For the Fiscal Year Ended June 30, 2012

OR

.. TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
Commission File Number 0-24395

bebe stores, inc.

(Exact name of registrant as specified in its charter)

California
(State or Jurisdiction of

Incorporation or Organization)

94-2450490
(IRS Employer

Identification Number)

400 Valley Drive

Brisbane, California 94005

Edgar Filing: bebe stores, inc. - Form 10-K

(Address of principal executive offices, including zip code)

Telephone: (415) 715-3900

(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act: None

Securities registered pursuant to Section 12(g) of the Act:

Common Stock, par value \$0.001 per share

(Title of class)

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a small reporting company. See definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act) Yes No

The aggregate market value of voting stock held by non-affiliates of the registrant was approximately \$318,000,000 as of December 31, 2011, the last business day of the registrant's most recently completed second fiscal quarter, based upon the closing sale price per share of \$8.27 of the registrant's Common Stock as reported on the Nasdaq National Market on such date. Shares of Common Stock held by each executive officer and director and by each person who owns 10% or more of the outstanding Common Stock have been excluded in that such persons may be deemed to be affiliates. This determination of affiliate status is not necessarily conclusive for other purposes.

As of August 31, 2012, 84,388,298 shares of Common Stock, \$0.001 per share par value, of the registrant were outstanding.

DOCUMENTS INCORPORATED BY REFERENCE

Part III incorporates information by reference from the definitive Proxy Statement for the 2012 Annual Meeting of Shareholders, to be filed with the Commission no later than 120 days after the end of the registrant's fiscal year covered by this Form 10-K.

Table of Contents

The following discussion contains forward-looking statements that involve risks and uncertainties. Our actual results may differ materially from the results discussed in the forward-looking statements. Statements that are predictive in nature, that depend upon or refer to future events or conditions or that include words such as expects, anticipates, intends, plans, believes, estimates, thinks and similar expressions are forward-looking statements. Forward-looking statements include statements about our expected results of operations, capital expenditures and store openings and closings and our product developments. Although we believe that these statements are based on reasonable assumptions, we cannot assure you that our goals will be achieved. These forward-looking statements are made as of the date of this Form 10-K, and we assume no obligation to update or revise them or provide reasons why actual results may differ. Factors that might cause such a difference include, but are not limited to, our ability to respond to changing fashion trends, obtain raw materials and find manufacturing facilities, attract and retain key management personnel, develop new concepts, successfully open future stores, successfully manage our online business, maintain and protect information technology, respond effectively to competitive pressures in the apparel industry and adverse economic conditions and protect our intellectual property, as well as declines in comparable store sales performance, changes in the level of consumer spending or preferences in apparel and/or other factors discussed in Risk Factors and elsewhere in this Form 10-K.

PART I

ITEM 1. BUSINESS

General

We design, develop and produce a distinctive line of contemporary women's apparel and accessories. While we attract a broad audience, our target customer is a 21 to 34-year-old woman who seeks current fashion trends to suit her lifestyle. The bebe look appeals to a hip, sexy, sophisticated, body-conscious woman who takes pride in her appearance. The bebe customer expects value in the form of current fashion and high quality at a competitive price.

Our distinctive product offering includes a full range of separates, tops, dresses, active wear and accessories in the following lifestyle categories: wear-to-work, weekend and party. We design and develop the majority of our merchandise in-house, which is manufactured to our specifications. The remainder is sourced directly from third-party manufacturers.

As of June 30, 2012, we marketed our products under the bebe, BEBE SPORT, bbsp and 2b bebe brand names through our 252 retail stores, of which 205 are bebe stores, including an on-line store at www.bebe.com, and 47 are 2b bebe stores, including an online store at www.2bstores.com. Our 114 international licensees operated stores in 19 countries and, pursuant to our product licensing, through certain select domestic and international retailers.

bebe. We were founded by Manny Mashouf, our Chief Executive Officer and Chairman of the Board. We opened our first store in San Francisco, California in 1976, which was also the year we incorporated in California. As of June 30, 2012, we operated 205 bebe stores in 36 states, Puerto Rico, the U.S. Virgin Islands, Canada, Japan and on-line. www.bebe.com is our bebe on-line retail store and an extension of the bebe store experience that provides a complete assortment of bebe and BEBE SPORT merchandise and is used as a vehicle to communicate with our customers.

PH8. In the fourth quarter of fiscal 2010, we decided to discontinue operations of our PH8 division, allowing us to focus our efforts on improving bebe sales and profitability, expanding internationally and continuing to develop our 2b bebe business. We closed all of our 49 PH8 stores during the first and second quarters of fiscal 2011, converting one store to a 2b bebe store. We recorded the net costs associated with the

Table of Contents

disposition of these stores during fiscal 2011 as the stores closed and the related assets were disposed of. We classified prior year results for these stores within discontinued operations on our consolidated statements of operations.

2b bebe. Our 2b bebe (2b) stores were originally structured as outlet fronts for bebe and were later expanded into the 2b concept stores. We focus on fun and flirty everyday lifestyle offerings for our aspirational buyers. As of June 30, 2012, we operated a total of 47 2b stores, including an on-line store at www.2bstores.com. Of these, 14 are mall based stores that sell 2b merchandise only, 14 are hybrid 2b stores that sell a combination of 2b merchandise and bebe logo merchandise and 18 are outlet concept 2b stores that sell a mix of 2b, bebe logo and bebe retail markdown merchandise. www.2bstores.com is our 2b bebe on-line retail store and an extension of the 2b bebe store experience that provides a complete assortment of 2b bebe merchandise and is also used as a vehicle to communicate with our customers.

Operating Strategy

Our objective is to satisfy the fashion needs of the modern, sexy and sophisticated woman. The principal elements of our operating strategy to achieve this objective are as follows:

- 1. Provide distinctive fashion throughout a broad product line to fulfill every day wear-to-work, weekend and party needs.** Our designers and merchandisers are inspired by global fashion trends. They interpret contemporary designs, colors and fabrications into our products to address the lifestyle needs of our customer. Our in-house design team allows us to quickly react to fashion trends, bringing newness into the merchandise mix to complement our core assortment.
- 2. Vertically integrate design, production, merchandising and retail functions.** Our vertical integration enables us to respond quickly to changing fashion trends, reduce risk of excess inventory and produce distinctive quality merchandise.
- 3. Manage merchandise mix.** Our approach to merchandising and proactive inventory management is critical to our success. By actively monitoring sell-through rates and the mix of categories and products in our stores, we are better able to respond to emerging trends in a timely manner, better maximizing sales opportunities and minimizing liabilities. For fiscal 2013, we anticipate an increase in our inventory per square foot driven by our strategies of expanding our wear-to-work collection, focused localization initiatives and higher average unit costs related to elevated product offerings.
- 4. Control distribution of merchandise.** We distribute our merchandise, other than licensed eyewear, footwear, outerwear, handbags, fragrance and cosmetics and international licensing, through company owned retail stores and on-line stores. This distribution strategy enables us to control pricing, flow of goods, visual presentation and customer experience. We seek to ensure brand equity through this exclusive distribution.
- 5. Enhance brand image.** We attract customers through edgy, high-impact, visual advertising campaigns using print, outdoor, in-store, direct mail and e-mail communication vehicles. We also offer a line of merchandise branded with the distinctive bebe logo to increase brand awareness.

Stores and Expansion Opportunities

Based on the current retail environment, we will continue to develop international expansion opportunities for the bebe brand and will continue to test 2b bebe stores in new and existing domestic markets. Historically when selecting a specific site, we look for high traffic locations primarily in regional shopping centers and in freestanding street locations. We evaluate proposed sites based on the traffic pattern, co-tenancies, average sales per square foot achieved by neighboring stores, lease economics, demographic characteristics and other factors considered important regarding the specific location.

Table of Contents

In fiscal 2013, we plan to open 11 new stores, including 5 bebe stores and 6 2b stores. We also plan to close up to 12 bebe stores and one 2b bebe pop-up location, resulting in minimal net square footage reduction.

bebe stores. During fiscal 2012, we opened 5 bebe stores and closed 13 bebe stores, one of which was converted to a 2b bebe store. Our bebe stores average 4,000 square feet and are primarily located in regional shopping malls and freestanding street locations. We also operate an on-line store at www.bebe.com; this website is a source of testing new concepts, building a community with our customers as well as providing a comprehensive product offering. In fiscal 2012 we continued initiatives to further enhance the shopping experience and integrate the web store with retail stores and mobile applications. We expect to continue these initiatives in fiscal 2013 and beyond. In the fourth quarter of fiscal 2012 we entered into a termination agreement with our bebe.com third-party service provider. We are migrating to a company-managed platform in the first quarter of fiscal 2013. In addition, as part of our long-term strategy to manage store distribution as well as direct to consumer fulfillment for both bebe.com and 2bstores.com, in the fourth quarter of fiscal 2012, we purchased our existing distribution facility in Benicia, California for \$18 million. We believe both of these decisions will support our long term growth objectives across our multi-channel program.

2b bebe stores. During fiscal 2012, we opened 8 2b bebe stores, including an on-line store at www.2bstores.com. Our 2b bebe stores average 4,500 square feet and are located in outlet centers and regional malls. 2bstores.com is an on-line extension of the 2b bebe retail experience that provides a complete assortment of 2b bebe merchandise and is also used to communicate with our customers. In fiscal 2013, we will continue to test 2b bebe stores in outlet centers and regional malls to access future growth opportunities.

Store Closures. We monitor the financial performance of our stores and have closed and will continue to close stores that we do not consider to be viable. Many of our store leases contain early termination options that allow us to close the stores in specified years if minimum sales levels are not achieved. During fiscal 2012, we closed 13 stores. In fiscal 2013, we plan to close up to 12 stores and one 2b bebe pop-up location.

International Licensees. As of June 30, 2012, we had 114 international stores operated by licensees in 19 countries, including United Arab Emirates, Israel, Russia, Mexico, Turkey, South Korea, India and numerous countries throughout Southeast Asia and South America. Our international licensees purchase product from us to include in their licensed bebe stores; we therefore exclude these stores from comparable store sales. As of June 30, 2012, wholesale revenue represented approximately 7.5% of total net sales. In fiscal 2013, we plan to open up to 25 licensee operated stores, which include both stand-alone stores and shop-in-shops.

Merchandising

Our merchandising strategy is to provide current, timely fashions in a broad selection of categories to suit the lifestyle needs of our customers. We market all of our merchandise under the bebe, BEBE SPORT, bbsp and 2b bebe brand names. In some cases, we select merchandise directly from third-party manufacturers. We do not have long-term contracts with any third-party manufacturers, and we purchase all of the merchandise from manufacturers by purchase order.

Product Categories. Our distinctive product offering includes a full range of fashion separates, tops, dresses, active wear, outerwear and accessories in the following lifestyle categories: wear-to-work, weekend and party. While each category's contribution as a percentage of total net sales varies seasonally, certain of the product classifications are represented throughout the year. We regularly evaluate existing categories for potential expansion opportunities. We have accessories which include jewelry, sunglasses, fragrance, shoes and handbag assortment.

During fiscal 2012, we had license agreements in place for optical eyewear, fragrance and footwear; each of which represented approximately 1% of our total sales. In August 2010, we signed an eyewear license agreement with Altair Eyewear, Inc., a subsidiary of Marchon, to manufacture and distribute products branded with the bebe logo to be sold at bebe stores and select retailers. Product under this agreement was featured in stores and other

Table of Contents

select retailers beginning in October 2010. In July 2008, we executed an agreement with Inter Parfums, Inc. to design, develop, manufacture, distribute, advertise and promote fragrance and cosmetics using the bebe name. Product was available in our stores and other select retailers beginning in August 2009. In August 2009, we signed an agreement with Titan Industries to design, manufacture and distribute women's non-casual footwear. We terminated our agreement with Titan Industries as of June 30, 2012.

Product Development. Our product development process enables our merchants to make informed and timely decisions prior to making fabric or merchandise purchase commitments. Our speed to market strategy allows us to quickly react to emerging fashion trends and customer demand. An established timeline ensures an adequate flow of inventory into the stores. We make monthly commitments based on current sales and fashion trends. A detailed merchandising classification plan supports the product development process and includes sales, inventory and profitability targets. We regularly adjust the plan to meet inventory and sales targets.

Seasonality

Our business is seasonal in nature, with sales peaking during the second fiscal quarter, primarily during the holiday season in November and December. During each of fiscal 2012, 2011 and 2010, the second fiscal quarter accounted for approximately 30% of our annual net sales.

Marketing

We have developed our advertising and direct marketing initiatives to elevate brand awareness, increase customer acquisition and retention and support key growth strategies.

During fiscal 2012, our marketing expenditures were \$23.5 million compared to \$22.9 million in fiscal 2011. In fiscal 2013, we expect to increase marketing expenses to \$27.0 million in connection with our future growth initiatives.

We will continue to build brand awareness through national marketing campaigns that communicate to our core customers via traditional and new media. These campaigns will present the brand as fresh, fashion forward and exciting with a market position of attainable luxury.

Our marketing imagery will be featured in traditional media such as leading fashion and lifestyle magazines, outdoor advertising, direct mail and in-store visual presentation. Our new media marketing channels include our websites, bebe.com and 2bstores.com, a strong presence in online social media, mobile optimized websites and commerce enabled apps for smartphones and computer tablets.

We will continue to focus on our loyalty program, clubbebe, and reward our best customers for their business.

Additionally, we will host several in-store events throughout the year to introduce collections and provide unique, engaging experiences for our customers and will also test grassroots initiatives to attract new clientele.

Store Operations

As of June 2012, our store operations are organized into four regions and 30 districts. Each region is managed by a regional manager, and each district is managed by a district manager. Each regional manager is typically responsible for three to nine districts and each district manager is typically responsible for six to thirteen stores. Each store is typically staffed with three to five managers in addition to sales associates.

We seek to instill enthusiasm and dedication in our store management personnel and our sales associates through incentive programs and regular communication with the stores. Sales associates, excluding associates in outlet stores, receive commissions on sales with a guaranteed minimum hourly compensation. Store managers receive base compensation plus incentive compensation based on sales and inventory control. Our district

Table of Contents

managers receive base compensation plus incentive compensation based on sales and profitability benchmarks. Our regional managers participate in our management incentive program.

Sourcing, Quality Control and Distribution

All of our merchandise is marketed under the bebe, BEBE SPORT, bbsp and 2b bebe brand names. We design and develop the majority of our merchandise in-house, which is manufactured to our specifications or is sourced directly from third-party manufacturers. When we contract for merchandise production, the contractors produce garments based on designs, patterns and detailed specifications provided by us.

We use computer aided design systems to develop patterns and production markers as part of our product development process. We fit test sample garments before production to ensure patterns are accurate. We adhere to a strict formalized quality control program. Garments that do not pass inspection are returned to the manufacturer for rework or accepted at reduced prices for sale in our outlet stores.

The majority of our merchandise is received, inspected, processed, warehoused and distributed through our distribution center located in Benicia, California. Details about each receipt are supplied to merchandise planners who determine how the product should be distributed among the stores, based on current inventory levels, sales trends and specific product characteristics. Advance shipping notices are electronically communicated to the stores and any goods not shipped are stored for replenishment purposes. Merchandise typically is shipped to the stores three times per week using common carriers.

