Table of Contents

FOR ratification of the appointment of the Independent Public Accountant (Proposal No. 2);

FOR approval of the amendment authorizing the Board to effect the Reverse Stock Split (Proposal No. 3);

FOR approval authorizing the Board of Directors pursuant to Section 242(c) of the Delaware General Corporation Law to abandon the Reverse Split (Proposal No. 4);

FOR approval to amend the Company's Certificate of Incorporation to increase the number of shares of common stock that the Company is authorized to issue from 500,000,000 to 1,000,000,000 shares (Proposal No. 5); and

as the proxy holders may determine in their discretion with respect to any other matters that properly come before the meeting.

Revoking a Proxy

A stockholder may revoke any proxy given pursuant to this solicitation by attending the Annual Meeting and voting in person, or by delivering to the Company's Corporate Secretary at the Company's principal executive offices referred to above, prior to the Annual Meeting, a written notice of revocation or a duly executed proxy bearing a date later than that of the previously submitted proxy. Please note that a stockholder's mere attendance at the Annual Meeting will not automatically revoke that stockholder's previously submitted proxy.

Quorum and Voting Requirements

A quorum of stockholders is necessary to hold a valid meeting. A quorum will exist if stockholders holding one-third (1/3) of the outstanding shares of common stock entitled to vote are present at the meeting in person or by proxy. Shares of common stock that are voted FOR, AGAINST or ABSTAIN are treated as being present at the meeting for purposes of establishing a quorum. If a quorum is not present, the meeting may be adjourned until a quorum is obtained.

Broker non-votes (i.e., votes from shares of common stock held as of the Record Date by brokers or other custodians as to which the beneficial owners have given no voting instructions) will be counted for purposes of determining the presence or absence of a quorum for the transaction of business, but will not be counted for purposes of determining the number of votes cast with respect to certain of the proposals, as described below, on which the broker has expressly not voted.

Votes shall be counted by one or more persons who shall serve as the inspectors of election. The inspectors of election will canvas the shareholders present in person at the meeting, count their votes and count the votes represented by proxies presented. Abstentions and broker non-votes are counted for purposes of determining the number of shares represented at the meeting, but are deemed not to have voted on the proposal. Broker non-votes occur when a broker nominee (who has voted on one or more matters at the meeting) does not vote on one or more other matters at the meeting because it has not received instructions to so vote from the beneficial owner and does not have discretionary authority to so vote. Broker non-votes will have no effect on Proposals 1, 2 and 4 but will have the effect of an AGAINST vote on Proposal 3 and 5. Abstentions will have no effect on Proposal 1, 2 and 4 but will have the effect of an AGAINST vote on Proposal 3 and 5.

For purposes of determining the votes cast with respect to any matter presented for consideration at the meeting, only those votes cast FOR or AGAINST are included. However, if a proxy is signed but no specification is given, the shares will be voted FOR Proposals 1, 2, 3, 4 and 5.

Dissenter's Rights of Appraisal

No action will be taken in connection with the proposals described in this Proxy Statement for which Delaware law, our Certificate of Incorporation or Bylaws provide a right of a shareholder to dissent and obtain appraisal of or payment for such shareholder's shares.

Table of Contents

Proxy Solicitation Costs and Methods

We will pay all costs of soliciting proxies. In addition to mailing proxy solicitation material, our management, employees and agents also may solicit proxies in person, by telephone, or by other electronic means of communication. We have retained Innisfree M&A Inc. (Innisfree) to assist it in soliciting proxies. We have agreed to pay Innisfree a fee of \$7,500, plus expenses, for its services in connection with the annual meeting.

Communication with the Board of Directors

The Company has no formal written policy regarding communication with the Board of Directors. However, if a shareholder wishes to communicate with the Board of Directors (or any individual member), they may send a letter directed to the Corporate Secretary, Converted Organics Inc., 7A Commercial Wharf West, Boston, MA 02110. The Corporate Secretary will forward to the directors all communications that, in his or her judgment, are appropriate for consideration by the directors. Examples of communications that would not be appropriate for consideration by the directors include commercial solicitations and matters not relevant to the stockholders, to the functioning of the Board, or to the affairs of the Company.

