**2013 MANAGEMENT
REPORT**

(A free translation from the original in Portuguese into English)

Dear Shareholders,

The Management of Gafisa S.A. (“Gafisa” or the “Company”) is proud to submit to your examination this Management Report and the accompanying Financial Statements, and the related Reports of Independent Auditors and Fiscal Council, for the year ended December 31, 2013. All information is reported in millions of Reais and on a consolidated basis, except when otherwise indicated, and in accordance with the accounting practices adopted in Brazil.

MESSAGE FROM MANAGEMENT

The end of 2013 marks the completion of the work on the strategic repositioning devised by the Company in the beginning of 2012. Our goal at that time was clear: we had to reduce our indebtedness and limit the Company’s exposure in non-profitable markets and businesses. This process has positively evolved over the past two years in several fronts, among which is the improvement in margins and focus on cash generation, culminating with the sale of the 70% interest in Alphaville, which brought significant value to Gafisa, contributing to the reduction in the Company’s leverage, and adjusting its capital structure.

In the beginning of 2012 significant changes were made in our strategic positioning, through the implementation of a new structure, segmented by brand, and the appointment of respective executives, besides the redesign of each business operations. Confident that throughout 2012 we had successfully completed the initial phase of our turnaround plan, and that the cash generation was no longer a top priority, we developed a plan for 2013 aimed at achieving a better balance between cash generation, investment, deleverage and profitability, in order to begin a new cycle of sustainable development for the Company.

Gafisa ended 2013 very confident about the operating and financial results achieved over the period. The volume of launches reached R\$1.6 billion for the 4Q13, consolidating R\$2.9 billion in launches for the year, in line with the disclosed guidance. Sales totaled R\$1.3 billion for the 4Q13 and R\$2.6 billion for the year, reflecting a healthy market performance. Over 2013, with the reduction in the operational complexity, combined with the strategic consolidation of Gafisa, and the resumption of Tenda’s launches, we noted a gradual evolution of the Company’s margins, the gross margin having reached 31.2% in 2013 while it stood at 24.4% in 2012 before interests.

We should also stress the good cash performance noted in 2013, especially in the second half of the year. The Company reached an operating cash generation of R\$667.6 million in 2013 in the operations of Gafisa and Tenda, attaining a free cash generation in the amount of R\$97.3 million.

The completion of the Alphaville transaction represented a cash inflow of R\$1.5 billion, and had a strong contribution to the profit for the 4Q13, which reached R\$921.3 million, ending the year with R\$867.4 million. With this event, we could adjust the capital structure of the company, reducing leverage, and arriving at a net debt to equity ratio of 36%.

The funds from the settlement of the Alphaville transaction are being used in the amortization of approximately R\$700 million in corporate debt falling due until December 2014. In addition to debt reduction, the funds were used in the distribution to the Company's shareholders throughout the payment of nearly R\$130 million in interest on equity in February, plus R\$32 million as additional dividends, payable throughout 2014. We also launched a new share repurchase program in the amount of 32 million shares, ratifying the confidence of Gafisa in the value and future prospects for the Company.

1

**2013 MANAGEMENT
REPORT**

(A free translation from the original in Portuguese into English)

Finally, at the end of 2013 we completed the formulation of our five-year business plan for 2014-2018. In this planning process, we set out the guidelines for the development of our business over the following years, like the expected size of Gafisa and Tenda's operations, the adequate leverage, profitability guidelines, and mainly our commitment to capital discipline and creating value to shareholder, reflected in our guidance disclosed to the market at the end of 2013.

Gafisa begins 2014 well positioned so that it is able to get benefits from all initiatives implemented in the last two years. The reduction in our operational complexity, the adjustment of our cost and expense structure, the new operating model of Tenda and the consolidation of Gafisa's strategic positioning, combined with the financial flexibility obtained with the sale of the interest in Alphaville, were important measures in the preparation of the Company for future challenges.

As a consequence, we have announced on February 7, 2014 the beginning of studies on the potential separation of the business units Gafisa and Tenda into two publicly-held and independent companies. In the Company's evaluation, the separation would be the next step in a grand management plan primarily aimed at improving and reinforcing the capacity of both business units of creating value. The management team that conducted the turnaround process is now prepared to lead Gafisa and Tenda in a profitable and sustainable way, in a moment when these brands are embarking on a new phase in the company's history.

Finally, I would like to mention that this year GAFISA commemorates its 60th anniversary, a milestone in the Brazilian real estate sector. Its many accomplishments are evidenced in development of over 1,100 real estate ventures, but the most important of all is the intensity, determination and passion that we invest to keep going forward.

Congratulations, Gafisa!

CONSOLIDATED OPERATING AND FINANCIAL PERFORMANCE

In 2013, the total launched by the Company was R\$ 2.9 billion, representing a decrease of 2.2% on 2012. The volume launched is in line with the guidance on launches that the Company reported for the year, in the range R\$ 2.7 to R\$ 3.3 billion.

In 2013, 37 ventures/stages were launched in 11 states. In terms of total sales value, Gafisa accounted for 38% of launches for the year, Tenda for 12% and Alphaville for the remaining 50%.

Contracted sales totaled R\$ 2.5 billion in 2013, stable as compared to the R\$ 2.6 billion for 2012, sales of launches accounted for 60% of this total, while inventory sales accounted for the remaining 40%. In the end of the period, consolidated inventory at market value increased 9.6%, reaching R\$ 3.9 billion, as compared to R\$ 3.6 billion in the end of the 3Q13.

The consolidated sales-to-inventory ratio showed a strong expansion, reaching 24.8% for the 4Q13, whereas it stood at 10.6% for the previous quarter. In 2013, the consolidated sale speed reached 38.7%.

Throughout 2013, the Company delivered 13,842 units, within the range of delivery guidance for the year (13,500 – 17,500).

Regarding financial indicators, in 2013 our net sales dropped 11.7% year-on-year, totaling R\$ 2.5 billion; whereas the gross profit reported for the period reached R\$ 614.1 million, as compared to R\$ 528.8 million in 2012, an expansion of 16.1%. The adjusted gross margin increased to 24.8%, as compared to 18.9% reported in the previous year.

**2013 MANAGEMENT
REPORT**

(A free translation from the original in Portuguese into English)

Adjusted EBITDA amounted to R\$978.9 million for the 4Q13 and R\$1.3 billion for 2013, reflecting the contribution of the Alphaville transaction. If we do not consider the result of the Alphaville transaction, the adjusted EBITDA reached R\$138.9 million for the 4Q13 and R\$430.6 million for the year.

Net income for the 4Q13 reached R\$921.3 million, and in 2013 the net income amounted to R\$867.4 million. If we do not add the result of the Alphaville transaction, the net income amounted to R\$81.3 million for the 4Q13 and R\$27.4 million for the year.

Our key indicators of the balance sheet have significantly improved due to the better operating performance of the Company and also because of the contribution to liquidity from the sale of interest in Alphaville. The Gafisa Group ended 2013 with R\$2.0 billion in cash, above the R\$781.6 million at the end of the 3Q13.

The Company's total indebtedness was reduced to R\$3.1 billion, as compared to R\$3.5 billion at the end of the previous quarter, while net indebtedness dropped to R\$ 1.2 billion as of December 31, 2013, as compared to R\$2.9 billion for the previous period.

The leverage level, calculated by the net debt-to-equity ratio, dropped to 36.1% in 2013, a strong reduction compared to 126.0% for the 3Q13, and also compared to 89.2% in 2012. Excluding the venture funding, the ratio stands at -26.6% (positive net cash).

2013 was marked by the successful response to important challenges. The operating and financial results for the year reflect the Company's assertiveness in the implementation of the corrective actions adopted since the beginning of the turnaround process, the maintenance of the Gafisa consolidation strategy in Rio de Janeiro and São Paulo, the reduction in the number of ventures related to the legacy, the resumption of the launches of the Tenda brand according to its new operating model, and also the improvement in the capital structure of the Company by means of the Alphaville transaction, producing the reduction in our indebtedness, thus positioning the Company for a new cycle of sustainable growth and profitability.

Gafisa Segment

Launches for the year totaled R\$1.1 billion, a 32.5% decrease year-on-year, with the Gafisa segment accounting for 38% of the consolidated launches for the period.

Contracted sales for the year totaled R\$ 961 million, down 39.9% on 2012. Sales of units launched over the year accounted for 60% of total, while sales of inventories accounted for the other 40%. The sale speed stood at 31.4% in 2013.

In 2012, Gafisa delivered 22 ventures/stages and 4,315 units, attaining 102% of the mean of the guidance (3,500 – 5,000) for the year.

The market value of Gafisa inventories, at the end of 2013, accounts for 52% of total inventories, reaching R\$2.1 billion.

In 2013 Gafisa reached R\$1.6 billion in net sales.

Tenda Segment

The year 2013 marked the resumption of Tenda's launches. Throughout 2012, Tenda worked to reduce the complexity of its operations and master the fundamentals of its new operating model.

3

**2013 MANAGEMENT
REPORT**

(A free translation from the original in Portuguese into English)

Tenda resumed the launch of new ventures in 2013, reaching R\$ 338.8 million in the launches of 8 new developments. In the year that has passed, the brand accounted for 12% of the consolidated launches for 2013.

In view of this new scenario, net contracted sales of Tenda for the year totaled R\$490.4 million, as compared to the negative net sales of R\$ 74.3 million noted in 2012. It reflected the good sales performance of the ventures launched in 2013, and also Tenda's assertiveness in the completion of works and consolidation of inventory sales. Sales speed reached for the segment stood at 44% in 2013.

We should also emphasize the strong reduction in the cancellation level noted throughout 2013, among the main factors that contributed to this reduction we could undoubtedly mention the higher efficiency and control achieved by Tenda in the process of passing on sales to financial agents. Noteworthy is that out of the R\$ 338.8 million launched in 2013, we recorded sales of R\$ 217.4 million, of which R\$ 122.0 million were already passed on and the remaining R\$ 95.4 million are in the passing on process. It also represents 1,096 units relating to Tenda's launches for the year, already effectively passed on to financial institutions.

In 2013, Tenda delivered 41 ventures/stages, and 7,027 units, attaining 101% of the mean of the guidance (6,500 – 7,500) on deliveries for the year.

The market value of Tenda inventories totaled R\$ 618.4 million at the end of 2013, accounting for 16% of total inventory for the period.

In 2013, Tenda reached R\$817.5 million in net sales.

Alphaville Segment

In the segment, launches for 2013 totaled R\$ 1.5 billion, an increase by 9% year-on-year, accounting for 50% of consolidated launches for the period.

Net contracted sales for the year totaled R\$ 1.0 billion, remaining stable as compared to the result of R\$ 1.1 billion recorded in the previous year. Sales speed reached 45.6%.

In 2013, Alphaville delivered 5 ventures/stages and 2,500 units, attaining 59% of the mean of the guidance (3,500 – 5,000) on delivery for the year. The deviation in relation to the estimated guidance is related to delays in obtaining the final documentation for the effective delivery of units.

The market value of Alphaville inventories totaled R\$ 1,265 billion at the end of 2013, accounting for 32% of the consolidated inventory for the period.

In 2013 Alphaville reached R\$959.2 million in net sales.

People and Management

Gafisa has People as its main asset. Our team is composed of people with unique nature: aligned with the corporate vision, values and culture built throughout 60 years of history. The commitment of Gafisa People to the achievement of results and to respect to customers is the base of the competitive differential of the brand.

We have a professionalized, experienced and vanguard team in the Brazilian real estate sector. Some of the professionals that are in our staff began their careers in the Company, an example of the excellence in the management training program of Gafisa. Nearly 70% of our leaders – Executive Officers, Managers and Coordinators – were trained in house, through talent development programs: Internship, Trainee and International MBA.

**2013 MANAGEMENT
REPORT**

(A free translation from the original in Portuguese into English)

§ Internship program: we have permanently in our staff about 500 interns who are Civil Engineering undergraduates.

§ Trainee program: about 20 recent graduates are employed every year. They are trained over a year, period when they are prepared to take on outstanding positions in the Company.

§ International MBA: recruiting of Brazilian youths graduated in courses abroad and who want to continue their career in Brazil.

The selection, assessment and compensation of our employees are based on the daily exercise of our values. These should be perceived by everybody in day-to-day activities, decision-making, strategic actions and in the relationship with customers, suppliers, investors and community.

The Company's employee compensation policy, which includes that of members of the Board of Director and Fiscal Council, and Officers (statutory and non-statutory) is in line with the best corporate governance practices. We thus aim at attracting and retaining the best professionals in the market. Compensation is established based on market surveys and is directly related to the alignment of the interests of the executives with those of the Company's shareholders.

The meritocratic model is based on variable compensation. A significant percentage of total compensation is tied to the fulfillment of corporate results and individual goals. All employees have individual objective goals directly related to the Company's strategy and our main business indicators.

In the case of Executive Officers and Managers, besides the short-term variable compensation, there is also a portion of long-term incentives (by granting stock options), which enable sharing the risk and results of the Company with its main executives, a characteristic of a policy that is transparent and focused on the fulfillment of long-lasting results.

Occupational safety and accident prevention are priorities. Accordingly, we maintain a continuous program for identification, prevention and mitigation of risks that aims at not only preserving the physical condition of our employees, but also offering basis for a healthier life. For us, investing in safety is ensuring wellness in and out of the work environment. We offer training programs to the fieldwork teams (directly related to works), as well as to outsourced employees, who provide services on our sites.

The Company currently counts on the collaboration of 3,345 employees in the Gafisa, Tenda and Alphaville brands (basis Dec/13).

Research & Development

Gafisa, with the objective of exercising its leading role, has since 2006 an area named Operations and Technology Development (DOT, in Portuguese), mainly focused on the search for technological innovation and process improvements that bring competitive market advantage in the market. In order to approve a development project it is necessary to analyze if the project will:

- Enhance the quality perceived by the customer,
- Reduce the construction period,
- Cut cost.

At present, DOT is composed of ten professionals who also use the resources allocated to all areas of the company in order to implement and provide feedback to development projects. Such structure requires an investment of approximately R\$ 1 million per year.

5

**2013 MANAGEMENT
REPORT**

(A free translation from the original in Portuguese into English)

Environmental protection

For each project to be launched there is a different approval dynamics, and several authorizations are required by the proper authorities, including environmental ones, since each municipality follows a specific land use regulation, and in many times their own environmental legislation. In this context, Alphaville has a fundamental role, as it contributes to the regulation of many municipalities that do not require important licenses, raising the standard and getting a closer relationship with such authorities.

At each beginning of the project, a complete research is conducted about the city's legislation, so that the Company may operate within its own standards, always considering and abiding by the local environmental legislation in the preparation of the Environmental Impact Study.

In order to assure the performance of the commitments assumed in the licensing process and minimize the environmental impacts, Alphaville created in 2008 the environmental management, which is, among other things, responsible for providing advisory on environmental licensing and monitoring construction works, mainly with the engineers in charge.

Giving continuity to the improvement in internal processes, the Company purchased environmental management software and started to store data of all stages of each venture, from licensing from proper authorities to the construction. Information such as hiring, agreements, costs and compliance with conditions are fed to the software. Therefore we created an easily accessible database, which will facilitate the preparation and setting of controls and goals. The objective is to implement over the coming years an Environmental Management System in the Company and, in this process, the employees will be trained to use and maintain (feed with data) this system.

CORPORATE GOVERNANCE

Board of Directors

The Board of Directors of Gafisa is the body responsible for making decisions and formulating general guidelines and policies related to the Company's businesses, including its long-term strategies. In addition, the Board also appoints executive officers and supervises their activities.

The Board of Directors' decisions are taken by the majority vote of its members. In case of a tie, the Board Chairman, besides his personal vote, must cast the tie-breaking vote.

The Board is formed by nine members, elected at the Annual Shareholders' Meeting, of which eight (89%) are independent, in compliance with the rules of the Novo Mercado of BM&FBovespa and also of the New York Stock Exchange (NYSE), which is stricter. The fact that the Company has 89% of independent members also meets the NYSE resolution, which sets forth that all listed companies must have a board of directors composed of a majority of independent members, while the BM&FBovespa listing rules establish a minimum of 20% of independent members. The term of office of each member is two years, with reelection permitted, and subject to removal by shareholders at a shareholders' meeting, as required by the

Novo Mercado Rules.

* Odair G. Senra is a member not independent of the board of directors, according to the NYSE rules and the Novo Mercado listing rules.

Fiscal Council

Gafisa's Bylaws provide for a non-permanent Fiscal Council, the annual shareholders' meeting being able to establish it and its members, as provided for in the Law. The Fiscal Council, when established, must be composed of three to five members, and an equal number of alternates.

The operation of the Fiscal Council, when established, ends at the first annual shareholders' meeting after its establishment, and its members can be reelected. The compensation of fiscal council members is set at the shareholders' meeting that elects them.

At the Annual Shareholders' Meeting held on April 19, 2013, the Fiscal Council was established for the fourth consecutive term of office, and will operate until the next Annual Shareholders' Meeting of the Company in 2014.

The Fiscal Council is currently composed of Messrs. Olavo Fortes Campos Rodrigues Junior, Adriano Rudek de Moura and Luis Fernando Brum de Melo as effective members, and Messrs. Marcello Mascotto Iannalfo and Marcelo Martins Louro, and Ms. Laiza Fabiola Martins de Santa Rosa as alternates.

Board of Executive Officers

Gafisa's Board of Executive Officers must be composed of a minimum of two and a maximum of eight members, including the CEO, the Financial Officer and the Investor Relations Officer, elected by the Board of Directors for a three-year term of office, their reelection being permitted, as provided for in the Bylaws.

In the current term of office, six members compose the Board of Executive Officers, the legal representative body of the Company and mainly responsible for the management and daily monitoring of the general policies and guidelines formulated at the Annual Shareholders' Meeting and the Board of Directors.

Committees

The Board of Directors is supported by the following Committees:

§ **Nominating and Corporate Governance Committee:** it has the purpose of considering and periodically reporting on matters related to the size, identification, selection and qualification of the Boards of Directors and of Executive Officers, and the candidates nominated for the Board of Directors and its Committees, as well as preparing and recommending Governance principles applicable to the Company. This Committee is statutory and should be composed of three independent members of the Board of Directors of the Company.

§ **Audit Committee:** it is responsible for planning and reviewing the annual and quarterly reports of the Company –which is submitted to the review and final approval of the Board of Directors –, for the involvement of the auditors in the process and put special focus on the legal provisions and accounting standards, ensuring the maintenance of an effective internal controls system. This Committee is statutory and should be composed of three independent members of the Board of Directors of the Company, taking into account that members should have experience in matters related to accounting, audit, finance, taxation and internal controls, and one of the members must have extensive experience in accounting and financial management.

§ **Compensation Committee:** it has the duty to evaluate and make recommendations to the members of the Board of Directors regarding the policies on compensation and all forms of bonus to be provided to the Executive Officers and other employees of the Company. This Committee is statutory and should be composed of three independent members of the Board of Directors of the Company.

§ **Ethics Executive Committee:** it has the duty to monitor the practices adopted by the entire organization, assuring that they are compatible with the beliefs and values that represent Gafisa and the principles and instructions on conduct provided for in the Code of Ethics. This Committee is composed of the Executive Officers and Managers of the Company, with the duty of providing assistance to the Board of Directors and is overseen by the Audit Committee.

§ **Investment Executive Committee:** has the duty to analyze, discuss and recommend land acquisitions and new real estate developments; advise the executive officers during the negotiation of new deals and the structuring of new developments; follow-up the approval of budgets and the cash flow; and, in special cases, participate in the negotiation and structuring of new types of businesses. This Committee is composed of the Company's Statutory Officers with the duty of providing assistance to the Board of Directors.

8

2013 MANAGEMENT REPORT

(A free translation from the original in Portuguese into English)

§ **Finance Executive Committee:** it operates by evaluating and making recommendations to the members of the Board of Directors regarding risk and financial investments policies of the Company. This Committee is composed of the Company's Statutory Officers with the duty of providing assistance to the Board of Directors.

The members of each one of these committees can be found on the Investor Relations website of the Company: www.gafisa.com.br/ri.

Dividends, Shareholders' Rights and Share Data

In order to protect the interest of all of its shareholders equally, the Company establishes, according to the effective legislation and the best governance practices, the following rights to the holders of Gafisa's shares:

- § Vote at a Shareholders' Meeting, either Annual or Extraordinary, and make recommendation and give instructions to the Board of Directors related to decision making;
- § Receive dividends and share of profit or other distribution related to shares, in proportion to their interests in capital;
- § Oversee the management of Gafisa, according to the Bylaws, and resign from the Company in the events provided for in the Brazilian Corporate Law; and
- § Receive at least 100% of the price paid for common share of the controlling block, according to the "Novo Mercado" listing rules, in case of tender offer as a result of the disposal of the Company's control.

According to the terms of Article 36, Paragraph 2 (b) of the Bylaws, the net income for the year, calculated after the deductions prescribed in the Bylaws and adjusted as provided in Article 202 of the Brazilian Corporate Law, shall have 25% of its balance allocated to the payment of mandatory dividends to all shareholders of the Company.

In view of the result of R\$921.3 million determined in the year ended December 31, 2013, the Company's management is going to propose for approval at the Annual Shareholders' Meeting the distribution of approximately R\$32 million, about R\$0.08 per share, in addition to the R\$130 million paid as interest on equity on last February 12. This distribution of value allowed our shareholders have a dividend yield at nearly 11.0% in 2013.

CAPITAL MARKETS

The Company, which has diluted capital, continues to be the only Brazilian real estate development company to have its shares traded on the New York Stock Exchange, and has one of the most liquid shares in the real estate sector. In 2013, we reached an average daily trading volume of R\$ 10.6 million at BM&FBovespa, in addition to an amount equivalent to approximately R\$ 1.9 million at NYSE, totaling R\$ 12.5 million in daily average volume.

In 2013, the Bovespa index recorded a drop of 15.5%, and the Company's shares ended the year at a closing price of R\$3.53 (GFSA3) and US\$3.13 (GFA), which represents a drop of 25.0% and 35.2%, respectively, as compared to the closing price in 2012.

Gafisa's shares are included in the following indexes: IBOV - Bovespa, IBX - Bovespa, IBX50 – Bovespa.

**2013 MANAGEMENT
REPORT**

(A free translation from the original in Portuguese into English)

Outlook for 2014

During 2013, we implemented our business plan satisfactorily and had a fourth quarter with strong operating results, with increase in launches and sales. Therefore, we ended the year with figures in line with the guidance established for 2013.

We thus announce our guidance for the following years.

Guidance on Launches (2014E)

Consolidated Launches	R\$2.1 – R\$2.5 bi
-----------------------	--------------------

Breakdown by Brand

Gafisa Launches	R\$1.5 – R\$1.7bi
Tenda Launches	R\$600 – R\$800 m

Leverage Guidance (2014E)

Consolidated data	55% - 65%
-------------------	-----------

Administrative Expenses Guidance / Volume of Launches

Gafisa	7.5%
Tenda	Not Applicable

Gafisa	7.5%
Tenda	7.0%

In the Company's understanding, the Return on Invested Capital in three years shall stand between 14% and 16%, both for the Tenda and Gafisa segments.

Guidance of Return on Invested Capital (2014E)

Gafisa	14% - 16%
Tenda	14% - 16%
Independent Auditors	

The policy on the Company's conduct in contracting services unrelated to external audit from our independent auditors is based on principles that preserve the autonomy of the independent auditor. These internationally accepted principles consist of the following: (a) an auditor cannot audit its own work; (b) an auditor cannot serve a management function at its client; and (c) an auditor shall not promote the interests of its clients.

According to Article 2 of CVM Instruction No. 381/03, Gafisa informs that KPMG Auditores Independentes, the independent audit firm of the Company and its subsidiaries, did not provide services other than independent audit in 2013.

**2013 MANAGEMENT
REPORT**

Statement of the Board of Executive Officers

The Board of Executive Officers states, in accordance with Article 25, paragraph 1, items V and VI, of CVM Instruction 480/2009, that it revised, discussed and agrees with the Financial Statements contained in this Report and the related opinion issued in the Report of Independent Auditors.

Acknowledgements

Gafisa thanks the valuable contribution of its employees, customers, suppliers, partners, shareholders, financial institutions, governmental bodies, regulating authorities and other stakeholders for their support throughout 2013.

Independent Auditor's Report on the Financial Statements

To shareholders and management of

Gafisa S.A.

São Paulo - SP

We have audited the accompanying individual and consolidated financial statements of Gafisa S.A. (Company), identified as Company and Consolidated, respectively, comprising the balance sheet as of December 31, 2013 and the related statement of profit or loss, statement of comprehensive income, statement of changes in equity and cash flow statement for the year then ended, as well as the summary of main accounting practices and other notes to the financial statements.

Management responsibility for the financial statements

Management is responsible for the preparation and fair presentation of the individual and consolidated financial statements in accordance with the accounting practices adopted in Brazil, and of the consolidated financial statements in accordance with the International Financial Reporting Standards (IFRS) applicable to real estate development entities in Brazil, as approved by the Accounting Pronouncements Committee (CPC), by the Brazilian Securities Commission (CVM) and by the Federal Accounting Council (CFC), and for such internal control as Management determines is necessary to enable the preparation of individual and consolidated financial statements that are free from material misstatements, whether due to fraud or error.

