Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders
Petróleo Brasileiro S.A. - Petrobras

We have reviewed the accompanying condensed consolidated statement of financial position of Petróleo Brasileiro S.A. - Petrobras and its subsidiaries as of March 31, 2014, the related condensed consolidated statement of income, of cash flows and of comprehensive income for the three-month periods ended March 31, 2014 and March 31, 2013 and the condensed statement of changes in shareholders' equity for the three-month periods ended March 31, 2014 and March 31, 2013. This interim financial information is the responsibility of the Company's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying condensed consolidated interim financial information for it to be in conformity with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet as of December 31, 2013, and the related consolidated statements of income, of comprehensive income, of cash flows (not presented herein) and of shareholders' equity for the year then ended, and in our report dated February 25, 2014, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of December 31, 2013, is fairly stated in all material respects in relation to the consolidated balance sheet from which it has been derived.

Petróleo Brasileiro S.A. – Petrobras

Notes to the financial statements

(Expressed in millions of US Dollars, unless otherwise indicated)

1. The Company and its operations

Petróleo Brasileiro S.A. - Petrobras is dedicated, directly or through its subsidiaries (referred to jointly as “Petrobras” or “the Company”) to prospecting, drilling, refining, processing, trading and transporting crude oil from producing onshore and offshore oil fields and from shale or other rocks, as well as oil products, natural gas and other liquid hydrocarbons. In addition, Petrobras carries out energy related activities, such as research, development, production, transport, distribution and trading of all forms of energy, as well as any other correlated or similar activities. The Company’s head office is located in Rio de Janeiro – RJ, Brazil.

2. Basis of preparation of interim financial information

The consolidated interim financial information has been prepared and is being presented in accordance with IAS 34 – Interim Financial Reporting as issued by the International Accounting Standards Board (IASB). The information is presented in U.S. dollars.

This interim financial information presents the significant changes which occurred in the period, avoiding repetition of certain notes to the financial statements previously reported. Hence it should be read together with the Company’s annual financial statements for the year ended December 31, 2013, which include the full set of notes.

Petrobras has selected the U.S. Dollar as its presentation currency. The financial statements have been translated from the functional currency (Brazilian Real) into the presentation currency (U.S. Dollar) in accordance with IAS 21 - The effects of changes in foreign exchange rates. All assets and liabilities are translated into U.S. dollars at the closing rate at the date of the financial statements; income and expenses, as well as the cash flows are translated into U.S. dollars using the average exchange rates prevailing during the year. All exchange differences arising from the translation of the consolidated financial statements from the functional currency into the presentation currency are recognized as cumulative translation adjustments (CTA) within accumulated other comprehensive income in the consolidated statements of changes in shareholders’ equity.

The cumulative translation adjustments were set to nil at January 1, 2009 (the date of transition to IFRS).

The consolidated interim financial information was approved and authorized for issue by the Company’s Board of Directors in a meeting held on May 9, 2014.

2.1. Accounting estimates

The preparation of the interim financial information requires the use of estimates and assumptions for certain assets, liabilities and other transactions. These estimates include: oil and gas reserves, pension and medical benefits liabilities, depreciation, depletion and amortization, decommissioning costs, provisions for legal proceedings, fair value of financial instruments, present value adjustments of trade receivables and payables from relevant transactions and income taxes. Even though our management uses assumptions and judgments that are periodically reviewed, the actual results could differ from these estimates.

Petróleo Brasileiro S.A. – Petrobras

Notes to the financial statements

*(Expressed in millions of US Dollars, unless otherwise indicated)***3. Basis of consolidation**

The consolidated interim financial information includes the quarterly information of Petrobras, its subsidiaries, joint operations and consolidated structured entities.

There were no significant changes in the consolidated entities in the three-month period ended March 31, 2014.

The main disposal of assets and legal mergers are set out in note 9.

4. Summary of significant accounting policies

The same accounting policies and methods of computation were followed in this consolidated interim financial statements as those followed in the preparation of the annual financial statements of the Company for the year ended December 31, 2013.

5. Cash and cash equivalents

	03.31.2014	12.31.2013
Cash at bank and in hand	773	951

(*) Liquid Natural Gas

Consolidated inventories are presented net of a US\$ 35 allowance reducing inventories to net realizable value (US\$ 88 as of December 31, 2013), mainly due to the volatility of international prices of crude oil and oil products. The amounts recognized in profit or loss as other operating expenses are set out in note 23.

A portion of the crude oil and/or oil products inventories have been pledged as security for the Terms of Financial Commitment (TFC) signed by Petrobras and Petros in the amount of US\$ 3,279 (US\$ 2,976 as of December 31, 2013), as set out in note 20.

9. Disposal of assets and legal mergers**9.1. Disposal of assets****Brasil PCH**

On June 14, 2013, Petrobras entered into an agreement with Cemig Geração e Transmissão S.A. (which further assigned the sale and purchase contract to Chipley SP Participações) for the disposal of its entire equity interest in Brasil PCH S.A., equivalent to 49% of the voting stock, for a consideration of U.S.\$ 304, excluding contractual price adjustments.

On February 14, 2014, the remaining conditions precedent for this transaction were met and the disposal was concluded for a total amount of U.S.\$ 301, including contractual price adjustments. A gain of U.S.\$ 274 before taxes was recognized as other operating income (expenses).

Innova S.A.

