NETWORK CN INC.
NOTES TO CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS
(UNAUDITED)

NOTE 1. INTERIM FINANCIAL STATEMENTS

The accompanying unaudited condensed consolidated financial statements of Network CN Inc., its subsidiaries and variable interest entities (collectively “NCN” or the “Company” “we”, “our” or “us”) have been prepared in accordance with generally accepted accounting principles in the United States (“GAAP”) and the rules and regulations of the Securities and Exchange Commission for interim financial information. Accordingly, they do not include all the information and footnotes necessary for a comprehensive presentation of our financial position and results of operations.

The condensed consolidated financial statements for the three and six months ended June 30, 2014 and 2013 were not audited. It is management’s opinion, however, that all material adjustments (consisting of normal recurring adjustments) have been made which are necessary for a fair presentation of financial statements. The results for the interim period are not necessarily indicative of the results to be expected for the full fiscal year. The year-end condensed consolidated balance sheet data was derived from audited financial statements, but does not include all disclosures required by GAAP.

The accompanying unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2013, previously filed with the Securities and Exchange Commission on March 31, 2014.

NOTE 2. ORGANIZATION AND PRINCIPAL ACTIVITIES

Network CN Inc. was originally incorporated on September 10, 1993 in Delaware with headquarters in the Hong Kong Special Administrative Region of the People’s Republic of China (“PRC” or “China”). Since August 2006, the Company has been principally engaged in the provision of out-of-home advertising in China through the operation of a network of roadside LED digital video panels, mega-size LED digital video billboards and light boxes in major cities.

Details of the Company’s principal subsidiaries and variable interest entities as of June 30, 2014 are described in Note 4 – Subsidiaries and Variable Interest Entities.

Going Concern

The Company has experienced recurring net losses of \$2,119,731 and \$1,772,619 for the six months ended June 30, 2014 and 2013, respectively. Additionally, the Company has net cash used in operating activities of \$884,460 and \$190,063 for the six months ended June 30, 2014 and 2013, respectively. As of June 30, 2014 and December 31, 2013, the Company has a stockholders’ deficit of \$8,950,231 and \$7,656,871, respectively. These factors raise substantial doubt about the Company’s ability to continue as a going concern. The Company’s plans regarding those concerns are addressed in the following paragraph. The unaudited condensed consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

In response to current financial conditions, the Company has undergone a drastic cost-cutting exercise, including reduction of the Company’s workforce, office rentals and other general and administrative expenses. The Company has also continued to strengthen its sales force in order to increase its sales volume. In addition, since the latter half of

2011, the Company has expanded our focus from LED media and has actively explored new prominent media projects in order to provide a wider range of media and advertising services and improve our financial performance.

The Company recently secured a new media project in China but the Company has not yet started to generate revenue. Co-operation agreements were signed for the media project. If the projects can start to operate, the Company expects that these projects will improve the Company's future financial performance. The Company expects that the new projects can generate positive cashflow to the Company.

Table of Contents

In February 2014, the Company completed three private placements of 7.5 million shares of restricted common stock at \$0.1 per share. The transaction took place with three investors and generated gross proceeds of \$750,000 which can fund the Company's operation. The Company received gross proceeds of \$750,000 during the six months ended June 30, 2014. In March 2014, the Company and the 1% Convertible Promissory Notes respective holders agreed to extend the maturity date of the 1% Convertible Promissory Notes for a period of two years.

The existing cash and cash equivalents together with highly liquid current assets are insufficient to fund the Company's operations for the next twelve months. The Company will need to rely upon some combination of cash generated from the Company's operations, the proceeds from the potential exercise of the outstanding option held by Keywin Holdings Limited ("Keywin") to purchase \$2 million in shares of the Company's common stock, or proceeds from the issuance of the Company's equity and debt securities as well as the exercise of the conversion option by the Company's note holders to convert the notes to the Company's common stock, in order to maintain the Company's operations. Based on the Company's best estimates, the Company believes that there are sufficient financial resources to meet the cash requirements for the coming twelve months and the consolidated financial statements have been prepared on a going concern basis. However, there can be no assurance the Company will be able to continue as a going concern.

NOTE 3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(A) Basis of Presentation and Preparation

The unaudited condensed consolidated financial statements of the Company have been prepared in conformity with GAAP.

These unaudited condensed consolidated financial statements were prepared on a going concern basis. The Company has determined that the going concern basis of preparation is appropriate based on its estimates and judgments of future performance of the Company, future events and projected cash flows. At each balance sheet date, the Company evaluates its estimates and judgments as part of its going concern assessment. Based on its assessment, the Company believes there are sufficient financial and cash resources to finance the Company as a going concern in the next twelve months. Accordingly, management has prepared the unaudited condensed consolidated financial statements on a going concern basis.

(B) Principles of Consolidation

The unaudited condensed consolidated financial statements include the financial statements of Network CN Inc., its subsidiaries and its variable interest entities for which it is the primary beneficiary. A variable interest entity is an entity in which the Company, through contractual arrangements, bears the risks and enjoys the rewards normally associated with ownership of the entity. Upon making this determination, the Company is deemed to be the primary beneficiary of the entity, which is then required to be consolidated for financial reporting purposes. All significant intercompany transactions and balances have been eliminated upon consolidation.

(C) Use of Estimates

In preparing unaudited condensed consolidated financial statements in conformity with GAAP, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates. Differences from those estimates are reported in the period they become known and are disclosed to the extent they are material to the unaudited condensed consolidated financial statements taken as a whole.

(D) Cash and Cash Equivalents

Cash includes cash on hand, cash accounts, and interest bearing savings accounts placed with banks and financial institutions. For the purposes of the statements of cash flows, the Company considers all highly liquid investments with original maturities of three months or less at the time of purchase to be cash equivalents. As of June 30, 2014 and December 31, 2013, the Company had no cash equivalents.

Table of Contents

(E) Allowance for Doubtful Debts

Allowance for doubtful debts is made against receivables to the extent they are considered to be doubtful. Receivables in the unaudited condensed consolidated balance sheet are stated net of such allowance. The Company records its allowance for doubtful debts based upon its assessment of various factors. The Company considers historical experience, the age of the receivable balances, the credit quality of its customers, current economic conditions, and other factors that may affect customers' ability to pay to determine the level of allowance required.

(F) Prepayments for Advertising Operating Rights, Net

Prepayments for advertising operating rights are measured at cost less accumulated amortization and impairment losses. Cost includes prepaid expenses directly attributable to the acquisition of advertising operating rights. Such prepaid expenses are, in general, charged to the unaudited condensed consolidated statements of operations on a straight-line basis over the operating period. All the costs expected to be amortized after twelve months of the balance sheet date are classified as non-current assets.

An impairment loss is recognized when the carrying amount of the prepayments for advertising operating rights exceeds the sum of the undiscounted cash flows expected to be generated from the advertising operating right's use and eventual disposition. An impairment loss is measured as the amount by which the carrying amount exceeds the fair value of the asset calculated using a discounted cash flow analysis.

(G) Equipment, Net

Equipment is stated at cost less accumulated depreciation and impairment losses, if any. Depreciation is provided on a straight-line basis over the assets' estimated useful lives. The estimated useful lives are as follows:

Media display equipment	5 - 7 years
Office equipment	3 - 5 years
Furniture and fixtures	3 - 5 years
Motor vehicles	5 years
Leasehold improvements	Over the unexpired lease terms

Construction in progress is carried at cost less impairment losses, if any. It relates to construction of media display equipment. No provision for depreciation is made on construction in progress until the relevant assets are completed and put into use.

When equipment is retired or otherwise disposed of, the related cost, accumulated depreciation and provision for impairment loss, if any are removed from the respective accounts, and any gain or loss is reflected in the unaudited condensed consolidated statements of operations. Repairs and maintenance costs on equipment are expensed as incurred.

