The unaudited condensed consolidated financial statements include the accounts of Books-A-Million, Inc. and its subsidiaries (collectively, the Company). The Company consists of Books-A-Million, Inc. and its five wholly-owned subsidiaries, American Wholesale Book Company, Inc., booksamillion.com, inc., BAM Card Services, LLC, AL Florence Realty Holdings 2010, LLC and Preferred Growth Properties, LLC. All inter-company balances and transactions have been eliminated in consolidation. For a discussion of the Company's business segments, see Note 7.

The accompanying unaudited condensed consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) for interim financial information and are presented pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). Accordingly, certain financial information and disclosures normally included in financial statements prepared in accordance with U.S. GAAP have been condensed or omitted. These unaudited condensed consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements and the notes thereto contained in the Company's Annual Report on Form 10-K for the fiscal year ended January 28, 2012. In the opinion of management, the unaudited condensed consolidated financial statements included herein contain all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation of our financial position, and the results of its operations and cash flows for the periods presented.

The Company's business, like that of many retailers, is seasonal, with a large portion of sales and operating profit realized during the fourth fiscal quarter, which includes the holiday selling season. Thus, the quarterly results of operations are not necessarily indicative of annual results.

Certain insignificant reclassifications to amounts included in this report for prior periods were necessary to conform to the presentation of the thirteen and thirty-nine weeks ended October 27, 2012.

*Stock-Based Compensation*

The Company's pre-tax compensation cost for stock-based employee compensation was approximately \$0.1 million and \$0.4 million for the thirteen weeks ended October 27, 2012 and October 29, 2011, respectively. The Company's pre-tax compensation cost for stock-based employee compensation was approximately \$0.5 million and \$1.1 million for the thirty-nine weeks ended October 27, 2012 and October 29, 2011, respectively.

*2005 Incentive Award Plan*

During 2005, the Company adopted and the Company's stockholders approved the Books-A-Million, Inc. 2005 Incentive Award Plan (as amended, the 2005 Plan). As of October 27, 2012, the Company had approximately \$1.1 million of total unrecognized compensation cost related to non-vested awards granted under its various share-based plans, which it expects to recognize over the following fiscal years:

An aggregate of 600,000 shares are available for issuance to participants in the Amended and Restated Employee Stock Purchase Plan. The Company received cash proceeds from issuances of stock under the Amended and Restated Employee Stock Purchase Plan during each of the thirty-nine week periods ended October 27, 2012 and October 29, 2011 of \$0.1 million. The impact of these cash receipts is included in financing activities in the accompanying condensed consolidated statements of cash flows.

**2. Recent Accounting Pronouncements**

In August 2010, the Financial Accounting Standards Board (the FASB ) issued an Exposure Draft, Leases (the Exposure Draft ), which would replace the existing guidance in Accounting Standards Codification ( ASC ) 840, Leases. Under the Exposure Draft, a lessee's rights and obligations under leases, including existing and new arrangements, would be recognized as assets and liabilities, respectively, on the balance sheet. The comment period for the Exposure Draft ended on December 15, 2010. In July 2011, the FASB announced that it would extend the comment period. If the proposed guidance becomes effective on the terms currently proposed by the FASB, it will likely have a significant impact on our consolidated financial statements. However, as the final standard has not yet been issued, we are unable to determine at this time the dollar impact that this proposed change in accounting standard may have on our consolidated financial statements.

In May 2011, the FASB issued authoritative guidance, Accounting Standards Update ( ASU ) No. 2011-04, Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS, relating to fair value measurement and disclosure requirements. The new guidance is intended to provide a consistent definition of fair value and ensure that the fair value measurement and disclosure requirements are similar between U.S. GAAP and International Financial Reporting Standards. This authoritative guidance limits the highest-and-best-use measure to nonfinancial assets, permits certain financial assets and liabilities with offsetting positions in market or counterparty credit risks to be measured at a net basis, and provides guidance on the applicability of premiums and discounts. This authoritative guidance also expands the disclosures on Level 3 inputs by requiring quantitative disclosure of the unobservable inputs and assumptions, as well as a description of the valuation processes and the sensitivity of the fair value to changes in unobservable inputs. The new guidance is effective for interim and annual periods beginning after December 15, 2011. The Company adopted its provisions on January 29, 2012, and the adoption did not have a significant impact on our existing fair value measurements or disclosures.

