It is not possible for our management to predict all risks, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements we may make. Registered Stockholders. If your shares are registered directly in your name with our transfer agent, you are considered the stockholder of record with respect to those shares, and the Notice was provided to you directly by us. As the stockholder of record, you have the right to grant your voting proxy directly to the individuals listed on the proxy card or to vote in person at the Annual Meeting.

Street Name Stockholders. If your shares are held in a stock brokerage account or by a bank or other nominee, you are considered the beneficial owner of shares held in street name and the Notice was forwarded to you by your broker or nominee, who is considered the stockholder of record with respect to those shares. As the beneficial owner, you have the right to direct your broker or nominee how to vote your shares. Beneficial owners are also invited to attend the Annual Meeting. However, since beneficial owners are not stockholders of record, you may not vote your shares in person at the Annual Meeting unless you follow your broker's procedures for obtaining a legal proxy. If you request a printed copy of the proxy materials by mail, your broker or nominee will provide a voting instruction card for you to use.

How do I vote?

There are four ways for stockholders of record to vote:

by Internet at <http://www.proxyvote.com>, 24 hours a day, seven days a week, until 11:59 p.m. EDT on June 2, 2014 (have your proxy card in hand when you visit the website);

by completing and mailing your proxy card so that it is received prior to the Annual Meeting; or

by written ballot at the Annual Meeting.

We encourage you to vote by Internet as it is the most cost-effective method.

Street name holders may submit their voting instructions by Internet or telephone using the information provided by their respective brokers or nominees and may complete and mail voting instruction forms to their respective brokers or nominees. However, street name holders may not vote by written ballot at the Annual Meeting unless they obtain a legal proxy from their respective brokers or nominees.

Can I change my vote?

Edgar Filing: Workday, Inc. - Form DEF 14A

notifying the Secretary of Workday, in writing, at the address listed on the front page; or

completing a written ballot at the Annual Meeting.

Table of Contents

Street name holders may change their voting instructions by submitting new instructions by Internet or by telephone or returning a later-dated voting instruction form to their respective brokers or nominees. In addition, street name holders who obtain a legal proxy from their respective brokers or nominees may change their votes by completing a ballot at the Annual Meeting.

What is the effect of giving a proxy?

Proxies are solicited by and on behalf of our Board of Directors. The persons named in the proxy have been designated as proxies by our Board of Directors. When proxies are properly dated, executed and returned, the shares represented by such proxies will be voted at the Annual Meeting in accordance with the instructions of the stockholder. If no specific instructions are given, however, the shares will be voted in accordance with the recommendations of our Board of Directors as described above. If any matters not described in the Proxy Statement are properly presented at the Annual Meeting, the proxy holders will use their own judgment to determine how to vote your shares. If the Annual Meeting is adjourned, the proxy holders can vote your shares at the adjourned meeting date as well, unless you have properly revoked your proxy instructions, as described above.

What is a quorum?

A quorum is the minimum number of shares required to be present at the Annual Meeting for the meeting to be properly held under our Bylaws and Delaware state law. The presence, in person or by proxy, of a majority of the aggregate voting power of the issued and outstanding shares of stock entitled to vote at the meeting will constitute a quorum at the meeting. Except as otherwise expressly provided by the Certificate of Incorporation or by law, the holders of shares of Class A common stock and Class B common stock will vote together as a single class on all matters submitted to a vote or for the consent of the stockholders of Workday. Each holder of Class A common stock will have the right to one (1) vote per share of Class A common stock and each holder of Class B common stock will have the right to ten (10) votes per share of Class B common stock. A proxy submitted by a stockholder may indicate that the shares represented by the proxy are not being voted (stockholder withholding) with respect to a particular matter. In addition, a broker may not be permitted to vote stock (broker non-vote) held in street name on a particular matter in the absence of instructions from the beneficial owner of the stock. The shares subject to a proxy which are not being voted on a particular matter because of either stockholder withholding or broker non-votes will count for purposes of determining the presence of a quorum. Abstentions are voted neither for nor against a matter but are also counted in the determination of a quorum.

How many votes are needed for approval of each matter?

Proposal No. 1: The election of directors requires a plurality vote of the shares of common stock voted at the meeting. Plurality means that the individuals who receive the largest number of votes cast for are elected as directors. As a result, any shares not voted for a particular nominee (whether as a result of stockholder withholding or a broker non-vote) will not be counted in such nominee's favor.

Proposal No. 2: The ratification of the appointment of Ernst & Young LLP will be determined by the affirmative vote of a majority of the votes cast by the holders of shares represented in person or by proxy at the meeting and entitled to vote thereon to be approved. Abstentions and broker non-votes will have no effect on the outcome of this proposal.

How are proxies solicited for the Annual Meeting?

The Board of Directors is soliciting proxies for use at the Annual Meeting. All expenses associated with this solicitation will be borne by Workday. We will reimburse brokers or other nominees for reasonable expenses that they incur in sending these proxy materials to you if a broker or other nominee holds your shares.

Table of Contents

How may my brokerage firm or other intermediary vote my shares if I fail to provide timely directions?

Brokerage firms and other intermediaries holding shares of common stock in street name for customers are generally required to vote such shares in the manner directed by their customers. In the absence of timely directions, your broker will have discretion to vote your shares on our sole routine matter the proposal to ratify the appointment of Ernst & Young LLP. Your broker will not have discretion to vote on the election of the directors absent direction from you, as it is considered a non-routine matter.

Why did I receive a notice regarding the availability of proxy materials on the Internet instead of a full set of proxy materials?

In accordance with the rules of Securities and Exchange Commission (SEC), we have elected to furnish our proxy materials, including this proxy statement and our annual report to our stockholders, primarily via the Internet. Beginning on or about April 18, 2014, we mailed to our stockholders a Notice of Internet Availability of Proxy Materials that contains notice of the Annual Meeting and instructions on how to access our proxy materials on the Internet, how to vote at the meeting, and how to request printed copies of the proxy materials and annual report. Stockholders may request to receive all future proxy materials in printed form by mail or electronically by e-mail by following the instructions contained in the Notice. We encourage stockholders to take advantage of the availability of the proxy materials on the Internet to help reduce the environmental impact and cost of our annual meetings.

What does it mean if multiple members of my household are stockholders but we only received one Notice or full set of proxy materials in the mail?

The SEC has adopted rules that permit companies and intermediaries, such as brokers, to satisfy the delivery requirements for notices and proxy materials with respect to two or more stockholders sharing the same address by delivering a single notice or set of proxy materials addressed to those stockholders. In accordance with a prior notice sent to certain brokers, banks, dealers or other agents, we are sending only one Notice or full set of proxy materials to those addresses with multiple stockholders unless we received contrary instructions from any stockholder at that address. This practice, known as householding, allows us to satisfy the requirements for delivering Notices or proxy materials with respect to two or more stockholders sharing the same address by delivering a single copy of these documents. Householding helps to reduce our printing and postage costs, reduces the amount of mail you receive and helps to preserve the environment. If you currently receive multiple copies of the Notice or proxy materials at your address and would like to request householding of your communications, please contact your broker. Once you have elected householding of your communications, householding will continue until you are notified otherwise or until you revoke your consent.

Is my vote confidential?

