PROXY STATEMENT

Annual Meeting of Shareholders

to be held on May 1, 2014

ABOUT THE MEETING

What You Are Voting On

Proxies are being solicited by the Board of Directors for purposes of voting on the following proposals and any other business properly brought before the meeting:

Proposal 1: Election of the ten directors named in this proxy statement, each for a one-year term and until their respective successors are elected and qualified.

Proposal 2: Ratification of KPMG LLP as the Company's independent registered public accounting firm for the year ending December 31, 2014.

Proposal 3: To conduct an advisory vote on the compensation of our named executive officers (NEOs).

Who is Entitled to Vote

Shareholders of Owens & Minor, Inc. (the Company or Owens & Minor) as of the close of business on March 6, 2014 (the Record Date) are entitled to vote. Each share of the Company's common stock (Common Stock) is entitled to one vote. As of March 6, 2014, 63,190,826 shares of Common Stock were issued and outstanding.

How to Vote

You can vote by the Internet, by telephone or by mail.

By Internet. You may vote by the Internet by following the specific instructions on the Notice of Internet Availability of Proxy Materials. Shareholders who have requested a paper copy of a proxy card by mail may submit proxies over the Internet by following the instructions on the proxy card. **We encourage you to vote via the Internet.** If your shares are held by your bank or broker in street name, please refer to the instruction form that you receive from your bank or broker or contact your bank or broker to determine whether you will be able to vote by the Internet.

By Telephone. You may vote by telephone by calling the toll-free number on the proxy card and following the instructions. Shareholders will need to have the control number that appears on their notice available when voting. If your shares are held by your bank or broker in street name, please refer to the instruction form that you receive from your bank or broker or contact your bank or broker to determine whether you will be able to vote by telephone.

Table of Contents

By Mail. Shareholders who have requested a paper copy of a proxy card by mail may submit proxies by completing, signing and dating the enclosed proxy card and returning it in the postage-paid envelope provided.

However you choose to vote, you may revoke a proxy prior to the meeting by (1) submitting a subsequently dated proxy by any of the methods described above, (2) giving notice in writing to the Corporate Secretary of the Company or (3) voting in person at the meeting (attendance at the meeting will not itself revoke a proxy).

What Happens if You Do Not Make Selections on Your Proxy

If your proxy contains specific voting instructions, those instructions will be followed. However, if you sign and return your proxy card by mail or submit your proxy by telephone or via the Internet without making a selection on one or more proposals, you give authority to the individuals designated on the proxy card to vote on the proposal(s) for which you have not made specific selections or given instructions and any other matter that may arise at the meeting. If no specific selection is made or instructions given, it is intended that all proxies that are signed and returned or submitted via telephone or Internet will be voted **FOR** the election of all nominees for director, **FOR** the ratification of KPMG LLP as our independent registered public accounting firm in 2014, and **FOR** the approval, on an advisory basis, of the compensation of our NEOs.

Whether Your Shares Will be Voted if You Do Not Provide Your Proxy

Whether your shares will be voted if you do not provide your proxy depends on how your ownership of shares of Common Stock is registered. If you own your shares as a registered holder, which means that your shares of Common Stock are registered in your name, and you do not provide your proxy, your shares will not be represented at the meeting, will not count toward the quorum requirement, which is explained below, and will not be voted.

If you own your shares of Common Stock in street name, your shares may be voted even if you do not provide your broker with voting instructions. Brokers have the authority under New York Stock Exchange (NYSE) rules to vote shares for which their beneficial owner customers do not provide voting instructions on certain routine matters. When a proposal is not a routine matter and the brokerage firm has not received voting instructions from the beneficial owner of the shares with respect to that proposal, the brokerage firm cannot vote the shares on that proposal. This is called a broker non-vote.

The Company believes that only the proposal to ratify the appointment of KPMG LLP as the Company's independent registered public accounting firm for 2014 is a routine matter for which brokerage firms will have discretionary voting power if you do not give voting instructions with respect to this proposal. The proposal to elect directors as well as the proposal to approve, on an advisory basis, the compensation of our NEOs are non-routine matters for which brokerage firms will not have discretionary voting power and for which specific voting instructions from their customers are required. As a result, brokerage firms will not be allowed to vote on these non-routine matters on behalf of their customers if the customers do not return specific voting instructions.

What Constitutes a Quorum

A majority of the outstanding shares of Common Stock present or represented by proxy constitutes a quorum. A quorum is required to conduct the annual meeting. If you vote your proxy, you will be considered part of the quorum. Abstentions, withheld votes (with respect to the election of directors) and shares held by brokers or banks in street name (broker shares) that are voted on any matter are included in the quorum. Broker shares that are not voted on any matter will not be included in determining whether a quorum is present.

Table of Contents

The Vote Required to Approve Each Item

Election of Directors. The affirmative vote of a plurality of the votes cast at the meeting is required for the election of directors. A properly returned proxy indicating withhold authority with respect to the election of one or more directors will not be voted with respect to the director or directors indicated. Broker non-votes will not be counted as votes cast on the proposal and will have no effect on this proposal.

Ratification of Appointment of KPMG LLP. The ratification of the appointment of KPMG LLP requires that the votes cast for this proposal exceed the number of votes cast against this proposal. Abstentions and broker non-votes will have no effect on the outcome of this proposal.

Advisory Vote on Executive Compensation. The advisory vote to approve the compensation of our executive officers named in the Summary Compensation Table requires that the votes cast for this proposal exceed the number of votes cast against this proposal. Abstentions and broker non-votes will have no effect on the outcome of this proposal.

How to Obtain a Paper Copy of the Proxy Materials

Shareholders will find instructions about how to obtain a paper copy of the proxy materials on the notice they received in the mail about the Internet availability of proxy materials.

What it Means if You Get More Than One Notice about the Internet Availability of Proxy Materials

Your shares are probably registered differently or are held in more than one account. Please vote all proxies to ensure that all your shares are voted. Also, please have all of your accounts registered in the same name and address. You may do this by contacting our transfer agent, Computershare Shareowner Service, LLC, at 1-866-252-0358.

Costs of Soliciting Proxies

Owens & Minor will pay all costs of this proxy solicitation. The Company has retained Georgeson, Inc. to aid in the distribution and solicitation of proxies for approximately \$6,000 plus expenses. The Company will reimburse brokers and other custodians, nominees and fiduciaries for their expenses in forwarding proxy and solicitation materials.

CORPORATE GOVERNANCE

General. The Company is managed under the direction of the Board of Directors, which has adopted Corporate Governance Guidelines to set forth certain corporate governance practices. Each year, we review our corporate governance policies and practices relative to applicable laws, including the Dodd-Frank Wall Street Reform Act and the Sarbanes-Oxley Act of 2002 and rules promulgated thereunder or adopted by the Securities and Exchange Commission (SEC) and the NYSE, the exchange on which the Common Stock is listed, as well as the policies and practices recommended by groups and authorities active in corporate governance.

Corporate Governance Materials. The Company's Bylaws, Corporate Governance Guidelines, Code of Honor and the charters of the Audit, Compensation & Benefits, and Governance & Nominating Committees are available on our website at <http://www.owens-minor.com> under Corporate Governance. The information available on, or that can be accessed through, our website is not a part of, or incorporated by reference into, this proxy statement.

