Item 8.01 Other Events

FDA Awards Three-Year Marketing Exclusivity for Vascepa® (icosapent ethyl) Capsules

Amarin Corporation plc announced today that the U.S. Food and Drug Administration (FDA) has awarded three years of marketing exclusivity to Vascepa® (icosapent ethyl) capsules in connection with the July 26, 2012 approval of Vascepa pursuant to the Hatch-Waxman Amendments to the Federal Food, Drug, and Cosmetic Act. Such exclusivity extends through July 25, 2015 and is expected to be supplemented by a 30-month stay under the Hatch-Waxman Amendments that would be triggered after patent infringement litigation initiated by Amarin following valid notice to Amarin of the acceptance of an application to the FDA seeking approval of a generic version of Vascepa. FDA marketing exclusivity is separate from, and in addition to, patent protection, trade secrets and manufacturing barriers to entry which also help protect Vascepa against generic competition. Amarin is reviewing the FDA's reasoning for granting Vascepa three-year, rather than five-year, exclusivity, and evaluating whether to challenge the decision.

Forward-looking statements

This Current Report on Form 8-K contains forward-looking statements, including statements about whether Amarin will challenge the FDA exclusivity grant for Vascepa in favor of five-year, NCE exclusivity, about any supplemental stay period under the Hatch-Waxman Amendments and about whether FDA regulatory exclusivity, patents, trade secrets and manufacturing barriers to entry would be sufficient to protect Vascepa against competition. These forward-looking statements are not promises or guarantees and involve substantial risks and uncertainties. Among the factors that could cause actual results to differ materially from those described or projected herein include the following: events that could interfere with the issuance of a patent, or once issued, the continued validity or enforceability of a patent; Amarin's ability generally to maintain adequate patent protection and successfully enforce patent claims against third parties; commercializing Vascepa without violating the intellectual property rights of others; and uncertainties associated generally with maintaining trade secrets and manufacturing barriers to entry. A further list and description of these risks, uncertainties and other risks associated with an investment in Amarin can be found in Amarin's filings with the U.S. Securities and Exchange Commission, including its most recent Quarterly Report on Form 10-Q. Existing and prospective investors are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof.
