**Our Company**

Kona Grill is a polished casual restaurant growth concept that offers a diverse selection of flavorful American cuisine, internationally influenced appetizers and entrées and an extensive selection of award-winning sushi, complemented by a full-service bar that offers a broad assortment of wine, specialty cocktails and beer. Our restaurants combine made-from-scratch food, attentive service and an upscale contemporary ambiance to create an exceptional, yet affordable dining experience that we believe exceeds that of many traditional casual dining restaurants with whom we compete. As of March 31, 2014, we owned and operated 26 Kona Grill restaurants in 17 states. Our 23 comparable restaurants generated an average unit volume of \$4.3 million during 2013.

We believe that the portability of our concept has been successfully demonstrated in a variety of markets across the United States. Our primary growth objective is to double our restaurant sales over the next five years by strategically expanding the Kona Grill concept in both new and existing markets. We believe there are significant opportunities to grow our business and strengthen our competitive position given our small base of restaurants compared to many other national restaurant chains. We opened two restaurants during 2013 and plan to open five restaurants during 2014, which would result in 20% unit growth, and would make Kona Grill one of the fastest growing national restaurant concepts in the country. We believe the broad appeal of the Kona Grill concept, strong average unit volumes, flexible real estate strategy and high-performing restaurants in 17 states provide us with an opportunity for continued expansion. We believe our concept has the potential for more than 100 restaurants nationwide.

Based on industry analyst and third-party publication information, our growth in comparable restaurant sales has outperformed the casual dining restaurant industry average during each of the last four quarters. For 2013, comparable restaurant sales increased 1.4% over the prior year, following 2.7% growth in 2012 and an 8.8% increase in 2011. Comparable restaurant sales for the first quarter ended March 31, 2014 increased 6.2%, reflecting a 4.2% increase in customer traffic and a 2.0% increase in average check. The first quarter of 2014 marked our fourth consecutive quarter, and 14<sup>th</sup> out of the last 15 quarters, of comparable restaurant sales growth.

From fiscal year 2011 to 2013, our restaurant sales increased from \$93.7 million to \$98.3 million, our Restaurant Operating Profit increased from \$16.6 million to \$18.1 million and our Adjusted EBITDA increased from \$8.8 million to \$10.8 million, representing compounded annual growth of 2.4%, 4.2% and 11.0%, respectively. Our Restaurant Operating Profit as a percentage of sales was 18.4% during 2013, which ranks in the top quartile of the casual dining segment. Our income from operations increased from \$2.4 million in fiscal 2011 to \$3.1 million in fiscal 2013, representing a compounded annual growth rate of 14.2%. For a reconciliation of Restaurant Operating Profit and Adjusted EBITDA, both non-GAAP financial measures, to income from operations, see footnotes 1 and 2 in Summary Historical Financial and Operating Data.

**Our Business Strengths**

We believe the following strengths differentiate the Kona Grill concept and serve as the foundation for our continued new unit growth.

***Our Growth Restaurant Concept Provides a Distinctive Polished Casual Dining Experience***

Our polished casual dining concept captures some of the best elements of fine dining including a variety of exceptional food options, attentive service and an extensive wine and cocktail list, and combines them with traditional casual dining attributes, such as a broad menu with attractive price points and a choice of environments suitable for any dining occasion. Our menu features a diverse selection of high quality and flavorful American favorites with an international influence and freshly prepared, award-winning sushi items that appeal to a wide range of tastes, preferences and price points. Our restaurant design incorporates a contemporary look with signature design elements, including a saltwater aquarium, unique tiles and textures and fire and water features. Our restaurant layout focuses on an open floor plan with multiple dining areas to provide our customers the choice of various dining ambiances to fit every mood and occasion. Our open floor plan also highlights our exhibition-style kitchen and sushi bar, which further emphasize the quality and freshness of our food that are the cornerstones of our concept. Our indoor/outdoor patio with a full-service bar incorporates a high-energy, socially-interactive atmosphere and serves as a destination for many of our frequent customers. We also have enclosed patios in colder climates to maximize utilization of the patio throughout the year. We believe our innovative menu and personalized service combined with a contemporary restaurant design enhance our customers' experience and differentiate us from our competitors and have driven the portability of our concept.

