COMMUNITY BANKERS TRUST CORPORATION

Notes to Unaudited Consolidated Financial Statements

1. NATURE OF BANKING ACITIVIES AND SIGNIFICANT ACCOUNTING POLICIES

Organization

Community Bankers Trust Corporation (the Company) is a bank holding company that was incorporated under Delaware law on April 6, 2005. The Company is headquartered in Glen Allen, Virginia and is the holding company for Essex Bank (the Bank), a Virginia state bank with 24 full-service offices in Virginia, Maryland and Georgia. The Bank also operates one loan production office.

The Bank engages in a general commercial banking business and provides a wide range of financial services primarily to individuals and small businesses, including individual and commercial demand and time deposit accounts, commercial and industrial loans, consumer and small business loans, real estate and mortgage loans, investment services, on-line and mobile banking products, and safe deposit box facilities. Thirteen offices are located in Virginia, from the Chesapeake Bay to just west of Richmond, seven are located in Maryland along the Baltimore-Washington corridor and four are located in the Atlanta, Georgia metropolitan market.

Financial Statements

The consolidated statements presented include accounts of the Company and the Bank, its wholly-owned subsidiary. All material intercompany balances and transactions have been eliminated. The statements should be read in conjunction with the Company's consolidated financial statements and the accompanying notes to consolidated financial statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2011. The accounting and reporting policies of the Company conform to generally accepted accounting principles (GAAP) and to the general practices within the banking industry. The interim financial statements have not been audited; however, in the opinion of management, all adjustments, consisting of normal accruals, were made that are necessary to present fairly the financial position of the Company as of September 30, 2012, changes in stockholders' equity and cash flows for the nine months ended September 30, 2012, and the results of operations for the three and nine months ended September 30, 2012. Results for the three and nine month periods ended September 30, 2012 are not necessarily indicative of the results that may be expected for the year ended December 31, 2012.

The financial information contained within the statements is, to a significant extent, financial information that is based on measures of the financial effects of transactions and events that have already occurred. A variety of factors could affect the ultimate value that is obtained when either earning income, recognizing an expense, recovering an asset or relieving a liability. The Company uses historical loss factors as one factor in determining the inherent loss that may be present in its loan portfolio. Actual losses could differ significantly from the historical factors that the Company uses. In addition, GAAP itself may change from one previously acceptable method to another method. Although the economics of the Company s transactions would be the same, the timing of events that would impact its transactions could change.

Certain reclassifications have been made to prior period balances to conform to the current period presentation.

In preparing these financial statements, the Company has evaluated subsequent events and transactions for potential recognition or disclosure through the date the financial statements were issued.

Recent Accounting Pronouncements

In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-04, *Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS.* This ASU represents the converged guidance of the FASB and the International Accounting Standards Board (the Boards) on fair value measurement. The collective efforts of the Boards have provided common requirements for measuring fair value and for disclosing information about fair value measurements, including a consistent meaning of the term fair value for both U.S. GAAP and IFRS (International Financial Reporting Standards) regulations. The Boards have concluded the common requirements will result in greater comparability of fair value measurements presented and disclosed in financial statements prepared in

COMMUNITY BANKERS TRUST CORPORATION

Notes to Unaudited Consolidated Financial Statements

accordance with U.S. GAAP and IFRS. The amendments are effective during interim and annual periods beginning after December 15, 2011 and are to be applied prospectively. The Company adopted this guidance with no material impact on its consolidated financial statements.

In June 2011, the FASB issued ASU No. 2011-05, *Comprehensive Income (Topic 220): Presentation of Comprehensive Income.* The ASU eliminates the option to present other comprehensive income as a part of the statement of changes in stockholders equity and requires consecutive presentation of the statement of net income and other comprehensive income. The amendments are effective for fiscal years, and interim periods within those years, beginning after December 15, 2011 and are to be applied retrospectively. In December 2011, the topic was further amended to defer the effective date of presenting reclassification adjustments from other comprehensive income to net income on the face of the financial statements. Companies should continue to report reclassifications out of accumulated other comprehensive income consistent with the presentation requirements in effect prior to this ASU while FASB redeliberates future requirements. The Company adopted this guidance, except for the deferred items above, with no material impact on its consolidated financial statements. The Company does not expect the adoption of the deferred items to have a material impact on its consolidated financial statements.