Independent auditor's responsibility

Our responsibility is to express an opinion on these individual and consolidated financial statements based on our audit. We conducted our audit in accordance with Brazilian auditing standards and International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

(A free translation from the original in Portuguese into English)

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the individual and consolidated financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the individual and consolidated financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the individual and consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the individual and consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion on the financial statements prepared in accordance with the accounting practices adopted in Brazil

In our opinion, the aforementioned individual (Company) and consolidated financial statements present fairly, in all material respects, the financial position of Gafisa S.A. as of December 31, 2013, and of its individual and consolidated financial performance, and its individual and consolidated cash flows for the year then ended, in accordance with the accounting practices adopted in Brazil.

Opinion on the consolidated financial statements prepared in accordance with the International Financial Reporting Standards (IFRS), applicable to real estate development entities in Brazil and approved by the Accounting Pronouncements Committee (CPC), the Brazilian Securities Commission (CVM) and the Federal Accounting Council (CFC)

In our opinion, the aforementioned consolidated financial statements present fairly, in all material respects, the consolidated financial position of Gafisa S.A. as of December 31, 2013, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with the International Financial Reporting Standards (IFRS) applicable to real estate development entities in Brazil and approved by the Accounting Pronouncements Committee (CPC), the Brazilian Securities Commission (CVM) and the Federal Accounting Council (CFC).

(A free translation from the original in Portuguese into English)

Emphasis of a matter

Guideline OCPC 04 issued by the Accounting Pronouncements Committee

As mentioned in Note 2.1, the individual (Company) and consolidated financial statements were prepared in accordance with the accounting practices adopted in Brazil. The consolidated financial statements prepared in accordance with the IFRS applicable to real estate development entities also consider Guideline OCPC 04 issued by the Accounting Pronouncements Committee (CPC). This guideline deals with the recognition of the revenue from this sector and involves matters related to the meaning and adoption of the concept of continuous transfer of the risks, benefits and control over real estate unit sales, as described in further details in Note 2.2.2. Our opinion does not contain exception in view of this matter.

Other matters

Statement of added value

We have also examined the individual (Company) and consolidated statements of added value for the year ended December 31, 2013, prepared by management, whose presentation is required by Brazilian corporate law, but is not required under IFRS. These added value statements were included in the previously described audit procedures and, in our opinion, are fairly presented, in all material respects, in relation to the financial statements prepared in accordance with the accounting practices adopted in Brazil taken as a whole.

Audit of corresponding amounts

The corresponding amounts, individual and consolidated, related to the balance sheets as of January 1, 2012 (derived from the financial statements for the year ended December 31, 2011) and December 31, 2012, and the financial statements related to the statement of profit or loss, the statement of comprehensive income, the statement of changes in equity, the cash flows statement and the statement of added value (supplementary information) for the year ended December 31, 2012, presented for comparison purposes, restated herein as a result of the matters described in Note 3.1, were audited by other independent auditors, who issued a report dated February 26, 2014, without any modification.

Gafisa S.A.

Notes to the individual and consolidated financial statements

December 31, 2013

(Amounts in thousands of Reais, except as otherwise stated)

1. Operations

Gafisa S.A. ("Gafisa" or "Company") is a publicly traded company with headquarters at Avenida das Nações Unidas, 8.501, 19º andar, in the City of São Paulo, State of São Paulo, Brazil and started its operations in 1997 with the objectives of: (i) promoting and managing all forms of real estate ventures on its own behalf or for third parties, taking into consideration that in the case of the latter, as construction company and proxy; (ii) selling and purchasing real estate properties in general; (iii) carrying out civil construction and civil engineering services and (iv) developing and implementing marketing strategies related to its own or third party real estate ventures; and (v) investing in other companies which have similar objectives as the Company's.

Real estate development projects entered into by the Company with third parties are structured through specific purpose partnerships ("Sociedades de Propósito Específico" or– "SPEs") or the formation of consortia and condominiums. Controlled entities substantially share the managerial and operating structures and the corporate, managerial and operating costs with the Company. SPEs, condominiums and consortia operate solely in the real estate industry and are linked to specific ventures.

On June 7, 2013, the Company disclosed a material fact informing about the signature of a contract for selling the majority interest of 70% it held in Alphaville Urbanismo ("AUSA") to Private Equity AE Investimentos e Participações S.A., represented by Blackstone Real Estate Advisors L.P and Pátria Investimentos Ltda, giving continuity to the material fact disclosed on September 10, 2012, related to the analysis of strategic options regarding the AUSA business.

On July 3, 2013, the Company disclosed a material fact informing about the acquisition of the remaining shares of AUSA, corresponding to 20% of its capital stock, through the acquisition by the subsidiary Tenda

of the totality of shares of EVP Participações S.A. amounting to R\$366,662, giving continuity to the material fact disclosed on June 7, 2013.

On December 9, 2013, the Company disclosed a material fact informing about the completion of the above-mentioned sale transaction. All conditions precedent for the completion of the transaction were met. The transaction was carried out with the sale of an interest of 50% by the Company and 20% by the subsidiary Tenda. As of December 31, 2013, the Company holds a remaining 30% interest in the capital of AUSA. The funds from this transaction totaled R\$1,545,183, of which R\$1,254,521 through payment from the AE Fund for the acquisition of shares and R\$290,662 received by means of dividends distributed by AUSA.

Gafisa S.A.

2. Presentation of financial statements and summary of significant accounting policies

2.1. Basis of presentation and preparation of individual and consolidated financial statements

On February 26, 2014, the Company's Board of Directors approved these individual and consolidated financial statements of the Company and has authorized their disclosure.

The individual financial statements, identified as "Company", were prepared according to the accounting practices adopted in Brazil issued by the Accounting Pronouncements Committee (CPC) and are disclosed together with the consolidated financial statements.

The individual financial statements present the evaluation of investments in subsidiaries using the equity method, according to the effective Brazilian legislation. Accordingly, these individual financial statements are not considered to be in compliance with the IFRS, which requires these investments to be evaluated in statements separate from the Company's at fair value or cost. As there is no difference between the consolidated equity and consolidated profit or loss attributable to the owners of the Company, according to the consolidated information prepared under the IFRS and the accounting practices adopted in Brazil, and the equity and the profit or loss of the Company according the individual information prepared following the accounting practices adopted in Brazil, the Company opted for presenting this individual and consolidated information in only one set.

The consolidated financial statements are specifically in compliance with the International Financial Reporting Standards (IFRS) applicable to real estate development entities in Brazil, including the Guideline

OCPC 04 - Application of the Technical Interpretation ICPC 02 to the Brazilian Real Estate Development Entities, in relation to the treatment of the recognition of revenue from this sector and involves certain matters related to the meaning and application of the continuous transfer of the risks, benefits and control over the real estate unit sales.

Gafisa S.A.

Notes to the individual and consolidated financial statements--Continued

December 31, 2013

(Amounts in thousands of Reais, except as otherwise stated)

2. Presentation of financial statements and summary of significant accounting policies --Continued

2.1. Basis of presentation and preparation of individual and consolidated financial statements

--Continued

Certain matters related to the meaning and application of the continuous transfer of the risks, benefits and control over the real estate unit sales have been analyzed by the International Financial Reporting Interpretation Committee (IFRIC), at the request of some countries, including Brazil. However, in view of the project for issuing a revised standard relating to revenue recognition, IFRIC has been discussing this topic in its agenda, understanding that the concept for recognizing revenue is included in the standard that is currently under discussion. Accordingly, this issue is expected to be resolved only after the revised standard relating to revenue recognition is issued.

The presentation of the Statement of Added Value (DVA), individual and consolidated, is required by Brazilian corporate legislation and the accounting practices adopted in Brazil applicable to publicly-held companies. IFRS does not require the presentation of this statement. Consequently, under IFRS this statement is presented as additional information, without causing harm to the financial statements as a whole.

The financial statements have been prepared on a going concern basis. Management makes an assessment of the Company's ability to continue as going concern when preparing the financial statements. The Company is in compliance with all of its debt covenants at the date of issue of these Financial Statements.

All amounts reported in the accompanying financial statements are in thousands of Reais, except as otherwise stated.

2.1.1. Consolidated financial statements

The consolidated financial statements of the Company include the financial statements of Gafisa and its direct and indirect subsidiaries. The Company controls an entity when it is exposed or is entitled to variable returns arising from its involvement with the entity and has the capacity of interfering in these returns because of the power that it exerts over the entity. The subsidiaries are fully consolidated from the date when the control is transferred to the Company. The consolidation is interrupted from the date when the Company ceases to have control. As of December 31, 2013 and 2012, the Consolidated Financial Statements include the full consolidation of the following companies, respectively:

--Continued

2.1.1. Consolidated financial statements --Continued

	Interest %	
	2013	2012
Gafisa (*)	100	100
Construtora Tenda and subsidiaries (Tenda) (*)	100	100
Alphaville Urbanismo and subsidiaries (AUSA) (*) (a)	-	80

(*) Does not include jointly-controlled investees, which as of January 1st, 2013 are accounted for under the equity method, according to the CPCs 18(R2) and 19(R2) (See Note 3).

(a) According to Note 1, the Company sold its controlling interests in AUSA. According to CPC 31 – Non-current Asset Held for Sale and Discontinued Operation, for purposes of comparability, the information in the statements of profit or loss as of December 31, 2012 were restated and the profit from discontinued operations is presented at a sole amount, retrospectively, in the heading “Net profit from discontinued operations”. The comparative information of balance sheets was not restated, in line with CPC 31.

The accounting practices were uniformly adopted in all subsidiaries included in the consolidated financial statements and the fiscal year of these companies is the same of the Company. See further details on these subsidiaries and jointly-controlled investees in Note 9.

(i) Cease of control

As defined in paragraph 25 of CPC 36 (R3) – Consolidated Statements, in the event of cease of control, the Company:

- Derecognizes (write-off):

(i) The assets (including any goodwill) and liabilities of the subsidiary at the carrying value on the date control ceases; and

(ii) The carrying value of any noncontrolling interests in the former subsidiary on the date control ceases (including any components of other comprehensive income attributed to them).

- Recognizes:

(i) The fair value of the consideration received, if any, arising from the transaction, event or circumstances that resulted in the cease of control;

(ii) Any investment retained in the former subsidiary, at its fair value, on the date control ceases.

--Continued

2.1.2. Functional and presentation currency

The individual (Company) and consolidated financial statements are presented in Reais (presentation currency), which is also the functional currency of the Company and its subsidiaries.

2.1.3. Presentation of segment information

The information per operating segments is presented consistently with the internal report provided to the main decision makers of operational matters, represented by the Board of Executive Officers and the Statutory Board, who are responsible for allocating funds, assessing the performance of operating segments and making strategic decisions.

2.2. Summary of significant accounting policies

2.2.1. Accounting judgments, estimates and assumptions

The accounting estimates and judgments are continually evaluated based on historical experience and other factors, including expectations regarding future events, considered reasonable under the circumstances.

(i) *Judgments*

The preparation of the individual and consolidated financial statements of the Company requires management to make judgments, estimates and adopt assumptions that affect the reported amounts of revenue, expenses, assets and liabilities, as well as the disclosure of contingent liabilities, at the financial statements reporting date. Assets and liabilities subject to estimates and assumptions include the useful life of property and equipment, allowance for doubtful accounts and cancelled contracts, provision for fines due to delay in construction works, provision for impairment of assets, deferred tax assets, provision for warranty, provision for tax, labor and civil risks, and the measurement of the estimated cost of ventures and financial instruments.

2. Presentation of financial statements and summary of significant accounting policies --Continued

2.2. Summary of significant accounting policies --Continued

2.2.1. Accounting judgments, estimates and assumptions --Continued

(ii) *Estimates and assumptions*

The main assumptions related to sources of uncertainty over future estimates and other important sources of uncertainty over estimates at the reporting date, which may result in different amounts upon settlement are discussed below:

a) *Impairment of non-financial assets*

Management reviews annually and/or when a specific event occurs the carrying amount of assets with the objective of evaluating events or changes in the economic, operational or technological circumstances that may indicate a decrease or loss of its recoverable amount. Should such evidence exist, and the carrying amount exceeds the recoverable amount, a provision is recognized by adjusting the carrying amount to the recoverable amount. These impairment losses are recorded in the statement of profit or loss when found. A test for impairment of intangible assets with indefinite useful lives and goodwill for expected future return is performed at least annually or when circumstances indicate a decrease in the carrying amount.

The carrying amount of an asset or of a certain cash-generating unit is defined as the highest between the value in use and the net sales value.

Cash flows are derived from the budget for the following five years, and do not include restructuring activities for which the Company has not yet committed or future significant investments that will improve the asset basis of the cash-generating unit being tested. The recoverable amount is sensitive to the discount rate adopted under the discounted cash flow method, as well as the estimated future cash inflows and to the growth rate used for purposes of extrapolation.

2. Presentation of financial statements and summary of significant accounting policies --Continued

2.2. Summary of significant accounting policies --Continued

2.2.1. Accounting judgments, estimates and assumptions --Continued

(ii) *Estimates and assumptions* --Continued

a) *Impairment of non-financial assets* --Continued

The value less costs to sell is determined, whenever possible, based on a binding sale agreement in an arm's length transaction between the knowledgeable and willing parties, adjusted by expenses attributable to the sale of the asset, or, in the absence of a binding sale agreement, based on the market price in an active market, or on a recent transaction with similar assets.

The main assumptions used for determining the recoverable amount of cash-generating unit are detailed in Note 11.

b) *Inventory of properties for sale*

Properties for sale are stated at construction cost, which cannot exceed its net realizable value. In the case of real estate under construction, the portion in inventory corresponds to the cost incurred for units that have not yet been sold.

The cost of properties for sale includes expenditures incurred in the acquisition of the land and in construction (including foundation, structure, finishing and the respective costs of construction materials), costs of own and outsourced labor, and financial costs directly related to the ventures.

2. Presentation of financial statements and summary of significant accounting policies --Continued

2.2. Summary of significant accounting policies --Continued

2.2.1. Accounting judgments, estimates and assumptions --Continued

(ii) *Estimates and assumptions* --Continued

b) Inventories of properties for sale --Continued

Land can be acquired in cash, in installments, bartered for units of a building to be constructed, bartered for units that are completed or in construction of other ventures, or bartered for receivables from future sales of ventures. The cost of land related to bartered units is formed by the estimated sale price in cash, this fair value being recorded as a contra-entry to the advances from customers-barter.

The interests of loans and financing directly related to ventures financed by the National Housing System (SFH) and other credit facilities which funds are used to finance the construction and acquisition of land are capitalized over the development and construction stage, and appropriated to statement of profit or loss in the proportion to the units sold.

The Company adopts the policy of annually conducting tests on the units in construction and completed units, comparing the unit construction cost with the sale value of units in inventory. The assumptions that usually underlie the calculation of the recoverable value of assets are based on expected cash flows, economic viability studies of real estate ventures that show the recoverability of assets or its market value, all discounted to present value.

Gafisa S.A.

2.2. Summary of significant accounting policies --Continued

2.2.1. Accounting judgments, estimates and assumptions --Continued

(ii) *Estimates and assumptions* --Continued

b) Inventory of properties for sale --Continued

The classification of land into current or non-current assets is carried out by the Management based on the expectation about the real estate venture launches. Management periodically reviews the estimates of real estate venture launches.

c) Share-based payment transactions

The Company measures the cost of transactions with employees to be settled with shares based on the fair value of equity instruments on the grant date. The estimate of the fair value of share-based payments requires the determination of the most adequate pricing model to grant equity instruments, which depends on the grant terms and conditions. It also requires the determination of the most adequate data for the pricing model, including the expected option life, volatility and dividend income, and the corresponding

assumptions. The assumptions and models used to estimate the fair value of share-based payments are disclosed in Note 19.3.

(ii) *Estimates and assumptions* --Continued

d) Provision for legal claims

The Company recognizes a provision for tax, labor and civil claims (Note 17). The assessment of the probability of a loss includes the evaluation of the available evidence, the hierarchy of Laws, existing case law, the latest court decisions and their significance in the judicial system, as well as the opinion of external legal counsel. The provisions are reviewed and adjusted to take into account the changes in circumstances, such as the applicable statute of limitations, findings of tax inspections, or additional exposures found based on new court issues or decisions. The settlement of transactions involving these estimates may result in amounts different from those estimated in view of the inaccuracies inherent in the process for estimating them. The Company reviews its estimates and assumptions at least annually.

2.2. Summary of significant accounting policies --Continued

2.2.1. Accounting judgments, estimates and assumptions --Continued

(ii) *Estimates and assumptions* --Continued

e) Fair value of financial instruments

When the fair value of the financial assets and liabilities presented in the balance sheet cannot be obtained in the active market, it is determined using valuation techniques, including the discounted cash flow method.

The data for such methods is based on those practiced in the market, when possible; however, when it is not viable, a certain level of judgment is required to establish the fair value. The judgment includes considerations regarding the data used, such as interest rates, liquidity risk, credit risk, and volatility. Changes in the assumptions about these factors may affect the presented fair value of financial instruments.

f) Estimated cost of construction

Estimated costs, mainly comprising the incurred and future costs for completing the construction projects, are regularly reviewed, according to the construction progress, and adjustments arising from reviews are made to the statement of profit or loss of the Company. The effects of such estimate reviews affects the statement of profit or loss, according to the Technical Pronouncement CPC 23 - Accounting Practices, Changes in Accounting Estimates and Errors.

2.2.1. Accounting judgments, estimates and assumptions --Continued

(ii) *Estimates and assumptions* --Continued

g) Taxes

There are uncertainties in relation to the interpretation of complex tax rules and to the value and timing of future taxable income. The Company and its subsidiaries are subject in the ordinary course of their businesses to assessments, audits, legal claims and administrative proceedings in civil, tax and labor matters. Depending on the subject of the investigations, legal claims or administrative proceedings that are filed against the Company and its subsidiaries, we could be adversely affected, regardless of the respective final outcome.

h) Realization of deferred income tax

The initial recognition and subsequent estimates of deferred income tax are carried out when it is probable that a taxable profit for the following years will be available to offset the deferred tax asset, based on

projections of results prepared and based on internal assumptions and future economic scenarios that enable its total or partial use should a full credit be recognized.

2.2. Summary of significant accounting policies --Continued

2.2.2. Recognition of revenue and expenses

(i) *Real estate development and sales*

Revenues, as well as costs directly relating to real estate development units sold and not yet finished, are allocated to profit or loss over the construction period and the following procedures have been adopted:

(a) For sales of completed units, revenues are recorded when the sale is completed and the transfer of significant risks and benefits has occurred, regardless of the timing of receipts from the customer.

(b) For the sales of units under construction, the following applies:

- The incurred cost (including cost of land, and other directly related expenditure with inventory production) that corresponds to the units sold is included in profit or loss. For the units not yet sold, the incurred cost is included in inventory (Note 2.2.8);

- Incurred costs of units sold (including land) are measured as a percentage of total estimated cost, and this percentage is applied to the total revenues of the units sold, adjusted in accordance with the terms established in the sales contracts, thus determining the amount of revenues to be recognized in direct proportion to costs;
- Any amount of revenue recognized that exceeds the amount actually received from customers is recorded as either a current or non-current asset in the account "Trade accounts receivable". Any amount received in connection with the sales of units that exceeds the amount of revenues recognized is recorded as "Payables for purchase of land and advances from customers";

2. Presentation of financial statements and summary of significant accounting policies --Continued

2.2. Summary of significant accounting policies --Continued

2.2.2. Recognition of revenues and expenses --Continued

(i) *Real estate development and sales* --Continued

- Interest and inflation-adjustment charges on accounts receivable from the time the units are delivered, as well as the adjustment to present value of account receivable, are included in real estate development and sales when incurred, on a pro rata basis using the accrual basis of accounting;
- Financial charges on account payable for acquisition of land and those directly associated with the financing of construction are capitalized and recorded in properties for sale and included in the incurred cost of units under construction until their completion, and follow the same recognition criteria as the cost of real estate development for units sold while under construction;
- Taxes levied and deferred on the difference between real estate development revenues and the cumulative revenue subject to tax are calculated and recognized when this difference in revenues is recognized;
- Other expenses, including advertising and publicity, are recognized in profit or loss when incurred.

(ii) *Construction services*

Revenues from real estate services are recognized as services are rendered and tied to the construction management activities for third parties and technical advisory services.

Gafisa S.A.

(Amounts in thousands of Reais, except as otherwise stated)

2. Presentation of financial statements and summary of significant accounting policies --Continued

2.2. Summary of significant accounting policies --Continued

2.2.2. Recognition of revenues and expenses --Continued

(iii) *Barter transactions*

Barter transactions have the objective of receiving land from third parties and are settled with the delivery of apartments or transfer of portions of the revenue from the sale of real estate units. The value of land acquired by the Company and its subsidiaries is calculated based on the fair value of real estate units to be delivered. At the time of acquisition, the fair value of the land is recorded as a component of inventory of properties for sale, with a resulting advances from customers liability. Revenues and costs incurred from barter transactions are included in profit or loss over the course of construction period of ventures, as previously described in item (b).

(iv) *ICPC 02 - Paragraphs 20 and 21*

In compliance with the aforementioned ICPC requirements, the amounts of recognized revenues and incurred costs are presented in the statement of profit or loss, and the advances received in the account "payables for purchase of land and advances from customers".

2.2.3. Financial instruments

Financial instruments are recognized only from the date the Company becomes a party to the contractual provisions of financial instruments, which mainly consist of cash and cash equivalents, short-term investments, accounts receivable, loans and financing, suppliers, and other debts. The book value of financial instruments that are not recognized at fair value through profit or loss is increased by any directly attributable transaction costs.

Gafisa S.A.

Notes to the individual and consolidated financial statements--Continued

December 31, 2013

(Amounts in thousands of Reais, except as otherwise stated)

2. Presentation of financial statements and summary of significant accounting policies --Continued

2.2. Summary of significant accounting policies --Continued

2.2.3. Financial instruments --Continued

After initial recognition, financial instruments are measured as described below:

(i) *Financial instruments through profit or loss*

A financial instrument is classified into fair value through profit or loss if held for trading, that is, designated as such when initially recognized.

Financial instruments are designated at fair value through profit or loss if the Company manages these investments and makes decisions on purchase and sale based on their fair value according to the strategy of investment and risk management. After initial recognition, attributable transaction costs are recognized in profit or loss when incurred. Financial instruments at fair value through profit or loss are measured at fair value, and their fluctuations are recognized in profit or loss.

In the year ended December 31, 2013, the Company held derivative instruments with the objective of mitigating the risk of its exposure to the volatility of indices and interest rates, recognized at the fair value

directly in profit or loss. In accordance with its treasury policies, the Company does not have or issue derivative financial instruments for purposes other than for hedging. Derivative instruments are initially recognized at fair value, and attributable transaction costs are recognized in profit or loss when incurred.

After the initial recognition at fair value, derivatives are measured at fair value and the changes are recognized in the consolidated profit or loss. As of December 31, 2013, the Company had R\$183 in the Company's and consolidated statements (R\$10,568 in the Company's statements and R\$19,667 in the consolidated statements in 2012), recorded in assets under the account "Derivative financial instruments" related to the interest rate swap transaction described in Note 21. The Company does not adopt the hedge accounting practice.

Gafisa S.A.

Notes to the individual and consolidated financial statements--Continued

December 31, 2013

(Amounts in thousands of Reais, except as otherwise stated)

2. Presentation of financial statements and summary of significant accounting policies --Continued

2.2. Summary of significant accounting policies --Continued

2.2.3. Financial instruments --Continued

(ii) *Financial assets*

Financial assets are classified into financial assets at fair value through profit or loss, borrowings and receivables, held-to-maturity investments and available-for-sale financial assets. The Company determines the classification of its financial assets at their initial recognition, when they are included in the contractual provisions of the instrument.

Financial assets are initially recognized at fair value, plus, in the case of investments not designated at fair value through profit or loss, the transaction costs that are directly attributable to the acquisition of the financial asset.

The financial assets of the Company include cash and cash equivalents, short-term investments, trade accounts receivable and other accounts receivable, borrowings and other receivables and derivative financial instruments.

Derecognition (write-off)

A financial asset (or, as the case may be, a portion of a financial asset or portion of a group of similar financial assets) is written-off when:

- The rights to receive cash inflows of the asset expire;
- The Company transfers its rights to receive cash inflows from the asset or assumes an obligation to fully pay the cash inflows received, without significant delay, to a third party because of a contractual agreement; and (a) the Company substantially transfers the risks and benefits of the asset, or (b) the Company does not substantially transfer or retain all risks and benefits related to the asset, but transfers the control over the asset.

Gafisa S.A.

Notes to the individual and consolidated financial statements--Continued

December 31, 2013

(Amounts in thousands of Reais, except as otherwise stated)

2. Presentation of financial statements and summary of significant accounting policies --Continued

2.2. Summary of significant accounting policies --Continued

2.2.3. Financial instruments --Continued

(ii) *Financial assets* --Continued

When the Company has transferred its rights to receive cash inflows of an asset and signed an agreement to pass it on, and has not substantially transferred or retained all risks and benefits related to the asset, an asset is recognized to the extent of the continuous involvement of the Company with the asset. In this case, the Company also recognizes a related liability. The transferred asset and related liability are measured based on the rights and obligations that the Company maintained.

