11 to the condensed consolidated financial statements for information on the swap termination). These interest rate swaps were previously designated as fair value hedges of fixed rate debt in accordance with Statement of Financial Accounting Standards No. 133, Accounting for Derivative Instruments and Hedging Activities (Statement No. 133). The interest rate swaps qualified for hedge accounting using the short-cut method under Statement No. 133 which assumes no hedge ineffectiveness. As a result, changes in the fair value of the interest rate swaps and changes in the fair value of the hedged debt were assumed to be equal and offsetting and had no effect on our results of operations.

Fair value of financial instruments

We consider the recorded value of certain of our financial assets and liabilities, which consist primarily of cash and cash equivalents, accounts receivable and accounts payable, to approximate the fair value of the respective assets and liabilities at June 30, 2009, based on the short-term nature of the assets and liabilities. The fair value of our long-term debt at June 30, 2009 was \$663.6 million compared to a carrying value of \$566.4 million. We determined the fair value of our long-term debt based on quoted market prices for our 7⁵/₈% senior notes due 2013, 7³/₄% senior notes due 2016, and 3³/₄% convertible senior subordinated notes due 2012.

As of June 30, 2009, there were no financial instruments carried at fair value on our financial statements. At December 31, 2008, interest rate swaps with an aggregate \$60.0 million notional amount were carried at fair value based on estimates to settle the agreements as of the balance sheet date. The following table summarizes the assets measured at fair value on a recurring basis at December 31, 2008:

| | Quoted Prices in Active Markets for Identical Assets (Level 1) | Significant Other Observable Inputs (Level 2) | Significant Unobservable Inputs (Level 3) | Total |
|--|--|---|--|-----------------|
| As of December 31, 2008 | | | | |
| Interest rate swaps (recorded in other assets) | \$ | \$ 2,884 | \$ | \$ 2,884 |
| Total assets | \$ | \$ 2,884 | \$ | \$ 2,884 |

9. Acquisitions

Edgar Filing: FTI CONSULTING INC - Form 10-Q

Certain acquisition related restricted stock agreements contain stock price guarantees that may result in cash payments in the future if our share price falls below a specified per share market value on the date applicable stock restrictions lapse (the determination date). The future settlement of any contingency related to common stock

Table of Contents**FTI Consulting, Inc. and Subsidiaries****Notes to Condensed Consolidated Financial Statements (Continued)**

(amounts in tables expressed in thousands, except per share data)

Unaudited

price will be recorded as a reduction to additional paid-in capital. During the first quarter of 2009, we paid \$0.1 million in cash in relation to the price protection provision on certain shares of common stock that became unrestricted, which was recorded as a reduction to additional paid-in capital. Our remaining common stock price guarantee provisions have stock floor prices that range from \$22.26 to \$69.62 per share and have determination dates that range from 2009 to 2013.

10. Goodwill and Other Intangible Assets

The changes in the carrying amounts of goodwill by business segment for the six months ended June 30, 2009, are as follows:

| | Corporate Finance/ Restructuring | Forensic and Litigation Consulting | Strategic Communications | Technology | Economic Consulting | Total |
|---|--|--|-----------------------------|------------|------------------------|--------------|
| Balance January 1, 2009 | \$ 389,934 | \$ 189,129 | \$ 262,740 | \$ 118,541 | \$ 191,044 | \$ 1,151,388 |
| Goodwill acquired during the period | | | 3,206 | | | 3,206 |
| Contingent consideration | | 66 | (1,015) | | (113) | (1,062) |
| Adjustments to allocation of purchase price | (3,066) | | (132) | | | (3,198) |
| Foreign currency translation adjustment and other | 187 | 4,450 | 22,027 | 333 | (6) | 26,991 |
| Balance June 30, 2009 | \$ 387,055 | \$ 193,645 | \$ 286,826 | \$ 118,874 | \$ 190,925 | \$ 1,177,325 |

