Braskem S.A.

Condensed consolidated interim financial information (ITR) at

June 30, 2017

and Independent Auditors Report Review

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders of Braskem S.A.

We have reviewed the accompanying condensed consolidated balance sheet of Braskem S.A. and its subsidiaries (the Company) as of June 30, 2017, and the related condensed consolidated statements of operations and comprehensive income for the three-month and six-month periods ended June 30, 2017 and 2016 and the condensed consolidated statements of changes in shareholder s equity and cash flows for the six-month periods ended June 30, 2017 and 2016. This condensed consolidated interim financial information is the responsibility of the Company s management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying condensed consolidated interim financial information for it to be in conformity with International Financial Reporting Standards as issued by the International Accounting Standards Board.

As discussed in Note 2.3 to the condensed consolidated interim financial information, the Company has restated its 2016 and 2015 financial statements to correct misstatements.

We previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet as of December 31, 2016, and the related consolidated statement of operations, comprehensive income, of statement of changes in equity and of cash flows for the year then ended (not presented herein), and in our report dated September 22, 2017, which included a paragraph regarding the correction of an error in the 2015 and 2014 financial statements, we expressed an unqualified opinion on those consolidated financial statements.

Braskem S.A.

Notes to the unaudited condensed consolidated interim financial information

at June 30, 2017

All amounts in thousands, unless otherwise stated

1. Operations

Braskem S.A. is a public corporation headquartered in Camaçari, Bahia (BA), which jointly with its subsidiaries (hereinafter Braskem or Company) is controlled by Odebrecht S.A. (Odebrecht), which directly and indirectly holds interests of 50.11% and 38.32% in its voting and total capital, respectively.

(a) Significant operating events impacting these financial statements

(i) In January 2017, Braskem's new line to produce ultra-high molecular weight polyethylene (UHMWPE), known commercially as UTEC[®], started operations. Located in La Porte, Texas, United States, the plant will complement the production capacity of the existing line in Brazil at the petrochemical complex in Camaçari.

(ii) On January 27, 2017, the Board of Directors of the Company authorized the execution of a purchase agreement with Odebrecht Utilities S.A., through which Braskem undertook to purchase all shares held by the seller in Cetrel S.A., which represent 63.7% of its voting capital, for the aggregate amount of R\$610 million, to be paid upon the consummation of the transaction.

The consummation of the acquisition is subject to a vote by the Shareholders' Meeting of Braskem, in accordance with Article 256 of Federal Law 6,404/76, and to the conditions precedent typical to transactions of this nature. The Shareholders' Meeting has not yet to be called.

(iii) On June 21, 2017, the Board of Directors approved the construction of a new polypropylene production facility in the city of La Porte, Texas, in the United States. The approximate amount is up to US\$675 million(*) to the production of 450 thousand tons per year(*). Completion of this project is planned for 2020.

(*) *unaudited*

(b) Net working capital

On June 30, 2017, in compliance with IAS 1 Presentation of Financial Statements, the subsidiary Braskem Idesa reclassified to current liabilities the finance obligations whose original maturities are long term, since certain contractual obligations (covenants) as of June 30, 2017 were in default (Notes 13(a) and 14). Consequently, the net working capital became negative R\$4,156,604.

It should be noted that Braskem Idesa has been settling its debt service obligations in accordance with the original maturity schedule, none of the creditors has requested immediate repayment of such obligations and, without the above reclassification, consolidated net working capital is positive at R\$5,030,520.

2. Summary of significant accounting policies

There were no changes in the accounting practices used in the preparation of the condensed interim financial information in relation to those presented in the December 31, 2016 financial statements, except for what is disclosed in the footnotes 2.4 Change in accounting policy.

2.1. Basis of preparation

This unaudited condensed interim financial information should be read together with the financial statements of Braskem as of December 31, 2016, which were prepared and presented in accordance with the International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB).

The preparation of the condensed interim financial information requires the use of certain critical accounting estimates. It also requires the Management of the Company to exercise its judgment in the process of applying its accounting policies.

