("Company"), hereby publicly request to shareholders of the Company, pursuant to article 22 and following of CVM Instruction no. 481/2009, the granting of a proxy to represent them at the Company's Annual and Special Shareholders' Meeting to be held on May 11, 2012, at 10:30 a.m., at the Company's headquarters ("Shareholders' Meeting"), aiming at (i) the adoption of multiple votes for the purposes of electing members of the Company's Board of Directors; and (ii) the election of members for the Company's Audit Committee.

**Proposal of the Funds**

i. Multiple vote for election of the Board of Directors

Pursuant to article 141 of the Brazilian Corporate Law, "*in the election of board members, shareholders representing at least 0.1 (one tenth) of the voting capital stock, either provided in the Bylaws or not, are entitled to require the adoption of the multiple vote process, attributing to each share as many votes as there are members of the board, providing shareholders with the right to cumulate the votes in a single candidate or distribute them among various candidates.*"

CVM Instruction no. 165/91, amended by CVM Instruction no. 282/98, has established a scale based on the capital stock amount of the publicly-held company, for the adoption of the multiple vote process. Pursuant to said Instruction, and as emphasized in the Call Notice for the Shareholders' Meeting, the minimum percentage of voting capital for requiring the adoption of the multiple vote process is 5% (five per cent).

This means that shareholders of 21,634,980 (twenty-one million, six hundred and thirty-four thousand, nine hundred and eighty) common shares issued by the Company may jointly require the adoption of the multiple vote process. However, once the multiple vote process is adopted, and considering that (i) the total number of board members will be 9 (nine), as proposed by Management for this Shareholders' Meeting, and (ii) all shareholders of voting shares will be present at the Shareholders' Meeting, 43,269,959 (forty-three million, two hundred and sixty-nine thousand, nine hundred and fifty-nine) common shares issued by the Company will be necessary for the election of 1 (one) Board member.

THIS PUBLIC REQUEST FOR PROXY (INCLUDING ITS ENGLISH TRANSLATION) WAS ISSUED BY DISSENTING SHAREHOLDER POLO NORTE FUNDO DE INVESTIMENTO MULTIMERCADO AND FILED WITH THE BRAZILIAN SECURITIES COMMISSION. GAFISA IS SUBMITTING THIS DOCUMENT ON A CURRENT REPORT ON FORM 6-K SO ALL ITS SHAREHOLDERS HAVE ACCESS TO THE SAME INFORMATION. **GAFISA STRONGLY RECOMMENDS ITS SHAREHOLDERS REJECT THE PROXY REQUEST FROM THIS DISSENTING SHAREHOLDER AND VOTE IN FAVOR OF THE AGENDA PROPOSED BY THE COMPANY FOR THE SHAREHOLDERS MEETING AS SET FORTH IN ITS NOTICE TO SHAREHOLDERS DATED MAY 4, 2012.**

In this sense, we propose that the adoption of multiple vote be required for the election of members of the Company's Board of Directors during the Shareholders' Meeting, and the subsequent casting of votes in relation to the election of the following members to comprise the Company's Board of Directors, in the order of preference indicated in the chart below, i.e. if the Funds represent, in the Shareholders' Meeting, sufficient shares for the election of only one Board Member, the name on the top will be the one appointed. If the shares allow for the election of two Board Members, the two names on the top will be the ones appointed.

Only for the purposes of clarification, we point out that, pursuant to the 4th paragraph of article 161 of the Brazilian Corporate Law, *“in the constitution of an audit committee, the following rules will be complied with: a) holders of preferred shares with no voting rights, or with restricted voting rights, will be entitled to elect, in a separate voting, 1 (one) member and their respective deputy; minority shareholders will have the same right, providing that they jointly represent 10% (ten per cent) or more of the voting shares.”*

Therefore, if the minimum percentage mentioned above is reached, minority shareholders will be provided with a separate voting for the election of members of the Company's Board of Directors, which will increase the chances of one of the members indicated above being elected.

Information on each of the members indicated above, including a brief history, and all other documents related to this public request for proxy, including the vote justification, proxy template and the procedures for granting proxies, as well as the information required by Attachment 23 of CVM Instruction no. 481/09, are available on the website [www.agofafisa.com.br](http://www.agofafisa.com.br) and on the website of the Brazilian Securities and Exchange Commission ([www.cvm.gov.br](http://www.cvm.gov.br)).

