RISK FACTORS

Investing in the senior notes involves risk. These risks are described under "Risk Factors" in Item 1A of our annual report on Form 10-K for the fiscal year ended December 31, 2014 and our quarterly report on Form 10-Q for the quarter ended March 31, 2015, both of which are incorporated by reference in this prospectus supplement and the accompanying prospectus. See "Where You Can Find More Information" in the accompanying prospectus. Before making a decision to invest in the senior notes, you should carefully consider these risks as well as other information contained or incorporated by reference in this prospectus supplement and the accompanying prospectus.

FORWARD-LOOKING STATEMENTS

This prospectus supplement, the accompanying prospectus and any documents incorporated by reference into this prospectus supplement and the accompanying prospectus contain forward-looking statements that are necessarily subject to various risks and uncertainties. These statements reflect management's judgment and opinions which are based on current estimates, expectations, and projections about future events and assumptions regarding these events and management's knowledge of facts as of the date of this prospectus supplement.

These forward-looking statements relate to, among other matters, estimated costs, including penalties and fines, associated with various investigations and proceedings; forecasts of pipeline-related expenses that we will not recover through rates; forecasts of capital expenditures; estimates and assumptions used in critical accounting policies, including those relating to regulatory assets and liabilities, environmental remediation, litigation, third-party claims, and other liabilities; and the level of future equity or debt issuances. These statements are also identified by words such as assume, expect, intend, forecast, plan, project, believe, estimate, predict, anticipate, may, show, potential and similar expressions. We are not able to predict all the factors that may affect future results. Some of the factors that could cause future results to differ materially from those expressed or implied by the forward-looking statements, or from historical results, include, but are not limited to:

the final outcomes of the pending California Public Utilities Commission (CPUC) investigations and enforcement matters, the federal criminal prosecution of us, and the other investigations that have been or may be commenced relating to our compliance with natural gas-related laws and regulations, including the ultimate amount of fines imposed, whether a monitor is appointed to oversee our natural gas operations, and the ultimate amount of costs related to our natural gas operations that is disallowed or unrecoverable;

the timing and outcome of additional regulatory enforcement actions or criminal investigations that may be or have been commenced relating to communications between us and the CPUC that may have violated the CPUC's rules regarding ex parte communications or are alleged to otherwise be improper, and whether such outcomes or investigations negatively affect the final decisions to be issued in the 2015 gas transmission and storage (GT&S) rate case, the pending CPUC investigations, or other ratemaking proceedings;

whether we are able to repair the harm to our reputation caused by negative publicity about our natural gas transmission pipeline rupture and fire that occurred on September 9, 2010 in San Bruno, California (the San Bruno accident), the federal criminal indictment of us for alleged violations of the Natural Gas Pipeline Safety Act and relating to the San Bruno accident, the citations issued by the Safety and Enforcement Division of the CPUC against us under the CPUC's gas safety citation program, the state and federal investigations, the CPUC's restrictions on our communications with the CPUC, and our ongoing work to remove encroachments from transmission pipeline rights-of-way;

the restrictions on communications between us and the CPUC that have been imposed by the CPUC that, along with continuing public criticism of us and the CPUC, may make it more difficult for us to

Table of Contents

sustain or repair a constructive working relationship with the CPUC and achieve balanced regulatory outcomes;

the timing and outcome of ratemaking proceedings (such as the 2015 GT&S rate case and the transmission owner rate case) and whether the cost and revenue forecasts assumed in such outcomes prove to be accurate;

the amount and timing of additional common stock and debt issuances by Corp, the proceeds of which are contributed as equity to maintain our authorized capital structure as we incur charges and costs that we cannot recover through rates, including costs and fines associated with natural gas matters and the pending investigations;

the outcomes of future investigations or other enforcement proceedings that may be commenced relating to our compliance with laws, rules, regulations, or orders applicable to our operations, including the construction, expansion or replacement of our electric and gas facilities; inspection and maintenance practices, customer billing and privacy, and physical and cyber security; and whether the current or potentially worsening state regulatory environment increases the likelihood of unfavorable outcomes;

the impact of environmental laws, regulations, and orders; the ultimate amount of costs incurred to discharge our known and unknown remediation obligations; the extent to which we are able to recover environmental costs in rates or from other sources; and the ultimate amount of environmental costs we incur but do not recover, such as the remediation costs associated with our natural gas compressor station site located near Hinkley, California;

the impact of new legislation or Nuclear Regulatory Commission (NRC) regulations, recommendations, policies, decisions, or orders relating to the nuclear industry, including operations, seismic design, security, safety, relicensing, the storage of spent nuclear fuel, decommissioning, cooling water intake, or other issues; and whether we decide to request that the NRC resume processing our renewal application for the two Diablo Canyon operating licenses, and if so, whether the NRC grants the renewal;