## Edgar Filing: BOOKS A MILLION INC - Form 10-Q

The FASB issues ASUs to amend the authoritative literature in the ASC. There have been a number of ASUs to date that amend the original text of the ASC. Except for the ASU listed above, those issued to date either (i) provide supplemental guidance, (ii) are technical corrections, or (iii) are not currently applicable to the Company. Additionally, there were various other accounting standards and interpretations issued during the thirteen weeks ended October 27, 2012 that the Company has not yet been required to adopt, none of which is expected to have a material impact on the Company's consolidated financial statements and the notes thereto going forward.

**3. Net Loss Per Common Share**

Basic net loss per common share is computed by dividing net loss by the weighted average number of common shares outstanding for the period. Diluted net loss per common share reflects the potential dilution, using the treasury stock method, that could occur if share based payments are exercised. In periods of profitability, diluted net loss per common share has been computed based on the weighted average number of shares outstanding, including the effect of outstanding share based payments, if dilutive, in the thirteen and thirty-nine week periods.

For the thirteen and thirty-nine week periods ended October 27, 2012 and October 29, 2011, certain share based payments were outstanding but were excluded from the computation of diluted weighted average shares outstanding because their effect would have been anti-dilutive due to the net loss in all periods presented.

**4. Related Party Transactions**

Charles C. Anderson, Chairman Emeritus and a former director of the Company, Terry C. Anderson, a director of the Company, and Clyde B. Anderson, the Executive Chairman of the Company, have controlling ownership interests in other entities with which the Company conducts business. Significant transactions between the Company and these various other entities ( related parties ) are summarized in the following paragraphs.

The Company purchases a substantial portion of its magazines, as well as certain of its seasonal music, from a subsidiary of Anderson Media Corporation ( Anderson Media ), an affiliate of the Company through common ownership. Amounts payable to Anderson Media at October 27, 2012 and January 28, 2012 were \$3.0 million and \$6.1 million, respectively. Amounts receivable from Anderson Media related to retail display allowances and shipping costs as of October 27, 2012 and January 28, 2012 were \$0.1 million and \$0.2 million, respectively. The Company purchases certain of its collectibles, gifts and books from Anderson Press, Inc. ( Anderson Press ), an affiliate of the Company through common ownership. During the thirty-nine weeks ended October 27, 2012 and October 29, 2011, such purchases from Anderson Press totaled \$0.7 and \$0.5 million, respectively. These amounts paid to Anco Far East included the actual cost of the product, as well as fees for sourcing and consolidation services. All costs other than the sourcing and consolidation service fees were passed through from other vendors. Anco Far East fees, net of the passed-through costs, were \$0.1 million during the thirty-nine weeks ended October 27, 2012 and October 29, 2011. Amounts payable to Anco Far East at October 27, 2012 and January 28, 2012 were \$0.4 and \$0.1 million, respectively.

The Company leases its principal executive offices from a trust, which was established for the benefit of the grandchildren of Charles C. Anderson. The Company's lease on the building expires in February 2013. During each of the thirty-nine week periods ended October 27, 2012 and October 29, 2011, the Company paid rent of \$0.1 million to the trust under this lease. Anderson & Anderson LLC ( A&A ), an affiliate of the Company through common ownership, also leases two buildings to the Company. The Company's leases with A&A expire February 28, 2017. The Company, A&A, American Promotional Events, Inc. and Anderson Press (collectively the Co-ownership Group ) co-own two airplanes that are used by the Company in its business. The Company owns a 26.0% interest in each of these airplanes. During the thirty-nine week periods ended October 27, 2012 and October 29, 2011, the Company was billed \$0.3 million and \$0.6 million, respectively, by the Co-Ownership Group under a cost sharing arrangement for the Company s use of the two airplanes. The expenses that the Company pays for airplane use cover all of the variable costs attributable to the Company s use of the planes and a portion of the fixed costs.