Other intangible assets with finite lives are amortized over their estimated applicable useful lives. For intangible assets with finite lives, we recorded amortization expense of \$6.1 million and \$12.2 million for the three and six months ended June 30, 2009, respectively, and \$4.5 million and \$7.4 million for the three and six months ended June 30, 2008, respectively. Based solely on the amortizable intangible assets recorded as of June 30, 2009, we estimate amortization expense to be \$12.1 million during the remainder of 2009, \$21.8 million in 2010, \$21.0 million in 2011, \$20.4 million in 2012, \$17.5 million in 2013, \$9.9 million in 2014, and \$55.9 million in years after 2014. Actual amortization expense to be reported in future periods could differ from these estimates as a result of new intangible asset acquisitions, finalization of asset valuations for newly acquired assets, changes in useful lives or other relevant factors.

| | Useful Life in Years | June 30, 2009 | | December 31, 2008 | |
|--------------------------------------|----------------------------|-----------------------------|-----------------------------|-----------------------------|-----------------------------|
| | | Gross Carrying Amount | Accumulated Amortization | Gross Carrying Amount | Accumulated Amortization |
| Amortized intangible assets | | | | | |
| Contract backlog | 1 | \$ 288 | \$ 168 | \$ 273 | \$ 23 |
| Customer relationships | 3 to 15 | 140,206 | 26,710 | 133,113 | 19,897 |
| Non-competition agreements | 1 to 10 | 18,078 | 7,267 | 17,194 | 5,735 |
| Software | 5 to 6 | 37,700 | 9,868 | 37,700 | 6,401 |
| Tradenames | 1 to 5 | 9,554 | 3,173 | 9,555 | 2,153 |
| | | 205,826 | 47,186 | 197,835 | 34,209 |
| Unamortized intangible assets | | | | | |
| Tradenames | Indefinite | 25,678 | | 25,678 | |

\$ 231,504 \$ 47,186 \$ 223,513 \$ 34,209

11. Long-term Debt and Capital Lease Obligations

| | June 30, 2009 | December 31, 2008 |
|---|--------------------------|------------------------------|
| 7 ⁵ / ₈ % senior notes due 2013 ⁽¹⁾⁽²⁾ | \$ 202,267 | \$ 202,884 |
| 7 ³ / ₄ % senior notes due 2016 | 215,000 | 215,000 |
| 3 ³ / ₄ % convertible senior subordinated notes due 2012 ⁽³⁾ | 134,178 | 131,968 |
| Notes payable to former shareholders of acquired business | 14,924 | 47 |
| Total debt | 566,369 | 549,899 |
| Less current portion | 149,102 | 132,015 |
| Long-term debt, net of current portion | 417,267 | 417,884 |
| Total capital lease obligations | 1,165 | 1,608 |
| Less current portion | 245 | 900 |
| Capital lease obligations, net of current portion | 920 | 708 |
| Long-term debt and capital lease obligations, net of current portion | \$ 418,187 | \$ 418,592 |

(1) Includes unamortized proceeds from interest rate swap terminations of \$2,267 at June 30, 2009.

(2) Includes a fair value hedge adjustment of \$2,884 at December 31, 2008.

(3) Includes discount of \$15,767 at June 30, 2009 and \$17,983 at December 31, 2008.

Convertible Notes

As of January 1, 2009, we adopted the provisions of FSP APB 14-1 with retrospective application to prior periods. FSP APB 14-1 addresses the accounting and disclosure requirements for convertible debt that may be settled in cash upon conversion. FSP APB 14-1 requires an issuer to separately account for the liability and equity components of convertible debt in a manner that reflects the issuer's nonconvertible borrowing rate resulting in higher interest expense over the life of the instrument due to the amortization of the discount. Our Convertible Notes are subject to FSP APB 14-1. We applied FSP APB 14-1 retrospectively to all periods presented.

