Table of Contents

BARRETT BUSINESS SERVICES, INC.

Notes to Consolidated Financial Statements (Unaudited)

Note 1 Basis of Presentation of Interim Period Statements

The accompanying consolidated financial statements are unaudited and have been prepared by Barrett Business Services, Inc. (Barrett , BBSI , the Company , our or we), pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and note disclosures typically included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such rules and regulations. In the opinion of management, the consolidated financial statements include all adjustments, consisting only of normal recurring adjustments, necessary for a fair statement of the results for the interim periods presented. The preparation of financial statements in conformity with generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from such estimates and assumptions. The consolidated financial statements should be read in conjunction with the audited financial statements and notes thereto included in the Company s 2011 Annual Report on Form 10-K at pages F1 F28. The results of operations for an interim period are not necessarily indicative of the results of operations for a full year.

Revenue recognition

We recognize revenue as services are rendered by our workforce. Staffing services are engaged by customers to meet short-term and long-term personnel needs. Professional employer organization (PEO) services are normally used by organizations to satisfy ongoing human resource management needs and typically involve contracts with a minimum term of one year, which cover all employees at a particular work site. Our PEO contracts are renewable on an annual basis and typically require 30 days written notice to cancel or terminate the contract by either party. Our PEO contracts provide for immediate termination upon any default of the client regardless of when notice is given. We report PEO revenues on a net basis because we are not the primary obligor for the services provided by our PEO clients to their customers pursuant to our PEO contracts. Consequently, our PEO service fee revenues represent the gross margin generated from our PEO services after deducting the amounts invoiced to PEO customers for direct payroll expenses such as salaries and wages and safety incentives. These amounts are also excluded from cost of revenues. PEO service fees also include amounts invoiced to our clients for employer payroll-related taxes and workers compensation coverage.

Marketable securities

As of September 30, 2012, the Company s marketable securities consisted of tax-exempt municipal securities, corporate bonds and U.S. treasuries. The Company classifies municipal securities, U.S. treasuries, and certain of its corporate bonds as available for sale; they are reported at fair value with unrealized gains and losses, net of taxes, shown as a component of accumulated other comprehensive income (loss) in stockholders equity. In the event a loss is determined to be other-than-temporary, the loss will be recognized in the statement of operations. Certain of the Company s corporate bonds are classified as held-to-maturity and are reported at amortized cost.

Table of Contents

BARRETT BUSINESS SERVICES, INC.

Notes to Consolidated Financial Statements (Unaudited) *(Continued)*

Note 1 Basis of Presentation of Interim Period Statements (Continued)

Allowance for doubtful accounts

The Company had an allowance for doubtful accounts of \$363,000 and \$452,000 at September 30, 2012 and December 31, 2011, respectively. The Company must make estimates of the collectibility of accounts receivable. Management analyzes historical bad debts, customer concentrations, customer creditworthiness, current economic conditions and changes in customers' payment trends when evaluating the adequacy of the allowance for doubtful accounts. The Company deems an account balance uncollectible only after it has pursued all available assets of the customer and, where applicable, the assets of the personal guarantor.

Workers' compensation claims

The Company is a self-insured employer with respect to workers' compensation coverage for all of its employees (including employees subject to PEO contracts) working in California, Oregon, Maryland, Delaware and Colorado. In the state of Washington, state law allows only the Company's staffing services and internal management employees to be covered under the Company's self-insured workers' compensation program. Additionally, the Company operates a wholly-owned fully licensed insurance company, Ecole Insurance Company (Ecole), in Arizona to provide workers' compensation coverage to our employees in Arizona.

To manage our financial exposure, in the event of catastrophic injuries or fatalities, the Company maintains excess workers' compensation insurance through our wholly owned captive insurance company, Associated Insurance Company for Excess (AICE), with a per occurrence retention of \$5.0 million, except in Maryland and Colorado, where our per occurrence retention is \$1.0 million and \$500,000, respectively. AICE maintains excess workers' compensation insurance coverage with American Insurance Group, Inc. (AIG), formerly known as Chartis between \$5.0 million and \$15.0 million per occurrence, except in Maryland, where coverage with AIG is between \$1.0 million and \$25.0 million per occurrence, and in Colorado, where the coverage with AIG is between \$500,000 and statutory limits per occurrence. The Company continues to evaluate the financial capacity of our insurers to assess the recoverability of the related insurer receivables.

