THE COMPANY

Northern Oil and Gas, Inc. is an independent energy company engaged in the acquisition, exploration, development and production of oil and natural gas properties, primarily in the Bakken and Three Forks formations within the Williston Basin in North Dakota and Montana. We believe the location, size and concentration of our acreage position in one of North America's leading unconventional oil-resource plays will provide drilling and development opportunities that result in significant long-term value. Our primary focus is oil exploration and production through non-operated working interests in wells drilled and completed in spacing units that include our acreage. As a non-operator, we are able to diversify our investment exposure by participating in a large number of gross wells, as well as entering into more project areas by partnering with numerous experienced operating partners. In addition, because we can elect to participate on a well-by-well basis, we believe we have increased flexibility in the timing and amount of our capital expenditures because we are not burdened with various contractual development agreements or a large operating support staff. Further, we are able to avoid exploratory costs incurred by many oil and gas producers.

Our executive offices are located at 601 Carlson Pkwy, Suite 990, Minnetonka, Minnesota 55305, and our telephone number is (952) 476-9800. Our website address is www.northernoil.com. The information contained on or accessible through our website is not part of this prospectus, other than the documents that we file with the SEC that are incorporated by reference into this prospectus.

RISK FACTORS

An investment in our securities involves risk. We urge you to carefully consider the risks and other information described under the caption "Risk Factors" included in Part I, Item 1A of our Annual Report on Form 10-K for the fiscal year ended December 31, 2017, as amended on April 27, 2018, which is incorporated herein by reference, and in other filings we make with the SEC. Any of the risks, as well as additional risks and uncertainties not currently known to us or that we currently deem immaterial, could materially and adversely affect our results of operations or financial condition.

DISCLOSURE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus, including the documents incorporated by reference, contains, and any prospectus supplement may contain forward-looking statements regarding future events and our future results that are subject to the safe harbors created under the Securities Act of 1933, as amended (the "Securities Act"), and the Exchange Act. All statements other than statements of historical facts included in this report regarding our financial position, business strategy, plans and objectives of management for future operations, industry conditions, and indebtedness covenant compliance are forward-looking statements. When used in this prospectus, forward-looking statements are generally accompanied by terms or phrases such as "estimate," "project," "predict," "believe," "expect," "anticipate," "target," "plan," "intend," "should," "may" or other words and similar expressions that convey the uncertainty of future events or outcomes. Items contemplating or making assumptions about actual or potential future sales, market size, collaborations, and trends or operating results also constitute such forward-looking statements.

Forward-looking statements involve inherent risks and uncertainties, and important factors (many of which are beyond our Company's control) that could cause actual results to differ materially from those set forth in the forward-looking statements, including the following: changes in crude oil and natural gas prices, the pace of drilling and completions activity on our properties, our ability to acquire additional development opportunities, changes in our reserves estimates or the value thereof, general economic or industry conditions, nationally and/or in the communities in which our company conducts business, changes in the interest rate environment, legislation or regulatory requirements, conditions of the securities markets, our ability to raise or access capital, changes in accounting principles, policies or guidelines, financial or political instability, acts of war or terrorism, and other economic, competitive, governmental, regulatory and technical factors affecting our company's operations, products and prices.

We have based any forward-looking statements on our current expectations and assumptions about future events. While our management considers these expectations and assumptions to be reasonable, they are inherently subject to significant business, economic, competitive, regulatory and other risks, contingencies and uncertainties, most of which are difficult to predict and many of which are beyond our control. Accordingly, results achieved may differ materially from expected results described in these statements. You should consider carefully the statements in the section entitled "Item 1A. Risk Factors" and other sections of our Annual Report on Form 10-K for the fiscal year ended December 31, 2017, as amended on April 27, 2018, as updated by subsequent reports we file with the SEC, which describe factors that could cause our actual results to differ from those set forth in the forward-looking statements. Forward-looking statements speak only as of the date they are made. Our Company does not undertake, and specifically disclaims, any obligation to update any forward-looking statements to reflect events or circumstances occurring after the date of such statements.

Table of Contents**RATIO OF EARNINGS TO FIXED CHARGES AND EARNINGS TO COMBINED FIXED CHARGES AND PREFERRED STOCK DIVIDENDS**

The following table sets forth the historical ratio of our earnings to our fixed charges for the periods indicated. As of the date of this prospectus, we have no preferred stock outstanding and accordingly, the ratio of earnings to combined fixed charges and preferred stock dividends is equal to the ratio of earnings to fixed charges and is not disclosed separately.

Year Ended December 31,					Three Months Ended
2013	2014	2015(1)	2016(1)	2017(1)	March 31, 2018
3.0x	6.6x	(18.7)x	(3.6)x	0.9x	1.1x

- (1) Earnings were insufficient to cover fixed charges by approximately \$10.9 million for the year ended December 31, 2017. Earnings were insufficient to cover fixed charges by approximately \$295.3 million and \$1,179.3 million for the years ended December 31, 2016 and 2015, respectively, due primarily to a non-cash impairment charge.

The ratio of earnings to fixed charges is calculated as follows:

$$\frac{\text{(earnings)}}{\text{(fixed charges)}}$$

For purposes of calculating the ratios, earnings consist of:

pre-tax income from continuing operations before adjustment for income or loss from equity investees;

fixed charges;

amortization of capitalized interest;

distributed income of equity investees;

our share of pre-tax losses of equity investees for which charges arising from guarantees are included in fixed charges;

minus capitalized interest;

minus preference security dividend requirements of consolidated subsidiaries; and

minus the noncontrolling interest in pre-tax income of subsidiaries that have not incurred fixed charges. For purposes of calculating the ratios, fixed charges consist of:

interest expensed and capitalized;

amortized premiums, discounts and capitalized expenses related to indebtedness;

an estimate of the interest portion of rental expense; and

preference security dividend requirements of consolidated subsidiaries.

DESCRIPTION OF CAPITAL STOCK

Introduction

In the discussion that follows, we have summarized selected provisions of our certificate of incorporation, our bylaws and the Delaware General Corporation Law (DGCL) relating to our capital stock. This summary is not complete. This discussion is qualified in its entirety by reference to our certificate of incorporation and bylaws, and to the applicable provisions of the DGCL. You should read the provisions of our certificate of incorporation, our bylaws and the DGCL as currently in effect for provisions that may be important to you. We have filed copies of our certificate of incorporation and bylaws with the SEC, and they are incorporated by reference as exhibits to the registration statement of which this prospectus forms a part. See Information We Incorporate By Reference.

Generally

Under our certificate of incorporation, we are authorized to issue up to 450,000,000 shares of common stock, par value \$0.001 per share, and up to 5,000,000 shares of preferred stock, par value \$0.001 per share.

Description of Common Stock

Each share of our common stock entitles its holder to one vote per share on all matters to be voted on by our shareholders. Except with respect to the election of directors or as otherwise required by law, all questions submitted to a vote of our shareholders are decided by the affirmative vote of the holders of the greater of (a) a majority of the voting power of the shares present and entitled to vote on that item of business or (b) a majority of the voting power of the minimum number of shares entitled to vote that would constitute a quorum for the transaction of business at a duly held meeting of shareholders. Directors are elected by a plurality of the voting power of the shares present and entitled to vote on the election of directors at a meeting at which a quorum is present, and our shareholders are not entitled to cumulate their votes for the election of directors.

Our common stock is not redeemable, does not have subscription or conversion rights and does not entitle holders of our common stock to any preemptive rights to subscribe for any shares of any class or series of our capital stock, or for any obligations convertible into shares of any class or series of our capital stock, whether now or hereafter authorized.

Holders of our common stock are entitled to receive equally, on a per share basis, such dividends and other distributions in cash, securities or other property of the Company legally available therefor. In the event of any liquidation, dissolution or winding up of the affairs of the Company, after payment or provision for payment of the Company's debts and subject to the rights of the holders of shares of any series of preferred stock upon such dissolution, liquidation or winding up, the holders of the shares of our common stock will be entitled to the remaining net assets of the Company to be distributed equally on a per share basis.

Our certificate of incorporation and bylaws contain provisions that could have the effect of delaying or deferring a change in control of the Company, including provisions that:

grant our board of directors discretion to create and issue preferred stock from time to time without shareholder approval;

provide that any vacancy on our board of directors may be filled only by the affirmative vote of a majority of the remaining directors then in office, and not by the shareholders; and

establish advance notice requirements for the shareholders to nominate candidates for election as directors at any meeting of shareholders or to present any other business for consideration at any meeting of shareholders.

As a Delaware corporation, we are subject to Section 203 of the DGCL. This provision provides that a corporation that is listed on a national securities exchange or that has more than 2,000 shareholders is not permitted to engage in a business combination with any interested shareholder, generally a person who owns 15% or more of the outstanding shares of a corporation's voting stock, for three years after the person became an interested shareholder, unless (a) before the person became an interested shareholder, the board of directors approved either the transaction resulting in a person becoming an interested shareholder or the business combination, (b) upon consummating the transaction which resulted in the person becoming an interested shareholder, the interested shareholder owned at least 85% of the voting stock of the corporation outstanding at the time the transaction commenced (excluding shares owned by persons who are both officers and directors of the corporation, and shares held by certain employee stock ownership plans), or (c) on or after the date the person becomes an interested shareholder, the business combination is approved by the board of directors and at an annual or special meeting of shareholders by the affirmative vote of at least 66-2/3% of the corporation's outstanding voting stock which is not owned by the interested shareholder.

Table of Contents

Under Section 203, the restrictions described above also do not apply to specific business combinations proposed by an interested shareholder following the announcement or notification of designated extraordinary transactions involving the corporation and a person who had not been an interested shareholder during the previous three years or who became an interested shareholder with the approval of a majority of the corporation's directors, if a majority of the directors who were directors prior to any person's becoming an interested shareholder during the previous three years, or were recommended for election or elected to succeed those directors by a majority of those directors, approve or do not oppose that extraordinary transaction.

Our common stock is listed on the NYSE American under the symbol NOG. The transfer agent and registrar for our common stock is Equiniti Trust Company.

Description of Preferred Stock

Our certificate of incorporation authorizes our board of directors to create and provide for the issuance of preferred stock without the approval of our shareholders. Our board of directors is authorized from time to time to provide for the issuance of shares of preferred stock in one or more series, setting forth the designation of each such series, and fixing the relative rights and preferences of each such series.

The transfer agent and registrar for a particular series of preferred stock will be set forth in an applicable prospectus supplement.

Limitation on Directors' Liability

Delaware law authorizes Delaware corporations to limit or eliminate the personal liability of their directors to them and their stockholders for monetary damages for breach of a director's fiduciary duty of care. The duty of care requires that, when acting on behalf of the corporation, directors must exercise an informed business judgment based on all material information reasonably available to them. Absent the limitations Delaware law authorizes, directors of Delaware corporations are accountable to those corporations and their stockholders for monetary damages for conduct constituting gross negligence in the exercise of their duty of care. Delaware law enables Delaware corporations to limit available relief to equitable remedies such as injunction or rescission. Our certificate of incorporation limits the liability of our directors to us and our stockholders to the fullest extent Delaware law permits. Specifically, no director will be personally liable for monetary damages for any breach of the director's fiduciary duty as a director, except for liability:

for any breach of the director's duty of loyalty to us or our stockholders;

for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law;

for unlawful payments of dividends or unlawful stock repurchases or redemptions as provided in Section 174 of the DGCL; and

for any transaction from which the director derived an improper personal benefit.

This provision could have the effect of reducing the likelihood of derivative litigation against our directors and may discourage or deter our stockholders or management from bringing a lawsuit against our directors for breach of their duty of care, even though such an action, if successful, might otherwise have benefited us and our stockholders.

DESCRIPTION OF NOTES

Brief Description of the Notes and Future Subsidiary Guarantees

The Notes. The Notes:

will be senior secured obligations of the company;

will rank equal in right of payment with all existing and future senior Debt of the company;

will rank effectively junior in right of payment to Debt under the First Lien Credit Agreement or the Credit Facility, to the extent of the value of the collateral securing such Debt;

will rank senior in right of payment to any future subordinated Debt of the company; and

will be unconditionally guaranteed by the Guarantors on a senior secured basis.

Future Subsidiary Guarantees. We do not have any Subsidiaries, and initially the Notes will not be guaranteed by any Person. Although there currently are no Guarantors, covenants described below may require any Subsidiary we form in the future to guarantee the payment obligations under the Notes. See Certain Covenants Additional Subsidiary Guarantees.

Each guarantee of the Notes, if any:

will be a senior secured obligation of the Guarantor;

will rank equal in right of payment with all existing and future senior Debt of that Guarantor;

will rank effectively junior in right of payment to Debt under the First Lien Credit Agreement or the Credit Facility, to the extent of the value of the collateral securing such Debt; and

will rank senior in right of payment to any future subordinated Debt of that Guarantor.

The Indenture will permit us and the Guarantors to incur certain additional Debt.