the impact of droughts or other weather-related conditions or events, climate change, natural disasters, acts of terrorism, war, or vandalism (including cyber-attacks), and other events, that can cause unplanned outages, reduce generating output, disrupt our service to customers, or damage or disrupt the facilities, operations, or information technology and systems owned by us, our customers, or third parties on which we rely; and subject us to third-party liability for property damage or personal injury, or result in the imposition of civil, criminal, or regulatory penalties on us;

the impact of environmental laws and regulations aimed at the reduction of carbon dioxide and greenhouse gases, and whether we are able to continue recovering associated compliance costs, such as the cost of emission allowances and offsets under cap-and-trade regulations and the cost of renewable energy procurement;

the impact that reductions in customer demand for electricity and natural gas have on our ability to make and recover our investments through rates and earn our authorized return on equity;

the supply and price of electricity, natural gas, and nuclear fuel; the extent to which we can manage and respond to the volatility of energy commodity prices; our ability and the ability of our counterparties to post or return collateral in connection with price risk management activities; and whether we are able to recover timely our electric generation and energy commodity costs through rates, especially if the integration of renewable generation resources force conventional generation resource providers to curtail production, triggering take or pay provisions in our power purchase agreements;

whether our information technology, operating systems and networks, including the advanced metering system infrastructure, customer billing, financial, and other systems, can continue to function accurately while meeting regulatory requirements; whether we are able to protect our operating

systems and networks from damage, disruption, or failure caused by cyber-attacks, computer viruses, or other hazards; whether our security measures are sufficient to protect against unauthorized or inadvertent disclosure of information contained in such systems and networks; and whether we can continue to rely on third-party vendors and contractors that maintain and support some of our operating systems;

the extent to which costs incurred in connection with third-party claims or litigation can be recovered through insurance, rates, or from other third parties; including the timing and amount of insurance recoveries related to third party claims arising from the San Bruno accident;

our ability to access capital markets and other sources of debt and equity financing in a timely manner on acceptable terms;

changes in credit ratings which could result in increased borrowing costs especially if we were to lose our investment grade credit ratings;

the impact of federal or state laws or regulations, or their interpretation, on energy policy and the regulation of utilities and their holding companies;

the outcome of federal or state tax audits and the impact of any changes in federal or state tax laws, policies, regulations, or their interpretation; and

the impact of changes in U.S. Generally Accepted Accounting Principles (GAAP), standards, rules, or policies, including those related to regulatory accounting, and the impact of changes in their interpretation or application.

For more information about the significant risks that could affect the outcome of these forward-looking statements and our future financial condition, results of operations and cash flows, you should read the sections titled Risk Factors in the documents incorporated by reference in this prospectus supplement and the accompanying prospectus, together with Risk Factors in this prospectus supplement.

Except as required by applicable laws or regulations, we do not undertake any obligation to update or revise any forward-looking statement, whether as a result of new information, future events or otherwise.

DESCRIPTION OF THE SENIOR NOTES

General

You should read the following information in conjunction with the statements under **Description of the Senior Notes** in the accompanying prospectus.

As used in this section, the terms **we**, **us** and **our** refer to Pacific Gas and Electric Company, and not to any of our subsidiaries.

The 2025 notes are being offered in the aggregate principal amount of \$400,000,000 and will mature on June 15, 2025. The 2045 notes are being offered in the aggregate principal amount of \$100,000,000 and will mature on March 15, 2045.

We will issue the senior notes under an existing indenture, which was originally entered into on March 11, 2004 and amended and restated on April 22, 2005, between us and The Bank of New York Mellon Trust Company, N.A. (formerly known as The Bank of New York Trust Company, N.A.), as trustee, as supplemented by supplemental indentures between us and the trustee. Please read the indenture because it, and not this description, defines your rights as holders of the senior notes. We have filed with the Securities and Exchange Commission a copy of the indenture as an exhibit to the registration statement of which this prospectus supplement and the accompanying prospectus are a part.

Pursuant to the Trust Indenture Act of 1939, as amended, or the 1939 Act, if a default occurs on the senior notes, The Bank of New York Mellon Trust Company, N.A. may be required to resign as trustee under the indenture if it has a conflicting interest (as defined in the 1939 Act), unless the default is cured, duly waived or otherwise eliminated within 90 days.

The 2045 notes form a part of the series of our 4.30% Senior Notes due March 15, 2045 and will have the same terms as the other notes of this series other than their issue date, first interest payment date and the public offering price at which the 2045 notes are sold by this prospectus supplement and the accompanying prospectus. We first issued our 4.30% Senior Notes due March 15, 2045 on November 6, 2014. The 2045 notes offered by this prospectus supplement and the accompanying prospectus will have the same CUSIP number as the other notes of the same series and will trade interchangeably with notes of the same series immediately upon settlement. Upon the consummation of this offering, the aggregate principal amount of our 4.30% Senior Notes due March 15, 2045, including the 2045 notes offered hereby, will be \$600,000,000.

