(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2014

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 000-24180

Quality Distribution, Inc.

(Exact name of registrant as specified in its charter)

Florida
(State or other jurisdiction of
incorporation or organization)

59-3239073
(I.R.S. Employer
Identification No.)

4041 Park Oaks Boulevard, Suite 200, Tampa, FL
(Address of Principal Executive Offices)
813-630-5826

33610
(Zip Code)

(Registrant's telephone number, including area code)

N/A

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definition of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act (Check one):

Large accelerated filer Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Exchange Act Rule 12b-2). Yes No

As of August 4, 2014, the registrant had 27,960,815 shares of Common Stock, no par value, outstanding.

QUALITY DISTRIBUTION, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(Unaudited)

1. Summary of Significant Accounting Policies

Basis of Presentation

In this quarterly report, unless the context otherwise indicates, (i) the terms the Company, our Company, Quality Distribution, QDI, we, us and our refer to Quality Distribution, Inc. and its consolidated subsidiaries and their predecessors, (ii) the terms Quality Distribution, LLC and QD LLC refer to our wholly-owned subsidiary, Quality Distribution, LLC, a Delaware limited liability company, and its consolidated subsidiaries and their predecessors, (iii) the term QD Capital refers to our wholly-owned subsidiary, QD Capital Corporation, a Delaware corporation, (iv) the term QCI refers to our wholly-owned subsidiary, Quality Carriers, Inc., an Illinois corporation, (v) the term Boasso refers to our wholly-owned subsidiary, Boasso America Corporation, a Louisiana corporation, (vi) the term QCER refers collectively to our wholly-owned subsidiary, QC Energy Resources, Inc., a Delaware corporation, and its wholly-owned subsidiaries, QC Energy Logistics, LLC, a Delaware limited liability company, QC Energy Resources, LLC, a Delaware limited liability company, QC Energy Resources Northwest, LLC, a Delaware limited liability company, and QC Energy Resources Texas, LLC, a Delaware limited liability company, as well as our wholly-owned subsidiary, QC Environmental Services, Inc., a North Dakota corporation, and (vii) the term CLC refers to our wholly-owned subsidiary, Chemical Leaman Corporation, a Pennsylvania corporation.

We operate the largest chemical bulk tank truck network in North America through QCI. We are the largest provider of intermodal ISO tank container and depot services in North America through Boasso. We provide logistics services to the unconventional oil and gas industry through QCER. We conduct a significant portion of our business through a network of independent affiliates and independent owner-operators. Independent affiliates are companies which enter into various term contracts with the Company. Independent affiliates are responsible for paying for their own power equipment (including debt service), fuel and other operating costs. Most of the independent affiliates lease trailers from us. Independent owner-operators are independent contractors who, through a contract with us, supply one or more tractors and drivers for our use. Contracts with independent owner-operators may be terminated by either party on short notice. We charge independent affiliates and third-parties for the use of tractors and trailers as necessary. In exchange for the services rendered, independent affiliates and independent owner-operators are normally paid a percentage of the revenues collected on each load hauled.

Our accompanying unaudited consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q and Article 10 of Regulation S-X and do not include all of the information and notes required by accounting principles generally accepted in the United States (GAAP) for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring adjustments and accruals) considered necessary for a fair statement of consolidated financial position, results of operations and cash flows have been included. The year ended December 31, 2013 consolidated balance sheet data was derived from our audited financial statements, but does not include all the disclosures required by GAAP. For further information, refer to our Annual Report on Form 10-K for the year ended December 31, 2013, including the consolidated financial statements and accompanying notes.

Operating results for the three and six months ended June 30, 2014 are not necessarily indicative of the results that may be expected for any future period.

New Accounting Pronouncements

In June 2014, the Financial Accounting Standards Board (FASB) issued an update to authoritative guidance related to accounting for share-based payments when the terms of an award provide that a performance target could be achieved after the requisite service period. The guidance will be effective beginning January 1, 2016 and it is not expected to have a material impact on our consolidated financial statements.

In May 2014, the FASB issued an accounting pronouncement related to revenue recognition, which amends the prior guidance and provides a single, comprehensive revenue recognition model for all contracts with customers. Principles apply to the measurement of revenue and timing of its recognition. The new standard requires entities to recognize revenue to reflect the transfer of promised goods or services to customers in an amount that reflects the consideration at which the entity expects to be entitled to in exchange for those goods or services. This pronouncement is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016, and early adoption is not permitted. The Company is currently evaluating the impact of this pronouncement.

In April 2014, the FASB issued authoritative guidance, which specifies that only disposals representing a strategic shift in operations, such as a disposal of a major line of business, should be presented as discontinued operations. In addition, the new guidance requires expanded disclosures for discontinued operations, including disclosure of pre-tax profit or loss of an individually significant component of an entity that does not qualify for discontinued operations reporting. This guidance is effective for the Company prospectively in the first quarter of fiscal 2016. Principles of the new guidance are not applicable to a component that is classified as held for sale before the effective date even if disposed of after the effective date. As the accounting standard will only impact presentation, the new standard will not have an impact on the Company's financial position, results of operations, or cash flows.

Table of Contents

In July 2013, the FASB issued an accounting pronouncement related to income taxes. Under this standard, entities are required to recognize that an unrecognized tax benefit be presented in the consolidated financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward except as follows: To the extent a net operating loss carryforward, a similar tax loss, or a tax credit carryforward is not available at the reporting date under the tax law of the applicable jurisdiction to settle any additional income taxes that would result from the disallowance of a tax position or the tax law of the applicable jurisdiction does not require the entity to use, and the entity does not intend to use, the deferred tax asset for such purpose, the unrecognized tax benefit should be presented in the consolidated financial statements as a liability and should not be combined with deferred tax assets. The assessment of whether a deferred tax asset is available is based on the unrecognized tax benefit and deferred tax asset that exist at the reporting date and should be made presuming disallowance of the tax position at the reporting date. These amendments are effective for fiscal years, and interim periods within those years, beginning after December 15, 2013. The adoption of this pronouncement did not have a material effect on our consolidated financial statements.

Acquisitions and Dispositions

During 2013 and the first six months of 2014, we did not complete any acquisitions or dispositions of businesses or independent affiliates.

2. Variable Interest Entities

At June 30, 2014 and December 31, 2013, we have a variable interest in one variable interest entity (VIE), for which we are not the primary beneficiary. We have concluded, based on our qualitative consideration of our contracts with the VIE, the operating structure of the VIE and our role with the VIE, that we do not have the power to direct the activities that most significantly impact their economic performance. Therefore, we are not required to consolidate the operations of this VIE.

This VIE is an independent affiliate that is directly engaged in the dry bulk and chemical transportation business through the management of trucking terminals in the North East region of the U.S. We are involved with this VIE as a non-controlling interest. Our maximum exposure to loss as a result of our involvement with this unconsolidated VIE is limited to our recorded loans receivable which aggregated approximately \$3.6 million and \$3.2 million at June 30, 2014 and December 31, 2013, respectively. These loans are secured by second-priority liens on certain assets of the VIE.

3. Fair Value of Financial Instruments

The three-level valuation hierarchy for fair value measurements is based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect our market assumptions. These two types of inputs create the following fair value hierarchy:

Level 1 Quoted prices for identical instruments in active markets;

Level 2 Quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-derived valuations whose significant inputs are observable; and

Level 3 Instruments whose significant inputs are unobservable.

Following is a description of the valuation methodologies we used for instruments measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy.

Fair Value Measurements on a Nonrecurring Basis

The fair value of our long-term indebtedness is based on Level 2 quoted market prices. As of June 30, 2014, the carrying value and fair value are as follows (in thousands):

	Carrying Value	Fair Value
9.875% Second-Priority Senior Secured Notes due 2018 (2018 Notes)	\$ 202,500	\$ 216,422

Table of Contents

The fair value of the revolving credit facility and term loan under our asset-based loan facility (the ABL Facility), which is variable rate debt, is estimated using a coupon rate on borrowings with similar maturities, current remaining average life to maturity, borrower credit quality, and current market conditions and approximates fair value. The fair value of the 2018 Notes is estimated using various techniques including recently executed transactions in securities of the issuer or comparable issuers, market price quotations (where observable), bond spreads, fundamental data relating to the issuer, and credit default swap spreads adjusted for any basis difference between cash and derivative instruments.

The carrying amounts reported in the accompanying Consolidated Balance Sheets for cash and cash equivalents, accounts receivable and accounts payable approximate fair value because of the immediate or short-term maturities of these financial instruments.

4. Goodwill and Intangible Assets***Goodwill***

Under the FASB guidance, goodwill and intangible assets are subject to an annual impairment test as well as impairment assessments of certain triggering events. We evaluate goodwill for impairment by determining the fair value based on criteria in the FASB guidance for each reporting unit. Our chemical and intermodal reporting units contain goodwill and other identifiable intangible assets as a result of previous business acquisitions. Our energy logistics reporting unit contains no goodwill. Our annual impairment test is performed during the second quarter with a measurement date of June 30th. For our intermodal and chemical logistics reporting units, we conducted our analysis under the revised goodwill impairment rules in which we qualitatively assessed whether it was more likely than not that the respective fair value of this reporting unit was less than the carrying amount. We considered various qualitative factors, including macroeconomic conditions, relevant industry and market trends, cost factors, overall financial performance, other entity-specific events and events affecting the reporting unit that could indicate a potential change in the fair value of our reporting unit or the composition of its carrying values. We also considered the specific future outlook for the reporting unit based on our most recent forecasts. We determined that impairment in intermodal or chemical logistics reporting units was not likely and thus we were not required to perform a quantitative analysis. In addition, there were no indicators that a triggering event in our intermodal or chemical logistics reporting units had occurred as of the quarter ending June 30, 2014.

Goodwill within the intermodal and chemical logistics reporting units is as follows (in thousands):

	June 30, 2014	December 31, 2013
Intermodal	\$ 31,410	\$ 31,410
Chemical Logistics	1,545	1,545
Total	\$ 32,955	\$ 32,955

Intangible Assets

In 2014, our intangible assets included a tradename, customer relationships and non-compete agreements. We performed our annual impairment test in the second quarter of fiscal 2014 for the indefinite-lived intangible assets related to a tradename of approximately \$7.4 million in the intermodal reporting unit as of June 30, 2014. We

conducted our analysis under the revised intangibles goodwill and other impairment rules in which we qualitatively assessed whether it was more likely than not that the respective fair value of this indefinite-lived asset was less than the carrying amount. We considered various qualitative factors, including macroeconomic conditions, relevant industry and market trends, cost factors, overall financial performance, other entity-specific events and events that could indicate a potential change in the fair value of indefinite-lived assets or the composition of its carrying values. We determined that impairment of the indefinite-lived assets was not likely and thus we were not required to perform a quantitative analysis. In addition, there were no indicators that a triggering event in our intermodal reporting unit had occurred as of the quarter ending June 30, 2014.

Our long-lived assets including revenue earning equipment, operating property and equipment and intangible assets with finite lives, are tested for recoverability when events or changes in circumstances indicate that the carrying amount of assets may not be recoverable. Based upon management's review of the value of the finite-lived intangible assets in our intermodal and energy logistics reporting units, we determined that no indicators of impairment existed as of June 30, 2014.

Table of Contents

There were no indicators that a triggering event in any of our intermodal or energy logistics reporting units had occurred as of the quarter ended June 30, 2014.

Intangible assets at June 30, 2014 are as follows (in thousands):

	Gross Book Value	Accumulated Amortization	Net Book Value	Average Lives (in years)
Tradename Intermodal	\$ 7,400	\$	\$ 7,400	Indefinite
Customer relationships Intermodal	14,260	(6,970)	7,290	10-12
Non-compete agreements Intermodal and Energy Logistics	1,620	(873)	747	3-6
	\$ 23,280	\$ (7,843)	\$ 15,437	

Of the net book value of intangibles of approximately \$15.4 million at June 30, 2014, \$14.7 million was allocated to our intermodal reporting unit and approximately \$0.7 million was allocated to our energy logistics reporting unit.

Intangible assets at December 31, 2013 are as follows (in thousands):

	Gross Book Value			Net Book Value		Average Lives
	January 1, 2013	2013 Additions(1)	Impairment	Accumulated Amortization	December 31, 2013	(in years)
Tradename Intermodal	\$ 7,400	\$	\$	\$	\$ 7,400	Indefinite
Tradename Energy Logistics	1,100		(521)	(579)		
Customer relationships (1)	33,410	1,000	(17,065)	(9,462)	7,883	10-12
Non-compete agreements	4,311			(3,445)	866	3-6
Service agreement	1,120		(942)	(178)		
	\$ 47,341	\$ 1,000	\$ (18,528)	\$ (13,664)	\$ 16,149	

(1) Additions related to the on-boarding of a new independent affiliate.

Of the net book value of intangibles of approximately \$16.1 million at December 31, 2013, \$15.3 million was allocated to our intermodal reporting unit and \$0.8 million was allocated to our energy logistics reporting unit.

Amortization expense for the three months ended June 30, 2014 and 2013 was \$0.3 million and \$1.0 million, respectively. Amortization expense for the six months ended June 30, 2014 and 2013 was \$0.7 million and \$2.1 million, respectively. Estimated amortization expense for intangible assets is as follows (in thousands):

2014 remaining	\$ 709
2015	1,418
2016	1,413
2017	1,338
2018	1,218
2019 and thereafter	1,941
Total	\$ 8,037

5. Long-term Indebtedness

Term Loan Facility

On June 14, 2013, our ABL Facility was amended to provide for a new \$17.5 million senior secured term loan facility (Term Loan) which was fully funded on July 15, 2013. Borrowings under the Term Loan bear interest at a margin equal to 2.50% for base rate borrowings and 3.50% for LIBOR borrowings, with a potential step-down of 0.25% after 18 months if a senior secured leverage ratio is met. Obligations under the Term Loan mature on the earlier of June 14, 2016 or the date on which the ABL Facility terminates. Beginning no earlier than the 12-month anniversary of the Term Loan and no later than the 24-month anniversary of the Term Loan, we will be subject to mandatory repayment of the principal amount of the Term Loan in equal quarterly payments for the

Table of Contents

remainder of the maturity period. We currently estimate that repayments will begin in the second quarter of 2015. Borrowing availability under our ABL Facility was expanded to include additional eligible accounts receivable and tractor and trailer equipment in conjunction with the new borrowing. We may voluntarily repay the outstanding amount under the Term Loan at any time without premium or penalty, other than customary breakage costs with respect to the LIBOR loans. As of June 30, 2014 and December 31, 2013, the balance of the Term Loan was \$17.5 million. The interest rate on borrowings under the Term Loan at June 30, 2014 and December 31, 2013 was 3.7%.

We recorded \$0.6 million in debt issuance costs related to the Term Loan and are amortizing these costs over the term of the Term Loan.

