**Shaw announces third quarter financial and operating results  
and updated guidance**

**Third quarter and year-to-date consolidated revenues improved 1% and 2%, respectively, over the same periods last year and operating income before restructuring costs and amortization increased 3% and 1%, respectively.**

**Net income was \$228 million or \$0.47 per share for the quarter and \$695 million or \$1.45 per share for the year-to-date period.**

**2014 financial guidance updated with free cash flow now expected to exceed \$650 million.**

**Calgary, Alberta (June 26, 2014)** Shaw Communications Inc. announced consolidated financial and operating results for the three and nine months ended May 31, 2014. Consolidated revenue for the current quarter and year-to-date period of \$1.34 billion and \$3.98 billion, respectively, was up 1% and 2% over the comparable periods last year. Total operating income before restructuring costs and amortization<sup>1</sup> of \$601 million improved 3% over the comparable quarter while the year-to-date amount of \$1.74 billion improved 1% over the prior year.

Free cash flow<sup>1</sup> for the three and nine month periods of \$240 million and \$555 million, respectively, compared to \$138 million and \$543 million for the same periods last year. The current three month period included lower capital investment compared to the prior year.

Net income of \$228 million or \$0.47 per share for the quarter ended May 31, 2014 compared to \$250 million or \$0.52 per share for the same period last year. Net income for the nine month period was \$695 million or \$1.45 per share compared to \$667 million or \$1.40 per share. The year-to-date improvement was primarily due to lower amortization and interest expense partially offset by restructuring amounts. The current quarter declined as the net impact of the aforementioned items and lower income taxes was more than offset by the gain on sale of certain cable assets in the comparable quarter.

Chief Executive Officer, Brad Shaw said, "Our third quarter operating and financial results were solid as we continue to focus on the customer experience, leading technology, value leadership, and operational efficiencies. During the quarter we undertook various actions to improve our overall efficiency, including announcing a reorganization of our Cable and Satellite business units into Consumer and Business, enhancing our ability to grow as the leading content and network experience company."

We continue to invest in our network and systems to deliver an exceptional customer experience. During the quarter we surpassed 40,000 hotspots for Shaw Go WiFi and launched a number of new apps as we enhance our products and services.

Revenue in the Cable division of \$845 million and \$2.53 billion for the current three and nine month periods improved 2% and 3%, respectively, over the comparable periods. Operating income before restructuring costs and amortization for the quarter of \$417 million increased 5% over the same quarter last year and the year-to-date period improved 3% to \$1.22 billion.

Satellite revenue of \$220 million and \$658 million for the three and nine month periods, respectively, compared to \$218 million and \$641 million in the same periods last year. Operating income before restructuring costs and amortization for the current quarter was \$70 million compared to \$72 million last year and the year-to-date amount of \$205 million declined from \$219 million in the prior year.

Quarterly revenue and operating income before restructuring costs and amortization in the Media division of \$301 million and \$114 million, respectively, declined from \$307 million and \$116 million in the same period last year. On a year-to-date basis Media revenue was \$865 million compared to \$875 million last year and operating income before restructuring costs and amortization was \$312 million compared to \$319 million in the comparable period last year.

Brad Shaw concluded Our commitment to putting our customer first has not waived and continues to drive sustainable growth, delivering value to our customers and our shareholders. Our positive momentum is expected to continue and as a result we are increasing our fiscal 2014 guidance and now expect free cash flow to exceed \$650 million.

We have evolved from a traditional cable and media company to a diverse entertainment and communications leader, delivering connectivity and programming across multiple platforms and services. We remain focused on driving performance and value for all of our stakeholders through continuous enhancements and improvements in our operations.

## Shaw Communications Inc.

### Consolidated Overview

Consolidated revenue of \$1.34 billion and \$3.98 billion for the three and nine month periods improved 1% and 2%, respectively, over the comparable periods last year. Consolidated operating income before restructuring costs and amortization for the three month period of \$601 million improved 3%, while the year-to-date amount of \$1.74 billion improved 1% over the prior year. After adjusting for the net impact of acquisition and disposition activity, operating income before restructuring costs and amortization was up 4% for the quarter and 2% on a year-to-date basis.

The revenue growth in the Cable division, primarily driven by pricing adjustments and growth in Business, were partially reduced by various expense increases including employee related amounts and programming. Media's revenue and operating income before restructuring costs and amortization were down primarily due to reduced advertising revenues partially offset by increased subscriber revenues as well as the favorable impact of a retroactive adjustment in the first quarter of the year related to distant signal retransmission royalties. Revenue growth in the Satellite division, primarily due to pricing adjustments, was more than offset by higher expenses including operating costs related to the new Anik G1 satellite and programming expenses. Within all segments, the comparable nine month period benefitted from a one-time adjustment related to certain broadcast license fees totaling approximately \$14 million.

The Company's strategy is to balance financial results with maintenance of overall revenue generating units (RGUs). The Cable and Satellite divisions have 6.2 million RGUs which represents the number of products sold to customers. During the quarter overall RGUs declined by 450. The Video loss of 12,075 benefitted from a strong quarter of Business net additions of approximately 6,000.

During the quarter, the Company announced changes to the structure of its operating divisions to improve overall efficiency while enhancing its ability to grow as the leading content and network experience company. Shaw's residential and enterprise services will be reorganized into new Consumer and Business units while the Media division will continue to be managed as a standalone unit. In connection with the restructuring of its operations, the Company recorded \$53 million primarily in respect of the approximate 400 management and non-customer facing roles which were affected by the organizational changes. The anticipated annual savings, net of hires to support the new structure, is approximately \$50 million. The Company expects to commence reporting on the new divisions of Consumer, Business and Media in the first quarter of fiscal 2015.

Shaw added to its TV Everywhere content strategy during the quarter with the launch of three additional Shaw Go kids apps, giving families on-the-go access to their favorite programming. Shaw also continued to invest in Shaw Go WiFi and now has over 40,000 hotspots and over 1,000,000 devices registered on the network, reflecting the value of the service to our customers.

During the quarter Shaw entered into a marketing, content and promotion partnership with Rdio, Inc. (Rdio) a leading digital music service with a catalog of over 20 million songs. The service allows users to listen anywhere the web, phone, or offline and complements Shaw's broadband and Shaw Go WiFi services. As part of the arrangement Shaw made a financial investment in Rdio's holding company, Pulser Media Inc. (Pulser). In addition this quarter, Shaw also made a minority investment in SHOP.CA, one of Canada's leading on-line ecommerce destinations.

