NOTICE OF ANNUAL MEETING OF STOCKHOLDERS

To Be Held Thursday, May 17, 2012

Notice is hereby given that on Thursday, May 17, 2012, MAP Pharmaceuticals, Inc., a Delaware corporation (the Company or we), will hold its Annual Meeting of Stockholders (the Annual Meeting) at our headquarters, 2400 Bayshore Parkway, Suite 200, Mountain View, California 94043. The Annual Meeting will begin at 8:00 a.m. Pacific Time.

Only stockholders who owned stock at the close of business on April 2, 2012 are entitled to vote at the Annual Meeting or any adjournment that may take place. At the Annual Meeting, we will:

1. Elect the members of Class II of the Board of Directors to serve for a three-year term or until the election and qualification of their successors;
2. Ratify the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2012;
3. Seek an advisory (non-binding) vote to approve executive compensation; and
4. Transact such other business as may properly come before the Annual Meeting.

The foregoing items of business are more fully described in the proxy statement accompanying this Notice of Annual Meeting of Stockholders. The record date for determining those stockholders who will be entitled to notice of, and to vote at, the Annual Meeting and at any adjournments thereof is April 2, 2012. Shares of common stock may be voted at the Annual Meeting only if the holder is present at the meeting in person or by valid proxy.

All stockholders are cordially invited to attend the Annual Meeting in person. Whether or not you expect to attend the Annual Meeting, please complete, sign, date and return the enclosed proxy card as promptly as possible in order to ensure your representation at the meeting. A return envelope (which is postage prepaid if mailed in the United States) is enclosed for that purpose. You may also submit your proxy via the Internet or by telephone by following the instructions on the enclosed proxy card. Even if you have given your proxy, you may still vote in person if you attend the Annual Meeting. Please note, however, that if your shares are held of record by a broker, bank or other nominee and you wish to vote at the Annual Meeting, you must obtain from the record holder a proxy issued in your name.

BY ORDER OF THE BOARD OF DIRECTORS,

ANNUAL MEETING OF STOCKHOLDERS TO BE HELD

Thursday, May 17, 2012

PROXY STATEMENT

INFORMATION CONCERNING SOLICITATION AND VOTING

General

This proxy statement is being furnished to stockholders of MAP Pharmaceuticals, Inc., a Delaware corporation (the *Company* or *we*), in connection with the solicitation by our Board of Directors of proxies to be used at the Annual Meeting of Stockholders to be held on Thursday, May 17, 2012, at 8:00 a.m. Pacific Time (the *Annual Meeting*), or at any adjournment or postponement thereof, for the purposes set forth herein and in the accompanying Notice of Annual Meeting. The Annual Meeting will be held at our headquarters at 2400 Bayshore Parkway, Mountain View, California 94043. This proxy statement and accompanying proxy card are being mailed on or about April 16, 2012 to all stockholders entitled to vote at the Annual Meeting. In accordance with Delaware law, a list of stockholders entitled to vote at the Annual Meeting will be available at the meeting, and for 10 days prior to the meeting, at MAP Pharmaceuticals, Inc., 2400 Bayshore Parkway, Suite 200, Mountain View, California 94043 between the hours of 8:00 a.m. and 5:00 p.m. Pacific Time.

Proposals to Be Voted On at the Annual Meeting

Stockholders of record as of April 2, 2012 are asked to vote on the following proposals:

1. the election of the three nominees for election to Class II of the Board of Directors listed in this proxy statement;

Edgar Filing: MAP Pharmaceuticals, Inc. - Form DEF 14A

2. the ratification of the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm for the fiscal year ended December 31, 2012; and
3. an advisory (non-binding) vote to approve executive compensation (say-on-pay vote).

Voting Rights and Solicitation of Proxies

Only holders of record at the close of business on Monday, April 2, 2012 (the Record Date) will be entitled to notice of and to vote at the Annual Meeting or any adjournment or postponement that may occur. At the close of business on the Record Date, there were 30,657,370 shares of common stock, par value \$0.01 per share (the Common Stock), outstanding, held by approximately 18 stockholders of record. On each matter to be considered at the Annual Meeting, each stockholder of record will be entitled to cast one vote for each share held on the Record Date.

We will bear the entire cost of solicitation of proxies, including preparation, assembly, printing and mailing of this proxy statement, the proxy and any additional information furnished to stockholders. Copies of

solicitation materials will be furnished to banks, brokerage houses, fiduciaries and custodians holding in their names shares of Common Stock beneficially owned by others to forward to such beneficial owners. In addition, we may reimburse persons representing beneficial owners of Common Stock for their costs of forwarding solicitation materials to such beneficial owners. The original solicitation of proxies by mail may be supplemented by solicitation by mail, telephone or other electronic means, or in person by directors, officers or other regular employees of the Company. No additional compensation will be paid to directors, officers or other regular employees for such services.

Quorum Requirement and Votes Required for the Proposals

In order to constitute a quorum and to transact business at the Annual Meeting, a majority of the outstanding shares of Common Stock on the Record Date must be represented at the Annual Meeting. Shares represented by proxies that reflect abstentions or broker non-votes (i.e., shares held by a broker or nominee that are represented at the Annual Meeting, but not empowered to vote on a particular proposal) will be counted as shares that are present and entitled to vote for purposes of determining the presence of a quorum.

Under Delaware law, directors are elected by a plurality vote. Directors will be elected by a favorable vote of a plurality of the aggregate votes present, in person or by proxy, at the Annual Meeting. Accordingly, abstentions will not affect the outcome of the election of candidates for director. Absent instructions from the beneficial owner of such shares, a broker is not entitled to vote shares held for a beneficial owner on certain non-routine items, such as the election of directors. Thus, if the beneficial owner does not give a broker specific instructions, the beneficially owned shares may not be voted on the election of directors and will not be counted in determining the number of shares necessary for approval, although they will count for purposes of determining whether a quorum exists. Stockholders are not permitted to cumulate their shares for the purpose of electing directors or otherwise.

The proposal to ratify the selection of PricewaterhouseCoopers LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2012 requires the affirmative vote of a majority of the aggregate votes present, in person or by proxy, and entitled to vote at the Annual Meeting. Abstentions will have the same effect as a vote against this proposal. However, the ratification of our selection of PricewaterhouseCoopers LLP is a matter on which a broker or other nominee is empowered to vote. Accordingly, no broker non-votes will result from this proposal.

The advisory vote to approve executive compensation requires the affirmative vote of a majority of the shares present, in person or by proxy, at the Annual Meeting and entitled to vote at the Annual Meeting. A broker is not entitled to vote shares held for a beneficial owner on this proposal. Thus, if the beneficial owner does not give a broker specific instructions, the beneficially owned shares may not be voted on this proposal and will not be counted in determining the number of shares necessary for approval, although they will count for purposes of determining whether a quorum exists. The vote is advisory and therefore will not be binding on the Company.

The persons named as attorneys-in-fact in the form of the accompanying proxy, Timothy S. Nelson and Charlene A. Friedman, were selected by our Board of Directors and are officers of the Company. All properly executed proxies returned in time to be counted at the Annual Meeting will be voted by Mr. Nelson and Ms. Friedman at the Annual Meeting. Aside from election of the named directors, the ratification of the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm and the approval of a non-binding advisory resolution regarding the compensation of the Company's named executive officers, our Board of Directors knows of no other matter to be presented at the Annual Meeting. If any other matters should be presented at the Annual Meeting upon which a vote properly may be taken, shares represented by all proxies received by us will be voted with respect thereto in accordance with the judgment of the persons named as attorneys-in-fact in the proxies.

Revocability of Proxies

Any person giving a proxy pursuant to this solicitation has the power to revoke it at any time before it is voted. A proxy may be revoked by delivering a written notice of revocation or a duly executed proxy bearing a later date to the Secretary at the Company's offices, located at 2400 Bayshore Parkway, Suite 200, Mountain View, California 94043, or it may be revoked by attending the Annual Meeting and voting in person. Attendance at the Annual Meeting will not, by itself, revoke a proxy.

If your shares are held in the name of a broker, bank or other nominee, you may change your vote by submitting new voting instructions to your bank, broker or other nominee. Please note that if your shares are held of record by a broker, bank or other nominee and you decide to attend and vote at the Annual Meeting, your vote in person at the meeting will not be effective unless you present a legal proxy, issued in your name from the record holder, your broker, bank or other nominee.

Voting Via the Internet or by Telephone

If you hold stock certificates in your name, you will receive the Company's proxy card from our stock transfer agent, American Stock Transfer & Trust Company. The proxy card will contain information on telephone and Internet voting, so that you may grant your proxy for those shares telephonically by calling the telephone number shown on the proxy card, or via the Internet at www.voteproxy.com.

Most beneficial owners whose stock is held in street name receive voting instruction forms from their banks, brokers or other agents, rather than the Company's proxy card. A number of brokers and banks are participating in a program provided through Broadridge Financial Solutions, Inc. that offers telephone and Internet grants of proxies. If your shares are held in an account with a broker or bank participating in the Broadridge Financial Solutions program, you may grant your proxy for those shares telephonically by calling the telephone number shown on the form received from your broker or bank, or via the Internet at Broadridge Financial Solutions' website at www.proxyvote.com.

Submitting your proxy via the Internet or by telephone will not affect your right to revoke your proxy and vote in person, should you decide to attend the Annual Meeting.

The telephone and Internet proxy granting procedures are designed to authenticate stockholders' identities, to allow stockholders to give their proxy granting instructions and to confirm that stockholders' instructions have been recorded properly. Stockholders granting proxies via the Internet should understand that there may be costs associated with electronic access, such as usage charges from Internet access providers and telephone companies, which must be borne by the stockholder.

Internet Availability of Proxy and Other Materials

The proxy statement, form of proxy and our 2011 Annual Report on Form 10-K are available on the Internet at <http://ir.mapharma.com/annual-proxy.cfm>.

MATTERS TO BE CONSIDERED AT THE 2012 ANNUAL MEETING

PROPOSAL 1

ELECTION OF DIRECTORS

Our Board of Directors currently consists of eight members. Our Bylaws provide for the classification of the Board of Directors into three classes, as nearly equal in number as possible, with staggered terms of office. Our Bylaws also provide that upon expiration of the term of office for a class of directors, nominees for such class will be elected for a term of three years or until their successors are duly elected and qualified.

The term of office of the Class II directors will expire at this year's Annual Meeting, and the Board of Directors has selected, upon the recommendation of the nominating and corporate governance committee, three nominees for Class II directors. The nominees for the Class II director seats are Thomas A. Armer, Ph.D., Bernard J. Kelley and Scott R. Ward. The director nominees currently serve as directors of the Company. Each director nominee has agreed to stand for reelection to a three-year term. The three candidates receiving the highest number of affirmative votes of the shares represented and entitled to vote at the Annual Meeting will be elected as Class II directors of the Company. The Class III directors, Gerri A. Henwood, Matthew V. McPherron and Timothy S. Nelson, have one year remaining on their term of office. The Class I directors, W. James O Shea and H. Ward Wolff, have two years remaining on their term of office.

