Publicly-Held Company

Dear Shareholders,

Presented herein are the Company's management proposals for the agenda of the second Extraordinary General Shareholders' Meeting of the Company to be held on June 9, 2011:

1. Amendment to Article 5 as referred to in the Call Notice.

We herein propose the amendment to Article 5 of the Company's Bylaws in order to reflect capital increases approved by the Board of Directors, within the limit of the authorized capital of the Company, up to the date of the General Shareholders' Meeting, as indicated in Exhibit I attached hereto. Aforementioned Exhibit I contains the draft of the Company's Bylaws, highlighting the proposed changes, as well as information on the basis and justification for each proposal and the analysis of the legal and economic effects of such proposed amendments, when appropriate, as required by Article 11 of CVM Instruction 481/09.

2. To substantially review and amend the following provisions of the Company's Bylaws, highlighting the following amendments and inclusions (references to articles of the Bylaws consider the number in the proposal for amendment of the Bylaws, as sent through the IPE system on the occasion of the call for the Meeting):

- (a) include corporate governance general guidelines to guide the administration (article 17);*
- (b) amend the process for the election of members to the Board of Directors (articles 18 to 21);*
- (c) formalize the advisory committees (Section IV.IV, articles 40 to 47);*
- (d) include limitation on voting rights (article 6th and items "c" and "d" of article 67);*
- (e) include rules providing for a tender offer in the event that a position of 30% of the Company's capital stock is reached (Chapter VIII, articles 62 to 68);*
- (f) update of Executive Officers' functions (articles 30 to 37); and*
- (g) other necessary adaptations and improvements (articles 1st and 2nd, article 8th, §6 of article 9th, article 10, article 11, article 13, article 15, articles 22 to 25, article 27, articles 48 and 49, article 52, articles 55 to 61, article 70).*

We propose a wide reform of the provisions in the Bylaws, with the corresponding consolidation in the form of Exhibit I attached hereto. Such Exhibit I includes a draft of the Bylaws showing the proposed changes and a table

containing the information on their origin and justification – which provides an analysis of their legal and economic effects, where applicable, in accordance with Article 11 of CVM Instruction 481/09.

In addition to the information contained in Exhibit VI, it is important to inform shareholders that over the past few months the Company has been studying, through its Nomination and Corporate Governance Committee, ways to improve its corporate governance mechanisms, especially given the context that the Company has no defined controlling shareholder. In this scenario, we believe that it is important for the Company to establish rules for the protection of shareholders' interests as a whole and adhere to the best corporate governance practices, in light of the fact that (i) this is a professional form of management, (ii) that value should be created in case of a change in control, (iii) that there should be protection against conflicting interests and (iv) that the Company's long-term goals and strategies should remain stable over time.

The purpose of the proposed amendment of the Bylaws is to incorporate these concerns. It is important to note that, in order to facilitate the process of deliberation, the voting process related to the amendments and inclusions proposed to the Bylaws will be conducted separately for each one of the subjects described in the call notice. Additionally, any shareholder may request an isolated voting for any specific dispositions of the presented proposal, at the discretion of said shareholder.

The provisions contained in the new drafted proposal include the following changes and inclusions:

- General Guidelines for Corporate Governance. A list of guidelines for the management of the Company that outline each officer's respective responsibilities, address their fiduciary duties and maintain stability for the Company's general objectives and its shareholders' interests. The general guidelines ensure that the performance of management's duties must always be aligned with the best interests of the shareholders, and they should serve as the standard for the application and interpretation of the other new proposed provisions, including the election of the Board of Directors, the limitation on voting rights and the mandatory public tender offer in case of the obtaining a relevant equity stake.

- Process for Election of the Board of Directors. As the Company currently has no controlling shareholder, we understand that it is important to establish clear rules that provide stability and define the activities of the Board of Directors, the composition of the Board, the qualification for its members and the election process. Therefore, we propose, among other provisions, (i) that the Board of Directors be composed of a majority of independent members; (ii) the expansion of the concept of an independent member; (iii) the creation of requirements to be fulfilled by each candidate for the Board of Directors; (iv) the establishment of election through a slate system; (v) the specification of a wide array of information on the candidates for the Board of Directors; and (vi) more precise rules pertaining to the election of directors.

- Advisory Committees. Although the Company already has various advisory committees, we propose formalizing the existence of, and guidelines for, the Audit Committee, the Compensation Committee, and the Nominating and Corporate Governance Committee. The new Bylaws would provide rules on the composition, function and duties of such advisory committees, based on the rules of the New York Stock Exchange (NYSE) and on practices that are already being carried out by the Company. We believe that by formalizing the committees and their functions, greater stability would be created, ensuring that the Company has advice and oversight from people specialized in audit and compliance; an alignment between the interests of management with those of the shareholders; the ability to attract and retain talented people; the occupation of key positions in the Company by well-qualified and experienced professionals; and an established succession plan.

- Limitation on Voting Rights. In accordance with the practices adopted by other publicly-listed Brazilian companies, we propose the inclusion of a limitation on voting rights for any shareholder exceeding 5% of the shares of the Company, except in connection with specified matters of a more sensitive nature, so as to ensure the stability of the Company's corporate goals and the protection of its shareholders' interests, including: the corporate governance guidelines proposed (as described above), the rules on the composition and election of the Board of Directors and those related to public tender offers for which the purpose is to acquire all of the shares issued by the Company. We note that the new Bylaws should provide for the revocation of such limitations by decision of the Shareholders' Meeting, if convened by the Board of Directors, when a public tender offer for the acquisition of all shares of the Company has been made and the Board of Directors agrees, based on its fiduciary duties, that the acceptance of such an offer would be in the best interest of the Company and its shareholders.