The continuous involvement by means of a guarantee on the transferred asset is measured at the original carrying value of the asset, or the highest consideration that may be required from the Company, whichever is the lowest.

(iii) *Financial liabilities at fair value through profit or loss*

Financial liabilities through profit or loss include trading financial liabilities and financial liabilities designated at the initial recognition at fair value through profit or loss.

Financial liabilities are classified into held for trading when they are acquired with the objective of selling them in the short term.

Loans and financing

After initial recognition, loans and financing accruing interest are subsequently measured at amortized cost, using the effective interest rate method. Gains and losses are recognized in statement of profit or loss, at the time liabilities are written-off, as well as during the amortization process using the effective interest rate method.

Gafisa S.A.

Notes to the individual and consolidated financial statements--Continued

2. Presentation of financial statements and summary of significant accounting policies --Continued

2.2. Summary of significant accounting policies --Continued

2.2.3. Financial instruments --Continued

(iii) *Financial liabilities at fair value through profit or loss* --Continued

Derecognition (write-off)

A financial liability is written-off when the obligation is revoked, cancelled or expires.

When an existing financial liability is substituted by another from the same creditor, under substantially different terms, or when the terms of an existing liability are significantly changed, this substitution or change is treated as a derecognition of the original liability and recognition of a new liability, the difference in the corresponding carrying values being recognized in the statement of profit or loss.

Financial instrument – net presentation

Financial assets and liabilities are stated at their net amounts on the balance sheet if, and only if, there is a current and executable legal right to offset the recognized amounts, and if there is the intention of offsetting, or making the simultaneous realization of the asset and settlement of the liability.

(iv) *Available-for-sale financial instruments*

For available-for-sale financial instruments, the Company assesses if there is any objective evidence that the investment is recoverable at each balance sheet date. After the initial measurement, the available-for-sale financial assets are measured at fair value, with unrealized gains and losses directly recognized in other comprehensive income, when applicable; except for impairment losses of interests calculated using the effective interest rate method, and the exchange gains or losses on monetary assets that are directly recognized in profit or loss.

2.2.4. Cash and cash equivalents and short-term investments

Cash and cash equivalents are substantially composed of demand deposits and bank deposit certificates held under resale agreements, denominated in Reais, with high market liquidity and contractual maturities that do not exceed 90 days or in regard to which there are no penalties or other restrictions for the immediate redemption thereof.

Cash equivalents are classified into financial assets at fair value through profit or loss and are recorded at the original amounts plus income earned, calculated on a "pro rata basis", which are equivalent to their market values, not having any impact to be accounted for in the Company's equity.

Short-term investments include bank deposit certificates, federal government bonds, exclusive investment funds that are fully consolidated, and collaterals, whose fair values approximate their carrying amounts (Note 4.2).

(Amounts in thousands of Reais, except as otherwise stated)

2. Presentation of financial statements and summary of significant accounting policies --Continued

2.2. Summary of significant accounting policies --Continued

2.2.5. Trade account receivable

Trade account receivables are stated at cost plus accrued interest and indexation adjustments, net of adjustment to present value. The allowance for doubtful account is recorded at an amount considered sufficient by management to cover estimated losses on realization of accounts receivable that are not secured.

The installments due are indexed based on the National Civil Construction Index (INCC) during the period of construction, and based on the General Market Prices Index (IGP-M) and interest, after the delivery of the units.

The balance in current assets is represented by the financial flow of installments receivable in 12 months. The remaining balance is recorded in long term, limited to the amount recorded for the financial progress.

The fair value of the revenue from units sold is stated at present value based on the discount rate whose fundamental assumptions are the average rate of the financing obtained by the Company, net of inflation, between the contract signature date and the estimated date to transfer the completed property's keys to the buyer (beginning on the date when the keys are transferred, an interest rate of 12% a.p.r. plus inflation is applied to accounts receivable).

The discount rates adopted by the Company and its subsidiaries range from 1.98% to 3.10% for the year ended December 31, 2013 (1.92% in 2012), net of INCC;

2.2. Summary of significant accounting policies --Continued

Subsequently, interest accrues over time and is included in the fair value of the revenue to be appropriated, over which the percentage of completion method will be applied.

In compliance with the provisions of item 9 of CPC 30, items 33 and 34 of OCPC01, and item 33 of CPC 12, the Company, in relation to installment sale of unfinished units, recognizes receivables adjusted for inflation, including the portion related to the handover of keys, without interest charges, and are discounted to present value, since the agreed-upon inflation indexes do not include any interest component. The reversal of the present value adjustment, considering that an important part of the Company operations consists of financing its clients until key delivery, was carried out as contra-entry to the group of real estate development revenue, consistently with interest incurred on the portion of receivables balance related to period subsequent to the handover of keys. The discount rate adopted is based on fundamental assumptions about the average rate of loans and financing obtained by the Company, net of the inflation effect, as mentioned in Note 2.2.20.

2.2.6. Mortgage-backed Securities (CRIs) and Housing Loan Certificate (CCI)

The Company and its subsidiaries carry out the assignment and/or securitization of receivables related to completed projects and those still under construction. This securitization is carried out through the issuance of the "Housing loan certificate ("Cédula de Crédito Imobiliário" or "CCI"), which is assigned to financial institutions that grant loans. When there is no right of recourse, this assignment is recorded as a charge to accounts receivable. When there is right of recourse against the Company, the assigned receivable is

maintained in the balance sheet. The funds from assignment, when it does not have right of recourse, are classified into the account "Obligations assumed on assignment of receivable", until certificates are settled by customers.

2.2.6. Mortgage-backed securities (CRIs) and Housing Loan Certificate (CCL)--Continued

In this situation, the cost of the transaction is recorded in "financial expenses" in the statement of profit or loss for the year in which the the transfer is made.

The financial guarantees, when a participation is acquired (subordinated CRI) and maintained to secure disposed receivables, are recorded on the balance sheet as "short-term investments" at the realizable value, which is equivalent to fair value. As of December 31, 2013 and 2012, the Company did not have subordinated CRIs on its balance sheet.

2.2.7. Credit Rights Investment Fund (FIDC)

The Company consolidates Credit Rights Investment Fund (FIDC) in which it holds subordinated shares, subscribed and paid in by the Company in receivables.

When consolidating the FIDC in its financial statements, the Company records the receivables in trade accounts receivable and the balance of the FIDC net assets are recorded in other accounts payable, with

the subordinated shares held by the Company being eliminated in the consolidation process. The financial costs of these transactions are appropriated on a "pro rata" basis under the account "financial expenses" in the statement of profit or loss.

2.2. Summary of significant accounting policies --Continued

2.2.8. Properties for sale

Land is initially stated at cost of acquisition only once the property deeds have been transferred to the Company. Land is recognized in the heading "Advances to suppliers" when there has been no transfer of the property deeds, not being recognized in the financial statements while under negotiation, regardless of the likelihood of success or construction stage. The Company and its subsidiaries acquire a portion of their land through barter transactions, which, in exchange for the land acquired, they undertake to deliver (a) real estate of ventures under construction or (b) a portion of the revenues originating from the sale of the real estate units of ventures. Land acquired through barter transaction is stated at fair value on the acquisition date, and the revenue and cost are recognized according to the criteria described in Note 2.2.2 (b)(iii). Subsequently, the interest on payables for barter transactions is capitalized to the cost of bartered land, net of the effects of the adjustment to present value.

Properties are stated at construction cost, which cannot exceed net realizable value. In the case of real estate under construction, the portion in inventories corresponds to the cost incurred for units that have not yet been sold. The incurred cost comprises construction costs (materials, own or outsourced labor, and other related items), and legal expenses relating to the acquisition of land and projects, land costs and financial charges which relate to a project over the construction period.

The Company capitalizes interest on developments during the period of the construction, and also land, while the activities for the preparation of assets for resale are being carried out, as long as there are loans

outstanding, which are recognized in profit or loss in proportion to the units sold, using the same criteria as for other costs.

(Amounts in thousands of Reais, except as otherwise stated)

2. Presentation of financial statements and summary of significant accounting policies --Continued

2.2. Summary of significant accounting policies --Continued

2.2.8. Properties for sale --Continued

When the cost of construction of properties for sale exceeds the expected cash flow from sales, completed or under construction, an impairment charge is recognized in the year when the carrying amount is considered no longer to be recoverable.

Properties for sale are annually reviewed, at the closing date of the year, to assess the recoverability of the carrying amount of each real estate development unit, regardless of any events or changes in macroeconomic scenarios indicating that the carrying amount may not be recoverable. If the carrying amount of a real estate development unit is not recoverable, compared to its realizable value through expected cash flows, a provision for impairment is recorded.

2.2.9. Selling expenses - commissions

Brokerage expenditures and sales commissions are recorded in profit or loss under the account "Selling expenses" following the same percentage-of-completion criteria adopted for the recognition of revenues. The charges related to sales commission of the buyer are not recognized as revenue or expense of the Company.

2.2.10. Prepaid expenses

These are appropriated to profit or loss when incurred using the accrual basis of accounting.

(Amounts in thousands of Reais, except as otherwise stated)

2. Presentation of financial statements and summary of significant accounting policies --Continued

2.2. Summary of significant accounting policies --Continued

2.2.11. Land available for sale

Land available for sale is measured based on the lower of the carrying amount and the fair value, less the cost to sell and is classified into held for sale if its carrying amount is recovered through a sale transaction of the land, and not through the development that was supposed to be built. This condition is considered fulfilled only when the sale is highly probable and the group of assets or of disposal is available for immediate sale in its current condition. Management shall undertake to sell it in a year after the classification date.

2.2.12. Investments in subsidiaries

The Company has control over an entity when it is exposed or is entitled to variable returns arising from its involvement with the entity and has the capacity of interfering in these returns because of the power that it exerts over the entity. Investments in subsidiaries are recorded in the Company using the equity method.

When the Company's equity in the losses of subsidiaries is equal to or higher than the amount invested, the Company recognizes the residual portion in the net capital deficiency since it assumes obligations, make payments on behalf of these companies or makes advances for future capital increase. For this purpose, the Company recognizes a provision at an amount considered appropriate to meet the obligations of the

subsidiary (Note 9).

2. Presentation of financial statements and summary of significant accounting policies --Continued

2.2. Summary of significant accounting policies --Continued

2.2.13. Property and equipment

Property and equipment are recorded at cost, less any applicable accumulated depreciation and/or any accumulated impairment losses, if applicable.

A property and equipment item is derecognized when no future economic benefits are expected from its use or disposal. The gain or loss arising from derecognition of an asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recorded in statement of profit or loss when the asset is derecognized.

Depreciation is calculated based on the straight-line method considering the estimated useful life of the assets (Note 10).

The residual value, useful life, and depreciation methods are reviewed at the end of each year; no change was made in relation to the information for the prior year.

Expenditures incurred for the construction of sales stands, facilities, display apartments and related furnishings are capitalized as property and equipment of the Company and its subsidiaries. Depreciation of these assets commences upon launch of the development and is recorded over the average term of one year.

Property and equipment are subject to periodic assessments of impairment. As of December 31, 2013 and 2012 there were no impairment indicators regarding property and equipment.

2.2.14. Intangible assets

(i) Expenditures related to the acquisition and development of computer systems and software licenses are recorded at acquisition cost and amortized on straight-line basis over a period of up to five years, and are subject to periodic assessments of impairment of assets.

2.2. Summary of significant accounting policies --Continued

2.2.14. Intangible assets --Continued

(ii) The Company's investments in subsidiaries include goodwill when the acquisition cost exceeds the market value of net assets of the acquiree.

The goodwill recorded as of December 31, 2013 and 2012, applicable to real estate development entities in Brazil, refers to acquisitions before the date of transition to CPC/IFRS (January 1, 2009), and the Company opted for not retrospectively recognizing the acquisitions before the transition date, to adjust any of the respective goodwill.

The impairment test of goodwill is carried out annually or whenever circumstances indicate an impairment loss. As of December 31, 2013 no impairment of goodwill was found.

2.2.15. Payables for purchase of properties and advances from customer due to barter

Payables for purchase of land are recognized at the amounts corresponding to the contractual obligations assumed. Subsequently they are stated at amortized cost, that is, added, when applicable, by interest and

charges proportional to the incurred period (“pro rata” basis), net of adjustment to present value.

The obligations related to barter transactions of land in exchange for real estate units are stated at fair value at the acquisition date and subsequently adjusted based on the compensation agreed between the parties, are capitalized at cost of the bartered land, net of the effects of the adjustment to present value.

2.2.16. Income and social contribution tax on net profit

(i) *Current income and social contribution tax*

Current income tax is the expected tax payable or receivable/to be offset in relation to taxable profit or loss for the year. To calculate the current income and social contribution tax, the Company adopts the Brazilian Transitory Tax Regime (RTT), which permits the exclusion of the effect from the changes, introduced by Laws No. 11,638/2007 and No. 11,941/2009, from the tax basis of such taxes.

Taxes on income in Brazil comprise income tax (25%) and social contribution (9%), for entities on the standard profit regime, for which the composite statutory rate is 34%. Deferred taxes for these entities are provided on all temporary tax differences at the balance sheet date between the tax bases of assets and liabilities, and their carrying amounts.

As permitted by tax legislation, certain subsidiaries opted for the presumed profit regime, a method under which the taxable profit is calculated as a percentage of gross sales. For these companies, the income tax is calculated on estimated profits at 8% and 12% on gross revenues, respectively, on which the rates of the respective tax and contribution are levied.

Gafisa S.A.

Notes to the individual and consolidated financial statements--Continued

December 31, 2013

(Amounts in thousands of Reais, except as otherwise stated)

2. Presentation of financial statements and summary of significant accounting policies --Continued

2.2. Summary of significant accounting policies --Continued

2.2.16. Income and social contribution tax on net profit --Continued

(i) *Current income and social contribution tax* --Continued

As permitted by tax legislation, the development of certain ventures are subject to the “afetação” regime, based on which the land and its features where a real estate will be developed, as well as other binding assets and rights, are separated from the assets of the developer and comprise the “patrimônio de afetação” (detached assets) of the corresponding development and which real estate units will be delivered to the buyers. In addition, certain subsidiaries made the irrevocable option for the Special Taxation Regime (RET), adopting the "patrimônio de afetação", according to which the income and social contribution taxes are calculated at 1.92% on gross revenues (4% when including PIS and COFINS on revenues).

(ii) *Deferred income and social contribution tax*

Deferred tax is recognized in relation to tax losses and temporary differences between the carrying amount of assets and liabilities for accounting purposes and the corresponding amounts used for tax purposes.

Gafisa S.A.

Notes to the individual and consolidated financial statements--Continued

December 31, 2013

(Amounts in thousands of Reais, except as otherwise stated)

2. Presentation of financial statements and summary of significant accounting policies --Continued

2.2. Summary of significant accounting policies --Continued

2.2.16. Income and social contribution tax on net profit --Continued

(ii) *Deferred income and social contribution tax* --Continued

Deferred taxes are recognized to the extent that it is probable that future taxable income will be available to be used to offset deferred tax assets, based on profit projections made using internal assumptions and considering future economic scenarios that make it possible their full or partial use, upon the recognition of a provision for the non-realization of the balance. The recognized amounts are periodically reviewed and the impacts of realization or settlement are reflected in compliance with tax legislation provisions.

Deferred tax on accumulated tax losses does not have an expiration date, however, they can only be offset against up to 30% of the taxable profit for each year. Companies that opt for the presumed profit tax regime cannot offset tax losses for a period in subsequent years, and for this reason, deferred taxes are not recognized.

2.2.17. Other current and non-current liabilities

These liabilities are stated at their known or estimated amounts, plus, when applicable, the corresponding charges and inflation-indexed variations through the balance sheet date, whose contra-entry is recorded in profit or loss. When applicable, current and non-current liabilities are recorded at present value based on interest rates that reflect the term, currency and risk of each transaction.

Gafisa S.A.

Notes to the individual and consolidated financial statements--Continued

December 31, 2013

(Amounts in thousands of Reais, except as otherwise stated)

2. Presentation of financial statements and summary of significant accounting policies --Continued

2.2. Summary of significant accounting policies --Continued

2.2.18. Stock option plans

As approved by its Board of Directors, the Company offers to executives and employees share-based compensation ("Stock Options"), according to which services are received as consideration for granted options.

The fair value of options is determined on the grant date, considering that it is recognized as expense in profit or loss (as contra-entry to equity), to the extent services are provided by employees and executives.

In an equity-settled transaction, in which the plan is modified, a minimum expense is recognized corresponding to the expense that would have been recorded if the terms have not been changed. An additional expense is recognized for any modification that increases the total fair value of granted options, or that otherwise benefits the employee, measured on the modification date. In case of cancellation of a stock option plan, this is treated as if it had been granted on the cancellation date, and any unrecognized plan expense is immediately recognized. However, if a new plan replaces the cancelled plan, and a substitute plan is designated on the grant date, the cancelled plan and the new plan are treated as if they were a modification of the original plan, as previously mentioned.

2.2.19. Other employee benefits

The salaries and benefits granted to the Company's employees and executives include fixed compensation (salaries, social security contributions (INSS), Government Severance Indemnity Fund for Employees (FGTS), vacation and 13th monthly salary, among others) and variable compensation such as profit sharing, bonus, and share-based payment. These benefits are recorded in profit or loss for the year, under the account "General and administrative expenses", as they are incurred.

The bonus system operates with individual corporate targets, structured based on the efficiency of corporate goals, followed by the business ones and, finally, individual goals.

The Company and its subsidiaries do not offer private pension or retirement plans or other post-employment benefits.

(Amounts in thousands of Reais, except as otherwise stated)

2. Presentation of financial statements and summary of significant accounting policies --Continued

2.2. Summary of significant accounting policies --Continued

2.2.20. Present value adjustment – assets and liabilities

Assets and liabilities arising from long or short-term transactions are adjusted to present value if significant.

In installment sales of not completed units, real estate development entities have receivables adjusted by inflation index, including the installment related to the delivery of units, without accrual of interest, and shall be discounted to present value, as the agreed inflation indexes do not include interest.

Borrowing costs for amounts used to finance the construction of real estate ventures are capitalized. Therefore, the reversal of the present value adjustment of an obligation related to these items is included in the cost of real estate unit sold or to the inventories of properties for sale, as the case may be, until the period of construction of the project is completed.

Accordingly, certain asset and liability items are adjusted to present value based on discount rates that reflect the best estimate of the value of the money over time.

The applied discount rate's underlying economic basis and assumption is the average rate of the financing and loans obtained by the Company, net of the inflation-index effect (Notes 5 and 12).

Gafisa S.A.

(Amounts in thousands of Reais, except as otherwise stated)

2. Presentation of financial statements and summary of significant accounting policies --Continued

2.2. Summary of significant accounting policies --Continued

2.2.21. Debenture and public offering costs

Transaction costs and premiums on issuance of securities are accounted for as a direct reduction of amount raised by the Company. In addition, transaction costs and premiums on issuance of debt securities are amortized over the terms of the instrument and the net balance is classified as reduction of the respective transaction (Note 13).

2.2.22. Borrowing costs

The borrowing costs directly attributable to ventures during the construction period and land, when the development of the asset for sale is being performed, are capitalized as part of the cost of that asset, since there are borrowings outstanding, which are recognized in profit or loss to the extent units are sold, the same criteria for other costs. All other borrowing costs are recorded as expense when incurred. Borrowing costs comprise interest and other related costs incurred, including those for raising finances.

Charges that are not appropriated to profit or loss of subsidiaries shall be recorded in the financial statements of the Company, in the account investments in non-current assets (Note 9).

2.2.23. Provisions

Provisions are recognized when the Company has a present obligation as a result of a past event, and it is probable future economic benefits are required to settle the payable, and a reliable estimate can be made of the amount of the obligation.

Gafisa S.A.

Notes to the individual and consolidated financial statements--Continued

(Amounts in thousands of Reais, except as otherwise stated)

2. Presentation of financial statements and summary of significant accounting policies --Continued

2.2. Summary of significant accounting policies --Continued

2.2.23. Provisions --Continued

(i) *Provision for legal claims*

The Company is party to various lawsuits and administrative proceedings. Provisions are recognized for all contingencies related to lawsuits, in which it is probable that an outflow of resources will be made to settle the contingency, and a reliable estimate can be made. The assessment of the probability of loss includes the evaluation of available evidence, the hierarchy of Laws, the available case law, the most recent court decisions, and their relevance in the legal system, as well as the opinion of external legal counsel.

Provisions are reviewed and adjusted to take into account the change in circumstances, such as the statute of limitations, findings of tax inspections, or additional identified exposures based on new issues or court decisions. Actual results may differ from management's estimates.

Contingent liabilities for which losses are considered possible are only disclosed in a note to the financial statements, and those for which losses are considered remote are neither accrued nor disclosed.

Contingent assets are recognized only when there are real guarantees or favorable final and unappealable court decisions. Contingent assets with probable favorable decisions are only disclosed in the notes. As of December 31, 2013 and 2012 there are no claims involving contingent assets recorded in the balance sheet of the Company.

(Amounts in thousands of Reais, except as otherwise stated)

2. Presentation of financial statements and summary of significant accounting policies --Continued

2.2. Summary of significant accounting policies --Continued

2.2.23. Provisions --Continued

(ii) *Allowance for doubtful account and cancelled contracts*

The Company reviews annually its assumptions to set up an allowance for doubtful account and cancelled contracts, in view of the review of the histories of its current operations and improvement of estimates.

The Company records an allowance for doubtful accounts and cancelled contracts for customers whose installments are over 90 past due, in several types of construction work: construction works on time, construction works delayed (within the grace period), works that are late (out of the grace period) and for delivered completed units. This allowance is calculated based on the percentage of the construction work completion, a methodology adopted for recognizing profit or loss for the year (Note 2.2.2).

(iii) *Provision for penalties due to delay in construction work*

As provided for in contract, the Company adopts the practice of provisioning the charges payable to customers for projects with over 180 days of delay to their delivery, according to the respective contractual

clause.

(iv) *Warranty provision*

The Company and its subsidiaries recognize a provision to cover expenditures for repairing construction defects covered during the warranty period, except for the subsidiaries that operate with outsourced companies, which are the direct guarantors of the constructions services provided. The warranty period is five years from the delivery of the venture.

2. Presentation of financial statements and summary of significant accounting policies --Continued

2.2. Summary of significant accounting policies --Continued

2.2.23. Provisions --Continued

(v) *Provision for impairment of non-financial assets*

Management reviews at least annually, at each balance sheet date, the net carrying amount of assets with the objective of evaluating events or changes in economic and operational circumstances that may indicate impairment. When such evidence is found, and the net carrying amount exceeds the recoverable amount, a provision for impairment is recorded, adjusting the net carrying to the recoverable amount. The goodwill and intangible assets with indefinite useful lives have the recovery of their amounts tested annually, regardless if there are any indications of impairment, by comparing to the realization value measured by cash flows discounted to present value, using a discount rate before taxes, which reflects the weighted average cost of capital of the Company.

2.2.24. Sales taxes

Revenues, expenses and assets are recognized net of sales taxes, except the following:

- When the sales taxes incurred in the purchase of goods or services are not recoverable from tax authorities, in which event sales taxes are recognized as a portion of the acquisition cost of the asset or expense item, as the case may be; and
- When the amounts receivable and payable are shown together with the sales taxes.

The net amount of sales taxes, recoverable or payable, is included as a receivables or payable item in the balance sheet.

Gafisa S.A.

December 31, 2013

(Amounts in thousands of Reais, except as otherwise stated)

2. Presentation of financial statements and summary of significant accounting policies --Continued

2.2. Summary of significant accounting policies --Continued

2.2.24. Sales taxes --Continued

Under the non-cumulative taxation regime, the PIS and COFINS contribution rates are 1.65% and 7.6%, respectively, for companies under the taxable profit taxation regime, levied on gross revenue and discounting certain credits determined based on incurred costs and expenses. For companies that opt for the presumed profit taxation regime, under the non-cumulative taxation regime, the PIS and COFINS contribution rates are 0.65% and 3%, respectively, on gross revenue, without discounts of credits in relation to incurred costs and expenses.

2.2.25. Statements of cash flows and added value

The statement of cash flows are prepared and presented in accordance with CVM Resolution No. 641, of October 7, 2010, which approved the accounting pronouncement CPC No. 03 (R2) – Statement of Cash Flows, issued by the Accounting Pronouncements Committee (CPC). The statements of added value are prepared and presented in accordance with CVM Resolution No. 557, of November 12, 2008, which approved the accounting pronouncement CPC No. 09 – Statement of Added value, issued by CPC.

Certain debt agreements require the Company to maintain short-term investments as guarantee for outstanding balances. Such investments are restricted while held in guarantee. The Company accounts for

the investments and redemptions of such investments as investing activities in the statement of cash flows.

2.2.26. Treasury shares

Own equity instruments that are repurchased (treasury shares) are recognized at cost and charged to equity. No gain or loss is recognized in the statement of profit or loss upon purchase, sale, issue or cancellation of the Company's own equity instruments.

(Amounts in thousands of Reais, except as otherwise stated)

2. Presentation of financial statements and summary of significant accounting policies --Continued

2.2. Summary of significant accounting policies --Continued

2.2.27. Interest on equity and dividends

The proposal for distributing dividends and interest on equity made by Management that is in the portion equivalent to the minimum mandatory dividend is recorded as current liabilities in the heading "Dividends payable", because it is considered as a legal obligation provided for in the By-laws of the Company.