Shares represented by executed proxies will be voted, if authority to do so is not withheld, FOR the election of the three nominees named below. In the event that any nominee should be unavailable for election as a result of an unexpected occurrence, such shares will be voted for the election of such substitute nominee as the Board of Directors may propose. Each person nominated for election has agreed to serve if elected, and management has no reason to believe that any nominee will be unable to serve.

Set forth below is information regarding the nominees for Class II director, including their ages, the periods during which they have served as directors and information furnished by them as to principal occupations, current public company directorships and previous public company directorships within the past five years.

NOMINEES FOR ELECTION TO THE BOARD OF DIRECTORS

For a Three-Year Term to Expire at the 2015 Annual Meeting

Class II Directors (Current Term to Expire at the 2012 Annual Meeting)

Mr. Wolff is also a member of the board of directors of a private biopharmaceutical company. Mr. Wolff served as a member of the board of directors of Sangamo BioSciences from June 2006 to December 2007, serving as chair of the audit committee. Mr. Wolff began his career with Price Waterhouse, where he held a number of positions as a certified public accountant, including senior audit manager. Mr. Wolff received a B.A. in economics from the University of California at Berkeley and an M.B.A. from Harvard Business School.

There are no family relationships among executive officers or directors of the Company. There are no current legal proceedings and claims, either asserted or unasserted, to which the executive officers, directors or the Company are a party. There are no current, nor in the past 10 years have there been any, legal proceedings involving any director or executive officer related to, among other things, (i) federal bankruptcy, (ii) criminal proceedings, (iii) federal or state securities laws, (iv) any judgment, decree or order enjoining a director or officer from acting as an investment advisor, broker or dealer of securities or engaging in any type of business practice, (v) proceedings resulting from involvement in mail or wire fraud in connection with any business activity, or (vi) any disciplinary sanctions or orders imposed by a stock, commodities or derivatives exchange or other self-regulatory organization.

BOARD COMMITTEES AND MEETINGS

During the fiscal year ended December 31, 2011, the Board of Directors held eighteen meetings. The Board of Directors has an audit committee, a compensation committee and a nominating and corporate governance committee, which held five, sixteen and three meetings, respectively, during 2011. During the fiscal year ended December 31, 2011, each of the incumbent directors attended at least 75% of the meetings of the Board of Directors and the committees on which he or she served. Our directors are encouraged to attend the Annual Meeting of Stockholders, although the Company does not currently maintain a formal policy regarding director attendance at the Annual Meeting of Stockholders.

Audit Committee

Our audit committee oversees our corporate accounting and financial reporting process. Among other matters, the audit committee: evaluates the independent registered public accounting firm's qualifications, independence and performance; determines the engagement of the independent registered public accounting firm; reviews and approves the scope of the annual audit and the audit fee; discusses with management and the independent registered public accounting firm the results of the annual audit and the review of our quarterly consolidated financial statements; approves the retention of the independent registered public accounting firm to perform any proposed permissible non-audit services; monitors the rotation of partners of the independent registered public accounting firm on our engagement team as required by law; reviews our critical accounting policies and estimates; and annually reviews the audit committee charter and the committee's performance. The current members of our audit committee are Mr. Wolff, who is the chair of the committee, Mr. Kelley, Mr. O Shea, who has been a member of the committee since January 2012, and Mr. Ward. All members of our audit committee meet the requirements for financial literacy under the applicable rules and regulations of the Securities and Exchange Commission (the "SEC") and the Nasdaq Global Market. Our Board of Directors has determined that Mr. Wolff is an audit committee financial expert as defined under the applicable rules of the SEC.

and has the requisite financial sophistication as defined under the applicable rules and regulations of the Nasdaq Global Market. Mr. Wolff, Mr. Kelley, Mr. O Shea and Mr. Ward are independent directors as defined under the applicable rules and regulations of the SEC and the Nasdaq Global Market. Under the rules of the SEC, members of the audit committee must also meet heightened independence standards. Our Board of Directors has determined that each of Mr. Wolff, Mr. Kelley, Mr. O Shea and Mr. Ward meets these heightened independence standards. The audit committee operates under a written charter that satisfies the applicable standards of the SEC and the Nasdaq Global Market. A copy of the audit committee charter is available on our website at www.mappharma.com.

Compensation Committee

Our compensation committee reviews and recommends policies relating to compensation and benefits of our officers and employees. The compensation committee reviews and approves corporate objectives relevant to compensation of our executive officers, evaluates the performance of these officers in light of those objectives and sets the compensation of these officers based on such evaluations. The compensation committee also administers the issuance of stock options and other awards under our stock plans. The compensation committee annually reviews the compensation committee charter and the committee's performance. The current members of our compensation committee are Ms. Henwood, who is the chair of the committee, Mr. Kelley, Mr. McPherron and Mr. O Shea, who has been a member of the committee since January 2012. Each of the members of our compensation committee is independent under the applicable rules and regulations of the SEC, the Nasdaq Global Market and the Internal Revenue Code of 1986, as amended. The compensation committee operates under a written charter that satisfies the applicable standards of the SEC and the Nasdaq Global Market. A copy of the compensation committee charter is available on our website at www.mappharma.com.

Nominating and Corporate Governance Committee

The nominating and corporate governance committee is responsible for making recommendations to our Board of Directors regarding candidates for directorships and the size and composition of our Board of Directors. In addition, the nominating and corporate governance committee is responsible for overseeing our corporate governance guidelines and reporting and making recommendations to our Board of Directors concerning governance matters. The committee annually reviews the nominating and corporate governance committee charter and the committee's performance. The current members of our nominating and corporate governance committee are Mr. Ward, who is the chair of the committee and has served on the committee since July 2011, Mr. McPherron and Mr. Wolff, who has served on the committee since October 2011. Each of the members of our nominating and corporate governance committee is independent under the applicable rules and regulations of the SEC and the Nasdaq Global Market. The nominating and corporate governance committee operates under a written charter that satisfies the applicable standards of the SEC and the Nasdaq Global Market. A copy of the nominating and corporate governance committee charter is available on our website at www.mappharma.com.

Compensation Committee Interlocks and Insider Participation

No member of the compensation committee has at any time served as an officer or been otherwise employed by us. None of our executive officers currently serves or in the prior three years has served as a member of the board of directors or compensation committee of any entity that has one or more executive officers serving on our Board of Directors or compensation committee.

DIRECTORS COMPENSATION AND BENEFITS

Directors who also are our employees do not receive any fees for their service as a director. Since October 2007, following our initial public offering, we have paid compensation to our non-employee directors as follows.

Under our non-employee director policy amended in July 2011, each non-employee director receives an annual cash retainer of \$35,000 per year, and the chair of the board receives an additional cash retainer of \$15,000 per year. The chair of our audit committee also receives an additional annual cash retainer of \$15,000 per year and other non-employee directors each receive an additional annual cash retainer of \$8,000 per year for serving as members of our audit committee. The chair of our compensation committee receives an additional annual cash retainer of \$10,000 per year and other non-employee directors each receive an additional annual cash retainer of \$6,000 per year for serving as members of our compensation committee. The chair of our nominating and corporate governance committee receives an additional annual cash retainer of \$7,500 per year, and other non-employee directors each receive an additional annual cash retainer of \$4,000 per year for serving as members of our nominating and corporate governance committee.

Under our non-employee director policy, upon initial election to our Board of Directors, each non-employee director receives an initial option grant of an option to purchase 20,000 shares of our Common Stock with an exercise price equal to the fair market value of our Common Stock on the date of grant. Such initial option grant vests and becomes exercisable as to one quarter of the total number of shares subject to the option on the one year anniversary of the date the director commences service on our Board of Directors, with the remainder of the option vesting and becoming exercisable as to 1/48th of the total number of shares subject to the option each month thereafter. On the date of each annual meeting of stockholders beginning in 2012, each non-employee director who has served at least six months on our Board of Directors will also receive an annual grant of an option to purchase 10,000 shares of our Common Stock with an exercise price equal to the fair market value of our Common Stock on the date of grant. Such annual option grant vests and becomes exercisable as to 1/12th of the total number of shares subject to the option on each monthly anniversary of the date of grant.

From October 2007 to July 2011, each non-employee director received an annual cash retainer of \$25,000 per year. The chair of our audit committee also received an additional annual cash retainer of \$7,500 per year, and other non-employee directors each received an additional annual cash retainer of \$4,000 per year for serving as members of our audit committee. The chair of our compensation committee received an additional annual cash retainer of \$7,500 per year, and other non-employee directors each received an additional annual cash retainer of \$4,000 per year for serving as members of our compensation committee. The chair of our nominating and corporate governance committee received an additional annual cash retainer of \$5,000 per year, and other non-employee directors each received an additional annual cash retainer of \$2,500 per year for serving as members of our nominating and corporate governance committee. Also from October 2007 to July 2011, upon initial election to our Board of Directors, each non-employee director received an initial option grant of an option to purchase 30,000 shares of our Common Stock with an exercise price equal to the fair market value of our Common Stock on the date of grant and vesting terms identical to the current initial option grant described above. On the date of each annual meeting of stockholders beginning in 2008 through July 2011, each non-employee director who had served at least six months on our Board of Directors also received an annual grant of an option to purchase 7,500 shares of our Common Stock with an exercise price equal to the fair market value of our Common Stock on the date of grant and vesting terms identical to the current annual option grant described above.

We also reimburse directors for reasonable out-of-pocket travel expenses incurred in connection with attending meetings of the Board of Directors.

Director Compensation

The following table sets forth information regarding compensation earned by our non-employee directors during the fiscal year ended December 31, 2011.

Director Compensation

Name	Fees Earned or Paid in Cash (\$)	Stock Awards (\$)	Option Awards \$(1)(2)	Non-Equity Incentive Plan Compensation (\$)	Change in Pension Value and Nonqualified Deferred Compensation Earnings	All Other Compensation (\$)	Total (\$)
Gerri A. Henwood	38,750		72,450				111,200
Bernard J. Kelley	41,000		72,450				113,450
Matthew V. McPherron	38,250		72,450				110,700
Scott R. Ward	52,250		72,450				124,700
H. Ward Wolff	42,250		72,450				114,700
Steven A. Elms ⁽³⁾	7,500						7,500
Carl S. Goldfischer, M.D. ⁽⁴⁾	12,500						12,500
John G. Freund, M.D. ⁽⁵⁾	23,500		72,450				95,950

(1) The amounts included in the Option Awards column represent the aggregate grant date fair value of the awards in accordance with Accounting Standards Codification, or ASC 718, *Compensation - Stock Compensation*. The valuation assumptions used in determining such amounts are described in our consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2011.

(2) Each director received an annual grant of an option to purchase 7,500 shares of our Common Stock on May 19, 2011. The options vest as to 1/12th of the total number of shares subject to the option on each monthly anniversary of the vesting commencement date of May 19, 2011. The fair value of such equity awards on the grant date computed in accordance with ASC 718 was \$9.66 per share.