(H) Impairment of Long-Lived Assets

Long-lived assets, such as equipment, are reviewed for impairment whenever events or changes in circumstance indicate that the carrying amount of the assets may not be recoverable. An impairment loss is recognized when the carrying amount of a long-lived asset exceeds the sum of the undiscounted cash flows expected to be generated from the asset's use and eventual disposition. An impairment loss is measured as the amount by which the carrying amount exceeds the fair value of the asset calculated using a discounted cash flow analysis.

(I) Convertible Promissory Notes

1) Debt Restructuring and Issuance of 1% Convertible Promissory Note

On April 2, 2009, the Company issued 1% unsecured senior convertible promissory notes to the previous 3% convertible promissory note holders who agreed to cancel these 3% convertible promissory notes in the principal amount of \$5,000,000 (including all accrued and unpaid interest thereon), and all of the warrants, in exchange for the 1% unsecured senior convertible promissory notes in the principal amount of \$5,000,000. The 1% convertible promissory notes bear interest at 1% per annum, payable semi-annually in arrears, mature on April 1, 2012, and are convertible at any time into shares of the Company's common stock at a fixed conversion price of \$0.1163 per share, subject to customary anti-dilution adjustments. Pursuant to ASC Topic 470-50 and ASC Topic 470-50-40, the Company determined that the original convertible notes and the 1% convertible notes were with substantially different terms and hence the exchange was recorded as an extinguishment of original notes and issuance of new notes.

Table of Contents

The Company determined the 1% convertible promissory notes to be conventional convertible instruments under ASC Topic 815-40-25. Its embedded conversion option qualified for equity classification pursuant to ASC Topic 815-40, and ASC Topic 815-10-15-74. The embedded beneficial conversion feature was recognized and measured by allocating a portion of the proceeds equal to the intrinsic value of that feature to additional paid-in capital. The debt discount resulting from the allocation of proceeds to the beneficial conversion feature is amortized over the term of the 1% convertible promissory notes from the respective dates of issuance using the effective interest method.

2) Extension of 1% Convertible Promissory Note

The 1% convertible promissory notes matured on April 1, 2012 and on the same date, the Company and the note holders agreed to the following: 1) extension of the maturity date of the 1% convertible promissory notes for a period of two years and 2) modification of the 1% convertible promissory notes to be convertible at any time into shares of the Company's common stock at a conversion price of \$0.09304 per share, subject to customary anti-dilution adjustments. In all other respects not specifically mentioned, the terms of the 1% convertible promissory notes remain the same and are fully enforceable in accordance with their terms. Subsequently, the Company issued new 1% convertible promissory notes matured on April 1, 2014 to the note holders. Pursuant to ASC Topic 470-50-40-10, the Company determined that the modification is substantially different and hence the modification was recorded as an extinguishment of notes and issuance of new notes. Pursuant to ASC Topic 470-20-40-3, the Company allocated the amount of the reacquisition price to the repurchased beneficial conversion feature using the intrinsic value of that conversion feature at the extinguishment date and the residual amount was allocated to the convertible security. Thus, the Company recorded a gain on extinguishment of debt. The 1% Convertible Promissory Notes matured on April 1, 2014 and on March 12, 2014, the Company and the respective holders agreed to extend the maturity date of the 1% Convertible Promissory Notes for a period of two years. In all other respects not specifically mentioned, the terms of the 1% Convertible Promissory Notes shall remain the same and shall be fully enforceable in accordance with its terms. Subsequently, the Company issued new 1% convertible promissory notes will mature on April 1, 2016. Pursuant to ASC Topic 470-20-40-3, the Company allocated the amount of the reacquisition price to the repurchased beneficial conversion feature using the intrinsic value of that conversion feature at the extinguishment date and the residual amount was allocated to the convertible security. Thus, the Company recorded no gain or loss on extinguishment of debt.

The Company determined the modified new 1% convertible promissory notes to be conventional convertible instruments under ASC Topic 815-40-25. Its embedded conversion option was qualified for equity classification pursuant to ASC Topic 815-40, and ASC Topic 815-10-15-74. The embedded beneficial conversion feature was recognized and measured by allocating a portion of the proceeds equal to the intrinsic value of that feature to additional paid-in capital. The debt discount resulting from the allocation of proceeds to the beneficial conversion feature is amortized over the term of the new 1% convertible promissory notes from the respective dates of issuance using the effective interest method.

(J) Revenue Recognition

The Company recognizes revenue in the period when advertisements are either aired or published.

(K) Stock-based Compensation

The Company follows ASC Topic 718, using a modified prospective application transition method, which establishes accounting for stock-based awards in exchange for employee services. Under this application, the Company is required to record stock-based compensation expense for all awards granted after the date of adoption and unvested awards that were outstanding as of the date of adoption. ASC Topic 718 requires that stock-based compensation cost is measured at grant date, based on the fair value of the award, and recognized as expense over the requisite services

period.

10

Table of Contents

Common stock, stock options and warrants issued to other than employees or directors in exchange for services are recorded on the basis of their fair value, as required by ASC Topic 718. In accordance with ASC Topic 505-50, the non-employee stock options or warrants are measured at their fair value by using the Black-Scholes option pricing model as of the earlier of the date at which a commitment for performance to earn the equity instruments is reached (“performance commitment date”) or the date at which performance is complete (“performance completion date”). The stock-based compensation expenses are recognized on a straight-line basis over the shorter of the period over which services are to be received or the vesting period. Accounting for non-employee stock options or warrants which involve only performance conditions when no performance commitment date or performance completion date has occurred as of reporting date requires measurement at the equity instruments then-current fair value. Any subsequent changes in the market value of the underlying common stock are reflected in the expense recorded in the subsequent period in which that change occurs.

(L) Income Taxes

The Company accounts for income taxes under ASC Topic 740. Under ASC Topic 740, deferred tax assets and liabilities are provided for the future tax effects attributable to temporary differences between the financial statement carrying amounts of assets and liabilities and their respective tax bases, and for the expected future tax benefits from items including tax loss carry forwards.

Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or reversed. Under ASC Topic 740, the expense or benefit related to adjusting deferred tax assets and liabilities as a result of a change in tax rates is recognized in income or loss in the period that includes the enactment date.

(M) Comprehensive Income (Loss)

The Company follows ASC Topic 220 for the reporting and display of its comprehensive income (loss) and related components in the financial statements and thereby reports a measure of all changes in equity of an enterprise that results from transactions and economic events other than transactions with the shareholders. Items of comprehensive income (loss) are reported in the unaudited condensed consolidated statements of operations and comprehensive loss.

Accumulated other comprehensive income as presented on the condensed consolidated balance sheets consisted of the accumulative foreign currency translation adjustment at period end.

(N) Earnings (Loss) Per Common Share

Basic earnings (loss) per common share are computed in accordance with ASC Topic 260 by dividing the net income (loss) attributable to holders of common stock by the weighted average number of shares of common stock outstanding during the period. Diluted earnings (loss) per share is computed by dividing net income (loss) by the weighted average number of common shares including the dilutive effect of common share equivalents then outstanding.

The diluted net loss per share is the same as the basic net loss per share for the three months and six months ended June 30, 2014 and 2013, as all potential ordinary shares including stock options and warrants are anti-dilutive and are therefore excluded from the computation of diluted net loss per share.

(O) Operating Leases

Leases where substantially all the rewards and risks of ownership of assets remain with the leasing company are accounted for as operating leases. Payments made under operating leases are charged to the unaudited condensed consolidated statements of operations on a straight-line basis over the lease period.