There were no significant changes in the assumptions and judgments made by the Company's management in the use of estimates for the preparation of the unaudited condensed interim financial information in relation to those used in the December 31, 2016 financial statements.

Issue of this unaudited condensed interim financial information was authorized by the Executive Board on September 27, 2017.

2.1.1 Unaudited consolidated condensed interim financial information

The unaudited condensed interim financial information was prepared and is being presented in accordance with the pronouncements IAS 34 Interim Financial Reporting, which establish the minimum content for interim financial statements.

All relevant information pertaining exclusively to these unaudited interim financial statements is presented herein and corresponds to the information used by the Management of the Company.

Braskem S.A.**Notes to the unaudited condensed consolidated interim financial information****at June 30, 2017****All amounts in thousands, unless otherwise stated**

The condensed interim financial information includes the condensed interim financial information of Braskem S.A. and companies in which it, directly or indirectly, maintains a controlling equity interest or controls the activities, as presented below:

Braskem S.A.**Notes to the unaudited condensed consolidated interim financial information****at June 30, 2017****All amounts in thousands, unless otherwise stated****2.2. Foreign and functional currency**

The information on functional and foreign currency was presented in the 2016 annual financial statements of the Company, in Note 2.2.

Exchange variation effects

The main effects from exchange variation in this condensed interim financial information are shown below:

	Final rate			Average rate for period ended		
	Jun/2017	Dec/2016	Variation	Jun/2017	Jun/2017	Variation
U.S. dollar - Brazilian real	3.3082	3.2591	1.51%	3.1807	3.7017	-14.08%
U.S. dollar - Mexican peso	18.0820	20.6352	-12.37%	19.4478	18.0712	7.62%
U.S. dollar - Euro	0.8763	0.9479	-7.54%	0.9239	0.8957	3.14%

2.3. Restatement

The statements of operations, of the starting balance of equity and of cash flows for the period ended June 30, 2016 and the starting balance of equity in December 2015 were restated due to the adjustment of taxes recognized from prior periods and other prior-year adjustments. The information related to this restatement was reported in the 2016 annual financial statements of the Company, in Note 2.4. The effect on the statement of income for the period ended June 30, 2016, corresponding to the update by the SELIC, recorded under financial expenses, was R\$11,808.

Additionally, the statement of cash flows for the period ended June 30, 2016 was restated due to the reclassification of Brazilian government bonds from cash and cash equivalents to financial investments (negative variation of R\$103,538 in the period ended June 30, 2016 as explained in Note 5.ii).

2.4. Change in accounting policy

- (a) The Management of Braskem decided to change, in the statement of cash flows, the presentation of capitalized interest paid, which previously was presented under the group referred to as cash used in investment activities. These expenses are now recorded under the item interest paid. This change enables: (i) the direct identification of the total amount paid as interest; and (ii) greater accuracy in determining the net cash from operations. The amount reclassified in the period ended June 30, 2016 was R\$252,722.

- (b) In 2017, the Company changed the classification of provision for profit sharing to standardize such classification among all companies, whether or not productive, and because it deemed the current classification more appropriate, since this provision does not present recurring elements or, even when recurring, the amounts differ from year to year.

In the period ended June 30, 2016, the amounts related to this item were reclassified from costs of products sold (R\$83,363), selling and distribution expenses (R\$3,994) and general and administrative expenses (R\$96,515) to the item other income (expenses), net (Note 23).

