**Telecom Argentina S.A. announces  
consolidated nine-month period ('9M09') and  
third quarter results for fiscal year 2009 ('3Q09')\***

Consolidated Net Revenues amounted to P\$8,861 million (+14% vs. 9M08); Internet +47% vs. 9M08; Mobile business in Argentina +15% vs. 9M08.

Mobile subscribers: 15.8 million (+15% vs. 9M08); Broadband subscribers: 1.2 million (+21% vs. 9M08); Fixed lines in service: 4.3 million (+1% vs. 9M08).

Operating Profit Before Depreciation and Amortization ( OPBDA ) reached P\$2,855 million (+14% vs. 9M08), 32% of Net Revenues. Growth was mainly fueled by mobile services and broadband in Argentina.

Operating Profit amounted to P\$2,035 million (+32% vs. 9M08), 23% of Net Revenues.

Net Income reached P\$1,006 million (+21% vs. 9M08).

Investments (excluding materials) totaled P\$1,022 million.

Net Financial Debt (before NPV effect) reached P\$143 million (-P\$1,048 million vs. 9M08). Net Financial Debt to OPBDA ratio declined from 0.4x as of the end of September 2008 to 0.04x as of the end of September 2009.

As of October 15, 2009 Telecom Argentina S.A. has paid off all its outstanding financial debt.

**As of September 30**

**Table of Contents**

Buenos Aires, November 9, 2009 Telecom Argentina (NYSE: TEO; BASE: TECO2), one of Argentina's leading telecommunications groups, announced today Net Income of P\$1,006 million for the nine-month period ended September 30, 2009 or +21% when compared to the same period last year.

	9M09	9M08	D \$	D %
Net Revenues (MMP\$)	8,861	7,789	1,072	14%
Net Income (MMP\$)	1,006	831	175	21%
Earnings per Share (P\$)	1.02	0.84	0.18	
Earnings per ADR (P\$)	5.11	4.22	0.89	
OPBDA *	32%	32%		
Operating Profit *	23%	20%		
Net Income*	11%	11%		

\* As a percentage of Net Revenues

During 9M09, Consolidated Net Revenues increased by 14% (+P\$1,072 million vs. 9M08) to P\$8,861 million, mainly fueled by the Mobile and Broadband businesses. Moreover, Operating Profit increased by 32% (+P\$495 million vs. 9M08) to P\$2,035 million.

**Consolidated Operating Revenues****Fixed Telephony (Voice, Data Transmission & Internet)**

During 9M09, revenues generated by these services amounted to P\$3,043 million, +13% vs. 9M08, where in relative terms Internet revenues have grown the most (+47% vs. 9M08).

**Voice**

Total Revenues for this service reached P\$2,078 million in 9M09 (+4% vs. 9M08). The results of this line of business are still affected by frozen tariffs of regulated services.

Monthly Charges and Supplementary Services increased by P\$33 million, or 6% vs. 9M08, to P\$628 million, as a consequence of a higher number of lines in service (+1%), which reached more than 4.3 million, and a 15% increase in supplementary services.

## Edgar Filing: TELECOM ARGENTINA SA - Form 6-K

Revenues generated by traffic (Local Measured Service, Domestic Long Distance and International Telephony) totaled P\$945 million, an increase of 3% vs. 9M08. Revenues from International traffic increased 12% vs. 9M08 while local traffic revenues increased +3% vs. 9M08. Otherwise, revenues from domestic long distance traffic slightly decreased 2% vs. 9M08.

Interconnection revenues amounted to P\$319 million (+11% vs. 9M08), mainly as a consequence of traffic originated in cellular lines from other operators but transported by and terminated in the Company's fixed-line network.

Other revenues reached P\$186 million (-7% vs. 9M08). This reduction was mainly a consequence of a decrease in Public Telephony revenues (-P\$13 million or -20% vs. 9M08).

## **Table of Contents**

### **Data Transmission and Internet**

Data transmission revenues amounted to P\$197 million (+24% vs. 9M08), generated by the offer of innovative solutions for the corporate market focused in both satisfying the enterprises' internal infrastructure needs and enhancing the offer of ICT services (connectivity, housing and hosting, among others).

Revenues related to Internet reached P\$768 million (+P\$246 million or 47% vs. 9M08), mainly due to the substantial expansion of the broadband service, driven by an increase in the subscriber base, better network coverage, commercial promotions and innovations in the service portfolio. In addition, ARPU reached \$68 in 3Q09, +21% when compared to 3Q08 due to the implementation of an efficient pricing strategy and the expiration of promotions together with reduction of churn.