Proxy instructions, ballots, and voting tabulations that identify individual stockholders are handled in a manner that protects your voting privacy. Your vote will not be disclosed either within Workday or to third parties, except as necessary to meet applicable legal requirements, to allow for the tabulation of votes and certification of the vote, or to facilitate a successful proxy solicitation.

Table of Contents**PROPOSAL NO. 1****ELECTION OF DIRECTORS**

Our Board of Directors may establish the authorized number of directors from time to time by resolution. Our Board of Directors currently consists of eight members. Our Certificate of Incorporation and Bylaws provide for a classified Board of Directors consisting of three classes of directors, with directors serving staggered three-year terms.

Directors in a particular class will be elected for three-year terms at the annual meeting of stockholders in the year in which their terms expire. As a result, only one class of directors will be elected at each annual meeting of our stockholders, with the other classes continuing for the remainder of their respective three-year terms. Each director's term continues until the election and qualification of his or her successor, or his or her earlier death, resignation or removal. The initial class of each director is set forth in the table below.

Our Certificate of Incorporation and Bylaws provide that our Board of Directors or our stockholders may fill vacant directorships. In the event that the outstanding shares of our Class B common stock represent less than a majority of the combined voting power of common stock, our Certificate of Incorporation and Bylaws authorize only our Board of Directors to fill vacancies on our Board of Directors. Any additional directorships resulting from an increase in the authorized number of directors would be distributed among the three classes as the Board of Directors determines in its discretion.

**THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR EACH
OF THE NOMINEES FOR CLASS II DIRECTORS.**

Table of Contents**PROPOSAL NO. 2****RATIFICATION OF APPOINTMENT OF****INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

The audit committee of the Board of Directors (Audit Committee) has appointed the firm of Ernst & Young LLP, independent registered public accounting firm, to audit our consolidated financial statements for the year ending January 31, 2015. During our year ended January 31, 2014, Ernst & Young LLP served as our independent registered public accounting firm, and has audited our consolidated financial statements since their appointment in 2008.

Notwithstanding its selection and even if our stockholders ratify the selection, our Audit Committee, in its discretion, may appoint another independent registered public accounting firm at any time during the year if the Audit Committee believes that such a change would be in the best interests of Workday and its stockholders. At the Annual Meeting, the stockholders are being asked to ratify the appointment of Ernst & Young LLP as our independent registered public accounting firm for the year ending January 31, 2015. Our Audit Committee is submitting the selection of Ernst & Young LLP to our stockholders because we value our stockholders views on our independent registered public accounting firm and as a matter of good corporate governance. Representatives of Ernst & Young LLP will be present at the Annual Meeting and they will have an opportunity to make statements and will be available to respond to appropriate questions from stockholders.

If this proposal does not receive the affirmative approval of a majority of the votes cast on the proposal, the Audit Committee would reconsider the appointment.

Auditor Independence

Under its charter, the Audit Committee pre-approves audit and non-audit services rendered by our independent registered public accounting firm, Ernst & Young LLP. The Audit Committee has determined that

Table of Contents

the rendering of non-audit services for tax compliance and structure advice, SOC audits, privacy, and ISO 27001 attestation services and advice provided in connection with our convertible notes offering and follow-on equity offering by Ernst & Young LLP is compatible with maintaining the principal accountants' independence.

Pre-Approval Policies and Procedures.

Consistent with requirements of the SEC and the Public Company Accounting Oversight Board (PCAOB), regarding auditor independence, our Audit Committee is responsible for the appointment, compensation and oversight of the work of our independent registered public accounting firm. In recognition of this responsibility, our Audit Committee (or the chair if such approval is required prior to the next Audit Committee meeting) generally pre-approves of all audit and permissible non-audit services provided by the independent registered public accounting firm. These services may include audit services, audit-related services, tax services and other services.

DIRECTORS AND CORPORATE GOVERNANCE

Director Independence

Our Class A common stock is listed on the New York Stock Exchange. The listing rules of this stock exchange generally require that a majority of the members of a listed company's board of directors be independent within specified periods following the closing of an initial public offering. Our Board of Directors, also referred to as the Board, has determined that none of our non-employee directors has a relationship that would interfere with the exercise of independent judgment in carrying out the responsibilities of a director and that each of these directors is independent as that term is defined under the rules of the New York Stock Exchange.

Audit Committee members must also satisfy the independence criteria set forth in Rule 10A-3 under the Securities and Exchange Act of 1934, as amended (Exchange Act). In order to be considered independent for purposes of Rule 10A-3, a member of an audit committee of a listed company may not, other than in his or her capacity as a member of the audit committee, the board of directors, or any other board committee: accept, directly or indirectly, any consulting, advisory, or other compensatory fee from the listed company or any of its subsidiaries; or be an affiliated person of the listed company or any of its subsidiaries. Our Board of Directors has determined that each of our Audit Committee members is independent for purposes of Rule 10A-3. In addition, Mr. Battle sits on a number of other public company audit committees. The Board of Directors has determined that such simultaneous service will not impair Mr. Battle's ability to effectively serve on Workday's Audit Committee.

Leadership Structure

The positions of Chairman of the Board and co-Chief Executive Officer (co-CEO) are filled by the same person, Mr. Aneel Bhusri. Our Board of Directors believes that the current Board leadership structure (which includes a lead independent director), coupled with a strong emphasis on Board independence, provides effective independent oversight of management while allowing the Board and management to benefit from Mr. Bhusri's extensive executive leadership and operational experience, including service as chairman of a public technology company and his experience and familiarity with our business as a co-founder and co-CEO. Independent directors and management sometimes have different perspectives and roles in strategy development. Our independent directors bring experience, oversight and expertise from outside of our company, while the co-CEOs bring company-specific experience and expertise. The Board of Directors believes that Mr. Bhusri's combined role enables strong leadership, creates clear accountability, and enhances our ability to communicate our message and strategy clearly and consistently to stockholders.

Lead Independent Director

Our Board of Directors has established corporate governance guidelines which state that when the chairperson of the Board and chief executive officer positions are held by the same person, a lead independent director may be designated. Because Mr. Bhusri is our co-CEO and Chairman, our Board of Directors appointed Mr. Still to serve as our lead independent director. As lead independent director, among other responsibilities, Mr. Still presides over regularly scheduled meetings at which only our independent directors are present, serves as a liaison between the co-CEOs and the independent directors, and performs such additional duties as our Board of Directors may otherwise determine and delegate.

Executive Sessions of Independent Directors

In order to promote open discussion among independent directors, our Board of Directors has a policy of conducting executive sessions of independent directors during each regularly scheduled Board meeting and at such other times if requested by an independent director. These executive sessions are chaired by our lead independent director. The lead independent director provides feedback to Workday's co-CEOs, as needed, promptly after the executive session. Neither Mr. Duffield nor Mr. Bhusri participates in such sessions.

The Compensation Committee met five times during fiscal 2014 and took action by unanimous written consent fourteen times. Our Compensation Committee is responsible for, among other things:

reviewing and approving, or recommending that our Board of Directors approve, the compensation of our executive officers;

Nominating and Governance Committee

Our Nominating and Governance Committee is composed of Messrs. McNamara, Sandell and Still, each of whom is independent within the meaning of the New York Stock Exchange rules. Mr. McNamara is the chairman of our Nominating and Governance Committee. The Nominating and Governance Committee met four times during fiscal 2014. Our Nominating and Governance Committee is responsible for, among other things:

identifying and recommending candidates for membership on our Board of Directors;

reviewing and recommending our corporate governance guidelines and policies;

reviewing proposed waivers of the Code of Conduct for directors and executive officers;

overseeing the process of evaluating the performance of our Board of Directors; and

assisting our Board of Directors on corporate governance matters.

