## Summarized Analysis of Adjusted Income

### **Adjusted Net Income and Profitability**

In the first quarter of 2011, Bradesco's adjusted net income stood at R\$2,738 million, an increase of 2.0% or R\$54 million from the previous quarter, which was primarily impacted by: (i) a growth in financial margin, due to the increased volume of operations; (ii) lower personnel and administrative expenses; offset by: (iii) an increase in the allowance for loan losses; (iv) lower fee and commission income; and (v) an increase in other operating expenses (net of other operating revenue).

In the first quarter of 2011 versus the same period of previous year, adjusted net income increased R\$591 million, or 27.5%. The main reasons for this result are described below in the analysis of the main income statement items.

Shareholders' Equitystood at R\$51.297 billion in March 2011 and included a capital increase in the amount of R\$1.511 billion, up by 19.1% on the balance of March 2010. The Capital Adequacy Ratio stood at 15.0%, of which 13.4% was under Tier I Capital.

Total assets stood at R\$675,387 million in March 2011, up 26.8% over March 2010, driven by the expansion of business volume. Return on Average Assets (ROAA) remained stable, hovering near 1.7%.

### Efficiency Ratio (ER)

The ER calculated on an "adjusted-to-risk" basis to reflect the impact of risk in loan operations<sup>(2)</sup> dropped for the fifth consecutive quarter, reaching 52.1% in the first quarter of 2011, up 0.3 p.p. compared to the previous quarter and 3.3 p.p. year-on-year. This behavior is in line with the results of previous quarters, mainly due to decreased delinquency.

The ER – accumulated over 12 month( $^{1)}$  remained stable in relation to the previous quarter.

The quarterly ER decreased from 44.0% in the fourth quarter of 2010 to 42.0% in the first quarter of 2011, mainly due to: (i) reduced personnel expenses due to vacation periods concentrated in the first quarter; (ii) lower administrative expenses; and (iii) increased financial margin, driven by growth in business volume.

(1) Efficiency Ratio (ER) = (Personnel Expenses – Employee Profit Sharing (PLR) + Administrative Expenses) / (Financial Margin + Fee and Commission Income + Income from Insurance + Equity in the Earnings (Losses) of Unconsolidated Companies + Other Operating Income – Other Operating Expenses). Considering the ratio between: (i) total administrative costs (Personnel Expenses + Administrative Expenses + Other Operating Expenses + Tax Expenses not related to revenue generation) and (ii) revenue net of related taxes (not considering Claims Expenses from the Insurance Group), our Efficiency Ratio in the first quarter of 2011 would be 43.5%.

(2) Including ALL expenses, adjusted for granted discounts, loan recovery and sale of foreclosed assets, among others.

### **Financial Margin**

The R\$344 million increase between the first quarter of 2011 and the fourth quarter of 2010 was due to:

- the increase in income from interest- earning operations by R\$296 million, mainly the result of: (i) higher income from funding margin; and (ii) higher income from insurance margin; and
- higher income from non-interest margin, in the amount of R\$48 million.

The financial margin posted a R\$1,673 million improvement between the first quarter of 2011 and the same period in 2010, which corresponds to a 21.8% growth, mainly driven by:

- growth in income from interest-earning operations of R\$1,443 million, mainly due to (i) higher income from loan operations, resulting from increase in business volumes; (ii) higher income from funding margin; and (iii) higher income from insurance margin; and
- greater income from the non-interest margin, in the amount of R\$230 million, due to higher treasury/securities gains.

### **Total Loan Portfolio**

In March 2011, Bradesco's loan operations (considering sureties, guarantees, advances of credit card receivables and assignment of receivables-backed investment funds and mortgage-backed receivables) totaled R\$284.7 billion. The expansion of 3.8% in the quarter was due to: (i) 5.3% growth in Large Corporate portfolio; (ii) 4.3% in the SME portfolio; and (iii) 2.0% in the Individuals portfolio.

Year on year, the portfolio expanded by 21.0%, the result of growth of: (i) 29.4% in the SME portfolio, (ii) 19.0% in the Large Corporate portfolio; and (iii) 16.4% in the Individuals portfolio.

In the Individuals segment, the products that posted the strongest growth in the last twelve months were: (i) real estate financing; (ii) the payroll-deductible loan portfolio; and (iii) BNDES/Finame onlending operations. In the Corporate segment, growth was led by: (i) BNDES/Finame onlending operations; (ii) credit card; and (iii) vehicle financing - CDC.

### Allowance for Loan Losses (ALL)

In the first quarter of 2011, expenses with the allowance for loan losses stood at R\$2,360 million, up 2.8%. This increase was mainly the result of the 4.0% growth in loan operations – Bacen concept.

The first quarter of 2011 compared to the same period of 2010, ALL expenses posted a 7.9% increase, causing an expansion of generic provisions and partially offset by a decline in delinquency and higher income from loan recovery of 20.7% in the period, totaling R\$613 million. Loan operations – Bacen concept grew by 21.1% in the same period, demonstrating growth

Including other operations bearing credit risk from the Corporate portfolio<sup>(1)</sup> (expanded criteria), operations with credit risk would have amounted to R304.4 billion in March 2011 (R248.3 billion in March 2010), up 3.7% in the quarter and 22.6% over the last 12 months. These operations mainly comprise debentures and promissory notes with Large Corporations.