(3) Steven A. Elms resigned as a director effective February 16, 2011.

(4) Carl S. Goldfischer, M.D. resigned as a director effective May 19, 2011.

(5) John G. Freund, M.D. resigned as a director effective October 16, 2011.

CORPORATE GOVERNANCE

We have an ongoing commitment to good governance and business practices. In furtherance of this commitment, we regularly monitor developments in the area of corporate governance and review our processes and procedures in light of such developments. We comply with rules and regulations promulgated by the SEC and the Nasdaq Global Market, and implement other corporate governance practices which we believe are in the best interests of the Company and our stockholders.

Company Leadership Structure and Risk Oversight

Our Board of Directors currently consists of eight members, including our President and Chief Executive Officer and our Chief Scientific Officer. The Chair of our Board of Directors, Scott R. Ward, is an independent director and has served as Chair since the resignation from the

Edgar Filing: MAP Pharmaceuticals, Inc. - Form DEF 14A

Board of the former Chair, Steven A. Elms, in February 2011.

The Company separates the Chair and Chief Executive Officer positions, in order to insure independent leadership of the Board of Directors and to promote more effective oversight of management by the Board of

Directors. The Board of Directors has determined that its structure is appropriate to fulfill its duties effectively and efficiently, so that our Chief Executive Officer can focus on leading our Company, while the Chair can focus on leading the Board of Directors in overseeing management. The Board of Directors regularly meets in executive session without management directors or management present.

Our Board of Directors generally oversees corporate risk in its review and deliberations relating to Company activities. Our Company is focused primarily on the advancement of our LEVADEX product candidate through the New Drug Application approval process with the U.S. Food and Drug Administration and the preparation for the commercial launch of LEVADEX, if the product is approved, and the Board of Directors regularly reviews plans, results and potential risks related to the LEVADEX program and other pipeline development programs, as well as financial and strategic risk relevant to our Company's operations. Management regularly works to identify risks relating to our Company and communicates such risks to the Board when identified. In addition, our Board of Directors regularly reviews information regarding the Company's cash position, liquidity and operations, as well as the risks associated with each.

The audit committee oversees management of financial risks. The nominating and corporate governance committee manages risks associated with the independence of the Board of Directors and potential conflicts of interest. While each committee is responsible for evaluating certain risks and overseeing the management of such risks, the entire Board of Directors is regularly informed through committee reports about such risks and retains overall responsibility for overseeing the Company's ongoing assessment and management of risks impacting our business. Our compensation committee oversees risk management as it relates to our compensation plans, policies and practices for all employees. In connection with structuring and reviewing employee and management compensation, the compensation committee periodically meets with management to review whether our compensation programs may create incentives for our employees to take excessive or inappropriate risks which could have a material adverse effect on the Company. Our compensation program is intended to reward the management team and other employees for strong performance over the near and long term. We consider the potential risks for our business when designing and administering our pay program, and we believe our balanced approach to pay-for-performance works to avoid misaligned incentives for individuals to undertake excessive or inappropriate risk. Further, program administration is subject to considerable internal controls, and when making determinations with respect to establishing pay programs and measuring performance, we rely on principles of sound governance and good business judgment. Our compensation committee has reviewed the current compensation policies and practices for our employees and believes that these policies and practices are not reasonably likely to have a material adverse effect on the Company.

Board Diversity

Our Corporate Governance Guidelines provide that the nominating and corporate governance committee is responsible for reviewing with the Board of Directors, on an annual basis, the appropriate characteristics, skills and experience required for the Board of Directors as a whole and its individual members. In evaluating the suitability of individual candidates (both new candidates and current members), the nominating and corporate governance committee, in recommending candidates for election, and the Board of Directors, in approving (and, in the case of vacancies, appointing) such candidates, takes into account many factors, including: personal and professional integrity, ethics and values; experience in corporate management, such as serving as an officer or former officer of a publicly held company; experience in the Company's industry and with relevant social policy concerns; experience as a board member of another publicly held company; diversity of expertise and experience in substantive matters pertaining to the Company's business relative to other board members; and practical and mature business judgment. The Board of Directors evaluates each individual in the context of the Board of Directors as a whole, with the objective of assembling a group that can best perpetuate the success of the business and represent stockholder interests through the exercise of sound judgment using its diversity of experience in these various areas. The Board of Directors believes that the combination of backgrounds of its individual members provides our Board of Directors with a unique ability to identify and progress the key interests of our Company, and to represent the interests of our stockholders.

Code of Conduct

In 2007, we adopted, and in 2012 we amended, a Code of Business Conduct and Ethics (the *Code of Conduct*), which is available in its entirety on our website at www.mappharma.com and to any stockholder otherwise requesting a copy. All Company employees, officers and directors, including the Chief Executive Officer and Chief Financial Officer, are required to adhere to the Code of Conduct in discharging their work-related responsibilities. Employees are required to report any conduct that they believe in good faith to be an actual or apparent violation of the Code of Conduct. Amendments to the Code of Conduct, and any waivers from the Code of Conduct granted to directors or executive officers, will also be made available through our website as they are adopted.

In keeping with the Sarbanes-Oxley Act of 2002, the audit committee has established procedures for receipt and handling of complaints received by the Company regarding accounting, internal accounting controls or auditing matters. An employee hotline has been set up, and the phone number of the hotline has been distributed to all employees, to allow for the confidential and anonymous submission to the chair of the audit committee by our employees of concerns regarding accounting or auditing matters.

Corporate Governance Guidelines

The Board of Directors has adopted Corporate Governance Guidelines (the *Guidelines*) to address significant corporate governance issues. You can access our Guidelines, as adopted by the Board of Directors, at the Corporate Governance page of our website at www.mappharma.com. The Guidelines provide a framework for corporate governance matters and include topics such as the composition and evaluation of the members of the Board of Directors and its committees. The nominating and corporate governance committee is responsible for reviewing the Guidelines and reporting and recommending any changes to the Guidelines to the Board of Directors.

The Board of Directors has adopted the independence standards of the Nasdaq Global Market, and reviews all commercial and other relationships of each director and his or her family members in making its determination as to the independence of the directors. The Board of Directors has determined that Ms. Henwood, Mr. Kelley, Mr. McPherron, Mr. O Shea, Mr. Ward and Mr. Wolff each qualify as independent under the requirements of the Nasdaq Global Market.

Process for Identifying and Evaluating Director Nominees

The Board of Directors is responsible for nominating directors for election at annual meetings of stockholders or to fill vacancies on the Board of Directors. The Board of Directors has delegated the selection and nomination process to the nominating and corporate governance committee, with the expectation that other members of the Board of Directors, and of management, will be requested to take part in the process as appropriate.

The nominating and corporate governance committee reviews, at least annually, the performance of each current director and considers the results of such evaluation when determining whether or not to re-nominate such director for an additional term. In addition to reviewing the qualifications outlined in the *Director Qualifications* section below, in determining whether to recommend a director for re-election, the nominating and corporate governance committee also considers the director's past attendance at meetings and participation in and contributions to the activities of the Board of Directors. As part of this analysis, the nominating and corporate governance committee will also take into account the nature of and time involved in a director's service on other boards or committees. Following this review, the nominating and corporate governance committee nominated and recommended that Dr. Armer, Mr. Kelley and Mr. Ward be reelected to the Board of Directors as Class II directors.

New Director Candidates

Generally, the nominating and corporate governance committee identifies candidates for director nominees in consultation with management, through the use of search firms or other advisers, through recommendations submitted by stockholders or through such other methods as the nominating and corporate governance committee deems to be helpful to identify candidates. Once candidates have been identified, the nominating and corporate governance committee confirms that the candidates meet all of the minimum qualifications for director nominees established by the nominating and corporate governance committee. The nominating and corporate governance committee may gather information about the candidates through interviews, detailed questionnaires regarding experience, background and independence, comprehensive background checks from a qualified company of its choosing or any other means that the nominating and corporate governance committee deems to be helpful in the evaluation process.

An initial reviewing member of the nominating and corporate governance committee will make a preliminary determination regarding whether a potential candidate is qualified to fill a vacancy or satisfy a particular need. If so, the full nominating and corporate governance committee will make an investigation and interview the potential candidate, as necessary, to make an informed final determination. The nominating and corporate governance committee will meet as a group to discuss and evaluate the qualities and skills of each candidate, both on an individual basis and taking into account the overall composition and needs of the Board of Directors. Based on the results of the evaluation process, the nominating and corporate governance committee recommends candidates for the Board of Directors' approval as nominees for election to the Board of Directors. The nominating and corporate governance committee also recommends candidates for the Board of Directors' appointment to the committees of the Board of Directors.

Director Qualifications

The nominating and corporate governance committee is responsible for reviewing with the Board of Directors from time to time the appropriate qualities, skills and characteristics desired of members of the Board of Directors in the context of the needs of the business and current composition of the Board of Directors. In evaluating the suitability of individual candidates (both new candidates and current members of the Board of Directors), the nominating and corporate governance committee, in nominating candidates for election, or the Board of Directors, in approving (and, in the case of vacancies, appointing) such candidates, takes into account many factors, including:

the candidate's personal and professional integrity, ethics and values;

the candidate's experience in corporate management, such as serving as an officer or former officer of a publicly held company;

the candidate's experience in the pharmaceutical industry and with relevant social policy concerns;

the candidate's experience as a board member of another publicly held company;

the candidate's diversity of experience in substantive matters pertaining to our business relative to other Board members; and

whether the candidate possesses practical and mature business judgment.

Edgar Filing: MAP Pharmaceuticals, Inc. - Form DEF 14A

The Board of Directors evaluates each individual in the context of the Board of Directors as a whole, with the objective of assembling a group that can best perpetuate the success of our business and represent stockholder interests through the exercise of sound judgment using its diversity of experience in these various areas.

Procedures for Recommendation of Director Nominees by Stockholders

The nominating and corporate governance committee will consider director candidates who are recommended by our stockholders. Stockholders, in submitting recommendations to the nominating and corporate governance committee for director candidates, must comply with our Bylaws. Pursuant to our Bylaws, stockholders who wish to nominate persons for election to the Board of Directors at the Annual Meeting must comply with the notice provisions in our Bylaws. The stockholder's notice must include the following information for the person proposed to be nominated:

- (a) the name and address, as they appear on our books, of the stockholder proposing such business;
- (b) the class and number of our shares that are beneficially owned by the stockholder;
- (c) any material interest of the stockholder in such business; and
- (d) any other information that is required to be provided by the stockholder pursuant to Regulation 14A under the Securities Exchange Act of 1934, as amended, in his, her or its capacity as a proponent to a stockholder proposal.