The Nominating and Governance Committee operates under a written charter that was adopted by our Board of Directors and satisfies the applicable standards of the SEC and the New York Stock Exchange. A copy of the Nominating and Governance Committee charter is posted under the Investor Relations section on our website at http://www.workday.com/company/investor_relations/corporate_governance.php.

Investment Committee

Our Investment Committee is composed of Messrs. Bhusri, Sandell, Still and Yang. Mr. Yang is the chairman of our Investment Committee. The Investment Committee was newly formed and did not meet during fiscal 2014. Our Investment Committee is responsible for reviewing and approving, or recommending that the Board of Directors approve, certain mergers, acquisitions, joint ventures, and investments, and working with management to develop effective and scalable processes for the review and execution of such transactions.

Compensation Committee Interlocks and Insider Participation

None of the members of our Compensation Committee is, or has at any time during the past year been, an officer or employee of ours. None of our executive officers currently serve, or in the past year has served, as a member of the board of directors or compensation committee of any other entity that has one or more executive officers serving on our Board of Directors or Compensation Committee.

Considerations in Evaluating Director Nominees

The Nominating and Governance Committee is responsible for identifying, evaluating and recommending candidates to the Board for Board membership, or the Board may conduct the process of identifying and evaluating Board candidates directly. A variety of methods are used to identify and evaluate director nominees, with the goal of maintaining and further developing an experienced and highly qualified Board. Candidates may come to our attention through current members of our Board, professional search firms, stockholders or other persons.

The Nominating and Governance Committee will recommend to the Board for selection all nominees to be proposed by the Board for election by the stockholders, including approval or recommendation of a slate of director nominees to be proposed by the Board for election at each annual meeting of stockholders, and, if requested by the Board, will recommend all director nominees to be appointed by the Board to fill interim director vacancies.

The Board will be responsible for nominating members for election to the Board and for filling vacancies on the Board that may occur between annual meetings of stockholders. The Board may, either directly or upon the recommendation of the Nominating and Governance Committee, consider the minimum qualifications set forth below, any specific qualities or skills that it believes are necessary for one or more of the Board

members to possess, and the desired qualifications, expertise and characteristics of Board members.

Table of Contents

Director Qualifications

The Nominating and Governance Committee and the Board believe that candidates for director should have certain minimum qualifications, including, without limitation:

demonstrated business acumen and leadership, and high levels of accomplishment;

experience with high-growth companies;

ability to exercise sound business judgment and to provide insight and practical wisdom based on experience;

commitment to understand Workday and its business, industry and strategic objectives;

integrity and adherence to high personal ethics and values, consistent with our Code of Conduct;

ability to read and understand financial statements and other financial information pertaining to Workday;

commitment to enhancing stockholder value;

willingness to act in the interest of all stockholders; and

for non-employee directors, independence under New York Stock Exchange listing standards and other applicable rules and regulations.

In the context of the Board's existing composition, other requirements that are expected to contribute to the Board's overall effectiveness and meet the needs of the Board and its committees may be considered.

In addition, under Workday's Corporate Governance Guidelines (Guidelines), a director is expected to spend the time and effort necessary to properly discharge such director's responsibilities. Accordingly, a director is expected to regularly attend meetings of the Board and committees on which such director sits, and to review prior to meetings material distributed in advance for such meetings. Thus, the number of other public company boards and other boards (or comparable governing bodies) on which a prospective nominee is a member, as well as his or her other professional responsibilities, will be considered. Under the Guidelines, there are no limits on the number of three-year terms that may be served by a director. However, in connection with evaluating recommendations for nomination for re-election, director tenure is considered. Workday values diversity on a company-wide basis, but has not adopted a specific policy regarding Board diversity.

Stockholder Recommendations for Nominations to the Board of Directors

The Nominating and Governance Committee will consider properly submitted stockholder recommendations for candidates for our Board who meet the minimum qualifications as described above. The Nominating and Governance Committee does not intend to alter the manner in which it evaluates candidates, including the minimum criteria set forth above, based on whether or not the candidate was recommended by a stockholder. A stockholder of record can nominate a candidate for election to the Board of Directors by complying with the procedures in Article I, Section 1.12 of our Bylaws. Any eligible stockholder who wishes to submit a nomination should review the requirements in the Bylaws on nominations by stockholders. Any nomination should be sent in writing to the Secretary, Workday, Inc., 6230 Stoneridge Mall Road, Pleasanton, California 94588. Submissions must include the full name of the proposed nominee, complete biographical information, a

Edgar Filing: Workday, Inc. - Form DEF 14A

description of the proposed nominee's qualifications as a director, other information specified in our Bylaws, and a representation that the nominating stockholder is a beneficial or record holder of our stock and has been a holder for at least one year. Any such submission must be accompanied by the written consent of the proposed nominee to be named as a nominee and to serve as a director if elected. These candidates are evaluated at meetings of the Nominating and Governance Committee, and may be considered at any point during the year. If any materials are provided by a stockholder in connection with the recommendation of a director candidate, such materials are forwarded to the Nominating and Governance Committee.

All proposals of stockholders that are intended to be presented by such stockholder at an annual meeting of Stockholders must be in writing and notice must be delivered to the Secretary at the principal executive offices of Workday not later than the close of business on the seventy-fifth (75th) day nor earlier than the close of business on the one hundred and fifth (105th) day prior to the first anniversary of the preceding year's annual meeting. Stockholders are also advised to review our Bylaws, which contain additional requirements with respect to advance notice of stockholder proposals and director nominations.

Non-Employee Director Compensation

Our non-employee directors are entitled to receive equity compensation for their service as directors. The following table presents the total compensation for each person who served as a non-employee member of our Board of Directors in fiscal 2014. Other than as set forth in the table below, in fiscal 2014 we did not pay any fees to, make any equity awards or non-equity awards to, or pay any other compensation to, the non-employee members of our Board of Directors. However, we reimburse directors for travel expenses incurred in connection with attendance at Board meetings. The grants that are reflected in the table below for Messrs. Battle, McNamara, Sandell and Still and Ms. Davies represent compensation for six months of service as a director, and it is expected that full-year grants will be made on the date of the 2014 annual meeting. The grant reflected in the table below for Mr. Yang was made in connection with his initial appointment to the Board in November 2013.

REPORT OF THE AUDIT COMMITTEE

With respect to Workday's financial reporting process, the management of Workday is responsible for (1) establishing and maintaining internal controls and (2) preparing Workday's consolidated financial statements. Workday's independent registered public accounting firm, Ernst & Young LLP (EY), is responsible for performing an independent audit of Workday's consolidated financial statements and issuing opinions on the conformity of those audited financial statements with United States generally accepted accounting principles and the effectiveness of Workday's internal control over financial reporting. It is the responsibility of the Audit Committee to oversee these activities. The Audit Committee does not itself prepare financial statements or perform audits, and its members are not auditors or certifiers of Workday's financial statements.