For each series of senior notes, we may, without consent of the holders of senior notes, issue additional senior notes of that series under the indenture, having the same terms in all respects to the senior notes (except for the public offering price and the issue date and, in some cases, the first interest payment date) so that those additional notes will be consolidated and form a single series with the other outstanding senior notes of the same series.

The 2025 notes will bear interest from June 12, 2015 at 3.50% per annum, payable semiannually on each June 15 and December 15, commencing on December 15, 2015, to holders of record on the 15th day prior to the interest payment date.

The 2045 notes offered hereby will bear interest from March 15, 2015 at 4.30% per annum, payable semiannually on each March 15 and September 15, commencing on September 15, 2015, to holders of record on the 15th day prior to the interest payment date.

We will issue the senior notes in denominations of \$1,000 and integral multiples of \$1,000 in excess thereof.

Each series of senior notes will be redeemable at our option, in whole or in part, at any time as described below under **Optional Redemption for Senior Notes** **Optional Redemption for 2025 Notes** and **Optional Redemption for Senior Notes** **Optional Redemption for 2045 Notes**.

Table of Contents

Interest on the senior notes will be computed on the basis of a 360-day year consisting of twelve 30-day months. If any payment date falls on a day that is not a business day, the payment will be made on the next business day, but we will consider that payment as being made on the date that the payment was due to you. In that event, no interest will accrue on the amount payable for the period from and after such payment date to such next business day.

We will issue the senior notes in the form of one or more global securities, which will be deposited with, or on behalf of, The Depository Trust Company, or DTC, and registered in the name of DTC's nominee. Information regarding DTC's book-entry system is set forth below under Book-Entry System; Global Notes.

Ranking

The senior notes will be our direct, unsecured and unsubordinated obligations and will rank equally with all our other existing and future unsecured and unsubordinated obligations. The senior notes will be effectively subordinated to all our secured debt. As of March 31, 2015, we had approximately \$13.8 billion of notes outstanding under the indenture for senior notes. The indenture contains no restrictions on the amount of additional indebtedness that may be incurred by us.

As of March 31, 2015, we did not have any outstanding secured debt for borrowed money.

Optional Redemption for Senior Notes

General Senior Note Optional Redemption Terms

The redemption price will be calculated assuming a 360-day year consisting of twelve 30-day months.

We will mail notice of any redemption at least 10 days but not more than 60 days before the redemption date to each registered holder of the senior notes to be redeemed.

Unless we default in payment of the redemption price, on and after the redemption date, interest will cease to accrue on the senior notes or portions of the senior notes called for redemption.

If we redeem only some of the senior notes, DTC's practice is to choose by lot the amount to be redeemed from the senior notes held by each of its participating institutions. DTC will give notice to these participants, and these participants will give notice to any street name holders of any indirect interests in the senior notes to be redeemed according to arrangements among them. These notices may be subject to statutory or regulatory requirements. We will not be responsible for giving notice of a redemption of the senior notes to be redeemed to anyone other than the registered holders of the senior notes to be redeemed, which is currently DTC. If senior notes to be redeemed are no longer held through DTC and fewer than all the senior notes are to be redeemed, selection of senior notes for redemption will be made by the trustee in any manner the trustee deems fair and appropriate.

Subject to the foregoing and to applicable law (including, without limitation, United States federal securities laws), we or our affiliates may, at any time and from time to time, purchase outstanding senior notes by tender, in the open market or by private agreement.

No Sinking Fund

There is no provision for a sinking fund for either the 2025 notes or the 2045 notes.

Covenants

The indenture restricts us and any of our subsidiaries which are significant subsidiaries from incurring or assuming secured debt or entering into sale and leaseback transactions, except in certain circumstances. The accompanying prospectus describes this covenant (see Description of the Senior Notes Restrictions on Liens and Sale and Leaseback Transactions in the accompanying prospectus) and other covenants contained in the indenture in greater detail and should be read prior to investing.

Book-Entry System; Global Notes

The senior notes of each series will initially be issued in the form of one or more global notes. Each series of the senior notes will be issued as fully-registered securities registered in the name of Cede & Co. (DTC's partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered security certificate will be issued for each of the 2025 notes and the 2045 notes in the aggregate principal amount of such series, and will be deposited with DTC or the trustee on behalf of DTC and registered in the name of DTC or its nominee. If, however, the aggregate principal amount of either the 2025 notes or the 2045 notes exceeds \$500 million, one certificate will be issued with respect to each \$500 million of principal amount and an additional certificate will be issued with respect to any remaining principal amount of senior notes of such series. Investors may hold their beneficial interests in a global note directly through DTC or indirectly through organizations which are participants in the DTC system.