Competition

The retail and apparel industries are highly competitive and are characterized by low barriers to entry. We expect competition in our markets to increase. The primary competitive factors in our markets are: brand name recognition, sourcing, product styling, product quality, product presentation, product pricing, timeliness of product delivery, store ambiance, customer service and convenience.

Intellectual Property and Proprietary Rights

We have registrations, or applications have been filed and are pending, with the United States Patent and Trademark Office and/or with certain foreign registries in many of our core classifications (including stores, clothing, jewelry, eyewear, fragrance and bags) for the following marks: bebe, BEBE SPORT, bbsp and 2b bebe.

Information Services and Technology

We are committed to utilizing technology to enhance our competitive position. Our information systems provide data to the entire enterprise to help improve efficiency, visibility and actionable decision making. The core business systems, which consist of both purchased and internally developed software, are accessed over a company-wide network providing employees with access to key business applications.

Our investments in information systems for fiscal 2012 continued to focus on our digital channels, stores, supply chain, central corporate systems and infrastructure. We are in the first stages of an omni-channel expansion that will enhance the experience of our customers as they engage with us across all of our virtual and brick and mortar channels. During fiscal 2012 we successfully launched the platform for 2bstores.com, our newest on-line store and laid the foundation to transition bebe.com from our third-party provider to in-house management and fulfillment. We continue to support our future growth through mobile, social media and in-store technologies expansions.

Employees

As of June 30, 2012, we had 3,294 employees, of whom 379 were employed at the corporate offices in Brisbane, the Los Angeles design studio and production facility and the Benicia distribution center. The

Table of Contents

remaining 2,915 employees were employed in store operations. There were 1,206 full-time employees and 2,088 employed on a part-time basis. Our total employees decreased by approximately 4% as compared to the prior fiscal year end. In addition, our employees are not represented by any labor union, and we believe our relationship with our employees is good.

Available Information

We make available on our website, www.bebe.com, under Investor Relations, free of charge, our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports as soon as reasonably practicable after we electronically file or furnish such materials to the U.S. Securities and Exchange Commission (SEC).

Our Code of Business Conduct and Ethics, Policy for Reporting Violations and Complaints, Corporate Governance Principles and Practices for the Board of Directors, and Board of Directors Committee Charters are also available on our website, under Corporate Governance. Any amendments to or waivers from our Code of Ethics will also be available on our website.

Please note that information contained in our website is not incorporated by reference in, or considered to be, part of this report.

Table of Contents**EXECUTIVE OFFICERS AND DIRECTORS OF THE REGISTRANT****Executive Officers and Directors**

The following table sets forth certain information with respect to our executive officers and directors as of September 1, 2012:

Name	Age	Position
Manny Mashouf(1)	74	Chairman of the Board and Chief Executive Officer
Barbara Bass(3)*(4)	61	Director
Cynthia Cohen(2)(3)(4)*	59	Director
Corrado Federico(2)(3)(4)	71	Director
Caden Wang(2)*(4)	60	Director
Walter Parks(1)	53	Chief Operating Officer and Chief Financial Officer
Susan Powers(1)	54	Senior Vice President of Stores
Lawrence Smith(1)	46	Senior Vice President, General Counsel
Liyuan Woo(1)	40	Principal Accounting Officer and Vice President Corporate Controller

(1) Executive Officer.

(2) Member, Audit Committee.

(3) Member, Compensation and Management Development Committee.

(4) Member, Nominating and Corporate Governance Committee.

(*) Chairman of the Committee.

Manny Mashouf founded bebe stores, inc. and has served as Chairman of the Board since our incorporation in 1976. Mr. Mashouf served as our Chief Executive Officer from 1976 to February 2004 and again from January 2009 to present. Mr. Mashouf is the uncle of Hamid Mashouf, Chief Information Officer.

Barbara Bass has served as a director since February 1997. From approximately 2004 through 2011, Ms. Bass served on the boards of directors of Starbucks Corporation and DFS Group Limited. Since 1993, Ms. Bass has served as the President of the Gerson Bakar Foundation and is the Chief Executive Officer of the Achieve Foundation. From 1989 to 1992, Ms. Bass served as President and Chief Executive Officer of the Emporium Weinstock Division of Carter Hawley Hale Stores, Inc., a department store chain.

Cynthia R. Cohen has served as a director since December 2003 and Lead Independent Director since January 2009. She also currently serves on the boards of directors of Steiner Leisure Ltd. and Equity One, Inc., as well as several privately held companies. Ms. Cohen serves on the Executive Advisory Board for the Center for Retailing Education and Research at the University of Florida and is founder and President of Strategic Mindshare, a strategy consulting firm. Prior to founding Strategic Mindshare in 1990, she was a Partner in Management Consulting with Deloitte & Touche LLP.

Corrado Federico has served as a director since November 1996. From approximately 1997 through 2008, Mr. Federico served on the Board of Directors for Hot Topic, a publicly traded company. Mr. Federico was President of Solaris Properties until December 2008 and has served as the President of Corado, Inc., a land development firm, since 1991. From 1986 to 1991, Mr. Federico held the position of President and Chief Executive Officer of Esprit de Corp, Inc., a wholesaler and retailer of junior and children's apparel, footwear and accessories.

Caden Wang has served as a director since October 2003. Since 2005, Mr. Wang has also served on the board of directors of Leapfrog Enterprises, Inc. From 1999 to 2001, Mr. Wang served as Executive Vice President and Chief Financial Officer of LVMH Selective Retailing Group, which included international retail holdings such as DFS, Sephora and Miami Cruiseline Services. Mr. Wang previously served on the board of directors of Fossil, Inc. and as Chief Financial Officer for travel retailer DFS and retail companies Gumps and Cost Plus.

Table of Contents

Walter Parks has served as Chief Operating Officer since September 2006 and Chief Financial Officer since December 2003. From 2001 to 2003, Mr. Parks served as Executive Vice President and Chief Administrative Officer of The Wet Seal, Inc. From 1999 to 2001, Mr. Parks served as the Executive Vice President and Chief Administrative Officer of Restoration Hardware, Inc. From 1997 to 1999, Mr. Parks served as Chief Financial Officer and Treasurer for Ann Taylor Stores Corporation, and in various other positions since joining that company in 1988.

Susan Powers has served as Senior Vice President of Stores since April 2007. From 2005 to 2007, Ms. Powers served as Vice President of Store Operations for Chico's FAS, Inc. From 2002 to 2005, Ms. Powers served as Vice President of Stores for The Wet Seal, Inc. From 1999 to 2002, Ms. Powers served as Vice President of Stores for BCBG Max Azria.

Lawrence Smith has served as Senior Vice President, General Counsel since August 2009 and as Vice President, General Counsel since October 2004. Prior to joining bebe stores, inc., Mr. Smith served as Vice President, General Counsel for The Wet Seal, Inc. from January 2002 to October 2004. From January 1996 to January 2002, Mr. Smith served as Vice President, General Counsel for BCBG Max Azria.

Liyuan Woo joined bebe in August 2010 and currently serves as Principal Accounting Officer and Vice President Corporate Controller. Prior to joining bebe, Ms. Woo held a Senior Manager position with the accounting firm Deloitte & Touche, LLP in its M&A Transaction Services Group from October 2004 through July 2010.

Table of Contents

ITEM 1A. RISK FACTORS

Our past performance may not be a reliable indicator of future performance because actual future results and trends may differ materially depending on a variety of factors, including, but not limited to, the risks and uncertainties discussed below. In addition, historical trends should not be used to anticipate results or trends in future periods.

Factors that might cause our actual results to differ materially from the forward-looking statements discussed elsewhere in this report, as well as affect our ability to achieve our financial and other goals, include, but are not limited to, the following:

1. The success of our business depends in large part on our ability to identify fashion trends as well as to react to changing customer demand in a timely manner. Consequently, we depend in part upon the customer response to the creative efforts of our merchandising, design and marketing teams and their ability to anticipate trends and fashions that will appeal to our consumer base. If we miscalculate our customers product preferences or the demand for our products, we may be faced with excess inventory. Historically, this type of occurrence has resulted in excess fabric for some products and markdowns and/or write-offs, which has impaired our profitability, and may do so in the future. Similarly, any failure on our part to anticipate, identify and respond effectively to changing customer demands and fashion trends will adversely affect our sales. In addition, from time to time, we may pursue new concepts, and if the new concepts are not successful, our financial condition may be harmed.

2. We face increasing product costs from our manufacturing partners, which could result in significant margin erosion. Worldwide prices for raw materials have increased significantly year-over-year. We currently estimate that these increasing product costs could result in significant margin erosion. Additionally, a significant percentage of our apparel products are manufactured in China. Manufacturers in that country are currently experiencing increased costs due to shortages of labor and the fluctuation of the Chinese Yuan in relation to the U.S. dollar. In addition, our business and operating results may be affected by changes in the political, social or economic environment in China. If we are unable to successfully mitigate a significant portion of such product costs, our results of operations may be materially adversely affected.

3. If we are unable to obtain raw materials or unable to find manufacturing facilities or our manufacturers perform unacceptably, our sales may be negatively affected and our financial condition may be harmed. We do not own any manufacturing facilities and therefore depend on contractors and third parties to manufacture our products. We place all of our orders for production of merchandise and raw materials by purchase order and do not have any long-term contracts with any manufacturer or supplier. If we fail to maintain favorable relationships with our manufacturers and suppliers or are unable to obtain sufficient quantities of quality raw materials on commercially reasonable terms, it could harm our business and results of operations.

We cannot assure you that contractors and third-party manufacturers (1) will not supply similar products to our competitors, (2) will not stop supplying products to us completely or (3) will supply products in a timely manner. Untimely receipt of products may result in lower than anticipated sales and markdowns which would have a negative impact on earnings. Furthermore, we have received in the past, and may receive in the future, shipments of products from manufacturers that fail to conform to our quality control standards. In such event, unless we are able to obtain replacement products in a timely manner, we may lose sales. Certain of our third-party manufacturers store our raw materials. In the event our inventory was damaged or destroyed and we were unable to obtain replacement raw materials, our results of operations could be negatively impacted.

4. We face significant competition in the retail and apparel industry, which could harm our sales and profitability. The retail and apparel industries are highly competitive and are characterized by low barriers to entry. We expect competition in our markets to increase. The primary competitive factors in our markets are: brand name recognition, sourcing, product styling, quality, presentation and pricing, timeliness of product development and delivery, store ambiance, customer service and convenience. We compete with traditional

Table of Contents

department stores, specialty store retailers, lower price point retailers, business to consumer websites, off-price retailers and direct marketers for, among other things, raw materials, market share, retail space, finished goods, sourcing and personnel. Because many of these competitors are larger and have substantially greater financial, distribution and marketing resources than we do or maintain comparatively lower cost of operations, we may lack the resources to adequately compete with them. If we fail to remain competitive in any way, it could harm our business, financial condition and results of operations.

5. General economic conditions, including increases in energy and commodity prices, that are largely out of our control may adversely affect our financial condition and results of operations. We are sensitive to changes in general economic conditions, both nationally and locally. Recessionary economic cycles, higher interest rates, higher fuel and other energy costs, inflation, deflation, increases in commodity prices, higher levels of unemployment, higher consumer debt levels, higher tax rates and other changes in tax laws or other economic factors that may affect consumer spending or buying habits could adversely affect the demand for products we sell in our stores. In addition, the recent turmoil in the financial markets may have an adverse effect on the U.S. and world economy, which could negatively impact consumer spending patterns. We cannot assure you that government responses to the disruptions in the financial markets will restore consumer confidence.

Furthermore, we could experience reduced traffic in our stores or limitations on the prices we can charge for our products, either of which could reduce our sales and profit margins and have a material adverse effect on our financial condition and results of operations. Also, economic factors such as those listed above and increased transportation costs, inflation, higher costs of labor, insurance and healthcare, and changes in other laws and regulations may increase our cost of sales and our operating, selling, general and administrative expenses, and otherwise adversely affect our financial condition and results of operations.

6. We cannot assure that future store openings will be successful and new store openings may impact existing stores. We expect to open approximately 11 stores for bebe and 2b bebe in fiscal 2013 as well as up to 25 international licensee operated stores. In the past, we have closed stores as a result of poor performance, and we cannot assure that the stores that we plan to open in fiscal 2013, or any other stores that we might open in the future, will be successful or that our overall operating profit will increase as a result of opening these stores. During fiscal 2012, we closed 13 stores, and during fiscal 2013, we anticipate closing up to 12 bebe stores and one 2b bebe pop-up location. Most of our domestic new store openings in fiscal 2013 will be in existing markets. These openings may affect the existing stores' net sales and profitability. Our failure to predict accurately the demographic or retail environment at any future store location could have a material adverse effect on our business, financial condition and results of operations.

Our ability to effectively obtain real estate to open new stores depends upon the availability of real estate that meets our criteria, including traffic, square footage, co-tenancies, average sales per square foot, lease economics, demographics, and other factors, and our ability to negotiate terms that meet our financial targets. In addition, we must be able to effectively renew our existing store leases. Failure to secure real estate locations adequate to meet annual targets as well as effectively managing the profitability of our existing fleet of stores could have a material adverse effect on our business, financial condition and results of operations.

7. Our sales, margins and operating results are subject to seasonal and quarterly fluctuations. Our business varies with general seasonal trends that are characteristic of the retail and apparel industries, such as the timing of seasonal wholesale shipments and other events affecting retail sales. As a result, our stores typically generate a higher percentage of our annual net sales and profitability in the second quarter of our fiscal year (which includes the holiday selling season) compared to other quarters.

In addition, our comparable store sales have fluctuated significantly in the past, and we expect that they will continue to fluctuate in the future. A variety of factors affect comparable store sales, including fashion trends, competition, current economic conditions, the timing of release of new merchandise and promotional events, changes in our merchandise mix, the success of marketing programs and weather conditions. Our ability to

Table of Contents

deliver strong comparable store sales results and margins depends in large part on accurately forecasting demand and fashion trends, selecting effective marketing techniques, providing an appropriate mix of merchandise for our customer base, managing inventory effectively, and optimizing store performance by closing under-performing stores.

Such fluctuations may adversely affect the market price of our common stock.

8. Our success depends on our ability to attract and retain key employees in order to support our existing businesses and future expansion. From time to time we actively recruit qualified candidates to fill key executive positions from within our company. There is substantial competition for experienced personnel, which we expect will continue. We compete for experienced personnel with companies who have greater financial resources than we do. In the past, we have experienced significant turnover of our executive management team and retail store personnel. We are also exposed to employment practice litigation due to the large number of employees and high turnover of our sales associates. If we fail to attract, motivate and retain qualified personnel, it could harm our business and limit our ability to expand.

In addition, we depend upon the expertise and execution of our key employees, particularly: Manny Mashouf, our founder, Chief Executive Officer and Chairman of the Board of Directors. If we lose the services of Mr. Mashouf or any key officers or employees, it could harm our business and results of operations.