The Audit Committee has reviewed and discussed the audited financial statements for the year ended January 31, 2014 with Workday's management and EY. The Audit Committee has also discussed with EY the matters required to be discussed by Auditing Standard No. 16, Communications with Audit Committees issued by the Public Company Accounting Oversight Board (PCAOB).

The Audit Committee also has received and reviewed the written disclosures and the letter from EY required by applicable requirements of the PCAOB regarding EY's communications with the Audit Committee concerning independence, and has discussed with EY its independence from Workday.

Based on our review and discussions with Workday's management and EY, we recommended to the Board of Directors that the audited financial statements be included in Workday's Annual Report on Form 10-K for the fiscal year ended January 31, 2014, for filing with the Securities and Exchange Commission.

RELATED PARTY TRANSACTIONS

In addition to the executive officer and director compensation arrangements discussed under Executive Compensation, we describe below transactions for fiscal 2014 to which we have been a participant, in which the amount involved in the transaction exceeds or will exceed \$120,000 and in which any of our directors, executive officers, or holders of more than 5% of our Class A common stock, or any immediate family member of, or person sharing the same household with, any of these individuals, had or will have a direct or indirect material interest.

Amended and Restated Investors Rights Agreement

We have entered into an investors rights agreement with certain stockholders, including entities with which certain of our directors are affiliated. These stockholders are entitled to rights with respect to the registration of their shares.

After our initial public offering, certain holders of shares of our Class B common stock outstanding as of April 30, 2012 became entitled to certain rights with respect to registration of such shares under the Securities Act of 1933, as amended (Securities Act). These shares are referred to as registrable securities. The holders of these registrable securities possess registration rights pursuant to the terms of our Amended and Restated Investors Rights Agreement dated as of October 13, 2011 (IRA), and are described in additional detail below. We, along with Messrs. Duffield, Bhusri, Battle, McNamara, Peek and Still or their affiliated entities, as well as certain other parties, are parties to the IRA.

Demand Registration Rights

Under our IRA, upon the written request of certain of the holders of the registrable securities then outstanding that we file a registration statement under the Securities Act with an anticipated aggregate price to the public of at least \$15 million, we will be obligated to use our commercially reasonable efforts to register the sale of all registrable securities that holders may request in writing to be registered within 20 days of the mailing of a notice by us to all holders of such registration. We are required to effect no more than two registration statements which are declared or ordered effective, subject to certain exceptions. We may postpone the filing of a registration statement for up to 90 days once in a 12-month period if in the good faith judgment of our Board of Directors such registration would be detrimental to us, and we are not required to effect the filing of a registration statement during the period beginning 60 days prior to our good faith estimate of the date of the filing of, and ending on a date 180 days following the effective date of, a registration initiated by us.

Piggyback Registration Rights

If we register any of our securities for public sale, we will have to use all commercially reasonable efforts to register all registrable securities that the holders of such securities request in writing be registered within 20 days of mailing of notice by us to all holders of the proposed registration. However, this right does not apply to a registration relating to any of our stock plans, the offer and sale of debt securities, a corporate reorganization or other transaction under Rule 145 of the Securities Act, or a registration on any registration form that does not include substantially the same information as would be required to be included in a registration statement covering the sale of the registrable securities. The managing underwriter of any underwritten offering will have the right to limit, due to marketing reasons, the number of shares registered by these holders to 10% of the total shares covered by the registration statement.

Form S-3 Registration Rights

The holders of the registrable securities can request that we register all or a portion of their shares on Form S-3 if we are eligible to file a registration statement on Form S-3 and the aggregate price to the public of the shares offered is at least \$5 million. We are required to file no more than one registration statement on Form S-3

Table of Contents

upon exercise of these rights per six-month period, subject to certain exceptions. We may postpone the filing of a registration statement for up to 90 days once in a 12-month period if in the good faith judgment of our Board of Directors such registration would be detrimental to us.

Registration Expenses

We will pay all expenses incurred in connection with each of the registrations described above, except for underwriting discounts and commissions. However, we will not pay for any expenses of any demand or Form S-3 registration if the request is subsequently withdrawn at the request of a majority of the holders of the registrable securities to be registered, subject to limited exceptions.

Expiration of Registration Rights

The registration rights described above will terminate as to any stockholder at such time as all of such stockholders' securities (together with any affiliate of the stockholder with whom such stockholder must aggregate its sales) could be sold without compliance with the registration requirements of the Securities Act pursuant to Rule 144 or following a deemed liquidation event under our Certificate of Incorporation, but in any event no later than October 12, 2014.

Stock Voting Agreement

Mr. Duffield and Mr. Bhusri, our co-founders, have entered into a stock voting agreement with each other and us. This agreement applies to all Class B common stock owned from time to time by our co-founders and each of their permitted transferees, which represents approximately 77% of the outstanding voting power of our capital stock.

Employment Arrangements with Immediate Family Members of Our Executive Officers and Directors

Her salary and bonus did not exceed the disclosure threshold for fiscal 2014.

The salary and bonus levels of Michael Duffield and Amy Zeifang were based on reference to internal pay equity when compared to the compensation paid to employees in similar positions that were not related to our executive officers and directors. They also received equity awards on the same general terms and conditions as applicable to other employees in similar positions who were not related to our executive officers and directors. In addition, they received compensation during fiscal 2014 to reimburse them for taxes and related expenses they incurred as a result of an error made by the company in classifying stock options they exercised during earlier years.

Equipment Lease

In June 2010, we entered into a capital lease agreement with Lake Tahoe Land Company, LLC, an affiliate of Mr. Duffield. The lease agreement provides for an equipment lease financing facility to be drawn upon for purchases of information technology and related equipment for use in our business operations. The amount paid under this agreement in fiscal 2014 was \$2,164,615. The final lease payment is due in May 2014.

Statement of Policy Regarding Related Party Transactions

We have adopted a written related-party transactions policy which provides that our executive officers, directors, nominees for election as a director, beneficial owners of more than 5% of our common stock, and any members of the immediate family member of the foregoing related parties, are not permitted to enter into a material related party transaction with us without the review, consideration and approval or ratification of the disinterested members of the Audit Committee. For this policy, a material related party transaction is defined as a transaction with a related party in which the amount involved exceeds \$120,000, or contributions to affiliated charities above \$50,000. In approving or rejecting any proposed related party transaction, we expect that our Audit Committee will consider the relevant facts and circumstances available and deemed relevant to the Audit Committee, including, but not limited to, whether the transaction is on terms no less favorable than terms generally available to an unaffiliated third party under the same or similar circumstances; the extent of the related party's interest in the transaction; the benefits that the transaction provides to us; and whether the transaction was undertaken in the ordinary course of business.

Table of Contents

Prior to the adoption of the written policy for the review and approval of transactions with related parties by the Audit Committee, our Board of Directors had historically reviewed and approved any transactions where a director or officer had a financial interest, including the transactions described above which occurred prior to the adoption of such policy. Prior to approving such a transaction, the material facts as to a director's or officer's relationship or interest as to the agreement or transactions were disclosed to our Board of Directors or Audit Committee, as applicable. Our Board of Directors or Audit Committee, as applicable, would take information into account when evaluating the transaction and in determining whether such transaction was fair to Workday and in the best interest of all of our stockholders.