June 2014 5% Subordinated Notes

As part of the consideration we paid for a 2012 acquisition, we issued promissory notes in an aggregate principal amount of \$21.3 million (the Acquisition Notes). The Acquisition Notes contained a fixed interest rate of 5.0% per annum and had a maturity date of June 1, 2017. On November 12, 2013, we made optional principal payments of \$2.1 million. On June 12, 2014, we extinguished the remaining principal balance of the Acquisition Notes of \$19.2 million at a discount for \$15.0 million in cash. As a result of this transaction, we recognized a gain on early extinguishment of debt of \$4.2 million for the three months ended June 30, 2014. The cash payment on the Acquisition Notes was funded with proceeds from borrowings under our ABL Facility and cash on hand.

July 2014 Notes Redemption

On July 16, 2014, we redeemed a portion of our 9.875% Second-Priority Senior Secured Notes due 2018 (2018 Notes) in the aggregate principal amount of \$22.5 million. The redemption price for these 2018 Notes equaled 100% of the aggregate principal amount of \$22.5 million, plus accrued but unpaid interest up to the redemption date, plus a 3.0% premium of \$0.7 million. The redemption was funded with borrowings under our ABL Facility and cash on hand. In the third quarter of 2014, \$0.4 million of unamortized debt issuance costs related to this redemption will be written off. Following this redemption, the outstanding principal amount of the 2018 Notes is \$180.0 million.

6. Income (Loss) Per Share

A reconciliation of the numerators and denominators of the basic and diluted income (loss) per share computations follows (in thousands, except per share amounts):

	June 30, 2014		Three months ended			
	Net income (numerator)	Shares (denominator)	Per-share amount	Net loss (numerator)	Shares (denominator)	Per-share amount
Basic income (loss) available to common shareholders:	\$ 11,369	27,404	\$ 0.41	\$ (31,147)	26,460	\$ (1.18)
Effect of dilutive securities:						
Stock options		396				
Unvested restricted stock		83				
Unvested restricted stock units		28				

Diluted income (loss) available to common shareholders: \$ 11,369 27,911 \$ 0.41 \$(31,147) 26,460 \$ (1.18)

	Six months ended					
	June 30, 2014		June 30, 2013			
	Net income (numerator)	Shares (denominator)	Per-share amount	Net loss (numerator)	Shares (denominator)	Per-share amount
Basic income (loss) available to common shareholders:	\$ 14,442	27,248	\$ 0.53	\$(22,003)	26,542	\$ (0.83)
Effect of dilutive securities:						
Stock options		419				
Unvested restricted stock		121				
Unvested restricted stock units		21				
Diluted income (loss) available to common shareholders:	\$ 14,442	27,809	\$ 0.52	\$(22,003)	26,542	\$ (0.83)

Table of Contents

The following securities were not included in the calculation of diluted income per share because such inclusion would be anti-dilutive (in thousands):

	Three months ended		Six months ended	
	June 30,		June 30,	
	2014	2013	2014	2013
Stock options	869	2,005	845	2,026
Unvested restricted stock	123	323	85	353
Unvested restricted stock units	537		545	

7. Stock-Based Compensation

On March 7, 2014, the Compensation Committee of the Board of Directors granted executives and certain employees 566,168 restricted stock units (RSUs) under our 2012 Equity Incentive Plan. Of these 566,168 RSUs, 375,584 RSUs are performance based and 190,584 RSUs are time-based. The performance RSUs are based on the achievement of multi-year financial objectives established by the Compensation Committee for a performance period from January 1, 2014 through December 31, 2016. The number of shares that may be earned from the performance RSUs is based upon a target number of shares, subject to minimum and maximum numbers of shares and certain performance criteria, with shares earned for performance between the minimum performance level and the maximum performance level calculated based on a linear interpolation. The time-based RSUs vest ratably on each anniversary of the grant date over a three-year period ending March 7, 2017.

Restricted stock and RSUs are measured at fair value at the time of issuance. Expense for restricted stock and time-based RSUs is recognized based on fair value on a straight-line basis over the vesting period. Expense for performance RSUs is recognized on a straight-line basis over the vesting period in an amount based upon our estimation of the probability that such fair value will be realized when performance criteria are satisfied.

We apply the Black-Scholes valuation model in determining the fair value of share-based payments to employees. The resulting compensation expense is recognized over the requisite service period, which is generally the vesting term of two to four years. Compensation expense is recognized only for those awards expected to vest, with forfeitures estimated based on our historical experience and future expectations. All stock-based compensation expense is classified within compensation in the Consolidated Statements of Operations.

The following table summarizes unrecognized stock-based compensation and the weighted average period over which such stock-based compensation is expected to be recognized as of June 30, 2014 (in thousands):

		Remaining years
Restricted stock units	\$ 6,057	2.7
Stock options	1,417	2.0
Restricted stock	1,306	2.0
	\$ 8,780	

These amounts do not include the cost of any additional awards, options or RSUs that may be granted in future periods or any changes in our forfeiture rate.

Table of Contents**8. Employee Benefit Plans**

We maintain two noncontributory defined benefit plans resulting from a prior acquisition that cover certain vested salaried participants and retirees (CLC Plan) and certain other vested participants and retirees under an expired collective bargaining agreement (TTWU Plan). Retirement benefits for employees covered by the CLC Plan are based on years of service and compensation levels. The monthly benefit for employees under the TTWU Plan is based on years of service multiplied by a monthly benefit factor. Pension costs are funded in accordance with the provisions of the applicable law. Both pension plans have been frozen since prior to January 1, 1998. There are no new participants and no future accruals of benefits from the time the plans were frozen.

We use a December 31st measurement date for both of our plans.

The components of net periodic pension cost are estimated as follows (in thousands):

	Three months ended		Six months ended	
	June 30,		June 30,	
	2014	2013	2014	2013
Service cost	\$ 41	\$ 42	\$ 83	\$ 83
Interest cost	503	464	1,006	927
Amortization of prior service cost	23	23	47	47
Amortization of loss	293	364	585	726
Expected return on plan assets	(642)	(586)	(1,284)	(1,169)
Net periodic pension cost	\$ 218	\$ 307	\$ 437	\$ 614

We contributed \$1.4 million to our pension plans during the six months ended June 30, 2014. We expect to contribute an additional \$2.1 million during the remainder of 2014.

Multi-employer pension plans

At June 30, 2014, we contributed to three separate multi-employer pension plans for employees under collective bargaining agreements. These agreements cover approximately 2.9% of our total workforce, including our independent affiliates employees and independent owner-operators providing service to us. These multi-employer pension plans provide defined benefits to retired participants. We do not directly or indirectly manage any of these multi-employer pension plans. Trustees, half of whom are appointed by the International Brotherhood of Teamsters (the Teamsters) and half of whom various contributing employers appoint, manage the trusts covering these plans. Our collective bargaining agreements with the Teamsters determine the amounts of our ongoing contributions to these plans.

Table of Contents

We do not currently intend to withdraw from the three multi-employer pension plans or take any actions that we are not entitled to take that would subject us to payment of contingent obligations upon withdrawal from such plans. Based on information provided to us from the trustees of these plans, we estimate our portion of the contingent liability in the case of a full withdrawal or termination from these plans to be approximately \$85.6 million, of which \$79.8 million relates to the Central States Southeast and Southwest Areas Pension Plan.

These defined benefit plans cover substantially all of our union employees not covered under the TTWU Plan. The actuarial present value of accumulated plan benefits and net assets available for benefits to employees under these multi-employer plans is not readily available.

9. Accumulated Other Comprehensive Loss

The components and changes to accumulated other comprehensive loss are as follows (in thousands):

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2014	2013	2014	2013
<u>Foreign currency translation</u>				
Beginning balance	\$ (1,004)	\$ (1,145)	\$ (1,061)	\$ (1,180)
Net (loss) gain on foreign currency translation, net of tax	(90)	56	(33)	91
Ending balance	\$ (1,094)	\$ (1,089)	\$ (1,094)	\$ (1,089)
<u>Pension benefits</u>				
Beginning balance	\$ (26,100)	\$ (30,186)	\$ (26,416)	\$ (30,572)
Amortization of prior service cost	23	23	47	47
Amortization of gain	293	364	585	726
Ending balance	\$ (25,784)	\$ (29,799)	\$ (25,784)	\$ (29,799)
Total AOCI ending balance	\$ (26,878)	\$ (30,888)	\$ (26,878)	\$ (30,888)

(1) Prior service cost and actuarial gain are included as part of the Company's net periodic benefit cost. Refer to Note 8.

Reclassifications out of accumulated other comprehensive loss were nominal.

10. Restructuring

We account for restructuring costs associated with one-time termination benefits, costs associated with lease and contract terminations and other related exit activities in accordance with FASB's guidance. We previously made estimates of the costs to be incurred as part of a restructuring plan developed during 2008 and concluded at the end of 2010. The restructuring plan consisted of various actions including termination of approximately 380 non-driver positions and the consolidation, closure or affiliation of underperforming company-operated terminals, our withdrawal

from three multi-employer pension plans and costs associated with the consolidation of our corporate headquarters, and resulted in charges during 2008, 2009 and 2010, primarily related to our chemical logistics segment. As of June 30, 2014, we have approximately \$1.2 million of restructuring charges included in accrued expenses on the Consolidated Balance Sheet which are expected to be paid through 2017.

In the six months ended June 30, 2014, we had the following activity in our restructuring accrual (in thousands):

	Balance at December 31, 2013	Payments	Balance at June 30, 2014
Restructuring costs	\$ 1,582	\$ (375)	\$ 1,207

Table of Contents**11. Segment Reporting*****Reportable Segments***

The Company has three reportable business segments for financial reporting purposes that are distinguished primarily on the basis of services offered. Historically, the Company included certain shared services and corporate expenses within its Chemical Logistics segment. Beginning as of and for the three months ended March 31, 2014, the Company has allocated these items to Shared Services. The allocation represents a change in our segment measure as opposed to a change in operating or reportable segments. Shared Services consists of corporate and shared services overhead costs, including information technology, driver recruiting, accounting, stock-based compensation, pension, environmental and other corporate headquarters costs. Segment results for the 2013 quarterly periods were reclassified to conform to the current year presentation. Our segments are delineated as follows:

Chemical Logistics, which consists of the transportation of bulk chemicals primarily through our network that includes company-operated terminals and terminals operated by 26 independent affiliates, and equipment rental income;

Energy Logistics, which consists primarily of the transportation of fresh water, disposal water and crude oil for the unconventional oil and gas (UCO&G) market, through our network of company-operated terminals and terminals operated by 4 independent affiliates, and equipment rental income; and

Intermodal, which consists of Boasso s intermodal ISO tank container transportation and depot services business primarily supporting the international movement of bulk liquids.

Segment operating income reported in our segment tables excludes amounts such as depreciation and amortization, gains and losses on disposal of property and equipment, restructuring costs and impairment charges. Although these amounts are excluded from the reportable business segment operating income results, they are included in our reported Consolidated Statements of Operations. We have not provided specific asset information by segment, as it is not regularly provided to our chief operating decision maker for review.

Summarized segment data and a reconciliation to income before income taxes follow (in thousands):

	Three Months Ended June 30, 2014				
	Chemical Logistics	Energy Logistics	Intermodal	Shared Services	Total

(1) Includes an impairment charge of \$55.2 million of goodwill and \$0.5 million of intangible assets related to our energy logistics reporting unit.

12. Income Taxes

At December 31, 2013, we had approximately \$2.5 million of total gross unrecognized tax benefits. Of this total, \$1.3 million (net of federal benefit on state tax issues) represents the amount of unrecognized tax benefits that, if recognized, would favorably affect the effective income tax rate in any future periods.

Included in the balance of total gross unrecognized tax benefits at December 31, 2013 was less than \$0.1 million related to tax positions for which it was reasonably possible that the total amounts could significantly change during the next twelve months due to expiration of the applicable statute of limitations.

For the six months ended June 30, 2014, the net change to our total gross unrecognized tax benefit was a decrease of \$0.1 million. Our total gross unrecognized tax benefit at June 30, 2014 was \$2.4 million. This represents the total of our unrecognized tax benefits (not including interest and penalties).

Our continuing practice is to recognize interest and/or penalties related to income tax matters in income tax expense. We had \$0.5 million (net of federal tax benefit) accrued for interest and \$0.2 million accrued for penalties at December 31, 2013. The total amount accrued for interest and penalties at June 30, 2014 was \$0.6 million.

We are subject to income tax in the U.S., Canada, and Mexico, as well as in multiple state jurisdictions. We believe we are no longer subject to U.S. federal income tax examinations for the years before 2007, to international examinations for years before 2008 and, with few exceptions, to state examinations before 2008.

The effective tax rates for the six months ended June 30, 2014 and 2013 were 14.0% and 35.6%, respectively. The effective tax rate for the six months ended June 30, 2014 differed from our statutory rate primarily due to the release of the foreign tax credit valuation allowance of \$3.9 million and a favorable state tax adjustment. The effective tax rate for the six months ended June 30, 2013 differed from our statutory rate due to a partial release of the foreign tax credit valuation allowance and a favorable audit settlement.

13. Share Repurchase Program

On November 20, 2012, we announced a share repurchase program pursuant to which our Board of Directors authorized the repurchase of up to \$15.0 million in shares of our common stock in an open-ended repurchase program (the Repurchase Program). The Repurchase Program does not have an expiration date. Stock has been, and may in the future be, purchased pursuant to the Repurchase Program, from time to time, in the open market or through private transactions, subject to market conditions. Subject to applicable laws, repurchases under the Repurchase Program may be made at such times and in such amounts as we deem appropriate and may be made pursuant to Rule 10b5-1. We are not obligated to purchase any shares under the Repurchase Program and it can be discontinued at any time that we feel additional purchases are not warranted. As of June 30, 2014, we have repurchased approximately 1.2 million shares valued at \$8.1 million under the Repurchase Program, with the authority to repurchase an additional \$6.9 million of shares.

Table of Contents**14. Commitments and Contingencies*****Environmental Matters***

It is our policy to comply with all applicable environmental, safety, and health laws. We also are committed to the principles of Responsible Care[®], an international chemical industry initiative to enhance the industry's responsible management of chemicals. We have obtained independent certification that our chemical logistics management system is in place and functions according to professional standards, and we continue to evaluate and continuously improve our Responsible Care[®] Management System performance. Our current activities involve the handling, transportation and storage of bulk chemicals, both liquid and dry, wastewater from oil and gas wells and crude oil, which in many cases are classified as hazardous materials or hazardous substances. The energy logistics business operates disposal wells for non-conventional oil drilling wastewater. In addition, our former tank wash business (which was sold in 2009) and the remaining limited tank wash activities we continue to conduct, involve the generation, storage, discharge and disposal of wastes that may contain hazardous substances. As such, we and others who operate in our industry are subject to environmental, health and safety laws and regulation by U.S. federal, state and local agencies as well as foreign governmental authorities. Environmental laws and regulations are complex, and address emissions to the air, discharge onto land or water, and the generation, handling, storage, transportation, treatment and disposal of waste materials. These laws change frequently and generally require us to obtain and maintain various licenses and permits. Environmental laws have tended to become more stringent over time, and most provide for substantial fines and potential criminal sanctions for violations. Some of these laws and regulations are subject to varying and conflicting interpretations. Under certain of these laws, we could also be subject to allegations of liability for the activities of our independent affiliates or independent owner-operators.