***Our Exceptional Food Quality with Innovative Menu Selections Provides Excellent Value Proposition***

We prepare our dishes from scratch at each restaurant location using original recipes, generous portions and creative and appealing presentations. Our more than 40 signature sauces and dressings create memorable flavor profiles and further differentiate our appetizers, salads, flatbreads, sandwiches, entrees and sushi offerings. We also offer seasonal specials at regular intervals throughout the year and use these promotions as research and development opportunities to surprise and delight our customers, which we believe enhances our customer frequency and loyalty. Our diverse menu is complemented by a full-service bar that offers a broad assortment of wine, specialty cocktails and beer, all of which help to mitigate commodity risk. Sushi and alcoholic beverages contribute approximately 24% and 30% of our total sales, respectively, and enable us to drive customer traffic throughout the day. We believe our diverse menu offerings, generous portions and multiple price points, including an average check per customer of approximately \$25, provide an exceptional price-value proposition and allow us to attract and retain a diverse customer base.

**Table of Contents**

***Our Distinctive Atmosphere and Diverse Menu Mix Drives Customer Frequency across Multiple Dayparts***

Our main dining area, full-service bar, patio and sushi bar provide a choice of atmospheres and a variety of dining destinations within our restaurants. The lively ambiance of our patio and bar areas provides an energetic social forum, while our sushi bar provides another exciting dining venue, offering a wide selection of creative and flavorful items. Our broad menu offering appeals to a wide range of tastes, preferences and price points and allows customers to dine with us during traditional lunch and dinner meal periods as well as in the late afternoon and late night. Sales during dinner, lunch and non-peak periods accounted for 52%, 24% and 24% of our total sales, respectively, during 2013. We believe that the range of dining experiences and relaxed social atmosphere engender a sense of loyalty in our customers not found in those who frequent our competitors. Our ability to attract diners and turn them into repeat customers is a testament to the quality of our food and distinctive atmosphere that make Kona Grill a unique restaurant concept.

***Our Seasoned Restaurant Operations Team is Highly Trained to Provide Exceptional Food Quality and Customer Service***

We believe our most valuable assets are our people. Our restaurant operations team consists of highly trained managers who are seasoned in all aspects of managing a high volume restaurant with diverse menu offerings. We believe our training program represents a significant investment in the development of our team. Our managers participate in both initial and ongoing formal training programs ranging from seven to nine weeks. The training program provides our team with a comprehensive understanding of menu items and ingredients, customer service protocols, personnel management and development, inventory management and ordering as well as maintenance of restaurant assets. We strive to adhere to and maintain the highest standards of food quality and customer service by staffing teams for our new restaurant openings with a mix of existing personnel who are well-versed with our management philosophy and overall operations and local talent. Additionally, we continue to build our talent base by identifying and incentivizing high-performing and passionate team members to enroll in a management development program where progress and promotion to the next level are measured by achievement of key milestones. We believe our seasoned restaurant operations team is a key driver of our restaurant growth and positions us well for long-term success.

***Strong Unit Economics Driven by Disciplined Quality Site Selection and Effective Execution***

During 2013, our comparable restaurants generated average sales of \$4.3 million. We produced strong Restaurant Operating Profit margins, which, for the year ended December 31, 2013, represented 18.4% of our total sales. For new locations, we target a net cash-on-cash return of 31-33% and a sales-to-investment ratio of 1.7 to 1, based on two to four years of operations. We believe the strength of our new locations arises from our rigorous site selection process and strong new restaurant management and training teams.

***We Are Led by a Dedicated Management Team with Significant Experience and a Proven Track Record***

In January 2012, we appointed Berke Bakay as President and Chief Executive Officer. Mr. Bakay is Kona Grill's largest beneficial stockholder and has served on our Board of Directors since 2009. Since Mr. Bakay's appointment as President and Chief Executive Officer, we have resumed new unit growth and demonstrated strong results that include increasing comparable restaurant sales, improving restaurant operating profit and growing our average unit volume. Our Chief Financial Officer, Christi Hing, has 18 years of finance and accounting experience and has served more than eight years with Kona Grill. Our vice president of development, vice president of operations and vice president of food and beverage, combined, have more than 60 years of restaurant industry experience. We believe our experienced management team is a key driver of our restaurant growth and positions us well for long-term growth.

**Our Growth Strategies**

We believe that there are significant opportunities to develop new units, grow customer traffic and increase awareness of our brand throughout the United States. The following sets forth the key elements of our growth strategy.