As of September 30, 2009, Telecom reached 1.2 million ADSL customers (+21% vs. 9M08). These connections represent approximately 27% of Telecom's fixed lines in service.

Data Transmission and Internet both have significantly increased their contribution to net consolidated revenues reaching an 11% participation (vs. 9% in 9M08) and representing 32% of fixed telephony segment revenues (vs. 25% in 9M08).

### **Commercial Initiatives**

During the quarter Telecom extended throughout its entire area of operation the promotion denominated Superpack, a bundle of services that includes broadband access, flat rates for local calls and satellite TV through a commercial agreement with DirectTV, the leading company in digital TV. This offer presents to clients the opportunity to have a complete home package for communications and entertainment at an attractive price.

Telecom has continued developing complementary services. Consequently it is marketing a promotion of Pack Arnet together with a new line including flat rates for local calls.

Oriented for the corporate market, Telecom launched its virtualization service, for wholesale and government segments, enhancing its offer of ICT services. These comprise Hosting Virtual y

## Edgar Filing: TELECOM ARGENTINA SA - Form 6-K

Virtual Desktop on Next Generation Data Center, offering clients more efficiency in the cost-benefit relationship with IT infrastructure.

Telecom relies on a competitive advantage to offer these types of services: its Data Center in Pacheco Tier IV, one of the most complete and modern information centres in the country, which allows the integration of all the virtual solution components: data centre, connectivity, hardware and software. Also remarkable are its data network and its background oriented toward the corporate and government segments.

## **Table of Contents**

It is important to point out that the privileged position as integral supplier of ICT solutions was achieved thanks to the acquisition of Cubecorp a data center that provides IT world class services occurred in July, 2008.

### **Mobile Services**

In the quarter, clients have significantly increased, reaching 15.8 million as of the end of September 2009, representing an increase of 0.4 million since June 2009 and 2.0 million since September 2008.

During 9M09, net revenues reached P\$5,818 million (+14% vs. 9M08).

### **Telecom Personal in Argentina**

As of the end of September 2009, Personal reached 14 million subscribers in Argentina (+2.1 million, or +17% vs. 9M08), which allowed the Company to enhance its market position and strengthen its potential for future revenue growth. During 9M09 the strong increase in net additions continued with the incorporation of about 1.4 million subscribers (vs. +1.3 million net additions in 9M08).

Approximately 31% of the overall subscriber base is postpaid (including Cuentas claras plans) and 69% is prepaid.

Personal continued with consistent growth in Total Revenues (including handset sales) reaching P\$5,516 million (+15% vs. 9M08), supported by the increase in overall voice traffic minutes by 15% vs. 9M08 and in value-added services (VAS) revenues by 35% vs. 9M08. Service revenues reached P\$4,968 million (+17% vs. 9M08) where 34% corresponds to VAS revenues. Also noteworthy is SMS traffic performance, which climbed from a monthly average of 1,239 million messages in 9M08 to 2,923 million in 9M09 (+136% vs. 9M08), with similar service quality levels.

As a consequence of the traffic increase and higher usage of value-added services (mainly due to a significant increase in SMS per client), Average Monthly Revenue per User ( ARPU ) remained stable at approximately P\$40 during 9M09, even though level of penetration is significant. Meanwhile, ARPU in 3Q09 reached P\$41.

Personal's contribution to consolidated margins has improved since 9M08 thanks to the activities focused to expand its subscriber base and to retain the high-value segment.

**Initiatives**

During the quarter, Personal continued its strategy in terms of value and convenience to clients, through the offer of All inclusive packs and promotions combining minutes, SMS and Internet in the same monthly fee.

## **Table of Contents**

Furthermore, it continued expanding the offer of Packs (flat or limited-) of Internet, calls, SMS, roaming and access to social networks. It also provides more benefits for prepaid clients such as unlimited SMS with each recharge of credits.

Also noteworthy, revenues from 3G devices had a remarkable performance in the quarter, increasing 75% when compared to last quarter.

One of the most remarkable launches of this quarter (in a strategic partnership with Microsoft) is SMS Messenger. This product allows access to Windows Live Messenger through the use of text messages, regardless of the handset used. Personal is the first operator in the world providing this service.

The digital music store Personal Musica, incorporated innovations such as an integral platform that allows the acquisition of digital music simultaneously with chat through Microsoft Messenger. The success of this strategy was reflected in the continuous increase of VAS in total service revenues. In addition, Personal increased its area of influence in the youth segment, becoming the market share leader of this attractive target.

### **Telecom Personal in Paraguay**

By the end of September 2009, Nucleo's subscriber base reached approximately 1.8 million customers. During the year, Nucleo adopted the same client disconnection policy as in the Argentina market. Prepaid and Postpaid customers represented 89% and 11%, respectively.