- Public Tender Offer in case of Obtaining a Stake of 30%. In light of the need for stability in the Company's affairs, and with the aim of protecting the Company's broad share ownership, we propose the inclusion of rules providing for a public tender offer for acquisition of all shares issued by the Company, in the event that a shareholder or group of shareholders comes to obtain an equity stake of 30% or more of the total shares in the Company. In this instance, the tender offer price shall be the economic value of the shares. The Board of Directors must give its opinion on any public tender offer for the acquisition of all shares of the Company, including the new tender offer that is currently proposed. The said opinion of the Board shall result from an assessment of the convenience and opportunity afforded by the offer and, if the case after such analysis, it shall result in the calling of a Shareholders' Meeting to deliberate on the revocation of the limitation on voting rights proposed, as described above.

- Adaptations and Improvements. We also propose certain adjustments to the language of the Bylaws, with the aim of (i) updating the duties of the Executive Board, in light of the practices carried out by the Company; (ii) adapting the powers of the Board of Directors in connection with the issuance of debentures, to the changes made by Provisional Measure No. 517, of 2010; (iii) preparing the Company for the expected amendments to the Novo Mercado Listing Rules, as a result of the restricted audience carried out in 2010; and (iv) generally adjusting and improving the language and order of certain provisions.

3. Consolidation of the Company's Bylaws.

In the event that the abovementioned proposed changes on items 1 and 2 are approved, we propose that a consolidation to the Bylaws, in the form of Exhibit II attached hereto, is also approved.

São Paulo, April 29, 2011.

Provision does not exist	§ 1. Without prejudice of the provision set forth in the main clause of this Article 6, in any Extraordinary General Meeting called to resolve on the amendment or revocation of the provisions set forth in this Article 6, the limit of votes for any shareholder or Shareholder Group will also be of 5% of the number of shares in which the Company's capital is divided, with the exception of the provisions set forth in Article 67, (d).	proposed in the form of the new Article 17 (below), the rules regarding the composition and election of members of the Board of Directors and the rules regarding public offerings that contemplate all shares of the Company. With these new provisions, it is expected that the Company and its shareholders are protected from interests that are hostile to their long term goals and that the dispersion of the Company's stock is preserved.
Provision does not exist	§2º. The Chairman of the General Meeting must ensure compliance with the rules set forth in this Article 6 and inform the number of votes to which each shareholder or Shareholder Group, present at the meeting, will be entitled.	It is relevant to note that this provision shall be applied to the extent that it meets the shareholders' interests and that it shows consistency with the creation of value and fulfillment of the long term goals. For this reason, a provision is also being proposed in the sense that such limitation to the right to vote can be overruled in a General Meeting called by the Board of Directors, in the case that a public offering is made for the acquisition of the totality of shares of the Company, and that the Board of Director understands, respecting its fiduciary duties, that the acceptance of the offering would meet the best interests of the shareholders and of the Company.
Provision does not exist	§3º. The votes that exceed the limits specified in this Article 6 will not be counted.	

It is also important to note, further, that the practice of the referred power by the Board of Directors will be necessarily submitted to the principles and guidelines that are being suggested in the form of the new Article 17.

As a result of this suggestion, procedural provisions for the application of the limits to the rights to vote are also being suggested, such as the power of the Chairman of the General Meeting to ensure its applicability by abstaining from counting the votes that exceed the limits set forth in the referred Article.

There may be cases in which practical circumstances that are not a direct result of the will of one of the elected candidates hinders the taking of office in a timely manner, and in this sense we suggest the possibility that, in such exceptional and justifiable case, the delay in the deliverance of the instrument of investiture is admitted.

Where applicable, the Board of Directors shall also distribute the share in profits fixed by the Shareholders in General Meeting.

Article 17. In performing its attributions and as a parameter of the performance of their duties and legal responsibilities, the Company's management bodies must rest, strictly on the observation of the following principles and guidelines, without prejudice of others that may be suggested by the Nominating and Corporate Governance Committee and approved by the Board of Directors:

(a) the Company's management shall be performed in a professional way, aligned with the shareholder's interests, but without association to any particular interests of any shareholder or Shareholder Group individually considered;

(b) the powers conferred, through these Bylaws, to the management bodies, especially those related to the rules for appointing the candidates for the Board of Directors, to the appraisal of the terms of a public tender offer, and to the possibility of calling the General Meeting for revoking the limitation on voting rights set forth in Article 6, will be exercised

In a context where the Company does not have a controlling shareholder, we suggest the establishment of guidelines that should always be followed by the offices of the Company, by giving materiality to fiduciary duties and giving stability to the general goals of the Company and interest of its shareholders. In this sense, the general guidelines seek to clarify that the directors and officers should always act in view of the best interest of the shareholders, and will also serve as a parameter for the application interpretation of other new provisions, as suggested, in relation to the election of the Board of Directors, limitation on voting rights and the mandatory public tender offer in case of obtainment of a material equity stake.

