Earnings Webcast  
August 6, 2015

Safe harbor statement under the US Private Securities Litigation Reform Act of 1995.

This document contains statements that YPF believes constitute forward-looking statements within the meaning of the US Private Securities Litigation Reform Act of 1995.

These forward-looking statements may include statements regarding the intent, belief, plans, current expectations or objectives of YPF, including statements with respect to YPF's future financial condition, financial, operating, reserve replacement and other ratios, strategy, geographic concentration, business concentration, production and marketed volumes and reserves, as well as YPF's plans with respect to future capital expenditures, investments, expansion and other projects, exploration activities, ownership interests and dividend payout policies. These forward-looking statements may also include assumptions regarding future economic and other conditions, crude oil and other prices, refining and marketing margins and exchange rates. These statements are not guarantees of future performance and are subject to material risks, uncertainties, changes and other factors which may be beyond YPF's control and difficult to predict.

Except as required by law, YPF does not undertake to publicly update or revise these forward-looking statements even if experience indicates that the projected performance, conditions or events expressed or implied therein will not be realized.

These materials do not constitute an offer for sale of YPF S.A. bonds, shares or ADRs in the United States or otherwise.

Disclaimer

2

YPF's actual future financial condition, financial, operating, reserve replacement and other ratios, results of operations, business concentration, geographic concentration, business concentration, production and marketed volumes, reserves, capital expenditures, investments, expansion

exploration activities, ownership interests, divestments, cost savings and dividend payout policies, as well as actual future economic conditions, as future crude oil and other prices, refining margins and exchange rates, could differ materially from those expressed or implied in our forward-looking statements. Important factors that could cause such differences include, but are not limited to, oil, gas and other price fluctuations, currency fluctuations, exploration, drilling and production results, changes in reserves estimates, success in partnering with third parties, industry competition, environmental risks, physical risks, the risks of doing business in developing countries, legislative, tax, labor and economic and financial market conditions in various countries and regions, political risks, wars and acts of terrorism, natural disasters, technological advancements and lack of approvals, as well as those factors described in the filings made by YPF and its affiliates with the Securities and Exchange Commission, in particular, those described in Item 3. Key Information Risk Factors and Item 5. Operating and Financial Review of our Annual Report on Form 20-F for the fiscal year ended December 31, 2014 filed with the US Securities and Exchange Commission. The forward-looking statements included in this document may not occur.

Q2 2015 Upstream Results

Shale Update

46 wells drilled in Q2 2015 (total of 360 producing wells), including 8 horizontal wells in the east area of Loma Campana and El Orejano.

Total Gross Production

(Kboe/d)

Extended the length of horizontal section from 1,200 meters to 1,500 meters, adding three fracture stages (from 15 to 18 stages).

Continued drilling slim hole wells as a cost-efficient alternative to develop lower productivity areas, having completed 2 of them with 2 more pending completion.

The sweet spot in the west of Loma Campana continues to be developed with vertical wells

Drilled first well in JV with Petronas; also obtained good results in other blocks with Vaca Muerta objective.