The Company has provided a total of \$61.6 million and \$51.2 million at September 30, 2012 and December 31, 2011, respectively, as an estimated future liability for unsettled workers' compensation claims liabilities. Included in the foregoing liabilities are insured claims that will be paid by the Company's former excess workers' compensation insurer and for which the Company has reported a receivable from the insurer for the insured claims liability. These insured claims totaled \$858,000 at September 30, 2012 and \$1.9 million at December 31, 2011. The estimated liability for unsettled workers' compensation claims represents management's best estimate based upon an actuarial valuation provided by a third party actuary. Included in the claims liabilities are case reserve estimates for reported losses, plus additional amounts based on projections for incurred but not reported claims and anticipated increases in case reserve estimates. Also included in these estimates are amounts for unallocated loss adjustment expenses, including legal costs. These estimates are continually reviewed and adjustments to liabilities are reflected in current operating results as they become known.

Table of Contents

BARRETT BUSINESS SERVICES, INC.

Notes to Consolidated Financial Statements (Unaudited) *(Continued)*

Note 1 Basis of Presentation of Interim Period Statements (Continued)

Safety incentives liability

Safety incentives represent cash incentives paid to certain PEO client companies for maintaining safe-work practices in order to minimize workplace injuries, thereby meeting agreed-upon loss objectives. The Company has provided \$8.7 million at September 30, 2012 and \$6.3 million at December 31, 2011 as an estimate of the liability for unpaid safety incentives. The incentive is based on a percentage of annual payroll and is paid annually to customers who meet predetermined workers' compensation claims cost objectives. Safety incentive payments are made only after closure of all workers' compensation claims incurred during the customer's contract period. The liability is estimated and accrued each month based upon the incentive earned less the then-current amount of the customer's estimated workers' compensation claims reserves as established by the Company's internal and third-party claims administrators, and the expected payout as determined by historical incentive payment trends. Safety incentive expense is netted against PEO services revenue in our consolidated statements of operations.

Note 2 Stock Repurchase

Effective March 28, 2012, the Company repurchased 2,485,929 shares of the Company's common stock held by the Estate of William W. Sherertz and 500,000 common shares held by Nancy Sherertz. Mr. Sherertz, a founder and former president and CEO of the Company, died January 20, 2011. Nancy Sherertz is also a founder of the Company. The common shares were repurchased at a price of \$20 per share, representing total consideration of \$59.7 million. The Company used a combination of \$24.9 million in cash and issued 34,800 shares of Series A Nonconvertible, Non-Voting Redeemable Preferred Stock with a liquidation preference of \$1,000 per share. Additionally, the Company incurred professional and legal fees totaling \$514,000 related to the transaction.

Effective September 21, 2012, the Company redeemed all of the outstanding shares of its Series A Nonconvertible, Non-Voting Redeemable Preferred Stock for \$34.8 million using a combination of cash on hand and availability under a new revolving credit facility provided by its principal bank. By redeeming the preferred stock within six months of issuance, the Company was not required to pay a semi-annual dividend of approximately \$870,000 due September 28, 2012.

Note 3 Revolving Credit Facility

Effective September 18, 2012, the Company entered into a new credit agreement (the Agreement) with its principal bank, Wells Fargo Bank, National Association (the Bank). The Agreement, which expires October 1, 2017, provides for a revolving credit facility with initial borrowing capacity of up to \$24.0 million. The Company had no outstanding borrowings on the revolving credit facility at September 30, 2012. The Agreement also provides for the continuance of existing standby letters of credit in connection with various surety deposit requirements for workers' compensation purposes, as to which the amount outstanding totaled approximately \$23.8 million at September 30, 2012.

Table of Contents

BARRETT BUSINESS SERVICES, INC.

Notes to Consolidated Financial Statements (Unaudited) *(Continued)*

Note 3 Revolving Credit Facility (Continued)

Advances under the revolving credit facility bear interest, at the Company's option, at either (a) a fixed rate for a term selected by the Company from time-to-time or (b) a fluctuating rate. In each case, the rate is calculated based on LIBOR plus 1.75%. The Agreement also provides for an unused commitment fee of 0.25% per annum on the average daily unused amount of the revolving credit facility.

The credit facility is collateralized by the Company's accounts receivable and other rights to receive payment, general intangibles, inventory and equipment. Under the Agreement, the maximum principal amount available will be reduced by \$2.5 million every six months commencing April 1, 2013.

The Agreement, as amended, requires the satisfaction of certain financial covenants as follows:

Minimum Fixed Charge Coverage ratio of no less than 1.25:1.0, measured quarterly on a rolling four-quarter basis beginning December 31, 2012;

Funded Debt: EBITDA of no more than 2.25:1 through September 30, 2013; 1.75:1 through September 30, 2014; 1.5:1 through September 30, 2015; and 1.25:1 thereafter, measured quarterly on a rolling four-quarter basis beginning December 31, 2012;

Ratio of restricted and unrestricted cash and marketable securities to workers compensation and safety incentive liabilities of at least 1.0:1.0, measured quarterly; and

Prohibition on incurring additional indebtedness without the prior approval of the Bank, other than up to \$200,000 per year in purchase money financing.