As a result of this provision, the guidelines will serve the purpose of assuring that the management of the Company is always performed by capable professionals that are not bound to particular interests that are not aligned with the interests of the other shareholders. Further, it is expected that this provision

strictly according with the Company's and its shareholders' best interests, and with the principles set forth herein;

(c) the existence of the powers mentioned in the item (b) above is based on the shareholders' interests as a whole, and its only function is to attend and maximize such interests, in case such becomes necessary in view of the Company's continuity and generation of long-term value;

(d) the powers set forth in item (b) above cannot be used, under any circumstances, for the private benefit of any shareholder, Shareholder Group, director, officer or group of directors and/or officers;

(e) the powers mentioned above, as well as its objectives, cannot be understood and have no function whatsoever of serving as an obstacle to the development of Control by any shareholder or Shareholder Group, and as such, the Board of Directors shall exercise its competence set forth in Article 67 in such a way as to allow that the eventual development of Control enables the creation of higher value to the Company's shareholders, within the time horizon it believes to better serve the shareholders interests considered as a whole;

(f) the Company's management shall be performed transparently, with

will encourage the management to be more transparent and rigidly committed with the strict compliance of the law, employing in the decision-making process the constant concern of making a management that forms and attracts talented members and that seeks the stability of the Company's business and the compliance with its strategic goals. In addition, it is relevant to note that the new principles shall make clear that the provisions regarding the limitation of the shareholders' voting rights and the public offering for the acquisition of the totality of shares of the Company do not serve under any circumstance, to perpetuate the interests of a specific group or to prevent the formation of a controlling power, but to guarantee widespread ownership of the Company, so that any material modification to the current shareholder composition of the Company is admitted to the extent that it is considered in line with the interests of the shareholders as a whole.

In conclusion, the provision suggested constitutes a steering instrument for carrying out the activities and duties of the directors and officers, giving materiality to their duties and responsibilities and optimizing the opportunities of creating value by creating parameters of performance for determining long-term strategies of the Company.

extensive internal and external provision of the information required by law, regulations or by these Bylaws;

(g) the strict enforcement of the law and the accounting standards, and the most rigid ethics standards shall be observed by all members of the Company's management in performing their functions, and they shall be responsible for ensuring that the other employees and collaborators of the Company and its controlled companies also observe the same standards;

(h) the compensation of the members of the Company's management and its senior employees must support, above all, delivery of results and long-term value creation, as well as the retention of talents, and it must be structured in a way as to prevent any kind of privilege, distortion with respect to market standards or mechanism that may hamper or impair the achievement of the corporate interest;

(i) the management shall be responsible for the development of internal politics and practices to attract and retain the best talents and to cause the Company to count with highly qualified human resources, also encouraging the achievements of goals and promoting meritocracy;

(j) no member of the management may have access to information, participate in

meetings of any other management body, exercise voting rights or in any way intervene in matters that are, directly or indirectly, in situations of conflicting interests with the interests of the Company or when it may be particularly benefited in any way.

SECTION IV.II. – BOARD OF DIRECTORS (CONSELHO DE ADMINISTRAÇÃO)

Composition

Article 16. The Board of Directors is composed of at least five (5) and no more than nine (9) effective members (the election of alternates being permitted), all of whom shall be shareholders, elected and removable at any time by the Shareholders in General Meeting, with an unified term of office of two (2) years, re-election being permitted.

Article 18. The Board of Directors is composed of at least five (5) and no more than nine (9) effective members, all of whom shall be shareholders, elected and removable at any time by the Shareholders in General Meeting, with an unified term of office of two (2) years, re-election being permitted, in this case subject to the provisions set forth in Article 20, §6.

We suggest the exclusion of the possibility of having and electing alternate board members, as we believe that this is of little relevance when considering the Company's current scenario. Additionally, reference is made to the new provision suggested that has the objective of guaranteeing the renewal of the Board of Directors' composition.

Article 17. At least 20% of the effective members of the Board of Directors shall be Independent Members.

Article 19. The majority of the effective members of the Board of Directors shall be of Independent Members.

Provision renumbered
We suggest that Board of Directors is composed by a majority of Independent Members, and consequently, that the current participation of Independent Members is raised from the 20% proportion currently established in the By-laws. By adopting this provision, we expect to assure that the relevant decisions for the Company's activities are always taken independently, in accordance with the best practices of corporate governance.

§ 1. When a fractional number of directors results from compliance with the percentage referred to above, the fraction shall be rounded (i) to the next highest whole number, where the fraction is 0.5 or greater; and (ii) to the next lowest whole number, where the fraction is less than 0.5.

§ 2. For purposes of these Bylaws, “Independent Member” is one who: (i) has no relationship with the Company except for an interest in its capital; (ii) is not a Controlling Shareholder, nor a spouse or relative up to the second degree of the Controlling Shareholder, and is not now and has not been, in the past three years, related to a company or entity related to the Controlling Shareholder (persons related to public institutions of education and/or research are excluded from this restriction); (iii) has not been, in the past three years, an employee or officer of the Company, the Controlling Shareholder or a company controlled by the Company; (iv) is not a direct or indirect supplier or purchaser of the Company’s services and/or products of the Company, in a degree that implies loss of independence; (v) is not an employee, officer or director of a company or entity offering services and/products to, or requesting services and/or products from, the Company; (vi) is not a spouse or relative up to the second degree of any of the Company’s officers or

§1. For purposes of these Bylaws, “Independent Member” is one who: (i) has no relationship with the Company except for an interest in its capita, within the limits set forth in these Bylaws; (ii) is not a Controlling Shareholder, nor a spouse, stable companion or relative up to the second degree of the Controlling Shareholder, and is not now and has not been, in the past three years, related to person or company or entity related to the Controlling Shareholder (persons related to public institutions of education and/or research are excluded from this restriction); (iii) does not have direct or indirectly, participation superior to 5% of an interest in the Company’s total or voting capital, neither has any relation with any shareholder who does; (iv) has not been, in the past three years, an employee or officer of the Company, the Controlling Shareholder or a company controlled by the Company, neither of a company associated with any shareholder with a participation superior to 5% in the Company’s total or voting

Provision renumbered
The provision that established rounding will become unnecessary, in the event that it is established that the majority of the members of the Board of Directors shall be Independent Members.

