## Notes to Condensed Consolidated Financial Statements

September 30, 2011

(Unaudited)

**(1) Interim Financial Statements:**

The accompanying condensed consolidated financial statements of PrimeEnergy Corporation ( "PEC" or the "Company" ) have not been audited by independent public accountants. During the interim periods, the Company follows the same accounting policies as used and described in its Annual Report on Form 10-K for the year ended December 31, 2010. In accordance with applicable Securities and Exchange Commission ( "SEC" ) rules and regulations, the accompanying interim financial statements do not include all disclosures presented in annual financial statements and the reader should refer to the Company's Form 10-K for the year ended December 31, 2010 filed with the SEC on April 7, 2011. In the opinion of management, the accompanying interim condensed consolidated financial statements contain all material adjustments, consisting only of normal recurring adjustments, necessary for a fair presentation of the Company's Condensed Consolidated Balance Sheets as of September 30, 2011 and December 31, 2010, the Condensed Consolidated Statements of Operations for the three and nine months ended September 30, 2011 and 2010, the Condensed Consolidated Statement of Stockholders' Equity for the nine months ended September 30, 2011, and the Condensed Consolidated Statements of Comprehensive Income and Cash Flows for the nine months ended September 30, 2011 and 2010. Certain amounts presented in prior period financial statements have been reclassified for consistency with current period presentation. The results for interim periods are not necessarily indicative of annual results. For purposes of disclosure in the condensed consolidated financial statements, subsequent events have been evaluated through the date the statements were issued.

***Recently Issued Accounting Pronouncements***

In May 2011, the Financial Accounting Standards Board ( "FASB" ) issued Accounting Standards Update ( "ASU" ) No. 2011-04 "Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in US GAAP and IFRSs". This ASU amends previously issued authoritative guidance and requires new disclosures, clarifies existing disclosures and is effective for interim and annual periods beginning after December 15, 2011. Early application by public entities is not permitted. The amendments change requirements for measuring fair value and disclosing information about those measurements. Additionally, this ASU clarifies the FASB's intent regarding the application of existing fair value measurement requirements and changes certain principles or requirements for measuring fair value or disclosing information about its measurements. For many of the requirements, the FASB does not intend the amendments to change the application of the existing Fair Value Measurements guidance. The Company does not expect this guidance to have a significant impact on its financial position, results of operations or cash flows.

In June 2011, the FASB issued ASU No. 2011-05, "Presentation of Comprehensive Income", which amends current comprehensive income guidance. This accounting update eliminates the option to present the components of other comprehensive income as part of the statement of shareholders' equity. Instead, the Company must report comprehensive income in either a single continuous statement of comprehensive income which contains two sections, net income and other comprehensive income, or in two separate but consecutive statements. The new requirements are effective for public entities for interim and annual periods beginning after December 15, 2011 with early adoption permitted. The adoption of this ASU will not have an impact on the Company's consolidated financial position, results of operations or cash flows as it only requires a change in the format of the current presentation.

In September 2011, the FASB issued ASU No. 2011-08, "Testing Goodwill for Impairment", which amends the current goodwill impairment testing guidance. Under this accounting update, entities have the option of performing a qualitative assessment before calculating the fair value of the reporting unit when testing goodwill for impairment. If the fair value of the reporting unit is determined, based on qualitative factors, to be more likely than not less than the carrying amount of the reporting unit, then entities are required to perform the two-step goodwill impairment test. This ASU is effective for fiscal years beginning after December 15, 2011, with early adoption permitted. The adoption of this ASU will not have an impact on the Company's consolidated financial position, results of operations or cash flows as it is a change in application of the goodwill impairment test only.

**(2) Acquisitions and Dispositions:**

Historically the Company has repurchased the interests of the partners and trust unit holders in the eighteen oil and gas limited partnerships (the "Partnerships") and the two asset and business income trusts (the "Trusts") managed by the Company as general partner and as managing trustee,

Edgar Filing: PRIMEENERGY CORP - Form 10-Q

respectively. The Company purchased such interests in an amount totaling \$192,000 and \$6,000 for the nine months ended September 30, 2011 and 2010, respectively.

