Under its charter, the Nominating and Corporate Governance Committee has the authority to nominate persons to stand for election to and to fill vacancies on our Board of Directors. The Nominating and Corporate Governance Committee may consider the following criteria, as well as any other factors the Nominating and Corporate Governance Committee

deems appropriate, in recommending candidates for election to our Board of Directors: (i) personal and professional integrity, ethics and values; (ii) experience in corporate management, such as serving as an officer or former officer of a publicly-held company, and a general understanding of marketing, finance, operations, governance and other elements relevant to the success of a publicly-traded company in today's business environment; (iii) experience in management and in the Company's industry; (iv) experience as a board member of another publicly-held company; (v) academic or policy expertise in an area of the Company's operations; and (vi) practical and mature business judgment, including ability to make independent analytical inquiries. Although the Nominating and Corporate Governance Committee does not have a formal policy with regard to the consideration of diversity in identifying director nominees, it strives to nominate directors with a variety of complementary skills so that, as a group, the Board of Directors will possess the appropriate backgrounds, talent, perspectives, skills and expertise to oversee the Company's business. The Nominating and Corporate Governance Committee will consider director candidates recommended by stockholders, provided such recommendations are submitted in writing not later than the close of business on the ninetieth day, or earlier than the close of business on the one hundred twentieth day, prior to the anniversary of the preceding year's annual meeting of the stockholders. Such recommendations should include the name and address and other pertinent information about the candidate as is required to be included in the Company's proxy statement. Recommendations should be submitted to the corporate secretary of the Company at K12 Inc., 2300 Corporate Park Drive, Herndon, VA 20171, Attention: General Counsel and Secretary. The Nominating and Corporate Governance Committee will consider the same criteria set forth above when evaluating director candidates recommended by stockholders.

Board of Directors Leadership Structure

Currently, our Board of Directors has determined that the roles of the Chairman of the Board of Directors and our Chief Executive Officer should be separate. The decision whether to combine or separate these positions depends on what our Board of Directors deems to be in the long term interest of stockholders in light of prevailing circumstances. Our Board of Directors believes the Company is well-served by this flexible leadership structure and that the combination or separation of these positions should continue to be considered on an ongoing basis.

Risk Management

Our Board of Directors believes full and open communication with management is essential for effective risk management and oversight. Members of our Board of Directors discuss strategy and risks facing the Company with our Chief Executive Officer and our senior management at meetings of our Board of Directors or when members of our Board of Directors deem necessary, but normally, at least semi-annually. Because our Chief Executive Officer is a member of our Board of Directors, our Chief Executive Officer attends all Board of Directors meetings and is available to address any questions or concerns raised by our Board of Directors on risk management and any other related matters. Our Chief Executive Officer is also asked to contribute to the agenda for these meetings, so that each functional division of the Company can identify risk-related topics that may require Board of Directors attention, such as political risk, information security and privacy and systems infrastructure. Each quarter, our Chief Executive Officer presents to our Board of Directors on strategic matters involving our operations and strategic initiatives and also discusses key strategies, challenges, risks, and opportunities for the Company.

Management is responsible for the day-to-day management of risks that the Company faces, while our Board of Directors, as a whole and through its committees, is responsible for the oversight of risk management. In fiscal year 2011, our Board of Directors participated in an enterprise risk management assessment that was led by our management with the participation of outside advisors. Based on that review, we identified and prioritized enterprise-wide risks that in the judgment of our Board of Directors require ongoing monitoring and remediation. To meet that objective, our Board of Directors assigned these responsibilities to a management operating committee along with an obligation to make progress reports to the Board of Directors at least semi-annually. Our Board of Directors and management will assess on an ongoing basis whether additional external enterprise risk management assessments are needed for the Company.

In addition, our Board of Directors evaluates risks that may arise as the Company pursues new educational business, both domestically and internationally. In its risk oversight role, the Board of Directors monitors whether the risk management processes that management has designed and implemented are effective both as designed and as executed. While our Board of Directors is ultimately responsible for risk oversight, our three committees assist our Board of Directors in fulfilling these responsibilities in certain areas of risk. Our Audit Committee assists our Board of Directors in fulfilling its oversight responsibilities with respect to risk management in the areas of financial reporting and internal controls, and discusses with management the Company's policies with respect to those

matters. This includes risk management reports prepared by our internal audit department and provided to our Audit Committee on a quarterly basis. Our Compensation Committee assists our Board of Directors in fulfilling its oversight responsibilities with respect to the management of risks arising from our compensation policies and programs. Finally, our Nominating and Corporate Governance Committee assists our Board of Directors in fulfilling its oversight responsibilities with respect to the management of risks associated with board organization, membership and structure, succession planning for our directors, and corporate governance.

Risk Assessment in Compensation Programs

Consistent with SEC disclosure requirements, we have previously assessed the Company's compensation programs and concluded that our compensation policies and practices do not create risks that are reasonably likely to have a material adverse effect on the Company. Our management assessed the Company's executive and broad-based compensation and benefits programs to determine if the programs' provisions and operations create undesired or unintentional risks of a material nature. This risk assessment process included a review of our compensation policies and practices; analyses to identify risk and risk control related to such policies and practices; and determinations as to the sufficiency of risk identification, the balance of potential risk to potential reward, risk control, and the support of the programs and their risks to Company strategy. Since the risk assessment was concluded, we have not altered our compensation policies and practices in a manner that we believe would materially affect their risk profile.

Based on the foregoing, we believe that our compensation policies and practices do not create inappropriate or unintended significant risk to the Company as a whole. We also believe that our incentive compensation arrangements provide incentives that do not encourage risk-taking beyond the Company's ability to effectively identify and manage significant risks; are compatible with effective internal controls and the risk management practices of our Company; and are supported by the oversight and administration of the Compensation Committee with regard to executive compensation programs.