We may request from the recommending stockholder or recommending stockholder group such other information as may reasonably be required to determine whether each person recommended by a stockholder or stockholder group as a nominee meets the minimum director qualifications established by the Board of Directors and to enable us to make appropriate disclosures to stockholders entitled to vote in the next election of directors. Nominees are required to make themselves reasonably available to be interviewed by the nominating and corporate governance committee and members of management, as determined to be appropriate by the nominating and corporate governance committee. We will not accept a stockholder recommendation for a nominee if the recommended candidate's candidacy or, if elected, Board of Directors membership, would violate applicable state law, federal law or the rules of any exchange or market on which our securities are listed or traded. If the nomination by stockholders was made in accordance with the procedures in our Bylaws, the nominating and corporate governance committee will apply the same criteria in evaluating the nominee as it would any other Board nominee candidate and will recommend to the Board of Directors whether or not the stockholder nominee should be nominated by the Board of Directors and included in our proxy statement.

Notices should be directed to the attention of the Secretary, MAP Pharmaceuticals, Inc., 2400 Bayshore Parkway, Suite 200, Mountain View, California 94043.

Communications with the Board of Directors

We provide a process for stockholders to send communications to the Board of Directors, the non-employee members as a group or any of the directors individually. Stockholders may contact any of the directors, including the non-employee directors, by writing to them c/o the Secretary, MAP Pharmaceuticals, Inc., 2400 Bayshore Parkway, Suite 200, Mountain View, California 94043. All communications will be compiled by our Secretary and submitted to the Board of Directors or the individual directors, as applicable, on a periodic basis.

PROPOSAL 2**RATIFICATION OF SELECTION OF INDEPENDENT****REGISTERED PUBLIC ACCOUNTING FIRM**

On the recommendation of the audit committee, the Board of Directors has selected PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2012, and has further directed that management submit the selection of the independent registered public accounting firm for ratification by the stockholders at the Annual Meeting. PricewaterhouseCoopers LLP has served as our independent registered public accounting firm since March 2006. Representatives of PricewaterhouseCoopers LLP are expected to be present at the Annual Meeting, will have an opportunity to make a statement if they so desire and will be available to respond to appropriate questions from stockholders.

Stockholder ratification of the selection of PricewaterhouseCoopers LLP as our independent registered public accounting firm is not required by our Bylaws or otherwise. However, the Board of Directors is submitting the selection of PricewaterhouseCoopers LLP to the stockholders for ratification as a matter of good corporate practice. If the stockholders fail to ratify the selection, the audit committee and the Board of Directors will reconsider whether or not to retain that firm. Even if the selection is ratified, the audit committee and the Board of Directors in their discretion may direct the appointment of a different independent registered public accounting firm at any time during the year if they determine that such a change would be in the best interests of the Company and its stockholders.

INDEPENDENT REGISTERED PUBLIC ACCOUNTANTS FEES BILLED TO REGISTRANT

The following table summarizes the aggregate fees incurred in fiscal years 2011 and 2010 for professional services rendered by PricewaterhouseCoopers LLP for the audit of our financial statements, and fees for other services rendered by PricewaterhouseCoopers LLP:

Fee Category	2011	2010
Audit Fees ⁽¹⁾	\$ 626,675	\$ 489,675
Audit-related Fees		
Tax Fees		
All Other Fees ⁽²⁾	2,700	16,102
Total	\$ 629,375	\$ 505,777

⁽¹⁾ Audit Fees consisted of:

During 2011, quarterly reviews for the first three quarters of 2011 and work related to the integrated audit of our 2011 annual financial statements;

During 2010, quarterly reviews for the first three quarters of 2010 and work related to the integrated audit of our 2010 annual financial statements; and

Edgar Filing: MAP Pharmaceuticals, Inc. - Form DEF 14A

Consents for registration statements and other services related to SEC matters.

(2) All Other Fees consisted of:

During 2011, \$2,700 for our subscription to an account research tool provided by PricewaterhouseCoopers LLP.

During 2010, \$1,500 for our subscription to an account research tool provided by PricewaterhouseCoopers LLP, and \$14,602 for tax consulting services related to our application for a U.S. government tax credit grant.

In considering the nature of the services provided by the independent registered public accounting firm, the audit committee determined that such services are compatible with the provision of independent audit services. The audit committee discussed these services with the independent registered public accounting firm and our management to determine that they are permitted under the rules and regulations concerning auditor independence promulgated by the SEC to implement the Sarbanes-Oxley Act of 2002, as well as the Public Company Accounting Oversight Board.

Pre-Approval Policy

The audit committee is responsible for reviewing the terms of the proposed engagement of the independent registered public accounting firm for audit or permissible non-audit services and for pre-approving all such engagements. The audit committee may delegate authority to one member of the audit committee to provide such pre-approvals, provided that such person will be required, for informational purposes only, to report all such approvals to the full audit committee at its next scheduled meeting. In providing any pre-approval, the audit committee considers whether the services to be approved are consistent with the SEC's rules on auditor independence. In fiscal years 2011 and 2010, all of the services performed by our independent registered public accounting firm were pre-approved by the audit committee pursuant to our policy.

Recommendation of the Board of Directors

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT YOU VOTE FOR RATIFICATION OF THE APPOINTMENT OF PRICEWATERHOUSECOOPERS LLP AS OUR INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM. UNLESS YOU INDICATE OTHERWISE, YOUR PROXY WILL BE VOTED FOR RATIFICATION.

PROPOSAL 3

**ADVISORY VOTE ON COMPENSATION
OF THE COMPANY'S NAMED EXECUTIVE OFFICERS**

Background

Under the Dodd-Frank Wall Street Reform and Consumer Protection Act enacted in July 2010 (the Dodd-Frank Act), stockholders are entitled to vote at the Annual Meeting to approve, on an advisory (non-binding) basis, the compensation of the Company's named executive officers (commonly referred to as "say-on-pay"), as disclosed in this proxy statement pursuant to Item 402 of Regulation S-K under the Securities Act and the Exchange Act.

Summary

Our stockholders are being asked to provide advisory approval of the compensation of our named executive officers, who consist of our Chief Executive Officer, Chief Financial Officer and the next three highest paid executive officers, as we have described it in the Executive Compensation Discussion and Analysis section of this proxy statement and the related executive compensation tables, beginning on page 23. Although the vote is non-binding, our compensation committee and our Board of Directors value the opinions of our stockholders and the compensation committee will consider the outcome of the vote when making future compensation decisions.

Our executive compensation programs are designed to enable us to attract, engage and retain exceptionally talented and highly experienced executives in the competitive and dynamic life sciences industry who are critical to our success. Such programs motivate and reward our named executive officers for the achievement of specific annual and long-term goals, including key corporate strategic and financial performance objectives. The programs also align the interests of our named executive officers and stockholders by motivating them to increase stockholder value. The following is a summary of some of the key points of our executive compensation program. We urge our stockholders to review the Executive Compensation Discussion and Analysis section of this proxy statement and executive-related compensation tables for more information.

We emphasize pay-for-performance and align a significant amount of our named executive officers' pay with our performance and achievement of vital business objectives. We believe a significant portion of our executive's compensation should be variable and at risk and tied to our measurable performance. The compensation committee has designed our executive compensation program so that total compensation is earned largely based on the achievement of our major corporate objectives, including, for example, research, development and operational milestones.

We further promote our pay-for-performance philosophy and commitment to aligning our executives' long-term interests with those of our stockholders through a culture of executive ownership that encourages long-term investment by our executive officers in our equity, thereby better aligning the executives' interests with the interests of our stockholders. This is accomplished by having a significant portion of the named executive officers' compensation be in the form of equity awards under our 2007 Equity Incentive Plan.

Edgar Filing: MAP Pharmaceuticals, Inc. - Form DEF 14A

Under our 2007 Equity Incentive Plan we grant options and restricted stock units with four year time-based vesting and have granted performance-based restricted stock units that are earned solely on the achievement of performance goals related to our LEVADEX product candidate.

We believe that our compensation programs are strongly aligned with the long-term interests of our stockholders. We believe that equity awards serve to align the interests of our executive officers with those of our long-term stockholders by encouraging long-term performance. As such, equity awards are a key component of our executive compensation program. Our long-term incentives have been designed using a balanced portfolio

approach with a mix of awards, including (i) initial grants of stock options upon commencement of employment, (ii) annual grants of time-vesting stock options and (iii) performance-based and time-vesting restricted stock units.

We provide competitive pay opportunities that reflect best practices. The compensation committee consistently reviews our executive compensation program to ensure that it not only provides competitive pay opportunities, but also reflects best practices. The compensation committee works closely with an independent compensation consultant in annually reviewing our named executive officers' compensation to ensure that compensation payable to our named executive officers is reasonable when compared to our peers and reflect current trends and best practices among those peer companies and the larger corporate community. For example, current change in control severance benefits provided to named executive officers contain double trigger, not single trigger, provisions and do not provide for gross-ups of related excise taxes.

We are committed to having strong governance standards with respect to our compensation program, procedures and practices. Pursuant to our commitment to strong governance standards, the compensation committee is comprised solely of independent directors. The compensation committee retains an independent compensation consultant to provide it with advice and guidance on our executive compensation program design and evaluate our executive compensation. The compensation committee oversees and periodically assesses the risks associated with our company-wide compensation structure, policies and programs to determine whether such programs encourage excessive risk taking.

Recommendation of the Board of Directors

The Board of Directors believes that the information provided above and within the Executive Compensation Discussion and Analysis section of this proxy statement demonstrates that our executive compensation program was designed appropriately and is working to ensure that management's interests are aligned with our stockholders' interests to support long-term value creation.

Accordingly, we are asking our stockholders to vote **FOR** the following resolution at the Annual Meeting:

RESOLVED, that the stockholders of MAP Pharmaceuticals, Inc. approve, on an advisory basis, the compensation of the named executive officers, as disclosed in the Compensation Discussion and Analysis, compensation tables and narrative discussion of this proxy statement.

As this is an advisory vote, the outcome of the vote is non-binding on the Company, the compensation committee or the Board of Directors with respect to future executive compensation decisions, including those related to our named executive officers, or otherwise. However, the Board of Directors and the compensation committee values the opinions of the stockholders, and will review the results of the vote and take them into account when considering future executive compensation policies and decisions.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT YOU VOTE FOR NON-BINDING APPROVAL OF THE COMPENSATION OF THE COMPANY'S NAMED EXECUTIVE OFFICERS AS DISCLOSED IN THIS PROXY STATEMENT PURSUANT TO ITEM 402 OF REGULATION S-K UNDER THE SECURITIES ACT AND THE EXCHANGE ACT.

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table sets forth the amount and percentage of the outstanding shares of our Common Stock, which, according to the information supplied to the Company, are beneficially owned by (i) each person who is the beneficial owner of more than 5% of our outstanding Common Stock, (ii) each person who is currently a director, three of whom are also nominees for election as Class II directors, (iii) each person who is currently an executive officer, and (iv) all current directors and executive officers as a group. Unless otherwise indicated, the address for each of the stockholders in the table below is c/o MAP Pharmaceuticals, Inc., 2400 Bayshore Parkway, Suite 200, Mountain View, CA 94043. Except for information based on Schedules 13G and 13D, as indicated in the footnotes, beneficial ownership is stated as of April 2, 2012.