**Table of Contents****(3) Restricted Cash and Cash Equivalents:**

Restricted cash and cash equivalents include \$7,267,000 and \$6,131,000 at September 30, 2011 and December 31, 2010, respectively, of cash primarily pertaining to oil and gas revenue payments. There were corresponding accounts payable recorded at September 30, 2011 and December 31, 2010 for these liabilities. Both the restricted cash and the accounts payable are classified as current on the Condensed Consolidated Balance Sheet.

**(4) Additional Balance Sheet Information:**

Certain balance sheet amounts are comprised of the following:

<i>(Thousands of dollars)</i>	<b>September 30, 2011</b>	<b>December 31, 2010</b>
<b>Accounts Receivable:</b>		
Joint interest billing	\$ 2,547	\$ 2,538
Trade receivables	2,075	1,688
Oil and gas sales	8,352	8,139
Other	131	724
	13,105	13,089
Less: Allowance for doubtful accounts	399	341
Total	\$ 12,706	\$ 12,748
<b>Accounts Payable:</b>		
Trade	\$ 4,073	\$ 3,421
Royalty and other owners	12,194	10,395
Prepaid drilling deposits	4,134	12,871
Other	7,033	7,689
Total	\$ 27,434	\$ 34,376
<b>Accrued Liabilities:</b>		
Compensation and related expenses	\$ 3,426	\$ 2,010
Property costs	2,758	3,282
Income tax	3	930
Other	1,139	1,454
Total	\$ 7,326	\$ 7,676

**(5) Property and Equipment:**

Property and equipment at September 30, 2011 and December 31, 2010 consisted of the following:

<i>(Thousands of dollars)</i>	<b>September 30, 2011</b>	<b>December 31, 2010</b>
Proved oil and gas properties, at cost	\$ 476,679	\$ 453,145
Unproved oil and gas properties, at cost		698
Less: Accumulated depletion and depreciation	347,964	310,809

Edgar Filing: PRIMEENERGY CORP - Form 10-Q

	\$ 128,715	\$ 143,034
Field service equipment and other	\$ 21,306	\$ 19,499
Less: Accumulated depreciation	13,316	12,705
	\$ 7,990	\$ 6,794
Total net property and equipment	\$ 136,705	\$ 149,828

**(6) Long-Term Bank Debt:**

***Bank Debt:***

Effective June 22, 2011, the Company entered into a Second Amendment to the Second Amended and Restated Credit Agreement ( Second Amendment ). The Second Amendment to this \$250 million credit facility increased the Company s borrowing base to \$125 million; removed the floor rate component of LIBO rate loans; modified financial reporting requirements to the agent; increased hedging allowances; and allowed for a one-time advance to be made to the Company s offshore subsidiary. Subject to facility borrowing base availability amounts, the banks approved a one-time advance of up to \$16 million to be made from PEC to its offshore subsidiary specifically to be used to pay in full the offshore subsidiary s

**Table of Contents**

indebtedness to a related party. The banks required this advance to be made within 30 days after the effective date of the Second Amendment and the Company completed the advance to its offshore subsidiary on June 24, 2011. Under the Second Amendment, the maximum percentage of production available to enter into commodity hedge agreements was revised to 90% from 85% of proved developed producing reserves for each of the next succeeding four calendar years for crude oil and natural gas computed separately. In addition, following the Second Amendment the Company's restriction on payments for dividends, distributions or repurchase of PEC's stock was increased from \$1.0 million to \$2.5 million in each calendar year. Borrowing base monthly reduction amounts remain at \$2 million with the first reduction to now begin on December 15, 2011.

The Company's borrowing rates in the credit facility provide for base rate loans at the prime rate (3.25% at September 30, 2011) plus applicable margin utilization rates that range from 1.75% to 2.0%, and LIBO rate loans at LIBO published rates plus applicable utilization rates (2.75% to 3.00% at September 30, 2011). As of September 30, 2011, the Company had in place one base rate loan and one LIBO rate loan with effective rates of 5.00% and 2.97%, respectively.

At September 30, 2011, the Company had \$69.5 million of borrowings outstanding under its revolving credit facility at a weighted-average interest rate of 4.05% and \$55.5 million available for future borrowings. The combined weighted average interest rates paid on outstanding bank borrowings subject to base rate and LIBO interest were 5.04% during the first nine months of 2011 as compared to 6.11% during the same period in 2010.

