PROSPECTUS SUPPLEMENT

(To Prospectus dated September 3, 2009)

Issued September 22, 2011

SunTrust Banks, Inc.

11,891,280 Warrants

Each Warrant is to Purchase One Share of Common Stock

The United States Department of the Treasury (referred to in this prospectus supplement as the *selling security holder* or *Treasury*) is offering to sell 11,891,280 warrants, each of which represents the right to purchase one share of our common stock, par value \$1.00 per share, at an initial exercise price of \$44.15 per share. Both the exercise price and the number of shares that will be acquired upon the exercise of a warrant are subject to adjustment from time to time as described in this prospectus supplement. We will not receive any of the proceeds from the sale of the warrants offered by the selling security holder. The warrants expire on November 14, 2018.

We originally issued the warrants to Treasury in a private placement under the Capital Purchase Program established by the Treasury as part of its Troubled Asset Relief Program (*TARP*) as authorized by the Emergency Economic Stabilization Act of 2008 (the *EESA*). Prior to this offering, there has been no public market for the warrants. The warrants have been approved for listing, subject to notice of issuance, on the New York Stock Exchange (the *NYSE*) under the symbol *STI WS B*. Our common stock is listed on the NYSE under the symbol *STI*. On September 22, 2011, the last reported sale price of our common stock on the NYSE was \$16.94 per share.

The public offering price and the allocation of the warrants in this offering will be determined by an auction process. During the auction period, potential bidders will be able to place bids at any price (in increments of \$0.05) at or above the minimum bid price of \$1.05 per warrant. The minimum size for any bid is 100 warrants. If the selling security holder decides to sell the warrants being offered, the public offering price of the warrants will equal the clearing price set in the auction. If bids are received for 100% or more of the offered warrants, the clearing price will be equal to the highest price at which all offered warrants can be sold in the auction. If bids are received for 100% or more of the offered warrants, and the selling security holder elects to sell warrants in the auction, the selling security holder must sell all of the warrants offered during the auction process at the clearing price. If bids are received for half or more, but less than all, of the offered warrants, then the clearing price will be equal to the minimum bid price of \$1.05 per warrant, and the selling security holder may (but is not required to) sell, at the clearing price, as many warrants as it chooses to sell up to the number of bids received in the auction, so long as at least half of the offered warrants are sold and the warrants remain eligible for listing. In certain cases described in this prospectus supplement, bidders may experience pro-ration of their bids. If bids are received for less than half of the offered warrants, the selling security holder will not sell any warrants in this offering. **Even if bids are received for all of the warrants, the selling security holder may decide not to sell any warrants, regardless of the clearing price set in the auction process.** The method for submitting bids and a more detailed description of this auction process are described in *Auction Process* beginning on page S-17 of this prospectus supplement.

You must meet minimum suitability standards in order to purchase the warrants. You must be able to understand and bear the risk of an investment in the warrants and should be experienced with respect to options and option transactions. You should reach an investment decision only after careful consideration, with your advisers, of the suitability of the warrants in light of your particular financial circumstances and the information in this prospectus supplement and the

Edgar Filing: SUNTRUST BANKS INC - Form 424B5

accompanying prospectus. The warrants involve a high degree of risk, are not appropriate for every investor and may expire worthless.

Investing in the warrants and the common stock involves a number of risks. See the Risk Factors section on page S-6, along with the other information in this prospectus supplement and the accompanying prospectus before you make your investment decision.

The warrants and the underlying common stock are neither deposits nor savings accounts and are not guaranteed by the United States Department of the Treasury or insured by the Federal Deposit Insurance Corporation or any other governmental agency or instrumentality.

Neither of the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus supplement or the accompanying prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

	Per warrant	Total
Public offering price	\$ 1.2000	\$ 14,269,536.00
Underwriting discounts and commissions	\$ 0.0168	\$ 199,773.50
Proceeds, before expenses, to the selling security holder	\$ 1.1832	\$ 14,069,762.50

The underwriters expect to deliver the warrants in book-entry form only, through the facilities of The Depository Trust Company, against payment on or about September 28, 2011.

ABOUT THIS PROSPECTUS SUPPLEMENT

This document consists of two parts. The first part is this prospectus supplement, which describes the specific terms of this offering. The second part is the prospectus, which describes more general information, some of which may not apply to this offering. You should read both this prospectus supplement and the accompanying prospectus, together with additional information described below under the heading *Where You Can Find More Information*.

Unless otherwise mentioned or unless the context requires otherwise, all references in this prospectus supplement to *SunTrust*, *we*, *us*, *our* or similar references mean SunTrust Banks, Inc. and its subsidiaries.

If the information set forth in this prospectus supplement differs in any way from the information set forth in the accompanying prospectus, you should rely on the information set forth in this prospectus supplement.

You should rely only on the information contained in or incorporated by reference in this prospectus supplement and the accompanying prospectus. This prospectus supplement may be used only for the purpose for which it has been prepared. No one is authorized to give information other than that contained in this prospectus supplement and in the documents referred to in this prospectus supplement and which are made available to the public. We have not, and the underwriters have not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it.

We are not, and the selling security holder and the underwriters are not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted. You should not assume that the information appearing in this prospectus supplement or any document incorporated by reference is accurate as of any date other than the date of the applicable document. Our business, financial condition, results of operations and prospects may have changed since that date. Neither this prospectus supplement nor the accompanying prospectus constitutes an offer, or an invitation on our behalf or on behalf of the underwriters or the selling security holder, to subscribe for and purchase, any of the securities and may not be used for or in connection with an offer or solicitation by anyone, in any jurisdiction in which such an offer or solicitation is not authorized or to any person to whom it is unlawful to make such an offer or solicitation.

Table of Contents

WHERE YOU CAN FIND MORE INFORMATION

We file annual, quarterly and current reports, proxy statements and other information with the Securities and Exchange Commission, or the SEC. Our SEC filings are available to the public from the SEC's web site at <http://www.sec.gov>. To receive copies of public records not posted to the SEC's web site at prescribed rates, you may complete an online form at <http://www.sec.gov>, send a fax to (202) 772-9337 or submit a written request to the SEC, Office of FOIA/PA Operations, 100 F Street, N.E., Washington, D.C. 20549. Please call the SEC at 1-800-SEC-0330 for further information. Our SEC filings are also available at the offices of the NYSE. For further information on obtaining copies of our public filings at the NYSE, you should call 212-656-3000.

The SEC allows us to incorporate by reference the information we file with them, which means that we can disclose important information to you by referring you to those documents. The information incorporated by reference is considered to be a part of this prospectus supplement, and later information that we file with the SEC will automatically update and supersede this information. We incorporate by reference the following documents listed below and any future filings made with the SEC under Section 13(a), 13(c), 14 or 15(d) of the Securities Exchange Act of 1934, as amended, or the *Exchange Act* (other than, in each case, information that is deemed not to have been filed in accordance with SEC rules), prior to the termination of the offering:

Annual Report on Form 10-K for the year ended December 31, 2010;

Quarterly Reports on Form 10-Q for the quarters ended March 31, 2011 and June 30, 2011;

Current Reports on Form 8-K dated December 31, 2010, February 7, 2011, March 9, 2011 (Item 8.01 only), March 18, 2011, March 21, 2011 (Item 8.01 and related Exhibits 4.1, 5.1, 23.1 and 99.2 only), April 1, 2011 (Form 8-K/A filed on April 27, 2011), April 21, 2011 (Item 5.02 and related Exhibit 99.3 only), April 25, 2011, April 26, 2011 (Form 8-K/A filed on June 20, 2011), June 1, 2011, August 8, 2011, August 9, 2011 and September 22, 2011; and

the description of SunTrust's common stock, \$1.00 par value per share, contained in our Registration Statement on Form 8-A, under Section 12(b) of the Exchange Act, filed March 5, 2003, including any amendment or report filed for the purpose of updating such description.

You may request a copy of these filings (other than an exhibit to a filing unless that exhibit is specifically incorporated by reference into that filing), at no cost, by writing or calling us at the following address:

SunTrust Banks, Inc.

303 Peachtree Street, NE

Atlanta, Georgia 30308

Telephone: 404-588-7711

Attn: Corporate Secretary

We have also filed a registration statement (No. 333-161712) with the SEC relating to the securities offered by this prospectus supplement and the accompanying prospectus. This prospectus supplement is part of the registration statement. You may obtain from the SEC a copy of the registration statement and exhibits that we filed with the SEC when we registered the securities. The registration statement may contain additional information that may be important to you.

Table of Contents

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

The information included or incorporated by reference in this prospectus supplement may contain forward-looking statements, including statements about credit quality and the future prospects of SunTrust. Statements that do not describe historical or current facts, including statements about beliefs and expectations, are forward-looking statements. These statements often include the words *believes*, *expects*, *anticipates*, *estimates*, *intends*, *plans*, *targets*, *potentially*, *probably*, *projects*, *outlook* or similar expressions or future conditions. *may*, *will*, *should*, *would* and *could*.

Such statements are based upon the current beliefs and expectations of SunTrust's management and on information currently available to management. The forward-looking statements are intended to be subject to the safe harbor provided by Section 27A of the Securities Act of 1933, as amended, or the *Securities Act*, and Section 21E of the Exchange Act. Such statements speak as of the date hereof, and SunTrust does not assume any obligation to update the statements included or incorporated by reference herein or to update the reasons why actual results could differ from those contained in such statements in light of new information or future events.

Forward-looking statements are subject to significant risks and uncertainties. Investors are cautioned against placing undue reliance on such statements. Actual results may differ materially from those set forth in the forward-looking statements. Factors that could cause actual results to differ materially from those described in the forward-looking statements can be found beginning on page 8 of SunTrust's Annual Report on Form 10-K for the year ended December 31, 2010 (as updated on page 92 of SunTrust's Quarterly Report on Form 10-Q for the quarter ended March 31, 2011 and on page 110 of SunTrust's Quarterly Report on Form 10-Q for the quarter ended June 30, 2011) and elsewhere in SunTrust's periodic reports and Current Reports filed on Form 8-K with the SEC and available at the SEC's internet site (<http://www.sec.gov>). Those factors include:

difficult market conditions have adversely affected our industry;

concerns over market volatility continue;

the Dodd-Frank Act makes fundamental changes in the regulation of the financial services industry, some of which may adversely affect our business;

we are subject to capital adequacy and liquidity guidelines and, if we fail to meet these guidelines, our financial condition would be adversely affected;

emergency measures designed to stabilize the U.S. banking system are beginning to wind down;

we are subject to credit risk;

our allowance for loan and lease losses may not be adequate to cover our eventual losses;

we will realize future losses if the proceeds we receive upon liquidation of nonperforming assets are less than the carrying value of such assets;

weakness in the economy and in the real estate market, including specific weakness within our geographic footprint, has adversely affected us and may continue to adversely affect us;

weakness in the real estate market, including the secondary residential mortgage loan markets, has adversely affected us and may continue to adversely affect us;

we are subject to certain risks related to originating and selling mortgages;

we may be required to repurchase mortgage loans or indemnify mortgage loan purchasers as a result of breaches of representations and warranties, borrower fraud, or certain borrower defaults, which could harm our liquidity, results of operations, and financial condition;