***Pursue Disciplined Restaurant Growth***

We believe the broad appeal of Kona Grill's atmosphere and menu offerings, our high average unit volumes and multiple daypart model make our concept attractive to developers and provide us with the opportunity for continued expansion. We review potential sites in both new and existing markets that meet our demographic, real estate and investment criteria. We believe the location of our restaurants plays a pivotal role in determining the long-term success of each restaurant and the overall profitability of our company. Therefore, we spend significant time and resources evaluating each prospective site. We utilize a disciplined site selection process involving our management team and Board of Directors.

Our rigorous site selection process for new restaurants includes, but is not limited to, the following criteria:

proximity to high activity areas such as retail centers, shopping malls, mixed-use developments and lifestyle and entertainment centers;

access to markets possessing strong local economies with above average consumer density and per capita income; and

exposure to high customer traffic throughout the day from thriving businesses or retail markets.

We opened two new restaurants in 2013, in Boise, Idaho in October 2013, which was our first new restaurant since 2010, and in The Woodlands, Texas in December 2013, which is our second restaurant in the Houston market. In February 2014, we opened our newest restaurant in Fort Worth, Texas, and our first location with an engaging rooftop bar. Including our most recent opening, we plan to open five new restaurants in 2014. Additional planned openings include restaurants in El Paso, Texas during the summer of 2014 and in Sarasota, Florida; Alpharetta, Georgia and Columbus, Ohio during the fourth quarter of 2014. We currently have four signed leases for 2015 openings in Fairfax, Virginia; Miami, Florida; Plano, Texas and San Juan, Puerto Rico. We continue to work diligently to build a strong pipeline to achieve our long-term growth objectives, which include doubling our restaurant sales over the next five years, by strategically expanding the Kona Grill concept in both new and existing markets.

Our growth strategy for developing new locations also includes expansion in existing markets that have the appropriate demographics to support multiple restaurants. Operating multiple restaurants in existing markets enables us to leverage our brand equity as well as gain operating efficiencies associated with regional supervision, marketing, purchasing and hiring.

## Table of Contents

### *Grow Existing Restaurant Sales*

Our goal for existing restaurants is to increase unit volumes through ongoing marketing efforts designed to generate awareness of our concept and increase the frequency of our customer visits, while continuing to provide a great customer experience. Our key initiatives include:

**Continued Offering of Innovative and Flavorful Menu Items.** Our food-based promotions include innovative seasonal menu items offered four times during the year. These initiatives are highly successful in keeping our menu fresh and exciting while also providing a great venue to test the popularity of new menu items and the opportunity to bring back popular past menu items. We continue to enhance our wine list and utilize our Wine Down Wednesday promotion to drive customer traffic by offering a 50% discount on bottle wines each Wednesday.

**Focus on Four-Wall Execution.** We continue to focus on the quality of our service and hospitality with extensive training for our service staff on our wine list, drink and menu offerings. We utilize a customer satisfaction survey across the brand to provide valuable feedback that our management team can respond to immediately.

**Grow Customer Loyalty Through Local Restaurant Marketing.** We believe the active presence of our restaurant-level management teams is instrumental in strengthening brand awareness and cultivating customer loyalty. Participation in community and philanthropic endeavors provide a means for our restaurants to plant deeper roots in their respective communities. To complement these programs, we continue to grow our customer loyalty program, Konavore, which, as of March 31, 2014, had grown to more than 200,000 members. We utilize this e-mail based program to communicate new menu offerings, restaurant specific events and other marketing messages to keep Kona Grill top of mind for consumers. We have also increased our presence in social marketing and interactive advertising to grow restaurant sales.

### *Strategic Investments in Personnel and Systems*

During 2013, we made strategic personnel investments in order to re-ignite the expansion of our concept and successfully execute on our growth strategies. In 2014, we have made and plan to make additional investments in both operations and development personnel to enable us to accelerate and support incremental new unit growth. Additionally, we continue to implement systems and tools to enhance our business while ensuring that strong financial controls are in place to minimize risks associated with our current growth strategy. We believe that as the restaurant base grows, our general and administrative costs will increase at a slower growth rate than will our restaurant sales, thereby leveraging our general and administrative costs and increasing our earnings.

