Management s Discussion of Funds Performance

(unaudited)

Market Environment Overview

The U.S. equity market, as measured by the S&P 500° Index, returned 3.99% for the 12-month period ended June 30, 2016 (the period). While the U.S. equity market return for the period was positive, it was marked by several bouts of volatility. First was in late August and early September of 2015 on fears of a hard landing from China, second was January and February of 2016 on fears of a recession in the U.S. and disappointment from foreign central banks, and third was a result of Britain voting to leave the European Union in late June of 2016. Even though the first two periods had pull backs of over 10% and the last at around 7%, the S&P 500° Index rebounded each instance and finished the period near its all time high.

The international developed market, as measured by the MSCI EAFE Index, returned -10.19% in local currency terms and -10.16% in U.S. dollar terms. The small difference between the local currency and U.S. dollar returns masks the volatility in the foreign exchange markets tied to different central bank agendas around the world. In December, the Federal Reserve (Fed) raised interest rates for the first time since before the financial crisis, and was expected to hike another 2 to 4 times, but by the end of the period those expectations have been muted to expect no hike for the remaining 2016 calendar year. The European Central Bank (ECB) and Bank of Japan (BOJ) both took further measures throughout the period to stimulate growth in their respective domiciles by implementing Negative Interest Rate Policies (NIRP) and expectations are for them to continue with their aggressive easing policies. With continued easing from central banks and renewed concerns over global growth over the period, global bond yields continued to fall further from historic lows.

Emerging markets, as measured by the MSCI Emerging Markets Index, returned -12.06% over the period. Although the MSCI Emerging Markets Index has rebounded 6.41% over the past six months, it wasn t enough to erase the damage done from fears of a Chinese slowdown and potential currency devaluation in the second half of 2015. Also, pressure from falling oil prices and the first Fed rate hike in almost a decade, weighed on emerging market equities in the second half of 2015.

WisdomTree Funds Performance Overview

The following table reflects the WisdomTree Funds performance (excluding those with less than six months of operating history) versus their capitalization-weighted benchmark indexes:

Ticker	WisdomTree Fund	Since Inception NAV Return	Performance Benchmark	Since WT Fund Inception Return	Difference
EZR	WisdomTree Europe Local Recovery Fund ¹	NA V Return	MSCI European Economic and Monetary	Keturn	Difference
LZK	Wisdomffee Europe Eocal Recovery Fund	-13.76%	Union (EMU) Index	-10.66%	-3.10%
HGSD	WisdomTree Global Hedged SmallCap Dividend		MSCI AC World Small Cap Local Currency		
	Fund ²	4.20%	Index	-0.87%	5.07%

- ² Total returns shown are for the period November 19, 2015 (commencement of operations) through June 30, 2016.
- ³ Total returns shown are for the period November 12, 2015 (commencement of operations) through June 30, 2016.
- ⁴ Total returns shown are for the period July 21, 2015 (commencement of operations) through June 30, 2016.
- ⁵ Total returns shown are for the period December 23, 2015 (commencement of operations) through June 30, 2016. Sources: WisdomTree, Bloomberg, as of 6/30/16

Two of the strongest relative performance advantages measured versus the requisite performance benchmarks came with respect to the WisdomTree Global SmallCap Dividend Fund (GSD) and WisdomTree Global Hedged SmallCap Dividend Fund (HGSD). This ultimately makes sense, in that both of these funds use a fundamentally weighted approach by focusing on dividend paying small caps, which have tended to historically do well during times of falling interest rates and higher volatility.

Two other strong relative performers since their respective inception were the WisdomTree Dynamic Long/Short U.S. Equity Fund (DYLS) and WisdomTree Dynamic Bearish U.S. Equity Fund (DYB). These funds apply a dynamic market hedge on a monthly basis determined by growth and value characteristics of the U.S. market. As a result of the quantitative signal, DYLS was hedged during the first two months of the 2016 year, which enabled it remain flat as the S&P 500® Index fell, helping drive the outperformance since inception. Also, as a result of the dynamic hedge, DYB was able to switch from a net short position during the first quarter to slight net long position in the second quarter, limiting the negative impact from being short the market and enabling it to outperform the S&P 500® Inverse Daily Index since inception.

WisdomTree Strong Dollar U.S. Equity Fund (USSD) was able to outperform its performance benchmark, the S&P 500[®] Index, by 4.46% over the period. By focusing on companies that generate at least 80% of their revenue from within the U.S., USSD was able to tilt towards Telecommunications, Utilities and Real Estate companies which benefited from a decline in interest rates and their revenue being more domestically focused. The WisdomTree Weak Dollar U.S. Equity Fund (USWD) underperformed its performance benchmark over the period, primarily as a result of the fund focusing on companies generating more than 40% of their revenue from outside the U.S., leaving the

fund susceptible to currency volatility and negative sentiment surrounding global growth. The WisdomTree Strong Dollar Emerging Markets Equity Fund (EMSD) underperformed its performance benchmark, the MSCI Emerging Markets Index, since inception due to its avoidance of the Energy and Materials sectors, which staged a rally during the first half of 2016.

Fund returns are shown at NAV. Please see Performance Summaries on the subsequent pages for more complete performance information. Please see pages 20 and 21 for the list of index descriptions.

Fund performance assumes reinvestment of dividends and capital gain distributions. An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and an index is not available for direct investment. In comparison, the Funds performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or taxes that a shareholder would pay on Fund distributions. Past performance is no guarantee of future results. For the most recent month-end performance information visit www.wisdomtree.com.

^{*} The ten largest holdings are subject to change, and there are no guarantees the Fund will remain invested in any particular company. Excludes investment of cash collateral for securities on loan (if any).

The WisdomTree Europe Local Recovery Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Europe Local Recovery Index.

The Fund returned -13.76% at net asset value (NAV) from Fund inception on October 29, 2015 to June 30, 2016 (for more complete performance information please see the table below). The Fund benefited the most from its position in Finland. The Fund s position in Italy created the greatest drag on performance.

The following performance table is provided for comparative purposes and represents the period noted. The Fund s per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors assessments of the underlying value of the Fund s portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund s performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. As of the Fund s current prospectus dated October 23, 2015, the Fund s net and gross annual expense ratios were 0.48% and 0.58%, respectively. WisdomTree Asset Management, Inc. has contractually agreed to limit the management fee to 0.48% through October 31, 2017, unless earlier terminated by the Board of Trustees of the Trust for any reason at any time.

Performance as of 6/30/16

	Cumulative Total Return Since Inception ¹
Fund NAV Returns	-13.76%
Fund Market Price Returns	-13.28%
WisdomTree Europe Local Recovery Index	-13.88%
MSCI European Economic and Monetary Union (EMII) Index	-10 66%

¹ Total returns are calculated based on the commencement of Fund trading on the BATS Exchange, Inc. on October 29, 2015.

Performance is historical and does not guarantee future results. Current performance may be lower or higher than quoted. Investment returns and the principal value of an investment will fluctuate so that an investor s shares, when redeemed, may be worth more or less than their original cost. Performance data for the most recent month-end is available at www.wisdomtree.com. WisdomTree shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Fund NAV returns are calculated using the Fund s daily 4:00 p.m. NAV. Market price returns reflect the midpoint of the bid/ask spread as of the close of trading on the exchange where Fund shares are listed. Market price returns do not represent the returns you would receive if you traded shares at other times. The returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemption of Fund shares. Total returns for a period of less than one year are cumulative.

8 WisdomTree Trust Annual Report June 30, 2016

Performance Summary (unaudited)

WisdomTree Global Hedged SmallCap Dividend Fund (HGSD)

Sector Breakdown as of 6/30/16

Sector	% of Net Assets

Investment Company	0.1%
Other Assets less Liabilities	0.3%
Total	100.0%

The sector information shown is that of the Underlying Fund. The Underlying Fund s sector breakdown is expressed as a percentage of net assets and may change over time. In addition, a sector may be comprised of several industries. It does not include derivatives (if any).

Other assets of the Underlying Fund includes investment of cash collateral for securities on loan (if any).

Top Ten Holdings* as of 6/30/16

Description	% of Net Assets
Gramercy Property Trust	1.0%
DuPont Fabros Technology, Inc.	0.9%
Select Income REIT	0.9%
Lexmark International, Inc., Class A	0.8%
Government Properties Income Trust	0.8%
Joy Global, Inc.	0.8%
Consolidated Communications Holdings, Inc.	0.7%
Pattern Energy Group, Inc.	0.7%
Cogent Communications Holdings, Inc.	0.7%
Olin Corp.	0.7%

^{*}The ten largest holdings shown is that of the Underlying Fund and are subject to change, and there are no guarantees the Underlying Fund will remain invested in any particular company. Excludes Underlying Fund s investment of cash collateral for securities on loan (if any).

The WisdomTree Global Hedged SmallCap Dividend Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Global Hedged SmallCap Dividend Index. The Fund generally uses a representative sampling strategy to achieve its investment objective, meaning it generally will invest in a sample of securities in the Index (including indirect investments through the WisdomTree Global SmallCap Dividend Fund (the Underlying Fund)) whose risk, return and other characteristics resemble the risk, return, and other characteristics of the Index as a whole.

The Fund returned 4.20% at net asset value (NAV) from Fund inception on November 19, 2015 to June 30, 2016 (for more complete performance information please see the table below). The Fund benefited the most form its position in the United States of America. The Fund s position in the United Kingdom created the greatest drag on performance. During the fiscal period, the Fund utilized forward foreign currency contracts as hedges to offset applicable international currency exposure from positions in international equities held in the Underlying Fund. The Fund s use of forward foreign currency contracts detracted from performance as a result of the overall depreciation in the U.S. dollar against applicable international currencies during the period.

The following performance table is provided for comparative purposes and represents the period noted. The Fund sper share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors assessments of the underlying value of the Fund s portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund s performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of

Fund shares or on Fund distributions. As of the Fund s current prospectus dated November 6, 2015, the Fund s net and gross annual expense ratios were 0.43% and 0.86%, respectively. The prospectus expense ratio includes 0.43% of acquired fund fees and expenses (AFFEs). The prospectus expense ratio may not correlate to the expense ratio in the Fund s financial highlights and financial statements because the financial highlights and financial statements reflect only the operating expenses of the Fund and do not include AFFEs, which are fees and expenses incurred indirectly by the Fund through its investments in certain underlying investment companies. WisdomTree Asset Management, Inc. has contractually agreed to waive a portion of its management fee in an amount equal to the AFFEs attributable to the Fund s investments in the Underlying Fund through July 31, 2018, unless earlier terminated by the Board of Trustees of WisdomTree Trust for any reason at any time.