Code of Honor. The Board of Directors has adopted a Code of Honor that is applicable to all employees of the Company, including the principal executive officer, the principal financial officer and the principal

Table of Contents

accounting officer, as well as the members of the Board of Directors. We intend to post any amendments to or waivers from our Code of Honor (to the extent applicable to the Company's chief executive officer, principal financial officer, principal accounting officer, any other executive officer or any director) on our website.

Director Independence. The Board of Directors has determined that the following Board members and/or nominees are independent within the meaning of the NYSE listing standards and the Company's Corporate Governance Guidelines: Stuart M. Essig, Richard E. Fogg, John W. Gerdelman, Lemuel E. Lewis, Martha H. Marsh, Eddie N. Moore, Jr., James E. Rogers, David S. Simmons, Robert C. Sledd and Anne Marie Whittemore. To assist it in making determinations of independence, the Board has adopted categorical standards which are included in the Company's Corporate Governance Guidelines available on our website at <http://www.owens-minor.com> under Corporate Governance. The Board has determined that all directors and/or nominees identified as independent in this proxy statement meet these standards.

Structure and Leadership of the Board. The Board of Directors has no policy with respect to the separation of the offices of Chairman of the Board and the Chief Executive Officer. Instead, the Board believes that it is in the best interests of the Company for this determination to be made as part of the succession planning process when it selects a new Chief Executive Officer. With the retirement of G. Gilmer Minor, III as Chairman of the Board effective at the conclusion of our 2013 Annual Meeting, the Board selected Craig R. Smith, our Chief Executive Officer, to also serve as Chairman of the Board. This decision was based on the Board's desire to preserve continuity in the operation of the Board, the pursuit of our strategic goals and our unique corporate culture. The Board believes that the role of its independent lead director, who has served in this position for over ten years, preserves and maintains the appropriate level of Board independence, consistent with corporate governance best practices. The Company's Corporate Governance Guidelines provide for the annual election of an independent lead director to, among other things, preside at Board meetings in the absence of the Chairman, preside at meetings of the independent directors, serve as principal liaison on behalf of the independent directors and advise the Chairman and the board committee chairmen with respect to agendas and information requirements relating to the Board and committee meetings. The Board believes that the independent lead director enhances communications between board members (including the Chairman) and committees as well as the overall functioning of the Board's leadership.

The Board's Role in Risk Oversight. The Board of Directors currently administers its risk oversight function through the full Board and not through a separate risk committee of the Board. However, each of the Audit Committee, the Compensation & Benefits Committee and the Governance & Nominating Committee oversees the specific financial, compensation and governance risks, respectively, relating to its functions and responsibilities and reports on these matters to the full Board. The Board performs its risk oversight function through regular reporting by the Board committees as well as the officers and management-level personnel who supervise the day-to-day risk management activities of the Company.

Risk Assessment of Compensation Programs. With respect to our overall compensation programs, Company management has reviewed our compensation policies and practices to determine whether they create risks that are reasonably likely to have a material adverse effect on the Company. As part of this assessment, we reviewed the design and features of our compensation and benefits programs and policies, potential risks that could be created by these programs and features of our programs and corporate governance policies that help to mitigate risk. Management reviewed and discussed the results of the assessment with the Compensation & Benefits Committee. Based on this review, we believe that our compensation policies and practices do not create risks that are reasonably likely to have a material adverse effect on the Company.

REPORT OF THE GOVERNANCE & NOMINATING COMMITTEE

The Governance & Nominating Committee is composed of four directors, all of whom are independent. The Governance & Nominating Committee met four times during 2013. During 2013, the Committee devoted considerable time and attention to board succession planning and new director recruitment in response to the

Table of Contents

scheduled retirement of several directors from the board during the 2013-2014 time period. An outside consulting firm assisted the Committee in the identification and strategic recruitment of directors possessing the qualities, character, experience and expertise that will contribute to the leadership and success of the Company in the rapidly changing health care environment. As a result of these efforts, two new directors were seated in October 2013, both of whom have held significant leadership positions in the medical device and/or pharmaceutical manufacturing industries and possess the qualities, character and other attributes expressed in the Company's Corporate Governance Guidelines.

Also during 2013, as provided in its charter, the Governance & Nominating Committee received reports on the status and impact of new federal legislation and regulations affecting the Company's governance policies and disclosure obligations; reviewed and approved the Committee's charter and the Company's Corporate Governance Guidelines; developed a director skills matrix to highlight relevant areas of expertise and enhance board effectiveness; reviewed the performance of the chief executive officer; reviewed with the chief executive officer proposed organization changes and related management promotions, as well as succession plans for members of senior management; engaged an outside compensation firm to review and assess the Company's director compensation program relative to comparable peer companies; and implemented the Board's 2013 self-assessment process.

COMMITTEE

BOARD MEETINGS

The Board of Directors held six meetings during 2013. All directors attended at least 75% of the meetings of the Board and committees on which they served. The Company's Corporate Governance Guidelines provide that, absent unusual or unforeseen circumstances, directors are expected to attend each annual meeting of shareholders. All directors attended the 2013 Annual Meeting of Shareholders.

Under the Company's Corporate Governance Guidelines, the independent directors meet in executive session after each regularly scheduled Board meeting. These meetings are chaired by a lead director who is elected annually by the non-management directors following each annual meeting of shareholders. James E. Rogers currently serves as lead director and presides over these executive sessions. As lead director, Mr. Rogers is also invited to participate in meetings of all Board committees but is permitted to vote only in meetings of committees of which he is a member. Shareholders and other interested parties may contact the lead director by following the procedures set forth in Communications with the Board of Directors on page 9 of this proxy statement.

COMMITTEES OF THE BOARD

The Board of Directors currently has the following committees, which the Board established to assist it with its responsibilities:

Audit Committee: Oversees (i) the integrity of the Company's financial statements, (ii) the Company's compliance with legal and regulatory requirements, (iii) the qualification and independence of the Company's independent registered public accounting firm, (iv) the performance of the Company's independent registered public accounting firm and internal audit functions and (v) issues involving the Company's ethical and legal compliance responsibilities. The Audit Committee has sole authority to appoint, retain, compensate, evaluate and

terminate the Company's independent registered public accounting firm. The Board of Directors has determined that each of Richard E. Fogg (Chairman of the Audit Committee), Lemuel E. Lewis and Eddie N. Moore, Jr. is an audit committee financial expert, as defined by SEC regulations, and that each is financially literate, as such term is interpreted by the Board in its business judgment. All members of the Audit Committee are independent as such term is defined under the enhanced independence standards for audit committees in the Securities Exchange Act of 1934 (the Exchange Act) and the rules thereunder as incorporated into the NYSE listing standards and under the Company's corporate governance guidelines.

Compensation & Benefits Committee: Administers executive compensation programs, policies and practices. Advises the Board on salaries and compensation of the executive officers and makes other studies and recommendations concerning compensation and compensation policies. May delegate authority for day-to-day administration and interpretation of compensation plans to certain senior officers of the Company (other than for matters affecting executive officer compensation and benefits). For further information on this committee's processes and procedures, see Compensation Discussion and Analysis on page 19 of this proxy statement. All members of the Compensation & Benefits Committee are independent within the meaning of the enhanced NYSE listing standards and the Company's Corporate Governance Guidelines.

Governance & Nominating Committee: Considers and recommends nominees for election as directors and officers and nominees for each Board committee. Reviews and recommends changes to director compensation. Reviews and evaluates the procedures, practices and policies of the Board and its members and leads the Board in its annual self-review. Oversees the governance of the Company, including reviewing and recommending changes to the Corporate Governance Guidelines. All members of the Governance & Nominating Committee are independent within the meaning of the NYSE listing standards and the Company's Corporate Governance Guidelines.