Future Subsidiaries of the company created or acquired by the company will be required to guarantee the Notes only under the circumstances described below under the subheading Certain Covenants Additional Collateral; Additional Guarantors.

Principal, Maturity and Interest

The company has issued Notes with a maximum aggregate principal amount of \$344.3 million. The Notes and any additional Notes subsequently issued under the Indenture will be treated as a single class for all purposes under the Indenture, including, without limitation, waivers, amendments, redemptions and offers to purchase. The company will issue Notes in minimum denominations of \$1.00 and integral multiples of \$1.00 in excess thereof. The Notes will mature on May 15, 2023.

Interest on the Notes accrues at the rate of 8.50% per annum (the Cash Interest Rate), commencing on July 1, 2018. Beginning on July 1, 2018, the company shall pay additional interest in kind at 1.00% per annum (the PIK Interest Rate) (in addition to the Cash Interest Rate) on the then outstanding principal amount of the Notes (a PIK Note Payment) by increasing the principal amount of the Notes or by issuing additional Notes (in each case, PIK Notes) in a principal amount equal to such interest (PIK Interest) on the applicable Interest Payment Date. Notwithstanding the foregoing, if the company delivers a PIK Interest Suspension Certificate to the trustee on or before the Compliance Certificate Due Date for the most recently ended Measurement Fiscal Quarter, the PIK Interest shall not accrue from the Interest Payment Date following the delivery of such PIK Interest Suspension Certificate through the Interest Payment Date following the Compliance Certificate Due Date for the immediately succeeding Measurement Fiscal Quarter; provided, however, if a PIK Interest Suspension Certificate is not delivered by such Compliance Certificate Due Date, PIK Interest shall immediately and automatically begin accruing on the then outstanding principal amount of the Notes on the next succeeding Interest Payment Date and shall continue to accrue until the next Interest Payment Date following the date on which a PIK Interest Suspension Certificate is delivered in compliance with Section 2.13 of the Indenture. The company will pay interest quarterly in arrears on January 1, April 1, July 1 and October 1 of each year, commencing July 1, 2018 (each an Interest Payment Date), and at Stated Maturity, the company will pay interest from the most recent date to which interest has been paid to the Stated Maturity date. Additionally, if the company incurs junior lien or unsecured debt with a cash interest rate in excess of 9.50%, the cash rate on the Notes will be increased by such excess. Interest on overdue principal and interest will accrue at a rate that is 3.00% higher than the then applicable interest rate on the Notes. The company will make each interest payment to the Holders of record on the immediately preceding December 15, March 15, June 15, and September 15.

Table of Contents

Interest on the Notes will accrue from May 15, 2018.

Interest will be computed on the basis of a 360-day year comprised of twelve 30-day months.

For avoidance of doubt, the PIK Interest shall be in addition to, and not in replacement of, the Cash Interest and shall be reinstated immediately from time to time in accordance with Section 2.13 of the Indenture.

Notwithstanding anything contained in the Indenture to the contrary, upon the occurrence and during the continuance of an Event of Default or such other event as provided in Section 2.12 or Section 6.01(d) of the Indenture, the rate at which Cash Interest on the Notes accrues shall increase by an additional 3.0% per annum in addition to any PIK Interest (the Default Rate).

If an Interest Payment Date falls on a day that is not a Business Day, the interest payment to be made on such interest payment date will be made on the next succeeding Business Day with the same force and effect as if made on such Interest Payment Date, and no additional interest will accrue solely as a result of such delayed payment.

Methods of Receiving Payments on the Notes

If a Holder has given wire transfer instructions to the company to be provided to the paying agent, the company, through its paying agent, will pay all principal, interest and premium, if any, on that Holder's Notes in accordance with those instructions. All other payments on the Notes will be made at the office or agency of the paying agent and registrar unless the company elects to make interest payments by check mailed to the Holders at their addresses set forth in the register of Holders.

Paying Agent and Registrar for the Notes

The trustee will initially act as paying agent and registrar. The company may change the paying agent or registrar without prior notice to the Holders, and the company or any of its Subsidiaries may act as paying agent or registrar.

Transfer and Exchange

A Holder may transfer or exchange Notes in accordance with the Indenture. The registrar and the trustee may require a Holder to furnish appropriate endorsements and transfer documents in connection with a transfer of Notes. No service charge will be imposed by the company, the trustee or the registrar for any registration of transfer or exchange of Notes, but Holders will be required to pay all Taxes due on transfer. The company is not required to transfer or exchange any Note selected for redemption. Also, the company is not required to transfer or exchange any Note for a period of 15 days before a selection of Notes to be redeemed.

Future Subsidiary Guarantees

We do not have any Subsidiaries, and initially the Notes will not be guaranteed by any Person. In the future, any Subsidiary formed or acquired by the company, if such Subsidiary guarantees or is primarily liable for any other debt for borrowed money of the company or any other Guarantor, will be required to guarantee the Notes under the circumstances described under Certain Covenants Additional Collateral; Additional Guarantors. These Subsidiary Guarantees will be joint and several obligations of the Guarantors. The obligations of each Guarantor under its Subsidiary Guarantee will be limited as necessary to prevent that Subsidiary Guarantee from constituting a fraudulent conveyance under Applicable Law, although this limitation may not be effective to prevent the Subsidiary Guarantees from being voided in bankruptcy.

A Guarantor may not sell or otherwise dispose of, in one or more related transactions, all or substantially all of its properties or assets to, or consolidate with or merge with or into (whether or not such Guarantor is the surviving Person), another Person, other than the company or another Guarantor, except as described under Certain Covenants Mergers, etc. .

Although there is a limited body of case law interpreting the phrase substantially all, there is no precise established definition of the phrase under Applicable Law. Accordingly, in certain circumstances there may be a degree of uncertainty as to whether a particular transaction would involve all or substantially all of the properties or assets of a Person.

The Subsidiary Guarantee of a Guarantor will be released:

- (1) in connection with any sale or other disposition of all or substantially all of the properties or assets of that Guarantor (including by way of merger or consolidation) to a Person that is not (either before or after giving effect to such transaction) the company or a Subsidiary of the company, if the sale or other disposition complies with the Sale of Properties provisions of the Indenture;

Table of Contents

- (2) in connection with any sale or other disposition of the Equity Interests of that Guarantor to a Person that is not (either before or after giving effect to such transaction) the company or a Subsidiary of the company, if the sale or other disposition complies with the Sale of Properties provisions of the Indenture and that Guarantor no longer qualifies as a Subsidiary of the company as a result of such disposition;
 - (3) upon Legal Defeasance or Covenant Defeasance as described below under the caption Legal Defeasance and Covenant Defeasance or upon satisfaction and discharge of the Indenture as described below under the caption Satisfaction and Discharge ;
 - (4) upon the liquidation or dissolution of such Guarantor provided no Default or Event of Default has occurred that is continuing;
 - (5) at such time as such Guarantor does not guarantee and is not primarily liable for any other Debt for borrowed money of the company or any other Guarantor; or
 - (6) upon such Guarantor consolidating with, merging into or transferring all of its properties or assets to the company or another Guarantor in a transaction complying with the provisions of the Indenture, and as a result of, or in connection with, such transaction such Guarantor dissolving or otherwise ceasing to exist.
- See Certain Covenants Sale of Properties.

Collateral

The Notes will be secured by a second-priority lien on substantially all of the company's and its Subsidiary Guarantors assets, subject to the exceptions set forth in the second lien security agreement, and junior to the liens securing the First Lien Credit Agreement. At the closing of the Notes, the trustee and the agent under the First Lien Credit Agreement entered into the Issue Date Intercreditor Agreement.

Optional Redemption

The company has the option to redeem the Notes, in whole or in part at any time, at the following redemption prices (and, following any acceleration of the Notes pursuant to the Indenture (including, without limitation, any such automatic acceleration in connection with a voluntary or involuntary insolvency proceeding under any bankruptcy law), the Notes shall be accelerated at a price and any Asset Sale Offer pursuant to the Indenture shall be at the following redemption prices) (in each case, expressed as percentages of principal amount) set forth below, plus accrued and unpaid interest on the Notes redeemed to, but excluding the applicable redemption date or acceleration date (subject to the right of Holders of record on the relevant record date to receive interest due on an Interest Payment Date that is on or prior to the redemption date or acceleration date): (i) from and after May 15, 2018 until May 15, 2021, 104.000%; (ii) on and after May 15, 2021 until May 15, 2022, 102.000%; and (iii) on and after May 15, 2022, 100.000% (the amount equal to the percentage in excess of 100% of the principal amount in the foregoing clauses (i) and (ii), the Applicable Premium); provided, that, any redemption of the Notes (or acceleration of the Notes) prior to May 15, 2020 shall also be accompanied by the Make Whole Premium (in addition to the Applicable Premium).

Selection and Notice

If less than all of the Notes are to be redeemed at any time, the trustee will select Notes for redemption as follows:

- (1) if the Notes are listed on any national securities exchange, in compliance with the requirements of the principal national securities exchange on which the Notes are listed; or
- (2) if the Notes are not listed on any national securities exchange, on a pro rata basis by lot, or such other method as acceptable to the trustee, subject to the authorized denomination for the Notes (or, in the case of Notes in global form, the trustee will select Notes for redemption based on DTC's method of selection).

The trustee will promptly notify the company in writing of the Notes selected for redemption and, in the case of any Note selected for partial redemption, the principal amount thereof to be redeemed. Notes and portions of Notes selected shall be in amounts of \$1.00 or whole multiples of \$1.00 in excess thereof; except that if all of the Notes of a Holder are to be redeemed, the entire outstanding amount of Notes held by such Holder, even if not in amounts of \$1.00 or a whole multiple of \$1.00, shall be redeemed.

The company will mail a notice of optional redemption at least 30 but not more than 60 days before the redemption date to each Holder of Notes to be redeemed at its registered address, except that optional redemption notices may be mailed more than 60 days prior to a redemption date if the notice is issued in connection with a defeasance of the Notes or a satisfaction and discharge of the Indenture. Notice of any redemption may, at the company's discretion, be subject to one or more conditions precedent.

Table of Contents

If any Note is to be redeemed in part only, the notice of redemption that relates to that Note will state the portion of the principal amount of that Note that is to be redeemed. A new Note in principal amount equal to the unredeemed portion of such Note will be issued in the name of the applicable Holder upon cancellation of such Note. Notes called for redemption become due on the date fixed for redemption, unless the redemption is subject to a condition precedent that is not satisfied or waived. On and after the redemption date, interest ceases to accrue on Notes or portions of them called for redemption, unless the company defaults in the payment of the redemption price.

Mandatory Redemption

Except as set forth below under **Repurchase at the Option of Holders**, the company is not required to make mandatory redemption or sinking fund payments with respect to the Notes or to repurchase the Notes at the option of the Holders.

Repurchase at the Option of Holders

Change of Control

See **Certain Covenants Offer to Repurchase Upon Change of Control**.

The company's ability to repurchase Notes pursuant to a Change of Control Offer may be restricted by the terms of any Credit Facility, and may be prohibited or otherwise limited by the terms of any then existing borrowing arrangements and the company's financial resources. The exercise by the Holders of Notes of their right to require the company to repurchase the Notes upon a Change of Control Offer could cause a default under these other agreements, even if the Change of Control itself does not, due to the financial effect of such repurchases on the company or otherwise. The First Lien Credit Agreement provides that certain change of control events with respect to the company would constitute an event of default thereunder, entitling the lenders, among other things, to accelerate the maturity of all Indebtedness outstanding thereunder. Any future credit agreements or other agreements relating to Indebtedness to which the company or any Guarantor becomes a party may contain similar restrictions and provisions.

Offer to Purchase by Application of Net Cash Proceeds

See **Certain Covenants Sale of Properties**.

In the event that, as set forth under the caption **Certain Covenants Sale of Properties**, the company shall be required to commence an offer to all Holders to purchase Notes (an **Asset Sale Offer**), it shall follow the procedures specified below.

The Asset Sale Offer shall remain open for a period of twenty (20) Business Days following its commencement and no longer, except to the extent that a longer period is required by Applicable Law (the **Offer Period**). No later than five (5) Business Days after the termination of the Offer Period (the **Settlement Date**), the company shall purchase and pay for the principal amount of Notes required to be purchased pursuant to Section 4.37(b) hereof (the **Offer Amount**) or, if less than the Offer Amount has been validly tendered (and not validly withdrawn), all Notes validly tendered (and not validly withdrawn) in response to the Asset Sale Offer. Payment for any Notes so purchased shall be made in the manner prescribed in the Notes.