#### **Vote justification or reason why Gafisa's shareholders should consider joining the PPP [Public-Private Partnership] proposed by Polo:**

##### 1. Representativeness of the Board of Directors and approach between the Board of Directors and shareholders:

One of the major risks in the governance of any corporation is its isolation from the interests of shareholders. Even the best intentioned of independent directors will never have the same motivation that the owner, who ultimately bears the burden and the bonus, the success or failure of the corporation. It is a fact that the current Board has almost no economic interest in the Corporation. Most of its members are not relevant shareholder and, neither, Gafisa represents a significant portion of its assets. Perhaps this is a reason, even if unintentional, why some of the other issues subsequently related. The Board needs to properly articulate the vision of this corporation, its heading and what shall be done in the future. What are your business and core competency? What are the missing capabilities to carry out its plans? One example is the fact that, even with a colossal debt, the corporation continues the process of acquiring the remaining 20% of your best deal - Alphaville, which will mean a major constraint to the corporation's cash. Although this acquisition is due to a right of sale for the opposing party, a new Board of Directors should pay attention to the restrictions of the Corporation and considering an operation of total or partial sale of this asset, so to alleviate the lack of the current financial flexibility of Gafisa. Besides this fact, in 2011, the same Board of Directors has proposed a statutory change to shareholders in which their votes would be limited to a maximum of 5%. Faced with resistance, the proposal was abandoned and finally refused. But this "incident" is an indicator of the gap between Board of Directors and shareholders. What is the Board's intention with this proposal? Protect shareholders from themselves or facilitate its perpetuation?

##### 2. The decision process:

The current Board of Directors has received in recent months, according to press reports, several proposals for acquisition of the Corporation. One of these proposals, done firmly, was rejected without any consideration to the views of shareholders. Considering all the errors experienced over the last year, when the successive bad financial performance was crowned with a write-off of 35% of the Corporation's assets, it would seem sensible that the Board of Directors shall consider that at a certain time, shareholders should have the power to decide their future. A query

should be the most appropriate way.

3. Review of the Corporation's performance, or why it seems necessary to make a change:

Gafisa, during the year 2011, had a poorly operational and financial performance. Several delays in construction and the escalating costs pressured margins and financial indicators. At the end of the year it took a write-off of 35% of its assets and renegotiation of financial covenants of its debt. Corporation shares dropped 70% from early 2011 until the present time. The corporation was threatened by debt. Although on several occasions the corporation assured shareholders that the situation of "cash burn" would be reversed during 2011, the issue is actually much worse throughout the period.

Meanwhile, what was the attitude of the Board of Directors? First, it took too long to identify the problem and then to recognize its seriousness. Was the Board of Directors going to tow the administration rather than lead it?

GAFISA STRONGLY RECOMMENDS ITS SHAREHOLDERS REJECT THE PROXY REQUEST FROM THIS DISSENTING SHAREHOLDER AND VOTE IN FAVOR OF THE AGENDA PROPOSED BY THE COMPANY FOR THE SHAREHOLDERS MEETING AS SET FORTH IN ITS NOTICE TO SHAREHOLDERS DATED MAY 4, 2012.**

It is not conceivable that the corporation has taken so long to establish an impairment representing 35% of its net worth and that its origins in events that occurred in previous years, as well as in the present, and during this period the corporation has submitted results followed positive that led its shareholders to erroneous conclusions. The fact that the Corporation is not aware about these issues demonstrates the seriousness of the problem. Its alternative is an option for not informing its shareholders. What can we say about the fact that the Corporation for more than a year remained at odds with the SEC for failing to have a definitive assessment of its accounting?

The mechanisms of control of the Corporation must be urgently improved. The new Board of Directors shall ensure the development and deployment of such mechanisms.

#### 4. What do the candidates for a new Board want?

Gafisa needs urgent decisions. Candidates understand the urgency of the issues and their severity. They closely follow the corporation because they are long time shareholders. At the same time, Gafisa has much to gain from greater transparency in the conduct of its processes and communication about its real situation. At a minimum, shareholders shall be heard when the issues that concern them and have enough information in order to decide on their investments.

Owner's attitude. This is a fundamental attribute to make the necessary choices, both in relation to investments and divestitures, and personnel management. One of the great problems of Gafisa is its inability to manage people, resulting in high turnover and operating disruption in its operating body. This reflects failure of the management to enforce effective policies in this field. Similarly, greater diligence in identifying and investigating the problems might not have avoided all the problems of 2011 but at least would have given Gafisa greater capacity planning and also greater ability to choose how to deal with its challenges.