Code of Business Conduct and Ethics

We have adopted a Code of Business Conduct and Ethics that applies to all employees. The Code of Business Conduct and Ethics is available on our website at www.K12.com. We intend to satisfy the disclosure requirements under the Exchange Act regarding an amendment to, or waiver involving a director or officer from, our Code of Business Conduct and Ethics by posting such information on our website.

Stockholder Communications with the Board of Directors

Stockholders and other interested parties may communicate directly with our Board of Directors, individually or as a group, by sending an email to our General Counsel at OGC@K12.com, or by mailing a letter to K12 Inc., 2300 Corporate Park Drive, Herndon, VA 20171, Attn: General Counsel and Secretary. Our General Counsel will monitor these communications and will provide summaries of all received communications to our Board of Directors at its regularly scheduled meetings. Where the nature of a communication warrants, our General Counsel may decide to seek the more immediate attention of the appropriate committee of the Board of Directors or a director, or our management or independent advisors and will determine whether any response is necessary.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16 of the Exchange Act requires directors and executive officers and persons, if any, owning more than 10% of a class of the Company's equity securities to file with the SEC initial reports of ownership and reports of changes in ownership of the Company's equity and equity derivative securities. Based solely upon a review of the copies of such reports and written representations from reporting persons, we believe that all Section 16(a) filing requirements applicable to our officers, directors and greater than 10% stockholders were complied with on a timely basis for fiscal year 2011, except for a Form 4 for Ronald J. Packard that was filed late on December 22, 2010, and a Form 4 for Robert L. Moon that was filed late on March 9, 2011 both due to administrative errors.

Part I Executive Summary

Our Business

We are a technology-based education company focused on delivering proprietary curriculum and educational services created for individualized learning to students primarily in kindergarten through twelfth grade. Our proprietary curriculum is research-based and combines content with innovative technology to allow students with a wide spectrum of learning styles to receive an effective and engaging education regardless of geographic location or socio-economic background. This learning system is well-suited for virtual public schools, online school district-wide programs, public charter schools, hybrid programs and private schools that combine varying degrees of online and traditional classroom instruction and other educational applications. As of June 30, 2011, we served virtual public schools or hybrid schools in 27 states and the District of Columbia. In addition, we operate three online private schools and also sell access to our online curriculum and learning kits directly to school districts and to individual consumers.

Business Highlights of Fiscal Year 2011

Fiscal year 2011 was a transformational year for our company. Despite continued volatility in the global economy and capital markets, we were able to deliver strong financial results and make significant progress on our business development strategies. Highlights of the 2011 fiscal year included:

Edgar Filing: K12 INC - Form 10-K/A

Revenue growth from \$384.5M to \$522.4M, an increase of 35.9%, of which 23.7% was from organic growth, 10.4% was from acquisitions and 1.8% was from new initiatives;

EBITDA growth of 9.6% despite the impact of acquisition transaction costs, merger integration and startup losses associated with our new initiatives;

An increase in total average enrollment of 45.7% from 67,878 to 98,890;

The solid performance of our stock price indicating that our stockholders share our confidence in the Company's diversification strategy and its implementation;

Completion of the strategic acquisitions of KC Distance Learning, The American Education Corporation and the International School of Berne, which complement and expand our virtual charter school business, institutional sales and private school offerings; and

Our successful launch of several new initiatives, including Capital Education, Middlebury Interactive Languages, San Francisco Flex School and brick and mortar classroom pilot programs that position us in several complementary market segments.

Executive Compensation Highlights for Fiscal Year 2011

Significant compensation decisions for named executive officers for the 2011 fiscal year included:

We entered into an amended and restated employment agreement with Mr. Packard, whose then-current employment agreement was expiring. Throughout his tenure as our chief executive officer, Mr. Packard has demonstrated sustained leadership in advocating the benefits of online learning and individualized instruction in grades K-12. He has enabled our company to grow during a period of unprecedented reductions in state education funding and guided us in our consideration of new investments in our future.

Mr. Packard's amended and restated employment agreement extends the term of his employment with us through September 2014 and provided for an increase in his base salary from \$475,000 to \$575,000, which the Board of Directors believed was appropriate to ensure Mr. Packard's continued retention. Under the terms of the amended and restated agreement, a large portion of Mr. Packard's cash compensation is performance-variable and his equity compensation is also performance-based, with a substantial portion of awards granted only upon the achievement of certain predetermined performance targets established annually by the Board of Directors;

We made annual cash incentive awards to our named executive officers with respect to corporate-level and individual performance consistent with fiscal year 2011 achievements to ensure that they are fairly and competitively compensated for their contributions to long-term shareholder value;

We granted equity incentive awards to our named executive officers in the form of restricted stock in lieu of stock options to more closely align the interests of our named executive officers with those of our stockholders, provide better retention incentives, mitigate the potential for stockholder dilution and align our equity compensation practices with those of similarly situated companies; and

We determined not to provide any base salary increases for fiscal year 2011 for all of our named executive officers (other than Mr. Packard) despite their excellent performance, in order to maintain an efficient cost structure in an uncertain economic environment, subject to the outcome of the Company's strategic plans.