**Shaw Communications Inc.**

Last year, Shaw entered into a number of transactions with Corus Entertainment Inc. ( Corus ), a related party subject to common voting control. In a series of agreements to optimize its portfolio of specialty channels, Shaw agreed to sell to Corus its 49% interest in ABC Spark and 50% interest in its two French-language channels, Historia and Series+. In addition, Corus agreed to sell to Shaw its 20% interest in Food Network Canada. The ABC Spark and Food Network Canada transactions closed April 30, 2013 and Historia and Series+ closed on January 1, 2014. The Company recorded a gain of \$49 million on the sale of Historia and Series+.

Net income was \$228 million and \$695 million for the three and nine months ended May 31, 2014 compared to \$250 million and \$667 million for the same periods last year. Outlined below are details on operating and non-operating components of net income for each period.

(2) Net other costs and revenue includes gains on sale of media assets and cablesystem, acquisition and divestment costs, gain on sale of associate, accretion of long-term liabilities and provisions, debt retirement costs and other losses as detailed in the unaudited interim Consolidated Statements of Income.

Basic earnings per share were \$0.47 and \$1.45 for the current quarter and year-to-date periods, respectively, compared to \$0.52 and \$1.40 in the same periods last year. The year-to-date improvement was primarily due to lower amortization and interest expense partially offset by restructuring costs. The current quarter declined as the net impact of the aforementioned items and lower income taxes was more than offset by the gain on sale of Mountain Cablevision Limited ( Mountain Cable ) in the comparable quarter.

Net income in the current quarter was comparable to the second quarter of fiscal 2014. In the current quarter higher operating income before restructuring costs and amortization of \$73 million, primarily due to seasonality in the Media business, and lower amortization was offset by \$53 million of restructuring costs and the gain recorded in the prior quarter on the sale of certain media assets.

Free cash flow for the quarter of \$240 million improved from \$138 million in the comparative three month period primarily due to lower capital investment of \$87 million. Free cash flow for the year-to-date period of \$555 million was comparable to \$543 million in the same period last year.

**Key Performance Drivers**

The Company's continuous disclosure documents may provide discussion and analysis of non-IFRS financial measures. These financial measures do not have standard definitions prescribed by IFRS and therefore may not be comparable to similar measures disclosed by other companies. The Company's continuous disclosure documents may also provide discussion and analysis of additional GAAP measures. Additional GAAP measures include line items, headings, and sub-totals included in the financial statements.

The Company utilizes these measures in making operating decisions and assessing its performance. Certain investors, analysts and others, utilize these measures in assessing the Company's operational and financial performance and as an indicator of its ability to service debt and return cash to shareholders. The non-IFRS financial measures and additional GAAP measures have not been presented as an alternative to net income or any other measure of performance required by IFRS.

**Shaw Communications Inc.**

The following contains a listing of non-IFRS financial measures and additional GAAP measures used by the Company and provides a reconciliation to the nearest IFRS measure or provides a reference to such reconciliation.

Operating income before restructuring costs and amortization

Operating income before restructuring costs and amortization is calculated as revenue less operating, general and administrative expenses. It is intended to indicate the Company's ongoing ability to service and/or incur debt, and therefore it is calculated before one-time items like restructuring costs, amortization (a non-cash expense) and interest. Operating income before restructuring costs and amortization is also one of the measures used by the investing community to value the business.

<b>Operating income before restructuring costs and amortization</b>	<b>601</b>	585	<b>1,737</b>	1,724

Operating margin

Operating margin is calculated by dividing operating income before restructuring costs and amortization by revenue.

Free cash flow

The Company utilizes this measure to assess the Company's ability to repay debt and return cash to shareholders.

Free cash flow is calculated as operating income before restructuring costs and amortization, less interest, cash taxes paid or payable, capital expenditures (on an accrual basis and net of proceeds on capital dispositions and adjusted to exclude amounts funded through the accelerated capital fund) and equipment costs (net), adjusted to exclude share-based compensation expense, less cash amounts associated with funding the new and assumed CRTC benefit obligations related to the acquisition of Shaw Media as well as excluding non-controlling interest amounts that are consolidated in the operating income before restructuring costs and amortization, capital expenditure and cash tax amounts. Free cash flow also includes changes in receivable related balances with respect to customer equipment financing transactions as a cash item, and is adjusted for recurring cash funding of pension amounts net of pension expense. Dividends paid on the Company's Cumulative Redeemable Rate Reset Preferred Shares are also deducted.

**Shaw Communications Inc.**

Free cash flow has not been reported on a segmented basis. Certain components of free cash flow including operating income before restructuring costs and amortization, capital expenditures (on an accrual basis net of proceeds on capital dispositions) and equipment costs (net), CRTC benefit obligation funding, and non-controlling interest amounts continue to be reported on a segmented basis. Other items, including interest and cash taxes, are not generally directly attributable to a segment, and are reported on a consolidated basis.

For free cash flow purposes the Company considered the initial \$300 million supplemental executive retirement plan funding in the prior year to be a financing transaction and has not included the amount funded or the related cash tax recovery in the free cash flow calculation.

Accelerated capital fund

During the prior year, the Company established a notional fund, the accelerated capital fund, of up to \$500 million with proceeds received, and to be received, from several strategic transactions. The accelerated capital initiatives will be funded through this fund and not cash generated from operations. Key investments include the completion of the Calgary internal data centre, further digitization of the network and additional bandwidth upgrades, development of IP delivery of video, expansion of the WiFi network, and additional innovative product offerings related to Shaw Go and other applications to provide an enhanced customer experience. It is expected up to \$500 million will be invested in fiscal 2013, 2014 and 2015. Approximately \$110 million was invested in fiscal 2013 and \$250 million and \$140 million, respectively, are expected to be invested in fiscal 2014 and 2015.

(2) The three and nine months ended May 31, 2014 include \$53 million (2013 \$40 million) and \$161 million (2013 \$50 million), respectively, related to certain capital investments that are being funded from the accelerated capital fund.

## Operating Highlights

Revenue and operating income before restructuring costs and amortization improved 3.3% and 2.9%, respectively, over the comparable period last year.

During the quarter Internet customers were up 12,399 to 1,918,418 and Digital Phone lines increased 4,834 totaling 1,374,220 as at May 31, 2014. Video subscribers decreased 12,075.