### **Our Challenges**

Before you invest in our common stock, you should carefully consider all the information contained elsewhere and incorporated by reference in this prospectus, including matters set forth under the heading **Risk Factors** herein. Risks relating to our business include, among others, the following:

our financial results depend significantly on the success of our existing and new restaurants;

our long-term success is highly dependent on our ability to successfully identify new locations and develop and expand our operations, while providing scalable and effective restaurant support infrastructure;

we are susceptible to economic trends and developments, including adverse weather, in the areas in which are restaurants are located;

changes in food costs and availability could adversely affect our operating results; and

(1) Restaurant operating profit is not a financial measure determined in accordance with U.S. generally accepted accounting principles (see reconciliation below) and should not be considered in isolation or as an alternative to income from continuing operations. Restaurant operating profit is defined as restaurant sales minus cost of sales, labor, occupancy and restaurant operating expenses and does not include general and administrative expenses, preopening expenses, depreciation and amortization and insurance recoveries and other. Restaurant operating profit may not be comparable to the same or similarly titled measures computed by other companies. We believe restaurant operating profit is an important component of our financial results because it is a widely used metric within the restaurant industry to evaluate restaurant-level productivity, efficiency and performance. We use restaurant operating profit as a percentage of restaurant sales as a key metric to evaluate our restaurants' financial performance compared with our competitors.

(2) Adjusted EBITDA is not a financial measure determined in accordance with U.S. generally accepted accounting principles (see reconciliation below) and should not be considered in isolation or as an alternative to income from operations. Adjusted EBITDA is defined as income from continuing operations plus depreciation and

amortization, preopening expense, stock-based compensation and insurance recoveries and other. Adjusted EBITDA is presented because: (i) we believe it is a useful measure for investors to assess the operating performance of our business without the effect of non-cash items such as depreciation and amortization expenses and stock-based compensation; (ii) we believe that investors will find these measures useful in assessing our ability to service or incur indebtedness; and (iii) we use Adjusted EBITDA internally as a benchmark to evaluate our operating performance and compare our performance to that of our competitors.

- (3) Includes only those restaurants in the comparable restaurant base.
- (4) Same-store sales percentage change reflects the periodic change in restaurant sales for the comparable restaurant base compared to the same prior period. In calculating the percentage change for same-store

sales, we include a restaurant in the comparable restaurant base after it has been in operation for more than 18 months. We remove restaurants from the comparable base for periods in which they are closed, primarily related to remodel activities.

A reconciliation of Adjusted EBITDA and restaurant operating profit to our income from operations is provided below.

Additional risks not presently known to us or that we currently deem immaterial may also affect our business.*

**Risks Related to this Offering**

**Management will have broad discretion over the use of the net proceeds from the sale of shares by us and may apply the net proceeds in ways that do not improve our operating results or increase the value of your investment.**

Our management will have broad discretion in the application of the net proceeds from the sale of shares by us and could spend the net proceeds in ways that do not improve our results of operations or enhance the value of our common stock. Our failure to apply these funds effectively could have a material adverse effect on our business and cause the price of our common stock to decline.

**You may experience future dilution as a result of future equity offerings.**

In order to raise additional capital, we may in the future offer additional shares of our common stock or other securities convertible into or exchangeable for our common stock at prices that may not be the same as the price per share in this offering. We cannot assure you that we will be able to sell shares or other securities in any other offering at a price per share that is equal to or greater than the price per share paid by investors in this offering, and investors purchasing shares or other securities in the future could have rights superior to existing stockholders, including investors who purchase shares of common stock in this offering. The price per share at which we sell additional shares of our common stock or securities convertible into common stock in future transactions may be higher or lower than the price per share in this offering.

**SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS**

This prospectus contains, and the documents incorporated by reference herein may contain, forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, or the Securities Act, and Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act. These statements relate to future events or to our future financial performance and involve known and unknown risks, uncertainties and other factors which may cause our actual results, performance or achievements to be materially different from any future results, performances or achievements expressed or implied by the forward-looking statements. The following factors, among others, could cause our actual results and performance to differ materially from the results and performance projected in, or implied by, the forward-looking statements:

the adverse impact if restaurant sales decrease;

a decline in visitors to activity centers surrounding our restaurants;

the limited history for evaluating our company;

the effect of growth on our infrastructure, resources and existing restaurants;

our ability to expand our operations in both new and existing markets;

our ability to slow the growth rate of our general and administrative costs as our restaurant base grows;

the impact of supply shortages and food costs in general;

our ability to protect trademarks and other proprietary information;

the impact of litigation;

our ability to raise capital;

negative publicity surrounding our restaurants or the consumption of our food products in general;

the impact of federal, state, or local government regulations;

labor shortages or increases in labor costs;

economic and political conditions generally; and

the effect of competition in the restaurant industry.