We suggest that the concept of “Independent Member” is expanded, through the inclusion in the definition of the following characteristics: (i) inexistence of participation superior to 5% in the Company’s total or voting capital, or relation with any shareholder who does, aiming to avoid that the management of the Company is influenced by personal interests; (ii) absence of relation with independent auditors of the Company, aiming to avoid that any of the offices are held by the same people or that the interests are the same and may in any way affect the work of the external auditors; (iii) absence of relation with an entity in which a director or officer of the Company has taken office in a compensation committee or body with similar functions, aiming to avoid any private benefit of a Board Member in the name of personal interests that result of the other offices held. Additionally, it is important to note that the suggested inclusions aim to adapt the definition of Independent Member of the Board of Directors to the listing rules

capital; (v) is not now and has not been, in the past three years related to company or person that provides audit services for the Company; (vi) is not a direct or indirect supplier or purchaser of the Company's services and/or products of the Company, in a degree that implies loss of independence; (vii) is not associated to company or entity offering services and/products to, or requesting services and/or products from, the Company; (viii) is not a spouse, stable companion or relative up to the second degree of any of the Company's officers or directors nor has any relation with the Company or company controlled by the Company, neither has received, in the last three years, any kind of remuneration from the Company or company controlled by the Company (cash earnings generated by holdings in the Company's capital are excluded from this restriction); (ix) does not receive any other kind of remuneration from the Company other than that arising from its term of office as board member (cash earnings generated by holdings in the Company's capital are excluded from this restriction); (x) is not now, nor has been in the past three years, in the management of any company in which any of the Company's directors or officer holds or has held, at the same time, office in a compensation committee or body with similar functions, with this restriction being also applied to its spouse, stable

adopted by NYSE, in a manner that conforms the By-laws of the Company to the requirements of the aforementioned stock exchange. We also suggest some adjustments in order to perfect the wording of such provision.

With the expansion of the definition of Independent Member of the Board of Directors, it is possible to infer that the majority of the members of the Board of Directors will be composed by people that are not bound to personal interests, which optimizes the decision-making process by means of a procedure that is disinterested and more suitable to guarantee the observance of the interests of the Company, consequently optimizing the creation of value for the shareholders in the long run.

In addition, with the adoption of this provision, the By-laws will be fully adjusted to the provisions of the NYSE regarding this matter. Even though it is not necessary to reflect such rules in the By-laws, putting all the provisions together guarantees more clarity, regarding the concept of Independent Member.

In the view of the fact that it is being suggested that a person that does not hold a participation superior to 5% of interest in the Company's total or voting capital, or relation with any shareholder who does is considered a Independent Member, it is important to establish, as a result, that the board member shall fulfill this characteristic in every scenario, even if elected by the multiple vote or separate vote. This provision aims to guarantee that the provisions described above, regarding the protection of the management against conflicting or competing interests, are not the subject of controversy or doubts in relation to the discussion of what is considered someone or something that has a conflicting or competing interest. Election

Provision does not exist

Article 20. Except for cases set forth in Article 21, the election of members of the Board of Directors will be held by a slate system.

In line with other companies with widespread ownership in the market, we propose that the members of the Board of Directors be elected through a slate system, thus creating the corresponding rules which, in aggregate, shall give greater stability to the board election process, ensuring ordered renovation of the Board of Directors. The election of slates to the Board is known to be more organized, avoiding a considerable amount of conflicts and controversies in filling the positions, which should be addressed by the remaining rules that shall organize the election process, as described below.

§1. The Chairman of the General Meeting, in the conduct of work related to the election of members of the Board of Directors, must manage the voting mechanism applicable under the requirements provided in Article 20 and Article 21.

The Board of Directors shall appoint a slate, following advice from the Nominating and Corporate Governance Committee, and the shareholders may appoint their own slates. a statement signed by each member of the slate indicated by it, containing: (i) the information specified in items 12.6 to 12.10 of Annex 24 to CVM Instruction No. 480/09, or information, as may be required under the rules that replace such instruction, as well as those required by the Listing Rules of the Novo Mercado, complemented by the complete description of their work experience, citing their previously carried out professional activities, as well as professional and academic qualifications; (ii) information on the existence of cases of incapacity or conflict of interest provided for in Article 147, § 3 of Law. 6,404/1976; and (iii) the indication that the candidate is characterized as an Independent Member under these Bylaws. Such information should also be reflected in the management proposal to be made available to shareholders on the internet, in the Company's, the CVM's and the BM&FBovespa's websites. Whenever the Board of Directors includes, in its slate, a candidate who is not considered an Independent Member under these Bylaws, it shall submit a statement justifying the recommendation.

§4. The Shareholders or Shareholder Group that wishes to propose another slate to compete for positions on the Board of Directors shall, in advance of at least 5 days prior to the date scheduled for the General Meeting, provide the Board of Directors with statements those they believe to be the most suitable. The information to be disclosed must expressly include the information on whether the candidate is an independent member and on the existence of any conflicting interest.

In addition to the rule requiring a majority of independent members, in case the Board of Directors includes a candidate who does not qualify as such, it shall provide a justification for such appointment.