Performance as of 6/30/16

	Cumulative Total Return
	Since
	Inception ¹
Fund NAV Returns	4.20%
Fund Market Price Returns	4.91%
WisdomTree Global Hedged SmallCap Dividend Index	5.09%
MSCI AC World Small Cap Local Currency Index	-0.87%

¹ Total returns are calculated based on the commencement of Fund trading on the BATS Exchange, Inc. on November 19, 2015.

Performance is historical and does not guarantee future results. Current performance may be lower or higher than quoted. Investment returns and the principal value of an investment will fluctuate so that an investor s shares, when redeemed, may be worth more or less than their original cost. Performance data for the most recent month-end is available at www.wisdomtree.com. WisdomTree shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Fund NAV returns are calculated using the Fund s daily 4:00 p.m. NAV. Market price returns reflect the midpoint of the bid/ask spread as of the close of trading on the exchange where Fund shares are listed. Market price returns do not represent the returns you would receive if you traded shares at other times. The returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemption of Fund shares. Total returns for a period of less than one year are cumulative.

WisdomTree Global SmallCap Dividend Fund (GSD)

Sector Breakdown as of 6/30/16

Sector	% of Net Assets
Financials	26.4%
Industrials	19.2%
Consumer Discretionary	14.1%
Materials	10.7%
Information Technology	7.8%
Utilities	7.7%
Consumer Staples	5.5%
Energy	3.0%
Healthcare	2.9%
Telecommunication Services	2.3%
Investment Company	0.1%
Other Assets less Liabilities	0.3%
Total	100.0%

The Fund s sector breakdown is expressed as a percentage of net assets and may change over time. In addition, a sector may be comprised of several industries. It does not include derivatives (if any).

Other assets includes investment of cash collateral for securities on loan (if any).

Top Ten Holdings* as of 6/30/16

Description	% of Net Assets
Gramercy Property Trust	1.0%
DuPont Fabros Technology, Inc.	0.9%
Select Income REIT	0.9%
Lexmark International, Inc., Class A	0.8%
Government Properties Income Trust	0.8%
Joy Global, Inc.	0.8%
Consolidated Communications Holdings, Inc.	0.7%
Pattern Energy Group, Inc.	0.7%
Cogent Communications Holdings, Inc.	0.7%
Olin Corp.	0.7%

^{*} The ten largest holdings are subject to change, and there are no guarantees the Fund will remain invested in any particular company. Excludes investment of cash collateral for securities on loan (if any).

The WisdomTree Global SmallCap Dividend Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Global SmallCap Dividend Index.

The Fund returned 8.71% at net asset value (NAV) from Fund inception on November 12, 2015 to June 30, 2016 (for more complete performance information please see the table below). The Fund benefited the most from its position in the United States of America. The Fund s position in the United Kingdom created the greatest drag on performance.

The following performance table is provided for comparative purposes and represents the period noted. The Fund s per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the

Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors assessments of the underlying value of the Fund s portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund s performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. As of the Fund s current prospectus dated October 30, 2015, the Fund s annual expense ratio was 0.43%.

Duke Realty Corp.	1.6%

^{*}The ten largest holdings are subject to change, and there are no guarantees the Fund will remain invested in any particular company. Excludes investment of cash collateral for securities on loan (if any).

The Fund returned 0.06% at net asset value (NAV) from Fund inception on December 23, 2015 to June 30, 2016 (for more complete performance information please see the table below). The Fund benefited the most from its position in the Financials sector. The Fund s position in the Consumer Discretionary sector created the greatest drag on performance. During the fiscal period, the Fund utilized total return swap contracts to obtain short exposure to the S&P 500 Index. The Fund s use of total return swap contracts detracted from performance as a result of the overall positive performance of the S&P 500 Index during the period which conversely generated net losses on the Fund s total return swap contracts.

The following performance table is provided for comparative purposes and represents the period noted. The Fund sper share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the

The WisdomTree Dynamic Bearish U.S. Equity Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Dynamic Bearish U.S. Equity Index.

Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors assessments of the underlying value of the Fund s portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund s performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of

Fund shares or on Fund distributions. As of the Fund s current prospectus dated December 10, 2015, the Fund s net and gross annual expense ratios were 0.48% and 0.53%, respectively. WisdomTree Asset Management, Inc. has contractually agreed to limit the management fee to 0.48% through December 10, 2016, unless earlier terminated by the Board of Trustees of the Trust for any reason at any time.

Performance as of 6/30/16

Performance is historical and does not guarantee future results. Current performance may be lower or higher than quoted. Investment returns and the principal value of an investment will fluctuate so that an investor s shares, when redeemed, may be worth more or less than their original cost. Performance data for the most recent month-end is available at www.wisdomtree.com. WisdomTree shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Fund NAV returns are calculated using the Fund s daily 4:00 p.m. NAV. Market price returns reflect the midpoint of the bid/ask spread as of the close of trading on the exchange where Fund shares are listed. Market price returns do not represent the returns you would receive if you traded shares at other times. The returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemption of Fund shares. Total returns for a period of less than one year are cumulative.

The WisdomTree Dynamic Long/Short U.S. Equity Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Dynamic Long/Short U.S. Equity Index.

The Fund returned 6.88% at net asset value (NAV) from Fund inception on December 23, 2015 to June 30, 2016 (for more complete performance information please see the table below). The Fund benefited the most from its position in the Consumer Staples sector. The Fund s position in the Energy sector created the greatest drag on performance. During the fiscal period, the Fund utilized total return swap contracts to periodically obtain short exposure to the S&P 500 Index. The Fund s use of total return swap contracts contributed positively to performance as a result of the overall negative performance of the S&P 500 Index during the period(s) in which the Fund had short exposure to the S&P 500 Index.

The following performance table is provided for comparative purposes and represents the period noted. The Fund s per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors assessments of the underlying value of the Fund s portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Description of Indexes (unaudited)

Below are descriptions of each Index referenced in this report:

The MSCI AC World Small Cap Index is a free float-adjusted market capitalization weighted index designed to measure the equity market performance of developed and emerging markets, specifically focusing on the small-cap segment of these equity markets.

The MSCI AC World Small Cap Local Currency Index is a free float-adjusted market capitalization-weighted index designed to measure the equity market performance of developed and emerging markets, specifically focusing on the small-cap segment of these equity markets, in local currency.

The MSCI Emerging Markets Index is a free float-adjusted market capitalization index that is designed to measure emerging markets equity performance.

The MSCI European Economic and Monetary Union (EMU) Index is a free float-adjusted market capitalization-weighted index that is designed to measure the equity market performance of countries within the EMU.

The **S&P 500**[®] **Index** is a capitalization-weighted index of 500 stocks selected by Standard & Poor s Index Committee, designed to represent the performance of the leading industries in the United States economy.

The S&P 500[®] Inverse Daily Index provides inverse (positive or negative) returns of the S&P 500 by taking a short position in the Index.

The **WisdomTree Dynamic Bearish U.S. Equity Index** includes long equity positions or long U.S. Treasury positions and short equity positions. The long equity positions consist of approximately 100 U.S. large- and mid-capitalization stocks that meet Index eligibility requirements and have the best combined score based on fundamental growth and value signals. The short equity positions include the largest 500 U.S. companies, weighted by market capitalization, designed to act as a market risk hedge.

The **WisdomTree Dynamic Long/Short U.S. Equity Index** includes long equity positions and short equity positions. The long equity positions consist of approximately 100 U.S. large- and mid-capitalization stocks that meet Index eligibility requirements and have the best combined score based on fundamental growth and value signals. The short equity positions include the largest 500 U.S. companies, weighted by market capitalization, designed to act as a market risk hedge.

The **WisdomTree Europe Local Recovery Index** is designed to provide exposure to European companies that are most sensitive to economic growth prospects in the Eurozone and that derive more than 50% of their revenue from Europe.

The **WisdomTree Global Hedged SmallCap Dividend Index** is a fundamentally weighted index that measures the performance of 1000 largest small capitalization companies that rank within the bottom 5% of the WisdomTree Global Dividend Index by market capitalization and is designed to remove from index performance the impact of changes to the value of foreign currencies relative to the U.S. dollar.

The **WisdomTree Global SmallCap Dividend Index** is a fundamentally weighted index that measures the performance of 1000 largest small capitalization companies that rank within the bottom 5% of the WisdomTree Global Dividend Index by market capitalization.

The **WisdomTree Strong Dollar Emerging Markets Equity Index** measures the performance of emerging market companies that derive more than 15% of their revenue from the United States.

The **WisdomTree Strong Dollar U.S. Equity Index** measures the performance of U.S. based companies that derive more than 80% of their revenue from the United States.

The **WisdomTree Weak Dollar U.S. Equity Index** measures the performance of U.S. based companies that derive less than 60% of their revenue from the United States.

21

Shareholder Expense Examples (unaudited)

As a shareholder of a WisdomTree Fund, you incur two types of cost: (1) transaction costs, including brokerage commissions on purchases and sales of your Fund shares and (2) ongoing costs, including management fees and other Fund expenses. The following example is intended to help you understand your ongoing costs (in dollars and cents) of investing in a Fund and to compare these costs with the ongoing costs of investing in other funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from January 1, 2016 to June 30, 2016.

Actual expenses

The first line under each Fund in the table on the next page provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line for your Fund under the heading entitled Expenses Paid During the Period 1/1/16 to 6/30/16 to estimate the expenses you paid on your account during the period.

Hypothetical example for comparison purposes

The second line under each Fund in the table on the next page provides information about hypothetical account values and hypothetical expenses based on each Fund s actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as brokerage commissions paid on purchases and sales of Fund shares. Therefore, the second line under each Fund in the table is useful in comparing ongoing Fund costs only and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

The annualized expense ratio does not include AFFEs, which are fees and expenses incurred indirectly by a Fund through its investments in certain underlying investment companies.

Unless otherwise indicated in the footnotes below, expenses are calculated using each Fund s annualized expense ratio, multiplied by the average account value for the period, multiplied by 182/366 (to reflect the one-half year period).