In some cases, you can identify forward-looking statements by terms such as may, will, should, could, would, plans, anticipates, believes, estimates, projects, predicts, potential and similar expressions intended to identify forward-looking statements. These statements reflect our current views with respect to future events and are based on assumptions and subject to risks and uncertainties. Given these uncertainties, you should not place undue reliance on these forward-looking statements. We discuss many of these risks in greater detail under the caption Risk Factors above as well as the risk factors contained in our filings with the Securities and Exchange Commission, or the SEC, that are incorporated by reference in this prospectus. Further, any forward-looking statement speaks only as of the date on which it is made, and we undertake no obligation to update any forward-looking statement or statements to reflect events or circumstances after the date on which such statement is made or to reflect the occurrence of unanticipated events. New factors emerge from time to time, and it is not possible for us to predict which factors will arise. In addition, we cannot assess the impact of each factor on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

You should read this prospectus, the documents we have filed with the SEC that are incorporated by reference and any free writing prospectus that we have authorized for use in connection with this offering completely and with the understanding that our actual future results may be materially different from what we expect. We qualify all of the forward-looking statements in the foregoing documents by these cautionary statements.

**USE OF PROCEEDS**

We estimate that the net proceeds from the sale of the 2,000,000 shares of common stock that we are offering will be approximately \$34.8 million, or approximately \$40.9 million if the underwriters exercise in full their option to purchase an additional 345,000 shares of common stock, based on the public offering price of \$18.50 per share and after deducting the underwriting discounts and commissions and estimated offering expenses payable by us.

We currently intend to use the net proceeds from this offering for the following purposes:

approximately \$32.0 million to \$36.0 million for new unit expansion;

approximately \$2.5 million to \$4.0 million for remodel and maintenance capital expenditures; and

the remainder of the net proceeds for working capital and other general corporate purposes.

We will not receive any proceeds from the sale of 300,000 shares of common stock by the selling stockholders, which are estimated to be approximately \$5.3 million, after deducting the underwriting discounts and commissions.

This expected use of net proceeds for this offering represents our current intentions based upon our present plans and business conditions. However, the amount and timing of actual expenditures may vary significantly depending on a number of factors, such as the availability of new unit expansion opportunities through development or acquisition, the pace of our expansion efforts, the need to supplement, repair or replace capital equipment, our remodeling needs, the status of our sales and marketing activities, the amount of cash otherwise used by operations and the availability of debt financing on terms advantageous to us. Accordingly, our management will have broad discretion in the application of such net proceeds, and investors will be relying on the judgment of our management regarding the application of the net proceeds from the sale of shares of common stock by us. Pending application of the net proceeds as described above, we intend to invest the net proceeds in investment grade interest bearing instruments.

**Table of Contents****SELLING STOCKHOLDERS**

The following table sets forth information as of June 19, 2014, regarding beneficial ownership of each selling stockholder that is offering shares of our common stock pursuant to this prospectus. When we refer to the selling stockholders in this prospectus, we mean those persons listed in the table below. Except as stated below, the address for each selling stockholder is c/o Kona Grill, Inc., 7150 East Camelback Road, Suite 220, Scottsdale, Arizona 85251. The selling stockholders may be deemed to be underwriters within the meaning of the Securities Act.

We have determined beneficial ownership in accordance with SEC rules. The information does not necessarily indicate beneficial ownership for any other purpose. Except as indicated in the footnotes to this table and pursuant to state community property laws, we believe, based upon the information furnished to us, that the persons named in this table have sole voting and investment power with respect to all shares reflected as beneficially owned by them. In computing the number of shares beneficially owned by a person and the percentage ownership of that person, shares of common stock that could be issued upon the exercise of outstanding options held by that person that are currently exercisable or exercisable within 60 days of June 19, 2014 are considered outstanding. These shares, however, are not considered outstanding when computing the percentage ownership of any other person.