Table of Contents

(P) Capital Leases

Leases are classified as capital leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to lessee. Assets held under capital leases are initially recognized as assets at their fair value or, if lower, the present value of the minimum lease payments. Each lease payment is allocated between the liability and finance charges so as to achieve a constant rate on the finance balance outstanding. The interest elements of the finance cost is charged to the unaudited condensed consolidated statements of operations over the lease period so as to produce a constant rate of interest on the remaining balance of the liability for each period. The equipment acquired under finance leases is depreciated over the shorter of the useful life of the asset and the lease term.

(Q) Foreign Currency Translation

The assets and liabilities of the Company's subsidiaries and variable interest entity denominated in currencies other than U.S. dollars are translated into U.S. dollars using the applicable exchange rates at the balance sheet date. For unaudited condensed consolidated statements of operations' items, amounts denominated in currencies other than U.S. dollars were translated into U.S. dollars using the average exchange rate during the period. Equity accounts were translated at their historical exchange rates. Net gains and losses resulting from translation of foreign currency financial statements are included in the statements of stockholders' equity as accumulated other comprehensive income (loss). Foreign currency transaction gains and losses are reflected in the unaudited condensed consolidated statements of operations.

(R) Fair Value of Financial Instruments

ASC Topic 820 defines fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities required or permitted to be recorded at fair value, the Company considers the principal or most advantageous market in which it would transact and it considers assumptions that market participants would use when pricing the asset or liability.

ASC Topic 820 establishes a fair value hierarchy that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. ASC Topic 820 establishes three levels of inputs that may be used to measure fair value:

Level 1 - Level 1 applies to assets or liabilities for which there are quoted prices in active markets for identical assets or liabilities.

Level 2 - Level 2 applies to assets or liabilities for which there are inputs other than quoted prices included within Level 1 that are observable for the asset or liability such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in markets with insufficient volume or infrequent transactions (less active markets); or model-derived valuations in which significant inputs are observable or can be derived principally from, or corroborated by, observable market data.

Level 3 - Level 3 applies to assets or liabilities for which there are unobservable inputs to the valuation methodology that are significant to the measurement of the fair value of the assets or liabilities.

The carrying value of the Company's financial instruments, which consist of cash, accounts receivable, prepayments for advertising operating rights, prepaid expenses and other current assets, accounts payable, accrued expenses and other payables, and convertible promissory notes approximates fair value due to the short-term maturities.

(S) Concentration of Credit Risk

The Company places its cash with various financial institutions. The Company believes that no significant credit risk exists as these cash investments are made with high-credit-quality financial institutions.

All the revenue of the Company and a significant portion of the Company's assets are generated and located in China. The Company's business activities and accounts receivable are mainly from advertising services. Deposits are usually collected from customers in advance and the Company performs ongoing credit evaluation of its customers. The Company believes that no significant credit risk exists as credit loss.

Table of Contents

The Company is engaged in the provision of out-of-home advertising in China. As of June 30, 2014 and December 31, 2013, one customer accounted for approximately 95% and 96% of its accounts receivable balances, respectively. Due to the longstanding nature of its relationships with this customer and contractual obligations, the Company is confident that it will recover these amounts. The Company establishes an allowance for doubtful debts accounts upon its assessment of various factors. The Company considers historical experience, the age of the receivable balances, the credit quality of its customers, current economic conditions, and other factors that may affect customers' ability to pay to determine the level of allowance required.

(T) Segmental Reporting

ASC Topic 280 establishes standards for reporting information about operating segments on a basis consistent with the Company's internal organization structure as well as information about geographical areas, business segments and major customers in financial statements. The Company's operating segments are organized internally primarily by the type of services rendered. Accordingly, it is management's view that the services rendered by the Company are of one operating segment: Media Network.

(U) Recent Accounting Pronouncements

In February 2013, FASB has issued ASU No. 2013-02, Comprehensive Income (Topic 220): Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income. This amendment improves the transparency of reporting these reclassifications. Other comprehensive income includes gains and losses that are initially excluded from net income for an accounting period. Those gains and losses are later reclassified out of accumulated other comprehensive income into net income. The amendments do not change the current requirements for reporting net income or other comprehensive income in financial statements. All of the information that this ASU requires already is required to be disclosed elsewhere in the financial statements under U.S. GAAP. The adoption of ASU No. 2013-02 did not have a material impact on our financial statements.

In March 2013, FASB has issued ASU No. 2013-05, Foreign Currency Matters (Topic 830). ASU No. 2013-05 is intended to clarify the parent's accounting for the cumulative translation adjustment upon the sale or transfer of a group of assets within a consolidated foreign entity. When a parent ceases to have a controlling financial interest in a subsidiary or group of assets within a foreign entity, the parent is required to release any related cumulative translation adjustment into Net income. ASU No. 2013-05 further clarifies the cumulative translation adjustment should be released into Net income only if the sale or transfer results in the complete or substantially complete liquidation of the foreign entity in which the subsidiary or group of assets had resided. ASU No. 2013-05 also clarifies application of this guidance to step acquisitions. ASU No. 2013-05 is effective prospectively for fiscal years beginning after December 15, 2013, with early adoption permitted. The adoption of ASU No. 2013-05 did not have a material impact on our financial statements.

In July 2013, the FASB issued changes to the presentation of an unrecognized tax benefit when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists. These changes require an entity to present an unrecognized tax benefit as a liability in the financial statements if (i) a net operating loss carryforward, a similar tax loss, or a tax credit carryforward is not available at the reporting date under the tax law of the applicable jurisdiction to settle any additional income taxes that would result from the disallowance of a tax position, or (ii) the tax law of the applicable jurisdiction does not require the entity to use, and the entity does not intend to use, the deferred tax asset to settle any additional income taxes that would result from the disallowance of a tax position. Otherwise, an unrecognized tax benefit is required to be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward. Previously, there was diversity in practice as no explicit guidance existed. These changes become effective for the Company on January 1, 2014. Management has determined that the adoption of these changes did not have a significant impact on our financial

statements.

In May 2014, the FASB issued a converged final standard on the recognition of revenue from contracts with customers. This updated guidance provides a framework for addressing revenue recognition issues and replaces almost all existing revenue recognition guidance in current U.S. generally accepted accounting principles. The core principle of the new standard is for companies to recognize revenue to depict the transfer of goods or services to customers in amounts that reflect the consideration to which the Company expects to be entitled in exchange for those goods or services. The new standard will also result in enhanced disclosures about revenue, provide guidance for transactions that were not previously addressed comprehensively, and improve guidance for multiple-element arrangements. This guidance is effective for interim and annual periods beginning after December 15, 2016. Management has not yet evaluated the future impact of this guidance on the Company's financial position, results of operations or cash flows.

NOTE 10. CONVERTIBLE PROMISSORY NOTES AND WARRANTS

(1) Debt Restructuring and Issuance of 1% Convertible Promissory Notes

On November 19, 2007, the Company entered into a Note and Warrant Purchase Agreement, as amended (the "Purchase Agreement") with Shanghai Quo Advertising Co. Ltd and affiliated investment funds of Och-Ziff Capital Management Group (the "Investors") pursuant to which it agreed to issue in three tranches, 3% Senior Secured Convertible Promissory Notes due June 30, 2011, in the aggregate principal amount of up to \$50,000,000 (the "3% Convertible Promissory Notes") and warrants to acquire an aggregate amount of 6,857,143 shares of the Company's Common Stock (the "Warrants"). Between November 19 - 28, 2007, the Company issued 3% Convertible Promissory Notes in the aggregate principal amount of \$15,000,000, Warrants to purchase shares of the Company's common stock at \$12.50 per share and Warrants to purchase shares of the Company's common stock at \$17.50 per share. On January 31, 2008, the Company amended and restated the previously issued 3% Convertible Promissory Notes and issued to the Investors 3% Convertible Promissory Notes in the aggregate principal amount of \$50,000,000 (the "Amended and Restated Notes"), Warrants to purchase shares of the Company's common stock at \$12.50 per share and Warrants to purchase shares of the Company's common stock at \$17.50 per share. In connection with the Amended and Restated Notes, the Company entered into a Security Agreement, dated as of January 31, 2008 (the "Security Agreement"), pursuant to which the Company granted to the collateral agent for the benefit of the Investors, a first-priority security interest in certain of the Company's assets, and 66% of the equity interest in the Company.