Table of Contents

we are subject to risks related to delays in the foreclosure process;

we may continue to suffer increased losses in our loan portfolio despite enhancement of our underwriting policies;

as a financial services company, adverse changes in general business or economic conditions could have a material adverse effect on our financial condition and results of operations;

changes in market interest rates or capital markets could adversely affect our revenue and expense, the value of assets and obligations, and the availability and cost of capital or liquidity;

the fiscal and monetary policies of the federal government and its agencies could have a material adverse effect on our earnings;

depressed market values for our stock may require us to write down goodwill;

clients could pursue alternatives to bank deposits, causing us to lose a relatively inexpensive source of funding;

consumers may decide not to use banks to complete their financial transactions, which could affect net income;

we have businesses other than banking which subject us to a variety of risks;

hurricanes and other natural or man-made disasters may adversely affect loan portfolios and operations and increase the cost of doing business;

negative public opinion could damage our reputation and adversely impact business and revenues;

the soundness of other financial institutions could adversely affect us;

we rely on other companies to provide key components of our business infrastructure;

we rely on our systems, employees, and certain counterparties, and certain failures could materially adversely affect our operations;

we depend on the accuracy and completeness of information about clients and counterparties;

regulation by federal and state agencies could adversely affect the business, revenue, and profit margins;

Edgar Filing: SUNTRUST BANKS INC - Form 424B5

competition in the financial services industry is intense and could result in losing business or margin declines;

future legislation could harm our competitive position;

maintaining or increasing market share depends on market acceptance and regulatory approval of new products and services;

we may not pay dividends on our common stock;

disruptions in our ability to access global capital markets may negatively affect our capital resources and liquidity;

any reduction in our credit rating could increase the cost of our funding from the capital markets;

we have in the past and may in the future pursue acquisitions, which could affect costs and from which we may not be able to realize anticipated benefits;

v

Table of Contents

we are subject to certain litigation, and our expenses related to this litigation may adversely affect our results;

we depend on the expertise of key personnel, and if these individuals leave or change their roles without effective replacements, our operations may suffer;

we may not be able to hire or retain additional qualified personnel and recruiting and compensation costs may increase as a result of turnover, both of which may increase costs and reduce profitability and may adversely impact our ability to implement our business strategies;

our accounting policies and processes are critical to how we report our financial condition and results of operations, and require management to make estimates about matters that are uncertain;

changes in our accounting policies or in accounting standards could materially affect how we report our financial results and condition;

our stock price can be volatile;

our disclosure controls and procedures may not prevent or detect all errors or acts of fraud;

our financial instruments carried at fair value expose us to certain market risks;

our revenues derived from our investment securities may be volatile and subject to a variety of risks; and

we may enter into transactions with off-balance sheet affiliates or our subsidiaries.

Table of Contents

SUMMARY

The following information should be read together with the information contained in or incorporated by reference in other parts of this prospectus supplement and in the accompanying prospectus. It may not contain all the information that is important to you. You should carefully read this entire prospectus supplement and the accompanying prospectus, as well as the information to which we refer you and the information incorporated by reference herein, before making a decision about whether to invest in the warrants or the common stock. To the extent the following information is inconsistent with the information in the accompanying prospectus, you should rely on the following information. If any statement in this prospectus supplement conflicts with any statement in a document which we have incorporated by reference, then you should consider only the statement in the more recent document. You should pay special attention to the Risk Factors section of this prospectus supplement to determine whether an investment in the warrants or the common stock is appropriate for you.

The Issuer

SunTrust Banks, Inc., with total assets of \$172.2 billion as of June 30, 2011, is one of the nation's largest financial services holding companies.

Through our flagship subsidiary, SunTrust Bank, we provide deposit, credit and trust and investment services. Additional subsidiaries provide mortgage banking, insurance, asset management, equipment leasing, brokerage and capital market services. SunTrust's client base encompasses a broad range of individuals and families, high net worth clients, businesses and institutions.

SunTrust enjoys strong market positions in some of the highest growth markets in the United States and also serves clients in selected markets nationally. Our priorities include consistency in financial performance, quality in customer service and a strong commitment to all segments of the communities we serve.

As of June 30, 2011, SunTrust had 1,661 retail and specialized service branches and 2,919 ATMs, which are located primarily in Florida, Georgia, Maryland, North Carolina, South Carolina, Tennessee, Virginia and the District of Columbia. In addition, SunTrust provides clients with a selection of technology based banking channels including Internet, PC and Telephone Banking. Our internet address is www.suntrust.com. Information presented on or accessed through our web site is not incorporated into, or made a part of, this prospectus supplement.

As of June 30, 2011, SunTrust had total assets under advisement of \$201.0 billion. This includes \$165.2 billion in trust assets as well as \$35.8 billion in retail brokerage assets. SunTrust's mortgage servicing portfolio was \$162.9 billion as of June 30, 2011.

Our principal executive offices are located at SunTrust Banks, Inc., 303 Peachtree Street, NE, Atlanta, Georgia 30308. Our telephone number is 404-588-7711.

Table of Contents**Summary of the Offering**

*The following summary contains basic information about the warrants, the common stock, and the auction process and is not intended to be complete. It does not contain all the information that is important to you. For a more complete understanding of the warrants and the common stock, you should read the sections of this prospectus supplement entitled *Description of Warrants* and *Description of Capital Stock*.*

Issuer	SunTrust Banks, Inc.
Warrants offered by the selling security holder	11,891,280
Common stock outstanding after this offering	536,906,686 shares ⁽¹⁾⁽²⁾
Auction process	The selling security holder and the underwriters will determine the public offering price and the allocation of the warrants in this offering through an auction process conducted by Deutsche Bank Securities Inc., the sole book-running manager, in its capacity as the auction agent. The auction process will entail a modified Dutch auction mechanic in which bids may be submitted through the auction agent or one of the other brokers that is a member of the broker network, which are collectively referred to in this prospectus supplement as the network brokers, established in connection with the auction process. Each broker will make suitability determinations with respect to its own customers wishing to participate in the auction process. The auction agent will not provide bidders with any information about the bids of other bidders or auction trends, or with advice regarding bidding strategies, in connection with the auction process. We encourage you to discuss any questions regarding the bidding process and suitability determinations applicable to your bids with your broker. We do not intend to submit any bids in the auction. For more information about the auction process, see <i>Auction Process</i> in this prospectus supplement.
Minimum bid price and price increments	The offering is being made using an auction process in which prospective purchasers are required to bid for the warrants. During the auction period, bids may be placed by qualifying bidders at any price (in increments of \$0.05) at or above the minimum bid price of \$1.05 per warrant. See <i>Auction Process</i> in this prospectus supplement.
Minimum bid size	100 warrants
Bid submission deadline	The auction will commence at 8:00 a.m., New York City time, on the date specified by the auction agent in a press release

Table of Contents

issued prior to the opening of the equity markets on such day, and will close at 6:30 p.m., New York City time, on that same day, which is referred to as the submission deadline.

Irrevocability of bids

Bids that have not been modified or withdrawn by the time of the submission deadline are final and irrevocable, and bidders who submit successful bids will be obligated to purchase the warrants allocated to them. The auction agent is under no obligation to reconfirm bids for any reason; however, the auction agent may require that bidders confirm their bids at its discretion before the auction process closes. See Auction Process in this prospectus supplement.

Clearing price

The price at which the warrants will be sold to the public will be the clearing price set by the auction process. The clearing price will be determined based on the valid, irrevocable bids at the time of the final submission deadline as follows:

if valid, irrevocable bids are received for 100% or more of the number of warrants being offered, the clearing price will be equal to the highest price in the auction at which the quantity of all bids at or above such price equals 100% or more of the number of warrants being offered in the auction.

If bids are received for half or more, but less than all, of the offered warrants, the clearing price will be equal to the minimum bid price of \$1.05 per warrant.

Unless the selling security holder decides not to sell any warrants or as otherwise described below, the warrants will be sold to bidders at the clearing price. Even if bids are received for 100% or more of the warrants being offered, the selling security holder may decide not to sell any warrants in the auction process, regardless of the clearing price. If the selling security holder decides to sell warrants in the auction, after the selling security holder confirms its acceptance of the clearing price (and, in the case where bids are received for fewer than 100% of the warrants being offered, the number of warrants to be sold), the auction agent and each network broker that has submitted bids will notify successful bidders that the auction has closed and that their bids have been accepted (subject in some cases to pro-ration, as described below). The clearing price and number of warrants being sold are also expected to be announced by press release prior to the opening of the equity markets on the business day following the end of the auction. See Auction Process in this prospectus supplement.

Number of warrants to be sold

If bids are received for half or more, but less than all, of the offered warrants, then the selling security holder may, but is not required to, sell at the minimum bid price in the auction (which will be deemed to be the clearing price) as many warrants as it

Table of Contents

chooses to sell up to the number of bids received in the auction, so long as at least half of the offered warrants are sold and the warrants remain eligible for listing. If bids are received for less than half of the offered warrants, the selling security holder will not sell any warrants in this offering. Even if bids are received for all of the warrants, the selling security holder may decide not to sell any warrants in the auction process, regardless of the clearing price. If bids are received for all of the offered warrants and the selling security holder elects to sell warrants in the auction, the selling security holder must sell all of the offered warrants. See [Auction Process](#) in this prospectus supplement.

Allocation; pro-ration

If bids for all the warrants offered in this offering are received, and the selling security holder elects to sell warrants in the offering, then any bids submitted in the auction above the clearing price will receive allocations in full, while any bids submitted at the clearing price may experience pro-rata allocation. If bids for half or more, but less than all, of the warrants offered in this offering are received, and the selling security holder chooses to sell fewer warrants than the number of warrants for which bids were received, then all bids will experience equal pro-rata allocation. See [Auction Process](#) in this prospectus supplement.

Our participation in the auction

We are permitted to participate in the auction by submitting bids for the warrants. Although we are under no obligation to participate in the auction, if we elect to participate we will not receive preferential treatment of any kind and would participate on the same basis as all other bidders, except that we are required to submit any final bid we may enter by 6:00 p.m., New York City time, on the day on which the auction process is conducted. You will not be notified by either the auction agent, the network brokers or the selling security holder whether we have bid in the auction process or, should we elect to participate in the auction process, the terms of any bid or bids we may place.

Use of proceeds

We will not receive any proceeds from the sale of any of the securities offered by the selling security holder. See [Use of Proceeds](#).

Risk factors

See [Risk Factors](#) and other information included or incorporated by reference in this prospectus supplement and the accompanying prospectus for a discussion of the factors you should consider carefully before deciding to invest in the warrants.

Listing

The warrants have been approved for listing, subject to notice of issuance, on the NYSE under the symbol [STI WS B](#). Our common stock is listed on the NYSE under the symbol [STI](#).

Table of Contents

Warrant agent	Computershare Trust Company
Auction agent	Deutsche Bank Securities Inc.
Network brokers	See page S-19 for a list of brokers participating as network brokers in the auction process.
Concurrent warrant auction	Concurrently with this offering of warrants, the selling security holder is offering up to 6,008,902 warrants, each to purchase one share of our common stock, in a separate modified Dutch auction. These additional warrants have an exercise price of \$33.70, expire on December 31, 2018 and will be immediately exercisable. The public offering price of the warrants in the concurrent offering is \$2.70 per warrant. A prospectus supplement relating to those additional warrants has been filed with the SEC.

This offering of warrants is separate from the selling security holder's concurrent offering of the additional warrants. If you wish to bid on the additional warrants being sold in the concurrent offering, you must submit those bids separately in the auction for those warrants, and any bid you submit for the warrants offered by this prospectus supplement will not be a bid for the additional warrants in the concurrent auction.

- (1) The number of shares of common stock outstanding immediately after the closing of this offering is based on 536,906,686 shares of common stock outstanding as of June 30, 2011.
- (2) Unless otherwise indicated, the number of shares of common stock presented in this prospectus supplement excludes 5,850,535 shares of common stock issuable under our stock compensation plans, shares issuable upon exercise of the warrants being offered by this prospectus supplement and shares issuable upon exercise of the additional warrants being sold by Treasury in a separate concurrent auction.