- Fund commenced operations on January 7, 2016. Actual expenses are calculated using the Funds annualized expense ratio, multiplied by the average account value for the period, multiplied by 176/366 (to reflect the period since commencement of operations). WisdomTree Asset Management, Inc. has contractually agreed to limit the management fee to 0.43% through January 5, 2017, unless earlier terminated by the Board of Trustees of the WisdomTree Trust for any reason.
- Fund commenced operations on January 7, 2016. Actual expenses are calculated using the Funds annualized expense ratio, multiplied by the average account value for the period, multiplied by 176/366 (to reflect the period since commencement of operations). WisdomTree Asset Management, Inc. has contractually agreed to limit the management fee to 0.35% through January 5, 2017, unless earlier terminated by the Board of Trustees of the WisdomTree Trust for any reason.
- Fund commenced operations on April 7, 2016. Actual expenses are calculated using the Fund s annualized expense ratio, multiplied by the average account value for the period, multiplied by 85/366 (to reflect the period since commencement of operations).
- WisdomTree Asset Management, Inc. has contractually agreed to limit the management fee to 0.48% through October 31, 2017, unless earlier terminated by the Board of Trustees of the WisdomTree Trust for any reason.
- WisdomTree Asset Management, Inc. has contractually agreed to waive a portion of its management fee in an amount equal to the AFFEs attributable to the Fund s investments in the Underlying Fund through July 31, 2018, unless earlier terminated by the Board of Trustees of the WisdomTree Trust for any reason.
- Fund commenced operations on April 27, 2016. WisdomTree Trust

Selected data for a share of beneficial interest outstanding throughout the period is presented below:

WisdomTree Dynamic Currency Hedged Europe Equity Fund	For the Period January 7, 2016* through June 30, 2016	
Net asset value, beginning of period	\$	24.25
Investment operations:		
Net investment income ¹		0.70
Net realized and unrealized loss		(1.11)
Total from investment operations		(0.41)
Dividends to shareholders:		
Net investment income		(0.57)
Net asset value, end of period	\$	23.27
TOTAL RETURN ²		(1.81)%
RATIOS/SUPPLEMENTAL DATA:		
Net assets, end of period (000 s omitted)	\$	4,655
Ratios to average net assets of:		
Expenses, net of expense waivers		$0.43\%^{3}$
Expenses, prior to expense waivers		$0.48\%^{3}$
Net investment income		$6.02\%^{3}$
Portfolio turnover rate ⁴		25%

WisdomTree Dynamic Currency Hedged International Equity Fund	For the Period January 7, 2016* through June 30, 2016	
Net asset value, beginning of period	\$	24.18
Investment operations:		
Net investment income ¹		0.79
Net realized and unrealized loss		(0.35)
Total from investment operations		0.44
Dividends to shareholders:		
Net investment income		(0.36)
Net asset value, end of period	\$	24.26
TOTAL RETURN ²		1.82%
RATIOS/SUPPLEMENTAL DATA:		
Net assets, end of period (000 s omitted)	\$	243,806
Ratios to average net assets of:		
Expenses, net of expense waivers		$0.35\%^{3}$
Expenses, prior to expense waivers		$0.40\%^{3}$
Net investment income		$6.79\%^3$
Portfolio turnover rate ⁴		28%

^{*} Commencement of operations.

¹ Based on average shares outstanding.

- ² Total return is calculated assuming an initial investment made at the net asset value at the beginning of the period, reinvestment of all dividends and distributions at net asset value during the period and redemption on the last day of the period. Total return calculated for a period of less than one year is not annualized. For the periods in which the investment advisor waived advisory fees, the total return would have been lower if certain expenses had not been waived (Notes 2 and 3).
- ³ Annualized.
- 4 Portfolio turnover rate is not annualized and excludes the value of the portfolio securities received or delivered as a result of in-kind creations or redemptions of the Fund s capital shares.

See Notes to Financial Statements.

WisdomTree Trust Annual Report June 30, 2016

117

For the Period

Based on average shares outstanding.

² Total return is calculated assuming an initial investment made at the net asset value at the beginning of the period, reinvestment of all dividends and distributions at net asset value during the period and redemption on the last day of the period. Total return calculated for a period of less than one year is not annualized. For the periods in which the investment advisor waived advisory fees, the total return would have been lower if certain expenses had not been waived (Notes 2 and 3).

³ Annualized.

⁴ Portfolio turnover rate is not annualized and excludes the value of the portfolio securities received or delivered as a result of in-kind creations or redemptions of the Fund s capital shares. Short-term securities with maturities less than or equal to 365 days are excluded from the portfolio turnover calculation as well.

Notes to Financial Statements

1. ORGANIZATION

WisdomTree Trust (the Trust) is registered under the Investment Company Act of 1940, as amended (the 1940 Act), as an open-end management investment company. The Trust was established as a Delaware statutory trust on December 15, 2005. As of June 30, 2016, the Trust offered 97 investment funds (each a Fund , collectively, the Funds). In accordance with Accounting Standard Update (ASU) 2013-08, Financial Services-Investment Companies, each Fund listed below qualifies as an investment company and is applying the accounting and reporting guidance for investment companies. These notes relate only to the Funds listed in the table below:

Fund	Commencement of Operations
WisdomTree Dynamic Currency Hedged Europe Equity Fund (Dynamic Currency Hedged Europe Equity Fund and also referred to	or operations
herein as Currency Hedged Equity Fund)	January 7, 2016

WisdomTree Fundamental U.S. Short-Term Corporate Bond Fund (Fundamental U.S. Short-Term Corporate Bond Fund)	April 27, 2016
WisdomTree Fundamental U.S. Short-Term High Yield Corporate Bond Fund (Fundamental U.S. Short-Term High Yield Corporate	
Bond Fund)	April 27, 2016
WisdomTree Dynamic Bearish U.S. Equity Fund (Dynamic Bearish U.S. Equity Fund)	December 23, 2015
WisdomTree Dynamic Long/Short U.S. Equity Fund (Dynamic Long/Short U.S. Equity Fund)	December 23, 2015

Each Fund seeks to track the price and yield performance, before fees and expenses, of a particular index (Index) developed by WisdomTree Investments, Inc. (WisdomTree Investments). WisdomTree Investments is the parent company of WisdomTree Asset Management, Inc. (WTAM), the investment adviser to each Fund and the Trust. WisdomTree is a registered trademark of WisdomTree Investments and has been licensed for use by the Trust. Each Fund described herein is considered to be non-diversified.

In the normal course of business, the Funds may enter into contracts that contain a variety of representations or that provide indemnification for certain liabilities. The Funds maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and believes such exposure to be remote.

2. SIGNIFICANT ACCOUNTING POLICIES

The Financial Accounting Standards Board (FASB) Accounting Standards Codification (the Codification) is the exclusive reference of authoritative U.S. generally accepted accounting principles (GAAP) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the Securities and Exchange Commission (SEC) under authority of federal laws are also sources of authoritative GAAP for SEC registrants.

The following is a summary of significant accounting policies followed by the Funds:

Use of Estimates The preparation of financial statements in conformity with GAAP, requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in the net assets from operations during the reporting period. Actual results could differ from those estimates.

Investment Valuation The net asset value (NAV) of each Fund s shares is calculated each day a Fund is open for business as of the regularly scheduled close of regular trading on the New York Stock Exchange, normally 4:00 p.m. Eastern time (the NAV

118 WisdomTree Trust Annual Report June 30, 2016

Notes to Financial Statements (continued)

Calculation Time). NAV per share is calculated by dividing a Fund s net assets by the number of Fund shares outstanding. Each Fund issues and redeems shares at NAV only in large blocks of shares known as creation units, which only certain institutions or large investors may purchase or redeem. Shares of each Fund are listed on a national securities exchange and trade at market prices. Most investors will buy and sell shares in the secondary market through brokers. Because Fund shares trade at market prices rather than NAV, shares may trade at a price greater than NAV or less than NAV. In calculating each Fund s NAV, investments are valued under policies approved by the Board of Trustees. Equity securities (including preferred stock) traded on any recognized U.S. or non-U.S. exchange are valued at the last sale price or official closing price on the exchange or system on which they are principally traded. Unlisted equity securities (including preferred stock) are valued at the last quoted sale price or, if no sale price is available, at the mean between the highest bid and lowest ask price. Each Fund may invest in money market funds which are valued at their NAV per share and affiliated exchange-traded funds (ETFs or ETF) which are valued at their last sale or official closing price on the exchange on which they are principally traded or at their NAV per share in instances where the affiliated ETF has not traded on its principal exchange. Fixed income securities (including short-term debt securities with remaining maturities of 60 days or less) generally are valued at current market quotations or mean prices obtained from broker-dealers or independent pricing service providers. Broker-dealers or independent pricing service providers, in determining the value of securities may consider such factors as recent transactions, indications from broker-dealers yields and quoted prices on similar securities, and market sentiment for the type of security. U.S. fixed income assets may be valued as of the announced closing time for such securities on any day that the Securities Industry and Financial Markets Association announces an early closing time. Forward foreign currency contracts are valued daily using WM/Reuters closing spot and forward rates as of 4:00 p.m. London time, except, forward foreign currency contracts on Asian currencies for Global Hedged SmallCap Dividend Fund are valued using WM/Reuters closing spot and forward rates as of 2:00 p.m. Singapore time. Swap contracts are generally marked to market daily based upon values from independent pricing service providers or quotations from broker-dealers to the extent available.

In certain instances, such as when reliable market valuations are not readily available or are not deemed to reflect current market values, a Fund s investments, which include derivatives, will be fair valued in accordance with the Fund s pricing policy. The Board of Trustees of the Trust has established a pricing committee (the Pricing Committee) which is comprised of senior representatives of WTAM and which reports to the Board of Trustees on a quarterly basis. In the event that a financial instrument cannot be valued based upon a price from a national securities exchange, independent pricing service provider or broker-dealer quotation, or such prices are deemed to not reflect current market value, the Pricing Committee may value the financial instrument in good faith under the policies and procedures approved by the Board of Trustees based on current facts and circumstances. Securities that may be valued using fair value pricing may include, but are not limited to, securities for which there are no current market quotations, securities whose issuer is in default or bankruptcy, securities subject to corporate actions (such as mergers or reorganizations), securities subject to non-U.S. investment limits or currency controls, and securities affected by significant events. An example of a significant event is an event occurring after the close of the market in which a security trades but before a Fund s next NAV Calculation Time that may materially affect the value of a Fund s investment (e.g., government action, natural disaster, or significant market fluctuation). When fair value pricing is employed, the prices of securities used by a Fund to calculate its NAV may differ from quoted or published prices for the same securities.

Fair Value Measurement In accordance with Codification Topic 820 (ASC 820), Fair Value Measurements and Disclosures, fair value is defined as the price that each Fund would receive upon selling an investment in an orderly transaction to an independent buyer in the principal or most advantageous market of the investment. ASC 820 established a three-tier hierarchy of inputs to be used when determining fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk for example, the risk inherent in a particular valuation technique used to measure fair value (such as a pricing model) and/or the risk inherent in the inputs to the valuation technique. Inputs may be observable or unobservable. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability. Observable inputs are based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity s own assumptions about the assumptions market participants would use in pricing the asset or liability. Unobservable inputs are based on the best information available in the circumstances. The three-tier hierarchy of inputs is summarized in the three broad levels listed below:

- Level 1 quoted prices in active markets for identical securities
- Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 significant unobservable inputs (including each Fund s assumptions in determining the fair value of investments)

The inputs or methodology used for valuation are not necessarily an indication of the risk associated with investing in those investments.

