ITEM 7.01. Regulation FD Disclosure.

In connection with certain securities offerings that StoneMor Partners L.P. (the Partnership) announced on November 10, 2009, the Partnership is providing the following information. The information contained in this Current Report on Form 8-K is neither an offer to sell nor a solicitation of an offer to buy any securities.

Adjusted EBITDA

The following table sets forth Adjusted EBITDA for the Partnership for the periods indicated:

	Year Ended December 31,			Nine Months Ended		Twelve
	2006	2007	2008	September 30, 2008	September 30, 2009	Months Ended September 30, 2009
	<i>(dollars in thousands)</i>					
Adjusted EBITDA	\$ 29,948	\$ 40,864	\$ 47,351	\$ 36,849	\$ 39,801	\$ 50,303

Management and external users of the Partnership's financial information, such as its investors, use Adjusted EBITDA as an important financial measure to assess its performance and liquidity, including the ability of its assets to generate cash sufficient to pay interest on its indebtedness, meet capital expenditure and working capital requirements and otherwise meet its obligations as they become due.

Adjusted EBITDA represents net income before interest, taxes, depreciation and amortization and before the following items:

Amortization of cemetery property, an expense item resulting from sales of burial lots, lawn crypts and mausoleum crypts, which is based on the historical allocation of original cemetery acquisition and construction costs to individual burial lots and crypts. Management considers this expense to represent the depletion of the Partnership's interment spaces that are available for sale;

Non-cash unit-based compensation, an expense representing the fair value of share based payment awards made to employees. The Partnership issued certain key employees and management unit-based compensation in the form of unit appreciation rights and phantom units;

Increase in deferred revenues, which represents the increase in revenue on merchandise and services sold and investment income earned in trust for which the Partnership has not yet delivered the underlying merchandise or performed the underlying service as accounting principles generally accepted in the United States (GAAP) requires before revenue may be recognized; and

Increase in deferred costs and expenses, which represents the increase in associated costs of merchandise and services sold for which the Partnership has not yet delivered the underlying merchandise or performed the underlying service as GAAP requires before the associated costs and expenses may be recognized.

Because Adjusted EBITDA includes increases in revenues and costs and expenses that otherwise would be deferred under GAAP, it is able to reflect such revenues from contracts written and their related costs and expenses generated in a particular period.

Adjusted EBITDA, as presented above, is a supplemental measure of the Partnership's performance and liquidity that is not required by, or presented in accordance with, GAAP. It is not a measure of the Partnership's financial performance or liquidity under GAAP and should not be considered as an alternative to net income or any other performance measure or to net cash provided by operating activities or any other liquidity measure, in each case as derived in accordance with GAAP.

There are material limitations to using measures such as Adjusted EBITDA, including the difficulty associated with using any such measure as a sole measure to compare the results of one company to another and the