For corporate and accounting purposes, the interest on equity is reported as allocation of profit directly to equity at gross amount.

2.2.28. Earnings (loss) per share – basic and diluted

Earnings (loss) per share are calculated by dividing the net profit (loss) available (allocated) to ordinary shareholders by the average number of shares outstanding over the period.

Diluted earnings per share are calculated similarly to the basic ones, except for the fact that the number of shares outstanding is increased, to include the additional shares that would be outstanding, in case the shares with dilutive potential attributable to stock option had been issued over the respective periods, using

the weighted average price of shares.

2.2.29. Statement of comprehensive income

In order to meet the statutory provisions (CPC 26 (R1)), the Company reported the statement of comprehensive income in its financial statements. The Company does not have other comprehensive income other than the profit or loss for the year.

(Amounts in thousands of Reais, except as otherwise stated)

2. Presentation of financial statements and summary of significant accounting policies --Continued

2.2. Summary of significant accounting policies --Continued

2.2.30. Business combination

Business combination transactions are accounted for by applying the acquisition method. The cost of an acquisition is measured by the sum of the transferred consideration, measured at fair value at the acquisition date, and the amount of any noncontrolling interest in the acquiree. The costs directly attributable to the acquisition shall be recognized as expense when incurred.

In the acquisition of a business, Management measures the financial assets and liabilities assumed with the objective of classifying and designating them according to the contractual terms, economic conditions, and the pertinent conditions at the acquisition date.

Goodwill is initially measured as the excess of transferred consideration in relation to the fair value of net assets acquired (identifiable assets and liabilities assumed, net). If the consideration is lower than the fair value of the net assets acquired, the difference shall be recognized as a gain in statement of profit or loss.

After initial recognition, goodwill is measured at cost, less any accumulated impairment. For purposes of the impairment test, the goodwill acquired in a business combination, as of the acquisition date, shall be designated to each cash-generating unit of the Company that are expected to benefit from the synergies of the combination, whether or not other assets or liabilities of the acquiree are designated to these units.

In the year ended December 31, 2013, the Company carried out two business combination transactions, as follows:

- (i) On February 27, 2013, regarding SPE Parque Ecoville, as detailed in Note 9.1 (i).
- (ii) On September 12, 2013, regarding the real estate ventures Manhattan Square Empreendimentos Imobiliários Comercial 02 and Manhattan Square Empreendimentos Imobiliários Residencial 02, as detailed in Note 9.1 (ii).

2.2. Summary of significant accounting policies --Continued

2.2.31. Non-current assets held for sale and profit of discontinued operations

The Company classifies a non-current asset into held for sale if its carrying value is recoverable by means of a sale transaction. In such case, the asset or the group of assets held for sale shall be available for immediate sale on current conditions, only subject to the usual and customary terms for selling such assets held for sale. Therefore its sale is highly probable.

For a sale to be highly probable, Management shall be committed to a plan to sell the asset, and have initiated a solid program for finding a buyer and completing the plan. In addition, the asset held for sale shall be effectively held for sale at a price that is reasonable in relation to its current fair value. In addition, the sale is expected to be completed in up to one year after the classification date, unless events that are beyond the control of the Company change this period.

The asset held for sale is measured at the lower of its carrying value and fair value, less cost to sell. In case the carrying value exceeds its fair value, an impairment loss is recognized in the statement of profit or loss for the year. Any reversal or gain shall only be recorded until the limit of such recognized loss.

Assets and liabilities of the group of discontinued assets are reported in separate lines in assets and liabilities. The profit of discontinued operations is presented at a single amount in statement of profit or

loss, which includes the total profit after income tax of these operations, less any impairment-related loss. The net cash flow amounts attributable to operating, investing and financing activities of discontinued operations are presented in Note 8.2.

2.2.31. Non-current assets held for sale and profit of discontinued operations—Continued

According to Note 1, on December 9, 2013, the Company disclosed a material fact informing about the completion of transaction for selling the majority interest it held in 70% of AUSA, as detailed in Note 8.2.

As required by CPC 31 – Non-current Asset Held for Sale and Discontinued Operations, for purposes of comparability, the information in the statement of profit or loss as of December 31, 2012 were restated and its retrospective effects are shown in Note 3.1.

2.2.32. Goodwill of indefinite useful life

According to Note 1, on July 3, 2013, the Company disclosed a material fact informing that the acquisition of the remaining shares of AUSA, corresponding to 20% of its capital stock, was completed through the acquisition by Tenda of the totality of shares of EVP Participações S.A., a holding company which held such remaining shares amounting to R\$366,662, completing the arbitration process.

In view of this transaction, goodwill was recorded in the amount of R\$252,449. With the disclosure of the material fact on December 9, 2013 informing about the completion of the sale transaction of the former subsidiary AUSA, this goodwill was included in the cost of investment in the measurement of gain in subsidiary Tenda (Note 8.2).

3. Pronouncements (new or revised) and interpretation adopted from 2013 or applicable as of January 1, 2014 and 2015

3.1 Pronouncements (new or revised) and interpretation adopted from January 1, 2013

The Company adopted all of the pronouncements (new or revised) and interpretations issued by the CPC applicable to its operations which were effective as of December 31, 2013.

The pronouncements (new or revised) and the interpretation listed below, issued by CPC and approved by CVM, are mandatory for the years beginning January 1, 2013 or later. They are the following:

- CPC 18 (R2) – Investments in associates and joint ventures – CVM Resolution no. 696 of December 13, 2012;
- CPC 19 (R2) – Joint arrangements – CVM Resolution no. 694 of November 23, 2012;
- CPC 33 (R1) – Employee benefits –CVM Resolution no. 695 of December 13, 2012;
- CPC 36 (R3) – Consolidated statements – CVM Resolution no. 698 of December 20, 2012;
- CPC 44 – Combined financial statements – CVM Resolution no. 708 of May 2, 2013;
- CPC 45 – Disclosure of interests in other entities – CVM Resolution no. 697 of December 13, 2012;;
- CPC 46 – Fair value measurement – CVM Resolution no. 699 of December 20, 2012; and
- OCPC 06 – Presentation of pro-forma financial information – CVM Resolution no. 709 of May 2, 2013.

Of the pronouncements listed above, the only ones that impacted the Company were CPC 19(R2), and, consequently, CPC 18(R2) and CPC 36(R3). These pronouncements establish that subsidiaries shall be fully consolidated from the date control is acquired, and continue to be consolidated until such control ceases, except the joint ventures which were stated at equity method in the individual and consolidated financial statements.

The financial statements of subsidiaries and joint-controlled investees are prepared for the same reporting year as those of the Company, adopting the accounting policies consistent with those adopted by the Company. For consolidation, the following criteria are adopted:

- (i) elimination of investment in subsidiaries, as well as their Income from equity method investments;
- (ii) the profit from transactions between consolidated companies, as well as those corresponding to balances of assets and liabilities are equally eliminated; and
- (iii) noncontrolling interests are calculated and reported separately.

The following jointly-controlled investees, which used to be recognized in the consolidated statements under the proportionate consolidation method until December 31, 2012, are recognized under the equity method as of January 1, 2013 and for the corresponding periods reported in these financial statements.

(a) Amount related to capitalized financial charges of joint ventures, which became accounted for under equity method.

The notes related to the corresponding amounts that are being restated are identified as “restated”.

There is not any other new standard or interpretation issued and not yet adopted that could, in the opinion of Management, produce significant impact on the profit (loss) for the year or on the equity reported by the Company.

3.2. Pronouncements (new or revised) and interpretation applicable to the years beginning on January 1, 2014 and 2015

- IFRIC 21 – “Levies”, issued in May 2013. The IFRIC 21 interpretation clarifies when an entity should recognize a liability regarding levies according to the legislation. The liability should only be recognized when the event that gives rise to the liability takes place. This interpretation is applicable beginning as of January 1, 2014.
- IFRS 9 – “Financial Instruments”, addresses the classification, measurement and recognition of financial assets and liabilities. IFRS 9 was issued in November 2009 and October 2010 and supersedes the passages of IAS 39 related to the classification and measurement of financial instruments.

Gafisa S.A.

Notes to the individual and consolidated financial statements--Continued

(Amounts in thousands of Reais, except as otherwise stated)

3. Pronouncements (new or revised) and interpretation adopted from 2013 or applicable as of January 1, 2014 and 2015--Continued

3.2. Pronouncements (new or revised) and interpretation applicable to the years beginning on January 1, 2014 and 2015--Continued

IFRS 9 requires the classification of financial assets into two categories: measured at fair value and measured at amortized cost. Classification is made at the initial recognition. The classification basis depends on the business model of the entity and the contractual characteristics of the cash flow of financial instruments. In relation to financial liability, the standard also maintains most of the requirements established by the IAS 39. The main change is that in the events in which the fair value option is adopted for financial liabilities, the portion of change in fair value in view of the credit risk of the entity itself is recorded in other comprehensive income and not in the statement of profit or loss, except when it results in accounting mismatch. The Company is assessing the impact of the IFRS 9.

These issued standards are not yet in effect in 2013. The early adoption of standards, although encouraged by the IASB, is not permitted by the Accounting Pronouncements Committee (CPC).

There is no other IFRS or IFRIC interpretation that are not yet in effect and that could have a significant impact on the Company.

(a) In December 2013, a structure of exclusive Investment Funds was established aimed at earning interest on funds in excess of the variation in the Interbank Deposit Certificate (CDI). These funds have mandates of risks that are periodically monitored and observe the internal investment policies in effect.

(b) As of December 31, 2013, Bank Certificates of Deposit (CDBs) include interest earned varying from 70% to 109% (from 70% to 104% in 2012) of Interbank Deposit Certificates (CDI). The CDBs earn an average income in excess of those from securities purchased under agreement to resell; however, the Company invests in short term (up to 20 working days) through securities purchased under agreement to resell taking into account the exemption of IOF, which is not granted in the case of CDBs.

(c) Restricted cash in guarantee to loans are investments in fixed-income funds, with appreciation of shares through investments only in federal government bonds, indexed to fixed rates or to price indexes, and pledged to guarantee a portion of the Company's issuances. These amounts are periodically released, when there is a surplus of guarantee in the issuance and/or as provided for in the indenture. See further information in Notes 13 and 17(b).

(d) Restricted credits are represented by onlending of the funds from associate credit ("*crédito associativo*"), a type of government real estate financing, which are in process of approval at the Caixa Econômica Federal (a Federally owned Brazilian bank used for real estate financing purpose). These approvals are made to the extent the contracts signed with customers at the financial institutions are regularized, which the Company expect to be in up to 90 days.

(i) The balance of accounts receivable from units sold and not yet delivered is not fully reflected in the financial statements. Its recovery is limited to the portion of the recorded revenues net of the amounts already received, according to the accounting practice mentioned in Note 2.2.2(i)(b).

As of December 31, 2013, advances from clients (development and services) in excess of the revenues recorded in the period amount to R\$39,868 (R\$22,895 in 2012) in the Company's statements and R\$48,220 (R\$132,789 in 2012) in the consolidated statements, without the effect of adjustment to present value, and are classified in "Payables for purchase of properties and advances from customers" (Note 18).

Gafisa S.A.

December 31, 2013

(Amounts in thousands of Reais, except as otherwise stated)

5. Trade accounts receivable of development and services --Continued

Accounts receivable from completed real estate units financed by the Company are in general subject to annual interest of 12% plus IGP-M variation, the revenue being recorded in profit or loss in the account "Revenue from real estate development and sale, barter transactions and construction services". The interest amounts recognized, in the Company and consolidated statements for the year ended December 31, 2013 totaled, R\$20,672 (R\$36,357 in 2012), and R\$31,419 (R\$52,184 in 2012), respectively.

The balances of allowance for doubtful accounts and cancelled contracts, net of accounts receivable and properties for sale, in the amounts of R\$7,040 (R\$17,029 in 2012) in the Company's statement and R\$72,200 (R\$80,095 in 2012) in the consolidated statement as of December 31, 2013 and 2012, are considered sufficient by the Company's management to cover the estimate of future losses on realization of the accounts receivable.

During the years ended December 31, 2013 and 2012, the changes in the allowance for doubtful accounts and cancelled contracts are summarized as follows:

	Company	
	2013	2012
		(Restated)
Balance at December 31	(17,029)	(5,585)
Additions (Note 23)	(10,758)	(34,071)

5. Trade accounts receivable of development and services --Continued

Receivables from units not yet completed were measured at present value considering the discount rate determined according to the criteria described in Note 2.2.2. The discount rate applied by the Company and its subsidiaries ranged from 1.98 to 3.10% in 2013 (1.92% in 2012), net of Civil Construction National Index (INCC).

(ii) On June 26, 2009, the Company entered into a CCI transaction, which consists of an assignment of a portfolio comprising select residential real estate receivables from Gafisa and its subsidiaries. The Company assigned its receivables portfolio amounting to R\$89,102 in exchange for cash, at the transfer date, discounted to present value, of R\$69,315, classified under the account "obligations assumed on assignment of receivables". In the year ended December 31, 2013, the remaining balance of this transaction amounts to R\$12,295 (R\$14,666 in 2012) (Note 14).

(iii) On June 27, 2011, the Company and its subsidiaries entered into a Definitive Assignment of Real Estate Receivables Agreement (CCI). The purpose of said Assignment Agreement is the definitive assignment by the assignor to the assignee. The assignment refers to a portfolio comprising select residential real estate receivables performed and to be performed arising out of Gafisa and its subsidiaries. The assigned portfolio of receivables amounts to R\$203,915 (R\$185,210 – Gafisa's interest) in exchange for cash, at the transfer date, discounted to present value, for R\$171,694 (R\$155,889 – Gafisa's interest), recorded under the account "obligations assumed on the assignment of receivables" (Note 14). As of December 31, 2013, the balance of this transaction is R\$13,407 (R\$24,362 in 2012) in the Company's statements and R\$17,146 (R\$40,376 in 2012) in the consolidated statements (Note 14).

5. Trade accounts receivable of development and services --Continued

(iv) On September 29, 2011, the Company and its subsidiaries entered into a Private Instrument for Assignment of Real Estate Receivables and Other Covenants. The purpose of said assignment agreement is the assignment by the assignor ("Company") to the assignee of the select portfolio of residential real estate receivables performed or to be performed from Gafisa and its subsidiaries, comprising the financial flow of the portfolio (installments, charges and the portion related to the handover of keys). The amount of real estate receivables assignment paid by the Assignee amounts to R\$238,356 (R\$221,376 - Gafisa's interest) on September 29, 2011. The assignment amount will be settled by the Assignee by offsetting the Housing Financial System (SFH) debt balance of its own bank. On July 6, 2012, the remaining balance was partially settled by handing over the balance of Bank Deposit Certificate (CDB) guaranteed in favor of the assignee. In the year ended December 31, 2013, the Company settled the balance of this transaction (R\$8,729 in 2012 in the Company's and consolidated statement) (Note 14).

(v) On December 22, 2011, the Company and its subsidiaries entered into a Definitive Assignment of Real Estate Receivables Agreement (CCI). The purpose of said assignment agreement is the definitive assignment by the Assignor to the Assignee of a portfolio comprising select residential real estate receivables performed and to be performed from Gafisa and its subsidiaries. The assigned portfolio of receivables amounts to R\$72,384 in exchange for cash at the transfer date, discounted to present value, amounting to R\$60,097, classified into the account "obligations assumed on assignment of receivables". As of December 31, 2013 the balance of this transaction is R\$10,991 (R\$11,590 in 2012) in the Company's statements and R\$13,686 (R\$16,864 in 2012) in the consolidated statements (Note 14).

(vi) On May 9, 2012, the Company and its subsidiaries entered into a Definitive Assignment of Real Estate Receivables Agreement (CCI), which purpose is the definitive assignment by the Assignor to the Assignee of a portfolio comprising select residential real estate receivables performed and to be performed from Gafisa and its subsidiaries. The assigned portfolio of receivables amounts to R\$64,887 in exchange for cash at the transfer date, discounted to present value, amounting to R\$45,225, classified into the account "obligations assumed on assignment of receivables", and the subscription of Subordinated CRI for the unit

value of R\$1,809. In the year ended December 31, 2013, the Company settled the balance of this transaction, and, consequently, the totality of the Subordinated CRI share which was tied to this transaction was amortized (R\$11,179 in the Company's statements and R\$22,818 in the consolidated statements in 2012) (Note 14).

5. Trade accounts receivable of development and services --Continued

(vii) On July 6, 2012, the Company and its subsidiaries entered into an agreement for the Definitive Assignment of Real Estate Receivables Agreement (CCI). The purpose of said agreement is the definitive assignment by the Assignor to the Assignee of a portfolio comprising select residential real estate receivables performed and to be performed from Gafisa and its subsidiaries. The assigned portfolio of receivables amounts to R\$18,207 in exchange for cash at the transfer date, discounted to present value, amounting to R\$11,489 (Gafisa's interest), classified under "Obligations assumed on assignment of receivables". As of December 31, 2013, the balance of this transaction was R\$2,578 (R\$7,561 in 2012) in the Company's and consolidated statements (Note 14).

(viii) On November 14, 2012, the affiliate Alphaville and its subsidiaries entered into an Real Estate Receivables Assignment Agreement (CCI), whose purpose is the assignment by the Assignor to the Assignee of a portfolio comprising select residential real estate receivables performed and to be performed from the affiliate and its subsidiaries and joint ventures of the Company. The assigned gross portfolio of receivables totals \$134,609 in the consolidated statements (AUSA's interest) and in exchange for cash, at the transfer date, discounted to present value, by R\$110,689 in the consolidated statements (AUSA interest's), classified into the account "Obligations assumed on assignment of receivables". As of December 31, 2013, the balance of this transaction is R\$10,639 in consolidated statements (R\$113,462 in 2012) (Note 14).

(ix) On December 27, 2012, the Company entered into a Definitive Assignment of Real Estate Receivables Agreement (CCI), whose purpose is the definitive assignment by the Assignor to the Assignee of a portfolio comprising select residential and commercial real estate receivables performed and to be performed from Gafisa. The assigned portfolio of receivables amounts to R\$72,021 in exchange for cash at the transfer date, discounted to present value, by R\$61,647, classified into the account "Obligations assumed on assignment of receivables". As of December 31, 2013, , the balance of this transaction is

R\$35,831 (R\$62,235 in 2012) in the Company's and consolidated statements (Note 14).

(Amounts in thousands of Reais, except as otherwise stated)

5. Trade accounts receivable of development and services --Continued

(x) On November 29, 2013, the Company entered into a Definitive Assignment of Real Estate Receivables Agreement (CCI), whose purpose is the definitive assignment by the Assignor to the Assignee of a portfolio comprising select residential and commercial real estate receivables performed and to be performed from Gafisa and its subsidiaries. The assigned portfolio of receivables amounts to R\$23,753 in exchange for cash at the transfer date, discounted to present value, by R\$18,861, classified into the account "Obligations assumed on assignment of receivables". As of December 31, 2013, the balance of this transaction is R\$5,675 in the Company's statement and R\$17,154 in the consolidated statements (Note 14).

(xi) On May 28, 2013, the Company settled its obligations of Gafisa FIDC (Note 16). The Company had obligations arising from the pledge of guarantees in favor of the assignee, which were maintained by the successor of Gafisa FIDC. Until the total fulfillment of the latter, these amounts are classified in a specific account in current and non-current liabilities. As of December 31, 2013, the balance in the Company's statements amounts to R\$5,337 and in the consolidated statements amounts to R\$6,381 (Note 14).

For items (ii) to (ix) above, the Company was engaged to perform, among other duties, the management of the receipt of receivables, the assignment's underlying assets, collection of defaulting customers, among other, according to the criteria of each investor, being paid for these services.

When applicable, the difference between the face value of the portfolio of receivables and the amount discounted to present value was recorded in profit or loss in the which the transaction was made under the account "Discount related to Securitization Transaction" in the financial expenses group.

6. Properties for sale --Continued

In the years ended December 31, 2013 and 2012, the change in the provision for realization is summarized as follows:

	Company Consolidated	
Balance at December 31, 2012 (restated)	(6,643)	(50,049)
Additions	-	(4,018)
Write-offs	6,643	18,315
Transfer among land available for sale (Note 8.1)	-	28,089
Balance at December 31, 2012 (restated)	-	(7,663)
Additions	(3,298)	(23,758)
Write-offs	-	11,009
Transfer among land available for sale (Note 8.1)	-	9,136
Balance at December 31, 2013	(3,298)	(11,276)

The Company has undertaken commitments to build units in exchange for land, accounted for based on the fair value of the bartered units at acquisition date. As of December 31, 2013, the net balance of land acquired through barter transactions amounts to R\$165,703 (R\$150,396 in 2012) in the Company's statements and R\$178,100 (R\$187,041 in 2012) in the consolidated statements (Note 18).

As disclosed in Note 12, the balance of capitalized financial charges as of December 31, 2013 amounts to R\$142,860 (R\$ 135,582 in 2012) in the Company's statements and R\$214,298 (R\$239,327 in 2012) in the consolidated statements.

The adjustment to present value in the property for sale balance refers to the contra-entry to the adjustment to present value of payables for purchase of properties with no effect on profit or loss for the year (Note 18). The total amount of the reversal of the adjustment to present value recognized in the costs of real estate development in the year ended December 31, 2013 amounts to R\$(50) (R\$(796) in 2012) in the Company's statements and R\$(1,137) (R\$(415) in 2012) in the consolidated statements.

(a) Refers to the redemption of shares of the Company's associate (note 15(a))

(b) Of this amount, R\$151,986 refers to dividends received from the associate AUSA by the Company in the year ended December 31, 2013.

(c) The Board of Directors of Tenda approved the creation of the following programs for repurchase of common shares of Gafisa in order to hold them in treasury for subsequent disposal:

(i) On November 27, 2012 a program was approved with an acquisition limit of 10,000,000 shares. In the year ended December 31, 2013, the totality of shares was acquired under this program in the total amount of R\$39,970.

(ii) On December 9, 2013 a program was approved with an acquisition limit of 32,938,554 shares to be performed in up to 365 days. In the year ended 2013, 8,500,000 shares were acquired in the total amount of R\$31,369.

In both programs, the acquisition is made at market price of Gafisa's share at BM&F Bovespa, and is carried out by debiting the capital reserve account of the subsidiary Tenda.

(d) According to Note 1, with the sale of and cease of control over AUSA, and in line with the definition provided for in paragraph 25 of CPC 36 (R3) – Consolidated Statements, the Company derecognized the assets and liabilities of AUSA in the financial statements as of December 31, 2013, and recognized the remaining investment of 30% at fair value, in the amount of R\$375,853, of which R\$108,300 in the Company, referred to the 10% interest, and R\$267,553 in Shertis, referred to the 20% interest in AUSA.

9.1. Business combination

(i) SPE Parque Ecoville

On February 27, 2013, the Company carried out a business combination related to the barter for interest in the joint ventures SPE Reserva Ecoville (interest of 50% granted) for SPE Parque Ecoville (interest of 50% received).

The base value of the transaction of barter for interests, supported by an economic appraisal report, amounted to R\$ 59,592. This transaction gave rise to a goodwill amounting to R\$22,644, which, according to CPC15 (R1) – Business Combinations, represents the residual value in the determination of the fair value of net assets acquired, allocated to the heading “Properties for Sale”.

The following table shows the calculation of the acquisition cost as provided by CVM Resolution No. 665/11:

Net assets granted by SPE Reserva Ecoville	41,118
Net assets received from SPE Parque Ecoville	18,474

We show below the goodwill arising from the barter for SPEs interests:

Carrying amount of acquisition:	
Acquisition cost	41,118

Net assets acquired	18,474
Goodwill based on inventory surplus	22,644

The Company commissioned a specialized company to do a study on the Purchase Price Allocation (PPA) for allocating the goodwill arising from the barter for interests. We show below a summary of the allocation of goodwill arising from the barter for interest in SPEs, taking into account the fair values of assets and liabilities of SPE Parque Ecoville at the acquisition date:

In the year ended December 31, 2013, the Company amortized R\$7,626 of the fair value transferred in the purchase price allocation.

(ii) Manhattan

On September 12, 2013, the Company made a business combination regarding the acquisition of control, by purchasing 50% of interest in the joint ventures Manhattan Square Empreendimentos Imobiliários Comercial 02 and Manhattan Square Empreendimentos Imobiliários Residencial 02. As a result of this transaction, the Company allocated the amount of R\$62,343 to the heading "Properties for Sale", in the consolidated information. In the individual information, this amount is recorded in the heading "Investments". The definitive allocation of this amount will be carried out in up to one year, according to CPC 15(R1) – Business Combinations.