**Table of Contents****UNDERWRITING**

Subject to the terms and conditions set forth in an underwriting agreement by and among KeyBanc Capital Markets Inc., as representative for the underwriters named in the agreement, us and the selling stockholders, we and the selling stockholders have agreed to sell to each underwriter, and each underwriter has severally agreed to purchase from us and the selling stockholders, the number of shares of common stock set forth opposite its name in the table below:

Underwriter	Number of Shares
KeyBanc Capital Markets Inc.	1,150,000
Raymond James & Associates, Inc.	598,000
Feltl and Company, Inc.	138,000
Janney Montgomery Scott LLC	138,000
Lake Street Capital Markets, LLC	138,000
Wunderlich Securities, Inc.	138,000
<b>Total</b>	<b>2,300,000</b>

Under the terms of the underwriting agreement, the underwriters are committed to purchase all of these shares if any shares are purchased. If an underwriter defaults, the underwriting agreement provides that the purchase commitments of the nondefaulting underwriters may be increased or the underwriting agreement may be terminated.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act, or to contribute to payments the underwriters may be required to make because of any of those liabilities.

The underwriting agreement provides that the underwriters' obligations to purchase the common stock depends on the satisfaction of the conditions contained in the underwriting agreement. The conditions contained in the underwriting agreement include the requirement that the representations and warranties made by us to the underwriters are true, that there is no material change in the financial markets and that we deliver to the underwriters customary closing documents.

The underwriters propose to offer the shares of common stock directly to the public at the public offering price set forth on the cover of this prospectus and to certain dealers at such price less a concession not in excess of \$0.555 per share. If all of the shares are not sold at the public offering price, the representative of the underwriters may change the public offering price and the other selling terms.

We have granted the underwriters an option to purchase up to 345,000 additional shares at the public offering price less the underwriting discount. The underwriters may exercise the option for 30 days from the date of this prospectus. If the underwriters exercise this option, each will be obligated, subject to conditions contained in the underwriting agreement, to purchase a number of additional shares of common stock proportionate to that underwriter's initial amount reflected in the above table.

The following table shows the per share and total underwriting discount that we and the selling stockholders will pay to the underwriters. These amounts are shown assuming both no exercise and full exercise of the underwriters' option to purchase additional shares.

	<b>Per Share</b>	<b>Total Without Option Exercised</b>	<b>Total With Option Exercised</b>
Public offering price	\$ 18.500	\$ 42,550,000	\$ 48,932,500
Underwriting discount	\$ 0.925	\$ 2,127,500	\$ 2,446,625
Proceeds (before expenses) to us	\$ 17.575	\$ 35,150,000	\$ 41,213,375
Proceeds (before expenses) to the selling stockholders	\$ 17.575	\$ 5,272,500	\$ 5,272,500

---

**Table of Contents**

We estimate that the total expenses related to this offering payable by us, excluding underwriting discounts and commissions, will be approximately \$330,000.

We, our executive officers and directors and certain affiliates thereof have agreed with the underwriters, for a period of 90 days after the date of this prospectus, subject to certain exceptions, not to offer, sell, hedge or otherwise dispose of any shares of common stock or any securities convertible into or exchangeable for shares of our common stock, without the prior written consent of KeyBanc Capital Markets Inc. Immediately after this offering, 3,063,000 shares of common stock are beneficially owned by our executive officers and directors and certain affiliates thereof. However, KeyBanc Capital Markets Inc. may, in its sole discretion and at any time without notice, release all or any portion of the securities subject to these lock-up agreements. When determining whether to release securities from the lock-up agreements, KeyBanc Capital Markets Inc. may consider, among other factors, market conditions at the time, the number of securities for which the release is requested and the stockholder's reasons for requesting the release. Notwithstanding the foregoing, if, under certain circumstances during the term of this lock-up, we issue an earnings release or announce that we will release earnings or material news or a material event regarding our company occurs, then the lock-up period will continue to apply until the expiration of the 18-day period beginning on the issuance of the earnings release or the occurrence of the material news or material event.

Until the distribution of the shares of our common stock is completed, SEC rules may limit the underwriters from bidding for and purchasing our common stock. However, the underwriters may engage in transactions that stabilize the price of our common stock, such as bids or purchases of shares in the open market while this offering is in progress to peg, fix, or maintain that price. These transactions also may include short sales and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of shares than they are required to purchase in this offering. Covered short sales are sales made in an amount not greater than the underwriters' option to purchase additional shares from us. The underwriters may reduce that short position by purchasing shares in the open market or by exercising all or part of the option to purchase additional shares described above. In determining the source of shares to close out the covered short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase additional shares pursuant to the option granted to them. Naked short sales are any sales in excess of such option. The underwriters must close out any naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the common stock in the open market after pricing that could adversely affect investors who purchase in this offering.