3. Available-for-sale assets and discontinued operations

On January 9, 2017, the Board of Directors approved the sale of the subsidiaries Quantiq Distribuidora Ltda and IQAG Armazens Gerais Ltda to the company GTM do Brasil Comércio de Produtos Químicos Ltda. The sale

Braskem S.A.**Notes to the unaudited condensed consolidated interim financial information****at June 30, 2017****All amounts in thousands, unless otherwise stated**

agreement, in the amount of R\$550 million, was signed on the following day, and in January the operation was approved by Brazil's antitrust agency CADE (*Conselho Administrativo de Defesa Econômica*). The approval of the sale plan was made by Management during the second half of 2016. The transfer of control to the buyer company was concluded on April 3, 2017. On the same date, Braskem received R\$450 million. The remaining R\$100 million will be received within 12 months, subject to adjustments typical to operations of this nature. The capital gain from the operation was R\$276,816 (Total income of R\$550,000 (-) net assets of R\$273,184) registered in the second quarter.

Assets and liabilities classified as held for sale and profit or loss from discontinued operations until the date of transfer of control are shown below:

	Mar/2017	Dec/2016

Braskem S.A.**Notes to the unaudited condensed consolidated interim financial information****at June 30, 2017****All amounts in thousands, unless otherwise stated****(a) Agreements executed and/or renewed with related companies**

In the period ended June 30, 2017, the following agreements were signed with related companies:

- (i) Sales of gasoil to Refinaria de Petróleo Riograndense (RPR) totaled R\$26,077. The product is used as feedstock in the diesel production process.
- (ii) As from January 2017, Braskem will maintain monthly negotiations for the sale of gasoline to RPR. Sales in the period amounted to R\$171,733.
- (iii) Since January 2017, Braskem has held agreements for the sale of gasoline to Petrobras Distribuidora S.A., which are renewed monthly. Sales in the period amounted to R\$443,665.
- (iv) In March 2017, the Company entered into an agreement for supply of hydrous ethanol with Usina Conquista do Pontal S.A. and Agro Energia Santa Luzia S.A. Ethanol is the feedstock consumed by Braskem to produce green ethylene. The agreement is guaranteed by Odebrecht Agroindustrial Participações S.A. and Rio Claro Agroindustrial S.A.. The agreement also provides for a commercial discount and other flexibilities in the process of Braskem's acquisition of the product. It also includes an advance of R\$150,000, to be restated at market rates. The advance is guaranteed by a pledge of the sugarcane crop, its products and subproducts at net market value in an amount greater than the value of the advance, with the pledged asset insured through a policy contracted from a premium insurer and with a provision for subrogation. The agreement is valid through April 30, 2018.

There were no significant events or circumstances in the period ended June 30, 2017 that indicated the need for updating the impairment testing of intangible assets with indefinite useful life made in the end of 2016, or that indicated the need to perform an impairment testing of intangible assets with definite useful life.

Braskem S.A.

Notes to the unaudited condensed consolidated interim financial information

at June 30, 2017

All amounts in thousands, unless otherwise stated

13. Borrowings

The information on borrowings was presented in the 2016 annual financial statements of the Company, in Note 15.

- (a) The Company has borrowings contracted from financial institutions and the capital markets that include restrictive clauses (covenants) requiring the presentation of its audited financial statements within the legal deadline (or within 120 days from the end of the fiscal year).

On the base date for the condensed interim financial information of June 30, 2017, these clauses were not being complied with on the base date of these financial statements within the legal deadline for the following contracts. For this reason, the amounts indicated in the column "Reclassification to current liabilities" in the following table, have been reclassified to current liabilities, in compliance with accounting standard IAS 1 (Presentation of Financial Statements).

According to the standards mentioned above, such reclassification is required when a contractual breach entitles creditors to request the immediate repayment of the obligations in the short-term. In this context, note that none of the Company's creditors requested such advance payment of the obligations and that Braskem has been settling these obligations in accordance with their original maturity schedule.

Additionally, said clauses will be automatically complied with once the audited financial statements are presented, as of when said creditors will no longer be entitled to request the immediate repayment of short-term obligations, with the amounts in the following table from current liabilities to non-current liabilities.

Original maturity reclassified to current liabilities

Maturity	Local currency Government Agents
2018	
2019	2,793

(*) TIEE *Tasa de Interés Interbancaria de Equilibrio* basic interest rate in Mexico, similar to the CDI overnight rate in Brazil.