The Company's Annual Report

A copy of the Company's annual report on Form 10-K/A for the year ended December 31, 2011 is enclosed with this proxy statement, and the contents of and exhibits to that annual report, including any amendments thereto, are incorporated by reference herein. The Form 10-K/A is also available on the Company's website (<http://ir.convertedorganics.com/annuals.cfm>). Upon written or oral request, the Company will provide copies of the exhibits to the annual report at no charge; such requests should be directed to Converted Organics Inc., 7A Commercial Wharf West, Boston, MA 02110.

Directors, Executive Officers and Key Employees

The Company's executive officers and directors and certain information about them, including their ages as of April 20, 2012, are as follows:

Name	Age	Position
Edward J. Gildea*	60	President, Chief Executive Officer, and Chairman of the Board
David R. Allen	57	Chief Financial Officer and Executive Vice-President of Administration
Edward A. Stoltenberg	72	Director

* Nominee for election at annual meeting.

The following is a brief description of the principal occupation and recent business experience of each of our directors and executive officers:

Edward J. Gildea has been our Chairman, President and Chief Executive Officer since January 2006. From 2001 to 2005, he held several executive positions including Chief Operating Officer, Executive Vice President, Strategy and Business Development, and General Counsel of Quality Metric Incorporated, a private health status measurement business. During that period, Mr. Gildea was also engaged in the private practice of law representing business clients and held management positions in our predecessor companies. He holds an A.B. degree from the College of the Holy Cross and a J.D. degree from Suffolk University Law School. The Company believes that Mr. Gildea's financial and business expertise, including a diversified background of counseling and managing both public and private companies, gives him the qualifications and skills to serve as a Director.

Table of Contents

David R. Allen has been our Chief Financial Officer since March 2007. He was previously a director of the Company from June 2006 to March 2007, where he served as our audit committee chairman. From 1999 to 2004, he served as first the Chief Financial Officer and then as Chief Executive Officer of The Millbrook Press Inc., a publicly held publisher of children's books. From 2004 until 2007, Mr. Allen has acted as a management consultant and advisor to small public companies. Mr. Allen holds a B.S. degree in Accounting and an M.S. degree in Taxation from Bentley University in Waltham, Massachusetts. Mr. Allen is a Certified Public Accountant.

Edward A. Stoltenberg has been a director since March 2007. He is a Managing Director of Phoenix Financial Services, an investment banking firm which provides financial services to middle market public and private companies. He has been with Phoenix since 1999. Mr. Stoltenberg is a Certified Public Accountant and holds a B.A from Ohio Wesleyan University and an M.B.A from the University of Michigan. The Company believes that Mr. Stoltenberg's financial and business expertise, including a diversified background of managing financial service firms and providing investment services for public companies gives him the qualifications and skills to serve as a Director.

During 2011 three directors resigned from the Board; Robert Cell and John DeVillars in July 2011 and Marshall Sterman in November 2011. The resignations were not the result of any disagreements with management, rather, the resignations helped reduce expenses.

There are no family relationships among our officers and directors.

Board Classifications, Committees and Meetings

Our Board of Directors comprises two members divided into three classes as nearly equal in number as possible. Currently, Mr. Edward Stoltenberg serves as a Class 1 director, whose term expires in 2013, while the other position is vacant; the positions are currently vacant for the two Class 2 directors, whose terms expire in 2014; and Mr. Edward Gildea serves as a Class 3 director, whose term expires in 2012.

During the fiscal year ended December 31, 2011, the Board of Directors held twelve meetings in person or telephonically and acted by written consent on two occasions. In addition to these meetings and actions, during fiscal year 2011 the Audit Committee of the Board of Directors met five times, the Compensation Committee of the Board of Directors met four times, and the Nominating and Governance Committee did not meet. Each of our directors attended greater than 75% of the aggregate of the total number of meetings of the board of directors and the total number of meetings held by all committees of the board on which he served.

In view of the fact that the Board has only two members, the functions of the Audit, Compensation, and Nominating and Governance Committees are carried out by the full Board. At such time as additional members are added to the Board, the Committees will be reinstated.

Nomination of Director Candidates

The Company receives suggestions for potential director nominees from many sources, including members of the Board, advisors, and stockholders. Any such nominations, together with appropriate biographical information, should be submitted to the Chairman of the Board in the manner discussed below. Any candidates submitted by a stockholder or stockholder group are reviewed and considered in the same manner as all other candidates.