Upon the commencement of an Asset Sale Offer, the company shall send, by first class mail, a notice to each of the Holders, with a copy to the Trustee. The notice shall contain all instructions and materials necessary to enable such Holders to tender Notes pursuant to the Asset Sale Offer. The Asset Sale Offer shall be made to all Holders. The notice, which shall govern the terms of the Asset Sale Offer, shall state:

- (a) that the Asset Sale Offer is being made pursuant to Section 3.09 and Section 4.37(b) of the Indenture and the length of time the Asset Sale Offer shall remain open, including the time and date the Asset Sale Offer will terminate (the Termination Date);
- (b) the Offer Amount and the purchase price, which shall include the Make Whole Premium and/or Applicable Premium, as applicable, in accordance with Section 3.07 of the Indenture;
- (c) that any Note not tendered or accepted for payment shall continue to accrue interest;
- (d) that, unless the company defaults in paying the offer amount, any Note accepted for payment pursuant to the Asset Sale Offer shall cease to accrue interest after the Settlement Date;

Table of Contents

- (e) that Holders electing to have a Note purchased pursuant to any Asset Sale Offer shall be required to surrender the Note, together with the form entitled *Option of Holder to Elect Purchase* on the reverse of the Note completed and such customary documents as the company may reasonably request, to the company or a Paying Agent at the address specified in the notice, before the Termination Date;
- (f) that Holders shall be entitled to withdraw their election if the company or the paying agent, as the case may be, receives, prior to the Termination Date, a telegram, facsimile transmission or letter setting forth the name of the Holder, the principal amount of the Note the Holder delivered for purchase, and a statement that such Holder is withdrawing his election to have such Note purchased;
- (g) that, if the aggregate principal amount of Notes surrendered by Holders surrendered by holders exceeds the amount the company is required to repurchase, the trustee shall select the Notes to be purchased on a pro rata basis on the basis of the aggregate principal amount of tendered Notes (with such adjustments as may be deemed appropriate by the company so that only Notes in minimum denominations of \$1.00, or integral multiples of \$1.00 in excess thereof; and
- (h) that Holders whose Notes were purchased only in part shall be issued new Notes equal in principal amount to the unpurchased portion of the Notes surrendered, which unpurchased portion must be equal to \$1.00 in principal amount or an integral multiple of \$1.00 in excess thereof.

Promptly after the Termination Date, the company shall, to the extent lawful, accept for payment Notes or portions thereof validly tendered (and not validly withdrawn) pursuant to the Asset Sale Offer in the aggregate principal amount required by Section 4.37(b) of the Indenture, and prior to the Settlement Date it shall deliver to the trustee an Officers Certificate stating that such Notes or portions thereof were accepted for payment by the company in accordance with the terms of Section 3.09 and Section 4.37(b) of the Indenture.

(b) If the company or any Guarantor Transfers Oil and Gas Properties (or any Equity Interests in any Guarantor owning such Oil and Gas Properties) or Liquidates any Swap Agreement (in each case, other than Transfers permitted under Section 4.37(a)(i), Section 4.37(a)(iii), Section 4.37(a)(v) or Section 4.37(a)(vi)) of the Indenture, then the company shall, subject to the prepayment provisions in the First Lien Credit Agreement or the Credit Facility and the reinvestment rights set forth in this clause (b), within ten (10) Business Days after such Transfer or Liquidation, make an Asset Sale Offer to all Holders of Notes to purchase the maximum principal amount of Notes that may be purchased from the Net Cash Proceeds received in excess of \$20,000,000 in respect of such Transfer or Liquidation. The offer price in any Asset Sale Offer will be equal to 100% of such Net Cash Proceeds in excess of \$20,000,000 and be comprised of principal amount *plus* accrued and unpaid interest thereon to the Settlement Date *plus* the Make Whole Premium and/or Applicable Premium, as applicable, subject to the right of Holders of record on the relevant record date to receive interest due on an Interest Payment Date that is on or prior to the Settlement Date, and will be payable in cash. Notwithstanding the foregoing, the company may, as long as no Default or Event of Default exists, within ten (10) Business Days after such Transfer or Liquidation, notify the trustee that it intends to reinvest such Net Cash Proceeds; provided that if no Default or Event of Default exists and the company notifies the trustee and the Holders that it plans to reinvest such Net Cash Proceeds in the acquisition or development of Oil and Gas Properties constituting Proved Reserves, then it shall do so within ninety (90) days after the date of such Transfer or Liquidation (provided that the execution of a binding AFE during such period shall be deemed to be a reinvestment so long as the amounts owed under such AFE are funded within 180 days after the date such AFE is executed); provided, further, that (A) if the company fails to make such reinvestment in such period, it shall make an Asset Sale Offer as provided in this clause (b) in an amount equal to the Net Cash Proceeds that were not so reinvested within ten (10) Business Days after the expiration of such ninety (90) day period (or, as applicable, after the expiration of the 180-day period following the execution of a binding AFE) and (B) in no event shall the aggregate amount of Net Cash Proceeds permitted to be reinvested exceed \$50,000,000 during the term of the Indenture. For the avoidance of doubt, the amount of any Net Cash Proceeds required to be applied as set forth in this section shall be reduced on a dollar-for-dollar basis to the extent that such Net Cash Proceeds are applied to satisfy any mandatory prepayment under the First Lien Credit Agreement or the Credit Facility.

The company will comply with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations thereunder to the extent those laws and regulations are applicable in connection with each repurchase of Notes pursuant to an Asset Sale Offer. To the extent that the provisions of any securities laws or regulations conflict with the provisions of Section 4.37 of the Indenture, the company will comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations under such provisions by virtue of such compliance.

Although there is a limited body of case law interpreting the phrase substantially all, there is no precise established definition of the phrase under applicable law. Accordingly, in certain circumstances there may be a degree of uncertainty as to whether a particular transaction would involve all or substantially all of the properties or assets of a Person.

Table of Contents***Environmental Matters***

The company will not, and will not permit any Subsidiary to, cause or permit any of its Property to be in violation of, or perform any action or permit any action which will subject any such Property to any Remedial Work under any Environmental Laws, assuming disclosure to the applicable Governmental Authority of all relevant facts, conditions and circumstances, if any, pertaining to such Property where such violations or remedial obligations could reasonably be expected to have a Material Adverse Effect.

The company will not, and will not permit any Subsidiary to, create or acquire any additional Subsidiary unless the company gives written notice to the trustee and Collateral Agent of such creation or acquisition and complies with Section 4.15(b) of the Indenture. The company shall not, and shall not permit any Subsidiary to, sell, assign or otherwise dispose of any Equity Interests in any Subsidiary except in compliance with Section 4.36 of the Indenture. Neither the company nor any Subsidiary shall have any Subsidiaries that are not organized under the laws of the United States of America or any state thereof or the District of Columbia. The company will not permit any Person other than a Note Party to own any Equity Interests in any Guarantor.

Negative Pledge Agreements; Dividend Restrictions

The company will not, and will not permit any Subsidiary to, create, incur, assume or suffer to exist any contract, agreement or understanding (other than the Indenture, the Security Documents, the First Lien Credit Documents, Swap Agreements, documents governing Permitted Junior Lien Debt or Capital Leases or purchase money loans creating Liens permitted by Section 4.28 of the Indenture or documents evidencing the Credit Facility) which in any way prohibits or restricts the granting, conveying, creation or imposition of any Lien on any of its Property in favor of the trustee, Collateral Agent and the Holders or restricts any Subsidiary from paying dividends or making distributions to any Note Party, or which requires the consent of or notice to other Persons in connection therewith.

Gas Imbalances, Take-or-Pay or Other Prepayments or Minimum Volume Contracts

The company will not, and will not permit any Subsidiary to, (a) allow gas imbalances, take-or-pay or other prepayments with respect to the Oil and Gas Properties of the company or any Subsidiary that would require the company or such Subsidiary to deliver Hydrocarbons at some future time without then or thereafter receiving full

into; and (b) Swap Agreements in respect of interest rates with an Approved Counterparty, as follows: (i) Swap Agreements effectively converting interest rates from fixed to floating, the notional amounts of which (when aggregated with all other Swap Agreements of the company and its Subsidiaries then in effect effectively converting interest rates from fixed to floating) do not exceed 50% of the then outstanding principal amount of the company's Debt for borrowed money which bears interest at a fixed rate and (ii) Swap Agreements effectively converting interest rates from floating to fixed, the notional amounts of which (when aggregated with all other Swap Agreements of the company and its Subsidiaries then in effect effectively converting interest rates from floating to fixed) do not exceed the greater of \$20,000,000 and 75% of the then outstanding principal amount of the company's Debt for borrowed money which bears interest at a floating rate. In no event shall any Swap Agreement contain any requirement, agreement or covenant for the company or any Subsidiary to post collateral or margin to secure their obligations under such Swap Agreement or to cover market exposures other than collateral provided for in, and upon the terms and conditions set forth in, the Indenture and the relevant Security Documents. No Note Party shall Liquidate any Swap Agreement in respect of commodities if (x) after giving pro forma effect thereto, the company would not be in compliance with Section 4.21 of the Indenture or the First Lien Financial Covenants to the extent then in effect under the First Lien Credit Agreement or the Credit Facility (and in connection with any such Liquidation, the company shall deliver an Officers' Certificate demonstrating such pro forma compliance), or (y) the aggregate proceeds received by the Note Parties in respect of such Liquidations in any 12-month period exceeds \$2,000,000. Notwithstanding anything to the contrary contained herein, in the event that the First Lien Agent or lenders under the Credit Facility grant an extension, waiver, amendment, or consent with respect to the company's obligations under Section 9.18 of the First Lien Credit Agreement, such waiver, amendment, consent, or extension shall be automatically applicable to Section 4.43 of the Indenture (without the need for further written modification to the Indenture).

The company will not, and will not permit any Guarantor to, open or otherwise establish, or deposit or otherwise transfer Dedicated Cash Receipts into, any Deposit Account other than Deposit Accounts (a) in which the Collateral Agent has been granted a Lien and (b) that are subject to an Account Control Agreement in favor of the Collateral Agent.

Sale and Leaseback

The company will not, and will not permit any Subsidiary or Guarantor to, enter into any arrangement, directly or indirectly, with any Person whereby the company or any Subsidiary or Guarantor shall sell or transfer any of its Property, whether now owned or hereafter acquired, and whereby company or any Subsidiary or Guarantor shall then or thereafter rent or lease as lessee such Property or any part thereof or other Property which company or any Subsidiary or Guarantor intends to use for substantially the same purpose or purposes as the Property sold or transferred.

Amendments to Organizational Documents and Fiscal Year

Without the prior written consent of the Majority Holders, neither company nor any Guarantor will (a) amend, or permit to be amended, its Organizational Documents or waive any right or obligation of any Person thereunder except to the extent such amendment or waiver could not reasonably be expected to adversely affect the rights and benefits of the trustee or the Holders in any material respect or (b) change its fiscal year to end on any day other than December 31.

Covenant Regarding Financing Facility

If the company or any Note Party incurs any Permitted Junior Lien Debt, unsecured Debt, Permitted Refinancing Debt of any of the foregoing or Permitted Refinancing Debt of all or part of the First Lien Credit Agreement or the Credit Facility or the Notes to the extent such Permitted Refinancing Debt is in the form of Permitted Junior Lien Debt or unsecured Debt or enters into any amendment, modification or supplement to any document evidencing Permitted Junior Lien Debt, the Existing Notes, unsecured Debt or any Permitted Refinancing Debt in respect of any of the foregoing and, in either case, such Debt then incurred or amended, modified or supplemented would have an aggregate cash interest rate in excess of 9.50% per annum (the amount above 9.50% per annum, the Excess), then such Excess shall be permitted hereunder if and only if, substantially contemporaneously therewith, the company and trustee amend or supplement the Indenture and Notes pursuant to Section 9.01(j) of the Indenture to provide an increase to the Cash Interest payable on the Notes equal to at least such Excess, which such increase shall be effective no later than the date of the incurrence of the Debt or the amendment, modification or supplement to the Debt giving rise such Excess.

Anti-Layering

Notwithstanding anything in the Indenture to the contrary, the company shall not incur, and shall not permit any Subsidiary to incur, any Debt that: (a) is secured on a subordinated or junior basis to the First Lien Credit Agreement or the Credit Facility and on a senior basis to the Note Documents (including, without limitation, any Debt subject to a so called one

and half lien or similar lien structure but excluding the Lien in favor of the trustee provided for under Section 7.07 of the Indenture) or (b) is contractually subordinated in right of payment to any Debt and not also contractually subordinated in right of payment to the Notes (including, without limitation, pursuant to the creation of any so called first-out or last-out tranche or similar tranching structures); *provided, however, that this provision shall not prohibit any Debt incurred pursuant to any Swap Agreement* permitted to be secured under Section 4.28 of the Indenture.

