(CHANGE IN PRESENTATION OF FINANCIAL STATEMENTS)

For the six months ended September 30, 2011

(Consolidated Statement of Income)

Certain items in expenses regarding stock transfer agency business and pension management business, which had been recorded as General and Administrative Expenses in some domestic consolidated trust bank subsidiary until the previous period, have been recorded as Fee and Commission Expenses beginning with this interim period, from the standpoint that we should disclose our financial information which reflects economic conditions more clearly in a manner that actively responds to our profits, after turning the relevant trust bank subsidiary into a wholly-owned subsidiary of MHFG.

In order to reflect the change in presentation of financial statements, reclassification of interim consolidated financial statements for the six months ended September 30, 2010 has been made accordingly. As a result, Fee and Commission Expenses ¥51,976 million and General and Administrative Expenses ¥639,393 million presented in interim consolidated financial statements of income as of September 30, 2010 have been reclassified as Fee and Commission Expenses ¥56,171 million and General and Administrative Expenses ¥635,198 million.

(NOTES)

(NOTES TO CONSOLIDATED BALANCE SHEET)

Notes as of September 30, 2011

1. Securities include shares of ¥205,730 million and investments of ¥421 million in non-consolidated subsidiaries and affiliates.
2. Unsecured loaned securities which the borrowers have the right to sell or repledge amounted to ¥4,198 million and are included in trading securities under Trading Assets. MHFG has the right to sell or repledge some of unsecured borrowed securities, securities purchased under resale agreements and securities borrowed with cash collateral. Among them, the total of securities repledged was ¥7,979,875 million and securities neither repledged nor re-loaned was ¥2,290,198 million, respectively.
3. Loans and Bills Discounted include Loans to Bankrupt Obligors of ¥32,992 million and Non-Accrual Delinquent Loans of ¥614,401 million.

Loans to Bankrupt Obligors are loans, excluding loans written-off, on which delinquencies in payment of principal and/or interest have continued for a significant period of time or for some other reason there is no prospect of collecting principal and/or interest (Non-Accrual Loans), as per Article 96, Paragraph 1, Item 3, Subsections 1 to 5 or Item 4 of the Corporate Tax Law Enforcement Ordinance (Government Ordinance No. 97, 1965).

Non-Accrual Delinquent Loans represent Non-Accrual Loans other than (i) Loans to Bankrupt Obligors and (ii) loans on which interest payments have been deferred in order to assist or facilitate the restructuring of the obligors.

4. Balance of Loans Past Due for Three Months or More: ¥20,534 million

Loans Past Due for Three Months or More are loans on which payments of principal and/or interest have not been made for a period of three months or more since the next day following the first due date without such payments, and which are not included in Loans to Bankrupt Obligors, or Non-Accrual Delinquent Loans.

5. Balance of Restructured Loans: ¥566,532 million

Restructured Loans represent loans whose contracts were amended in favor of obligors (e.g., reduction of, or exemption from, stated interest, deferral of interest payments, extension of maturity dates and renunciation of claims) in order to assist or facilitate the restructuring of the obligors. Loans to Bankrupt Obligors, Non-Accrual Delinquent Loans and Loans Past Due for Three Months or More are not included.

6. Total balance of Loans to Bankrupt Obligors, Non-Accrual Delinquent Loans, Loans Past Due for Three Months or More, and Restructured Loans: ¥1,234,460 million.

The amounts given in Notes 3 through 6 above are gross amounts before deduction of amounts for the Reserves for Possible Losses on Loans.

7. In accordance with JICPA Industry Audit Committee Report No. 24, bills discounted are accounted for as financing transactions. The banking subsidiaries have rights to sell or pledge these bankers' acceptances, commercial bills, documentary bills and foreign exchange bills purchased. The face value of these bills amounted to ¥724,159 million.

8. The following assets were pledged as collateral:

Cash and Due from Banks:	¥	130 million
Trading Assets:	¥	7,714,564 million
Securities:	¥	18,267,899 million
Loans and Bills Discounted:	¥	8,612,388 million
Other Assets:	¥	127,315 million
Tangible Fixed Assets:	¥	110 million

The following liabilities were collateralized by the above assets:

Deposits:	¥	697,042 million
Call Money and Bills Sold:	¥	1,770,800 million
Payables under Repurchase Agreements:	¥	4,794,748 million
Guarantee Deposits Received under Securities Lending Transactions:	¥	8,617,365 million
Borrowed Money:	¥	10,587,402 million

In addition to the above, the settlement accounts of foreign and domestic exchange transactions or derivatives transactions and others were collateralized, and margins for futures transactions were substituted by Cash and Due from Banks of ¥15,421 million, Trading Assets of ¥179,302 million and Securities of ¥2,284,122 million and Loans and Bills Discounted of ¥75,647 million.

None of the assets was pledged as collateral in connection with borrowings by the non-consolidated subsidiaries and affiliates.

Other Assets include guarantee deposits of ¥106,585 million, collateral pledged for derivatives transactions and others of ¥266,833 million, margins for futures transactions of ¥53,430 million and other guarantee deposits of ¥36,254 million.

Rediscount of bills is conducted as financial transaction based on the JICPA Industry Audit Committee Report No. 24. As a result there was no balance for bankers' acceptances, commercial bills, documentary bills or foreign exchange bills purchased.

9. Overdraft protection on current accounts and contracts of the commitment line for loans are contracts by which banking subsidiaries are bound to extend loans up to the prearranged amount, at the request of customers, unless the customer is in breach of contract conditions. The unutilized balance of these contracts amounted to ¥59,591,701 million. Of this amount, ¥52,320,615 million relates to contracts of which the original contractual maturity is one year or less, or which are unconditionally cancelable at any time.

Since many of these contracts expire without being exercised, the unutilized balance itself does not necessarily affect future cash flows. A provision is included in many of these contracts that entitles the banking subsidiaries to refuse the execution of loans, or reduce the maximum amount under contracts when there is a change in the financial situation, necessity to preserve a claim or other similar reasons. The banking subsidiaries require collateral such as real estate and securities when deemed necessary at the time the contract is entered into. In addition, they periodically monitor customers' business conditions in accordance with internally established standards and take the necessary measures to manage credit risks such as amendments to contracts.

10. In accordance with the Land Revaluation Law (Proclamation No.34 dated March 31, 1998), land used for business operations of domestic consolidated banking subsidiaries was revalued. The applicable income taxes on the entire excess of revaluation are included in Deferred Tax Liabilities for Revaluation Reserve for Land under Liabilities, and the remainder, net of applicable income taxes, is stated as Revaluation Reserve for Land, net of Taxes included in Net Assets.

Revaluation date: March 31, 1998

Revaluation method as stated in Article 3, Paragraph 3 of the above law: Land used for business operations was revalued by calculating the value on the basis of the valuation by road rating stipulated in Article 2, Paragraph 4 of the Enforcement Ordinance relating to the Land Revaluation Law (Government Ordinance No.119 promulgated on March 31, 1998) with reasonable adjustments to compensate for sites with long depth and other factors, and also on the basis of the appraisal valuation stipulated in Paragraph 5.

11. Accumulated Depreciation of Tangible Fixed Assets amounted to ¥809,761 million.

The MHFG Group's operating segments are based on the nature of the products and services provided, the type of customer and the Group's management organization.

The reportable segment information, set forth below, is derived from the internal management reporting systems used by management to measure the performance of the Group's operating segments. Management measures the performance of each of the operating segments primarily in terms of net business profits (excluding the amounts of credit costs of trust accounts, before reversal of (provision for) general reserve for losses on loans) in accordance with internal managerial accounting rules and practices.