9. Because Manny Mashouf beneficially owns a substantial portion of the outstanding shares, other shareholders may not be able to influence the direction the company takes. As of August 31, 2012, Manny Mashouf, our Chief Executive Officer and Chairman of the Board, beneficially owned approximately 54% of the outstanding shares of our common stock. As a result, he can control the election of directors and the outcome of all issues submitted to the shareholders. This may make it more difficult for a third party to acquire shares, may discourage acquisition bids, and could limit the price that certain investors might be willing to pay for shares of common stock. This concentration of stock ownership may have the effect of delaying, deferring or preventing a change in control of our company.

10. We rely on information technology, the disruption of which could adversely impact our business. We rely on various information systems to manage our operations and regularly assess the cost-benefit analysis associated with making additional investments to upgrade, enhance or replace such systems. If at any time we do not have adequate systems in place, or should we experience any delays or difficulties in transitioning to these or other new systems, or in integrating these systems with our current systems, or we experience any other disruptions affecting our information systems, we could experience a material adverse impact on our business. Should we experience unauthorized access, disclosure or use of any of our systems, or if our security controls, computer assets and sensitive data, including client data, are breached, this could also damage our reputation with our clients. Further, with increased technology and other patent litigation hitting the industry, and especially given our reliance on our vendor's purported ownership of third party software we license, we face the potential of receiving claims that the technology we use or license infringes on another's proprietary rights. Should this occur, and while we may secure indemnification rights in certain transactions, we may be subject to having to defend ourselves from such claims and/or be subject to unanticipated license fees or the necessity to transition away from technology we are using or abandon such use altogether.

11. We are subject to risks associated with our on-line sales. We operate on-line stores at www.bebe.com and www.2bstores.com to sell our merchandise. Although our on-line sales encompass a relatively small percentage of our total sales, our on-line operations are subject to numerous risks, including unanticipated operating problems, reliance on third-party computer hardware and software providers and system failures. The on-line operations also involve other risks that could have an impact on our results of operations including but not limited to diversion of sales from our other stores, rapid technological change, liability for on-line content, credit card fraud and loss of sensitive data. In addition, with our recent migration from a third-party platform for our bebe.com store, we may be faced with unforeseen transition challenges. We cannot assure that our on-line stores will continue to achieve sales and profitability growth or even remain at their current level.

Table of Contents

12. We are subject to cyber-security risks and may incur increasing costs in an effort to minimize those risks and to respond to cyber incidents. There is an increased dependence on digital technologies by public companies and an increasing frequency and severity of cyber incidents. Our business involves the storage and transmission of customers' personal information, consumer preferences and credit card information. We also use mobile devices, social networking and other online activities to connect with our customers. While we have implemented measures to prevent security breaches and cyber incidents, given the ever increasing abilities of those intent on breaching cyber-security measures and given our reliance on the security and other efforts of third-party vendors, the total security effort at any point in time may not be completely effective and any such security breaches and cyber incidents could adversely affect our business.

13. Any serious disruption at our major facilities could have a harmful effect on our business. We currently operate a corporate office in Brisbane, California, a distribution facility in Benicia, California, and a design studio and production facility in Los Angeles, California. Any serious disruption at these facilities whether due to construction, relocation, fire, earthquake, terrorist acts or otherwise could harm our operations and could negatively affect our business and results of operations. Furthermore, we have little experience operating essential functions away from our main corporate offices and are uncertain what effect operating such satellite facilities might have on business, personnel and results of operations.

14. Our business could be adversely impacted by unfavorable international political conditions. Due to our current and continued growth of international operations, our sales and operating results are, and will continue to be, affected by international social, political, legal and economic conditions. In particular, our business could be adversely impacted by instability or changes resulting in the disruption of trade with the countries in which our contractors, suppliers or customers are located, significant fluctuations in the value of the dollar against foreign currencies or restrictions on the transfer of funds, or additional trade restrictions imposed by the United States and other foreign governments. Trade restrictions, including increased tariffs or quotas, embargoes and customs restrictions could increase the cost or reduce the supply of merchandise available to us and adversely affect our financial condition and results of operations. In addition, we purchase a substantial amount of our raw materials from China and our business and operating results may be affected by changes in the political, social or economic environment in China.

15. If we are not able to protect our intellectual property our ability to capitalize on the value of our brand name may be impaired. Even though we take actions to establish, register and protect our trademarks and other proprietary rights, we cannot assure you that we will be successful or that others will not imitate our products or infringe upon our intellectual property rights. In addition, we cannot assure that others will not resist or seek to block the sale of our products as infringements of their trademark and proprietary rights.

We are seeking to register our trademarks domestically and internationally. Obstacles may exist that may prevent us from obtaining a trademark for the bebe, BEBE SPORT, bbsp and 2b bebe names or related names. We may not be able to register certain trademarks, purchase the right or obtain a license to use these names or related names on commercially reasonable terms. If we fail to obtain trademark, ownership or license the requisite rights, it would limit our ability to expand. In some jurisdictions, despite successful registration of our trademarks, third parties may allege infringement and bring actions against us. In addition, if our licensees fail to use our intellectual property correctly, the reputation and value associated with our trademarks may be diluted. Furthermore, if we do not demonstrate use of our trademarks, our trademark rights may lapse over time.

16. If an independent manufacturer or vendor violates labor or other laws, or is accused of violating any such laws, or if their labor practices diverge from those generally accepted as ethical, it could harm our business and brand image. While we maintain a policy to monitor the operations of our independent manufacturers by having an independent firm inspect these manufacturing sites, and all manufacturers and vendors are contractually required to comply with such labor practices, we cannot control the actions or the public's perceptions of such manufacturers or vendors, nor can we assure that these manufacturers and vendors will conduct their businesses using ethical or legal labor practices. Apparel companies, in certain conditions, may

Table of Contents

be held jointly liable for the wrongdoings of the manufacturers of their products. While we do not control our manufacturers' employment conditions or business practices, and the manufacturers act in their own interest, they may act in a manner that results in negative public perceptions of us and/or employee allegations or court determinations that we are jointly liable.

17. We may be required to record losses in future quarters as a result of the decline in value of our investments in auction rate securities or as a result of a change in our ability to hold our investments in auction rate securities. We hold a variety of interest bearing ARS comprised of federally insured student loan backed securities and insured municipal authority bonds. These ARS investments are intended to provide liquidity via an auction process that resets the applicable interest rate at predetermined calendar intervals, allowing investors to either roll over their holdings or gain immediate liquidity by selling such interests at par. The recent uncertainties in the credit markets that began in February 2008 have affected our holdings in ARS investments and the majority of auctions for our investments in these securities have failed to settle on their respective settlement dates. Consequently, \$60.0 million of our ARS are not currently liquid and we will not be able to access these funds until a future auction of these investments is successful or securities are purchased or redeemed outside of the auction process. Maturity dates for these ARS investments range from 2016 to 2044, with principal distributions occurring on certain securities prior to maturity.

The valuation of our investment portfolio is subject to uncertainties that are difficult to predict. Factors that may impact its valuation include changes to credit ratings of the securities as well as to the underlying assets supporting those securities, rates of default of the underlying assets, underlying collateral value, discount rates and ongoing strength and quality of market credit and liquidity. If the current market conditions deteriorate further, or the anticipated recovery in market values does not occur, we may be required to record additional losses in other comprehensive income or losses in net income in future quarters.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 2. PROPERTIES

As of June 30, 2012, our 252 stores, all of which are leased, encompassed approximately 1,008,000 total square feet. The typical store lease is for a 10-year term and requires us to pay a base rent and a percentage rent if certain minimum sales levels are achieved. Many of the leases provide a lease termination option in specified years of the lease if certain minimum sales levels are not achieved. In addition, leases for store locations typically require us to pay property taxes, utilities, repairs and common area maintenance fees.

Our main corporate headquarters are currently located in a facility in Brisbane, California. The Brisbane facility is approximately 35,000 square feet and houses administrative offices, planning operations and store support services. The lease expires in April 2014. We also purchased our 144,000 square foot distribution center in Benicia, California in May 2012. In fiscal 2004, we acquired a 50,000 square foot design studio and production facility in Los Angeles, California that houses our design, merchandising and production activities. In December 2008, we acquired two condominium units in Los Angeles, California for use as short-term executive accommodations with approximately 3,400 total square footage.

ITEM 3. LEGAL PROCEEDINGS

As of the date of this filing, we are involved in ongoing legal proceedings as described below.

A former employee sued the Company in a complaint filed July 27, 2006 in the Superior Court of California, San Mateo County (Case No. CIV 456550) alleging a failure to pay all wages, failure to pay overtime wages, failure to pay minimum wages, failure to provide meal periods, violation of Labor Code §450, violation

Table of Contents

of Labor Code §2802 and California Code of Regulations §11040(9)(A), statutory wage violations (late payment of wages), unlawful business practices under Business and Professions Code §16720 and §17200, conversion of wages and violation of Civil Code §52.1. The plaintiff purports to bring the action also on behalf of current and former California bebe employees who are similarly situated. The lawsuit seeks compensatory, statutory, punitive, restitution and injunctive relief. In September 2011, the Court certified a class of store managers who allege they were required to buy and wear our product as a condition of employment and denied certification relating to claims of missed meal periods and rest breaks. The Court has directed for a trial on only the claim that the employees were required to buy and wear our product. Subsequent to the date of the Consolidated Balance Sheets, June 30, 2012, the parties reached a settlement agreement in which neither party makes any admission but all of the plaintiff's claims are to be resolved. At the time of this filing, this agreement is being documented, will be presented to the Court and will only be effective if and when approved by the Court.

A former employee sued the Company in a complaint filed a second amended complaint on or about September 7, 2010 in the Superior Court of California, Los Angeles County (Case No. BC429140) alleging the Company failed to provide adequate disclosure of its commission policy and wrongfully reduced and delayed commission payments. The plaintiff purports to bring the action also on behalf of current and former California bebe employees who are similarly situation. The lawsuit seeks compensatory, statutory, punitive, restitution and injunctive relief. Due to reassignment of the case to another department within the Los Angeles Superior Court, the Company's pending summary judgment motion and the trial date have been postponed.

We are also involved in various other legal proceedings arising in the normal course of business. For such legal proceedings, and including the matters discussed in the paragraphs above, we have accrued an amount that reflects the aggregate liability deemed probable and estimable, but this amount is not material, individually or in the aggregate, to have a material adverse effect on our business, financial condition or results of operations. Because of the preliminary nature of many of these proceedings, the difficulty in ascertaining the applicable facts relating to many of these proceedings, the inconsistent treatment of claims made in many of these proceedings and the difficulty of predicting the settlement value of many of these proceedings, we are unable to estimate an amount or range of any reasonably possible additional losses. However, based on our historical experience, the resolution of these proceedings is not expected to have a material effect on our business, financial condition or results of operations.

bebe intends to defend itself vigorously against each of these claims. However, the results of any litigation are inherently uncertain. bebe cannot assure you that it will be able to successfully defend itself in these lawsuits. Where required, and/or otherwise appropriate and determinable, we have recorded an estimate of potential liabilities that we believe is reasonable. Any estimates are revised as further information becomes available.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

Table of Contents**PART II****ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES**

Our common stock trades on the Nasdaq National Market under the symbol BEBE. The following table sets forth the high and low sales prices of our common stock for each quarterly period within the two years ended June 30, 2012, as reported by Nasdaq:

	High	Low
Fiscal 2011		
First Quarter	\$ 7.32	\$ 5.36
Second Quarter	7.16	5.91
Third Quarter	6.14	5.41
Fourth Quarter	7.10	5.77
Fiscal 2012		
First Quarter	\$ 8.25	\$ 5.66
Second Quarter	8.58	6.29
Third Quarter	9.58	8.16
Fourth Quarter	9.50	5.35

In October 2008, our board of directors authorized a program to repurchase up to \$30 million of our common stock. We intend, from time to time, as business conditions warrant, to purchase stock in the open market or through private transactions. Purchases may be increased, decreased or discontinued at any time without prior notice. The plan does not obligate us to purchase any specific number of shares and may be suspended at any time at management's discretion. In fiscal 2011 we repurchased approximately 2.1 million shares at an average price per share of \$5.84. As of August 31, 2010 we have completed the maximum amount of repurchases approved under the plan.

As of August 31, 2012, the number of holders of record of our common stock was 70 and the number of beneficial holders of our common stock was approximately 5,900.

Declaration and payment of dividends is within the sole discretion of our board of directors, subject to limitations imposed by California law and compliance with our credit agreement and will depend on our earnings, capital requirements, financial condition and such other factors as the board of directors deems relevant. During fiscal 2012 and the last three quarters of fiscal 2011, we declared quarterly dividends of \$0.025 each per common share.

Table of Contents

Stock Performance Graph

The graph below compares the percentage changes in our cumulative total shareholder return on our common stock for the five-year period ended June 30, 2012, with (i) the cumulative total return of the S & P 500 Index (S & P 500) and (ii) the S & P Apparel, Accessories & Luxury Goods Index. The total shareholder return for our common stock assumes quarterly reinvestment of dividends.

Table of Contents**ITEM 6. SELECTED FINANCIAL DATA****Selected Financial and Operating Data**

The following selected financial data is qualified by reference to, and should be read in conjunction with, our Consolidated Financial Statements and related Notes thereto and the other financial information appearing elsewhere in this report. These historical results are not necessarily indicative of results to be expected in the future.

	Fiscal Year Ended (number of weeks)				
	June 30, 2012 (52)	July 2, 2011 (52)	July 3, 2010 (52)	July 4, 2009 (52)	July 5, 2008 (52)

Table of Contents

- (1) Based on the sum of average monthly sales for the period.
- (2) Comparable store sales are calculated by including the net sales of stores that have been open at least one year. Therefore, a store is included in the comparable store sales base beginning with its thirteenth month. Stores that have been expanded or remodeled by 15 percent or more or have been permanently relocated are excluded from the comparable store sales base. In addition, comparable store sales are calculated using a same day sales comparison. International licensee store sales are not included in the comparable store sales calculation. Beginning in fiscal 2012, we are reporting comparable store sales results inclusive of our on-line stores. We believe that given the similar nature and process of inventory planning, allocation and return policy for the on-line stores and all other retail stores, the inclusion of the on-line stores is a more meaningful way of reporting our comparable store sales results. In addition, we have been implementing cross-channel marketing initiatives, which benefit all retail sales, including our on-line stores. The inclusion of the on-line stores increased the comparable store percentage by 3.2% for the fiscal year ended June 30, 2012. For fiscal 2011 and 2010, the impact of including the on-line stores in comparable store sales would have been an increase of 0.2% and 0.6%, respectively.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with the Consolidated Financial Statements and related Notes included elsewhere in this report. The following Management's Discussion and Analysis of Financial Condition and Results of Operations contains forward looking statements, which involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including those set forth under Risks Factors under Item 1A of this report.

Overview

We design, develop and produce a distinctive line of contemporary women's apparel and accessories under the bebe, BEBE SPORT, bbsp and 2b bebe brand names. We operate stores in the United States, Puerto Rico, Virgin Islands, Japan and Canada. In addition we have on-line stores at www.bebe.com and www.2bstores.com that ship to customers in the United States, Canada, Puerto Rico, the U.S. Protectorates and, for www.bebe.com, internationally via our third-party provider, International Checkout. We also have international stores operated by licensees in South East Asia, United Arab Emirates, Israel, Russia, South America and Turkey. Our distinctive product offering includes a full range of separates, tops, dresses, active wear and accessories in the following lifestyle categories: wear-to-work, weekend and party. We design and develop the majority of our merchandise in-house, which is manufactured to our specifications. The remainder is sourced directly from third-party manufacturers.