⁽¹⁾ Information in this table is based on our records and information provided by directors, nominees, executive officers and in public filings. Unless otherwise indicated in the footnotes and subject to community property laws where applicable, each of the directors, nominees, and executive officers has sole voting and/or investment power with respect to such shares, including shares held in trust.

⁽²⁾ The percentage of shares beneficially owned is based on 30,657,370 shares of Common Stock outstanding as of April 2, 2012. Shares of Common Stock subject to options that are currently vested or exercisable or that will become vested or exercisable within 60 days after April 2, 2012, as well as restricted stock units that vest within 60 days after April 2, 2012, are deemed to be beneficially owned by the person holding such options for the purpose of computing the percentage of ownership of such person but are not treated as outstanding for the purpose of computing the percentage of any other person.

⁽³⁾ This information is based on Schedule 13G/A filed with the SEC on February 14, 2012 by FMR LLC and Edward C. Johnson 3d. The Common Stock is held by Fidelity Management & Research Company (Fidelity), a wholly owned subsidiary of FMR LLC, as a result of acting as an investment advisor to various investment companies (the Funds). FMR LLC reports that one investment company, Fidelity Growth Company Fund, an investment company registered under the Investment Company Act of 1940,

- owns of record more than 5% of the Company's Common Stock. Edward C. Johnson 3d and FMR LLC, through its control of Fidelity and the Funds, each has sole power to dispose of the shares owned by the Funds. Members of the family of Edward C. Johnson 3d, Chairman of FMR LLC, through their ownership in FMR LLC, may be deemed to form a controlling group with respect to FMR LLC under the Investment Company Act of 1940. Neither FMR LLC nor Edward C. EXECUTIVE COMPENSATION

COMPENSATION DISCUSSION AND ANALYSIS

The Named Executive Officers

Our named executive officers are our Chief Executive Officer, our Chief Financial Officer and the three next most highly compensated executive officers. For fiscal year 2011, our named executive officers are:

Timothy S. Nelson, President and Chief Executive Officer;

Christopher Y. Chai, Senior Vice President and Chief Financial Officer;

Thomas A. Armer, Chief Scientific Officer;

Scott W. Borland, Senior Vice President, Neurology Franchise; and

Charlene A. Friedman, Senior Vice President, General Counsel and Secretary.

Executive Compensation

We have adopted a performance based compensation philosophy for our executive officers that focuses executive behavior on the achievement of near-term corporate targets as well as long-term business objectives and strategies. The compensation committee of our Board of Directors is responsible for evaluating and administering our compensation programs and practices to ensure that they properly incentivize our work force and appropriately drive corporate performance while remaining competitive with comparable life sciences companies competing in our labor market. Our compensation committee reviews and approves all of our compensation policies, including executive officer salaries, bonuses and equity incentive compensation.

Objectives of our Executive Compensation Programs

Our compensation programs for our executives, including the named executive officers, are designed to achieve the following objectives:

attract, engage and retain exceptionally talented and highly experienced executives in the competitive and dynamic life sciences industry;

motivate and reward executives whose knowledge, skills and performance ensure our continued success;

encourage and inspire our executives to achieve key corporate strategic and financial performance objectives by linking incentive award opportunities to the achievement of individual and company-wide short and long-term goals; and

align the interests of our executives and stockholders by motivating executives to increase stockholder value and rewarding executives when stockholder value increases.

Shareholder Say-on-Pay Vote

At our 2011 stockholders meeting, we provided our shareholders with the opportunity to cast an advisory vote on executive compensation. Over 91% of the votes cast on this 2011 say-on-pay vote were voted in favor of the proposal. We have considered the 2011 say-on-pay vote and we believe that the support of our shareholders for the 2011 say-on-pay vote proposal indicates that our shareholders are generally supportive of our approach to executive compensation. Thus we have not made any material changes to our executive compensation arrangements in response to the 2011 say on pay vote. At our 2011 stockholders meeting, our stockholders also voted in favor of the proposal to hold say on pay votes every year. In the future, we will continue to consider the outcome of our annual say-on-pay votes when making compensation decisions regarding the named executive officers.

Our Executive Compensation Programs

The components of our executive compensation program consist primarily of base salary, annual cash incentive bonuses and equity awards and broad-based benefits programs. We use an array of short-term compensation components (such as base salaries and cash incentive bonuses) and long-term compensation components (such as equity incentive compensation) to provide an overall compensation structure that is designed to both attract and retain key executives as well as provide incentive for the achievement of long-term corporate objectives. Our compensation committee does not use a set formula in determining the mix of short-term and long-term compensation components, and uses its judgment and experience along with the recommendations of the chief executive officer (except in connection with his own compensation) to determine the appropriate mix of long-term and short-term compensation elements for each executive officer. Our compensation committee analyzes each of the primary elements of our compensation program to ensure that our executives' overall compensation is competitive with executive officers with similar positions at comparable life sciences companies in our labor market.

Our compensation committee has adopted a pay-for-performance compensation philosophy, which is intended to keep the average aggregate compensation of our executives at a level which is between the sixtieth and seventy-fifth percentile of compensation at the companies within our peer group which are at a similar stage of development as our company and that have a similar number of employees. We work within the general framework of this pay-for-performance philosophy to determine each component of an executive's compensation package based on numerous factors, including:

performance goals and other expectations for the position and the individual;

the individual's particular background and relevant expertise, including training and prior relevant work experience;

the individual's role with us and the compensation paid to similar persons in the companies represented in the compensation data that we review;

the demand and competition for the individual within the marketplace; and

comparison to other executives within our company having similar levels of expertise and experience.

Our compensation committee retained Radford, an Aon Hewitt Company (the Consultant), an independent, third-party compensation consultant, in mid-2010 to review our executive compensation programs and met with the Consultant in late 2010 and early 2011 to review and discuss the Consultant's findings. The Consultant provided a report which included a review and analysis of base salary, cash bonus, equity incentives and total compensation for each executive officer, including the named executive officers. The Consultant reviewed these compensation components taking into consideration publicly available compensation data of a previously determined group of 18 public companies in our peer group, as well as compensation data from the 2010 Radford Global Life Sciences surveys for public life sciences companies with fewer than 150 employees with a focus on companies in the Northern California market where we compete for talent. The Consultant also reported on general market trends in recent compensation practices to assist the compensation committee in providing competitive compensation. The compensation committee updated and modified the list of peer group companies used by the compensation committee in its January 2010 compensation review so as to accurately reflect our company's peers and our company's stage of business and product development as of January 2011. The composition of our peer group for 2011 takes into account the change in our company's stage of business and product development stage as we advance our LEVADEX product candidate toward potential FDA approval and commercialization. Our peer group consists of companies that compete with us for executive talent, that compete with us in the marketplace and are of similar size and complexity. The Consultant performed an independent review of the peer group selection criteria. The compensation committee used these criteria to establish a group of comparable companies that reflected our Company's then current business stage as measured by product development, market capitalization and organization size. The specific metrics used were life sciences companies in late stages of product development or small commercial companies with a market cap between \$125 million and \$1.2 billion (.33 to 3 times the valuation of the company at the time) and a headcount of under 300 employees. The companies in our peer group for 2011 were also chosen from biotechnology hub markets to reflect recruiting markets for executive talent that are comparable to our own. The peer group companies for 2011 are as follows: Affymax, Inc., Amicus Therapeutics, Inc., Arena Pharmaceuticals, Inc., Ariad Pharmaceuticals, Inc., Cadence Pharmaceuticals, Inc., DURECT Corporation, Dyax Corp., Inspire Pharmaceuticals, Inc., InterMune, Inc., Jazz Pharmaceuticals, Inc., Medivation, Inc., Nektar Therapeutics, Orexigen Therapeutics, Inc., Optimer Pharmaceuticals, Inc., Pain Therapeutics, Inc., Vanda Pharmaceuticals, Inc., Vical, Inc. and VIVUS, Inc.

In making determinations regarding executive compensation, the compensation committee typically reviews the compensation data from the complete group of companies. The compensation committee's compensation objectives were to target the named executive officers' total compensation at the sixtieth to seventy-fifth percentile of these peer group companies. In establishing our compensation philosophy, the compensation committee took into account compensation levels in the Silicon Valley area of California and competition to attract and retain qualified individuals with the breadth of skills and experience that is required to develop, obtain regulatory approval for and commercialize pharmaceutical products successfully.

Each of the primary elements of our executive compensation program is discussed in more detail below. While we have identified particular compensation objectives that each element of executive compensation serves, our compensation programs are designed to be flexible and complementary and collectively serve all of our executive compensation objectives described above. Accordingly, whether or not specifically mentioned below, we believe that, as a part of our overall executive compensation policy, each individual element, to a greater or lesser extent, serves each of our objectives.

To assist the compensation committee in its annual review of executive compensation, the Chief Executive Officer provides an evaluation to the compensation committee regarding each executive's performance during the time period being assessed. The compensation committee determines the compensation of our executive officers in executive session, without the presence of management.

Annual Cash Compensation

Base Salary

Base salaries are set at levels which are intended to be competitive with similar positions at our peer group companies. The base salaries of all executive officers are reviewed annually and may also be adjusted to reflect individual roles and performance. We may also increase the base salary of an executive officer at other times if a change in the scope of the officer's responsibilities justifies such consideration or, in limited circumstances, to maintain salary equity within our competitive environment. We believe that a competitive base salary is a necessary element of any compensation program designed to attract and retain talented and experienced executives. We also believe that competitive base salaries can motivate and reward executives for their overall performance and serve to retain valuable executives.

Our compensation committee reviews executive officer salaries on an annual basis. For this purpose, the compensation committee considers compensation for similar positions at the peer group as well as survey compensation data, along with the executive's job scope and responsibilities, past and current performance and contributions, and individual factors such as experience and background, unique skills, demand in the labor market and longer-term development and succession plans. In addition, the compensation committee considers the strategic and operational performance of our company, relative levels of pay among officers and recommendations from the Chief Executive Officer.

In January 2011, the compensation committee reviewed the performance during 2010 of each of the executive officers and also reviewed compensation for each executive officer, including the named executive officers. The committee considered an executive compensation assessment report prepared by the Consultant, analyzing total compensation and comparing executive officer compensation to market data, including data on executive compensation from our peer group. The Consultant reported that actual total cash compensation for 2010 was below the sixtieth percentile for most named executive officers when compared to similar positions in our peer group and that base salaries for executive officers were generally at or below the target of base salaries at the companies within our peer group. The compensation committee also reviewed each individual executive's performance over the review period and over time, and the annual performance of the Company. For 2011, our compensation committee approved increases in base salaries for the named executive officers and, for those officers whose base salaries were lower than the sixtieth percentile for similar positions at the peer group of companies described above, brought their base salaries to the sixtieth percentile level. Based on the factors discussed above, our compensation committee approved an increase in the base salaries of our named executive officers, effective as of January 1, 2011, as follows: the base salary of Mr. Nelson increased from \$471,628 to \$617,300 per year; the base salary of Mr. Chai increased from \$321,219 to \$350,100 per year; the base salary of Dr. Armer increased from \$342,282 to \$369,400 per year; and the base salary of Ms. Friedman increased from \$305,424 to \$352,100 per year. The base salary of Mr. Borland, who was not an executive officer at the time, increased from \$241,280 to \$257,500 per year in January 2011. In June 2011 the compensation committee increased Mr. Borland's base salary to \$290,000 per year, in connection with his promotion to Senior Vice President, Neurology Franchise.