The Company and Anderson Private Capital Partners I, L.P. ( APCP ), an affiliate of the Company through common ownership, each have an equity interest in Yogurt Mountain Holding, LLC ( Yogurt Mountain ). The Company also participates with APCP in a line of credit agreement with Yogurt Mountain in connection with its investment. See Note 13, Equity Method Investment, for additional information regarding the Company s investment in Yogurt Mountain. As of October 27, 2012 and January 28, 2012, Yogurt Mountain had \$1.0 million in borrowings outstanding and due to the Company. For the thirty-nine week periods ended October 27, 2012 and October 29, 2011, the Company paid \$0.3 million and \$0.6 million in franchise fees, royalty fees and other costs associated with the Company s franchise of Yogurt Mountain stores within the Company s stores, respectively. For each of the thirty-nine week periods ended October 27, 2012 and October 29, 2011, the Company received \$0.3 million from Yogurt Mountain for interest, monitoring fees, professional fees and rent.

**5. Commitments and Contingencies**

The Company is a party to various legal proceedings incidental to its business. In the opinion of management, after consultation with legal counsel, the ultimate liability, if any, with respect to those proceedings is not presently expected to materially affect the financial position, results of operations or cash flows of the Company.

From time to time, the Company enters into certain types of agreements that require the Company to indemnify parties against third party claims. Generally, these agreements relate to: (a) agreements with vendors and suppliers, under which the Company may provide customary indemnification to its vendors and suppliers in respect of actions that they take at the Company s request or otherwise on its behalf, (b) agreements with vendors who publish books or manufacture merchandise specifically for the Company to indemnify the vendors against trademark and copyright infringement claims concerning the books published or merchandise manufactured on behalf of the Company, (c) real estate leases, under which the Company may agree to indemnify the lessors for claims arising from the Company s use of the property, and (d) agreements with the Company s directors, officers and employees, under which the Company may agree to indemnify such persons for liabilities arising out of their relationship with the Company. The Company maintains a Directors and Officers Liability Insurance Policy, which, subject to the policy s conditions, provides coverage for indemnification amounts payable by the Company with respect to its directors and officers up to specified limits and subject to certain deductibles.

The nature and terms of these types of indemnities vary. The events or circumstances that would require the Company to perform under these indemnities are transaction and circumstance specific. The overall maximum amount of obligations cannot be reasonably estimated. Historically, the Company has not incurred significant costs related to performance under these types of indemnities. No liabilities have been recorded for these obligations on the Company s balance sheet at October 27, 2012 or January 28, 2012, as such potential liabilities are considered de minimis.

**6. Inventories**

The Company utilizes the last-in, first-out ( LIFO ) method of accounting for inventories. An actual valuation under the LIFO method can be made only at the end of each year based on the inventory levels and costs at that time. Accordingly, interim LIFO calculations are based on management s estimates of expected year-end inventory levels and costs and are subject to the final year-end LIFO inventory valuation. The cumulative difference between replacement and current cost of inventory over stated LIFO value was \$4.4 million and \$4.0 million as of October 27, 2012 and January 28, 2012, respectively. The estimated replacement cost of inventory is the current first-in, first-out ( FIFO ) value.

**7. Business Segments**

The Company has two reportable operating segments: retail trade and electronic commerce trade. These reportable operating segments reflect the manner in which the business is managed and how the Company allocates resources and assesses performance internally.

Our chief operating decision makers are our Executive Chairman and our Chief Executive Officer and President. The Company is primarily a retailer of book merchandise. The Company's two reportable segments are two distinct business units, one a traditional retailer of book merchandise and the other a seller of book merchandise primarily over the Internet. The electronic commerce trade segment is managed separately due to divergent technology and marketing requirements. The retail trade reportable segment also includes the Company's distribution center operations, which predominantly supplies merchandise to our retail stores and sells books to outside parties on a wholesale basis. The results of the distribution center's outside operations are not material for segment reporting.

The Company evaluates the performance of the retail trade and electronic commerce trade segments based on profit and loss from operations before interest and income taxes. Certain intersegment cost allocations have been made based upon consolidated and segment revenues. Shipping income related to Internet sales is included in net sales, and shipping expense is included in cost of sales.

Both the retail trade and electronic commerce trade reportable operating segments derive revenues primarily from the sale of book merchandise through sales in our retail stores and over the Internet, respectively.

