**AMÉRICA MÓVIL S FOURTH QUARTER OF 2006**  
**FINANCIAL AND OPERATING REPORT**

**Mexico City, February 7, 2007 - América Móvil, S.A.B. de C.V. ( América Móvil ) [BMV: AMX] [NYSE: AMX] [NASDAQ: AMOV] [LATIBEX: XAMXL], announced today its financial and operating results for the fourth quarter of 2006.**

América Móvil added 31.4 million wireless subscribers in 2006 to finish the year with 124.8 million subscribers, 33.7% more than the year before. The net additions included 10.8 million obtained in the fourth quarter, 8.7 million organically and 2.1 million through the acquisition of the operations of Verizon in the Dominican Republic. Together with 2.9 million fixed lines, América Móvil had a total of 127.7 million lines at the end of 2006.

Mexico contributed with 7.3 million net subscriber additions during the year, Brazil 5.2 million, Colombia 5.7 million and Argentina 3.4 million, with Ecuador and Peru generating approximately 1.5 million each and Tracfone, our operation in the U.S. 1.8 million.

Our revenues totaled 234.2 billion pesos in 2006, 23.6% more than the year before, driven by service revenues, which expanded at a 26.8% annual rate. In the fourth quarter, service revenues increased 7.3% sequentially and 23.3% year-on-year, to 65.4 billion pesos.

EBITDA expanded nearly twice as fast as service revenues, reaching 86 billion pesos, of which 24.4 billion were obtained in the fourth quarter. The consolidated EBITDA margin rose by over 6.5 percentage points relative to 2005, from 30.2% to 36.7%, with most operations seeing improvements in their EBITDA margins, particularly in Brazil and Colombia, whose margins climbed 16 percentage points in the year.

Operating profits of 58.9 billion pesos in 2006, including 16.9 billion pesos obtained in the fourth quarter, exceeded the previous years by 67.9%.

We obtained a net profit of 10.8 billion in the fourth quarter and 43.4 billion pesos in the year. Earnings per share in 2006, 1.21 pesos, were 33.1% greater than the ones observed in 2005.

Our cash flow from operations allowed us to cover significant outlays with little reliance on debt financing. Overall, our capital and dividend outlays totaled 82.3 billion pesos, of which 33.7 billion pesos represented investments on plant and equipment, 24.2 billion acquisitions -mostly the purchase of our operation in the Dominican Republic- and 24.4 billion pesos the amount spent on share buybacks and dividends. The latter figure includes the effect of the merger of Amtel into América Móvil, equivalent to a share buyback of 13.7 billion pesos. Our net debt increased by 9.6 billion pesos in the year.

**Relevant Events**

On November 4th, the new National and International Calling-Party-Pays regime came into effect in Mexico, which requires the calling party to pay for the full cost of a call in both national and international long distance calls. Mexico had only Local Calling-Party-Pays, a system implemented in May 1999.

In December, América Móvil acquired from Verizon Communications Inc. a 100% ownership interest in Verizon Dominicana, which is the largest telecommunications services provider in the Dominican Republic with over 750 thousand fixed lines and 2.1 million wireless subscribers. The company was consolidated in América Móvil from December 1st.

On December 13th América Móvil's and América Telecom's Shareholders Assemblies approved the merger of América Telecom in América Móvil. The merger became effective on that date.

***Subscribers***

América Móvil added 10.8 million wireless subscribers in the fourth quarter of 2006, including 2.1 million obtained through the acquisition from Verizon of its Dominican operations, to finish December with 124.8 million subscribers. This represents an increase of 33.7% year-over-year. Along with 2.1 million fixed lines in Central America and 735 thousand in the Dominican Republic, América Móvil reached a total of 127.7 million lines at the end of the year.

The number of net additions in 2006 topped 31.4 million, 29.3 million of which were organic. The latter figure was similar to the one observed the previous year. On average, the region where we operate in Latin America saw wireless penetration increase by over 10 percentage points in the year, to 56.8% for the region as a whole.

Our Mexican operations added 2.5 million subscribers in the fourth quarter, bringing to 7.3 million their net additions in 2006 to close the year with 43.2 million clients, 20.3% more than a year before. Even though we faced a more difficult competitive environment, our net additions in Mexico ended up exceeding those of 2005 by 5.5% .