Events of Default and Remedies

An *Event of Default* occurs if one of the following shall have occurred and be continuing (whatever the reason for such Event of Default and whether it shall be involuntary or be effected by operation of law):

- (a) the company shall fail to pay any principal of any Note when and as the same shall become due and payable, whether at the due date thereof or at a date fixed for redemption or repurchase thereof, by acceleration or otherwise;
- (b) the company shall fail to pay any interest on any Note or any fee or any other amount (other than any amount referred to in Section 6.01(a) of the Indenture) payable under any Note Document, when and as the same shall become due and payable and such failure shall continue unremedied for a period of 20 days;
- (c) any representation or warranty made or deemed made by or on behalf of the company or any Subsidiary in or in connection with the Exchange Agreement and any Note Document or any amendment or modification of any Note Document or waiver under such Note Document, or in any report, certificate, financial statement or other document furnished by or on behalf of the company or any Subsidiary pursuant to or in connection with any Note Document or any amendment or modification thereof or waiver thereunder, shall prove to have been incorrect in any material respect when made or deemed made (provided that to the extent that any representation and warranty is qualified by materiality, material adverse effect or a similar qualification, such representation and warranty shall be true in all respects);
- (d) the company or any Subsidiary shall fail to observe or perform any covenant, condition or agreement contained in any of Sections 4.03(h), 4.03(l), 4.04, 4.05, 4.13, 4.14, 4.15, 4.18, 4.19, 4.21, 4.24, 4.25 or 4.26 or in any of Sections 4.27 through 4.48 of the Indenture and such failure shall continue unremedied for a period of thirty (30) days after the earlier to occur of (i) notice thereof from the trustee to the company or from the Holders of at least 25% of the aggregate principal amount of the Notes to the company and the trustee or (ii) an Officer of the company or such Subsidiary otherwise becoming aware of such default; provided, however, the rate at which Cash Interest on the Notes accrues shall increase to the Default Rate effective immediately upon such failure without giving effect to such thirty (30)-day grace period;
- (e) the company or any Subsidiary shall fail to observe or perform any covenant, condition or agreement contained in the Indenture (other than those specified in Section 6.01(a), Section 6.01(b) or Section 6.01(d) of the Indenture) or any other Note Document and such failure shall continue unremedied for a period of thirty (30) days after the earlier to occur of (i) notice thereof from the trustee to the company or from the Holders of at least 25% of the aggregate principal amount of the Notes to the company and the trustee or (ii) an Officer of the company or such Subsidiary otherwise becoming aware of such default;
- (f) the company or any Subsidiary shall fail to make any payment (whether of principal or interest and regardless of amount) in respect of any Material Indebtedness, when and as the same shall become due and payable (after giving effect to any applicable grace or cure periods);

(g) any event or condition occurs that results in (i) any Material Indebtedness becoming due prior to its scheduled maturity or that enables or permits (with or without the giving of notice, the lapse of time or both) the holder or holders of any Material Indebtedness or any trustee or agent on its or their behalf to cause any Material Indebtedness to become due, or to require the Redemption thereof or any offer to Redeem to be made in respect thereof, prior to its scheduled maturity or require the company or any Subsidiary to make an offer in respect thereof, (ii) an Event of Default under the First Lien Credit Agreement or any equivalent under any Credit Facility shall have occurred; *provided* that an Event of Default or equivalent resulting from a breach of the First Lien Financial Covenants or of Section 9.01(a) of the First Lien Credit Agreement (or any replacement financial covenants under any Credit Facility) to the extent then in effect under the First Lien Credit Agreement or the Credit Facility shall not constitute an Event of Default under Section 6.01(g)(ii) of the Indenture until (A) the loans or other obligations under the First Lien Credit Agreement or Credit Facility have been accelerated, (B) the First Lien Agent has commenced exercising remedies or (C) such Event of Default or equivalent has not been cured or waived under the terms of the First Lien Credit Agreement or Credit Facility, as applicable, within thirty (30) days after notice of the occurrence of such Event of Default or equivalent has been delivered by the company to the lenders under the First Lien Credit Agreement or Credit Facility (or was required to be delivered under the terms of the First Lien Credit Agreement or Credit Facility as in effect at such time);

Table of Contents

(h) an involuntary proceeding shall be commenced or an involuntary petition shall be filed seeking (i) liquidation, reorganization or other relief in respect of the company or any Guarantor or its debts, or of a substantial part of its assets, under any Federal, state or foreign bankruptcy, insolvency, receivership or similar law now or hereafter in effect or (ii) the appointment of a receiver, trustee, custodian, sequestrator, conservator or similar official for the company or any Guarantor or for a substantial part of its assets, and, in any such case, such proceeding or petition shall continue undismissed for sixty (60) days or an order or decree approving or ordering any of the foregoing shall be entered;

(i) the company or any Guarantor shall (i) voluntarily commence any proceeding or file any petition seeking liquidation, reorganization or other relief under any Federal, state or foreign bankruptcy, insolvency, receivership or similar law now or hereafter in effect, (ii) consent to the institution of, or fail to contest in a timely and appropriate manner, any proceeding or petition described in Section 6.01(h) of the Indenture, (iii) apply for or consent to the appointment of a receiver, trustee, custodian, sequestrator, conservator or similar official for the company or any Guarantor or for a substantial part of its assets, (iv) file an answer admitting the material allegations of a petition filed against it in any such proceeding, (v) make a general assignment for the benefit of creditors, (vi) any stockholder of the company shall make any request or take any action for the purpose of calling a meeting of the stockholders of the company to consider a resolution to dissolve and wind-up the company's affairs or (vii) take any action for the purpose of effecting any of the foregoing;

(j) the company or any Guarantor shall admit in writing its inability or fail generally to pay its debts as they become due;

(k) (i) one or more judgments for the payment of money in an aggregate amount in excess of \$2,000,000 (to the extent not covered by independent third party insurance provided by insurers of the highest claims paying rating or financial strength as to which the insurer does not dispute coverage and is not subject to an insolvency proceeding under any bankruptcy law) or (ii) any one or more non-monetary judgments that have, or could reasonably be expected to have, individually or in the aggregate, a Material Adverse Effect, shall be rendered against a Note Party or any combination thereof and, in either such case, the same shall remain undischarged for a period of forty-five (45) consecutive days during which execution shall not be effectively stayed, or any action shall be legally taken by a judgment creditor to attach or levy upon any assets of a Note Party to enforce any such judgment;

(l) the Note Documents after delivery thereof shall for any reason, except to the extent permitted by the terms thereof, cease to be in full force and effect and valid, binding and enforceable in accordance with their terms against the company or a Guarantor party thereto (or, in the case of any Intercreditor Agreement, against any party thereto other than the Collateral Agent) or shall be repudiated by any of them, or cease to create a valid and perfected Lien of the priority required thereby on any of the collateral purported to be covered thereby, except to the extent permitted by the terms of the Indenture, or a Note Party or any of their Affiliates shall so state in writing; and

(m) an ERISA Event shall have occurred that, when taken together with all other ERISA Events that have occurred, could reasonably be expected to result in a Material Adverse Effect.

If any Event of Default occurs and is continuing, the trustee, by written notice to the company, or the Holders of at least 25% in principal amount of outstanding Notes, by written notice to the company with a copy to the trustee, may declare all the Notes to be due and payable immediately. Upon any such declaration, the Notes shall become due and payable immediately, together with all accrued and unpaid interest and premium (including the Applicable Premium and Make Whole Premium), if any, thereon. Notwithstanding the preceding, if an Event of Default specified in clause (h) or (i) of Section 6.01 of the Indenture occurs with respect to the company or its Subsidiaries, all outstanding Notes shall become due and payable immediately without further action or notice, together with all accrued and unpaid

interest and premium (including the Applicable Premium and Make Whole Premium), if any, thereon. It is understood and agreed that in the event of an acceleration of all or any outstanding Notes pursuant to Article Six in respect of any Event of Default for any reason (including, but not limited to, an Event of Default specified in Section 6.01(h) and Section 6.01(i) of the Indenture or any insolvency proceeding under the bankruptcy law or otherwise), the Applicable Premium and Make Whole Premium with respect to the Notes shall become automatically and immediately due and payable as if such acceleration was an optional redemption made by the company pursuant to Section 3.07 of the Indenture, and the company will pay such premium (including the Applicable Premium and Make Whole Premium), if any, as compensation to the Holders for the loss of their investment opportunity and not as a penalty, whether or not an insolvency proceeding under any bankruptcy law has commenced, and (if an insolvency proceeding has commenced) without regard to whether such insolvency proceeding is voluntary or involuntary, or whether payment occurs pursuant to a motion, plan of reorganization, or otherwise, and without regard to whether the Notes and other Secured Obligations are satisfied or released by foreclosure (whether or not by power of judicial proceeding), deed in lieu of foreclosure or by any other means. The Holders of a majority in principal amount of the then outstanding Notes (subject to Section 2.09 of the Indenture) by notice to the trustee may on behalf of all of the Holders

Table of Contents

rescind an acceleration and its consequences if the rescission would not conflict with any judgment or decree and if all existing Events of Default (except with respect to nonpayment of principal, interest, premium (including the Applicable Premium and Make Whole Premium), if any, that have become due solely because of the acceleration) have been cured or waived.

If an Event of Default occurs and is continuing, the trustee may pursue any available remedy to collect the payment of principal of and interest, premium (including the Applicable Premium and Make Whole Premium), if any, on, the Notes or to enforce the performance of any provision of the Notes or the Indenture.

The Trustee may maintain a proceeding even if it does not possess any of the Notes or does not produce any of them in the proceeding. A delay or omission by the trustee, Collateral Agent or any Holder of a Note in exercising any right or remedy accruing upon an Event of Default shall not impair the right or remedy or constitute a waiver of or acquiescence in the Event of Default. All remedies are cumulative to the extent permitted by law.

Holders of a majority in principal amount of the then outstanding Notes (subject to Section 2.09 of the Indenture) by notice to the trustee may on behalf of the Holders of all of the Notes waive (including in connection with a purchase of, or tender offer or exchange offer for, Notes) any existing Default or Event of Default and its consequences hereunder, except a continuing Default or Event of Default in the payment of the principal of, or interest, premium, if any, on the Notes. Upon any such waiver, such Default shall cease to exist, and any Event of Default arising therefrom shall be deemed to have been cured for every purpose of the Indenture; but no such waiver shall extend to any subsequent or other Default or impair any right consequent thereon.

Holders of a majority in principal amount of the then outstanding Notes (subject to Section 2.09 of the Indenture) may direct the time, method and place of conducting any proceeding for exercising any remedy available to the trustee or exercising any trust or power conferred on it. However, the trustee may refuse to follow any direction that conflicts with law or the Indenture or that the trustee determines may be unduly prejudicial to the rights of other Holders of Notes or that may involve the Trustee in personal liability. Notwithstanding any provision to the contrary in the Indenture, the trustee is under no obligation to exercise any of its rights or powers under the Indenture at the direction or request of any Holder, unless such Holder shall offer to the trustee security and indemnity satisfactory to the trustee against any fee, loss, liability or expense.

No Personal Liability of Directors, Officers, Employees and Shareholders

No director, officer, partner, employee, incorporator, manager or shareholder or other owner of Equity Interests of the company or any Guarantor, as such, shall have any liability for any obligations of the company or any Guarantor under the Notes, the Subsidiary Guarantee or the Indenture, or for any claim based on, in respect of, or by reason of, such obligations or their creation. Each Holder of Notes by accepting a Note waives and releases all such liability. The waiver and release are part of the consideration for issuance of the Notes.

Legal Defeasance and Covenant Defeasance

The company may, at its option and at any time, elect to have all of its obligations discharged with respect to the outstanding Notes and all obligations of the Guarantors discharged with respect to their Subsidiary Guarantees (Legal Defeasance), except for:

- (a) the rights of Holders of outstanding Notes to receive payments in respect of the principal of, and interest or premium, if any, on such Notes when such payments are due from the trust referred to below;

- (b) the company's obligations with respect to the Notes concerning issuing temporary Notes, registration of Notes, mutilated, destroyed, lost or stolen Notes and the maintenance of an office or agency for payment and money for security payments held in trust;
- (c) the rights, powers, trusts, duties and immunities of the trustee, the company's and the Guarantors' obligations in connection therewith; and
- (d) the Legal Defeasance provisions of the Indenture.

In addition, the company may, at its option and at any time, elect to have its obligations released with respect to certain covenants that are described in the Indenture ("Covenant Defeasance"), and thereafter any omission to comply with those covenants will not constitute a Default or Event of Default with respect to the Notes. In the event Covenant Defeasance occurs, certain events described in Section 6.01(g) will no longer constitute an Event of Default with respect to the Notes. If the company exercises either its Legal Defeasance or Covenant Defeasance option, each Guarantor will be released and relieved of any obligations under its Subsidiary Guarantee and any security for the Notes (other than the trust) will be released.