The underwriters may also impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representative has repurchased shares of our common stock sold by or for the account of such underwriter in stabilizing or short covering transactions.

Neither we nor the underwriters make any representation or prediction as to the effect the transactions described above may have on the price of our common stock. Any of these activities may have the effect of preventing or retarding a decline in the market price of our common stock. They may also cause the price of our common stock to be higher than the price that would otherwise exist on the open market in the absence of these transactions. The underwriters may conduct these transactions on the NASDAQ Global Market or in the over-the-counter market, or otherwise. If the underwriters commence any of these transactions, they may discontinue them without notice at any time.

In connection with this offering, the underwriters may also engage in passive market making transactions in our common stock on the NASDAQ Global Market in accordance with Rule 103 of Regulation M under the Exchange Act during a period before the commencement of offers or sales of common stock and extending through the completion of distribution. A passive market maker must display its bid at a price not in excess of the highest

independent bid of that security. However, if all independent bids are lowered below the passive market maker's bid, that bid must then be lowered when specified purchase limits are exceeded.

**Table of Contents**

In connection with the offering, certain of the underwriters or securities dealers may distribute prospectuses by electronic means, such as e-mail.

**Conflicts of Interest**

An affiliate of KeyBanc Capital Markets Inc., which is the representative for the underwriters in this offering, is a lender under our unsecured revolving credit facility. An affiliate of KeyBanc Capital Markets Inc. also acts as an agent in connection with our unsecured revolving credit facility and has received and will continue to receive customary compensation in connection with our unsecured revolving credit facility.

In addition, certain of the underwriters and their respective affiliates have engaged in, and may in the future engage in, investment banking and other transactions with us and perform services for us in the ordinary course of their business. They have received customary fees and commissions for those transactions. In the course of their businesses, the underwriters and their respective affiliates may actively trade our securities or loans for their own account or for the accounts of customers, and, accordingly, the underwriters and their respective affiliates may at any time hold long or short positions in such securities or loans.

**DESCRIPTION OF CAPITAL STOCK**

**General**

The following is a summary of the rights of our common stock and preferred stock and of certain provisions of our Amended and Restated Certificate of Incorporation and Bylaws. For more detailed information, please see our Amended and Restated Certificate of Incorporation and Bylaws, which we previously filed with the SEC and are incorporated by reference into this registration statement of which this prospectus is part.

Our authorized capital stock consists of 17,000,000 shares, all with a par value of \$0.01 per share, of which:

15,000,000 shares are designated as common stock; and

2,000,000 shares are designated as preferred stock.

**Common Stock**

The holders of common stock are entitled to one vote per share on all matters to be voted upon by stockholders. There is no cumulative voting. Subject to preferences that may be applicable to any outstanding preferred stock, holders of common stock are entitled to receive ratably such dividends as may be declared by the Board of Directors out of funds legally available for that purpose. In the event of the liquidation, dissolution, or winding up of the Company, the holders of common stock are entitled to share ratably in all assets remaining after payment of liabilities and the liquidation preferences of any outstanding preferred stock. The common stock has no preemptive or conversion rights, other subscription rights, or redemption or sinking fund provisions.

On June 19, 2014, the closing sale price of our common stock was \$18.94 per share. On June 19, 2014, there were 18 holders of record of our common stock.

**Preferred Stock**

The Company's Amended and Restated Certificate of Incorporation authorizes the Company's Board of Directors to issue up to 2,000,000 shares in one or more series of preferred stock and to determine, with respect to any series of preferred stock, the terms and rights of such series without any further vote or action by the Company's stockholders.

**Transfer Agent and Registrar**

The transfer agent and registrar for our common stock is Continental Stock Transfer & Trust Company.

**Trading of Securities**

Our common stock has traded on the NASDAQ Global Market under the symbol KONA since our initial public offering on August 16, 2005.