In Brazil we captured 1.7 million clients in the fourth quarter, which represented 42.2% of the net additions in the Brazilian market. Through December, we gained 5.2 million subscribers in Brazil, 4.4% more than in 2005. At the end of the year, our Brazilian subscribers totaled 23.8 million, 28.0% more than a year before.

In its strongest quarter of the year, our Argentinean operation added one million clients bringing to 3.4 million the number of net additions through the year. Our subscriber base in Argentina rose by 52% in 2006, to over 10 million clients. Uruguay and Paraguay exhibited the fastest annual growth rates, 155.1% and 118.5%

---

respectively, reaching 428 and 376 thousand subscribers by year-end.

*n.m. not meaningful*

Comcel, our operation in Colombia, closed the year with 19.5 million subscribers, having added 766 thousand clients in the fourth quarter and 5.7 million in the year as a whole. In Ecuador our net subscriber additions came in at 445

thousand in the fourth quarter and 1.6 million in 2006. At the end of the year we had 5.7 million clients in Ecuador. Our subscriber base grew at a similar pace in both countries.

In Peru we gained 560 thousand subscribers in the fourth quarter and 1.4 million in the year as a whole, the latter figure being 67.4% greater than that of 2005. Our subscriber base reached 3.4 million, having risen by 72.7% in the year. In Chile, net additions in the fourth quarter tripled relative to the same period of 2005, to 270 thousand subscribers. Our subscriber base in Chile totals 2.4 million.

Our combined subscriber base in Central America totaled 5.9 million, having gained 1.9 million wireless subscribers during 2006. Honduras and Nicaragua continue to deliver solid results presenting annual growth rates of 72.5% and 70.8% respectively.

Tracfone, in the U.S., added 1.8 million clients in the year 667 thousand in the fourth quarter to end the year

---

with 7.9 million subscribers, 28.7% more than the year before.

### ***América Móvil Consolidated Results***

With organic net subscriber additions nearly identical to those of the previous year but a bigger and growing base of revenues, the relative cost of growth for América Móvil became smaller in 2006, propelling EBITDA margins upwards in substantially all our operations.

Revenues expanded 23.6% year-on-year, reaching 234.2 billion pesos, with service revenues rising by 26.8% . In the fourth quarter alone, service revenues were up 7.3% sequentially, to 53.1 billion pesos, climbing in the period as fast as subscribers. In four of our operations service revenues increased by 10% or more in the fourth quarter, with two others growing at 8% in the quarter. The figures include the consolidation, from December 1st, of the Dominican Republic s operations, which added 951 million pesos to América Móvil s revenues.

EBITDA for the year totaled 85.9 billion pesos, rising almost twice as rapidly as service revenues, with our EBITDA margin improving by 6.5 percentage points relative to the previous year: to 36.7% from 30.2% . Two of our operations saw their margins increase by 16 percentage points in the year while three others showed improvements of approximately nine percentage points. In the fourth quarter the EBITDA margin hit 37.3% on 24.4 billion pesos of EBITDA.

We generated an operating profit of 58.9 billion pesos in the year, of which 16.9 billion were obtained in the fourth quarter. The year s operating profit is 67.9% higher than the one registered in 2005 and represented 25.1% of revenues. Together with a net financial income of 560 million pesos, it helped bring about a net profit of 43.5 billion pesos in 2006, which represented 18.5% of revenues. The net profit obtained in the fourth quarter, 10.8 billion pesos, was equivalent to 30 peso cents per share and 56 dollar cents per ADR.

\*n.m. not meaningful / n.a. not available

Our cash flow from operations, coupled with net borrowings of 9.6 billion pesos in the year, allowed us to cover capital expenditures in the amount of 33.7 billion pesos, to complete acquisitions worth 24.2 billion (mostly associated with the purchase of the operations in the Dominican Republic) and to buy back shares and pay dividends for the combined sum of 24.4 billion pesos. The latter figure includes the effect of the merger of Amtel into América Móvil, the economic impact of which was that of a 13.7 billion pesos share buyback for América Móvil. Our net debt increased to 67.6 billion pesos; at the end of the year, it was equivalent to .78 times EBITDA (last twelve months).