The following table summarizes the liability and equity components of our Convertible Notes:

Edgar Filing: FTI CONSULTING INC - Form 10-Q

| | June 30, 2009 | December 31, 2008 |
|---|------------------|----------------------|
| Liability component: | | |
| Principal | \$ 149,945 | \$ 149,951 |
| Unamortized discount | (15,767) | (17,983) |
| Equity component (recorded in additional paid-in capital) | 18,019 | 18,022 |

Table of Contents**FTI Consulting, Inc. and Subsidiaries****Notes to Condensed Consolidated Financial Statements (Continued)**

(amounts in tables expressed in thousands, except per share data)

Unaudited

The discount on the liability component will be amortized over the remaining term of the Convertible Notes through July 15, 2012 using the effective interest method. The effective interest rate on the Convertible Notes is 7⁵/₈%. The components of interest cost on the Convertible Notes for the three and six months ended June 30, 2009 and 2008 were as follows:

| | Three Months Ended June 30, | | Six Months Ended June 30, | |
|---|--------------------------------|----------|------------------------------|----------|
| | 2009 | 2008 | 2009 | 2008 |
| Contractual interest | \$ 1,406 | \$ 1,406 | \$ 2,812 | \$ 2,812 |
| Amortization of debt discount | 1,138 | 1,056 | 2,255 | 2,092 |
| Amortization of deferred note issue costs | 160 | 160 | 320 | 320 |
| Total interest expense | \$ 2,704 | \$ 2,622 | \$ 5,387 | \$ 5,224 |

On October 15, 2007, the \$150.0 million aggregate principal amount of the Convertible Notes became convertible at the option of the holders and is currently convertible through October 15, 2009 as provided in the Indenture covering the Convertible Notes. The Convertible Notes became convertible as a result of the closing price per share of our common stock exceeding the conversion threshold price of \$37.50 per share (120% of the applicable conversion price of \$31.25 per share) for at least 20 days in the 30 consecutive trading days of each of the periods ended October 15, 2007, January 15, 2008, April 15, 2008, July 15, 2008, October 15, 2008, January 15, 2009, April 15, 2009 and July 15, 2009.

Upon surrendering any Convertible Note for conversion, in accordance with the Indenture, the holder of such Convertible Note shall receive cash in the amount of the lesser of (i) the \$1,000 principal amount of such Convertible Note or (ii) the conversion value of the Convertible Note as defined in the indenture. The conversion feature results in a premium over the face amount of the Convertible Notes equal to the excess of our stock price as determined by the calculation set forth in the Indenture and the conversion price per share of \$31.25 multiplied by the conversion ratio of 31.998 shares of common stock for each \$1,000 principal amount of the Convertible Notes. We retain our option to satisfy any conversion value in excess of each \$1,000 principal amount of the Convertible Notes with shares of common stock, cash or a combination of both cash and shares. The premium will be calculated using the stock price calculation defined in the Indenture. Based on our closing stock price at June 30, 2009, the aggregate Convertible Notes conversion value exceeds their aggregate principal amount by \$93.4 million.

Interest Rate Swaps

In August 2005, we entered into two interest rate swap contracts with a notional amount of \$60.0 million to receive interest at 7⁵/₈% and pay a variable rate of interest based upon LIBOR. We designated these swaps as fair value hedges of the changes in fair value of \$60.0 million of our 7⁵/₈% Notes. The counterparties to the swaps exercised their right to terminate the swaps as of June 15, 2009. The \$2.3 million gain on termination will be amortized as a reduction to interest expense over the remaining term of the 7⁵/₈% Notes, resulting in an effective interest rate of 6.5% per annum on \$60.0 million of 7⁵/₈% Notes.

12. Commitments and Contingencies

Future contractual obligations related to operating leases entered into during 2009 have resulted in an increase in our total contractual obligations under operating leases of \$2.4 million for 2010, \$3.4 million for 2011, \$3.3 million for 2012, \$3.2 million for 2013 and \$27.5 million thereafter.

Contingencies

We are subject to legal actions arising in the ordinary course of business. In management's opinion, we believe we have adequate legal defenses and/or insurance coverage with respect to the eventuality of such actions. We do not believe any settlement or judgment would materially affect our financial position or results of operations.