**8. Discontinued Operations**

The Company did not close any stores in a market where the Company does not expect another of its existing stores to absorb the closed store's customers during the thirty-nine weeks ended October 27, 2012. The Company closed five stores in fiscal year 2012 in markets where the Company did not expect another of its existing stores to absorb the closed store's customers. The operating results of these stores are presented as discontinued in all periods presented. For the thirty-nine weeks ended October 27, 2012, there was no impact to operating results due to these closed stores. For the thirty-nine weeks ended October 29, 2011, the closed stores had sales of \$4.9 million and pretax operating loss of \$0.5 million.

**9. Short-term Borrowing and Long-term Debt**

The Company's primary sources of liquidity are cash flows from operations, including credit terms from vendors, and borrowings under its credit facility, described below. On March 21, 2011, the Company entered into a credit agreement (the "Credit Agreement") for a revolving credit facility (the "Credit Facility") with Bank of America, N.A. ("Bank of America"), as Administrative Agent, Swing Line Lender and Issuing Bank, and a group of participating financial institutions under which the Company may borrow up to the maximum principal amount of \$150.0 million, which may be increased to \$200.0 million under certain circumstances, and which matures on March 21, 2016. As of October 27, 2012, the maximum principal amount available under the Credit Facility was \$147.8 million, based on the calculated borrowing base availability at that time. Interest on borrowings under the Credit Facility is determined based upon the LIBOR rate plus an applicable margin (as specified in the Credit Agreement). Pursuant to the Credit Agreement, the participating financial institutions have agreed to make revolving loans to the Company and to issue, up to a \$35.0 million sublimit, letters of credit for the Company. Under the Credit Agreement, Bank of America, in its capacity as Swing Line Lender, has also agreed to make same day advances to the Company in the form of swing line loans up to a \$15.0 million sublimit. The obligations of the Company under the Credit Agreement are secured by the inventories, accounts receivable and certain other personal property of the Company, pursuant to the terms of a security agreement with Bank of America and the other lenders. Additionally, the Credit Agreement contains certain non-financial covenants. The Company was in compliance with these covenants at October 27, 2012.

## Edgar Filing: BOOKS A MILLION INC - Form 10-Q

As of October 27, 2012, there were outstanding borrowings under the Credit Facility (excluding the face amount of letters of credit issued thereunder) of \$45.0 million, which bear interest at variable rates (2.2% as of October 27, 2012 based on the 7-day LIBOR rate plus the applicable spread as of such date). The Company had no borrowings outstanding under the Credit Facility (excluding the face amount of letters of credit issued thereunder) as of January 28, 2012. The face amount of letters of credit issued under the Credit Facility as of October 27, 2012 was \$7.4 million. The face amount of letters of credit issued under the Credit Facility as of January 28, 2012 was \$7.9 million. The maximum and average outstanding borrowings under the Credit Facility (excluding the face amount of letters of credit issued thereunder) during the thirty-nine weeks ended October 27, 2012 were \$51.4 million and \$37.1 million, respectively.

**Table of Contents****BOOKS-A MILLION, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(Unaudited)**

During fiscal 1996 and fiscal 1995, the Company acquired and constructed certain warehouse and distribution facilities with the proceeds of loans made pursuant to an industrial development revenue bond (the Bond). As of October 27, 2012 and January 28, 2012, there was \$5.4 million outstanding under the Bond, which bears interest at a variable rate. The interest rate on the Bond was 1.3% and 1.4% at October 27, 2012 and January 28, 2012, respectively. The bond is held by Wells Fargo Bank, National Association (Wells Fargo). Pursuant to an Amended and Restated Bond Agreement dated June 30, 2011, the Company's subsidiary, American Wholesale Book Company, Inc. (American Wholesale), and Wells Fargo agreed, among other things, (i) to extend the period during which Wells Fargo will hold the Bond until March 13, 2016, (ii) to replace the original guaranty with a new Continuing Guaranty executed by the Company and certain of its subsidiaries, including booksamillion.com, inc. and BAM Card Services, LLC, which obligation provides a maximum liability of \$5,880,000 for the Company and its affiliates, jointly and severally, and (iii) that American Wholesale will maintain a standby letter of credit equal at all times to at least the outstanding principal amount of the Bond, which was \$5.4 and included in the aggregate letters of credit mentioned above as of October 27, 2012, for the benefit of Wells Fargo. The Company is obligated to repurchase the Bond on March 13, 2016 unless Wells Fargo exercises the option to extend the Bond's maturity date up to December 1, 2019.