The Company commissioned a specialized company to estimate the Purchase Price Allocation (PPA) for allocating the goodwill arising from the transaction. We show below the allocation of goodwill from the Company's perspective:

11. Intangible assets --Continued

The Company evaluated the recovery of the carrying amount of goodwill using the “value in use” concept, through discounted cash flow models of the cash-generating units. The process for determining the value in use involves the use of assumptions, judgments and estimates on cash flows, such as growth rate of revenues, costs and expenses, estimates of investment and future working capital, and discount rates. The assumptions on projections of growth, cash flow and future cash flows are based on the Company’s business plan, approved by the management, as well as on comparable market data, and represent the Management’s best estimate of the economic conditions that will prevail during the economic life of the different cash-generating units, group of assets that provides the generation of cash flows. The future cash flows were discounted based on the rate representative of the cost of capital. Consistent with the economic valuation techniques, the evaluation of the value in use is made for a five-year period, and after such period, considering the perpetuity of assumptions in view of the capacity for indefinite business continuity. The main assumptions used in the estimate of value in use are the following: a) revenue – revenues were projected between 2014 and 2018 considering the growth in sales and client base of the different cash-generating units; b) Operating costs and expenses – costs and expenses were projected in line with the Company’s historical performance, as well as the historical growth of revenues. The key assumptions were based on the Company’s historical performance over the past five years and on reasonable macroeconomic assumptions, and supported by the financial market projections. The impairment test of the Company’s intangible assets resulted in the need for recognizing a provision for impairment in the year ended December 31, 2013 in the amount of R\$963 (R\$11,690 in 2012), related to the goodwill on acquisition of CIPESA. The goodwill recorded in CIPESA was evaluated comparing the market values of lands.

12. Loans and financing —Continued

The Company and its subsidiaries have restrictive covenants under certain loans and financing that limit its ability to perform certain actions, such as the issuance of debt, and that could require the early redemption or refinancing of loans if the Company does not fulfill such covenants. The ratio and minimum and maximum amounts required under such restrictive covenants as of December 31, 2013 and 2012 are disclosed in Note 13.

Financial expenses of loans, financing and debentures (Note 13) are capitalized at cost of each venture and land, according to the use of funds, and included the profit or loss for the year based on the criteria adopted for recognizing revenue, as shown below. The capitalization rate used in the determination of costs of loans eligible to capitalization ranges from 9.14% to 10.14% as of December 31, 2013 (11.61% in 2012).

The following table shows the summary of financial expenses and charges and the capitalized rate in the account properties for sale.

	Company		Consolidated	
	2013	2012 (restated)	2013	2012 (restated)

(i) On May 16, 2008, the Company obtained approval for its 3rd Debenture Placement Program, which allows it to place R\$1,000,000 in simple debentures with a general guarantee maturing in five years. Under the 3rd Debenture Placement Program of Gafisa, the Company placed series of 25,000 debentures in the total amount of R\$250,000.

On April 12, 2013, with the re-ratification on April 18, 2013, the Board of Directors approved the conditions to be provided to the debenture holders of the 5th placement 2nd Series because of the scheduled renegotiation established in the Indenture, on conditions that are identical to those effective in such indenture. On these same dates, the conditions were disclosed to debenture holders, who could accept the conditions and hold the debenture through maturity or reject them, having ensured the acquisition right by the Issuer. On May 6, 2013, the Company paid the interest established in the indenture of the 5th placement Debentures, and acquired the debentures related to the non-renegotiation option, in the amount of R\$130,203, not having other restrictive covenants to be fulfilled regarding this placement. On January

21, 2014, the totality of debentures of this program was cancelled.

(ii) On August 12, 2009, the Company obtained approval for its 6th Placement of non-convertible simple debentures in two series, which have general guarantee, maturing in two years and unit face value at the issuance date of R\$10,000, totaling R\$250,000. In May 2010, the Company amended this indenture, changing the maturity from four to ten months, and the interest of the 1st series was adjusted to CDI+1.50%-2.00%, and that of the 2nd series to CDI+1.50%-3.25% . In October 2010, the Company made the early redemption of the 1st series of this placement in the amount of R\$150,000.

(iii) On November 16, 2009, the Company obtained approval for its 7th Placement of nonconvertible simple debentures in a single and undivided lot, sole series, secured by a floating and additional guarantee, in the total amount of R\$600,000, with semi-annual amortization between June 2013 and December 2017 over five years. The funds raised through this placement shall be used in the finance of real estate ventures.

On March 27, 2013, the change in the maturity schedule of the 7th Placement of Debentures of the Company was unanimously approved, and became effective as follows: R\$25,000 on June 5, 2013, R\$25,000 on December 5, 2013, R\$25,000 on June 5, 2014, R\$25,000 on December 5, 2014, R\$75,000 on June 5, 2015, R\$ 75,000 on December 5, 2015, R\$75,000 on June 5, 2016, R\$ 75,000 on December 5, 2016, R\$100,000 on June 5, 2017, R\$ 100,000 on December 5, 2017. On the same date, the calculation parameters of the placement remuneration were adjusted.

On October 1, 2013, the substitution of the Fiduciary Agent of the 7th Placement of Debentures of the Company was unanimously approved, this duty being currently performed by Pavarini Distribuidora de Títulos e Valores Mobiliários Ltda.

(iv) On April 14, 2009, the subsidiary Tenda obtained approval for its 1st Debenture Placement Program, which allowed it to place up to R\$600,000 in non-convertible simple subordinated debentures, in a single and undivided lot, secured by a floating and additional guarantee, with semi-annual amortizations between October 1, 2012 and October 1, 2015. The funds raised through the placement shall be exclusively used in the finance of real estate ventures focused only in the popular segment.

(v) On September 17, 2010, the Company obtained approval for its 8th Placement of nonconvertible simple debentures, in the amount of R\$300,000, in two series, the first maturing on October 15, 2015, and the second on October 15, 2016.

(vi) On June 19, 2013, the subsidiary Tenda approved the public distribution with restricted efforts of the 2nd Placement of simple nonconvertible debentures, with secured guarantee and additional personal guarantee, to be revalidated in general and additional personal guarantee, in sole series in the amount of R\$250,000, with maturity in 24 months. The placement is guaranteed by the fiduciary disposal of shares of Alphaville Urbanismo S.A. held by the subsidiary Shertis Empreendimentos e Participações S.A. and the guarantee of the Company and the subsidiary AUSA. On December 10, 2013 the issuer settled the obligations of this placement as provided for in the indenture.

As mentioned in Note 4.2, as of December 31, 2013, the balance of cash in guarantee to loans in investment funds in the amount of R\$74,305 (R\$21,005 in 2012) in the Company statements, and R\$105,380 (R\$95,887 in 2012) in the consolidated statements, is pledged as part of the calculation of the guarantee of 1st debenture placement of the subsidiary Tenda and the 7th placement of the Company.

13. Debentures--Continued

The Company and its subsidiaries have restrictive covenants under certain loans and financing that limit its ability to perform certain actions, such as the issuance of debt, and that could require the early redemption or refinancing of loans if the Company does not fulfill such covenants. The ratio and minimum and maximum amounts required under such restrictive covenants as of December 31, 2013 and 2012 are as follows:

	2013	2012 (restated)
Fifth placement		
Total account receivable plus inventory of finished units required to be either greater than or equal to 2.2 times net debt or below zero	n/a	3.73 times
Total debt less venture debt ⁽³⁾ less cash and cash equivalents and short-term investments ⁽¹⁾ cannot exceed 75% of equity	n/a	3.58%
Seventh placement		
Total account receivable plus inventory required to be below zero or 2.0 times net debt less venture debt ⁽³⁾	-6.21 times	46.13 times
Total debt less venture debt ⁽³⁾ , less cash and cash equivalents and short-term investments ⁽¹⁾ , cannot exceed 75% of equity plus noncontrolling interests	-31.6%	7.6%
Total account receivable plus unearned revenue plus total inventory of finished units required to be at least 1.5 times net debt plus payable for purchase of properties plus unappropriated cost	2.79 times	1.85 times
Eighth placement - first and second series, second issuance of Promissory Notes, first and second series		
Total account receivable plus inventory of finished units required to be below zero or 2.0 times over net debt less venture debt	-4.31 times	36.51 times
Total debt less venture debt, less cash and cash equivalents and short-term investments ⁽¹⁾ , cannot exceed 75% of equity plus noncontrolling interests	-31.16%	7.6%

	2013	2012 (restated)
First placement – Tenda		
Total accounts receivable plus inventory required to be either greater than or equal to 2.0 times net debt less debt with secured guarantee ⁽³⁾ or below zero, considering that TR ⁽⁴⁾ plus TE ⁽⁵⁾ is always above zero.	-2.49 times	-3.19 times
Net debt less debt with secured guarantee ⁽³⁾ required to be in excess of 50% of equity.	-56.97%	-41.97%
Total account receivable plus unearned revenue plus total inventory of finished units required to be greater than 1.5 times the net debt plus payable for purchase of properties plus unappropriated cost	56.85 times	6.18 times

(1) Cash and cash equivalents and short-term investments refer to cash and cash equivalents and marketable securities.

(2) Total receivables, whenever mentioned, refers to the amount reflected in the Balance Sheet plus the amount not shown in the Balance Sheet

(3) Venture debt and secured guarantee debt refer to SFH debts, defined as the sum of all disbursed borrowing contracts which funds were provided by SFH, as well as the debt related to the seventh placement.

(4) Total receivables.

(5) Total inventory.

Total	119,536	230,048	339,963	123,680	323,706	473,186

(a) In the Company's statements, in January 2008, the Company formed an unincorporated venture (SCP), the main objective of which is to hold interest in other real estate development companies, as mentioned in Note 9 (i) (a). As of December 31, 2013, the SCP has capital of R\$113,084 (represented by 13,084,000

Class A shares held by the Company and 100,000,000 Class B shares held by other venture partners). The SCP will preferably use these funds to acquire ownership interests and increase the capital of its investees. As a result of this operation, due to the prudence and considering that the decision to invest or not is made jointly by all members, thus independent from Company management decision, as of December 31, 2012, payables to venture partners were recognized in the amount of R\$200,000, maturing on February 1, 2014. The venture partners receive a minimum dividend substantially equivalent to the variation in the Interbank Deposit Certificate (CDI) rate. As of December 31, 2013, the amount accrued totaled R\$3,814 (R\$6,373 in 2012). The SCP's charter provides for the compliance with certain covenants by the Company, in its capacity as lead partner, which include the maintenance of minimum indices of net debt and receivables. At a meeting of the venture partners held on February 2, 2013, they decided to reduce the SCP capital by 100,000,000 Class B units and, as consequence of this resolution, the SCP paid R\$100,000 to the partners that held such shares. As of December 31, 2013, the Company is in compliance with these clauses.

The dividend amounts are reclassified into financial expenses in the financial statements.

(b) The company entered into a private instrument for establishing the usufruct of 100% preferred shares of SPE-89 Empreendimentos Imobiliários S.A., over a period of six years, raising funds amounting to R\$45,000, recorded based on amortized cost using the effective interest of the transaction in profit or loss. As of December 31, 2013, the total amount of dividends paid to the holders of preferred shares by SPE-89 Empreendimentos Imobiliários S.A. amounted to R\$13,400 (Note 9).

(a) Refers to the operation of assignment of receivables portfolio. On May 28, the Company entered into an agreement with the shareholders of Gafisa FIDC for the assignment of the totality of subordinated shares it owned in the Fund. As provided in the agreement, the Company received R\$5,008 in cash and R\$2,911 in real estate receivables previously assigned to Gafisa FIDC. The remaining shareholders of Gafisa FIDC settled the fund and in exchange they received a portion in cash and another portion in real estate receivables originated from Gafisa and its subsidiaries. Gafisa maintained on these receivables the obligation of completely formalizing the guarantee to the assignee under the risk of repurchase in case of non formalization or default. The remaining amount of this obligation is maintained in the heading "Obligations for assignment of receivables", which as of December 31, 2013, amounts to R\$5,337 in the Company's balance and R\$6,381 in the consolidated balance.

17. Provisions for legal claims and commitments

The Company and its subsidiaries are parties to lawsuits and administrative claims at various courts and government agencies that arise from the ordinary course of business, involving tax, labor, civil lawsuits and other matters. Management, based on information provided by its legal counsel and analysis of the pending claims and, with respect to the labor claims, based on past experience regarding the amounts claimed, recognized a provision in an amount considered sufficient to cover the losses on pending decisions. The Company does not expect any reimbursement in connection with these claims.

In the year ended December 31, 2013, the changes in the provision are summarized as follows:

Company	Civil claims (i)	Tax claims (ii)	Labor claims	Total
Balance at January 1, 2012 (restated)	91,735	1,894	14,968	108,597

Non-current portion	92,734	1,327	31,748	125,809

(a) Civil, tax and labor claims

(i) As of December 31, 2013, the provisions related to civil claims include R\$67,480 related to lawsuits in which the Company is included as successor in enforcement actions and in which the original debtor is a former shareholder of Gafisa, Cimob Companhia Imobiliária ("Cimob"), among other companies. The plaintiff understands that the Company should be liable for the debts of Cimob. Some lawsuits, amounting to R\$13,784, are backed by guarantee insurance. In addition, there are judicial deposits amounting to R\$48,823, and there is also the restriction referring to the use of Gafisa's treasury stock to guarantee the enforcement as well (Note 19.1).

The Company is filing appeals against all decisions, as it considers that the inclusion of Gafisa in the claims is legally unreasonable; these appeals aim at releasing amounts and obtaining the recognition that it cannot

be held liable for the debt of a company that does not have any relationship with Gafisa. The final decision on the Company's appeal, however, cannot be predicted at present.

As of December 31, 2013, the Company and its subsidiaries have deposited in court the amount of R\$95,343 (R\$101,456 in 2012) in the Company's statements and R\$127,405 (R\$130,371 in 2012) in the consolidated statement (Note 7) in connection with the previously mentioned legal claims.

(ii) The former subsidiary AUSA, current associate, is a party to legal and administrative claims related to Excise Tax (IPI) and State VAT (ICMS) on two imports of aircraft in 2001 and 2005, respectively, under leasing agreements without purchase option. The likelihood of loss in the ICMS was revised and considered by the attorneys responsible for the claims as possible.

Gafisa S.A.

December 31, 2013

(Amounts in thousands of Reais, except as otherwise stated)

17. Provisions for legal claims and commitments --Continued

(a) Civil, tax and labor claims --Continued

According to the negotiation of the sale of controlling interest of 70% in AUSA to Private Equity AE Investimentos e Participações S.A., it was agreed in the purchase and sale contract that the Company would cover the court costs in the event of unfavorable decision. The contingency amount considered by the legal advisor as possible, totals R\$15,925 as of December 31, 2013 (R\$12,327 in 2012, classified as likelihood of probable loss).

(iii) Environmental risk

There are various environmental laws at the federal, state and municipal levels. These environmental laws may result in delays for the Company in connection with adjustments for compliance and other costs, and impede or restrict ventures. Before acquiring land, the Company assesses all necessary and applicable environmental issues, including the possible existence of hazardous or toxic materials, residual substance, trees, vegetation and the proximity of the land to permanent preservation areas. Therefore, before acquiring land, the Company obtains all governmental approvals, including environmental licenses and construction permits.

In addition, environmental legislation establishes criminal, civil and administrative sanctions to individuals and legal entities for activities considered as environmental infringements or offense. The penalties include the stop of development activities, loss of tax benefits, confinement and fines.

(Amounts in thousands of Reais, except as otherwise stated)

17. Provisions for legal claims and commitments --Continued

(iv) Lawsuits in which likelihood of loss is rated as possible

In addition, as of December 31, 2013, the Company and its subsidiaries are aware of other claims and civil, labor and tax risks. For purposes of improving the presentation and comparability of legal claims, the Company reviewed the criteria for estimating possible claims, according to the history of probable processes and the specific analysis of main claims. According to the criterion, the likelihood of loss considered possible amounted to R\$435,046 (R\$228,548 in 2012), based on average past outcomes adjusted to current estimates, for which the Company's Management believes it is not necessary to recognize a provision for occasional losses. The change in the period was caused by the higher volume of lawsuits with smaller amounts and review of the involved amounts and civil claims related to, among others, the discussion on the building of venture and contractual cancellation of acquired land.

	Company		Consolidated	
	2013	2012	2013	2012
		(restated)		(restated)

	139,501	122,251	435,046	228,548

(b) Payables related to the completion of real estate ventures

The Company and its subsidiaries are committed to deliver real estate units that will be built in exchange for the acquired land, and to guarantee the granting of financing, in addition to guaranteeing the

installments of the financing to clients over the construction period.

The Company is also committed to completing units sold and to comply with the Laws regulating the civil construction sector, including the obtainment of licenses from the proper authorities, and compliance with the terms for starting and delivering the ventures, being subject to legal and contractual penalties.

As of December 31, 2013, the Company and its subsidiaries have restricted cash which will be released at the extent the guarantee indexes described in Note 4.2 are met, which include land and receivables pledged in guarantee of 120% of the debt outstanding.

(Amounts in thousands of Reais, except as otherwise stated)

17. Provisions for legal claims and commitments --Continued(c) Commitments

In addition to the commitments mentioned in Notes 6, 12 and 13, the Company has the following other commitments:

(i) The Company has contracts for the rental of 29 properties where its facilities are located, the monthly cost amounting to R\$1,066 adjusted by the IGP-M/FGV variation. The rental term is from 1 to 10 years and there is a fine in case of cancelled contracts corresponding to three-month rent or in proportion to the contract expiration time.

(ii) As of December 31, 2013, the Company, through its subsidiaries, has long-term obligations in the amount of R\$20,163 (R\$163 in 2012), related to the supply of the raw material used in the development of its real estate ventures.

18. Payables for purchase of properties and advances from customers

19. Equity**19.1. Capital**

As of December 31, 2013, the Company's authorized and paid-in capital amounts to R\$2,740,662 (R\$2,735,794 in 2012), represented by 435,559,201 (433,229,779 in 2012) registered common shares, without par value, of which 19,099,486 were held in treasury.

According to the Company's articles of incorporation, capital may be increased without need of making amendment to it, upon resolution of the Board of Directors, which shall set the conditions for issuance until the limit of 600,000,000 (six hundred million) common shares.

In 2013, 10,000,000 shares of the First Program and 8,500,000 of the Second Program were acquired in the market, totaling 18,500,000 shares held in treasury through the repurchase program of shares issued by the Company and the subsidiary Tenda (Note 9).

19.2. Allocation of profit (loss) for the year

According to the Company's by-laws, profit for the year is allocated as follows: (i) 5% to legal reserve, reaching up to 20% of capital stock or when the legal reserve balance plus that of capital reserves is in excess of 30% of capital stock, and (ii) 25% of the remaining balance to pay mandatory dividends.

On December 20, 2013, the distribution of interest on equity was approved, charging the account of profit for this year, in the gross amount of R\$130,192.

The Board of Directors, by referendum of the Annual Shareholders' Meeting, shall examine the accounts and financial statements related to the year 2013.

Gafisa S.A.

Notes to the individual and consolidated financial statements--Continued

December 31, 2013

(Amounts in thousands of Reais, except as otherwise stated)

19. Equity --Continued**19.2. Allocation of profit (loss) for the year --Continued**

Net income for 2013	867,443
(-) Absorption of accumulated losses balance	(235,582)
(-) Legal reserve (5%)	(31,593)
(=) Calculation basis	600,268
Minimum mandatory dividend (25%)	150,067
Interest on equity declared for the year (i)	130,192
(-) Withholding income tax (IRRF) on interest on equity	(13,045)
Dividend to be declared	32,920
(-) Reserve for investments	437,156
Minimum mandatory dividend per share in Reais	0.3603

(i) As permitted by the legislation and provided for in the By-laws of the Company, the distribution of interest on equity (JCP), calculated based on the long-term interest rate (TJLP), which is deductible for purposes of income tax, when distributed, can be considered as a portion of minimum mandatory dividends. The net amount of R\$117,147 related to the JCP was settled on February 12, 2014.

According to Article 47 of the By-laws of the Company, it is mandatory to set up a reserve for investments. As provided for in said article, the recognition of said reserve should be at an amount not in excess of 71.25% of net income, with the purpose of financing the expansion of the operations of the Company and

its subsidiaries, including through the subscription of capital increases or creation of new ventures, participation in consortia or other types of agreement for carrying out the corporate purpose.

As of December 31, 2013, the retained earnings reserve was set up as provided for in Article 196 of Law 6,404/76, with the purpose of allocating it to future investments, in the amount of R\$437,156. The retention for 2013 is in line with the business plan approved by the Board of Directors of the Company.

19.3. Stock option plan

Expenses for granting stocks recorded under the account "General and administrative expenses" (Note 24) in the years ended December 31, 2013 and 2012, are as follows:

	2013	2012
Gafisa	17,263	(restated) 18,319
Tenda	156	580
	17,419	18,899
Alphaville		8,740
		27,639

(i) Gafisa

The Company has a total of four stock option plans comprising common shares, launched in 2010, 2011, 2012 and 2013, which follow the rules established in the Stock Option Plan of the Company.

The granted options entitle their holders (employees) to purchase common shares of the Company's capital, after periods that vary from one to five years of employment in the Company (essential condition to exercise the option), and expire ten years after the grant date.

Changes in the stock options outstanding in the years ended December 31, 2013 and 2012, including the respective weighted average exercise prices are as follows:

	2013		2012	
	Number of options	Weighted average exercise price (Reais)	Number of options	Weighted average exercise price (Reais)
Options outstanding at the beginning of the year	9,742,400	1.32	16,634,974	9.81
Options granted	5,383,627	1.86	7,639,048	1.66
Options exercised (i)	(2,329,422)	2.09	(530,220)	3.09
Options substituted	-	-	(9,264,253)	8.28
Options expired	-	-	(579,774)	8.49
Options forfeited	(888,477)	0.39	(4,157,375)	7.58
Options outstanding at the end of the period	11,908,128	1.47	9,742,400	1.32
Vested options at the end of the year	-	-	-	-

(i) In the year ended December 31, 2013, the amount received through exercised options was R\$4,867 (R\$1,637 in the year ended 2012).

Gafisa S.A.

(Amounts in thousands of Reais, except as otherwise stated)

19. Equity --Continued**19.3. Stock option plan -- Continued**

As of December 31, 2013, the stock options outstanding and exercisable are as follows:

Number of options	Outstanding options		Exercisable options	
	Weighted average contractual life (years)	Weighted average exercise price (R\$)	Number of options	Weighted average exercise price (R\$)
11,908,128	8.76	2.76	-	-

During the year ended December 31, 2013, the Company granted 5,383,627 options in connection with its stock option plan comprising common shares (7,639,048 options granted in 2012).

The fair value of the new options granted in 2013 totaled R\$11,048 (R\$11,063 in 2012 related to the new options granted and R\$4,277 of incremental value related to the options that were substituted) which was determined based on the following assumptions:

	2013		2012	
	Binomial	MonteCarlo	Binomial	MonteCarlo
Pricing model				
Exercise price of options (R\$)	R\$ 4.05	R\$4.08 e R\$0.01	R\$2.73	R\$2.73 e R\$0.01
Weighted average price of options (R\$)	R\$ 4.05	R\$ 1.11	R\$2.73	R\$0.73

Expected volatility (%) – (*)	40%	40%	40%	40%
Expected option life (years)	12.43 years	2.45 years	11.03 years	1.97 year
Dividend income (%)	1.90%	1.90%	1.90%	1.90%
Risk-free interest rate (%)	7.23%	7.23%	7.85%	7.85%

(*)The volatility was determined based on regression analysis of the ratio of the share volatility of the parent company, Gafisa S.A., to the Ibovespa index.

(ii) Tenda

Due to the acquisition by Gafisa of the total shares outstanding issued by Tenda, the stock option plans related to Tenda shares were transferred to Gafisa, responsible for share issuance. As of December 31, 2013, the amount of R\$14,939 (R\$14,784 in 2012), related to the reserve for granting options of Tenda is recognized under the account "Related Parties" of Gafisa.

Notes to the individual and consolidated financial statements--Continued

December 31, 2013

(Amounts in thousands of Reais, except as otherwise stated)

20. Income and social contribution taxes --Continued(ii) Deferred income and social contribution taxes

The Company recognized tax assets on tax losses and income and social contribution taxes carryforwards for prior years, which have no expiration, and for which offset is limited to 30% of annual taxable profit, to the extent the taxable profit is likely to be available for offsetting temporary differences, based on the assumptions and conditions established in the business model of the Company.

The initial recognition and subsequent estimates of deferred income tax are carried out when it is probable that a taxable profit for the following years will be available to be used to offset the deferred tax asset, based on projections of results prepared and underlain by internal assumptions and future economic scenarios that enable its total or partial use should a full credit be recognized. As of December 31, 2013 and 2012, the Company did not recognize any deferred tax assets calculated on the tax loss.

As of December 31, 2013 and 2012, deferred income and social contribution taxes are from the following sources:

	Company			Consolidated		
	2013	2012	01/01/2012	2013	2012	01/01/2012

21. Financial instruments

The Company and its subsidiaries participate in operations involving financial instruments. These instruments are managed through operational strategies and internal controls aimed at liquidity, return and safety. The use of financial instruments with the objective of hedging is made through a periodical analysis of exposure to the risk that the management intends to cover (exchange, interest rate, etc.) which is submitted to the corresponding Management bodies for approval and performance of the proposed strategy. The policy on control consists of permanently following up the contracted conditions in relation to the conditions prevailing in the market. The Company and its subsidiaries do not invest for speculation in derivatives or any other risky assets. The result from these operations is consistent with the policies and strategies devised by Company management. The Company and its subsidiaries operations are subject to the risk factors described below:

(i) Risk considerations

a) *Credit risk*

The Company and its subsidiaries restrict their exposure to credit risks associated with cash and cash equivalents, investing in financial institutions considered highly rated and in short-term securities.