Table of Contents

CERTAIN UNITED STATES FEDERAL INCOME TAX CONSEQUENCES

The following summary describes certain United States federal income tax consequences of the acquisition, ownership and disposition of the senior notes as of the date hereof. This summary is based on the Internal Revenue Code of 1986, as amended, as well as final, temporary and proposed Treasury regulations and administrative and judicial decisions. Legislative, judicial and administrative changes may occur, possibly with retroactive effect, that could affect the accuracy of the statements described herein. This summary generally is addressed only to original purchasers of the senior notes that purchase the senior notes at the initial offering price, deals only with senior notes held as capital assets and does not purport to address all United States federal income tax matters that may be relevant to investors in special tax situations, such as insurance companies, tax-exempt organizations, financial institutions, dealers in securities or currencies, traders in securities that elect to mark to market, holders of senior notes that are held as a hedge or as part of a hedging, straddle or conversion transaction, certain former citizens or residents of the United States, or United States holders (as defined below) whose functional currency is not the United States dollar. **Persons considering the purchase of the senior notes should consult their own tax advisors concerning the application of United States federal income tax laws, as well as the laws of any state, local or foreign taxing jurisdictions, to their particular situations.**

If a partnership (including an entity treated as a partnership for United States federal income tax purposes) is a beneficial owner of a senior note, the treatment of such partnership, or a partner in the partnership, will generally depend upon the status of the partner and upon the activities of the partnership. A beneficial owner of a senior note that is a partnership, and partners in such a partnership, should consult their tax advisors about the United States federal income tax consequences of holding and disposing of the senior notes.

We intend to treat the 2045 notes as being issued in a qualified reopening for United States federal income tax purposes. Consequently, we intend to treat the 2045 notes as part of the same issue for United States federal income tax purposes as the 4.30% Senior Notes due March 15, 2045. The aggregate price paid for the 2045 notes will include pre-issuance accrued interest from March 15, 2015. Such pre-issuance accrued interest will be included in the first interest payment that will be made on September 15, 2015 to the holders of the 2045 notes. We will exclude the pre-issuance accrued interest in determining the issue price of the 2045 notes and, in accordance with this treatment, holders of the 2045 notes will be required to treat a corresponding portion of the interest payable on the first interest payment date as a non-taxable return of the excluded pre-issuance accrued interest, rather than as an amount payable on the 2045 notes.

United States Holders

This section describes the tax consequences to a United States holder. A United States holder is a beneficial owner of a senior note that is (i) a citizen or resident of the United States, (ii) a corporation (including an entity treated as a corporation for United States federal income tax purposes) created or organized in the United States or any state (including the District of Columbia), (iii) an estate whose income is subject to United States federal income tax on a net income basis in respect of the senior note, or (iv) a trust if a United States court can exercise primary supervision over the trust's administration and one or more United States persons are authorized to control all substantial decisions of the trust (or certain trusts that have made a valid election to be treated as a United States person).

If you are not a United States holder, this section does not apply to you. See **Non-United States Holders** below.

Payment of Interest

The senior notes will not be issued with more than a *de minimis* amount of original issue discount for United States federal income tax purposes. Interest on a senior note will therefore be taxable to a United States holder as ordinary interest income at the time it accrues or is received, in accordance with the United States holder's method of accounting for United States federal income tax purposes.

Table of Contents

Sale, Exchange or Retirement of Senior Notes

Upon the sale, exchange or retirement of a senior note, a United States holder will recognize taxable gain or loss equal to the difference between the amount realized from the sale, exchange, retirement or other disposition (other than amounts attributable to accrued interest not previously included in income, which will be taxable as ordinary interest income) and the United States holder's adjusted tax basis in the senior note. A United States holder's adjusted tax basis in a senior note will generally equal the cost of the senior note to such holder increased by the amount of any accrued but unpaid interest previously included in income. Such gain or loss generally will be capital gain or loss, and will be long-term capital gain or loss if the senior note has been held for more than one year. Capital losses are subject to certain limitations.

Tax on Net Investment Income

Certain non-corporate United States holders of senior notes generally will be subject to a 3.8% tax on their net investment income for the relevant taxable year. Subject to certain exceptions, a United States holder's calculation of its net investment income generally will include its interest income on, and its net gains from the disposition of, the senior notes. A United States holder that is an individual, estate or trust is urged to consult its tax advisor regarding the applicability of this tax to its income and gains in respect of your investment in the senior notes.

Non-United States Holders

This section describes the tax consequences to a non-United States holder. You are a non-United States holder if you are the beneficial owner of a senior note (other than a partnership, including an entity treated as a partnership for United States federal income tax purposes) and are not a United States holder for United States federal income tax purposes.