Executive Committee: Exercises limited powers of the Board when the Board is not in session.

Strategic Planning Committee: Reviews and makes recommendations for the strategic direction of the Company. Conducts an annual strategic planning retreat for the Board of Directors and senior management.

Table of Contents**DIRECTOR COMPENSATION**

The Governance & Nominating Committee reviews director compensation annually, and it is the responsibility of this committee to recommend to the Board of Directors any changes in director compensation. The Board of Directors makes the final determination with respect to director compensation. The Governance & Nominating Committee has the authority under its charter to retain outside consultants or advisors to assist it in gathering information and making decisions. In 2013, based upon a review of competitive market practices, the Governance & Nomination Committee increased the annual equity retainer granted to non-employee directors from \$80,000 to \$90,000 and increased the cash retainer for each of the Compensation & Benefit Committee Chair and the Governance & Nominating Committee Chair by \$1,000.

The Company uses a combination of cash and equity compensation to attract and retain qualified candidates to serve on its Board of Directors. In setting director compensation, the Company considers the commitment of time directors must make in performing their duties, the level of skills required by the Company of its Board members and the market competitiveness of its director compensation levels. The table below sets forth the schedule of fees paid to non-employee directors for their annual retainer and service in various capacities on Board committees and in Board leadership roles. Employee directors do not receive any additional compensation other than their normal salary for serving on the Board or any of its committees.

Amounts deferred are invested in bookkeeping accounts that measure earnings and losses based on the performance of a particular investment. Subject to certain restrictions, a director may take cash distributions from a deferred fee account either prior to or following the termination of his or her service as a director.

Stock Ownership Guidelines for Directors

The Company maintains stock ownership guidelines for its directors which provide that each director shall attain, within five years after his or her service on the Board begins, a level of equity ownership of Common Stock having a value of at least five times the annual cash retainer fee or \$150,000, whichever is higher. Each director who has served on the Board for at least five years has achieved this ownership objective.

DIRECTOR NOMINATING PROCESS

Director Candidate Recommendations and Nominations by Shareholders. The Governance & Nominating Committee charter provides that the Governance & Nominating Committee will consider director candidate recommendations by shareholders. Shareholders should submit any such recommendations to the Governance & Nominating Committee through the method described under Communications with the Board of Directors below. In addition, our Bylaws provide that any shareholder of record entitled to vote for the election of directors at the applicable meeting of shareholders may nominate directors by complying with the notice procedures set forth in the Bylaws and summarized in Shareholder Proposals on page 50 of this proxy statement.

Process for Identifying and Evaluating Director Candidates. The Governance & Nominating Committee evaluates all director candidates in accordance with the director qualification standards and the criteria described in our Corporate Governance Guidelines. These guidelines require the Governance & Nominating Committee on an annual basis to review and evaluate the requisite skills and characteristics of individual Board members and nominees as well as the composition of the Board as a whole. This assessment includes whether the member or candidate is independent and includes considerations of diversity, age, skills and experience in the context of the Board's needs. The goal of the Governance & Nominating Committee is to have a Board whose membership reflects a mix of diverse skill sets, technical expertise, educational and professional backgrounds, industry experiences and public service as well as perspectives of different genders and ethnicities. The Governance & Nominating Committee reviews its annual assessment with the Board each year and, as new member candidates are sought, attempts to maintain and enhance the level of diverse backgrounds and viewpoints of directors constituting the Board. As part of the Board's annual self-assessment process, the Board will consider the effectiveness of its overall composition and structure as well as its performance and functioning.

Our Bylaws provide that no director nominee can stand for election if, at the time of appointment or election, the nominee is over the age of 72. There are no differences in the manner in which the Governance & Nominating Committee evaluates director candidates based on whether the candidate is recommended by a shareholder. The Governance & Nominating Committee did not receive any nominations from any shareholders for the 2014 annual meeting.

Executive Summary

2013 Performance Highlights

2013 was a year of continued challenges and slow recovery in the health care services industry. Health care providers experienced lower utilization, reduced reimbursement rates, and uncertainty around the impact of implementation of the Patient Protection and Affordable Care Act. Additionally, we faced intense pricing and competitive pressures in the medical/surgical supply distribution and third-party logistics markets. Despite these challenges, we made significant progress in renewing strategic customer relationships, integrating our Movianto acquisition, and improving our logistics infrastructure during 2013. Highlights of 2013 performance include:

Renewal of Customer Relationships. During 2013, we renewed many of our long-standing and strategic GPO and customer relationships, including signing or extending contracts with MedAssets, HealthTrust Purchasing Group, two of our large group purchasing organization customers, and their member providers.

Integration of Movianto. We acquired Movianto in August 2012 in order to establish a European platform and extend our global reach with new capabilities to serve our health care manufacturer customers. During 2013, we focused heavily on the integration of Movianto, making key management changes and implementing a new centralization strategy to drive consistency of processes and

services throughout Movianto's network. We succeeded in moving Movianto from a loss position at the time of acquisition to one of profitability and increased growth.

Table of Contents

Improved Logistics Infrastructure. We continued initiatives to optimize our network of distribution facilities through closure of small, less efficient distribution centers and opening and undertaking plans to open larger regional distribution centers with capabilities to provide a broader range of services to both our provider and manufacturer customers.

Total Shareholder Return. The per share closing price of Owens & Minor, Inc. Common Stock increased from \$28.51 on December 31, 2012 to \$36.56 on December 31, 2013, and when including the impact of dividend reinvestments, represents a total shareholder return of 32% for 2013.

Despite significant accomplishments in 2013, our financial results were below targeted levels for the year under our annual incentive program, and as a result, we did not pay bonuses to our NEOs for 2013 performance. In addition, we did not achieve our two-year performance target for performance shares issued in 2012 and, consequently, did not pay out any shares for the 2012-2013 performance cycle.

Owens & Minor's Compensation Philosophy and Goals

The fundamental principle underlying Owens & Minor's executive compensation program is that we pay for performance and achievement of results. Our goal is to encourage sustained high Company and individual performance within a framework that allows us to attract, retain and motivate management. Components of our executive compensation program are designed to create the appropriate balance between short- and long-term incentives, to weigh cost against expected benefit and to align with shareholder value while promoting executive retention. These components include:

Annual incentives to drive critical business goals for each year.

Restricted stock and performance share grants to retain management and focus executives on longer-term financial performance and execution of our strategic plan.

Reasonable but competitive base salaries so executives are not motivated to take excessive risks.

Retirement, severance and other benefits to attract executive talent and encourage retention.

We believe that our executive compensation program, structured to reward performance and create long-term shareholder value, has played a significant role in effectively motivating and rewarding management to meet the challenges of our business and produce our many successes. Additionally, we believe the program effectively aligns pay and performance as demonstrated by the non-payment of incentive payouts in 2013 based on company results. Further discussion and disclosure of the Company's compensation policies and practices are included in the pages following this Executive Summary.

▫ **Pay for Performance.** We link pay to performance. A significant portion of our executives' potential total annual compensation, both cash and equity, is based on the achievement of objective, simple and transparent financial measures that are structured to enhance short-term and long-term performance.

▫ **Performance-Based Equity Awards.** One-half of our annual equity award grants are performance shares with multi-year performance requirements and an additional year of restricted vesting on earned shares.