Interest expense on all Company indebtedness for both of the thirteen weeks ended October 27, 2012 and October 29, 2011 was \$0.4 million. Interest expense on all Company indebtedness for the thirty-nine weeks ended October 27, 2012 and October 29, 2011 was \$1.3 million and \$0.9 million, respectively.

**10. Income Taxes**

The Company and its subsidiaries are subject to U.S. federal income tax as well as income tax of multiple state jurisdictions. The Company is no longer subject to U.S. federal income tax examinations by tax authorities for fiscal years prior to fiscal 2011. With respect to state and local jurisdictions, with limited exceptions, the Company and its subsidiaries are no longer subject to income tax audits for fiscal years prior to fiscal 2009.

As of October 27, 2012, the gross amount of unrecognized tax benefits due to uncertain tax positions was \$0.7 million, all of which would affect the effective tax rate if recognized. The amount of unrecognized tax benefits, including interest and penalties, that would no longer need to be accrued due to the passage of various statutes of limitations in the next 12 months is \$0.3 million. The Company recognizes accrued interest and penalties related to unrecognized tax benefits in income tax expense. The Company had approximately \$0.3 million and \$0.5 million in interest and penalties related to unrecognized tax benefits accrued as of October 27, 2012 and January 28, 2012, respectively. The Company's total liability for unrecognized tax benefits, including interest and penalties, as of October 27, 2012 and January 28, 2012, was \$0.7 and \$1.0 million, respectively.

The methodology for calculation of income tax rates in interim periods is described in ASC 740-270. In general, ASC 740-270 requires an entity to compute the interim income tax rate based on an estimate of the annual effective tax rate. In computing the annual effective tax rate, an entity must rely on management forecasts and other estimates. The rate is revised, if necessary, as of the end of each successive interim period during the fiscal year to the entity's best current estimate of its annual effective tax rate. In interim periods where the entity is experiencing losses, an entity must make assumptions concerning its future taxable income and determine whether the realization of future tax benefits is more likely than not.

Deferred tax assets are presented net of the deferred tax liabilities on the condensed consolidated balance sheet. The Company's condensed consolidated balance sheet as of October 27, 2012 includes a gross deferred tax asset of \$1.1 million related to a carryforward for state net operating losses. One of the companies in the consolidated group has incurred a cumulative loss in recent years. The majority of the net operating loss carryforward is a result of the net operating losses incurred during the fiscal year ended January 28, 2012 due principally to difficult market and macroeconomic conditions. The Company evaluates the realizability of its deferred tax assets on a quarterly basis. The Company has concluded, based on the weight of all available positive and negative evidence, that all but \$0.2 million of these tax benefits relating to certain state losses are more likely than not to be realized in the future. Therefore, a valuation allowance of \$0.2 million has been established. The Company will continue to assess the amount of the valuation allowance in the future.

## Edgar Filing: BOOKS A MILLION INC - Form 10-Q

As of the current reporting period, the Company computed the annual effective tax rate based on guidance within ASC 740-270-55, which describes the proper calculation of an interim tax rate for a seasonal business with a year to date loss.

**11. Fair Value Measurements**

The carrying amounts of other financial instruments reported on the balance sheet for current assets and current liabilities, excluding our revolving line of credit as discussed below, approximate their fair values because of the short maturity of these instruments.

At October 27, 2012, there was \$45.0 million outstanding under our revolving line of credit agreement (excluding the face amount of letters of credit issued under the credit agreement) and \$5.4 million outstanding under the Bond. Fair value approximates the carrying amount for the revolving line of credit and the Bond as the variable interest rates re-price frequently at observable current market rates. As such, the fair value is categorized as a level 2 within the fair value hierarchy.

At October 27, 2012, there was \$1.0 million outstanding under the related party note receivable from Yogurt Mountain Holding, LLC. See discussion in Note 4. The carrying value approximates the fair value of the note receivable at October 27, 2012.