Nominating and selection procedures are described in the written charter of the Company's Nominating and Governance Committee, a copy of which is available on the Company's website at www.convertedororganics.com. Qualifications for consideration as a Board nominee may vary according to the particular areas of expertise being sought as a complement to the existing board composition. However, minimum qualifications include high level

Table of Contents

leadership experience in business activities, breadth of knowledge about issues affecting the Company, experience on other boards of directors, preferably public company boards, and time available for meetings and consultation on Company matters. The Board does not have a formal policy with regard to the consideration of diversity in identifying director candidates, but seeks a diverse group of candidates who possess the background, skills and expertise to make a significant contribution to the Board, to the Company and its stockholders.

The full Board selects and recommends candidates for nomination as directors for stockholders to consider and vote upon at the annual meeting.

A stockholder wishing to nominate a candidate for election to the Company's Board of Directors at any annual meeting at which the Board of Directors has determined that one or more directors will be elected shall submit a written notice of his or her nomination of a candidate to the Chairman of the Board (c/o the Corporate Secretary), providing the candidate's name, biographical data and other relevant information together with a consent from the nominee. The submission must be received at the Company's principal executive offices a reasonable time before the Company begins to print and mail its proxy materials so as to permit the Board of Directors to evaluate the qualifications of the nominee.

The Company currently does not employ an executive search firm, or pay a fee to any other third party, to locate qualified candidates for director positions.

Board Leadership Structure and Role in Risk Oversight

Our Board does not have a policy regarding the separation of the roles of Chief Executive Officer and Chairman of the Board as the Board believes it is in the best interests of the Company to make that determination based on the position and direction of the Company and the membership of the Board. The Board has determined that having the Company's Chief Executive Officer serve as Chairman is in the best interest of the Company's shareholders at this time. The Company believes this structure makes the best use of the Chief Executive Officer's extensive knowledge of the Company and its industry.

Our Board of Directors has risk oversight responsibility for the Company and administers this responsibility directly. Our Board of Directors oversees our risk management process through regular discussions of the Company's risks with senior management both during and outside of regularly scheduled Board of Directors meetings. In addition, our Board of Directors administers our risk management process with respect to risks relating to the Company's accounting and financial controls.

Board Member Attendance at Annual Meetings

All current Board members and all nominees for election to our Board of Directors are required to attend our annual meetings of stockholders, provided, however, that attendance shall not be required if personal circumstances affecting the Board member or director nominee make his or her attendance impracticable or inappropriate. Two out of four of our then directors attended the 2011 annual meeting of stockholders.

Director Independence and Audit Committee Expert

Our Board is not subject to any independence requirements. However, our Board has reviewed the independence of its directors under the requirements set forth by the NASDAQ Stock Market. During this review, the Board considered transactions and relationships between each director or any member of his or her immediate family and the Company and its subsidiaries and affiliates. The purpose of this review was to determine whether relationships or transactions existed that were inconsistent with a determination that the director is independent. As a result of this review, Mr. Stoltenberg was deemed to be independent of the Company under the standards set forth by NASDAQ.

Although the full Board performs the services of the audit committee, the Board has determined that Mr. Stoltenberg qualifies as an audit committee financial expert, as defined by the rules of the Securities and Exchange Commission.

Table of Contents**Compensation Committee and Insider Participation**

None of the members of our Compensation Committee is one of our officers or employees. None of our executive officers currently serves, or in the past year has served, as a member of the board of directors or compensation committee of any entity that has one or more executive officers serving on our Board of Directors or Compensation Committee.

Stock Option Plan

At the Annual Meeting of Shareholders on June 30, 2010, shareholders approved the Omnibus Stock Compensation Plan (2010 Plan), pursuant to which there were 692 shares authorized for issuance, subject to adjustment. Commencing January 1, 2011 and on the first day of each fiscal year thereafter, the number of shares authorized for issuance under the 2010 Plan is automatically recalculated to be equal to 20% of the shares of the Company s common stock outstanding on the last day of the prior fiscal year, less any issuances made under both the 2006 Plan and the 2010 Plan. The 2010 Plan replaced the 2006 Plan and no additional shares will be issued under the 2006 Plan, however the Company reserved the right to issue pursuant to the 2006 Plan, new options to the extent that, and in the amount of, any currently outstanding options are forfeited under that plan.