- (i) Financing without resource or with resource limited to shareholders.
 - (ii) Financing obtained in Mexican peso and paid exclusively with IVA refund, settled in January 2017.
- This kind of Project finance includes restrictive contractual clauses (covenants), among others, that require the presentation of the audited financial statements within the legal deadline (or within 120 days from the end of the fiscal year).

At the reporting date for the condensed interim financial information as of June 30, 2017, these clauses were not being complied with on the base date of these financial statements within the legal term, as well as other obligations customary in contracts of this nature. In this sense, the entire balance of non-current liabilities, in the amount of R\$9,146,643, was reclassified to current liabilities, in accordance with accounting standard IAS 1 (Presentation of Financial Statements).

According to the standards mentioned above, such reclassification is required when a contractual breach entitles creditors to request the immediate repayment of the obligations in the short-term. In this context, note that none of the its creditors has requested said immediate repayment of obligations and Braskem Idesa has been settling this obligation in accordance with its original maturity schedule.

Braskem S.A.**Notes to the unaudited condensed consolidated interim financial information****at June 30, 2017****All amounts in thousands, unless otherwise stated**

Additionally, Braskem Idesa has already entered into agreements with its creditors to obtain approvals for said contractual breach in order to return the entire amount reclassified from current liabilities to non-current liabilities.

The payment schedule below shows the original long-term maturities, excluding the reclassification to current liabilities arising from the breach of contractual covenants mentioned previously.

(a) Operations designated for hedge accounting

(a.i) U.S. dollar Put Options

In September 2016, Braskem launched a recurring currency hedge program to mitigate the exposure of its cash flows to liabilities denominated in Brazilian real and not pegged to the U.S. dollar (such as electricity, payroll, etc.).

As of June 30, 2017, Braskem held a total notional value of put options of R\$3,258, with a maximum term of 18 months and average strike price of 2.97 R\$/US\$. Braskem also held a total notional value of short positions in call option contracts in the amount of R\$2,261. The average strike price of the short position in call options was R\$4.28.

This type of strategy involving options, called Collar, offers protection in the event the Brazilian real appreciates while simultaneously enabling the capture of competitiveness gains in the event of currency depreciation, until limited to the strike price of the options.

Such operations were designed for the hedge accounting of cash flows as from January 1, 2017, and seek to hedge future dollar-denominated revenues with maturities in months coinciding with the maturity of the derivatives and that said it s been accounted in compliance with Company s cash flow hedge accounting policy.

The US Dollar put options were initially recognized at fair value and is being subsequently remeasured to its fair value at the end of each reporting period. The gain or loss relating to the effective portion of US Dollar options in-the-money (intrinsic value) is recognized in other comprehensive income in equity. The gain or loss relating to the ineffective portion and the extrinsic value of the option is recognized immediately in profit or loss within financial expenses or financial income.

15.3. Non-derivative liabilities designated for export hedge accounting**(a.i) Future exports in U.S. dollars**

On June 30, 2017, exports that were designated and not yet realized are shown below:

	Total nominal value US\$
2017	420,273
2018	787,894
2019	733,980
2020	724,000
2021	716,000
2022	719,000
2023	718,372
2024	688,854

5,508,373

The following table shows the changes in financial instruments designated for this hedge in the period:

	Dec/2016	US\$ Hedge discontinued	Jun/2017
Designated balance	5,301,099	(402,325)	4,898,774

Braskem S.A.**Notes to the unaudited condensed consolidated interim financial information****at June 30, 2017****All amounts in thousands, unless otherwise stated**

On June 30, 2017, the maturities of financial liabilities designated are as follows:

	Total nominal value US\$
2017	889,595
2018	772,104
2019	449,736
2020	570,782
2021	1,017,703
2022	510,000
2024	688,854
	4,898,774

Considering the strong cash generation in recent quarters, the Management of the Company believed it was appropriate to advance the payment of dollar-denominated obligations, including liabilities designated for this hedge. As a result of the decision, the amount of US\$609,598 was discontinued prospectively (US\$402,325 for the period ended June 30, 2017). Exchange variation on the discontinued amount, of R\$771,222 (R\$495,860 for the period ended June 30, 2017), which is recorded under Shareholders' Equity as Other comprehensive income (OCI) will be taken to net financial income (expenses) as of July 2017, as the hedged exports are realized.