13. Share-Based Compensation***Amendment and restatement of equity-based compensation plan***

On March 31, 2009, the Board of Directors (the Board) of FTI Consulting, Inc. (FTI) approved the amendment and restatement of the FTI Consulting, Inc. Deferred Compensation Plan for Key Employees and Non-Employee Directors, as previously amended (the Deferred Compensation Plan), (to be renamed the FTI Consulting, Inc. 2009 Omnibus Incentive Compensation Plan (the Omnibus Plan)), subject to the approval of our stockholders. On April 8, 2009 the Board confirmed its approval and authorized that the proposal to amend and restate the Deferred Compensation Plan (and rename it the Omnibus Plan) be submitted to stockholders for approval at the 2009 annual meeting of stockholders held June 3, 2009. The Omnibus Plan was approved by the stockholders of FTI on June 3, 2009 at the 2009 annual meeting.

The 2009 Omnibus Plan provides incentive compensation in the form of equity and equity-based awards. All employees, officers, non-employee directors and individual service providers of FTI are eligible to participate in the Omnibus Plan, subject to the discretion of the administrator to make awards. The Omnibus Plan provides for the grants of incentive and non-qualified stock options and stock appreciation rights and stock-based awards, including restricted stock, unrestricted stock, performance stock, phantom stock, stock unit and restricted stock unit awards, of which an aggregate of 900,000 shares of common stock would be available for restricted and unrestricted stock awards as well as other stock-based awards, including phantom stock, performance awards, stock units, restricted stock units and performance units.

Share-based awards and share-based compensation expense

Our officers, employees, non-employee directors and certain individual service providers are eligible to participate in FTI's equity compensation plans, subject to the discretion of the administrator of the plans. During the six months ended June 30, 2009, share-based awards included stock option grants exercisable for 484,089, restricted stock awards of 308,614 shares of common stock and deferred stock units of 115,827.

Total share-based compensation expense for the three and six months ended June 30, 2009 and 2008 is detailed in the following table.

| Income Statement Classification | Three Months Ended June 30, | | Six Months Ended June 30, | |
|---|--------------------------------|----------|------------------------------|-----------|
| | 2009 | 2008 | 2009 | 2008 |
| Direct cost of revenues | \$ 3,167 | \$ 3,957 | \$ 5,997 | \$ 7,717 |
| Selling, general and administrative expense | 3,736 | 3,508 | 7,352 | 6,455 |
| Total share-based compensation expense | \$ 6,903 | \$ 7,465 | \$ 13,349 | \$ 14,172 |

14. Income Taxes

We are not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits would significantly increase or decrease within the next twelve months. As of June 30, 2009, there have been no material changes to the liability for uncertain tax positions. Interest and penalties related to uncertain tax positions are classified as such and excluded from the income tax provision. As of June 30, 2009, our accrual for the payment of tax-related interest and penalties was not material.

We file numerous consolidated and separate income tax returns in the U.S. federal jurisdiction and in many city, state and foreign jurisdictions. We are no longer subject to U.S. federal income tax examinations for years prior to 2004 and are no longer subject to state and local or foreign tax examinations for years prior to 2000. In addition, open tax years related to state and foreign jurisdictions remain subject to examination, but are not considered material to our financial position, results of operations or cash flows.

15. Segment Reporting

We manage our business in five reportable operating segments: Corporate Finance/Restructuring, Forensic and Litigation Consulting, Strategic Communications, Technology, and Economic Consulting.

The Corporate Finance/Restructuring segment focuses on strategic, operational, financial and capital needs of businesses around the world and provides consulting and advisory services relating to turnaround, bankruptcy, performance improvement, lending solutions, financial and operational restructuring, restructuring advisory, mergers and acquisitions, transaction advisory and interim management. The Forensic and Litigation Consulting segment provides law firms, companies, government clients and other interested parties with dispute advisory, investigations, forensic accounting, business intelligence assessments and risk mitigation services. The Strategic Communications segment provides advice and consulting services relating to financial communications, brand communications, public affairs and reputation management and business consulting. The Technology segment provides products, services and consulting to law firms, companies, courts and government agencies worldwide with the principal business focus on the collection, preservation, review and production of electronically stored information. The Economic Consulting segment provides law firms, companies, government entities and other interested parties with analysis of complex economic issues for use in legal and regulatory proceedings, anti-trust and competition matters, strategic decision making, international arbitration and public policy debates in the U.S. and internationally.