Part II Pay for Performance

We believe our strengths in developing engaging and effective curricula and providing technology-based services provide us with a sustainable competitive advantage to serve the increasing demands for online education. Our growth strategy centers upon leveraging the investment we have already made in our learning systems to serve adjacent markets and diversify our risk profile. Compensation for our named executive officers has been designed to encourage pursuit of that strategy and varies substantially with performance. As discussed in Parts III and IV of this Compensation Discussion and Analysis, our Compensation Committee considers several quantitative and qualitative measures when determining compensation for our named executive officers and maintains discretion under our variable compensation programs to ensure that our named executive officers' compensation appropriately reflects our and their individual achievements during the course of the applicable year and over long-term periods. In addition, we have implemented a program under which a large portion of Mr. Packard's annual compensation opportunity is equity-based and earned only upon the achievement of certain predetermined performance targets established annually by the Compensation Committee. The design elements of our compensation for named executive officers that are intended to encourage good governance and pay-for-performance include:

All elements of compensation for our named executive officers are overseen by a highly engaged and active compensation committee composed entirely of independent directors;

The Compensation Committee utilizes the services of an independent compensation consultant - Towers Watson and Co., or Towers Watson - that performs only executive compensation services for our company;

Based on a Towers Watson study prepared as of March 31, 2011 to reconcile the inclusion of companies with different fiscal year ends, our total shareholder return over the trailing twelve-month period was in the 97th percentile when compared to that peer group

Edgar Filing: K12 INC - Form 10-K/A

of companies (described below), and composite performance (*i.e.*, operational and shareholder performance combined) was in the 80th percentile for the trailing thirty-six month period when compared to our peer group over their corresponding three fiscal years, all as determined by Towers Watson in connection with a pay-for-performance assessment commissioned by the Compensation Committee in fiscal year 2011;

Named executive officers are not provided with lavish perquisites and are instead generally eligible under the same plans as all other employees for medical, dental, vision, disability and life insurance, with certain exceptions discussed in Part IV below;

We do not offer any supplemental retirement plan contributions to named executive officers in excess of company contributions generally made available to all our employees;

None of our named executive officers are entitled to receive tax gross-ups on payments they could receive in connection with a change in control of our company;

We provide a substantial portion of total compensation for our named executive officers in the form of equity-based awards under which the value realized is tied to stock price performance, and all of our named executive officers have meaningful personal assets invested in our common shares; and

As shown in the following chart, in fiscal year 2011, fixed base salary represented only 39% of total compensation for our named executive officers, whereas variable cash and equity-based incentive compensation represented 61% of their total compensation.

Observations Regarding the Mix of Total Direct Compensation

The chart below shows each element of total direct compensation (based on fiscal year 2011 target levels) on a relative basis. It is noteworthy that in the aggregate, the target value of long-term incentives of our named executive officers as a group is more than twice that given to short-term incentives. This is to incent the named executive officers to focus on long-term shareholder value rather than immediate financial reward. In addition, the Compensation Committee set the amount of variable or at-risk compensation for the Chief Executive Officer at a level higher than the other named executive officers due to responsibilities not shared by the other named executive officers and the Chief Executive Officer's ability to influence the entire Company's performance.

Part III Overview of Compensation for Named Executive Officers

Objectives and Philosophy of Executive Compensation

The Compensation Committee, composed entirely of independent directors, administers our executive compensation programs. The Compensation Committee's role as described in its charter is to discharge the Board of Directors' responsibilities relating to compensation of our executives, including the named executive officers, and to oversee and advise the Board of Directors on the adoption of policies that govern our compensation and benefit programs. Our executive compensation programs are designed primarily to achieve the following objectives:

Objective

Corresponding Design Element

Attract and retain individuals of superior ability and managerial talent

Compensation programs are designed to be competitive relative to the market and among companies with whom we compete for managerial talent

The Compensation Committee reviews competitive market compensation practices and levels with the advice of an independent compensation consultant.

Promote the Company's business and growth strategies

Flexibility is maintained to tailor compensation packages for attracting and retaining key individuals whom we believe warrant particular consideration

Annual performance-based incentive bonuses tie cash compensation to achievement of goals that advance our short-term strategic business objectives

Align pay with performance

Long-term equity incentive awards tie overall compensation to creating value for our stockholders

For fiscal year 2011, variable cash and equity-based incentive compensation has represented 61% of overall compensation for named executive officers

The value of annual cash incentive awards directly reflect individual performance as measured against pre-established performance goals

The Compensation Committee reviews pay-for-performance assessments prepared by our independent compensation consultant

To encourage the maximization of stockholder value and align compensation with stockholders' interests

Long-term equity incentive awards tie substantial portions of total potential compensation to the performance of our stock price

To achieve these objectives, the Compensation Committee has implemented and maintains compensation plans that tie a substantial portion of the executives' overall compensation to the achievement of key strategic, financial and operational goals, such as our annual revenues and

Edgar Filing: K12 INC - Form 10-K/A

earnings. The Compensation Committee also evaluates individual executive performance with the goal of setting compensation at levels the Compensation Committee believes are comparable with executives in other companies of similar size, stage of development, geographic coverage, and that operate in the major education and high-technology industries, taking into account our relative performance and our strategic goals.

Determination of Compensation Awards

The Compensation Committee has the authority to determine the compensation awards available to our named executive officers with the exception of the Chief Executive Officer, for whom it makes recommendations to the Board of Directors for approval. We have historically set base salaries and annual incentive targets considering both individual performance and executives' scope of responsibilities. Base salaries and annual incentive targets for the named executive officers were first set as of the date of hire, and base salaries are generally reviewed annually by the Compensation Committee and adjusted to reflect individual performance and any changes in position within the Company to both reward the executives for superior performance and to further our goals of attracting and retaining managerial talent. Underperformance is considered as well. To aid the Compensation Committee in making its determination, the Chief Executive Officer provides recommendations annually to the Compensation Committee regarding the compensation of all executive officers, excluding himself. Each named executive officer other than our Chief Executive Officer, in turn, participates in ongoing performance updates with the Chief Executive Officer to provide input regarding the named executive officer's contributions to our success for the period being assessed. The performance of our Chief Executive Officer is reviewed annually by the Compensation Committee.

For fiscal year 2011, like in prior years, our executive compensation package consisted of a fixed base salary and variable cash and equity incentive awards, with a significant portion weighted towards the variable components to ensure that total compensation reflects our overall success or failure and to motivate executive officers to meet appropriate performance measures, thereby maximizing total return to stockholders. Within our performance-based compensation program, we aim to compensate the named executive officers in a manner that is tax effective for us.