**Mexico**

Telcel added 2.5 million subscribers in the fourth quarter, 5.5% more than in the same quarter of last year, to finish December with 43.2 million clients, 20.3% more than a year before. The postpaid subscriber base kept on growing vigorously, outpacing prepaid subscriber growth by almost 10 percentage points in the year.

---

Fourth quarter revenues totaled 30.2 billion pesos, after increasing by 10.9% sequentially and 15.1% annually, with blended ARPUs rising 1.1% in constant Mexican pesos on the back of strong traffic growth, as MOUs expanded by nearly 10% in response to lower rates partly associated with holiday promotions. For the year as a whole, revenues reached 109.2 billion pesos. Service revenues rose by 15.7% year-over-year.

EBITDA totaled 15.9 billion pesos, or 52.5% of total revenues, in the fourth quarter. Even with net additions that exceeded by 57.3% those obtained in the previous quarter, Telcel's EBITDA margin showed an improvement of 1.5 percentage points. This reflects our capacity to control costs. EBITDA for 2006 totaled 55.9 billion pesos and was equivalent to 51.2% of revenues. Telcel's margin increased by 6 percentage points in the year.

**Brazil**

In Brazil, we added 5.2 million subscribers in 2006, a third of them in the fourth quarter. Claro's share of net additions during the quarter was 42.2%. Our subscriber base topped 23.9 million, having expanded by 7.7% sequentially and by 28.0% year-on-year, with the postpaid base growing more rapidly than the prepaid one.

Claro's revenues totaled 8.4 billion reais in 2006 if the full-bill methodology is applied for the year as a whole, and 2.3 billion reais in the fourth quarter. Service revenues increased at a fast pace that quarter, rising by 9.6% sequentially and 25.2% annually, driving ARPUs up by 2.6% on the quarter to 28 reais 5.3% for the prepaid segment.

EBITDA for the year came in at 1.1 billion reais, with the fourth quarter contributing 301 million reais. The EBITDA margin rose to 12.7% in the year (similar to the one seen in the quarter), which represents an increase of nearly 17 percentage points relative to the one seen the year before.

**Chile**

Chile showed a strong performance in the fourth quarter aided by its new GSM network and the marketing and distribution efforts that followed its introduction of GSM services last August. The number of net additions in the fourth quarter tripled compared to a year before, leading our subscriber base to close the year with 2.4 million subscribers, with postpaid subscribers growing three times more rapidly than prepaid ones.

Revenues in the fourth quarter went up 24.7% sequentially to 61.1 billion Chilean pesos, while EBITDA was dragged down by the acceleration of subscriber growth. Total revenues for the year stood at 192.6 billion Chilean pesos and EBITDA came in at 10.6 billion Chilean pesos taking the EBITDA margin to 5.5% .

**Colombia**

Colombia's subscriber base finished 2006 with 19.5 million subscribers, up 41.7% in the year, after net additions of 5.7 million in the year and 766 thousand in the last quarter.

Through December, Comcel's revenues totaled 4.6 trillion Colombian pesos, an increase of 39.8% as compared to 2005, with service revenues growing by 48.3%, a faster pace than the rate of growth of the subscriber base. The fourth quarter revenues, 1.3 trillion Colombian pesos, were up 31.0% year-over-year boosted by strong service revenue growth (37.8%). The deceleration of subscriber growth that began in the third quarter, together with the rapid traffic growth, brought about a sequential improvement in ARPUs and MOUs, of 4.5% and 7.2% respectively.

Profitability continues to rise as subscriber acquisition costs fall relative to revenues. In the fourth quarter, our Colombian operation obtained 531 billion Colombian pesos in EBITDA, which represents a margin of 41.5%, nearly doubling the one seen a year before. For the full year 2006 margins climbed 16 percentage points, to 35.0%, as EBITDA rose to 1.6 trillion Colombian pesos, 158% more than a year ago.