Table of Contents

In order to exercise either Legal Defeasance or Covenant Defeasance:

(a) the company must irrevocably deposit with the Trustee, in trust, for the benefit of the Holders, cash in U.S. dollars, non-callable Government Securities, or a combination thereof, in such amounts as will be sufficient, in the opinion of a nationally recognized investment banking firm, appraisal firm or firm of independent public accountants, to pay the principal of, and interest, premium, if any, on, the outstanding Notes and all other Secured Obligations on the date of fixed maturity or on the applicable redemption date, as the case may be, and the company must specify whether the Notes are being defeased to the date of fixed maturity or to a particular redemption date;

(b) in the case of Legal Defeasance, the company must deliver to the trustee an opinion of counsel reasonably acceptable to the trustee confirming that:

(i) the company has received a ruling from, or a ruling has been published by, the Internal Revenue Service; or

(ii) since the Issue Date, there has been a change in the applicable United States federal income Tax law;

in either case to the effect that, and based thereon such opinion of counsel shall confirm that, the Holders of the outstanding Notes will not recognize income, gain or loss for United States federal income Tax purposes as a result of such Legal Defeasance and will be subject to United States federal income Tax on the same amounts, in the same manner and at the same times as would have been the case if such Legal Defeasance had not occurred;

(c) in the case of Covenant Defeasance, the company must deliver to the trustee an opinion of counsel reasonably acceptable to the trustee confirming that the Holders of the outstanding Notes will not recognize income, gain or loss for United States federal income Tax purposes as a result of such Covenant Defeasance and will be subject to United States federal income Tax on the same amounts, in the same manner and at the same times as would have been the case if such Covenant Defeasance had not occurred;

(d) no Default or Event of Default shall have occurred and be continuing on the date of such deposit (other than a Default or Event of Default resulting from the incurrence of Debt or other borrowing of funds or the grant of Liens securing such Debt or other borrowing, all or a portion of the proceeds of which will be applied to such deposit pursuant to Section 8.04 of the Indenture);

(e) such Legal Defeasance or Covenant Defeasance shall not result in a breach or violation of, or constitute a default under, any material agreement or instrument (other than the Indenture) to which the company or any of its Subsidiaries is a party or by which the company or any of its Subsidiaries is bound;

(f) the company shall deliver to the trustee a certificate of an Officer of the company stating that the deposit was not made by the company with the intent of preferring the Holders over the other creditors of the company or with the intent of defeating, hindering, delaying or defrauding creditors of the company or others; and

(g) company shall deliver to the trustee an Officers Certificate and an opinion of counsel, each stating that all conditions precedent relating to the Legal Defeasance or the Covenant Defeasance have been complied with.

However, without the consent of each Holder affected, an amendment, supplement or waiver may not (with respect to any Notes held by a non-consenting Holder):

- (a) reduce the principal amount of Notes whose Holders must consent to an amendment, supplement or waiver;
- (b) reduce the principal of or change the fixed maturity of any Note or alter any of the provisions with respect to the redemption or repurchase of the Notes (other than the provisions relating to the covenants in Sections 3.09, 4.25 and 4.37(b) of the Indenture);

- (c) reduce the rate of or change the time for payment of interest, including the Default Rate of interest, on any Note;
- (d) waive a Default or Event of Default in the payment of principal of, or interest, premium, if any, on, the Notes (except a rescission of acceleration of the Notes by the Holders of a majority in principal amount of the Notes and a waiver of the payment default that resulted from such acceleration);
- (e) make any Note payable in money other than that stated in the Notes;
- (f) make any change in the provisions of the Indenture relating to waivers of past Defaults or Events of Default or the rights of Holders of Notes to receive payments of principal of, or interest, premium, if any, on, the Notes (except as permitted in clause (g) below);

- (h) release any Guarantor from any of its obligations under its Subsidiary Guarantee or the Indenture, except in accordance with the terms of the Indenture; or
- (i) make any change in the preceding amendment, supplement and waiver provisions.

In addition, any amendment to, or waiver of, the provisions of the Indenture or any Security Document that has the effect of releasing all or substantially all of the Collateral from the Liens securing the Notes will require the consent of the Holders of at least 66 $\frac{2}{3}$ % in aggregate principal amount of the Notes then outstanding. The trustee and the Collateral Agent shall be fully protected in connection with the release of all or substantially all of the Collateral in relying upon an Officers Certificate and Opinion of Counsel to which it is entitled under Section 9.06 of the Indenture in connection with any such amendment.

Upon the request of the company accompanied by Board Resolutions authorizing their execution of any such amended or supplemental indenture, and upon the filing with the trustee of evidence satisfactory to the trustee of the consent of the Holders of Notes as aforesaid, and upon receipt by the trustee and Collateral Agent, as applicable, of the documents described in Section 9.06 of the Indenture, the trustee and Collateral Agent, as applicable, shall join with the company and the Guarantors in the execution of such amended or supplemental indenture or amendment or supplement to any Note Document, unless such amendment or supplement affects the trustee's or Collateral Agent's own rights, duties or immunities under the Indenture, the other Note Documents or otherwise, in which case the trustee and Collateral Agent, as applicable, may in its discretion, but shall not be obligated to, enter into such amendment or supplement.

It shall not be necessary for the consent of the Holders of Notes under Section 9.02 of the Indenture to approve the particular form of any proposed amendment, supplement or waiver, but it shall be sufficient if such consent approves the substance thereof.

After an amendment, supplement or waiver under Section 9.02 of the Indenture becomes effective, the company shall mail to the Holders of Notes affected thereby a notice briefly describing the amendment, supplement or waiver. Any failure of the company to mail such notice, or any defect therein, shall not, however, in any way impair or affect the validity of any such amended or supplemental indenture or waiver.

Without Consent of Holders of Notes

Notwithstanding the preceding, without the consent of any Holder of Notes, the company, the Guarantors and the trustee may amend or supplement the Indenture or the Notes:

- (a) to cure any ambiguity, defect or inconsistency;

- (i) to implement any amendment contemplated by Section 4.24(a)(iii), Section 4.29(b)(iii)(3) or Section 4.47 of the Indenture; or
- (j) with respect to the Security Documents, as provided in the Intercreditor Agreement.

In addition, without the consent of any Holder, the Intercreditor Agreement may be amended in accordance with its terms, including to add additional Debt as Priority Lien Debt (as defined in the Intercreditor Agreement) or Junior Lien Debt (as defined in the Intercreditor Agreement) and add other parties (or any authorized agent thereof or trustee thereof) holding such Debt thereto and to establish that the Liens on any Collateral securing such Debt shall rank equally with the Liens on such Collateral securing the other Priority Lien Debt (as defined in the Intercreditor Agreement) or Junior Lien Debt (as defined in the Intercreditor Agreement), as applicable, then outstanding.

Upon the request of the company, and upon receipt by the trustee and Collateral Agent, if applicable, of the documents described in Section 9.06 of the Indenture, the trustee and Collateral Agent, if applicable, shall join with the company and the Guarantors in the execution of any amended or supplemental indenture and amendment or supplement to any Note Documents authorized or permitted by the terms of Section 9.01 of the Indenture, but neither the trustee nor the Collateral Agent, as applicable, shall be obligated to enter into such amended or supplemental indenture or amendment or supplement to any Note Document that affects its own rights, duties or immunities under the Indenture, any Note Document or otherwise.

- (1) either:
 - (a) all Notes that have been authenticated, except lost, wrongfully taken or destroyed Notes that have been replaced or paid and Notes for whose payment money has been deposited in trust and thereafter repaid to the company, have been delivered to the trustee for cancellation, or

cancellation for principal, accrued interest, premium, (including, the Make Whole Premium and Applicable Premium) if any, and all other Secured Obligations to the date of fixed maturity or redemption.

(2) no Default or Event of Default has occurred and is continuing on the date of the deposit or will occur as a result of the deposit (other than a Default or Event of Default resulting from the incurrence of Debt or other borrowing of funds or the grant of Liens securing such Debt or other borrowing, all or a portion of the proceeds of which will be applied to such deposit) and the deposit will not result in a breach or violation of, or constitute a default under, any material agreement or instrument (other than the Indenture) to which the company or any of its Subsidiaries is a party or by which the company or any of its Subsidiaries is bound;

(3) the company and the Guarantors have paid or caused to be paid all other sums payable by them under the Indenture; and

(4) the company has delivered irrevocable instructions to the trustee to apply the deposited money toward the payment of the Notes at fixed maturity or the redemption date, as the case may be. In addition, the company must deliver an officers certificate and an opinion of counsel to the trustee stating that all conditions precedent to satisfaction and discharge have been satisfied.

Concerning the trustee

The trustee in its individual or any other capacity may become the owner or pledgee of Notes and may otherwise deal with the company, any Guarantor or any Affiliate of the company with the same rights it would have if it were not trustee. However, in the event that the trustee acquires any conflicting interest (as defined in the TIA) after a Default has occurred and is continuing, it must eliminate such conflict within ninety (90) days, apply to the SEC for permission to continue as trustee (if the indenture is then qualified under the TIA) or resign.

The Holders of a majority in principal amount of the then outstanding Notes will have the right to direct the time, method and place of conducting any proceeding for exercising any remedy available to the trustee, subject to certain exceptions. If an Event of Default occurs and is continuing, the trustee will be required, in the exercise of its powers, to use the degree of care of a prudent man in the conduct of his own affairs. The trustee will be under no obligation to exercise any of its rights or powers under the Indenture at the request of any Holder of Notes, unless such Holder has offered to the trustee security or indemnity satisfactory to it against any loss, liability or expense.

Governing Law

The Indenture, the Notes and the Subsidiary Guarantees will be governed by, and construed in accordance with, the laws of the State of New York.

Book-Entry, Delivery and Form

The Initial Notes are intended to be represented by unrestricted Notes that do not bear the legend set forth in Section 2.3(b)(i) of Exhibit 1 of the Indenture, which shall be issued initially in the form of one or more permanent global Notes in fully registered form without interest coupons with the global Notes legend set forth in Exhibit 1 attached to the Indenture (each, an Unrestricted Global Note), which shall be deposited on behalf of the Participating Holders represented thereby with the trustee, as Notes custodian for the Depository (or with such other custodian as the Depository may direct), and registered in the name of the Depository or a nominee of the Depository, duly executed by the company and authenticated by the trustee as hereinafter provided. If so determined by the company, Notes may be issued from time to time as Transfer Restricted Securities in reliance on Rule 144A (Rule 144A Notes) under the Securities Act (Rule 144A) or in reliance on Regulation S (Regulation S Notes) under the Securities Act (Regulation S). Such Transfer Restricted Securities shall be issued initially in the form of one or more permanent global Notes in fully registered form without interest coupons with the global Notes legend and Restricted Notes Legend set forth in Exhibit 1 attached to the Indenture (each, a Restricted Global Note), which shall be deposited on behalf of the purchasers of the Initial Notes represented thereby with the trustee, as Notes custodian for the Depository (or with such other custodian as the Depository may direct), and registered in the name of the Depository or a nominee of the Depository, duly executed by the company and authenticated by the trustee as hereinafter provided. Beneficial interests in any Unrestricted Global Note or Restricted Global Note may be held through Euroclear or Clearstream, as indirect participants in the Depository. The aggregate principal amount of the Global Notes may from time to time be increased or decreased by adjustments made on the records of the trustee and the Depository or its nominee as hereinafter provided. Initial Notes issued in global form (including any increases as the result of a PIK Payment), Unrestricted Global Notes and Restricted Global Notes are sometimes referred to in this Appendix as Global Notes.

Except as set forth in the Indenture, the Global Notes may not be transferred as a whole except by the Depository to a nominee of the Depository or by a nominee of the Depository to the Depository or another nominee of the Depository or by the Depository or any such nominee to a successor Depository or a nominee of such successor Depository. Beneficial interests in the Global Notes may not be exchanged for Notes in registered, certificated form (Certificated Notes) except in the limited circumstances described below. See Exchange of Global Notes for Certificated Notes. In addition, transfers of beneficial interests in the Global Notes will be subject to the applicable rules and procedures of DTC and its direct or indirect participants (including, if applicable, those of Euroclear and Clearstream), which may change from time to time.

Table of Contents

Exchange of Global Notes for Certificated Notes

A Global Note is exchangeable for Certificated Notes in minimum denominations of \$1.00 and in integral multiples of \$1.00 in excess thereof, if:

- (1) DTC (a) notifies the company that it is unwilling or unable to continue as depository for the Global Note or (b) has ceased to be a clearing agency registered under the Exchange Act and, in either event, the company fails to appoint a successor depository within 90 days;
- (2) the company, at its option, notifies the trustee in writing that it elects to cause the issuance of the Certificated Notes; or
- (3) there has occurred and is continuing an Event of Default and DTC notifies the trustee of its decision to exchange the Global Note for Certificated Notes.

Beneficial interests in a Global Note may also be exchanged for Certificated Notes in the other limited circumstances permitted by the Indenture, including if an Affiliate of the company acquires such interests. In all cases, Certificated Notes delivered in exchange for any Global Note or beneficial interests in Global Notes will be registered in the names, and issued in any approved denominations, requested by or on behalf of the depository (in accordance with its customary procedures).