Use of Compensation Consultants and Compensation Benchmarking

In May 2010, the Compensation Committee retained Towers Watson as an independent compensation consultant to assist it with executive compensation matters. Towers Watson continued to act as an independent consultant to the Compensation Committee during fiscal year 2011. During fiscal year 2011, it provided competitive market data and performed a competitive analysis of the compensation that each of our named executive officers receives. In addition, Towers Watson advised us in the design of an amended and restated employment agreement that we entered into with Mr. Packard early in fiscal year 2011 and in the implementation of our annual cash performance bonus and equity incentive award programs for fiscal year 2011. Based on information and advice provided by Towers Watson, our Compensation Committee determined that the total compensation levels and opportunities historically provided to our named executive officers have been at below-market levels and the changes in our compensation programs for fiscal year 2011 were intended to make our executive compensation program more competitive in the marketplace. Going forward, our Compensation Committee has determined that overall compensation levels for each of our named executive officers should be set between the 50th and the 75th percentile of similarly-situated executive officers of the companies in our peer group, which is discussed in more detail below, with such variations from this guideline as may be necessary or appropriate from time to time to attract or retain individual executives or reward company-wide or executive performance over time. Towers Watson did not perform any non-executive compensation services for us during fiscal year 2011.

Peer Group

An important component of setting and structuring compensation for our named executive officers is determining the compensation packages offered by leading education and high-technology companies in order for us to offer competitive compensation within that group of companies. In fiscal year 2010, based upon information and advice provided by Towers Watson, we determined that it was appropriate to reevaluate and expand our peer group in order to better assess our competitiveness among companies of similar size, industry and technology profiles to us. No changes were made during fiscal year 2011 to the peer group, which continued to consist of the following publicly traded companies: American Public Education, Inc.; Blackboard Inc.; Blue Nile, Inc.; Capella Education Company; Corporate Executive Board Company; Lincoln Educational Services Corporation; Strayer Education, Inc.; Blackbaud, Inc.; Bridgepoint Education, Inc.; Corinthian Colleges, Inc.; Deltek, Inc.; DeVry Inc.; Grand Canyon Education, Inc.; Rosetta Stone Inc.; Skillsoft Ltd.; and Universal Technical Institute, Inc.

Base Salary

Base salaries for our named executive officers are generally established in line with the scope of their responsibilities, taking into account competitive market compensation paid by other companies for like positions, and recognizing cost of living considerations. Base salaries are reviewed at least annually, and are adjusted from time to time according to performance, additional duties, promotions, and general economic conditions. Salaries among the named executive officers also reflect, in part, the terms negotiated for their position at the time of hire and subsequent adjustments determined by the Compensation Committee, or the Board of Directors in the case of our Chief Executive Officer, to account for executive performance, peer group trends, and new responsibilities assigned. Based upon the foregoing considerations, for fiscal year 2011, except with regard to Mr. Packard because of his entering into an amended and restated employment agreement, the Compensation Committee determined to maintain the base salaries of our named executive officers at fiscal year 2010 levels.

Effective on September 27, 2010, the Company and Mr. Packard entered into an amended and restated employment agreement providing for an increase in Mr. Packard's annual base salary from \$475,000 to \$575,000, subject to annual reevaluation by our Board. The Board of Directors determined that an increase in Mr. Packard's base salary was appropriate upon the four-year extension of his employment term due to Mr. Packard's leadership and performance over the term of his employment with the Company and to more closely align Mr. Packard's overall compensation with competitive market salaries, as described in more detail under *Use of Compensation Consultants and Compensation Benchmarking* above. For additional discussion of the terms of Mr. Packard's amended and restated employment agreement, see *Potential Payments Upon Termination or Change in Control Employment Agreements* below.

Annual Performance Bonus

We maintain an annual cash bonus program, or the Executive Bonus Plan, which is intended to reward executive officers based on our Company's overall performance and the individual named executive officer's contributions to that performance. In determining an annual bonus for each named executive officer, we evaluate performance as measured against certain objective financial metrics as well as individual performance goals. We believe that the Executive Bonus Plan provides incentives that are necessary to retain executives and reward them for our short-term performance in the pursuit of our larger business objectives and is designed to provide for a substantial portion of our cash compensation for named executive officers to be variable based upon Company and individual performance.

The Executive Bonus Plan for all of our named executive officers in fiscal year 2011 consisted of two key elements: (i) a corporate-level financial performance element with a 60% weighting; and (ii) an individual performance element with a 40% weighting. The Compensation Committee chose these elements and their relative weightings to align the total cash compensation opportunity of our named executive officers with the achievement of performance objectives that create long-term stockholder value. For fiscal year 2011, Messrs. Davis and Hughes and Ms. Stokes' target bonus was 40% of base salary and Mr. Hawks' target bonus was 50% of base salary. The target bonus for Mr. Packard for fiscal year 2011 was 100% of base salary, with a maximum bonus potential equal to 200% of his base salary as provided in his amended and restated employment agreement.

The corporate-level financial performance element of the Executive Bonus Plan for fiscal year 2011 was based on achievement of two performance metrics, revenue and operating income, each with a 30% weighting. Initially, the corporate-level revenue target was established at \$500 million and the operating income target was established at \$28 million, excluding interest, taxes, non-controlling interest and bonus accruals. Subsequently, to reflect the accretive impact of acquisitions in which we engaged during fiscal year 2011, the corporate-level revenue target was adjusted upward to \$514.6 million and the operating income target was adjusted upward to \$29.2 million. These adjustments were made pursuant to a target recalibration methodology for acquisitions as recommended by Towers Watson. We considered the financial performance goals for fiscal year 2011 difficult to achieve because the executives were required to produce strong financial results during a challenging and uncertain economic period for the education industry as certain states continued to reduce student funding levels due to budget shortfalls, we incurred significant one-time expenses as a result of the implementation of a company-wide enterprise resource planning system and acquisition integration costs.