▫ **Recoupment Policy.** We have in place a recoupment policy to recover from our executives compensation paid under circumstances involving restatement of our financial statements due to misconduct.

▫ **Share Ownership Guidelines.** Our Management Equity Ownership Program establishes stock ownership guidelines and provides incentives for achieving and maintaining the requisite levels of stock ownership. All of our NEOs exceed these ownership guidelines.

▫ **Limited Perquisites.** We tie perquisites to a legitimate business purpose and limit the value provided to executive officers.

▫ **Double-Triggered Change in Control Provisions.** Equity vesting and severance payments and benefits based on a change in control require termination of employment following the change in control.

▫ **Risk Mitigation.** We mitigate risks associated with compensation by establishing caps on incentive compensation, multiple performance targets for earning incentive compensation and ongoing processes to identify and manage risk. We do not believe our compensation program creates risks that are reasonably likely to have a material adverse impact on the Company, which we confirm annually through a risk assessment of incentive-based compensation.

▫ **Independent Compensation Consulting Firm.** The Compensation & Benefits Committee receives advice about its programs and practices from an independent consulting firm that provides no other services to the Company and has no conflicts of interest with respect to its work.

WHAT WE DON'T DO

x **No Employment Agreements.** We do not have employment agreements with any of our NEOs.

x **No Hedging.** We prohibit our executive officers and directors from hedging against the economic ownership of Company stock.

x **No Pledging.** We strongly discourage our executive officers from pledging Company stock, and none of our NEOs currently has any such stock pledged.

x **No Re-pricing of Equity Awards.** Our stock plans do not permit the re-pricing of equity awards.

x **No Tax Gross-Ups.** We do not provide any tax gross-ups, including excise tax gross-ups on change in control severance payments and benefits.

Say-On-Pay Vote

In April 2013, our shareholders overwhelmingly approved the compensation of our NEOs for 2012 in our say-on-pay advisory vote with 99% of votes cast in support of the program. In light of this support, the Compensation & Benefits Committee made no material changes to the general structure and philosophy behind our executive compensation program in 2013. At the 2014 annual meeting, our shareholders will again hold an advisory vote to approve executive compensation for 2013. The Compensation & Benefits Committee will continue to consider results from this year's and future advisory votes on executive compensation.

The Process for Setting Executive Compensation

The Company's executive compensation levels and programs are established, approved and administered by the Compensation & Benefits Committee of the Board of Directors, which is currently composed of four independent directors. The Compensation & Benefits Committee solicits the views of its outside consulting firm and senior management on incentive compensation and plan design issues. In addition, the Compensation & Benefits Committee evaluates the performance of our Chief Executive Officer on an annual basis jointly with the Governance & Nominating Committee, and the Chief Executive Officer provides performance evaluations of our other executive officers and recommendations as to their compensation levels.

Independent Advisor. The Compensation & Benefits Committee has the authority under its charter to retain independent consultants or advisors to assist it in gathering information and making decisions. Management may not engage any independent advisor retained by the Compensation & Benefits Committee to perform services without the prior approval of the committee, and no such engagement by management was undertaken in 2013. The Compensation & Benefits Committee also obtains information and assistance from the Company's Human Resources Department in evaluating and making decisions on executive compensation.

The Compensation & Benefits Committee engaged Semler Brossy Consulting Group, LLC (Semler Brossy) in 2013 as its independent advisor to (1) analyze competitive levels of each element of compensation and total compensation for each of the NEOs relative to our peer group and industry trends, (2) provide information regarding executive compensation trends and regulatory changes and developments and (3) provide input on annual and long-term incentive design. The Compensation & Benefits Committee has analyzed whether the work of Semler Brossy has raised any conflict of interest and has concluded that the work of our advisor, including the individuals employed by our advisor who provide consulting services to the committee, has not created any conflict of interest.

Factors Used to Determine Executive Compensation. Consistent with past years, the Compensation & Benefits Committee considered a variety of factors in making decisions regarding compensation for our NEOs in 2013. The primary factors were as follows:

Performance. Our policy is to provide executive officers with compensation opportunities that are based upon Company performance, their individual performance and their contribution to Company performance.

Mix of Short-Term and Long-Term Compensation. Because the successful operation of our business requires a long-term approach, one element of our executive compensation program is long-term compensation. Although we have never had specific policies on the percentage of total compensation that should be short-term versus long-term, we considered this relationship in determining the overall balance and reasonableness of our executives' total direct compensation packages. We believe that short-term compensation is necessary in conjunction with long-term compensation to provide remuneration for performance of the short-term goals or milestones that ultimately lead to achievement of our long-term objectives and strategic initiatives.

Mix of Performance-Based Compensation. To create a strong link between pay and performance, a significant portion of compensation is based on the achievement of objective financial measures. We have no

Table of Contents

specific policies on the percentage of total compensation that should be performance-based, but consider this relationship in determining the overall balance and reasonableness of the executives' total direct compensation packages.

Impact and Mix of Cash vs. Non-Cash Compensation. We consider both the cost and the motivational value of the various components of compensation. Although we have no specific policies on the percentage of total compensation that should be cash versus equity, we consider this relationship in determining the overall balance and reasonableness of the executives' total direct compensation packages.

Peer Group Comparisons. Each year, we evaluate our compensation levels and programs through comparisons to available information for a group of peer companies selected by the committee (Peer Companies) based in part on recommendations from and analyses prepared by our compensation advisors. This evaluation helps us to assess whether our level and mix of executive pay is competitive and reasonable when compared to certain industry standards.

Since 2008, we have used a peer group of 13 companies for compensation comparisons. For 2013, we used a peer group of 12 companies (PSS World Medical was removed due to its acquisition by McKesson Corporation in 2012). The Peer Companies were selected because they are in health care distribution or other distribution industries and have revenue, net income, total assets and/or market capitalization (the Size Indicators) that align reasonably closely with those of the Company. The peer group also includes MeadWestvaco Corporation, a Richmond, Virginia-based company with which we believe the Company competes geographically for executive talent. These Peer Companies are as follows:

<u>2013 Peer Companies</u>	
C.H. Robinson Worldwide, Inc.	Patterson Companies, Inc.
Con-Way, Inc.	Thermo Fisher Scientific Inc.
Genuine Parts Company	United Natural Foods, Inc.
Henry Schein, Inc.	United Stationers Inc.
JB Hunt Transport Services, Inc.	W.W. Grainger, Inc.
MeadWestvaco Corporation	
Nash Finch Company	

Relative to the Size Indicators of the Peer Companies, the Company ranks between the 25th percentile and median of the peer group. Using the Peer Companies, Semler Brossy analyzed the compensation components and levels as reported for the named executive officer positions of the Peer Companies and prepared a comparison of 2013 target total direct compensation and each element thereof to reported information for the Peer Companies. Based on this analysis, the Compensation & Benefits Committee determined that it is appropriate to target total compensation for our NEOs up to the median relative to the Peer Companies and to pay above or below the target level based on actual performance. The target total direct compensation (sum of base salaries, annual incentive opportunities and equity awards) for all NEOs is below median relative to the Peer Companies, generally due to lower levels of equity awards.