**Indebtedness to related parties:**

Effective January 3, 2011, the Company's loan with a private lender that is controlled by a Director of PEC was modified and provided for a payment from the Company's offshore subsidiary to the private lender of \$4.0 million. On January 18, 2011, the Company's offshore subsidiary made a \$4.0 million payment on this loan. Further, on June 27, 2011, this loan along with all accrued interest was paid in full from the Company's offshore subsidiary and the note was cancelled.

**(7) Other Long-Term Obligations and Commitments:****Operating Leases:**

The Company has several non-cancelable operating leases, primarily for rental of office space, that have a term of more than one year. The future minimum lease payments for the rest of the fiscal 2011 and thereafter for the operating leases are as follows:

<i>(Thousands of dollars)</i>	<b>Operating Leases</b>
2011	\$ 202
2012	555
2013	434
2014	16
<b>Total minimum payments</b>	<b>\$ 1,207</b>

Rent expense for office space for the nine months ended September 30, 2011 and 2010 was \$588,000 and \$588,000, respectively.

**Asset Retirement Obligation:**

A reconciliation of the liability for plugging and abandonment costs for the nine months ended September 30, 2011 is as follows:

<i>(Thousands of dollars)</i>		
Asset retirement obligation	December 31, 2010	\$ 17,147
Liabilities incurred		315

## Edgar Filing: PRIMEENERGY CORP - Form 10-Q

Liabilities settled	(322)
Accretion expense	1,727
Asset retirement obligation September 30, 2011	\$ 18,867

The Company's liability is determined using significant assumptions, including current estimates of plugging and abandonment costs, annual inflation of these costs, the productive life of wells and a risk-adjusted interest rate. Changes in any of these assumptions can result in significant revisions to the estimated asset retirement obligation. Revisions to the asset retirement obligation are recorded with an offsetting change to producing properties, resulting in prospective changes to depreciation, depletion and amortization expense and accretion of discount. Because of the subjectivity of assumptions and the relatively long life of most of the Company's wells, the costs to ultimately retire the wells may vary significantly from previous estimates.

**Table of Contents****(8) Contingent Liabilities:**

The Company, as managing general partner of the affiliated Partnerships, is responsible for all Partnership activities, including the drilling of development wells and the production and sale of oil and gas from productive wells. The Company also provides the administration, accounting and tax preparation work for the Partnerships, and is liable for all debts and liabilities of the affiliated Partnerships, to the extent that the assets of a given limited Partnership are not sufficient to satisfy its obligations. As of September 30, 2011, the affiliated Partnerships have established cash reserves in excess of their debts and liabilities and the Company believes these reserves will be sufficient to satisfy Partnership obligations.

The Company is subject to environmental laws and regulations. Management believes that future expenses, before recoveries from third parties, if any, will not have a material effect on the Company's financial condition. This opinion is based on expenses incurred to date for remediation and compliance with laws and regulations, which have not been material to the Company's results of operations.

From time to time, the Company is party to certain legal actions arising in the ordinary course of business. While the outcome of these events cannot be predicted with certainty, management does not expect these matters to have a materially adverse effect on the financial position or results of operations of the Company.

**(9) Stock Options and Other Compensation:**

In May 1989, non-statutory stock options were granted by the Company to four key executive officers for the purchase of shares of common stock. At September 30, 2011 and 2010, options on 767,500 shares were outstanding and exercisable at prices ranging from \$1.00 to \$1.25. According to their terms, the options have no expiration date.

**(10) Related Party Transactions:**

The Company, as managing general partner or managing trustee, makes an annual offer to repurchase the interests of the partners and trust unit holders in certain of the Partnerships or Trusts. The Company purchased such interests in amounts totaling \$192,000 and \$6,000 for the nine months ended September 30, 2011 and 2010, respectively.

Receivables from related parties consist of reimbursable general and administrative costs, lease operating expenses and reimbursement for property development and related costs. These receivables are due from joint venture partners, which may include members of the Company's Board of Directors.

Payables owed to related parties primarily represent receipts collected by the Company as agent for the joint venture partners, which may include members of the Company's Board of Directors, for oil and gas sales net of expenses. Also included in due to related parties at December 31, 2010 was the amount of accrued interest, \$170,000, owed to a related party, a company controlled by a Director of the Company, with whom the Company's offshore subsidiary entered into a credit agreement. This agreement was concluded as of June 2011 and all interest owed and the loan balance remaining was paid at that time.