Fiscal 2012 financial highlights include the following:

Net sales from continuing operations for fiscal 2012 were \$530.8 million, up 7.6% from \$493.3 million for fiscal 2011. Comparable store sales for fiscal 2012 increased 5.3% compared to an increase of 0.4% in the previous fiscal year. The inclusion of the on-line stores increased the comparable store percentage by 3.2% for the fiscal year ended June 30, 2012.

Gross margin from continuing operations for fiscal 2012 was 39.8% compared to 38.9% for fiscal 2011.

Selling, general and administrative expenses from continuing operations for the 2012 fiscal year were \$191.7 million, up 3.1% from \$185.9 million for fiscal 2011.

Net income from continuing operations for the fiscal year ended June 30, 2012 was \$11.7 million, or \$0.14 per share on a diluted basis, compared to net income of \$4.1 million, or \$0.05 per share on a diluted basis, in the prior year.

Table of Contents

In fiscal 2012, cash increased by \$9.8 million, up from a decrease of \$99.5 million for fiscal 2011, primarily as a result of settlements of our auction rate securities in the current fiscal year and a \$1 per share dividend payment made in the prior fiscal year.

Critical Accounting Policies

Management's Discussion and Analysis of Financial Condition and Results of Operations are based upon our consolidated financial statements, which have been prepared in conformity with accounting principles generally accepted in the United States of America.

The preparation of these financial statements requires the appropriate application of certain accounting policies, many of which require us to make estimates and assumptions about future events and their impact on amounts reported in our financial statements and related notes. Since future events and their impact cannot be determined with certainty, the actual results will inevitably differ from our estimates. Such differences could be material to the financial statements. We believe our application of accounting policies, and the estimates inherently required therein, are reasonable. These accounting policies and estimates are constantly reevaluated, and adjustments are made when facts and circumstances dictate a change. Our accounting policies are more fully described in Note 1 to our consolidated financial statements included in this report.

We have identified certain critical accounting policies, which are described below.

Revenue recognition. We recognize revenue at the time the products are received by the customers. We recognize revenue for store sales at the point at which the customer receives and pays for the merchandise at the register. For on-line sales, we recognize revenue at the time we estimate the customer receives the product. We estimate and defer revenue and the related product costs for shipments that are in transit to the customer. Customers typically receive goods within one week of shipment. We reflect amounts related to shipping billed to customers in net sales and the related costs in cost of goods sold. We record retail sales net of sales tax collected from customers at the time of the transaction.

We record a reserve for estimated product returns based on historical return trends. If actual returns are greater than those projected, we may record additional sales returns in the future. We do not believe there is a reasonable likelihood that there will be a material change in the future estimates or assumptions we use to calculate our sales return reserve. However, if the actual rate of sales returns increases significantly, our operating results could be adversely affected.

Discounts offered to customers consist primarily of point of sale markdowns and are recorded at the time of the related sale as a reduction of revenue.

We include the value of points and rewards earned by our loyalty program members as a liability and a reduction of revenue at the time the points and rewards are earned based on historical conversion and redemption rates. We recognize the associated revenue when the rewards are redeemed or expire.

Gift certificates sold are recorded as a liability and we recognize sales revenue when the gift certificate is redeemed. Similarly, customers may receive a store credit in exchange for returned goods.

We carry store credits as a liability until redeemed. We recognize unredeemed store credits and gift certificates as other income three and four years, respectively, after issuance, which is when management deems redemptions to be remote. In addition, we sell gift cards with no expiration dates to customers in our retail store locations, through our online stores, and through third parties. We recognize sales revenue from gift cards when they are redeemed by the customer. In addition, we recognize income on unredeemed gift cards when we can determine that the likelihood of the gift card being redeemed is remote and there is no legal obligation to remit the unredeemed gift cards to relevant jurisdictions (gift card breakage). We determine gift card breakage income

Table of Contents

based on historical redemption patterns. We accumulated sufficient historical data to determine elapsed time for recording breakage income during the second quarter of fiscal 2010, which we estimate is four years. Gift card breakage is included as other income within selling, general and administrative expenses. We do not believe there is a reasonable likelihood that there will be a material change in the future estimates or assumptions we use to calculate our breakage income. However, if the actual rate of redemption for gift certificates, store credits, and gift cards increases significantly, our operating results could be adversely affected.

We record royalty revenue from product licensees as the greater of the minimum amount guaranteed in the contract or amount sold.

We recognize wholesale licensee revenue from sale of product to international licensee operated bebe stores at the time we estimate the licensee receives shipment. We exclude these stores from comparable store sales.

Stock Based Compensation. We recognize stock-based awards to employees as compensation expense, based on the calculated fair value on the date of grant. We determine the fair value using the Black-Scholes option pricing model. This model requires subjective assumptions, which are affected by our stock price as well as assumptions regarding a number of complex and subjective variables. These variables include our expected stock price volatility over the term of the awards, actual and projected employee exercise behaviors, risk-free interest rate and expected dividends. As the stock-based compensation expense recognized on the consolidated statements of operations for fiscal 2012, 2011 and 2010 is based on awards ultimately expected to vest, such amount has been reduced for estimated forfeitures. Forfeitures are estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates. We estimate forfeitures based on our historical experience.

Inventories. We state inventories at the lower of weighted average cost or market. We determine market based on the estimated net realizable value, which is generally the merchandise selling price. To ensure that our raw material is properly valued, we age the fabric inventory and record a reserve in accordance with our established policy, which is based on historical experience. To ensure our finished goods inventory is properly valued, we review the age and turnover of our inventory and record an adjustment if the selling price is estimated to be marked down below cost. These assumptions can have an impact on current and future operating results and financial position. We estimate and record shrinkage for the period between the last physical count and balance sheet date based on historic shrinkage trends.

Investments. We hold a variety of interest bearing auction rate securities (ARS) consisting of federally insured student loan backed securities and insured municipal authority bonds. As of June 30, 2012, our ARS portfolio totaled approximately \$60.0 million, net of a temporary impairment charge of \$7.9 million, classified as available for sale securities. These ARS investments are intended to provide liquidity via an auction process that resets the applicable interest rate at predetermined calendar intervals, allowing investors to either roll over their holdings or gain immediate liquidity by selling such interests at par. The uncertainties in the credit markets that began in February 2008 have affected our holdings in ARS investments and auctions for our investments in these securities have failed to settle on their respective settlement dates. Historically the fair value of ARS investments had approximated par value due to the frequent resets through the auction process. While we continue to earn interest on our ARS investments at the maximum contractual rate, these investments are not currently trading and therefore do not currently have a readily determinable market value. Accordingly, the estimated fair value of ARS no longer approximates par value. Consequently, the investments are not currently liquid, and we will not be able to access these funds until a future auction of these investments is successful, the issuer redeems the securities or at maturity. Maturity dates for these ARS range from 2016 to 2044 with principal distributions occurring on certain securities prior to maturity.

We also hold short-term available for sale securities totaling \$76.4 million at June 30, 2012 that consist of treasury bills and certificates of deposit.

Table of Contents

We review our investments for impairment in accordance with guidance issued by the FASB and SEC in order to determine the classification of the impairment as temporary or other-than-temporary. A temporary impairment charge results in an unrealized loss being recorded in the other comprehensive income component of shareholders' equity. Such an unrealized loss does not affect net income for the applicable accounting period. An other-than-temporary impairment charge is recorded as a loss in the consolidated statements of operations and reduces net income for the applicable accounting period. When evaluating the investments for other-than-temporary impairment, we estimate the expected cash flows of the underlying collateral by reviewing factors such as the length of time and extent to which the fair value has been below cost basis, the financial condition of the issuer and any changes thereto, and our intent to sell, or whether it is more likely than not it will be required to sell, the investment before recovery of the investment's unamortized cost basis.

The valuation of our investment portfolio is subject to uncertainties that are difficult to predict. Factors that may impact our valuation include changes to credit ratings of the issuers of the securities as well as to the underlying assets supporting those securities, rates of default of the underlying assets, underlying collateral value, discount rates and ongoing strength and quality of market credit and liquidity.

Impairment of long-lived assets. We review long-lived assets for impairment whenever events or changes in circumstances, such as planned or actual store closures or poor performing stores, indicate that the carrying value of an asset may not be recoverable. Assets are grouped and evaluated for impairment at the lowest level of which there are identifiable cash flows, which is generally at a store level. Store assets are reviewed using factors including, but not limited to, the Company's future operating plans and projected cash flows. The determination of whether impairment has occurred is based on an estimate of undiscounted future cash flows directly related to that store, compared to the carrying value of the assets. If the sum of the undiscounted future cash flows of a store does not exceed the carrying value of the assets, full or partial impairment may exist. For impaired assets, we recognize a loss equal to the difference between the net book value of the asset and its estimated fair value. Fair value is based upon discounted future cash flows of the asset using a discount rate commensurate with the risk. In addition, at the time a decision is made to close a store, we record an impairment charge, if appropriate, or accelerate depreciation over the revised useful life of the asset. During fiscal 2012, we recorded a \$0.5 million charge for the impairment of store assets. We believe at this time that the long-lived assets' carrying values and useful lives continue to be appropriate; however significant changes from our current future forecasts could result in additional impairment charges.

Income Taxes. We account for income taxes using an asset and liability approach that requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been recognized in our financial statements or tax returns. We are subject to periodic audits by the Internal Revenue Service and other foreign, state and local taxing authorities. These audits may challenge certain of our tax positions such as the timing and amount of income and deductions and the allocation of taxable income to various tax jurisdictions. We evaluate our tax positions and establish liabilities in accordance with applicable accounting guidance on uncertainty in income taxes. To the extent that our estimates change or the final tax outcome of these matters is different than the amounts recorded, such differences will impact the income tax provision in the period in which such determinations are made. Our effective tax rate in a given financial statement period may be materially impacted by changes in the mix and level of earnings, changes in the expected outcome of audits or changes in the deferred tax valuation allowance.

Recent Accounting Pronouncements

Fair Value

In May 2011, the FASB issued guidance to amend the accounting and disclosure requirements on fair value measurements. The new guidance limits the highest-and-best-use measure to nonfinancial assets, permits certain financial assets and liabilities with offsetting positions in market or counterparty credit risks to be measured on a net basis and provides guidance on the applicability of premiums and discounts. Additionally, the new guidance

Table of Contents

expands the disclosures on Level 3 inputs by requiring quantitative disclosure of the unobservable inputs and assumptions, as well as description of the valuation processes and the sensitivity of the fair value to changes in unobservable inputs. The new guidance will be effective for us beginning in fiscal 2013, which is July 1, 2012. We do not anticipate a material impact on our financial statements upon adoption.

Other Comprehensive Income

In June 2011, the FASB issued ASU 2011-05, which requires that all non-owner changes in stockholders' equity be presented either in a single continuous statement of comprehensive income or in two separate but consecutive statements. In the two-statement approach, the first statement should present total net income and its components followed consecutively by a second statement that should present total other comprehensive income, the components of other comprehensive income and the total of comprehensive income. The new guidance eliminates the current option to report other comprehensive income and its components in the consolidated statements of shareholders' equity. For public entities, the amendments in ASU 2011-05 are effective for fiscal years, and interim periods within those years, beginning after December 15, 2011, and are to be applied retrospectively, with early adoption permitted. We will adopt ASU 2011-05 in our first quarter of fiscal 2013 ending September 29, 2012.

Results of Operations

Our fiscal year ends on the first Saturday on or after June 30. Fiscal 2012, 2011 and 2010 each included 52 weeks.

The following table sets forth certain financial data as a percentage of net sales for the periods indicated:

	Fiscal Year Ended		
	June 30, 2012	July 2, 2011	July 3, 2010
Statement of Operating Data:			
Net sales	100.0%	100.0%	100.0%
Cost of sales, including production and occupancy(1)	60.2	61.1	59.6
Gross margin	39.8	38.9	40.4
Selling, general and administrative expenses(2)	36.1	37.7	38.2
Operating income	3.7	1.2	2.2
Interest and other income, net	0.2	0.2	0.7
Income from continuing operations before income taxes	3.9	1.4	2.9
Income tax provision	1.6	0.6	1.2
Income from continuing operations, net of tax	2.3	0.8	1.7
Loss from discontinued operations, net of tax		(1.2)	(2.8)
Net income (loss)	2.3%	(0.4)%	(1.1)%

(1) Cost of sales includes the cost of merchandise, occupancy costs and production costs.

(2) Selling, general and administrative expenses primarily consist of non-occupancy store costs, corporate overhead and advertising costs.

Fiscal Years Ended June 30, 2012 and July 2, 2011

Net Sales. Net sales from continuing operations increased to \$530.8 million during the fiscal year ended June 30, 2012 from \$493.3 million in fiscal 2011, an increase of \$37.5 million, or 7.6%. The increase in net sales was primarily attributable to a 5.3% increase in comparable store sales as well as an increase in wholesale sales of \$9.3 million, or 30.5%.

Table of Contents

Gross Margin. Gross margin from continuing operations increased to \$211.1 million for the fiscal year ended June 30, 2012 from \$191.8 million in fiscal 2011, an increase of \$19.3 million, or 10.1%. As a percentage of net sales, gross margin of 39.8% was higher than the prior year at 38.9% primarily due to positive occupancy leverage.

Selling, General and Administrative Expenses. Selling, general and administrative expenses from continuing operations, which primarily consist of non-occupancy store costs, corporate overhead and advertising costs, increased to \$191.7 million during fiscal 2012 from \$185.9 million in fiscal 2011, an increase of \$5.8 million, or 3.1%. This increase in dollars was primarily a result of increases in compensation expenses including incentive compensation.

Interest and Other Income, Net. We generated \$0.9 million of interest and other income, net of other expenses, during fiscal 2012 as compared to \$0.9 million in fiscal 2011. The year over year consistency reflected our continued investment in lower-yielding tax-exempt investments and money market funds.

Provision for Income Taxes. Our effective tax rate from continuing operations was 42.4% for fiscal 2012 as compared to 39.8% for fiscal 2011. The higher tax rate in the current year was due to various discrete items, including elective changes to state apportionment factors and the cumulative impact of those changes on the related deferred balances.

Fiscal Years Ended July 2, 2011 and July 3, 2010

Net Sales. Net sales from continuing operations increased to \$493.3 million during the fiscal year ended July 2, 2011 from \$480.0 million in fiscal 2010, an increase of \$13.3 million, or 2.8%. The increase in net sales was primarily attributable to a 0.4% increase in comparable store sales resulting primarily from increased conversion in stores as well as an increase in wholesale sales of \$6.2 million, or 25.5%.

Gross Margin. Gross margin from continuing operations decreased to \$191.8 million for the fiscal year ended July 2, 2011 from \$193.9 million in fiscal 2010, a decrease of \$2.1 million, or 1.1%. As a percentage of net sales, gross margin of 38.9% was lower than the prior year at 40.4% primarily due to a decrease in initial markup, caused by change in product mix and higher production costs, partially offset by lower markdown activity.

