#### Note 1 - Summary of Significant Accounting Policies

#### **Basis of Presentation**

The accompanying unaudited condensed consolidated financial statements of Schnitzer Steel Industries, Inc. (the Company) have been prepared pursuant to generally accepted accounting principles in the United States of America (U.S. GAAP) for interim financial information and the rules and regulations of the United States Securities and Exchange Commission (SEC) for Form 10-Q, including Article 10 of Regulation S-X. The year-end condensed consolidated balance sheet was derived from audited financial statements, but does not include all disclosures required by U.S. GAAP for annual financial statements. Certain information and note disclosures normally included in annual financial statements have been condensed or omitted pursuant to those rules and regulations. In the opinion of management, all normal, recurring adjustments considered necessary for a fair presentation have been included. Although management believes the disclosures made are adequate to ensure the information presented is not misleading, management suggests that these unaudited condensed consolidated financial statements be read in conjunction with the financial statements and notes thereto included in the Company s Annual Report on Form 10-K for the fiscal year ended August 31, 2009. The results for the three months ended November 30, 2009 and 2008 are not necessarily indicative of the results of operations for the entire year. The Company has evaluated subsequent events through January 7, 2010. There were no subsequent events requiring disclosure.

### Cash and Cash Equivalents

Cash and cash equivalents include short-term securities that are not restricted by third parties and have an original maturity date of 90 days or less. Included in accounts payable are book overdrafts of \$15 million and \$23 million as of November 30, 2009 and August 31, 2009, respectively.

#### Accounts Receivable, net

Accounts receivable represent amounts due from customers on product and other sales. The allowance for doubtful accounts was \$6 million at November 30, 2009 and \$8 million at August 31, 2009.

#### Goodwill and Other Intangible Assets, net

On October 2, 2009, the Company entered into a definitive agreement to sell the Company s full-service used auto parts operation, which had been operated as part of the Auto Parts Business (APB) reporting unit. The Company identified this divestiture as a triggering event, which resulted in testing goodwill for impairment. Based on the Company s valuation analysis performed in relation to the divestiture of the full-service operations, the Company determined that the goodwill related to the APB reporting unit was not impaired. The Company will continue to monitor its goodwill and indefinite-lived intangible and long-lived assets for possible future impairment. Refer to Note 6 Goodwill and Intangibles, net for further detail.

On September 1, 2009, the Company adopted the accounting standard for non-recurring, non-financial assets and liabilities that are recognized or disclosed at fair value in the financial statements on a non-recurring basis. Non-recurring, non-financial asset fair value measurements include those used in the Company s test of recoverability of goodwill and indefinite-lived intangible assets, in which the Company determines whether fair values of its applicable reporting units exceed their carrying values. This standard will also impact the accounting for business combinations by using an exit price model when determining the fair values of acquired assets and assumed liabilities.

### Accrued Workers Compensation Costs

The Company is self-insured up to a maximum amount for workers compensation claims and as such, a reserve for the costs of unpaid claims and the estimated costs of incurred but not reported claims has been estimated as of the balance sheet date. The Company s exposure to claims is protected by various stop-loss insurance policies. The estimate of this reserve is based on historical claims experience. At November 30, 2009 and August 31, 2009, the Company accrued \$6 million for the estimated cost of workers compensation claims.

### Net Income (Loss) and Dividends per Share

Effective September 1, 2009, the Company adopted the accounting standard for noncontrolling interests in consolidated financial statements. Certain provisions of this accounting standard are required to be adopted retrospectively for all periods presented and include a requirement that the carrying value of noncontrolling interests (previously referred to as minority interests) be removed from the mezzanine section of the balance sheet and reclassified as equity. Further, as a result of adopting this accounting standard, net (income) loss attributable to noncontrolling interests is now deducted from the income (loss) from continuing operations to arrive at the net income (loss) from continuing operations attributable to SSI for purposes of calculating earnings per share ( EPS ).