We evaluate the performance of our operating segments based on operating income excluding depreciation, amortization of other intangible assets, unallocated corporate expenses plus non-operating litigation settlements, which we refer to as segment EBITDA. Segment EBITDA consists of the revenues generated by that segment, less the direct costs of revenues and selling, general and administrative costs that are incurred directly by that segment as well as an allocation of certain centrally managed costs, such as information technology services, accounting, marketing and facility costs. Although segment EBITDA is not a measure of financial condition or performance determined in accordance with GAAP, we use it to evaluate and compare the operating performance of our segments and it is one of the primary measures used to determine employee incentive compensation. Unallocated corporate expenses include costs related to centrally managed administrative functions which have not been allocated to the segments. These administrative costs include corporate office support costs, human resources, legal and company-wide business development functions, as well as costs related to overall corporate management. In addition, certain accounting and information technology costs are unallocated.

Item 2. Management's Discussion and Analysis Of Financial Condition And Results Of Operations

The following is a discussion and analysis of our consolidated financial condition and results of operations for the three and six month periods ended June 30, 2009 and 2008 and significant factors that could affect our prospective financial condition and results of operations. This discussion should be read together with the accompanying unaudited condensed consolidated financial statements and related notes and with our Annual Report on Form 10-K for the year ended December 31, 2008. Historical results and any discussion of prospective results may not indicate our future performance. See Forward Looking Statements.

On January 1, 2009 we adopted FSP APB 14-1, Accounting for Convertible Debt Instruments that May Be Settled in Cash Upon Conversion (including Partial Cash Settlement) (FSP APB 14-1). As a result of the adoption of FSP APB 14-1, certain prior period amounts have been retrospectively adjusted. Refer to Note 2 to the condensed consolidated financial statements for additional information.

BUSINESS OVERVIEW

We are a leading global business advisory firm dedicated to helping organizations protect and enhance their enterprise value. We work closely with our clients to help them anticipate, understand, manage and overcome complex business matters arising from such factors as the economy, financial and credit markets, governmental regulation and legislation and litigation. We assist clients in addressing a broad range of business challenges such as bankruptcy, restructuring, credit issues and indebtedness, mergers and acquisitions (M&A), interim business management, electronic discovery, the management and retrieval of electronically stored information, reputation management and strategic communications. Our experienced teams of professionals include many individuals who are widely recognized as experts in their respective fields. We believe clients retain us because of our recognized expertise and capabilities in highly specialized areas as well as our reputation for satisfying client needs.

We report financial results for the following five operating segments:

The **Corporate Finance/Restructuring** segment focuses on strategic, operational, financial and capital needs of businesses around the world and provides consulting and advisory services relating to turnaround, bankruptcy, performance improvement, lending solutions, financial and operational restructuring, restructuring advisory, M&A, transaction advisory and interim management.

The **Forensic and Litigation Consulting** segment provides law firms, companies, government clients and other interested constituencies with dispute advisory, investigations, forensic accounting, business intelligence assessments and risk mitigation services.

The **Strategic Communications** segment provides advice and consulting services relating to financial communications, brand communications, public affairs and reputation management and business consulting.

The **Technology** segment provides products, services and consulting to law firms, companies, courts and government agencies worldwide with the principal business focus on the collection, preservation, review and production of electronically stored information.

The **Economic Consulting** segment provides law firms, companies, government entities and other interested parties with analysis of complex economic issues for use in legal and regulatory proceedings, anti-trust and competition matters, strategic decision making, international arbitration and public policy debates in the U.S. and internationally.

We derive substantially all of our revenues from providing professional services to both U.S. and global clients. Over the past several years the growth in our revenues and profitability has resulted from the acquisitions we have completed and from our ability to attract new and recurring engagements.

