**Notes to Portfolio of investments January 31, 2016 (unaudited)**

**Securities valuation**

All investments are valued each business day as of the close of regular trading on the New York Stock Exchange (generally 4 p.m. Eastern Time).

Debt securities are valued at the evaluated bid price provided by an independent pricing service or, if a reliable price is not available, the quoted bid price from an independent broker-dealer.

Equity securities that are listed on a foreign or domestic exchange or market are valued at the official closing price or, if none, the last sales price. If no sale occurs on the principal exchange or market that day, the prior day's price will be deemed stale and a fair value price will be determined in accordance with the Fund's Valuation Procedures.

Investments in registered open-end investment companies are valued at net asset value.

Investments which are not valued using any of the methods discussed above are valued at their fair value, as determined in good faith by the Board of Trustees of the Fund. The Board of Trustees has established a Valuation Committee comprised of the Trustees and has delegated to it the authority to take any actions regarding the valuation of portfolio securities that the Valuation Committee deems necessary or appropriate, including determining the fair value of portfolio securities, unless the determination has been delegated to the Management Valuation Team of Wells Fargo Funds Management, LLC. The Board of Trustees retains the authority to make or ratify any valuation decisions or approve any changes to the Valuation Procedures as it deems appropriate. On a quarterly basis, the Board of Trustees receives reports on any valuation actions taken by the Valuation Committee or the Management Valuation Team which may include items for ratification.

Valuations of fair valued securities are compared to the next actual sales price when available, or other appropriate market values, to assess the continued appropriateness of the fair valuation methodologies used. These securities are fair valued on a day-to-day basis, taking into consideration changes to appropriate market information and any significant changes to the inputs considered in the valuation process until there is a readily available price provided on an exchange or by an independent pricing service. Valuations received from an independent pricing service or independent broker-dealer quotes are periodically validated by comparisons to most recent trades and valuations provided by other independent pricing services in addition to the review of prices by the manager and/or subadvisor. Unobservable inputs used in determining fair valuations are identified based on the type of security, taking into consideration factors utilized by market participants in valuing the investment, knowledge about the issuer and the current market environment.

**Loans**

The Fund may invest in direct debt instruments which are interests in amounts owed to lenders by corporate or other borrowers. The loans pay interest at rates which are periodically reset by reference to a base lending rate plus a spread. Investments in loans may be in the form of participations in loans or assignments of all or a portion of loans from third parties. When the Fund purchases participations, it generally has no rights to enforce compliance with terms of the loan agreement with the borrower. As a result, the Fund assumes the credit risk of both the borrower and the lender that is selling the participation. When the Fund purchases assignments from lenders, it acquires direct rights against the borrower on the loan and may enforce compliance by the borrower with the terms of the loan agreement. Loans may include fully funded term loans or unfunded loan commitments, which are contractual obligations for future funding.

### **Fair valuation measurements**

Fair value measurements of investments are determined within a framework that has established a fair value hierarchy based upon the various data inputs utilized in determining the value of the Fund's investments. The three-level hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to significant unobservable inputs (Level 3). The Fund's investments are classified within the fair value hierarchy based on the lowest level of input that is significant to the fair value measurement. The inputs are summarized into three broad levels as follows:

- Level 1    quoted prices in active markets for identical securities
- Level 2    other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, use of amortized cost, etc.)
- Level 3    significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodologies used for valuing investments in securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used in valuing the Fund's assets and liabilities as of January 31, 2016:

	Quoted prices (Level 1)	Other significant observable inputs (Level 2)	Significant unobservable inputs (Level 3)	Total
<b>Assets</b>				
<b>Investments in :</b>

The Fund recognizes transfers between levels within the fair value hierarchy at the end of the reporting period. At January 31, 2016, the Fund did not have any transfers into/out of Level 1 or Level 2.

The following is a reconciliation of assets in which significant unobservable inputs (Level 3) were used in determining fair value:

	Loans	Yankee corporate bonds and notes	Total
<b>Balance as of April 31, 2015</b>	\$ 19,480,727	\$ 0	\$ 19,480,727

<b>Balance as of January 31, 2016</b>	<b>\$ 13,759,547</b>	<b>\$ 963,788</b>	<b>\$ 14,723,335</b>
<b>Change in unrealized gains (losses) relating to securities still held at January 31, 2016</b>	<b>\$ 34,123</b>	<b>\$ 0</b>	<b>\$ 34,123</b>

The investment types categorized above were valued using indicative broker quotes. The indicative broker quotes are considered Level 3 inputs. Quantitative unobservable inputs used by the brokers are often proprietary and not provided to the Fund and therefore the disclosure that would address these inputs is not included above.