Executive Compensation Philosophy, Objectives and Design

Philosophy

We operate in a highly competitive and rapidly evolving market, and we expect competition among companies in our market to continue to increase. Our ability to compete and succeed in this environment is directly correlated to our ability to recruit, incentivize and retain talented individuals in the areas of product development, sales, marketing, services and general and administrative functions. The market for skilled personnel in the software industry is very competitive. Our compensation philosophy is designed to establish and maintain a compensation program that attracts and rewards talented individuals who possess the skills necessary to create long-term value for our stockholders, expand our business and assist in the achievement of our strategic goals.

In fiscal 2014, our Compensation Committee reviewed and assessed our compensation philosophy, which is intended to reflect Workday's values. The Compensation Committee believes that a great work environment, substantial company ownership and meaningful pay and benefits support a winning team, company and workplace. Further, Workday's compensation is designed to be focused on ownership, innovation and results and to be fair and flexible. Accordingly, key elements of Workday's total rewards philosophy include the following:

Focus on ownership: We believe that all of our employees should share in the ownership of Workday, and therefore, equity compensation is a larger part of total rewards than the market norm.

Focus on innovation and results: Workday rewards results, while recognizing market-based differences between functions. The development of great products is the life-blood of the company, and the compensation structure for product developers is weighted toward long-term compensation in support of longer-term objectives. In contrast, sales compensation is weighted toward variable short-term compensation in accordance with market practices and to promote revenue growth.

Fair and flexible: The Committee recognizes the importance of providing fair rewards for employee contributions. Workday seeks to provide total targeted direct compensation (salary, bonus and equity) that is at or above market norms, and to provide parity and consistency within functions. Workday also believes in adhering to budgets, ensuring transparency and promoting understanding of our compensation philosophy and practices by employees, while at the same time retaining the flexibility needed to promote employee acquisition and retention.

Objectives

Consistent with our compensation philosophy, the primary goals of our executive compensation programs are to:

Provide competitive compensation to recruit, retain and motivate top talent;

Align the interests of our executive officers and stockholders through the use of equity awards; and

Motivate and reward behavior consistent with Workday goals and performance objectives.

The Compensation Committee retains flexibility to review our compensation structure periodically as needed to focus on different business objectives, and reviews our compensation program at least annually.

Design

Our executive compensation program has been heavily weighted towards equity. Our Compensation Committee determined that compensation in the form of equity helps to align our executives with the long-term interests of our stockholders by driving achievement of our strategic and financial goals. Prior to our becoming a public company in October 2012, our equity compensation program was largely in the form of stock option grants. During fiscal 2014, however, we shifted to the use of restricted stock units (RSUs) as our primary equity

Table of Contents

vehicle for employees and NEOs. We believe that RSUs can align the interests of employees with stockholders and provide a longer-term focus through a multi-year vesting schedule, while managing dilution to existing investors and providing greater transparency and predictability to employees in the value of their compensation. To maintain a competitive compensation program, we have also offered cash compensation in the form of base salaries and, to a lesser extent, quarterly cash bonuses. Historically, our cash compensation has been low relative to public companies in our peer group, and bonus opportunities have not been uniformly applied to all executives, resulting in total cash compensation for executives that is typically at or below the 25th percentile of companies in our peer group. We do not benchmark to this percentile, but use the peer group information for general guidance only.

During fiscal 2014, our Compensation Committee, with assistance from our outside compensation consultant, Compensia, reviewed executive compensation, including base salaries, bonuses, equity awards, and benefit programs, to ensure that our compensation program promotes stockholder interests and provides appropriate rewards and incentives for Workday's management and employees.

Our Compensation-Setting Process

Pursuant to its charter and in accordance with New York Stock Exchange rules, the Compensation Committee is responsible for reviewing, evaluating, and approving the compensation arrangements of our executive officers and for establishing and maintaining our executive compensation policies and practices. Our Compensation Committee seeks input and receives recommendations from our co-CEOs and other members of our executive team when discussing the performance and compensation of other executive officers. The Compensation Committee also coordinates with our Chief Financial Officer in determining the financial and accounting implications of our compensation programs and hiring decisions. The Compensation Committee is authorized to engage its own independent advisors to provide advice on matters related to executive compensation and general compensation programs. For additional information on the Compensation Committee, see *Committees of the Board of Directors Compensation Committee* elsewhere in this proxy statement.

The initial compensation arrangements with our executive officers other than our co-CEOs were the result of arm's-length negotiations between us and each individual executive at the time of their hire. In fiscal 2014, our Compensation Committee and Board considered numerous factors in determining changes to cash compensation and additional equity grants for our NEOs. The Compensation Committee and Board reviewed the performance of executives, taking into consideration financial, operational, customer, strategic, product and competitive factors, as well as succession planning for executive officer positions. The Compensation Committee and Board also reviewed a study by Compensia regarding the compensation of executives at the companies in our peer group. However, as noted below, we do not benchmark our compensation to our peer group. Except with respect to co-CEOs' compensation, our co-CEOs made recommendations to our Compensation Committee regarding compensation for executive officers, which was also taken into account by the Compensation Committee in making its decisions regarding executive compensation. The co-CEOs were not present for the Board discussions regarding their performance and compensation. Following deliberation, the Compensation Committee made adjustments to the bonuses payable to certain NEOs, and granted RSUs to NEOs, as described below and in the Summary Compensation Table.

Role of Human Resources team

The role of Workday's Human Resources team and management is to design Workday's executive compensation programs, policies and governance and make recommendations to the Compensation Committee regarding these matters. Management is responsible for, among other things:

Reviewing the effectiveness of the compensation programs, including competitiveness and alignment with Workday's objectives;

Recommending changes to compensation programs, as may be required, to ensure achievement of all program objectives;

Table of Contents

Recommending salaries, bonuses and other awards for NEOs other than the co-CEOs; and

Reviewing and making recommendations with respect to the adoption and approval of, or amendments to, company-wide incentive compensation plans.

Role of Compensation Consultant

In May 2012, the Compensation Committee retained Compensia to assess the competitiveness of our compensation programs and aid in the transition of our compensation programs from a private company to a public company structure. The Compensation Committee selected Compensia to advise on executive compensation matters given its expertise in the technology industry and its knowledge of our peer companies. Compensia has continued to provide advice on our compensation programs and practices and our executive compensation decisions. During fiscal 2014, Compensia provided the following services as requested by the Compensation Committee:

Advised on our transitioning of executive pay from pre-IPO practices to a post-IPO compensation program;

Assisted in the development of the peer group of companies we use to understand market competitive compensation practices;

Reviewed and assessed our current director, CEO and other executive officer compensation practices and equity profile relative to our peers;

Reviewed and assessed our current compensation programs to determine any changes that may need to be implemented in order to remain competitive with the market;

Reviewed market practices on executive officer recoupment policies and stock ownership guidelines; and

Reviewed the Board of Directors' compensation.

All other analyses related to executive compensation for fiscal 2014 were conducted internally. Internal analyses included gathering and analyzing data, and reviewing and advising on principal aspects of executive compensation. Base salaries, equity awards, and bonuses for executive officers were among the items reviewed based on market data provided by Compensia.

The total fees paid to Compensia for fiscal 2014 were \$82,868. During fiscal 2014, the Compensation Committee reviewed the fees provided to Compensia relative to its revenue, services provided by Compensia to Workday, the relationships between Compensia and its consultants and Workday and its executives, and other factors relating to Compensia's independence, and concluded that Compensia is independent within the meaning of New York Stock Exchange rules and that its engagement did not present any conflict of interest.