With regards to account receivable, the Company restricts its exposure to credit risks through sales to a broad base of customers and ongoing credit analysis. Additionally, there is no history of losses due to the existence of secured guarantee for the recovery of its products in the cases of default during the construction period. As of December 31, 2013 and 2012, there was no significant credit risk concentration associated with clients.

Notes to the individual and consolidated financial statements--Continued

December 31, 2013

(Amounts in thousands of Reais, except as otherwise stated)

21. Financial instruments --Continued

(i) Risk considerations --Continued

b) *Derivative financial instruments*

The Company adopts the policy of participating in operations involving derivative financial instruments with the objective of mitigating or eliminating currency, index and interest rate risks to its operations, when considered necessary.

The Company holds derivative instruments to mitigate the risk arising from its exposure to index and interest volatility recognized at their fair value in profit or loss for the year. Pursuant to its treasury policies, the Company does not own or issue derivative financial instruments other than for hedging purposes.

As of December 31, 2013, the Company had derivative contracts for hedging purposes in relation to interest fluctuations, with final maturity from June 2014 and June 2017. The derivative contracts are as follows:

During the year ended December 31, 2013, the amount of R\$5,103 (R\$6,151 in 2012) in the Company's statements and in the consolidated statements, which refers to net result of the interest swap transaction, was recognized in the "financial income" line in the statement of profit or loss for the year, allowing correlation between the impact of such transactions and interest rate fluctuation in the Company's balance sheet (Note 25).

The estimated fair value of derivative financial instruments contracted by the Company was determined based on information available in the market and specific evaluation methodologies. However, considerable judgment was necessary for interpreting market data to produce the estimated fair value of each transaction. Accordingly, the estimates above do not necessarily indicate the actual amounts to be realized upon the financial settlement of transactions.

Gafisa S.A.

Notes to the individual and consolidated financial statements--Continued

December 31, 2013

(Amounts in thousands of Reais, except as otherwise stated)

21. Financial instruments--Continued

(i) Risk considerations --Continued

c) *Interest rate risk*

Interest rate risk arises from the possibility that the Company and its subsidiaries earn gains or incur losses because of fluctuations in the interest rates of its financial assets and liabilities. Aiming to mitigate this kind of risk, the Company and its subsidiaries seek to diversify funding in terms of fixed and floating rates. The interest rates on loans, financing and debentures are disclosed in Notes 12 and 13. The interest rates contracted on financial investments are disclosed in Note 4. Accounts receivable from real estate units completed (Note 5), are subject to annual interest rate of 12%, appropriated on a *pro rata* basis.

d) *Liquidity risk*

Liquidity risk refers to the possibility that the Company and its subsidiaries do not have sufficient funds to meet their commitments in view of settlement terms of their rights and obligations.

To mitigate liquidity risk, and to optimize the weighted average cost of capital, the Company and its subsidiaries constantly monitor the indebtedness levels according to the market standards and the fulfillment of covenants provided for in loan, financing and debenture agreements, in order to guarantee that the operating-cash generation and the advance funding, when necessary, are sufficient to stick to the schedule of commitments, not posing liquidity risk to the Company or its subsidiaries (Notes 12 and 13).

The maturities of financial instruments, loans, financing, suppliers, payables to venture partners and debentures are as follows:

Fair value classification

The Company uses the following classification to determine and disclose the fair value of financial instruments by the valuation technique:

Level 1: quoted prices (without adjustments) in active markets for identical assets or liabilities;

Level 2: input different from the quoted prices in active markets included in Level 1, which are observable, directly (as prices) or indirectly (derived prices); and

Level 3: inputs to asset or liability not based on observable market data (nonobservable inputs).

Suppliers	-	44,484	-	-	154,763	-

In the years ended December 31, 2013 and 2012 there were not any transfers between the Levels 1 and 2 fair value valuation, nor transfers between Levels 3 and 2 fair value valuation.

(ii) Fair value of financial instrumentsa) *Fair value measurement*

219,179

229

The following estimate fair values were determined using available market information and proper measurement methodologies. However, a considerable amount of judgment is necessary to interpret market information and estimate fair value. Accordingly, the estimates presented in this document are not necessarily indicative of amounts that the Company could realize in the current market. The use of different market assumptions and/or estimates methodology may have a significant effect on estimated fair values.

The following methods and assumptions were used in order to estimate the fair value for each financial instrument type for which the estimate of values is practicable.

December 31, 2013

(Amounts in thousands of Reais, except as otherwise stated)

21. Financial instruments --Continued(ii) Fair value of financial instruments -- Continueda) *Fair value measurement* --Continued

(i) The amounts of cash and cash equivalents, short-term investments, accounts receivable and other receivables, suppliers, and other current liabilities approximate to their fair values, recorded in the financial statements.

(ii) The fair value of bank loans and other financial debts is estimated through future cash flows discounted using rates that are annually available for similar and outstanding debts or terms.

The main consolidated carrying amounts and fair values of financial assets and liabilities at December 31, 2013 and 2012 are as follows:

	Company			
	2013		2012	
	Carrying amount	Fair value	Carrying amount	Fair value

(ii) Fair value of financial instruments -- Continued

a) *Risk of debt acceleration*

As of December 31, 2013, the Company has loans and financing in effect, with restrictive covenants related to cash generation, indebtedness ratio and other. These restrictive covenants have been complied with by the Company and do not limit its ability to conduct its business as usual.

b) *Market risk*

The Company carries out the development, construction and sales of real estate ventures. In addition to the risks that affect the real estate market as a whole, such as supply disruptions and volatility in the prices of construction materials and equipment, changes in the supply and demand for ventures in certain regions, strikes and environmental rules and zoning, the Company's operations are particularly affected by the following risks:

- The state of the economy of Brazil, which may inhibit the development of the real estate industry as a whole, through the slowdown in economy, increase in interest rates, fluctuation of currency and political instability, besides other factors.

- Impediment in the future, as a result of a new regulation or market conditions, to adjust for inflation receivables using certain inflation indexes, as currently permitted, which could make a venture financially or economically unviable.
- The level of interest of buyers in a new venture launched or the sale price per unit necessary to sell all units may be below expectations, making the venture less profitable than expected.
- In the event of bankruptcy or significant financial difficulties of a large company of the real estate industry, the industry as a whole may be adversely affected, which could decrease the customer confidence in other companies operating in the industry.

(Amounts in thousands of Reais, except as otherwise stated)

21. Financial instruments --Continued

(ii) Fair value of financial instruments -- Continued

b) Market risk -- Continued

- Local and regional real estate market conditions, such as oversupply, land shortage or significant increase in land acquisition cost.
- Risk of buyers having a negative perception of the security, convenience and activities of the Company's properties, as well as about their location.
- The Company's profit margins may be affected by the increase in operating costs, including investments, insurance premium, real estate taxes and government rates.
- The opportunities for development may decrease.
- The building and sale of real estate units may not be completed as scheduled, thus increasing the construction costs or cancelled contracts of sale contracts.
- Delinquency after the delivery of units acquired on credit. The Company has the right to file a collection action to receive the amounts due and/or repossess the real estate unit from the delinquent buyer, not being possible to guarantee that it will be able to recover the total amount of the debt balance or, once the real estate unit is repossessed, its sale in satisfactory conditions.
- Occasional change in the policies of the National Monetary Council (CMN) on the investment of funds in the National Housing System (SFH) may reduce the supply of financing to customers.

- Drop in the market value of land held in inventory, before the development of a real estate venture to which it was intended, and the incapacity to maintain the margins that were previously projected for such developments.

(Amounts in thousands of Reais, except as otherwise stated)

21. Financial instruments --Continued

(iv) Sensitivity analysis --Continued

As of December 31, 2013 and 2012, the Company has the following financial instruments:

- a) Short-term investments, loans and financing, and debentures linked to Interbank Deposit Certificates (CDI);
- b) Loans and financing and debentures linked to the Referential Rate (TR) and CDI, and debentures indexed to the CDI, IPCA and TR;
- c) Trade accounts receivable, linked to the National Civil Construction Index (INCC).

For the sensitivity analysis of the interest rates of investments, loans and accounts receivables, the Company considered a CDI rate of 9.78%, a TR of 0.31%, a INCC rate of 8.09%, a General Market Prices Index (IGP-M) of 5.46% and a National Consumer Price Index – Extended (IPCA) of 5.73%.

The scenarios considered were as follows:

Scenario I: 50% increase in the risk variables used for pricing

Scenario II: 25% increase in the risk variables used for pricing

Scenario III: 25% decrease in the risk variables used for pricing

Scenario IV: 50% decrease in the risk variables used for pricing

- (a) Refers to operations in third-party's works.
- (b) Refers to transactions between the consortia leader, partners and condominiums.
- (c) The Company participates in the development of real estate ventures with other partners, directly or through related parties, based on the formation of condominiums and/or consortia. The management structure of these ventures and the cash management are centralized in the lead partner of the venture, which manages the construction schedule and budgets. Thus, the lead partner ensures that the investments of the necessary funds are made and allocated as planned. The sources and use of resources of the venture are reflected in these balances, observing the respective interest of each investor, which are not subject to indexation or financial charges and do not have a fixed maturity date. Such transactions aim at simplifying business relations that demand the joint management of amounts reciprocally owed by the involved parties and, consequently, the control over the change of amounts reciprocally granted which offset against each other at the time the current account is closed. The average term for the development and completion of the ventures in which the resources are invested is between 24 and 30 months. The Company receives a compensation for the management of these ventures.

Gafisa S.A.

Notes to the individual and consolidated financial statements--Continued

December 31, 2013

(Amounts in thousands of Reais, except as otherwise stated)

26. Transactions with management and employees --Continued

(i) Management compensation--Continued

The maximum aggregate compensation of the Company's management and Fiscal Council for the year 2013 was established at R\$18,586, as approved at the Annual Shareholders' Meeting held on April 19, 2013.

(ii) Sales

In the year ended December 31, 2013, the total sales of units sold in 2013 to the Management is R\$3,915 (R\$3,817 in 2012) and the total receivables is R\$5,845 (R\$5,471 in 2012).

(iii) Profit sharing

The Company has a profit sharing plan that entitles its employees and management members, and those of its subsidiaries to participate in the distribution of profits the Company.

This plan is tied to the achievement of specific targets, established, agreed-upon and approved by the Board of Directors at the beginning of each year.

In the year ended December 31, 2013 the Company recorded a provision for profit sharing amounting to R\$35,886 in the Company's statement (R\$29,433 in 2012) and R\$59,651 in the consolidated statement (R\$47,709 in 2012), in the account "General and Administrative Expenses" (Note 24).

Consolidated	2013	2012
		(restated)
Statutory Board	11,615	13,624
Other collaborators	48,036	50,387
	59,651	64,011
(-) Operations for sale		(16,302)
		47,709

Profit sharing is calculated and reserved based on the achievement of the Company's targets for the period. After the end of the year, an assessment of the achievement of the Company's targets is carried out, as well as of the collaborators, and the payment shall be made in April 2014.

Gafisa S.A.

Notes to the individual and consolidated financial statements--Continued

December 31, 2013

(Amounts in thousands of Reais, except as otherwise stated)

26. Transactions with management and employees --Continued

(iii) Profit sharing--Continued

As shown in the previous tables and paragraphs, the aggregate compensation of Management and Fiscal Council members of the Company is according to the limit approved at the Annual Shareholders' Meeting, held on April 19, 2013, corresponding to R\$18,586.

27. Insurance

Gafisa S.A. and its subsidiaries maintain insurance policies against engineering risk, barter guarantee, guarantee for the completion of the work and civil liability related to unintentional personal damages caused to third parties and material damages to tangible assets, as well as against fire hazards, lightning strikes, electrical damages, natural disasters and gas explosion. The contracted coverage is considered sufficient by management to cover possible risks involving its assets and/or responsibilities.

The liabilities covered by insurance and the respective amounts as of December 31, 2013 are as follows:

Insurance type	Coverage – R\$ thousand
Engineering risks and guarantee for completion of work	1,901,210
Policy outstanding	500
2,805,086	257

Civil liability (Directors and Officers – D&O)

117,130
2,018,840

The assumptions adopted, given their nature, are not included in the scope of the audit of financial statements. Accordingly, they were not audited by our independent public accountants.

129

Notes to the individual and consolidated financial statements--Continued

December 31, 2013

(Amounts in thousands of Reais, except as otherwise stated)

28. Earning and loss per share

In accordance with CPC 41, the Company shall present basic and diluted loss per share. The comparison data of basic and diluted earnings/loss per share shall be based on the weighted average number of shares outstanding for the year, and all dilutive potential shares outstanding for each year presented, respectively.

Diluted earnings per share is computed similarly to basic earnings per share except that the outstanding shares are increased to include the number of additional shares that would have been outstanding if the potential dilutive shares attributable to stock options and redeemable shares of noncontrolling interest had been issued during the respective periods, utilizing the weighted average stock price.

The following table shows the calculation of basic and diluted profit and loss per share. In view of the losses for the year ended December 31, 2012, shares with dilutive potential are not considered, because the impact would be antidilutive.

	2013	2012
Basic numerator		(restated)
Proposed dividends and interest on capital	150,067	-
Undistributed profit (loss)	717,376	(127,043)

29. Segment information

The Company's management assesses segment information on the basis of different business segments rather than based on the geographical regions of operations.

The Company operates in the following segments: Gafisa for ventures targeted at high and medium income and Tenda, for ventures targeted at low income. With the sale of the controlling interest in AUSA (Note 1), the segment of land subdivisions is no longer assessed by the Company's management.

The Company's chief executive officer, who is responsible for allocating resources to businesses and monitoring their progress, uses economic present value data, which is derived from a combination of historical and forecasted operating results. The Company provides below a measure of historical profit or loss, segment assets and other related information for each reporting segment.

Segment information does not segregate operating expenses. No revenues from an individual client represented more than 10% of net sales and/or services.

	Gafisa S.A.	Tenda	Consolidated 2013

30. Real estate ventures under construction – information and commitments

In order to enhance its notes and in line with items 20 and 21 of ICPC 02, the Company describes below some information on ventures under construction as of December 31, 2013:

30.1 The contracted sales revenue deducted from the appropriated sales revenue is the unappropriated sales revenue (net revenue calculated by the continuous transfer approach, according to Guideline OCPC 04). The unappropriated sales revenue of ventures under construction plus the accounts receivable of completed ventures plus the advance from customers less cumulative receipts, comprise the receivables from developments, as follows:

Ventures under construction:	
Contracted sales revenue (*)	4,844,322
Appropriated sales revenue (A) (**)	(3,028,182)
Unappropriated sales revenue (B) (*)	1,816,140
Completed ventures (C)	1,179,400
Cumulative receipts (D) (**)	(1,904,922)

132

Gafisa S.A.

Notes to the individual and consolidated financial statements--Continued

December 31, 2013

(Amounts in thousands of Reais, except as otherwise stated)

30. Real estate ventures under construction – information and commitments --Continued

Advances from customers	
Appropriated revenue surplus (Note 18) (E)	54,316
Total accounts receivable from developments (Note 5)	
	2,356,976
(-A+C+D+E)	

(*)Information other than accounting considered in the scope of independent auditors only to support the conclusion on the appropriated sales revenue recognized using the percentage-of-completion method (PoC).

(**)Amounts stated cumulatively. Accordingly, they do not reflect the impacts on the statement of profit or loss for the year.

The information on unappropriated sales revenue and contracted sales revenue does not include ventures that are subject to restriction due to a suspensive clause, the legal period of 180 days in which the Company can cancel a development and therefore is not appropriated to the profit or loss.

The real estate development revenue from units sold and under construction of real estate development is appropriated to profit or loss over the construction period of ventures, in compliance with the requirements of item 14 of CPC 30 – Revenue. The procedures adopted in the appropriation to profit or loss over the construction period are described in Note 2 – Presentation of Financial Statements and summary of main accounting practices.

30.2 As of December 31, 2013, the total cost incurred and to be incurred in connection with units sold or in inventory, estimated until the completion of ventures under construction, is as follows:

Ventures under construction:

Incurring cost of units in inventory (Note 6)	737,579
Estimated cost to be incurred with units in inventory (*)	915,321
Total estimated cost incurred and to be incurred with units in inventory (a)(F)	1,652,900
Estimated cost of units sold (*) (G)	3,446,839
Incurring cost of units sold (H) (**)	(2,124,764)
Unappropriated estimated cost of units sold (*) (I)	1,322,075
Total cost incurred and to be incurred (F+G)	5,099,739

133

Gafisa S.A.

Notes to the individual and consolidated financial statements--Continued

December 31, 2013

(Amounts in thousands of Reais, except as otherwise stated)

30. Real estate ventures under construction – information and commitments--Continued

(a) The amount of R\$307,465 refers to units of cancelled developments not yet cancelled with the respective customers.

(*)Information other than accounting considered in the scope of independent auditors only to support the conclusion on the appropriated sales revenue recognized using the percentage-of-completion method (PoC).

(**)Amounts stated cumulatively. Accordingly, they do not reflect the impacts on the statement of profit or loss for the year.

30.3 As of December 31, 2013, the estimated profit to be earned until the completion of ventures under construction in connection with units sold is as follows:

Unappropriated sales revenue (B)	1,816,140
Unappropriated barter for land	183,995
	2,000,135
Unappropriated cost of units sold (I)	(1,322,075)
Estimated profit	678,060

Information other than accounting considered in the scope of independent auditors only to support the conclusion on the appropriated sales revenue recognized using the percentage-of-completion method (PoC). The estimated profit shown does not consider the tax effects or the present value adjustment, and the costs of lands, financial charges and guarantees, which will be carried out as at the extent they are

realized.

30.4 As of December 31, 2013, the retained profit of ventures under construction in connection with units sold is as follows:

Appropriated sales revenue (A) (**)	3,028,182
Appropriated barter for land (**)	104,861
	3,133,043
Incurring cost of units sold (H) (**)	(2,124,764)
Profit (**)	1,008,279

(**)Amounts stated cumulatively. Accordingly, they do not reflect the impacts on the statement of profit or loss for the year.

30. Real estate ventures under construction – information and commitment --Continued

The above profit is gross of taxes and present value adjustment (AVP).

30.5 The Company shows below a table of the percentage of asset related to the Company's ventures that are included in the structures of equity segregation of the purchase as of December 31, 2013.

	2013
Total assets included in the structures of equity segregation of the purchase (*)	8,176,366
Total consolidated assets	8,183,030
Percentage	99.92%

(*Total assets of the Company, except for the Gafisa Vendas subsidiary, a company that sells the ventures of Gafisa. Regarding the ventures of subsidiaries, the follow-up of the cash and cash equivalents and corporate debts are carried out through the National Corporate Taxpayers' Registry (CNPJ) of the company and not separately by venture.

31. Communication with regulatory bodies

a) On June 14, 2012, the Company received a subpoena from the Securities Exchange Commission's Division of Enforcement related to the Matter of Certain 20-F Filer Home Builders listed at SEC, Foreign Private Issuers (FPI). The subpoena requests that the Company produce all documents from January 1, 2010 to July 10, 2012, the Company's reply date related to the preparation of our financial statements, including, among other things, copies of our financial policies and procedures, board and audit committee

and operations committee minutes, monthly closing reports and financial packages, any documents relating to possible financial or accounting irregularities or improprieties and internal audit reports. The SEC's investigation is a non-public, fact-finding inquiry and is not clear what action, if any, the SEC intends to take with respect to the information it gathers. The SEC subpoena does not specify any charges. The Company has already submitted all the information requested by SEC, which as of the publication of this financial statements has not issued any opinion.

32. Additional Information

On November 11, 2013 the Provisional Measure 627 (MP 627/13) was published, amending the federal tax legislation on corporate income tax (IRPJ), social contribution on net income (CSLL), contribution to the social integration program (PIS) and tax for social security financing (COFINS). MP 627/13 provides for the following, among other matters:

- Revocation of the Transitory Tax Regime (RTT), established by Law 11.941, of May 27, 2009;
- Taxation of distributed or declared dividends in excess of the amount recorded in the tax balance sheet.

Considering that said MP 627 has a significant number of proposed amendments and that the Federal Revenue of Brazil shall, according to said MP, rule on several matters, it is possible that some of its provisions will be amended and/or clarified. Although MP 627 enters into effect on January 1, 2015, there is the possibility of opting (irreversibly) for its application as of January 1, 2014. Management does not have the intention of opting for the early adoption. However, based on the wording in effect, we estimate that said MP 627/13 does not produce significant accounting effects on the financial statements of the Company.

33. Subsequent events

On February 7, 2014, the Company disclosed a material fact informing to its shareholders and the market in general that its Board of Directors authorized the Company's management to begin studies aimed at a potential separation of the Gafisa and Tenda business units into two publicly-held and independent companies in order to reinforce the creation of value to the Company and its shareholders. Rothschild is the financial advisor of the Company in this process. In case the plan is approved by the Board of Directors and shareholders, this transaction could be completed throughout 2015, with request to the Brazilian Securities Exchange Commission (CVM) for conversion of the registry of Tenda into A category, as publicly-held company authorized to trade its share in stock exchange, and its listing in the Novo Mercado of BM&FBOVESPA.

Gafisa S.A.

Notes to the individual and consolidated financial statements--Continued

December 31, 2013

(Amounts in thousands of Reais, except as otherwise stated)

OUTLOOK

Fourth quarter launches totaled R\$1.6 billion, an 8.7% increase over 4Q12, and a significant increase in comparison with launches of R\$498.3 million in 3Q13. For 2013, total launches were R\$2.9 billion, a slight 2.2% decrease compared to 2012. The 2013 total was within the guidance range established by the Company.

Table 44. Guidance - Launches (2013)

Consolidated Launches	R\$2.7 – R\$3.3 bi	2.9	97%
Breakdown by Brand			
Gafisa Launches	R\$1.15 – R\$1.35 bi	1.1	88%
Alphaville Launches	R\$1.3 – R\$1.5 bi	1.5	107%
Tenda Launches	R\$250 – R\$450 mn	339	97%

As explained in this report, 2013 was also impacted by the resolution of Tenda and Gafisa legacy projects. As the contribution of these projects reduced throughout the year, the Company achieved results consistent with normalized operations, reaching an EBITDA margin adjusted by operational impacts from Alphaville of 17.4%.

Table 45. Guidance - Adjusted EBITDA Margin (2013E)

Consolidated Data	12% - 14%	17.4%	173%
-------------------	-----------	-------	------

Note: The EBITDA margin presented in the guidance and for 2013 in this table is pro forma, and excludes the IFRS adjustments and the result of Alphaville transaction.

Consolidated 2013 delivery guidance was for deliveries between 13,500 and 17,500 units, with individual projections by business unit. During 2013, the Company delivered 13,842 units, reaching 89% of the mid-range of full-year guidance. Gafisa was responsible for delivering 22 projects/phases and 4,315 units, Tenda delivered 41 projects/phases and 7,027 units, while Alphaville delivered 5 projects and the remaining 2,500 units. The deviation from Alphaville's projected guidance relates to delays in getting final documentation for the delivery of units.

Table 46. Other Relevant Indicators – Delivery Estimates

Consolidated Amounts	13,500 – 17,500	13,842	89%
Deliveries by Brand			
# Gafisa Delivery	3,500 – 5,000	4,315	102%
# Alphaville Delivery	3,500 – 5,000	2,500	59%
# Tenda Delivery	6,500 – 7,500	7,027	101%

Based on the new configuration of Gafisa's portfolio, the Company finalized a new business plan for the five-year period from 2014 to 2018. The budget process took into account important assumptions and guidelines for the development of projects in the coming years. These include the expected size of Gafisa and Tenda's operations, the amount of capital allocated to each operation, the appropriate level of leverage for the Company's operations, the respective expected returns for each business unit, and, in particular, the Company's commitment to capital discipline and shareholder value generation.

2014 launch guidance ranges from R\$2.1 to R\$2.5 billion, reflecting the Gafisa segment's continued regional focus and the expansion of Tenda's new business model.

Launch Guidance (2014E)

Table 47 - Guidance - Launches (2014E)

Consolidated Launches	R\$2.1 – R\$2.5 bi
Breakdown by brand	
Gafisa Launches	R\$1.5 – R\$1.7 bi
Tenda Launches	R\$600 – R\$800 mn

With the completion of the sale of the Alphaville stake in the last quarter of the year, the Company enters 2014 with a solid liquidity position. As disclosed in this release, following the completion of the transaction, the Company's Net Debt/Equity ratio reached 36.1% at the end of 4Q13. Given this scenario, and considering the Company's business plan for 2014, the Company expects leverage to remain between 55% - 65%, measured by the same Net Debt/Equity ratio.

Table 48 - Guidance - Leverage (2014E)

Consolidated Data	55% - 65% Net Debt / Equity

The Company is also providing guidance as to the adequacy of its administrative structure. The ratio between administrative expenses and launch volume for the Gafisa segment is expected to reach 7.5% in 2014. Tenda has no guidance for this indicator for 2014, although for 2015 we expect to reach 7.0%.