Exchange of Certificated Notes for Global Notes

Certificated Notes may not be exchanged for beneficial interests in any Global Note, except in the limited circumstances provided in the Indenture.

Same Day Settlement and Payment

The company will make payments in respect of the Notes represented by the Global Notes (including principal, premium, if any, and interest) by wire transfer of immediately available funds to the accounts specified by the Global Note Holder. The company will make all payments of principal, interest and premium, if any, with respect to Certificated Notes by wire transfer of immediately available funds to the accounts specified by the Holders of the Certificated Notes or, if no such account is specified, by mailing a check to each such Holder's registered address.

The Notes represented by the Global Notes are eligible to trade in DTC's Same-Day Funds Settlement System, and any permitted secondary market trading activity in such Notes will, therefore, be required by DTC to be settled in immediately available funds. The company expects that secondary trading in any Certificated Notes will also be settled in immediately available funds.

Because of time zone differences, the securities account of a Euroclear or Clearstream participant purchasing an interest in a Global Note from a Participant will be credited, and any such crediting will be reported to the relevant Euroclear or Clearstream participant, during the securities settlement processing day (which must be a business day for Euroclear and Clearstream) immediately following the settlement date of DTC. DTC has advised us that cash received in Euroclear or Clearstream as a result of sales of interests in a Global Note by or through a Euroclear or Clearstream participant to a Participant will be received with value on the settlement date of DTC but will be available

in the relevant Euroclear or Clearstream cash account only as of the business day for Euroclear or Clearstream following DTC's settlement date.

Table of Contents**CERTAIN U.S. FEDERAL INCOME TAX CONSIDERATIONS****General**

The following is a summary of certain U.S. federal income tax considerations related to the ownership and disposition of our securities by a securityholder that acquires our common stock or Notes from a selling securityholder under this prospectus. This discussion assumes that a securityholder will hold our securities acquired from a selling securityholder as a capital asset within the meaning of Section 1221 of the Internal Revenue Code (the Code) (generally, for investment purposes). This summary does not address all aspects of U.S. federal income taxation that may be relevant to a particular investor in light of the investor's individual circumstances, and does not purport to be a complete analysis of all the potential tax considerations relating thereto. In addition, this discussion does not address (i) other U.S. federal tax laws, such as estate and gift tax laws, (ii) state, local or non-U.S. tax consequences, (iii) the special tax rules that may apply to certain investors, including, without limitation, banks, insurance companies, financial institutions, controlled foreign corporations, passive foreign investment companies, broker-dealers, grantor trusts, personal holding companies, taxpayers who have elected mark-to-market accounting, U.S. holders (as defined below) whose functional currency is not the U.S. dollar, tax-exempt entities, regulated investment companies, real estate investment trusts, entities or arrangements classified as partnerships for U.S. federal income tax purposes or other pass-through entities (or investors in such entities or arrangements), pension plans, or U.S. expatriates and former long-term residents of the United States, (iv) investors that participated in the Exchange Transaction, (v) the special tax rules that may apply to investors that acquire, hold, or dispose of our securities as part of a straddle, hedge, constructive sale, conversion or other integrated or risk reduction transaction, or (vi) the impact, if any, of the alternative minimum tax, the Medicare tax imposed on net investment income or Section 451(b) of the Code (as revised by the 2017 legislation known as the Tax Cuts and Jobs Act).

This summary is based on current provisions of the Code, applicable Treasury regulations promulgated thereunder, judicial opinions, and published rulings of the Internal Revenue Service (the IRS), all as in effect on the date of this prospectus and all of which are subject to differing interpretations or change, possibly with retroactive effect. We have not sought, and will not seek, any ruling from the IRS or any opinion of counsel with respect to the tax consequences discussed herein, and there can be no assurance that the IRS will not take a position contrary to the tax consequences discussed below or that any position taken by the IRS would not be sustained.

As used in this discussion, the term U.S. holder means a beneficial owner of our securities that is, for U.S. federal income tax purposes, (i) a citizen or individual resident of the United States, (ii) a corporation created or organized in the United States or under the laws of the United States or any state thereof or the District of Columbia, (iii) an estate the income of which is subject to U.S. federal income taxation regardless of its source, or (iv) a trust if (A) a court within the United States is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust, or (B) it has in effect a valid election under applicable Treasury regulations to be treated as a U.S. person. As used in this summary, the term non-U.S. holder means a beneficial owner of our securities that is, for U.S. federal income tax purposes, an individual, corporation, estate or trust that is not a U.S. person.

The tax treatment of a partnership (or any other entity or arrangement treated as a partnership for U.S. federal income tax purposes) and each partner thereof will generally depend upon the status and activities of the partnership and such partner. A securityholder that is treated as a partnership for U.S. federal income tax purposes or a partner in such partnership should consult its own tax advisor regarding the U.S. federal income tax consequences applicable to it and its partners of the ownership and disposition of our securities.

THIS DISCUSSION IS ONLY A SUMMARY OF CERTAIN U.S. FEDERAL INCOME TAX CONSIDERATIONS RELATED TO THE OWNERSHIP AND DISPOSITION OF OUR SECURITIES. IT IS NOT TAX ADVICE. EACH PROSPECTIVE INVESTOR SHOULD CONSULT ITS OWN TAX ADVISOR WITH RESPECT TO THE PARTICULAR TAX CONSEQUENCES OF THE OWNERSHIP AND DISPOSITION OF OUR SECURITIES, INCLUDING THE APPLICABILITY AND EFFECT OF ANY STATE, LOCAL, AND NON-U.S. TAX LAWS, AS WELL AS U.S. FEDERAL ESTATE AND GIFT TAX LAWS, THE TAX CONSEQUENCES OF THE TAX CUTS AND JOBS ACT AND ANY APPLICABLE TAX TREATY.

Certain U.S. Federal Income Tax Considerations For Non-U.S. Holders of Common Stock

The discussion contained herein (under **Certain U.S. Federal Income Tax Considerations For Non-U.S. Holders of Common Stock**) is a summary of certain U.S. federal income tax considerations related to the ownership and disposition of our common stock acquired under this prospectus by a non-U.S. holder. It does not address any tax considerations applicable to a holder of our common stock that is a U.S. holder.

Table of Contents***Distributions on Common Stock***

If we pay cash or distribute property to holders of shares of common stock, such distributions generally will constitute dividends for U.S. federal income tax purposes to the extent paid from our current or accumulated earnings and profits, as determined under U.S. federal income tax principles. Distributions in excess of current and accumulated earnings and profits will constitute a return of capital that will be applied against and reduce (but not below zero) the non-U.S. holder's adjusted tax basis in our common stock. Any remaining excess will be treated as gain from the sale or exchange of the common stock and will be treated as described under **Gain on Sale, Exchange or Other Taxable Disposition of Common Stock** below.

Dividends paid to a non-U.S. holder that are not effectively connected with the non-U.S. holder's conduct of a trade or business in the United States generally will be subject to withholding of U.S. federal income tax at a rate of 30% of the gross amount of the dividend or such lower rate as may be specified by an applicable income tax treaty.

A non-U.S. holder that wishes to claim the benefit of an applicable tax treaty withholding rate generally will be required to (i) duly complete and execute an IRS Form W-8BEN or an IRS Form W-8BEN-E (or any successor form of the foregoing) and certify under penalties of perjury that such holder is not a U.S. person and is eligible for the benefits of the applicable tax treaty or (ii) if our common stock is held through certain foreign intermediaries, satisfy the relevant certification requirements of applicable Treasury regulations. These forms may need to be periodically updated.

A non-U.S. holder eligible for a reduced rate of withholding of U.S. federal income tax pursuant to an income tax treaty may be able to obtain a refund of any excess amounts withheld by timely filing an appropriate claim for refund with the IRS. Non-U.S. holders should consult their own tax advisors regarding their entitlement to benefits under an applicable income tax treaty and the manner of claiming the benefits of such treaty (including, without limitation, the need to obtain a U.S. taxpayer identification number).

Dividends that are effectively connected with a non-U.S. holder's conduct of a trade or business in the United States (and, if required by an applicable income tax treaty, attributable to a permanent establishment or fixed base maintained by the non-U.S. holder in the United States) generally are subject to U.S. federal income tax on a net income basis at the U.S. federal income tax rates generally applicable to a U.S. holder and are not subject to withholding of U.S. federal income tax, provided that the non-U.S. holder establishes an exemption from such withholding by complying with certain certification and disclosure requirements (generally by providing a duly completed and executed IRS Form W-8ECI (or any successor form thereof)). Any such effectively connected dividends (and, if required, dividends attributable to a permanent establishment or fixed base maintained by such non-U.S. holder in the United States) received by a non-U.S. holder that is treated as a foreign corporation for U.S. federal income tax purposes may be subject to an additional branch profits tax at a 30% rate, or such lower rate as may be specified by an applicable income tax treaty.

Gain on Sale, Exchange or Other Taxable Disposition of Common Stock

Subject the discussions below under **FATCA** and **Information Reporting and Backup Withholding**, any gain recognized by a non-U.S. holder on a sale, exchange or other taxable disposition of our common stock generally will not be subject to U.S. federal income tax, unless:

(i) the gain is effectively connected with the conduct of a trade or business of the non-U.S. holder in the United States (and, if required by an applicable income tax treaty, is attributable to a permanent establishment or fixed base maintained by such non-U.S. holder in the United States),

(ii) the non-U.S. holder is an individual who is present in the United States for a period or periods aggregating 183 days or more in the taxable year of that disposition, and certain other conditions are met, or

(iii) we are or have been a United States real property holding corporation (a USRPHC) for U.S. federal income tax purposes at any time during the shorter of the five-year period ending on the date of disposition or the period that the non-U.S. holder held the common stock.

Table of Contents

Any gain recognized by a non-U.S. holder that is described in clause (i) above generally will be subject to U.S. federal income tax at the income tax rates generally applicable to a U.S. holder, and such non-U.S. holder will be required to file a U.S. federal income tax return. Any gain of a non-U.S. holder that is treated as a foreign corporation for U.S. federal income tax purposes that is described in clause (i) above may also be subject to an additional branch profits tax at a 30% rate, or such lower rate as may be specified by an applicable income tax treaty.

An individual non-U.S. holder that is described in clause (ii) above generally will be subject to a flat 30% tax (or a lower applicable tax treaty rate) on the U.S. source capital gain derived from the disposition, which may be offset by U.S. source capital losses during the taxable year of the disposition.

With respect to clause (iii) above, a U.S. corporation generally is a USRPHC if the fair market value of its U.S. real property interests equals or exceeds 50% of the sum of the fair market value of its worldwide real property interests plus its other assets used or held for use in a trade or business. Based on the nature of our business and the assets that we own, we expect that we currently are a USRPHC. Assuming we are a USRPHC, subject to the next sentence, a non-U.S. holder generally will be taxed on gain recognized on the sale, exchange or other taxable disposition of our common stock in the same manner as if such non-U.S. holder were a United States person and/or a 15% withholding tax will apply to the gross proceeds from the sale, exchange or other taxable disposition of our common stock (including a redemption treated as a sale or exchange for U.S. federal income tax purposes or a distribution treated as a return of capital, as described under *Distributions on Common Stock* above). However, if and so long as our common stock continues to be regularly traded on an established securities market, as defined by applicable Treasury regulations, the 15% withholding tax on gross proceeds will not apply and a non-U.S. holder generally will not be subject to U.S. federal income tax with respect to such gain as a result of us being or having been a USRPHC if such non-U.S. holder held, directly or constructively (by application of certain attribution rules), at all times during the shorter of the five-year period ending on the date of disposition or the non-U.S. holder's holding period for our common stock, 5% or less of our common stock. Our common stock is currently listed on the NYSE American and, although no assurance can be given, we expect that, for as long as our common stock continues to be so listed, the common stock will be treated as regularly traded on an established securities market.

Non-U.S. holders are urged to consult their own tax advisors regarding the potential applicability of these rules, as well as any income tax treaty in their particular circumstances.

Certain U.S. Federal Income Tax Considerations For Holders of Notes

The discussion contained herein (under *Certain U.S. Federal Income Tax Considerations For Holders of Notes*) is a summary of certain U.S. federal income tax considerations related to the ownership and disposition of our Notes acquired under this prospectus by a U.S. holder or a non-U.S. holder.