On August 16, 2013, the Board of Directors of Petrobras approved the disposal of 100% of the share capital of Innova S.A. to Videolar S.A. and its controlling shareholder, at a consideration of U.S.\$ 369, subject to price adjustment before the transaction is concluded.

The transaction was approved in a Shareholders' Extraordinary General Meeting held on September 30, 2013 and its conclusion is subject to certain conditions, including the approval by Conselho Administrativo de Defesa Econômica – CADE.

Due to the pending conditions precedent for conclusion of this transaction, the assets and associated liabilities involved in this transaction were classified as held for sale.

Petróleo Brasileiro S.A. – Petrobras

Notes to the financial statements

(Expressed in millions of US Dollars, unless otherwise indicated)

Petrobras Colombia Limited (PEC)

On September 13, 2013, the Board of Directors of Petrobras approved the disposal of 100% of the share capital of Petrobras Colombia Limited (PEC), a subsidiary of Petrobras International Braspetro B.V. (PIB BV), to Perenco Colombia Limited, for a consideration of U.S.\$ 380, subject to price adjustment before the closing of the transaction.

On April 30, 2014 the transaction was concluded and assets and liabilities were transferred to Perenco. Gains or losses on the transaction will be determined based on book values as of this date and other contractual adjustments.

Due to the pending conditions precedent for conclusion of this transaction as of March 31, 2014, the assets and associated liabilities involved in the transaction were classified as held for sale.

Petrobras Energia Peru S.A.

On November 13, 2013, the Board of Directors of Petrobras approved the disposal of 100% of Petrobras Energia Peru S.A. by Petrobras de Valores Internacional de España S.L. – PVIE and Petrobras International Braspetro B.V. – PIB BV to China National Petroleum Corporation (CNPC), for U.S.\$ 2,647, subject to price adjustment before the transaction is concluded.

The transaction is subject to certain conditions precedent, including approval by the Chinese and Peruvian governments, as well as compliance with the procedures under their "Joint Operating Agreement (JOA)", where applicable.

Due to the pending conditions precedent for the conclusion of this transaction, the assets and corresponding liabilities were classified as held for sale.

9.2. Assets classified as held for sale

9.3. Legal mergers

On April 2, 2014, the Shareholders' Extraordinary General Meeting of Petrobras approved the following mergers of subsidiaries into Petrobras, which did not increase share capital or additional paid in capital:

- Termoaçú S.A.;
- Termoceará Ltda.;
- Companhia Locadora de Equipamentos Petrolíferos – CLEP.

The objective of these mergers is to simplify the corporate structure of the Company, reduce costs and capture synergies. These mergers did not affect the consolidated financial statements.

						1,908	2,176

The market value of these shares does not necessarily reflect the realizable value of a large block of shares.

Braskem S.A. - Investment in publicly traded associate:

Braskem's shares are publicly traded on stock exchanges in Brazil and abroad. The quoted market value as of March 31, 2014, was US\$ 1,908, based on the quoted values of both Petrobras' share in common stock (47% of the outstanding shares), and preferred stock (22% of the outstanding shares). However, there is extremely limited trading of the common shares, since non-signatories of the shareholders' agreement hold only approximately 3% of the common shares.

In addition, given the operational relationship between Petrobras and Braskem, the recoverable amount of the investment, for impairment testing purposes, was determined based on value in use, considering the Company's share of the future cash flows projected for Braskem. As the recoverable amount was higher than the carrying amount, no impairment losses were recognized for this investment.

The main assumptions on which cash flow projections to determine the value in use of Braskem were based are set out in note 14 to our audited consolidated financial statements for the year ended December 31, 2013.

(***) Impairment charges and reversals are recognized in profit or loss as other operating expenses.

12.2. Concession for exploration of oil and natural gas - Assignment Agreement (“Cessão Onerosa”)

As of March 31, 2014, the Company’s intangible assets include US\$ 10,791 (US\$ 10,424 at December 31, 2013) related to the Assignment Agreement, net of amounts paid as signature bonuses for Franco (now Campo de Búzios) and Sul de Tupi (now Campo de Sul de Lula) which have been transferred to property, plant and equipment, as set out in note 13.1 to our consolidated financial statements for the period ended December 31, 2013.

Petrobras, the Federal Government (assignor) and the ANP (regulator and inspector) entered into the Assignment Agreement in 2010, which grants the Company the right to carry out prospection and drilling activities for oil, natural gas and other liquid hydrocarbons located in blocks in the pre-salt area (Franco, Florim, Nordeste de Tupi, Entorno de Iara, Sul de Guará and Sul de Tupi), limited to the production of five billion barrels of oil equivalent in up to 40 (forty) years and renewable for a further 5 (five) years upon certain conditions having been met.

The agreement establishes that, immediately after the declaration of commerciality for each area, the review procedures, which must be based on independent technical appraisal reports, will commence. The review of the Assignment Agreement will be concluded after the date of the last declaration of commerciality.

If the review determines that the value of acquired rights is greater than initially paid, the Company may be required to pay the difference to the Federal Government, or may proportionally reduce the total volume of barrels acquired in the terms of the agreement. If the review determines that the value of the acquired rights is lower than initially paid by the Company, the Federal Government will reimburse the Company for the difference by delivering cash or bonds, subject to budgetary regulations.

Petróleo Brasileiro S.A. – Petrobras

Notes to the financial statements

(Expressed in millions of US Dollars, unless otherwise indicated)

Once the effects of the aforementioned review become probable and can be reliably measured, the Company will make the respective adjustments to the purchase prices of the rights.