Table 49. Guidance - Administrative Expenses / Launches Volume (2014E)

Gafisa	7.5%
Tenda	Not Applicable

Table 50. Guidance - Administrative Expenses / Launches Volume (2015E)

Gafisa	7.5%

Tenda	7.0%
-------	------

Finally, the Company defined as a benchmark for profitability the Return on Capital Employed (ROCE), and we expect that in the next three year period, this ratio shall be between 14% - 16% for both the Tenda and Gafisa segments.

Table 51 - Guidance - Return on Capital Employed (3 years)

Gafisa	14% - 16%
Tenda	14% - 16%

FISCAL COUNCIL'S REPORT ON THE FINANCIAL STATEMENTS

The undersigned members of the Fiscal Council of Gafisa S.A. ("Company"), in the performance of the duties assigned to them as established in Article 163 of Law No. 6.404/76, after examining the management report and the financial statements of the Company for the year ended December 31, 2013, and the accompanying Notes and Report of Independent Auditors (the "Documents"), express a favorable opinion on the Documents and are favorable to their approval at the Annual Shareholders' Meeting of the Company to be convened.

The Opinion Report of the Fiscal Council was signed by Olavo Fortes Campos Rodrigues Júnior, Adriano Rudek de Moura and Luis Fernando Brum de Melo. I hereby declare that this document is identical to the original drawn up in the proper book.

São Paulo, February 26th, 2014.

Minutes of the Board of Directors' Meeting held on February 26, 2014

1. Date, Time and Place: On February 26, 2014, at 11 a.m., in the City of São Paulo, State of São Paulo, at Avenida das Nações Unidas 8,501, 19th floor.

2. Call Notice and Attendance: Present all members of the Company's Board of Directors, instatement and approval quorum having been verified.

3. Presiding Board: Chairman: Odair Garcia Senra. Secretary: Renata de Carvalho Fidale.

4. Resolutions: The members of the Board of Directors attending the meeting unanimously and with no restrictions decided:

4.1. As set forth in the terms of Article 142, V, Law 6,404/76 and Article 22 (m) of Company's Bylaws, the Board of Directors recommend the approval, by Company's shareholders, assembled in the annual shareholders' general meeting, of administration report and Company's financial statements related to the fiscal year ended on 12.31.2013, along with explanatory notes and the accounting firm report, which issued an opinion with no reservations, dated as of February 26, 2014.

4.2. Recommend the approval, by Company's shareholders, assembled in the annual shareholders' general meeting, of the following proposal for allocation of net profits concerning the fiscal year ended 12.31.2013:

Allocation of Net Profits

Net profit of the year	R\$867,442,195.74
Accumulated losses	R\$235,581,511.92
Legal reserve	R\$31,593,034.19
Tax incentive reserves (ICMS and Income Tax)	-
Subtotal (i)	R\$600,267,649.63
Mandatory minimum dividends	R\$150,066,912.41
Interest on Capital (gross) (ii)	R\$130,192,023.82

Interest on capital (net)	R\$117,146,996.95
Dividends to Pay (iii)	R\$32,919,915.4568822
Dividends to pay per share (treasury shares excluded)	R\$0.080398423217 per share
Subtotal (i) – (ii) – (iii)	R\$437,155,710.35
Statutory reserve (Article 47, §2º, (c) of Bylaws)	R\$437,155,710.35

4.3. Approve the analysis presented on the perspective of performing the Deferred Income Tax, calculated in accordance to the Business Plan for the year of 2014, as set forth in CVM's Regulation No. 371/02.

4.4. To propose, for deliberation of the annual shareholders' general meeting, that the Board of Directors further establishes the date of payment of the dividends, within the calendar year of 2014, based on the shareholding position of April 25, 2014 (after closing of trading session), for shareholders holding shares negotiated at BM&FBovespa, and of April 30, 2014 for shareholders holding ADRs negotiated at NYSE, with no monetary adjustments. The shares and ADRs will be negotiated ex-dividends as of April 28, 2014.

5. Closing: With no further matters to be discussed, these minutes were prepared, approved and signed by all members of the Board of Directors. **Signatures: Presiding Board:** Odair Garcia Senra (Chairman), Renata de Carvalho Fidale (Secretary); **Board members:** Odair Garcia Senra, Nelson Machado, Guilherme Affonso Ferreira, Maurício Marcellini Pereira, Cláudio José Carvalho de Andrade, José Écio Pereira da Costa Júnior, Gerald Dinu Reiss, Rodolpho Amboss and Henri Philippe Reichstul.

I hereby certify that this is a true copy of the minutes drawn on the respective corporate book.

GAFISA RELEASES 4Q13 AND 2013 RESULTS

FOR IMMEDIATE RELEASE

São Paulo, February 26, 2014

Gafisa S.A. (Bovespa: GFSA3; NYSE: GFA), Brazil's leading diversified national homebuilder, today reported financial results for the quarter and full year ended December 31, 2013.

MANAGEMENT COMMENTS AND 2013 HIGHLIGHTS

The closing of 2013 marks the completion of the Company's strategic repositioning, which commenced in early 2012. Our goal at the time was clear: we needed to reduce the level of debt and restrict the Company's exposure to unprofitable businesses and markets. This process evolved positively throughout the last two years in several fronts - including improvement in margins and cash generation, and culminated with the sale of a 70% stake in Alphaville, which unlocked significant value and contributed to a reduction in the Company's leverage, adjusting its capital structure.

In the beginning of 2012, significant changes took place to our strategic positioning, including the implementation of a new organizational structure, segmented by brand and with individual business heads, along with a redefinition of the way each business unit should perform. Having achieved the targets set for the initial phase of turnaround, and recognizing that cash flow was no longer a priority, we developed a plan for 2013 which sought to better balance cash generation, investment, profitability and deleveraging, in order to begin a new cycle of sustainable growth at the Company.

Gafisa ended 2013 having achieved solid operational and financial results during the period. Launches of R\$1.6 billion in 4Q13 and R\$2.9 billion in 2013 were in line with the full year launch guidance disclosed. Pre-sales of R\$1.3 billion in the fourth quarter and R\$2.6 billion in 2013 demonstrate ongoing healthy demand. Throughout 2013, the reduced operational complexity,

coupled with Gafisa's strategic consolidation and the resumption of Tenda launches, we observed a gradual evolution in the Company's margins. The gross margin reached 31.2% in 2013, compared to 24.4% in 2012 before interests.

Cash generation was a highlight in 2013, and particularly so in the last half of the year. The Company recorded cash generation of R\$667.6 million in 2013 in both the Gafisa and Tenda operations, reaching free cash flow of R\$97.3 million in the period.

The Alphaville transaction represented a cash inflow of R\$1.5 billion and contributed significantly to the 4Q13 net income, which reached R\$921.3 million and resulted in a year-end figure of R\$ 867.4 million. With the proceeds of the transaction, we were able to adjust the Company's capital structure, reducing leverage, and reaching a net debt/equity ratio of 36%.

The proceeds from the completion of the Alphaville transaction are being used to repay approximately R\$700 million in corporate debt scheduled to mature by December 2014. In addition to the reduction in debt, funds were allocated to the remuneration of the Company's shareholders through the payment of approximately R\$130 million in interest on capital in February and an additional R\$32 million in supplementary dividends to be paid in 2014, according to the proposal to be approved by the Annual General Meeting of Shareholders. We also launched a new stock buyback program, underscoring Gafisa's confidence in the Company's value and future prospects.

Finally, at the end of 2013 we finalized the development of our five-year business plan for the period from 2014 to 2018. During the planning process, we set guidelines for the development of our business for years to come, including the expected size of Gafisa and Tenda operations, appropriate leverage, profitability guidelines, and importantly, our commitment to capital discipline and shareholder value generation, which are reflected in the guidance released to the market at the end of 2013.

Gafisa enters 2014 on a strong footing, having benefited from all the initiatives implemented in the last two years. The reduction of our operational complexity, the adequacy of our cost structure and expenses, the new operating model at Tenda and the consolidation of Gafisa's strategic positioning, coupled with the financial flexibility achieved by the sale of a stake in Alphaville, are all important steps in preparing the Company for future challenges.

On February 7, 2014, we announced that the Board is studying a potential separation of the Gafisa and Tenda business units into two public and independent companies. The separation would be the next step in a comprehensive plan initiated by management to enhance and reinforce the ability of each business to generate value. The management team that executed the turnaround process is now set to lead Gafisa and Tenda in a profitable and sustainable manner, as the brands embark on a new phase in the Company's history.

We are confident in our Company's prospects in coming years, and are ready to pursue opportunities to grow and develop the business.

Finally, I would like to remind you that this year Gafisa celebrates its 60th year of operations, a milestone in the history of the Brazilian real estate industry. There have been so many achievements during this time, written in the development of over 1,100 buildings, condominiums and commercial properties, but more important is the intensity, determination and passion that we have to continue to move forward.

Congratulations Gafisa!

Duilio Calciolari

Chief Executive Officer – Gafisa S.A.

CONSOLIDATED FINANCIAL RESULTS

Net revenue recognized by the “PoC” method was R\$704.7 million in the fourth quarter, an expansion of 10.6% compared with the previous year and 12.2% compared to 3Q13. In 2013, net revenue reached R\$2.5 billion.

Gross profit for 4Q13 was R\$222.0 million, up from R\$173.5 million in 3Q13 and from the R\$91.5 million registered in 4Q12. Gross margin rose to 31.5% in the fourth quarter, versus 27.6% in the 3Q13 and 16.1% in the 4Q12. For the year 2013, gross profit totaled R\$617.4 million and gross margin was 24.9%, compared to R\$528.8 million and a gross margin of 18.8% in 2012.

Adjusted EBITDA was R\$978.9 million in the 4Q13 and R\$1,3 billion in 2013, reflecting Alphaville operation. Excluding the result of the Alphaville operations, adjusted EBITDA reached R\$138.9 million in the 4Q13 and R\$430.6 million for the year.

Net income in the 4Q13 was R\$921.3 million and R\$867.4 million in 2013, impacted by the recent sale of Alphaville.

Operating cash generation reached R\$259.1 million in the 4Q13 and R\$667.7 million in 2013, resulting in positive free cash flow of R\$178.0 million in the 4Q13 and R\$97.3 million for the year. Note that this result does not include proceeds from the Alphaville transaction.

CONSOLIDATED OPERATING RESULTS

Launches totaled R\$1.6 billion in the 4Q13, a 224.9% sequential increase and an 8.7% y-o-y rise. Launches for 2013 totaled R\$2.9 billion, a slight drop over 2012. This figure is within the range of 2013 launch guidance of R\$2.7 to R\$3.3 billion.

Consolidated pre-sales totaled R\$1.3 billion in the 4Q13, compared to R\$429.0 million in the 3Q13 and R\$905.2 million in the previous year. In 2013 sales reached R\$2.5 billion, dropping 4.5% in relation to 2012. Sales from launches represented 60% of the total, while sales from inventory comprised the remaining 40%.

Consolidated sales over supply (SoS) reached 24.8% in the 4Q13 and 10.6% in the previous quarter. In 2013, SoS reached 38.7%.

Consolidated inventory at market value increased R\$347.7 million on a sequential basis, reaching R\$4.0 billion.

Throughout the 4Q13 the Company delivered 26 projects, encompassing 6,063 units. In the year, Gafisa Group delivered 13,842 units, in line with the full-year delivery guidance of 13,500 to 17,500.

For comparison purposes, the consolidated operating results presented above and throughout this earnings release still include 100% of Alphaville's operating performance in 2013.

150

ANALYSIS OF RESULTS

Net Income for the Year – R\$867.4 million

Net income for the 4Q13 reached R\$921.3 million and the net result was R\$867.4 million in 2013. Excluding the proceeds from the sale of a stake in Alphaville, net income was R\$81.3 million in 4Q13 and R\$27.4 million in the year.

Below is a brief explanation regarding the main effects that impacted the result quoted above.

Net Income	921,284	867,444
(-) Alphaville 30% Stake Revaluation	(375,853)	(375,853)
(-) Net Gain from the Sale of 70% Stake in Alphaville	(464,157)	(464,157)
Net Income Ex-Alphaville Sale Operation	81,274	27,434

Gross Margin Expansion - Operational Efficiency and Reversal of Provisions

Throughout 2013, the reduced contribution and complexity of Tenda legacy projects, coupled with the consolidation of Gafisa operations in São Paulo and Rio de Janeiro and the resumption of Tenda launches under a new business model, contributed to a gradual improvement in the Company's margins. As the volume of legacy projects diminished, the contribution of newer projects resulted in increased profitability. Reported gross profit increased from R\$158.3 million in 1Q13 to R\$222.0 million at the end of the 4Q13, and gross margin, which was 23.7% at the start of the year, reached 31.5% in 4Q13. The Company ended 2013 with gross income of R\$617.4 million with a gross margin of 24.9%.

In 4Q13, gross margin was impacted by the reversal of provisions for some Gafisa and Tenda construction works totaling around R\$34.2 million. As the Company has been able to improve controls and the management of its operations, provisions intended to cover adjustments to and/or changes in old projects budgets may be reversed at the time the development is completed.

Currently, R\$8.9 million worth of provisions could be reversed as projects are completed.

Alphaville Operations - Result of the Transaction and Revaluation of Stake

The completion of the sale of a stake in Alphaville in the 4Q13 contributed significantly to quarterly results. With the transaction finalized in the 4Q13 and respective cash inflow, net income was impacted as follows: (i) by the final result of the sale of 70% stake in Alphaville, net of taxes and costs, which was R\$464.2 million, and (ii) by the impact of R\$375.8 million related to the revaluation to fair value of the remaining

portion of 30% in Alphaville.

The revaluation of the remaining 30% stake in Alphaville is necessary to comply with CPC 36 (R3), since this determines the write-off in the record of any non-controlling shareholders in the former subsidiary on the date in which control is lost, including any components of other income attributed to them. Furthermore, it should be evaluated and recognized at fair value any investment retained in the former subsidiary, in the date that control is lost.

151

RECENT EVENTS

Completion of Sale of Stake in Alphaville Urbanismo S.A. (AUSA)

On December 9, 2013 Gafisa announced the completion of the agreement to sell a 70% stake in Alphaville to private equity firms Blackstone and Pátria. Gafisa retained a 30% stake. The sale valued AUSA at R\$2.0 billion.

The proceeds from the transaction totaled R\$1.54 billion, of which R\$1.25 billion was received through the sale of shares, and R\$290 million was received as a dividend distributed by Alphaville. All conditions precedent to the completion of the transaction have been met, including obtaining regulatory approvals from governmental departments.

Payment of Interest on Equity and Share Buyback Program

With the completion of the sale of the Alphaville stake, the Company's Board of Directors, in a meeting held on December 20, 2013, approved the payment of interest on equity to its shareholders in the amount of R\$130,192,095.57, representing R\$0.31112217224 per share. Such payment was effective February 12, 2014.

Additionally, Tenda's Board of Directors also approved a new share buyback program, considering a maximum amount of 32,938,554 common shares from its parent Company, Gafisa, which is in addition to the previous program already effected. The approved program is conditional on the maintenance of consolidated net debt at a level equal to or less than 60% of net equity and does not obligate the Company to acquire any particular amount of shares in the market. The program may be suspended by Tenda at any time. By February 27, 2014, the program had already acquired approximately 15 million shares, around 47% of the maximum.

On this date, the Company canceled an open share buyback program in place in the Tenda subsidiary and opened a new program in Gafisa, containing the same previously defined conditions, which can repurchase the remaining balance of shares.

Evaluation of a Potential Split of the Gafisa and Tenda Business Units

On February 7, 2014, the Company announced that its Board of Directors approved the analysis by the Company's management of a possible separation of the Gafisa and Tenda business units.

The Board of Directors intends to evaluate the separation studies in the following months, analyzing possible alternatives for structuring and execution that take into consideration a number factors that are in the best interests of shareholders.

The separation would be the next step in a comprehensive plan initiated by management to enhance value creation for the Company and its shareholders.

The main objectives of this separation process are to:

- i. enable shareholders to allocate resources between the two companies according to their interests and investment strategies;
- ii. enable both companies to respond faster to the opportunities in their target markets;
- iii. establish sustainable capital structures for each company, based on its risk profile and strategic priorities;
- iv. give greater visibility to the market on the individual performance of the companies, enabling better assessment of intrinsic value;
- v. increase the ability to attract and retain talent, through the development of appropriate cultures and compensation structures consistent with the specific results of each business.

After initial evaluation and if approved by the Board of Directors, the separation plan will be submitted to a vote by shareholders at a Shareholders Meeting. The transaction should be concluded in 2015, upon request to the Brazilian Securities and Exchange Commission to convert Tenda registration to category A, as a publicly held Company authorized to trade its shares in the market.

The Company will keep its shareholders and the market informed about the process and any developments pertaining to the separation.

Updated Status of the Turnaround Strategy

Gafisa Segment

During 2013, the Gafisa segment consolidated its strategy of focusing on the markets of São Paulo and Rio de Janeiro. The recovery in gross margin reflects the reduced participation of projects outside core markets in Gafisa's results.

At the close of 2013, pro forma backlog revenue for the Gafisa Segment totaled around R\$1.6 billion, of which around R\$8.8 million relates to projects located in discontinued markets. The projects outside core markets comprised only 3 ongoing construction sites and around 1,100 units under construction, whose delivery is scheduled for 2014.

Table 3. Operational Wrap Up - Gafisa Turnaround (R\$000 and units)

Main Indicators

PSV in Inventory	1,827,794	272,416	2,100,210	1,659,206	324,888	1,983,694

Projects under construction	46	3	49	52	6	58
Units to be delivered	11,532	1,100	12,632	12,542	2,456	14,998
Cost to be incurred	1,411,124	48,256	1,459,380	1,673,828	273,862	1,947,690

During the year, the volume of dissolutions reached R\$455.7 million, mostly concentrated in the 1H13, due to the large quantity of units delivered in 2012. As predicted, there was a normalization of cancellations in 2H13, with the last quarter of the year presenting the lowest volume of dissolutions in the last 24 months. Of the total dissolutions for the year, 63.0% refer to completed units and 33.2% to units in non-core markets. Of the 1,263 canceled units for the year, 50.8% were resold in the same period. In the core markets of São Paulo and Rio de Janeiro, 620 units were canceled with 63.4% resold in 2013.

While projects located in São Paulo and Rio de Janeiro are performing well, the segment's gross margin in 2013 was impacted by the poorer performance of projects outside core markets. The Company expects more normalized profitability levels from the 1H14. Excluding legacy projects in discontinued markets, the Gafisa Segment gross margin would have been 35.7%.

The sales speed for inventory outside of core markets remains lower than that of sales within core markets, particularly in São Paulo and Rio de Janeiro. The sale of this inventory and the run-off of legacy projects are on schedule and expected to conclude in 2014.

Tenda Segment

The year of 2013 was highlighted by the resumption of Tenda launches under a new business model, based on three basic pillars: operating efficiency, risk management and capital discipline. Currently, the Company continues to operate in 4 macro regions: São Paulo, Rio de Janeiro, Minas Gerais and Northeast (Bahia and Pernambuco). Below is a brief description of the performance of these projects:

Table 5. New Tenda Launches under a New Model

The new operating model has resulted in a consistent reduction in the level of dissolutions from Tenda during the year. We expect this trend to be maintained over the coming quarters, due to the consolidation of the operational process of its new business model. During the 4Q13, sales cancellations declined to R\$75.1 million from R\$133.7 million in the 3Q13, and to R\$317.6 million in the 4Q12. Since 1Q12, the volume of dissolutions reduced by 77.9%. For the year, the volume of dissolutions reached R\$598.9 million, a decrease of 52.1% compared to the volume of R\$1.2 billion in 2012. In the 1Q14, due to the concentration of the delivery of legacy projects, the volume of dissolutions is expected to be higher than in the 4Q13.

Of the 3,799 units experiencing sales cancellations in the Tenda segment and returned to inventory, 88.5% were resold during the year.

Tenda remains focused on the completion and delivery of its remaining projects, and is also dissolving contracts with non-eligible clients, so as to sell the units to new and qualified customers. Thus, Tenda's new business model worked to improve its financial cycle, by reducing the average time required to conclude the contract signing, which has been halved from 14 months in 3Q12, to around 6 months in the 4Q13. Taking into account only projects launched within the new business model, the average time is 4 months.

The run-off of legacy projects is on schedule and shall be mostly concluded in 2014. The final phase of Tenda legacy projects ended 2013 with around 7 thousand units to be delivered.

Consolidated Operating Results

Consolidated Launches

Fourth quarter 2013 launches reached R\$1.6 billion, an increase of 224.9% compared to 3Q13, and 8.7% over the 4Q12. Launches for 2013 totaled R\$2.9 billion, down 2.2% over 2012. The launched volume is in line with the launch guidance presented by the Company in the beginning of the year of R\$2.7 to R\$3.3 billion.

37 projects/phases were launched across 11 states in 2013. In terms of PSV, Gafisa accounted for 38% of the launches for the year, Tenda 12% and Alphaville the remaining 50%.

Table 10. Consolidated Launches (R\$000)

Dissolutions

The Company has been achieving a consistent reduction in the level of dissolutions since the end of 2011, with quarterly dissolutions declining approximately 68.6% from R\$573.8 million in 4Q11 to R\$180.1 million in 4Q13. As expected, the most notable improvement occurred in Tenda, due to the implementation of its new business model, which, by conditioning the completion of the sale on the effective unit transfer, has shown significant improvement in the level of cancellations: since 4Q11 the Company achieved a 84.0% reduction in dissolutions. The Gafisa segment, in turn, also achieved a substantial reduction, with dissolutions declining 26.8% on a sequential basis and 52.5% compared to the previous year.

Of the 5,062 Gafisa and Tenda segment units that were canceled and returned to inventory in 2013, 79.1% were resold in the same year.

Projects & Unit Deliveries

The Company delivered 26 projects encompassing 6,063 units in the fourth quarter, with 1,110 units stemming from the Gafisa segment, 3,487 from Tenda and the remaining 1,466 from Alphaville. The delivery date is based on the "Delivery Meeting" that takes place with customers, and not upon physical completion, which is prior to the delivery meeting. In 2013, projects delivered by the Gafisa Group comprised 13,842 units, equating to 89% of the mid-range of full-year delivery guidance of 13,500 to 17,500 for the year.

Inventory

The Gafisa Group inventory at market value increased R\$347.7 million at the end of 4Q13, reaching R\$4.0 billion. The market value of Gafisa inventory, which represents 52% of total inventory, increased to R\$2.1 billion at the end of 4Q13, compared to R\$1.9 billion in the previous quarter. The market value of Alphaville inventory was R\$1.3 billion at the end of the 4Q13, a 19.6% increase compared to the 3Q13. Tenda inventory was valued at R\$618.4 million at the end of 2013, compared to R\$714.8 million at the end of the 3Q13.

Table 13. Inventory at Market Value (R\$000)

Gafisa Segment	1,863,859	679,154	53,446	454,457	11,654

¹ Note: Inventory at market value includes projects with partners. The figure is not comparable to the accounting inventory due to the new accounting consolidation implemented on behalf of CPCs 18, 19 and 36.

Additional information concerning Gafisa Group inventories can be found in the appendix to this release.

Landbank

Gafisa's consolidated landbank, with a PSV of approximately R\$25.8 billion, is comprised of 153 different projects/phases that are located in core market regions. In line with the Company's strategy, 37.0% of our landbank has been acquired through swaps – which require no cash obligation. During 2013, Gafisa expanded its landbank to support future growth plans with acquisitions totaling R\$7.2 billion in PSV.

Table 15. Landbank – 4Q13

Gafisa Segment	6,478,182	38.5%	37.7%	0.8%	11,657	12,990

The adjustments of the period reflect updates related to project scope, expected release date and inflationary adjustments to landbank for the period.

Consolidated Financial Results

Fourth-quarter Alphaville results are recognized in the Equity Method line. Reported results for 4Q13 reflect 100% of the financial results of Alphaville until November 30, 2013, and a 30% participation thereafter. For the other periods presented, the results reflect the eligible equity interest in each instance.

Revenues

On a consolidated basis, 4Q13 net revenues totaled R\$704.7 million, an increase of 12.2% compared with the 3Q13 and 24.1% compared with the 4Q12. The result reflects high inventory sales during the 4Q13. For 2013, net revenue reached R\$2.5 billion, a decrease of 11.5% compared to 2012, impacted by the lower launch volumes in Gafisa and Tenda's net revenue reduction from the delivery of Tenda legacy projects. New launches are still in the final stages of revenues.

During the 4Q13, the Gafisa segment accounted for 69.5% of net revenues, while Tenda comprised the remaining 30.5%. In 2013 Gafisa accounted for 67.1% of revenues, while Tenda contributed the remainder. The below table presents detailed information on the makeup of revenues.

Table 17. Gafisa + Tenda - Pre-Sales and Recognized Revenues, by Launch Year (R\$000)

Additional information on the composition of Gafisa Group revenues can be found in the appendix to this earnings release.

Gross Profit

Gross profit for the period was R\$222.0 million, an increase of 28.0% compared with R\$173.5 million registered in 3Q13 and a 142.7% rise y-o-y from R\$91.5 million in the 4Q12. Gross margin in the quarter reached 31.5%, an increase of 3.9 percentage points from the previous quarter. For 2013, gross profit was R\$617.4 million and gross margin reached R\$ 24.9% against R\$528.3 million with a margin of 18.8% reported in 2012. Still, the gross margin is improving as Gafisa and Tenda segment legacy projects are replaced by projects launched in core markets and under the new Tenda business model, which contain higher margins. The increased contribution of more profitable projects to consolidated results can be observed throughout 2013.