Tally Sheets. We also review total compensation levels for executive officers at least annually through the use of tally sheets that quantify each element of direct and indirect compensation provided to individual executives and the portion of the executive's total compensation represented by each element of compensation. This annual review of tally sheets also includes information on the value of executives' unexercised stock options and outstanding stock awards as well as an evaluation of the payments and benefits that would be paid to executive officers in the event of termination of employment, including retirement or following a change in control of the Company. While providing additional context to us in making compensation decisions, the information from the tally sheets regarding unexercised stock options, outstanding stock awards and termination payments and benefits generally does not affect our compensation decisions for the NEOs. This reflects our view that an executive's compensation level should be based on the Company's performance, the executive's performance and the executive's contribution to the Company's performance.

Table of Contents

Total Program Cost. We consider the cost (including aggregate share usage and dilution) of the various components of our compensation program in evaluating the overall balance and reasonableness of our executives' total direct compensation packages.

Risk Considerations. In setting executive compensation, the Compensation & Benefits Committee reviews the various components of our program to consider whether they are appropriately structured to promote the achievement of our business goals without encouraging the taking of unnecessary risks. We believe that several elements of our program mitigate risks associated with performance-based compensation, including the following:

Limits on Incentive Compensation. Awards under our annual incentive program are capped at 200% of the executive's target award to protect against excessive short-term incentives, and the Compensation & Benefits Committee has discretion to reduce awards based on factors it deems appropriate, including whether officers took unnecessary risks.

Performance Metrics. We use a combination of performance metrics (net revenues, income from continuing operations and return on average assets) for our annual incentive program that emphasizes profitable and disciplined growth and requires responsible and risk-based decision-making by our executives.

Performance Shares/Long-Term Equity Awards. Approximately one-half of an executive's equity compensation each year consists of performance shares with a two-year performance cycle and an additional year of service-based vesting, which focuses management on sustaining the Company's longer-term performance. The other half of an executive's equity compensation each year consists of restricted stock awards and vest over a period of at least three years and, accordingly, further encourages a focus on long-term performance.

Share Ownership Guidelines. Our share ownership guidelines ensure that our executives have a significant amount of their personal wealth tied to long-term holdings in Owens & Minor stock.

Table of Contents**Elements of Compensation**

In an effort to achieve the objectives identified above, our executive compensation framework consists of the following elements as further described below:

Element	Description	Purpose
Base Salary	Fixed cash	Provides a fixed amount of cash compensation to allow us to recruit and retain key talent
Annual Incentives	Cash awarded annually for performance against revenue, income and return on average assets goals	To motivate executive officers' performance in achieving our current-year business goals
Long-Term Incentives	Performance shares and restricted stock Restricted stock vests 3 years from date of grant Performance shares are earned if the Company achieves goals on consolidated operating earnings, domestic operating earnings, and international return on invested capital. Performance is measured over a 2-year period and, if earned, shares vest at the end of 3 years	Rewards performance that enhances shareholder value through the use of equity-based awards that link compensation to the value of our Common Stock and the achievement of multi-year performance goals; strengthens the alignment of management and shareholder interests by creating meaningful levels of Company stock ownership by management
Deferred Compensation Plan	Officers may defer salary and cash bonuses into a plan that provides for investment options similar to the Company's 401(k) plan	Provides a tax efficient opportunity to save for retirement and to ensure that our executive compensation program remains competitive in the marketplace for key executive talent
Retirement/Post-Termination Compensation	Participation in Company's 401(k) plan and matching contributions similar to other teammates. SERP (frozen as of March 2012)	Provides security for the future needs of the executives and their families

We believe that the elements of our executive compensation framework support short-term and long-term performance goals by providing our executive officers with an appropriate mix of compensation elements that include (1) fixed annual compensation, (2) target-based annual and long-term incentive compensation and (3) security for the future needs of the executives and their families in the form of retirement and termination benefits.

Table of ContentsBase Salary

All of our executive officers are employed on an at will basis, and there are no employment agreements. We review base salaries each April.

In making base salary decisions in April 2013, the Compensation & Benefits Committee considered:

- (1) Individual attributes of each named executive officer (such as responsibilities, skills, leadership and experience),
- (2) Individual and overall Company performance levels,
- (3) The officer's expected future contributions to the Company, and
- (4) Overall market-competitiveness of the officer's base salary.

We also considered that the targeted average percentage salary increase for non-executive Company teammates was approximately 2.0% in 2013. In addition, we reviewed competitive comparisons prepared by Semler Brossy indicating that our base salary levels were generally above median versus the Peer Companies even though target total direct compensation was below the median. Based on the factors above, we gave each of the NEOs a merit increase in base salary of 2.0%. We believed that these relatively modest increases in salary levels reflect the performance of each of the officers balanced against economic conditions, average salary increases being received by other Company teammates and the Company's above-median base salary levels relative to the Peer Companies. In addition, each of Mr. Bierman, Ms. Davis, Mr. Shotto and Mr. Lowry received an increase in base salary in 2013 as reflected in the table below due to promotions into positions with greater responsibilities and the assumption of additional roles within the Company.

Name	2013 Base Salary Amount	2013 Base Salary Increase Percentage	Reason for Increase
Craig R. Smith	905,084	2%	Merit
James L. Bierman (1)	700,000	16%	Merit and promotion to President & Chief Operating Officer
Randy Meier (2)	575,000	Not applicable	Not applicable; employed as Chief Financial Officer on 3/1/13
Erika T. Davis (3)	495,000	22%	Merit and promotion to SVP, Administration & Operations
Brian J. Shotto (4)	495,000	8%	Merit and promotion to SVP, Manufacturer Services
D. Andrew Edwards (5)	273,191	Not applicable	Mr. Edwards left the Company prior to merit increases in 2013
Michael L. Lowry (6)	230,000	11%	Merit and promotion to Corporate Controller

(1) Mr. Bierman received a 2% merit increase and an additional 2% increase for the assumption of additional responsibilities associated with his role as Chief Operating Officer, effective April 2013. He received an additional 12% increase effective August 1, 2013 when he was promoted to President & Chief Operating Officer.

(2) Mr. Meier was employed as the Company's Chief Financial Officer on March 1, 2013 and, accordingly, received no merit increase in 2013.

Table of Contents

(3) Ms. Davis received a 2% merit increase effective April 2013 and an additional 20% increase effective August 1, 2013 when she was promoted to Senior Vice President, Administration & Operations.

(4) Mr. Shotto received a 2% merit increase effective April 2013 and an additional 6% increase effective August 1, 2013 when he was promoted to Senior Vice President, Manufacturer Services.

(5) Mr. Edwards' base salary amount is his 2012 base salary. He left the Company in February 2013 prior to 2013 merit increases.

(6) Mr. Lowry's base salary is reflective of his position as Operating Vice President, Controller. He received additional base salary compensation of \$20,000 for the period he served as Interim Chief Financial Officer in February 2013. Mr. Lowry received a 2% merit increase effective April 2013 and an additional 9% increase effective April 23, 2013 when he was promoted to Corporate Controller.

Annual Incentives

We provide annual incentive opportunities to executive officers to motivate their performance in achieving our current-year business goals. Each year, we establish a business plan for the forthcoming year that includes financial, strategic and other goals for the Company and that is approved by the Board of Directors. Annual incentive goals for the executive officers are set based on the approved business plan (the Annual Incentive Plan). These goals are weighted to reflect their relative importance and contribution to overall Company performance.

For the 2013 Annual Incentive Plan and consistent with past years, the Compensation & Benefits Committee set target annual incentive opportunities at 75% of base salary for the Chief Executive Officer and 50% of base salary for each of the other NEOs (35% for Mr. Lowry), subject to the achievement of the Company's target performance goals. The Chief Executive Officer has a higher Target Payout Amount than the other NEOs, reflecting the broader scope of his responsibilities and authority and his greater ability to impact the Company's performance.