The agreement also establishes a compulsory exploration program for each one of the blocks and minimum commitments related to the acquisition of goods and services from Brazilian suppliers in the exploration and development stages, which will be subject to certification by the ANP. In the event of non-compliance, the ANP may apply administrative sanctions pursuant to the terms in the agreement.

Based on drilling results obtained so far, expectations regarding the production potential of the areas are being confirmed and the Company will continue to develop its investment program and activities as established in the agreement.

13. Exploration for and evaluation of oil and gas reserves

The exploration and evaluation activities include the search for oil and gas from obtaining the legal rights to explore a specific area until the declaration of the technical and commercial viability of the reserves.

Changes in the balances of capitalized costs directly associated with exploratory wells pending determination of proved reserves and the balance of amounts paid for obtaining rights and concessions for exploration of oil and natural gas (capitalized acquisition costs) are set out in the table below:

Capitalized Exploratory Well Costs / Capitalized Acquisition Costs (*)	03.31.2014	12.31.2013
Property plant and equipment		
Opening Balance	8,802	10,649
Additions to capitalized costs pending determination of proved reserves	1,167	4,981
Capitalized exploratory costs charged to expense	(311)	(1,251)
Transfers upon recognition of proved reserves	(235)	(4,174)
Cumulative translation adjustment	329	(1,403)
Closing Balance	9,752	8,802
Intangible Assets (**)	14,300	13,880
Capitalized Exploratory Well Costs / Capitalized Acquisition Costs	24,052	22,682

(*) Amounts capitalized and subsequently expensed in the same period have been excluded from the table above.

(**) The balance of intangible assets comprises mainly the amounts related to the Assignment Agreement (note 12.2).

Exploration costs recognized in profit or loss and cash used in oil and gas exploration and evaluation activities are set out in the table below:

Exploration costs recognized in profit or loss	Jan-Mar/2014	Jan-Mar/2013
Geological and Geophysical Expenses	179	321

Liquigas	49	44	5

(*)Purchase and sale agreements for 49 vessels and 20 convoys were signed with six Brazilian shipyards in the amount of US\$ 5,017.

15.4. Guarantees

Financial institutions do not require Petrobras to provide guarantees related to loans and financing, except for certain specific funding instruments to promote development, such as certain credit lines from the BNDES, which are collateralized by real assets. Certain

subsidiaries issue securities fully and unconditionally guaranteed by Petrobras, as set out in note 33.

The loans obtained by structured entities are collateralized by the project assets, liens on receivables and shares of the structured entities.

Non-Current			29,868		
	3,105	16,887	33,917	3,450	12,428
					31,637

17.2. Receivables from the electricity sector

As of March 31, 2014, the Company had US\$ 2,700 of receivables from the Brazilian electricity sector (US\$ 2,156 as of December, 31, 2013), of which US\$ 2,151 were classified to

non-current assets.

The Company supplies fuel to thermoelectric power plants located in the northern region of Brazil, which are direct or indirect subsidiaries of Eletrobras, the Federal Government electric energy company. Part of the costs for supplying fuel to these thermoelectric power stations is borne by the Fuel Consumption Account (Conta de Consumo de Combustível - CCC), managed by Eletrobras.

Petróleo Brasileiro S.A. – Petrobras

Notes to the financial statements

(Expressed in millions of US Dollars, unless otherwise indicated)

In March 2013 a private instrument of debt acknowledgement was signed by AME, with Eletrobras as a guarantor. The amount of US\$ 422 will be paid in 60 successive monthly installments of US\$ 7, indexed to the SELIC interest rate.

17.3. Petroleum and Alcohol accounts - Receivables from Federal Government

As of March 31, 2014, the balance of receivables related to the Petroleum and Alcohol accounts was US\$ 370 (US\$ 357 as of December 31, 2013). Pursuant to Provisional Measure 2,181 of August 24, 2001, the Federal Government may settle this balance by using National Treasury Notes in an amount equal to the outstanding balance, or allow the Company to offset the outstanding balance against amounts payable to the Federal Government, including taxes payable, or both options.

The Company has provided all the information required by the National Treasury Secretariat (Secretaria do Tesouro Nacional - STN) in order to resolve disputes between the parties and conclude the settlement with the Federal Government.

Following several negotiation attempts at the administrative level, the Company filed a lawsuit in July 2011 to collect the receivables.

17.4. Compensation of employees and officers

Petrobras' key management compensation is set out following:

	Jan-Mar/2014			Jan-Mar/2013		
	Officers	Board	Total	Officers	Board	Total
Short-term compensation	1.5	0.1	1.6	1.5	0.2	1.7
Long-term compensation (post-retirement benefits)	0.1	–	0.1	–	–	0
Total compensation	1.6	0.1	1.7	1.5	0.2	1.7
Number of members	7	10	17	7	10	17

In the first quarter of 2014 the compensation of board members and officers for the consolidated Petrobras group amounted to US\$ 6.5 (US\$ 7.2 in the first quarter of 2013).

18. Provision for decommissioning costs

At March 31, 2014, the Company had crude oil and oil products of US\$ 3,279 pledged as security for the Terms of Financial Commitment (TFC), signed by Petrobras and Petros in 2008.

Petróleo Brasileiro S.A. – Petrobras

Notes to the financial statements

(Expressed in millions of US Dollars, unless otherwise indicated)

In the first quarter of 2014 the Company's contribution to the defined contribution portion of the Petros Plan 2 was US\$ 83.