Table of Contents

Peer Group

In August 2013, our Compensation Committee determined to use the following peer group of companies (which is the same as the peer group used in the prior fiscal year) that are in applications software, systems software, or internet software and services, with similar revenues, significant revenue growth and mid-level market capitalization:

Ariba, Inc.	NetSuite, Inc.
Aruba Networks, Inc.	Palo Alto Networks, Inc.
athenahealth, Inc.	Qlik Technologies Inc.
Aspen Technology, Inc	RealPage, Inc.
CommVault Systems, Inc.	ServiceNow, Inc.
Concur Technologies, Inc.	SolarWinds, Inc.
CoStar Group, Inc.	Sourcefire, Inc.
Fortinet, Inc.	Splunk Inc.
Fusion-io, Inc.	The Ultimate Software Group, Inc.
Guidewire Software, Inc.	

While Workday considers the compensation levels of the companies in its peer group to provide a general understanding of market practices among similar companies, it has not specifically benchmarked its compensation levels to the peer group.

Elements of Our Executive Compensation Program

The key elements of our compensation package for named executive officers are base salary, bonuses, equity-based awards, and our benefits programs. Except with respect to bonuses, which typically are set as a pre-defined percentage of an individual's salary, Workday has not used specific formulas or weightings in determining the allocation of the various pay elements. Rather, each NEO's compensation has been designed to provide a combination of compensation that is tied to achievement of our short- and long-term objectives. In particular, Workday's use of RSU awards, which generally vest over four years, promote a long-term view of company results, while bonuses are payable based upon quarterly performance. In fiscal 2014, the Committee worked on transitioning executive pay from pre-IPO practices to a post-IPO compensation program that includes a regular review of compensation relative to peers, conducting annual performance reviews, making adjustments to base salary and bonuses as needed, and making annual equity awards. Following deliberation and consideration of the factors discussed below, the Board and Committee determined that equity awards should continue to be a significant portion of executive compensation, and that cash compensation (including salary and bonuses) should remain lower relative to market norms.

Base Salary

We offer base salaries that are intended to provide a level of stable fixed compensation to named executive officers for performance of day-to-day services. Our co-founders and co-CEOs received a base salary of \$33,280 upon the commencement of their employment, which has not changed since that time. Other than our co-CEOs, each executive officer's base salary was established as the result of arm's-length negotiation with the individual at the time of hiring. Base salaries for our executive officers are reviewed annually to determine whether an adjustment is warranted or required. In fiscal 2014, the Compensation Committee reviewed the base salaries of our executive officers taking into consideration a compensation analysis performed by Compensia. During fiscal 2014, Mark Peek's salary increased from \$250,000 to \$275,000 in connection with an increase in his areas of responsibility. All other NEO salaries remained the same. The base salaries paid to our named executive officers for fiscal 2014 are set forth in the Summary Compensation Table below.

Table of Contents

Bonuses

Historically, our co-CEOs have not participated in an annual cash bonus plan, other than the company-wide bonus plan that is available to all employees. Cash bonuses for other executive officers varied based on specific negotiations with the individual, usually in connection with their hiring. In connection with Workday's transition to a post-IPO compensation program, the Compensation Committee reviewed the existing bonus arrangements for executive officers and determined that executive officers other than the co-CEOs would have a target annual bonus of 50% of their base salary in order to align the bonus program across our executive officer population. The 50% target bonus was effective starting in the third quarter of fiscal 2014.

In addition, under Workday's company-wide bonus plan for fiscal 2014, each full-time employee of Workday hired prior to October 31, 2013, including our executive officers, was entitled to receive a cash bonus of \$1,500 plus one week's additional vacation time if we achieved certain financial, technical and customer satisfaction objectives.

Each quarter during fiscal 2014, the Compensation Committee reviewed the proposed bonus payouts to each of the NEOs who participate in a bonus plan, and determined that the bonuses should be paid at target based on their performance and the continued success of the company. There were no specific metrics used in the determination of the bonus payout; rather, the determination was made based on the Compensation Committee's judgment as to the executive's performance of his responsibilities. In addition, the Compensation Committee determined that executive officers would be entitled to receive the standard \$1,500 bonus under the company-wide bonus plan. The bonuses paid to our named executive officers for fiscal 2014 are set forth in the Summary Compensation Table below.

Equity-Based Awards

Most of our executive officers' total compensation is provided through equity awards. As part of our post-IPO compensation strategy, during fiscal 2014, we instituted a practice of making annual equity grants to our executive officers in order to effectively align the interests of executive officers and our stockholders and ensure appropriate incentives remain in place to promote a focus on long-term strategic and financial objectives. The sizes and types of awards were not determined based on a specific formula, but rather on the basis of the Compensation Committee's discretionary judgment regarding the performance of the executive officers, the recommendations of the co-CEOs (with respect to executives other than the co-CEOs), the appropriate level of compensation for the position, the need to hire or retain an individual in a particular position, and the retentive value provided by the awards. In addition, the Compensation Committee reviewed and considered the equity awards to executives at our peer companies, although it did not specifically benchmark to those companies.

As discussed above, during fiscal 2014, the Compensation Committee determined to use RSUs for equity grants to executive officers, and also determined to move to a four-year vesting schedule rather than the previous five-year vesting schedule in order to align with market practices. The Compensation Committee believes that these RSUs serve as an effective retention tool for our executive officers, as unvested awards are generally forfeited if an executive officer voluntarily leaves Workday. While we did not have specific performance-based vesting criteria for the RSUs granted, the Compensation Committee believes that RSUs promote long-term performance because their value increases based on increases in Workday's stock price.

Many of Workday's executives joined Workday prior to its initial public offering and therefore have experienced significant appreciation in the value of their pre-IPO equity awards. The Compensation Committee reviewed the size and vesting schedule for the remaining unvested portion of all outstanding equity award holdings of each of our executive officers and agreed with the recommendation of our co-CEO that the existing equity awards appropriately satisfied our retention and incentive goals for the immediate future for each of our executive officers. Accordingly, the additional equity awards granted in fiscal 2014 begin vesting on November 15, 2015, after a significant portion of each executive's outstanding equity awards have vested. The

Table of Contents

Compensation Committee believes that this deferred vesting schedule makes the RSU awards more valuable for retaining our executive officers and reflects our emphasis on Workday's long-term success. The RSU awards granted to our NEOs in fiscal 2014 were as follows:

Named Executive Officer	Number of Shares Subject to Restricted Stock Unit Award ⁽¹⁾	Value of Restricted Stock Unit Award on the Date of Grant ⁽²⁾
Aneel Bhusri	134,163	\$ 9,730,842
David A. Duffield	59,628	\$ 4,324,819
James J. Bozzini	59,628	\$ 4,324,819
Mark S. Peek	81,989	\$ 5,946,662
James P. Shaughnessy	29,814	\$ 2,162,409
Michael A. Stankey	104,349	\$ 7,568,433

- (1) These RSUs are subject to quarterly vesting based on continued employment over four years, with a deferred vesting start date of November 15, 2015, after which they vest in equal installments over the next eight quarters.
- (2) Amounts reflect the grant date fair value of the RSUs without regards to forfeitures computed in accordance with Financial Accounting Standards Board, Accounting Standards Codification Section 718 (ASC 718). This amount does not reflect the actual economic value realized by the named executive officer.