Table of Contents

RISK FACTORS

An investment in our securities involves certain risks. You should carefully consider the risks described below, the risk factors included in our Annual Report on Form 10-K for the year ended December 31, 2010 and our Quarterly Reports on Form 10-Q for the quarters ended March 31, 2011 and June 30, 2011, as well as the other information included or incorporated by reference in this prospectus supplement and the accompanying prospectus, before making an investment decision. Our business, financial condition or results of operations could be materially adversely affected by any of these risks. The trading price of the warrants or our common stock could decline due to any of these risks, and you may lose all or part of your investment. This prospectus supplement also contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the risks related to our common stock and faced by us described below and elsewhere in this prospectus supplement and the accompanying prospectus.

Risks Related to the Auction Process

The Price of the Warrants Could Decline Rapidly and Significantly Following this Offering.

The public offering price of the warrants, which will be the clearing price, will be determined through an auction process conducted by the selling security holder and the auction agent. Although we have applied to list the warrants on the NYSE, prior to this offering there has been no public market for the warrants, and the public offering price may bear no relation to market demand for the warrants once trading begins. We have been informed by both Treasury and Deutsche Bank Securities Inc. (Deutsche Bank Securities), as the auction agent, that they believe that the bidding process will reveal a clearing price for the warrants offered in the auction process, which will either be the highest price at which all of the warrants offered may be sold to bidders, if bids are received for 100% or more of the offered warrants, or the minimum bid price of \$1.05, if bids are received for half or more, but less than all, of the offered warrants. If there is little or no demand for the warrants at or above the public offering price once trading begins, the price of the warrants would likely decline following this offering. Limited or less-than-expected liquidity in the warrants, including decreased liquidity due to a sale of less than all of the warrants being offered, could also cause the trading price of the warrants to decline. In addition, the auction process may lead to more volatility in, or a decline in, the trading price of the warrants after the initial sales of the warrants in this offering. If your objective is to make short-term profit by selling the warrants you purchase in the offering shortly after trading begins, you should not submit a bid in the auction.

The Minimum Bid Price that the Auction Agent Has Set for the Warrants in this Offering May Bear No Relation to the Price of the Warrants after the Offering.

Prior to this offering, there has been no public market for the warrants. The minimum bid price set forth in this prospectus supplement was agreed by Deutsche Bank Securities, the sole book running manager of this offering, and Treasury. We did not participate in the determination of the minimum bid price and therefore cannot provide any information regarding the factors that Treasury and Deutsche Bank Securities considered in such determination. An analysis of the value of complex securities such as the warrants is necessarily uncertain as it may depend on several key variables, including for example the volatility of the trading prices of the underlying security. The difficulty associated with determining the value of the warrants is further increased by the substantial time period during which the warrants can be exercised. We cannot assure you that the price at which the warrants will trade after completion of this offering will exceed this minimum bid price, or that Treasury will choose to or will succeed in selling, any or all of the warrants at a price equal to or in excess of the minimum bid price.

Table of Contents

The Auction Process for this Offering May Result in a Phenomenon Known as the Winner's Curse, and, as a Result, Investors May Experience Significant Losses.

The auction process for this offering may result in a phenomenon known as the winner's curse. At the conclusion of the auction process, successful bidders that receive allocations of warrants in this offering may infer that there is little incremental demand for the warrants above or equal to the public offering price. As a result, successful bidders may conclude that they paid too much for the warrants and could seek to immediately sell their warrants to limit their losses should the price of the warrants decline in trading after the auction process is completed. In this situation, other investors that did not submit successful bids may wait for this selling to be completed, resulting in reduced demand for the warrants in the public market and a significant decline in the price of the warrants. Therefore, we caution investors that submitting successful bids and receiving allocations may be followed by a significant decline in the value of their investment in the warrants shortly after this offering.

The Auction Process for this Offering May Result in a Situation in which Less Price Sensitive Investors Play a Larger Role in the Determination of the Public Offering Price and Constitute a Larger Portion of the Investors in this Offering, and, as a Result, the Public Offering Price May Not Be Sustainable Once Trading of Warrants Begins.

In a typical public offering of securities, a majority of the securities sold to the public are purchased by professional investors that have significant experience in determining valuations for companies in connection with such offerings. These professional investors typically have access to, or conduct their own, independent research and analysis regarding investments in such offerings. Other investors typically have less access to this level of research and analysis, and as a result, may be less sensitive to price when participating in the auction. Because of the auction process used in this auction, these less price sensitive investors may have a greater influence in setting the public offering price (because a larger number of higher bids may cause the clearing price in the auction to be higher than it would otherwise have been absent such bids) and may have a higher level of participation in this offering than is normal for other public offerings. This, in turn, could cause the auction process to result in a public offering price that is higher than the price professional investors are willing to pay for the warrants. As a result, the price of the warrants may decrease once trading of the warrants begins. Also, because professional investors may have a substantial degree of influence on the trading price of the warrants over time, the price of the warrants may decline and not recover after this offering. Furthermore, if the public offering price of the warrants is above the level that investors determine is reasonable for the warrants, some investors may attempt to short sell the warrants after trading begins, which would create additional downward pressure on the trading price of the warrants.

We Are Permitted to Participate in the Auction Process and, If We Do So, that Could Have the Effect of Raising the Clearing Price and Decreasing Liquidity in the Market for the Warrants.

We are permitted (but we are not required) to submit bids in the auction process. You will not be notified by either the auction agent, the network brokers or the selling security holder whether we have bid in the auction process or, should we elect to participate in the auction process, the terms of any bid or bids we may place. Although we will not receive preferential treatment of any kind and would participate on the same basis as all other bidders, except that we are required to submit any final bid we may enter by 6:00 p.m., New York City time, on the day on which the auction process is conducted, in some cases the submission of bids by us could cause the clearing price in the auction process to be higher than it would otherwise have been (although in such a case we would still be required to purchase any warrants for which we had submitted bids at the clearing price). In addition, to the extent we purchase any warrants, the liquidity of any market for the warrants may decrease, particularly if any such purchases represent a significant percentage of the outstanding warrants.

Table of Contents

The Clearing Price for the Warrants May Bear Little or No Relationship to the Price for the Warrants that Would Be Established Using Traditional Valuation Methods or the Market Price of Our Common Stock, and, as a Result, the Trading Price of the Warrants May Decline Significantly Following the Issuance of the Warrants.

The public offering price of the warrants will be equal to the clearing price. The clearing price of the warrants may have little or no relationship to, and may be significantly higher than, the price for the warrants that otherwise would be established using traditional indicators of value, such as our future prospects and those of our industry in general; our revenues, earnings, and other financial and operating information; multiples of revenue, earnings, cash flows, and other operating metrics; market prices of securities and other financial and operating information of companies engaged in activities similar to us; and the views of research analysts. The trading price of the warrants may vary significantly from the public offering price. Potential investors should not submit a bid in the auction for this offering unless they are willing to take the risk that the price of the warrants could decline significantly.

No Maximum Price or Set Auction Price Range Has Been Established in Connection with the Auction Process, and any Bids Submitted as Market Bids Will Be Included at the Highest Bid Received From any Bidder.

Although the auction agent has established a minimum bid in connection with the auction process, no maximum price or set price range has been implemented, meaning that there is no ceiling on the per-warrant amount that an investor can bid in the auction. If a bidder submits a market bid (i.e., a bid that specifies the number of warrants the bidder is willing to purchase without specifying the price it is willing to pay), that bid will be treated as a bid at the highest price received from any other bidder in the auction. Because market bids will increase the number of warrants that are covered by bids at the highest price received, the submission of market bids could cause the clearing price in the auction process to be higher than it would otherwise have been absent such market bids. Since the only information being provided in connection with the auction process is the minimum bid price and the auction agent is under no obligation to reconfirm bids for any reason, potential investors should carefully evaluate all factors that may be relevant about us, our operations, the warrants and the auction process in determining the appropriateness of any bids they may submit.

Successful Bidders May Receive the Full Number of Warrants Subject to their Bids, so Potential Investors Should Not Make Bids for More Warrants than They are Prepared to Purchase.

Each bidder may submit multiple bids. However, as bids are independent, each bid may result in an allocation of warrants. Allocation of the warrants will be determined by, first, allocating warrants to any bids made above the clearing price, and second, allocating warrants on a pro-rata basis among bids made at the clearing price. If bids for all the warrants offered in this offering are received, and the selling security holder elects to sell warrants in the offering, the bids of successful bidders that are above the clearing price will be allocated all of the warrants represented by such bids, and only bids submitted at the clearing price will experience any pro-rata allocation. Bids that have not been modified or withdrawn by the time of the submission deadline are final and irrevocable, and bidders who submit successful bids will be obligated to purchase the warrants allocated to them. Accordingly, the sum of a bidder's bid sizes as of the submission deadline should be no more than the total number of warrants the bidder is willing to purchase, and investors are cautioned against submitting a bid that does not accurately represent the number of warrants that they are willing and prepared to purchase.

Table of Contents

Submitting a Bid Does Not Guarantee an Allocation of Warrants, Even If a Bidder Submits a Bid At or Above the Public Offering Price of the Warrants.

The auction agent may require, at its discretion, that bidders confirm their bids before the auction closes (although the auction agent is under no obligation to reconfirm bids for any reason). If a bidder is requested to confirm a bid and fails to do so within the permitted time period, that bid may be deemed to have been withdrawn and, accordingly, that bidder may not receive an allocation of warrants even if the bid is at or above the public offering price. The auction agent may, however, choose to accept any such bid even if it has not been reconfirmed. In addition, the auction agent may determine in some cases to impose size limits on the aggregate size of bids that it chooses to accept from any bidder (including any network broker), and may reject any bid that it determines, in its discretion, has a potentially manipulative, disruptive or other adverse effect on the auction process or the offering. Furthermore, if bids for all the warrants offered in this offering are received, and the selling security holder elects to sell warrants in the offering, each bid submitted at the clearing price will be allocated a number of warrants approximately equal to the pro-rata allocation percentage multiplied by the number of warrants represented by such bid, rounded to the nearest whole number of warrants (subject to rounding to eliminate odd-lots). Similarly, if bids for half or more, but less than all, of the warrants offered in this offering are received, and the selling security holder chooses to sell fewer warrants than the number of warrants for which bids were received, then all bids will experience equal pro-rata allocation. The selling security holder could also decide, in its sole discretion, not to sell any warrants in this offering after the clearing price has been determined. As a result of these factors, you may not receive an allocation for all the warrants for which you submit a bid.

We Cannot Assure You that the Auction Will Be Successful or that the Full Number of Offered Warrants Will be Sold.

If sufficient bids are received and accepted by the auction agent to enable the selling security holder to sell all of the warrants in this offering, the public offering price will be set at the clearing price, unless the selling security holder decides, in its sole discretion, not to sell any warrants in this offering after the clearing price is determined. If, however, bids are received for half or more, but less than all, of the offered warrants, then the selling security holder may (but is not required to) sell, at the minimum bid price in the auction (which will be deemed the clearing price) as many warrants as it chooses to sell up to the number of bids received in the auction, so long as at least half of the offered warrants are sold and the warrants remain eligible for listing. If bids are received for less than half of the offered warrants, the selling security holder will not sell any warrants in this offering. Even if bids are received for all of the offered warrants, the selling security holder is not obligated to sell any warrants regardless of the clearing price set through the auction process. The liquidity of the warrants may be limited if less than all of the offered warrants are sold by the selling security holder. Possible future sales of the selling security holder's remaining warrants, if any are held following this offering, could affect the trading price of the warrants sold in this offering.

Submitting Bids Through a Network Broker or Any Other Broker that is Not the Auction Agent May in Some Circumstances Shorten Deadlines for Potential Investors to Submit, Modify or Withdraw Their Bids.