20.1. Profit sharing

Profit sharing benefit complies with Brazilian legal requirements and those of the Brazilian Department of Coordination and Governance of State-Owned Enterprises (DEST), of the Ministry of Planning, Budget and Management, and of the Ministry of Mines and Energy, and is computed based on the consolidated net income attributable to the shareholders of Petrobras.

In March, 2014, the Company and the labor unions reached an agreement to a new profit sharing regulation, concluding negotiations started during the 2013/2014 Collective Bargaining Agreement.

Pursuant to the amended rules, profit sharing benefits will be computed based on the results of six corporate indicators, for which annual goals are defined by Management.

The results of the six individual goals are factored into a consolidated result that will determine the percentage of the profit to be distributed as profit sharing benefit to employees.

The amended rules were applied to determine profit sharing benefit for the year ended December 31, 2013, which was paid on May 2, 2014, resulting in an additional profit sharing expense of US\$ 164, recognized in other operating expenses.

The consolidated result of the corporate indicators was 100.85% for 2013, resulting in a 6.25% distribution percentage (which was applied to the amounts in *reais*).

For the first quarter of 2014 the consolidated result of the corporate indicators was 99.43%, resulting in a 6.1875% distribution percentage (which was applied to the amounts in *reais*). A profit sharing expense of US\$ 142 was recognized in profit or loss.

The corporate indicators include limit levels to crude oil and oil products spill, lifting cost excluding production taxes in Brazil, crude oil and NGL production in Brazil, feedstock processed (excluding NGL) in Brazil, vessel operating efficiency, percentage of compliance with natural gas delivery schedule.

20.2. Voluntary Separation Incentive Plan

In January 2014, the Company started a Voluntary Separation Incentive Plan (PIDV), which was developed within the context of its Productivity Optimization Plan (POP) to contribute to

the achievement of the goals set out in the Business and Management Plan.

A total of 8,298 employees enrolled during the enrollment period, which finished on March 31, 2014. Those employees were divided into five categories, which determine when their separation will take place, between 2014 and 2017 based on a knowledge management plan or a management succession plan related to the business processes and activities that such employees were engaged.

Employees who enrolled in the PIDV were aged 55 or over and had to be retired by the Brazilian Institute of Social Security (INSS) before the end of the enrollment period (March 31, 2014). Employees who withdraw any time before separation are not entitled to the separation incentives.

The plan determines two types of separation incentives: fixed additional payments of ten month-wages, limited to a floor of US\$ 80 thousand and a cap of US\$ 265 thousand; variable additional payments between 15% and 25% of a month-wage for every month worked after the seventh working month, to the date of separation.

Petróleo Brasileiro S.A. – Petrobras

Notes to the financial statements

(Expressed in millions of US Dollars, unless otherwise indicated)

On March 31, 2014 the Company recognized as other operating expenses in profit or loss a provision for the expected payments in the amount of US\$ 1,014, with a current liability of US\$ 575 and a noncurrent liability of US\$ 484 recognized in the statement of financial position and a cumulative translation adjustment effect of US\$ 45 recognized in other comprehensive income in the shareholders' equity.

The amounts are subject to changes resulting from withdrawal of employees, Collective Bargaining Agreements, which might increase wages before separation, inflation-indexation of the floor and the cap based on the Brazilian Consumer Price Index (IPCA), as well variable additional incentives earned by employees.

21. Shareholders' equity

21.1. Share capital

At March 31, 2014, subscribed and fully paid share capital was US\$ 107,371, represented by 7,442,454,142 outstanding common shares and 5,602,042,788 outstanding preferred shares, all of which are registered, book-entry shares with no par value.

Capital increase with reserves in 2014

The Shareholders' Extraordinary General Meeting, held jointly with the Annual General Meeting on April 2, 2014 approved a capital increase through capitalization of a portion of the profit reserve relating to tax incentives, established in 2013 in the amount of US\$ 9. Share capital will increase from US\$ 107,371, to US\$ 107.380.

21.2. Dividends

Dividends – 2013

The Annual General Meeting on April 2, 2014 approved a dividend distribution in the form of interest on capital of US\$ 3,970, which corresponds to US\$ 0.2227 per common shares and US\$ 0.4129 per preferred share (translated at the closing date exchange rate for 2013). These dividends were paid on April 25, 2014 and the record date was April 2, 2014. Amounts paid were restated and indexed based on the SELIC rate from December 31, 2013 to the date of payment.

21.3. Earnings per Share

Petróleo Brasileiro S.A. – Petrobras

Notes to the financial statements

*(Expressed in millions of US Dollars, unless otherwise indicated)***28. Provisions for legal proceedings, contingent liabilities and contingent assets**

Provisions for legal proceedings, contingent liabilities and judicial deposits are set out following.

28.1. Provisions for legal proceedings

The Company has recognized provisions for the best estimate of the costs of proceedings for which it is probable that an outflow of resources embodying economic benefits will be required and that can be reasonably estimated. These proceedings are mainly comprised of labor claims, losses and damages resulting from the cancellation of an assignment of excise tax (IPI) credits to a third party and fishermen seeking indemnification from the Company for a January 2000 oil spill in the State of Rio de Janeiro.

