Securities for which there is a reporting obligation pursuant to Section 15(d) of the Act: **None**

For annual reports, indicate by check mark the information filed with this form:

Annual Information Form    Audited Annual Financial Statements

Indicate the number of outstanding shares of each of the issuer's classes of capital or common stock as of the close of the period covered by the annual report.

At **December 31, 2014**, the Registrant had outstanding 504,677,822 common shares without par value.

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Exchange Act during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports) and (2) has been subject to such filing requirements for the past 90 days.

Yes  No

Indicate by check mark whether the Registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the Registrant was required to submit and post such files).  Yes  No

## DOCUMENTS INCORPORATED BY REFERENCE

The Annual Information Form (“**AIF**”) of New Gold Inc. (the “**Registrant**”, “**New Gold**” or the “**Company**”) for the fiscal year ended December 31, 2014 is filed as Exhibit 1 to this annual report on Form 40-F.

The audited consolidated financial statements of the Company for the years ended December 31, 2014 and 2013, including the related report of independent registered public accounting firm, are filed as Exhibit 2 to this annual report on Form 40-F.

The Company’s management’s discussion and analysis (“**MD&A**”) for the year ended December 31, 2014 is filed as Exhibit 3 to this annual report on Form 40-F.

## EXPLANATORY NOTE

The Company is a Canadian issuer eligible to file its annual report pursuant to Section 13 of the Exchange Act on Form 40-F. The Company is a “foreign private issuer” as defined in Rule 3b-4 under the Securities Exchange Act of 1934, as amended (the “**Exchange Act**”). Accordingly, the Company’s equity securities are exempt from Sections 14(a), 14(b), 14(c), 14(f) and 16 of the Exchange Act pursuant to Rule 3a12-3 under the Exchange Act.

The Company is permitted, under a multi-jurisdictional disclosure system adopted by the United States, to prepare the documents incorporated by reference in this annual report on Form 40-F in accordance with Canadian disclosure requirements, which are different from those of the United States.

Information concerning the properties and operations of New Gold has been prepared in accordance with Canadian standards under applicable Canadian securities laws, and may not be comparable to similar information for United States companies. The terms “Mineral Resource”, “Measured Mineral Resource”, “Indicated Mineral Resource” and “Inferred Mineral Resource” used in this annual report on Form 40-F are Canadian mining terms as defined in the Canadian Institute of Mining, Metallurgy and Petroleum (“**CIM**”) Definition Standards for Mineral Resources and Mineral Reserves adopted by CIM Council on May 10, 2014 and incorporated by reference in National Instrument 43-101 (“**NI 43-101**”). While the terms “Mineral Resource”, “Measured Mineral Resource”, “Indicated Mineral Resource” and “Inferred Mineral Resource” are recognized and required by Canadian securities regulations, they are not defined terms under standards of the United States Securities and Exchange Commission. As such, certain information contained in this Report concerning descriptions of mineralization and resources under Canadian standards is not comparable to similar

information made public by United States companies subject to the reporting and disclosure requirements of the United States Securities and Exchange Commission.

An “Inferred Mineral Resource” has a great amount of uncertainty as to its existence and as to its economic and legal feasibility. Under Canadian rules, estimates of Inferred Mineral Resources may not form the basis of feasibility or pre-feasibility studies. It cannot be assumed that all or any part of an “Inferred Mineral Resource” will ever be upgraded to a higher confidence category. Readers are cautioned not to assume that all or any part of an “Inferred Mineral Resource” exists or is economically or legally mineable.

Under United States standards, mineralization may not be classified as a “Reserve” unless the determination has been made that the mineralization could be economically and legally produced or extracted at the time the Reserve estimation is made. Readers are cautioned not to assume that all or any part of the Measured or Indicated Mineral Resources will ever be converted into Mineral Reserves. In addition, the definitions of “Proven Mineral Reserves” and “Probable Mineral Reserves” under CIM standards differ in certain respects from the standards of the United States Securities and Exchange Commission.

The Company prepares its financial statements in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board (“IFRS”), and the financial statements may be subject to Canadian auditing and auditor independence standards. Accordingly, the financial statements of the Company included in this annual report on Form 40-F may not be comparable to financial statements of United States companies.

Unless otherwise indicated, all dollar amounts are reported in U.S. dollars.