In order to participate in the auction, bidders must have an account with, and submit bids to purchase warrants through, either the auction agent or a network broker. Brokers that are not network brokers will need to submit their bids, either for their own account or on behalf of their customers, through the auction agent or a network broker. Potential investors and brokers that wish to submit bids in the auction and do not have an account with the auction agent or a network broker must either establish such an account prior to bidding in the auction or cause a broker that has such an account to submit a bid through that account. Network brokers and other brokers will impose earlier submission

Table of Contents

deadlines than those imposed by the auction agent in order to have sufficient time to aggregate bids received from their respective customers and to transmit the aggregate bid to the auction agent (or, in the case of non-network brokers submitting bids through a network broker, to such network broker to transmit to the auction agent) before the auction closes. As a result of such earlier submission deadlines, potential investors who submit bids through a network broker, or brokers that submit bids through the auction agent or a network broker, will need to submit or withdraw their bids earlier than other bidders, and it may in some circumstances be more difficult for such bids to be submitted, modified or withdrawn.

Risks Related to the Warrants

The Warrants Are a Risky Investment. You May Not Be Able to Recover the Value of Your Investment in the Warrants, and the Warrants May Expire Worthless.

On September 22, 2011, the last reported price of our common stock on the NYSE was \$16.94 per share, which is below the exercise price of the warrants. In order for you to recover the value of your investment in the warrants, either a trading market must develop for the warrants and the trading price of the warrants must exceed the public offering price, or our stock price must increase to more than the sum of the exercise price of the warrants (\$44.15) and the clearing price of the warrants. If, for example, the clearing price of the warrants were the minimum bid price, our stock price would have to be more than \$45.20 for you to have an opportunity to exercise the warrants and achieve a positive return on your investment.

The warrants are exercisable only until November 14, 2018. Generally, a component of the value of option securities such as the warrants is time until expiration and, as the period of time until expiration of the warrants decreases, the market price of the warrants will, holding other variables constant, likely decline. In the event our common stock price does not increase to the level discussed above during the period when the warrants are exercisable, you will likely not be able to recover the value of your investment in the warrants. In addition, if our common stock price remains below the exercise price of the warrants, the warrants may not have any value and may expire without being exercised, in which case you will lose your entire investment. There can be no assurance that the trading price of our common stock will exceed the exercise price or the price required for you to achieve a positive return on your investment. Furthermore, upon exercise of the warrants, you will receive a number of shares of stock calculated based on the closing price of our common stock on that day. Accordingly, the number of shares and the value of our common stock you receive upon exercise of the warrants will depend on the market price of our common stock on the day on which you choose to exercise those warrants.

There Is No Existing Market for the Warrants, and You Cannot Be Certain that an Active Market Will Be Established.

Prior to this offering, there has been no existing trading market for the warrants. The public offering price for the warrants is being determined by an auction process, and may not be indicative of the price that will prevail in the trading market following this offering. The market price for the warrants may decline below the public offering price, and may be volatile. The liquidity of any market for the warrants will depend on a number of factors, including but not limited to:

the number of warrants that investors purchase in the auction;

the number of warrants that the selling security holder elects to sell in this offering;

the number of holders of the warrants;

our performance;

Table of Contents

the market for similar securities;

the interest of securities dealers in making a market in the warrants; and

the market price of our common stock.

The market price of the warrants also may be adversely affected by the market price of any additional warrants sold by the selling security holder in the separate auction being conducted concurrently with this offering.

The Warrants Are Not Suitable for All Investors.

The warrants are complex financial instruments for which there is no established trading market. Accordingly, the auction agent, each network broker and any other broker that submits bids through the auction agent or any network broker will be required to establish and enforce client suitability standards, including eligibility, account status and size, to evaluate whether an investment in the warrants is appropriate for any particular investor. Each of them will individually apply its own standards in making that determination, but in each case those standards will be implemented in accordance with the applicable requirements and guidelines of the Financial Industry Regulatory Authority, Inc., (*FINRA*). If you do not meet the relevant suitability requirements of the auction agent or another broker, you will not be able to bid in the auction. You should be prepared to sustain a total loss of the purchase price of your warrants.

Purchasers of Warrants Who Exercise Their Warrants for Shares of Our Common Stock Will Incur Immediate and Future Dilution.

Upon exercise of your warrants for shares of our common stock, you could experience immediate and substantial dilution if the exercise price of your warrants at the time were higher than the net tangible book value per share of the outstanding common stock. In addition, you will experience dilution (subject to the anti-dilution protections contained in the warrants and described in this prospectus supplement) when we issue additional shares of common stock in any future offerings or under outstanding options and warrants (including any warrants sold by the selling security holder in the separate auction being conducted concurrently with this offering) and under our stock compensation plans or other employee or director compensation plans.

The Market Price of the Warrants Will Be Directly Affected by the Market Price of Our Common Stock, which May Be Volatile.

To the extent a secondary market develops for the warrants, the market price of our common stock will significantly affect the market price of the warrants. This may result in greater volatility in the market price of the warrants than would be expected for warrants to purchase securities other than our common stock. The market price of our common stock could be subject to significant fluctuations and we cannot predict how shares of our common stock will trade in the future. Increased volatility could result in a decline in the market price of our common stock, and, in turn, in the market price of the warrants. The price of our common stock also could be affected by possible sales of common stock by investors who view the warrants as a more attractive means of equity participation in SunTrust and by hedging or arbitrage activity involving our common stock. The hedging or arbitrage of our common stock could, in turn, affect the market price of the warrants.

Holder of the Warrants Will Have No Rights as Common Shareholders Until They Acquire Our Common Stock.

Until you acquire shares of our common stock upon exercise of the warrants, you will have no rights with respect to our common stock, including rights to receive dividend payments, vote or respond

Table of Contents

to tender offers. Upon exercise of your warrants, you will be entitled to exercise the rights of a common shareholder only as to matters for which the record date occurs after the exercise date.

The Exercise Price of and the Number of Shares of Our Common Stock Underlying the Warrants May Not Be Adjusted for all Dilutive Events.

The exercise price of and the number of shares of our common stock underlying the warrants are subject to adjustment for certain events, including, but not limited to, the issuance of stock dividends on our common stock, the issuance of certain rights or warrants, subdivisions, combinations, distributions of capital stock, indebtedness or assets, certain cash dividends and certain issuer tender or exchange offers as described under Description of Warrants Adjustments to the Warrants. The exercise price will not be adjusted, however, for other events, such as a third-party tender or exchange offer, a merger or reorganization in which common stock is acquired for cash or an issuance of common stock for cash, that may adversely affect the trading price of the warrants or our common stock. Other events that adversely affect the value of the warrants may occur that do not result in an adjustment to such exercise price.

Additionally, the exercise price of, and the number of shares underlying, the warrants will not be adjusted for any regular quarterly cash dividends that are in the aggregate less than or equal to \$0.54 per share of common stock, which is the amount of the last dividend per share declared prior to the date on which the warrants were originally issued to Treasury. See Risks Related to Our Common Stock You May Not Receive Dividends on Our Common Stock.

Recent Governmental Actions Regarding Short Sales May Adversely Affect the Market Value of the Warrants.

Governmental actions that interfere with the ability of warrant investors to effect short sales of the underlying common stock could significantly affect the market value of the warrants. Such government actions could make the arbitrage strategy that certain warrant investors employ more difficult to execute for the outstanding warrants offered hereby. At an open meeting on February 24, 2010 the SEC adopted a new short sale price test, through an amendment to Rule 201 of Regulation SHO. The new Rule 201 restricts short selling only when a stock price has triggered a circuit breaker by falling at least 10 percent in one day, at which point short sale orders can be displayed or executed only if the order price is above the current national best bid, subject to certain limited exceptions. If such new price test precludes warrant investors from executing the arbitrage strategy that they employ or other limitations are instituted by the SEC or any other regulatory agencies, the market value of the warrants could be adversely affected. The warrant agreement does not contain any provisions to afford holders protection in the event of a decline in the market value of the warrants due to such new price test or other limitations, and holders will not be entitled to any exercise price reduction or increase to the number of underlying shares except under the limited circumstances described in Description of Warrants.

The Warrants Do Not Automatically Exercise, and any Warrant not Exercised Prior to the Expiration Date Will Expire Unexercised.

The warrants do not automatically exercise upon expiration. You are entitled to exercise the full number of warrants registered in your name or any portion thereof. Any warrant that you do not exercise prior to the expiration date will expire unexercised and you will not receive any shares of common stock.

Your Return on the Warrants Will Not Reflect Dividends on Our Common Stock.

Your return on the warrants will not reflect the return you would realize if you actually owned shares of our common stock and received any dividends paid on our common stock other than to the

Table of Contents

extent described below under Description of Warrants Adjustments to the Warrants. If we increase our regular quarterly cash dividends in the future, your warrants will not be adjusted for, and you will not receive any benefit of, any aggregate regular quarterly cash dividend less than or equal to \$0.54 per share.

The Warrant Agreement Is Not an Indenture Qualified Under the Trust Indenture Act, and the Obligations of the Warrant Agent are Limited.

The warrant agreement is not an indenture qualified under the Trust Indenture Act of 1939, as amended (the TIA) and the warrant agent is not a trustee qualified under the TIA. Accordingly, warrant holders will not have the benefits of the protections of the TIA. Under the terms of the warrant agreement, the warrant agent will have only limited obligations to the warrant holders. Accordingly, it may in some circumstances be difficult for warrant holders, acting individually or collectively, to take actions to enforce their rights under the warrants or the warrant agreement.

The Selling Security Holder is a Federal Agency and Your Ability to Bring a Claim Against the Selling Security Holder Under the Federal Securities Laws May Be Limited.

The doctrine of sovereign immunity, as limited by the Federal Tort Claims Act (the FTCA) provides that claims may not be brought against the United States of America or any agency or instrumentality thereof unless specifically permitted by act of Congress. The FTCA bars claims for fraud or misrepresentation. At least one federal court, in a case involving a federal agency, has held that the United States may assert its sovereign immunity to claims brought under the federal securities laws. In addition, the selling security holder and its officers, agents, and employees are exempt from liability for any violation or alleged violation of the anti-fraud provisions of Section 10(b) of the Exchange Act by virtue of Section 3(c) thereof. Accordingly, any attempt to assert such a claim against the officers, agents or employees of the selling security holder for a violation of the Securities Act or the Exchange Act resulting from an alleged material misstatement in or material omission from this prospectus supplement, the accompanying prospectus or the registration statement of which this prospectus supplement and the accompanying prospectus are a part or resulting from any other act or omission in connection with the offering of the warrants by the selling security holder or the shares of common stock issuable upon the exercise thereof would likely be barred.

Hedging Arrangements Relating to the Warrants May Affect the Value of Our Common Stock.

In order to hedge their positions, holders of our warrants may enter into derivative transactions with respect to our common stock, may unwind or adjust derivative transactions and may purchase or sell our common stock in secondary market transactions. The effect, if any, of any of these activities on the trading price of our common stock will depend in part on market conditions and cannot be ascertained in advance, but any of these activities could adversely affect the value of our common stock.

Holders of the Warrants Will Not Receive Any Additional Shares of Common Stock or Other Compensation Representing Any Lost Value Resulting From a Decrease in the Option Life of the Warrants in the Event We Undergo a Business Combination.

In the event we undergo a merger, consolidation, statutory share exchange or similar transaction requiring the approval of our shareholders, each of which are referred to in this prospectus supplement as a business combination, each warrant holder's right to receive common stock pursuant to the warrants will be converted into the right to receive a number of shares of stock or other securities or property (including cash) which would have been received if such holder had exercised the warrants

Table of Contents

immediately prior to such business combination. Any such business combination could, therefore, substantially affect the value of the warrants by changing the securities received upon exercise or fixing the market value of the property to be received upon exercise. Warrant holders will not receive any additional shares of common stock or other compensation representing any lost value resulting from any decrease in the option life of, or change in the securities or property (including cash) underlying, the warrants resulting from any such business combination.