The Company has provisions for legal proceedings, in the amounts set out below:

Non-current liabilities	03.31.2014	12.31.2013
Labor claims	606	569
Tax claims	103	94
Civil claims	603	545
Environmental Claims	41	26
Other claims	9	12
	1,362	1,246

	03.31.2014	12.31.2013
Opening Balance	1,246	1,265
New provisions, net	164	415
Payments made	(104)	(249)
Accruals and charges	11	77
Others	(1)	(57)
Cumulative translation adjustment	46	(205)
Closing Balance	1,362	1,246

28.2. Judicial Deposits

Judicial deposits made in connection with legal proceedings and guarantees are set out in the table below according to the nature of the corresponding lawsuits:

Non-current assets	03.31.2014	12.31.2013
Labor	940	882
Tax	1,072	1,002
Civil	592	529
Environmental	88	83
Others	7	8
	2,699	2,504

Petróleo Brasileiro S.A. – Petrobras

Notes to the financial statements

(Expressed in millions of US Dollars, unless otherwise indicated)

28.3. Contingent Liabilities

Contingent liabilities for which the likelihood of loss is considered to be possible are not recognized in the financial statements but are disclosed unless the expected outflow of resources embodying economic benefits is considered remote.

The estimated contingent liabilities for legal proceedings for which the likelihood of loss is considered to be possible are set out in the table below.

Nature	Estimate
Tax	33,750
Civil - General	3,053
Labor	3,565
Civil - Environmental	1,501
Others	3
	41,872

A brief description of the nature of the main contingent liabilities (tax, civil, environmental and labor) is set out in the following tables.

Petróleo Brasileiro S.A. – Petrobras

Notes to the financial statements

*(Expressed in millions of US Dollars, unless otherwise indicated)***a) Tax Proceedings**

Description of tax proceedings	Estimate
Plaintiff: Secretariat of the Federal Revenue of Brazil	
1) Deduction of expenses from the renegotiation of the Petros Plan from the calculation basis of income tax (IRPJ) and social contribution (CSLL) and penalty charged. Current status: Awaiting the hearing of an appeal at the administrative level.	2,067
2) Profits of subsidiaries and associates domiciled abroad in the years of 2005, 2006, 2007, 2008 and 2009 not included in Petrobras' calculation basis of IRPJ and CSLL. Current status: Awaiting the hearing of an appeal at the administrative level.	2,124
3) Deduction from the calculation basis of IRPJ and CSLL of expenses incurred in 2007 and 2008 related to employee benefits and Petros. Current status: This claim is being disputed at the administrative level, involving three administrative proceedings.	828
4) Non-payment of withhold income tax (IRRF) and Contribution of Intervention in the Economic Domain (CIDE) over remittances for payment of platforms' affreightment. Current status: This claim involves lawsuits in different administrative and judicial stages, in which the Company is taking legal actions to ensure its rights.	6,053
5) Non-payment of CIDE on imports of naphtha. Current status: This claim is being discussed at the administrative level.	1,619
6) Non-payment of CIDE in the period from March 2002 until October 2003 in transactions with distributors and service stations that were holders of judicial injunctions that determined the sale of fuel without the gross-up of such tax. Current status: This claim is in judicial stage, in which the Company is taking legal actions to ensure its rights.	726
7) Non-payment of tax on financial operations (IOF) over intercompany loans with, PifCo, Brasoil and BOC in 2007, 2008 and 2009. Current status: Awaiting the hearing of an appeal at the administrative level.	2,570
8) Non-payment of withhold income tax (IRRF) over remittances abroad for payment of crude oil imports. Current status: This claim involves lawsuits in different administrative and judicial stages, in which the Company is taking legal actions to ensure its rights.	1,812
9) Tax credits recovery denied due to failure to comply with an accessory obligation. Current status: Awaiting the hearing of an appeal at the administrative level.	1,591
Plaintiff: State Finance Department of AM, BA, DF, ES, PA, PE and RJ	
10) Non-payment of ICMS on crude oil and natural gas sales due to differences in measuring beginning and ending inventory.	

Current status: This claim involves lawsuits in different administrative levels, in which the Company is taking legal actions to ensure its rights. 1,650

Plaintiff: State Finance Department of Rio de Janeiro

11) ICMS on exit operations of liquid natural gas (LNG) without issuance of tax document by the main establishment.

Current status: This claim involves lawsuits in administrative stages, in which the Company is taking legal actions to ensure its rights. 1,525

12) Dispute over ICMS tax levy in operations of sale of jet fuel, as Decree 36,454/2004 was declared as unconstitutional.

Current status: This claim involves lawsuits in administrative and judicial stages, in which the Company is taking legal actions to ensure its rights. 849

Plaintiff: State Finance Department of São Paulo

13) Dispute over ICMS tax levy on the importing of a drilling rig – temporary admission in São Paulo and clearance in Rio de Janeiro and a fine for breach of accessory obligations.

Current status: This claim involves lawsuits in different administrative and judicial stages, in which the Company is taking legal actions to ensure its rights. 2,025

Petróleo Brasileiro S.A. – Petrobras

Notes to the financial statements

*(Expressed in millions of US Dollars, unless otherwise indicated)***Plaintiff: Municipal governments of Anchieta, Aracruz, Guarapari, Itapemirim, Marataízes, Linhares, Vila Velha, Vitória and Maragogipe.**

14) Failure to withhold and collect tax on services provided offshore (ISSQN) in some municipalities located in the State of Espírito Santo, despite Petrobras having made the withholding and payment of these taxes to the municipalities where the respective service providers are established, in accordance with Complementary Law No. 116/03.