Cash Incentive Bonuses

Each year, our compensation committee has approved a performance-based cash incentive bonus plan with pre-defined target payouts as a percent of salary based on achievement of corporate and personal objectives. Our bonus plan is designed to foster teamwork throughout our company and drive stockholder value by tying incentive compensation to company-wide performance measures that we believe are most important to the

success of our company. An executive officer's bonus payment is based principally on the achievement of these major corporate objectives, including, for example, research, development and operational milestones, as well as individual performance objectives for certain executive officers. The various corporate objectives are approved annually by our compensation committee with specific weighting for each metric. Underachievement of the major corporate goals may result in lower bonus payments.

In January 2011, the compensation committee reviewed market data on cash bonus opportunities for executives, including at the peer group companies. The Consultant reported that target bonus opportunities for our named executive officers as a percent of base salary were generally at or below the target level for cash bonus opportunities for comparable positions at the companies within our peer group. Based on the factors discussed above, our compensation committee determined performance-based cash bonus target amounts as follows. In 2011, Mr. Nelson was eligible for an annual performance-based cash bonus with a target of 60% of his base salary. Dr. Armer, Mr. Chai, Ms. Friedman were eligible for an annual performance-based cash bonus with a target of 40% of their respective base salaries. Mr. Borland was eligible for an annual performance-based cash bonus with a target of 35% of his base salary until he became an executive officer, in June 2011, after which time his target bonus percentage was 40% of base salary. The target bonuses payable under our 2011 performance-based cash bonus plan to Mr. Nelson, Dr. Armer and Mr. Chai were based 100% on our company's achievement of corporate objectives. For Mr. Borland and Ms. Friedman, the target bonus payable under the 2011 performance-based cash bonus plan was based 75% on company achievement of corporate objectives and 25% on individual performance objectives. Our compensation committee chose different percentages for the target bonuses to individual executive officers to reflect different levels of responsibility of the executive officers. For Mr. Borland, the individual performance objectives related to the advancement our LEVADEX product candidate, including the filing of a New Drug Application and activities in support of LEVADEX commercial manufacturing. For Ms. Friedman, the individual performance objectives related to providing legal services to the Company and its functional areas. The performance-based cash bonus targets for 2011 positioned the target bonus opportunities for our named executive officers as a percent of base salary generally at the sixtieth percentile of cash bonus opportunities at the companies within our peer group.

Our compensation committee approves corporate and individual executive performance objectives at what they believe are aggressive levels so as to require substantial effort and commitment by our executives to attain the targets, with such efforts significantly contributing towards increased stockholder value and elevated business performance. A minimum threshold of performance against corporate objectives must be achieved in order for an executive to be eligible to receive any portion of their cash incentive bonus. Furthermore, the established individual objectives, and the associated bonus amounts, will not be achieved by average or below average performance by the executive. Our compensation committee has the discretion to adjust the bonus plan payments related to achievement of performance measures if it deems that a bonus plan participant has met some portion of the performance measures in a manner consistent with the intent of the bonus plan. Our compensation committee may also, in its discretion, award bonuses to executives based upon such other terms and conditions as they may determine are appropriate.

In January 2012, the compensation committee reviewed our 2011 corporate performance, as well as individual performance, and awarded bonuses in accordance with the pre-determined bonus program parameters described below. In general, the compensation committee found that the Company had met 91.5% of its overall corporate objectives for 2011. Our 2011 corporate objectives for purposes of the 2011 performance-based cash bonus plan were as follows: to progress the LEVADEX clinical program, including the filing of a New Drug Application for LEVADEX with the U.S. Food and Drug Administration, to implement operational and manufacturing activities in support of potential LEVADEX commercialization, to explore expansion of potential product offerings focused on the needs of the migraine physician, to optimize access of LEVADEX to the market by exploring potential licensing options, to expand our presence among the physician community through presentation of scientific papers and publication of peer-reviewed articles and to manage our budget to plan and consistent with the achievement of company objectives, and to progress pipeline development programs. These objectives represented key business milestones for our company with respect to the advancement of our

LEVADEX product candidate as well as other potential pipeline opportunities. For those named executive officers who had a percentage of bonus tied to individual performance objectives, the named executive officers met at least 90% of these individual objectives.

The amounts paid to each named executive officer under the 2011 performance-based cash bonus plan were as follows: to Mr. Nelson, \$338,898; to Mr. Chai, \$128,137; to Dr. Armer, \$135,200; to Mr. Borland, \$95,828; and to Ms. Friedman, \$131,861. The approximate percentage of year-end base salary actually paid under the 2011 performance-based cash bonus plan is as follows: for Mr. Nelson, 55%; for Mr. Chai, 37%; for Dr. Armer, 37%; for Mr. Borland, 33%; and for Ms. Friedman, 37%.

Equity Incentive Compensation

We believe that our long-term performance is best facilitated through a culture of executive ownership that encourages long-term investment by our executive officers in our equity, thereby better aligning the executives' interests with the interests of our stockholders. To encourage this ownership culture, we typically make an initial equity award of stock options to new employees followed by discretionary annual performance-based equity grants as part of our overall compensation program. Our compensation committee is authorized to make equity grants to all our employees, including our executive officers. These grants have an exercise price that is at least equal to the fair market value of our common stock on the grant date and are typically subject to a four year vesting schedule with 25% of the grant vesting on the first anniversary of the date of hire and then monthly thereafter for the next three years. The size of the initial stock option award is determined based on the executive's position with us and takes into account the executive's base salary and other compensation as well as an analysis of the grant and compensation practices of our peer group companies as represented in the compensation data that we review annually in connection with establishing our overall compensation policies. The initial stock option awards are intended to provide the executive with an incentive to build value in the organization over an extended period of time while remaining in line with our overall compensation philosophy. Depending on circumstances, we may also make an initial award of restricted stock units to an executive officer upon hire.

We consider a number of factors in determining the amount of periodic equity incentive awards, if any, granted to our executives, including each officer's performance and contribution during the previous fiscal year, retention concerns, stock ownership and market information, and the value of existing equity incentives for each officer. We also consider the number of shares subject to vested and unvested restricted stock units, as well as shares subject to, and exercise price of, outstanding options, both vested and unvested, held by each executive; the vesting schedule of the unvested equity incentive awards held by each executive; and the amount and percentage of our total equity on a fully diluted basis held by our executives individually and as a group.

In January 2011, the compensation committee reviewed market data provided by the Consultant on equity incentive opportunities for executive officers, including at the peer group companies. The Consultant reported that target equity incentive opportunities in 2010 for the named executive officers approximated the 75th percentile, overall, from a grant as a percent of shares outstanding approach.

Based on the factors discussed above, our compensation committee on January 26, 2011 granted stock options to the named executive officers. The options were granted with an exercise price equal to the closing price of our stock on January 26, 2011. Also at the meeting on January 26, 2011 the committee granted restricted stock units with time-based vesting to Mr. Chai, Dr. Armer, Mr. Borland and Ms. Friedman. These restricted stock unit awards are subject to a four year vesting schedule with 25% of the award vesting on each anniversary of the date of grant. In June 2011, in connection with the promotion of Mr. Borland to an executive officer, the committee granted to him stock options and restricted stock options with time-based vesting.

Termination Based Compensation

In connection with certain terminations of employment, certain of our executive officers may be entitled to receive certain severance payments and benefits pursuant to their respective employment agreements and offer letters. In addition, we have entered into change in control agreements with each of our executive officers, including the named executive officers, which will provide alternative severance payments and benefits in the event the executive is terminated without cause or resigns with good reason within 12 months following certain transactions or changes in our controlling stockholders. In setting the terms of and determining whether to approve such arrangements, our compensation committee recognized that executives, especially highly ranked executives, often face challenges securing new employment following termination and that distractions created by uncertain job security surrounding potential beneficial transactions may have a detrimental impact on the executives' performance. The severance payments and benefits are typically composed of cash payments in lieu of salary and bonus, continued health care coverage for a limited period of time and, in some cases, acceleration of vesting for some equity awards.

Other Compensation

All of our executive officers are eligible to participate in certain benefit plans and arrangements offered to employees generally, including health, dental, life, disability, 401(k), employee stock purchase and Section 125 plans (such as our flexible spending account plan). Consistent with our compensation philosophy, we intend to continue to maintain our current benefits for our executive officers. Our compensation committee in its discretion may revise, amend or add to any executive's benefits and perquisites as it deems advisable. We do not believe it is necessary for the attraction or retention of management talent to provide the officers with a substantial amount of compensation in the form of perquisites.

Tax Considerations

Section 162(m) of the Internal Revenue Code generally disallows a tax deduction for compensation in excess of \$1.0 million paid to our Chief Executive Officer and our four other most highly paid executive officers. Qualifying performance-based compensation is not subject to the deduction limitation if specified requirements are met. We generally intend to structure the performance-based portion of our executive compensation, when feasible, to comply with exemptions in Section 162(m) so that the compensation remains tax deductible to us. However, our compensation committee may, in its judgment, authorize compensation payments that do not comply with the exemptions in Section 162(m) when it believes that such payments are appropriate to attract and retain executive talent.

Section 4999 and Section 280G of the Internal Revenue Code provide that certain executives could be subject to significant excise taxes if they receive payments or benefits that exceed certain limits in connection with a change in ownership or change in effective control and that we or our successors could lose an income tax deduction with respect to the payments subject to these excise taxes. We have not entered into any agreements with any executives that might provide for a gross up or other reimbursement for taxes the executive might be required to pay pursuant to Section 4999 of the Internal Revenue Code.

Section 409A of the Internal Revenue Code imposes significant additional taxes and interest on underpayments of taxes in the event an executive defers compensation under a plan that does not meet the requirements of Section 409A. We have generally structured our programs and individual arrangements in a manner intended to comply with the requirements of Section 409A.

Summary Compensation Table

The following table summarizes the compensation earned for services rendered in all capacities for the fiscal years ended December 31, 2011, December 31, 2010 and December 31, 2009 by the named executive officers who were serving as executives as of December 31, 2011, the last day of our fiscal year.