You may be subject to tax upon an adjustment to the number of shares of common stock underlying the warrants or the exercise price of the warrants even though you do not receive a corresponding cash distribution.

The number of shares of common stock underlying the warrants and the exercise price of the warrants are subject to adjustment in certain circumstances. To the extent an adjustment, or failure to adjust, results in an increase in your proportionate interest in our assets or our earnings and profits, you may be deemed to have received for U.S. federal income tax purposes a taxable dividend (to the extent deemed paid out of our earnings and profits) without the receipt of any cash. If you are a Non-U.S. Holder, such deemed dividend generally will be subject to U.S. federal withholding tax (currently at a 30% rate, or such lower rate as may be specified by an applicable treaty), which may be set off against shares of our common stock to be delivered upon exercise of warrants. See Certain United States Federal Income Tax Considerations in this prospectus supplement.

Risks Related to Our Common Stock

The Price of Our Common Stock May Fluctuate Significantly, and This May Make It Difficult for You to Resell Shares of Common Stock Owned by You at Times or at Prices You Find Attractive.

The price of our common stock on the NYSE constantly changes. We expect that the market price of our common stock will continue to fluctuate and there can be no assurances about the market prices for our common stock.

Our stock price may fluctuate as a result of a variety of factors, many of which are beyond our control. These factors include:

actual or anticipated quarterly fluctuations in our operating results and financial condition;

changes in financial estimates or publication of research reports and recommendations by financial analysts or actions taken by rating agencies with respect to our common stock or those of other financial institutions;

operating results that vary from the expectations of management, financial analysts and investors;

speculation in the press or investment community generally or relating to our reputation or the financial services industry;

strategic actions by us or our competitors, such as acquisitions, restructurings, dispositions or financings;

actions by our current shareholders, including sales of common stock by existing shareholders and/or directors and executive officers;

the operating and securities price performance of companies that investors consider comparable to us;

future sales of our equity or equity-related securities;

Edgar Filing: SUNTRUST BANKS INC - Form 424B5

changes in the frequency or amount of dividends or share repurchases;

proposed or adopted regulatory changes or developments;

anticipated or pending investigations, proceedings or litigation that involve or affect us;

S-14

Table of Contents

domestic and international economic factors unrelated to our performance; or

general market conditions and, in particular, developments related to market conditions for the financial services industry. In addition, in recent years, the stock market in general has experienced extreme price and volume fluctuations. This volatility has had a significant effect on the market price of securities issued by many companies, including for reasons unrelated to their operating performance. These broad market fluctuations may adversely affect our stock price, notwithstanding our operating results.

There May Be Future Sales or Other Dilution of Our Equity, Which May Adversely Affect the Market Price of Our Common Stock.

Except as described under the heading "Underwriting" below, we are not restricted from issuing additional common stock, including any securities that are convertible into or exchangeable for, or that represent the right to receive, common stock. The issuance of any additional shares of common stock or of preferred stock, convertible securities or warrants or the exercise of such securities could be substantially dilutive to shareholders of our common stock. Holders of our shares of common stock have no preemptive rights that entitle holders to purchase their pro rata share of any offering of shares of any class or series. The market price of our common stock could decline as a result of sales of shares of our common stock made after this offering or the perception that such sales could occur. Because our decision to issue securities in any future offering will depend on market conditions and other factors beyond our control, we cannot predict or estimate the amount, timing or nature of our future offerings. Thus, our shareholders bear the risk of our future offerings reducing the market price of our common stock and diluting their stock holdings in us.

You May Not Receive Dividends on Our Common Stock.

Holders of our common stock are only entitled to receive such dividends as our board of directors may declare out of funds legally available for such payments. Furthermore, holders of our common stock are subject to the prior dividend rights of any holders of our preferred stock at any time outstanding or depositary shares representing such preferred stock then outstanding. Although we have historically declared cash dividends on our common stock, we are not required to do so. During 2009, we reduced the quarterly dividend on our common stock from \$0.10 per share to \$0.01 per share, where it remained through the declaration in April 2011. In August 2011, we announced a quarterly dividend declaration of \$0.05 per share, which was paid in September 2011. In the future we may further reduce or eliminate our common stock dividend. This could adversely affect the market price of our common stock.

Our Results of Operations and Our Ability to Fund Dividend Payments on Our Common Stock and All Payments on Our Other Obligations Depend Upon the Results of Operations of Our Subsidiaries.

We are a separate and distinct legal entity from our banking and non-banking subsidiaries. Our principal source of funds to make payments on securities is dividends from our banking subsidiaries. Various federal and state statutes and regulations limit the amount of dividends that our banking and non-banking subsidiaries may pay to us without regulatory approval. In particular, dividend and other distributions from our bank to our holding company would require notice to or approval of the applicable regulatory authority. There can be no assurances that we would receive such approval.

In addition, if, in the opinion of the applicable regulatory authority, a bank under its jurisdiction is engaged in or is about to engage in an unsafe or unsound practice, such authority may require, after notice and hearing, that such bank cease and desist from such practice. Depending on the financial

Table of Contents

condition of our banking subsidiaries, the applicable regulatory authority might deem us to be engaged in an unsafe or unsound practice if our banking subsidiaries were to pay dividends. The Federal Reserve has issued policy statements generally requiring insured banks and bank holding companies only to pay dividends out of current operating earnings.

Payment of dividends could also be subject to regulatory limitations if any of our banking subsidiaries became *under-capitalized* for purposes of the *prompt corrective action* regulations of the federal bank regulatory agencies that are the primary regulators of our banking subsidiaries.

Under-capitalized is currently defined as having a total risk based capital ratio of less than 8.0%, a Tier 1 risk-based capital ratio of less than 4.0%, or a core capital, or leverage, ratio of less than 3.0%. Throughout 2010, our banking subsidiaries were in compliance with all regulatory capital requirements and considered to be *well-capitalized* under applicable regulations. In addition, we expect that federal bank regulatory agencies will adopt heightened regulatory standards regarding capital requirements as a result of recent final rules released by the Basel Committee on Banking Supervision. More information on these expected requirements is contained in SunTrust's Annual Report on Form 10-K for the fiscal year ended December 31, 2010.

Furthermore, our right to participate in any distribution of assets of any of our subsidiaries upon its liquidation or otherwise, and thus your ability as a holder of the common stock to benefit indirectly from such distribution, will be subject to the prior claims of creditors of such subsidiary, except to the extent that any of our claims as a creditor of such subsidiary may be recognized. As a result, our common stock is effectively subordinated to all existing and future liabilities and obligations of our subsidiaries.

Offerings of Debt, Which Would Be Senior to Our Common Stock Upon Liquidation, and/or Preferred Equity Securities Which May Be Senior to Our Common Stock for Purposes of Dividend Distributions or Upon Liquidation, May Adversely Affect the Market Price of Our Common Stock.

We may attempt to increase our capital resources or, if our or the capital ratio of any of our banking subsidiaries falls below the required minimums, we or such banking subsidiary could be forced to raise additional capital by making additional offerings of debt or preferred equity securities, including medium term notes, trust preferred securities, senior or subordinated notes and preferred stock. Upon liquidation, holders of our debt securities and shares of preferred stock and lenders with respect to other borrowings will receive distributions of our available assets prior to the holders of our common stock. Additional equity offerings may dilute the holdings of our existing shareholders or reduce the market price of our common stock, or both. Holders of our common stock are not entitled to preemptive rights or other protections against dilution.

Our board of directors is authorized to issue preferred stock in one or more series, to fix the number of shares in each series, and to determine the designations and preferences, limitations and relative rights of each series, including dividend rates, terms of redemption, liquidation preferences, sinking fund requirements, conversion rights, voting rights, and whether the preferred stock can be issued as a share dividend with respect to another class or series of shares, all without any vote or other action on the part of shareholders.

Additionally, holders of our common stock are subject to the prior dividend and liquidation rights of any holders of our preferred stock then outstanding.

Anti-Takeover Provisions Could Negatively Impact Our Shareholders.

Certain provisions of our articles of incorporation, bylaws and Georgia law could have the effect of preventing, delaying or discouraging an attempt to obtain control of us. See *Anti-takeover Provisions* in the section of this prospectus supplement entitled *Description of Capital Stock*.

Table of Contents

AUCTION PROCESS

The following describes the auction process used to determine the public offering price of the warrants. That process differs from methods traditionally used in other underwritten public offerings. The selling security holder and the underwriters will determine the public offering price and the allocation of the warrants in this offering by an auction process conducted by the sole book-running manager, Deutsche Bank Securities, in its capacity as the auction agent. This auction process will involve a modified Dutch auction mechanic in which the auction agent (working with a number of other brokers) will receive and accept bids from bidders at either the minimum bid price of \$1.05 or at price increments of \$0.05 in excess of the minimum bid price. We do not intend to submit any bids in the auction. After the auction closes and those bids become irrevocable (which will occur automatically at the submission deadline to the extent such bids have not been modified or withdrawn at that time), the auction agent will determine the clearing price for the sale of the warrants offered hereby and, if the selling security holder chooses to proceed with the offering, the underwriters will allocate warrants to the winning bidders. The auction agent has reserved the right to round allocations to eliminate odd-lots. The clearing price for the warrants may bear little or no relationship to the price that would be established using traditional valuation methods. You should carefully consider the risks described under Risk Factors Risks Related to the Auction Process beginning on page S-6.

Eligibility and Account Status

In order to participate in the auction process, bidders must have an account with, and submit bids to purchase warrants through, either the auction agent or one of the network brokers. Brokers that are not network brokers will need to submit their bids, either for their own account or on behalf of their customers, through the auction agent or a network broker. If you wish to bid in the auction and do not have an account with the auction agent or a network broker, you will either need to establish such an account prior to bidding in the auction (which may be difficult to do before the submission deadline) or contact your existing broker and request that it submit a bid through the auction agent or a network broker. Network brokers and other brokers will have deadlines relating to the auction that are earlier than those imposed by the auction agent, as described below under The Auction Process The Bidding Process.

Because the warrants are complex financial instruments for which there is no established trading market, the auction agent, each network broker and any other broker that submits bids through the auction agent or any network broker will be required to establish and enforce client suitability standards, including eligibility, account status and size, to evaluate whether an investment in the warrants is appropriate for any particular investor. Each of them will individually apply its own standards in making that determination, but in each case those standards will be implemented in accordance with the applicable requirements and guidelines of FINRA. If you do not meet the relevant suitability requirements of the auction agent or another broker, you will not be able to bid in the auction. Accounts at the auction agent or any other broker, including broker accounts, are also subject to the customary rules of those institutions. You should contact your brokerage firm to better understand how you may submit bids in the auction process.

The auction agent or network brokers may require bidders (including any brokers that may be bidding on behalf of their customers) to submit additional information, such as tax identification numbers, a valid e-mail address and other contact information, and other information that may be required to establish or maintain an account.