Current status: This claim involves lawsuits in different administrative and judicial stages, in which the Company is taking legal actions to ensure its rights. 1,071

Plaintiff: State Finance Departments of Rio de Janeiro and Sergipe

15) Use of ICMS tax credits on the purchase of drilling rig bits and chemical products used in formulating drilling fluid.

Current status: This claim involves lawsuits in different judicial stages, in which the Company is taking legal actions to ensure its rights. 441

Plaintiff: Federal Revenue of Brazil

16) Non-payment of social security contributions on payment of allowances and contingent bonus.

Current status: This claim involves lawsuits in administrative stages, in which the Company is taking legal actions to ensure its rights. 1,035

Plaintiff : State Finance Department of SP, RS and SC

17) Three states challenge the payment of VAT (ICMS) on imports of natural gas.

Current status: This claim involves lawsuits in different administrative and judicial stages, as well as three civil lawsuits in the Supreme Court. 912

18) Other tax proceedings 4,852

Total tax proceedings 33,750

b) Civil Proceedings – General**Description of civil proceedings****Estimate****Plaintiff: Agência Nacional de Petróleo, Gás Natural e Biocombustíveis - ANP**

1) Legal and administrative disputes on differences in the payment of special participation charge and royalties in several fields. In addition, ANP is claiming fines for alleged non-compliance with minimum exploratory programs and alleged irregularities in platform measurement systems.

Current status: This claim involves proceedings in different administrative and judicial stages, in which the Company is 1,628

taking legal actions to ensure its rights.

2) Other civil proceedings	1,425
Total for civil proceedings	3,053

c) Environmental Proceedings – General

Description of environmental proceedings	Estimate
Plaintiff: Ministério Público Federal, Ministério Público Estadual do Paraná, AMAR - Associação de Defesa do Meio Ambiente de Araucária e IAP - Instituto Ambiental do Paraná	
1) Legal proceeding related to specific performance obligations, indemnification and compensation for damages related to an environmental accident that occurred in the State of Paraná on July 16, 2000. Current status: The court partially ruled for the plaintiff, however both parties (the plaintiff and the Company) filed an appeal.	805
2) Other environmental proceedings	696
Total for environmental proceedings	1,501

Petróleo Brasileiro S.A. – Petrobras

Notes to the financial statements

(Expressed in millions of US Dollars, unless otherwise indicated)

d) Labor Proceedings – General

Description of labor proceedings	Estimate
Plaintiff : Sindipetro do Norte Fluminense and Sindipetro da Bahia	
1) Class Actions regarding wage underpayments to certain of our employees due to alleged changes in the methodology in which overtime is factored into the calculation of paid weekly rest, allegedly computed based on ratios that are higher than those established by Law No. 605/49. Current status: The proceedings were partially judged by the ordinary instances of the Labor Court. The Company has appealed this decision and awaits judgment by the Superior Labor Court.	476
2) Other labor proceedings	3,089
Total for labor proceedings	3,565

28.4. Contingent assets

28.4.1. Legal proceeding in the United States - P-19 and P-31

In 2002, Braspetro Oil Service Company (Brasoil) and Petrobras obtained a favorable decision in related lawsuits filed before U.S. courts by the insurance companies United States Fidelity & Guaranty Company and American Home Assurance Company in which they were seeking to obtain (since 1997 and regarding Brasoil) a judicial order exempting them from their payment obligations under the performance bond related to platforms P- 19 and P-31, and seeking reimbursement from Petrobras for any amounts for which they could ultimately be held liable in the context of the execution proceedings of such performance bond.

On July 21, 2006, the U.S. courts issued an executive decision, conditioning the payment of the amounts owed to Brasoil on a definitive dismissal of the legal proceedings involving identical claims that are currently in course before Brazilian courts.

Brasoil, Petrobras and the insurance companies already pleaded the dismissal of the Brazilian legal proceedings but their definitive dismissal is awaiting the hearing of an appeal filed by the platforms’ shipbuilding company before the Superior Court for Non-Constitutional Matters

(STJ).

The Company is intensifying actions taken, in an attempt to settle this lawsuit. The amount of damages claimed is approximately US\$ 245.

29. Collateral in connection with concession agreements for petroleum exploration

The Company has granted collateral to the Agência Nacional de Petróleo, Gás Natural e Biocombustíveis (ANP) in connection with the performance of the Minimum Exploration Programs established in the concession agreements for petroleum exploration areas in the total amount of US\$ 2,920, of which US\$ 2,586 are still in force, net of commitments that have been undertaken. The collateral comprises crude oil from previously identified producing fields, pledged as security, amounting to US\$ 2,008 and bank guarantees in the amount of US\$ 578.

30. Risk management

The Company is exposed to a variety of risks arising from its operations, such as price risk (related to crude oil and oil products prices), foreign exchange rates risk, interest rates risk, credit risk and liquidity risk and manages risks through a corporate policy established by its officers.

The objective of the overall risk management policy of the company is to support the achievement of its strategic goals through an adequate resource allocation and an appropriate balance between growth, return on investments and risk exposure level, which can arise from its normal activities or from the context within which the Company operates.

Petróleo Brasileiro S.A. – Petrobras

30.1. Risk management of price risk (related to crude oil and oil products prices)

Petrobras does not use derivative instruments to hedge exposures to commodity price cycles related to products purchased and sold to fulfill operational needs. Derivatives are used as hedging instruments to manage the price risk of certain transactions carried out abroad, which are usually short-term transactions similar to commercial transactions.