Table of Contents

Most of our services are rendered under time and expense arrangements that require the client to pay us a fee for the hours that we incur at agreed upon rates. Under this arrangement we also bill our clients for reimbursable expenses, which may include the cost of producing our work product, and other direct expenses that we incur on behalf of the client, such as travel costs. We also render services for which the client is required to pay us a fixed monthly fee or recurring retainer. These arrangements are generally cancellable at any time. Some of our engagements contain performance-based arrangements in which we earn a success fee when and if certain predefined outcomes occur. This type of success fee may supplement a time-and-expense or fixed-fee arrangement. Success fee revenues may cause significant variations in our revenues and operating results due to the timing of achieving the performance-based criteria. In our Technology segment, certain clients are also billed based on the amount of data stored on our electronic systems, the volume of information processed and the number of users licensing our Ringtail® and Attenex® products for installation within their own environments. The licensing of these products is sold directly to end users as well as indirectly through our channel partner relationships. While our business has evolved over the last several years, seasonal factors, such as the timing of our clients' vacations and holidays, continue to impact the timing of our revenues.

Our financial results are primarily driven by:

the number and size of engagements we secure;

the rate per hour or fixed charges we charge our clients for services;

the utilization rates of the revenue-generating professionals we employ;

the number of revenue-generating professionals;

fees from clients on a retained basis; and

licensing of our software products and other technology services.

We define EBITDA as operating income before depreciation and amortization of intangible assets plus non-operating litigation settlements. Although EBITDA is not a measure of financial condition or performance determined in accordance with generally accepted accounting principles (GAAP), we believe that it can be a useful operating performance measure for evaluating our results of operations as compared from period to period and as compared to our competitors. EBITDA is a common alternative measure of operating performance used by investors, financial analysts and credit rating agencies to value and compare the financial performance of companies in our industry. We use EBITDA to evaluate and compare the operating performance of our segments and it is one of the primary measures used to determine employee bonuses. We also use EBITDA to value the businesses we acquire or anticipate acquiring. EBITDA is not defined in the same manner by all companies and may not be comparable to other similarly titled measures of other companies unless the definition is the same. This non-GAAP measure should be considered in addition to, but not as a substitute for or superior to, the information contained in our statements of income.

We evaluate the performance of our operating segments based on operating income excluding depreciation, amortization of other intangible assets, unallocated corporate expenses plus non-operating litigation settlements, which we refer to as segment EBITDA. Segment EBITDA consists of the revenues generated by that segment, less the direct costs of revenues and selling, general and administrative costs that are incurred directly by that segment as well as an allocation of certain centrally managed costs, such as information technology services, accounting, marketing and facility costs. Although segment EBITDA is not a measure of financial condition or performance determined in accordance with GAAP, we use it to evaluate and compare the operating performance of our segments and it is one of the primary measures used to determine employee incentive compensation. Unallocated corporate expenses include costs related to centrally managed administrative functions which have not been allocated to the segments. These administrative costs include corporate office support costs, human resources, legal and company-wide business development functions, as well as costs related to overall corporate management. In addition, certain accounting and information technology costs are unallocated.

Throughout the following discussion, we refer to organic and acquisition revenue growth. We define acquisition growth as the results of operations of acquired companies in the first year following the effective date of an acquisition. Our definition of organic growth is the change in the results of operations excluding the impact of acquisitions.

Second Quarter 2009 Executive Highlights

The key financial measures for the Company's second quarter all showed improvement from the prior year quarter. Revenues for the quarter ended June 30, 2009 increased 6.8% to \$360.5 million, compared to \$337.7 million in the prior year. Excluding the estimated negative impact of foreign currency translation, which was primarily due to the weakening of the British pound relative to the U.S. dollar, the Company experienced a 10.3% growth rate. The Company grew organically at 1.5%. The balance of revenue growth was from acquisitions completed during 2008, particularly, in the Corporate Finance/Restructuring, Strategic Communications and Technology segments.