Payment of Interest

A non-United States holder generally will not be subject to United States federal withholding tax with respect to payments of principal and interest on the senior notes, provided that (i) the non-United States holder does not actually or constructively own 10 percent or more of the total combined voting power of all classes of our stock entitled to vote, (ii) the non-United States holder is not for United States federal income tax purposes a controlled foreign corporation related to us (directly or indirectly) through stock ownership, and (iii) the beneficial owner of the senior notes certifies to us or the fiscal and paying agent (on Internal Revenue Service Form W-8BEN, Form W-8BEN-E or other applicable form) under penalties of perjury as to its status as a non-United States holder and complies with applicable identification procedures. Special rules apply to partnerships, estates and trusts and, in certain circumstances, certifications as to foreign status and other matters may be required to be provided by partners and beneficiaries thereof.

Sale, Exchange or Retirement of Senior Notes

A non-United States holder of a senior note generally will not be subject to United States federal income tax on any gain realized upon the sale, exchange, retirement or other disposition of a senior note, unless the non-United States holder is an individual who is present in the United States for 183 days or more during the taxable year of sale, retirement or other disposition and certain other conditions are met. In such case, the non-United States holder generally will be subject to a 30 percent tax on any capital gain recognized on the disposition of the senior notes, after being offset by certain United States source capital losses.

United States Trade or Business

If a non-United States holder of a senior note is engaged in a trade or business in the United States and income or gain from the senior note is effectively connected with the conduct of such trade or business, the non-

Table of Contents

United States holder will be exempt from withholding tax if appropriate certification has been provided, but will generally be subject to regular United States federal income tax on such income and gain in the same manner as if it were a United States holder. In addition, if such non-United States holder is a foreign corporation, it may be subject to a branch profits tax equal to 30 percent (or lower applicable treaty rate) of its effectively connected earnings and profits for the taxable year, subject to adjustments.

Foreign Account Tax Compliance Act

Sections 1471 through 1474 of the United States Internal Revenue Code, the Foreign Account Tax Compliance Act or FATCA provisions, impose a 30% United States withholding tax on certain types of payments made to certain foreign entities. Failure to comply with the additional certification, information reporting and other specified requirements imposed under FATCA could result in United States withholding tax being imposed on payments of interest and principal under the senior notes and sales proceeds of the senior notes held by or through a foreign entity. United States Treasury Regulations provide that FATCA withholding generally will apply to (i) payments of interest, (ii) gross proceeds from the sale, exchange or retirement of debt obligations paid after December 31, 2016, and (iii) certain pass-thru payments received with respect to debt obligations held through foreign financial institutions after the later of December 31, 2016 and the date that final regulations defining the term foreign pass-thru payments are issued. Prospective investors should consult their own tax advisors regarding FATCA and its effect on them.

Backup Withholding and Information Reporting

In general, payments of interest and the proceeds of sale, exchange, retirement or other disposition of the senior notes payable by a United States paying agent or other United States intermediary will be subject to information reporting. With respect to a non-United States holder, we must report annually to the Internal Revenue Service and to each non-United States holder the amount of any interest paid to such holder regardless of whether any tax was actually withheld. Copies of the information returns reporting such interest payments to a non-United States holder and the amount of any tax withheld also may be made available to the tax authorities in the country in which the non-United States holder resides under the provisions of an applicable income tax treaty. In addition, backup withholding at the then applicable rate (currently 28 percent) will generally apply to these payments if:

in the case of a United States holder, the holder fails to provide an accurate taxpayer identification number, fails to certify that the holder is not subject to backup withholding or fails to report all interest and dividends required to be shown on its United States federal income tax returns; or

in the case of a non-United States holder, the holder fails to provide the certification on Internal Revenue Service Form W-8BEN, Form W-8BEN-E or other applicable form or otherwise does not provide evidence of exempt status.

Certain United States holders (including, among others, corporations) are not subject to information reporting or backup withholding. Any amount paid as backup withholding will be creditable against the holder's United States federal income tax liability and may entitle the holder to a refund, provided that the required information is timely furnished to the Internal Revenue Service. Holders of the senior notes should consult their tax advisors as to their qualification for exemption from backup withholding and the procedure for obtaining such an exemption.

The underwriters have agreed, subject to the terms and conditions set forth in the underwriting agreement, to purchase all of the senior notes if any of the senior notes are purchased.

The underwriters propose to offer each series of the senior notes directly to the public at the respective public offering prices specified on the cover page to this prospectus supplement and may also offer the senior notes to certain dealers at the respective public offering prices less a concession not to exceed 0.40% of the principal amount of the 2025 notes and 0.50% of the principal amount of the 2045 notes. The underwriters may allow, and these dealers may realow, concession to certain brokers and dealers not to exceed 0.25% of the principal amount of the 2025 notes and 0.25% of the principal amount of the 2045 notes. After the initial offering of the senior notes, the underwriters may change the offering prices and concessions.

The senior notes have no established trading market. We currently have no intention to list the senior notes on any securities exchange or automated dealer quotation system. The underwriters may make a market in the senior notes after completion of the offering, but will not be obligated to make a market in the senior notes and may discontinue such market making at any time without notice. No assurance can be given as to the liquidity of the trading market for the senior notes or that an active public market for the senior notes will develop. If an active public trading market for the senior notes does not develop, the market price and liquidity of the senior notes may be adversely affected.