Investments that use Level 2 or Level 3 inputs may include, but are not limited to: (i) an unlisted security related to corporate actions; (ii) a restricted security (e.g., one that may not be publicly sold without registration under the Securities Act of 1933, as

WisdomTree Trust Annual Report June 30, 2016

119

Notes to Financial Statements (continued)

amended); (iii) a security whose trading has been suspended or which has been de-listed from its primary trading exchange; (iv) a security that is thinly traded; (v) a security in default or bankruptcy proceedings for which there is no current market quotation or market activity; (vi) a security affected by currency controls or restrictions; and (vii) a security affected by a significant event (e.g., an event that occurs after the close of the markets on which the security is traded but before the time as of which a Fund s NAV is computed and that may materially affect the value of the Fund s investments).

The valuation techniques and significant inputs used in determining the fair market value measurements for Level 2 and Level 3 positions are as follows:

Financial instruments are generally valued by independent pricing service providers that use broker-dealer quotations, reported trades or valuation estimates from their internal pricing models. Depending on the type of financial instrument, the independent pricing service providers internal pricing models may use inputs that are observable such as issuer details, interest rates, yield curves, prepayment speeds, credit risks/spreads, default rates and quoted prices for similar assets. Financial instruments that use similar valuation techniques and observable inputs as described above and have an appropriate level of market activity are categorized as Level 2 of the fair value hierarchy, otherwise a Level 3 fair value classification is appropriate. Over-the-counter financial derivative instruments derive their value from underlying asset prices, indices, reference rates, and other inputs or a combination of these factors. These instruments are normally valued on the basis of broker-dealer quotations or independent pricing service providers. Depending on the product and the terms of the transaction, the value of the financial derivative instruments can be estimated by an independent pricing service provider using a series of techniques including simulation pricing models. The pricing models use inputs that are observed from actively quoted markets such as issuer details, indices, credit risks/spreads, interest rates, yield curves, default and exchange rates. Derivative contracts that use valuation techniques and observable inputs as described above and have an appropriate level of market activity are categorized as Level 2 of the fair value hierarchy, otherwise a Level 3 fair value classification is appropriate.

Determination of a fair value by the Pricing Committee may include significant unobservable inputs and therefore would be reflected as a Level 3 of the fair value hierarchy. The Pricing Committee may employ a market-based valuation approach which may use, among other potential considerations, related or comparable securities, recent transactions, market multiples, and other relevant information to determine fair value. The Pricing Committee may also use an income-based valuation approach in which anticipated future cash flows of the financial instrument are discounted to calculate fair value. The Pricing Committee meets at least on a monthly basis to review and discuss the appropriateness of such fair values using more current information such as, recent security news, recent market transactions, updated corporate action information and/or other macro or security specific events. Also, when observable inputs become available, the Pricing Committee conducts back testing of the methodologies used to value Level 3 financial instruments to substantiate the unobservable inputs used to value those investments. Such back testing includes comparing Level 3 investment values to observable inputs such as exchange-traded prices, transaction prices, and/or vendor prices.

The following is a summary of the fair valuations according to the inputs used as of June 30, 2016 in valuing each Fund s assets:

- * Please refer to Schedule of Investments for a breakdown of the valuation by industry type and country.
- ** Securities are being fair valued by the Pricing Committee.

The Funds have elected to use the beginning of period method for transfers between fair value measurement levels.

There were no transfers into or out of any fair value measurement levels during the periods ended June 30, 2016.

Derivatives and Hedging Disclosure Codification Topic 815 (ASC 815), Derivatives and Hedging, requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of gains and losses on derivative instruments, and disclosures about credit-risk-related contingent features in derivative agreements. The Funds have invested in derivatives, specifically foreign currency contracts and swaps contracts during the period ended June 30, 2016 which are detailed in each Fund s schedule of investments. All of the derivative instruments disclosed and described herein are subject to credit risk. Credit risk is where the financial condition of an issuer of a security or instrument may cause it to default or become unable to pay interest or principal due on the security or where the counterparty to a derivative contract might default on its obligations. The Funds derivative agreements contain credit-risk related contingent features which include, but are not limited to, a percentage decline in the Funds NAV over a specified time period. If an event occurred at June 30, 2016 that triggered a contingent feature, the counterparty to the agreement may require the Funds to post additional collateral or terminate the derivative positions and demand payment. Any collateral posted with respect to the derivative positions would be used to offset or reduce the payment. The maximum exposure to derivatives agreements with credit-risk related contingent features would be the total value of derivatives in net liability positions for each Fund, as disclosed on page 128. At June 30, 2016, the Funds did not receive or post collateral with any counterparty for derivatives and no event occurred that triggered a credit-risk-related contingent feature.

As of June 30, 2016, the effects of such derivative instruments on each Fund s financial position as reflected in the Statements of Assets and Liabilities are presented in the summary below:

	Asset Derivatives		Liability Derivatives	
Fund	Balance Sheet Location	Value	Balance Sheet Location	Value

Equity contracts			1,244,146

¹ For the period January 7, 2016 (commencement of operations) through June 30, 2016.

Investment Transactions and Investment Income Investment transactions are recorded as of the date that the securities are purchased or sold (trade date). Realized gains and losses on sales of portfolio securities are calculated using the identified-cost method. Dividend income is recognized on the ex-dividend date, net of any foreign taxes withheld. Interest income including amortization of premiums and discounts, is accrued daily.

² For the period April 7, 2016 (commencement of operations) through June 30, 2016.

³ For the period October 29, 2015 (commencement of operations) through June 30, 2016.

⁴ For the period November 19, 2015 (commencement of operations) through June 30, 2016.

⁵ For the period November 12, 2015 (commencement of operations) through June 30, 2016.

⁶ For the period December 23, 2015 (commencement of operations) through June 30, 2016.

Foreign Currency Translation The accounting records of the Funds are maintained in U.S. dollars. Foreign currencies, as well as investment securities and other assets and liabilities denominated in foreign currencies, are translated into U.S. dollars using exchange rates prevailing on the respective dates of such transactions that are deemed appropriate by WTAM. Realized and unrealized foreign exchange gains and losses on investments are included as a component of net realized gain (loss) from investment transactions and net change in unrealized appreciation (depreciation) from investment transactions, respectively, on the Statements of Operations. Net realized and unrealized foreign exchange gains or losses arising from sales of foreign currencies, including gains and losses of foreign currency contracts, currency gains or losses recognized between the trade and settlement dates on investment transactions, and the difference between the amounts of dividends and foreign withholding taxes recorded on the Funds books and the U.S. dollar equivalent of the amounts actually received or paid are included in net realized gain (loss) from foreign currency contracts and foreign currency related transactions and/or net change in unrealized appreciation (depreciation) from foreign currency contracts and translation of assets and liabilities denominated in foreign currencies in the Statements of Operations. Certain foreign exchange gains and losses included in realized and unrealized gains or losses are included in, or are a reduction of, ordinary income in accordance with U.S. Federal income tax regulations.

Notes to Financial Statements (continued)

Expenses/Reimbursements Under the investment advisory agreement for each Fund, WTAM has agreed to pay all expenses of the Trust, except for: (i) brokerage expenses and other fees, charges, taxes, levies or expenses (such as stamp taxes) incurred in connection with the execution of portfolio transactions or in connection with creation and redemption transactions (including without limitation any fees, charges, taxes, levies or expenses related to the purchase or sale of an amount of any currency, or the partition or repatriation of any security or other asset, related to the execution of portfolio transactions or any creation or redemption transactions); (ii) legal fees or expenses in connection with any arbitration, litigation or pending or threatened arbitration or litigation, including any settlements in connection therewith; (iii) compensation and expenses of each Independent Trustee; (iv) compensation and expenses of counsel to the Independent Trustees; (v) compensation and expenses of the Trust s Chief Compliance Officer (CCO); (vi) extraordinary expenses (in each case as determined by a majority of the Independent Trustees); (vii) distribution fees and expenses paid by the Trust under any distribution plan adopted pursuant to Rule 12b-1 under the 1940 Act; (viii) interest and taxes of any kind or nature (including, but not limited to, income, excise, transfer and withholding taxes); (ix) fees and expenses related to the provision of securities lending services; and (x) the advisory fee payable to WTAM.

The internal expenses of pooled investment vehicles in which the Funds may invest (acquired fund fees and expenses) are not expenses of the Funds and are not paid by WTAM.

Pursuant to a separate contractual arrangement, WTAM arranges for the provision of CCO services with respect to each Fund, and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees. WTAM receives a fee, as shown on the Statements of Operations under Service fees , of up to 0.0044% of each Fund s average daily net assets for providing such services and paying such expenses. WTAM provides CCO services to the Trust.

Currency Transactions The Funds may enter into foreign currency contracts to facilitate local securities settlements or to protect against currency exposure. The Funds, other than the Currency Hedged Equity Funds, do not expect to engage in currency transactions for the purpose of hedging against declines in the value of the Funds assets that are denominated in one or more foreign currencies. The Funds may not enter into such contracts for speculative purposes.

Forward Foreign Currency Contracts A forward foreign currency contract (Forward Contract) involves an obligation to purchase or sell a specific currency at a future date, which may be any fixed number of days from the date of the contract agreed upon by the parties, at a price set at the time of the contract. These contracts are principally traded in the inter-bank market conducted directly between currency traders (usually large, commercial banks) and their customers. A Forward Contract generally does not require an initial margin deposit and no commissions are charged at any stage for trades. However, if a Fund is in an unrealized loss position on a Forward Contract, it may be required to pledge collateral (or additional collateral) to the counterparty. If a Fund is in an unrealized gain position on a Forward Contract, it may receive collateral from the counterparty.

Risks may arise upon entering into Forward Contracts from the potential inability of counterparties to meet the terms of their contracts and from unanticipated movements in the value of foreign currencies relative to the U.S. dollar or each other.

Fluctuations in the value of open Forward Contracts are recorded for book purposes as unrealized gains or losses on Forward Contracts by the Funds. Realized gains and losses on Forward Contracts include net gains or losses recognized by the Funds on contracts which have matured or were sold.

