**Item 2.06. Material Impairments.**

On November 23, 2009, The Mosaic Company (the Company) determined that it would not reopen, and approved the permanent closure of, its Green Bay, Florida concentrated phosphates plant and South Pierce, Florida, phosphoric acid plant, both of which had been indefinitely closed as part of a restructuring of the Company's Phosphates segment at the end of May 2006. In addition, the Company determined that it would no longer use certain idled machinery and equipment. The Company currently estimates that it will incur non-cash charges in the fiscal 2010 second quarter ending November 30, 2009 associated with the permanent closures of the two plants and the idled machinery and equipment in an aggregate amount of approximately \$50 million pretax.