It will always be required that at least 1 appointee in each slate has not been a director of the Company at any time and for the period of 4 years prior to its nomination, thus aiming at assuring a minimum level of renovation for the positions in the Board of Directors.

As a general rule, a shareholder may only vote in a single slate, and the slate with the greatest number of votes shall be elected. As a result, an organized procedure is established and, without adversely affecting the right of the shareholders to appoint their own candidates, such right shall be exercised in an organized way, after wide disclosure of information and in accordance with clear and precise rules.

We propose wording adjustments in order to (i) establish that the nomination of a substitute, in the case of vacancy, will be made with the assistance of the Nominating and Corporate Governance Committee; (ii) state an exception to the case of election via multiple voting system; and (iii) exclude the reference to the definition of "Independent Member" made in the Novo Mercado Listing Rules, considering that the Company has adopted its own and more extensive definition in the By-laws. We suggest the inclusion of a provision establishing that in the event that the majority of the seats in the Board of Directors is vacant, a General Meeting will be held to elect substitutes, avoiding that the decision-making process of the Board of Directors is affected by the lack of *quorum*, or further by the potential scenario in which the Board no longer has a majority of Independent Members.

§5. The Chief Executive Officer cannot be elected for the office of Chairman of the Board of Directors.

We propose the exclusion of the reference to the definition of “Independent Member” of the Board of Directors as defined in the Novo Mercado Listing Rules, considering that the Company has adopted its own and more extensive definition in the By-laws.

We suggest the inclusion of a provision that establishes that the Chief Executive Officer cannot be the Chairman of the Board of Directors, considering that such requirement will be mandatory, according to the expected amendments of the Novo Mercado Listing Rules, as a result of the restricted audience conducted in 2010.

Reference to the participation in meetings by representation has been excluded, since Article 22 (current Article 18) already provides for this matter.

We propose that the Chief Executive Officer is required to attend the meetings of the Board of Directors, even if not a member of such body, in order to ensure the constant interaction between the Company's managing and supervisory activities.

a) make the public tender offer referred to in Article 41;

b) compensate shareholders which have purchased shares on the stock exchange in the six (6) months preceding the Disposal of Control, by paying the difference between the price paid to the Disposing Controlling Shareholder and the price paid on the stock exchange for shares in the Company during the said six-month period, duly adjusted for inflation; and

Sole Paragraph. For purposes of these Bylaws:

Definitions were moved to new Article 11, §1, that will consolidate various definitions applicable to the subject, in alphabetical order.

"Purchaser" means the person to whom the Disposing Controlling Shareholder transfers Control in a Disposal of Company Control;

"Disposal of Company Control" means the transfer, for value, of Control Shares; and

"Statement of Consent from Controlling Shareholders" means the instrument by which the new Controlling Shareholders, or shareholders which join the control group of the Company, assume personal liability for complying with the Novo Mercado Agreement (Contrato de Participação no Novo Mercado), the Novo Mercado Listing Rules, the Arbitration Clause and the Arbitration Rules, in the form set out in Exhibit C to the Novo Mercado Listing Rules.

(a) whenever the Shareholders in General Meeting approve cancellation of the Company's registration as a publicly-held company, the public tender offer shall be made by the Company itself, provided, however, that the Company may acquire shares held by shareholders which voted in favor of cancellation of the Company's registration at the General Meeting at which the cancellation was approved only after it has acquired the shares held by the shareholders which did not vote in favor of cancellation and which accept the public tender offer; and

(b) whenever the Shareholders in General Meeting approve the Company's exit from the Novo Mercado, due to listing of the Company's shares for trading off the Novo Mercado or to a corporate reorganization in which the shares of resulting company are not admitted for trading on the Novo Mercado, but without cancellation of the Company's registration as a publicly-held company, the public tender offer shall be made by the shareholders which voted in favor of the exit at the General Meeting.

(b) whenever the Shareholders in General Meeting approve the Company's exit from the Novo Mercado, due to listing of the Company's shares for trading off the Novo Mercado or to a corporate reorganization after which the resulting company's securities are not admitted for trading on the Novo Mercado, the public tender offer shall be made by those to which such duty has been attributed by decision of said General Meeting, who shall be present in the General Meeting and therein expressly assume the obligation to make the tender offer.

Improvement of wording to define in a better and in a clearer way the hypothesis in which the tender offer shall be made.

We propose to amend the rule that provides that the tender offer should be made by the shareholders that vote in favor of delisting the Company from Novo Mercado, considering that it finds more specific application in cases where there is a relevant shareholder who does not hold control (as defined under Brazilian Law), which is not the case of the Company. The proposed rule has greater legitimacy once it gives to the shareholders the

power to decide who should make the tender offer in case they to delist from Novo Mercado, therefore allowing greater flexibility and that each situation is handled in the most efficient way. This hypothesis must also be provided in the Listing Rules of Novo Mercado, as a result of the restricted audience conducted in 2010.

Provision moved and adapted according to former Article 9, Sole Paragraph

Article 59. In the event of cancellation of the Company's registration as a publicly-held company or its exit from the Novo Mercado, due to listing of the Company's shares for trading off the Novo Mercado or to a corporate reorganization in which the resulting company's securities are not admitted for trading on the Novo Mercado within the term of one hundred and twenty (120) days counted from the General Meeting which approves the reorganization, the public tender offer to be made by the Controlling Shareholder, or the Company, or by the shareholders referred to in Article 58, item (b), as applicable, shall have a minimum offer price which is equal to the economic value determined in the appraisal report referred to in Article 10, item (b) and in accordance with the Novo Mercado Listing Rules.