On April 2, 2009, the Company entered into a new financing arrangement with the previous holders of the Amended and Restated Notes (the "Note Holders"), and Keywin.

Pursuant to a note exchange and option agreement, dated April 2, 2009 (the "Note Exchange and Option Agreement"), between the Company and Keywin, Keywin exchanged its Amended and Restated Note in the principal amount of \$45,000,000, and all accrued and unpaid interest thereon, for 61,407,093 shares of the Company's common stock and an option to purchase an aggregate of 24,562,837 shares of the Company's common stock, for an aggregate purchase price of \$2,000,000 (the "Keywin Option"). The Keywin Option was originally exercisable for a three-month period which commenced on April 2, 2009, but pursuant to several subsequent amendments, the exercise period has been extended to a sixty-nine-month period ending on January 1, 2015, subject to the Company's right to unilaterally terminate the exercise period upon 30 days' written notice. As of June 30, 2014, the Keywin Option has not been

exercised.

Pursuant to a note exchange agreement, dated April 2, 2009, among the Company and the Note Holders, the parties agreed to cancel their Amended and Restated Notes in the principal amount of \$5,000,000 (including all accrued and unpaid interest thereon), and all of the warrants, in exchange for the Company's issuance of the 1% unsecured senior convertible promissory notes due 2012 in the principal amount of \$5,000,000 (the "1% Convertible Promissory Notes"). The 1% Convertible Promissory Notes bear interest at 1% per annum, are payable semi-annually in arrears, mature on April 1, 2012, and are convertible at any time by the holder into shares of the Company's common stock at an initial conversion price of \$0.1163 per share, subject to customary anti-dilution adjustments. In addition, in the event of a default, the holders will have the right to redeem the 1% Convertible Promissory Notes at 110% of the principal amount, plus any accrued and unpaid interest. The parties also agreed to terminate the Security Agreement and release all security interests arising out of the Purchase Agreement and the Amended and Restated Notes.

Table of Contents

2) Extension of 1% Convertible Promissory Notes and Issuance of New 1% Convertible Promissory Notes

The 1% Convertible Promissory Notes matured on April 1, 2012 and on the same date, the Company and the Note Holders agreed to the following: (1) extension of the maturity date of the 1% Convertible Promissory Notes for a period of two years and (2) modification of the 1% Convertible Promissory Notes to be convertible at any time into shares of the Company's common stock at a conversion price of \$0.09304 per share, subject to customary anti-dilution adjustments. In all other respects not specifically mentioned, the terms of the 1% Convertible Promissory Notes shall remain the same and shall be fully enforceable in accordance with its terms. Subsequently, the Company issued new 1% convertible promissory notes (the "New 1% Convertible Promissory Notes") to the Note Holders. The New 1% Convertible Promissory Notes bear interest at 1% per annum, are payable semi-annually in arrears, mature on April 1, 2014, and are convertible at any time by the Note Holders into shares of the Company's common stock at an initial conversion price of \$0.09304 per share, subject to customary anti-dilution adjustments. In addition, in the event of a default, the Note Holders will have the right to redeem the New 1% Convertible Promissory Notes at 110% of the principal amount, plus any accrued and unpaid interest.

Gain on extinguishment of debt

Pursuant to ASC Topic 470-20-40-3, the Company allocated the amount of the reacquisition price to the repurchased beneficial conversion feature using the intrinsic value of that conversion feature at the extinguishment date and the residual amount was allocated to the convertible security. Thus, the Company recognized a gain on extinguishment of debt of \$1,877,594 at the date of extinguishment and included in the statements of operations for the year ended December 31, 2012.

3) Extension of 1% Convertible Promissory Notes in 2014

The 1% Convertible Promissory Notes matured on April 1, 2014 and on March 12, 2014, the Company and the respective holders agreed to extend the maturity date of the 1% Convertible Promissory Notes for a period of two years. In all other respects not specifically mentioned, the terms of the 1% Convertible Promissory Notes shall remain the same and shall be fully enforceable in accordance with its terms.

Pursuant to ASC Topic 470-50 and ASC Topic 470-50-40, the Company determined that the original convertible notes and the modified convertible notes had substantially different terms and hence the fair value of the embedded beneficial conversion feature of the modified convertible notes, which would be recognized and measured by allocating a portion of the proceeds equal to the intrinsic value of that feature to additional paid-in capital and any debt discount will be amortized over the term of the modified convertible notes from the effective date of the new agreement using the effective interest method. As of April 1, 2014, the Company determined the fair value of the embedded beneficial conversion feature of the modified convertible notes is \$nil.

No gain or loss on extinguishment of debt

Pursuant to ASC Topic 470-20-40-3, the Company allocated the amount of the reacquisition price to the repurchased beneficial conversion feature using the intrinsic value of that conversion feature at the extinguishment date and the residual amount was allocated to the convertible security. Thus, the Company recognized no gain or loss on extinguishment of debt at the date of extinguishment for the period ended June 30, 2014.

3. Capital commitments

As of June 30, 2014, the Company had commitments for capital expenditures in connection with construction of roadside advertising panels and mega-size advertising panels as well as the leasehold improvement of approximately \$29,000.

(B) Contingencies

The Company accounts for loss contingencies in accordance with ASC Topic 450 and other related guidelines. Set forth below is a description of certain loss contingencies as of June 30, 2014 and management's opinion as to the likelihood of loss in respect of loss contingency.

On July 5, 2013, Yi Gao received a notice from the People's Court of Huangpu District, Shanghai that Shanghai Shenpu Advertising Co. Ltd ("Shenpu"), as plaintiff, had initiated a contract dispute against Yi Gao seeking an aggregate of RMB1,807,215 (equivalent to approximately US\$291,000 at the then-prevailing exchange rate) for unpaid rights fee, penalty and production cost. On August 7, 2013, Yi Gao received a court verdict from the People's Court of Huangpu District, Shanghai that Yi Gao is liable to repay the unpaid fee of RMB650,000, penalty and production cost. On August 26, 2013, Yi Gao submitted an appeal to People's Court of Huangpu District, Shanghai that the penalty calculated is not reasonable. On November 13, 2013, Yi Gao withdrew the appeal. As a result, Yi Gao is liable to pay an aggregate of RMB765,463 (equivalent to approximately US\$124,870 at the then-prevailing exchange rate) to Shenpu. On February 19, 2014, Yi Gao paid RMB45,221 to Shenpu.

NOTE 12. STOCKHOLDERS' DEFICIT

(A) Stock, Options and Warrants Issued for Services

1. In August 2006, the Company issued a warrant to purchase up to 20,000 shares of restricted common stock to a consultant at an exercise price \$3.50 per share. One-fourth of the shares underlying the warrant became exercisable every 45 days beginning from the date of issuance. The warrant remains exercisable until August 25, 2016. The fair market value of the warrant was estimated on the grant date using the Black-Scholes option pricing model as with the following assumptions and estimates: expected dividend 0%, volatility 192%, a risk-free rate of 4.5% and an expected life of one (1) year. The value of the warrant recognized for the three months ended March 31, 2012 and 2011 were \$nil. As of June 30, 2014, none of the warrant was exercised.