We are potentially subject to strict joint and several liability for investigating and rectifying the consequences of spills and other releases of such substances. From time to time, we have incurred remedial costs and regulatory penalties with respect to chemical or wastewater spills and releases at our facilities and on the road, and, notwithstanding the existence of our environmental management program, we cannot: (1) assure that such obligations will not be incurred in the future, (2) predict with certainty the extent of future liabilities and costs under environmental, health, and safety laws, or (3) assure that such liabilities will not result in a material adverse effect on our business, financial condition, operating results or cash flow. We have established reserves for remediation expenses at known contamination sites when it is probable that such efforts will be required of us and the related expenses can be reasonably estimated. We have also incurred in the past, and expect to incur in the future, expenditures related to environmental compliance; however, we do not anticipate that compliance with existing environmental laws will have a material adverse effect on our earnings or competitive position.

Reserves

Our policy is to accrue remediation expenses when it is probable that such efforts will be required and the related expenses can be reasonably estimated. Estimates of costs for future environmental compliance and remediation may be impacted by such factors as changes in environmental laws and regulatory requirements, the availability and application of technology, the identification of currently unknown potential remediation sites and the allocation of costs among the potentially responsible parties under the applicable statutes. Our reserves for environmental compliance and remediation are adjusted periodically as remediation efforts progress or as additional technical or legal information becomes available. It is difficult to quantify with certainty the potential financial impact of actions regarding expenditures for environmental matters, particularly remediation, and future capital expenditures for environmental control equipment. Nevertheless, based upon the information currently available, we believe that our ultimate liability arising from such environmental matters, taking into account the reserves described below, should not be material to our business or financial condition. As of June 30, 2014 and December 31, 2013, we had reserves in

Edgar Filing: QUALITY DISTRIBUTION INC - Form 10-Q

the amount of approximately \$7.9 million and \$8.3 million, respectively, for all environmental matters, of which the most significant are presented and discussed below.

	Number of Sites		Reserves (in millions)	
	June 30, 2014	December 31, 2013	June 30, 2014	December 31, 2013
Multi-party sites	16	17	\$ 1.5	\$ 2.1
Sole party major sites:				
Bridgeport, New Jersey	1	1	3.8	3.6
William Dick, Pennsylvania	1	1	0.8	0.7
Other Properties	7	7	1.8	1.9
Total	25	26	\$ 7.9	\$ 8.3

Table of Contents

The following descriptions of environmental matters include estimates for future expenditures that we believe are probable and are reasonably estimable. The estimate of the range of reasonably possible costs is less certain than the estimates upon which the reserves are based, and the estimated high ends of the ranges do not represent our maximum theoretical liability.

Changes to the environmental reserves are reflected in our Consolidated Statements of Operations within the Selling and administrative category.

Property Contamination Liabilities

We have been named as (or are alleged to be) a potentially responsible party under the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended (CERCLA) and similar state laws at approximately 25 sites at June 30, 2014.

Multi-Party Sites

At 16 of the 25 sites, we are one of many parties with alleged liability and are negotiating with Federal, State or private parties on the scope of our obligations, if any. At 2 of the 16 sites, we have explicitly denied any liability and since there has been no subsequent demand for payment, we have not established a reserve for these matters. At 4 of the 16 sites, we have received notices about our potential liability; however, we do not have enough information upon which to estimate our potential liability at this time, and as a result we have not established a reserve for these matters. At 9 of the 16 sites, 1 is in settlement discussions, 4 are in long-term operation and maintenance, and 4 are in various stages of remedial investigation or remedial action work.

At one of the sixteen sites, we are one of approximately seventy companies party to a May 2007 Administrative Order on Consent (AOC) with the U.S. Environmental Protection Agency (USEPA) to perform a Remedial Investigation/Feasibility Study (RI/FS) of the contaminants in the lower seventeen mile stretch of the Passaic River, known as the Lower Passaic River Study Area. The RI/FS is ongoing and has not been completed. Sampling results indicate that the primary contaminants of concern in the river are dioxin, mercury and PCBs. Separately, in April 2014, USEPA released its Focused Feasibility Study (the FFS) with its proposed plan for an interim remedy of the lower eight miles of the Lower Passaic River Study Area. The EPA's preferred plan in the FFS would involve dredging the river bank to bank and installing an engineered cap. EPA is accepting public comments on the FFS through August 20, 2014, though this period may be extended. The AOC for the RI/FS does not obligate us to fund or perform any remedial action contemplated by the FFS or any permanent remedy that may be recommended in the RI/FS. There are many uncertainties associated with the final cost and allocation of potential liability for any remedial actions on the river and the Company cannot reliably estimate its portion of the final costs for this matter at this time. In addition, we have found no evidence that the Company's operations at this location contributed any contaminants of concern to the river. The Company believes that the evidence developed so far indicates that companies other than ours are responsible for substantially all of the remediation that may be ultimately required. We have set reserves for only our share of the costs of the RI/FS and a small dredging and capping project at River Mile 10 performed by the seventy companies, that has now been completed, except for operations and maintenance of less than \$0.1 million. The Company will vigorously defend itself in this matter.

We have estimated future expenditures for these 16 multi-party environmental matters to be in the range of \$1.5 million to \$3.8 million. As of June 30, 2014, we have reserved \$1.5 million.

Sole Party Major Sites

At 9 of the 25 sites, we are alleged to be the only responsible party and are in the process of conducting investigations and/or remediation projects. Six of these projects relate to operations conducted by CLC and its subsidiaries prior to our acquisition of CLC in 1998. These six sites are: (1) Bridgeport, New Jersey; (2) William Dick, Pennsylvania; (3) Tonawanda, New York; (4) Scary Creek, West Virginia; (5) Charleston, West Virginia; and (6) East Rutherford, New Jersey. The remaining three sites relate to investigations and potential remediation that were triggered by the New Jersey Industrial Site Recovery Act (ISRA), which requires such investigations and remediation following the sale of industrial facilities. Each of these 6 CLC sites is discussed in more detail below. We have estimated future expenditures for these 9 properties to be in the range of \$6.4 million to \$16.7 million. As of June 30, 2014, we have reserved \$6.4 million.

Bridgeport, New Jersey

QDI is required under the terms of three federal consent decrees to perform remediation work at this operating truck terminal and tank wash site. CLC entered into consent orders with USEPA in 1991 to treat groundwater, in 1998 to remove contamination in the wetlands, and in 2010 to assess and remediate contaminated soils at the site.

The groundwater treatment remedy negotiated with USEPA required us to construct a treatment facility for in-place treatment of groundwater contamination and a local discharge which was completed in early 2007. After various start-up issues, the treatment facility began long-term operations in July 2011 and is in the operations and maintenance phase. The plant appears to be performing in accordance with its design criteria and meeting permit requirements. Based on the second annual groundwater report, contamination

Table of Contents

does not appear to be completely delineated and a limited number of additional monitoring wells are expected to be installed. Wetlands contamination has been remediated with localized restoration completed. Monitoring of the restored wetlands is required by USEPA and is on-going. USEPA has requested additional monitoring through 2017. In regard to contaminated soils, USEPA finalized the feasibility study and issued a record of decision in 2009 for the limited areas that show contamination and warrant additional investigation or work. We entered into a consent order with USEPA in 2010 to perform the remediation work, which will consist primarily of in-place thermal treatment. In late 2012, USEPA concluded that our additional required site investigation work for delineation purposes was complete. We have finished the preliminary engineering design phase, the 95% design and the 100% design report for the thermal treatment of contaminated soils. The final design includes limited groundwater extraction with treatment through the existing plant. Comments from USEPA on the 100% thermal design report have been received and substantially addressed. The project is now entering the pre-construction site activity phase, which includes application for certain NJDEP permits to perform the work. We have estimated aggregate expenditures for the Bridgeport location to be in the range of \$3.8 million to \$8.5 million. As of June 30, 2014, we have reserved \$3.8 million.

William Dick, Pennsylvania

CLC entered into a consent order with the Pennsylvania Department of Environmental Protection and USEPA in 1995 to provide a replacement water supply to area residents, treat contaminated groundwater, and perform remediation of contaminated soils at this former wastewater disposal site. The replacement water supply is complete. We completed construction of a groundwater treatment facility with local discharge in 2007 and the treatment facility began operations in 2010. Although initial soil treatment was completed in 2007, test results indicated that soil clean-up objectives were not fully achieved in both shallow and deep soil subzones. Soil piles generated from previous isolated discrete removal actions were subsequently treated on-site. During 2013, we received notification from USEPA that this work is now complete. The treated soil was used as backfill at the site. The fieldwork for further limited soil remediation consisting of targeted in-situ chemical treatment of the deep soil subzones at the site has been concluded, and no further remediation work in the deep soil subzones is expected. Limited soil sampling in the shallow soil subzone confirmed that targeted in-situ chemical treatment should complete the soils remediation work for this area and at the site. We have estimated aggregate expenditures for the William Dick location to be in the range of \$0.8 million to \$3.4 million. As of June 30, 2014, we have reserved \$0.8 million.

Other Properties

Tonawanda, New York: CLC entered into a consent order with the New York Department of Environmental Conservation (NYSDEC) in 1999 obligating it to perform soil and groundwater remediation at this former truck terminal and tank wash site. The state issued a record of decision in 2006. The remedial design work plan has been approved by the NYSDEC, and the remedial action phase is expected to begin during the second half of 2014.

Scary Creek, West Virginia: CLC received a cleanup notice from the state environmental authority in 1994. The state and we have agreed that remediation can be conducted under the state's voluntary clean-up program (instead of the state superfund enforcement program). We are currently completing the originally planned remedial investigation and the additional site investigation work.

Charleston, West Virginia: CLC completed its remediation plan for a former drum disposal area in 1995 at this truck terminal and tank wash site under the terms of a state hazardous waste permit. Supplemental groundwater monitoring was also required and completed. In 2012, we entered into the state's voluntary clean-up program which requires us to perform additional sampling to close the site. The sampling work phase that was negotiated with the State of West Virginia has been completed at the site, and a report was submitted to the West Virginia Department of Environmental

Protection (WVDEP) in which we requested confirmation from the WVDEP that no additional sampling work will be necessary. Comments have been received and a response has been submitted.

East Rutherford, NJ: This former truck terminal property was sold after CLC completed a plan of remediation relating to a diesel fuel release but New Jersey Department of Environmental Protection (NJDEP) did not grant closure. Additional soil sampling and groundwater monitoring work is necessary to close the site under the State s licensed site remediation professional program. Soil sampling results indicate further sampling is necessary to delineate the extent of contamination that may require limited remediation.

ISRA New Jersey Facilities: We are obliged to conduct investigations and remediation at three current or former New Jersey tank wash and terminal sites pursuant to the state s ISRA program, which requires such remediation following the sale of facilities after 1983. Two of the sites are in the process of remedial investigation with projections set in contemplation of limited soil remediation expense for contaminated areas.

Table of Contents

One site has completed the investigation phase and a final report was submitted to NJDEP. In accordance with the report findings and with the concurrence of the NJDEP, remedial efforts included limited soil excavation at the site, deed recordation, placement of clean fill and the designation of a classification exception area for the groundwater. No further field remediation work is expected, and this site has entered a long-term monitoring phase.

We have estimated aggregate future expenditures for Tonawanda, Scary Creek, Charleston, East Rutherford and ISRA New Jersey to be in the range of \$1.8 million to \$4.8 million. As of June 30, 2014, we have reserved \$1.8 million.

Other Legal Matters

We are from time to time involved in routine litigation incidental to the conduct of our business. We believe that no such routine litigation currently pending against us, if adversely determined, would have a material adverse effect on our consolidated financial position, results of operations or cash flows.

15. Guarantees

In conjunction with certain third-party financing vendors, we have established a lease purchase program to enable certain independent owner-operators and independent affiliates to lease tractors from those third-party vendors. As part of this program, we have agreed with those third-party vendors to guarantee certain lease payment obligations of participating independent owner-operators and independent affiliates in certain circumstances. The guarantees expire at various dates beginning in 2015 through 2020 and are for an average outstanding loan amount per tractor of approximately \$0.1 million.

Our estimated aggregate maximum exposure under these lease guarantees was approximately \$32.4 million as of June 30, 2014, which represents the total amount of the remaining lease payments on all outstanding guaranteed leases as of that date. However, upon a default, we are likely to, and have contractual rights to, take actions to reduce or recoup our expenditures, including purchasing the tractor and reselling it to recover all or a portion of the amounts paid, or facilitating an arrangement between the third-party vendor and another independent owner-operator to assume the lease. In addition, up to 50% of any realized losses related to independent owner-operators managed by independent affiliates could be recouped from those independent affiliates pursuant to agreements with those independent affiliates. Therefore, we believe our potential exposure is substantially less than \$32.4 million and would not have a material adverse effect on our consolidated financial position, results of operations or cash flows. We did not incur any material levels of default under these leases during the six months ended June 30, 2014.

16. Guarantor Subsidiaries

At and during the six months ended June 30, 2014, there were outstanding 2018 Notes that were issued by our subsidiaries, QD LLC and QD Capital. The payment obligations of QD LLC and QD Capital under the 2018 Notes are guaranteed by QDI and by all of its domestic subsidiaries other than immaterial subsidiaries as further described below.

The 2018 Notes are the senior obligations of our subsidiaries, QD LLC and QD Capital, and are secured by a subordinated, second-priority lien on assets that secure our ABL Facility through a collateral agreement that is separate from the indenture under which these notes were issued. Pursuant to an intercreditor agreement, the liens on the collateral securing the 2018 Notes rank junior in right of payment to the ABL Facility, including the Term Loan, and obligations under certain hedging agreements, cash management obligations and certain other first-lien obligations. Decisions regarding the maintenance and release of the collateral secured by the collateral agreement are made by the lenders under our ABL Facility, and neither the indenture trustee nor the holders of the 2018 Notes have

control of decisions regarding the release of the collateral.

The 2018 Notes are also guaranteed on a second-priority senior secured basis, jointly and severally, by QDI, subsidiary guarantors, and certain of our future U.S. restricted subsidiaries. The guarantees of the subsidiary guarantors are full and unconditional subject to customary release provisions for sales of a subsidiary in compliance with other provisions of the indenture for the 2018 Notes (the Notes Indenture), foreclosures of a pledge of the equity interests of the subsidiary, the right to designate a subsidiary as unrestricted under the terms of the Notes Indenture, the discharge of the 2018 Notes or the defeasance of the Notes Indenture. The guarantee of QDI is full and unconditional.

The subsidiary guarantors of all of the 2018 Notes are all of our direct and indirect domestic subsidiaries other than immaterial subsidiaries. No non-domestic subsidiaries are guarantor subsidiaries. QD Capital has no material assets or operations. QD LLC, all of the subsidiary guarantors and QD Capital are 100% owned by QDI. The subsidiary guarantors are 100%-owned subsidiaries of QD LLC. QD LLC conducts substantially all of its business through and derives virtually all of its income from its subsidiaries. Therefore, its ability to make required principal and interest payments with respect to its indebtedness depends on the earnings of subsidiaries and its ability to receive funds from its subsidiaries through dividend and other payments.