## FORWARD LOOKING STATEMENTS

Certain information contained in this Annual report on Form 40-F, including any information relating to New Gold's future financial or operating performance are "forward looking". All statements in this Annual report on Form 40-F, other than statements of historical fact, that address events, results, outcomes or developments that New Gold expects to occur are "forward-looking statements". Forward-looking statements are statements that are not historical facts and are generally, but not always, identified by the use of forward-looking terminology such as "plans", "expects", "is expected", "budget", "scheduled", "targeted", "estimates", "forecasts", "intends", "anticipates", "projects", "potential", "believes" or various words and phrases or statements that certain actions, events or results "may", "could", "would", "should", "might" or "will be taken", "occur" or "be achieved" or the negative connotation of such terms. Forward-looking statements in this Annual report on Form 40-F include those under the headings "General Developments of the Business", "Description of the Business" and "Mineral Properties", and include, among others, statements with respect to: guidance for production, total cash costs and all-in sustaining costs; the expected throughput rate at New Afton and targeted timing for commissioning the mill expansion and achieving expected throughput rates; planned modifications to other operations; expected future mining activities; expected mining activities; planned exploration activities and the goals and expected results of exploration activities; the estimation of Mineral Reserves and Resources and the realization of such estimates; the results of the Rainy River feasibility study, the Blackwater feasibility study and the New Afton Mine C-zone scoping study, including expected production, costs, mine life, mining and processing methods and rates, grades, stripping ratio, stockpiling plan, infrastructure, NPV, IRR, and payback period (and related sensitivities), as the case maybe; the results of the El Morro feasibility study; expected timing of permitting activities; expected timing of project development activities, including targeting timing for commissioning and full production at the Rainy River Project; plans to advance the New Afton Mine C-zone, including permitting requirements, impact on the historic Afton tailings facility, capital expenditures and potential timelines; and expected reclamation costs.

All forward-looking statements in this Annual report on Form 40-F are based on the opinions and estimates of management as of the date such statements are made and are subject to important risk factors and uncertainties, many of which are beyond New Gold's ability to control or predict. Certain material assumptions regarding such forward-looking statements are discussed in this Annual Information Form, New Gold's annual and quarterly MD&A and New Gold's Technical Reports filed at [www.sedar.com](http://www.sedar.com). In addition to, and subject to, such assumptions discussed in more detail elsewhere, the forward-looking statements in this Annual Information Form are also subject to the following assumptions: (1) there being no significant disruptions affecting New Gold's operations; (2) political and legal developments in jurisdictions where New Gold operates, or may in the future operate, being consistent with New Gold's current expectations; (3) the accuracy of New Gold's current Mineral Reserve and Resource estimates; (4) the exchange rate between the Canadian dollar, U.S. dollar, Australian dollar and Mexican peso being approximately consistent with current levels; (5) prices for diesel, natural gas, fuel oil, electricity and other key supplies being approximately consistent with current levels; (6) labour and materials costs increasing on a basis consistent with New Gold's current expectations; (7) arrangements with First Nations and other Aboriginal groups in respect of the Rainy River and Blackwater projects being consistent with New Gold's current expectations; (8) all required permits, licenses and authorizations being obtained from the relevant governments and other relevant stakeholders within the expected

timelines; and (9) the results of the feasibility studies for the Rainy River project and the Blackwater project being realized.