Cable revenue for the three and nine month periods of \$845 million and \$2.53 billion improved 2.4% and 3.3%, respectively, over the comparable periods last year. Price adjustments along with growth in Business, including the Envision acquisition, were partially offset by lower Video subscribers and the divestiture of Mountain Cable. In addition, the year-to-date results benefitted from lower promotional activity compared to the prior year.

Operating income before restructuring costs and amortization for the quarter of \$417 million was up 5.0% over the same period last year. The year-to-date amount of \$1.22 billion improved 2.9%. In each of the current periods, the net revenue related improvements, along with lower marketing expenses and the reduction in the local programming improvement fund ( LPIF ) from 1.0% to 0.5%, were partially reduced by increased programming amounts related to new services and increased rates as contracts renewed and higher employee related costs. The prior nine month period also benefitted from a favorable adjustment of approximately \$7 million to align certain broadcast license fees with the CRTC billing period.

Compared to the second quarter of fiscal 2014 revenue improved 1% and operating income before restructuring costs and amortization was up 4.8%. Price adjustments, customer growth, and lower employee related costs due to the restructuring and various other expense reductions contributed to the improvement.

**Shaw Communications Inc.**

Capital investment was \$213 million and \$712 million in the current three and nine month periods and included \$53 million and \$161 million, respectively, of investment funded through the accelerated capital fund. Capital investment for the same periods last year was \$255 million and \$571 million and included \$40 million and \$50 million, respectively, of investment funded through the accelerated capital fund. The accelerated capital fund initiatives include continued investment on the new data centre, network capacity, next generation delivery systems, and expediting the WiFi infrastructure build.

Success-based capital in the quarter was \$6 million lower than the comparable three month period due to lower video equipment activations, partially offset by higher WiFi modem purchases. For the nine month period success-based spend was \$41 million higher than the same period last year due to Video equipment included offers and higher WiFi modem purchases.

Quarterly investment in Upgrades and enhancement and Replacement categories combined of \$94 million declined \$29 million compared to the third quarter last year mainly due to timing of spending in the current year on IPTV delivery systems ( IPTV ). For the year-to-date period investment was up \$37 million to \$317 million due to higher investment on IPTV and related network electronics, upgrades to improve internet bandwidth capacity and congestion, and business customer growth, partially offset by prior year investment in the digital network upgrade project.

Investment in Buildings and other for the current quarter was in line with same period last year. The year-to-date increase of \$67 million related to higher spending on the new internal data centre, Shaw Court refurbishment and investment in certain other corporate assets.

Spending in New housing development was down \$4 million compared to each of the three month and nine month periods due to marginally lower activity.

Shaw continues to invest in the largest WiFi network in Canada, now with over 40,000 hotspots located in businesses and municipalities from Victoria, British Columbia to Sault Ste. Marie, Ontario. Shaw's carrier-grade network allows Shaw Internet customers, while on the go, to access and stream internet content, including Shaw Go Apps. During the quarter, Shaw announced a partnership with the City of Penticton to offer Shaw Go WiFi service at key City locations that will provide both residents and Shaw customers with even greater access to Shaw Go WiFi.

In addition to the launch of three new Shaw Go kids apps offering parents and children access to select programming from Family Channel, Disney XD and Disney Junior programs anytime, anywhere, Shaw also launched the Shaw Go Gateway app. The Shaw Go Gateway app allows customers with Shaw Gateway equipment to search and record all their favourite shows no matter where they are, in or out of their home from an Apple device or Android tablet.

### **Operating Highlights**

Revenue for the current quarter and year-to-date period improved 0.9% and 2.7%, respectively. Operating income before restructuring costs and amortization of \$70 million and \$205 million for the three and nine month periods, respectively, declined from \$72 million and \$219 million in the same periods last year.

During the quarter Shaw Direct subscribers declined 5,608. As at May 31, 2014 DTH customers totaled 887,229. Revenue of \$220 million and \$658 million for the three and nine month periods was up \$2 million and \$17 million over the comparable periods last year primarily due to rate adjustments partially offset by customer declines.

**Shaw Communications Inc.**

Operating income before restructuring costs and amortization of \$70 million and \$205 million for the three and nine month periods, respectively, declined \$2 million and \$14 million compared to the same periods last year. The revenue related growth was more than offset by operating costs related to the Anik G1 transponders launched in the third quarter last year, higher fees related to programming services, and various other expenses. The prior nine month period also benefitted from a favorable adjustment of approximately \$4 million to align certain broadcast license fees with the CRTC billing period.

Revenue and operating income before restructuring costs and amortization for the current quarter were comparable to the second quarter of fiscal 2014.

Total capital investment of \$17 million and \$71 million for the three and nine month periods declined from \$46 million and \$92 million, respectively, in the same periods last year. The decrease was primarily due to the prior year periods including the final payment related to the Anik G1 transponders.

**Operating Highlights**

Revenue and operating income before restructuring costs and amortization for the quarter was \$301 million and \$114 million, respectively, compared to \$307 million and \$116 million last year. The revenue decline was primarily due to the impact of the disposition of Historia and Series+ effective January 1, 2014 and a decline in advertising revenue, partially offset by increased subscriber and other revenues. The decrease in operating income before restructuring costs and amortization was due to the revenue decline partially offset by expense reductions including employee related and various other.

For the nine months ending May 31, 2014 revenue of \$865 million and operating income before restructuring costs and amortization of \$312 million compared to \$875 million and \$319 million, respectively, for the same periods last year. The decline in advertising revenues and the impact of the disposition of Historia and Series+ was partially offset by increased subscriber and other revenues that included a retroactive adjustment of \$6 million related to Global's share of royalties for distant signal transmission for the years 2009 through 2013. Operating income before restructuring costs and amortization declined due to the net revenue decrease partially reduced by various expense reductions. The prior nine month period also benefitted from a favorable adjustment of approximately \$3 million to align certain broadcast license fees with the CRTC billing period.

Compared to the second quarter of fiscal 2014, revenue and operating income before restructuring costs and amortization improved \$62 million and \$53 million, respectively. The increase was primarily due to the seasonality of the Media business, with higher advertising revenues in the first and third quarters driven by launches of season premieres in the first quarter and mid season launches along with season finales in the third quarter resulting in higher advertiser demand.