QDI has no significant restrictions on its ability to receive funds from its subsidiaries. The ABL Facility, including the Term Loan, and the Notes Indenture contain certain limitations on QD LLC's ability to make distributions to QDI. We do not consider these restrictions to be significant, because QDI is a holding company with no significant operations or assets, other than ownership of 100% of QD LLC's membership units. QD LLC's direct and indirect wholly-owned subsidiaries are generally permitted to make

Table of Contents

distributions to QD LLC, which is the principal obligor under the ABL Facility, the Term Loan and the 2018 Notes. We do not believe that additional financial or narrative information about QDI, QD LLC, QD Capital or the subsidiary guarantors would be material to evaluating the guarantees.

The following condensed consolidating financial information for QDI, QD LLC and QD Capital, which has no material assets or operations, non-guarantor subsidiaries and combined guarantor subsidiaries presents:

Condensed consolidating balance sheets at June 30, 2014 and December 31, 2013 and condensed consolidating statements of operations for the three and six-month periods ended June 30, 2014 and 2013, respectively, and the condensed consolidating statements of cash flows for each of the six-month periods ended June 30, 2014 and 2013.

Elimination entries necessary to consolidate the parent company and all its subsidiaries.

In the second quarter of 2014, the Company revised certain amounts within its guarantor subsidiaries condensed consolidating balance sheet. Specifically, the investment in subsidiary, intercompany, and retained earnings balances, have been adjusted resulting in revisions between QDI, QD LLC and QD Capital, and its guarantor subsidiaries. The impact of the revision, which impacted only the condensed consolidating balance sheet, is not material in the aggregate and had no impact or effect on our consolidated financial statements for any periods presented. Financial definitions and provisions under the Company's 9.875% Second-Priority Senior Secured Notes Due 2018 (2018 Notes), the revolving credit facility (ABL Facility) and the senior secured term loan facility (Term Loan) are calculated solely on the basis of our consolidated financial statements, and the revision has no impact on our compliance with the provisions of our indebtedness. As prior period information is presented, the Company will similarly revise the condensed consolidating balance sheets in future filings.

Condensed Consolidating Balance Sheet - Revised**As of December 31, 2013**

17. Subsequent Event

On July 16, 2014, we redeemed a portion of our 2018 Notes in the aggregate principal amount of \$22.5 million. The redemption price for these 2018 Notes equaled 100% of the aggregate principal amount of \$22.5 million, plus accrued but unpaid interest up to the redemption date, plus a 3.0% premium of \$0.7 million. The redemption was funded with borrowings under our ABL Facility and cash on hand. In the third quarter of 2014, \$0.4 million of unamortized debt issuance costs related to this redemption will be written off.

ITEM 2 Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion of our results of operations and financial condition should be read in conjunction with our consolidated financial statements and the related notes included elsewhere in this report. The following discussion includes forward-looking statements. For a discussion of important factors that could cause actual results to differ from results discussed in the forward-looking statements, see Forward-Looking Statements and Certain Considerations contained elsewhere in this report.

OVERVIEW

We operate the largest chemical bulk tank truck network in North America and are also the largest provider of intermodal ISO tank container and depot services in North America. In 2011, we began providing logistics services to the UCO&G market. We operate an asset-light business model and service customers across North America through our network of 94 terminals servicing the chemical market, 16 terminals servicing the energy market and 9 ISO tank depot services terminals (intermodal) servicing the chemical and other bulk liquid markets.

Chemical Logistics

Through our subsidiary, QCI, we coordinate the transport of a broad range of chemical products and provide our customers with logistics and other value-added services. Through our North American network, we are a core carrier for most of the major companies engaged in chemical processing. We believe the diversity of our customer base, geography and end-markets provide a competitive advantage.

The bulk tank truck market in North America includes all products shipped by bulk tank truck carriers and consists mainly of liquid and dry bulk chemicals (including plastics) and bulk dry and liquid food-grade products. We estimate, based on industry sources, that the highly fragmented North American for-hire segment of the bulk tank transport market generated revenues of approximately \$6.9 billion in 2013. We specifically operate in the for-hire chemical and food grade bulk transport market (which we estimate at \$4.3 billion in 2013). We believe we have the leading market share (estimated at 14.0% in 2013) in this sector based on revenues. We believe managing a larger carrier network facilitates customer service and lane density, and provides a more favorable operating cost structure for us and our independent affiliates. In 2014, we announced the addition to our network of new terminals operated by independent affiliates. We believe that expanding our number of managed terminals, particularly in geographic areas in which there is no existing network terminal, may help us achieve some of the benefits we seek from managing a larger carrier network.

Chemical bulk tank truck industry growth is generally dependent on volume growth in the industrial chemical industry, the rate at which chemical companies outsource their transportation needs, the overall capacity of the rail system, and, in particular, the extent to which chemical companies make use of the rail system for their bulk chemical transportation needs. We also believe that North American chemical producers will gain a global competitive advantage and grow domestic production (thus shipments which we can service) through the use of low-cost energy sources, primarily natural gas and natural gas liquids.

The chemical bulk tank truck industry is characterized by high barriers to entry such as the time and cost required to develop the operational infrastructure necessary to handle sensitive chemical cargo, the financial and managerial resources required to recruit and train drivers, substantial and increasingly more stringent industry regulatory requirements, strong customer relationships and the significant capital investments required to build and maintain a fleet of specialized equipment and establish a network of terminals capable of servicing customers.

Our transportation revenue in the chemical logistics segment is principally a function of the volume of shipments by the bulk chemical industry, prices, the average number of miles driven per load, our market share and the allocation of shipments between tank truck transportation and other modes of transportation such as rail. Additionally, it is common practice in the bulk tank truck industry for customers to pay fuel surcharges.

Energy Logistics

Our energy logistics business operates through our subsidiary, QCER, services the UCO&G market through the transportation of crude oil, fresh water, flowback and produced brine water, and the disposal of flowback and produced brine water, as well as providing services ancillary to these activities.

Table of Contents

As of June 30, 2014, we operate in the Bakken, Denver-Julesburg, Eagle Ford, Marcellus, Mississippian Limestone, Mowry, Niobrara, Permian, Powder River, Tuscaloosa Marine, Utica and Woodford shale regions in North America, all of which have experienced drilling for both oil and natural gas with the exception of Marcellus, which is solely natural gas. We continue to evaluate the potential for expansion into additional shale regions, either directly or through independent affiliates, which would provide additional diversification to our business. Our strategy to target multiple resource-rich shales helps to diversify our customer offerings, lessen the impact of swings in any one commodity and optimize equipment utilization. During 2013 and the first half of 2014, we affiliated certain company terminals and entered into new independent affiliate relationships as we implemented our planned affiliation of this business. At June 30, 2014, we managed approximately 1,200 units (tractors, trailers and service equipment) of energy equipment in this market and serve a diverse customer base including many of the national and regional exploration and production companies, as well as marketers of oil in this industry.

Our energy logistics business is primarily involved in fluid management and logistics in the upstream segment of the energy industry, through its services in connection with the establishment and servicing of production wells, and the midstream segment of the energy industry, in connection with the transportation of crude oil. We believe the market for services such as those provided by our energy logistics business was approximately \$9.0 billion in 2013. The industry consists of providers that include independent national or regional trucking and logistics companies such as QCER, trucking and logistics companies owned by or dedicated to large oil and gas companies, and local providers focused on one or more particular shales. Energy logistics providers are impacted by the level of new drilling activity, which influences the transportation of fresh water and flowback water used and the provision of related services used in those activities, and the number of active and producing wells, which impacts the transportation of crude oil and produced water and the provision of related services used in those activities. The energy logistics market is also driven by market prices for oil and gas, which influence the production activities of our customers, the prices they are willing to pay for our services, and the shales in which they operate. We expect regulation of this industry to increase over time but believe that the scope of our operations and our experience with regulation in our chemical logistics business will facilitate our adaptation to new regulations and may provide us with an advantage over some of our competitors.

Intermodal

Our subsidiary, Boasso, provides intermodal ISO tank container transportation and depot services through terminals located in the eastern half of the United States. Boasso's terminals are strategically positioned near major shipping ports along the Gulf and East Coasts, as well as inland ports in Chicago and Detroit. Boasso's revenues are impacted by United States chemical import/export volume, in particular the number and volume of shipments through ports where Boasso has terminals, as well as their market share in those locations.

In addition to intermodal tank transportation services, Boasso provides tank cleaning, heating, testing, maintenance and storage services to customers. Boasso provides local and over-the-road trucking primarily within the proximity of the port cities where its depots are located. Chemical manufacturers have sought to efficiently transport their products on a global basis by utilizing ISO tank containers, and we believe the resulting demand for distributors that can offer a broad range of services within the supply chain will drive future growth in this sector. We believe that our intermodal business will benefit from these trends because of its market leadership, experience and track record.

The intermodal ISO tank container business generally provides services that facilitate the global movement of liquid and dry bulk chemicals, pharmaceuticals and food grade products. The proliferation of global import/export of bulk liquid chemicals has driven the movement of basic manufacturing out of the United States and has resulted in an increase in chemical plant infrastructure to service these off-shore industries. Driven by this globalization, the intermodal ISO tank container market is a growing sector of the overall liquid bulk chemical transportation sector. Demand for intermodal ISO tank containers is impacted by the aggregate volume of imports and exports of chemicals

through United States ports. Demand is also impacted by the shift in modes of transportation, from drums to larger and more efficient ISO tank containers. Economic conditions and differences among the laws and currencies of foreign nations may also impact the volume of shipments. We operate in the global intermodal ISO tank container transportation and depot services market, which we believe was approximately a \$1.0 to \$1.5 billion market in 2013. Similar to our chemical logistics business, we believe our intermodal business will benefit from the low cost energy from the UCO&G market.

Table of Contents

Our Networks

Our businesses have networks that consist of terminals owned or operated by independent affiliates and terminals owned or operated by us and a driver pool consisting of independent owner-operator drivers, independent affiliate-employed drivers and company-employed drivers. Independent affiliates are independent companies with which we contract to operate trucking terminals and provide transportation services exclusively on our behalf in defined markets. The independent affiliates generally provide the capital necessary to service their contracted business and are also responsible for most of the operating costs associated with servicing the contracted business. Due to several factors, including our ownership of the customer contracts and relationships, our provision of back-office support in areas such as claims, our direct relationship with independent owner-operators, the presence of non-compete agreements with the independent affiliates, and, in some cases, our ownership of the trailers utilized in the contracted business, our relationships with the independent affiliates tend to be long-term in nature, with minimal voluntary turnover. Independent owner-operators are generally individual drivers who own or lease their tractors and agree to provide transportation services to us under contract.

We believe our use of independent affiliates and independent owner-operators provides us with the following benefits:

Locally owned and operated independent affiliate terminals can provide superior, tailored customer service.

Independent affiliates and independent owner-operators generally are paid a fixed, contractual percentage of revenue collected on each load they transport creating a variable cost structure that mitigates against cyclical downturns.

Independent affiliates and independent owner-operators tend to own and maintain their own tractors, which creates an asset-light business model that generally reduces our capital investment requirements.

At present, our businesses rely upon independent affiliates and independent owner-operators to varying degrees. Our chemical logistics business operates primarily through independent affiliate terminals located throughout the continental United States and independent owner-operator drivers. Our intermodal business relies primarily on company terminals located near ports in the eastern half of the United States and independent owner-operator drivers. Our energy logistics business currently utilizes both company-operated terminals and independent affiliate-operated terminals and in certain circumstances within the same shale, and utilizes independent owner-operator drivers. We expect to continue to add independent affiliates and independent owner operators to our energy logistics business with the goal of reducing capital investment needs and improving return on invested capital.

Recent Significant Transactions

July 2014 Notes Redemption

On July 16, 2014, we redeemed a portion of our 2018 Notes in the aggregate principal amount of \$22.5 million. The redemption price for these 2018 Notes equaled 100% of the aggregate principal amount of \$22.5 million, plus accrued but unpaid interest up to the redemption date, plus a 3.0% premium. The redemption was funded with proceeds from borrowings under our ABL Facility and cash on hand.

June 2014 5% Subordinated Notes Payoff

As part of the consideration we paid for a 2012 acquisition, we issued the Acquisition Notes. The Acquisition Notes contained a fixed interest rate of 5.0% per annum and had a maturity date of June 1, 2017. On November 12, 2013, we made optional principal payments of \$2.1 million. On June 12, 2014, we extinguished the remaining principal balance of the Acquisition Notes of \$19.2 million at a discount for \$15.0 million in cash. As a result of this transaction, we recognized a gain on early extinguishment of debt of \$4.2 million for the three months ended June 30, 2014. The cash payment on the Acquisition Notes was funded with proceeds from borrowings under our ABL Facility and cash on hand.

August 2013 Secondary Offering

On August 14, 2013, former shareholders including funds affiliated with Apollo Global Management, LLC, sold 4.7 million shares of our common stock in an underwritten public offering, at a gross price of \$8.60 per share. We did not receive any proceeds from the sale of the shares by the selling shareholders in this offering. However, we incurred and paid approximately \$0.5 million in underwriting fees and expenses associated with this offering.

Table of Contents

July 2013 Notes Redemption

On July 15, 2013, we redeemed a portion of our 2018 Notes in the aggregate principal amount of \$22.5 million. The redemption price for these 2018 Notes equaled 100% of the aggregate principal amount of \$22.5 million, plus accrued but unpaid interest up to the redemption date, plus a 3.0% premium. The redemption was funded with proceeds from the Term Loan described below together with borrowings under our ABL Facility.

June 2013 ABL Facility Amendment Term Loan Facility

On June 14, 2013, our ABL Facility was amended to provide for a new \$17.5 million senior secured term loan facility which was fully funded on July 15, 2013 (the Term Loan). Borrowings under the Term Loan bear interest at a rate equal to an applicable margin plus, at our option, either a base rate or LIBOR. The applicable margin at June 30, 2014 was 2.50% for base rate borrowings and 3.50% for LIBOR borrowings, with a potential step-down of 0.25% after 18 months from inception if a senior secured leverage ratio is met. Obligations under the Term Loan mature on the earlier of June 14, 2016 or the date on which the ABL Facility terminates.

May 2013 New Independent Affiliate

On May 1, 2013, we began affiliating our energy logistics operations in the Marcellus and Utica shale regions by converting three company-operated terminals to affiliated operations. The affiliation was a new relationship with an independent operator who is based in the Williamsport, Pennsylvania area and operates an existing oilfield services company. In conjunction with this effort, the new independent affiliate purchased and leased certain transportation equipment from us to ensure sufficient capacity for the combined customer base and execute a smooth transition of the business. In October 2013, we transitioned our Utica shale operations in Ohio to this same independent affiliate. In December 2013 and February 2014, we transitioned our Woodford shale operations in Oklahoma and our Wyoming operation to this same independent affiliate.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

We identified what we believe to be the more critical accounting policies that impact the financial statements, some of which are based on management's best estimates available at the time of preparation, in our Annual Report on Form 10-K for the year ended December 31, 2013. We have not made any material changes to those policies during the period covered by this Quarterly Report on Form 10-Q.