Forward-looking statements are necessarily based on estimates and assumptions that are inherently subject to known and unknown risks, uncertainties and other factors that may cause actual results, level of activity, performance or achievements to be materially different from those expressed or implied by such forward-looking statements. Such factors include, without limitation: significant capital requirements and the availability and management of capital resources; additional funding requirements; price volatility in the spot and forward markets for metals and other commodities; fluctuations in the international currency markets and in the rates of exchange of the currencies of Canada, the United States, Australia, Mexico and Chile; discrepancies between actual and estimated production, between actual and estimated Mineral Reserves and Resources and between actual and estimated metallurgical recoveries; changes in national and local government legislation in Canada, the United States, Australia, Mexico and Chile or any other country in which New Gold currently or may in the future carry on business; taxation; controls, regulations and political or economic developments in the countries in which New Gold does or may carry on business; the speculative nature of mineral exploration and development, including the risks of obtaining and maintaining the validity and enforceability of the necessary licenses and permits and complying with the permitting requirements of each jurisdiction in which New Gold operates, including, but not limited to: in Canada, obtaining the necessary permits for the Rainy River and Blackwater projects; in Mexico, where Cerro San Pedro has a history of ongoing legal challenges related to our environmental authorization (EIS); and in Chile, where certain activities at El Morro have been delayed due to litigation relating to its environmental permit; the lack of certainty with respect to foreign legal systems, which may not be immune from the influence of political pressure, corruption or other factors that are inconsistent with the rule of law; the uncertainties inherent to current and future legal challenges New Gold is or may become a party to; diminishing quantities or grades of Mineral Reserves; competition; loss of key employees; rising costs of labour, supplies, fuel and equipment; actual results of current exploration or reclamation activities; uncertainties inherent to mining economic studies including the feasibility studies for the Rainy River and Blackwater projects and the New Afton mine C-zone scoping study; the uncertainty with respect to prevailing market conditions necessary for a positive development decision at Blackwater; changes in project parameters as plans continue to be refined; accidents; labour disputes; defective title to mineral claims or property or contests over claims to mineral properties or interests in mineral properties; unexpected delays and costs inherent to consulting and accommodating rights of First Nations and other Aboriginal groups; uncertainties and unanticipated delays associated with obtaining and maintaining necessary licenses, permits and authorizations and complying with permitting requirements, including those associated with the environmental assessment processes for the Blackwater project. In addition, there are risks and hazards associated with the business of mineral exploration, development and mining, including environmental events and hazards, industrial accidents, unusual or unexpected formations, pressures, cave-ins, flooding and gold bullion losses (and the risk of inadequate insurance or inability to obtain insurance to cover these risks) as well as “Risk Factors” included in New Gold’s disclosure documents filed on and available at [www.sedar.com](http://www.sedar.com). Forward-looking statements are not guarantees of future performance, and actual results and future events could materially differ from those anticipated in such statements. All of the forward-looking statements contained in this Annual report on Form 40-F are qualified by these cautionary statements. New Gold expressly disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, events or otherwise, except in accordance with applicable securities laws.

## **DISCLOSURE CONTROLS AND PROCEDURES**

The Company's Chief Executive Officer and Chief Financial Officer have evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of December 31, 2014. Based on the evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as at December 31, 2014 the Company's disclosure controls and procedures were effective to provide assurance that the information required to be disclosed by the Company in reports it files or submits under the Exchange Act, is recorded, processed, summarized and reported on a timely basis in accordance with applicable time periods specified by the Commission rules and forms and to ensure that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is accumulated and communicated to the Company's management, including its principal executive and financial officers, or persons performing similar functions, as appropriate, to allow timely decisions regarding required disclosure.

## **MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING**

The Company's management, including the Chief Executive Officer and the Chief Financial Officer, is responsible for establishing and maintaining adequate internal control over financial reporting. Internal control over financial reporting is defined in Rule 13a-15(f) and Rule 15d-15(f) promulgated under the Exchange Act as a process designed by, or under the supervision of, a company's principal executive and principal financial officers and effected by the company's board of directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. The Company's internal control over financial reporting includes those policies and procedures that:

pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;

provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and

provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company's assets that could have a material effect on the financial statements.

The Company's management assessed the effectiveness of the Company's internal control over financial reporting as defined in Rule 13a-15(f) and Rule 15d-15(f) under the Exchange Act for the year ended December 31, 2014. In making this assessment, it used the criteria set forth in the Updated 2013 Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based on this assessment, management has concluded that, as of December 31, 2014, the Company's internal control over financial reporting is effective based on those criteria.

The effectiveness of the Company's internal control over financial reporting as at December 31, 2014 has been audited by Deloitte LLP, the Company's independent registered public accounting firm. As stated in their report immediately preceding the Company's audited consolidated financial statements for the years ended December 31, 2014 and 2013, filed as Exhibit 2 to this annual report on Form 40-F, Deloitte LLP expressed an unqualified opinion on the effectiveness of the Company's internal control over financial reporting.

## **ATTESTATION REPORT OF THE REGISTERED PUBLIC ACCOUNTING FIRM**

The reports immediately preceding the Company's audited consolidated financial statements for the years ended December 31, 2014 and 2013 are filed as Exhibit 2 to this annual report on Form 40-F.

## **CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING**

During the fiscal year ended December 31, 2014, there were no changes in the Company's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

## **LIMITATIONS ON DISCLOSURE CONTROLS AND PROCEDURES AND INTERNAL CONTROL OVER FINANCIAL REPORTING**

The Company's management, including the Chief Executive Officer and the Chief Financial Officer, believe that any disclosure controls and procedures or internal controls over financial reporting, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, they cannot provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been prevented or detected. These inherent limitations include the realities that judgments in decision making can be faulty and breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by unauthorized override control. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Accordingly, because of the inherent limitations in a cost effective control system, misstatements due to error or fraud may occur and not be detected.