The provision was moved from former Article 9, Sole Paragraph, as it is more consistent with this chapter, and also subject to the following proposed adjustments: (i) improvement of wording to define more clearly the hypothesis in which the tender offer must be made; and (ii) express reference to the possibility of making the tender offer in ways to be determined as set forth in the new Article 58, item (b), above. This last hypothesis should be included in the Novo Mercado Listing Rules, as a result of the restricted audience conducted in 2010.

Provision does not exist

Article 62. Any shareholder or Group of Shareholders (“Acquiring Shareholder”) who comes to obtain: (a) a direct or indirect equity stake equal to or higher than 30% of the total shares issued by the Company; or (b) title to any other partners’ or equity rights, including by way of usufruct, that enables it to have voting rights pertaining to shares issued by the Company and which represent 30% or more of its corporate capital, shall (i) give immediate notice, by means of a statement to the Investors Relations Officer, in accordance with CVM Instruction No. 358/02, of such acquisition; and (ii) make a public tender offer for acquisition of the shares held by the remaining shareholders of the Company.

In light of the stability in the Company’s affairs and aiming to protect its widespread ownership, we propose the inclusion of rules providing for a mandatory public tender offer for acquisition of all shares issued by the Company, in case any shareholder or group of shareholders comes to obtain an equity stake of 30% of the total shares of the Company. We understand that such offer is necessary as a means to protect dispersed ownership of the Company, as adopted by various others publicly-held companies in Brazil, and also reflecting the standardized rules, clearer and more predictable, as proposed by BM&FBovespa for adoption in the Novo Mercado Listing Rules, which eventually came up being rejected in the

CHAPTER VI

FISCAL YEAR, BALANCE SHEET AND RESULTS

Article 51. The fiscal year shall begin on January 1st and end on December 31st of each year. At the end of each fiscal year and each calendar quarter, the financial statements provided for by law shall be prepared.

Article 52. The Company, by resolution of the Board of Directors, may draw up half-yearly, quarterly or monthly balance sheets, and declare dividends on account of the profits shown on such balance sheets. The Company, by resolution of the Board of Directors, may also declare interim dividends on account of accumulated profits or profit reserves shown on the last annual or half-yearly balance sheet.

§ 1. The Company may pay interest on its own capital, to be credited to annual or interim dividends.

§ 2. The dividends and interest on its own capital distributed under the terms of this Article 52 shall be attributed to the mandatory dividend.

Article 53. Prior to any distribution, any accumulated losses and provision for income tax shall be deducted from the profits for the year.

§ 1. From the amount calculated in accordance with this Article, the profit shares of the members of the Company's management shall be calculated, subject to the legal maximum, to be distributed according to the rules established by the Board of Directors.

§ 2. After the deduction referred to in the preceding paragraph, the following allocations shall be made from the net profits for the year:

d) 5% (five percent) to the legal reserve, until the legal reserve is equal to 20% (twenty percent) of the paid-up capital or attains the limit established in Article 193, §1 of Law 6404/76;

e) from the remaining net profits for the year, after the deduction referred to in item (a) of this Article 53 and the adjustment provided for in Article 202 of Law 6404/76, 25% (twenty-five percent) shall be allocated to payment of the mandatory dividend to all shareholders; and

f) an amount not greater than 71.25% (seventy-one and twenty-five one-hundredths percent) of the net profits shall be allocated to the creation of an Investment Reserve, for the purpose of financing the expansion of Company's and of its controlled companies' business, through subscribing for capital increases, creating new projects or participating in consortiums or other types of association, among other means of achieving the Company's corporate purpose.

§ 3. The reserve established in item (c) of §2 of this Article 53 may not exceed 80% (eighty percent) of the Company's capital. Should the reserve reach such limit, the Shareholders in General Meeting decide on the allocation of the excess, either distributing it to the shareholders or using it to increase the capital of the Company.

§ 4. After the distribution provided for in the previous paragraphs, the Shareholders in General Meeting shall determine the allocation of the remaining balance of the net profits for the year, after hearing the Board of Directors and subject to applicable law.

CHAPTER VII

CONTROL AND ABSENCE OF CONTROL

Article 54. Any disposal of control of the Company, in either a single transaction or a series of transactions, shall be contracted subject to a condition, either precedent or subsequent, under which the acquirer of control undertakes to make a public tender offer for the shares of the remaining shareholders in accordance with applicable law and the Novo Mercado Listing Rules and on terms that ensure equal treatment with the disposing shareholder.

Article 55. The public tender offer referred to in Article 54 shall also be made:

- a) in the event of an assignment for value of rights to subscribe for shares or other securities or rights convertible into shares, which assignment results in a Disposal of Control of the Company; and
- b) in the event of a disposal of control of a company that holds Control of the Company, in which case the Disposing Controlling Shareholder shall be obligated to declare to BM&FBovespa the value attributed to the Company in the disposal and to submit documentation to prove the declared value.

Article 56. Any person which holds shares in the Company and subsequently acquires Control by reason of a private purchase and sale agreement made with the Controlling Shareholder involving any number of shares is required to:

- d) make the public tender offer referred to in Article 54;
- e) compensate shareholders which have purchased shares on the stock exchange in the six (6) months preceding the Disposal of Control, by paying the difference between the price paid to the Disposing Controlling Shareholder and the price paid on the stock exchange for shares in the Company during the said six-month period, duly adjusted for inflation, and for that means duly observing the procedures stated in the Novo Mercado Listing Rules; and
- f) take such action as may be necessary to restore the free float of the Company's shares to at least 25% (twenty-five percent) of the total outstanding shares in the Company, within the six (6) months following the acquisition of Control.