We will agree to indemnify the several underwriters against certain liabilities, including liabilities under the Securities Act of 1933, as amended, or to contribute to payments which the underwriters may be required to make in respect thereof.

We estimate our expenses for this offering, other than the underwriting discounts and commissions, to be approximately \$1.1 million.

We will agree with the underwriters not to, during the period three business days from the date of the underwriting agreement, sell, offer to sell, grant any option for the sale of, or otherwise dispose of any debt securities other than the senior notes, without the prior written consent of each of Citigroup Global Markets Inc., J.P. Morgan Securities LLC, Mizuho Securities USA Inc. and Loop Capital Markets LLC. This agreement will

not apply to issuances of commercial paper or other debt securities with scheduled maturities of less than one year and the sale or remarketing of tax-exempt bonds issued by a governmental authority or body for our benefit.

In order to facilitate the offering, the underwriters may engage in transactions that stabilize, maintain or otherwise affect the price of the senior notes. Specifically, the underwriters may over-allot in connection with the offering, creating short positions in the senior notes for their own accounts. In addition, to cover over-allotments or to stabilize the price of the senior notes, the underwriters may bid for, and purchase, senior notes in the open market. The underwriters may reclaim selling concessions allowed to an underwriter or dealer for distributing senior notes in the offering if the underwriters repurchase previously distributed senior notes in transactions to cover short positions, in stabilization transactions or otherwise. Any of these activities may stabilize or maintain the market price of the senior notes above independent market levels. The underwriters are not required to engage in these activities, and may end any of these activities at any time without notice.

The underwriters also may impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives have repurchased notes sold by or for the account of such underwriter in stabilizing or short covering transactions.

In general, purchases of a security for the purpose of stabilization or to reduce a short position could cause the price of the security to be higher than it might be in the absence of such purchases. The imposition of a penalty bid might also have an effect on the price of a security to the extent that it were to discourage resales of the security.

Neither we nor any underwriter makes any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the senior notes. In addition, neither we nor any underwriter makes any representation that the underwriters will engage in such transactions or that such transactions once commenced will not be discontinued without notice.

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. Certain of the underwriters and their affiliates have engaged and may in the future engage in transactions with, and, from time to time, have performed and may perform investment banking, corporate trust and/or commercial banking services for, us and certain of our affiliates in the ordinary course of business, for which they have received and will receive customary compensation. In the ordinary course of their various business activities, the underwriters and their respective affiliates may make or hold a broad array of investments including serving as counterparties to certain derivative and hedging arrangements and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers, and such investment and securities activities may involve securities and/or instruments of the issuer. Certain of the underwriters or their respective affiliates that have a lending relationship with us may routinely hedge, and certain other of those underwriters or their respective affiliates may hedge, their credit exposure to us consistent with their customary risk management policies. Typically, these underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the notes offered hereby. Any such credit default swaps or short positions could adversely affect future trading prices of the notes offered hereby. The underwriters and their respective affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments. Citigroup Global Markets Inc., J.P. Morgan Securities LLC and Mizuho Securities USA Inc. are dealers under our commercial paper program and other underwriters or their affiliates may hold our commercial paper and may receive a portion of the net proceeds from this offering. Additionally, affiliates of one or more of the underwriters are part of a consortium of banks that participates in our revolving credit facility or Corp's revolving credit facility and may also hold our debt securities.

Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also impair our business operations, financial results and the value of our securities.

FORWARD-LOOKING STATEMENTS

This prospectus, the documents incorporated by reference in this prospectus and any applicable prospectus supplement contain forward-looking statements that are necessarily subject to various risks and uncertainties. These statements are based on current estimates, expectations and projections about future events, and assumptions regarding these events and management's knowledge of facts as of the date of this prospectus. These forward-looking statements relate to, among other matters, estimated losses, including penalties and fines, associated with various investigations; forecasts of costs we will incur to make safety and reliability improvements, including natural gas transmission costs that we will not recover through rates; forecasts of capital expenditures; estimates and assumptions used in critical accounting policies, including those related to environmental remediation, litigation, third-party claims, and other liabilities; and the level of future equity or debt issuances. These statements are also identified by words such as assume, expect, intend, forecast, plan, project, believe, estimate, predict, anticipate, would, could, potential and similar expressions. We are not able to predict all the factors that may affect future results. Some of the factors that could cause future results to differ materially from those expressed or implied by the forward-looking statements, or from historical results, include, but are not limited to:

the outcome of the pending federal criminal investigation related to the San Bruno accident, including the ultimate amount of civil or criminal fines or penalties, if any, we may be required to pay, and the impact of remedial measures we are required to take such as the appointment of an independent monitor;