The Agreement also contains customary events of default. If an event of default under the Agreement occurs and is continuing, the Bank may declare any outstanding obligations under the Agreement to be immediately due and payable. The Company was in compliance with all applicable financial covenants at September 30, 2012.

Table of Contents

BARRETT BUSINESS SERVICES, INC.

Notes to Consolidated Financial Statements (Unaudited) (Continued)

Note 4 Basic and Diluted Earnings Per Share

Basic earnings per share are computed based on the weighted average number of common shares outstanding during the period. Diluted earnings per common share reflect the potential effects of the exercise of outstanding stock options and vesting of restricted stock units. Basic and diluted common shares outstanding are summarized as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2012	2011	2012	2011
Weighted average number of basic common shares outstanding	7,007,333	10,060,422	7,959,086	10,152,434
Effect of dilutive securities	176,180	39,492	109,601	45,034
Weighted average number of diluted common shares outstanding	7,183,513	10,099,914	8,068,687	10,197,468

Note 5 Stock Incentive Plans and Stock-Based Compensation

The following table summarizes stock option activity in 2012 under the Company's 2009 Stock Incentive Plan:

	Number of Options	Weighted Average Exercise Price
Outstanding at December 31, 2011	671,294	\$ 14.48
Options granted	7,500	\$ 17.55
Options exercised	(127,797)	\$ 14.11
Options cancelled or expired	(7,500)	\$ 13.76
Outstanding at September 30, 2012	543,497	\$ 14.62
Exercisable at September 30, 2012	245,972	\$ 13.53
Available for grant at September 30, 2012	586,300	

During 2012, the Company granted 7,500 options at a fair value of \$9.08 per share as determined under the Black-Scholes option-pricing model and granted 47,500 restricted stock units at a fair value of \$21.44 per share which represented the closing price of the Company's stock on the date of grant.

The following table presents information on stock options outstanding for the periods shown:

(\$ in thousands, except per share data)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2012	2011	2012	2011
Intrinsic value of options exercised in the period	\$ 113	\$ 0	\$ 793	\$ 34

	As of September 30,	
	2012	2011
Stock options:		
Aggregate intrinsic value	\$ 3,337	\$ 379
Weighted average contractual term of options	6.80 years	7.15 years

The aggregate intrinsic value of stock options represents the difference between the Company's closing stock price at the end of the period and the relevant exercise price multiplied by the number of options outstanding at the end of the period at each such price.

Note 6 Workers Compensation

The following table summarizes the aggregate workers' compensation reserve activity (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2012	2011	2012	2011
Beginning balance				
Workers' compensation claims liabilities	\$ 55,765	\$ 40,996	\$ 51,193	\$ 39,301
Add: claims expense accrual:				
Current period	9,891	6,187	26,224	16,172
Prior periods	3,835	946	6,945	1,468

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

Barrett Business Services, Inc. (Barrett , the Company, our or we), a Maryland corporation, offers a comprehensive range of human resource management services to help small and medium-sized businesses manage the increasing costs and complexities of a broad array of employment-related issues. The Company's principal services, professional employer organization (PEO) services and staffing services, assist its clients in leveraging their investment in human capital. The Company believes that the combination of these two principal services enables it to provide clients with a unique blend of services not offered by the Company's competition. Barrett's platform of outsourced human resource management services is built upon expertise in payroll processing, employee benefits and administration, workers' compensation coverage, effective risk management and workplace safety programs, and human resource administration.

To provide PEO services to a client, the Company enters into a contract to become a co-employer of the client's existing workforce and Barrett assumes responsibility for some or all of the client's human resource management responsibilities. PEO services are normally used by organizations to satisfy ongoing human resource management needs and typically involve contracts with a minimum term of one year, renewable annually, which cover all employees at a particular work site. Staffing services include on-demand or short-term staffing assignments, long-term or indefinite-term contract staffing and comprehensive on-site management. The Company's staffing services also include direct placement services, which involve fee-based search efforts for specific employee candidates at the request of PEO clients, staffing customers or other businesses.

The Company's ability to offer clients a broad mix of services allows Barrett to effectively become the human resource department and a strategic business partner for its clients. The Company believes its approach to human resource management services is designed to positively affect its clients' business results by:

allowing clients to focus on core business activities instead of human resource matters;

increasing clients' productivity by improving employee satisfaction and generating greater employee retention;

reducing overall payroll expenses due to lower workers' compensation and health insurance costs; and

assisting clients in complying with complex and evolving human resource-related regulatory and tax issues.