Table of Contents

The auction agent and the network brokers, upon request, will provide certain information to you in connection with the offering, including this prospectus supplement and the accompanying prospectus and forms used by such brokers, if any, to submit bids. Additionally, you should understand that:

before submitting a bid in the auction, you should read this prospectus supplement, the accompanying prospectus and the documents incorporated by reference, including all the risk factors;

the minimum bid price was agreed by the auction agent and Treasury, and we did not participate in that determination and therefore cannot provide any information regarding the factors that Treasury and the auction agent considered in determining the minimum bid price;

if bids are received for 100% or more of the offered warrants, the public offering price will be set at the auction clearing price (unless the selling security holder decides, in its sole discretion, not to sell any warrants in the offering after the clearing price is determined);

if bids are received for half or more, but less than all, of the offered warrants, then the selling security holder may (but is not required to) sell, at the minimum bid price in the auction (which will be deemed the clearing price) as many warrants as it chooses to sell up to the number of bids received in the auction, so long as at least half of the offered warrants are sold and the warrants remain eligible for listing, and that in such a case if the selling security holder chooses to sell fewer warrants than the number of warrants for which bids were received, then all bids will experience equal pro-rata allocation;

if bids are received for less than half of the offered warrants, the selling security holder will not sell any warrants in this offering;

if there is little or no demand for the warrants at or above the clearing price once trading begins, the price of the warrants will decline;

we will be allowed to bid in the auction process and, if we do participate, we will not receive preferential treatment of any kind and would participate on the same basis as all other bidders, except that we are required to submit any final bid we may enter by 6:00 p.m., New York City time, on the day on which the auction process is conducted;

the liquidity of any market for the warrants may be affected by the number of warrants that the selling security holder elects to sell in this offering, and the price of the warrants may decline if the warrants are illiquid;

the auction agent has the right to reconfirm any bid at its discretion by contacting the purported bidder directly and to impose size limits on the aggregate size of bids that it chooses to accept from any bidder, including network brokers (although the auction agent is under no obligation to reconfirm bids for any reason). If you are requested to reconfirm a bid and fail to do so in a timely manner, the auction agent may deem your bid to have been withdrawn, but alternatively may in its discretion choose to accept any such bid even if it has not been reconfirmed;

the auction agent may reject any bid that it determines, in its discretion, has a potentially manipulative, disruptive or other adverse effect on the auction process or the offering; and

Edgar Filing: SUNTRUST BANKS INC - Form 424B5

the auction agent will not provide bidders with any information about the bids of other bidders or auction trends, or with advice regarding bidding strategies, in connection with the auction process.

None of the underwriters, the selling security holder or SunTrust have undertaken any efforts to qualify the warrants for sale in any jurisdiction outside the United States. Except to the limited extent that this offering will be open to certain non-U.S. investors under private placement exemptions in certain countries other than the United States, investors located outside the United States should not expect to be eligible to participate in this offering.

S-18

Table of Contents

Even if a bidder places a bid in the auction, it may not receive an allocation of the warrants in the offering for a number of reasons described below. You should consider all the information in this prospectus supplement, the accompanying prospectus and the documents incorporated by reference in determining whether to submit a bid, the number of warrants you seek to purchase and the price per warrant you are willing to pay.

The following brokers have agreed to be network brokers for purposes of the auction process: Aladdin Capital LLC, BB&T Capital Markets, a Division of Scott & Stringfellow, LLC, Blaylock Robert Van, LLC, BMO Capital Markets Corp., Cabrera Capital Markets, LLC, Cantor Fitzgerald & Co., CastleOak Securities, L.P., C.L. King & Associates, Inc, D.A. Davidson & Co., FBR Capital Markets & Co., Girard Securities, Inc., Guzman & Company, Jefferies & Company, Inc., Joseph Gunnar & Co. LLC, Lebenthal & Co., LLC., Loop Capital Markets LLC, Height Securities, LLC, M.R. Beal & Company, Maxim Group, LLC, MFR Securities, Inc., Monarch Capital Group LLC, Muriel Siebert & Co., Inc., RBC Capital Markets Corporation, Samuel A. Ramirez & Company, Inc., Sandler O'Neill & Partners, L.P., Sanford C. Bernstein & Co., LLC, Second Market, Inc., SL Hare Capital, Inc., Stifel, Nicolaus & Company, Incorporated, The Williams Capital Group, L.P., Toussaint Capital Partners, LLC, UBS Securities LLC, Wedbush Morgan Securities Inc., WR Hambrecht + Co., LLC and Zions Direct, Inc. The network brokers will not share in any underwriting discounts or fees paid by us in connection with the offering of the warrants but may, subject to applicable FINRA and SEC rules and regulations, charge a separate commission to their own customers.

The Auction Process

The following describes how the auction agent will conduct the auction process:

General

The auction will commence at 8:00 a.m., New York City time, on the date specified by the auction agent in a press release issued prior to the opening of the equity markets on such day, and will end at 6:30 p.m., New York City time, on that same day (the *submission deadline*). Unless you submit your bids through the auction agent, your broker will have an earlier deadline for accepting bids. If a malfunction, technical or mechanical problem, calamity, crisis or other similar event occurs that the auction agent believes may interfere with the auction process, the auction agent may (in consultation with the selling security holder) decide to extend the auction or cancel and reschedule the auction. The auction agent and the network brokers will advise bidders of any such decision to extend or cancel and reschedule the auction using e-mail, telephone or facsimile, and will attempt to make such notification prior to the time the auction is scheduled to close. If the auction process is extended such that it closes at a later time on the same business day, any bids previously submitted will continue to be valid unless amended or cancelled by the bidder, but if the auction is extended such that it closes on the following business day or later, or is cancelled, all bids will be cancelled at the time of such extension or cancellation.

During the auction period, bids may be placed at any price (in increments of \$0.05) at or above the minimum bid price of \$1.05 per warrant.

The auction agent and the network brokers will contact potential investors with information about the auction process and how to participate and will solicit bids from prospective investors via electronic message, telephone and facsimile. The minimum size of any bid is 100 warrants.

The Bidding Process

The auction agent and the network brokers will only accept bids in the auction process at the minimum bid price and above the minimum bid price in increments of \$0.05.

Table of Contents

No maximum price or auction price range has been established in connection with the auction process, which means that there is no ceiling on the price per warrant that you or any other bidder can bid in the auction. If you submit a market bid (i.e., a bid that specifies the number of warrants you are willing to purchase without specifying the price you are willing to pay), that bid will be treated as a bid at the highest price received from any bidder in the auction.

Once the auction begins, you may submit your bids either directly through the auction agent or through any network broker. Bids through the network brokers will be aggregated and submitted to the auction agent as single bids at each price increment by those brokers. Bids will only be accepted if they are made on an unconditional basis (i.e., no all-or-none bids will be accepted).

In connection with submitting a bid, you will be required to provide the following information:

the number of warrants that you are interested in purchasing;

the price per warrant you are willing to pay; and

any additional information that may be required to enable the auction agent and/or network broker to identify you, confirm your eligibility and suitability for participating in this offering, and, if you submit a successful bid, consummate a sale of warrants to you.

You may submit multiple bids. Canceling one bid does not cancel any other bid. However, as bids are independent, each bid may result in an allocation of warrants. Consequently, the sum of your bid sizes should be no more than the total number of warrants you are willing to purchase. In addition, the auction agent may impose size limits on the aggregate size of bids that it chooses to accept from any bidder (including any network broker), although the auction agent is under no obligation to do so or to reconfirm bids for any reason.

At any time prior to the submission deadline, you may modify your bids to increase or decrease the number of warrants bid for or the price bid per warrant and may withdraw your bid and reenter the auction. Network brokers, however, will impose earlier submission deadlines than that imposed by the auction agent in order to have sufficient time to aggregate bids received from their respective customers and to transmit the aggregate bid to the auction agent before the auction closes. If you are bidding through a network broker, or another broker that is submitting bids through the auction agent or a network broker, you should be aware of any earlier submission deadlines that may be imposed by your broker.

Conditions for valid bids, including eligibility standards and account funding requirements, may vary from broker to broker. Some brokers, for example, may require a prospective investor to maintain a minimum account balance or to ensure that its account balance is equal to or in excess of the amount of its bid. No funds will be transferred to the underwriters until the acceptance of the bid and the allocation of warrants.

A bid received by the auction agent or any network broker involves no obligation or commitment of any kind prior to the submission deadline. Therefore, you will be able to withdraw a bid at any time prior to the submission deadline (or any deadline imposed by a network broker, if you are bidding through a network broker). Following the submission deadline, however, all bids that have not been modified or withdrawn by you prior to the submission deadline will be considered final and irrevocable and may be accepted. The auction agent and the selling security holder will rely on your bid in setting the public offering price and in sending notices of acceptance to successful bidders.

Edgar Filing: SUNTRUST BANKS INC - Form 424B5

If you are requested to reconfirm a bid and fail to do so in a timely manner, the auction agent may deem your bid to have been withdrawn. The auction agent may, however, choose to accept your bid even if it has not been reconfirmed.

S-20

Table of Contents

The auction agent may reject any bid that it determines, in its discretion, has a potentially manipulative, disruptive or other adverse effect on the auction process or the offering.

The auction agent will not provide bidders with any information about the bids of other bidders or auction trends, or with advice regarding bidding strategies, in connection with the auction process.

The auction agent or any network broker may require you to deposit funds or securities in your brokerage accounts with value sufficient to cover the aggregate dollar amount of your bids. Bids may be rejected if you do not provide the required funds or securities within the required time. The auction agent or any network broker may, however, decide to accept successful bids regardless of whether you have deposited funds or securities in your brokerage accounts. In any case, if you are a successful bidder, you will be obligated to purchase the warrants allocated to you in the allocation process and will be required to deposit funds in your brokerage accounts prior to settlement, which is expected to occur three or four business days after the notices of acceptance are sent to you.

We will be allowed (but we are not required) to bid in the auction process. If we decide to bid, we will not receive preferential treatment of any kind and would participate on the same basis as all other bidders, except that we are required to submit any final bid we may enter by 6:00 p.m., New York City time, on the day on which the auction process is conducted. You will not be notified by either the auction agent, the network brokers or the selling security holder whether we have bid in the auction process or, should we elect to participate in the auction process, the terms of any bid or bids we may place. We will be required to submit any bids we make through the auction agent. The submission of issuer bids may cause the clearing price in the auction process to be higher than it would otherwise have been absent such bids.

Pricing and Allocation

Deutsche Bank Securities will manage the master order book that will aggregate all bids and will include the identity of the bidders (or their brokers, in the case of bids submitted through a network broker). The master order book will not be available for viewing by bidders. Bidders whose bids are accepted will be informed about the result of their bids.

If valid, irrevocable bids are received for all or more of the warrants being offered, the clearing price will equal the highest price in the auction process at which the quantity of all aggregated bids at or above such price equals 100% or more of the number of warrants being offered.

If valid irrevocable bids are received for at least 50% but less than 100% of the warrants being offered, the clearing price will equal the minimum bid price.

Unless the selling security holder decides not to sell any warrants or as otherwise described below, all warrants will be sold to bidders at the clearing price.

If the number of warrants for which bids are received in the auction is:

100% or more of the number of warrants offered in this offering as disclosed on the cover of this prospectus supplement (the *Number of Offered Warrants*), then all warrants sold in the offering will be sold at the clearing price (although the selling security holder could, in its discretion, decide to refrain from selling any warrants in the offering after the clearing price has been determined);

Edgar Filing: SUNTRUST BANKS INC - Form 424B5

50% or more but less than 100% of the Number of Offered Warrants, then the selling security holder may, but will not be required to, sell, at the clearing price (equal to the minimum bid price) as many warrants as it chooses to sell up to the number of bids received in the auction; provided that if it chooses to sell any warrants in such a case it will sell a number of warrants equal to at least 50% of the Number of Offered Warrants; or

S-21

Table of Contents

less than 50% of the Number of Offered Warrants, then the selling security holder will not sell any warrants in this offering.

Promptly after the auction agent determines the clearing price, it will communicate that clearing price to the selling security holder. The selling security holder may decide not to sell any warrants after the clearing price is determined. Once the selling security holder confirms its acceptance of the clearing price (and, in the case where bids are received for fewer than 100% of the warrants being offered, the number of warrants to be sold), the auction agent will confirm allocations of warrants to its clients and the network brokers. The underwriters will sell all warrants at the same price per warrant.