Under the Plan, the Compensation Committee may grant awards in the form of incentive stock options, as defined in Section 422 of the Code, as well as options which do not so qualify, stock units, stock awards, stock appreciation rights and other stock-based awards.

Other awards may be granted that are based on or measured by common stock to employees, consultants and non-employee directors, on such terms and conditions as the Compensation Committee deems appropriate. Other stock-based awards may be granted subject to achievement of performance goals or other conditions and may be payable in common stock or cash, or in a combination of the two.

Code of Ethics

We have adopted a code of ethics that applies to our officers (including our principal executive, financial and accounting officers), directors, employees and consultants. The text of our code of ethics can be found on our Internet website at www.ConvertedOrganics.com.

Employment Agreements

Effective as of April 20, 2011, the Company entered into severance agreements with Mr. Gildea and Mr. Allen, under which, should a change in control of the Company occur, Messrs. Gildea and Allen shall be

Mr. Gildea and Mr. Allen have no employment contracts other than the above described severance agreements, and as such are at-will employees.

Shares of common stock to be received upon conversion of preferred stock, or subject to options or warrants currently exercisable or exercisable on or within 60 days of the date of this proxy statement, are deemed outstanding for computing the percentage ownership of the person holding such options or warrants, but are not deemed outstanding for computing the percentage ownership of any other person.

PROPOSAL NO. 3

AMENDMENT OF THE COMPANY'S CERTIFICATE OF INCORPORATION TO AUTHORIZE THE BOARD OF DIRECTORS TO EFFECT A REVERSE STOCK SPLIT

General

The Company's Board of Directors has adopted a resolution approving and recommending for approval to the Company's shareholders an amendment to the Company's Certificate of Incorporation, as amended, authorizing a reverse stock split of the Company's common stock, at a ratio of any of 1 for 100; 1 for 200; 1 for 300; 1 for 400; or 1 for 500. The Company's authorized but unissued stock would not be reduced in accordance with these ratios. As such, if we received approval for Proposal 5, our total authorized shares after completion of the proposed reverse split will be 1,000,000,000 shares. The authority to effect the reverse split would be granted to the Board for a period of twelve months from the date of the Annual Meeting. Should the Board of Directors decide to implement the reverse stock split, it would become effective upon the filing of an amendment to the Company's Certificate of Incorporation, as amended, with the Secretary of State of the State of Delaware.

With the exception of adjustments that may result from the treatment of fractional shares (as described below), each stockholder will retain the same percentage of common stock outstanding immediately following the reverse stock split as that stockholder held immediately prior to the reverse stock split.

The form of the Certificate of Amendment to be filed with the Secretary of State of the State of Delaware to accomplish the reverse stock split is represented in Annex A.

Background and Reasons for the Proposed Reverse Stock Split

Our common stock is currently quoted on the OTC Bulletin Board under the symbol *COIN*. On April 13, 2012, the last sales price of our common stock was \$0.01. On such date, we had 180,498,277 shares of common stock outstanding and 14,548,124 shares of common stock reserved for issuances pursuant to outstanding options and warrants. We are authorized to issue 500,000,000 shares of common stock; provided that if we received approval for Proposal 5, our total authorized shares will be 1,000,000,000 shares.

January 2012 Transaction

On January 3, 2012, we entered into an agreement with an institutional investor whereby we agreed to sell to the investor twelve senior secured convertible notes (the *January Notes*). The initial January Note was issued on January 6, 2012 in an original principal amount of \$247,500, for a purchase price of \$225,000. The remaining eleven January Notes will each have an original principal amount of \$237,600, and will each be issued for a purchase price of \$216,000. Each January Note matures eight months after issuance. The total face value of the twelve notes under this agreement will be \$2,861,100, assuming each note is sold to the investor, of which there is no assurance.

The January Notes are convertible into shares of our common stock at a conversion price equal to 80% of lowest bid price of our common stock on the date of conversion.

We also agreed to issue to the investor up to twelve warrants to acquire shares of common stock, each such issuance to occur along with each purchase of a January Note. Each warrant provides that the holder is initially entitled to purchase the number of shares of common stock equal to 50% of the number of shares of common stock issuable upon conversion in full of the applicable January Note (based on initial fixed conversion price equal to the three lowest closing sale prices of our common stock during the twenty trading day period preceding the issuance of the particular January Note, with respect to each January Note, such term is referred to as the *Fixed Conversion Price*) at an initial exercise price equal to the Fixed Conversion Price of the applicable January Note that is issued along with such warrant.