Currency, Interest Rate and Total Return Swaps The Dynamic Bearish U.S. Equity Fund and the Dynamic Long/Short U.S. Equity Fund each may enter into swap agreements, including interest rate swaps, currency swaps and total return swaps. A typical interest rate swap involves the exchange of a floating interest rate payment for a fixed interest rate payment. A typical foreign cross-currency swap involves the exchange of cash flows based on the notional difference among two or more currencies (e.g., the U.S. dollar and the Brazilian real). A typical total return swap involves the payment of the total return on a reference asset in return for payments equal to a rate of interest on another reference asset. The total return typically includes appreciation or depreciation on the reference asset, plus any interest or dividend payments. Swap agreements may be used to achieve exposure to, for example, currencies, interest rates, indexes and money market securities without actually purchasing such currencies or securities. The Dynamic Bearish U.S. Equity Fund and the Dynamic Long/Short U.S. Equity Fund each may use swap agreements to invest in a market without owning or taking physical custody of the underlying securities in circumstances in which direct investment is restricted for legal reasons or is otherwise impracticable. Swap agreements will tend to shift a Fund s investment exposure from one type of investment to another or from one payment stream to another. Depending on their structure, swap agreements may increase or decrease a Fund s exposure to long- or short-term interest rates (in the United States or abroad), foreign currencies, corporate borrowing rates, or other

factors, and may increase or decrease the overall volatility of a Fund s investments and its share price.

Securities Lending Each Fund may lend portfolio securities to certain creditworthy borrowers, including the Funds securities lending agent. It is the Funds policy that, at origination, all loans are secured by collateral of at least 102% of the value of U.S. securities loaned and 105% of the value of foreign securities loaned. Collateral in the form of cash and/or high-grade debt obligations, equivalent to at least 100% of the market value of securities, is maintained at all times. The cash collateral can be invested in certain money market mutual funds which also have exposure to the fluctuations of the market. The values of the

126 WisdomTree Trust Annual Report June 30, 2016

Notes to Financial Statements (continued)

investments of cash collateral for securities on loan along with the obligations to return such collateral are included on the Statements of Assets and Liabilities. The total value of securities received as collateral for securities on loan is included in a footnote following each Schedule of Investments, but is not included within the Statements of Assets and Liabilities because the receiving Fund does not have the right to sell or repledge the securities received as collateral. Each Fund receives compensation for lending its securities from interest or dividends earned on the cash or U.S. government securities held as collateral, net of fee rebates paid to the borrower plus reasonable administrative and custody fees, all of which are included in the securities lending income earned by the Funds and disclosed on the Statements of Operations. The dividend and interest income earned on the securities loaned is accounted for in the same manner as other dividend and interest income. The borrower pays to the Funds an amount equal to any dividends or interest received on loaned securities. Dividends received while a security is out on loan are not considered Qualified Dividend Income (QDI) under the specific criteria issued by the Internal Revenue Service and are subject to taxation at the shareholder s ordinary income tax rate instead of the lower long-term capital gains tax rate. Lending portfolio securities could result in a loss or delay in recovering each Fund s securities if the borrower defaults.

Master Netting Arrangements ASU No. 2011-11 Disclosures about Offsetting Assets and Liabilities (ASU 2011-11) is generally intended to (i) help investors and other financial statement users to better assess the effect or potential effect of offsetting arrangements on a company s financial position, (ii) improve transparency in the reporting of how companies mitigate credit risk, and (iii) facilitate comparisons between those entities that prepare their financial statements on the basis of GAAP and those entities that prepare their financial statements on the basis of international financial reporting standards. ASU 2011-11 requires entities to disclose (i) gross and net information about both instruments and transactions eligible for offset in the financial statements, and (ii) instruments and transactions subject to an agreement similar to a master netting agreement. ASU 2011-11 is limited in scope to the following financial instruments, to the extent they are offset in the financial statements or subject to an enforceable master netting arrangement or similar agreement: (i) recognized derivative instruments accounted for under ASC 815 (Derivatives and Hedging); (ii) repurchase agreements and reverse repurchase agreements; and (iii) securities borrowing and securities lending transactions.

In order to better define its contractual rights and to secure rights that will help a Fund mitigate its counterparty risk, a Fund may enter into an International Swaps and Derivatives Association, Inc. Master Agreement (ISDA Master Agreement) or similar agreement with its counterparties. An ISDA Master Agreement is a bilateral agreement between a Fund and a counterparty that governs over-the-counter derivatives (OTC), including Forward Contracts, and typically contains, among other things, collateral posting terms, netting and rights of set-off provisions in the event of a default and/or termination event. Under an ISDA Master Agreement, a Fund may, under certain circumstances, offset with the counterparty certain derivative financial instruments payables and receivables to create a single net payment. The provisions of the ISDA Master Agreement typically permit a single net payment in the event of a default (close-out netting) or similar event, including the bankruptcy or insolvency of the counterparty.

Collateral requirements generally differ by type of derivative. Collateral terms are contract-specific for OTC derivatives (e.g. foreign exchange contracts, options and certain swaps). Generally, for transactions traded under an ISDA Master Agreement, the collateral requirements are calculated by netting the marked to market amount for each transaction under such agreement and comparing that amount to the value of any collateral currently pledged by a Fund and the counterparty. Generally, the amount of collateral due from or to a counterparty must exceed a minimum transfer amount threshold before a transfer is required to be made. To the extent amounts due to a Fund from its derivatives counterparties are not fully collateralized, contractually or otherwise, the Fund bears the risk of loss from a counterparty s non-performance.

A Fund s security lending activities are governed by a Securities Lending Authorization Agreement (Lending Agreement) between the Fund and the lending agent. The Lending Agreement authorizes the lending agent to lend qualifying U.S. and foreign securities held by a Fund to approved borrowers (each a Borrower). To mitigate borrower risk, a Fund typically receives from a Borrower, collateral in the form of U.S. dollar cash and/or securities issued or guaranteed by the U.S. government or its agencies in excess of the market value of the securities loaned. Under the provisions of the Lending Agreement, a Fund shall have, as to the collateral, all of the rights and remedies of a secured party under applicable law. A Fund is exposed to risk of loss if a Borrower defaults on its obligation to return borrowed securities and the value of the collateral a Fund received is insufficient to cover the market value of the securities loaned. Also, the lending agent is permitted to invest the cash collateral it receives from a Borrower into a money market fund which is subject to market fluctuation. Therefore, a Fund is exposed to risk of loss if the value of invested cash collateral is insufficient to satisfy the Fund s obligation to return the full amount owed to such Borrower. For financial reporting purposes, the Funds elect to not offset assets and liabilities subject to an ISDA Master Agreement or Lending Agreement, if any, in the Statements of Assets and Liabilities. Therefore, all qualifying transactions are presented on a gross basis in the Statements of Assets and

WisdomTree Trust Annual Report June 30, 2016

127

Notes to Financial Statements (continued)

Liabilities. As of June 30, 2016, the impact of netting of assets and liabilities and the offsetting of collateral pledged or received based on contractual netting/set-off provisions in the ISDA Master Agreement and the Lending Agreement are detailed in the following table:

			Assets		G	Liabili ross Amount

¹ The amount of collateral presented has been limited such that the net amount by counterparty cannot be less than zero.

Short-Term Investments Each Fund may invest a portion of its assets in high-quality money market instruments on an ongoing basis to provide liquidity or for other reasons. The instruments include short-term obligations issued by the U.S. government, its agencies, non-U.S. government agencies, negotiable certificates of deposit (CDs), fixed time deposits and bankers acceptances of U.S. and foreign banks and similar institutions, commercial papers, repurchase agreements and money market funds. CDs are short-term negotiable obligations of commercial banks. Time deposits are non-negotiable deposits maintained in banking institutions for specified periods of time at stated interest rates. Banker s acceptances are time drafts drawn on commercial banks by borrowers, usually in connection with international transactions.

Tax Information and Dividends and Distributions to Shareholders
It is each Fund s policy to comply with all requirements of the Internal Revenue Code of 1986, as amended (the Code). Each Fund intends to qualify for and to elect treatment as a separate Regulated Investment Company (RIC) under Subchapter M of the Code. In order to qualify for the special tax treatment accorded RICs and their shareholders, each Fund must, among other things, distribute with respect to each taxable year an amount equal to or greater than the sum of 90% of its investment company taxable income and 90% of its net tax-exempt interest income. There can be no guarantee that a Fund will pay dividends. Taxable net realized gains from investment transactions, reduced by capital loss carryforwards, if any, are declared and distributed to shareholders at least annually. The capital loss carryforward amount, if any, is available to offset future net capital gains. The Funds may occasionally be required to make supplemental distributions at some other time during the year. The Trust reserves the right to declare special distributions if, in its reasonable discretion, such action is necessary or advisable to preserve the status of each Fund as a RIC or to avoid imposition of income or

excise taxes on undistributed income. Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized capital gains are determined in accordance with the requirements of the Code and the U.S. Treasury regulations. These book/tax differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the components of net assets based on their Federal tax basis treatment; temporary differences do not require reclassification. Dividends and distributions that exceed earnings and profit for tax purposes are reported for tax purposes as a return of capital.

128 WisdomTree Trust Annual Report June 30, 2016

Notes to Financial Statements (continued)

3. ADVISORY FEES AND OTHER TRANSACTIONS WITH AFFILIATES

WTAM has overall responsibility for the general management and administration of the Trust. WTAM provides an investment program for each Fund. WTAM has arranged for Mellon Capital Management Corporation (MCM) to provide sub-advisory services to the Funds, except for Fundamental U.S. Corporate Bond Fund, Fundamental U.S. Short-Term Corporate Bond Fund and Fundamental U.S. Short-Term High Yield Corporate Bond Fund which are sub-advised by Voya Investment Management Co., LLC (Voya IM). MCM and Voya IM are compensated by WTAM at no additional cost to the Funds. WTAM also arranges for transfer agency, custody, fund accounting, fund administration, securities lending and all other non-distribution related services necessary for the Funds to operate, which are generally under separate agreements entered into between the Trust on behalf of the Funds and the applicable service provider. Under the investment advisory agreement for each Fund, WTAM agrees to pay all expenses of the Funds, except for certain expenses described in Note 2.