A sensitivity analysis of crude oil and oil products derivatives including the fair value as of March 31, 2014 and two stressed scenarios, considering price changes of 25% and 50% on the risk variable, respectively, comparatively to March 31, 2014 is set out following:

Petróleo Brasileiro S.A. – Petrobras

Notes to the financial statements

(Expressed in millions of US Dollars, unless otherwise indicated)

		Probable Scenario		Stressed Scenario		Stressed Scenario	
		as of March 31,					
		2014		(Δ of 25%)		(Δ of 50%)	
		Asset	Derivative	Asset	Derivative	Asset	Derivative
Commodities and Freight	Risk						
Crude oil (WTI)	Derivative (decrease) vs. Inventory (increase)	18	(2)	(106)	108	(231)	218
Distillate products	Derivative (decrease) vs. Inventory (increase)	1	–	(47)	45	(95)	90
Fuel oil	Derivative (increase) vs. Inventory (decrease)	(5)	2	(67)	61	(128)	121
Freight	Derivative (increase) vs. Inventory (decrease)	–	–	–	–	(1)	1
Ethanol	Derivative (increase) vs. Inventory (decrease)	–	–	–	–	(1)	1

30.2. Foreign exchange risk management

Petrobras seeks to identify and manage foreign exchange rate risks based on an integrated analysis of natural hedges, to benefit from the correlation between income and expenses. Short-term risk management involves choosing the currency in which to hold cash, such as the Brazilian Real, U.S. dollar or other currency. The risk management strategy involves the use of derivative instruments to hedge certain liabilities, minimizing foreign exchange rate risk exposure.

a) Cash Flow Hedge involving the Company's highly probable future exports

Effective mid-May 2013, the Company designated hedging relationships to account for the effects of the existing natural hedge between a portion of its long-term debt obligations denominated in U.S. dollars and a portion of its future export revenues in U.S. dollars, relative to foreign currency rates risk (spot rates).

Individual hedging relationships were designated in a one-to-one proportion, meaning that a portion of the total monthly exports will be the hedged transaction of an individual hedging relationship, hedged by a portion of the company's long-term debt (which has an average maturity of approximately 6.5 years).

The principal amounts, fair value as of March 31, 2014, and a schedule of the expected reclassification to profit or loss of the balance of losses recognized in other comprehensive income (shareholders' equity) are set out below:

Hedging Instrument	Hedged Transactions	Nature of the Risk	Maturity Date	Principal Amount (US\$)	Carrying amount of the Hedging Instruments on March 31, 2014 (R\$)
Non-Derivative Financial Instruments	Portion of Highly Probable Future Monthly Export Revenues	Foreign Currency – Real vs U.S. Dollar Spot Rate	april 2014 to august 2021	46,913	106,164

Changes in the Principal Amount	US\$
Amounts designated in May 2013	43,859
New hedging instruments designated	11,962
Exports affecting profit or loss	(4,335)
Principal repayments / amortization	(4,574)
Amounts designated as of March 31, 2014	46,913

	2014	2015	2016	2017	2018	2019	2020	2021	Total
Expected reclassification	(418)	(602)	(735)	(779)	(628)	(568)	(61)	110	(3,681)

Petróleo Brasileiro S.A. – Petrobras

Notes to the financial statements

*(Expressed in millions of US Dollars, unless otherwise indicated)***b) Cash flow hedges involving swap contracts – Yen x Dollar**

The Company has a cross currency swap to fix in U.S. dollars the payments related to bonds denominated in Japanese yen and does not intend to settle these contracts before the maturity. The relationship between the derivative and the bonds was designated for cash flow hedge accounting.

c) Sensitivity analysis for foreign exchange risk on financial instruments

A sensitivity analysis is set out following, for which the probable scenario, computed based on external data along with the stressed scenarios (a 25% and a 50% change in the foreign exchange rates), except for assets and liabilities of foreign subsidiaries, when transacted in a currency equivalent to their respective functional currencies.

Financial Instruments	Exposure at 03.31.2014	Risk	Probable Scenario*	Stressed	Stressed
				Scenario (Δ of 25%)	Scenario (Δ of 50%)
Assets	2,899		175	725	1,449
Liabilities	(58,951)	Dollar	(3,569)	(14,738)	(29,475)
Cash flow hedge on exports	46,913		2,840	11,728	23,456
Forward Derivative (Net short Position)	110		7	27	55
	(9,029)		(547)	(2,258)	(4,515)
Liabilities	(858)	Yen	17	(214)	(429)
Cross-currency Swap	340		(19)	119	356
	(518)		(2)	(95)	(73)
Assets	7,681	Euro	(154)	1,920	3,840
Liabilities	(18,104)		363	(4,526)	(9,052)
	(10,423)		209	(2,606)	(5,212)
Assets	1,910	Pound	(20)	478	955
Liabilities	(4,753)	Sterling	49	(1,188)	(2,376)
	(2,843)		29	(710)	(1,421)
Assets	378	Peso	(26)	95	189
Liabilities	(752)		51	(188)	(376)
	(374)		25	(93)	(187)
	(23,187)		(286)	(5,762)	(11,408)

(*) The probable scenario was computed based on the following changes: Real x Dollar – a 1.60% depreciation of the Real relative to the Dollar / Yen x Dollar – a 0.91% appreciation of the Yen / Dollar x Euro: a 3.43% depreciation of the Euro / Dollar x Pound Sterling: a 2.61% depreciation of the Pound Sterling / Dollar x Peso: a 3.83% depreciation of the Peso. The data were obtained from the Focus Report of the Central Bank of Brazil and from Bloomberg.