**12. Gift Card Revenue Recognition**

The Company sells gift cards to its customers in its retail stores. The gift cards do not have an expiration date. Income is recognized from gift cards when: (1) the gift card is redeemed by the customer; or (2) the likelihood of the gift card being redeemed by the customer is remote based on historical trends (gift card breakage) and there is no legal obligation to remit the value of the unredeemed gift cards to the relevant jurisdictions. The gift card breakage rate is determined based upon historical redemption patterns. Based on this historical information, the likelihood of a gift card remaining unredeemed can be determined after 24 months of card inactivity. At that time, breakage income is recognized for those cards for which the likelihood of redemption is deemed to be remote and for which there is no legal obligation to remit the value of such unredeemed gift cards to the relevant jurisdictions. Breakage income for the thirteen week periods ended October 27, 2012 and October 29, 2011 was \$0.1 and \$0.2 million, respectively. Breakage income for the thirty-nine week periods ended October 27, 2012 and October 29, 2011 was \$0.5 million and \$0.6 million, respectively.

**13. Equity Method Investment**

The Company holds an equity method investment, which consists of a 40.0% equity interest in Yogurt Mountain Holding, LLC ( Yogurt Mountain ). Yogurt Mountain was formed for the purpose of developing and operating retail yogurt stores and franchising retail yogurt stores to third party franchisees. In March 2010, the Company acquired its equity interest in Yogurt Mountain for \$3.0 million. Yogurt Mountain is a separate and distinct legal entity from the Company and its subsidiaries, and has separate assets, liabilities and operations. The other shareholder interests in Yogurt Mountain of 40.0% and 20.0% are owned by Anderson Private Capital Partners I, L.P., a related party to the Company through common ownership, and Kahn Family Holdings, LLC, respectively.

In connection with the equity method investment, the Company entered into a line of credit agreement (the Line of Credit ) with Yogurt Mountain pursuant to which the Company committed to provide up to \$1.5 million to Yogurt Mountain under a non-revolving line of credit through March 2015, bearing interest at 9.0%. Yogurt Mountain must pay an annual commitment fee of 0.25% on the unused portion of the commitment. The proceeds from the Line of Credit must be used by Yogurt Mountain for the purpose of new store growth capital requirements. Effective November 14, 2011, the Company entered into a Forbearance Agreement with Yogurt Mountain, raising the interest rate to 11.0% and limiting the borrowings under the line of credit to \$1.0 million. There was \$1.0 million in outstanding borrowings by Yogurt Mountain under the Line of Credit as of October 27, 2012 and January 28, 2012.

#### **General**

We were founded in 1917 and, as of October 27, 2012, operated 258 retail bookstores, including 201 superstores, concentrated primarily in the eastern United States.

Our growth strategy consists of expanding product offerings and opening stores in new and existing market areas. In addition to opening new stores, management intends to continue its practice of reviewing the profitability trends and prospects of existing stores and closing or relocating under-performing stores or converting stores to different formats. From October 29, 2011 to October 27, 2012, we opened 43 stores, closed 6 stores and relocated one store, increasing our store count from 221 to 258.

Comparable store sales are determined each fiscal quarter during the year based on all stores that have been open at least 12 full fiscal months as of the first day of the fiscal quarter. Any stores closed during a fiscal quarter are included in comparable store sales until they close. Remodeled and relocated stores are also included as comparable stores. The factors affecting the future trend of comparable store sales include, among others, overall demand for products that the Company sells, the Company's marketing programs, pricing strategies, store operations and competition.

The Company's business, like that of many retailers, is seasonal, with a large portion of sales and operating profit realized during the fourth fiscal quarter, which includes the holiday selling season.

As discussed above, from October 29, 2011 to October 27, 2012, we opened 43 stores, closed 6 stores and relocated one store, increasing our store count from 221 to 258. Reflecting that increase, net sales increased \$10.3 million, or 11.0%, to \$104.7 million during the thirteen weeks ended October 27, 2012 from \$94.4 million during the thirteen weeks ended October 29, 2011. Sales at comparable stores (as defined above) decreased 3.6% for the same period. For the thirty-nine weeks ended October 27, 2012, sales increased \$36.7 million, or 12.2%, to \$338.2 million from \$301.6 million for the prior period. Sales at comparable stores decreased 2.4% for this period.