Table of Contents

With respect to the initial January Note issued on January 6, 2012, the Fixed Conversion Price was \$0.003, which means (after taking into account the reverse split we completed in February 2012) the minimum number of shares of common stock underlying the initial January Note is 165,000 shares and the number of shares of common stock underlying the warrant issued in connection with the initial January Note was 82,500 shares. We cannot predict the Fixed Conversion Price for the remaining eleven January Notes and corresponding warrants at this time. As such, the total number of shares underlying all twelve January Notes and warrants is unknown.

On March 12, 2012, we entered into an agreement (the *March Agreement*) with two investors, pursuant to which we agreed to effect an additional closing of notes identical to the January Notes in which we issued the buyers new notes having an aggregate original principal amount of \$550,000 for a purchase price of \$500,000 (the *New Notes* and together with the January Notes, the *\$3.4 Million Notes*), and warrants to purchase an aggregate of 2,619,048 shares of common stock at an exercise price of \$0.105 per share (the *New Warrants*). The *New Notes* and *New Warrants* have identical terms to the January Notes and warrants described above.

In April 2012, we agreed to the following amendments (the *April Warrant Amendments*) to both the January Notes and the *New Notes*: (1) the anti-dilution price protection currently contained in such warrants (which provides that if we issue common stock or common stock equivalents at a price per share that is lower than the exercise price of the warrants, the exercise price of the warrants will be reduced to such lower price) will now also apply to issuances of common stock or common stock equivalents to the warrant holders under separate securities; (2) upon any adjustment in the exercise price of the warrants as described in (1) above or otherwise, the number of shares of common stock underlying such warrants shall be increased such that the aggregate exercise price of the warrants will remain the same; and (3) upon a Fundamental Transaction (as defined in each of the warrants), the warrant holders will be permitted to require us (or any successor entity) to purchase the warrants from the warrant holders at a price equal to the greater of (A) the Black Scholes value of the warrants or (B) the product of \$0.10 multiplied by the number of shares underlying such warrants (disregarding, for the purposes of making the calculation of the number of shares underlying the warrants, any adjustments to such share number arising solely from an adjustment to the exercise price of the warrants due to the completion of a combination (or reverse split) of our common stock after April 2012; provided that the amount payable to the warrant holders pursuant to (B) above will not exceed \$25.0 million in the aggregate.

Based on the possible principal amount of the \$3.4 Million Notes the number of shares that such notes may be converted into at various assumed conversion prices is as follows:

	Number of shares of common stock
	underlying the \$3.4 Million
Conversion Price	Notes
\$0.02	170,000,000
\$0.01	340,000,000
\$0.005	680,000,000
\$0.001	3,400,000,000

Potential Effects of Proposed Reverse Split

While we believe that the reverse split would initially help increase the market price of our common stock, the effect of a reverse split on the market price of our common stock cannot be predicted with any certainty, and the historical results of similar reverse splits for companies in similar circumstances is varied. We completed a reverse split in November 2011 at a ratio of 1:10 shares and in February 2012 at a ratio of 1:500 shares. The initial effect of the split caused our stock price to increase; however, within days of each split our stock price fell to or below its pre-split levels. Due to potential sales of a significant number of shares of our common stock by the holders of the \$3.4 Million Notes, we believe it is likely that our stock price will again fall after the completion of the proposed reverse stock split, particularly when such holders are able to convert such notes into shares of common stock and sell the shares of common stock into the market. In addition, since we have already completed two reverse stock splits (not including the current proposed split), the possibility of future reverse stock splits will likely cause the price of our common stock to fall.

Table of Contents

Additionally, the reverse stock split will likely result in many stockholders owning odd-lots of less than 100 shares of our common stock. Brokerage commissions and other costs of transactions in odd-lots are generally higher than the costs of transactions in round-lots of even multiples of 100 shares.

General

After the effective date of the reverse split, each holder of our common stock will own a reduced number of shares of our common stock. However, the reverse split will affect all holders of our common stock uniformly and will not affect any shareholder's percentage ownership interests in the Company or proportionate voting power, except to the extent that the reverse split results in any of our shareholders owning a fractional share. In lieu of issuing fractional shares, each holder of our common stock who would otherwise have been entitled to a fraction of a share upon surrender of such holder's certificates will have the number of shares he receives rounded up to the nearest whole share.