In the quarter, Global continued to deliver solid programming results with strong audiences across a number of properties. Survivor ranked in the Top 5 nationally and in the Top 10 in all major metered markets. The NCIS franchise, Bones and two new programs, The Blacklist and Almost Human, delivered audiences in the Top 20 nationally. The return of 24: Live Another Day and the Canadian drama Rookie Blue season 5 each premiered in May 2014 to nearly 2 million viewers. In the summer schedule, Global will see the return of Big Brother, Rookie Blue and Under the Dome, along with new programs such as Extant, Night Shift and Crossbones. Shaw Media's specialty portfolio continues to lead in the program rankings with 7 of the Top 10 and 13 of the Top 20 shows. On the channel rankings, Shaw Media also holds a leadership position, with 4 of the Top 10 analog channels and 5 of the Top 10 digital channels, with History the number one entertainment specialty channel.

During the quarter Shaw Media leveraged its relationships with the US Studios at the recent LA screenings to acquire additional programming that will start premiering in the fall. The new properties include 8 dramas and 4 comedies.

Global News continues to retain the number one position in the Vancouver, Calgary and Edmonton markets, while a focus on on-line and mobile audiences has maintained Globalnews.ca as Canada's fastest growing major news site. Global News continues to receive recognition for the quality of its journalism and public service and recently was honoured with numerous awards from various organizations, including Global Calgary receiving the prestigious Best Local Newscast in Canada award.

**Shaw Communications Inc.**

Capital investment continued on various projects in the quarter and included upgrading production equipment, infrastructure and facility investments.

**OTHER INCOME AND EXPENSE ITEMS****Restructuring costs**

During the current quarter, the Company announced changes to the structure of its operating divisions to improve overall efficiency while enhancing its ability to grow as the leading content and network experience company. In connection with the restructuring of its operations, the Company recorded \$53 million in costs primarily in respect of the approximate 400 management and non-customer facing roles which were affected by the organizational changes.

**Amortization**

(\$ millions Cdn)	Three months ended May 31,			Nine months ended May 31,

Property, plant and equipment, intangibles and other	<b>(164)</b>	(178)	(7.9)	<b>(526)</b>	(530)	(0.8)

Amortization of deferred equipment revenue and deferred equipment costs decreased over the comparable periods primarily due to the impact of the change in the amortization period for amounts in respect of customer premise equipment from two to three years.

Amortization of property, plant and equipment, intangibles and other decreased over the comparable quarter as the amortization of new expenditures was more than offset by the impact of assets that became fully depreciated and the effect of changes in useful lives of certain assets.

**Amortization of financing costs and Interest expense**

(\$ millions Cdn)	Three months ended May 31,			Nine months ended May 31,

Interest expense	<b>62</b>	75	(17.3)	<b>203</b>	234	(13.2)

Interest expense decreased over the comparable periods primarily due to the combined impact of a lower average debt level and reduced average cost of borrowing.

**Gain on sale of media assets**

Edgar Filing: SHAW COMMUNICATIONS INC - Form 6-K

During the prior year, the Company agreed to sell its 50% interest in its two French-language channels, Historia and Series+, to Corus, a related party subject to common voting control. The sale of Historia and Series+ closed on January 1, 2014 and the company recorded proceeds of \$141 million and a gain of \$49 million.

## **Shaw Communications Inc.**

### **Accretion of long-term liabilities and provisions**

The Company records accretion expense in respect of the discounting of certain long-term liabilities and provisions which are accreted to their estimated value over their respective terms. The expense is primarily in respect of CRTC benefit obligations.

### **Debt retirement costs**

On February 18, 2014, the Company redeemed the \$600 million 6.50% senior notes due June 2, 2014. In connection with the early redemption, the Company incurred costs of \$7 million and wrote-off the remaining finance costs of \$1 million.

### **Other losses**

This category generally includes realized and unrealized foreign exchange gains and losses on US dollar denominated current assets and liabilities, gains and losses on disposal of property, plant and equipment and minor investments, and the Company's share of the operations of Burrard Landing Lot 2 Holdings Partnership ( Partnership ). During the prior year, the category included amounts related to the electrical fire and resulting water damage to Shaw Court that occurred during the fourth quarter of 2012. In fiscal 2013, the Company received insurance advances of \$5 million related to its insurance claim and incurred additional costs of \$12 million in respect of ongoing recovery activities. During the current year, the category includes additional proceeds of \$6 million related to the aforementioned insurance claim and also includes a refund of \$5 million in respect of excess money from the Canwest CCAA plan implementation fund and a write-down of \$6 million in respect of discontinued capital projects.

### **Income taxes**

Income taxes were higher in the current year mainly due to higher net income before income tax.

## **RISKS AND UNCERTAINTIES**

The significant risks and uncertainties affecting the Company and its business are discussed in the Company's August 31, 2013 Annual Report under the Introduction to the Business - Known Events, Trends, Risks and Uncertainties in Management's Discussion and Analysis.

## **FINANCIAL POSITION**

Total assets were \$13.1 billion at May 31, 2014 compared to \$12.7 billion at August 31, 2013. Following is a discussion of significant changes in the consolidated statement of financial position since August 31, 2013.

Current assets increased \$53 million primarily due to increases in cash, accounts receivable and inventories of \$74 million, \$58 million and \$22 million, respectively partially offset by a decrease in assets held for sale of \$105 million upon closing the sale of Historia and Series+ in the second quarter. Cash increased as funds provided by operations exceeded cash outlays for investing and financing activities. Accounts receivable increased due to higher advertising revenue in the third quarter of the current year compared to the fourth quarter of the prior year while inventories were higher due to timing of equipment purchases.

**Shaw Communications Inc.**

Investments and other assets increased \$46 million due to various financial investments including the investments in Pulser and SHOP.CA.

Property, plant and equipment increased \$164 million primarily as a result of current year capital investment exceeding amortization.

Other long-term assets decreased \$7 million primarily due to lower customer equipment financing receivables.

Intangibles increased \$64 million mainly due to additional investments in software intangibles and acquired program rights and advances exceeding the amortization for the current year.