**(11) Financial Instruments*****Fair Value measurements:***

Authoritative guidance on fair value measurements defines fair value, establishes a framework for measuring fair value and stipulates the related disclosure requirements. The Company follows a three-level hierarchy, prioritizing and defining the types of inputs used to measure fair value. The fair values of the Company's interest rate swaps, natural gas and crude oil price collars and swaps are designated as Level 3. The following fair value hierarchy table presents information about the Company's assets and liabilities measured at fair value on a recurring basis as of September 30, 2011 and December 31, 2010:

	Quoted Prices in Active Markets For Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Balance as of September 30, 2011
September 30, 2011

Included in earnings (a)		13,446
Purchases, sales, issuances and settlements		(4,431)
<b>Net assets</b>	<b>September 30, 2011</b>	<b>\$ 6,422</b>

- (a) Derivative instruments are reported in revenues as realized gain/loss and on a separately reported line item captioned unrealized gain/loss on derivative instruments.

**Derivative Instrument:**

The Company is exposed to commodity price and interest rate risk, and management considers periodically the Company's exposure to cash flow variability resulting from the commodity price changes and interest rate fluctuations. Futures, swaps and options are used to manage the Company's exposure to commodity price risk inherent in the Company's oil and gas production operations. The Company does not apply hedge accounting to any of its commodity based derivatives. Both realized and unrealized gains and losses associated with derivative instruments are recognized in earnings.

The following table sets forth the effect of derivative instruments on the condensed consolidated balance sheets as of September 30, 2011 and December 31, 2010:

(Thousands of dollars)	Balance Sheet Location	Fair Value	
		September 30, 2011	December 31, 2010
<b>Asset Derivatives:</b>			
<i>Derivatives not designated as hedging instruments:</i>			
Natural gas commodity contracts (a)	Other current assets	\$ 2,672	\$ 3,038
Crude oil commodity contracts	Other current assets	467	
Natural gas commodity contracts (a)	Other assets	471	
Crude oil commodity contracts	Other assets	2,812	4

Crude oil commodity contracts (a)	Realized gain (loss) on derivative instruments, net	1,462	(96)
		\$ 13,446	\$ 9,625

- (a) In August 2011, the Company unwound and monetized crude oil swaps and collars with original settlement dates from September 2011 through December 2014 for net proceeds of \$3.4 million. The \$3.4 million gain associated with these early settlement transactions is included in realized gain on derivative instruments for the three and nine months ended September 30, 2011.

**(12) Earnings Per Share:**

Basic earnings per share are computed by dividing earnings available to common stockholders by the weighted average number of common shares outstanding during the period. Diluted earnings per share reflect per share amounts that would have resulted if dilutive potential common stock had been converted to common stock in gain periods. The following reconciles amounts reported in the financial statements:

	Nine Months Ended September 30,					
	Net Income (In 000 s)	2011 Weighted Average Number of Shares Outstanding	Per Share Amount	Net Income (In 000 s)	2010 Weighted Average Number of Shares Outstanding	Per Share Amount
Basic	\$ 5,093	2,758,388	\$ 1.85	\$ 10,473	2,954,433	\$ 3.54
Effect of dilutive securities:						
Options		733,063			732,607

### **Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

This report may contain statements relating to the future results of the Company that are considered forward-looking statements as defined in the Private Securities Litigation Reform Act of 1995 (the PSLRA). In addition, certain statements may be contained in the Company's future filings with the SEC, in press releases, and in oral and written statements made by or with the approval of the Company that are not statements of historical fact and constitute forward-looking statements within the meaning of the PSLRA. Such forward-looking statements, in addition to historical information, which involve risk and uncertainties, are based on the beliefs, assumptions and expectations of management of the Company. Words such as expects, believes, should, plans, anticipates, will, potential, could, intend, may, outlook, prediction, estimates, assumes, likely and variations of such similar expressions are intended to identify such forward-looking statements. These statements are not guarantees of future performance and involve risks and uncertainties and are based on a number of assumptions that could ultimately prove inaccurate and, therefore, there can be no assurance that they will prove to be accurate. Actual results and outcomes may vary materially from what is expressed or forecast in such statements due to various risks and uncertainties. These risks and uncertainties include, among other things, the possibility of drilling cost overruns and technical difficulties, volatility of oil and gas prices, competition, risks inherent in the Company's oil and gas operations, the inexact nature of interpretation of seismic and other geological and geophysical data, imprecision of reserve estimates, and the Company's ability to replace and expand oil and gas reserves. Accordingly, stockholders and potential investors are cautioned that certain events or circumstances could cause actual results to differ materially from those projected. The forward looking statements are made as of the date of this report and other than as required by the federal securities laws, the Company assumes no obligation to update the forward-looking statement or to update the reasons why actual results could differ from those projected in the forward-looking statements.