2. In July 2012, the Board of Directors granted an aggregate of 360,000 shares of common stock to the independent directors of the Company for their services rendered during the year from July 1, 2012 to June 30, 2013. Each independent director was granted shares of the Company's common stock subject to a vesting period of twelve months in the following amounts: Ronald Lee, 120,000 shares; Gerald Godfrey, 120,000 shares; and Charles Liu, 120,000 shares. In connection with these stock grants and in accordance with ASC Topic 718, the Company recognized \$nil and \$11,100 of non-cash stock-based compensation included in general and administrative expenses on the unaudited condensed consolidated statements of operation for the three months ended June 30, 2014 and 2013, respectively, while during the six months ended June 30, 2014 and 2013 such amounts were \$nil and \$24,050, respectively. Ronald Lee resigned from his position as a director of the Company effective on February 1, 2013 and the Company reversed \$12,950 of the non-cash stock-based compensation included in general and administrative expenses on the unaudited condensed consolidated statements of operation for the six months ended June 30, 2013.

3. In September 2012, the Company entered into a financial public relations agreement with a consultant. Pursuant to the agreement, the consultant was granted 700,000 shares of common stock for the service rendered. During 2013, the Company issued 100,000 shares of par value of \$0.001 to the consultant. In connection with these stock grants and in

NOTE 13. RELATED PARTY TRANSACTIONS

Except as set forth below, during the three and six months ended June 30, 2014 and 2013, the Company did not enter into any material transactions or series of transactions that would be considered material in which any officer, director or beneficial owner of 5% or more of any class of the Company's capital stock, or any immediate family member of any of the preceding persons, had a direct or indirect material interest.

In April 2009, in connection with debt restructuring, Statezone Ltd. of which Dr. Earnest Leung, the Company's Chief Executive Officer and a Director (being appointed on July 15, 2009 and May 11, 2009 respectively) was the sole director, provided agency and financial advisory services to the Company. Accordingly, the Company paid an aggregate service fee of \$350,000 of which \$250,000 has been recorded as issuance costs for 1% Convertible

Promissory Notes and \$100,000 has been recorded as prepaid expenses and other current assets, net since April 2009. Such \$100,000 is refundable unless the Keywin Option is exercised and completed.

Table of Contents

On July 1, 2009, the Company and Keywin, of which the Company's chief executive officer and director is the director and his spouse is the sole shareholder, entered into an Amendment, pursuant to which the Company agreed to extend the exercise period for the Keywin Option under the Note Exchange and Option Agreement between the Company and Keywin, to purchase an aggregate of 24,562,837 shares of our common stock for an aggregate purchase price of \$2,000,000, from a three-month period ended on July 1, 2009, to a six-month period ended October 1, 2009. The exercise period for the Keywin option was subsequently further extended to a nine-month period ended January 1, 2010, pursuant to the Second Amendment. On January 1, 2010, the Company and Keywin entered into the third Amendment, pursuant to which the Company agreed to further extend the exercise period to an eighteen-month period ended on October 1, 2010, and provide the Company with the right to unilaterally terminate the exercise period upon 30 days' written notice. On September 30, 2010, the exercise period for the Keywin Option was further extended to a twenty-seven-month period ended on June 30, 2011. On June 1, 2011, the exercise period for the Keywin Option was further extended to a thirty-three-month period ending on January 1, 2012. On December 30, 2011, the exercise period for the Keywin Option was further extended to a thirty-nine-month period ending on July 1, 2012. On June 28, 2012, the exercise period for the Keywin Option was further extended to a forty-five-month period ending on January 1, 2013. On December 28, 2012, the exercise period for the Keywin Option was further extended to a fifty-seven-month period ending on January 1, 2014. On December 31, 2013, the exercise period for the Keywin Option was further extended to a sixty-nine-month period ending on January 1, 2015.

During the six months ended June 30, 2014 and 2013, the Company repaid loans of \$85,244 and \$13,050 to its director, respectively. As of June 30, 2014 and December 31, 2013, the Company recorded an amount of \$nil and \$85,245 payable to director. Such payable was included in accounts payable, accrued expenses and other payables on the unaudited condensed consolidated balance sheets. The amount is unsecured, bears no interest and is repayable on demand.

NOTE 14. NET LOSS PER COMMON SHARE

Net loss per common share information for the three and six months ended June 30, 2014 and 2013 was as follows:

	Three Months Ended		Six Months Ended	
	June 30, 2014	June 30, 2013	June 30, 2014	June 30, 2013
Numerator:

Overview of Our Business

Our mission is to become a nationwide leader in providing out-of-home advertising in China, primarily serving the needs of branded corporate customers. We seek to acquire rights to install and operate roadside advertising panels and mega-size advertising panels in the major cities in China. In most cases, we are responsible for installing advertising panels, although in some cases, advertising panels might have already been installed, and we will be responsible for operating and maintaining the panels. Once the advertising panels are put into operation, we sell advertising airtime to our customers directly. Since late 2006, we have been operating an advertising network of roadside LED digital video panels, mega-size LED digital video billboards and light boxes in major Chinese cities. Light Emitting Diode, or LED, technology has evolved to become a new and popular form of advertising in China, capable of delivering crisp, super-bright images both indoors and outdoors. During 2013, we extended our business direction to not just selling air-time for its media panels but also started working closely with property developers in media planning for the property at the very early stage. As a media planner we share the advertising profits with the property developers without paying significant rights fees, so we expect to achieve a positive return from these projects.

Total advertising revenues were \$463,518 and \$556,955 for the six months ended June 30, 2014 and 2013, respectively, and we have net loss of \$2,119,731 and 1,772,619 for the six months ended June 30, 2014 and 2013, respectively. Our results of operations were negatively affected by a variety of factors, which led to less than expected revenues and cash inflows during the fiscal year 2014, including the following:

- 1 slower economic growth in PRC;
 - 1 the rising costs to acquire advertising rights due to competition among bidders for those rights;
 - 1 slower than expected consumer acceptance of the digital form of advertising media;
 - 1 strong competition from other media companies; and
- 1 many customers continued to be cost-conscious in their advertising budget especially on our new digital form of media.

To address these unfavorable market conditions, we continue to implement cost-cutting measures, including reductions in our workforce, office rentals, selling and marketing related expenses and other general and administrative expenses. We have also re-assessed the commercial viability of each of our concession rights contracts and have terminated those that we determined were no longer commercially viable due to high annual fees. Management has also successfully negotiated some reductions in advertising operating rights fees under the remaining contracts. Since the latter half of 2011, we have expanded our focus from LED media and have actively explored new prominent media projects in order to provide a wider range of media and advertising services and improve our financial performance.

For more information relating to our business, please refer to Part I, “Item 1 - Business” of our Annual Report on Form 10-K for the fiscal year ended December 31, 2013.

Recent Development

Extension of Convertible Promissory Notes

23

Table of Contents

On November 19, 2007, the Company entered into a Note and Warrant Purchase Agreement, as amended (the “Purchase Agreement”) with Shanghai Quo Advertising Co. Ltd and affiliated investment funds of Och-Ziff Capital Management Group (the “Investors”) pursuant to which it agreed to issue in three tranches, 3% Senior Secured Convertible Promissory Notes due June 30, 2011, in the aggregate principal amount of up to \$50,000,000 (the “3% Convertible Promissory Notes”) and warrants to acquire an aggregate amount of 6,857,143 shares of the Company’s Common Stock (the “Warrants”). Between November 19 - 28, 2007, the Company issued 3% Convertible Promissory Notes in the aggregate principal amount of \$15,000,000, Warrants to purchase shares of the Company’s common stock at \$12.50 per share and Warrants to purchase shares of the Company’s common stock at \$17.50 per share. On January 31, 2008, the Company amended and restated the previously issued 3% Convertible Promissory Notes and issued to the Investors 3% Convertible Promissory Notes in the aggregate principal amount of \$50,000,000 (the “Amended and Restated Notes”), Warrants to purchase shares of the Company’s common stock at \$12.50 per share and Warrants to purchase shares of the Company’s common stock at \$17.50 per share. In connection with the Amended and Restated Notes, the Company entered into a Security Agreement, dated as of January 31, 2008 (the “Security Agreement”), pursuant to which the Company granted to the collateral agent for the benefit of the Investors, a first-priority security interest in certain of the Company’s assets, and 66% of the equity interest in the Company.