The size of these awards was determined by the Compensation Committee based on their judgment and considering the following factors:

each executive officer's individual performance, including financial, operational, customer, strategic, product and competitive factors;

the size and vesting schedule of existing equity grants;

the size of each executive officer's total cash compensation (base salary plus cash bonus awards at target), which is generally lower than the cash compensation for executives with similar responsibilities at companies in our peer group; and

the recommendations of the co-CEOs (with respect to executive officers other than the co-CEOs).

In determining RSU grants of our co-CEOs, the Compensation Committee considered their relative roles and responsibilities. While Mr. Bhusri and Mr. Duffield are both responsible for providing overall executive leadership to the company, which includes leading the Workday employees as well as representing Workday publicly with customers, prospects and other key constituencies, Mr. Bhusri is also responsible for the overall strategic direction and operating results of Workday, and also serves as Chairman of the Board. Mr. Duffield focuses on the Education and Government portion of the business and the development and launch of Workday's Student initiative, and serves as a member of the Board. In light of these differences, the Compensation Committee decided it was appropriate to make a relatively higher RSU award to Mr. Bhusri than Mr. Duffield.

Although the Compensation Committee reviewed data from Compensia on equity awards and total compensation provided to executives at companies in our peer group, the RSU awards were not based on any specific benchmarking to a particular percentile of a peer group.

Benefits Programs

Our employee benefit programs, including our 401(k) plan, employee stock purchase plan, and health, and welfare programs, are designed to provide a competitive level of benefits to our employees generally, including our executive officers and their families. We adjust our employee benefit programs as needed based upon regular monitoring of applicable laws and practices and the competitive market. Our executive officers are entitled to participate in the same employee benefit plans, and on the same terms and conditions, as all other U.S. full-time employees.

Table of Contents

Perquisites and Other Personal Benefits

Currently, we do not view perquisites or other personal benefits as a significant component of our executive compensation program. Accordingly, we do not generally provide perquisites to our executive team. In the future, we may provide perquisites or other personal benefits in limited circumstances, such as where we believe it is appropriate to assist an individual executive in the performance of his or her duties, to make our executive team more efficient and effective and for recruitment, motivation or retention purposes. All future practices with respect to perquisites or other personal benefits will be subject to review and approval by our Compensation Committee.

Post-Employment Compensation

In connection with our transition to being a public company, we determined that it would be advisable to adopt a change in control policy in order to align with market practices and to meet the expectations of executives hired from public companies. Accordingly, in May 2012, we adopted a change in control policy applicable to our executive officers and certain other employees which provides for severance benefits in the event of a termination of employment following a change in control. In addition, certain of our executive officers (other than our co-CEOs) have post-employment compensation arrangements. The material terms of these post-employment arrangements are set forth in Potential Payments Upon Termination or Change in Control below.

Other Compensation Policies

Executive Officer Recoupment Policy

In fiscal 2014, our Compensation Committee adopted a policy that enables Workday to recover all or any portion of an executive officer's incentive-based compensation in the event that Workday restates financial results as a result of fraud by such executive officer, and the compensation earned by the executive officer was based on achieving financial results in excess of what could have been earned by the executive officer based on the restated financial results. The recovery period includes up to three years prior to the date of the restatement, for periods after the effective date of the policy.

Equity Awards Policy

The Compensation Committee has adopted a policy governing equity awards that are granted to directors, officers and employees of Workday. The policy provides that equity awards will be made by the Board or Committee at a meeting or by unanimous written consent, subject to equity award guidelines adopted by the Board, and provided that the co-CEOs may make awards to non-executive employees within prescribed limits. New hire grants generally will be effective on the 15th day of the month following commencement of employment, and refresh, promotion and discretionary grants generally will be effective on the 15th day of the second month of the quarter, or April 15 with respect to annual refresh grants, unless otherwise approved by counsel. The exercise price of all stock options and stock appreciation rights will be equal to or greater than the fair market value of common stock, as defined in the 2012 Equity Incentive Plan, on the date of grant.

Derivatives Trading and Hedging Policy

Our Policy on Trading in Securities prohibits the trading of derivatives or the hedging of our equity securities by our employees, including our executive officers and directors.

Policy regarding 10b5-1 Plans for Directors and Executive Officers

Our Policy on Trading in Securities generally requires directors and executive officers to adopt plans in accordance with Rule 10b5-1 under the Securities Exchange Act of 1934, as amended (Rule 10b5-1 plans) for sales of securities which they beneficially own, and provides that such individuals may not trade during blackout periods.

Table of Contents

Stock Ownership Guidelines

Currently, we have Stock Ownership Guidelines that require each of our co-CEOs to hold stock valued at greater than or equal to five times their salaries, our other executive officers to hold stock valued at greater than or equal to three times their salaries, and our directors to hold greater than or equal to \$1,000,000 worth of stock. Under this policy, this ownership requirement may be satisfied by ownership of shares of either our Class A or Class B Common Stock, vested RSUs, and any other shares of our equity securities held by affiliates or family members in which the executive officer holds a beneficial interest.

Compensation Policies and Practices as they relate to Risk Management

The Compensation Committee has reviewed Workday's compensation-related risks, and the Committee does not believe that Workday's compensation policies and practices encourage undue or inappropriate risk taking or create risks that are reasonably likely to have a material adverse effect on Workday for the following reasons:

Workday structures its compensation program to consist of both fixed and variable components. The fixed (or base salary) component of its compensation program is designed to provide income independent of Workday's stock price performance so that employees will not focus exclusively on stock price performance to the detriment of other important business metrics. The variable (cash bonus and equity) components of compensation are designed to reward both short and long-term company performance, which we believe discourages employees from taking actions that focus only on the short-term success of Workday.

Workday has internal controls over the measurement and calculation of financial metrics, which are designed to prevent these metrics from being manipulated by any employee, including our executives.

Workday does not cap the cash incentive award for its Sales Incentive Plan, to provide maximum incentive for the sales force to meet and exceed their revenue objectives. However, Workday does maintain internal controls over the determination of sales incentive awards.

All employees of Workday are required to comply with our Code of Business Conduct, which covers, among other things, accuracy in keeping Workday's records.

The Compensation Committee approves the employee annual and new hire equity guidelines as well as the overall equity pool. Any recommended equity grants outside these guidelines require special approval by executive officers or the Compensation Committee, depending on the size of the award.

A significant portion of the compensation paid to executive officers and directors is in the form of equity, in order to align their interests with the interests of stockholders.

In fiscal 2014, the Board adopted Stock Ownership Guidelines to ensure that executives and directors retain specified levels of equity in Workday.

As part of Workday's Policy on Trading in Securities, Workday prohibits hedging transactions involving Workday stock so executives and other employees of Workday cannot insulate themselves from the effects of poor stock price performance.

Edgar Filing: Workday, Inc. - Form DEF 14A

In fiscal 2014, the Board adopted an Executive Officer Recoupment Policy providing that the Board may require reimbursement or forfeiture of all or a portion of any cash compensation that was paid to an executive based on financial results if a restatement is required and the Board determines that fraud on the part of the executive contributed to the need for the restatement.