The increase in net sales for the retail trade segment for the thirteen weeks ended October 27, 2012, compared to the thirteen weeks ended October 29, 2011, resulted from a net increase in sales from new stores (as discussed above), less sales from closed stores, offset by lower comparable store sales. Comparable store sales for the retail trade segment for the thirteen weeks ended October 27, 2012 decreased 2.7% when compared to the same thirteen week period for the prior year. The decrease in comparable store sales for the thirteen week period ended October 27, 2012 was due to decreased sales in certain book categories, offset somewhat by increased sales in general merchandise. The increase in net sales for the retail trade segment for the thirty-nine weeks ended October 27, 2012, compared to the thirty-nine weeks ended October 29, 2011, resulted from increased sales due to the net increase in stores (as discussed above), offset somewhat by lower comparable store sales. Comparable store sales for the retail trade segment for the thirty-nine weeks ended October 27, 2012 decreased 1.6% when compared to the same thirty-nine week period for the prior year. The decrease in comparable store sales for the thirty-nine week period ended October 27, 2012 was due to lower sales resulting from the continuing transition of certain book categories to an electronic format, offset somewhat by increased sales in general merchandise. The decrease in net sales for the electronic commerce trade segment for both the thirteen weeks and thirty-nine weeks ended October 27, 2012 was due primarily to lower sales of eReader devices.

## Edgar Filing: BOOKS A MILLION INC - Form 10-Q

Gross profit increased \$3.4 million, or 13.9%, to \$27.5 million for the thirteen weeks ended October 27, 2012, when compared with \$24.1 million in the same thirteen week period for the prior year, due to the net increase in sales from new stores (as discussed above) and an improvement in the gross profit percentage. Gross profit as a percentage of net sales for the thirteen weeks ended October 27, 2012 and October 29, 2011 was 26.3% and 25.6%, respectively. The increase in gross profit percentage of net sales for the thirteen week period ended October 27,

**Table of Contents**

2012 was due to lower shrink expense, warehouse costs and occupancy costs offset by higher markdowns. Gross profit increased \$9.8 million, or 12.0%, to \$91.8 million for the thirty-nine weeks ended October 27, 2012, when compared with \$82.0 million in the same thirty-nine week period for the prior year, due to a net increase in sales. Gross profit as a percentage of net sales for the thirty-nine weeks ended October 27, 2012 and October 29, 2011 was flat at 27.2%, as lower warehouse costs and shrink expense were offset by higher occupancy costs and markdowns.

Operating, selling and administrative expenses were \$27.8 million for the thirteen weeks ended October 27, 2012, compared to \$28.2 million during the same period last year. The decrease in operating, selling and administrative expenses was primarily due to lower store closing and opening costs in the current period compared to the prior year period, during which we closed 22 stores, opened 13 stores and prepared to open 38 stores that opened in the subsequent quarter. The reduced store closing and opening costs, along with effective store expense cost control measures, caused operating, selling and administrative expenses as a percentage of net sales for the thirteen weeks ended October 27, 2012 to decrease to 26.6% versus 29.9% from the same period last year. Operating, selling and administrative expenses were \$87.2 million for the thirty-nine weeks ended October 27, 2012, compared to \$86.3 million during the same period last year. The increase in operating, selling and administrative expenses for the thirty-nine week period compared to the same period last year was due to an increase in expenses resulting from the net increase in stores, partially offset by lower health insurance costs. Operating, selling and administrative expenses as a percentage of net sales for the thirty-nine weeks ended October 27, 2012 decreased to 25.8% from 28.6% from the same period last year due to the cost control measures as described above, less store closing and opening costs as described above and the leverage of these lower costs over a larger store base and higher sales volume.

Depreciation and amortization expense was \$4.1 million in the thirteen week period ended October 27, 2012, compared to \$4.0 million in the thirteen week period ended October 29, 2011. The increase was the result of capital investments made for new stores opened in fiscal 2012. Depreciation and amortization expenses as a percentage of net sales for the thirteen weeks ended October 27, 2012 totaled 3.9%, which was 0.4% lower than the same period last year. Depreciation and amortization expense was \$12.4 million in the thirty-nine week period ended October 27, 2012, compared to \$11.8 million in the thirty-nine week period ended October 29, 2011, primarily due to the impact of the capital invested in new stores opened in fiscal 2012. Depreciation and amortization expenses as a percentage of net sales for the thirty-nine weeks ended October 27, 2012 totaled 3.7%, which was 0.2% lower than the same period last year.