Effect on Authorized and Outstanding Shares

We currently are authorized to issue a maximum of 500,000,000 shares of our common stock; provided that if we received approval for Proposal 5, our total authorized shares will be 1,000,000,000 shares. As of the Record Date, there were 180,498,277 shares issued and outstanding. In addition, we have approximately 14,548,124 shares reserved for issuance upon exercise of outstanding options and warrants and in connection with existing share-based compensation and benefit plans and financing arrangements. Although the number of authorized shares of common stock will not change as a result of the reverse split, the number of issued and outstanding shares of our common stock will be reduced to a number that will be approximately equal to the number of shares of common stock issued and outstanding immediately prior to the effective date divided by the reverse split ratio. The number will not be exact due to the treatment of any fractional shares, as described below.

The proposal will not change the terms of our common stock. The shares of new common stock will have the same voting rights and rights to dividends and distributions and will be identical in all other respects to the common stock now outstanding. We do not anticipate that the reverse split will result in any material reduction in the number of holders of common stock. Each shareholder's percentage ownership of the new common stock will not be altered except for the effect of eliminating fractional shares as described below. The common stock issued pursuant to the reverse split will remain fully paid and non-assessable. The reverse split is not intended as, and will not have the effect of, a going private transaction in accordance with Rule 13e-3 under the Securities Exchange Act of 1934, as amended. We will continue to be subject to the periodic reporting requirements of the Securities Exchange Act of 1934, as amended.

Following the effective date, it is not anticipated that our financial condition, the percentage ownership of management, the number of shareholders, or any aspect of our business would materially change as a result of the reverse split.

Accounting Matters

The reverse split will not affect the par value of our common stock. As a result, on the effective date of the reverse split, the stated capital on our balance sheet attributable to the common stock will be reduced in proportion to the fraction by which the number of shares of common stock are reduced, and the additional paid-in capital account shall be credited with the amount by which the stated capital is reduced. The per share net income or loss and net book value of our common stock will be retroactively increased for each period because there will be fewer shares of our common stock outstanding.

Potential Anti-Takeover Effect

While the Board of Directors believes it advisable to authorize and approve the reverse split for the reasons set forth above, the Board is aware that the increase in the number of authorized but unissued shares of common

Table of Contents

stock may have a potential anti-takeover effect. Our ability to issue additional shares could be used to thwart persons, or otherwise dilute the stock ownership of shareholders seeking to control the Company. The reverse stock split is not being recommended by the Board as part of an anti-takeover strategy.

Increase of Shares of Common Stock Available for Future Issuance

Because our authorized common stock will not be reduced, the overall effect will be an increase in our authorized but unissued shares of common stock as a result of the reverse split. These shares may be issued by our Board of Directors in its discretion. Any future issuances will have the effect of diluting the percentage of stock ownership and voting rights of the present holders of common stock. As stated above, it is likely that the holders of the \$3.4 Million Notes will begin to convert the \$3.4 Million Notes into shares of our common stock as soon as July 3, 2012, which will result in a significant number of shares being issued and will result in significant dilution to our shareholders.

Summary Table

For illustration purposes only, the following table shows the effects of potential reverse stock split ratios of between 1:100 and 1:500, without giving effect to any adjustments for fractional shares, on our authorized and issued shares of common stock, shares of common stock reserved for issuance and authorized but unissued and unreserved shares of common stock. The information presented below is as of the Record Date and assumes no changes between such date and the effective date of any split.

Reverse split ratio	Shares of common stock authorized and issued	Shares of common stock reserved for issuance(1)	Shares of common stock authorized and unissued	Total number of authorized shares(2)
No split	180,498,277	14,548,124	304,953,599	500,000,000
1-for-100	1,804,983	145,481	498,049,536	500,000,000
1-for-200	902,491	72,741	499,024,768	500,000,000
1-for-300	601,661	48,494	499,349,845	500,000,000
1-for-400	451,246	36,370	499,512,384	500,000,000

(1) Shares underlying options and warrant. The above warrants issued to the holders of our \$3.4 Million Notes contain anti-dilution provisions that provide that if we issue securities at price per share that is less than exercise price of the warrants, the exercise price of such warrants shall decrease to such price and the number of shares issuable under the warrants will be proportionately increased such that the aggregate exercise price payable after taking into account the decrease in the exercise price, shall be equal to the aggregate exercise price prior to such adjustment. As a result, the number of shares set forth above underlying the warrants may be significantly increased due to such provision.