The three performance metrics (Performance Metrics) established for determining the Target Payout Amount that could be paid were:

Company Net Revenue

Company Income from Continuing Operations

Company Return on Average Assets.

The Compensation & Benefits Committee selected, and the Board of Directors approved, the Performance Metrics, the weights assigned to them and the target achievement levels in December 2012 based on discussions with and recommendations by senior management, the approved business plan for 2013 and the growth and operational improvements called for in our strategic plan. The specific Performance Metrics were selected because income from continuing operations and revenue growth, together with effective asset management, are the most critical performance areas for the Company and key indicators of successful growth and management. They also constitute simple, objective and transparent criteria by which to measure performance. The Compensation & Benefits Committee's goal in setting the target achievement levels was to provide management with challenging yet reasonably achievable goals that would lead the Company to meeting its 2013 business plan and position us to ultimately achieve the growth and improvement targets in our strategic plan without encouraging excessive risk-taking behavior. We believe that the use of three different performance metrics that reward revenue growth but emphasize profitable growth with effective asset management provides a balanced assessment of performance. In addition, the Compensation & Benefits Committee retains authority to reduce or eliminate incentive compensation, which allows us to monitor and respond to any behavior that we believe could be detrimental to the Company.

Table of Contents

The achievement levels for the Performance Metrics were structured to provide for a Target Payout Amount as well as a maximum of two times the Target Payout Amount. No amount would be payable in respect of any Performance Metrics for achievement below the Target Payout Amount or if the Company did not achieve a minimum of \$2.00 diluted earnings per share from continuing operations for 2013.

The table below sets forth (i) the three Performance Metrics, their respective weightings, achievement levels at target and maximum as well as actual results in 2013 for each Performance Metric and (ii) the Diluted EPS qualifier and actual achievement level required for the payment of any incentive compensation.

2013 Performance Metric Achievement Levels and Actual Results

Performance Metrics	Weighting	Target (1)		2013	
		100%	200%	Actual Results	Actual
					Achievement
Company Net Revenue (\$ thousands)	25%	\$ 9,405,581	\$ 9,905,941	\$ 9,071,532	0%
Company Income from Continuing Operations (2) (\$ thousands)	50%	\$ 125,778	\$ 138,287	\$ 119,738	0%
Company Return on Average Assets	25%	5.5%	6.0%	5.16%	0%
Diluted EPS Qualifier for Receipt of Any Incentive Compensation Payout	N/A	\$ 2.00	\$ 2.00	\$ 1.90	No

(1) For achievement levels above the target amount but below maximum, payout amounts would be calculated based on a straight-line interpolation of the achievement level above target.

(2) For purposes of the 2013 Annual Incentive Plan, actual results exclude: acquisition-related and exit and realignment charges of \$12.44 million (\$8.86 million, net of tax) primarily associated with our acquisition of Movianto and the consolidation and closure of distribution and logistics centers in the United States and Europe to optimize operations.

Because the Company did not achieve any of the Performance Metrics at the target level or above and achieved diluted earnings per share from continuing operations of \$1.76 in 2013 (or \$1.90 per share, as adjusted to exclude certain expense and income items), no annual incentives were paid to the NEOs for 2013 performance.

Long-Term Incentives

The Company's long-term incentive program is focused on rewarding performance that

enhances shareholder value through the use of equity-based awards that link compensation to the value of our Common Stock and achievement of multi-year performance goals, and

strengthens the alignment of management and shareholder interests by creating meaningful levels of Company stock ownership by management.

Our long-term incentive program had two components in 2013: (1) annual equity awards and (2) the Management Equity Ownership Program (MEOP).

Edgar Filing: OWENS & MINOR INC/VA/ - Form DEF 14A

When making 2013 long-term incentive equity award determinations, the Compensation & Benefits Committee focused on the Company's longer-term financial performance and balanced the need to align the NEO's financial interests with those of shareholders against considerations regarding the affordability of equity.

grants, including aggregate share usage, dilution and accounting costs. We have historically been conservative and below median relative to the Peer Companies in granting equity awards under our long-term incentive program to minimize share usage, dilution and accounting costs.

Pursuant to the Company's long-term incentive program, the NEOs received long-term incentive awards in 2013 having the following grant date fair values:

Name	2013 Long-Term Incentive Awards (1) MEOP Performance Shares/			Total
	Performance Shares (2)	Restricted Stock (3)	Restricted Stock (4)	
Mr. Smith	\$ 400,011	\$ 400,011	\$ 186,139	\$ 986,161
Mr. Bierman	249,992	465,021	128,042	843,055
Mr. Meier (5)	299,993	799,982	0	1,099,975
Ms. Davis	162,508	297,530	30,120	490,158
Mr. Shotto	162,508	297,530	14,264	474,302
Mr. Edwards (6)	0	0	0	0
Mr. Lowry (7)	0	39,994	9,183	49,177

(1) The amounts shown are the aggregate grant date fair value of the awards computed in accordance with FASB ASC Topic 718 and, in the case of performance shares, are based on probable achievement at target levels.

(2) These performance shares require achievement by the Company of specific financial metrics (discussed below) for fiscal years 2013 and 2014 as a condition to issuance of the underlying restricted stock (which, if earned, would vest on the third anniversary of the performance share award).

(3) These shares of restricted stock vest three years from the date of grant based on the executive's continued employment with the Company. Of the restricted stock awards to Mr. Bierman, \$215,029 was awarded in connection with his promotion in August 2013. Of the restricted stock awards to each of Ms. Davis and Mr. Shotto, \$135,022 was awarded in connection with their promotions in August 2013.

(4) These awards were granted in January 2013 and were based on the officers' achievement of their respective 2012 target ownership amounts under the MEOP as of December 31, 2012. Each officer, except Mr. Bierman and Mr. Shotto, received his or her award in additional performance shares (described in (3) above). Awards to Mr. Bierman and Mr. Shotto were paid in shares of restricted stock that vest five years from the date of grant. See discussion of our MEOP on page 32 of this proxy statement.

(5) Mr. Meier's restricted stock awards consisted of \$499,989 in connection with his employment by the Company on March 1, 2013 and \$299,993 as his annual grant. He was not eligible for a MEOP award grant in 2013.

(6) Mr. Edwards left the Company's employment in February 2013 and, accordingly, did not receive any long-term incentive awards for 2013.

(7) Mr. Lowry received restricted stock and MEOP restricted stock awards based on his position as Operating Vice President, Controller and not in connection with his service as Interim Chief Financial Officer during February 2013.

Annual Equity Awards. Our shareholder-approved 2005 Stock Incentive Plan permits us to award grants of non-qualified stock options, incentive stock options, stock awards, performance share awards and stock appreciation rights. Except in instances of initial executive hiring, job promotions and similar circumstances, we grant equity awards to executive officers one time each year. The Compensation & Benefits Committee's decision to grant equity-based awards (other than the restricted stock and performance share grants made in connection with the MEOP) is discretionary and largely determined by the Company's longer-term financial performance, strategic accomplishments and individual contributions. Equity award decisions may also be based upon outstanding individual performance, expected future performance, job promotions and the assumption of greater responsibility within the Company. We strive to maintain an appropriate balance between the aggregate number of shares used for equity grants (relative to the competitive landscape) and shareholder interests.