We established individual performance elements for the fiscal year 2011 Executive Bonus Plan that were intended to align the named executive officers' incentives with the Company's development and performance strategies. Mr. Packard's individual goals included strengthening our virtual academy business through increased enrollment and retention, developing additional business channels to diversify into adjacent markets, implementing new internal reporting systems, enhancing our overall operations by launching new curriculum and learning management systems and capitalizing on opportunities for increased efficiencies. Mr. Hawks' individual goals included strengthening internal and external financial relationships, integrating newly acquired business lines, optimizing our capital structure and improving our financial processes and efficiency. Mr. Hughes' individual goals included renewal of virtual school contracts, expanding our blended school programs, linking teacher pay to performance measures, improving academic performance in fully-managed schools, integrating virtual schools obtained in acquisitions and ensuring school compliance with state regulations. Mr. Davis' individual goals included managing our international operations growth, strategy and business development. Ms. Stokes' individual goals included developing branding strategies for our business units, improving marketing efficiency and developing our call center operations.

When determining the fiscal year 2011 Executive Bonus Plan awards for named executive officers, we first examined the levels of achievement attained with respect to both the individual and corporate-level performance goals and applied the relative weightings described above. Our revenues for fiscal year 2011 grew 35.9% to \$522.4 million, well exceeding the adjusted revenue target established for the Executive Bonus Plan. Operating income for fiscal year 2011, however, was below target at \$24.2 million, reflecting expenses primarily associated with transaction and integration costs related to the acquisitions we undertook in fiscal year 2011 and implementation of our enterprise resource planning system. Consequently, we determined that the named executive officers achieved 50% of the corporate-level performance goals.

For individual performance goals, we evaluated each named executive officer's actual performance and then weighted those levels of outcomes against their individual goals. In particular, we reviewed the performance of the named executive officers who have profit and loss responsibility and increased or decreased their awards depending on whether they had achieved the internal goals for their respective businesses. We also sought to recognize the performance of named executive officers in areas not directly tied to their individual performance goals, including the Chief Financial Officer who has functional responsibilities. These areas included substantial improvements in diversification of our overall business and internal business infrastructure which we believe are transformational investments in the future of our company. We sought to recognize the substantial efforts of our named executive officers in completing our acquisitions of KC Distance Learning, The American Education Corporation and the International School of Berne. These acquisitions enhanced our online public school offerings and the scale of our institutional business and private school distribution channels. Despite the additional demands of these acquisitions, the named executive officers were also able to lead our company in completion of several strategic initiatives and achieving the strong revenue growth described above. Based on the foregoing, annual bonuses were paid to our named executive officers for fiscal year 2011 in the amounts set forth in the Nonequity Incentive Plan Compensation column of the Summary Compensation Table for 2011 below.

Equity Awards

We believe that providing long-term equity awards promotes our goal of aligning executive compensation with the long-term interests of our stockholders in building the value of our Company. Previously, some of our employees, including the named executive officers, were eligible to participate in our Amended and Restated Stock Option Plan and/or received grants of stock options pursuant to stand alone stock option agreements. No stock options have been granted under the Amended and Restated Stock Option Plan or pursuant to stand alone stock option agreements since the date of our initial public offering. Currently, our named executive officers, along with a large portion of our employees, are eligible to participate in our 2007 Equity Incentive Award Plan, or the Equity Incentive Award Plan, pursuant to which we primarily grant equity-based awards.

The Company has historically made long-term equity awards to named executive officers in the form of stock options with an exercise price that is equal to the fair market value of the underlying stock, which is defined as the closing price for one share of our Common Stock on the NYSE on the date of grant. Stock options granted to our named executive officers other than Mr. Packard generally have a four-year vesting schedule designed to incentivize value creation and conform to market practices. To more closely align Mr. Packard's equity incentive compensation with our success, we developed a dual vesting schedule with a portion of his option grants subject to time-based vesting and a portion vesting upon our Company's achievement of pre-established corporate-level financial performance metrics and jurisdictional expansion targets. For fiscal year 2011, the corporate-level financial targets were the same revenue and operating income targets set forth above with respect to the fiscal year 2011 performance bonuses. The jurisdictional expansion targets consisted of a series of new school and enrollment targets. This dual vesting takes into consideration Mr. Packard's role as our Chief Executive Officer and steward of achieving our Company's corporate goals, as well as his role as an individual contributor to business development efforts and revenue generation.

For the same reasons as stated above with respect to the performance metrics relating to annual performance bonuses for executives, the Board of Directors believed these performance metrics would be difficult for Mr. Packard to achieve in fiscal year 2011. In addition, our revenue and operating income targets are in part dependent upon the ability to serve virtual public schools in more states or the removal of enrollment restrictions in states where we currently operate. Mr. Packard's performance-based vesting targets relating to jurisdictional and enrollment expansion for fiscal year 2011 were directly dependent upon these factors. Achieving these goals typically requires a major initiative to secure legislation or regulations permitting our form of public education and attracting the forecasted number of students. These efforts include coordinating grass-roots support, converting this support into state-specific legislative proposals, and managing advocacy efforts to ensure the adoption of enabling legislation. This process often takes multiple legislative sessions over several years. The difficulty and uncertainty of this process is a major factor in measuring our Company's performance.

In early fiscal year 2012, the Compensation Committee determined that Mr. Packard achieved the jurisdictional and enrollment expansion goals during fiscal year 2011 at a level such that he was entitled to vest in stock options to purchase to 44,118 shares of our common stock that were granted pursuant to a July 2007 stock option agreement. In addition, pursuant to the terms of the applicable award, Mr. Packard vested in stock options to purchase 294,117 shares of our common stock at an exercise price of \$30.60 per share in January 2011 when the ten-day average closing price per share of our common stock reached \$30.60.