On April 2, 2009, we entered into the Note Exchange Agreement with certain Investors, pursuant to which the parties agreed to cancel the Amended and Restated Notes in the principal amount of \$5 million held by such Investors (including accrued and unpaid interest thereon), and all the Warrants, in exchange for our issuance of 1% Unsecured Senior Convertible Notes due 2012 in the principal amount of \$5 million, or the 1% Convertible Promissory Notes. The 1% Convertible Promissory Notes bear interest at 1% per annum, are payable semi-annually in arrears, and matured on April 1, 2012. They are convertible at any time into shares of our common stock at an initial conversion price of \$0.1163 per share, subject to customary anti-dilution adjustments. In the event of a default, the Note Holders have the right to redeem the 1% Convertible Promissory Notes at 110% of the principal amount, plus any accrued and unpaid interest. The parties also agreed to terminate the Security Agreement and release all security interests arising out of the Purchase Agreement and the Amended and Restated Notes.

The 1% Convertible Promissory Notes matured on April 1, 2012 and the Company issued new 1% convertible promissory notes (the “New 1% Convertible Promissory Notes”) to the Note Holders. The New 1% Convertible Promissory Notes bear interest at 1% per annum, are payable semi-annually in arrears, mature on April 1, 2014, and are convertible at any time by the Note Holders into shares of the Company’s common stock at an initial conversion price of \$0.09304 per share, subject to customary anti-dilution adjustments. In addition, in the event of a default, the Note Holders will have the right to redeem the New 1% Convertible Promissory Notes at 110% of the principal amount, plus any accrued and unpaid interest. On March 12, 2014, the Company and Note Holders agreed to extend the maturity date of the New 1% Convertible Promissory Notes to April 1, 2016 with other terms remaining unchanged.

Completes Additional Private Placement

On February 24, 2014, the Company completed three private placements of 7.5 million shares of restricted common stock at \$0.1 per share. The transaction took place with three investors and generated gross proceeds of \$750,000 during the period ended June 30, 2014. Net proceeds from the financing will be used for general corporate purposes including initiation of activities related to the Company's proposed business in China.

The offering was made pursuant to an exemption from registration with the SEC pursuant to Regulation S. The securities have not been registered under the Securities Act of 1933 or any state securities laws and unless so registered may not be offered or sold in the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act of 1933 and applicable state securities laws. The Company did not grant any registration rights to the new shareholders with respect to the Shares in the offering.

New Advertising Media Projects

In February 2014, we entered into a Cross Selling Agreement with Grand Vision Media Limited (“Grand Vision”) to cross sell our respective products. Grand Vision has its well-established sales team in Beijing, Guangzhou and Hong Kong, and we believe that we can leverage their sales force and enlarge our customer base. Grand Vision has the exclusive rights to operate the advertising panels at “Stellar International Theater Chain” theaters and they plan to install glasses-free 3D LED panels. At present, Stellar International Cineplex has established 56 modern cineplexes in many major cities in China, such as Beijing, Shanghai, Chengdu, Chongqing, Xuzhou, Tianjin, Shenyang, Lanzhou, Guangzhou, Qingdao and Hohhot. SMI Corp Ltd (“SMI”), the operator of Stellar International Theater Chain”, is a leading China theaters’ operator, currently engaged in movie theater operation, film operation, film investment, in-theater counter sales and online shopping. SMI offers more than 20 types of advertising and has planned to build 50 mega LED displayers per annum to attract potential advertisers. As SMI’s theaters network continues to expand, we believe that advertising platform will significantly benefit from its synergies effect. The rapid development of the Chinese film industry in recent years makes it as one of the world’s largest markets. Benefiting from China robust economy together with the improvement of its income per capita and urbanization rate, the Chinese film industry continues to flourish.

Identification of Potential Projects

We have extended our business direction to not just selling air-time for its media panels but started working closely with property developers in media planning for the property at the very early stage. By doing so, we are able to attract several property developers to grant us media rights within the whole property. These will include exhibition and conference centres, shopping malls, etc. This new business model will create a closer working relationship between the property owners and the Company as the property owners welcome a more thorough and well-planned media layout in their property at an early stage. Under this approach, we believe the property owners are more eager to work with us and even more ready to invest in the installation of media panels.

The Company will continually explore new media projects in order to provide a wider range of media and advertising services, rather than focusing primarily on LED media. The Company has identified several such potential projects which it intends to aggressively pursue in the coming year.

Results of Operations

The following results of operations is based upon and should be read in conjunction with the Company's unaudited condensed consolidated financial statements and the notes thereto included in Part I – Financial Information, "Item 1. Financial Statement." All amounts are expressed in U.S. dollars.

Comparison of Three Months Ended June 30, 2014 and June 30, 2013

Revenues – Our revenues consist primarily of income from out-of-home advertising panels. We recognize revenue in the period when advertisements are displayed. Revenues from advertising services for the three months ended June 30, 2014 were \$219,516, as compared to \$150,318 for the corresponding prior year period. During the three months ended June 30, 2014, the revenue was generated from two media advertising projects. During the three months ended June 30, 2013, the revenue was only generated from a new media advertising project in Zhuhai.

Cost of Revenues – Cost of revenues primarily consists of fees to obtain rights to operate advertising panels, advertising agency service fees, media display equipment depreciation expenses and other miscellaneous expenses. Cost of revenues for the three months ended June 30, 2014 was \$442,511, an increase of 190% as compared to \$152,375 for the three months ended June 30, 2013. The increase was mainly attributable to an increase in the amortization of advertising operating rights fees. There was one advertising project in Zhuhai during the three months ended June 30, 2013 while there were two advertising projects in Shanghai during the three months ended June 30, 2014.

Gross Loss – Our gross loss for the three months ended June 30, 2014 was \$222,995, as compared to \$2,057 for the corresponding prior year period. The increase in gross loss was primarily driven by the percentage of increase in the cost of revenue during the three months ended June 30, 2014.

Selling and Marketing Expenses – Selling and marketing expenses primarily consist of advertising and other marketing related expenses, compensation and related expenses for personnel engaged in sales and sales support functions. Selling and marketing expenses for the three months ended June 30, 2014 increased by 437% to \$19,324, as compared to \$3,600 for the corresponding prior period. The increase was mainly due to the new appointment of Chief Operating Officer for our China Operation.

General and Administrative Expenses – General and administrative expenses primarily consist of compensation related expenses (including salaries paid to executive and employees, stock-based compensation expense for stock granted to directors, executive officers and employees for services rendered calculated in accordance with Accounting Standards

Codification, or ASC, Topic 718, employee bonuses and other staff welfare and benefits, rental expenses, depreciation expenses, fees for professional services, travel expenses and miscellaneous office expenses). General and administrative expenses for the three months ended June 30, 2014 decreased by 17% to \$235,880, as compared to \$284,366 for the corresponding prior year period. The decrease in general and administrative expenses was mainly due to (1) our continuously cost cutting measures and (2) a decrease in headcount compare to 2013.

Table of Contents

Other income – Other income for the three months ended June 30, 2014 was \$3,354, compared to other income of \$19,309 for the corresponding prior year period. The decrease in other income was mainly due to the decrease in consultancy income in 2014.

Interest and Other Debt-Related Expenses – Interest expense and other debt-related expenses for the three months ended June 30, 2014 decreased to \$94,120, or by 80%, as compared to \$478,580 for the corresponding prior year period. The decrease was mainly due to the decrease in amortization of deferred charges and debt discount, and such decrease was a result of the extension of convertible promissory notes in April 2014.