In 2013, the Compensation & Benefits Committee granted equity awards to the NEOs consisting of 50% service-based restricted stock that vests three years from the date of grant and 50% performance shares, which are earned only if the Company achieves specified financial metrics for calendar years 2013 and 2014. If performance requirements are met, the performance shares are paid in the form of restricted stock that vests on the third anniversary of the performance share award. If performance requirements are not met, the award is forfeited.

Prior to 2013, performance share grants were based on achievement of a single operating earnings metric. In 2013, we established three separate and weighted metrics for the performance share grant to include consolidated operating earnings, domestic operating earnings and international average return on invested capital. While maintaining the overall operating earnings metric to reflect total Company performance, we established a domestic operating earnings metric to focus officers on profitably growing our domestic business and an international return on invested capital metric to emphasize the importance of successfully integrating the Movianto acquisition. The table below shows the metrics, weights and performance levels established for the 2013 performance share awards.

2013 Performance Share Achievement Metrics

		Maximum	Target	Minimum
Performance Metric (1)	Weight	200%	100%	>0%
Growth in Consolidated Operating Earnings	50%	\$ 40,000,000	\$ 20,000,000	>0
Growth in Domestic Operating Earnings	30%	\$ 24,000,000	\$ 9,000,000	>0
International Average Return on Invested Capital	20%	4.7%	2.7%	0.7%

- (1) For achievement levels above the minimum amount but below target, or above target but below the maximum, share payout amounts would be calculated based on a straight line interpolation of the achievement level above minimum or target. There is no payout for achievement below minimum.
- (2) The metrics are measured over the 2013 and 2014 calendar years relative to 2012 actual performance, and based on the applicable weights and achievement levels, if met, will result in the issuance of restricted stock to each officer. Because the performance metric for the performance shares awarded in 2013 has a two-year performance period, no restricted shares would be issued until after December 31, 2014 and only if one or more of the metrics are achieved at the minimum level or above. No restricted shares were issued in respect of performance shares awarded in 2012 due to non-achievement of requisite operating earnings growth for 2012 and 2013; the Company was required to achieve a threshold level of operating earnings of \$232 million in 2013 in order for executives to receive a restricted share award, and the actual operating earnings achieved for 2013 was \$210.5 million (adjusted for acquisition-related and exit and re-alignment charges).

Management Equity Ownership Program & Ownership Guidelines. In addition to the equity awards discussed above, each NEO was eligible in 2013 to earn an additional award of restricted stock or performance shares by achieving requisite stock ownership levels under the Company's MEOP. The MEOP is intended to further strengthen the alignment of management and shareholder interests. The MEOP target ownership levels for 2013 were as follows:

Officer	Value of Common Stock
Chief Executive Officer	4.0 x Base Salary
President	3.0 x Base Salary
Executive Vice Presidents	2.0 x Base Salary
Senior Vice Presidents	1.5 x Base Salary
Vice Presidents, Regional Vice Presidents	1.0 x Base Salary

The Chief Executive Officer's higher ownership target reflects the larger portion of his total compensation represented by long-term incentive award value. Eligible holdings in meeting these targets include direct holdings, indirect holdings, shares held through Company plans such as the 401(k) plan and teammate stock purchase plan, and restricted stock holdings (but excluding stock options).

Under the MEOP, participants are given approximately five years to reach the full target ownership amount with interim targets to meet each year. As of December 31, 2013, each named executive officer had achieved his or her applicable target ownership amount. Because of the success of the MEOP in increasing and maintaining meaningful stock ownership levels among management, the Company has not imposed any further stock retention requirements on its executive officers in connection with stock option exercises or vesting of restricted stock.

Provided the applicable interim ownership targets are achieved, a 10% annual equity ownership dividend is paid on all Common Stock owned up to the participant's full target ownership amount. The dividend is paid in the form of restricted stock that vests five years from the date of grant if the desired ownership level is maintained and the executive remains in the Company's employ. Once a participant reaches his or her total target level of ownership, the annual equity ownership dividend is reduced from 10% to 5% and is paid in performance shares rather than shares of service-based restricted stock. This feature of the plan is intended to reward executives for maintaining the requisite levels of stock ownership but also to further link their compensation to performance results.

Effective for 2014, the Compensation & Benefits Committee has determined to continue the Common Stock ownership guidelines of the MEOP, to increase Mr. Smith's target ownership level from 4.0X base salary to 6.0X base salary and to discontinue future payment of MEOP dividends to our executives. Instead, the committee will take prior MEOP dividend amounts into consideration in establishing long-term incentive grant guidelines for the executive officers.

Retirement/Post-Termination Compensation**Retirement Compensation**

The Company believes that retirement compensation is an essential component of an overall market competitive total executive compensation package in that it provides security for the future needs of the executives and their families. The NEOs are entitled to participate in the Company's 401(k) plan and receive Company matching contributions in the same manner as other Company teammates.

The Company provides supplemental retirement benefits under a Supplemental Executive Retirement Plan (the SERP) for certain officers selected by the Compensation & Benefits Committee, including certain of the NEOs, as further described on page 42 of this proxy statement under Retirement Plans Supplemental

Table of Contents

Executive Retirement Plan. At the time of its implementation in 1991, the SERP was designed to be competitive relative to defined benefit pension plans offered by other companies and to reward officers who provide long-term service to the Company, thereby promoting retention of highly performing executive talent. In 2012, the Compensation & Benefits Committee amended the SERP to freeze benefit levels and participants effective March 31, 2012, as part of an effort to make our overall executive compensation program more performance-based. Of the NEOs, only Mr. Smith, Mr. Bierman and Ms. Davis are participants in the SERP.

Deferred Compensation Plan

The Company has an Executive Deferred Compensation and Retirement Plan into which officers and other management-level personnel may defer salary and cash bonus. The purpose of the deferred plan is to provide security for current and future needs of the participants and their families by providing a tax efficient opportunity to save for retirement and to ensure that our compensation program remains competitive in the marketplace for key management talent. This plan provides for the same investment options as are available under our 401(k) plan (other than the Company stock fund option). For participants in this plan, the Company matches a total of up to 5% of 401(k) and deferred compensation plan contributions combined; provided that the participant has first maximized contributions under the 401(k) plan.

Change in Control Agreements

The Company has entered into change in control agreements (CIC Agreements) with certain officers, including certain of the NEOs, as described on page 47 of this proxy statement under Potential Payments upon Termination or Change in Control Change in Control Agreements. The purpose of the CIC Agreements is to encourage key management personnel to remain with the Company and to help avoid distractions and conflicts of interest in the event of a potential or actual change in control of the Company so that executives will focus on a fair and impartial review of the acquisition proposal and the maximization of shareholder value despite the risk of losing their employment. The Compensation & Benefits Committee believes that the CIC Agreements help it to attract and retain key executive talent that could have other employment alternatives that may appear to be less risky absent these arrangements. The committee further believes that it has structured these agreements to be reasonable and to provide a temporary level of income protection to the executive in the event of employment loss due to a change in control.

The CIC Agreements do not provide for excise tax gross-up payments. In addition, the severance payment obligation under the CIC Agreements has a double trigger such that the payment of a severance benefit may only be made if there is a change of control and the officer's employment with the Company is terminated by the Company without cause or the officer for good reason within 24 months after such change in control. We believe that this structure strikes an appropriate balance between the incentives and the executive hiring and retention effects described above, without providing these benefits to executives who continue to enjoy employment with an acquiring company in the event of a change of control transaction. Annually in connection with the review of executive compensation tally sheets, the Compensation & Benefits Committee reviews the severance amounts that would be payable to each named executive officer upon a change in control to ensure that the amounts are reasonable in light of the purpose of the agreements and relative to the marketplace generally. However, these amounts did not affect the committee's compensation decisions with regard to any specific element of our 2013 executive compensation program.