In fiscal year 2011, we did not award stock options to our named executive officers, and determined instead to provide long-term incentive compensation in the form of restricted stock awards. Our Compensation Committee believes that the use of restricted stock as the primary form of equity compensation for our named executive officers more closely aligns the interests of these executives with those of our stockholders, provides better retention incentives, results in less dilution to our stockholders and is more in line with the equity compensation practices of similarly-situated companies, including the companies in our peer group. In fiscal year 2011 we granted restricted stock awards to our named executive officers in the following amounts, which awards were granted in September 2010: Messrs. Hughes and Davis and Ms. Stokes each received 12,000 shares of restricted stock and Mr. Packard received 25,000 shares of restricted stock. Mr. Hawks received a grant of 25,000 shares of restricted stock and 100,000 stock options upon the commencement of his employment in May 2010; therefore, he was not included in the annual grant of equity to our named executive officers in September 2010. The shares of restricted stock vest semi-annually over a three-year period, with 20% vesting in the first year and 40% vesting in each of the next two years following the grant date. The Compensation Committee determined that the size of these restricted stock awards was appropriate to achieve the purpose of encouraging retention among our named executive officers and generally represented a substantial increase over the size of the restricted stock awards granted to the named executive officers in fiscal year 2010 in order to bring the total compensation opportunity of our named executive officers in-line with competitive market compensation and because the named executive officers did not receive awards of stock options in fiscal year 2011. The Compensation Committee expects that restricted stock awards will continue to be an important feature of our executive compensation program going forward. The Compensation Committee did not consider past performance during any period in determining the restricted stock awards granted to our named executive officers in fiscal year 2011.

In consideration of his signing a new employment agreement to serve as our Chief Executive Officer for a term of four years, we granted Mr. Packard 145,530 shares of restricted stock, of which 50% vested immediately, with the remaining 50% to vest over three years in quarterly installments starting on the first anniversary of the date of the grant. As with the other elements of the compensation package provided in Mr. Packard's amended and restated employment agreement, we determined that these awards were necessary and appropriate to retain Mr. Packard as our Chief Executive Officer and in recognition of Mr. Packard's leadership and performance over the term of his employment with the Company.

In addition, under the terms of his amended and restated employment agreement, Mr. Packard is eligible to receive annual restricted stock awards in amounts up to \$1.25 million, based on the achievement of certain pre-determined performance objectives to be established by the Compensation Committee each fiscal year. The Compensation Committee determined that the performance objectives applicable to restricted stock awards would be the achievement of 8% revenue growth over three years. Actual revenue growth during fiscal year 2011 was 33%. Therefore, in early fiscal year 2012, the Compensation Committee awarded Mr. Packard 46,667 shares of restricted stock, valued at \$1.25 million based upon the fair market value of our common stock on the date of grant. These shares vest over three years in equal quarterly installments.

Deferred Compensation Plan

We maintain a non-qualified deferred compensation plan, or the Deferred Compensation Plan, for members of our management team, including our named executive officers. Under the Deferred Compensation Plan, our named executive officers are eligible to elect to defer up to 50% of their annual salary and up to 100% of any annual incentive bonus. These amounts may be deferred until retirement. Earnings are credited on deferred amounts based upon a variety of investment options that may be elected by each participant. We believe that the addition of the Deferred Compensation Plan provides our Company an additional means to further its philosophy of attracting and retaining individuals of superior ability. Certain information with respect to amounts deferred by our named executive officers under this plan are set forth below in the Nonqualified Deferred Compensation Table.

Defined Contribution Plan

We maintain a Section 401(k) Savings/Retirement Plan, or the 401(k) Plan, which covers our eligible employees, including our named executive officers. The 401(k) Plan allows participants to defer a portion of their annual compensation, subject to certain limitations imposed by the Internal Revenue Code. The employees' elective deferrals are immediately vested and nonforfeitable upon contribution to the 401(k) Plan. We currently provide matching contributions equal to \$0.25 for each dollar of a participant's contributions, up to a maximum of 4% of the participant's annual salary, subject to certain other limits. Our matching contributions are subject to a four-year vesting schedule.

Employee Benefits and Perquisites

We provide our named executive officers with certain personal benefits and perquisites, which we do not consider to be a significant component of executive compensation but recognize are an important factor in attracting and retaining talented executives. Named executive officers are eligible under the same plans as all other employees for medical, dental, vision, disability and life insurance. We also pay for supplemental long-term disability and life insurance premiums for our executive officers and provide our executive officers the opportunity to receive company-paid executive physical examinations. We provide these supplemental benefits to our executive officers due to the relatively low cost of such benefits and the perceived value they provide in assisting us in attracting and retaining talented executives. We reimburse certain executives for their relocation expenses from time to time and reimburse our executives for temporary housing expenses they may incur in connection with their provision of services to us. We provide such reimbursements to our executives because such expenses are typically directly associated with and would not have been incurred but for their commencement or continued provision of services to us. None of our executive officers receives any tax gross ups in connection with our provision of any perquisites or personal benefits. The value of personal benefits and perquisites we provide to each of our named executive officers is set forth below in our Summary Compensation Table.

Part V Employment, Severance and Change in Control Arrangements

We currently have employment agreements in place with each of our named executive officers that provide for severance payments in connection with certain terminations of employment. During fiscal year 2011, we entered into an amended and restated employment agreement with Mr. Packard that entitles him to receive severance payments equal to three times his base salary if he is terminated without cause or due to the Company's non-extension of the term of the agreement or a constructive termination, as described in more detail below under the heading entitled *Potential Payments Upon Termination or Change in Control*. Our other named executive officers have employment agreements with us that provide for employment on an at will basis and provide for severance payments ranging from 180 days to 365 days (plus benefit continuation in certain cases) generally in connection with terminations of employment without cause or for good reason by the executive. These agreements were generally negotiated at hire and the potential severance payments were determined considering the executive's level of experience and perceived marketability and the desired length of any post-employment restrictive covenants.