Income Taxes – The Company derives all of its income in the PRC and is subject to income tax in the PRC. No income tax was recorded during the three months ended June 30, 2014 and 2013, because the Company and all of its subsidiaries and variable interest entity operated at a taxable loss during the respective periods.

Net Loss – The Company incurred a net loss of \$568,965 for the three months ended June 30, 2014, a decrease of 24%, as compared to \$749,294 for the corresponding prior year period. The decrease in net loss was primarily due to decrease in amortization of deferred charges and debt discount recorded during the three months ended June 30, 2014.

Comparison of Six Months Ended June 30, 2014 and June 30, 2013

Revenues – Revenues from advertising services for the six months ended June 30, 2014 were \$463,518, as compared to \$556,955 for the corresponding prior year period, a decrease of 17%. The decrease was mainly attributed to the termination of Nanjing Road Project on March 31, 2013 and expiry of other media advertising project in Shanghai in February 2013.

Cost of Revenues – Cost of revenues for the six months ended June 30, 2014 were \$871,503, an increase of 41% as compared to \$617,052 for the six months ended June 30, 2012. The increase was mainly due to the higher rights fee paid to the new media project in Shanghai in 2014.

Gross (Loss)/Profit – Our gross loss for the six months ended June 30, 2014 was \$407,985, as compared to \$60,097 for the corresponding prior year period. The increase in gross loss was primarily driven by the decrease in revenues and increase in cost of revenue during the six months ended June 30, 2014.

Selling and Marketing Expenses – Selling and marketing expenses for the six months ended June 30, 2014 decreased by 27% to \$41,392, compared to \$56,479 for the corresponding prior period. The decrease was mainly due to the restructuring of our sales team so as to enhance our operational effectiveness and efficiency and our continuous cost cutting measures.

General and Administrative Expenses – General and administrative expenses for the six months ended June 30, 2014 decreased by 27% to \$571,196, compared to \$785,799 for the corresponding prior year period. The decrease in general and administrative expenses was mainly due to continuous cost cutting measures. The decrease was partially offset by an increase in consultancy fee amounting to \$61,596, compared to \$nil for the corresponding prior year period.

Interest and Other Debt-Related Expenses – Interest expense and other debt-related expenses for the six months ended June 30, 2014 increased to \$1,104,261, or by 24%, compared to \$889,562 for the corresponding prior year period. The increase was mainly due to the increase in amortization of debt discount as a result of the convertible promissory notes in April 2014 and the increase in interest paid for the short term loans.

Other income – Other income for the six months ended June 30, 2014 was \$5,103, compared to other income of \$19,318 for the corresponding prior year period. The decrease in other income was mainly due to the decrease in consultancy income in 2014.

Table of Contents

Income Taxes – The Company derives all of its income in the PRC and is subject to income tax in the PRC. No income tax was recorded during the six months ended June 30, 2014 and 2013 as the Company and all of its subsidiaries and its variable interest entities operated at a taxable loss during the respective periods.

Net (Loss) Income – The Company incurred a net loss of \$2,119,731 for the six months ended June 30, 2014, compared to of \$1,772,619 for the corresponding prior year period. The increase in net loss was primarily due to the decrease in revenues and increase in cost of revenue during the six months ended June 30, 2014.

Liquidity and Capital Resources

As of June 30, 2014, we had cash of \$9,148, as compared to \$111,889 as of December 31, 2013, a decrease of \$102,741. The decrease was mainly attributable to the cash used in operating activities as a result of delay of collection of accounts receivable and decreased receipts in advance from customers during the current quarter offset by the cash provided by short-term loans and private placement.

The following table sets forth a summary of our cash flows for the periods indicated:

	Six Months Ended	
	June 30, 2014	June 30, 2013
Net cash used in operating activities	\$ (884,460)	\$ (190,063)
Net cash (used in) provided by investing activities	(14,268)	412
Net cash provided by financing activities	787,642	259,632
Effect of exchange rate changes on cash	8,345	(1,300)
Net (decrease) increase in cash	(102,741)	68,681
Cash, beginning of period	111,889	21,008
Cash, end of period	\$ 9,148	\$ 89,689

Operating Activities

Net cash used in operating activities for the six months ended June 30, 2014 was \$884,460 as compared to \$190,063 for the corresponding prior year period. This was mainly attributable to increase in fees for advertising operating rights prepaid to suppliers, payment of short term loan interest and decreased receipts in advance from customers during the six months ended June 30, 2014.

Our cash flow projections indicate that our current assets and projected revenues from our existing project will not be sufficient to fund operations over the next twelve months. This raises substantial doubt about our ability to continue as a going concern. We intend to rely on Keywin's exercise of its outstanding option to purchase \$2 million in shares of our common stock or on the issuance of additional equity and debt securities as well as on our note holders' exercise of their conversion option to convert our notes to our common stock, in order to fund our operations. However, it may be difficult for us to raise funds in the current economic environment. We cannot give assurance that we will be able to generate sufficient revenue or raise new funds, or that Keywin will exercise its option before its expiration and our note holders will exercise their conversion option before the note is due. In any such case, we may not be able to continue as a going concern.

Investing Activities

Net cash used in investing activities for the six months ended June 30, 2014 was \$14,268, as compared to the net cash provided by investing activities \$412 for the corresponding prior year period. The increase was mainly attributable to

leasehold improvements paid for the relocation of our Shanghai offices during the six months ended June 30, 2014.

Table of Contents

Financing Activities

Net cash provided by financing activities was \$787,642 for the six months ended June 30, 2014, as compared to \$259,632 for the corresponding prior year period. The increase was mainly due to receipts from private placement for financing our operations during the six months ended June 30, 2014.

Short-term Loans

As of June 30, 2014, the Company recorded an aggregated amount of \$1,664,831 short-term loans. Those loans were borrowed from an unrelated individual. Those loans are unsecured, bear a monthly interest of 1.5% and shall be repayable in one month. However, according to the agreement, the Company shall have the option to shorten or extend the life of those short-term loans if the need arises and the Company has agreed with the lender to extend the short-term loans on due date. Up to the date of this report, those loans have not yet been repaid.

Advertising Operating Rights Fees

Advertising operating rights fees are the major cost of our advertising revenue. To maintain the advertising operating rights, we are required to pay advertising operating rights fees in accordance with payment terms set forth in contracts we entered into with various parties. These parties generally require us to prepay advertising operating rights fees for a period of time. The details of our advertising operating rights fees as of June 30, 2014 and 2013 were as follows:

	Three Months Ended		Six Months Ended	
	June 30, 2014	June 30, 2013	June 30, 2014	June 30, 2013
Payment for prepayments for advertising operating rights	\$ -	\$ -	\$ 323,334	\$ 143,529
Amortization of prepayments for advertising operating rights	\$ -	\$ 159,337	\$ -	\$ 565,829

	As of June 30, 2014	As of December 31, 2013
Prepayments for advertising operating rights, net	\$ -	\$ -

For future advertising operating rights commitments under non-cancellable advertising operating right contracts, please refer to the table under the following sub-section – “Contractual Obligations and Commercial Commitments.”

We financed the above payments through the issuance of our equity and debt securities. As we currently only generate limited revenue from our media operation, we intend to continue to raise funds through the issuance of equity and debt securities to satisfy future payment requirements. There can be no assurance that we will be able to enter into such agreements.

In the event that advertising operating rights fees cannot be paid in accordance with the payment terms set forth in our contracts, we may not be able to continue to operate our advertising panels and our ability to generate revenue will be adversely affected. As such, failure to raise additional funds would have significant negative impact on our financial condition.

Capital Expenditures

During the six months ended June 30, 2014 and 2013, we acquired equipment of \$14,268 and \$Nil which were primarily financed by directors' loans and short term loans, and the cash flows generated from our operations.