The Company serves a growing and diverse client base of small and medium-sized businesses in a wide variety of industries through a network of branch offices in California, Oregon, Washington, Idaho, Arizona, Utah, Colorado, Maryland, Delaware and North Carolina. Barrett also has several smaller recruiting offices in its general market areas, which are under the direction of a branch office.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)****Results of Operations**

The following table sets forth percentages of total revenues represented by selected items in the Company's Consolidated Statements of Operations for the three and nine months ended September 30, 2012 and 2011.

	Percentage of Total Revenues			
	Three Months Ended September 30, 2012		Nine Months Ended September 30, 2011	
Revenues:				
Staffing services	32.6%	40.5%	32.1%	40.6%
Professional employer service fees	67.4	59.5	67.9	59.4
Total revenues	100.0	100.0	100.0	100.0
Cost of revenues:				
Direct payroll costs	24.5	30.8	24.1	30.8
Payroll taxes and benefits	38.6	35.5	43.3	39.5
Workers' compensation	17.5	14.8	17.2	14.5
Total cost of revenues	80.6	81.1	84.6	84.8
Gross margin	19.4	18.9	15.4	15.2
Selling, general and administrative expenses	11.5	11.6	11.4	12.0
Depreciation and amortization	0.3	0.4	0.4	0.4
Income from operations	7.6	6.9	3.6	2.8
Other income	0.1	0.4	0.2	4.8
Income before income taxes	7.7	7.3	3.8	7.6
Provision for income taxes	2.5	1.0	1.3	1.3
Net income	5.2%	6.3%	2.5%	6.3%

We report PEO revenues on a net basis because we are not the primary obligor for the services provided by our PEO clients to their customers pursuant to our PEO contracts. The presentation of revenues on a net basis and the relative contributions of staffing and PEO revenues can create volatility in our gross margin percentage. The general impact of fluctuations in our revenue mix is described below.

A relative increase in staffing revenues will typically result in a lower gross margin percentage. Staffing revenues are presented at gross with the related direct costs reported in cost of sales. While staffing relationships typically have higher margins than PEO relationships, an increase in staffing revenues and related costs presented at gross dilutes the impact of the net PEO revenue on gross margin percentage.

A relative increase in PEO revenue will result in a higher gross margin percentage. Improvement in gross margin percentage occurs because incremental PEO revenue dollars are reported as revenue net of all related direct costs.

- 17 -

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)****Results of Operations (Continued)**

We present for comparison purposes the gross revenues and cost of revenues information set forth in the table below. Although not in accordance with GAAP, management believes this information is more informative as to the level of our business activity and more illustrative of how we manage our operations, including the preparation of our internal operating forecasts, because it presents our PEO services on a basis comparable to our staffing services.

(in thousands)	Unaudited		Unaudited

A reconciliation of non-GAAP gross PEO revenues to net PEO revenues is as follows:

(in thousands)	Unaudited Three Months Ended September 30,					
	Gross Revenue Reporting Method		Reclassification		Net Revenue Reporting Method	
	2012	2011	2012	2011	2012	2011
Revenues:						
Staffing services	\$ 36,195	\$ 34,589	\$ 0	\$ 0	\$ 36,195	\$ 34,589
Professional employer services	521,836	371,382	(446,962)	(320,587)	74,874	50,795
Total revenues	\$ 558,031	\$ 405,971	\$ (446,962)	\$ (320,587)	\$ 111,069	\$ 85,384
Cost of revenues	\$ 536,467	\$ 389,818	\$ (446,962)	\$ (320,587)	\$ 89,505	\$ 69,231

(in thousands)	Unaudited Nine Months Ended September 30,					
	Gross Revenue Reporting Method		Reclassification		Net Revenue Reporting Method	
	2012	2011	2012	2011	2012	2011
Revenues:						
Staffing services	\$ 92,793	\$ 93,439	\$ 0	\$ 0	\$ 92,793	\$ 93,439
Professional employer services	1,391,357	1,010,496	(1,195,159)	(873,769)	196,198	136,727
Total revenues	\$ 1,484,150	\$ 1,103,935	\$ (1,195,159)	\$ (873,769)	\$ 288,991	\$ 230,166
Cost of revenues	\$ 1,439,688	\$ 1,068,903	\$ (1,195,159)	\$ (873,769)	\$ 244,529	\$ 195,134

The amount of the reclassification is comprised of direct payroll costs and safety incentives attributable to our PEO client companies.