Basic net income (loss) per share attributable to SSI is based on the weighted average number of outstanding common shares during the periods presented, including vested deferred stock units (DSUs) and restricted stock units (RSUs). Diluted net income per share attributable to SSI is based on the weighted average number of common shares outstanding, assuming dilution. Potentially dilutive common shares include the assumed exercise of stock options and assumed vesting of performance share, DSU and RSU awards using the treasury stock method. For the three months ended November 30, 2009 and 2008, 179,578 and 1,340,913 common stock equivalent shares, respectively, were considered anti-dilutive and were excluded from the calculation of diluted earnings per share.

#### Recent Accounting Pronouncements

In December 2008, a new accounting standard was issued regarding an employer s disclosures about the plan assets of a defined benefit pension or postretirement plan and will require additional disclosure regarding investment policies and strategies, fair value of each major asset category based on risks of the assets, inputs and valuations techniques used to estimate fair value, fair value measurement hierarchy levels under pension accounting for each asset category and significant concentration of risk information. This standard will be effective for the Company for the fiscal year ending August 31, 2010.

#### Reclassifications and Revisions

Certain prior year amounts have been reclassified within cash flows from operating activities to conform to the current year presentation. These changes had no impact on previously reported operating income, net income (loss) or net cash provided by operating activities.

In addition, the Company identified and corrected a classification error in the consolidated statement of cash flows for the discrete quarter ended November 30, 2008 which increased net cash provided by operating activities by \$9 million to \$79 million and increased net cash used in investing activities by \$9 million to \$28 million. The Company deemed this error to be immaterial.

#### Note 2 - Inventories, net

The Company s inventories primarily consist of ferrous and nonferrous processed and unprocessed scrap metal, used and salvaged vehicles and finished steel products, consisting primarily of rebar, merchant bar and wire rod. Inventories are stated at the lower of cost or market for all periods presented.

Inventories, net consisted of the following (in thousands):

The Company makes certain assumptions regarding future demand and net realizable value in order to assess that inventory is properly recorded at the lower of cost or market. The assumptions are based on both historical experience and current information.

Due to reduced production levels during the first three months of fiscal 2009, the Company recognized \$10 million of expense for abnormal production costs that could not be capitalized into inventory.

#### **Note 4 - Business Combinations**

On September 1, 2009, the Company adopted the revised accounting standard for business combinations. This standard requires the Company to recognize the assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree at the acquisition date, measured at their fair values as of that date, and requires acquisition costs to be expensed as incurred. The Company expensed \$1 million in acquisition costs to selling, general and administrative expenses in the first quarter of fiscal 2010.

In October 2009, the Company completed the acquisition of four self-service used auto parts facilities located near the Company s MRB export facility in Portland, Oregon for \$18 million. This acquisition represents the Company s first used auto parts operations in the Pacific Northwest. The acquired facilities will operate under the Company s Pick-N-Pull brand. This acquisition was not material to the Company s financial position or results of operations, and thus proforma information is not presented.

#### **Note 5 - Discontinued Operations**

In October 2009, the Company sold its full-service used auto parts operation, which had been operated as part of the APB reporting unit. The Company concluded that the divestiture met the definition of a discontinued operation. Accordingly, the results of this discontinued operation have been reclassified for all periods presented. The sale resulted in a loss of \$15 million, net of tax. The loss included the write-off of \$12 million of goodwill that was allocated to the full-service operation from the APB reporting segment. Operating results of the discontinued operations are summarized below. The amounts exclude general corporate overhead previously allocated to the full-service used auto parts operation.

#### Note 6 - Goodwill and Intangibles, net

The Company identified the divestiture of its full service used auto parts operation as a triggering event that required testing the goodwill in the APB reporting segment for impairment. Based on the Company s valuation analysis performed in relation to the divestiture the Company determined that the goodwill was not impaired as of the divestiture date. The Company will continue to monitor its goodwill and indefinite-lived intangible and long-lived assets for possible future impairment.