Pursuant to a separate contractual arrangement, as also described in Note 2, WTAM arranges for the provision of CCO services with respect to each Fund, and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees in exchange for a fee of up to 0.0044% of each Fund s average daily net assets. WTAM expects to receive advisory fees from each Fund, based on a percentage of the Fund s average daily net assets, as shown in the following table:

Advisory

Fund	Fee Rate
Dynamic Currency Hedged Europe Equity Fund	0.48%1
Dynamic Currency Hedged International Equity Fund	$0.40\%^{2}$
Dynamic Currency Hedged International SmallCap Equity Fund	0.48%1
Dynamic Currency Hedged Japan Equity Fund	0.48%1
Emerging Markets Dividend Fund	0.32%
Europe Local Recovery Fund	$0.58\%^{3}$
Global Hedged SmallCap Dividend Fund	0.43%4
Global SmallCap Dividend Fund	0.43%
Strong Dollar Emerging Markets Equity Fund	0.58%
Strong Dollar U.S. Equity Fund	0.33%
Weak Dollar U.S. Equity Fund	0.33%
Fundamental U.S. Corporate Bond Fund	$0.28\%^{5}$
Fundamental U.S. High Yield Corporate Bond Fund	0.48%6
Fundamental U.S. Short-Term Corporate Bond Fund	0.28%5
Fundamental U.S. Short-Term High Yield Corporate Bond Fund	$0.48\%^{6}$
Dynamic Bearish U.S. Equity Fund	0.53%7
Dynamic Long/Short U.S. Equity Fund	0.53%7

WTAM has contractually agreed to limit the advisory fee to 0.43% through January 5, 2017, unless earlier terminated by the Board of Trustees of the Trust for any reason.

WTAM has contractually agreed to limit the advisory fee to 0.35% through January 5, 2017, unless earlier terminated by the Board of Trustees of the Trust for any reason.

³ WTAM has contractually agreed to limit the advisory fee to 0.48% through October 31, 2017, unless earlier terminated by the Board of Trustees of the Trust for any reason.

- ⁴ WTAM has contractually agreed to waive a portion of its advisory fee in an amount equal to the AFFEs attributable to the Fund s investments in the Underlying Fund through July 31, 2018, unless earlier terminated by the Board of Trustees the Trust for any reason.
- 5 WTAM has contractually agreed to limit the advisory fee to 0.18% through October 31, 2017, unless earlier terminated by the Board of Trustees of the Trust for any reason.
- WTAM has contractually agreed to limit the advisory fee to 0.38% through October 31, 2017, unless earlier terminated by the Board of Trustees of the Trust for any reason.
- WTAM has contractually agreed to limit the advisory fee to 0.48% through December 10, 2016, unless earlier terminated by the Board of Trustees of the Trust for any reason.

Each Fund may purchase shares of affiliated ETFs in secondary market transactions to reduce cash balances. For these transactions, WTAM waives its advisory fees for each Fund s investment in affiliated funds. The waivers may be reduced to offset the incremental costs related to these investments (fund accounting, safekeeping, transaction fees, etc.) that are paid by WTAM out of its advisory fee. The dollar amount of advisory fees waived during the period for the Funds, if any, are shown in the Statements of Operations.

Affiliated holdings are funds which are managed by, or an affiliate of, WTAM. Transactions with affiliated funds during the period ended June 30, 2016 are as follows:

Fund	Value at 11/19/2015 ¹	Purchases/ Additions	Sales/ Reductions	Value at 6/30/2016	Dividend Income
Global Hedged SmallCap Dividend Fund ¹

WisdomTree Trust Annual Report June 30, 2016

129

Notes to Financial Statements (continued)

During the period ended June 30, 2016, certain Funds engaged in purchase and sale transactions with funds that have a common investment adviser, WTAM. These interfund purchase and sale transactions were at fair value and complied with Rule 17a-7 under the 1940 Act. For the periods ended June 30, 2016, the cost of purchases, proceeds from sales and the net realized gain or loss recognized upon the disposal of securities resulting from interfund transactions are shown in the following table:

			Net Realized
Fund	Purchases	Sales	Gain/Loss
Dynamic Currency Hedged Europe Equity Fund ¹	\$ 62,533	\$ 305,433	\$ (26,962)
Dynamic Currency Hedged International Equity Fund ¹	4,710,319	12,014,467	40,076
Dynamic Currency Hedged International SmallCap Equity Fund ¹	242,827	240,061	(37,503)
Dynamic Currency Hedged Japan Equity Fund ¹	146,165	254,059	(25,218)
Europe Local Recovery Fund ²	126,734	265,201	(25,856)

¹ For the period January 7, 2016 (commencement of operations) through June 30, 2016.

4. CAPITAL SHARE TRANSACTIONS

As of June 30, 2016, there were an unlimited number of \$0.001 par value shares of beneficial interest authorized by the Trust. Shares are issued and redeemed by each Fund only in creation units or multiples thereof. Except when aggregated in creation units, shares of each Fund are not redeemable. Transactions in shares for each Fund are disclosed in detail in the Statements of Changes in Net Assets. The consideration for the purchase of creation units of a Fund generally consists of the in-kind contribution of a designated portfolio of equity securities constituting a portfolio sampling representation of the securities included in the relevant Fund s underlying Index and an amount of cash. Investors purchasing and redeeming creation units may be charged a purchase transaction fee and a redemption transaction fee to offset transfer and other transaction costs associated with the issuance and redemption of creation units.

5. INVESTMENT PORTFOLIO TRANSACTIONS

Purchases and sales of investments (excluding purchases and sales resulting from in-kind capital share transactions and short-term investments) and the cost of purchases and the proceeds from sales resulting from in-kind capital share transactions (excluding short-term investments) for the periods ended June 30, 2016 are shown in the following table. Realized gains and losses on sales resulting from in-kind capital share redemptions, as shown on the Statements of Operations, are not recognized by the Funds for tax purposes.

WisdomTree Trust Annual Report June 30, 2016

133

Notes to Financial Statements (concluded)

These differences are primarily due to redemptions-in-kind, distribution re-designations, non-deductible excise tax, passive foreign investment companies (PFICs) and swaps.

GAAP provides guidance on tax provisions that prescribe a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken in a tax return. Foreign taxes are provided for based on each Fund s understanding of the tax rules and rates that exist in the foreign markets in which it invests. Taxes are accrued and applied to net investment income, net realized capital gains and net unrealized appreciation, as applicable, as the income is earned or capital gains are recorded. As of and during the periods ended June 30, 2016, the Funds did not have any liabilities for unrecognized tax benefits relating to uncertain income tax positions they have taken or expect to take in the future. If applicable, the Funds will recognize interest accrued related to unrecognized tax benefits in interest expense and penalties in Other expenses on the Statements of Operations. The Funds file tax returns with the Internal Revenue Service, the State of New York, and various other states. The current tax year ended June 30, 2016 remains subject to examination by taxing authorities.

134 WisdomTree Trust Annual Report June 30, 2016

Report of Independent Registered Public Accounting Firm

The Board of Trustees and Shareholders of WisdomTree Trust:

We have audited the accompanying statements of assets and liabilities, including the schedules of investments, of WisdomTree Dynamic Currency Hedged Europe Equity Fund, WisdomTree Dynamic Currency Hedged International Equity Fund, WisdomTree Dynamic Currency Hedged International SmallCap Equity Fund, WisdomTree Dynamic Currency Hedged Japan Equity Fund, WisdomTree Emerging Markets Dividend Fund, WisdomTree Europe Local Recovery Fund, WisdomTree Global Hedged SmallCap Dividend Fund, WisdomTree Global SmallCap Dividend Fund, WisdomTree Strong Dollar Emerging Markets Equity Fund, WisdomTree Strong Dollar U.S. Equity Fund, WisdomTree Weak Dollar U.S. Equity Fund, WisdomTree Fundamental U.S. Corporate Bond Fund, WisdomTree Fundamental U.S. High Yield Corporate Bond Fund, WisdomTree Fundamental U.S. Short-Term Corporate Bond Fund, WisdomTree Fundamental U.S. Short-Term High Yield Corporate Bond Fund, WisdomTree Dynamic Bearish U.S. Equity Fund and WisdomTree Dynamic Long/Short U.S. Equity Fund, seventeen of the investment funds constituting the WisdomTree Trust (the Trust), as of June 30, 2016, and the related statements of operations, the statements of changes in net assets and the financial highlights for each of the periods presented therein. These financial statements and financial highlights are the responsibility of the Trust s management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Trust s internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Trust s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of June 30, 2016, by correspondence with the custodian and others, or by other appropriate auditing procedures where replies from others were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of WisdomTree Dynamic Currency Hedged Europe Equity Fund, WisdomTree Dynamic Currency Hedged International SmallCap Equity Fund, WisdomTree Dynamic Currency Hedged Japan Equity Fund, WisdomTree Emerging Markets Dividend Fund, WisdomTree Europe Local Recovery Fund, WisdomTree Global Hedged SmallCap Dividend Fund, WisdomTree Global SmallCap Dividend Fund, WisdomTree Strong Dollar Emerging Markets Equity Fund, WisdomTree Strong Dollar U.S. Equity Fund, WisdomTree Weak Dollar U.S. Equity Fund, WisdomTree Fundamental U.S. Corporate Bond Fund, WisdomTree Fundamental U.S. Short-Term Corporate Bond Fund, WisdomTree Fundamental U.S. Short-Term High Yield Corporate Bond Fund, WisdomTree Dynamic Bearish U.S. Equity Fund and WisdomTree Dynamic Long/Short U.S. Equity Fund, seventeen of the investment funds constituting the WisdomTree Trust, at June 30, 2016, the results of their operations, the changes in their net assets and the financial highlights for each of the periods presented therein, in conformity with U.S. generally accepted accounting principles.

New York, New York

WisdomTree Trust Annual Report June 30, 2016

135

Approval of Investment Advisory and Sub-Advisory Agreements (unaudited)

Approval of Investment Advisory and Sub-Advisory Agreements with respect to the WisdomTree Dynamic Currency Hedged Europe Equity Fund, WisdomTree Dynamic Currency Hedged International Equity Fund, WisdomTree Dynamic Currency Hedged International SmallCap Equity Fund, WisdomTree Dynamic Currency Hedged Japan Equity Fund, and the WisdomTree Emerging Markets Dividend Fund (each, a Fund and, collectively, the Funds)

At a meeting of the Board of Trustees (the Board) of the WisdomTree Trust (the Trust) held on December 10-11, 2015, the Trustees (the Trustees), including those Trustees who are not interested persons (as defined in the Investment Company Act of 1940, as amended) of the Trust (the Independent Trustees), considered the approval of the Investment Advisory Agreement (the Advisory Agreement), pursuant to which WisdomTree Asset Management, Inc. (WTAM) will provide each Fund with investment advisory services, and the Sub-Advisory Agreement (together with the Advisory Agreement, the Agreements), pursuant to which Mellon Capital Management Corporation (the Sub-Adviser) will coordinate the investment and reinvestment of the assets of each Fund.

In considering whether to approve the Agreements, the Trustees considered and discussed information and analysis provided by WTAM and Broadridge Financial Solutions, Inc., an independent provider of investment company data. The Independent Trustees were assisted in their review by independent legal counsel and met with counsel in executive session separate from WTAM representatives and the Sub-Adviser. In considering the approval of the Agreements, the Board considered all factors that it believed to be relevant, including those discussed below. The Board did not identify any one factor as dispositive, and each Trustee may have attributed different weights to the factors considered.