Current liabilities decreased \$889 million due to the repayment of the promissory note of \$48 million, a decline in the current portion of long-term debt of \$950 million, a decrease in liabilities associated with assets held for sale of \$14 million and lower accounts payable and accrued liabilities of \$52 million which were partially offset by increases in provisions of \$32 million and income taxes payable of \$134 million. The current portion of long-term debt decreased due to the repayment of the 7.5% \$350 million senior notes which were due in November 2013 and early redemption of the 6.5% \$600 million senior notes which were due June 2014. Liabilities associated with assets held for sale decreased as the sale of Historia and Series+ closed during the second quarter at which time the Company settled the promissory note that had been owing to Corus. Accounts payable and accruals decreased due to timing of payment and fluctuations in various payables including interest and capital expenditures. Provisions increased primarily due to the restructuring while income taxes payable increased due to the current period expense partially offset by net tax installment payments.

Long-term debt increased \$820 million due to the issuance of 4.35% \$500 million senior notes and \$300 million floating rate senior notes and the refinancing of the Partnership's mortgage debt.

Other long-term liabilities decreased \$24 million primarily due to a decrease in CRTC benefit obligations.

Deferred income tax liabilities decreased \$42 million due to the current year income tax recovery.

Shareholders' equity increased \$459 million primarily due to increases in share capital of \$172 million and retained earnings of \$291 million. Share capital increased due to the issuance of 7,070,627 Class B Non-Voting Shares under the Company's option plan and Dividend Reinvestment Plan ( DRIP ). As of June 15, 2014, share capital is as reported at May 31, 2014 with the exception of the issuance of a total of 134,100 Class B Non-Voting Shares upon exercise of options under the Company's option plan. Retained earnings increased due to current year earnings of \$670 million partially offset by dividends of \$379 million.

**Shaw Communications Inc.**

## **LIQUIDITY AND CAPITAL RESOURCES**

In the current nine month period, the Company generated \$555 million of free cash flow. Shaw used its free cash flow along with \$800 million of proceeds from the two senior unsecured note issuances, net proceeds from the transactions with Corus of \$93 million, proceeds on issuance of Class B Non-Voting Shares of \$56 million and other net items of \$40 million (primarily in respect of a net reduction in working capital and inventory) to repay the 7.5% \$350 million senior notes, redeem the 6.5% \$600 million senior notes, pay common share dividends of \$251 million, fund \$161 million of accelerated capital spend, invest an additional net \$34 million in program rights, pay \$26 million of restructuring costs, make \$48 million in financial investments and increase cash balances \$74 million.

To allow for timely access to capital markets, the Company filed a short form base shelf prospectus with securities regulators in Canada and the U.S. on May 13, 2013. The shelf prospectus allows for the issue up to an aggregate \$4 billion of debt and equity securities over a 25 month period. Pursuant to the shelf prospectus, on January 31, 2014 the Company issued \$500 million senior notes at a rate of 4.35% due January 31, 2024 and \$300 million floating rate senior notes due February 1, 2016. The floating rate senior notes bear interest at an annual rate equal to three month CDOR plus 0.69%. The net proceeds from the issuances were used to redeem the \$600 million senior notes due June 2, 2014 and for working capital and general corporate purposes.

On December 5, 2013 Shaw received the approval of the TSX to renew its normal course issuer bid to purchase its Class B Non-Voting Shares for a further one year period. The Company is authorized to acquire up to 20,000,000 Class B Non-Voting Shares during the period December 9, 2013 to December 8, 2014. No shares have been repurchased during the current year.

The Company issues Class B Non-Voting Shares from treasury under its DRIP which resulted in cash savings and incremental Class B Non-Voting Shares of \$107 million during the nine months ending May 31, 2014.

Based on available credit facilities and forecasted free cash flow, the Company expects to have sufficient liquidity to fund operations and obligations during the current fiscal year. On a longer-term basis, Shaw expects to generate free cash flow and have borrowing capacity sufficient to finance foreseeable future business plans and refinance maturing debt.

Funds flow from operations decreased over the comparative three month period due to restructuring amounts and higher current income tax expense partially offset by higher operating income before restructuring costs and amortization as well as lower interest expense. On a year-to-date basis, the impact of the aforementioned items were more than offset by a decrease in program rights purchases in the current period as well as the initial \$300 million supplemental executive retirement plan funding in the prior year. The net change in non-cash working capital balances related to operations fluctuated over the comparative periods due to the timing of payment of current income taxes payable and accounts payable and accrued liabilities as well as fluctuations in accounts receivable.

Quarterly revenue and operating income before restructuring costs and amortization are primarily impacted by the seasonality of the Media division and fluctuate throughout the year due to a number of factors including seasonal advertising and viewing patterns. Typically, the Media business has higher revenue in the first quarter driven by the fall launch of season premieres and high demand and the third quarter is impacted by season finales and mid season launches. Advertising revenue typically declines in the summer months of the fourth quarter when viewership is generally lower.

---

**Shaw Communications Inc.**

Net income has fluctuated quarter-over-quarter primarily as a result of the changes in operating income before restructuring costs and amortization described above and the impact of the net change in non-operating items. In the third quarter of 2014, net income increased by \$6 million due to higher income before restructuring costs and amortization of \$73 million and lower interest and amortization expense totaling \$25 million partially offset by restructuring expenses of \$53 million and reduction in net other revenue items of \$41 million. The reduction in net other revenue items was primarily due to the gain on sale of media assets of \$49 million net of the \$8 million of debt retirement costs recorded in the second quarter. In the second quarter of 2014, net income decreased by \$23 million due to lower operating income before restructuring costs and amortization of \$80 million and increased amortization \$8 million partially offset by an improvement in net other non-operating items of \$36 million and lower income tax expense of \$24 million. In the first quarter of 2014, net income increased by \$128 million due to increased operating income before restructuring costs and amortization of \$112 million, a reduction in net non-operating items of \$21 million and lower amortization of \$29 million partially offset by higher income taxes of \$36 million. The reduction in amortization is due to changes in estimated useful lives of certain property, plant and equipment as well as a change in the amortization period for deferred equipment revenue and the associated deferred equipment costs. Net other non-operating items decreased due to a refund of \$5 million in respect of excess money from the Canwest CCAA plan implementation fund received in the first quarter and the write-down of a real estate property of \$14 million in the fourth quarter. In the fourth quarter of 2013, net income decreased by \$133 million due to decreased operating income before restructuring costs and amortization of \$89 million and reduction in net other revenue items of \$67 million partially offset by lower income taxes of \$34 million. The reduction in net other revenue items was mainly due to the gain on sale of Mountain Cable of \$50 million recorded in the third quarter and aforementioned write-down in the fourth quarter. In the third quarter of 2013, net income increased by \$68 million due to increased operating income before restructuring costs and amortization of \$47 million, the aforementioned gain on sale of Mountain Cable and the gain on sale of the specialty channel ABC Spark partially offset by higher income taxes of \$30 million and acquisition and divestment costs in respect of the transactions with Rogers and the acquisition of Envision. In the second quarter of 2013, net income decreased by \$53 million primarily due to lower operating income before restructuring costs and amortization of \$63 million partially offset by lower income taxes of \$5 million. In the first quarter of 2013, net income increased \$102 million primarily due to higher operating income before restructuring costs and amortization of \$100 million. As a result of the aforementioned changes in net income, basic and diluted earnings per share have trended accordingly.