Table of Contents**RATIO OF EARNINGS TO FIXED CHARGES**

The following table sets forth our historical ratios of earnings to fixed charges for the periods indicated:

	Year Ended December 31,				
	2013	2012	2011	2010	2009
Ratio of earnings to fixed charges	2.23x	2.24x	2.51x	3.12x	3.12x

For the purpose of computing the ratios of earnings to fixed charges, earnings represent net income adjusted for the income or loss from equity investees of less than 100% affiliates, equity in undistributed income or losses of less than 50% owned affiliates, income taxes and fixed charges (excluding capitalized interest). Fixed charges include interest on long-term debt and short-term borrowings (including a representative portion of rental expense), amortization of bond premium, discount and expense, interest on capital leases and allowance for funds used during construction related to the cost of debt and earnings required to cover the preferred stock dividend requirements. Fixed charges exclude interest on tax liabilities.

USE OF PROCEEDS

Each prospectus supplement will describe the uses of the proceeds from the issuance of the senior notes offered by that prospectus supplement.

Table of Contents

DESCRIPTION OF THE SENIOR NOTES

This prospectus describes certain general terms of the senior notes that we may sell from time to time under this prospectus. We will describe the specific terms of each series of senior notes we offer in a prospectus supplement. The senior notes will be issued under an indenture dated as of April 22, 2005 (which supplemented, amended and restated the original indenture dated as of March 11, 2004 as thereafter supplemented) and one or more supplemental indentures that we will enter into with The Bank of New York Mellon Trust Company, N.A. (formerly known as The Bank of New York Trust Company, N.A. and successor to BNY Western Trust Company), as trustee. We have summarized selected provisions of the indenture and the senior notes below. The information we are providing you in this prospectus concerning the senior notes and the indenture is only a summary of the information provided in those documents, and the summary is qualified in its entirety by reference to the provisions of the indenture, including the forms of senior notes attached thereto. You should consult the senior notes themselves and the indenture for more complete information on the senior notes as they, and not this prospectus or any prospectus supplement, govern your rights as a holder. The indenture is included as an exhibit to the registration statement of which this prospectus is a part. The indenture has been qualified under the Trust Indenture Act of 1939, as amended, or the Trust Indenture Act, and the terms of the senior notes will include those made part of the indenture by the Trust Indenture Act.

In this section, references to we, our, ours and us refer only to Pacific Gas and Electric Company and not to any of its direct or indirect subsidiaries or affiliates except as expressly provided.

General

The senior notes are our unsecured general obligations and will rank equally in right of payment to all our other senior and unsubordinated debt. The senior notes will be entitled to the benefit of the indenture equally and ratably with all other senior notes issued under the indenture.

The indenture does not limit the amount of debt we may issue under it or the amount of debt we or our subsidiaries may otherwise incur. We may issue senior notes from time to time under the indenture in one or more series by entering into supplemental indentures or by resolution of our board of directors.

Provisions of a Particular Series

The prospectus supplement applicable to each series of senior notes will specify, among other things:

the title of the senior notes;

any limit on the aggregate principal amount of the senior notes;

the date or dates on which the principal of the senior notes is payable, including the maturity date, or the method or means by which those dates will be determined, and our right, if any, to extend those dates and the duration of any extension;

the interest rate or rates of the senior notes, if any, which may be fixed or variable, or the method or means by which the interest rate or rates will be determined, and our ability to extend any interest payment periods and the duration of any extension;

the date or dates from which any interest will accrue, the dates on which we will pay interest on the senior notes and the regular record date, if any, for determining who is entitled to the interest payable on any interest payment date;

any periods or periods within which, or date or dates on which, the price or prices at which and the terms and conditions on which the senior notes may be redeemed, in whole or in part, at our option;

Table of Contents

any obligation of ours to redeem, purchase or repay the senior notes pursuant to any sinking fund or other mandatory redemption provisions or at the option of the holder and the terms and conditions upon which the senior notes will be so redeemed, purchased or repaid;

the denominations in which we will authorize the senior notes to be issued, if other than \$1,000 or integral multiples of \$1,000;

whether we will offer the senior notes in the form of global securities and, if so, the name of the depository for any global securities;

if the amount payable in respect of principal of or any premium or interest on any senior notes may be determined with reference to an index or other fact or event ascertainable outside the indenture, the manner in which such amount will be determined;

covenants for the benefit of the holders of that series;

the currency or currencies in which the principal, premium, if any, and interest on the senior notes will be payable if other than U.S. dollars and the method for determining the equivalent amount in U.S. dollars;

if the principal of the senior notes is payable from time to time without presentation or surrender, any method or manner of calculating the principal amount that is outstanding at any time for purposes of the indenture; and

any other terms of the senior notes.