In June 2012, the FASB issued ASU 2012-06, *Business Combinations (Topic 805): Subsequent Accounting for an Indemnification Asset Recognized at the Acquisition Date as a Result of a Government-Assisted Acquisition of a Financial Institution.* The objective of this ASU is to address the diversity in practice about how to interpret the terms on the same basis and contractual limitations when subsequently measuring an indemnification asset recognized in a government-assisted (Federal Deposit Insurance Corporation or National Credit Union Administration) acquisition of a financial institution that includes a loss-sharing agreement (indemnification agreement).

When a reporting entity recognizes an indemnification asset (in accordance with Subtopic 805-20) as a result of a government-assisted acquisition of a financial institution and subsequently a change in the cash flows expected to be collected on the indemnification asset occurs (as a result of a change in cash flows expected to be collected on the assets subject to indemnification), the reporting entity should subsequently account for the change in the measurement of the indemnification asset on the same basis as the change in the assets subject to indemnification. Any amortization of changes in value should be limited to the contractual term of the indemnification agreement (i.e., the lesser of the term of the indemnification agreement and the remaining life of the indemnified assets). The amendments are effective for fiscal years, and interim periods within those years, beginning on or after December 15, 2012. Early adoption is permitted. The Company s accounting policy for its indemnification asset conforms to the guidance above; therefore, no changes are necessary for adoption.

COMMUNITY BANKERS TRUST CORPORATION

Total securities	\$ 48,689	\$ 52,013	\$ 251,717	\$ 256,394

Gains and losses on the sale of securities are recorded on the settlement date and are determined using the specific identification method. Gross realized gains and losses on sales and other than temporary impairments (OTTI) of securities available for sale during the periods were as follows (dollars in thousands):

	Three M	Three Months Ended			Nine Months Ended			
	September 30, 2012	Septem	ber 30, 2011	September 30, 2012	Septem	ber 30, 2011		
Gross realized gains	\$ 1,337	\$	1,791	\$ 2,062	\$	2,645		
Gross realized losses	(157)		(66)	(708)		(82)		
Net securities gains	\$ 1,180	\$	1,725	\$ 1,354	\$	2,563		

In estimating OTTI losses, management considers the length of time and the extent to which the fair value has been less than cost, the financial condition and short-term prospects for the issuer, and the intent and ability of management to hold its investment for a period of time to allow a recovery in fair value. There were no investments held that had impairment losses other than temporary in nature for the three and nine months ended September 30, 2012 and 2011.

COMMUNITY BANKERS TRUST CORPORATION

Notes to Unaudited Consolidated Financial Statements

The fair value and gross unrealized losses for securities, segregated by the length of time that individual securities have been in a continuous gross unrealized loss position, at September 30, 2012 and December 31, 2011 were as follows (dollars in thousands):

	Fair	n 12 Months	September 30, 2012 12 Months or More	Fair	Total

The unrealized losses in the investment portfolio at September 30, 2012 and December 31, 2011 are generally a result of market fluctuations that occur daily. The unrealized losses are from 75 securities at September 30, 2012. Of those, 72 are investment grade, U.S. government agency guarantees, or the full faith and credit of local municipalities throughout the United States. Investment grade corporate obligations comprise the remaining three securities with unrealized losses at September 30, 2012. The Company considers the reason for impairment, length of impairment and ability to hold until the full value is recovered in determining if the impairment is temporary in nature. Based on this analysis, the Company has determined these impairments to be temporary in nature. The Company does not intend to sell and it is more likely than not that the Company will not be required to sell these securities until they recover in value.