NEW ACCOUNTING PRONOUNCEMENTS

Refer to Note 1, Summary of Significant Accounting Policies New Accounting Pronouncements for discussion of recent accounting pronouncements and for additional discussion surrounding the adoption of accounting standards.

RESULTS OF OPERATIONS

The following table presents certain condensed consolidated financial information, as a percentage of revenue, for the three and six months ended June 30, 2014 and 2013:

Three months ended June 30,	Six months ended June 30,
----------------------------------------	--------------------------------------

	2014	2013	2014	2013
OPERATING REVENUES:				
Transportation	72.2%	73.0%	72.2%	72.2%
Service revenue	13.3	13.7	13.5	14.2
Fuel surcharge	14.5	13.3	14.3	13.6
Total operating revenues	100.0	100.0	100.0	100.0
OPERATING EXPENSES:				
Purchased transportation	68.0	62.8	67.6	62.6
Compensation	9.0	10.7	9.0	11.1
Fuel, supplies and maintenance	10.0	11.1	9.9	11.5
Depreciation and amortization	2.1	2.8	2.2	2.9
Selling and administrative	3.0	3.4	3.1	3.3
Insurance costs	1.8	1.8	2.2	1.9
Taxes and licenses	0.3	0.4	0.3	0.4
Communication and utilities	0.4	0.4	0.4	0.4
(Gain) loss on disposal of property and equipment	-0.5	0.7	-0.3	-0.3

Table of Contents

	Three months ended		Six months ended	
	June 30,		June 30,	
	2014	2013	2014	2013
Impairment charges		23.3		11.9
Total operating expenses	94.1	117.4	94.4	105.7
Operating income (loss)	5.9	-17.4	5.6	-5.7

The following table shows the number of terminals, drivers, tractors, trailers and energy logistics equipment that we manage (including independent affiliates and independent owner-operators) as of June 30:

	2014	2013
Terminals (1)	119	110
Drivers	3,586	3,459
Tractors	3,155	2,894
Trailers (2)	5,531	5,229
Energy logistics equipment (3)	1,242	1,417

(1) See the following table for terminals by segment.

(2) Excludes approximately 1,600 chassis used in our intermodal business segment as of June 30, 2014 and 2013.

(3) Includes tractors, trailers and specialized equipment.

Our network terminals and facilities consisted of the following as of June 30:

	2014	2013
	Terminals	Terminals
Chemical logistics independent affiliate trucking terminals	90	84
Chemical logistics company-operated trucking terminals	4	5
Energy logistics independent affiliate energy terminals	14	5
Energy logistics company-operated energy terminals	2	7
Intermodal container services terminals/depots	9	9

Total	119	110
-------	-----	-----

Three Months Ended June 30, 2014 Compared to Three Months Ended June 30, 2013

For the quarter ended June 30, 2014, total revenues were \$255.6 million, an increase of \$16.3 million, or 6.8%, compared to total revenues of \$239.3 million for the same period in 2013. Transportation revenue increased by \$9.7 million, or 5.5%, primarily due to strong growth in our chemical logistics business of \$10.4 million resulting from increased volumes and positive contributions from new terminals established during the first and second quarters of 2014. We had an increase of \$1.5 million in our intermodal business due to stronger demand for ISO container shipments. Our energy logistics transportation revenue decreased \$2.2 million due to reduced drilling activity in certain of our shale regions offset by increased oil hauling activity in other shale regions. Aggressive driver recruiting and retention actions have resulted in a higher number of drivers during the 2014 period compared to the 2013 period.

Service revenue increased \$1.4 million, or 4.3%, primarily due to higher chemical logistics service revenue of \$1.2 million resulting from increased equipment rental income and a \$0.5 million improvement in our intermodal service revenue resulting from higher depot service business. These increases were partially offset by a reduction in our energy logistics business of \$0.3 million primarily due to a reduction in disposal well revenue.

Table of Contents

Fuel surcharge revenue increased \$5.2 million, or 16.3%, primarily due to an increase in our chemical logistics business of \$3.1 million, an increase in our energy logistics business of \$1.4 million and an increase in our intermodal business of \$0.7 million. We have fuel surcharge programs in place with the majority of our chemical logistics and intermodal customers and certain energy logistics customers. Most of these programs typically involve a specified computation based on the changes in fuel prices. As a result, some of these programs have a short time lag between when fuel prices change and when this change is reflected in revenues. It is not meaningful to compare the amount of fuel surcharge revenue or the change in fuel surcharge revenue between reporting periods to fuel expense, or the change in fuel expense between periods, as a significant portion of fuel costs is included in purchased transportation.

Purchased transportation increased \$23.3 million, or 15.5%, due primarily to an increase of \$16.8 million in costs related to servicing our chemical logistics business. In addition, we had an increase of \$4.8 million in costs related to servicing our energy logistics market and we had an increase of \$1.7 million in costs related to servicing our intermodal business. The majority of these increases resulted from higher transportation volumes. Total purchased transportation as a percentage of transportation revenue and fuel surcharge revenue increased to 78.4% for the current quarter versus 72.8% for the prior-year quarter primarily due to affiliations of prior company-owned terminals. Our independent affiliates generated 93.2% of our chemical logistics transportation revenue and fuel surcharge revenue for the three months ended June 30, 2014 compared to 88.0% for the comparable prior-year period primarily due to new independent affiliate terminals opened during the first and second quarters of 2014. During 2013 and the six months ended June 30, 2014, we generally paid our independent affiliates approximately 85% of chemical logistics transportation revenue and paid independent owner-operators approximately 65% of chemical logistics transportation revenue. Certain independent affiliates could earn an even greater percentage of chemical logistics transportation revenue during the 2014 period and in the future due to company-provided growth incentive programs.

During the three months ended June 30, 2014 and 2013, company-operated terminals generated approximately 47% and 71%, respectively, of energy logistics revenue, and independent affiliate-operated terminals and third-party carriers generated approximately 53% and 29%, respectively. We typically pay independent affiliates and third-party carriers between 75% and 90% of energy logistics transportation revenue depending on their type of association with the Company. We expect the percentage of energy logistics revenue generated by independent affiliates to trend higher in 2014 versus comparable 2013 periods due to the affiliations that occurred in 2013 and the contemplated affiliation for the remainder of 2014.

Compensation expense decreased \$2.5 million, or 10.0%, due primarily to the affiliation of certain company-operated terminals in our energy logistics segment.

Fuel, supplies and maintenance decreased \$0.9 million, or 3.2%, due primarily to a decrease in fuel costs of \$1.9 million and a reduction in wastewater disposal costs of \$0.6 million, partially offset by higher maintenance costs of \$1.1 million and an increase in equipment rent expense of \$0.5 million.

Depreciation and amortization expense decreased \$1.3 million, or 19.7%, primarily due to a decrease in amortization expense of \$0.7 million for acquired intangibles that were impaired in 2013 and a decrease in depreciation of \$0.6 million due to sales of unutilized revenue equipment.

Selling and administrative expenses decreased \$0.4 million, or 4.6%, due to a reduction in terminal costs and professional fees.

Insurance costs increased \$0.3 million, or 7.8%, primarily due to higher transportation volumes. As a percentage of revenue, insurance costs were slightly better than the Company's target range of 2% to 3% of total revenue.

Edgar Filing: QUALITY DISTRIBUTION INC - Form 10-Q

For the quarter ended June 30, 2014, we recognized a gain on disposal of revenue equipment of \$1.2 million. For the quarter ended June 30, 2013, we recognized a loss on disposal of revenue equipment of \$1.6 million.

For the quarter ended June 30, 2013, we recorded a non-cash impairment charge to goodwill and intangibles in the amount of \$55.7 million as a result of our annual impairment analysis. The charge related to our energy logistics segment and further information regarding our impairment analysis is included in our Critical Accounting Policies and Estimates regarding Goodwill and Intangible Assets in our most recent Annual Report on Form 10-K for the year ended December 31, 2013. We did not incur any impairment charges in 2014.

For the quarter ended June 30, 2014, operating income was \$14.9 million compared to an operating loss of \$41.7 million in the prior-year quarter. The increase was primarily due to the non-cash impairment charge in the second quarter of 2013 described above.

Interest expense decreased \$0.6 million, or 7.6%, in the quarter ended June 30, 2014, primarily due to the redemption of a portion of our high cost 2018 Notes during the third quarter of 2013. We expect our interest expense for 2014 to continue to be lower than 2013, provided that the rates of interest on our floating rate indebtedness do not increase substantially.

For the quarter ended June 30, 2014, we recognized a gain on early extinguishment of debt of \$4.2 million, resulting from the full extinguishment of our Acquisition Notes at a discount.

Table of Contents

The provision for income taxes was \$0.7 million for the quarter ended June 30, 2014, compared to a benefit of \$17.9 million for the same period in 2013. The effective tax rates for the quarter ended June 30, 2014 and 2013 were 5.9% and 36.5%, respectively. The effective tax rate for the quarter ended June 30, 2014 differed from our statutory rate primarily due to the release of the foreign tax credit valuation allowance of \$3.9 million. The effective tax rate for the same period in 2013 differed from our statutory rate primarily due to a partial release of the foreign tax credit valuation allowance.

For the quarter ended June 30, 2014, we had net income of \$11.4 million compared to a net loss of \$31.1 million for the same period in 2013 as a result of the above-mentioned items.

Six Months Ended June 30, 2014 Compared to Six Months Ended June 30, 2013

For the six months ended June 30, 2014, total revenues were \$490.1 million, an increase of \$21.4 million, or 4.6%, from revenues of \$468.7 million for the same period in 2013. Transportation revenue increased \$15.2 million, or 4.5%, primarily due to an increase of \$15.9 million in our chemical logistics business resulting from increased prices and higher volumes which were due in part to the opening of new terminals during the first and second quarters of 2014. We had an increase of \$2.5 million in our intermodal business due to stronger demand for ISO container shipments. Our energy logistics transportation decreased \$3.2 million due to reduced drilling activity in certain of our shale regions partially offset by increased oil hauling activity in other shale regions. Aggressive driver recruiting and retention actions have resulted in a higher number of drivers during the 2014 period compared to the 2013 period.

Service revenue increased \$0.1 million, or 0.2%, primarily due to higher chemical logistics service revenue of \$2.0 million resulting from increased equipment rental income and a \$0.4 million improvement in our intermodal service revenue resulting from higher depot service revenue. These increases were partially offset by a reduction in our energy logistics business of \$2.3 million primarily due to a reduction in disposal well revenue.

Fuel surcharge revenue increased \$6.0 million, or 9.4%, primarily due to an increase in our chemical logistics business of \$2.9 million, an increase in our energy logistics business of \$2.2 million and an increase in our intermodal business of \$0.9 million. We have fuel surcharge programs in place with the majority of our chemical logistics and intermodal customers and certain energy logistics customers. As a result, most of these programs typically involve a specified computation based on the changes in fuel prices. As a result, some of these programs have a short time lag between when fuel prices change and when this change is reflected in revenues. It is not meaningful to compare the amount of fuel surcharge revenue or the change in fuel surcharge revenue between reporting periods to fuel expense, or the change of fuel expense between periods, as a significant portion of fuel costs are included in purchased transportation.

Purchased transportation increased \$38.1 million, or 13.0%, due primarily to an increase of \$26.1 million related to servicing our chemical logistics business. In addition, we had an increase of \$9.0 million in costs related to servicing our energy logistics market and we had an increase of \$3.0 million in costs related to servicing our intermodal business. The majority of the increases resulted in higher transportation volumes. Total purchased transportation as a percentage of transportation revenue and fuel surcharge revenue increased to 78.2% for the six months ended June 30, 2014 versus 72.8% for the same period in 2013 primarily due to affiliation of prior company-owned terminals. Our independent affiliates generated 93.0% of our chemical logistics revenue and fuel surcharge revenue for the six months ended June 30, 2014 compared to 87.7% for the comparable prior-year period primarily due to new independent affiliate terminals opened during the first and second quarters of 2014. During the 2014 and 2013 periods, we paid our independent affiliates approximately 85% of chemical logistics transportation revenue and paid independent owner-operators approximately 65% of chemical logistics transportation revenue. Certain independent affiliates could earn an even greater percentage of chemical logistics transportation revenue during the 2014 period and in the future due to company-provided growth incentive programs.

Table of Contents

During the six months ended June 30, 2014 and 2013, company-operated terminals generated approximately 47% and 76%, respectively, of energy logistics revenue, and independent affiliate-operated terminals and third-party carriers generated approximately 53% and 24%, respectively. We typically pay independent affiliates and third-party carriers between 75% and 90% depending on their type of association with the Company.

Compensation expense decreased \$7.8 million, or 14.9%, due primarily to the affiliation of certain company-operated terminals in our energy logistics segment.

Fuel, supplies and maintenance decreased \$4.9 million, or 9.1%, due primarily to a decrease in fuel costs of \$4.3 million, a reduction in wastewater disposal costs of \$1.4 million and a decrease in maintenance costs of \$0.1 million, partially offset by an increase in equipment rent expense of \$0.9 million.

Depreciation and amortization expense decreased \$2.5 million, or 18.8%, due to a decrease in amortization expense of \$1.4 million for acquired intangibles that were impaired in 2013 and a decrease in depreciation of \$1.1 million due to sales of unutilized revenue equipment.

Selling and administrative expenses decreased \$0.6 million, or 3.8%, due to a reduction in terminal costs and professional fees.

Insurance costs increased \$2.1 million, or 23.8%, primarily due to higher transportation volumes and overall severity and volume of claims. As a percentage of revenue, insurance costs were within the Company's target range of 2% to 3% of total revenue.

For the six months ended June 30, 2014, we recognized a net gain on the disposal of revenue equipment of \$1.7 million. For the six months ended June 30, 2013, we recognized a net gain on disposal of property and equipment of \$1.5 million which was comprised of a gain of \$2.6 million on the sale of property offset by a \$1.1 million loss on the disposal of revenue equipment.

For the six months ended June 30, 2013, we recorded a non-cash impairment charge to goodwill and intangibles in the amount of \$55.7 million as a result of our annual impairment analysis. The charge related to our energy logistics segment and further information regarding our impairment analysis is included in our Critical Accounting Policies and Estimates regarding Goodwill and Intangible Assets in our Annual Report on Form 10-K for the year ended December 31, 2013. We did not incur any impairment charges in 2014.

For the six months ended June 30, 2014, operating income was \$27.0 million compared to an operating loss of \$26.2 million for the same period in 2013. The increase was primarily due to the non-cash impairment charge in the second quarter of 2013 described above.