Analysis of Nature, Extent, and Quality of Services to be Provided to the Funds. The Board considered information provided to them at the meeting and in previous presentations throughout the year from WTAM representatives regarding the nature, extent, and quality of the services provided to the WisdomTree funds, recognizing WTAM s and the Sub-Adviser s operational capabilities and resources. The Board also discussed the proposed role of WisdomTree Investments, Inc. (WTI), the parent of WTAM, as index provider to the Funds. The Board noted that the strategies represented by the Funds are unique, based on WTI s intellectual property and are only available for use by the Funds through WTAM. The Board noted WTAM s belief that shareholders will invest in the Funds on the strength of WTI s intellectual property and WTAM s industry standing and reputation and with the expectation that WTAM will have a continuing role in providing advisory services to the Funds based on the WTI indexes. The Board also noted the extensive responsibilities that WTAM will have as investment adviser to the Funds, including: the selection of, and supervisory responsibilities and activities over, the Sub-Adviser, including oversight of the Sub-Adviser s adherence to each Fund s investment strategy and restrictions, monitoring of the Sub-Adviser s buying and selling of securities and derivatives transactions, review of Sub-Adviser performance, review of proxies voted by the Sub-Adviser and oversight of, and the provision of consultation to, the Sub-Adviser with respect to the creation of custom creation or redemption baskets for authorized participants; oversight of the daily valuation of the Funds portfolio holdings; oversight of general Fund compliance with federal and state laws; and implementation of Board directives as they relate to the Funds. The Board also considered research support available to, and management capabilities of, the Funds management personnel and that WTAM will provide oversight of day-to-day Fund operations, including fund accounting, tax matters, administration, compliance and legal assistance in meeting disclosure and regulatory requirements.

Based on review of this information and the other factors considered at the meeting, the Board concluded that the nature, extent and quality of services to be provided by WTAM and the Sub-Adviser under the Advisory Agreement and Sub-Advisory Agreement, respectively, are adequate and appropriate and supported the Board suppor

Comparative Analysis of the Funds Performance, Advisory Fees and Fund Expenses. As the Funds had not yet commenced operations, the Board was not able to review the Funds performance. The Board discussed with WTAM representatives the portfolio management team and the investment strategies to be employed in the management of each Fund s assets. The Board noted the reputation and experience of WTAM and the Sub-Adviser.

The Board considered the fees to be paid to WTAM by each Fund. The Board examined the fee to be paid by each Fund in light of fees paid to other investment advisers by comparable funds and the method of computing the Fund s fee. The Board also considered the fee to be paid to the Sub-Adviser in relation to the fee to be paid to WTAM by each Fund and the respective services to be provided by the Sub-Adviser and WTAM. The Board also noted the Sub-Adviser s fees will be paid by WTAM (out of its fees paid by the Funds) and not the Funds. The Board considered the meaningful differences in the services that WTAM will provide to the Funds as compared to the Sub-Adviser, including that the role of the Sub-Adviser in making investment recommendations with respect to a Fund is a rules-based function, with oversight by WTAM in seeking to ensure compliance with such rules. The Board also considered the entrepreneurial and expense risk to be borne by WTAM that is associated with the Funds unitary fee structure, which includes minimum fees (such as those to the Sub-Adviser), regardless of whether the asset size of a Fund grows to a sufficient size. Based on this review, the Board concluded that the fees to be paid to WTAM and the Sub-Adviser supported the

Board s approval of the Agreements.

136 WisdomTree Trust Annual Report June 30, 2016

Approval of Investment Advisory and Sub-Advisory Agreements (unaudited) (continued)

Analysis of Profitability and Economies of Scale. As the Funds had not yet commenced operations, WTAM representatives were not able to review the dollar amount of expenses allocated and profit received by WTAM, or any economies of scale. The Board considered potential benefits to WTAM and the Sub-Adviser from acting as investment adviser and sub-adviser, respectively. The Board also considered the uncertainty of the estimated asset levels and the renewal requirements for advisory agreements and their ability to review the advisory fees annually after the initial term of the Agreements. The Board determined that because the Funds had not yet commenced operations, economies of scale were not a factor, but, to the extent in the future it were determined that material economies of scale had not been shared with the Funds, the Board would seek to have those economies of scale shared with the Funds in connection with future renewals.

* * * * * *

In evaluating the Agreements, the Board considered the conclusions and determinations discussed above and also relied on its knowledge, gained through meetings and other interactions with WTAM and the Sub-Adviser, of other funds advised by WTAM and the Sub-Adviser. In light of the foregoing, the Board, including a majority of the Independent Trustees, determined to approve the Agreements.

Approval of Investment Advisory and Sub-Advisory Agreements with respect to the WisdomTree Fundamental U.S. Corporate Bond Fund, WisdomTree Fundamental U.S. Short-Term Corporate Bond Fund, wisdomTree Fundamental U.S. Short-Term High Yield Corporate Bond Fund (each, a Fund and, collectively, the Funds)

At a meeting of the Board of Trustees (the Board) of the WisdomTree Trust (the Trust) held on March 21-22, 2016, the Trustees (the Trustees), including those Trustees who are not interested persons (as defined in the Investment Company Act of 1940, as amended) of the Trust (the Independent Trustees), considered the approval of the Investment Advisory Agreement (the Advisory Agreement), pursuant to which WisdomTree Asset Management, Inc. (WTAM) will provide each Fund with investment advisory services, and the Sub-Advisory Agreement (together with the Advisory Agreement, the Agreements), pursuant to which Voya Investment Management Co. LLC (Voya or the Sub-Adviser) will coordinate the investment and reinvestment of the assets of each Fund.

In considering whether to approve the Agreements, the Trustees considered and discussed information and analysis provided by WTAM and Broadridge Financial Solutions, Inc., an independent provider of investment company data. The Independent Trustees were assisted in their review by independent legal counsel and met with counsel in executive session separate from representatives of WTAM and the Sub-Adviser. In considering the approval of the Agreements, the Board considered all factors that it believed to be relevant, including those discussed below. The Board did not identify any one factor as dispositive, and each Trustee may have attributed different weights to the factors considered.

Analysis of Nature, Extent, and Quality of Services to be Provided to the Funds. The Board considered information provided to them at the meeting and in previous presentations throughout the year from WTAM representatives regarding the nature, extent, and quality of the services provided to the WisdomTree funds, recognizing WTAM s operational capabilities and resources. The Board considered WTAM s reasons for recommending that Voya be appointed as the sub-adviser to the Funds, including its due diligence concerning Voya. WTAM representatives noted Voya s expertise in fixed income portfolio management, performance track record, understanding of the exchange-traded fund business and experience managing rules-based passive strategies. The Board also received materials from Voya detailing its investment philosophy and met with representatives of Voya, who discussed with the Board that investment philosophy and process and the backgrounds and qualifications of the fixed income investment grade and high yield credit portfolio management teams. The Board also discussed the proposed role of WisdomTree Investments, Inc. (WTI), the parent of WTAM, as index provider to the Funds. The Board noted that the strategies represented by the Funds are unique, based on WTI s intellectual property and are only available for use by the Funds through WTAM. The Board noted WTAM s belief that shareholders will invest in the Funds on the strength of WTI s intellectual property and WTAM s industry standing and reputation and with the expectation that WTAM will have a continuing role in providing advisory services to the Funds based on the WTI indexes. The Board also noted the extensive responsibilities that WTAM will have as investment adviser to the Funds, including: the selection of, and supervisory responsibilities and activities over, the Sub-Adviser, including oversight of the Sub-Adviser s adherence to each Fund s investment strategy and restrictions, monitoring of the Sub-Adviser s buying and selling of securities and derivatives transactions, review of Sub-Adviser performance, review of proxies voted by the Sub-Adviser and oversight of, and the provision of consultation to, the Sub-Adviser with respect to the creation of custom creation or redemption baskets for authorized participants; oversight of the daily valuation of the Funds portfolio holdings; oversight of general Fund compliance with federal and state laws; and implementation of Board directives as they relate to the Funds. The Board also considered research support available to, and management capabilities of, the Funds management personnel and that WTAM will provide oversight of day-to-day Fund operations, including fund accounting, tax matters, administration, compliance and legal assistance in meeting disclosure and regulatory requirements.

Based on review of this information and the other factors considered at the meeting, the Board concluded that the nature, extent and quality of services to be provided by WTAM and the Sub-Adviser under the Advisory Agreement and Sub-Advisory Agreement, respectively, are adequate and appropriate and supported the Board suppor

WisdomTree Trust Annual Report June 30, 2016

137

Approval of Investment Advisory and Sub-Advisory Agreements (unaudited) (continued)

Comparative Analysis of the Funds Performance, Advisory Fees and Fund Expenses. As the Funds had not yet commenced operations, the Board was not able to review the Funds performance. The Board discussed with representatives of WTAM and Voya the portfolio management team and the investment strategies to be employed in the management of each Fund s assets. The Board noted the reputation and experience of WTAM and Voya.

The Board considered the fees to be paid to WTAM by each Fund. The Board examined the fee to be paid by each Fund in light of fees paid to other investment advisers by comparable funds and the method of computing the Fund s fee. The Board noted the proposed fee waiver arrangements. The Board also considered the fee to be paid to the Sub-Adviser in relation to the fee to be paid to WTAM by each Fund and the respective services to be provided by the Sub-Adviser and WTAM. The Board also noted the Sub-Adviser s fees will be paid by WTAM (out of its fees paid by the Funds) and not the Funds. The Board considered the meaningful differences in the services that WTAM will provide to the Funds as compared to the Sub-Adviser, including that the role of the Sub-Adviser in making investment recommendations with respect to a Fund is a rules-based function, with oversight by WTAM in seeking to ensure compliance with such rules. The Board also considered the entrepreneurial and expense risk to be borne by WTAM that is associated with the Funds—unitary fee structure, which includes minimum fees (such as those to the Sub-Adviser), regardless of whether the asset size of a Fund grows to a sufficient size. Based on this review, the Board concluded that the fees to be paid to WTAM and the Sub-Adviser supported the Board is approval of the Agreements.

Analysis of Profitability and Economies of Scale. As the Funds had not yet commenced operations, WTAM representatives were not able to review the dollar amount of expenses allocated and profit received by WTAM, or any economies of scale. The Board considered potential benefits to WTAM and the Sub-Adviser from acting as investment adviser and sub-adviser, respectively. The Board also considered the uncertainty of the estimated asset levels and the renewal requirements for advisory agreements and their ability to review the advisory fees annually after the initial term of the Agreements. The Board determined that because the Funds had not yet commenced operations, economies of scale were not a factor, but, to the extent in the future it were determined that material economies of scale had not been shared with the Funds, the Board would seek to have those economies of scale shared with the Funds in connection with future renewals.