**Anti-Takeover Effect of Delaware Law and Certain Charter and Bylaw Provisions**

Certain provisions of our Amended and Restated Certificate of Incorporation, Bylaws and Delaware law, which are summarized below, are intended to enhance the likelihood of continuity and stability in the composition of our board of directors and in the policies formulated by our board of directors and to discourage certain types of transactions that may involve an actual or threatened change of control. In that regard, these provisions are designed to reduce our vulnerability to an unsolicited acquisition proposal. The provisions also are intended to discourage certain tactics that may be used in proxy fights. However, such provisions could have the effect of discouraging others from making tender offers for our shares or may otherwise delay, defer or prevent a tender offer or takeover attempt of our company that a stockholder might consider in his or her best interest, including those attempts that

**Table of Contents**

might result in a premium over the market price for the shares held by our stockholders. As a consequence, they also may inhibit fluctuations in the market price of our common stock that could result from actual or rumored takeover attempts. Such provisions also may have the effect of preventing changes in our management.

*Blank Check Preferred Stock.* Our Amended and Restated Certificate of Incorporation contains provisions that permit our board of directors to issue, without any further vote or action by the stockholders, up to 2,000,000 shares of preferred stock in one or more series and, with respect to each such series, to fix the number of shares constituting the series and the designation of the series, the voting powers (if any) of the shares of the series, and the preferences and relative, participating, optional and other special rights, if any, and any qualifications, limitations or restrictions, of the shares of such series. As a result, our board of directors could authorize the issuance of shares of preferred stock with terms and conditions that could have the effect of delaying, deferring or preventing a transaction or a change in control that might involve a premium price for holders of the registrant's common stock or otherwise be in their best interest.

*Special Meetings of Stockholders.* Our Bylaws provide that special meetings of stockholders may be called only by the chairman of the board of directors, the chief executive officer, the president or the secretary. Stockholders are not permitted to call a special meeting of stockholders or to require that the board of directors call such a special meeting.

*Delaware Takeover Statute.* We are subject to the provisions of Section 203 of the General Corporation Law of the State of Delaware, an anti-takeover law. In general, Section 203 prohibits a publicly held Delaware corporation from engaging in a business combination with an interested stockholder for a period of three years after the date of the transaction in which the person became an interested stockholder, unless:

prior to such date, the board of directors of the corporation approved either the business combination or the transaction that resulted in the stockholder becoming an interested stockholder;

on consummation of the transaction that resulted in the stockholder becoming an interested stockholder, the interested stockholder owned at least 85% of the voting stock of the corporation outstanding at the time the transaction commenced, excluding for purposes of determining the number of shares outstanding those shares owned (x) by persons who are directors and also officers and (y) by employee stock plans in which employee participants do not have the right to determine confidentially whether shares held subject to the plan will be tendered in a tender or exchange offer; or

on or subsequent to such date, the business combination is approved by the board of directors and authorized at an annual or special meeting of stockholders, and not by written consent, by the affirmative vote of at least 66<sup>2/3</sup>% of the outstanding voting stock that is not owned by the interested stockholder.

Section 203 of the Delaware General Corporation Law defines business combination to include:

any merger or consolidation involving the corporation and the interested stockholder;

any sale, transfer, pledge or other disposition of 10% or more of the assets of the corporation involving the interested stockholder;

subject to certain exceptions, any transaction that results in the issuance or transfer by the corporation of any stock of the corporation to the interested stockholder;

any transaction involving the corporation that has the effect of increasing the proportionate share of the stock of any class or series of the corporation beneficially owned by the interested stockholder; or

the receipt by the interested stockholder of the benefit of any loans, advances, guarantees, pledges or other financial benefits provided by or through the corporation.

In general, Section 203 defines an interested shareholder as an entity or person beneficially owning 15% or more of the outstanding voting stock of the corporation and any entity or person affiliated with such entity or person.

We have filed with the SEC a registration statement on Form S-3 under the Securities Act relating to the common stock offered by this prospectus. We also file annual, quarterly and current reports, proxy statements and other information with the SEC.

Our SEC filings are available to the public over the Internet at the SEC's website at <http://www.sec.gov>. Copies of certain information filed by us with the SEC are also available on our website at [www.konagrill.com](http://www.konagrill.com). Our website, however, is not a part of this prospectus. You may also read and copy any document we file with the SEC at its public reference room, at 100 F Street, N.E., Washington, D.C. 20549. Please call the SEC at 1 800 SEC 0330 for further information on the operation of its public reference room.

You should review the information and exhibits included in the registration statement for further information about us and the common stock we are offering. Statements in this prospectus concerning any document we filed as an exhibit to the registration statement or that we otherwise filed with the SEC are not intended to be comprehensive and are qualified by reference to these filings. You should review the complete document to evaluate these statements. See **Incorporation of Certain Information By Reference** for additional information.
