Item 7.01. Regulation FD Disclosure

On June 13, 2018, RH (the Company) issued a press release announcing the pricing of \$300 million aggregate principal amount of 0.00% convertible notes due 2023. The Company has also granted the initial purchasers of the notes a 13-day option to purchase up to an additional \$50 million of the notes on the same terms and conditions, for a total potential offering size of up to \$350 million. The full text of the press release is furnished hereto as Exhibit 99.1.

As discussed in the attached press release, in connection with the offering of the notes, the Company entered into convertible note hedge and warrant transactions with several financial institutions (the hedge counterparties).

The Company has been advised that, in connection with establishing their initial hedge positions with respect to the convertible note hedge and warrant transactions, the hedge counterparties and/or their affiliates may purchase shares of the Company's common stock or enter into various derivative transactions with respect to the Company's common stock concurrently with, or shortly after, the pricing of the notes, including with certain investors in the notes. These hedging activities could increase (or reduce the size of any decrease in) the market price of the Company's common stock or the notes.

In addition, the hedge counterparties and/or their affiliates may modify any hedge positions (and are likely to do so during the conversion period related to any conversion of notes or following any repurchase of notes by the Company on any fundamental repurchase date or otherwise) by entering into or unwinding various derivatives with respect to the Company's common stock or purchasing or selling common stock or other securities of the Company in secondary market transactions following the pricing of the notes and prior to the maturity of the notes. These activities could also cause or avoid an increase or a decrease in the market price of the Company's common stock or the notes, which could affect a noteholder's ability to convert the notes and, to the extent the activity occurs during any observation period related to a conversion of the notes, it could affect the amount and value of the consideration that a noteholder will receive upon conversion of the notes.

The information furnished with this report, including Exhibit 99.1, shall not be deemed filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the Exchange Act), or otherwise subject to the liabilities of that section, nor shall it be deemed incorporated by reference into any other filing under the Securities Act of 1933, as amended, or the Exchange Act, except as expressly set forth by specific reference in such a filing.