If bids for all the warrants offered in this offering are received, and the selling security holder elects to sell warrants in the offering, allocation of the warrants will be determined by, first, allocating warrants to any bids made above the clearing price, and second, allocating warrants on a pro-rata basis among bids made at the clearing price. The pro-rata allocation percentage for bids made at the clearing price will be determined by dividing the number of warrants to be allocated at the bidding increment equal to the clearing price by the number of warrants represented by bids at that bidding increment. Each bid submitted at the clearing price will be allocated a number of warrants approximately equal to the pro-rata allocation percentage multiplied by the number of warrants represented by its bid, rounded to the nearest whole number of warrants; provided that bids at the clearing price that are pro-rated may be rounded to the nearest 100 warrants. In no case, however, will any rounded amount exceed the original bid size.

If bids for half or more, but less than all, of the warrants offered in this offering are received, and the selling security holder chooses to sell fewer warrants than the number of warrants for which bids were received, then all bids will experience equal pro-rata allocation. In other words, each bid, not just those at the lowest price increment, will be allocated a number of warrants approximately equal to the pro-rata allocation percentage multiplied by the number of warrants represented by its bid, rounded to the nearest whole number of warrants; provided that bids at the clearing price that are pro-rated may be rounded to the nearest 100 warrants. In no case, however, will any rounded amount exceed the original bid size.

After the selling security holder confirms its acceptance of the clearing price (and, in the case where bids are received for fewer than 100% of the warrants being offered, the number of warrants to be sold), the auction agent and each network broker that has submitted bids will notify you, in the event your bids have been accepted, by electronic message, telephone, facsimile or otherwise that the auction has closed and that your bids have been accepted (subject in some cases to pro-ration, as described in this prospectus supplement). They may also provide you with a preliminary allocation estimate, which will be subsequently followed by a final allocation and confirmation of sale. In the event your bids are not accepted, you may be notified that your bids have not been accepted. As a result of the varying delivery times involved in sending e-mails over the Internet and other methods of delivery, you may receive notices of acceptance before or after other bidders.

The clearing price and number of warrants being sold are expected to be announced via press release prior to the opening of the equity markets on the business day following the end of the auction. The price will also be included in the notice of acceptance and the confirmation of sale that will be sent to successful bidders, and will also be included in the final prospectus supplement for the offering.

Sales to investors bidding directly through the auction agent will be settled via their accounts with Deutsche Bank Securities, while sales through network brokers will be settled through your account with the broker through which your bid was submitted.

Table of Contents

If you submit successful bids, you will be obligated to purchase the warrants allocated to you regardless of whether you are aware that the notice of acceptance of your bid has been sent. Once an underwriter has sent out a notice of acceptance and confirmation of sale, it will not cancel or reject your bid. The auction agent and the selling security holder will rely on your bid in setting the public offering price and in sending notices of acceptance to successful bidders. As a result, you will be responsible for paying for all of the warrants that are finally allocated to you, at the public offering price.

You should carefully review the procedures of, and communications from, the institution through which you bid to purchase warrants.

Auction Process Developments

You should keep in contact with the institution through which your bid has been submitted and monitor your relevant e-mail accounts, telephone and facsimile for notifications related to this offering, which may include:

Potential Request for Reconfirmation. The auction agent may ask you to reconfirm your bid at its discretion by directly contacting you (or your broker, if you submitted your bid through a broker other than the auction agent), although the auction agent is under no obligation to reconfirm bids for any reason. If you are requested to reconfirm a bid and fail to do so in a timely manner, the auction agent may deem your bid to have been withdrawn. The auction agent may, however, choose to accept your bid even if it has not been reconfirmed.

Notice of Additional Information Conveyed by Free Writing Prospectus. Notification that additional information relating to this offering is available in a free writing prospectus.

Notice of Acceptance. Notification as to whether any of your bids are successful and have been accepted. This notification will include the final clearing price. If your bids have been accepted, you will be informed about the results of the auction process.

Concurrent Warrant Auction

Concurrently with this offering of warrants, the selling security holder is offering up to 6,008,902 warrants, each to purchase one share of common stock, in a separate modified Dutch auction. These additional warrants have an exercise price of \$33.70, expire on December 31, 2018 and will be immediately exercisable. The public offering price of the warrants in the concurrent offering is \$2.70 per warrant. A prospectus supplement relating to those additional warrants has been filed with the SEC.

This offering of warrants is separate from the selling security holder's concurrent offering of the additional warrants. If you wish to bid on the additional warrants being sold in the concurrent offering, you must submit those bids separately in the auction for those warrants, and any bid you submit for the warrants offered by this prospectus supplement will not be a bid for the additional warrants in the concurrent auction.

Table of Contents

USE OF PROCEEDS

The warrants offered by this prospectus supplement are being sold for the account of Treasury. Any proceeds from the sale of these warrants will be received by Treasury for its own account, and we will not receive any proceeds from the sale of any of the warrants offered by this prospectus supplement.

S-24

Table of Contents

REGULATORY CONSIDERATIONS

As a financial holding company and a bank holding company under the Bank Holding Company Act, SunTrust is subject to regulation, supervision and examination by the Federal Reserve. For a discussion of the material elements of the regulatory framework applicable to financial holding companies, bank holding companies and their subsidiaries and specific information relevant to SunTrust, please refer to SunTrust's Annual Report on Form 10-K for the fiscal year ended December 31, 2010, and the subsequent reports we file with the SEC, which are incorporated by reference in this prospectus supplement. This regulatory framework is intended primarily for the protection of depositors and the federal deposit insurance funds and not for the protection of security holders. As a result of this regulatory framework, SunTrust's earnings are affected by actions of the Federal Reserve, the Federal Deposit Insurance Corporation, which insures the deposits of our banking subsidiaries within certain limits, and the SEC, which regulates the activities of certain subsidiaries engaged in the securities business.

SunTrust's earnings are also affected by general economic conditions, our management policies and legislative action.

In addition, there are numerous governmental requirements and regulations that affect our business activities. A change in applicable statutes, regulations or regulatory policy may have a material effect on SunTrust's business.

Depository institutions, like SunTrust's bank subsidiaries, are also affected by various federal laws, including those relating to consumer protection and similar matters. SunTrust also has other financial services subsidiaries regulated, supervised and examined by the Federal Reserve, as well as other relevant state and federal regulatory agencies and self-regulatory organizations. SunTrust's non-bank subsidiaries may be subject to other laws and regulations of the federal government or the various states in which they are authorized to do business.

No regulatory approvals are required to effect this offering.

Table of Contents

DESCRIPTION OF WARRANTS

The following is a brief description of the terms of the warrants being sold by the selling security holder. This summary does not purport to be complete in all respects. This description is subject to, and qualified in its entirety by reference to, the form of warrant and warrant agreement, copies of which we have filed with the SEC.

Common Stock Subject to the Warrants

Each warrant initially represents the right to purchase one share of common stock. The number of shares deliverable upon the exercise of each warrant is subject to the adjustments described below under the heading **Adjustments to the Warrants**.

Exercise of the Warrants

The initial exercise price applicable to each warrant is \$44.15 per share of common stock for which the warrant may be exercised. All or any portion of the warrants may be exercised in whole or in part at any time or from time to time on or before 5:00 p.m., New York City time, on November 14, 2018 by surrender to the warrant agent of the warrant and a completed notice of exercise attached as an annex to the warrant and the payment of the exercise price per share for the shares of common stock for which the warrants are being exercised. The exercise price cannot be paid in cash. The exercise price will be paid by the withholding by us of a number of shares of common stock issuable upon exercise of the warrants equal to the value of the aggregate exercise price of the warrants so exercised, determined by reference to the market price of our common stock on the trading day on which the warrants are exercised and notice is delivered to the warrant agent. If warrants are exercised and the exercise price exceeds the value of the shares issuable upon exercise, no amount will be due and payable by us to the warrant holder. The exercise price applicable to the warrants is subject to adjustment described below under the heading **Adjustments to the Warrants**. So long as the warrants are in global form, any exercise notice will be delivered to the warrant agent through and in accordance with the procedures of the depository for the warrants.

Upon exercise of warrants, the shares of common stock issuable upon exercise will be issued by our transfer agent for the account of the exercising warrant holder. Shares issued upon exercise of warrants will be issued in the name or names designated by the exercising warrant holder and will be delivered by the transfer agent to the exercising warrant holder (or its nominee or nominees) either via book-entry transfer crediting the account of such warrant holder (or the relevant participant of The Depository Trust Company (*DTC*) for the benefit of such warrant holder) through *DTC*'s DWAC system, or, if definitive warrants are issued in the limited circumstances described under **Description of the Warrant Agreement**, otherwise in certificated form by physical delivery to the address specified by such warrant holder in the exercise notice. We will not issue fractional shares upon any exercise of the warrants. Instead, the exercising warrant holder will be entitled to a cash payment equal to the pro-rated per share market price of our common stock on the date of exercise of the warrants for any fractional share that would have otherwise been issuable upon exercise of the warrants. We will at all times reserve the aggregate number of shares of our common stock for which the warrants may be exercised.

Issuance of any shares of common stock deliverable upon the exercise of warrants will be made without charge to the warrant holder for any issue or transfer tax or other incidental expense in respect of the issuance of those shares (other than liens or charges created by a warrant holder, income and franchise taxes incurred in connection with the exercise of the warrant or taxes in respect of any transfer occurring contemporaneously therewith).

Table of Contents

The warrants and the shares of common stock issuable upon the exercise of the warrants have been approved for listing, subject to notice of issuance, on the NYSE.

Rights as a Shareholder

The warrant holders will have no rights or privileges of holders of our common stock, including any voting rights and rights to dividend payments, until (and then only to the extent) the warrants have been exercised.

Adjustments to the Warrants

Pursuant to the terms of the warrants, the number of shares of common stock issuable upon exercise of each warrant, or the warrant shares, and the warrant exercise price will be adjusted upon occurrence of certain events as follows.

In the case of stock splits, subdivisions, reclassifications or combinations of common stock. If we declare and pay a dividend or make a distribution on our common stock in shares of common stock, subdivide or reclassify the outstanding shares of our common stock into a greater number of shares, or combine or reclassify the outstanding shares of our common stock into a smaller number of shares, the number of warrant shares at the time of the record date for such dividend or distribution or the effective date of such subdivision, combination or reclassification will be proportionately adjusted so that the holder of a warrant after such date will be entitled to purchase the number of shares of common stock that it would have owned or been entitled to receive in respect of the number of warrant shares had such warrant been exercised immediately prior to such date. The exercise price in effect immediately prior to the record date for such dividend or distribution or the effective date of such subdivision, combination or reclassification will be adjusted by multiplying such exercise price by the quotient of (x) the number of warrant shares immediately prior to such adjustment divided by (y) the new number of warrant shares as determined in accordance with the immediately preceding sentence.

In the case of cash dividends or other distributions. If we fix a record date for making a distribution to all holders of our common stock of securities, evidences of indebtedness, assets, cash, rights or warrants (excluding ordinary cash dividends (as defined below), dividends of our common stock and other dividends or distributions referred to in the preceding bullet point), the exercise price in effect prior to such record date will be reduced immediately thereafter to the price determined by multiplying the exercise price in effect immediately prior to the reduction by the quotient of (x) the market price (as defined below) of our common stock on the last trading day preceding the first date on which our common stock trades regular way on the principal national securities exchange on which our common stock is listed or admitted to trading without the right to receive such distribution, minus the amount of cash and/or the fair market value of the securities, evidences of indebtedness, assets, rights or warrants to be so distributed in respect of one share of our common stock (such subtracted amount and/or fair market value is referred to as the *Per Share Fair Market Value*) divided by (y) such market price on the date specified in clause (x). Any such adjustment will be made successively whenever such a record date is fixed. The number of warrant shares will be increased to the number obtained by multiplying the number of warrant shares deliverable upon exercise of a warrant immediately prior to such adjustment by the quotient of (a) the exercise price in effect immediately prior to the distribution giving rise to this adjustment divided by (b) the new exercise price as determined in accordance with the immediately preceding sentence. In the case of adjustment for a cash dividend that is, or is coincident with, a regular quarterly cash dividend, the Per Share Fair Market Value would be reduced only by the per share amount of the portion of the cash dividend that would constitute

Table of Contents

an ordinary cash dividend. If, after the declaration of any such record date, the related distribution is not made, the exercise price and the number of warrant shares then in effect will be readjusted, effective as of the date when our board of directors determines not to make such distribution, to the exercise price and the number of warrant shares that would then be in effect if such record date had not been fixed.