	Total nominal value US\$	Conversion rate at Inception R\$/US\$	Closing rate R\$/US\$	Gross nominal value
Hedge discontinued - Third quarter 2017	207,273	2.0017	3.3302	275,362
Hedge discontinued - Fourth quarter 2017	213,000	2.0017	3.1684	248,507
Hedge discontinued - First quarter 2018	189,325	2.0017	3.3082	247,353
	609,598			771,222

The following table provides the balances of exchange variation recognized in the Company's net financial income (expenses) due to the realization of exports designated for this hedge for the six-month period ended June 30, 2017:

	Total nominal value US\$	Conversion rate at Inception MXN/US\$	Closing rate MXN/US\$	Gross nominal value
First quarter	201,277	2.0017	3.2400	249,241

Total	8,389,269	7,892,347

(i) Investments approved by the Management of the Company, as permitted by the financial policy.

15.5.Sensitivity analysis

Financial instruments, including derivatives, may be subject to changes in their fair value as a result of the variation in commodity prices, foreign exchange rates, interest rates, shares and share indexes, price indexes and other variables. The sensitivity of the derivative and non-derivative financial instruments to these variables are presented below:

(a) Selection of risks

On June 30, 2017, the main risks that can affect the value of Braskem's financial instruments are:

Brazilian real/U.S. dollar exchange rate;

Brazilian real/Mexican peso exchange rate;

Libor floating interest rate;

Selic interest rate;

CDI interest rate; and

TJLP interest rate.

For the purposes of the risk sensitivity analysis, Braskem presents the exposures to currencies as if they were independent, that is, not reflecting in the exposure to a foreign exchange rate the risks of the variation in other foreign exchange rates that could be directly influenced by it.

Braskem S.A.

Notes to the unaudited condensed consolidated interim financial information

at June 30, 2017

All amounts in thousands, unless otherwise stated

(b) Value at risk

The value at risk of the derivatives held by Braskem which is defined as the loss that could result in one month as from June 30, 2017, with a probability of 5%, and under normal market conditions, was estimated by the Company at US\$28,144 for the NCE exchange rate swap (Note 15.2.1(a.ii)) and at US\$2,489 for put and call options (Note 15.2.1(a.i)) and null for the swap of Libor related to Braskem Idesa's project.

(c) Selection of scenarios

(c.1) Probable scenario

The Market Readout published by the Central Bank of Brazil was used to create the probable scenario for the U.S. dollar/Brazilian real exchange rate, Selic basic interest rate and the CDI interest rate, using the reference date of June 30, 2017. According to the Market Readout, at the end of 2017, the U.S. dollar will appreciate by 1.2% against the Brazilian real, compared to the closing PTAX rate at June 30, 2017, while the Selic rate will be 8.5% p.a. The Selic rate is used as a reference for analyses of sensitivity to the CDI.

The probable scenario for the TJLP is a decrease of 0.50% from the current rate of 7.0%, in line with the size of the government's most recent decisions to increase or decrease the rate. The Market Readout does not publish forecasts for the Libor interest rate. Therefore, to determine the probable scenario, Braskem considered a 5% increase on current market levels.

Braskem S.A.

	1,015,882	985,237

19.2. Claims with possible losses

The amount of claims and a description of the main claims with possible losses are presented in the financial statements for fiscal year 2016, in Note 23.2.

(a) Civil claims

In January 2017, the Company became defendant in a civil lawsuit filed by former reseller of solvents, claiming alleged breach of a tacit distribution agreement. On June 30, 2017, the damages claimed in the lawsuit amounted to R\$140 million.