This discussion should be read in conjunction with the condensed consolidated financial statements of the Company and notes thereto.

### **OVERVIEW**

We are an independent oil and natural gas company engaged in acquiring, developing and producing oil and natural gas. We presently own producing and non-producing properties located primarily in Texas, Oklahoma, West Virginia, the Gulf of Mexico, New Mexico, Colorado and Louisiana. In addition, we own a substantial amount of well servicing equipment. All of our oil and gas properties and interests are located in the United States. Assets in our principal focus areas include mature properties with long-lived reserves and significant development opportunities as well as newer properties with development and exploration potential. We believe our balanced portfolio of assets and our ongoing hedging program position us well for both the current commodity price environment and future potential upside as we develop our attractive resource opportunities. Our primary sources of liquidity are cash generated from our operations and our credit facility.

We attempt to assume the position of operator in all acquisitions of producing properties and will continue to evaluate prospects for leasehold acquisitions and for exploration and development operations in areas in which we own interests. We continue to actively pursue the acquisition of producing properties. In order to diversify and broaden our asset base, we will consider acquiring the assets or stock in other entities and companies in the oil and gas business. Our main objective in making any such acquisitions will be to acquire income producing assets so as to build stockholder value through consistent growth in our oil and gas reserve base on a cost-efficient basis.

Our cash flows depend on many factors, including the price of oil and gas, the success of our acquisition and drilling activities and the operational performance of our producing properties. We use derivative instruments to manage our commodity price risk. This practice may prevent us from receiving the full advantage of any increases in oil and gas prices above the maximum fixed amount specified in the derivative agreements and subjects us to the credit risk of the counterparties to such agreements. Since all of our derivative contracts are accounted for under mark-to-market accounting, we expect continued volatility in gains and losses on mark-to-market derivative contracts in our consolidated income statement as changes occur in the NYMEX price indices.

### **RECENT ACTIVITIES**

During the first nine months of 2011, we continued our drilling program in our West Texas district, drilling a total of 21 gross (13.8 net) wells, all of which were successful completions. We intend to drill approximately 30 wells this year, primarily in the West Texas area.

In June 2011, we successfully completed an amendment of our \$250 million credit facility with an increase in the borrowing base from \$100 million to \$125 million and closed our previously existing subordinated credit facility with a related party private lender.

### **RESULTS OF OPERATIONS**

*Oil and gas sales* increased \$3.0 million, or 16% from \$18.7 million for the third quarter 2010 to \$21.7 million for the third quarter 2011 and \$4.2 million, or 7% from \$61.0 million for the nine months ended September 30, 2010 to \$65.2 million for the nine months ended September 30,

## Edgar Filing: PRIMEENERGY CORP - Form 10-Q

2011. Crude oil and natural gas sales vary due to changes in volumes of production sold and realized commodity prices. Our realized prices at the well head increased an average of \$8.01 per barrel, or 11% and \$1.45 per mcf, or 27% on crude oil and natural gas, respectively, during the third quarter 2011 from the same period in 2010. Our realized prices at the well

**Table of Contents**

head increased an average of \$16.21 per barrel, or 22% and \$0.72 per mcf, or 13% on crude oil and natural gas, respectively, during the nine months ended September 30, 2011 as compared to the nine months ended September 30, 2010.