Personal's controlled subsidiary in Paraguay generated revenues equivalent to P\$302 million during 9M09 (-7% vs. 9M08), affected by the reduction of interconnection revenues (which intensified the competition between operators) and the change in measured service charges criteria, from a base of minutes to seconds.

### **Consolidated Operating Costs**

The Cost of Services Provided, Administrative Expenses and Selling Expenses totaled P\$6,826 million in 9M09, which represents an increase of P\$577 million, or +9%, vs. 9M08. The increase in costs is a consequence of a higher volume of revenues, inflationary effects on the cost structure, and greater expenses related to competition in mobile and internet businesses.

The cost breakdown is as follows:

- Salaries and Social Security Contributions totaled P\$1,075 million (+23% vs. 9M08), affected by increases in salaries and higher social security charges imposed by law. Regarding personnel, the decrease in headcount in fixed segment (-244 employees vs. 9M08) was partially compensated by the incorporation of 82 employees in the same period in the mobile business. The total headcount at the end of 9M09 was 15,368 employees.

**Table of Contents**

- Taxes reached P\$720 million (+17% vs. 9M08), influenced mainly by higher rates in turnover taxes, municipal taxes and a higher volume of revenues.

- Network access costs (includes TLRD, Roaming, Interconnection, international settlement charges and lease of circuits) amounted to P\$1,015 million, maintaining similar levels as 9M08. These costs are associated with traffic generated among mobile operators.

- Agents, prepaid card commissions and other commissions were P\$778 million (+16% vs. 9M08), mainly due to the increase in commissions paid to commercial agents and card distribution costs, as higher subscriber volumes and sales of cards were registered.

- Advertising amounted to P\$247 million (-15% vs. 9M08) oriented towards supporting the commercial activity in mobile services and Internet, and to strengthening the brand position of the Telecom Group. It is important to consider that last year costs related to the Sponsorship of the Argentine Olympic Committee were incurred.

- Cost of handsets sold totaled P\$804 million (+10% vs. 9M08) mainly due to an increase in subscriber additions and in the number of upgraded terminals.

- Depreciation of Fixed and Intangible Assets reached P\$820 million (-15% vs. 9M08). Fixed-line telephony totaled P\$490 million (-19% vs. 9M08) and mobile services P\$330 million (-7% vs. 9M08), mainly due to reestimation of the useful lives of certain technical assets in 2Q09 and also since TDMA technology depreciation charges ended in March 2008.

- Others Costs totaled P\$1,367 million (+25% vs. 9M08). The increase was mainly due to the inflationary effects on related services.

**Consolidated Financial and Holding Results**

Financial and Holding Results

(In million P\$)

Financial and Holding Results resulted in a loss of P\$317 million, an increase of P\$205 million vs. 9M08. This was mainly due to the loss registered in net foreign currency exchange equivalent to P\$293 million in 9M09 (vs. a gain of P\$26 million in 9M08). The result was affected by losses from financial debt denominated in Euros and in US dollars. It is important to point out that since December 2008, the Argentine Peso devaluated against the US Dollar and Euro currencies 10% and 15% respectively. Moreover, the result as of 9M09 includes losses of P\$73 million due to changes in market value of Financial Derivative Instruments.

	<b>9M08</b>	<b>9M09</b>
Net Interests	-\$112	-\$ 22
FX results	\$ 26	-\$293
Others	-\$ 26	-\$ 2
<b>Total</b>	<b>-\$112</b>	<b>-\$317</b>

Nevertheless, these results were partially compensated by lower net interest (-P\$90 million vs. 9M08) and lower losses from holding results generated by inventories (-P\$22 million vs. 9M08).

## **Table of Contents**

### **Consolidated Net Financial Debt**

As of September 30, 2009, Net Financial Debt (Loans before the effect of NPV valuation, minus Cash, Cash Equivalents and Other credits from derivative Investments for Notes) amounted to P\$143 million, a reduction of P\$1,048 million as compared to September 2008 and P\$769 million when compared to December 2008.

During 9M09, Personal purchased a nominal amount of US\$8.77 million Series 3 Notes due 2010. Furthermore, Telecom Argentina purchased Notes in a nominal amount of Euros 18.5 million of Telecom's Series A Euro Notes due 2014 (equivalent to an outstanding amount of Euros 6.97 million). These operations were made through market purchases and with liquid funds from each company. The Notes acquired were cancelled according to the terms and conditions of the respective Indentures.

### **Consolidated Capital Expenditures**

During 9M09, the Company invested P\$1,022 million (excluding materials) in fixed and intangible assets. This amount was allocated to Voice, Data and Internet businesses (P\$520 million) and mobile services (P\$502 million). In relative terms, capex reached 12% of the revenues.