Interest expense decreased \$1.0 million, or 6.2%, in the six months ended June 30, 2014, primarily due to the redemption of a portion of our high cost 2018 Notes during the third quarter of 2013. We expect our interest expense for 2014 to continue to be lower than 2013, provided that the rates of interest on our floating rate indebtedness do not increase substantially.

For the quarter ended June 30, 2014 we recognized a gain on early extinguishment of debt of \$4.2 million, resulting from the full extinguishment of our Acquisition Notes at a discount.

Other income of \$7.2 million for the six months ended June 30, 2013 consisted primarily of adjustments to our liability for contingent consideration payments related to a 2012 acquisition.

The provision for income taxes was \$2.3 million for the six months ended June 30, 2014, compared to a benefit from income taxes of \$12.2 million for the same period in 2013. The effective tax rates for the six months ended June 30, 2014 and 2013 were 14.0% and 35.6%, respectively. The effective tax rate for the six months ended June 30, 2014 differed from our statutory rate primarily due to the release of the foreign tax credit valuation allowance of \$3.9 million and a favorable state tax adjustment. The effective tax rate for the six months ended June 30, 2013 was different from our statutory rate due to a partial release of the foreign tax credit valuation allowance and a favorable audit settlement.

For the six months ended June 30, 2014, we had net income of \$14.4 million compared to a net loss of \$22.0 million for the same period in 2013 as a result of the above-mentioned items.

Table of Contents*Segment Operating Results*

The Company has three reportable business segments for financial reporting purposes that are distinguished primarily on the basis of services offered. Historically, the Company included certain shared services and corporate expenses within its Chemical Logistics segment. Beginning as of and for the three months ended March 31, 2014, the Company has allocated these items to Shared Services. The allocation represents a change in our segment measure as opposed to a change in operating or reportable segments. Shared Services consists of corporate and shared services overhead costs, including information technology, driver recruiting, accounting, stock-based compensation, pension, environmental and other corporate headquarters costs. Segment results for the 2013 quarterly periods were reclassified to conform to the current year presentation. Our segments are delineated as follows:

Chemical Logistics, which consists of the transportation of bulk chemicals primarily through our network that includes company-operated terminals and terminals operated by 26 independent affiliates, and equipment rental income;

Energy Logistics, which consists primarily of the transportation of fresh water, disposal water and crude oil for the UCO&G market, through our network of company-operated terminals and terminals operated by 4 independent affiliates, and equipment rental income; and

Intermodal, which consists of Boasso's intermodal ISO tank container transportation and depot services business primarily supporting the international movement of bulk liquids.

Segment operating income reported in our segment tables excludes amounts such as depreciation and amortization, gains and losses on disposal of property and equipment, restructuring costs and impairment charges. Although these amounts are excluded from the business segment operating income results, they are included in our reported Consolidated Statements of Operations. We have not provided specific asset information by segment, as it is not regularly provided to our chief operating decision maker for review.

Summarized segment operating results are as follows (in thousands):

	Three Months Ended June 30, 2014				
	Chemical Logistics	Energy Logistics	Intermodal	Shared Services	Total
Operating Revenues:					
Transportation	\$ 123,572	\$ 40,378	\$ 20,381	\$	\$ 184,331

Table of Contents

Three Months Ended June 30, 2014 Compared to Three Months Ended June 30, 2013

Operating revenue:

Chemical Logistics revenues increased \$14.6 million, or 9.3%, for the quarter ended June 30, 2014 compared to the same period for 2013, primarily due to an increase in transportation revenue of \$10.4 million, resulting from increased prices and higher volumes, benefits from a business acquired by an independent affiliate in late March 2014, and new terminal locations established during the first and second quarters of 2014. Chemical logistics shipment demand continues to be strong. In addition, fuel surcharge revenue increased \$3.1 million and service revenue increased by \$1.1 million due to higher trailer rental revenue.

Energy Logistics revenues decreased \$1.1 million, or 2.5%, for the quarter ended June 30, 2014. Transportation revenues decreased \$2.2 million primarily due to lower volumes in the Bakken and Marcellus shale regions, partially offset by increased oil hauling activity in the Eagle Ford shale region and Permian Basin, as well as increased revenue from newer markets, such as Wyoming and Colorado. Fuel surcharge revenue increased \$1.4 million due to more fuel surcharge programs being put in place with some of our energy customers, and service revenue declined \$0.4 million due to lower disposal well volumes.

Intermodal revenues increased \$2.7 million, or 7.3%, for the quarter ended June 30, 2014 compared to the same period in 2013, due to an increase in transportation revenue of \$1.5 million, resulting from higher trucking volumes and an increase in fuel surcharge revenue of \$0.7 million. Other service revenue increased \$0.5 million due to modest increases in depot service revenues. Demand for ISO container shipments continues to be favorable.

Segment operating income:

Chemical Logistics operating income decreased \$0.3 million, or 1.4%, for the quarter ended June 30, 2014 compared to the same period in 2013 primarily due to incentives provided to an independent affiliate that acquired a business and to independent affiliates establishing new terminals.

Energy Logistics operating income decreased \$2.1 million, or 44.1%, for the quarter ended June 30, 2014 primarily due to incentives provided to terminals which converted from company-operated to independent affiliate-operated in 2013, partially offset by lower operating costs and better asset efficiency in most shales.

Intermodal operating income decreased less than \$0.1 million, or 1.0%, for the quarter ended June 30, 2014 compared to the same period in 2013, due primarily to higher maintenance costs.

Shared Services net expenses increased \$0.8 million, or 7.5%, for the quarter ended June 30, 2014 compared to the same period in 2013, due primarily to increased expenses from driver recruiting efforts and non-cash stock-based compensation expense, offset in part by reduced professional fees.

Six Months Ended June 30, 2014 Compared to Six Months Ended June 30, 2013

Operating revenue:

Chemical Logistics revenues increased \$20.8 million, or 6.7%, for the six months ended June 30, 2014 compared to the same period for 2013 primarily due to an increase in transportation revenue of \$15.9 million, resulting from increased prices and higher volumes, benefits from a business acquired by an independent affiliate in late March 2014, and new terminal locations established during the first and second quarters of 2014. In addition, fuel surcharge revenue

increased \$2.9 million and service revenue increased by \$2.0 million due to higher trailer rental revenue.

Energy Logistics revenues decreased \$3.3 million, or 3.8%, for the six months ended June 30, 2014 primarily due to lower transportation revenues of \$3.2 million. This decline was primarily due to reductions in the Bakken and Marcellus shale regions, partially due to adverse weather conditions in the first quarter of 2014, offset in part by increased oil hauling activity in the Eagle Ford and Permian Basin shale regions, as well as increased revenue from newer markets such as Wyoming and Colorado. Fuel surcharge revenue increased \$2.2 million due to more fuel surcharge programs being put in place with some of our energy customers, and service revenue declined \$2.3 million due to lower disposal well volumes.

Table of Contents

Intermodal revenues increased \$3.7 million, or 5.1%, for the six months ended June 30, 2014 compared to the same period in 2013 due to increases in transportation revenue of \$2.5 million, resulting from higher trucking volumes and an increase in fuel surcharge revenue of \$0.9 million. Other service revenue increased \$0.4 million and due to higher depot service revenues. Demand for ISO container shipments continues to be favorable.

Operating income:

Chemical Logistics operating income decreased \$2.1 million, or 5.0%, for the six months ended June 30, 2014 compared to the same period in 2013, primarily due to incentives provided to an independent affiliate that acquired a business in late March 2014 and new terminal locations established by our independent affiliates during the first and second quarters of 2014. The first quarter of 2014 was impacted by adverse weather conditions. Insurance costs were also higher in 2014.

Energy Logistics operating income decreased \$2.1 million, or 28.0%, for the six months ended June 30, 2014 compared to the same period in 2013 primarily due to incentives provided to terminals which converted from company-operated to independent affiliated-operated in 2013 and adverse weather conditions, partially offset by lower operating costs and better asset efficiency in most shales.

Intermodal operating income decreased \$0.7 million, or 5.0%, for the six months ended June 30, 2014 compared to the same period in 2013 due primarily to higher maintenance costs and adverse weather conditions in the first quarter of 2014 which impacted the segment's three largest terminals.

Shared Services net expenses increased \$0.4 million, or 1.8%, for the quarter ended June 30, 2014 compared to the same period in 2013 due primarily to increased expenses from driver recruiting efforts.

Liquidity and Capital Resources

Our primary cash needs consist of debt service, working capital and capital expenditures. Our working capital needs depend upon the timing of our cash collections from customers and payments to others, as well as our capital and operating lease payment obligations. Our capital expenditures primarily relate to acquiring trailers, and at times tractors, to grow and maintain the chemical and energy logistics fleet and acquiring lifts and chassis to support Intermodal. We reduce our capital expenditure requirements for our chemical logistics and energy logistics businesses by utilizing independent affiliates and independent owner-operators.

Table of Contents

Independent affiliates and independent owner-operators typically supply their own tractors, which reduces our capital investment requirements. For the six months ending June 30, 2014, capital expenditures were \$19.2 million and proceeds from sales of property and equipment were \$12.0 million. We generally expect our sustaining capital expenditures, net of proceeds from property and equipment sales, to be approximately 1% to 2% of operating segment revenues annually. We expect net capital expenditures to range between \$10.0 to \$15.0 million for 2014. Some of our independent affiliates who are engaged with us in the chemical logistics or energy logistics markets may at times purchase some portion of this equipment from us. Actual amounts could differ materially because of operating needs, growth needs, regulatory changes, covenants in our debt arrangements, other expenses or other factors.

Debt service currently consists of required interest payments on the outstanding balance of our ABL Facility, our Term Loan and our outstanding 2018 Notes. We have no major debt maturities prior to August 2016, when our ABL Facility matures. We may from time to time repurchase or redeem additional amounts of our outstanding debt or may repurchase outstanding shares of our common stock. Our Board of Directors has approved a share repurchase program for up to \$15.0 million in shares of our common stock, of which \$6.9 million remained available at June 30, 2014. Separately, we have long-term goals to reduce the outstanding amount of our indebtedness and reduce our interest expense. Any repurchases, redemptions, restructuring or refinancing of our indebtedness would depend upon prevailing market conditions, our liquidity requirements, contractual restrictions and other factors we consider important. Any future repurchases, redemptions, restructuring or refinancing may materially impact our liquidity, future tax liability and results of operations.

Our primary sources of liquidity for operations during the 2014 and 2013 periods have been cash flow from operations and borrowing availability under the ABL Facility. At June 30, 2014, we had \$76.7 million of borrowing availability under the ABL Facility. Our ABL Facility was amended on June 14, 2013 to provide for a \$17.5 million Term Loan, which was fully funded on July 15, 2013. Borrowing availability under our ABL Facility was expanded to include additional eligible accounts receivable and tractor and trailer equipment in conjunction with the new borrowing. Proceeds from the Term Loan, together with additional borrowings under our ABL Facility, were used to fund the redemption of \$22.5 million in original principal amount of our 2018 Notes on July 15, 2013. On June 12, 2014, we extinguished the remaining principal balance of the Acquisition Notes of \$19.2 million at a discount for \$15.0 million in cash. The cash payment on the Acquisition Notes was funded with proceeds from borrowings under our ABL Facility and cash on hand. On July 16, 2014, we redeemed an additional \$22.5 million in original principal amount of our 2018 Notes utilizing proceeds from our ABL Facility and cash on hand. The recent redemptions have reduced our borrowing availability under our ABL facility; however, we believe our cash flow in future periods will increase our liquidity.

We believe that, based on current operations and anticipated growth, our cash flow from operations, together with other available sources of liquidity, will be sufficient to fund anticipated capital expenditures, operating expenses and our other anticipated liquidity needs for the next 12 months. Anticipated debt maturities in 2016, the acquisition of other businesses or other events that we do not foresee may require us to seek alternative financing, such as restructuring or refinancing our long-term debt, selling assets or operations or selling additional debt or equity securities. If these alternatives were not available in a timely manner or on satisfactory terms or were not permitted under any of our debt agreements and we default on our obligations, our debt could be accelerated and our assets might not be sufficient to repay in full all of our obligations.

Cash Flows

The following summarizes our cash flows for the six months ended June 30, 2014 and 2013 as reported in our consolidated statements of cash flows in the accompanying consolidated financial statements (in thousands):

	Six months ended June 30,	
	2014	2013
Net cash and cash equivalents provided by operating activities	\$ 2,488	\$ 18,448
Net cash and cash equivalents used in investing activities	(7,182)	(4,980)
Net cash and cash equivalents provided by (used in) financing activities	5,365	(13,730)
Net increase (decrease) in cash and cash equivalents	671	(262)
Cash and cash equivalents at beginning of period	1,957	2,704
Cash and cash equivalents at end of period	\$ 2,628	\$ 2,442

Net cash provided by operating activities was \$2.5 million for the six-month period ended June 30, 2014, compared to \$18.4 million provided by operating activities in the comparable 2013 period. The \$15.9 million decrease in cash provided by operating activities was primarily due to higher receivables from increased sales in our chemical logistics business and payment of a large insurance claim, partially offset by an increase in independent affiliates and independent owner-operators payable.

Table of Contents

Net cash used in investing activities totaled \$7.2 million for the six-month period ended June 30, 2014, compared to \$5.0 million used in investing activities in the comparable 2013 period. The \$2.2 million difference was due primarily to increased capital expenditures of \$3.5 million and a reduction in proceeds from sales of property and equipment of \$0.6 million. In addition for the same period in 2013, we acquired a customer list for \$1.0 million and paid \$1.0 million of contingent consideration related to a 2012 acquisition.

Net cash provided by financing activities was \$5.4 million during the six-month period ended June 30, 2014, compared to \$13.7 million used in financing activities in the comparable 2013 period. In the 2014 period, we utilized net borrowings of \$17.9 million and proceeds from the exercise of stock options of \$4.4 million to satisfy the remaining Acquisition Notes for \$15.0 million in cash, to purchase revenue equipment and to pay down \$2.6 million of other debt and capital lease obligations. In the 2013 period, cash flow from operations and property and equipment sales enabled us to pay down \$6.7 million of our ABL Facility. We also funded share repurchases of \$4.5 million, paid down \$3.7 million of other debt and capital lease obligations and paid \$0.7 million of financing costs associated with our Term Loan.

Off-Balance Sheet Arrangements

We guarantee total remaining lease payment obligations aggregating approximately \$32.4 million as of June 30, 2014, of certain independent owner-operators and independent affiliates for their tractors to certain third-party vendors. The guarantees expire at various dates beginning in 2015 to 2020 and would require us to make lease payments in the event of a default by an independent owner-operator or independent affiliate. Further, upon a default, we are likely to take actions to reduce or recoup our expenditures, including purchasing the tractor and reselling it to recover all or a portion of the amounts paid, or facilitating an arrangement between the third-party vendor and another independent owner-operator to assume the lease. In addition, up to 50% of any realized losses related to independent owner-operators managed by independent affiliates could be recouped from those independent affiliates. We believe our potential exposure is substantially less than \$32.4 million and would not have a material adverse effect on our consolidated financial position, results of operations or cash flows.