Our crude oil production increased by 12,000 barrels, or 8% from 143,000 barrels for the third quarter 2010 to 155,000 barrels for the third quarter 2011 and decreased 13,000 barrels, or 3% from 471,000 barrels for the nine months ended September 30, 2010 to 458,000 barrels for the nine months ended September 30, 2011. Our natural gas production decreased by 191,000 mcf, or 13% from 1,485,000 mcf for the third quarter 2010 to 1,294,000 mcf for the third quarter 2011 and 853,000 mcf, or 19% from 4,556,000 mcf for the nine months ended September 30, 2010 to 3,703,000 mcf for the nine months ended September 30, 2011. The crude oil production variances are a result of our recent drilling success in West Texas and the Gulf Coast regions as we place new wells into production, partially offset by the natural decline of existing properties. The natural gas volume decreases are primarily due to the natural decline of the primary natural gas producing offshore properties, partially offset by production from wells in the West Texas region recently placed into production.

The following table summarizes the primary components of production volumes and average sales prices realized for the three and nine months ended September 30, 2011 and 2010 (excluding realized gains and losses from derivatives).

	Three Months Ended September 30,			Nine Months Ended September 30,		
	2011	2010	Increase / (Decrease)	2011	2010	Increase / (Decrease)
Barrels of Oil Produced	155,000	143,000	12,000	458,000	471,000	(13,000)
Average Price Received (rounded, excluding the impact of derivatives)	\$ 83.86	\$ 75.85	\$ 8.01	\$ 90.19	\$ 73.98	\$ 16.21
Oil Revenue (In 000 s)	\$ 13,001	\$ 10,842	\$ 2,159	\$ 41,283	\$ 34,847	\$ 6,436
Mcf of Gas Produced	1,294,000	1,485,000	(191,000)	3,703,000	4,556,000	(853,000)
Average Price Received (rounded, excluding the impact of derivatives)	\$ 6.77	\$ 5.32	\$ 1.45	\$ 6.47	\$ 5.75	\$ 0.72
Gas Revenue (In 000 s)	\$ 8,756	\$ 7,903	\$ 853	\$ 23,953	\$ 26,180	\$ (2,227)
Total Oil & Gas Revenue (In 000 s)	\$ 21,757	\$ 18,745	\$ 3,012	\$ 65,236	\$ 61,027	\$ 4,209

**Realized net gains on derivative instruments** include net gains of \$3.3 million and \$1.0 million on the settlements of crude oil and natural gas derivatives, respectively, for the third quarter 2011 and \$0 and \$1.0 million on the settlements of crude oil and natural gas derivatives, respectively, for the third quarter 2010. Realized net gains on derivative instruments include net gains of \$1.4 million and \$3.0 million on the settlements of crude oil and natural gas derivatives, respectively, for the nine months ended September 30, 2011 and a net loss of \$0.1 million and net gain of \$2.7 million on the settlements of crude oil and natural gas derivatives, respectively, for the nine months ended September 30, 2010. In August 2011, we unwound and monetized crude oil swaps and collars with original settlement dates from September 2011 through December 2014 for net proceeds of \$3.4 million. The \$3.4 million gain associated with these early settlement transactions is included in realized gain on derivative instruments for the three and nine months ended September 30, 2011.

Oil and gas prices received including the impact of derivatives but excluding the early settlement transactions were:

	Three Months Ended September 30,			Nine Months Ended September 30,		
	2011	2010	Increase	2011	2010	Increase
Oil Price	\$ 83.22	\$ 75.85	\$ 7.37	\$ 85.96	\$ 73.78	\$ 12.18
Gas Price	\$ 7.54	\$ 6.00	\$ 1.54	\$ 7.27	\$ 6.33	\$ 0.94

We do not apply hedge accounting to any of our commodity based derivatives thus changes in the fair market value of commodity contracts held at the end of a reported period, referred to as mark-to-market adjustments, are recognized as unrealized gains and losses in the accompanying consolidated statements of operations. As oil and natural gas prices remain volatile, mark-to-market accounting treatment creates volatility in our revenues. During the three months ended September 30, 2011, we recognized \$12.5 million in unrealized gains. This unrealized gain consists of \$11.4 million associated with crude oil fixed swaps and collars due to a decrease in crude oil futures market prices between June 30, 2011 and

## Edgar Filing: PRIMEENERGY CORP - Form 10-Q

September 30, 2011 and \$1.1 million associated with natural gas fixed swap contracts due to decreased natural gas futures market prices between June 30, 2011 and September 30, 2011. For the nine months ended September 30, 2011, we recognized \$9.0 million in unrealized gains primarily associated with crude oil fixed swaps and collars due to a decrease in crude oil futures market prices between December 31, 2010 and September 30, 2011.