The higher revenues and operating income in the quarter were driven primarily by significant growth in the Company's restructuring practice and, to a lesser extent, by the continued work related to several large financial fraud cases. These served to offset recessionary pressures on discretionary activities such as corporate communications and litigation, as well as weaker activity levels related to global capital markets such as communications and anti-trust work in M&A transactions, IPOs and real estate transactions.

The strong organic revenue growth experienced by the Company's Corporate Finance/Restructuring segment continued through the second quarter of 2009 and was supplemented by revenue from acquired businesses. The segment continued to be active in restructuring assignments in a broad range of industries being impacted by the global credit crisis such as automotive, homebuilding/real estate/construction, financial services and retail markets. More recently, restructuring activity has spread to the high technology, media and entertainment/leisure sectors. Segment growth was also enhanced by accelerating revenue from the UK restructuring practice which has increased headcount and expanded its range of offerings to meet strong demand for its services, as well as strong initial contribution from our newly-established restructuring practice in Toronto, which is experiencing demand for its services from Canada and Latin America. Profitability in the segment was strong as robust demand drove higher utilization and billing rates which more than offset declines in utilization of Transaction Advisory Services and real estate consulting due to the weakened capital markets compared to last year.

The Forensic and Litigation Consulting segment, which relies on litigation and regulatory investigations and proceedings, reported lower revenues as activities related to several large financial fraud investigations and strong performances by its intellectual property and regulated industry practices were offset by lower levels of litigation and regulatory activity due to the challenging global economic environment and by the slowdown in regulatory investigations as the new Presidential administration begins to take a more active role in business affairs and the financial markets. Margins in the segment improved year over year and sequentially due to strong management of expenses and headcount.

Table of Contents

Revenues and operating income of the Technology segment increased year over year and continued to improve sequentially. This segment has collaborated with the Forensic and Litigation Consulting segment on several large financial fraud investigations and has seen strong demand for second requests associated with strategic M&A, revenues from which have offset the reduced contributions from large product liability cases in the same period a year ago. Profitability in the segment increased over the prior year as higher consulting utilization and volumes of unit processing have more than compensated for greater discounting of unit based pricing resulting from increases in market competition.

Economic Consulting experienced a lower level of strategic M&A activity compared to the same period last year, which was only partially offset by increased anti-trust investigations and contract disputes following in the wake of the recession and credit crisis, and initial contributions from recently opened offices in the UK and U.S. Margins in the segment were negatively impacted by a slower commencement of new engagements, the cost of expansion of activities into new international markets and infrastructure investments being made to support the segment's anticipated growth.

The Strategic Communications segment, which generates a significant amount of business within the capital markets, was negatively impacted in the quarter by the dramatically slower volume of M&A transactions and IPO work and the continued impact of the global recession, which caused a decline in revenues related to capital markets work and reduced fees from retained clients. In addition, the segment, which has the greatest proportion of revenues outside the U.S., experienced a significant impact from the appreciation of the U.S. dollar against other currencies in the second quarter, particularly the British Pound. Steps taken by the segment to reduce headcount levels in response to lower demand have only partially offset the impact of the lower revenues.

As a result of the above, EBITDA increased by \$7.0 million, or 9.1%, to \$84.6 million compared to \$77.6 million in the same period last year. EBITDA was 23.5% of revenue in the 2009 second quarter compared to 23.0% of revenue in the 2008 period.

Earnings per diluted share were \$0.69 compared to \$0.65 in the prior year period reflecting increased operating earnings. The estimated quarter over quarter foreign currency translation impact of a stronger U.S. dollar, primarily against the British pound, reduced earnings per diluted share by \$0.02 in the quarter.

Cash provided by operating activities in the three months ended June 30, 2009 was \$55.3 million compared to \$67.1 million provided in the prior year, reflecting higher earnings and stronger accounts receivable collections, offset by an increase in compensation-related costs and income tax payments.

Total headcount increased by 270, or 8.6%, to 3,414 employees through a combination of hiring to support the growth of the business and the retention of employees who joined the Company through acquired businesses.
