MESSAGE FROM THE MANAGEMENT

In April, the clients of Telemig Celular joined Vivo's client base, becoming part of a company that is among the world's 15 biggest mobile operators, with a community of 40 million clients. Being a part of Vivo's base, the clients of Telemig Celular now enjoy advantages such as a bigger nationwide coverage, international roaming service in 200 countries and cheaper tariff plans. Moreover, clients in the state of Minas Gerais can now use the services of the operator which offers the best connection in Brazil, according to the Brazilian Telecommunications Agency (Anatel).

Telemig Celular's client base in 2Q08 totaled 4.3 million users, retaking the market leadership in the state of Minas Gerais, reaching an estimated 35.1% share of net additions in the period, and thus reversing the downward trend of this indicator. Such improved performance reflects the launch of the Vivo brand, the Company's coverage expansion throughout the country, the wider offer of plans and handsets, and, also, the Mother's Day and Valentine's Day campaigns.

The *Minas Comunica* Project, which is an initiative of the Minas Gerais Government, especially targeting social inclusion and universalization of telecommunication was concluded on July 1st. Through this program, 134 municipalities received digital coverage. Additionally, the Company's antennas were installed in another 89 municipalities in this quarter, thereby expanding the service offering in the region and providing the users with more options.

Telemig maintains the coverage leadership in the state of Minas Gerais and keeps investing in the expansion of both its coverage area and GSM network, as well as the improvement of its network capacity and quality.

SAC in line with 2Q07.

SAC of R\$ 71.0 in the 2Q08, down by 10% versus the 2Q07 as a primary consequence of exchange rate variation reducing handset costs. When compared to 1Q08, SAC increased by 60% as a result of higher sales expenses related to Mother's Day and Valentine's Day campaigns and, also, advertising expenses related to the entry of Vivo in the Minas Gerais market. This indicator now follows the calculation criteria used by Vivo.

Reduction of monthly churn rate compared to 1Q08.

Monthly churn rate of 3.7% in the quarter, higher than the 3.3% registered in the 2Q07, as a consequence of the profile of prepaid clients acquired in the Christmas campaign. When compared to the 1Q08, the decrease was related to seasonality.

ARPU stable when compared to 1Q08.

ARPU was R\$ 27.4 in the quarter, 8.4% down from the 2Q07, due to the growth and the arithmetic dilution resulting from the accelerated growth. When compared to the 1Q08, ARPU remained practically stable despite the significant growth in the client base.

MOU growth of 49.1% compared to 2Q07.

Blended MOU increased by 49.1% and 9.9% when compared to the 2Q07 and 1Q08, respectively. This growth is a result of usage incentive campaigns (Mother's Day, Valentine's Day and Christmas).

OPERATING COSTS

Cost of service increased by 9.4% over 1Q08.

Cost of services increased by 31.4% and 9.4% over 2Q07 and 1Q08, respectively, due to higher interconnection cost related to both the growth of outgoing traffic and increase of Fistel Fee associated to the client base expansion.

The **cost of goods sold** registered an increase of 70.1% over 2Q07, due to higher number of gross activations (increase of 80.8%). When compared to the 1Q08, cost of goods sold increased by 43.0% due to higher commercial activity associated to Mother's Day and Valentine's Day campaigns.

In the 2Q08, **selling expenses** increased by 54.0% and 56.6% over the 2Q07 and 1Q08, respectively due to the higher advertising and publicity costs associated with Vivo's entry in the state of Minas Gerais, Mother's Day and Valentine's Day.

Provision for Bad Debt recorded an increase of 56.7% over 2Q07 as a consequence of higher postpaid sales volume during the 2007 Christmas campaign in relation to 2006. General and administrative expenses increased by 5.4% compared to the 2Q07, due to the increase in system maintenance costs. When compared to 1Q08, G&A expenses would have remained flat if we exclude the payment of attorneys' fees paid in the ICMS lawsuit in the 1Q08.

Other Operating Revenues/ Expenses came to revenue of R\$16.6 million, higher than R\$ 12.0 million posted in the 2Q07 and lower when compared to R\$265.3 million registered in the 1Q08. This reduction primarily results from the impact of ICMS provision reversal in 1Q08.

EBITDA

Reduction of 7.9 p.p. in the EBITDA margin over adjusted 1Q08 (ICM effect).

EBITDA (earnings before interest, taxes, depreciation and amortization) stood at R\$ 79.7 million in the quarter, a 35.5% reduction from the R\$ 123.6 million posted in the 2Q07, resulting in an EBITDA Margin of 21.6%. When compared to the 1Q08, EBITDA decreased by 76.8% as a result of the impact of the reversal of the provisions for the ICMS tax in the 1Q08, and, also, higher costs for adding new clients (Mother's Day and Valentine's Day) and launch of Vivo brand.

DEPRECIATION AND AMORTIZATION