**Field service income** increased \$1.1 million, or 24% from \$4.3 million for the third quarter 2010 to \$5.4 million for the third quarter 2011 and \$3.0 million, or 25% from \$12.2 million for the nine months ended September 30, 2010 to \$15.2 million for the nine months ended September 30, 2011. This increase is a direct result of upturns in utilization of equipment and the market allowing us to charge

**Table of Contents**

higher rates to customers. Workover rig services represent the bulk of our field service operations, and those rates all increased in our most active districts. Utilization of our workover rigs increased in all districts. Water hauling and disposal services also increased in our South Texas district

**Lease operating expense** increased \$2.0 million, or 26% from \$7.7 million for the third quarter 2010 to \$9.7 million for the third quarter 2011 and \$1.2 million, or 5% from \$25.3 million for the nine months ended September 30, 2010 to \$26.5 million for the nine months ended September 30, 2011. These increases are primarily due to higher salt water disposal costs, production taxes and chemical expenses associated with new wells coming on line from the recent drilling success in West Texas, partially offset by decreased operating expenses on the offshore properties and decreased expensed workovers across all districts during the first nine months of 2011.

**Field service expense** increased \$0.8 million, or 22% from \$3.6 million for the third quarter 2010 to \$4.4 million for the third quarter 2011 and \$2.4 million, or 24% from \$10.1 million for the nine months ended September 30, 2010 to \$12.5 million for the nine months ended September 30, 2011. Field service expenses primarily consist of salaries and vehicle operating expenses which have increased \$1.3 million and \$1.1 million, respectively, during the nine months ended September 30, 2011 over the same period of 2010 as a direct result of increased services and utilization of the equipment.

**Depreciation, depletion, amortization and accretion on discounted liabilities** increased \$15.6 million from \$7.3 million for the third quarter 2010 to \$22.9 million for the third quarter 2011 and \$16.7 million, or 69% from \$24.2 million for the nine months ended September 30, 2010 to \$40.9 million for the nine months ended September 30, 2011. Included in these increases is approximately \$13.4 million and \$14.4 million for the three and nine months ended September 30, 2011, respectively, related to an increased depletion rate recognized during the third quarter of 2011 associated with offshore properties driven by a decrease in estimated remaining economic reserves as several of our offshore properties enter into the last phase of their productive lives. The remaining increases of \$2.2 million and \$2.3 million for the three and nine months ended September 30, 2011, respectively, primarily relate to the increased production with new wells coming on line from the recent drilling success in West Texas.

**Gain on sale and exchange of assets** of \$1.4 million for the third quarter 2011 consists of \$0.5 million related to our Korean Joint Venture combined with \$0.9 million related to sales of non-producing acreage and non-core producing properties.

**Interest expense** decreased \$0.9 million, or 58% from \$1.6 million for the third quarter 2010 to \$0.7 million for the third quarter 2011 and \$2.3 million, or 42% from \$5.3 million for the nine months ended September 30, 2010 to \$3.0 million for the nine months ended September 30, 2011. These decreases include the reduction of interest expense of \$0.5 million and \$0.7 million for the three and nine months ended September 30, 2011, respectively, associated with interest on the subordinated credit facility with a related party private lender which was paid off in June 2011. The remaining decreases of \$0.4 million and \$1.6 million for the three and nine months ended September 30, 2011, respectively, relate to reduced weighted average interest rates and less average debt outstanding during the 2011 periods.

**LIQUIDITY AND CAPITAL RESOURCES**

Our primary capital resources are cash provided by our operating activities and our credit facility.

Net cash provided by our operating activities for the nine month period ended September 30, 2011 was \$31.1 million. Excluding the effects of significant unforeseen expenses or other income, our cash flow from operations fluctuates primarily because of variations in oil and gas production and prices or changes in working capital accounts. Our oil and gas production will vary based on actual well performance but may be curtailed due to factors beyond our control. Hurricanes in the Gulf of Mexico may shut down our production for the duration of the storm's presence in the Gulf or damage production facilities so that we cannot produce from a particular property for an extended amount of time. In addition, downstream activities on major pipelines in the Gulf of Mexico can also cause us to shut-in production for various lengths of time.