* * * * * *

In evaluating the Agreements, the Board considered the conclusions and determinations discussed above and also relied on its knowledge, gained through meetings and other interactions with WTAM and the Sub-Advisers, of other funds advised by WTAM and the Sub-Advisers. In light of the foregoing, the Board, including a majority of the Independent Trustees, determined to approve the Agreements.

Supplemental Information (unaudited)

Federal Income Tax Information

The following Federal tax information related to the Funds periods ended June 30, 2016, is provided for information purposes only and should not be used for reporting to federal or state revenue agencies. Federal tax information for the calendar year will be reported to you on Form 1099-DIV in January 2017.

Certain dividends paid by the Funds may be subject to a maximum tax rate of 15%, as provided by the Jobs and Growth Tax Relief Reconciliation Act of 2003. Of the distributions paid during the periods ended June 30, 2016, the following represents the maximum amount of ordinary income distributions that may be considered qualified dividend income:

	Qualified Dividend	
Fund	Income	
Dynamic Currency Hedged Europe Equity Fund ¹	\$	113,002
Dynamic Currency Hedged International Equity Fund ¹		2,641,150
Dynamic Currency Hedged International SmallCap Equity Fund ¹		47,502
Dynamic Currency Hedged Japan Equity Fund ¹		37,001
Emerging Markets Dividend Fund ²		12,501
Europe Local Recovery Fund ³		73,190
Global Hedged SmallCap Dividend Fund ⁴		459,192
Global SmallCap Dividend Fund ⁵		511,968
Strong Dollar Emerging Markets Equity Fund ³		2,068
Strong Dollar U.S. Equity Fund ⁶		24,832

The WisdomTree Funds are exchange traded funds (ETFs) registered with the United States Securities and Exchange Commission as separate series (Funds) of WisdomTree Trust (Trust). WisdomTree Asset Management, Inc., a wholly owned subsidiary of WisdomTree Investments, Inc., serves as the investment adviser to the Trust. None of the WisdomTree entities are affiliated with Foreside Fund Services, LLC, the Funds distributor. WisdomTree Investments, its affiliates and their independent providers are not liable for any informational errors, incompleteness, delays, or for any actions taken in reliance on information contained herein.

Investors should consider the investment objectives, risks, charges and expenses of the Funds carefully before investing. A prospectus, containing this and other information, is available at www.wisdomtree.com, or by calling 1-866-909-WISE (9473). Investors should read the prospectus carefully before investing. There are risks associated with investing, including possible loss of principal. Past performance does not guarantee future results. Indexes are unmanaged and you cannot invest directly in an index.

There are risks associated with investing including possible loss of principal. Foreign investing involves special risks, such as risk of loss from currency fluctuation or political or economic uncertainty. Investments in real estate involve additional special risks, such as credit risk, interest rate fluctuations and the effect of varied economic conditions. Funds that focus their investments in one country or region may be significantly impacted by events and developments associated with the region which can adversely affect performance. Funds focusing on a single sector and/or smaller companies generally experience greater price volatility. Investments in emerging, offshore or frontier markets are generally less liquid and less efficient than investments in developed markets and are subject to additional risks, such as risks of adverse governmental regulation and intervention or political developments. Fixed income investments are subject to interest rate risk; their value will normally decline as interest rates rise. In addition, when interest rates fall income may decline. Fixed income investments are also subject to credit risk, the risk that the issuer of a bond will fail to pay interest and principal in a timely manner, or that negative perceptions of the issuer s ability to make such payments will cause the price of that bond to decline. High-yield or junk bonds have lower credit ratings and involve a greater risk to principal. While the Fundamental Fixed Income Funds attempt to limit credit and counterparty exposure, the value of an investment in the Funds may change quickly and without warning in response to issuer or counterparty defaults and changes in the credit ratings of the Fund s portfolio investments. Investments in currency involve additional special risks, such as credit risk and interest rate fluctuations. Derivative investments can be volatile and these investments may be less liquid than other securities, and more sensitive to the effect of varied economic conditions. As these Funds can have a high concentration in some issuers the Funds can be adversely impacted by changes affecting such issuers. Due to the investment strategy of certain Funds they may make higher capital gain distributions than other ETFs. Please read the Fund s prospectus for specific details regarding the Fund s risk profile.

Transactions in Fund shares will result in brokerage commissions and will generate tax consequences. Shares may be sold through brokerage accounts, but may be redeemed from the Funds only in large amounts of 50,000 shares or more.

Item 2. Code of Ethics.

- (a) The registrant, as of the end of the period covered by this report, has adopted a code of ethics that applies to the registrant s principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions, regardless of whether these individuals are employed by the registrant or a third party.
- (c) There have been no amendments, during the period covered by this report, to a provision of the code of ethics that applies to the registrant s principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions, regardless of whether these individuals are employed by the registrant or a third party, and that relates to any element of the code of ethics description.
- (d) The registrant has not granted any waivers, including an implicit waiver, from a provision of the code of ethics that applies to the registrant s principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions, regardless of whether these individuals are employed by the registrant or a third party, that relates to one or more of the items set forth in paragraph (b) of this item s instructions.
- (f) The code of ethics is attached hereto as exhibit 12(a)(1).

Item 3. Audit Committee Financial Expert.

The Registrant s Board of Trustees has determined that the Registrant has one audit committee financial expert, as that term is defined under Item 3(b) and 3(c), serving on its audit committee. The audit committee financial expert serving on the Registrant s audit committee is David Chrencik, who is an independent Trustee of the Trust, as that term is defined under Item 3(a) (2).

Item 4. Principal Accountant Fees and Services.

Audit Fees

(a) The aggregate fees billed for the fiscal period from the commencement of operations July 21, 2015 to June 30, 2016 for professional services rendered by the principal accountant for the audit of the registrant s annual financial statements or services that are normally provided by the accountant in connection with statutory and regulatory filings or engagements for the fiscal period are \$414,560.

Audit-Related Fees

(b) The aggregate fees billed for the fiscal period from the commencement of operations July 21, 2015 to June 30, 2016 for assurance and related services by the principal accountant that are reasonably related to the performance of the audit of the registrant s financial statements and are not reported under paragraph (a) of this Item are \$0.

Tax Fees

(c) The aggregate fees billed for the fiscal period from the commencement of operations July 21, 2015 to June 30, 2016 for professional services rendered by the principal accountant for tax compliance, tax advice, and tax planning are \$14,900.

All Other Fees

- (d) The aggregate fees billed for the fiscal period from the commencement of operations July 21, 2015 to June 30, 2016 for products and services provided by the principal accountant, other than the services reported in paragraphs (a) through (c) of this Item are \$0.
- (e)(1) Disclose the audit committee s pre-approval policies and procedures described in paragraph (c)(7) of Rule 2-01 of Regulation S-X.

Per Rule 2-01(c) (7) (A), the Registrant s audit committee charter provides that the audit committee shall select and approve in advance the retention of independent accountants to annually audit and provide their opinion on the Registrant s financial statements. The audit committee must also approve prior to appointment the engagement of the principal accountant to provide other audit services to the Registrant or to provide non-audit services to the Registrant, its investment adviser, or any entity controlling, controlled by, or under common control with its investment adviser (adviser/affiliate) that provides ongoing services to the Registrant, if the engagement by the investment adviser or adviser affiliate relates directly to the operations and financial reporting of the Registrant. The audit committee must also, prior to appointment of the engagement of the principal accountant, review and approve the fees proposed to be charged to the Registrant by the auditors for each audit and non-audit service. The audit committee must also consider whether non-audit services provided by the Registrant s principal accountant to the Registrant s investment adviser, or adviser/affiliate that provides ongoing services to the Trust are compatible with maintaining the auditor s independence.

- (e)(2) The Registrant s Audit committee has approved 100% of services described in each of Items 4(b) through (d) pursuant to paragraph (c)(7)(i)(C) of Rule 2-01 of Regulation S-X.
 - (f) The percentage of hours expended on the principal accountant s engagement to audit the registrant s financial statements for the most recent fiscal year that were attributed to work performed by persons other than the principal accountant s full-time, permanent employees was 0%.

(g) The aggregate non-audit fees billed by the registrant s accountant for services rendered to the registrant, and rendered to the registrant s investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), and any entity controlling, controlled by, or under common control with the adviser that provides ongoing services to the registrant for the fiscal period from the commencement of operations July 21, 2015 to June 30, 2016 was \$14,900.

(h) Not applicable.

Item 5. Audit Committee of Listed registrants.

The Registrant is an issuer as defined in Rule 10A-3 under the Exchange Act and has a separately-designated standing audit committee established in accordance with Section 3(a) (58)A of the Exchange Act. The Registrant s audit committee members are David Chrencik, Melinda Raso Kirstein and Victor Ugolyn.

Item 6. Investments.

- (a) Schedule of Investments in securities of unaffiliated issuers as of the close of the reporting period is included as part of the report to shareholders filed under Item 1 of this form.
- (b) Not applicable.

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies.

Not applicable.

Item 8. Portfolio Managers of Closed-End Management Investment Companies.

Not applicable.

Item 9. Purchases of Equity Securities by Closed-End Management Investment Company and Affiliated Purchasers.

Not applicable.

Item 10. Submission of Matters to a Vote of Security Holders.

There have been no material changes to the procedures by which the shareholders may recommend nominees to the registrant s board of directors, where those changes were implemented after the registrant last provided disclosure in response to the requirements of Item 407(c)(2)(iv) of Regulation S-K (17 CFR 229.407) (as required by Item 22(b)(15) of Schedule 14A (17 CFR 240.14a-101)), or this Item.

Item 11. Controls and Procedures.

(a) The registrant s principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant s disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the 1940 Act) (17 CFR 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of the report that includes the disclosure required by this paragraph, based on their evaluation of these controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended (17 CFR 240.13a-15(b) or 240.15d-15(b)).

(b) There were no changes in the registrant s internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d)) that occurred during the registrant s second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant s internal control over financial reporting.

Item 12. Exhibits.

- (a)(1) Code of ethics, or any amendment thereto, that is the subject of disclosure required by Item 2 is attached hereto.
- (a)(2) Certifications pursuant to Rule 30a-2(a) under the 1940 Act and Section 302 of the Sarbanes-Oxley Act of 2002 are attached hereto.
- (a)(3) Not applicable.
 - (b) Certifications pursuant to Rule 30a-2(b) under the 1940 Act and Section 906 of the Sarbanes-Oxley Act of 2002 are attached hereto.

SIGNATURES