Tax and Accounting Considerations

Deductibility of Executive Compensation

Section 162(m) of the Internal Revenue Code, or the Code, will limit the amount that we may deduct from our federal income taxes for remuneration paid to our executive officers to one million dollars per executive

Table of Contents

officer per year, unless certain requirements are met. Section 162(m) provides an exception from this deduction limitation for certain forms of performance-based compensation, as well as for the gain recognized by executive officers upon the exercise of qualifying compensatory stock options. Gain from settlement of restricted stock units and bonus payments to executives may not be tax deductible. While our Compensation Committee is mindful of the benefit to us of the full deductibility of compensation and will consider deductibility when analyzing potential compensation alternatives, our Compensation Committee believes that it should not be constrained by the requirements of Section 162(m) where those requirements would impair flexibility in compensating our executive officers in a manner that can best promote our corporate objectives. Therefore, our Compensation Committee has not adopted a policy that requires that all compensation be deductible.

No Gross-ups of Parachute Payments and Deferred Compensation

We did not provide any executive officer, including any named executive officer, with a gross-up or other reimbursement payment for any tax liability that he or she might owe as a result of the application of Sections 280G, 4999, or 409A of the Code during fiscal 2014, and we have not agreed and are not otherwise obligated to provide any named executive officers with such a gross-up or other reimbursement.

Accounting Treatment

We account for stock compensation in accordance with the authoritative guidance set forth in ASC Topic 718, which requires companies to measure and recognize the compensation expense for all share-based awards made to employees and directors, including stock options and RSUs, over the period during which the award recipient is required to perform services in exchange for the award (for executive officers, generally the four- or five-year vesting period of the award). We estimate the fair value of stock options granted using the Black-Scholes option-valuation model fair value of these awards. This calculation is performed for accounting purposes and reported in the compensation tables below.

Compensation Committee Report

The Compensation Committee has reviewed and discussed the Executive Compensation discussion included in this proxy statement with management and, based on such review and discussions, the Compensation Committee recommended to the Board of Directors that the Executive Compensation discussion be incorporated by reference in Workday's Annual Report on Form 10-K for fiscal 2014 and included in this proxy statement. Submitted by the Compensation Committee of the Board of Directors:

Table of Contents**SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT**

The following table sets forth, as of March 31, 2014, certain information regarding beneficial ownership of our common stock (a) by each person known by us to be the beneficial owner of more than five percent of the outstanding shares of Class A common stock or Class B common stock, (b) by each director and nominee for director, (c) by the named executive officers (as defined in Executive Compensation above) and (d) by all of our current executive officers and directors as a group.

We have determined beneficial ownership in accordance with the rules of the SEC. Except as indicated by the footnotes below, we believe, based on the information furnished to us, that the persons and entities named in the table below have sole voting and investment power with respect to all shares of Class A common stock or Class B common stock that they beneficially own, subject to applicable community property laws.

Applicable percentage ownership is based on 94,632,053 shares of Class A common stock and 89,549,210 shares of Class B common stock outstanding at March 31, 2014. In computing the number of shares of common stock beneficially owned by a person and the percentage ownership of that person, we deemed to be outstanding all shares of common stock subject to options held by that person or entity that are currently exercisable or that will become exercisable, and RSUs that will become vested, within 60 days of March 31, 2014. We did not deem these shares outstanding, however, for the purpose of computing the percentage ownership of any other person. Unless otherwise indicated, the address of each beneficial owner listed in the table below is c/o Workday, Inc., 6230 Stoneridge Mall Road, Pleasanton, California 94588.

Section 16(a) of the Securities Exchange Act of 1934, as amended (Exchange Act), requires that our executive officers and directors, and persons who own more than 10% of our common stock, file reports of ownership and changes of ownership with the SEC. Such directors, executive officers and 10% stockholders are required by SEC regulations to furnish us with copies of all Section 16(a) forms they file.

SEC regulations require us to identify in this proxy statement anyone who filed a required report late during the most recent fiscal year. Based on our review of forms we received, or written representations from reporting persons stating that they were not required to file these forms, we believe that during fiscal 2014, all Section 16(a) filing requirements were satisfied on a timely basis except for a late Form 4 filing by Michael Stankey.

Potential Payments upon Termination or Change in Control

In May 2012, we adopted a change in control policy applicable to our executive officers and certain other employees. Under the policy, if any executive officer is terminated for any reason other than cause, death or disability within 12 months after a change in control or the officer voluntarily resigns for good reason within 12 months following a change in control, such officer would be entitled to receive severance benefits. Upon the occurrence of such an event, we have agreed to pay to such officer an amount equal to (i) his then-current annual base salary, and (ii) an estimate of the aggregate monthly benefits premium under COBRA for 12 months. In addition, 50% of the shares underlying all unvested equity awards held by such officer immediately prior to such termination will become vested and exercisable in full.

The following table sets forth quantitative estimates of the benefits that would have accrued to our NEOs pursuant to our change in control policy if their employment had been terminated by us without cause or if they experienced a constructive termination, each within 12 months following a change in control as of January 31, 2014.

Indemnification arrangements

Our Certificate of Incorporation contains provisions that limit the liability of our directors for monetary damages to the fullest extent permitted by the Delaware General Corporation Law. Consequently, our directors will not be personally liable to us or our stockholders for monetary damages for any breach of fiduciary duties as directors, except liability for:

any breach of the director's duty of loyalty to us or our stockholders;

any act or omission not in good faith or that involves intentional misconduct or a knowing violation of law;

unlawful payments of dividends or unlawful stock repurchases or redemptions as provided in Section 174 of the Delaware General Corporation Law; or

any transaction from which the director derived an improper personal benefit.

Our Certificate of Incorporation and our Bylaws require us to indemnify our directors and officers to the maximum extent not prohibited by the Delaware General Corporation Law and allow us to indemnify other employees and agents as set forth in the Delaware General Corporation Law. Subject to certain limitations, our Bylaws also require us to advance expenses incurred by our directors and officers for the defense of any action for which indemnification is required or permitted.

We have entered, and intend to continue to enter, into separate indemnification agreements with our directors, officers and certain of our key employees, in addition to the indemnification provided for in our Bylaws. These agreements, among other things, require us to indemnify our directors, officers and key employees for certain expenses, including attorneys' fees, judgments, penalties, fines and settlement amounts actually and reasonably incurred by such director, officer or key employee in any action or proceeding arising out of their service to us or any of our subsidiaries or any other company or enterprise to which the person provides services at our request. Subject to certain limitations, our indemnification agreements also require us to advance expenses incurred by our directors, officers and key employees for the defense of any action for which indemnification is required or permitted.

We believe that these charter provisions and indemnification agreements are necessary to attract and retain qualified persons such as directors, officers and key employees. We also maintain directors' and officers' liability insurance.

The limitation of liability and indemnification provisions in our Certificate of Incorporation and Bylaws may discourage stockholders from bringing a lawsuit against our directors and officers for breach of their fiduciary duty. They may also reduce the likelihood of derivative litigation against our directors and officers, even though an action, if successful, might benefit us and other stockholders. Further, a stockholder's investment may be adversely affected to the extent that we pay the costs of settlement and damage awards against directors and officers as required by these indemnification provisions.

At present, there is no pending litigation or proceeding involving any of our directors or executive officers as to which indemnification is required or permitted, and we are not aware of any threatened litigation or proceeding that may result in a claim for indemnification.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, executive officers or persons controlling us, we have been informed that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.