**Central America**

Our combined operations in Central America had 5.9 million wireless subscribers by year-end. This implies a growth of 11.9% on the previous quarter and 48.9% year on-year. Honduras and Nicaragua showed the fastest growth in relative terms in the region, expanding by 72.5% and 70.8% their subscriber base from a year before. Along with over 2 million fixed lines, our operations in Central America service almost 8 million clients.

Consolidated revenues for the region were 1.5 billion dollars for the year (up 10.9%), of which 389 were obtained in the last quarter. EBITDA amounted to 729 million dollars, 4.3% more than the 2005 year-end figure. The EBITDA margin was 45.2% for the quarter and 48.9% for the year.

**Dominican Republic**

In December we completed the acquisition from Verizon of its operations in the Dominican Republic, which contributed 2.1 million wireless subscribers and over 750 thousand fixed lines to our operations in the Americas.

The financial results of what is now Claro Dominicana were consolidated with América Móvil's only that month. They provided us with additional revenues of 951 million Mexican pesos.

**United States**

Tracfone, our operation in the U.S., gained 1.8 million subscribers in 2006 to finish the year with 7.9 million. Tracfone's subscriber base increased by 9.2% sequentially and 28.7% annually.

Fourth quarter revenues went up 21% to 332 million dollars driven by an expansion of 27.1% of service revenues. EBITDA rose to 22 million dollars, which represents 6.7% of revenues. The EBITDA margin in the fourth quarter expanded by 15.9 percentage points compared to the same period of the previous year.

**Glossary of Terms**

**ARPU** Average Revenue per User. The ratio of service revenues in a given period to the average number of wireless subscribers in the same period. It is presented on a monthly basis.

**Capex** Capital Expenditure. Accrued capital expenditures related to the expansion of the telecommunications infrastructure.

**Churn** Disconnection Rate. The ratio of wireless subscribers disconnected during a given period to the number of wireless subscribers at the beginning of that period.

**EBIT** Earnings Before Interest and Taxes, also known as Operating Profit.

**EBIT margin** The ratio of EBIT to total operating revenue.

**EBITDA** Earnings Before Interest, Taxes, Depreciation, and Amortization.

**EBITDA margin** The ratio of EBITDA to total operating revenue.

**EDGE** Enhanced Data rates for GSM Evolution. A technology that gives GSM the capacity to handle data services for the third generation mobile telephony.

Edgar Filing: AMERICA MOVIL SAB DE CV/ - Form 6-K

EPS (Mexican pesos) Earnings per share. Total earnings in Mexican pesos divided by total shares.

Earnings per ADR (US\$) Total earnings in U.S. dollars divided by total ADRs equivalent.

Equity subscribers Subscribers weighted by the economic interest held in each company.

GSM Global System for Mobile communications. It is the world's leading and fastest growing mobile standard.

GPRS General Packet Radio Service. Enables GSM networks to offer higher capacity, Internet-based-content and packet-based data services. It is a second generation technology.

Gross additions Total number of subscribers acquired during the period.

Licensed pops Licensed population. Population covered by the licenses that each of the companies manage.

---

**Market share** A company's subscriber base divided by the total number of subscribers in that country.

**MOU** Minutes of Use per subscriber. The ratio of wireless traffic in a given period to the average number of wireless subscribers in that same period. It is presented on a monthly basis.

**Net subscriber additions** The difference in the subscriber base from one period to another. It is the different between gross additions and disconnections.

**Net debt** Total short and long term debt minus cash and marketable securities.

**Net debt / EBITDA** The ratio of total short and long term debt minus cash and securities to trailing 12-month income before interest, taxes, depreciation and amortization.

**Prepaid** Subscriber that may purchase airtime to recharge a cellular phone. The client does not hold a contract with the company for voice and data services.

**Postpaid** Subscriber that has a contract for the use of airtime. The client has no need of activating airtime, it is done so immediately.

**Push-to-talk** Enables compatible mobile phones to function like two-way radios.

**SMS** Short Message Service.

**SAC** Subscriber Acquisition Cost. The sum of handset subsidies, marketing expenses and commissions to distributors for handset activation. Handset subsidy is calculated as the difference between equipment cost and equipment revenues.

**Wireless penetration** The ratio of total wireless subscribers in any given country divided by the total population in that country.