The impact of foreign exchange depreciation / appreciation does not jeopardize the liquidity of the Company in the short term due to the balance between liabilities, assets, revenues and future commitments in foreign currency, since most of its debt mature in the long term.

30.3. Interest rate risk management

The Company considers that exposure to interest rate risk does not cause a significant impact and therefore, preferably does not use derivative financial instruments to manage interest rate risk, except for specific situations encountered by certain companies of the Petrobras group, such as interest rate swaps in order to exchange a floating interest rate for a fixed rate, aiming at eliminating the mismatch between the cash flows of assets and liabilities from investment projects.

The Company does not intend to settle the transaction before the maturity date, and therefore, adopted hedge accounting for the relationship between the finance debt and the derivative, for which a sensitivity analysis is set out following:

Petróleo Brasileiro S.A. – Petrobras

Notes to the financial statements

(Expressed in millions of US Dollars, unless otherwise indicated)

			Stressed	Stressed
		Probable	Scenario	Scenario
Interest Rate Derivatives	Risk	Scenario (*)	(Δ de 25%)	(Δ de 50%)
HEDGE (Derivative - Swap)	LIBOR decline	2	(2)	(4)
Debt	LIBOR increase	(2)	2	4

(*) The probable scenario was obtained based on LIBOR futures.

30.4. Credit risk

Petrobras is exposed to the credit risk arising from commercial transactions and from cash management, related to financial institutions and to credit exposure to customers. Credit risk is the risk that a customer or financial institution will fail to pay amounts due, relating to outstanding receivables or to financial investments, guarantees or deposits with financial institutions.

Credit risk management in Petrobras aims at reconciling the need for minimizing risk and maximizing the result of commercial and financial transactions, through efficient credit analysis, granting and management based on quantitative and qualitative parameters that are appropriate for each of the market segments in which it operates.

The commercial credit portfolio is much diversified between clients from the domestic market and from foreign markets and credit granted to financial institutions is spread among “Investment Grade” international banks rated by the international rating agencies and highly-rated Brazilian banks.

30.5. Liquidity risk

Liquidity risk is represented by the possibility of a shortage of cash or another financial assets in order to settle its obligations on the established dates and is managed by the Company based on policies such as: Centralized cash management, in order to optimize the level of cash and cash equivalents held and reduce working capital needed; a robust minimum cash level to ensure that the need of cash for investments and short-term obligations is met even in adverse market conditions; increasing the number of investors in the domestic and

international markets through funding opportunities, developing a strong presence in the international capital markets and searching for new funding sources, including new markets and financial products.

A maturity analysis of the long-term debt, including face value and interest payments is set out following:

Maturity							Balance	Balance at
2014	2015	2016	2017	2018	2019	2020 and thereafter	at March 31, 2014	Balance at December 31, 2013
12,370	12,738	19,076	17,671	20,423	25,202	82,012	189,492	155,174

31. Fair value of financial assets and liabilities

The hierarchy of recurring fair value measurements of financial assets and liabilities recognized, is set out below:

Petróleo Brasileiro S.A. – Petrobras

Notes to the financial statements

(Expressed in millions of US Dollars, unless otherwise indicated)

	Fair value measured based on			Total fair value recorded
	Level I	Level II	Level III	
Assets				
Marketable securities	4,436	–	–	4,436
Commodity derivatives	13.3	–	–	13.3
Foreign currency derivatives	–	23	–	23
Balance at March 31, 2014	4,449.3	23	–	4,472.3
Balance at December 31, 2013	3,895	10	–	3,905
Liabilities				
Interest derivatives	–	(18.4)	–	(18.4)
Balance at March 31, 2014	–	(18.4)	–	(18.4)
Balance at December 31, 2013	(20)	(20.6)	–	(40.6)

The estimated fair value for the Company's long term debt as of March 31, 2014, computed based on the prevailing market rates for operations that have similar nature, maturity and risk to the contracts recognized, is set out in note 15.

32. Subsequent events**Disposal of interest in UTE Norte Fluminense**

On April 11, 2014 Petrobras entered into an agreement with Électricité de France (EDF) group to dispose of its 10% interest in Usina Termelétrica Norte Fluminense (NTF).

This transaction is part of a restructuring program for the Gas & Power segment portfolio, in accordance with the 2014-2018 Business and Management Plan.

33. Information Related to Guaranteed Securities Issued by Subsidiaries**33.1. Petrobras Global Finance B.V. (PGF)**

Petróleo Brasileiro S.A. - Petrobras has fully and unconditionally guaranteed the debt securities issued by Petrobras Global Finance B.V. (PGF), a 100-percent-owned finance subsidiary of Petrobras. There are no significant restrictions on the ability of Petrobras to obtain funds from PGF.

33.2. Petrobras International Finance Company – PifCo

PGF acquired all of the outstanding shares of Petrobras International Finance Company S.A. (PifCo) on February 12, 2014. Petróleo Brasileiro S.A. - Petrobras has fully and unconditionally guaranteed the debt securities issued by PifCo, a 100-percent-owned finance subsidiary of Petrobras. There are no significant restrictions on the ability of Petrobras to obtain funds from PifCo.