Contractual Obligations

The following is a schedule of our long-term contractual commitments, including the current portion of our long-term indebtedness at June 30, 2014 over the periods we expect them to be paid (in thousands):

	Total	Remainder of 2014	Years 2015 & 2016	Years 2017 & 2018	Thereafter 2019
Operating leases (1)	\$ 89,066	\$ 11,759	\$ 45,321	\$ 27,906	\$ 4,080
Total indebtedness (2)(3)	375,960	710	172,750	202,500	
Capital leases	779	262	440	77	
Interest on indebtedness (4)	97,134	12,660	47,810	36,664	
Total contractual cash obligations (5)(6)(7)(8)(9)	\$ 562,939	\$ 25,391	\$ 266,321	\$ 267,147	\$ 4,080

(1)

These obligations represent the minimum rental commitments under all non-cancelable operating leases including the guaranteed residual values at the end of the leases. Commitments also include the operating lease for our corporate headquarters.

We expect that some of our operating lease obligations for tractors and trailers will be partially offset by rental revenue from subleasing the tractors to independent affiliates and independent owner-operators and subleasing trailers to independent affiliates.

- (2) Includes aggregate unamortized discount of \$0.9 million related to the 2018 Notes.
- (3) Assumes repayment of the principal amount of the Term Loan in equal quarterly amounts beginning the second quarter of 2015.
- (4) Amounts presented for interest payments assume that all long-term debt obligations outstanding as of June 30, 2014 will remain outstanding until maturity, and interest rates on variable-rate debt in effect as of June 30, 2014 will remain in effect until maturity.
- (5) Excludes long-term pension obligations as we are unable to reasonably estimate the ultimate amount or timing of settlement of such obligations. As of June 30, 2014, obligations of \$11.0 million were reflected in the Consolidated Balance Sheet. This amount represented our unfunded status of such plans, which is the difference between our projected benefit obligation and the fair value of plan assets, as of such date. See Note 8 of the Notes to Consolidated Financial Statements.
- (6) Excludes liabilities associated with environmental matters as we are unable to reasonably estimate the ultimate amount or timing of settlement of such liabilities. Liabilities of \$7.9 million, which represent our reserves for environmental compliance and remediation, were reflected in the Consolidated Balance Sheet as of June 30, 2014. See Note 14 of the Notes to Consolidated Financial Statements.

Table of Contents

- (7) Excludes accrued loss and damage claims as we are unable to reasonably estimate the ultimate amount or timing of settlement of such claims. As of June 30, 2014, accrued loss and damage claims of \$18.0 million, which represented the balance of our reserves for such liabilities, were reflected in the Consolidated Balance Sheet.
- (8) Excludes liabilities associated with uncertain tax positions as we are unable to reasonably estimate the ultimate amount or timing of settlement of such positions. See Note 12 of the Notes to Consolidated Financial Statements.
- (9) Excludes potential liabilities associated with our guarantees on leases aggregating approximately \$32.4 million as of June 30, 2014 of certain independent owner-operators and independent affiliates because we are unable to reasonably estimate our probable exposure to loss. See Note 15 of the Notes to Consolidated Financial Statements.

Long-term Debt

Long-term debt consisted of the following (in thousands):

	June 30, 2014	December 31, 2013
Capital lease obligations	\$ 779	\$ 4,883
ABL Facility	153,900	136,000
Term Loan	17,500	17,500
9.875% Second-Priority Senior Secured Notes, due 2018	202,500	202,500
5% Subordinated Acquisition Notes		19,170
Other Notes	2,060	4,209
Long-term debt, including current maturities	376,739	384,262
Discount on Notes	(858)	(957)
	375,881	383,305
Less current maturities of long-term debt (including capital lease obligations)	(5,164)	(10,580)
Long-term debt, less current maturities (including capital lease obligations)	\$ 370,717	\$ 372,725

Debt Retirement

The following is a schedule of our indebtedness at June 30, 2014 over the periods we are required to pay such indebtedness (in thousands):

	Remainder					
	of 2014	2015	2016	2017	2018	Total
Capital lease obligations	\$ 262	\$ 334	\$ 106	\$ 77	\$	\$ 779
ABL Facility			153,900			153,900
Term Loan (1)		10,500	7,000			17,500
					202,500	202,500

Edgar Filing: QUALITY DISTRIBUTION INC - Form 10-Q

9.875% Second-Priority Senior Secured
Notes, due 2018 (2)

Other Notes	710	1,084	266			2,060
Total	\$ 972	\$ 11,918	\$ 161,272	\$ 77	\$ 202,500	\$ 376,739

- (1) Assumes repayment of the principal amount of the Term Loan in equal quarterly amounts beginning the second quarter of 2015.
- (2) Amounts do not include the remaining unamortized original issue discount of \$0.9 million related to the 2018 Notes.

The following is a schedule of our debt issuance costs (in thousands) as of June 30, 2014:

	December 31, 2013	Additional Debt Issuance Costs	2014 Amortization Expense	June 30, 2014
ABL Facility	\$ 3,745	\$ 4	\$ (726)	\$ 3,023
Term Loan	490		(101)	389
9.875% Second-Priority Senior Secured Notes, due 2018	3,447		(357)	3,090
Total	\$ 7,682	\$ 4	\$ (1,184)	\$ 6,502

Table of Contents

Amortization expense of deferred issuance costs was \$0.6 million for each of the three months ending June 30, 2014 and 2013 and is included in interest expense. Amortization expense of deferred issuance costs was \$1.2 million for each of the six months ending June 30, 2014 and 2013 and is included in interest expense. We are amortizing these costs over the term of the debt instruments.

The ABL Facility***Revolving Credit Facility***

Our ABL Facility provides for a revolving credit facility with a maturity of August 19, 2016. On September 27, 2012, our maximum borrowing capacity under the facility was increased from \$250.0 million to \$350.0 million. Borrowing availability under our ABL Facility did not change as a result of this amendment. Changes in borrowing availability result from increases or decreases in assets securing the ABL Facility. The ABL Facility includes borrowing capacity of up to \$150.0 million for letters of credit and up to \$30.0 million for swingline borrowings on same-day notice. The ABL Facility is available for working capital needs and general corporate purposes, including permitted acquisitions. At June 30, 2014, we had \$76.7 million of borrowing availability under the ABL Facility.

Borrowings under the revolving credit facility bear interest at a rate equal to an applicable margin plus, at our option, either a base rate or LIBOR. The applicable margin at June 30, 2014 was 1.00% for base rate borrowings and 2.00% for LIBOR borrowings. The applicable margin for borrowings will be reduced or increased based on aggregate borrowing base availability under the ABL Facility and may be further reduced in the event that our fixed charge coverage ratio as calculated under the ABL Facility exceeds a target level. The base rate is equal to the highest of the prime rate, the federal funds overnight rate plus 0.50% and 30-day LIBOR plus 1.00%. In addition to paying interest on outstanding principal under the ABL Facility, we are required to pay an unutilized commitment fee to the lenders quarterly at a rate ranging from 0.25% to 0.50%, depending on the average utilization of the ABL Facility. We also pay customary letter of credit fees quarterly. We may voluntarily repay outstanding borrowings under the revolving credit facility of the ABL Facility at any time without premium or penalty, other than customary breakage costs with respect to LIBOR loans. The interest rate on borrowings under the revolving credit facility at June 30, 2014 and December 31, 2013 was 2.3% and 2.2%, respectively.

The borrowing base for the ABL Facility consists of eligible accounts receivable, inventory, tractor and trailer equipment, real property and certain other equipment.

We recorded \$6.9 million in debt issuance costs relating to the ABL Facility. We are amortizing the debt issuance costs over the remaining term of the ABL Facility. The September 2012 amendment to our ABL Facility was treated as a modification under FASB guidance.

Term Loan Facility

On June 14, 2013, our ABL Facility was amended to provide for a new \$17.5 million senior secured term loan facility which was fully funded on July 15, 2013. Borrowings under the Term Loan bear interest at a rate equal to an applicable margin plus, at our option, either a base rate or LIBOR. The applicable margin at June 30, 2014 was 2.50% for base rate borrowings and 3.50% for LIBOR borrowings, with a potential step-down of 0.25% after 18 months from inception if a senior secured leverage ratio is met. Obligations under the Term Loan mature on the earlier of June 14, 2016 or the date on which the ABL Facility terminates. Beginning no earlier than the 12-month anniversary of the Term Loan and no later than the 24-month anniversary of the Term Loan, we will be subject to mandatory repayment of the principal amount of the Term Loan in equal quarterly payments for the remainder of the maturity period. We currently estimate that repayments will begin in the second quarter of 2015. Borrowing availability under our ABL

Facility was expanded to include additional eligible accounts receivable and tractor and trailer equipment in conjunction with the new borrowing. We may voluntarily repay the outstanding amount under the Term Loan at any time without premium or penalty, other than customary breakage costs with respect to the LIBOR loans. The interest rate on borrowings under the Term Loan at June 30, 2014 and December 31, 2013 was 3.7%.

We recorded \$0.6 million in debt issuance costs relating to the Term Loan. We are amortizing the debt issuance costs over the term of the Term Loan.

Table of Contents***9.875% Second-Priority Senior Secured Notes Due 2018***

On November 3, 2010, we issued \$225.0 million aggregate principal amount of the 2018 Notes. With the proceeds of the issuance of the 2018 Notes, we repaid and redeemed certain of our previously outstanding notes and paid down a portion of our outstanding borrowings under the previous ABL Facility.

Interest on the 2018 Notes is payable at a rate of 9.875% per annum, semiannually on May 1 and November 1 of each year. The payment obligations of QD LLC and QD Capital under the 2018 Notes are guaranteed by QDI and by all of its 100%-owned domestic subsidiaries other than immaterial subsidiaries. The 2018 Notes are senior obligations of QD LLC and QD Capital and are secured by a second-priority lien on certain assets. Pursuant to an intercreditor agreement, the liens on the collateral securing the 2018 Notes rank junior in right of payment to the ABL Facility and obligations under certain hedging agreements and cash management obligations and certain other first-lien obligations.

The 2018 Notes mature on November 1, 2018. Prior to November 1, 2014, we may redeem the 2018 Notes, in whole or in part, at a price equal to 100% of the principal amount of the 2018 Notes redeemed, plus accrued and unpaid interest to the redemption date, plus an additional make-whole premium intended to capture the value of holding the 2018 Notes through November 1, 2014, but not less than 1%. During any twelve-month period prior to November 1, 2014, we may redeem up to 10% of the original aggregate principal amount of the 2018 Notes at a redemption price of 103%, plus accrued and unpaid interest to the redemption date. On or after November 1, 2014, we may redeem the 2018 Notes, in whole or in part, at the following prices (expressed as a percentage of principal amount), plus accrued and unpaid interest to the redemption date, if redeemed during the 12-month period commencing on November 1 of the years set forth below:

Period	Redemption Price
2014	104.938%
2015	102.469%
2016 and thereafter	100.000%

We recorded \$6.0 million in debt issuance costs relating to the 2018 Notes, of which \$5.8 million was related to the new issuance and \$0.2 million of unamortized debt issuance costs related to our 10% Senior Notes due 2013 which are no longer outstanding. We are amortizing these costs over the term of the 2018 Notes.

On July 15, 2013, we redeemed a portion of the 2018 Notes in the aggregate principal amount of \$22.5 million for a redemption price equal to 100% of the aggregate principal amount of \$22.5 million, plus accrued but unpaid interest up to the redemption date, plus a 3.0% premium of \$0.7 million. On July 16, 2014, we redeemed another portion of the 2018 Notes in the aggregate principal amount of \$22.5 million. The redemption price for these 2018 Notes equaled 100% of the aggregate principal amount of \$22.5 million, plus accrued but unpaid interest up to the redemption date, plus a 3.0% premium of \$0.7 million. In the third quarter of 2014, \$0.4 million of unamortized debt issuance costs related to this redemption will be written off.

5% Subordinated Acquisition Notes

As part of the consideration we paid for a 2012 acquisition, we issued the Acquisition Notes. The Acquisition Notes contained a fixed interest rate of 5.0% per annum, had a maturity date of June 1, 2017 and were unsecured and subordinated. On November 12, 2013 we made optional principal payments of \$2.1 million. On June 12, 2014, we

extinguished the remaining principal balance of the Acquisition Notes of \$19.2 million at a discount for \$15.0 million in cash. As a result of this transaction, we recognized a gain on early extinguishment of debt of \$4.2 million for 2014. The cash payment on the Acquisition Notes was funded with proceeds from borrowings under our ABL Facility and cash on hand.

Collateral, Guarantees and Covenants

The ABL Facility contains a fixed charge coverage ratio which only needs to be met if borrowing availability is less than a designated amount ranging from \$20.0 million to \$35.0 million, depending upon the size of our borrowing base. The ABL Facility contains a number of covenants that, among other things, restrict, subject to certain exceptions: (i) our ability to sell assets; (ii) incur additional indebtedness; (iii) prepay other indebtedness, including the 2018 Notes; (iv) pay dividends and distributions or repurchase QDI s capital stock; (v) create liens on assets; (vi) make investments; (vii) make certain acquisitions; (viii) engage in mergers or consolidations; (ix) engage in certain transactions with affiliates; (x) amend certain charter documents and material agreements governing subordinated indebtedness, including the 2018 Notes; (xi) change our business; and (xii) enter into agreements that restrict dividends from QD LLC s subsidiaries. The ABL Facility also contains certain customary affirmative covenants and events of default.

Table of Contents

The indenture governing the 2018 Notes contains covenants that restrict, subject to certain exceptions, our ability to, among other things: (i) incur additional debt or issue certain preferred shares; (ii) pay dividends on or make other distributions in respect of QDI's common stock or make other restricted payments; (iii) make certain investments; (iv) sell certain assets; (v) create or permit to exist dividend and/or payment restrictions affecting restricted subsidiaries; (vi) create liens on certain assets to secure debt; (vii) consolidate, merge, sell or otherwise dispose of all or substantially all assets; (viii) enter into certain transactions with affiliates; and (ix) designate subsidiaries as unrestricted subsidiaries. The indenture also provides certain customary events of default, which, if any of them occurs, may result in the principal, interest and any other monetary obligations on the then outstanding 2018 Notes becoming payable immediately.

The payment obligations under the ABL Facility, including the Term Loan, are senior secured obligations of QD LLC and QD Capital and are secured by a first-priority lien on certain assets and guaranteed by QDI and by all of its domestic restricted subsidiaries other than immaterial subsidiaries. The payment obligations of QD LLC and QD Capital under the 2018 Notes are guaranteed by QDI and by all of its domestic subsidiaries other than immaterial subsidiaries. The 2018 Notes, and the guarantees thereof, are senior obligations of QD LLC and QD Capital and are secured by a second-priority lien on certain assets. Pursuant to an intercreditor agreement, the liens on the collateral securing the 2018 Notes rank junior in right of payment to the ABL Facility, including the Term Loan, and obligations under certain hedging agreements, cash management obligations and certain other first-lien obligations. We were in compliance with the covenants under the ABL Facility, including the Term Loan and the 2018 Notes, at June 30, 2014.