- (1) In addition to the amounts paid pursuant to the 2009 performance-based cash bonus plan, our compensation committee approved the payment of certain discretionary cash bonuses for 2009.
- (2) The amounts included in the Option Awards column represent the aggregate grant date fair value of the option awards granted, determined in accordance with Accounting Standards Codification 18, or ASC 718, *Compensation - Stock Compensation*. The valuation assumptions used in determining such amounts are described in our consolidated financial statements included in our annual report on Form 10-K for the year ended December 31, 2011.
- (3) The amounts included in this column represent the aggregate grant date fair value of the stock awards granted, determined in accordance with ASC 718, *Compensation - Stock Compensation*. Stock awards granted in 2011 were restricted stock units with time-based vesting and the grant date fair value of these restricted stock units is based on the closing price of our common stock on the date of grant. Stock awards granted in 2010 were restricted stock units with performance-based vesting and the grant date fair value of these restricted stock units is based on the maximum value of the restricted stock units on the grant date, assuming all performance conditions will be achieved.
- (4) The amount included in the Non-Equity Incentive Plan Compensation column are composed entirely of cash bonuses awarded under our performance-based bonus program for each applicable fiscal year with respect to performance during such fiscal year but paid at the beginning of the next following fiscal year. All corporate objectives were predetermined by the compensation committee and objectively measurable, and all amounts paid were at the determination of the compensation committee.

Grants of Plan-Based Awards Table

All options granted to our named executive officers are incentive stock options, to the extent permissible under the Internal Revenue Code. The exercise price per share of each option granted to our named executive officers was the fair market value of the underlying common stock on the date such option was granted. All options were granted under our 2007 Equity Incentive Plan.

The following table shows information regarding grants of plan-based awards, including non-equity and equity awards, during the fiscal year ended December 31, 2011 to each of our named executive officers.

(1) These amounts represent the target amounts that could have been earned for fiscal year 2011 pursuant to our performance-based bonus program for fiscal year 2011. Actual amounts earned for fiscal year 2011 are included in the Summary Compensation Table above. For additional information regarding plan-based awards granted to our named executive officers, see Cash Incentive Bonuses above. Percentage is not meaningful.

(2) These options vest as to 1/4th of the total number of shares subject to the option on the one year anniversary of the vesting commencement date, with the remainder of the shares vesting at a rate of 1/48th of the total number of shares subject to the option on each monthly anniversary of the vesting commencement date until all shares are vested.

(3) These awards are restricted stock units which vest over four years at a rate of 25% annually.

(4) The closing price of our common stock on the date of grant, as reported on the Nasdaq Global Market.

(5) The amounts represent the aggregate grant date fair value of stock options and awards granted, determined in accordance with ASC 718.

- (2) Stock awards not vested include the restricted stock units, or RSUs, with performance-based vesting granted on February 2, 2010, and RSUs with time-based vesting granted on January 26, 2011 and June 7, 2011. RSUs with performance-based vesting vest upon regulatory approval of our LEVADEX product candidate within a specified performance period. RSUs with time-based vesting vest over four years at a rate of 25% annually.
- (3) The value of stock awards not vested was computed by multiplying the closing price of \$13.17 for the company's common stock on December 30, 2011 by the RSUs not vested.

Option Exercises and Restricted Stock Units Vested Table

The following table sets forth the number of shares acquired on stock options exercised and vesting of restricted stock units by each of the named executive officers during the fiscal year 2011. The table also presents the value realized upon such exercises and vesting, as calculated, in the case of stock options, based on the difference between the market price of our common stock at exercise and the option exercise price and, in case of restricted stock units, based on the closing price per share of common stock on the vesting date. Amounts presented in the Value Realized on Vesting column under Stock Awards do not necessarily mean that the named executive officer has actually sold the vested shares for cash.

Employment Agreements and Offer Letters

Timothy S. Nelson. On March 20, 2005, we entered into an at-will employment agreement with Mr. Nelson providing for his employment as our President and Chief Executive Officer. This employment agreement sets forth the terms and conditions of Mr. Nelson's employment. Mr. Nelson's base salary was originally set at \$285,000 per year, subject to annual review and increases based on performance. Pursuant to the employment agreement, Mr. Nelson also received a signing bonus of \$100,000, which was subject to repayment in the event he voluntarily

Edgar Filing: MAP Pharmaceuticals, Inc. - Form DEF 14A

terminated his employment or was terminated for cause prior to April 12, 2007. Pursuant to the terms of the employment agreement, Mr. Nelson was granted an option to purchase 357,549 shares of our common stock at an exercise price of \$0.64 per share, which was subject to vesting over four years from Mr. Nelson's employment start date. Mr. Nelson was also granted an additional option to purchase 71,509 shares of our common stock at an exercise price of \$0.64 per share, which vested upon the achievement of certain performance goals established by our Board of Directors. On March 19, 2009, we entered into an agreement with Mr. Nelson providing for severance benefits which Mr. Nelson shall be entitled to receive in the event of a termination of his employment with the Company under certain circumstances. In the event Mr. Nelson is terminated by us during the term of the agreement without cause (as defined in the severance agreement), or he

resigns under certain specified conditions, each as described in the agreement, and he is not otherwise entitled to a payment under the change in control agreement described below, we are required to pay Mr. Nelson an amount equal to twelve months of his base salary as in effect at the time of termination and an amount equal to the target annual performance-based cash bonus otherwise payable pursuant to the Company's cash incentive bonus plan for the year in which the termination occurs, and to provide twelve months accelerated vesting of any unvested stock awards granted to Mr. Nelson. In addition, we would be required to pay Mr. Nelson's monthly COBRA premiums for continued health coverage for himself and his eligible dependents for a period of one year following his termination.

Thomas A. Armer, Ph.D. On April 14, 2008, we entered into an employment agreement with Dr. Armer that replaced the previous employment agreement between us and Dr. Armer. This employment agreement sets forth the terms and conditions of Dr. Armer's employment and has an initial term through July 31, 2009 with automatic one year extensions following the initial term unless either party provides prior notice of non-extension. Dr. Armer's base salary initially was set at \$325,000 per year under the agreement, subject to annual review and increases based on performance. In the event Dr. Armer is terminated by us during the term of the agreement without cause (as defined in the employment agreement), or he resigns under certain specified conditions, each as described in the employment agreement, we are required to pay Dr. Armer an amount equal to the greater of one year of his base salary at the time of termination or twelve times the average monthly salary received during the twelve months preceding the termination date, plus any incentive compensation amounts that would otherwise become payable under any of our incentive compensation plans in effect at the time of termination. In addition, we would be required to pay Dr. Armer's monthly COBRA premiums for continued health coverage for himself and his eligible dependents for a period of one year following his termination.

Offer Letters. Each of our named executive officers other than Mr. Nelson and Dr. Armer have received employment offer letters setting forth the terms and conditions of their employment. The employment letters establish an initial annual base salary and provide that each executive shall be eligible for an annual performance bonus which is set as an initial percentage of their base salary. The annual bonus is payable based on the achievement of corporate and personal performance goals and objectives. See *Cash Incentive Bonuses* above for additional information. Each named executive officer also was awarded a stock option upon or shortly after their commencement of employment pursuant to terms and conditions outlined in each executive's respective employment offer letter. Each named executive officer's employment is at-will, and the executive may be terminated by us at any time; similarly each executive may terminate their employment with us at any time.

Change in Control Agreements

Change in Control Severance Benefits

We have entered into change in control agreements with each of our executive officers, including the named executive officers. Each of the change in control agreements contains a double trigger provision that, in the event a named executive officer is terminated by us without cause or resigns for good reason within twelve months following a change in control of our company, the named executive officer is entitled, subject to our receipt of an effective waiver and release of claims executed by the named executive officer, to the following payments and benefits:

an amount equal to twelve months of the named executive officer's base salary in effect at the time of termination;

an amount equal to the target annual performance-based cash bonus otherwise payable pursuant to our cash incentive bonus plan for the year in which termination occurred;

all stock awards granted to the named executive officer will immediately vest; and

COBRA premiums for 12 months, unless the named executive officer becomes covered under another group health plan earlier.

A change in control will generally be triggered under the change in control agreements upon:

the acquisition by a person or entity of 50% or more of either our then outstanding shares or the combined voting power of our then outstanding securities;

a change in the composition of the majority of our Board of Directors without the approval of the existing Board;

a merger of the Company (other than a merger following which our securities represent at least 50% of the combined voting power of the securities of the surviving entity); or

the approval of our stockholders of a plan of complete liquidation or dissolution of the Company or if there is a sale by us of all or substantially all of our assets.

We will generally have cause under the change in control agreements to terminate an executive upon:

the executive's failure to follow the reasonable instructions of his or her superiors;

any intentional or grossly negligent act or omission by the executive that is reasonably likely to injure the Company;

the executive's violation of any federal, state or local law applicable to the Company;

the executive's plea of guilty or nolo contendere to, or conviction of, a felony or of a misdemeanor involving moral turpitude; or

the executive's failure to comply in any material respect with the policies and procedures of the Company.

Under the change in control agreements, good reason includes the executive's voluntary termination following:

assignment to the executive of any duties or responsibilities that results in any diminution or any adverse change of the executive's position, status, circumstances of employment or scope of responsibilities; removal of duties customarily assigned to a person with executive's title or a substantial adverse alteration in the nature or status of such duties, provided that such a change will not be deemed to have occurred simply by virtue of a change in control, the fact that the Company becomes a subsidiary of another entity or the Company's status changing from publicly-traded to privately-held;

a reduction in the executive's base salary, except to the extent the annual base salary of all the other executives of the Company are similarly reduced;

our failure to continue to provide certain compensation and benefits; or

Edgar Filing: MAP Pharmaceuticals, Inc. - Form DEF 14A

a requirement that the executive's principal place of employment be located greater than 25 miles from where the executive's principal place of employment was located immediately prior to the change in control.

Our compensation committee intended that the double trigger change in control benefits described above provide fair and equitable compensation in the event of a termination of an executive officer following a change in control. This change in control policy also helps to ensure that the executives will undertake and support corporate transactions which may be in our stockholders best interests, but may lead to the termination of the executive's employment. By providing for reasonable severance upon termination following a change in control, the compensation committee intends to provide the executive with compensation that is sufficient to mitigate the risk of employment loss and encourage the executive to assist in undertaking the transaction. The amount of the severance is balanced against our need to be responsible to our stockholders and also takes into account the potential chilling impact such severance payments may have on other potential parties to a change in control transaction.

Our compensation committee also determined the change in control benefits to be appropriate and reasonable when generally compared to post-termination benefits provided by our peer group to comparably situated executives. We also feel that the level of benefits takes into account the expected length of time and difficulty the executive may experience in trying to secure new employment.

Potential Payments Upon Termination

The named executive officers each have entered into change in control severance agreements that provide for severance benefits in the event of a termination without cause or for good reason following a change in control of the Company. The following table sets forth quantitative estimates of the benefits that would have accrued to each of our named executive officers if his or her employment had been terminated by us without cause or for good reason following a change in control on December 31, 2011, assuming that such termination occurred within the period beginning on the effective date of a change in control and ending on the last day of the twelfth calendar month following the effective date of a change in control. Additionally, Mr. Nelson's severance agreement and Dr. Armer's employment agreement provide for severance payments in the event either is terminated by us without cause or resigns under certain specified conditions, as described in the severance agreement and the employment agreement, respectively. An estimate of such benefits is also set forth below. Amounts below reflect potential payments based on the fair market value of \$13.17 per share as of December 31, 2011, and the number of unvested options held as of December 31, 2011.

(2) Bonus payment is based on 100% of target bonus.