Selling, General and Administrative Expenses. Selling, general and administrative expenses from continuing operations, which primarily consist of non-occupancy store costs, corporate overhead and advertising costs, increased to \$185.9 million during fiscal 2011 from \$183.2 million in fiscal 2010, an increase of \$2.7 million, or 1.5%. This increase in dollars was primarily a result of \$2.1 million of settlement costs recorded during the year. Prior year adjustments included \$3.0 million related to stock-based compensation offset by other credits, including the initial recognition of gift card breakage income. As a percentage of net sales, these expenses decreased to 37.7% during fiscal 2011 from 38.2% in fiscal 2010. This decrease as a percentage of net sales was primarily due to leveraging of store depreciation expense and other fixed costs.

Interest and Other Income, Net. We generated \$0.9 million of interest and other income, net of other expenses, during fiscal 2011 as compared to \$3.2 million in fiscal 2010. The decrease in interest and other income resulted from a one-time settlement of our UBS auction rate securities in the prior year as well as investments in lower-yielding tax-exempt investments and money market funds.

Provision for Income Taxes. Our effective tax rate from continuing operations was 39.8% for fiscal 2011 as compared to 41.9% for fiscal 2010. The overall decrease in the effective tax rate was attributable to the release of tax reserves and reduction in foreign income tax.

Discontinued Operations. In the fourth quarter of fiscal 2010, we decided to discontinue operations of the PH8 division, allowing us to focus our efforts on improving bebe sales and profitability, expanding

Table of Contents

internationally and continuing to develop our 2b bebe business. We closed 24 PH8 stores in the first fiscal quarter of 2011 and during the second fiscal quarter of 2011, closed the remaining 25 PH8 stores, converting one store to a 2b bebe. The results of the PH8 stores closed to date, net of income tax benefit, which consists of 49 and 62 stores for the fiscal years ended July 2, 2011 and July 3, 2010, respectively, have been presented as a discontinued operation in the accompanying consolidated statements of operations for all periods presented and are as follows:

	Fiscal Year Ended	
	July 2, 2011	July 3, 2010
	(In thousands)	
Net sales	\$ 7,850	\$ 29,056
Cost of sales, including production and occupancy	13,368	25,046
Gross margin	(5,518)	4,010
Selling, general and administrative expenses	4,116	25,796
Loss from discontinued operations, before income tax benefit	(9,634)	(21,786)
Add: tax benefit	(3,799)	(8,585)
Loss from discontinued operations, net of tax benefit	\$ (5,835)	\$ (13,201)

Seasonality of Business and Quarterly Results

Our business varies with general seasonal trends that are characteristic of the retail and apparel industries. As a result, our typical store generates a higher percentage of its annual net sales and profitability in the second quarter of our fiscal year, which includes the holiday selling season, compared to other quarters of our fiscal year. If for any reason our sales were below seasonal norms during the second quarter of our fiscal year, our annual operating results would be negatively impacted. Because of the seasonality of our business, results for any quarter are not necessarily indicative of results that may be achieved for a full fiscal year.

Liquidity and Capital Resources

Our working capital requirements vary widely throughout the year and generally peak during the first and second fiscal quarters. At June 30, 2012, we had approximately \$241.4 million of cash, cash equivalents and investments on hand of which \$105.0 were cash and equivalents, approximately \$60.0 million, net of impairment charges of \$7.9 million, were auction rate securities (ARS), approximately \$50.0 million were treasury bills and approximately \$26.5 million were certificates of deposit. We do not anticipate the lack of liquidity in the ARS to impact our ability to fund our operations in the foreseeable future and believe we have sufficient cash and equivalents to fund ongoing operations. In addition, we have a revolving line of credit under which we may borrow or issue letters of credit up to a combined total of \$25 million. As of June 30, 2012, there were no cash borrowings or trade letters of credit outstanding under the line of credit, and a stand-by letter of credit outstanding that totaled \$3.0 million. To date, no beneficiary has drawn upon the stand-by letter of credit. This credit facility requires us to comply with certain covenants, including amounts for minimum tangible net worth, unencumbered liquid assets and profitability, and certain restrictions on making loans and investments. As of June 30, 2012, we were in compliance with all covenants.

At June 30, 2012, we had cash and cash equivalents of \$105.0 million held in accounts managed by third-party financial institutions consisting of invested cash and cash in our operating accounts. The invested cash is invested in interest bearing funds managed by third-party financial institutions. These funds invest in direct obligations of the government of the United States. To date, we have experienced no loss or lack of access to our invested cash or equivalents; however, we can provide no assurances that access to our invested cash and equivalents will not be impacted by adverse conditions in the financial markets.

Table of Contents

We hold our operating and invested cash in accounts that are with third-party financial institutions. The balances in these accounts exceed the Federal Deposit Insurance Corporation insurance limits. While we monitor daily the cash balances in our operating accounts and adjust the cash balances as appropriate, these cash balances could be impacted if the underlying financial institutions fail or could be subject to other adverse conditions in the financial markets. To date, we have experienced no loss or lack of access to invested cash or cash in our operating accounts.

Net cash provided by operating activities in fiscal 2012, 2011 and 2010 was \$32.7 million, \$21.9 million and \$37.6 million, respectively. The increase of \$10.8 million from 2011 to 2012 was primarily as result of higher overall net income partially offset by decreased changes in working capital of \$4.1 million from fiscal 2011 to fiscal 2012. These changes in working capital are primarily related to higher prepaid income tax and higher construction allowances receivable related to timing of store construction as well as increased wholesale receivables as a result of our growth internationally. The change from fiscal 2010 to 2011 was a result of decreased changes in working capital of \$12.3 million primarily related to an income tax refund received in the prior fiscal year, settlement of our income tax payable as well as our ability to maintain the lower inventory levels that were implemented in the prior fiscal year.

Net cash used by investing activities was \$15.2 million versus net cash used by investing activities of \$17.9 million and net cash provided by investing activities of \$77.1 million in fiscal 2012, 2011 and 2010, respectively. The decrease in net cash used by investing activities in fiscal 2012 from fiscal 2011 was a result of increased net proceeds from sales and maturities of investments related to the increased settlement of our ARS investments at par offset by the purchase of our distribution center for \$18.0 million in the fourth quarter of the fiscal year. The change from fiscal 2010 to 2011 was primarily a result of a decrease in net proceeds of marketable equity securities of \$91.6 million primarily as a result of our UBS settlement at par in the prior fiscal year partially offset by increased purchases of marketable securities of \$2.9 million and the purchase of the bebe trademark in China for \$0.9 million in fiscal 2011.

Capital expenditures of \$44.9 million, which consists of \$42.1 million cash plus a net change in the accrual of \$2.8 million, in fiscal 2012 primarily included \$18.8 million related to the purchase of our distribution center in Benicia, CA and additional improvements, \$5.9 million related to the opening of new stores, \$9.0 million related to the relocation and expansion of existing stores and \$5.6 million related to investments in management information systems. Capital expenditures of \$13.8 million cash, plus a net change in the accrual of \$1.1 million, in fiscal 2011 primarily included \$5.1 million related to the opening of new stores, \$3.8 million related to the relocation and expansion of existing stores and \$3.9 million related to investments in management information systems.

We opened 13, 10 and 8 new stores in fiscal 2012, 2011 and 2010, respectively, and we expect to open 11 stores in fiscal 2013. In fiscal 2013, we expect capital expenditures of approximately \$26.9 million, of which approximately \$16.9 million will be for new stores and relocation and expansion of existing stores and approximately \$5.4 million will be for investments in information systems and other capital expenditures.

During fiscal 2012, the average bebe and 2b bebe new store construction costs before tenant allowances were \$733,000 and the average gross inventory investment per store was \$104,000.

Net cash used by financing activities was \$7.0 million in fiscal 2012 compared to net cash used by financing activities of \$104.5 million in fiscal 2011. The decrease in cash used by financing activities of \$97.5 million was primarily a result of the fiscal 2011 payout of the special \$1 per share dividend declared in the fourth quarter of fiscal 2010 as well as stock repurchases of \$12.5 million in the prior fiscal year. Net cash used by financing activities was \$104.5 million in fiscal 2011 compared to net cash used by financing activities of \$14.7 million in fiscal 2010. The increase in cash used by financing activities of \$89.8 million was primarily a result of the previously mentioned \$1 per share dividend as well an increase in our stock repurchases of \$8.2 million over the prior fiscal year.

Table of Contents

We hold a variety of interest bearing ARS consisting of federally insured student loan backed securities and insured municipal authority bonds. As of June 30, 2012, our ARS portfolio totaled approximately \$60.0 million, net of a temporary impairment charge of \$7.9 million, classified as available for sale securities. These ARS investments are intended to provide liquidity via an auction process that resets the applicable interest rate at predetermined calendar intervals, allowing investors to either roll over their holdings or gain immediate liquidity by selling such interests at par. The uncertainties in the credit markets that began in February 2008 have affected our holdings in ARS investments and auctions for our investments in these securities have failed to settle on their respective settlement dates. Historically the fair value of ARS investments had approximated par value due to the frequent resets through the auction process. While we continue to earn interest on our ARS investments at the maximum contractual rate, these investments are not currently trading and therefore do not currently have a readily determinable market value. Accordingly, the estimated fair value of ARS no longer approximates par value. Consequently, the investments are not currently liquid, and we will not be able to access these funds until a future auction of these investments is successful, the issuer redeems the securities, or at maturity. Maturity dates for these ARS investments range from 2016 to 2044 with principal distributions occurring on certain securities prior to maturity.

We also hold short-term available for sale securities totaling \$76.4 million at June 30, 2012 that consist of treasury bills and certificates of deposit.

In October 2008, our board of directors authorized a program to repurchase up to \$30.0 million of our common stock. We may, from time to time, as business conditions warrant, purchase stock in the open market or through private transactions. Purchases may be increased, decreased or discontinued at any time without prior notice. The plan does not obligate us to repurchase any specific number of shares and may be suspended at any time at management's discretion. During fiscal 2011, we repurchased 2,137,000 shares at an average price per share of \$5.84 for an aggregate purchase price of approximately \$12.5 million. We have repurchased the full authorization of \$30 million of shares, but may repurchase additional shares in the future.

We believe that our cash on hand, together with our cash flows from operations, will be sufficient to meet our capital and operating requirements for at least the next twelve months. Our future capital requirements, however, will depend on numerous factors, including without limitation, liquidity of our auction rate securities, the size and number of new and expanded stores and/or store concepts, investment costs for management information systems, potential acquisitions and/or joint ventures, repurchase of stock and future results of operations.

Table of Contents**Summary Disclosures about Contractual Obligations and Commitments:**

Other than operating leases, we do not have any off-balance-sheet financing. The following tables summarize our significant contractual obligations and commercial commitments as of June 30, 2012 (in thousands):

	Total	Amount of commitment expiration period			After 5 years
		Less than 1 year	1 - 3 years	4 - 5 years	
Operating leases	\$ 396,668	\$ 62,318	\$ 113,888	\$ 97,436	\$ 123,026
Unconditional purchase obligations(1)	85,033	83,655	1,378		
Total contractual obligations and commitments(2)	\$ 481,701	\$ 145,973	\$ 115,266	\$ 97,436	\$ 123,026

- (1) Unconditional purchase obligations are defined as agreements to purchase goods or services that are enforceable and legally binding on us and that specify all significant terms, including: fixed or minimum quantities to be purchased; fixed, minimum or variable price provisions; and the approximate timing of the transaction. Included in the purchase obligations category above are commitments for inventory purchases, capital expenditures, information technology and professional services. Most arrangements are cancelable without a significant penalty and with short notice, usually 30 to 90 days. We excluded amounts reflected on the consolidated balance sheet as accounts payable and accrued liabilities from the table above.
- (2) The table above does not include liabilities related to unrecognized tax benefits. As we are unable to reasonably predict the timing of settlement of such liabilities, the table does not include \$2.2 million of income tax, interest and penalties relating to unrecognized tax benefits that are recorded as noncurrent liabilities within our consolidated balance sheet as of June 30, 2012.

Inflation

We do not believe that inflation has had a material effect on the results of operations in the recent past. However, we cannot assure that our business will not be affected by inflation in the future. For example, cotton prices have risen substantially since the beginning of fiscal 2011. Should this rise continue in fiscal 2013, there will be pressure on our average unit costs and our gross margins will continue to be impacted.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to market risks, which include changes in U.S. interest rates and, to a lesser extent, foreign exchange rates. We do not engage in financial transactions for trading or speculative purposes.

Interest Rate Risk

We currently maintain a portfolio of variable interest rate investments consisting of cash equivalents, short-term marketable securities and long-term investments consisting of ARS. According to our investment policy, we may invest in taxable and tax-exempt instruments. In addition, the policy establishes limits on credit quality, maturity, issuer and type of instrument. Marketable securities are classified as trading or available for sale. We do not use derivative financial instruments in our investment portfolio.

All highly liquid investments with a maturity of three months or less at the date of purchase are considered to be cash equivalents. Investments are considered short-term available for sale securities if the original maturity is between three months and twelve months, or long-term investments if the original maturity is greater than twelve months. Historically the fair value of ARS investments had approximated par value due to the frequent resets through the auction process. While we continue to earn interest on our ARS investments at the maximum contractual rate, these investments are not currently trading and therefore do not currently have a readily determinable market value. Accordingly, the estimated fair value of ARS no longer approximates par value. We determined the estimated fair value of our investment in ARS as of June 30, 2012 using a discounted cash flow

Table of Contents

model to estimate the fair value of our investments in ARS. The assumptions used in preparing the discounted cash flow model include estimates for interest rates, timing and amount of cash flows and expected holding periods of the ARS. We have modified our investment strategy and increased our investments in more liquid money market investments.

The following table lists our cash equivalents, short-term marketable securities and long-term marketable securities at June 30, 2012:

	Fair Value (Dollars in thousands)
Cash equivalents	\$ 46,388
Weighted average interest rate	0.10%
Short-term available for sale securities	\$ 76,428
Weighted average interest rate	0.54%
Long-term available for sale securities	\$ 60,002
Weighted average interest rate	0.38%
Total	\$ 182,818

The interest payable on our bank line of credit is based on variable interest rates and therefore affected by changes in market interest rates. If interest rates rose significantly, our results from operations and cash flows would not be materially affected since we have no outstanding borrowings.

Foreign Currency Risks

We enter into a significant amount of purchase obligations outside of the United States, substantially all of which are negotiated and settled in U.S. Dollars. Fluctuations in exchange rates can impact our financial condition and results of operations. We also operate a subsidiary for which the functional currency is the Canadian dollar. Assets and liabilities of Canada's operations are translated into U.S. dollars at year-end rates, while income and expenses are translated at the weighted average exchange rates for the year. The related translation adjustments are recorded in accumulated other comprehensive income as a separate component of shareholders' equity. Intercompany settlements are recorded in other income/expense at the weighted average exchange rate for the year. We do not hedge against foreign currency risks and believe that foreign currency exchange risk is immaterial.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

Information with respect to this item is set forth in Item 15 of this Form 10-K.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES*Evaluation of Disclosure Controls and Procedures*

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we evaluated the effectiveness of our disclosure controls and procedures, as such term is defined in Rules 13a-15(e) and 15d-15(e) promulgated under the Securities Exchange Act of 1934, as amended (the Exchange Act) as of the end of the period covered by this report (June 30, 2012). Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that as of the evaluation date, our disclosure controls and procedures are effective at a reasonable level of assurance to ensure that the information

Table of Contents

required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission rules and forms and accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely discussions regarding required disclosure.