Three months ended September 30, 2012 and 2011

Net income for the third quarter of 2012 amounted to \$5.8 million, as compared to net income of \$5.4 million for the third quarter of 2011. The increase in net income for the 2012 third quarter was primarily due to a 30.1% increase in revenues. The third quarter of 2011 included the benefit of a lower annual effective income tax rate as a result of the effect of the receipt of \$10.0 million of key man life insurance proceeds during 2011. Diluted income per share for the third quarter of 2012 was \$.81 compared to diluted income per share of \$.54 for the comparable 2011 period.

Revenues for the third quarter of 2012 totaled \$111.1 million, an increase of approximately \$25.7 million or 30.1%, which reflects an increase in the Company's PEO service fee revenue of \$24.1 million or 47.4% coupled with an increase in staffing services revenue of \$1.6 million or 4.6%. Approximately 69% and 60%, respectively, of our revenue during the three months ended September 30, 2012 and 2011 was attributable to our California operations.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)

Results of Operations (Continued)

Three months ended September 30, 2012 and 2011 (Continued)

Our growth in PEO revenues continues to be primarily attributable to new customers as PEO business from new customers during the third quarter of 2012 more than quadrupled our lost PEO business from former customers. PEO revenues from continuing customers reflected a 4.3% increase compared to the third quarter of 2011 primarily resulting from increases in employee headcount and hours worked. Staffing revenues increased primarily from an increase in revenue from existing customers as the addition of new business nearly offset lost business from former customers.

Gross margin for the third quarter of 2012 totaled approximately \$21.6 million or an increase of 33.5% over the third quarter of 2011, primarily due to the 30.1% increase in revenues and a decline in direct payroll costs, partially offset by higher workers' compensation expense and payroll taxes and benefits, as a percentage of revenues.

The decrease in direct payroll costs, as a percentage of revenues, from 30.8% for the third quarter of 2011 to 24.5% for the third quarter of 2012 was primarily due to the increase in our mix of PEO services in the Company's customer base over the third quarter of 2011 and the effect of each customer's unique mark-up percent.

Payroll taxes and benefits, as a percentage of revenues, for the third quarter of 2012 was 38.6% compared to 35.5% for the third quarter of 2011. The percentage rate increase was largely due to the effect of significant growth in PEO services, where payroll taxes and benefits are presented at gross cost whereas the related direct payroll costs are netted against PEO services revenue, and to slightly higher effective state unemployment tax rates in various states in which the Company operates as compared to the third quarter of 2011. Management expects the trend in payroll taxes and benefits, as a percentage of revenues, to continue to increase as a result of continued growth in PEO services on a quarter-over-quarter basis.

Workers' compensation expense, in terms of dollars and as a percentage of revenues, increased from \$12.6 million or 14.8% in the third quarter of 2011 to \$19.4 million or 17.5% in the third quarter of 2012. The percentage rate increase was primarily due to an increase in the provision for claim costs related to current year claims and increases in estimated costs to close prior year claims and higher insurance broker commissions as a result of increased worker's compensation insurance rates.

Selling, general and administrative (SG&A) expenses for the third quarter of 2012 totaled approximately \$12.7 million, an increase of \$2.9 million or 29.0% over the third quarter of 2011. The increase was primarily attributable to higher profit sharing based on increased branch performance and increases in management payroll and other variable expense components within SG&A to support our business growth.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)

Results of Operations (Continued)

Three months ended September 30, 2012 and 2011 (Continued)

The income tax rate for the 2012 third quarter was 32.4%. We expect the effective income tax rate for the balance of 2012 to remain at a similar rate to the 2012 third quarter income tax rate. The income tax rate for the 2011 third quarter was 13.7%, which included a favorable benefit from the effect of a much lower annual effective tax rate attributable to the non-taxable \$10.0 million life insurance proceeds.

Nine months ended September 30, 2012 and 2011

Net income for the nine months ended September 30, 2012 amounted to \$7.3 million, as compared to net income of \$14.4 million for the first nine months of 2011. The first nine months of 2011 included \$10.0 million of key man life insurance proceeds received following the passing of the Company's former president and CEO and the related benefit of a lower annual effective income tax rate. Diluted income per share for the first nine months ended September 30, 2012 was \$.91 compared to diluted income per share of \$1.41 for the comparable 2011 period.