## ACCOUNTING STANDARDS

### Update to critical accounting policies and estimates

The MD&A included in the Company's August 31, 2013 Annual Report outlined critical accounting policies including key estimates and assumptions that management has made under these policies and how they affect the amounts reported in the Consolidated Financial Statements. The MD&A also describes significant accounting policies where alternatives exist. The condensed interim consolidated financial statements follow the same accounting policies and methods of application as the most recent annual consolidated financial statements other than as set out below.

**Shaw Communications Inc.**

**Adoption of recent accounting pronouncements**

The adoption of the following standards and amendments effective September 1, 2013 had no impact on the Company's consolidated financial statements other than additional disclosure requirements.

IFRS 10, *Consolidated Financial Statements*, replaces previous consolidation guidance and outlines a single consolidation model that identifies control as the basis for consolidation of all types of entities.

IFRS 11, *Joint Arrangements*, replaces IAS 31 *Interests in Joint Ventures* and SIC 13 *Jointly Controlled Entities - Non-Monetary Contributions by Venturers*. The new standard classifies joint arrangements as either joint operations or joint ventures.

IFRS 12, *Disclosure of Interests in Other Entities*, sets out required disclosures on application of IFRS 10, IFRS 11 and IAS 28 (amended 2011).

IAS 27, *Separate Financial Statements* was amended in 2011 for the issuance of IFRS 10 and retains the same guidance for separate financial statements.

IAS 28, *Investments in Associates* was amended in 2011 for changes based on issuance of IFRS 10 and IFRS 11 and provides guidance on accounting for joint ventures, as defined by IFRS 11, using the equity method.

IFRS 13, *Fair Value Measurement*, defines fair value, provides guidance on its determination and introduces consistent requirements for disclosure of fair value measurements.

**Standards and interpretations issued but not yet effective**

The Company has not yet adopted certain standards and interpretations that have been issued but are not yet effective. The following pronouncements are being assessed to determine the impact on the Company's results and financial position.

IFRIC 21, *Levies*, provides guidance on when to recognize a financial liability imposed by a government, if the levy is accounted for in accordance with IAS 37, *Provisions, Contingent Liabilities and Contingent Assets*, or where the timing and amount of the levy is certain. This interpretation is effective for the annual period commencing September 1, 2014 and is not expected to have a significant effect on the Company's financial statements.

IFRS 15, *Revenue from Contracts with Customers*, was issued in May 2014 and replaces IAS 11 *Construction Contracts*, IAS 18 *Revenue*, IFRIC 13 *Customer Loyalty Programs*, IFRIC 15 *Agreements for the Construction of Real Estate*, IFRIC 18 *Transfers of Assets from Customers* and SIC-31 *Revenue Barter Transactions Involving Advertising Services*. The new standard specifies how and when to recognize revenue as well as requiring more informative relevant disclosures. The new standard is effective for the annual period commencing September 1, 2017.

**Shaw Communications Inc.****Change in accounting estimates**

During the first quarter, the Company reviewed the useful lives of its property, plant and equipment as well as the amortization period for amounts deferred under multiple element arrangements, including equipment revenue and associated equipment costs and connection fees. The review resulted in changes in the amortization period for amounts deferred under multiple element arrangements and estimated useful lives of certain assets effective September 1, 2013. As a result, cable and telecommunication distribution system assets are amortized on a straight line basis over 5 to 20 years, and digital cable terminals and modems on a straight line basis over 2 to 5 years. The amortization period for amounts deferred and amortized on a straight line basis under multiple element arrangements is 3 years. The impact of the changes has been accounted for prospectively. The effects of these changes in estimates in respect of unamortized balances at August 31, 2013 resulted in decreases to revenue and amortization as summarized below.

<i>(\$ millions Cdn)</i>	Three months ended May 31, 2014	Nine months ended May 31, 2014

<b>Amortization</b>

<b>2014 GUIDANCE</b>		

The Company's preliminary view with respect to 2014 guidance was provided coincident with the release of its fourth quarter results on October 24, 2013. The Company is now updating its guidance. The Company expects consolidated revenue and operating income before restructuring costs and amortization growth, after adjusting for the net impact of fiscal 2013 acquisition and disposition activity, to range from 2% to 4%. Shaw expects a marginal decline in capital investment, excluding capital investment funded through the accelerated capital fund, and an increase in cash taxes. Free cash flow is now expected to exceed \$650 million.

Certain important assumptions for 2014 guidance purposes include: stable customer base; stable pricing environment for Shaw's products relative to current rates; no significant market disruption or other significant changes in economic conditions, competition or regulation that would have a material impact; stable advertising demand and rates; and a stable regulatory environment.

See the following section entitled "Caution Concerning Forward-Looking Statements".

**CAUTION CONCERNING FORWARD-LOOKING STATEMENTS**

Statements included in this MD&A that are not historic constitute forward-looking statements within the meaning of applicable securities laws. Such statements include, but are not limited to, statements about future capital expenditures, asset dispositions, financial guidance for future performance, business strategies and measures to implement strategies, competitive strengths, expansion and growth of Shaw's business and operations and other goals

and plans. They can generally be identified by words such as anticipate , believe , expect , plan , intend , target , similar expressions (although not all forward-looking statements contain such words). All of the forward-looking statements made in this report are qualified by these cautionary statements.

**Shaw Communications Inc.**

Forward-looking statements are based on assumptions and analyses made by Shaw in light of its experience and its perception of historical trends, current conditions and expected future developments as well as other factors it believes are appropriate in the circumstances as of the current date. These assumptions include, but are not limited to, general economic conditions, interest and exchange rates, technology deployment, content and equipment costs, industry structure, conditions and stability, government regulation and the integration of recent acquisitions. Many of these assumptions are confidential.