The operating loss for the retail trade segment decreased \$4.3 million for the thirteen weeks and \$8.8 million for the thirty-nine weeks ended October 27, 2012, as compared to the same periods in the prior year. These changes were due to the impact of the increase in store count generating higher sales and controlled store and corporate costs. The operating loss of the electronic commerce trade segment increased for the thirteen weeks and thirty-nine weeks ended October 27, 2012 due to lower gross margin as a result of lower sales and increased net shipping costs associated with consumer direct sales.

**Net Interest Expense**

Net interest expense was \$0.4 million, or 0.4% of net sales, for both the thirteen weeks ended October 27, 2012 and October 29, 2011. For the thirty-nine weeks ended October 27, 2012, net interest expense was \$1.3 million, or 0.4% of net sales, compared to \$0.9 million, or 0.3% of net sales, in the same period last year. This increase was due to higher average outstanding borrowings resulting from increased capital expenditures in the second half of fiscal 2012 related to the stores opened during that period.

**Table of Contents****Liquidity and Capital Resources**

Our primary sources of liquidity are cash flows from operations, including credit terms from vendors, and borrowings under our credit facility, as described in Note 9 to the condensed consolidated financial statements. The maximum and average outstanding borrowings under the credit facility (including the face amount of letters of credit issued thereunder) during the thirty-nine week period ended October 27, 2012 were \$58.8 million and \$44.6 million, respectively.

*Cash Flows*

Operating activities used cash equal to \$35.6 million and \$15.6 million in the thirty-nine week periods ended October 27, 2012 and October 29, 2011, respectively, and included the following:

Cash used in trade and related party accounts payable in the thirty-nine week period ended October 27, 2012 was \$10.5 million, and cash provided by trade and related party accounts payable in the thirty-nine week period ended October 29, 2011 was \$25.0 million. The change from the prior year was primarily the result of the timing of payment of the inventory added during the thirty-nine weeks ended October 27, 2012 related to the opening of new stores.

Cash used by inventories was \$27.0 million in the thirty-nine week period ended October 27, 2012, compared to \$35.7 million cash used by inventories in the prior year. The change from the prior year was primarily the result of the inventory added during the thirty-nine weeks ended October 27, 2012 related to the opening of new stores and timing of inventory receipts.

The adjustment to reconcile net loss from continuing operations to net cash used in operating activities for deferred income taxes was (\$0.6) million in the thirty-nine week period ended October 27, 2012, and cash used for deferred income taxes was (\$2.5) million in the thirty-nine week period ended October 29, 2011. The change was primarily the result of the impact of lower state net operating losses.

Cash used in investing activities reflected a \$14.4 million and \$12.8 million net use of cash for the thirty-nine week periods ended October 27, 2012 and October 29, 2011, respectively. Cash was used in the thirty-nine week period ended October 27, 2012 to fund capital expenditures related to the opening of new stores that had been accrued at year end and real property development.

Financing activities provided cash of \$44.3 million and \$24.9 million in the thirty-nine week periods ended October 27, 2012 and October 29, 2011, respectively. Financing activities provided cash in the thirty-nine week period ended October 27, 2012 from \$45.0 million of net borrowings under our Credit Facility to finance operations, capital expenditures related to new store openings that had been accrued at prior year end and share repurchases.

*Financial Position*

Inventory balances were \$228.3 million as of October 27, 2012, compared to \$201.3 million as of January 28, 2012. The inventory increase of 13.4% was due to the year over year increase in our number of open stores and seasonal fluctuations in inventory. Trade and related party accounts payable balances were \$101.4 million as of October 27, 2012, compared to \$112.0 million as of January 28, 2012. The decrease in trade and related party accounts payable was due to timing of payments for inventory, particularly relating to the inventory purchased for the significant number of stores opened in late fiscal 2012. Accrued expenses were \$33.5 million as of October 27, 2012, compared to \$41.4 million as of January 28, 2012. The decrease in accrued expenses was due to a reduction in accrued capital expenditures and a reduction in gift card liability. The decrease in accrued capital expenditures was the result of payments of amounts previously accrued for capital expenditures related to new store openings in the prior year. The reduction in the gift card liability accrual traditionally occurs in the first quarter of the year due to the redemption of gift cards.

The overall maximum amount of obligations cannot be reasonably estimated. Historically, the Company has not incurred significant costs related to performance under these types of indemnities. No liabilities have been recorded for these obligations on the Company's balance sheet at October 27, 2012 or January 28, 2012, as such potential liabilities are considered de minimis.