Internal Control over Financial Reporting

Management's report on our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) in the Exchange Act), and the related report of our independent registered public accounting firm, are included on pages F-2 and F-3 of this Annual Report on Form 10-K, under the headings, "Management's Annual Report on Internal Control Over Financial Reporting" and "Report of Independent Registered Public Accounting Firm," and are incorporated herein by reference.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Exchange Act Rules 13a-15 or 15d-15 that occurred during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

ITEM 9B. OTHER INFORMATION

None.

MANAGEMENT'S ANNUAL REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

The management of bebe stores, inc. is responsible for establishing and maintaining adequate internal control over financial reporting for the Company. With the participation of the Chief Executive Officer and the Chief Financial Officer, our management conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework and criteria established in *Internal Control - Integrated Framework*, issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this evaluation, our management has concluded that our internal control over financial reporting was effective as of June 30, 2012.

bebe stores, inc.'s independent auditor, Deloitte & Touche LLP, an independent registered public accounting firm, has issued an audit report on our internal control over financial reporting. This audit report appears on page F-3 of this annual report on Form 10-K.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of

bebe stores, inc.:

We have audited the accompanying consolidated balance sheets of bebe stores, inc and subsidiaries (the Company) as of June 30, 2012 and July 2, 2011, and the related consolidated statements of operations, shareholders' equity, and cash flows for each of the three years in the period ended June 30, 2012. We also have audited the Company's internal control over financial reporting as of June 30, 2012, based on criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Company's management is responsible for these consolidated financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Annual Report on Internal Control over Financial Reporting . Our responsibility is to express an opinion on these consolidated financial statements and an opinion on the Company's internal control over financial reporting based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and effected by the company's board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of bebe stores, inc and subsidiaries as of June 30, 2012 and July 2, 2011, and the results of their operations and their cash flows for each of the three years in the period ended June 30, 2012, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of June 30, 2012, based on the criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

Nature of the business bebe stores, inc. (the Company) designs, develops and produces a distinctive line of contemporary women's apparel and accessories, which it markets under the bebe, BEBE SPORT, bbsp and 2b bebe brand names. As of June 30, 2012, the Company operates 252 specialty retail stores located in 36 states, the District of Columbia, Puerto Rico, the U.S. Virgin Islands, Japan and Canada. In addition, the Company has 114 international stores operated by licensees and on-line stores at www.bebe.com and www.2bstores.com.

The Company has one reportable segment and has three brands with product lines of a similar nature. Revenues of the Company's international wholesale licensee retail operations represented approximately eight percent of total revenues for fiscal year 2012 compared to approximately six percent in fiscal 2011 and approximately five percent in fiscal 2010.

Basis of financial statement presentation The accounting and reporting policies of the Company conform to accounting principles generally accepted in the United States of America (GAAP).

Consolidation The consolidated financial statements include the accounts of the Company and its subsidiaries. All intercompany transactions and balances have been eliminated.

Fiscal year The Company's fiscal year ends on the first Saturday on or after June 30. Fiscal years 2012, 2011 and 2010 each have 52 weeks.

Use of estimates The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Foreign currency adjustments The Company enters into a significant amount of purchase obligations outside of the United States, substantially all of which are negotiated and settled in U.S. dollars. The Company also operates a subsidiary for which the functional currency is the Canadian dollar as well as a subsidiary for which the functional currency is the Japanese yen. Assets and liabilities of bebe's foreign operations are translated into U.S. dollars at year-end rates, while income and expenses are translated at the weighted average exchange rates for the year. The related translation adjustments are recorded in accumulated other comprehensive income as a separate component of shareholders' equity. Intercompany settlements are recorded in interest and other income, net at the weighted average exchange rate for the year.

Cash and equivalents represent cash and short-term, highly liquid investments with original maturities of less than three months. The Company also classifies amounts in transit from banks for customer credit card and debit card transactions as cash and equivalents as the banks process the majority of these amounts within one or two business days.

Investments The Company holds treasury bills, certificates of deposit and a variety of interest bearing auction rate securities (ARS) consisting of federally insured student loan backed securities and insured municipal authority bonds. The Company designates its investments as available for sale securities which are reported at fair value, with unrealized gains and losses recorded in accumulated other comprehensive income. As of June 30, 2012, the Company's ARS portfolio totaled approximately \$60.0 million, net of impairment, and is classified as available for sale securities. (See note 3 for further discussion of the Company's investments.)

Fair value of financial instruments The carrying values of cash and equivalents, marketable securities, receivables and accounts payable approximate their estimated fair values.

Table of Contents**bebe stores, inc.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****1. Summary of Significant Accounting Policies (Continued)**

Concentration of credit risk Financial instruments, which subject the Company to concentration of credit risk, consist principally of cash and equivalents and marketable securities. The Company invests its cash through financial institutions. Such investments may be in excess of FDIC insurance limits. The Company has not experienced any losses on its deposits of cash and equivalents for the periods presented.

Inventories are stated at the lower of weighted average cost or market. Cost includes certain indirect purchasing, merchandise handling and storage costs. In addition, the Company estimates and accrues shortage for the period between the last physical count and the balance sheet date.

Allowance for doubtful accounts The changes in the allowance for doubtful accounts are summarized below (in thousands):

	Fiscal Year Ended		
	June 30, 2012	July 2, 2011	July 3, 2010
Balance at beginning of year	\$ 1,247	\$ 1,231	\$ 1,277
Charged to cost and expense	41	84	143
Write offs	(33)	(68)	(189)
Balance at end of year	\$ 1,255	\$ 1,247	\$ 1,231

Property and equipment, net are stated at cost. Depreciation and amortization on property and equipment is computed using the straight-line method over the following estimated useful lives.

Description	Term
Buildings	39.5 years
Leasehold improvements	10 years or term of lease, whichever is shorter
Furniture, fixtures, equipment and vehicles	5
Computer hardware and software	3

Impairment of long-lived assets The Company regularly reviews the carrying value of its long-lived assets. Long-lived assets are reviewed whenever events or changes in circumstances indicate that the carrying amount of its assets might not be recoverable. Assets are grouped and evaluated for impairment at the lowest level of which there are identifiable cash flows, which is generally at a store level. Store assets are reviewed for impairment using factors including, but not limited to, the Company's future operating plans and projected cash flows. The determination of whether impairment has occurred is based on an estimate of undiscounted future cash flows directly related to that store, compared to the carrying value of the assets. The Company recognizes full or partial impairment if the sum of the undiscounted future cash flows of a store does not exceed the carrying value of the assets. For impaired assets, the Company recognizes a loss equal to the difference between the net book value of the asset and its estimated fair value. Fair value is based on discounted future cash flows of the asset using a discount rate commensurate with the risk. In addition, at the time a decision is made to close a store, the Company records an impairment charge, if appropriate, or accelerates depreciation over the revised useful life of the asset.

Lease accounting The Company leases retail stores and office space under operating leases. Costs associated with negotiating new store leases are capitalized in other assets and amortized over the lease term.

Table of Contents**bebe stores, inc.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****1. Summary of Significant Accounting Policies (Continued)**

Many of the Company's operating leases contain predetermined fixed increases of the minimum rental rate during the initial lease term. For these leases, the Company recognizes the related rental expense on a straight-line basis over the lease term, commencing when possession of the property is taken from the landlord, which normally includes a construction period prior to the store opening. The Company records the difference between the recognized rent expense and the amounts paid as deferred rent.

The Company receives construction allowances from landlords, which are deferred and amortized on a straight-line basis over the lease term, including the construction period, as a reduction of rent expense. Construction allowances are recorded under deferred rent and other lease incentives on the balance sheet.

Revenue recognition The Company recognizes revenue at the time the products are received by the customer. Revenue is recognized for store sales at the point at which the customer receives and pays for the merchandise at the register. For on-line sales, revenue is recognized at the time the customer receives the product. The Company estimates and defers revenue and the related product costs for shipments that are in transit to the customer. Customers typically receive goods within a few days of shipment. Amounts related to shipping billed to customers are reflected in net sales and the related costs are reflected in cost of goods sold. Sales tax collected from customers on retail sales are recorded net of retail sales at the time of the transaction.

The Company records a reserve for estimated product returns based on estimated margin using historical return trends. If actual returns are greater than those projected, additional sales returns may be recorded in the future. The changes in the returns reserve are summarized below (in thousands):

	Fiscal Year Ended		
	June 30, 2012	July 2, 2011	July 3, 2010
Balance at beginning of year	\$ 933	\$ 821	\$ 481
Charged to cost and expense	16,545	15,208	14,655
Returns	(16,661)	(15,096)	(14,315)
Balance at end of year	\$ 817	\$ 933	\$ 821

Discounts offered to customers consist primarily of point of sale markdowns and are recorded at the time of the related sale as a reduction of revenue.

The value of points and rewards earned by our loyalty program members are recorded as a liability and a reduction of revenue at the time the points and rewards are earned based on historical conversion and redemption rates. The associated revenue is recognized when the rewards are redeemed or expire.

Gift certificates sold are recorded as a liability and revenue is recognized when the gift certificate is redeemed. Similarly, customers may receive a store credit in exchange for returned goods. Store credits are recorded as a liability until redeemed. Unredeemed store credits and gift certificates are recognized as other income within selling, general and administrative expenses three and four years, respectively, after issuance. In addition, the Company sells gift cards with no expiration dates to customers in its retail store locations, through its online stores, and through third parties. Income from gift cards is recognized when they are redeemed by the customer. In addition, the Company recognizes income on unredeemed gift cards when it can determine that the likelihood of the gift card being redeemed is remote and there is no legal obligation to remit the unredeemed gift cards to relevant jurisdictions (gift card breakage). The Company determines the gift card breakage income based

Table of Contents

bebe stores, inc.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

1. Summary of Significant Accounting Policies (Continued)

on historical redemption patterns. The Company accumulated sufficient historical data to determine elapsed time for recording breakage income during the second quarter of fiscal 2010, which the Company estimates is four years. As a result, the Company recognized \$1.1 million in income related to the initial recognition of gift card breakage income in fiscal 2010. Gift card breakage is included as other income within selling, general and administrative expenses.

Royalty revenue from product licensees is recorded as the greater of the minimum amount guaranteed in the contract or units sold.

Wholesale revenue from the sale of product to international licensee operated bebe stores is recognized at the time the licensee receives the shipment.

Store preopening costs associated with the opening or remodeling of stores, such as preopening rent and payroll, are expensed as incurred.

Apparel and accessory design activities are expensed as incurred.

Advertising costs are charged to expense when the advertising takes place. Advertising costs were \$23.5 million, \$22.9 million and \$23.3 million, respectively, during fiscal 2012, 2011 and 2010.

Income taxes are accounted for using an asset and liability approach that requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been recognized in the Company's financial statements or tax returns. The Company is subject to periodic audits by the Internal Revenue Service and other foreign, state and local taxing authorities. These audits may challenge certain of the Company's tax positions such as the timing and amount of income and deductions and the allocation of taxable income to various tax jurisdictions. The Company evaluates its tax positions and establishes liabilities in accordance with applicable accounting guidance on uncertainty in income taxes. In estimating future tax consequences, all expected future events then known to management are considered other than changes in the tax law or rates.

Additional income tax information has been included in note 10 of the notes to the financial statements.

Self-insurance The Company uses a combination of insurance and self-insurance for employee related health care benefits and workers compensation. The Company records self-insurance liabilities based on claims filed and an estimate of those claims incurred but not reported.

Stock-based compensation Stock-based compensation cost is measured at the grant date based on the fair value of the award and is recognized as expense on a straight-line basis over the requisite service period, which is the vesting period. The Company uses the Black-Scholes option pricing model to determine the fair value of stock options, restricted stock units and employee stock purchase plan shares. The determination of the fair value of stock-based payment awards on the date of grant using an option-pricing model is affected by the Company's stock price as well as assumptions regarding a number of complex and subjective variables. These variables include the Company's expected stock price volatility over the expected term of the awards, actual and projected employee exercise behaviors, risk-free interest rate and expected dividends. As the stock-based compensation expense recognized on the consolidated statements of operations for fiscal 2012, 2011 and 2010 is based on awards ultimately expected to vest, such amounts have been reduced for estimated forfeitures. Forfeitures are estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates. Forfeitures were estimated based on the Company's historical experience.

Table of Contents**bebe stores, inc.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****1. Summary of Significant Accounting Policies (Continued)**

Earnings per share Basic earnings per share (EPS) is computed as net earnings divided by the weighted average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur from common shares issuable through the exercise of outstanding dilutive stock options.

The following is a reconciliation of the number of shares used in the basic and diluted earnings per share computations:

	Fiscal Year Ended		
	June 30, 2012	July 2, 2011	July 3, 2010
	(in thousands)		
Basic weighted average number of shares outstanding	84,235	84,225	86,408
Incremental shares from assumed issuance of stock options	167	97	142
Diluted weighted average number of shares outstanding	84,402	84,322	86,550

The number of incremental shares from the assumed issuance of stock options is calculated by applying the treasury stock method.

Excluded from the computation of the number of diluted weighted average shares outstanding were anti-dilutive options to purchase 3.8 million, 4.2 million and 4.5 million shares for the fiscal years ended June 30, 2012, July 2, 2011 and July 3, 2010, respectively.

Comprehensive income consists of net income and other comprehensive income (income, expenses, gains and losses that bypass the income statement and are reported directly as a separate component of equity). The Company's comprehensive income equals net income (loss), unrealized gains (losses) on investments and foreign currency translation adjustments for all periods presented. Such components of comprehensive income are shown in the consolidated statements of shareholders' equity.

Recent Accounting Pronouncements*Fair Value*

In May 2011, the Financial Accounting Standards Board, (FASB), issued guidance to amend the accounting and disclosure requirements on fair value measurements. The new guidance limits the highest-and-best-use measure to nonfinancial assets, permits certain financial assets and liabilities with offsetting positions in market or counterparty credit risks to be measured on a net basis and provides guidance on the applicability of premiums and discounts. Additionally, the new guidance expands the disclosures on Level 3 inputs by requiring quantitative disclosure of the unobservable inputs and assumptions, as well as description of the valuation processes and the sensitivity of the fair value to changes in unobservable inputs. The new guidance will be effective for the Company beginning fiscal 2013, which is July 1, 2012. The Company does not anticipate a material impact on its financial statements upon adoption.