(2) Does not assume completion of the increased number of authorized shares in Proposal 5.

Effective Time

The proposed reverse stock split would become effective as of 11:59 p.m., Eastern time (the Effective Time) on the date of filing of the Certificate of Amendment with the office of the Secretary of State of the State of Delaware. Except as explained below with respect to fractional shares, on the Effective Time, shares of our common stock issued and outstanding immediately prior thereto will be combined, automatically and without any action on the part of our stockholders, into one share of our common stock in accordance with the reverse stock split ratio of either 1:100; 1:200; 1:300; 1:400 or 1:500, as determined by the Board of Directors.

After the Effective Time, our common stock will have a new CUSIP number, which is a number used to identify our equity securities, and stock certificates with the older CUSIP numbers will need to be exchanged for stock certificates with the new CUSIP numbers.

Board Discretion to Implement the Reverse Stock Split Amendment

If stockholder approval is obtained for this proposal, the Board expects to select an appropriate ratio and implement the reverse stock split promptly. However, the Board reserves the authority to decide, in its discretion, to delay or abandon the reverse stock split after such vote and before the effectiveness of the reverse stock split if it determines that the reverse stock split is no longer in the best interests of the Company and its stockholders. The Board will, however, implement the reverse stock split, if at all, within one year of the date of the Annual Meeting.

Fractional Shares

No fractional shares of common stock will be issued in connection with the reverse stock split. Fractional shares will be rounded up to the nearest whole share.

Recommendation

The Board recommends that stockholders vote FOR the proposal to approve an amendment to the Company's Certificate of Incorporation to authorize the Board of Directors to effect a reverse stock split.

PROPOSAL NO. 4

AUTHORIZATION OF THE BOARD OF DIRECTORS TO ABANDON THE REVERSE SPLIT

Pursuant to Section 242(c) of the Delaware General Corporation Law the shareholders may authorize the Board of Directors to abandon the filing of the amendments to the Certificate of Incorporation approved under Proposal 1 attached as Annex A to this Proxy Statement, and thereby abandon and not implement the Reverse Split.

As set forth above, based on the future market price of our common stock and other business considerations, and in order to further the best interests of our stockholders and minimum further dilution of their equity our Board of Directors requests the flexibility to implement the Reverse Split between now and the one year anniversary of the Annual Meeting. Although it is highly probable that the board will implement the Reverse Split shortly after the Annual Meeting (and will file an appropriate Form 8-K with the Securities and Exchange Commission announcing such action), it is possible that the Board may deem it in the best interests of the stockholders not to implement the Reverse Split.

Recommendation

The Board recommends that stockholders vote FOR the proposal to authorize the Board of Directors to abandon the Reverse Split in its discretion.

PROPOSAL NO. 5

AMENDMENT OF THE COMPANY'S CERTIFICATE OF INCORPORATION TO INCREASE

THE NUMBER OF AUTHORIZED SHARES THAT THE COMPANY MAY ISSUE

TO 1,000,000,000 SHARES OF COMMON STOCK

General

Our Board of Directors unanimously approved and recommended for adoption by the shareholders the Amendment to the Certificate of Incorporation (the Amended Certificate), the text of which is attached to this Proxy Statement as Annex B. The following proposal is to approve the increase in the number of shares of common stock authorized in our Amended Certificate from 500,000,000 shares to 1,000,000,000 shares, but does not approve any issuance of shares of common stock.

Table of Contents

Background and Reasons for the Proposed Amended and Restated Articles

As of Record Date, there were 500,000,000 shares of our common stock authorized, of which, 180,498,277 shares were issued and outstanding. In addition, we had approximately 14,548,124 shares reserved for issuance upon exercise of outstanding options and warrants and in connection with existing share-based compensation and benefit plans and financing arrangements. With respect to the warrants issued to the holders of our \$3.4 Million Notes, such warrants contain anti-dilution provisions that provide that if we issue securities at price per share that is less than exercise price of the warrants, the exercise price of such warrants shall decrease to such price and the number of shares issuable under the warrants will be proportionately increased such that the aggregate exercise price payable after taking into account the decrease in the exercise price, shall be equal to the aggregate exercise price prior to such adjustment. As a result, the number of shares set forth above underlying the warrants may be significantly increased due to such provision. To the extent Proposal 3 is approved and we effect a Reverse Split, our outstanding shares would be reduced proportionately.