We may sell senior notes at par or at a discount below their stated principal amount. We will describe in a prospectus supplement material U.S. federal income tax considerations, if any, and any other special considerations for any senior notes we sell that are denominated in a currency other than U.S. dollars.

Payment

Except as may be provided with respect to a series, interest, if any, on the senior notes payable on each interest payment date will be paid to the person in whose name that senior note is registered as of the close of business on the regular record date for the interest payment date. However, interest payable at maturity will be paid to the person to whom the principal is paid. If there has been a default in the payment of interest on any senior notes, the defaulted interest may be paid to the holders of the senior notes as of a date between 10 and 30 days before the date we propose for payment of defaulted interest or in any other manner not inconsistent with the requirements of any securities exchange on which those senior notes may be listed, if the trustee finds it practicable.

Redemption

Any terms for the optional or mandatory redemption of a series of senior notes will be set forth in a prospectus supplement for the offered series. Unless otherwise indicated in a prospectus supplement, senior notes will be redeemable by us only upon notice by mail not less than 30 nor more than 60 days before the date fixed for redemption and, if less than all the senior notes of a series are to be redeemed, the particular senior notes to be redeemed will be selected by the method provided for that particular series, or in the absence of any such provision, by such method of random selection as the registrar deems fair and appropriate.

We have reserved the right to provide conditional redemption notices for redemptions at our option or for redemptions that are contingent upon the occurrence or nonoccurrence of an event or condition that cannot be ascertained prior to the time we are required to notify holders of the redemption. A conditional notice may state that if we have not deposited redemption funds with the trustee or a paying agent on or before the redemption date or we have directed the trustee or paying agent not to apply money deposited with it for redemption of senior notes, we will not be required to redeem the senior notes on the redemption date.

Restrictions on Liens and Sale and Leaseback Transactions

The indenture does not permit us or any of our significant subsidiaries (as defined below) to, (i) issue, incur, assume or permit to exist any debt (as defined below) secured by a lien (as defined below) on any of our principal property (as defined below) or any of our significant subsidiaries principal property, whether that principal property was owned when the original indenture was executed (March 11, 2004) or thereafter acquired, unless we provide that the senior notes will be equally and ratably secured with the secured debt or (ii) incur or permit to exist any attributable debt (as defined below) in respect of principal property; provided, however, that the foregoing restriction will not apply to the following:

to the extent we or a significant subsidiary consolidates with, or merges with or into, another entity, liens on the property of the entity securing debt in existence on the date of the consolidation or merger, provided that the debt and liens were not created or incurred in anticipation of the consolidation or merger and that the liens do not extend to or cover any of our or a significant subsidiary's principal property;

liens on property acquired after March 11, 2004 and existing at the time of acquisition, as long as the lien was not created or incurred in anticipation thereof and does not extend to or cover any other principal property;

liens of any kind, including purchase money liens, conditional sales agreements or title retention agreements and similar agreements, upon any property acquired, constructed, developed or improved by us or a significant subsidiary (whether alone or in association with others) which do not exceed the cost or value of the property acquired, constructed, developed or improved and which are created prior to, at the time of, or within 12 months after the acquisition (or in the case of property constructed, developed or improved, within 12 months after the completion of the construction, development or improvement and commencement of full commercial operation of the property, whichever is later) to secure or provide for the payment of any part of the purchase price or cost thereof; provided that the liens do not extend to any principal property other than the property so acquired, constructed, developed or improved;

liens in favor of the United States, any state or any foreign country or any department, agency or instrumentality or any political subdivision of the foregoing to secure payments pursuant to any contract or statute or to secure any indebtedness incurred for the purpose of financing all or any part of the purchase price or cost of constructing or improving the property subject to the lien, including liens related to governmental obligations the interest on which is tax-exempt under Section 103 of the Internal Revenue Code of 1986, as amended, or the Code, or any successor section of the Code;

liens in favor of us, one or more of our significant subsidiaries, one or more of our wholly owned subsidiaries or any of the foregoing combination; and

replacements, extensions or renewals (or successive replacements, extensions or renewals), in whole or in part, of any lien or of any agreement referred to in the bullet points above or replacements, extensions or renewals of the debt secured thereby (to the extent that the amount of the debt secured by the lien is not increased from the amount originally so secured, plus any premium, interest, fee or expenses payable in connection with any replacements, refundings, refinancings, remarketings, extensions or renewals); provided that replacement, extension or renewal is limited to all or a part of the same property (plus improvements thereon or additions or accessions thereto) that secured the lien replaced, extended or renewed.

Notwithstanding the restriction described above, we or any significant subsidiary may, (i) issue, incur or assume debt secured by a lien not described in the immediately preceding six bullet points on any principal property owned at March 11, 2004 or thereafter acquired without providing that the outstanding senior notes be equally and ratably secured with that debt and (ii) issue or permit to exist attributable debt in respect of principal property, in either case, so long as the aggregate amount of that secured debt and attributable debt, together with