## **AUDIT COMMITTEE IDENTIFICATION AND FINANCIAL EXPERT**

The Company has an Audit Committee established by its board of directors for the purpose of overseeing the accounting and financial reporting processes of the Company and audits of the financial statements of the Company, in accordance with Section 3(a)(58)(A) of the Exchange Act. The members of the Audit Committee are James Estey (Chair), David Emerson and Martyn Konig. Each of Mr. Estey, Mr. Emerson and Mr. Konig is “independent” as that term is defined under the rules of the NYSE MKT LLC.

The Board has determined that James Estey and David Emerson are each an “Audit Committee Financial Expert” as that term is defined under Section 407 of the Sarbanes-Oxley Act of 2002 and paragraph (8) of General Instruction B. of Form 40-F.

## **PRINCIPAL ACCOUNTANT FEES AND SERVICES**

The information provided under the headings “Pre-Approval Policies and Procedures” (page 78) and “External Auditor Service Fees (By Category)” (page 78) contained in the AIF is incorporated by reference.

## **CODE OF ETHICS**

In connection with a comprehensive review of the Company’s corporate governance policies, on August 13, 2008, the Board of Directors of the Company (the “**Board**”) approved the adoption of a code of business conduct and ethics (“**Code**”). The Code has been reviewed and updated annually since its adoption, with the most recent review by the Board on February 19, 2015. The Code is applicable to all directors, officers and employees of the Company, including its Chief Executive Officer, Chief Financial Officer and principal accounting officer. The Code was adopted to, among other things, update and clarify the duties, obligations and responsibilities that are imposed upon the persons subject to its provisions. On February 19, 2015, the Board amended the Code. The amendments clarified certain provisions relating to conflicts of interest, anti-corruption and waivers of the Code and a copy of the amended Code is filed as Exhibit 4 to this annual report on Form 40-F. Additionally, on July 8, 2008, the Board approved the adoption of a Whistleblower Policy (“**Whistleblower Policy**”). The Whistleblower Policy has been reviewed and ratified or updated annually since its adoption, with the most recent review by the Board on February 19, 2015. The Whistleblower Policy outlines the principles and commitments that the Company has made with respect to the treatment of complaints by its personnel. Copies of the Code and the Whistleblower Policy are available on the Company’s website at [www.newgold.com](http://www.newgold.com).

There were no waivers of the Code in the past fiscal year.

#### **OFF-BALANCE SHEET ARRANGEMENTS**

The Company has no off-balance sheet arrangements that have, or are reasonably likely to have, a current or future material effect on the Company's financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

**MINE SAFETY DISCLOSURE**

The Company's subsidiary, Western Mesquite Mines, Inc., is the operator of the Mesquite Mine located in southern California. The information concerning mine safety violations and other regulatory matters required by Section 1503(a) of the Dodd-Frank Wall Street Reform and Consumer Protection Act and Item 16 of General Instruction B to Form 40-F in respect of the Mesquite Mine is filed as Exhibit 5 to this annual report on Form 40-F.

**NYSE MKT LLC CORPORATE GOVERNANCE**

The Company's common shares are listed on the NYSE MKT LLC ("NYSE MKT"). Section 110 of the NYSE MKT company guide permits NYSE MKT to consider the laws, customs and practices of foreign issuers in relaxing certain NYSE MKT listing criteria, and to grant exemptions from NYSE MKT listing criteria based on these considerations. A company seeking relief under these provisions is required to provide written certification from independent local counsel that the non-complying practice is not prohibited by home country law. A description of the significant ways in which the Company's governance practices differ from those followed by domestic companies pursuant to NYSE MKT standards is contained on the Company's website at [www.newgold.com](http://www.newgold.com).

**UNDERTAKINGS**

The Company undertakes to make available, in person or by telephone, representatives to respond to inquiries made by the Commission staff, and to furnish promptly, when requested to do so by the Commission staff, information

relating to: the securities registered pursuant to Form 40-F; the securities in relation to which the obligation to file an annual report on Form 40-F arises; or transactions in said securities.

**CONSENT TO SERVICE OF PROCESS**

The Company has filed with the Commission an amendment dated January 21, 2010 to the written consent to service of process and power of attorney on Form F-X. Any change to the name or address of the Company's agent for service shall be communicated promptly to the Commission by amendment to the Form F-X referencing the file number of the Company.

**SIGNATURES**

Pursuant to the requirements of the Exchange Act, the Registrant certifies that it meets all of the requirements for filing on Form 40-F and has duly caused this annual report to be signed on its behalf by the undersigned, thereto duly authorized.

NEW GOLD INC.

By:  
Name: Brian Penny