Main capex projects are related to the expansion of broadband services and to the upgrade of the network for next generation services (NGN), improvement of the network (capacity, coverage and 3G), and the launch of new and innovative value-added services.

### **Other Initiatives**

During the period Telecom continued with the development of solutions oriented toward satisfying private neighborhood and real state development needs. The Company announced the provision of technological infrastructure and telecommunications services in the first intelligent urban centre of Argentina: *Area 60*, located 64 km from Buenos Aires city. It will rely on the first GPON network (Gigabit Passive Optical Network) in the country. This is an optic fiber network reaching each client's house. With this kind of next generation technology, clients will be able to access to the most advanced services in voice, high velocity Internet, and VAS such as video calls and videoconferences, security services and domotic, among others.

**Other Relevant Matters**

The Court of Appeals in Commercial Matters N°2 resolved to suspend the Ordinary and Extraordinary Telecom Argentina Shareholders meeting to be held on September 9, 2009.

**Table of Contents**

**Recent Relevant Matters**

As of October 15, 2009 Telecom Argentina has paid off the remaining portion of the debt issued on August 31, 2005 for an amount equivalent to US\$ 1.9 billion in accordance with the terms and conditions of the *Acuerdo Preventivo Extrajudicial* (APE). The debt was prepaid 5 years in advance of the repayment schedule originally agreed upon the financial creditors. Outstanding principal amount together with accrued interest equivalent to US\$ 352 million was paid.

Since October 16, 2009 until today, Telecom Personal purchased a nominal amount of US\$ 6.33 million Series 3 Notes due 2010. These operations were made through market purchases and with liquid funds of the company. The Notes acquired were cancelled according to the terms and conditions of the Indenture.

On October 22, 2009 Standard & Poor's Ratings Services revised the local rating on Telecom Personal Notes and upgraded it to AA from AA-.

\*\*\*\*\*

**Table of Contents**

Telecom is the parent company of a leading telecommunications group in Argentina, where it offers directly or through its controlled subsidiaries local and long distance fixed-line telephony, cellular, data transmission and Internet services, among other services. Additionally, through a controlled subsidiary, the Telecom Group offers cellular services in Paraguay. The Company commenced operations on November 8, 1990, upon the Argentine government's transfer of the telecommunications system in the northern region of Argentina.

Nortel Inversora S.A. (Nortel), which acquired the majority of the Company from the Argentine government, holds 54.74% of Telecom's common stock. Nortel is a holding company where the common stock (approximately 68% of capital stock) is owned by Sofora Telecomunicaciones S.A. Additionally, Nortel capital stock is comprised of preferred shares that are held by minority shareholders.

As of September 30, 2009, Telecom had 984,380,978 shares outstanding.

Disclaimer

This document may contain statements that could constitute forward-looking statements, including, but not limited to, the Company's expectations for its future performance, revenues, income, earnings per share, capital expenditures, dividends, liquidity and capital structure; the effects of its debt restructuring process; the impact of emergency laws enacted by the Argentine Government; and the impact of rate changes and competition on the Company's future financial performance. Forward-looking statements may be identified by words such as "believes," "expects," "anticipates," "projects," "intends," "should," "seeks," "estimates," "future" or other similar expressions. Forward-looking statements involve risks and uncertainties that could significantly affect the Company's expected results. The risks and uncertainties include, but are not limited to, the impact of emergency laws enacted by the Argentine government that have resulted in the repeal of Argentina's Convertibility law, devaluation of the peso, various changes in restrictions on the ability to exchange pesos into foreign currencies, and currency transfer policy generally, the pesification of tariffs charged for public services, the elimination of indexes to adjust rates charged for public services and the Executive branch announcement to renegotiate the terms of the concessions granted to public service providers, including Telecom. Due to extensive changes in laws and economic and business conditions in Argentina, it is difficult to predict the impact of these changes on the Company's financial condition. Other factors may include, but are not limited to, the evolution of the economy in Argentina, growing inflationary pressure and evolution in consumer spending and the outcome of certain legal proceedings. Readers are cautioned not to place undue reliance on forward-looking statements, which speak only as of the date of this document. The Company undertakes no obligation to release publicly the results of any revisions to forward-looking statements which may be made to reflect events and circumstances after the date of this press release, including, without limitation, changes in the Company's business or to reflect the occurrence of unanticipated events. Readers are encouraged to consult the Company's Annual Report on Form 20-F, as well as periodic filings made on Form 6-K, which are filed with or furnished to the United States Securities and Exchange Commission for further information concerning risks and uncertainties faced by Telecom.