(3) Calculated as the intrinsic value per option, multiplied by the number of options that become immediately vested upon termination following a change in control. The intrinsic value per option is calculated as the excess of the closing market price on the Nasdaq Global Market on December 30, 2011 over the exercise price of the option.

(4) Calculated by multiplying the closing price of \$13.17 for the company's common stock on December 30, 2011 by the number of restricted stock units that become immediately vested upon termination following a change in control.

(5) COBRA premiums are paid for one year.

(6) Pursuant to the terms of his severance agreement, had Mr. Nelson been terminated by us without cause or had he resigned under certain specified conditions on December 31, 2011 other than following a change in control, he would have been entitled to receive a salary continuation payment of \$617,300, a bonus payment of \$370,380, twelve months accelerated vesting of unvested equity awards, with a value of \$254,367, and continued health insurance coverage for a period of one year, having a value of \$25,055.

(7) Pursuant to the terms of his employment agreement, had Dr. Armer been terminated by us without cause or he resigned under certain specified conditions on December 31, 2011 other than following a change in control, he would have been entitled to receive a salary continuation payment of \$369,400.

Proprietary Information and Inventions Agreement

Each of our named executive officers has also entered into a standard form agreement with respect to proprietary information and inventions. Among other things, this agreement obligates each named executive officer to refrain from disclosing any of our proprietary information received during the course of employment and, with some exceptions, to assign to us any inventions conceived or developed during the course of employment.

Determination of 2012 Compensation

In late 2011, our compensation committee retained the Consultant to independently review our executive compensation programs and met with the Consultant during late 2011 and January 2012 to review and discuss the Consultant's findings. The Consultant's report included a review and analysis of base salary, cash bonus, equity incentives, and total compensation for the Company's executive officers, including the named executive officers. The compensation committee reviewed these compensation components taking into consideration publicly available compensation data of a previously determined group of 20 public companies in our peer group, as well as compensation data from the 2011 Radford Life Sciences Survey for public life sciences companies with fewer than 300 employees and for public life sciences companies in the Northern California area. The Consultant also reported on its understanding of general trends in recent compensation practices. The companies in our peer group for 2012 are: Affymax, Inc., Arena Pharmaceuticals, Inc., Ariad Pharmaceuticals, Inc., Avair Pharmaceuticals, Inc., Aveo Pharmaceuticals, Inc., Cadence Pharmaceuticals, Inc., DURECT Corporation, Dyax Corp., Exelixis, Inc., Halozyme Therapeutics, Inc., Idenix Pharmaceuticals, Inc., InterMune, Inc., Isis Pharmaceuticals, Inc., Medivation, Inc., Nektar Therapeutics, Optimer Pharmaceuticals, Inc., Savient Pharmaceuticals, Inc., Theravance, Inc., VIVUS, Inc. and Xenoport, Inc. The new peer group companies reflect the change in our development stage as we advance our LEVADEX product candidate toward potential FDA approval and commercialization. The compensation committee's objective in setting compensation for 2012 was to target the named executive officers' total compensation at approximately the sixtieth to seventy-fifth market percentile.

The Consultant reported that actual total cash compensation to our named executive officers for 2011 was below the sixtieth percentile for the named executive officers when compared to our peer group. The Consultant also reported that 2011 equity incentives to our named executive officers were approximately at the sixtieth to seventieth percentile range.

For 2012, our compensation committee approved increases in base salaries for the named executive officers and brought their base salaries to approximately the sixtieth percentile level. Our compensation committee also set the cash incentive bonus at the target level for the named executive officer positions, and awarded equity incentives at approximately within the target range of the sixtieth to seventieth market percentiles. The compensation committee also believes that to motivate and retain the best talent among our executive officers, it may be necessary in the future to set total compensation with executive officers that deviates from the general philosophy of targeting total compensation at approximately the sixtieth to seventieth market percentile. Total compensation for each executive officer was determined based on the review of the Consultant's report, market data, including data relating to peer group companies, the individual executive's performance over the review period and over his or her service with the Company and the annual performance of the Company.

To assist our compensation committee in its annual review of executive performance, which took place in January 2012, the Consultant provided recommended guidelines to the committee for compensation of the named executive officers. Based on its review and analysis of the Consultant's report, as well as on Company and individual executive performance, our compensation committee made certain changes to executive compensation at its meeting on January 25, 2012, with such changes being implemented effective January 1, 2012.

Notwithstanding anything to the contrary set forth in our previous filings under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, that might incorporate future filings, including this proxy statement, in whole or in part, the following reports will not be incorporated by reference into any such filings, nor will they be deemed to be soliciting material or deemed filed with the Securities and Exchange Commission under the Securities Act of 1933, as amended, or under the Securities Exchange Act of 1934, as amended.

REPORT OF THE COMPENSATION COMMITTEE OF THE BOARD OF DIRECTORS

The compensation committee has reviewed and discussed the Compensation Discussion and Analysis contained in this proxy statement with management. Based on the compensation committee's review of and the discussions with management with respect to the Compensation Discussion and Analysis, the compensation committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this proxy statement for filing with the SEC.

REPORT OF THE AUDIT COMMITTEE OF THE BOARD OF DIRECTORS

The audit committee oversees our independent registered public accounting firm and assists the Board of Directors in fulfilling its oversight responsibilities on matters relating to the integrity of our financial statements and financial reporting, our compliance with legal and regulatory requirements and the independent registered public accounting firm's qualifications and independence by meeting regularly with the independent registered public accounting firm and our financial management personnel.

In fulfilling its oversight responsibilities, the audit committee reviewed and discussed our audited financial statements for the fiscal year ended December 31, 2011 with our management and PricewaterhouseCoopers LLP, our independent registered public accounting firm. The audit committee also discussed with PricewaterhouseCoopers LLP the matters required to be discussed by Statement on Auditing Standards No. 61 (Communications with Audit Committees), as amended and as adopted by the Public Company Accounting Oversight Board. This included a discussion of the independent registered public accounting firm's judgments as to the quality, not just the acceptability, of our accounting principles and such other matters that generally accepted auditing standards require to be discussed with the audit committee. The audit committee also received the written disclosures and the letter from PricewaterhouseCoopers LLP required by the Public Company Accounting Oversight Board and the audit committee discussed the independence of PricewaterhouseCoopers LLP with that firm.

Based on the audit committee's review and discussions noted above, the audit committee approved and recommended to the Board of Directors that the audited financial statements be included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2011 for filing with the SEC. Previously, the audit committee approved the selection of PricewaterhouseCoopers LLP as our independent registered public accounting firm for fiscal year 2011.

The audit committee and the Board of Directors have also approved the selection of PricewaterhouseCoopers LLP as our independent registered public accounting firm for fiscal year 2012.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

In accordance with our audit committee charter, our audit committee is responsible for reviewing and approving the terms and conditions of all related party transactions, other than compensation transactions which are subject to review and approval by our compensation committee. We have not entered into any financial transactions with any immediate family member of a director or executive officer of our company. If we were to do so, any such material financial transaction would need to be approved by our audit committee prior to our company entering into such a transaction.

EQUITY COMPENSATION PLAN INFORMATION

The following table provides information as of December 31, 2011 with respect to the shares of our Common Stock that may be issued under our existing equity compensation plans.

Plan Category	Number of Securities to be Issued upon Exercise of Outstanding Options, Warrants and Rights	Weighted-Average Exercise Price of Outstanding Options, Warrants and Rights	Number of Securities Remaining Available for Future Issuance under Equity Compensation Plans
Equity compensation plans approved by stockholders	4,607,099 ⁽¹⁾	\$ 10.84 ⁽²⁾	2,745,352 ⁽³⁾
Total	4,607,099	\$ 10.84	2,745,352

⁽¹⁾ Includes 4,378,053 shares of our common stock to be issued upon exercise of outstanding options, 26,903 shares to be issued upon exercise of warrants and 202,143 shares to be issued upon vesting of restricted stock units.

⁽²⁾ The weighted average exercise price does not take into account the shares to be issued upon vesting of restricted stock units, which do not have an exercise price.

⁽³⁾ Includes 2,109,189 shares of common stock remaining available for future issuance under our 2007 Equity Award Plan and 636,163 shares under our Employee Stock Purchase Plan.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires directors, executive officers and persons who own more than 10% of a registered class of our equity securities to file initial reports of ownership and reports of changes in ownership with the SEC. Such persons are required by SEC regulations to furnish us with copies of all Section 16(a) forms they file. Based solely on a review of copies of such forms received with respect to the fiscal year ended December 31, 2011 and the written representations received from certain reporting persons that no other reports were required, we believe that all directors, executive officers and persons who own more than 10% of our Common Stock have complied with the reporting requirements of Section 16(a).

STOCKHOLDER PROPOSALS FOR THE 2013 ANNUAL MEETING OF STOCKHOLDERS

In the event that a stockholder desires to have a proposal considered for presentation at the 2013 annual meeting of stockholders and inclusion in the proxy statement and form of proxy used in connection with such meeting in accordance with Rule 14a-8 promulgated under the Securities Exchange Act of 1934, as amended (Rule 14a-8), the proposal must be received at our principal executive offices by December 17, 2012. Any such proposal must comply with the requirements of our Bylaws and Rule 14a-8.

If a stockholder, rather than including a proposal in our proxy statement pursuant to Rule 14a-8 as discussed above, commences his, her or its own proxy solicitation for the 2013 annual meeting of stockholders or seeks to nominate a candidate for election or propose business for consideration at such meeting, we must receive notice of such proposal or nomination no earlier than December 17, 2012 and no later than January 18, 2013 pursuant to the advance notice provisions of our Bylaws (and not pursuant to Rule 14a-8). If the notice is not received by such date, it will be considered untimely under our Bylaws, and we will have discretionary voting authority under proxies solicited for the 2013 annual meeting of stockholders with respect to such proposal, if presented at the meeting. All such notices must comply with the requirements of our Bylaws.

Proposals and notices should be directed to the attention of the Secretary, MAP Pharmaceuticals, Inc., 2400 Bayshore Parkway, Suite 200, Mountain View, California 94043.

ANNUAL REPORT

A copy of our 2011 Annual Report on Form 10-K, which includes financial statements but excludes Form 10-K exhibits, is being mailed to each stockholder of record as of April 2, 2012, together with all proxy materials. Our annual report does not constitute, and should not be considered, a part of this proxy solicitation material.

Any person who was a beneficial owner of our Common Stock on the Record Date may request a copy of our annual report and it will be furnished without charge upon receipt of a written request identifying the person so requesting a report as a stockholder of the Company at such date. Requests should be directed to the Secretary, MAP Pharmaceuticals, Inc., 2400 Bayshore Parkway, Suite 200, Mountain View, California 94043.

OTHER MATTERS

As of the date of this proxy statement, the Board of Directors knows of no other matters that may be presented for consideration at the Annual Meeting. However, if any other matter is presented properly for consideration and action at the Annual Meeting, or any adjournment or postponement thereof, it is intended that the proxies will be voted with respect thereto in accordance with the best judgment and in the discretion of the proxy holders.