Market prices are affected by conditions beyond the control of the Company. Investment decisions are made by the management group of the Company and reflect the overall liquidity and strategic asset/liability objectives of the Company. Management analyzes the securities portfolio frequently and manages the portfolio to provide an overall positive impact to the Company s income statement and balance sheet.

Securities with amortized costs of \$80.5 million and \$34.1 million at September 30, 2012 and December 31, 2011, respectively, were pledged to secure deposits and for other purposes required or permitted by law. At each of September 30, 2012 and December 31, 2011, there were no securities purchased from a single issuer, other than U.S. Treasury issue and other U.S. Government agencies, that comprised more than 10% of the consolidated shareholders equity.

3. LOANS NOT COVERED BY FDIC SHARED LOSS AGREEMENT (NON-COVERED LOANS)

The Company s non-covered loans at September 30, 2012 and December 31, 2011 were comprised of the following (dollars in thousands):

	September 30, 2012 % of Non-Covered		Decem	ber 31, 2011 % of Non-Covered
	Amount	Loans	Amount	Loans
Mortgage loans on real estate:				
Residential 1-4 family	\$ 131,192	23.44%	\$ 127,200	23.34%
Commercial	241,692	43.18	220,471	40.46

Commercial loans	73,415	13.12	72,149	13.24
Consumer installment loans	7,442	1.33	8,461	1.55
All other loans	1,565	0.28	1,659	0.31
Gross loans	559,724	100.00%	544,950	100.00%
	,		- ,	
Less unearned income on loans	(192)		(232)	
Non-covered loans, net of unearned income	\$ 559,532		\$ 544,718	

The Company held \$42.0 million and \$36.5 million in balances of loans guaranteed by the United States Department of Agriculture (USDA), which are included in various categories in the table above, at September 30, 2012 and December 31, 2011, respectively. As these loans are 100% guaranteed by the USDA, no loan loss provision is required. These loan balances included an unamortized purchase premium of \$3.7 million and \$3.6 million at September 30, 2012 and December 31, 2011, respectively. Unamortized purchase premium is recognized as an adjustment of the related loan yield using the interest method.

At September 30, 2012 and December 31, 2011, the Company s allowance for credit losses was comprised of the following: (i) specific valuation allowances calculated in accordance with FASB ASC 310, *Receivables*, (ii) general valuation allowances calculated in accordance with FASB ASC 450, *Contingencies*, based on economic conditions and other qualitative risk factors, and (iii) historical valuation allowances calculated using historical loan loss experience. Management identified loans subject to impairment in accordance with ASC 310.

At September 30, 2012 and December 31, 2011, a portion of the construction and land development loans presented above contained interest reserve provisions. The Company follows standard industry practice to include interest reserves and capitalized interest in a construction loan. This practice recognizes interest as an additional cost of the project and, as a result, requires the borrower to put additional equity into the project. In order to monitor the project throughout its life to make sure the property is moving along as planned to ensure appropriateness of continuing to capitalize interest, the Company coordinates an independent property inspection in connection with each disbursement of loan funds. Until completion, there is generally no cash flow from which to make the interest payment. The Company does not advance additional interest reserves to keep a loan from becoming nonperforming.

There were no significant amounts of interest reserves recognized as interest income on construction loans with interest reserves for the three and nine months ended September 30, 2012 and 2011. Nonperforming construction loans with interest reserves were \$4.8 million at September 30, 2012 and December 31, 2011.

Table of Contents

Interest income on nonaccrual loans, if recognized, is recorded using the cash basis method of accounting. There were no significant amounts recognized during either of the three and nine months ended September 30, 2012 and 2011. For the three months ended September 30, 2012 and 2011, estimated interest income of \$473,000 and \$836,000, respectively, would have been recorded if all such loans had been accruing interest according to their original contractual terms. For the nine months ended September 30, 2012 and 2011, estimated interest income of \$1.2 million and \$2.3 million, respectively, would have been recorded if all such loans had been accruing to their original contractual terms.