Article 57. The Company shall not record (i) any transfer of shares to the Purchaser of Control, or to any other person(s) which acquire Control until such time as they have executed the Statement of Consent from Controlling

Shareholders (*Termo de Anuência dos Controladores*); or (ii) any Shareholders' Agreement that provides for the exercise of Control unless the signatories to the agreement have executed the Statement of Consent from Controlling Shareholders.

Article 58. In case there is no Controlling Shareholder:

- a) whenever the Shareholders in General Meeting approve cancellation of the Company's registration as a publicly-held company, the public tender offer shall be made by the Company itself, provided, however, that the Company may acquire shares held by shareholders which voted in favor of cancellation of the Company's registration at the General Meeting at which the cancellation was approved only after it has acquired the shares held by the shareholders which did not vote in favor of cancellation and which accept the public tender offer; and
 - b) whenever the Shareholders in General Meeting approve the Company's exit from the Novo Mercado, due to listing of the Company's shares for trading off the Novo Mercado or to a corporate reorganization after which the resulting company's securities are not admitted for trading on the Novo Mercado, the public tender offer shall be made by those to which such duty has been attributed by decision of said General Meeting, who shall be present in the General Meeting and therein expressly assume the obligation to make the tender offer.
-

Article 59. In the event of cancellation of the Company's registration as a publicly-held company or its exit from the Novo Mercado, due to listing of the Company's shares for trading off the Novo Mercado or to a corporate reorganization in which the resulting company's securities are not admitted for trading on the Novo Mercado within the term of one hundred and twenty (120) days counted from the General Meeting which approves the reorganization, the public tender offer to be made by the Controlling Shareholder, or the Company, or by the shareholders referred to in Article 58, item (b), as applicable, shall have a minimum offer price which is equal to the economic value determined in the appraisal report referred to in Article 10, item (b) and in accordance with the Novo Mercado Listing Rules.

Article 60. In case the Company has no Controlling Shareholder and BM&FBovespa determines that the price of securities issued by the Company shall be quoted separately, or that trading in securities issued by the Company on the Novo Mercado shall be suspended by reason of non-compliance with obligations under the Novo Mercado Listing Rules, the Chairman of the Board of Directors shall call, within the two (2) days following the determination (counting only the days on which the newspapers habitually used by the Company are issued), an Extraordinary General Shareholders' Meeting to replace the entire Board of Directors.

§ 1. In the event the Extraordinary General Shareholders' Meeting referred to in this Article 60 is not called by the Chairman of the Board of Directors within the two-day time period, the meeting may be called by any shareholder of the Company.

§ 2. The new Board of Directors elected at the Extraordinary General Shareholders' Meeting referred to in the preceding provisions of this Article 60 shall cure the non-compliance with the obligations under the Novo Mercado Listing Rules in the shortest period of time possible or within the new time period granted by BM&FBovespa for this purpose, whichever is shorter.

Article 61. In case the Company has no Controlling Shareholder, where the Company exits the Novo Mercado by reason of non-compliance with obligations in the Novo Mercado Listing Rules resulting from:

- a) a resolution adopted at a General Meeting of Shareholders, the public tender offer shall be made by the shareholders which voted in favor of the resolution that resulted in non-compliance; and
- b) an act or event of management, a General Meeting shall be called to decide on the manner of solving the non-compliance and on the possible exit of the Company from Novo Mercado. The provisions of Article 58, item (b), must be observed in case the General Meeting decides that the Company shall exit the Novo Mercado.

CHAPTER VIII

PUBLIC TENDER OFFER FOR PURCHASE OF SHARES IN CASE OF OBTAINING A RELEVANT EQUITY STAKE

Article 62. Any shareholder or Group of Shareholders ("Acquiring Shareholder") who comes to obtain: (a) a direct or indirect equity stake equal to or higher than 30% of the total shares issued by the Company; or (b) title to any other partners' or equity rights, including by way of usufruct, that enables it to have voting rights pertaining to shares issued by the Company and which represent 30% or more of its corporate capital, shall (i) give immediate notice, by means of a statement to the Investors Relations Officer, in accordance with CVM Instruction No. 358/02, of such acquisition; and (ii) make a public tender offer for acquisition of the shares held by the remaining shareholders of the Company.

§ 1. The Acquiring Shareholder shall, within the final deadline of 45 days counted from the date of the statement mentioned in Article 62 above, promote the publication of a tender offer announcement for the acquisition of the totality of the shares issued by the Company and held by the other shareholders, in accordance with the provisions of Law No. 6,404/76, the regulations enacted by CVM and stock exchanges in which the securities issued by the Company are traded, and with the rules established in these By-laws.

§ 2. The Acquiring Shareholder shall comply with any requests or demands by the CVM within the terms established under the applicable regulation.

§ 3. The price to be offered for the shares issued by the Company subject to the tender offer (“Offer Price”) shall be equivalent, at least, to the economic value, determined in accordance with an appraisal report made pursuant to the provisions of Article 10, item (c), and of Article 11.

§ 4. The tender offer must necessarily comply with the following principles and procedures, together with others, whether applicable, and as expressly established in Article 4 of CVM Instruction No. 361/02 or any other regulation that comes to replace it:

(a) it shall be directed equally to all shareholders of the Company;

(b) it shall be effected by an auction to be held on BM&FBovespa;

(c) it shall be performed in a manner as to assure equal treatment to all recipients, allowing them to obtain adequate information about the Company and the offeror and providing them with the elements required for taking an informed and independent decision in regard of tendering their shares;

(d) it shall be immutable and irrevocable after the publication of the tender offer announcement, in accordance with CVM Instruction No. 361/02, except for what provided in Article 63, §2;

(e) it shall be launched at the price determined in accordance with the provisions of this Article 62 and settled in cash, in national currency; and

(f) it shall be instructed with the appraisal report of the Company referred to in §3 above.