Other Liabilities and Obligations

As of June 30, 2014, we had \$25.9 million in outstanding letters of credit issued under the ABL Facility that may be drawn by third parties to satisfy some of the obligations described above and certain other obligations. We are required to provide letters of credit to our insurance administrator to support our claims paying capability. The letter of credit issued to our insurance administrator had a maximum draw amount of \$22.0 million as of June 30, 2014. If we fail to meet certain terms of our agreement, the insurance administrator may draw down the entire letter of credit. The remaining \$3.9 million of outstanding letters of credit as of June 30, 2014 relates to various other obligations.

Our obligations for environmental matters, accrued loss and damage claims and long-term pension obligations are considered within Contractual Obligations. Our obligations for certain lease guarantees are considered within Off-Balance Sheet Arrangements.

Other Issues

While uncertainties relating to environmental, labor and other regulatory matters exist within the trucking industry, management is not aware of any trends or events likely to have a material adverse effect on liquidity or the accompanying consolidated financial statements. Our credit ratings are affected by many factors, including our financial results, operating cash flows and total indebtedness.

The ABL Facility and the indentures governing the 2018 Notes contain certain limitations on QD LLC's ability to make distributions to QDI. We do not consider these restrictions to be significant, because QDI is a holding company with no significant operations or assets, other than ownership of 100% of QD LLC's membership units. QD LLC's direct and indirect 100%-owned subsidiaries are generally permitted to make distributions to QD LLC, which is the principal obligor under the ABL Facility and the 2018 Notes.

FORWARD-LOOKING STATEMENTS AND CERTAIN CONSIDERATIONS

This report, along with other documents that are publicly disseminated by us, contains or might contain forward-looking statements within the meaning of the Securities Exchange Act of 1934, as amended. All statements included in this report and in any subsequent filings made by us with the SEC, other than statements of historical fact, that address activities, events or developments that we or our management expect, believe or anticipate will or may occur in the future, are forward-looking statements. These statements represent our reasonable judgment on the future based on various factors and using numerous assumptions and are subject to known and unknown risks, uncertainties and other factors that could cause our actual results and financial position to differ materially. We claim the protection of the safe harbor for forward-looking statements provided in the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act and Section 21E of the Exchange Act. Examples of forward-looking statements include: (i) projections of revenue, earnings, capital structure and other financial items, (ii) statements of our plans and objectives, (iii) statements of expected future economic performance, and (iv) assumptions underlying statements regarding us or our business. Forward-looking statements can be identified by, among other things, the use of forward-looking language, such as targets, bodes, believes, expects, estimates, may, will, should, could, intends, anticipates or scheduled to or the negatives of those terms, or other variations of those terms or comparable language, or by discussions of strategy or other intentions.

Table of Contents

Forward-looking statements are subject to known and unknown risks, uncertainties and other factors that could cause our actual results to differ materially from those contemplated by the statements. The forward-looking information is based on various factors and was derived using numerous assumptions. Important factors that could cause our actual results to be materially different from the forward-looking statements include the following risks and other factors discussed under the Item 1A Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2013 and in our Quarterly Reports on Form 10-Q. These factors include:

the effect of local, national and international economic, credit, capital and labor market conditions on the economy in general, and on the particular industries in which we operate, including excess capacity in the industry, changes in fuel and insurance prices, interest rate fluctuations, and downturns in customers business cycles and shipping requirements;

our substantial leverage and our ability to make required payments and comply with restrictions contained in our debt arrangements or to otherwise generate sufficient cash from operations or borrowings under our ABL Facility to fund our liquidity needs;

competition and rate fluctuations, including fluctuations in prices and demand for transportation services as well as for commodities such as natural gas and oil;

our reliance on independent affiliates and independent owner-operators;

our potential liability related to our financial support obligations for third-party equipment leasing programs;

reclassification of our independent contractors, such as our independent owner-operators, as a result of legislative, judicial or regulatory changes or for any other reason;

a shift away from or slowdown in production in the shale regions in which we have energy logistics operations;

our liability as a self-insurer to the extent of our deductibles as well as changing conditions and pricing in the insurance marketplace;

increased unionization, which could increase our operating costs or constrain operating flexibility;

changes in or our inability to comply with governmental regulations and legislative changes affecting the transportation industry generally or in the particular segments in which we operate;

federal and state legislative and regulatory initiatives, which could result in increased costs and additional operating restrictions upon us or our UCO&G customers;

our ability to access and use our salt water disposal wells and other disposal sites and methods in our energy logistics business;

our ability to comply with current and future environmental regulations and the increasing costs relating to environmental compliance;

potential disruption at U.S. ports of entry;

diesel fuel prices and our ability to recover costs through fuel surcharges;

our ability to attract and retain qualified drivers;

terrorist attacks and the cost of complying with existing and future anti-terrorism security measures;

our dependence on senior management;

the potential loss of our ability to use net operating losses to offset future income;

potential future impairment charges;

our ability to successfully identify acquisition opportunities, consummate such acquisitions and successfully integrate acquired businesses, converted affiliates and new affiliates and achieve the anticipated benefits and synergies of acquisitions and conversions, the effects of the acquisitions and conversions on the acquired businesses existing relationships with customers, governmental entities, affiliates, owner-operators and employees, and the impact that acquisitions and conversions could have on our future financial results and business performance and other future conditions in the market and industry from the acquired businesses;

our ability to execute plans to profitably operate in the transportation business and disposal well business within the energy logistics market;

our success in entering new markets;

adverse weather conditions;

disruptions of our information technology and communications systems;

Table of Contents

changes in health insurance benefit regulations;

our liability for our proportionate share of unfunded vested benefit liabilities, particularly in the event of our withdrawal from any of our multi-employer pension plans;

the assumptions underlying our expectations of financial results in 2014; and

changes in planned or actual capital expenditures due to operating needs, changes in regulation, covenants in our debt arrangements and other expenses, including interest expenses.

In addition, there may be other factors that could cause our actual results to be materially different from the results referenced in the forward-looking statements. All forward-looking statements contained in this Quarterly Report on Form 10-Q are qualified in their entirety by this cautionary statement. Forward-looking statements speak only as of the date they are made, and we do not intend to update or otherwise revise the forward-looking statements to reflect events or circumstances after the date of this Quarterly Report on Form 10-Q or to reflect the occurrence of unanticipated events.

ADDITIONAL INFORMATION AVAILABLE ON COMPANY WEBSITE

Our most recent Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K and amendments to those reports may be viewed or downloaded electronically or as paper copies from our website: www.qualitydistribution.com as soon as reasonably practicable after we electronically file such material with, or furnish it to, the SEC. Our recent press releases are also available to be viewed or downloaded electronically at www.qualitydistribution.com. We will also provide electronic or paper copies of our SEC filings free of charge on request. We regularly post or otherwise make available information on the Investor Relations section of our website that may be important to investors. Any information on or linked from our website is not incorporated by reference into this Quarterly Report on Form 10-Q.

ITEM 3 Quantitative and Qualitative Disclosures about Market Risk

We are subject to market risks from (i) interest rates due to our variable interest rate indebtedness, (ii) foreign currency fluctuations due to our international operations and (iii) increased commodity prices due to the diesel consumption necessary for our operations. During the six months ended June 30, 2014, we have not held derivative instruments or engaged in other hedging transactions to reduce our exposure to such risks.

Interest Rate Risk

We are exposed to the impact of interest rate changes through our variable-rate borrowings under the ABL Facility. With regard to the revolving credit facility of the ABL Facility, at QD LLC's option, the applicable margin for borrowings at June 30, 2014 was 1.00% with respect to base rate borrowings and 2.00% with respect to LIBOR borrowings. The applicable margin for such borrowings will be reduced or increased based on aggregate borrowing base availability under the ABL Facility and may be further reduced in the event that our fixed charge coverage ratio as calculated under the ABL Facility exceeds a target level. With respect to the Term Loan, the applicable margin for borrowings is 2.50% for base rate borrowings and 3.50% for LIBOR borrowings, with a potential step-down of 0.25% near the end of 2014 if a senior secured leverage ratio is met. The base rate under the ABL Facility is equal to the highest of the prime rate, the federal funds overnight rate plus 0.50% and 30-day LIBOR plus 1.00%.

	Balance at June 30, 2014 (\$ in 000s)	Interest Rate at June 30, 2014	Effect of 1% Increase (\$ in 000s)
ABL Facility	\$ 153,900	2.3%	\$ 1,539
Term Loan	17,500	3.7%	175
Total	\$ 171,400		\$ 1,714

At June 30, 2014, a 1% increase in the current per annum interest rate would result in \$1.7 million of additional interest expense during the next 12 months. The foregoing calculation assumes an instantaneous 1% increase in the rates under the ABL Facility and that the principal amount under both the revolving credit facility and the Term Loan is the amount outstanding as of June 30, 2014. The calculation therefore does not account for the differences in the market rates upon which the interest rates of our indebtedness are based, our option to elect the lowest of three different interest rates under our borrowings or other possible actions, such as prepayment, that we might take in response to any rate increase.

Table of Contents

Foreign Currency Exchange Rate Risk

Operating in international markets involves exposure to the possibility of volatile movements in foreign exchange rates. The currencies in each of the countries in which we operate affect:

the results of our international operations reported in United States dollars; and

the value of the net assets of our international operations reported in United States dollars. These exposures may impact future earnings or cash flows. Revenue from foreign locations (Canada and Mexico) represented approximately 4.2% of our consolidated revenue for the six months ended June 30, 2014 and 4.3% of our consolidated revenue for the six months ended June 30, 2013. The economic impact of foreign exchange rate movements is complex because such changes are often linked to variability in real growth, inflation, interest rates, governmental actions and other factors. These changes, if material, could cause us to adjust our financing and operating strategies. Therefore, to isolate the effect of changes in currency does not accurately portray the effect of these other important economic factors. As foreign exchange rates change, translation of the income statements of our international subsidiaries into U.S. dollars affects year-over-year comparability of operating results. While we may hedge specific transaction risks, we generally do not hedge translation risks because we believe there is no long-term economic benefit in doing so.

Assets and liabilities for our Canadian operations are matched in the local currency, which reduces the need for dollar conversion. Our Mexican operations use the United States dollar as their functional currency. Any foreign currency impact on translating assets and liabilities into dollars is included as a component of shareholders' deficit. Our revenue results for the six months ended June 30, 2014 were negatively impacted by \$1.6 million in foreign currency movement, primarily due to the weakening of the Canadian dollar against the United States dollar.

Changes in foreign exchange rates that had the largest impact on translating our international operating profits for the first six months of 2014 related to the Canadian dollar versus the United States dollar. We estimate that a 1% adverse change in the Canadian dollar foreign exchange rate would have decreased our revenues by approximately \$0.2 million for the six months ended June 30, 2014, assuming no changes other than the exchange rate itself. Our intercompany loans are subject to fluctuations in exchange rates primarily between the United States dollar and the Canadian dollar. Based on the outstanding balance of our intercompany loans at June 30, 2014, a change of 1% in the exchange rate for the Canadian dollar would cause a change in our foreign exchange result of less than \$0.1 million.

Commodity Price Risk

The price and availability of diesel fuel are subject to fluctuations due to changes in the level of global oil production, seasonality, weather, global politics and other market factors. Historically, we have been able to recover a majority of fuel price increases from our customers in the form of fuel surcharges. The price and availability of diesel fuel can be unpredictable as well as the extent to which fuel surcharges can be collected to offset such increases. In the six months ended June 30, 2014 and 2013, a majority of fuel costs were covered through fuel surcharges.

ITEM 4 Controls and Procedures

Evaluation of disclosure controls and procedures

As required by Exchange Act Rules 13a-15(b) and 15d-15(b), management has evaluated, with the participation of our Chief Executive Officer and Chief Financial Officer, the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report. Based on their evaluation, management concluded our disclosure controls and procedures (as defined in Securities Exchange Act Rules 13a-15(e) and 15d-15(e)) were effective as of June 30, 2014 to ensure that information required to be disclosed by us in reports that we file or submit under the Securities Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms and were effective as of June 30, 2014 to ensure that information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, or persons performing similar functions, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) during the quarter ended June 30, 2014 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents**PART II OTHER INFORMATION****ITEM 1 Legal Proceedings**

Other than reported in Item 3 Legal Proceedings of our Annual Report on Form 10-K for the year ended December 31, 2013, Note 21. Commitments and Contingencies to our audited consolidated financial statements contained in such Form 10-K and Note 14. Commitments and Contingencies to our unaudited consolidated financial statements included in this report, we are not currently a party to any material pending legal proceedings other than routine matters incidental to our business, and no material developments have occurred in any proceedings described in such Form 10-K.

ITEM 1A Risk Factors

You should carefully consider the factors disclosed in our Annual Report on Form 10-K for the year ended December 31, 2013 included under Item 1A Risk Factors in addition to the other information set forth in this report. The risks described in our Annual Report on Form 10-K and our Quarterly Reports on Form 10-Q are not the only risks facing our Company.

ITEM 2 Unregistered Sales of Equity Securities and Use of Proceeds**ISSUER PURCHASES OF EQUITY SECURITIES**

The following table lists QDI's share repurchases and deemed share repurchases during the three months ended June 30, 2014. On November 20, 2012, we announced a share repurchase program pursuant to which our Board of Directors authorized the repurchase of up to \$15.0 million of our common stock in an open-ended repurchase program (the Repurchase Program). Stock has been, and may in the future be, purchased pursuant to the Repurchase Program, from time to time, in the open market or through private transactions, subject to market conditions. Subject to applicable laws, repurchases under the Repurchase Program may be made at such times and in such amounts as we deem appropriate and may be made pursuant to Rule 10b5-1. We are not obligated to purchase any shares under the Repurchase Program, and it can be discontinued at any time that we feel additional purchases are not warranted. As of June 30, 2014, we have repurchased approximately 1.2 million shares valued at \$8.1 million under the Repurchase Program. No shares were repurchased under the Repurchase Program during the three months ended June 30, 2014. However, shares were surrendered during the period by employees in order to satisfy statutory tax withholding obligations in connection with the vesting of stock-based compensation awards. These surrendered shares are reflected as shares purchased in the table below.

Period	Total Number of Shares Purchased(2)	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Program	Maximum Dollar Value of Shares That May Yet Be Purchased Under the Program
---------------	----------------------------------------------------	-----------------------------------------	-------------------------------------------------------------------------------------------------------	-----------------------------------------------------------------------------------------------------------------------

				(in thousands) (1)
April 2014		\$		\$ 6,900
May 2014		\$		\$ 6,900
June 2014	166	\$	15.43	\$ 6,900
Total	166	\$	15.43	\$ 6,900

(1) Represents the amount remaining in the Repurchase Program as of the end of the period noted.

(2) Represents shares that were surrendered during the three months ended June 30, 2014.

ITEM 3 Defaults Upon Senior Securities

None.

ITEM 4 Mine Safety Disclosures

Not applicable.

ITEM 5 Other Information

None.