Based on the opinion of external legal counsel accompanying the case, the Management believes that the lawsuit has a possible risk of loss within an eight-year period.

No judicial deposit or other form of security was made for these suits.

(b) Tax claims

In March 2017, the Company received a tax deficiency notice claiming that the methodology used to offset tax losses and tax loss carryforwards at Rio Polímeros failed to observe the limit of 30% of the Taxable Profit and Social Contribution calculation base when offsetting such liabilities with Income Tax and Social Contribution liabilities in its merger into Braskem Qpar S/A, in August 2013. On June 30, 2017, the restated value of the taxes recorded amounted to R\$247 million.

Braskem S.A.

Notes to the unaudited condensed consolidated interim financial information

at June 30, 2017

All amounts in thousands, unless otherwise stated

The Company's external legal advisors estimate that the administrative proceedings should be concluded by 2020.

Considering that the requirement to pay the tax liability has been suspended, currently no administrative, escrow or other type of guarantee deposit has been made for this proceeding.

19.3. Reports of irregularities and global settlement with authorities

Complete information on the reports of irregularities and on the global settlement with authorities was presented in Note 23.3 to the Company's annual financial statements for 2016.

(a) Global Settlement with authorities

The Leniency Agreement (Agreement) with the Federal Prosecution Office (MPF) and with U.S. and Swiss authorities (Global Settlement), in the approximate amount of US\$957 million (approximately R\$3.1 billion), were definitively ratifying in the following manner:

1. In Brazil, the Agreement was ratified by the 5th Coordination and Review Chamber of the MPF on December 15, 2016 and on June 6, 2017 by the Judge of the 13th Federal Court of Curitiba.
2. The agreement with U.S. Department of Justice (DoJ) was confirmed by sentence by the American justice on January 26, 2017.
3. The U.S. Securities and Exchange Commission (SEC) confirmed the agreement on February 28, 2017.
4. The agreement with Swiss authorities did not require ratification to produce effect.

Of the total amount of the Global Agreement, the Company has already paid approximately R\$1.3 billion in the following manner:

1. US\$94,894 (R\$296,591) to DoJ on February 8, 2017;

2. US\$65,000 (R\$206,460) to SEC on April 27, 2017;
3. CHF30,240 (R\$104,307) to the Office of the Attorney General of Switzerland on June 27, 2017;
4. R\$736,445 to MPF on July 6, 2017.

The outstanding amount of approximately R\$1.7 billion will be paid in the following manner:

1. CHF64,260 to the Office of the Attorney General of Switzerland in four equal annual and successive installments of CHF16,065 due on June 30 of each year as from 2018;
2. R\$1.5 billion to MPF in six annual installments adjusted for inflation by the variation in the IPCA inflation index due on January 30 of each year as from 2018. To guarantee payment of the installments coming due, Braskem offered fixed assets in an amount corresponding to one annual installment.

(b) Reimbursement for damages and other considerations

A significant portion of the total amount of R\$\$2.2 billion to be paid to MPF will be made available for use in reimbursing third parties for any damages caused by the wrongdoings.

Under the Agreement, the MPF undertook to coordinate actions with other authorities or government agencies with which Braskem comes to negotiate for entering into agreements involving the facts uncovered in connection with the Agreement, the public prosecution offices of states and cities in Brazil, state-owned companies and state-controlled companies for entering into similar agreements with such organizations, including for the purpose of preventing duplicate restitution with regard to the amount paid under the Agreement.

Braskem S.A.

Notes to the unaudited condensed consolidated interim financial information

at June 30, 2017

All amounts in thousands, unless otherwise stated

The Agreement does not prevent any third party from filing proceedings to seek reimbursement for any damages caused by Braskem, which could result in payments other than those provided for in the Agreement. Therefore, the Company cannot guarantee that the total amount available for reimbursement will be sufficient to fully reimburse any third parties affected by the wrongdoings, which means that the Company may be subject to the payment of damages or financial penalties other than those provided for in the Global Settlement.