Certain Additional Payments

We generally may become obligated to make payments on the Notes in excess of stated interest and principal. For example, (i) in addition to stated interest payable in cash, we will become obligated to pay interest of 1.00% per annum in kind (*PIK Interest*) for so long as we do not demonstrate compliance with certain financial ratios, and (ii) a make-whole amount is payable in connection with certain prepayments and accelerations of the Notes. The obligation to make these payments may implicate the provisions of the Treasury regulations relating to contingent payment debt instruments, which, if applicable, would cause the timing, amount and character of a securityholder's income, gain or loss with respect to the Notes to be different from the consequences discussed herein. For purposes of determining whether a debt instrument is a contingent payment debt instrument, contingencies causing the payment of excess amounts may be ignored if (i) there is only a remote likelihood that any contingencies causing the payment of such

excess amounts will occur, (ii) such excess amounts, in the aggregate, are considered incidental and/or (iii) there is a single payment schedule that is significantly more likely than not to occur. Although the issue is not free from doubt, we intend to take the position that the possibility of paying excess amounts is remote, that such amounts are incidental or that there is a single payment schedule that is significantly more likely than not to occur, and therefore the Notes are not subject to the rules governing contingent payment debt instruments. Our treatment will be binding on all investors, except an investor that discloses its differing treatment in a statement attached to its timely filed U.S. federal income tax return for the taxable year during which the Note was acquired. Our treatment is not binding on the IRS, which may take a contrary position and treat the Notes as contingent payment debt instruments. The remainder of this discussion assumes that the Notes are not treated as contingent payment debt instruments. Investors are urged to consult their own tax advisors regarding the potential application to the Notes of the rules regarding contingent payment debt instruments and the consequences thereof.

Table of Contents**U.S. Holders***Taxation of Interest*

A U.S. holder will be required to recognize as ordinary income any qualified stated interest paid or accrued on the Notes, in accordance with such holder's regular method of tax accounting. Qualified stated interest generally is stated interest that is unconditionally payable in cash at least annually at a single fixed rate, and accordingly includes only the cash interest payable on the Notes and not any PIK Interest.

The Notes (together with shares of common stock) were originally issued to their initial holders pursuant to the Exchange Transaction in exchange for the Outstanding Notes in a transaction intended to be treated as a recapitalization under Section 368(a)(1)(E) of the Code. Under the applicable Treasury regulations, a debt instrument is considered to be traded on an established market or publicly traded if (i) an executed sale of such debt instrument occurs within the 31-day period ending fifteen days after the issue date and the sales price is reasonably available within a reasonable period of time after the sale, or (ii) at least one price quote (whether firm or indicative) is available within such 31-day period. The issue price of a debt instrument that is publicly traded is generally the fair market value of the debt instrument as determined by the trading price at the time of issuance. The Company intends to take the position that the Notes were publicly traded during the relevant period described above, and the remainder of this discussion therefore assumes that the Notes have an issue price equal to their fair market value on the issue date.

A note is issued with original issue discount (OID) for U.S. federal income tax purposes if its stated redemption price at maturity exceeds its issue price by more than a *de minimis* amount (generally, by at least 0.25% of the stated redemption price at maturity multiplied by the number of complete years to maturity). The stated redemption price at maturity of a debt instrument is the sum of all payments provided by the debt instrument other than qualified stated interest. As described above, PIK Interest is not qualified stated interest. Accordingly, the stated redemption price at maturity of the Notes includes not only their principal amount but also anticipated payments of PIK Interest. To the extent that the Notes were treated as issued to their initial holders at an issue price that was less than their stated redemption price at maturity of more than a *de minimis* amount, they would have OID for U.S. federal income tax purposes.

Subject to the exceptions described under Acquisition Premium and Amortizable Bond Premium below, a U.S. holder would be required to include in gross income periodically over the term of the Notes any OID equal to the difference between the adjusted issue price of the Notes and their stated redemption price at maturity (including increases in the principal amount of the Notes attributable to the accrual of PIK Interest), before receipt of the cash or other payment attributable to such income and regardless of the U.S. holder's regular method of tax accounting.

The OID that a U.S. holder would be required to include in gross income as it accrues would be the sum of the daily portions of OID with respect to the note for each day during the taxable year or portion of a taxable year on which such U.S. holder holds the note. The daily portion is determined by allocating to each day of an accrual period a pro rata portion of an amount equal to (a) the adjusted issue price of the note at the beginning of the accrual period multiplied by the yield to maturity of the note (determined on the basis of compounding at the close of each accrual period and properly adjusted for the length of the accrual period), less (b) the qualified stated interest allocable to the accrual period. The accrual period of a note may be of any length a U.S. holder chooses and may vary in length over the term of the note, provided that each accrual period is no longer than one year and each scheduled payment of principal or interest occurs either on the final day of an accrual period or on the first day of an accrual period. The adjusted issue price of a Note at the beginning of any accrual period would be the issue price of such note, increased by the amount of accrued OID for each prior accrual period and decreased by the amount of any payments previously made on such note that were not qualified stated interest payments. Under these rules, a U.S. holder would be required

to include in gross income increasingly greater amounts of OID in each successive accrual period. Any amount included in income as OID would increase the U.S. holder's basis in the note.

Market Discount

If a U.S. holder acquires a Note other than in connection with its original issue at a price that is less than its adjusted issue price as of the purchase date (or issue price if the notes were not issued with OID), the amount of such difference is treated as market discount for U.S. federal income tax purposes, unless such difference is less than a statutory *de minimis* amount. Market discount accrues in addition to OID, if any. However, in contrast to OID, a U.S. holder generally is not required to include market discount in income periodically over the term of the notes before receipt of the cash or other payment attributable to such income. Instead, upon the sale, exchange or other taxable disposition of a note, any gain

Table of Contents

recognized is required to be treated as ordinary income to the extent of the accrued market discount that has not previously been included in income. If a U.S. holder disposes of a note that has accrued market discount in a nonrecognition transaction in which the U.S. holder receives property the basis of which is determined in whole or in part by reference to the basis of the note, the accrued market discount generally is includible in income at the time of such transaction only to the extent of the gain recognized. To the extent not included in income at the time of the nonrecognition transaction, the accrued market discount attaches to the property received and is recognized as ordinary income upon the disposition of such property. In general, the amount of market discount that has accrued is determined on a ratable basis, by allocating an equal amount of market discount to each day of every accrual period. A U.S. holder may, however, elect to determine the amount of accrued market discount allocable to any accrual period under the constant yield method. Any such election applies on a note-by-note basis and is irrevocable. A U.S. holder also may elect to include market discount in income currently as it accrues. Any such election applies to all debt instruments acquired by the U.S. holder on or after the first day of the first taxable year to which the election applies, and is irrevocable without the consent of the IRS. If such an election is made, the U.S. Holder's tax basis in the Notes will be increased by the amount of market discount included in income. Unless a U.S. holder elects to include market discount in income as it accrues, such U.S. holder may not be allowed to deduct on a current basis a portion of the interest expense on any indebtedness incurred or continued to purchase or carry Notes with market discount.

Acquisition Premium and Amortizable Bond Premium

If the Notes were issued with OID and a U.S. holder purchases a Note at a price that exceeds its adjusted issue price as of the purchase date, then the amount of such excess, referred to as *acquisition premium* for U.S. federal income tax purposes, would reduce the amount of OID that the U.S. holder would be required to include in income. If a U.S. Holder purchases a Note at a price that exceeds the stated redemption price at maturity of the note, the amount of such excess is referred to as *bond premium* for U.S. federal income tax purposes. The U.S. holder would not be required to include any OID in income, and may elect to amortize the bond premium against interest payable on the note. In addition, any bond premium in excess of interest payable on the note may be deductible over the term of the note. If a U.S. holder elects to amortize bond premium, the amount of bond premium allocable to each period will be based on a constant yield to maturity over the period the note is held. The amortized bond premium would reduce the U.S. holder's tax basis in the note. Any such election applies to all fully taxable bonds held by the U.S. holder at the beginning of the first taxable year to which the election applies, and all fully taxable bonds acquired thereafter, and is irrevocable without the consent of the IRS. If the election is not made, a U.S. holder must include in income the full amount of any interest as it accrues or is paid, and premium will not be taken into account until principal payments are received on the note or the note is sold or otherwise disposed of.

Gain on Sale, Exchange or Other Taxable Disposition of the Notes

A U.S. holder generally will recognize gain or loss if the holder disposes of a Note in a sale, exchange or other taxable disposition. The U.S. holder's gain or loss generally will equal the difference between the proceeds received by the holder (other than amounts attributable to accrued but unpaid interest) and the holder's tax basis in the note. The U.S. holder's tax basis in the note generally will equal the amount the holder paid for the note, increased by any OID or market discount previously included in income, and decreased by any amortized bond premium. The portion of any proceeds that is attributable to accrued interest will not be taken into account in computing the U.S. holder's capital gain or loss. Instead, that portion will be recognized as ordinary interest income to the extent that the U.S. holder has not previously included the accrued interest in income. Except as discussed above with respect to market discount, the gain or loss recognized by a U.S. holder on a disposition of the note generally will be capital gain or loss, and will be long-term capital gain or loss if the holder has held the note for more than one year. Long-term capital gains of non-corporate taxpayers currently are taxed at preferential rates. The deductibility of capital losses is subject to limitation.

Non-U.S. Holders

Taxation of Interest

Subject to the discussion below under **Income or Gains Effectively Connected with a U.S. Trade or Business**, payments of interest (including payments attributable to OID, if any) to non-U.S. holders are generally subject to U.S. federal income tax at a rate of 30% (or a reduced or zero rate under the terms of an applicable income tax treaty between the United States and the recipient's country of residence), collected by means of withholding by the payor. Payments of interest (including payments attributable to OID, if any) on the Notes to most non-U.S. holders, however, will qualify as **portfolio interest**, and thus will be exempt from U.S. federal income tax, including withholding of such tax (subject to the discussions below under **FATCA** and **Information Reporting and Backup Withholding**) if the non-U.S. holders certify their

Table of Contents

nonresident status as described below. The portfolio interest exemption will not apply to payments of interest to a non-U.S. holder that owns, actually or constructively, shares of our stock representing at least 10% of the total combined voting power of all classes of our stock entitled to vote.

The portfolio interest exemption, reduction of the withholding rate pursuant to the terms of an applicable income tax treaty and several of the special rules for non-U.S. holders described below apply only if the holder certifies its nonresident status. A non-U.S. holder can meet this certification requirement by providing a properly executed IRS Form W-8BEN or IRS Form W-8BEN-E (or other appropriate IRS Form W-8) to the paying agent prior to the payment. If the non-U.S. holder holds the Note through a financial institution or other agent acting on the holder's behalf, the holder will be required to provide appropriate documentation to the agent. The non-U.S. holder's agent will then be required to provide certification to the paying agent, either directly or through other intermediaries.

Sale, Exchange or Other Taxable Disposition of Notes

Subject to the discussions below under **FATCA** and **Information Reporting and Backup Withholding**, non-U.S. holders generally will not be subject to U.S. federal income or withholding tax on any gain realized on the sale, exchange or other taxable disposition of Notes (other than with respect to payments attributable to accrued interest or OID, if any, which will be taxed as described under **Taxation of Interest** above). This general rule, however, is subject to several exceptions. For example, the gain would be subject to U.S. federal income tax if:

(i) the gain is effectively connected with the conduct of a trade or business of the non-U.S. holder in the United States (and, if required by an applicable income tax treaty, is attributable to a permanent establishment or fixed base maintained by such non-U.S. holder in the United States), in which case it would be subject to tax as described below under **Income or Gains Effectively Connected with a U.S. Trade or Business**, or

(ii) the non-U.S. holder is an individual who is present in the United States for a period or periods aggregating 183 days or more in the taxable year of that disposition, and certain other conditions are met, in which case the gain generally will be subject to a flat 30% tax (or a lower applicable tax treaty rate) on the U.S. source capital gain derived from the disposition, which may be offset by U.S. source capital losses during the taxable year of the disposition.

Income or Gains Effectively Connected With a U.S. Trade or Business

The preceding discussion of the U.S. federal income and withholding tax considerations of the purchase, ownership or disposition of Notes by a non-U.S. holder assumes that the holder is not engaged in a U.S. trade or business. If any interest or OID (if any) on the notes or gain from the sale, exchange or other taxable disposition of the notes is effectively connected with a U.S. trade or business conducted by the non-U.S. holder, then the income or gain will be subject to U.S. federal income tax on a net income basis at the regular graduated rates and in the same manner applicable to U.S. holders. If the non-U.S. holder is eligible for the benefits of a tax treaty between the United States and the holder's country of residence, any effectively connected income or gain generally will be subject to U.S. federal income tax only if it is also attributable to a permanent establishment or fixed base maintained by the holder in the United States. Payments of interest (including payments attributable to OID, if any) that are effectively connected with a U.S. trade or business (and, if a tax treaty applies, attributable to a permanent establishment or fixed base maintained by such non-U.S. holder in the United States), and therefore included in the gross income of a non-U.S. holder, will not be subject to 30% withholding, provided that the holder claims exemption from withholding by timely filing a properly completed and executed IRS Form W-8ECI, or any successor form as the IRS designates, as applicable, prior to the payment. If the non-U.S. holder is a corporation (including for this purpose any entity treated as a corporation for U.S. federal income tax purposes), that portion of its earnings and profits that is effectively connected with its U.S. trade or business generally also would be subject to a branch profits tax. The branch profits tax

rate is generally 30%, although an applicable income tax treaty might provide for a lower rate.