You should not place undue reliance on any forward-looking statements. Many factors, including those not within Shaw's control, may cause Shaw's actual results to be materially different from the views expressed or implied by such forward-looking statements, including, but not limited to, general economic, market and business conditions; changes in the competitive environment in the markets in which Shaw operates and from the development of new markets for emerging technologies; industry trends and other changing conditions in the entertainment, information and communications industries; Shaw's ability to execute its strategic plans; opportunities that may be presented to and pursued by Shaw; changes in laws, regulations and decisions by regulators that affect Shaw or the markets in which it operates; Shaw's status as a holding company with separate operating subsidiaries; and other factors referenced in this report under the heading "Risks and uncertainties". The foregoing is not an exhaustive list of all possible factors. Should one or more of these risks materialize, or should assumptions underlying the forward-looking statements prove incorrect, actual results may vary materially from those described herein.

The Company provides certain financial guidance for future performance as the Company believes that certain investors, analysts and others utilize this and other forward-looking information in order to assess the Company's expected operational and financial performance and as an indicator of its ability to service debt and return cash to shareholders. The Company's financial guidance may not be appropriate for this or other purposes.

Any forward-looking statement speaks only as of the date on which it was originally made and, except as required by law, Shaw expressly disclaims any obligation or undertaking to disseminate any updates or revisions to any forward-looking statement to reflect any change in related assumptions, events, conditions or circumstances.

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**(unaudited)**

**May 31, 2014 and 2013**

**[all amounts in millions of Canadian dollars, except share and per share amounts]**

**1. CORPORATE INFORMATION**

Shaw Communications Inc. (the Company) is a diversified Canadian communications company whose core operating business is providing broadband cable television services, Internet, Digital Phone, and telecommunications services (Cable); Direct-to-home satellite services and satellite distribution services (Satellite); and programming content (through Shaw Media). The Company's shares are listed on the Toronto and New York Stock Exchanges.

**2. BASIS OF PRESENTATION AND ACCOUNTING POLICIES**

**Statement of compliance**

These condensed interim consolidated financial statements of the Company have been prepared in accordance with International Financial Reporting Standards (IFRS) and in compliance with International Accounting Standard (IAS) 34 *Interim Financial Reporting* as issued by the International Accounting Standards Board (IASB).

The condensed interim consolidated financial statements of the Company for the three and nine months ended May 31, 2014 were authorized for issue by the Audit Committee on June 25, 2014.

**Basis of presentation**

These condensed interim consolidated financial statements have been prepared primarily under the historical cost convention except as detailed in the significant accounting policies disclosed in the Company's consolidated financial statements for the year ended August 31, 2013 and are expressed in millions of Canadian dollars. The condensed interim consolidated statements of income are presented using the nature classification for expenses.

The notes presented in these condensed interim consolidated financial statements include only significant events and transactions occurring since the Company's last fiscal year end and are not fully inclusive of all matters required to be disclosed by IFRS in the Company's annual consolidated financial statements. As a result, these condensed interim consolidated financial statements should be read in conjunction with the Company's consolidated financial statements for the year ended August 31, 2013.

The condensed interim consolidated financial statements follow the same accounting policies and methods of application as the most recent annual consolidated financial statements except as noted below.

**Adoption of recent accounting pronouncements**

The adoption of the following standards and amendments effective September 1, 2013 had no impact on the Company's consolidated financial statements other than additional disclosure requirements.

IFRS 10, *Consolidated Financial Statements*, replaces previous consolidation guidance and outlines a single consolidation model that identifies control as the basis for consolidation of all types of entities.

IFRS 11, *Joint Arrangements*, replaces IAS 31 *Interests in Joint Ventures* and SIC 13 *Jointly Controlled Entities – Non-Monetary Contributions by Venturers*. The new standard classifies joint arrangements as either joint operations or joint ventures.

IFRS 12, *Disclosure of Interests in Other Entities*, sets out required disclosures on application of IFRS 10, IFRS 11 and IAS 28 (amended 2011).

IAS 27, *Separate Financial Statements* was amended in 2011 for the issuance of IFRS 10 and retains the same guidance for separate financial statements.

Shaw Communications Inc.

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**(unaudited)**

**May 31, 2014 and 2013**

**[all amounts in millions of Canadian dollars, except share and per share amounts]**

IAS 28, *Investments in Associates* was amended in 2011 for changes based on issuance of IFRS 10 and IFRS 11 and provides guidance on accounting for joint ventures, as defined by IFRS 11, using the equity method.

IFRS 13, *Fair Value Measurement*, defines fair value, provides guidance on its determination and introduces consistent requirements for disclosure of fair value measurements. Additional disclosure requirements for the Company's condensed interim consolidated financial statements are included in notes 4 and 11.

**Standards and interpretations issued but not yet effective**

The Company has not yet adopted certain standards and interpretations that have been issued but are not yet effective. The following pronouncements are being assessed to determine the impact on the Company's results and financial position.

IFRIC 21, *Levies*, provides guidance on when to recognize a financial liability imposed by a government, if the levy is accounted for in accordance with IAS 37, *Provisions, Contingent Liabilities and Contingent Assets*, or where the timing and amount of the levy is certain. This interpretation is effective for the annual period commencing September 1, 2014 and is not expected to have a significant effect on the Company's financial statements.

IFRS 15, *Revenue from Contracts with Customers*, was issued in May 2014 and replaces IAS 11 *Construction Contracts*, IAS 18 *Revenue*, IFRIC 13 *Customer Loyalty Programs*, IFRIC 15 *Agreements for the Construction of Real Estate*, IFRIC 18 *Transfers of Assets from Customers* and SIC-31 *Revenue Barter Transactions Involving Advertising Services*. The new standard specifies how and when to recognize revenue as well as requiring more informative relevant disclosures. The new standard is effective for the annual period commencing September 1, 2017.

**Change in accounting estimates**

During the first quarter, the Company reviewed the useful lives of its property, plant and equipment as well as the amortization period for amounts deferred under multiple element arrangements, including equipment revenue and associated equipment costs and connection fees. The review resulted in changes in the amortization period for amounts deferred under multiple element arrangements and estimated useful lives of certain assets effective September 1, 2013. As a result, cable and telecommunication distribution system assets are amortized on a straight line basis over 5 to 20 years, and digital cable terminals and modems on a straight line basis over 2 to 5 years. The amortization period for amounts deferred and amortized on a straight line basis under multiple element arrangements is 3 years. The impact of the changes has been accounted for prospectively. The changes in estimates in respect of

unamortized balances at August 31, 2013 resulted in decreases to revenue and amortization as summarized below.