The approval of this proposal would increase the number of shares of common stock that we are authorized to issue from 500,000,000 shares to 1,000,000,000 shares of common stock. The par value of our common stock will not be affected by the amendment.

We seek shareholder approval to increase the number of authorized shares because doing so will allow us to maintain sufficient shares of common stock for future business and financial purposes. Authorized but unissued shares of common stock may be used by us for any purpose permitted under Delaware law, including but not limited to, paying stock dividends to stockholders, raising capital, providing equity incentives to employees, officers and directors, and entering into transactions that the Board of Directors believes provide the potential for growth and profit. Furthermore, we may utilize our securities to make future acquisitions; acquisitions are a key component of growth and, from time to time, consideration for acquisitions may include the issuance of common stock.

The issuance of common stock may be dilutive to our current common stockholders. We may complete any financings prior to the Annual Meeting by the issuance of securities currently authorized and available for issuance. If the proposed amendment is approved, to the extent we have previously issued all of the shares of common stock currently authorized, we may issue the newly authorized shares of common stock without a further vote of the stockholders. These future issuances may be dilutive to our current common stockholders and may cause a reduction in the market price of our common stock.

The increase in the authorized shares of common stock will not have any immediate effect on the rights of existing stockholders. If the stockholders approve the proposed amendment, the Board of Directors may cause the issuance of additional shares without further vote of the stockholders. Current holders of common stock do not have preemptive or similar rights, which means that current stockholders do not have a prior right to purchase any new issue of capital stock of the Company in order to maintain their proportionate ownership. The issuance of additional shares of common stock would decrease the proportionate equity interest of our current stockholders and, depending upon the price paid for such additional shares, could result in dilution to our current stockholders.

The proposed amendment could, under certain circumstances, have an anti-takeover effect, although this is not the intention of this proposal. For example, in the event of a hostile attempt to take over control of the Company, it may be possible for the Company to endeavor to impede the attempt by issuing shares of common stock, which would dilute the voting power of the other outstanding shares and increase the potential cost to acquire control of the Company. The proposed amendment therefore may have the effect of discouraging unsolicited takeover attempts, potentially limiting the opportunity for our stockholders to dispose of their shares at a premium, which is often offered in takeover attempts, or that may be available under a merger proposal. The proposed amendment may have the effect of permitting our current management, including the current Board of Directors, to retain its position, and place it in a better position to resist changes that stockholders may wish to make if they are dissatisfied with the conduct of our business. However, the Board of Directors is not aware of any attempt to take control of the Company, and the Board of Directors has not presented this proposal with the intent that it be utilized as a type of anti-takeover device.

Table of Contents

In addition to periodic discussions regarding fund raising opportunities, we also engage in periodic discussions with potential partners, strategic investments and acquisition candidates, as part of our business model. If any of these discussions came to a definitive understanding and if the proposed amendment is adopted, it is possible that we could use some of the newly authorized shares in connection with one or more such transactions subsequent to the increase in the number of authorized shares. We may also continue to issue shares of common stock pursuant to our stock incentive plans subsequent to the increase in the number of authorized shares. We currently have no plan, commitment, arrangement, understanding or agreement, regarding the issuance of common stock in connection with one or more such strategic transactions subsequent to the increase in the number of authorized shares.

If the proposed amendment is adopted, it will become effective upon filing of the Amended Certificate with the Secretary of State of the State of Delaware. However, if our stockholders approve the proposed amendment, the Board of Directors retains discretion under Delaware law not to implement the proposed amendment. If the Board of Directors were to exercise such discretion, the number of authorized shares would remain unchanged.

Vote Required

The affirmative vote of a majority of the outstanding shares of common stock, as of the Record Date, is required to increase the number of authorized shares of common stock.

Recommendation

The Board recommends that stockholders vote FOR increasing the number of authorized shares of common stock.