Other Comprehensive Income

In June 2011, the FASB issued ASU 2011-05, which requires that all non-owner changes in stockholders' equity be presented either in a single continuous statement of comprehensive income or in two separate but consecutive statements. In the two-statement approach, the first statement should present total net income and its components followed consecutively by a second statement that should present total other comprehensive income,

Table of Contents**bebe stores, inc.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****1. Summary of Significant Accounting Policies (Continued)**

the components of other comprehensive income and the total of comprehensive income. The new guidance eliminates the current option to report other comprehensive income and its components in the consolidated statements of shareholders' equity. For public entities, the amendments in ASU 2011-05 are effective for fiscal years, and interim periods within those years, beginning after December 15, 2011, and are to be applied retrospectively, with early adoption permitted. The Company will adopt ASU 2011-05 in our first quarter of fiscal 2013 ending September 29, 2012.

2. Discontinued Operation of PH8 Stores

In the fourth quarter of fiscal 2010, the Company decided to discontinue operations of the PH8 division, allowing the Company to focus its efforts on improving bebe sales and profitability, expanding internationally and continuing to develop its 2b bebe business. The Company closed 24 PH8 stores in the first fiscal quarter of 2011 and during the second fiscal quarter of 2011, closed the remaining 25 PH8 stores, converting one store to a 2b bebe. The results of the PH8 stores closed to date, net of income tax benefit, which consists of 49 and 62 stores for the fiscal years ended July 2, 2011 and July 3, 2010, respectively, have been presented as a discontinued operation in the accompanying consolidated statements of operations for all periods presented and are as follows:

	June 30, 2012	Fiscal Year Ended July 2, 2011 (In thousands)	July 3, 2010
Net sales	\$	\$ 7,850	\$ 29,056
Cost of sales, including production and occupancy		13,368	25,046
Gross margin		(5,518)	4,010
Selling, general and administrative expenses		4,116	25,796
Loss from discontinued operations, before income tax benefit		(9,634)	(21,786)
Tax benefit		(3,799)	(8,585)
Loss from discontinued operations, net of tax benefit	\$	\$ (5,835)	\$ (13,201)

Costs associated with exit or disposal activities are recorded when the liability is incurred. As of June 30, 2012, the Company does not anticipate further costs associated with discontinued operations.

3. Investments

The Company's investment portfolio consists of treasury bills, certificates of deposit and auction rate securities. The Company holds short term available for sale securities totaling \$76.4 million as of June 30, 2012, that consisted of \$50.0 million in treasury bills and \$26.4 million in certificates of deposit at cost which approximates fair value.

The Company also holds a variety of interest bearing auction rate securities (ARS) consisting of federally insured student loan backed securities and insured municipal authority bonds. As of June 30, 2012, the Company's ARS portfolio totaled approximately \$60.0 million classified as available for sale securities, net of a temporary impairment charge of \$7.9 million. As of that date, the Company's ARS portfolio includes approximately 94% federally insured student loan backed securities and 6% municipal authority bonds. The Company's ARS portfolio consists of approximately 27% AAA rated investments, 23% AA rated investments, 28% A rated investments, 12% BBB rated investments and 10% CCC rated investments. This is a change from

Table of Contents**bebe stores, inc.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****3. Investments (Continued)**

the Company's fiscal 2011 portfolio, which consisted of 42% AAA rated investments, 7% AA rated investments, 35% A rated investments, 7% BBB rated investments and 9% CCC rated investments. These ARS investments are intended to provide liquidity via an auction process that resets the applicable interest rate at predetermined calendar intervals, allowing investors to either roll over their holdings or gain immediate liquidity by selling such interests at par. The uncertainties in the credit markets that began in February 2008 have affected the Company's holdings in ARS investments and auctions for the Company's investments in these securities have failed to settle on their respective settlement dates. Historically the fair value of ARS investments had approximated par value due to the frequent resets through the auction process. While the Company continues to earn interest on its ARS investments at the maximum contractual rate, these investments are not currently trading and therefore do not currently have a readily determinable market value. Accordingly, the estimated fair value of ARS no longer approximates par value. Consequently, the investments are not currently liquid, and the Company will not be able to access these funds until a future auction of these investments is successful, the issuer redeems the securities, or at maturity. Maturity dates for these ARS investments range from 2016 to 2044 with principal distributions occurring on certain securities prior to maturity.

The Company reviews its impairments in accordance with guidance issued by the FASB and SEC in order to determine the classification of the impairment as temporary or other-than-temporary. A temporary impairment charge results in an unrealized loss being recorded in the other comprehensive income component of shareholders' equity. Such an unrealized loss does not affect net income for the applicable accounting period. An other-than-temporary impairment charge is recorded as a loss in the statement of operations and reduces net income for the applicable accounting period. When evaluating the investments for other-than-temporary impairment, the Company estimates the expected cash flows of the underlying collateral by reviewing factors such as the length of time and extent to which fair value has been below cost basis, the financial condition of the issuer and any changes thereto, and the Company's intent to sell, or whether it is more likely than not it will be required to sell, the investment before recovery of the investment's amortized cost basis. The Company has not recorded any impairment loss from its available for sale investments as other-than-temporary based on such analysis.

The valuation of the Company's investment portfolio is subject to uncertainties that are difficult to predict. Factors that may impact its valuation include changes to credit ratings of the securities as well as to the underlying assets supporting those securities, rates of default of the underlying assets, underlying collateral value, discount rates and ongoing strength and quality of market credit and liquidity.

The following is a summary of the Company's available for sale securities:

	Cost	Fiscal Year Ended June 30, 2012		Estimated Fair Value
		Unrealized Losses Less Than 12 Months	Unrealized Losses 12 Months or Greater	
		(in thousands)		
Short term treasury bills	\$ 49,960	\$	\$	\$ 49,960
Short term certificates of deposit	26,468			26,468
	76,428			76,428
Long term auction rate securities	\$ 67,900	\$	\$ 7,898	\$ 60,002

Table of Contents**bebe stores, inc.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****3. Investments (Continued)**

	Cost	Fiscal Year Ended July 2, 2011 Unrealized Losses Less Than 12 Months (in thousands)		Unrealized Losses 12 Months or Greater	Estimated Fair Value
Short term treasury bills	\$ 81,929	\$		\$	\$ 81,929
Short term certificates of deposit	14,442				14,442
	96,371				96,371
Long term auction rate securities	\$ 75,000	\$	\$ 10,036		\$ 64,964

4. Fair Value Measurements

The FASB has established a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include: Level 1, defined as observable inputs such as quoted prices in active markets; Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

As of June 30, 2012, the Company held financial instruments that are measured at fair value on a recurring basis. These included cash equivalents and available for sale securities. Cash equivalents consist of money market funds. Short term available for sale securities consist of government treasury bills and certificates of deposit. Long term available for sale securities consist of auction rate securities (ARS). These securities consist of federally insured student loan backed securities and insured municipal authority bonds.

The Company determined the estimated fair value of its investment in ARS as of June 30, 2012 using a discounted cash flow model. The assumptions used in preparing the discounted cash flow model include estimates for liquidity, interest rates, timing, credit ratings, credit wrap and amount of cash flows and expected holding periods of the ARS.

The following items are measured at fair value on a recurring basis at June 30, 2012:

Description	June 30, 2012	Using Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Fair value measurements at reporting date				
(In thousands)				
Cash equivalents	\$ 46,388	\$ 46,388	\$	\$
Current available for sale securities	76,428	49,960	26,468	
Non-current available for sale securities	60,002			60,002
Total	\$ 182,818	\$ 96,348	\$ 26,468	\$ 60,002

Table of Contents**bebe stores, inc.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****4. Fair Value Measurements (Continued)**

The following items are measured at fair value on a recurring basis at July 2, 2011:

Description	July 2, 2011	Using Quoted Prices in Active Markets for Identical Assets (Level 1) Fair value measurements at reporting date	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
		(In thousands)		
Cash equivalents	\$ 55,102	\$ 55,102	\$	\$
Current available for sale securities	96,371	96,371		
Non-current available for sale securities	64,964			64,964
Total	\$ 216,437	\$ 151,473	\$	\$ 64,964

Beginning in the quarter ended March 31, 2012, certificates of deposit previously classified as Level 1 are now classified as Level 2. During the fiscal year ended June 30, 2012, there were no transfers of assets and liabilities between Level 1 (quoted prices in active markets for identical assets) and Level 2 (significant other observable inputs) of the fair value measurement hierarchy. An impairment charge has been recorded that reduces the carrying amount of the non-current available for sale securities of \$67.9 million to their estimated fair value of \$60.0 million as of June 30, 2012. The following table presents the Company's activity for assets measured at fair value on a recurring basis using significant unobservable inputs (Level 3) for the fiscal year ended June 30, 2012:

	(In thousands)
Balance at July 2, 2011	\$ 64,964
Total gains or (losses) (realized or unrealized)	
Included in earnings	
Included in other comprehensive income	2,138
Settlements	(7,100)
Balance at June 30, 2012	\$ 60,002

Non-financial Assets

As discussed in Note 1 of Notes to Consolidated Financial Statements, the Company measures certain non-financial assets and liabilities, including long-lived assets, at fair value on a non-recurring basis. The Company recorded charges for the impairment of long lived assets of \$0.5 million, \$1.5 million and \$1.3 million for fiscal 2012, 2011 and 2010, respectively, which were recorded in selling, general and administrative expenses in the statement of operations. The fair market value of these assets was determined using the income approach and Level 3 inputs, which required management to make significant estimates about future operating plans and projected cash flows. Management estimates the amount and timing of future cash flows based on its experience and knowledge of the retail market in which each store operates. The Company was not required to measure any other significant non-financial assets and liabilities at fair value.

Edgar Filing: bebe stores, inc. - Form 10-K

The Company also recorded a charge for the impairment of long lived assets of \$6.7 million in fiscal 2010 that has been recorded in discontinued operations on the statement of operations. The fair value of the long lived assets was determined using Level 3 inputs and the valuation techniques discussed in Note 1 of the Notes to the Consolidated Financial Statements.

F-16

Table of Contents**bebe stores, inc.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****5. Inventories**

The Company's inventories consist of:

	As of	
	June 30, 2012	July 2, 2011
	(In thousands)	
Raw materials	\$ 1,193	\$ 1,622
Merchandise available for sale	32,099	31,826
Inventories, net	\$ 33,292	\$ 33,448

6. Credit Facilities

The Company has an unsecured commercial line of credit agreement which provides for borrowings and issuance of letters of credit of up to a combined total of \$25.0 million and expires on May 15, 2015. The outstanding balance bears interest at either the bank's reference rate (which was 3.25% as of both June 30, 2012 and July 2, 2011) or the LIBOR rate (which was 0.24% and 0.19% at June 30, 2012 and July 2, 2011, respectively) plus 1.75 percentage points. As of June 30, 2012 and July 2, 2011, there were no outstanding cash borrowings, and there was none and \$0.2 million, respectively, of trade letters of credit outstanding as well as \$3.0 million and \$3.0 million of an outstanding stand-by letter of credit. To date, no beneficiary has drawn upon the stand-by letter of credit.

These credit facilities require the Company to comply with certain financial covenants, including amounts for minimum tangible net worth, unencumbered liquid assets and profitability, and certain restrictions on making loans and investments. As of June 30, 2012 the Company was in compliance with all financial covenants.

7. Lease Obligations

The Company leases its retail store locations, corporate headquarters and, for a significant portion of fiscal 2012, its distribution center and accounts for these leases as operating leases. The Company recognizes rent expense on a straight-line basis over the term of the lease, taking into account, when applicable, lessor incentives for tenant improvements, periods where no rent payment is required and escalations in rent payments over the term of the lease. Deferred rent is recognized for the difference between the rent expense recognized on a straight-line basis and the payments made per the terms of the lease. Store leases typically provide for payment by the Company of certain operating expenses, real estate taxes and additional rent based on a percentage of net sales if a specified net sales target is exceeded. In addition, certain leases have escalation clauses and provide for terms of renewal and/or early termination based on the net sales volumes achieved.

Rent expense under operating leases for the fiscal years ended June 30, 2012, July 2, 2011 and July 3, 2010 was \$89.2 million, \$88.4 million and \$86.8 million, respectively. Rent expense included other lease-required expenses for fiscal years 2012, 2011 and 2010 of \$29.0 million, \$28.3 million and \$30.5 million, respectively.

Table of Contents**bebe stores, inc.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****7. Lease Obligations (Continued)**

Future minimum lease payments at June 30, 2012 are as follows:

	Operating Leases (Dollars in thousands)	
Fiscal year		
2013	\$	62,318
2014		58,936
2015		54,952
2016		52,082
2017		45,354
Thereafter		123,026
Total minimum lease payments	\$	396,668

8. Accrued Liabilities

Accrued liabilities consist of the following (in thousands):

	As of	
	June 30, 2012	July 2, 2011
Gift certificates, gift cards and store credits	\$ 5,638	\$ 6,159
Employee compensation	10,251	5,400
Sales/use tax payable	3,324	3,791
Deferred revenue	3,547	4,133
Capital expenditures	3,532	2,196
Other	5,376	5,295
Total	\$ 31,668	\$ 26,974

9. Intangible Asset

During the third quarter of fiscal 2011, the Company acquired the registered trademark in the People's Republic of China for the bebe mark (the Mark). The Company has recognized the full \$0.9 million purchase price of the Mark as an indefinite-lived intangible asset on the consolidated balance sheet as of June 30, 2012. The Mark is subject to annual impairment testing, unless there is an indicator of impairment, which would require an interim impairment review.

Table of Contents**bebe stores, inc.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****10. Income Taxes**

Significant components of the provision for income taxes expense (benefit) from continuing operations are as follows:

	June 30, 2012	Fiscal Year Ended July 2, 2011 (in thousands)	July 3, 2010

Prepaid expenses	(938)	(888)
Tax credit and net operating loss carryovers	540	
Other		1
Total current	5,099	5,475
Valuation allowance	(490)	(545)
Non-Current:		
Basis difference in fixed assets	11,821	15,150
Deferred rent	7,889	8,127
Stock based compensation	5,610	6,479
Foreign tax credit	1,653	1,269
Tax credit and net operating loss carryovers	788	1,712
Construction allowance	(4,919)	(5,169)
Unrealized loss	2,936	3,724
Indirect benefit from uncertain tax positions	1,591	1,402
Other		4
Total non-current	27,369	32,698
Valuation allowance	(2,694)	(3,258)
Deferred tax assets, net	\$ 29,284	\$ 34,370

As of June 30, 2012, the Company has federal, state and foreign net operating loss carryovers of approximately \$1.5 million, \$2.6 million and \$1.6 million, respectively. If not used, these carry forwards will expire at various dates from fiscal year 2017 to fiscal year 2031. The Company also has foreign tax credit and state tax credit carry forwards of approximately \$1.7 million and \$0.1 million, respectively, which will be available to offset future taxable income. If not used, the foreign tax credit carry forwards will expire at various dates from 2016 to 2022 and the state tax credit does not expire. As of June 30, 2012, the Company maintains a valuation allowance of approximately \$3.2 million for the deferred tax asset related to the temporary impairment recorded in other comprehensive income on the Company's auction rate securities since it

is unlikely that this deferred tax asset will be realized.

F-20

Table of Contents**bebe stores, inc.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****10. Income Taxes (Continued)**

The Company accounts for interest and penalties related to unrecognized tax benefits as a component of income tax expense. During the fiscal years ended June 30, 2012, July 2, 2011 and July 3, 2010, the Company recognized approximately \$0.2 million, \$0.1 million, and \$0.1 million in interest and penalties, respectively. The Company had approximately \$0.5 million and \$0.4 million for the accrual of interest and penalties at June 30, 2012 and July 2, 2011, respectively.