Severance is considered by us and our executives to be an integral part of the overall compensation package. We provide severance to the executives as a means to attract and retain individuals with superior ability and managerial talent. During fiscal year 2011, the Compensation Committee determined on a going forward basis to establish a uniform severance policy, or the Severance Policy, for terminations without cause rather than negotiating these terms in individual employment agreements. The Severance Policy takes into account management level and tenure with the Company.

The named executive officers are generally not entitled to receive cash payments solely as a result of a change in control of the Company, upon certain corporate transactions, including a sale of all or substantially all of the Company's assets, certain mergers or consolidations and certain sales of our outstanding stock, which we refer to collectively as a change in control. Unvested stock options and restricted stock awards are treated differently following a change in control to take into account their respective purposes of value creation and retention. All of the named executive officers' unvested stock options will become fully vested and exercisable under the terms of the applicable stock option agreements following a change in control. In early fiscal year 2012, we adopted a policy pursuant to which all restricted stock agreements with our named executive officers other than Mr. Packard would be subject to, double trigger acceleration upon a change in control. This policy generally means that the accelerated vesting of restricted stock will occur only if the named executive officer is terminated without cause in connection with the change in control. For this purpose, a termination without cause includes a constructive termination, which generally involves any material diminution in the named executive officer's base salary, bonus potential, job title or responsibilities, as well as a relocation of the named executive officer's principal place of business outside of a 40-mile radius. With respect to our Chief Executive Officer, and as provided in his amended and restated employment agreement, all of his outstanding restricted stock and stock options will become fully vested as of immediately prior to a change in control.

We believe that providing the named executive officers with severance payments upon certain terminations of employment, accelerated vesting of stock options upon a change in control, and accelerated vesting of restricted stock awards upon a termination without cause under the terms of their restricted stock award agreements are key retention tools that assist us with remaining competitive with the companies in our peer group, further our goal of

attracting and retaining key executives with superior ability and managerial talent and protect our intellectual capital and competitive position. These employment agreements are further described below under the heading entitled Potential Payments Upon Termination or Change in Control.

Part VI Tax, Accounting and Other Considerations

Deductibility of Executive Compensation

We review and evaluate the tax treatment of our executive compensation programs at the time they are adopted and as tax rules and regulations change. In order to preserve flexibility in the design and implementation of our compensation program, we have not adopted a formal policy that requires all compensation to be tax deductible for purposes of Internal Revenue Code Section 162(m), which limits the deductibility of certain compensation paid to our executive officers. However, to the greatest extent possible, it is our intent to structure our compensation programs in a tax efficient manner.

Accounting for Stock-Based Compensation

ASC Topic 718, *Compensation - Stock Compensation*, requires us to recognize an expense for the fair value of equity-based compensation awards. Grants of equity-based awards under our equity incentive award plans are accounted for under ASC Topic 718. We consider the accounting implications of significant compensation decisions, especially in connection with decisions that relate to our equity incentive award plans and programs. As accounting standards change, we may revise certain programs to appropriately align accounting expenses of our equity awards with our overall executive compensation philosophy and objectives.

Clawback Policy

We are currently considering the implementation of a compensation clawback policy applicable to executive officers pending completion of the Securities and Exchange Commission's related rulemaking initiatives.

- (1) Mr. Packard's outstanding unvested options are subject to time-based and performance-based vesting as described above. Mr. Packard's unvested time-based options vest as follows, subject to Mr. Packard's continued employment through the applicable vesting date:

11,000 options with an exercise price of \$17.46 per share vest every July 13, October 13, January 13 and April 13 through July 13, 2013; and

9,375 options with an exercise price of \$23.45 per share vest every August 21, November 21, February 21 and May 21 through August 21, 2012.

Performance-based vesting of option grants is based upon our Company's achievement of pre-established corporate-level financial performance metrics and jurisdictional expansion targets as discussed in Part IV Elements of Compensation Equity Awards above. Mr. Packard's unvested performance-based options vest upon achievement of the applicable jurisdictional expansion and enrollment targets prior to July 12, 2015, subject to Mr. Packard's continued employment through the applicable vesting date. Achieving these goals typically requires a major initiative to secure legislation or regulations permitting our form of public education and attracting the forecasted number of students. These efforts include coordinating grass-roots support, converting this support into state-specific legislative proposals, and managing advocacy efforts to ensure the adoption of enabling legislation. This process often takes multiple legislative sessions over several years.

Mr. Packard's outstanding shares of restricted stock vest as follows, subject to his continued employment through the applicable vesting date:

72,765 shares vest over three years in quarterly installments starting on September 30, 2011;

22,500 shares vest semi-annually over a three-year period, with 20% vesting on the first anniversary of the date of grant of September 15, 2010 and 40% vesting in each of the next two years; and

9,000 shares vest in three semi-annual installments on July 13, 2011, January 13, 2012 and July 13, 2012.

- (2) Mr. Hawks' unvested stock options vest in 12 equal installments on each August 5, November 5, February 5 and May 5, subject to Mr. Hawks' continued employment through the applicable vesting date. 4,902 options with an exercise price of \$13.66 per share vest on July 3, 2011.

Mr. Hughes' outstanding shares of restricted stock vest as follows, subject to his continued employment through the applicable vesting date:

10,800 vest semi-annually over a three-year period, with 20% vesting in the first year and 40% vesting in each of the next two years following the grant date of September 14, 2010; and

Mr. Davis' outstanding shares of restricted stock vest as follows, subject to his continued employment through the applicable vesting date:

10,800 vest semi-annually over a three-year period, with 20% vesting in the first year and 40% vesting in each of the next two years following the grant date of September 14, 2010; and

1,834 vest in three semi-annual installments on July 13, 2011, January 13, 2012 and July 13, 2012.