Additionally, gross margin in 4Q13 benefited from the reversal of provisions for some construction works totaling R\$34.2 million. As the Company has been able to achieve greater control of its operations, provisions which were intended to cover adjustments to and/or changes in old projects budgets may be reversed at the time the developments are completed.

Table 18. Gafisa + Tenda - Gross Margin (R\$000)

Gross Profit	221,999	173,503	28.0%	91,547	142.5%	617,445	528,282	16.9%
Gross Margin	31.5%	27.6%	387 bps	16.1%	1539 bps	24.9%	18.8%	605 bps

Additional information regarding the breakdown of the Gafisa Group gross margin can be found in the appendix to this earnings release.

Selling, General, And Administrative Expenses (SG&A)

SG&A expenses totaled R\$130.1 million in the 4Q13, a 9.2% decrease when compared with the R\$143.4 reported in 4Q12 and 28.4% increase versus the 3Q13. This increase between the 3Q13 and 4Q13 reflects the adjustment in the provision for bonuses, which is usually held in the last quarter of the year, when the bonus metrics are checked against the closure of the financial statements. Excluding the bonus provision, general and administrative expenses decreased 7.6% compared to 3Q13 and 22.7% compared to 4Q12.

In 2013, selling, general and administrative expenses totaled R\$449.7 million, a decrease of 7.1% compared to 2012, reflecting strategies to realign costs to the Company's current size and the phase of its business cycle.

Selling expenses reached R\$53.9 million in the 4Q13, a 16.7% increase compared to 3Q13 due to the increased volume of launches held in 4Q13. On a y-o-y basis, selling expenses decreased 24.1%, despite launches in the 4Q13 being quite similar to those recorded in the 4Q12. Selling expenses totaled R\$215.6 million in the year, a decrease of 6.9% compared to the R\$231.7 million recorded in 2012.

Despite the resumption of Tenda new projects and equilibrium in the consolidated volume of launches in the year, the Company managed to reduce overall selling expenses due to the effectiveness of the sales process through its own Tenda stores, which allowed for greater control and efficiency in this line.

Table 19. Gafisa + Tenda - SG&A Expenses (R\$000)

Selling Expenses	53,857	46,165	16.7%	70,999	-24.1%	215,649	231,746	-6.9%
General & Administ. Expenses	76,264	55,155	38.3%	72,373	5.4%	234,023	252,208	-7.2%
Total SG&A Expenses	130,121	101,320	28.4%	143,372	-9.2%	449,672	483,954	-7.1%
Launches	1,619,260	498,348	224.9%	1,489,760	8.7%	2,886,204	2,951,961	-2.2%
Net Pre-Sales	1,312,944	428,994	206.1%	905,241	45.0%	2,513,858	2,633,104	-4.5%

With the turnaround cycle process virtually complete, the Company is seeking greater stabilization in its cost and expense structure and SG&A. In 2013 it already achieved a 7.1% reduction year-over-year. In 2014, the Company is seeking to improve productivity and increase efficiency in its operations.

Consolidated Adjusted EBITDA

Adjusted EBITDA totaled R\$978.9 million in 4Q13, driven by the completion of the Alphaville sale in early December. Excluding the result related to Alphaville transaction, adjusted EBITDA reached R\$138.9 million in 4Q13, stable when compared with the R\$140.0 million from the previous quarter. Under the same criteria, adjusted EBITDA margin reached 19.7%, compared to a margin of 22.3% recorded in the 3Q13.

For the year 2013, adjusted EBITDA reached R\$1.3 billion. Excluding the effect of the Alphaville transaction, income reached R\$430.6 million with an EBITDA margin of 17.4% compared to EBITDA of R\$379.0 million and a margin of 13.5% in 2012.

In 2013, despite a scenario of decreased net revenues, the Company's operating performance benefited from an 18.1% decrease in its operating costs, and also from the reduction of R\$34.3 million in SG&A, or 7.1% million lower than last year.

Table 25. Gafisa + Tenda + Alphaville - Consolidated Adjusted EBITDA (R\$000)

EBITDA adjusted by expenses associated with stock option plans, as this is an entry, non-cash expense.

Additional information on the EBITDA for each of the Company's operating segments can be found in the appendix to this earnings release.

Depreciation and Amortization

Depreciation and amortization in the 4Q13 reached R\$24.4 million, and R\$63.0 million for the year 2013, lower than the R\$80.2 million recorded in 2012 due to lower amortization related to the Company's sales booths.

Financial Results

Net financial expenses totaled R\$31.2 million in 4Q13, an improvement compared to the net negative result of R\$48.5 million in 3Q13 and R\$34.7 million in 4Q12. Financial revenues totaled R\$28.4 million, a 77.8% y-o-y increase due to the higher interest rates in the period. Financial expenses reached R\$59.6 million, compared to R\$50.7 million in the 4Q12, also impacted by the higher average interest rates in the period coupled with the effect of mark-to-market adjustments and derivative transactions.

For the year, net financial results ended 2013 with a negative result of R\$162.5 million against R\$180.3 million in 2012.

Taxes

Income taxes, social contribution and deferred taxes for 4Q13 amounted to R\$17.6 million. During the year, total income taxes, social contribution and deferred taxes totaled R\$2.8 million.

The revaluation at fair value of the remaining stake in Alphaville resulted in the constitution of deferred income tax liability attributable to the income from the revaluation totaling R\$ 127.8 million. Still, taking into consideration the result in 2013, the new future profitability and the Company's taxable income for years to come, a deferred income tax asset in the amount of R\$180.6 million was constituted in 4Q13, which was offset by the deferred income tax liability, generating a net effect in the result of approximately R\$ 20.9 million.

Regarding the sale transaction of 70% stake in Alphaville, the tax calculated on the capital gain was R\$ 76.1 million.

Net Income

Gafisa Group ended the 4Q13 with net income of R\$921.3 million. Excluding the effects of the Alphaville transaction, the Company's net income was R\$81.3 million in the quarter and R\$27.4 million in 2013, compared to a net loss of R\$127.0 million in 2012.

Backlog of Revenues and Results

The backlog of results to be recognized under the PoC method was R\$614.1 million in the 4Q13. The consolidated margin for the quarter was 34.2%, an increase of 130 bps compared to the result posted in 3Q13. The table below shows the backlog margin by segment:

Table 26. Results to be recognized (REF) by company (R\$000)

Revenues to be recognized	1,550,618	244,789	1,795,408	1,137,804
Costs to be recognized (units sold)	-1,003,272	-178,001	-1,181,273	-550,343

Backlog Margin	35.3%	27.3%	34.2%	51.6%

Note: Revenues to be recognized are net of PIS/Cofins (3.65%); excludes the PVA (Present Value Adjustment) method introduced by Law n° 11,638

The amounts include projects still under suspension clause.

Table 27. Gafisa + Tenda - Results to be recognized (REF) (R\$000)

Revenues to be recognized	1,795,408	1,900,224	-5.5%	2,597,696	-30.9%
Costs to be recognized (units sold)	-1,181,273	-1,275,911	-7.4%	-1,709,271	-30.9%
Results to be Recognized	614,134	624,313	-1.6%	888,425	-30.9%
Backlog Margin	34.2%	32.9%	135 bps	34.2%	1 bps

Note: It is included in the gross profit margin and not included in the backlog margin: Present Value Adjustment (PVA) on receivables, revenue related to swaps, revenue and cost of services rendered, PVA over property (land) debt, cost of swaps and provision for guarantees.

GAFISA SEGMENT

Focuses on residential developments within the upper, upper-middle, and middle-income segments, with unit prices exceeding R\$250,000.

Gafisa Segment Launches

Fourth-quarter launches reached R\$679.1 million and comprised 7 projects/phases in the city of São Paulo, Rio de Janeiro, Campinas and Osasco, a sharp increase when compared to R\$107.2 million recorded in the previous quarter, and a reduction of 16.5% when compared to the 4Q12. In 2013, launches reached R\$1.1 billion, a 32.5% drop versus the same period of the previous year.

Additional information on Gafisa segment launches can be found in the appendix to this earnings release.

Gafisa Segment Pre-Sales

Fourth-quarter gross pre-sales totaled R\$507.9 million, a 93.6% increase compared to 3Q13. Net pre-sales reached R\$454.4 million in 4Q13, a 140.8% increase compared to 3Q13 and 8.8% decline y-o-y. Sales from launches during the year represented 45% of the total, while sales from inventory comprised the remaining 55%. In the 4Q13, sales speed was 17.8%, compared to 9.2% in 3Q13, and 20.1% in the 4Q12. The sales speed of Gafisa segment launches was 38% for the year.

The volume of dissolutions in the 4Q13 was R\$53.4 million, a 26.8% decrease relative to the 3Q13. Of the 1,263 Gafisa segment units canceled and returned to inventory, 50.8% were resold in 2013. In the core markets of Sao Paulo and Rio de Janeiro, 620 units were canceled, with 63.4% already resold.

Additional information on Gafisa segment pre-sales can be found in the appendix to this earnings release.

Gafisa Vendas

During the 4Q13, Gafisa Vendas – an independent sales unit of the Company, with operations in Sao Paulo and Rio de Janeiro, focused on selling inventory - was responsible for 46.6% of gross sales in the period.

In 2013, Gafisa Vendas participation was 50.3%. Gafisa Vendas currently has a team of 610 highly trained, dedicated consultants, combined with an online sales force.

Gafisa Segment Delivered Projects

During 2013, Gafisa delivered 22 projects/phases and 4,315 units, reaching 102% of the mid-range of full-year guidance of 3,500 to 5,000 units for the brand.

Table 28- Gafisa Segment Delivered Projects

Note: 1– PSV refers to potential sales value of the units transferred to financial institutions. 2– PSV refers to potential sales value of delivered units.

Additional information of Gafisa segment delivered projects can be found in the appendix to this earnings release.

Gafisa Segment Landbank

Gafisa segment landbank, with a PSV of approximately R\$6.5 billion, is comprised of 34 different projects/phases located exclusively in core markets. Amounting to nearly 13 thousand units, 75% are located in São Paulo and 25% in Rio de Janeiro. In line with the Company's strategy, 38.5% of the landbank was acquired through swaps, which do not require cash obligations. During the 2013, Gafisa expanded its landbank to support future launching projections with acquisitions totaling R\$1.1 billion in PSV.

Inventory

In 2013, the Company maintained its focus on inventory reduction initiatives. Accordingly, inventory represented 55% of total sales in 2013. The market value of Gafisa segment inventory was stable at R\$2.1 billion at the end of the 4Q13. The inventory of finished units outside core markets was R\$272.4 million or 13% of the total. In the same period, inventory of finished units comprised R\$279.1 million, representing 13% of the total inventory. Of this amount, inventory from projects launched outside core markets totaled R\$205.8 million.

¹ Note: Inventory at market value includes projects with partners. The figure is not comparable to the accounting inventory due to the new accounting consolidation implemented on behalf of CPCs 18, 19 and 36.

TENDA SEGMENT

Focuses on affordable residential developments, with unit prices between R\$100.000 and R\$250.000.

Tenda Segment Launches

Having achieved control of both the operational and financial cycle, the Tenda brand resumed launches in 2013. Fourth-quarter launches totaled R\$88.5 million and included 2 projects/phases in the cities of Sao Paulo and Rio de Janeiro. In 2013, Tenda launched 8 projects encompassing R\$338.8 million. The brand accounted for 12% of consolidated launches in 2013.

In the appendix to this release, you will find more information about the Tenda segment launches.

Tenda Segment Pre-Sales

During the 4Q13, net pre-sales totaled R\$163.6 million. Sales from units launched in 2013 represented 44% of total contracted sales. Sales from inventory accounted for the remaining 56%.

All new projects under the Tenda brand are being developed in phases, in which all pre-sales are contingent upon the ability to pass mortgages onto financial institutions. Launches in 2013 totaled R\$338.8 million, and all were launched within the confines of Tenda's new business model. Sales of R\$217.4 million were registered, of which R\$122.0 million were already transferred, and the remaining R\$95.4 million are in the process of being transferred. That accounts for 379 units transferred to financial institutions in the 4Q13 and 1,096 mortgage transfers in 2013.

In the 4Q13, sales speed (sales over supply) was 20.9%, compared to 17.4% in the 3Q13.

Tenda is focused on the completion and delivery of its legacy projects, and is dissolving contracts with ineligible clients, so as to resell these units to qualified customers. The volume of dissolutions in the 4Q13 was R\$75.1 million, a 60.0% decrease relative to the 3Q13. Of the 3,799 Tenda units that were canceled and returned to inventory in 2013, 88.5% were resold to qualified customers in the same period.

Note: 1- PSV refers to potential sales value of units transferred to financial institutions.

Tenda Segment Delivered Projects

During 2013, Tenda delivered 41 projects/phases and 7,027 units, representing 101% of the mid-range of full-year delivery guidance of 6,500 to 7,500 units for the brand.

Additional information about Tenda segment delivered projects can be found in the appendix to this release.

Tenda Segment Landbank

Tenda segment landbank, with a PSV of approximately R\$2.4 billion, is comprised of 27 different projects/phases located in core markets. 13% are located in São Paulo, 4% in Rio de Janeiro, 10% in Minas Gerais and the remaining in the Northeast region, specifically in the states of Bahia and Pernambuco. Altogether these amount to more than 20 thousand units. In 2013, Tenda expanded its landbank to support future launches with acquisitions totaling R\$536.8 million in PSV, which were concentrated in the Company's core markets.

Table 34. Landbank - Tenda Segment - 4Q13

Inventory

Tenda has achieved satisfactory results on its inventory reduction initiatives in 2013, with inventory representing 56% of total sales. The market value for Tenda inventory was reduced in 13.5% to R\$618.4 million at the end of the fourth quarter. The legacy projects inventory for the Tenda segment totaled R\$490.5 million or 79.3% of the total. In the same period, inventory of units within the Minha Casa, Minha Vida program comprised R\$389.7 million, or 63% of the total inventory, while the proportion outside the program reached 37% in 2013.

Table 35. Inventory at Market Value 4Q13 x 3Q13 (R\$000) – Tenda Segment by Region

ALPHAVILLE SEGMENT

Focuses on the sale of residential lots, with unit prices between R\$130.000 and R\$500.000, and is present in 68 cities across 23 states and in the Federal District.

Alphaville Segment Launches

Fourth-quarter launches totaled R\$851.7 million, a 196.3% increase compared to 3Q13 and 26.0% versus the year-ago period. Launch volumes included 10 projects/phases across 8 states. The segment accounted for 50% of 2013 consolidated launches.

Additional information on Alphaville segment launches can be found in the appendix to this earnings release.

Alphaville Pre-Sales

Fourth-quarter net pre-sales reached R\$694.9 million, a decrease compared to R\$90.1 million in the previous quarter, and 59.2% increase y-o-y. In the 4Q13, sales speed (sales over supply) was 35.5%, compared to 7.9% in the 3Q13. Sales from launches represented 91% of total sales in the quarter, and sales speed from launches was 45.6% in 2013.

Additional information on Alphaville segment pre-sales can be found in the appendix to this earnings release.

Alphaville Segment Delivered Projects

During 2013, Alphaville delivered 5 projects/phases and 2,500 units, reaching 59% of the mid-range of full-year guidance of 3,500 to 5,000 units for the brand. The deviation from the projected guidance is related to delays in getting final documentation for effective delivery of the units.

Additional information on Alphaville segment delivered projects can be found in the appendix to this earnings release.

Alphaville Segment Landbank and Inventory

The table below presents more detail on the breakdown of Alphaville's landbank and also inventory at market value at the end of 4Q13:

BALANCE SHEET

Cash and Cash Equivalents

On December 31, 2013, cash and cash equivalents, and securities, totaled R\$2.0 billion, impacted by the completion of the Alphaville stake sale.

Accounts Receivable

At the end of the 4Q13, total consolidated accounts receivable decreased 23.4% to R\$4.1 billion y-o-y, and was 6.7% below the R\$4.4 billion recorded in the 3Q13.

Currently, Gafisa and Tenda segments have approximately R\$480 million in accounts receivable from finished units.

Table 39. Total receivables (R\$000)

Receivables from developments – LT (off balance sheet)	1,863,423	1,972,210	-5.5%	2,696,103	-30.9%

Tenda	815,159	534,789	183,865	31,035	65,470
Total	4,087,090	1,909,876	1,278,408	420,659	478,147

Liquidity

At the end of 2013, the Company's leverage was impacted by the completion of Alphaville sale. In the previous quarter, due to the acquisition of the remaining portion (20%) of Alphaville, the Company's

leverage level increased temporarily, reaching 126% (Net Debt / Equity) due to the following factors: (i) cash disbursement and debt issuance related to the acquisition of the remaining stake of 20%, and (ii) reduction in Net Equity due to adjustments in the lines of minority and constituted goodwill in the acquisition of the 20% stake.

As a result of the completion of the Alphaville sale on December 9, in addition to the cash inflow of R\$1.5 billion related to the settlement of the sale of the 70% stake in Alphaville, the following impacts occurred: (i) reversal of goodwill related to the acquisition, in the 3Q13, of the remaining 20% stake; (ii) increased Equity due to the R\$464.2 million from the sale of the 70% stake; and (iii) revaluation of the remaining 30% stake.

Thus, the Company's Net Debt/Equity ratio decreased to 36.1%, compared to leverage of 126.0% in the previous quarter and 124.9% in the 4Q12, taking into consideration only Gafisa and Tenda. Excluding Project Finance, this Net Debt/Equity ratio showed a negative result of 27.7%.

The Company's net debt totaled R\$1.2 billion at the end of 2013, impacted by the funds from the sale of the Alphaville stake. For comparison purposes, in the previous quarter, net debt was R\$2.9 billion.

The Company's cash generation was a fourth quarter highlight. Cash generation was R\$178.0 million in the 4Q13 and R\$97.3 million in 2013. Operational cash flow was positive at R\$259.1 million in the 4Q13, totaling R\$667.7 million in the year. These figures take into account Gafisa and Tenda only.

Table 41. Cash Generation

OUTLOOK

Fourth quarter launches totaled R\$1.6 billion, an 8.7% increase over 4Q12, and a significant increase in comparison with launches of R\$498.3 million in 3Q13. For 2013, total launches were R\$2.9 billion, a slight 2.2% decrease compared to 2012. The 2013 total was within the guidance range established by the Company.

Table 44. Guidance - Launches (2013)

Consolidated Launches	R\$2.7 – R\$3.3 bi	2.9	97%
Breakdown by Brand			
Gafisa Launches	R\$1.15 – R\$1.35 bi	1.1	88%
Alphaville Launches	R\$1.3 – R\$1.5 bi	1.5	107%
Tenda Launches	R\$250 – R\$450 mn	339	97%

As explained in this report, 2013 was also impacted by the resolution of Tenda and Gafisa legacy projects. As the contribution of these projects reduced throughout the year, the Company achieved results consistent with normalized operations, reaching an EBITDA margin adjusted by operational impacts from Alphaville of 17.4%.

Table 45. Guidance - Adjusted EBITDA Margin (2013E)

Consolidated Data	12% - 14%	17.4%	173%
-------------------	-----------	-------	------

Note: The EBITDA margin presented in the guidance and for 2013 in this table is pro forma, and excludes the IFRS adjustments and the result of Alphaville transaction.

Consolidated 2013 delivery guidance was for deliveries between 13,500 and 17,500 units, with individual projections by business unit. During 2013, the Company delivered 13,842 units, reaching 89% of the mid-range of full-year guidance. Gafisa was responsible for delivering 22 projects/phases and 4,315 units, Tenda delivered 41 projects/phases and 7,027 units, while Alphaville delivered 5 projects and the remaining 2,500 units. The deviation from Alphaville's projected guidance relates to delays in getting final documentation for the delivery of units.

Table 46. Other Relevant Indicators – Delivery Estimates

Consolidated Amounts	13,500 – 17,500	13,842	89%
Deliveries by Brand			
# Gafisa Delivery	3,500 – 5,000	4,315	102%
# Alphaville Delivery	3,500 – 5,000	2,500	59%
# Tenda Delivery	6,500 – 7,500	7,027	101%

Based on the new configuration of Gafisa's portfolio, the Company finalized a new business plan for the five-year period from 2014 to 2018. The budget process took into account important assumptions and guidelines for the development of projects in the coming years. These include the expected size of Gafisa and Tenda's operations, the amount of capital allocated to each operation, the appropriate level of leverage for the Company's operations, the respective expected returns for each business unit, and, in particular, the Company's commitment to capital discipline and shareholder value generation.

2014 launch guidance ranges from R\$2.1 to R\$2.5 billion, reflecting the Gafisa segment's continued regional focus and the expansion of Tenda's new business model.

Launch Guidance (2014E)

Table 47 - Guidance - Launches (2014E)

Consolidated Launches	R\$2.1 – R\$2.5 bi
Breakdown by brand	
Gafisa Launches	R\$1.5 – R\$1.7 bi
Tenda Launches	R\$600 – R\$800 mn

With the completion of the sale of the Alphaville stake in the last quarter of the year, the Company enters 2014 with a solid liquidity position. As disclosed in this release, following the completion of the transaction, the Company's Net Debt/Equity ratio reached 36.1% at the end of 4Q13. Given this scenario, and considering the Company's business plan for 2014, the Company expects leverage to remain between 55% - 65%, measured by the same Net Debt/Equity ratio.

Table 48 - Guidance - Leverage (2014E)

Consolidated Data	55% - 65% Net Debt / Equity

The Company is also providing guidance as to the adequacy of its administrative structure. The ratio between administrative expenses and launch volume for the Gafisa segment is expected to reach 7.5% in 2014. Tenda has no guidance for this indicator for 2014, although for 2015 we expect to reach 7.0%.

Table 49. Guidance - Administrative Expenses / Launches Volume (2014E)

Gafisa	7.5%
Tenda	Not Applicable

Table 50. Guidance - Administrative Expenses / Launches Volume (2015E)

Gafisa	7.5%
Tenda	7.0%

Finally, the Company defined as a benchmark for profitability the Return on Capital Employed (ROCE), and we expect that in the next three year period, this ratio shall be between 14% - 16% for both the Tenda and Gafisa segments.

Table 51 - Guidance - Return on Capital Employed (3 years)

Gafisa	14% - 16%
Tenda	14% - 16%

GLOSSARY

Affordable Entry Level

Residential units targeted to the mid-low and low income segments with prices below R\$200 thousand per unit.

Backlog of Revenues

As a result of the Percentage of Completion Method of recognizing revenues, we recognize revenues and expenses over a multi-year period for each residential unit we sell. Our backlog of results represents revenues minus costs that will be incurred in future periods from past sales.

Backlog of Results

As a result of the Percentage of Completion Method of recognizing revenues, we recognize revenues and expenses over a multi-year period for each residential unit we sell. Our backlog represents revenues that will be incurred in future periods from past sales.

Backlog Margin

Equals to "Backlog of Results" divided "Backlog of Revenues" to be recognized in future periods.

LandBank

Land that Gafisa holds for future development paid either in cash or through swap agreements. Each decision to acquire land is analyzed by our investment committee and approved by our Board of Directors.

LOT (Urbanized Lots)

Land subdivisions, or lots, with prices ranging from R\$150 to R\$600 per square meter.

PoC Method

Under Brazilian GAAP, real estate development revenues, costs and related expenses are recognized using the percentage-of-completion ("PoC") method of accounting by measuring progress towards completion in terms of actual costs incurred versus total budgeted expenditures for each stage of a development.

Pre-Sales

Contracted pre-sales are the aggregate amount of sales resulting from all agreements for the sale of units entered into during a certain period, including new units and units in inventory. Contracted pre-sales will be recorded as revenue as construction progresses (PoC method). There is no definition of "contracted

pre-sales" under Brazilian GAAP.

PSV

Potential Sales Value.

SFH Funds

Funds from SFH are originated from the Governance Severance Indemnity Fund for Employees (FGTS) and from savings accounts deposits. Banks are required to invest 65% of the total savings accounts balance in the housing sector, either to final customers or developers, at lower interest rates than the private market.

Swap Agreements

A system in which we grant the land-owner a certain number of units to be built on the land or a percentage of the proceeds from the sale of units in such development in exchange for the land. By acquiring land through this system, we intend to reduce our cash requirements and increase our returns.

Operating Cash Flow

Operating cash flow (non-accounting)

ABOUT GAFISA

Gafisa is a leading diversified national homebuilder serving all demographic segments of the Brazilian market. Established over 59 years ago, we have completed and sold more than 1,100 developments and built more than 12 million square meters of housing under the Gafisa brand - more than any other residential development company in Brazil. Recognized as one of the foremost professionally managed homebuilders, Gafisa is also one of the most respected and best-known brands in the real estate market, recognized for its quality and consistency among potential homebuyers, brokers, lenders, landowners, competitors and investors. Our pre-eminent brands include Tenda, serving the affordable/entry-level housing segment, and we hold a 30% stake in Alphaville, one of the most important companies in the residential lots segment in Brazil. Gafisa S.A. is traded on the Novo Mercado of the BM&FBOVESPA (BOVESPA:GFSA3) and on the New York Stock Exchange (NYSE:GFA).

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