Revenues for the nine months ended September 30, 2012 totaled \$289.0 million, an increase of approximately \$58.8 million or 25.6%, compared to the similar period in 2011, which reflected an increase in the Company's PEO service fee revenue of \$59.5 million or 43.5% and a small decline in staffing services revenue of \$646,000 or 0.7%. Approximately 68% and 60%, respectively, of our revenue during the nine months ended September 30, 2012 and 2011 was attributable to our California operations. Our growth in PEO revenues was primarily attributable to the addition of new customers as PEO business from new customers during the first nine months of 2012 more than tripled our lost PEO business from former customers. PEO revenues from continuing customers reflected a 6.9% increase compared to the first nine months of 2011 primarily resulting from an increase in employee headcount and a slight increase in hours worked. Staffing revenues decreased slightly because lost business from former customers exceeded the business from new and continuing customers.

Gross margin for the nine months ended September 30, 2012 totaled approximately \$44.5 million or an increase of \$9.4 million or 26.9% over the comparable period of 2011, primarily due to the 25.6% increase in revenues and a decline in direct payroll costs, partially offset by higher payroll taxes and benefits and workers' compensation expense, as a percentage of revenues.

The decrease in direct payroll costs, as a percentage of revenues, from 30.8% for the third quarter of 2011 to 24.1% for the first nine months of 2012 was primarily due to the increase in our mix of PEO services in the Company's customer base compared to the first nine months of 2011 and the effect of each customer's unique mark-up percent.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)

Results of Operations (Continued)

Nine months ended September 30, 2012 and 2011 (Continued)

Payroll taxes and benefits, as a percentage of revenues, for the first nine months ended September 30, 2012 was 43.3% compared to 39.5% for the comparable period of 2011. The percentage rate increase was largely due to the effect of significant growth in PEO services and to higher effective state unemployment tax rates in various states in which the Company operates as compared to the same period of 2011.

Workers' compensation expense, in terms of dollars and as a percentage of revenues, increased from \$33.3 million or 14.5% in the first nine months of 2011 to \$49.6 million or 17.2% in the first nine months of 2012. The percentage rate increase was primarily due to an increase in the provision for current year claim costs as well as increases in estimated costs to close prior year claims and higher insurance broker commissions as a result of increased workers' compensation insurance rates.

SG&A expenses for the first nine months of 2012 totaled approximately \$33.1 million, an increase of \$5.5 million or 19.9% over the first nine months of 2011. The increase was primarily attributable to an increase in management payroll to support the business growth and to higher profit sharing based on increased branch performance.

Other income for the first nine months of 2012 was \$568,000 compared to other income of \$11.1 million for the first nine months of 2011. Other income for the first nine months of 2012 was primarily attributable to investment income earned on the Company's cash and marketable securities. The first nine months of 2011 included the \$10.0 million of key man life insurance proceeds and approximately \$1.0 million of investment income.

The income tax rate for the first nine months of 2012 was 32.6%. The income tax rate for the first nine months of 2011 was 17.7% which included a favorable benefit from the effect of a much lower annual effective tax rate attributable to the non-taxable \$10.0 million life insurance proceeds.

During September 2012, California Senate Bill 863 (SB 863), designed to reform California's workers' compensation system, was signed into law. Section 3701.9 of Section 16 of SB 863 was added to the Labor Code and includes a provision whereby the California Director of Self-Insurance is required not to issue certificates of consent to self-insure after January 1, 2013 to any employer engaged in the activities of a professional employer organization, a leasing employer, a temporary services employer or any employer the director determines to be in the business of providing employees to other employers. Additionally, a certificate of consent to self-insure that previously had been issued to any employer engaged in these types of activities is required to be revoked by the Director not later than January 1, 2015. The Company, which has a certificate of consent to self-insure in place, is currently exploring several potential alternatives to address the impact of SB 863 on the Company's ability to continue its self-insurance program in California.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)

Factors Affecting Quarterly Results

The Company has historically experienced significant fluctuations in its quarterly operating results and expects such fluctuations to continue in the future. The Company's operating results may fluctuate due to a number of factors such as seasonality, wage limits on statutory payroll taxes, claims experience for workers' compensation, demand and competition for the Company's services and the effect of acquisitions. The Company's revenue levels may fluctuate from quarter to quarter primarily due to the impact of seasonality on its staffing services business and on certain of its PEO clients in the agriculture, food processing and construction-related industries. As a result, the Company may have greater revenues and net income in the third quarter of its fiscal year. Revenue levels in the fourth quarter may be affected by many customers' practice of operating on holiday-shortened schedules. Payroll taxes and benefits fluctuate with the level of direct payroll costs, but tend to represent a smaller percentage of revenues and direct payroll later in the Company's fiscal year as federal and state statutory wage limits for unemployment and social security taxes are exceeded on a per employee basis. Workers' compensation expense varies with both the frequency and severity of workplace injury claims reported during a quarter and the estimated future costs of such claims. Adverse loss development of prior period claims during a subsequent quarter may also contribute to volatility in the Company's estimated workers' compensation expense.