The Company could be subject to federal income tax examinations for fiscal years 2009 and forward and could be subject to state examinations for fiscal years 2008 and forward. The Company is currently under examination in Canada for fiscal years 2007 and 2008 and under state income tax audit in certain states and expects the commencement of these tax audits in the near term. At this time, the Company does not believe that the outcome of any examination will have a material impact on the Company's results of operations or financial position.

As of June 30, 2012, the Company has \$1.8 million in unrecognized tax benefits. A reconciliation of the beginning and ending amount of unrecognized tax benefits follows:

	June 30, 2012	July 2, 2011	July 3, 2010
	(in thousands)		
Balance as of beginning of period	\$ 1,668	\$ 2,736	\$ 3,111
Additions for tax positions taken during the current year	67	63	3
Additions for tax positions taken during prior years	332		26
Reductions for tax positions taken during prior years			(11)
Settlements	(38)	(608)	
Expirations of statutes of limitations	(273)	(523)	(393)
Balance as of end of period	\$ 1,756	\$ 1,668	\$ 2,736

Of the \$1.8 million recorded at June 30, 2012, \$0.3 million of unrecognized tax benefits would affect the effective tax rate if recognized. While the Company expects the amount of unrecognized tax benefits to change in the next twelve months, the change is not expected to have a significant effect on the estimated effective annual tax rate, the results of operations or financial position.

11. Property and Equipment

Property and equipment consist of the following:

	As of	
	June 30, 2012	July 2, 2011
	(in thousands)	
Leasehold improvements	\$ 138,083	\$ 131,845

Land and buildings	29,457	12,646

Edgar Filing: bebe stores, inc. - Form 10-K

Construction in progress	15,738	10,881
Total	279,355	242,599
Less: Accumulated depreciation	(164,648)	(150,099)
Property and equipment, net	\$ 114,707	\$ 92,500

F-21

Table of Contents**bebe stores, inc.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****11. Property and Equipment (Continued)**

Construction in progress consists primarily of construction costs related to facilities that will open subsequent to year end and information technology projects.

In the fourth quarter of fiscal 2012, the Company purchased its existing distribution facility in Benicia, California for \$18 million.

12. Employee Benefit Plan

Employees are eligible to participate in the Company's 401(k) plan if they have been employed by the Company for six months, have reached age 21 and work at least 1,000 hours annually. Generally, employees can defer up to 75% of their gross wages up to the maximum limit allowable under the Internal Revenue Code. The Company can make a discretionary matching contribution for the employee. Company contributions to the plan for the fiscal years ended June 30, 2012, July 2, 2011 and July 3, 2010 were \$0.5 million, \$0.0 million and \$0.0 million, respectively.

13. Shareholders' Equity**Preferred Stock**

The Company is authorized to issue up to 1,000,000 shares of \$0.001 par value preferred stock and to fix the rights, preferences, privileges and restrictions including voting rights, of these shares without any further vote or approval by the shareholders. No preferred stock has been issued to date.

Common Stock Plans

The 1997 Stock Plan as amended (the "Stock Plan") provides for the grant of incentive stock options, non-qualified stock options, stock purchase rights, stock awards and restricted stock units ("RSU"). Although the Stock Plan allows for stock options and related awards to be granted at prices below fair market value, the Company has historically granted such options at the fair market value of the stock on the date of grant. Stock options and related awards have a maximum term of ten years. Options and restricted stock units granted to employees generally vest over four years with 20% of the award vested in each of the first and second years and 30% vested in each of the remaining two years. Options granted to directors generally vest over four years with 20% of the award vested in each of the first and second years and 30% vested in each of the remaining two years. RSUs awarded to directors generally vest over a period of one year from the date of grant. As of June 30, 2012, the Company has 8,796,632 shares of common stock authorized and unissued under the Stock Plan and there were 3,758,665 shares available for future grant.

The following table summarizes information about stock options outstanding at June 30, 2012:

Exercise Prices	Options Outstanding			Options Vested and Exercisable	
	Number (in thousands)	Weighted Average Remaining Life (in years)	Weighted Average Exercise Price	Number (in thousands)	Weighted Average Exercise Price
\$3.59 to \$6.47	1,031	7.89	\$ 6.13	249	\$ 6.01

Edgar Filing: bebe stores, inc. - Form 10-K

\$6.50 to \$7.37	1,299	7.95	6.99	287	6.79
\$7.39 to \$7.64	1,527	5.17	7.61	1,164	7.63
\$7.71 to \$12.73	992	4.18	9.59	809	9.62
\$13.13 to \$27.69	91	3.59	18.80	91	18.80
	4,940	6.24	\$ 7.74	2,600	\$ 8.39

F-22

Table of Contents**bebe stores, inc.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****13. Shareholders Equity (Continued)**

As of June 30, 2012, July 2, 2011 and July 3, 2010 there were approximately 2,600,000, 2,229,000 and 2,044,000 options exercisable at weighted-average exercise prices per share of \$8.39, \$8.49 and \$8.72, respectively.

The following table summarizes stock option activity:

	Shares Outstanding (Amounts in thousands)	Weighted Average Exercise Price of Share	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value (in thousands)
Outstanding, July 2, 2011	4,330	\$ 7.78		
Granted	1,096	7.34		
Exercised	(208)	5.70		
Cancelled	(278)	8.42		
Outstanding, June 30, 2012	4,940	\$ 7.74	6.24	\$ 40
Exercisable, June 30, 2012	2,600	\$ 8.39	4.28	\$ 32
Options vested and expected to vest end of period	3,947	\$ 7.93	5.61	\$ 35

Intrinsic value for stock options is defined as the difference between the current market value and the grant price. For the fiscal years ended June 30, 2012, July 2, 2011 and July 3, 2010 the total intrinsic value of stock options exercised was \$0.5 million, \$0.1 million and \$0.1 million, respectively. Cash received from stock options exercised during the fiscal years ended June 30, 2012, July 2, 2011 and July 3, 2010 was \$1.2 million, \$0.3 million and \$0.3 million, respectively, and the actual tax benefit realized for tax deductions from stock options exercised totaled \$0.5 million, \$0.1 million and \$0.1 million, respectively.

The following table summarizes RSU activity:

	Shares (in thousands)	Weighted Average Grant Date Fair Value Per Share
Nonvested, July 2, 2011	125	\$ 10.92
Granted	22	7.77
Cancelled		
Vested	(49)	7.67
Nonvested, June 30, 2012	98	\$ 9.50

Stock-based compensation

Edgar Filing: bebe stores, inc. - Form 10-K

For the fiscal years ended June 30, 2012, July 2, 2011 and July 3, 2010, the Company recognized share-based compensation expense of \$2.0 million, \$2.7 million and \$5.5 million, respectively, as a component of selling, general and administrative expenses. As of June 30, 2012, there was \$2.8 million (before any related tax benefit) of total unrecognized compensation cost related to nonvested share-based compensation that is expected to be recognized over a weighted-average period of 3.1 years.

F-23

Table of Contents**bebe stores, inc.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****13. Shareholders Equity (Continued)**

The fair value of each option grant was estimated on the date of the grant using the Black-Scholes valuation model. The expected life of the options represents the period of time the options are expected to be outstanding and is based on historical trends. The expected stock price volatility is based on an average of the historical volatility of the Company's stock for a period approximating the expected life and the implied volatility based on traded options of the Company's stock. The expected dividend yield is based on the Company's historical dividend payout. The risk-free interest rate is based on the U.S. Treasury yield curve in effect at the time of grant and has a term that approximates the expected life.

The following table presents the weighted average assumptions used in the option pricing model for the stock options granted in the fiscal years ended June 30, 2012, July 2, 2011 and July 3, 2010:

	June 30, 2012	July 2, 2011	July 3, 2010
Expected dividend rate	1.43%	1.51%	1.46%
Volatility	50.5%	48.9%	51.7%
Risk-free interest rate	1.0%	1.5%	2.4%
Expected lives (years)	4.3	4.2	4.1
Fair value per option granted	\$ 2.71	\$ 2.27	\$ 2.92

Since fiscal 2006, the Company has licensed software from a third-party provider to automate the administration of its employee equity programs and calculate its stock-based compensation expense. Subsequent to the issuance of the Company's June 2009 annual financial statements the Company was notified of errors in the calculation of stock-based compensation expense for fiscal years 2009, 2008, 2007 and 2006. The errors were identified after the Company's third-party software provider notified its clients that it made a change to how its software program calculates stock based compensation expense. Specifically, the prior version of this software calculated stock-based compensation expense by incorrectly applying a weighted average forfeiture rate to the vested portion of stock option awards until the grant's final vest date, rather than calculating stock-based compensation expense based upon the actual vested portion of the grant date fair value, resulting in an understatement of stock based compensation expense in certain periods prior to the grant's final vest date. Thus, this error affected the timing of stock-based compensation expense recognition.

The Company determined that the cumulative error from the understatement of stock-based compensation expense related to the periods discussed above totaled \$2.5 million, net of tax effects through July 3, 2010. The impact of the errors on fiscal years 2009, 2008, 2007 and 2006, was to increase (decrease) net income by \$0.1 million, \$0.7 million, (\$0.8) million and (\$2.3) million, respectively.

The Company has determined that the impact of this error is not material to the previously issued annual and interim unaudited consolidated financial statements using the guidance of SEC Staff Accounting Bulletin No. 99 and No. 108. Accordingly, the annual consolidated financial statements for the fiscal year ended July 3, 2010 include the cumulative adjustment to increase stock-based compensation expense by \$2.5 million net of tax effect to correct these errors. The Company does not believe the correction of these errors is material to the 2010 annual consolidated financial statements.

During the first quarter of fiscal 2010, the Company filed a Tender Offer Statement on Schedule TO with the SEC pursuant to which the Company extended an offer to employees and non-employee directors to exchange up to an aggregate of 2,058,475 options to purchase shares of our common stock, whether vested or unvested. Options with an exercise price greater than \$10.74 per share and an expiration date after September 29,

Table of Contents**bebe stores, inc.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****13. Shareholders Equity (Continued)**

2009 were eligible to be tendered pursuant to the offer. The closing market price on September 29, 2009 was \$7.64. In accordance with the Tender Offer (the TO), the number of new options issued was based on exchange ratios as set forth in the table below:

Exercise Price Range	Shares Subject to Option Surrendered	Shares Subject to Replacement Option To Be Granted
\$10.75 - \$14.99	1.14	1
\$15.00 - \$19.99	1.84	1
\$20.00 and above	2.06	1

A total of 1,710,735 options were tendered and cancelled, and a total of 1,126,267 replacement options were granted on September 29, 2009 with an exercise price of \$7.64 per share. Replacement options granted in exchange for fully or partially unvested surrendered options at the time they were surrendered for cancellation will vest as follows: (A) vested shares subject to eligible options and unvested shares subject to eligible options scheduled to vest prior to the one-year anniversary of the replacement grant date shall vest on the one-year anniversary of the replacement grant date and (B) unvested shares subject to eligible options scheduled to vest after the one-year anniversary of the replacement grant date shall vest according to the original vest dates of the eligible option. The TO was subject to modification accounting whereby the total compensation cost measured at the date of modification was the incremental cost resulting from the modification. The incremental cost resulting from the modification is measured as the excess of the fair value of the modified award over the fair value of the original award immediately before its terms are modified. The incremental fair value of \$0.3 million for the new awards was computed using an expected life of 4.07 years, a risk-free interest rate of 1.94% and a volatility of 54%. The incremental fair value of the unvested awards is being amortized over the remaining service period.

Stock Purchase Plan

The 1998 Employee Stock Purchase Plan (the Plan) has a total of 2,531,250 shares of common stock reserved for issuance. The Plan is implemented in three-month purchase periods. The price at which stock may be purchased is equal to 95% of the fair market value of the Company's common stock on the Purchase Date. During the fiscal years ended June 30, 2012, July 2, 2011 and July 3, 2010, there were 6,700, 10,500 and 8,800 shares issued, respectively.

14. Litigation

As of the date of this filing, the Company is involved in ongoing legal proceedings as described below.

A former employee sued the Company in a complaint filed July 27, 2006 in the Superior Court of California, San Mateo County (Case No. CIV 456550) alleging a failure to pay all wages, failure to pay overtime wages, failure to pay minimum wages, failure to provide meal periods, violation of Labor Code §450, violation of Labor Code §2802 and California Code of Regulations §11040(9)(A), statutory wage violations (late payment of wages), unlawful business practices under Business and Professions Code §16720 and §17200, conversion of wages and violation of Civil Code §52.1. The plaintiff purports to bring the action also on behalf of current and former California bebe employees who are similarly situated. The lawsuit seeks compensatory, statutory, punitive, restitution and injunctive relief. In September 2011, the Court certified a class of store managers who allege they were required to buy and wear our product as a condition of employment and denied certification relating to claims of missed meal periods and rest breaks. The Court has directed for a trial on only the claim that

Table of Contents**bebe stores, inc.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****14. Litigation (Continued)**

the employees were required to buy and wear our product. Subsequent to the date of the Consolidated Balance Sheets, June 30, 2012, the parties reached a settlement agreement in which neither party makes any admission but all of the plaintiff's claims are to be resolved. At the time of this filing, this agreement is being documented, will be presented to the court and will only be effective if and when approved by the court.

A former employee sued the Company in a complaint filed a second amended complaint on or about September 7, 2010 in the Superior Court of California, Los Angeles County (Case No. BC429140) alleging the Company failed to provide adequate disclosure of its commission policy and wrongfully reduced and delayed commission payments. The plaintiff purports to bring the action also on behalf of current and former California bebe employees who are similarly situated. The lawsuit seeks compensatory, statutory, punitive, restitution and injunctive relief. Due to reassignment of the case to another court, the company's pending summary judgment motion and the trial date have been postponed.

The Company is also involved in various other legal proceedings arising in the normal course of business. For such legal proceedings and including the matters discussed in the paragraphs above, the Company has accrued an amount that reflects the aggregate liability deemed probable and estimable, but this amount is not material, individually or in the aggregate, to have a material adverse effect on its business, financial condition or results of operations. Because of the preliminary nature of many of these proceedings, the difficulty in ascertaining the applicable facts relating to many of these proceedings, the inconsistent treatment of claims made in many of these proceedings and the difficulty of predicting the settlement value of many of these proceedings, the Company is unable to estimate an amount or range of any reasonably possible additional losses. However, based on the Company's historical experience, the resolution of these proceedings is not expected to have a material effect on our business, financial condition or results of operations.

The Company intends to defend itself vigorously against each of these claims. However, the results of any litigation are inherently uncertain. The Company cannot assure you that it will be able to successfully defend itself in these lawsuits. Where required, and/or otherwise appropriate, the Company has recorded an estimate of potential liabilities that it believes is reasonable. Any estimates are revised as further information becomes available.

15. Quarterly Financial Information (Unaudited)

The quarterly financial information presented below reflects all adjustments which, in the opinion of the Company's management, are of a normal and recurring nature necessary to present fairly the results of operations for the periods presented.