Our realized oil and gas prices vary due to world political events, supply and demand of products, product storage levels, and weather patterns. We sell the vast majority of our production at spot market prices. Accordingly, product price volatility will affect our cash flow from operations. To mitigate price volatility we sometimes lock in prices for some portion of our production through the use of financial instruments.

Our activities include development and exploratory drilling. Our strategy is to develop a balanced portfolio of drilling prospects that includes lower risk wells with a high probability of success and higher risk wells with greater economic potential. During 2011, we plan on drilling in excess of 30 wells (20 net), mainly in the Permian Basin in West Texas.

We have in place both a stock repurchase program and a limited partnership interest repurchase program under which we expect to continue spending during 2011. For the nine month period ended September 30, 2011, we have spent \$1.8 million under these programs.

## Edgar Filing: PRIMEENERGY CORP - Form 10-Q

We currently maintain a credit facility totaling \$250 million, with a current borrowing base of \$125 million. The bank reviews the borrowing base semi-annually and, at their discretion, may decrease or propose an increase to the borrowing base relative to a redetermined estimate of proved oil and gas reserves. Our oil and gas properties are pledged as collateral for the line of credit and we are subject to certain financial and operational covenants defined in the agreement. We are currently in compliance with these

**Table of Contents**

covenants. If we do not comply with these covenants on a continuing basis, the lenders have the right to refuse to advance additional funds under the facility and/or declare all principal and interest immediately due and payable.

It is our goal to increase our oil and gas reserves and production through the acquisition and development of oil and gas properties. We also continue to explore and consider opportunities to further expand our oilfield servicing revenues through additional investment in field service equipment. However, the majority of our capital spending is discretionary, and the ultimate level of expenditures will be dependent on our assessment of the oil and gas business environment, the number and quality of oil and gas prospects available, the market for oilfield services, and oil and gas business opportunities in general.

**Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

The Company is a smaller reporting company and no response is required pursuant to this Item.

**Item 4. CONTROLS AND PROCEDURES**

As of the end of the current reported period covered by this report, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Rules 13a-15 and 15d-15 of the Securities Exchange Act of 1934 (the Exchange Act). Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective with respect to the recording, processing, summarizing and reporting, within the time periods specified in the Commission's rules and forms, of information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act.

There were no changes in the Company's internal control over financial reporting that occurred during the first nine months of 2011 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

**Table of Contents****PART II OTHER INFORMATION****Item 1. LEGAL PROCEEDINGS**

None.

**Item 1A. RISK FACTORS**

The Company is a smaller reporting company and no response is required pursuant to this Item.

**Item 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS**

There were no sales of equity securities by the Company during the period covered by this report.

During the nine months ended September 30, 2011, the Company purchased the following shares of common stock as treasury shares.

<b>2011 Month</b>	<b>Number of Shares</b>	<b>Average Price Paid per share</b>	<b>Maximum Number of Shares that May Yet Be Purchased Under The Program at Month - End (1)</b>
January	17,225	\$ 19.44	238,372
February	12,110	\$ 24.08	226,262
March	12,492	\$ 26.61	213,770
April	5,227	\$ 27.63	208,543
May	1,788	\$ 27.17	206,755
June	1,152	\$ 23.55	205,603
July	8,702	\$ 24.26	196,901
August	6,544	\$ 20.93	190,357
September	5,484	\$ 19.25	184,873
Total/Average	70,724	\$ 23.08	

- (1) In December 1993, we announced that our Board of Directors authorized a stock repurchase program whereby we may purchase outstanding shares of our common stock from time-to-time, in open market transactions or negotiated sales. The Board of Directors of the Company approved an additional 300,000 shares of the Company's stock to be included in the stock repurchase program effective May 20, 2010. A total of 3,000,000 shares have been authorized, to date, under this program. Through September 30, 2011 we repurchased a total of 2,815,127 shares under this program for \$39,185,924 at an average price of \$13.92 per share. Additional purchases may occur as market conditions warrant. We expect future purchases will be funded with internally generated cash flow or from working capital.