In the case of a pro rata repurchase of common stock. A *pro rata repurchase* is defined as any purchase of shares of our common stock by SunTrust or an affiliate of SunTrust pursuant to any tender offer or exchange offer subject to Section 13(e) or 14(e) of the Exchange Act, or Regulation 14E thereunder, or any other offer available to substantially all holders of our common stock. If we effect a pro rata repurchase of our common stock, then the exercise price will be reduced to the price determined by multiplying the exercise price in effect immediately prior to the effective date (as defined below) of such pro rata repurchase by a fraction of which (A) the numerator will be (i) the product of (x) the number of shares of common stock outstanding immediately before such pro rata repurchase and (y) the market price of a share of our common stock on the trading day immediately preceding the first public announcement by us or any of our affiliates of the intent to effect such pro rata repurchase, minus (ii) the aggregate purchase price of the pro rata repurchase, and (B) the denominator will be the product of (i) the number of shares of our common stock outstanding immediately prior to such pro rata repurchase minus the number of shares of our common stock so repurchased and (ii) the market price per share of our common stock on the trading day immediately preceding the first public announcement by us or any of our affiliates of the intent to effect such pro rata repurchase. The number of warrant shares will be increased to the number obtained by multiplying the number of warrant shares immediately prior to such adjustment by the quotient of (x) the exercise price in effect immediately prior to the pro rata repurchase giving rise to this adjustment divided by (y) the new exercise price as determined in accordance with the immediately preceding sentence. For the avoidance of doubt, no increase to the exercise price or decrease in the number of warrant shares deliverable upon exercise of a warrant will be made pursuant to this adjustment provision. The *effective date* of a pro rata repurchase means (a) the date of acceptance of shares for purchase or exchange by us under any tender offer or exchange offer which is a pro rata repurchase or (b) the date of purchase of any pro rata repurchase that is not a tender offer or an exchange offer.

In the case of a merger, consolidation, statutory share exchange or similar transaction that requires the approval of our shareholders (any such transaction, a *business combination*). In the event of any business combination or reclassification of our common stock (other than a reclassification referenced in the first bullet point above), a warrant holder's right to receive shares of common stock upon exercise of a warrant will be converted into the right to exercise that warrant to acquire the number of shares of stock or other securities or property (including cash) which our common stock issuable (at the time of such business combination or reclassification) upon exercise of such warrant immediately prior to such business combination or reclassification would have been entitled to receive upon consummation of such business combination or reclassification. In determining the kind and amount of stock, securities or the property receivable upon exercise of a warrant following the consummation of such business combination, if the holders of our common stock have the right to elect the kind or amount of consideration receivable upon consummation of such business combination, then the consideration that a warrant holder will be entitled to receive upon exercise will be deemed to be the types and amounts of consideration received by the majority of all holders of the shares of our common stock that affirmatively make an election (or of all such holders if none make an election). For purposes of determining any amount of warrant shares to be withheld by us as payment of the exercise price from stock, securities or the property that would otherwise be delivered to a warrant holder upon exercise of warrants

Table of Contents

following any business combination, the amount of such stock, securities or property to be withheld will have a market price equal to the aggregate exercise price as to which such warrants are so exercised, based on the fair market value of such stock, securities or property on the trading day on which such warrants are exercised and notice is delivered to the warrant agent. If any such property is not a security, the market price of such property will be deemed to be its fair market value as determined in good faith by our board of directors in reliance on an opinion of a nationally recognized independent investment banking corporation retained by us for this purpose. If making such determination requires the conversion of any currency other than U.S. dollars into U.S. dollars, such conversion will be done in accordance with customary procedures based on the rate for conversion of such currency into U.S. dollars displayed on the relevant page by Bloomberg L.P. (or any successor or replacement service) on or by 4:00 p.m., New York City time, on such exercise date.

Neither the exercise price nor the number of shares issuable upon exercise of a warrant will be adjusted in the event of a change in the par value of our common stock or a change in our jurisdiction of incorporation. If an adjustment in the exercise price made in accordance with the adjustment provisions above would reduce the exercise price to an amount below the par value of our common stock, then that adjustment will reduce the exercise price to that par value.

The warrant agent will notify the warrant holders of any adjustments. If the warrant agent fails to give such notice, the exercise price and the number of shares issuable upon exercise of the warrants will nevertheless be adjusted.

If more than one adjustment provision applies to a single event, the adjustment provision that produces the largest adjustment with respect to such event will be applied, and no single event will cause an adjustment under more than one adjustment provision so as to result in duplication. All such adjustments will be made to the nearest one-tenth (1/10th) of a cent or to the nearest one-hundredth (1/100th) of a share, as the case may be. No adjustment in the exercise price or the number of shares issuable upon exercise of a warrant will be made if the amount of such adjustment would be less than \$0.01 or one-tenth (1/10th) of a share of common stock, but any such amount will be carried forward and an adjustment with respect thereto will be made at the time of and together with any subsequent adjustment which, together with such amount and any other amount or amounts so carried forward, will aggregate \$0.01 or 1/10th of a share of common stock, or more, or on exercise of a warrant if that occurs earlier.

For purposes of these adjustment provisions:

ordinary cash dividends means a regular quarterly cash dividend on shares of our common stock out of surplus or net profits legally available therefor (determined in accordance with generally accepted accounting principles in effect from time to time). Ordinary cash dividends will not include any cash dividends paid subsequent to November 14, 2008 to the extent the aggregate per share dividends paid on the outstanding common stock in any quarter exceed \$0.54, as adjusted for any stock split, stock dividend, reverse stock split, reclassification or similar transaction.

market price means, with respect to a particular security, on any given day, the last reported sale price regular way or, in case no such reported sale takes place on such day, the average of the last closing bid and ask prices regular way, in either case on the principal national securities exchange on which the applicable securities are listed or admitted to trading, or if not listed or admitted to trading on any national securities exchange, the average of the closing bid and ask prices as furnished by two FINRA members selected from time to time by us for that purpose, and will be determined without reference to after hours or extended hours trading. If such security is not listed and traded in a manner that the quotations referred to above are available for the period required under the warrants, the

Table of Contents

market price will be deemed to be the fair market value per share of such security as determined in good faith by our board of directors in reliance on an opinion of a nationally recognized independent investment banking firm retained by us for this purpose. If any such security is listed or traded on a non-U.S. market, such fair market value will be determined by reference to the closing price of such security as of the end of the most recently ended business day in such market prior to the date of determination. If making any such determination requires the conversion of any currency other than U.S. dollars into U.S. dollars, such conversion will be done in accordance with customary procedures based on the rate for conversion of such currency into U.S. dollars displayed on the relevant page by Bloomberg L.P. (or any successor or replacement service) on or by 4:00 p.m., New York City time, on such exercise date. For the purposes of determining the market price of our common stock on the *trading day* preceding, on or following the occurrence of an event, (i) that trading day will be deemed to commence immediately after the regular scheduled closing time of trading on the NYSE or, if trading is closed at an earlier time, such earlier time and (ii) that trading day will end at the next regular scheduled closing time, or if trading is closed at an earlier time, such earlier time (for the avoidance of doubt, and as an example, if the market price is to be determined as of the last trading day preceding a specified event and the closing time of trading on a particular day is 4:00 p.m. and the specified event occurs at 5:00 p.m. on that day, the market price would be determined by reference to such 4:00 p.m. closing price).

Amendment

Any warrants may be amended and the observance of any material term of such warrants may be waived with the consent of a majority of the holders of such warrants; provided that the consent of each affected warrant holder is necessary for any amendment (i) to increase the exercise price or to decrease the number of shares issuable upon exercise of the warrants (other than pursuant to the terms of the adjustment provisions in the warrant certificate described above), (ii) that would shorten the time period during which the warrants are exercisable or (iii) that would change in a manner adverse to such warrant holder the terms of the adjustment provisions in the warrant certificate described above.

Description of the Warrant Agreement

Under the warrant agreement, Computershare Trust Company, N.A. is appointed as the warrant agent to act on our behalf in connection with the transfer, exchange, redemption, exercise and cancellation of the warrants and required to maintain a registry recording the names and addresses of all registered holders of warrants. The warrant agent will receive a fee in exchange for performing these duties under the warrant agreement and will be indemnified by us for liabilities not involving gross negligence, willful misconduct or bad faith and arising out of its service as warrant agent.

The warrants will initially be issued in the form of one or more global warrants as specified in the warrant agreement. Each global warrant will be deposited upon issuance with, or on behalf of, DTC, and will be registered in the name of DTC or a nominee of DTC, in each case for credit to the account of a direct or indirect participant in DTC. For a description of book-entry procedures and settlement mechanics generally applicable to securities held through DTC participants, see the section entitled *Book-Entry Issuance* below. Owners of a beneficial interest in any global warrant are entitled to receive a warrant in definitive form not held by a depository or the warrant agent only if (i) DTC is unwilling or unable to continue as depository for the global warrant or ceases to be a clearing agency under the Exchange Act (and, in each case, no successor depository is appointed within 90 days), (ii) we, in our sole discretion, notify the warrant agent of our election to issue warrants in definitive form under the warrant agreement or (iii) we have been adjudged bankrupt, consented to the filing of bankruptcy proceedings, or filed a petition, answer or consent seeking to reorganize under federal or state law.

Table of Contents

Governing Law

The warrants and the warrant agreement will be governed by New York law.

Book-Entry Issuance

The warrants may be issued as global warrants and deposited with a depository. The following is a summary of the depository arrangements applicable to warrants issued in permanent global form and for which DTC will act as depository (the *global warrants*). The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that we believe to be reliable, but we take no responsibility for the accuracy thereof.

Each global warrant will be deposited with, or on behalf of, DTC, as depository, or its nominee and registered in the name of a nominee of DTC. Except under the limited circumstances described below, global warrants will not be exchangeable for certificated warrants.

Only institutions that have accounts with DTC or its nominee (*DTC participants*) or persons that may hold interests through DTC participants may own beneficial interests in a global warrant. DTC will maintain records evidencing ownership of beneficial interests by DTC participants in the global warrants and transfers of those ownership interests. DTC participants will maintain records evidencing ownership of beneficial interests in the global warrants by persons that hold through those DTC participants and transfers of those ownership interests within those DTC participants. DTC has no knowledge of the actual beneficial owners of the warrants. You will not receive written confirmation from DTC of your purchase, but we do expect that you will receive written confirmations providing details of the transaction, as well as periodic statements of your holdings from the DTC participant through which you entered the transaction. The laws of some jurisdictions require that certain purchasers of securities take physical delivery of those securities in certificated form. Those laws may impair your ability to transfer beneficial interests in a global warrant.

DTC has advised us that upon the issuance of a global warrant and the deposit of that global warrant with DTC, DTC will immediately credit, on its book-entry registration and transfer system, the number of warrants represented by that global warrant to the accounts of DTC participants.

We will make any payments on warrants represented by a global warrant to DTC or its nominee, as the case may be, as the registered owner and holder of the global warrant representing those securities. DTC has advised us that upon receipt of any payment on a global warrant, DTC will immediately credit accounts of DTC participants with payments in amounts proportionate to their respective beneficial interests in that warrant, as shown in the records of DTC. Standing instructions and customary practices will govern payments by DTC participants to owners of beneficial interests in a global warrant held through those DTC participants, as is now the case with securities held for the accounts of customers in bearer form or registered in street