Liquidity and Capital Resources

The Company's cash position for the nine months ended September 30, 2012 decreased \$27.4 million from December 31, 2011, which compares to an increase of \$11.3 million for the comparable period in 2011. The decrease in cash at September 30, 2012 as compared to December 31, 2011, was primarily due to the repurchase of the Company's common stock for an amount totaling \$60.2 million which included the redemption of \$34.8 million of preferred shares issued during 2012 to finance the repurchase, offset in part by net income of \$7.3 million, a \$11.8 million increase in workers' compensation claims liabilities and a decrease in prepaid expenses and other of \$4.4 million.

Net cash provided by operating activities for the nine months ended September 30, 2012 amounted to \$32.4 million compared to \$24.8 million for the comparable 2011 period. For the nine months ended September 30, 2012, cash flow was principally provided by net income of \$7.3 million, coupled with a \$25.2 million increase in accrued payroll and payroll taxes, a \$11.8 million increase in workers' compensation claims liabilities, and a \$4.4 million decrease in prepaid expense and other, offset in part by a \$24.5 million increase in accounts receivable.

Net cash provided in investing activities for the nine months ended September 30, 2012 was \$1.0 million as compared to \$6.9 million of net cash used in investing activities for the similar 2011 period. For the 2012 period, cash from investing activities was provided by proceeds from the sales and maturities of marketable securities of \$32.7 million and \$6.5 million from the proceeds of sales of restricted marketable securities, partially offset by the purchase of marketable securities totaling \$29.0 million, the purchase of restricted marketable securities of \$6.5 million and the purchase of property and equipment of \$2.7 million. The transactions related to restricted marketable securities were scheduled maturities and the replacement of such securities held for workers' compensation surety deposit purposes. The Company presently has no material long-term capital commitments.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)

Liquidity and Capital Resources (Continued)

Net cash used in financing activities for the nine months ended September 30, 2012 was \$60.8 million as compared to \$6.6 million for the similar 2011 period. For the 2012 period, the primary uses of cash for financing activities were the repurchases of the Company's common stock totaling \$60.2 million which included the redemption of \$34.8 million of preferred shares issued during 2012 to finance the repurchases and the payment of regular quarterly cash dividends totaling \$2.6 million to holders of the Company's common stock, partially offset by \$1.8 million proceeds from the exercise of stock options.

The Company's business strategy continues to focus on growth through the expansion of operations at existing offices, together with the selective acquisition of additional personnel-related businesses, both in its existing markets and other strategic geographic markets. The Company periodically evaluates proposals for various acquisition opportunities, but there can be no assurance that any additional transactions will be consummated.

As disclosed in Note 2 to the Consolidated Financial Statements in this report, effective March 28, 2012, the Company repurchased 2,485,929 shares of the Company's common stock held by the Estate of William W. Sherertz and 500,000 common shares held by Nancy Sherertz. Mr. Sherertz, a founder and former president and CEO of the Company, died January 20, 2011. Nancy Sherertz is also a founder of the Company. The common shares were repurchased at a price of \$20 per share, representing total consideration of \$59.7 million. The Company used a combination of \$24.9 million in cash and issued 34,800 shares of Series A Nonconvertible, Non-Voting Redeemable Preferred Stock with a liquidation preference of \$1,000 per share. Additionally, the Company incurred professional and legal fees totaling \$514,000 related to the transaction.

Effective September 21, 2012, the Company redeemed all of the outstanding shares of its Series A Nonconvertible, Non-Voting Redeemable Preferred Stock for \$34.8 million using a combination of cash on hand and availability under a new revolving credit facility provided by its principal bank. By redeeming the preferred stock within six months of issuance, the Company was not required to pay a semi-annual dividend of approximately \$870,000 due September 28, 2012.

As disclosed in Note 3 to the Consolidated Financial Statements in this report, effective September 18, 2012, the Company entered into a new credit agreement (the "Agreement") with its principal bank, Wells Fargo Bank, National Association (the "Bank"). The Agreement, which expires October 1, 2017, provides for a revolving credit facility with initial borrowing capacity of up to \$24.0 million. The Company had no outstanding borrowings on the revolving credit facility as of September 30, 2012. The Agreement also provides for the continuance of existing standby letters of credit in connection with various surety deposit requirements for workers' compensation purposes, as to which the amount outstanding totaled approximately \$23.8 million as of September 30, 2012.