With the exception of the amount mentioned above, as well as of the other non-monetary obligations imposed on the Company under the Global Settlement, it may have a material adverse effect on our business, reputation, financial condition, financial instruments and operational results, as well as on the liquidity and price of the securities of Braskem. Furthermore, the negative publicity resulting from the Global Settlement, could have a material adverse impact on our businesses, including reducing the demand for our products, our financial instruments and other effects that currently cannot be estimated or measured. In addition, other authorities with jurisdiction over our company may seek to impose additional monetary sanctions or fines or commence new investigations against us. Finally, as a result of the Global Settlement, the Company may be barred from entering into certain agreements with government authorities and may be subject to increased operating costs in connection with its obligations to improve its governance and anti-corruption practices, including the cost of the external monitorship.

It is not possible to predict the impacts on Braskem of others investigations or of any decision or action taken by authorities involving its largest shareholders, namely Odebrecht S.A. and Petróleo Brasileiro S.A. Petrobras, or any of their subsidiaries.

(d) Class action

On July 1, 2015, a putative class action lawsuit was filed against the Company and its certain of its current and former officers in the United States District Court for the Southern District of New York. In the operative complaint, the Lead Plaintiff, Boilermaker-Blacksmith National Pension Trust, alleges that the Defendants made misrepresentations or omissions that inflated the price of the Company's stock in violation of U.S. securities laws. The Company has engaged a U.S. law firm to represent it and filed motion to dismiss on July 6, 2016.

On March 31, 2017, the judge rendered a decision on the motion to dismiss granting it in part and denying it in part. With respect to the remaining claims, the class action is now in the discovery stage.

On August 29, 2017, the Lead Plaintiff, in agreement with the Company, has filed a letter requesting an amendment to the previously agreed schedule of the discovery, as the parties are currently engaged in settlement negotiations. Any definitive agreement that might be reached by the parties would be subject to a variety of conditions, including Court approval. The Company cannot foresee the outcome of this process, at this stage.

The Company may be named as a defendant in other legal actions. Furthermore, the Company may be required, in accordance with any applicable legal and regulatory limits, to indemnify directors, officers and employees that are defendants in the securities class action and any other related actions that may arise in the future. The litigation has required significant time and dedication of the Management of the Company and is expected to continue to require such time and attention in the future.

On September 14, 2017, the Company and the Lead Plaintiff in *In re Braskem Securities Litigation* (U.S. District Court for the Southern District of New York) have signed a proposed settlement agreement (Proposed Settlement) and submitted it to the mentioned Court for preliminary approval.

Braskem S.A.**Notes to the unaudited condensed consolidated interim financial information****at June 30, 2017****All amounts in thousands, unless otherwise stated**

Under the terms of the Proposed Settlement, Braskem would pay US\$10 million to resolve all claims of a settlement class consisting of purchasers of Braskem American Depositary Receipts (ADRs) traded on the New York Stock Exchange during the period of July 15, 2010 through March 11, 2015, that arise out of or relates to the subject matter of the Class Action, with the exception of any such claims belonging to purchasers who file valid and timely requests to opt out of the settlement class.

In accordance with IAS 37 (Provisions, Contingent Liabilities and Contingent Assets), the Company will record a provision in the amount of US\$10 million, equivalent to approximately R\$31 million, based on the fixed exchange rate of R\$3.13 to US\$1.00. The amount is deemed not material by management for the period ended June 30, 2017 and will be recognized in the statement of operations in the item Other income (expenses), net in the third quarter of 2017.

Braskem has made no admission of any wrongdoing or liability as part of the Proposed Settlement, and entered into the Proposed Settlement solely to avoid the risk, uncertainty, and expense of further litigation. The Proposed Settlement is subject to a number of conditions including Court approval.

20. Shareholders Equity

The information related to the Company's shareholders' equity was presented in its 2016 annual financial statements, in Note 26.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words anticipates, believes, estimates, expects, plans, similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