Article 63. The shareholders with title to at least 10% of the shares issued by the Company, excluding from such total the shares held by the Acquiring Shareholder, may request to the management of the Company that a Special General Meeting is called to decide on the performance of a new appraisal of the Company for means of reviewing the Offer Price, so that a report is drafted also in accordance with the appraisal report referred to in Article 62, §4, item (f), and pursuant to the procedures provided under Article 4-A of Law No. 6,404/76 and subject to the provisions of the applicable regulations enacted by CVM and of this Chapter.

§ 1. In the Special General Meeting referred to in Article 63, all shareholders, except for the Acquiring Shareholder, shall be entitled to vote.

§ 2. In case the Special General Meeting referred to in this Article 63 decides that a new appraisal shall be performed and such new report comes to establish a value higher than that initially applied to the tender offer, the Acquiring Shareholder may withdraw the public tender offer, and in this case it shall comply, if applicable, with the procedure set forth in Article 28 of CVM Instruction No. 361/02, or any other rule that comes to replace it, and also dispose of the excess shares within a term of 3 months counted from the date of said Special General Meeting.

Article 64. The requirement to make a mandatory tender offer under Article 62 does not exclude the possibility of another shareholder of the Company or, if the case, of the Company itself to make another offer, whether competing or isolated, and in accordance with applicable regulations.

Article 65. The obligations applicable under Article 254-A of Law No. 6,404/76 and under Article 54 do not exclude the need for the Acquiring Shareholder to comply with the obligations applicable under this Chapter.

Article 66. The requirement to make a mandatory tender offer under Article 62 shall not be applicable in the following cases:

(a) when a Controlling Shareholder, who held more than fifty percent (50%) of the Company's capital immediately prior to the obtaining of the 30% equity stake by the Acquiring Shareholder, remains in the Company;

(b) if the 30% equity stake is obtained by the Acquiring Shareholder as a result of purchases made under another public tender offer for the acquisition of shares, made in accordance with the Novo Mercado Listing Rules or with the applicable law, and which had as purpose the acquisition of all the shares issued by the Company, provided that such tender offer shall have been effected for a price at least equal to the Offer Price;

(c) if the 30% equity stake is obtained by the Acquiring Shareholder (i) involuntarily, as a result of any cancellation of shares in treasury, share redemption or capital reduction of the Company with cancellation of shares; or (ii) by a subscription of shares made under a primary offer and in reason of the fact that such amount was not fully subscribed by the ones entitled to preemptive rights or of the fact that there was not a sufficient number of interested parties for the public distribution; or (iii) as a result of a merger, consolidation or share exchange merger (*incorporação de ações*) involving the Company; and

(d) in the case of a Disposal of Control of the Company, in which case the rules provided under Chapter VII of these By-laws shall be observed.

Article 67. If any announcement of a public tender offer for acquisition of all shares issued by the Company is published, whether made in accordance with this Chapter VII or in accordance with the applicable law and regulations, and whether settled in cash or by an exchange of securities issued by a publicly-held company, the Board of Directors shall meet within 10 days to assess the terms and conditions of the offer as made, and complying with the following principles:

(a) the Board of Directors may hire specialized external advisors, meeting the requirements of Article 11, §2, with the purpose of providing advice in the analysis of the convenience and opportunity of the offer, in consideration of the general interest of the shareholders and of the economic industry of the Company and its controlled companies, and of the liquidity of the securities offered, if the case;

(b) the Board of Directors shall make public, with the corresponding justification thereto, to the shareholders, its opinion on the convenience and opportunity of public tender offer under analysis;

(c) in case the Board of Directors understands, based on its fiduciary duties, that the acceptance of the tender offer by a majority of the shareholders of the Company is in the best general interest of said shareholders and of the businesses and strategic plans of the Company and its controlled companies, it shall call an Extraordinary General Meeting, to be held within 30 days to decide on the revocation of the limitation on the number of votes provided under Article 6, and such revocation shall be subject to the condition that, as a result of the offer, the Acquiring Shareholder becomes entitled to at least 2/3 of the shares issued by the Company, excluding the shares in treasury;

(d) the limitation on the number of votes provided under Article 6 shall not be applicable, exceptionally in the Extraordinary General Meeting referred to in item (c) above, and exclusively when such General Meeting is called by initiative of the Board of Directors; and

(e) the public tender offer shall be immutable and irrevocable, but it may be conditioned by the offeror, in case of a voluntary offer, upon the minimum acceptance referred to in the final part of item (c) of this Article 67, and upon the revocation of the limitation on the number of votes by shareholder provided under Article 6.

Article 68. In case the Acquiring Shareholder does not comply with the obligations required under this Chapter, including in regard of compliance with the deadlines (i) for making the statement referred to in Article 62; (ii) for making or requesting registration of the public tender offer; or (iii) for complying with any requests or demands by the CVM, then the Board of Directors of the Company shall call an Extraordinary General Meeting, in which the Acquiring Shareholder shall not be entitled to vote, to decide on the suspension of exercise of the Acquiring Shareholder rights, in accordance with Article 120 of Law No. 6,404/76.

CHAPTER IX