Advances under the revolving credit facility bear interest, at the Company's option, at either (a) a fixed rate for a term selected by the Company from time-to-time or (b) a fluctuating rate. In each case, the rate is calculated based on LIBOR plus 1.75%. The Agreement also provides for an unused commitment fee of 0.25% per annum on the average daily unused amount of the revolving credit facility.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)

Liquidity and Capital Resources (Continued)

The credit facility is collateralized by the Company's accounts receivable and other rights to receive payment, general intangibles, inventory and equipment. Under the Agreement, the maximum principal amount available will be reduced by \$2.5 million every six months commencing April 1, 2013.

The Agreement, as amended, requires the satisfaction of certain financial covenants as follows:

Minimum Fixed Charge Coverage ratio of no less than 1.25:1.0, measured quarterly on a rolling four-quarter basis beginning December 31, 2012;

Funded Debt: EBITDA of no more than 2.25:1 through September 30, 2013; 1.75:1 through September 30, 2014; 1.5:1 through September 30, 2015; and 1.25:1 thereafter, measured quarterly on a rolling four-quarter basis beginning December 31, 2012;

Ratio of restricted and unrestricted cash and marketable securities to workers compensation and safety incentive liabilities of at least 1.0:1.0, measured quarterly; and

Prohibition on incurring additional indebtedness without the prior approval of the Bank, other than up to \$200,000 per year in purchase money financing.

The Agreement also contains customary events of default. If an event of default under the Agreement occurs and is continuing, the Bank may declare any outstanding obligations under the Agreement to be immediately due and payable. The Company was in compliance with all applicable financial covenants at September 30, 2012.

Additionally, as disclosed in Note 8 to the Consolidated Financial Statements in this report, effective November 1, 2012 the Company entered into a term loan with its principal bank for approximately \$5.5 million secured by the Company's corporate office building in Vancouver, Washington. The term loan requires payment of monthly installments of \$18,375 beginning December 1, 2012, and bears interest at the one month LIBOR plus 2.25% with the unpaid principal balance due November 1, 2017. The addition of the term loan increases the total credit facility to approximately \$29.5 million.

Management expects that the funds anticipated to be generated from operations and availability under its revolving credit facility will be sufficient in the aggregate to fund the Company's working capital needs for the next twelve months.

Inflation

Inflation generally has not been a significant factor in the Company's operations during the periods discussed above. The Company has taken into account the impact of escalating medical and other costs in establishing reserves for future expenses for self-insured workers' compensation claims.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)

Forward-Looking Information

Statements in this report which are not historical in nature, including discussion of economic conditions in the Company's market areas and effect on revenue levels, the potential for and effect of past and future acquisitions, the effect of changes in the Company's mix of services on gross margin, the adequacy of the Company's workers' compensation reserves and the effect of changes in estimate of its claims liabilities, the adequacy of the Company's allowance for doubtful accounts, the effect of the Company's formation and operation of two wholly owned, fully licensed captive insurance subsidiaries and becoming self-insured for certain business risks, the availability of alternatives to being self-insured as to workers' compensation liabilities in California, the financial viability of the Company's excess insurance carriers, the effectiveness of the Company's management information systems, payment of future dividends, and the availability of working capital to meet the Company's funding requirements, are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of the Company or industry to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such factors with respect to the Company include the ability to retain current clients and attract new clients, difficulties associated with integrating acquired businesses and clients into the Company's operations, economic trends in the Company's service areas, material deviations from expected future workers' compensation claims experience, the effect of changes in the workers' compensation regulatory environment in one or more of the Company's primary markets, collectibility of accounts receivable, the carrying values of deferred income tax assets and goodwill, which may be affected by the Company's future operating results, and the availability of capital or letters of credit necessary to meet state-mandated surety deposit requirements for maintaining the Company's status as a qualified self-insured employer for workers' compensation coverage, among others. The Company disclaims any obligation to update any such factors or to publicly announce the result of any revisions to any of the forward-looking statements contained herein to reflect future events or developments.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The Company's exposure to market risk for changes in interest rates primarily relates to its investment portfolio of liquid assets. As of September 30, 2012, the Company's investment portfolio consisted principally of approximately \$26.5 million in corporate bonds, \$18.3 million in tax-exempt money market funds, \$6.0 million in tax-exempt municipal bonds and \$3.1 million in U.S. treasuries. Based on the Company's overall interest exposure at September 30, 2012, a 100 basis point increase in market interest rates would not have a material effect on the fair value of the Company's investment portfolio of liquid assets or its results of operations because of the predominantly short maturities of the securities within the investment portfolio.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

As of September 30, 2012 the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures, as defined in Rule 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934. Based on the evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in the reports it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms and is accumulated and communicated to our management as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There have been no changes in the Company's internal control over financial reporting that occurred during the Company's fiscal quarter ended September 30, 2012 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.
