The growth layer's student enrollments increased 20.0% to 729,000 from 608,000 for the same period in 2010.

Commenting on the third quarter results, Ambow's President and Chief Executive Officer Dr. Jin Huang said, "I am pleased with Ambow's performance this quarter as we continue to successfully execute our strategy to sustain strong top-line growth and improve operating profit. We remain focused on growing our *Tutoring* and *Career Enhancement* services organically and satisfying the immense demand for these services through our diversified offerings.

Dr. Huang continued, "The initial results of our tutoring center expansion strategy are satisfying: we added 13 new tutoring centers in the third quarter and are on the way to exceeding our full-year goals. In addition, growth in *Tutoring* enrollments is reaccelerating and increased by 17.6% this quarter. Turning to *Career Enhancement*, we continue to experience strong demand for our signature programs, which combine updated hard-skill, soft-skill and project-based training. Direct enrollments from universities have grown explosively and now contribute over 55% of *Career Enhancement* enrollments. This is in part due to our CCEP program, launched in March this year, which has already attracted more than 17,000 students. In addition to our traditional individual-paid and IT focused programs, we have, with the acquisition of Genesis Education in the second quarter, expanded our reach to include corporate training and soft-skill training. Our strong organic growth resulted in a 50.8% year-over-year revenue increase in our growth layer. We expect student enrollments in *Tutoring* and *Career Enhancement* to exceed one million in 2011.

During the quarter we also closed our last acquisition of the year. Due to our strong organic growth, we expect that acquisitions will contribute to less than 10% of our annual revenue in 2011. Dr. Huang concluded.

Ambow's Chief Financial Officer, Paul Chow, added, "In the third quarter, the Growth Layer which consists of *Tutoring* and *Career Enhancement*, achieved approximately 27% year-over-year organic growth.

Turning to operations, I am very pleased to announce that, even though we are in the investment phase of our *Tutoring* and *Career Enhancement* businesses, we achieved 27.1% year-over-year non-GAAP operating income growth. Non-GAAP G&A expense⁵ as a percentage of sales decreased to 17.9% in the third quarter from 19.8% for the same period of 2010. This decrease is a direct result of our efforts to improve the efficiency and scalability of our business. Though we are still in the early stages of our expansion, it is our goal to maintain sustainable growth in both the top and bottom lines," concluded Mr. Chow.

⁵ Non-GAAP G&A expenses, being G&A expenses excluding share-based compensation expenses incurred for the respective period.

Financial Results for the Third Quarter of 2011:

Net Revenues

Total net revenues for the third quarter of 2011 were \$72.8 million, increasing 42.6% year-over-year from \$51.1 million for the same period in 2010.

Better Schools

Tutoring revenue increased 32.7% to \$33.9 million from \$25.5 million for the same period in 2010. The Company noted that the revenue growth in *Tutoring* was primarily a result of 17.6% growth in enrollments and 12.9% growth in Average Selling Price (ASP).

K-12 Schools revenue increased 1.0% to \$7.9 million from \$7.8 million for the same period in 2010. During the quarter, enrollments decreased 7.8% while ASP increased 6%. The drop in enrollments was because we reverted the operating right for the Junior High portion of Zhenjiang Foreign Language School back to the original owner at the beginning of the third quarter. This is in line with Ambow's strategy to focus on the International High School Program, which the Company developed internally at the Zhenjiang school over the last three years. This shift will give Ambow more discretionary power over quality control, teacher management, pricing and other operations in the future.

No revenue was recognized from the Junior High business during the third quarter, and its revenue contribution over the last academic year through the second quarter of 2011 was a total of \$3.38 million. The Company anticipated \$0.24 million revenue from the Junior High business in the third quarter. It does not expect this adjustment to have any impact on operating profits in the future.

Total student enrollments in Better Schools for the third quarter of 2011 were approximately 252,000, with 231,000 in *Tutoring* and 21,000 in *K-12 Schools*.

Better Jobs

Career Enhancement revenue increased 88.7% to \$23.0 million in the third quarter of 2011, compared to \$12.2 million for the same period in 2010. The Company noted that the revenue growth in *Career Enhancement* was the result of an impressive 147.1% enrollments growth and 23.6% decrease in ASP.

Colleges revenue increased 45.7% to \$8.1 million from \$5.6 million for the same period in 2010, with \$2.5 million attributable to the recognition of certain contributions from students, following the fulfillment of the related conditions. Such revenue did not arise in 2010 but will recur in future years in a similar pattern.

Total student enrollments in Better Jobs for the third quarter of 2011 were approximately 49,000, with 37,000 in *Career Enhancement* and over 12,000 in *Colleges*.

Gross Profit and Gross Margin

Overall gross profit increased 40.6% to \$41.0 million for the third quarter of 2011, compared to \$29.2 million for the same period in 2010. Gross margin was 56.3% for the third quarter of 2011 compared to 57.1% for the same period in 2010. The slight decrease in gross margin was due to tutoring center expansion costs and the return of *Career Enhancement*'s gross margin to normal levels.

Operating Expenses and Income

Operating expenses, which include selling and marketing, general and administrative and research and development expenses, were \$32.3 million for the third quarter of 2011, increasing 43.6% year-over-year from \$22.5 million for the same period in 2010. Basic and diluted non-GAAP net income per adjusted ADS⁶ attributable to Ambow was \$0.102 and \$0.097, respectively, compared to \$0.097 and \$0.091, respectively, for the same period in 2010.

Balance Sheet

The Company's deferred revenue balances as of September 30, 2011 and September 30, 2010 were \$99.1 million and \$91.2 million, respectively. Included in the 2011 balance was \$48.4 million of deferred revenue from the Company's growth layer, which increased by 43.9% year-over-year.

Colleges achieved 10.1% growth year-over-year and accounted for \$25.7 million of total net revenues for the nine months ended September 30, 2011, compared to \$23.3 million for the same period in 2010, with \$2.5 million attributable to the recognition of certain contributions from students, following the fulfillment of the related conditions. About Non-GAAP Financial Measures

To supplement Ambow's unaudited consolidated financial results presented in accordance with GAAP, Ambow uses the following measures defined as non-GAAP financial measures by the SEC: (i) Non-GAAP operating income, (ii) Non-GAAP net income, (iii) Non-GAAP net income attributable to Ambow per ADS basic and diluted and (iv) Adjusted EBITDA. These non-GAAP measures do not have any standardized meaning prescribed by GAAP and are therefore unlikely to be comparable to similar measures presented by other issuers. These measures should be considered as supplemental in nature and not as a substitute for the related financial information prepared in accordance with GAAP. Ambow believes these non-GAAP financial measures are useful to investors in allowing for greater transparency with respect to supplemental information used by management in its financial and operational decision making. Management compensates for these limitations by providing specific information regarding the GAAP amounts excluded from each non-GAAP measure. The accompanying tables have more details on the reconciliations with GAAP financial measures that are most directly comparable to non-GAAP financial measures.