Contractual Obligations and Commercial Commitments

The following table presents certain payments due under contractual obligations with minimum firm commitments as of June 30, 2014:

	Total	Payments due by period			
		Due in 2014	Due in 2015-2016	Due in 2017-2018	Thereafter
Debt Obligations (a)	\$5,000,000	\$ -	\$ 5,000,000	\$ -	\$ -
Operating Lease Obligations (b)	128,465	83,108	45,357	-	-
Advertising Operating Rights Fee Obligations (c)	3,668,127	1,398,275	2,269,852	-	-
Purchase Obligations (d)	\$29,000	\$ 29,000	\$ -	\$ -	\$ -

(a) Debt Obligations. We issued an aggregate of \$5,000,000 in 1% Convertible Promissory Notes in April 2009 to our investors. Such 1% Convertible Promissory Notes mature on April 1, 2016. For details, please refer to the Note 10 of the unaudited condensed consolidated financial statements.

(b) Operating Lease Obligations. We have entered into various non-cancelable operating lease agreements for our offices and staff quarter. Such operating leases do not contain significant restrictive provisions.

(c) Annual Advertising Operating Rights Fee Obligations. The Company, through its PRC operating company, has acquired two rights from third parties. One is to operate a 276 square meter advertising area located on the first floor of the Union Building at the entrance of Zhuhai sub-zone of Zhuhai-Macau Cross Border Industrial Zone, whose lease terms expire in 2015. Another one is to operate the 91 advertising lightboxes in arrival hall of Shanghai Hongqiao Railway Station from September 10, 2013 to December 9, 2016.

(d) Purchase Obligations. We are obligated to make payments under non-cancellable contractual arrangements with our vendors, principally for constructing our advertising panels and leasehold improvement.

Critical Accounting Policies

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires our management to make assumptions, estimates and judgments that affect the amounts reported, including the notes thereto, and related disclosures of commitments and contingencies, if any. We have identified certain accounting policies that are significant to the preparation of our financial statements. These accounting policies are important for an understanding of our financial condition and results of operation. Critical accounting policies are those that are most important to the portrayal of our financial conditions and results of operations and require management's difficult, subjective, or complex judgment, often as a result of the need to make estimates about the effect of matters that are inherently uncertain and may change in subsequent periods. Certain accounting estimates are particularly sensitive because of their significance to financial statements and because of the possibility that future events affecting the estimate may differ significantly from management's current judgments. There have been no material changes to the critical accounting policies previously disclosed in our Annual Report on Form 10-K for the fiscal year ended December 31, 2013.

Recent Accounting Pronouncements

In February 2013, FASB has issued ASU No. 2013-02, Comprehensive Income (Topic 220): Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income. This amendment improves the transparency of reporting these reclassifications. Other comprehensive income includes gains and losses that are initially excluded from net income for an accounting period. Those gains and losses are later reclassified out of accumulated other comprehensive income into net income. The amendments do not change the current requirements for reporting net income or other comprehensive income in financial statements. All of the information that this ASU requires already is required to be disclosed elsewhere in the financial statements under U.S. GAAP. The adoption of ASU No. 2013-02 did not have a material impact on our financial statements.

In March 2013, FASB has issued ASU No. 2013-05, Foreign Currency Matters (Topic 830). ASU No. 2013-05 is intended to clarify the parent's accounting for the cumulative translation adjustment upon the sale or transfer of a group of assets within a consolidated foreign entity. When a parent ceases to have a controlling financial interest in a subsidiary or group of assets within a foreign entity, the parent is required to release any related cumulative translation adjustment into Net income. ASU No. 2013-05 further clarifies the cumulative translation adjustment should be released into Net income only if the sale or transfer results in the complete or substantially complete liquidation of the foreign entity in which the subsidiary or group of assets had resided. ASU No. 2013-05 also clarifies application of this guidance to step acquisitions. ASU No. 2013-05 is effective prospectively for fiscal years beginning after December 15, 2013, with early adoption permitted. The adoption of ASU No. 2013-05 did not have a material impact on our financial statements.

In July 2013, the FASB issued changes to the presentation of an unrecognized tax benefit when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists. These changes require an entity to present an unrecognized tax benefit as a liability in the financial statements if (i) a net operating loss carryforward, a similar tax loss, or a tax credit carryforward is not available at the reporting date under the tax law of the applicable jurisdiction to settle any additional income taxes that would result from the disallowance of a tax position, or (ii) the tax law of the applicable jurisdiction does not require the entity to use, and the entity does not intend to use, the deferred tax asset to settle any additional income taxes that would result from the disallowance of a tax position. Otherwise, an unrecognized tax benefit is required to be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward. Previously, there was diversity in practice as no explicit guidance existed. These changes become effective for the Company on January 1, 2014. Management has determined that the adoption of these changes will not have a significant impact on our financial statements.

In May 2014, the FASB issued a converged final standard on the recognition of revenue from contracts with customers. This updated guidance provides a framework for addressing revenue recognition issues and replaces almost all existing revenue recognition guidance in current U.S. generally accepted accounting principles. The core principle of the new standard is for companies to recognize revenue to depict the transfer of goods or services to customers in amounts that reflect the consideration to which the Company expects to be entitled in exchange for those goods or services. The new standard will also result in enhanced disclosures about revenue, provide guidance for transactions that were not previously addressed comprehensively, and improve guidance for multiple-element arrangements. This guidance is effective for interim and annual periods beginning after December 15, 2016. Management has not yet evaluated the future impact of this guidance on the Company's financial position, results of operations or cash flows.

Off Balance Sheet Arrangements

We do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to our investors.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Not applicable.

ITEM 4. CONTROLS AND PROCEDURES.

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) that are designed to ensure that information that would be required to be disclosed in Exchange Act reports is recorded, processed, summarized and reported within the time period specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including to our Chief Executive Officer and Interim Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

As required by Rule 13a-15 under the Exchange Act, our management evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of June 30, 2014. Based on that evaluation, our Chief Executive Officer and Interim Chief Financial Officer concluded that as of June 30, 2014, and as of the date that the evaluation of the effectiveness of our disclosure controls and procedures was completed, our disclosure controls and procedures were effective to satisfy the objectives for which they are intended.

Changes in Internal Control Over Financial Reporting

We regularly review our system of internal control over financial reporting and make changes to our processes and systems to improve controls and increase efficiency, while ensuring that we maintain an effective internal control environment. Changes may include such activities as implementing new, more efficient systems, consolidating activities, and migrating processes.

There has been no change to our internal control over financial reporting during the period covered by this report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II
OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

From time to time, we may become involved in various lawsuits and legal proceedings, which arise in the ordinary course of business. However, litigation is subject to inherent uncertainties, and an adverse result in these, or other matters, may arise from time to time that may harm our business.

On July 5, 2013, Yi Gao received a notice from the People's Court of Huangpu District, Shanghai that Shanghai Shenpu advertising Co. Ltd ("Shenpu"), as plaintiff, had initiated a contract dispute against Yi Gao seeking an aggregate of RMB1,807,215 (equivalent to approximately US\$291,000 at the then-prevailing exchange rate) for unpaid rights fee, penalty and production cost. On August 7, 2013, Yi Gao received a court verdict from the People's Court of Huangpu District, Shanghai that Yi Gao is liable to repay the unpaid fee of RMB650,000, penalty and production cost. On August 26, 2013, Yi Gao submitted an appeal to People's Court of Huangpu District, Shanghai that the penalty calculated is not reasonable. On November 13, 2013, Yi Gao withdrew the appeal. As a result, Yi Gao is liable to pay an aggregate of RMB765,463 (equivalent to approximately US\$124,870 at the then-prevailing exchange rate) to Shenpu. On February 19, 2014, Yi Gao paid RMB45,221 to Shenpu.