## 3. BUSINESS SEGMENT INFORMATION

The Company's chief operating decision makers are the CEO and CFO and they review the operating performance of the Company by segments which comprise Cable, Satellite and Media. The chief operating decision makers utilize operating income before restructuring costs and amortization for each segment as a key measure in making operating decisions and assessing performance. The Company recently announced that its residential and enterprise services currently included in the Cable and Satellite segments will be realigned into new Consumer and Business segments. The Company expects to commence reporting under the operating segments of Consumer, Business and Media in fiscal 2015. Shaw Media's operating results are affected by seasonality and fluctuate throughout the year due to a number of factors including seasonal advertising and viewing patterns. As such, operating results for an interim period should not be considered indicative of full fiscal year performance. In general, advertising revenues are higher during the first quarter and lower during the fourth quarter and expenses are incurred more evenly throughout the year. All of the Company's reportable segments are substantially located in Canada. Information on operations by segment is as follows:

SALE OF MEDIA ASSETS AND ASSETS HELD FOR SALE****Transaction with Corus Entertainment Inc. ( Corus )**

During the prior year, the Company agreed to sell its 50% interest in its two French-language channels, Historia and Series+, to Corus, a related party subject to common voting control. The sale of Historia and Series+ closed on January 1, 2014. Sale proceeds of \$141 included \$2 in respect of working capital adjustments. In connection with this closing, the Company settled the non-interest bearing promissory note of \$48 in respect of the net amount owing to Corus for the Food Network Canada and ABC Spark transactions which closed in fiscal 2013. The Historia and Series+ assets and liabilities disposed of were as follows:

**Real estate property**

A real estate property of \$11, being the estimated fair value less costs to sell, has been classified as held for sale in the statement of financial position at May 31, 2014 and August 31, 2013. The estimated fair value has been determined by a commercial real estate service by means of an income capitalization approach using the market rental rate for the area and an appropriate capitalization rate range net of estimated costs of \$8 to complete the property to base building specifications and is considered a level 3 valuation. The income capitalization approach has been used as it is an accepted approach used by real estate investors to value income producing properties when income is not expected to vary significantly over time.

- (2) On January 31, 2014, the Company issued \$500 senior notes at a rate of 4.35% due January 31, 2024 and \$300 floating rate senior rates due February 1, 2016. The \$300 senior notes bear interest at an annual rate equal to three month CDOR plus 0.69%. The senior notes are unsecured obligations and rank equally and ratably with all existing and future senior unsecured indebtedness. The \$500 senior notes are redeemable at the Company's option at any time, in whole or in part, prior to maturity at 100% of the principal plus a make-whole premium.
- (3) On February 27, 2014, the Partnership refinanced its debt. The Partnership received a mortgage loan and used the proceeds to prepay the outstanding balance of the previous mortgage and loan excess funds to each of its partners. The maturity date of the mortgage loan is November 1, 2024 and the interest rate has been fixed at 4.683%. Interest only is payable for the first five years.

**11. FINANCIAL INSTRUMENTS**

Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial instrument. These estimates are subjective in nature and involve uncertainties and matters of significant judgement and, therefore, cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

The fair value of financial instruments has been determined as follows:

**(i) Current assets and current liabilities**

The fair value of financial instruments included in current assets and current liabilities approximates their carrying value due to their short-term nature.

**(ii) Investments and other assets and Other long-term assets**

The fair value of publicly traded investments is determined by quoted market prices. Investments in private entities which do not have quoted market prices in an active market and whose fair value cannot be readily measured are carried at cost. The fair value of long-term receivables approximates their carrying value as they are recorded at the net present values of their future cash flows, using an appropriate discount rate.

**(iii) Long-term debt**

The carrying value of long-term debt is at amortized cost based on the initial fair value as determined at the time of issuance. The fair value of publicly traded notes is based upon current trading values. Other notes and debentures are valued based upon current trading values for similar instruments.

**(iv) Other long-term liabilities**

The fair value of program rights payable, estimated by discounting future cash flows, approximates their carrying value.

## (v) Derivative financial instruments

The fair value of US currency forward purchase contracts is determined by an estimated credit-adjusted mark-to-market valuation using observable forward exchange rates at the end of reporting periods and contract forward rates.

The carrying values and estimated fair values of long-term debt and derivative financial instruments are as follows:

	May 31, 2014		August 31, 2013	
	Carrying value \$	Estimated fair value \$	Carrying value \$	Estimated fair value \$
<b>Assets</b>				
Derivative financial instruments <sup>(2)</sup>	1	1	3	3
Investment in publicly traded company <sup>(1)</sup>	7	7		
<b>Liabilities</b>				
Long-term debt (including current portion)	4,688	5,363	4,818	5,275

(1) Level 1 fair value determined by quoted market prices.

(2) Level 2 fair value determined by valuation techniques using inputs based on observable market data, either directly or indirectly, other than quoted prices.

**12. RESTRUCTURING COSTS**

During the current quarter, the Company announced changes to the structure of its operating units to improve overall efficiency while enhancing its ability to grow as the leading content and network experience company. In connection with the restructuring of its operations, the Company recorded \$53 primarily in respect of the approximate 400 management and non-customer facing roles which were affected by the organizational changes. A total of \$26 was paid during the quarter and the majority of the remaining costs are expected to be paid within the next 12 months.

**13. OTHER LOSSES**

Other losses generally includes realized and unrealized foreign exchange gains and losses on US dollar denominated current assets and liabilities, gains and losses on disposal of property, plant and equipment and minor investments, and the Company's share of the operations of Burrard Landing Lot 2 Holdings Partnership. During the prior year, the category included amounts related to the electrical fire and resulting water damage to Shaw Court that occurred during the fourth quarter of 2012. In fiscal 2013, the Company received insurance advances of \$5 related to its claim and incurred additional costs of \$12 in respect of ongoing recovery activities. During the current year, the category includes additional proceeds of \$6 related to the aforementioned insurance claim and also includes a refund of \$5 from the Canwest CCAA plan implementation fund and a write-down of \$6 in respect of discontinued capital projects.