Potential Payments Upon Termination or Change in Control

The Company has employment agreements with each of our named executive officers that provide for severance payments and, in some cases, other benefits upon certain terminations of employment.

Employment Agreements

Effective as of September 27, 2010, we entered into an amended and restated employment agreement for Mr. Packard. This amended and restated agreement extended the term of Mr. Packard's employment until September 30, 2014 (subject to the possibility of annual extensions thereafter), and provides for: (i) an initial annual base salary of \$575,000 subject to annual review; (ii) an annual cash bonus to be awarded by the Board of Directors in its discretion with a target amount of 100% of his base salary but not to exceed 200% of his base salary; (iii) a grant of 145,530 shares of restricted stock, half of which immediately vested upon grant and half which vest in 12 equal quarterly installments commencing on September 30, 2011, subject to Mr. Packard's continued employment with us on each applicable vesting date; (iv) the opportunity, based on achievement of certain performance goals established by the Board of Directors, to receive additional grants of restricted stock subject to time-based vesting conditions in subsequent years; (v) full vesting of all outstanding stock options and restricted stock upon a change in control of the Company; and (vi) severance upon a termination of Mr. Packard's employment without cause or due to constructive termination (generally, a material reduction in Mr. Packard's duties, responsibilities or title) in an amount equal to three times Mr. Packard's base salary, 50% of which would be payable in a lump sum and 50% of which would be payable in installments over an 18-month period, and the extension of the exercise date for Mr. Packard's outstanding vested stock options until the earlier of 180 days following such termination or the expiration of the option term (subject to earlier termination in the event of a change in control). As under Mr. Packard's prior employment agreement, upon termination of Mr. Packard's employment due to his death, his estate will receive salary continuation payments for 180 days following his death and a portion of his annual

performance bonus based upon the date on which such termination occurs. The amended and restated agreement also provides that Mr. Packard is subject to restrictive covenants during the term of the agreement and for certain periods following termination of employment, including confidentiality restrictive covenants during the term and for three years following termination, intellectual property restrictive covenants during the term, and nonsolicitation and noncompetition restrictive covenants while Mr. Packard is employed by us and during the 18-month period thereafter. Early in fiscal year 2012, the Compensation Committee reviewed Mr. Packard's annual salary based on his fiscal year 2011 performance and in relation to the salaries of chief executive officers in the Company's peer group. As a result, the Compensation Committee recommended, and the Board of Directors subsequently approved, an increase in Mr. Packard's base salary to \$625,000.

Mr. Hawks' employment agreement, effective as of May 5, 2010, provides for his employment with us on an at-will basis. Upon a termination of Mr. Hawks' employment for good reason (generally, a material breach of the employment agreement by us that is not cured within 60 days after written notice from Mr. Hawks), or by us without cause, Mr. Hawks is entitled to 12 months of salary continuation, payable at the same time and in the same manner as such salary had been paid prior to termination. The agreement also provides that Mr. Hawks will be subject to the terms of our Confidentiality, Proprietary Rights and Non-Solicitation Agreement which generally prohibits the unauthorized disclosure of our confidential information during and after the period of employment, ensures our right of ownership of any intellectual property developed during the period of employment, prohibits the solicitation of employees for one year following termination of employment and requires that any disputes regarding employment or termination of employment be subject to binding arbitration. For fiscal year 2012, the Compensation Committee reviewed Mr. Hawks' fiscal year 2011 performance and the salaries of similar executive officers in the Company's peer group and approved an increase in base salary for Mr. Hawks to \$432,000.

Mr. Hughes' employment agreement, effective as of July 9, 2007, provides for his employment with us on an at-will basis. ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE
Policies and Procedures for Related-Party Transactions

We recognize that related-party transactions present a heightened risk of conflicts of interest and have adopted a policy to which all related-party transactions shall be subject. Pursuant to the policy, the Audit Committee of our Board of Directors, or in the case of a transaction in which the aggregate amount is, or is expected to be, in excess of \$250,000, the Board of Directors, will review the relevant facts and circumstances of all related-party transactions, including, but not limited to: (i) whether the transaction is on terms comparable to those that could be obtained in arm's length dealings with an unrelated third party; and (ii) the extent of the related party's interest in the transaction. Pursuant to the policy, no director, including the Chairman of the Audit Committee may participate in any approval of a related-party transaction to which he or she is a related party. The Board of Directors or Audit Committee, as applicable, will then, in its sole discretion, either approve or disapprove the transaction.

Certain types of transactions, which would otherwise require individual review, have been pre-approved by the Audit Committee. These types of transactions include, for example: (i) compensation to an officer or director where such compensation is required to be disclosed in our proxy statement; (ii) transactions where the interest of the related party arises only by way of a directorship or minority stake in another organization that is a party to the transaction; and (iii) transactions involving competitive bids or fixed rates. Additionally, pursuant to the terms of our related-party transaction policy, all related-party transactions are required to be disclosed in our applicable filings as required by the Securities Act of 1933 and the Exchange Act and related rules. Furthermore, any material related-party transactions are required to be disclosed to the full Board of Directors. In connection with becoming a public company, we established internal policies relating to disclosure controls and procedures, which include policies relating to the reporting of related-party transactions that must be pre-approved under our related-party transactions policy.

Audit Fees are for professional services for the Company's annual audit, including the audit of internal control over financial reporting for fiscal years 2010 and 2011, reviews of the interim financial statements included in the Company's quarterly reports on Form 10-Q, and other professional services provided in connection with statutory and regulatory filings or engagements. Audit-related fees in fiscal year 2011 are for professional services associated with merger and acquisition activities and SEC filings that include pro forma financial statements of acquired entities.

The Audit Committee maintains policies and procedures for the pre-approval of work performed by the independent auditors in that, under the Audit Committee charter, all auditor engagements must be approved in advance by the Audit Committee. All of the services provided to the Company by BDO USA during fiscal years 2010 and 2011 were pre-approved by the Audit Committee.