Equity awards have the same double-trigger feature discussed above for accelerated vesting and exercisability, as applicable, in the event of a change in control. These same terms apply to the equity awards of all other teammates in the Company upon a change in control.

Severance Policy

We have a formal severance policy described on page 47 of this proxy statement under Potential Payments upon Termination or Change in Control Severance Policy that applies to all corporate officers who are involuntarily terminated without cause (or who resign at the request of the Company). We adopted this policy to promote management stability and provide consistent and fair treatment to our departing officers in circumstances where their performance does not constitute cause for employment termination. We believe the severance policy helps the Company attract and retain key executive talent that could have other employment alternatives that may appear to be less risky absent such a policy. The severance policy is designed to provide the officer with continued compensation and assistance for up to 18 months, depending on years of service with the Company, in an effort to assist him or her in finding new employment and is conditioned upon the officer entering into a non-competition, non-solicitation and confidentiality agreement for the benefit of the Company.

Other Benefits

In addition to the components of compensation discussed above, we provide certain other limited benefits to executives, including the NEOs, to help maximize the time key executives are able to spend on the Company's business; to reward experience, expertise, responsibility, seniority, leadership qualities and advancement; and to ensure that our executive compensation program remains competitive in the marketplace for key executive talent. These other benefits consist of the following and are specifically disclosed by amount in note 4 to the Summary Compensation Table on page 37 of this proxy statement: funding of life insurance policy premiums (provides security for current and future needs of the executives and their families), automobile allowance or lease (ensures transportation for business travel needs, recognizing that the automobile may also be used for personal purposes), tax and financial planning and return preparation assistance (allows executives to concentrate on business matters rather than on personal financial planning), and annual physical and enhanced medical access (identifies and addresses medical issues and helps preserve the Company's investment in its executives by encouraging them to maintain healthy lifestyles and be proactive in addressing potential health issues). In addition, NEOs may participate in our health and welfare plans, 401(k) plan and teammate stock purchase plan on the same basis as other full-time teammates. Finally, except under limited and unusual circumstances, we only pay for executive travel on commercial or private aircraft when such travel is integrally and directly related to the performance of the executive's duties for the Company and is not personal in nature. We do not provide tax gross-ups on any income executives may realize as a result of the foregoing benefits.

Recoupment Policy

In an effort to mitigate any imprudent risk-taking behavior associated with incentive compensation, the Company has a policy that permits the recoupment of performance-based cash and equity compensation paid to executive officers. This compensation is recoverable from an executive officer if:

- (i) The payment or award was predicated upon the achievement of certain financial results that were subsequently the subject of a restatement of the Company's financial statements;
- (ii) The Board (or its designated Compensation & Benefits Committee) determines that the executive engaged in misconduct that caused or substantially caused the need for the restatement; and

(iii) A lower payment would have been made to the executive officer based upon the restated financial results.

If the foregoing conditions are met, as determined by the Board (or its designated committee), the Company, under terms of the applicable program or award agreements, will recover from the executive officer the amount by which his or her performance-based compensation for the relevant period exceeded the amount (if any) that would have been paid based on the restated financial results. The Board (or its designated committee) may take such further action as it deems necessary or appropriate to remedy the misconduct and prevent its recurrence. The recoupment policy currently will not apply to performance-based compensation after the second anniversary of the date on which such compensation was paid.

Hedging and Derivatives Trading Prohibition

The Company has policies that prohibit directors, officers and other teammates with access to confidential information of the Company from engaging in certain transactions relating to our common stock, including buying or selling options and short sales. We also prohibit these individuals from hedging the economic risk of ownership of our common stock and strongly discourage holding our stock in a margin account or pledging our stock as collateral for a loan.

Tax Considerations

Section 162(m) of the Internal Revenue Code disallows corporate tax deductions for executive compensation in excess of \$1 million paid annually to the NEOs other than the Chief Financial Officer. This law allows for certain exemptions to the deduction cap, including performance-based compensation as defined in the rules adopted under Section 162(m).

Although the Company prefers that its pay plans be performance-based and therefore eligible for compensation expense deductions, it also believes that, under certain circumstances, awarding compensation that is not tax deductible may better support the long-term goals of the Company and the interests of shareholders. In 2013, our Chief Executive Officer had compensation that was nondeductible.

Chief Executive Officer Compensation

Our compensation policies are applied in the same manner to all executive officers, including the Chief Executive Officer. The 2013 total direct compensation for Mr. Smith was higher than that of certain other NEOs to reflect the significant differences in their relative responsibilities and authority. We believe that the scope of Mr. Smith's responsibilities and authority, together with his ability to impact the Company's performance, is significantly greater than that of the other NEOs and, accordingly, is reflected in his compensation. The differential in Mr. Smith's compensation relative to certain other executive officers also is consistent with the compensation structures of the Peer Companies and thus reflects market differentials for the chief executive officer position versus other executives.

SERP benefits were frozen effective March 31, 2012 and Messrs. Smith and Bierman and Ms. Davis are the only NEOs who are participants in the SERP. The change in value of each officer's accumulated benefit in the SERP was negative in 2013 as follows: Mr. Smith, (\$652,202), Mr. Bierman, (\$357,740) and Ms. Davis, (\$363,675). (1) The amounts shown in column (c) reflect the minimum payment level under the Company's 2013 Annual Incentive Plan if minimum performance conditions were met and represents 50% of the target payment level shown in column (d) which is based on meeting target performance conditions. The amount shown in column (e) is 200% of the target payment level and is based on meeting maximum performance conditions. These amounts are based upon the individual's 2013 salary and position (75% of base salary for the Chief Executive Officer and 50% of base salary for the other NEOs except Mr. Lowry for whom the amounts are based

Edgar Filing: OWENS & MINOR INC/VA/ - Form DEF 14A

on 35% of base salary). Mr. Edwards left the Company in early 2013 and received no grants of plan-based awards. There were no payouts under the 2013 Annual Incentive Plan as reflected in Summary Compensation Table Non-Equity Incentive Plan Compensation.

(2) The amounts shown in column (f) reflect the minimum restricted stock award level under 2013 performance share grants if minimum performance conditions are met and represents 50% of the target restricted stock award level shown in column (g) which is based on meeting target performance conditions. The amount shown in column (h) is 200% of the target restricted stock award level and is based on meeting the maximum performance conditions. These restricted stock awards are based on the Company's achievement of specified performance metrics for 2013 and 2014 as discussed on page 31 of this proxy statement and, if earned, vest on the third anniversary of the performance share grant. Dividends are not paid on performance share grants unless and until the performance conditions are satisfied, resulting in the issuance of the underlying restricted stock. Neither Mr. Edwards nor Mr. Lowry received performance share grants in 2013.

(3) The amounts shown in column (i) represent grants of restricted stock that vest either three or five years from the date of grant based on the executive's continued employment with the Company. Dividends are paid on outstanding restricted stock grants at the same rate as for all shareholders of record.

(4) No stock options were granted by the Company in 2013.

(5) The amounts shown in column (l) are the grant date fair value of each individual equity award computed in accordance with FASB ASC Topic 718.