Information Reporting and Backup Withholding

We generally must report annually to the IRS and to each holder of our securities the amount of interest (including OID, if any) and dividends paid to such holder, the tax, if any, withheld with respect to such interest or dividends, and such holder's name and address. Copies of the information returns reporting interest or dividends and withholding taxes may also be made available to the tax authorities in the country in which holder is a resident under the provisions of an applicable income tax treaty or agreement. Information reporting also is generally required with respect to the proceeds from sales and other dispositions of our securities to or through the U.S. office (and, in certain cases, the foreign office) of a broker, unless the holder establishes that it is not a U.S. person.

Table of Contents

Treasury regulations require backup withholding of U.S. federal income tax, currently at a rate of 24%, on reportable payments with respect to our securities to any U.S. holder that is not an exempt recipient (such as a corporation that properly establishes its exemption), unless the U.S. holder provides its taxpayer identification number to the paying agent and certifies, under penalties of perjury, that it is not subject to backup withholding (generally, on an IRS Form W-9) and otherwise complies with the applicable requirements of the backup withholding rules. A non-U.S. holder generally may eliminate the requirement for backup withholding by providing certification of its foreign status, under penalties of perjury, on a duly completed and executed IRS Form W-8BEN, IRS Form W-8BEN-E, or other applicable IRS Form W-8 (or any successor form of the foregoing) or by otherwise establishing an exemption. Backup withholding is not an additional tax. Rather, the amount of any backup withholding will be allowed as a credit against a securityholder's U.S. federal income tax liability, if any, and may entitle such securityholder to a refund, provided that certain required information is timely furnished to the IRS. Securityholders are urged to consult their own tax advisors regarding the application of backup withholding and the availability of and procedure for obtaining an exemption from backup withholding in their particular circumstances.

FIRPTA

As discussed above under "Certain U.S. Federal Income Tax Considerations For Non-U.S. Holders of Common Stock Gain on Sale, Exchange or Other Taxable Disposition of Common Stock," we expect that we currently are a USRPHC. Assuming we are a USRPHC, subject to the next sentence, a 15% withholding tax (FIRPTA withholding) could apply to the gross proceeds payable by certain selling securityholders disposing of their common stock under this prospectus. FIRPTA withholding will not apply, however, if and so long as our common stock continues to be regularly traded on an established securities market, as defined by applicable Treasury regulations. Our common stock is currently listed on the NYSE American and, although no assurance can be given, we expect that, for as long as our common stock continues to be so listed, the common stock will be treated as regularly traded on an established securities market.

FATCA

Sections 1471 through 1474 of the Code and Treasury regulations thereunder, commonly referred to as FATCA, generally impose a U.S. federal withholding tax of 30% on certain types of payments, including payments of U.S.-source interest (including OID, if any), such as interest paid on our Notes, and U.S.-source dividends, including dividends, if any, paid on our common stock (and, beginning January 1, 2019, payments of gross proceeds from the sale or other disposition of certain securities producing such U.S.-source interest or dividends such as our Notes and our common stock) made to (i) foreign financial institutions unless they agree to collect and disclose to the IRS information regarding their direct and indirect U.S. account holders and (ii) certain non-financial foreign entities unless they certify certain information regarding their direct and indirect U.S. owners. Foreign financial institutions located in jurisdictions that have an intergovernmental agreement with the United States governing FATCA may be subject to different rules.

We will not pay any additional amounts to securityholders in respect of any amounts withheld, including pursuant to FATCA. Under certain circumstances, a securityholder may be eligible for refunds or credits of such taxes. Securityholders are urged to consult with their own tax advisors regarding the effect, if any, of the FATCA provisions on them based on their particular circumstances.

PLAN OF DISTRIBUTION

We are registering 108,806,414 shares of common stock and up to \$264,054,835 aggregate principal amount of Notes to permit the resale of these securities by the selling securityholders from time to time after the date of this prospectus. The securities covered by this prospectus may be offered and sold from time to time by the selling securityholders or the selling securityholders' pledgees, donees, transferees or other successors-in-interest who have received, after the date of this prospectus and from the selling securityholders, shares as a gift, pledge, partnership distribution or other non-sale related transfer. The selling securityholders will act independently of us in making decisions with respect to the timing, manner and size of each sale. Such sales may be made on one or more exchanges or in the over-the-counter market or otherwise, at prices and under terms then prevailing or at prices related to the then current market price or in privately negotiated transactions. The selling securityholders may sell their securities by one or more of, or a combination of, the following methods:

purchases by a broker-dealer as principal and resale by such broker-dealer for its own account pursuant to this prospectus;

ordinary brokerage transactions and transactions in which the broker solicits purchasers;

block trades in which the broker-dealer so engaged will attempt to sell the securities as agent but may position and resell a portion of the block as principal to facilitate the transaction;

a transaction on any exchange or in the over-the-counter market;

in privately negotiated transactions;

through one or more underwriters on a firm commitment or best-efforts basis;

in options transactions, including through the writing of put or call options (whether those options are listed on an options exchange or otherwise) relating to the securities offered by this prospectus, or the short sales of the offered securities; or

any combination of the foregoing, or any other method permitted pursuant to applicable law.

In addition, any securities that qualify for sale pursuant to Rule 144 may be sold under Rule 144 rather than pursuant to this prospectus.

To the extent required, this prospectus may be amended or supplemented from time to time to describe a specific plan of distribution. In connection with distributions of the securities or otherwise, the selling securityholders may enter into hedging transactions with broker-dealers or other financial institutions. In connection with such transactions, broker-dealers or other financial institutions may engage in short sales of the securities in the course of hedging the

positions they assume with the selling securityholders. The selling securityholders may also sell the securities short and redeliver the securities to close out such short positions. The selling securityholders may also enter into option or other transactions with broker-dealers or other financial institutions that require the delivery to such broker-dealer or other financial institution of securities offered by this prospectus, which securities such broker-dealer or other financial institution may resell pursuant to this prospectus (as supplemented or amended to reflect such transaction).

The selling securityholders may also pledge securities to a broker-dealer or other financial institution, and, upon a default, such broker-dealer or other financial institution, may affect sales of the pledged securities pursuant to this prospectus (as supplemented or amended to reflect such transaction). In effecting sales, broker-dealers or agents engaged by the selling securityholders may arrange for other broker-dealers to participate. Broker-dealers or their agents may receive commissions, discounts or concessions from the selling securityholders in amounts to be negotiated immediately prior to the sale.

In offering the securities covered by this prospectus, the selling securityholders and any broker-dealers who execute sales for the selling securityholders may be deemed to be underwriters within the meaning of the Securities Act in connection with such sales. Any profits realized by the selling securityholders and the compensation of any broker-dealer may be deemed to be underwriting discounts and commissions under the Securities Act. To the extent the selling securityholders may be deemed to be underwriters, the selling securityholders will be subject to the prospectus delivery requirements of the Securities Act and may be subject to certain statutory liabilities of, including but not limited to, Sections 11, 12 and 17 of the Securities Act.

In order to comply with the securities laws of certain states, if applicable, the securities must be sold in such jurisdictions only through registered or licensed brokers or dealers. In addition, in certain states the securities may not be sold unless they have been registered or qualified for sale in the applicable state or an exemption from the registration or qualification requirement is available and is complied with.

We have advised the selling securityholders that the anti-manipulation rules of Regulation M under the Exchange Act may apply to sales of securities in the market and to the activities of the selling securityholders. In addition, we will make copies of this prospectus available to the selling securityholders for the purpose of satisfying the prospectus delivery requirements of the Securities Act, which may include delivery through the facilities of the NYSE American pursuant to Rule 153 under the Securities Act. The selling securityholders may indemnify any broker-dealer that participates in transactions involving the sale of the securities against certain liabilities, including liabilities arising under the Securities Act.

Table of Contents

At the time a particular offer of securities is made, if required, a prospectus supplement will be distributed that will set forth the number of securities being offered and the terms of the offering, including the name of any underwriter, dealer or agent, the purchase price paid by any underwriter, any discount, commission and other item constituting compensation, any discount, commission or concession allowed or reallocated or paid to any dealer, and the proposed selling price to the public.

If underwriters are used in the sale of any securities, an underwriting agreement will be executed with the underwriter at the time of sale and we will identify any underwriters or agents and describe their compensation in a prospectus supplement used to make resales of the securities to the public. In connection with the sale of the securities, the selling securityholders, or the purchasers of securities for whom the underwriter may act as agent, may compensate the underwriter in the form of underwriting discounts or commissions. The underwriter may sell the securities to or through dealers, and those dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters and/or commissions from the purchasers for which they may act as agent. Unless otherwise indicated in a prospectus supplement, an agent will be acting on a best efforts basis and a dealer will purchase securities as a principal, and may then resell the securities at varying prices to be determined by the dealer.

Item 15. Indemnification of Directors and Officers.

Under our Certificate of Incorporation, as amended, and restated by-laws (and in accordance with Section 145 of the Delaware General Corporate Law), we will indemnify to the fullest extent permitted by the Delaware General Corporate Law any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, including civil, criminal, administrative, investigative or other proceedings, by reason of the fact that the person is or was a director, officer or employee of the Company, or is or was serving in that capacity or as an agent at the request of the Company for another entity.

Our indemnity covers expenses, judgments, fines and amounts paid or to be paid in settlement actually and reasonably incurred in connection with the defense or settlement of an action, suit or proceeding if the person acted in good faith and in a manner the person reasonably believed to be in or not opposed to our best interest and, with respect to any criminal action or proceeding, had no reasonable cause to believe that his or her conduct was unlawful. We will indemnify a person in a derivative action under the same conditions, except that no indemnification is permitted without judicial approval if the person is adjudged to be liable to us in performance of his or her duty. Derivative actions are actions by us or in our right to procure a judgment in our favor. Our agents may be similarly indemnified at the discretion of our board of directors.

All of our directors and officers are covered by an insurance policy that we maintain against specified liabilities for actions taken in their capacities as such, including liabilities under the Securities Act.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted for our directors, officers and controlling persons pursuant to the foregoing provisions, or otherwise, we have been advised that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable.

Item 17. Undertakings.

The undersigned registrant hereby undertakes:

- (1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:
 - (i) To include any prospectus required by section 10(a)(3) of the Securities Act of 1933, as amended, which we refer to as the Securities Act or the Act;
 - (ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20% change in the maximum aggregate offering price set forth in the Calculation of Registration Fee table in the effective registration statement;
 - (iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement.

Provided, however, that:

- (A) Paragraphs (1)(i), (ii), and (iii) of this Item 17 do not apply if the information required to be included in a post-effective amendment by those paragraphs is contained in reports filed with or furnished to the SEC by the registrant pursuant to section 13 or section 15(d) of the Exchange Act that are incorporated by reference in the registration statement or is contained in a form of prospectus filed pursuant to Rule 424(b) under the Exchange Act that is part of the registration statement.
- (2) That, for the purpose of determining any liability under the Securities Act, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.
- (3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.
- (4) That, for the purpose of determining liability under the Securities Act to any purchaser:

- (i) Each prospectus filed by the registrant pursuant to Rule 424(b)(3) under the Exchange Act shall be deemed to be part of the registration statement as of the date the filed prospectus was deemed part of and included in the registration statement; and

- (ii) Each prospectus required to be filed pursuant to Rule 424(b)(2), (b)(5), or (b)(7) as part of a registration statement in reliance on Rule 430B relating to an offering made pursuant to Rule 415(a)(1)(i), (vii), or (x) for the purpose of providing the information required by Section 10(a) of the Securities Act of 1933 shall be deemed to be part of and included in the registration statement as of the earlier of the date such form of prospectus is first used after effectiveness or the date of the first contract of sale of securities in the offering described in the prospectus. As provided in Rule 430B, for liability purposes of the issuer and any person that is at that date an underwriter, such date shall be deemed to be a new effective date of the registration statement relating to the securities in the registration statement to which that prospectus relates, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof. *Provided, however,* that no statement made in a registration statement or prospectus that is part of the registration

statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is a part of the registration statement will, as to a purchaser with a time of contract of sale prior to such effective date, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such effective date.

- (5) That, for purposes of determining any liability under the Securities Act, each filing of the registrant's annual report pursuant to section 13(a) or section 15(d) of the Exchange Act (and, where applicable, each filing of an employee benefit plan's annual report pursuant to section 15(d) of the Exchange Act) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof.
- (6) Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.
- (7) That, for purposes of determining any liability under the Securities Act, the information omitted from the form of prospectus filed as part of this registration statement in reliance upon Rule 430A and contained in a form of prospectus filed by the registrant pursuant to Rule 424(b) (1) or (4) or 497(h) under the Securities Act shall be deemed to be part of this registration statement as of the time it was declared effective.
- (8) That, for the purpose of determining any liability under the Securities Act, each post-effective amendment that contains a form of prospectus shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof.
